(Clerk's Note: A PowerPoint was shown at this time.) Bridget Kean, Senior Planner, stated that she had been sworn in and added that the official file was submitted to the City Clerk's Office 5 days before the meeting and requested that it be entered into the record. She explained that the request was to amend the Tradition MPUD Zoning Regulation Book and Concept Plan for property identified as parcels 17, 17A, and 18 on the Tradition MPUD Concept Plan (14th Amendment) as the City received applications for site plan approval and subdivision plat approval for Parcels 17, 17A, and 18 to allow for 520 multi-family units on Parcels 17 and 17A and 220 single-family residential lots on Parcel 18. She clarified that to move forward the MPUD had to be amended since the applicant was proposing different development standards. She showed a location map, an aerial, the Land Use Map and the Tradition MPUD subject area map. She stated that the amendment was being proposed because there was an incompatibility between the land use and the zoning for Parcels 17 and 17a, the applicant also wanted to revise the setback requirements for single-family residential lots and paired villas for Parcels 17, 17a & 18 and wanted to establish the setback requirements for multi-family development for Parcels 17 & 17a. She clarified that the applicant changed the building height to 47' 6" for two buildings in a specific location. She indicated that the multi-family project, which was called Slopeside, was proposed to have vertical attached buildings as well as townhome rentals and single family detached rental cottages; the vertical attached buildings would have 20 feet separation, the townhomes would have 15 feet separation and the detached cottages would have 10 feet separation. She stated that there would be more parking for the multi-family development. She showed the Tradition MPUD Concept Plan and the Slopeside Site Plan. He informed the City Council that they were proposing two 4-story buildings that would have luxury amenities & design. He compared the plans for Parcels 17, 17a and 18. He showed different viewpoints of the proposed apartment buildings. He showed pictures of typical 3-story apartment buildings along with 4-story apartment buildings.

Martin Burn spoke in support of the request since he had been educated on the project.

Ria Muriello spoke in opposition of the request and felt that detailed plans should be in place before an approval.

Attorney Hertz agreed and added that the MPUD language was modified to restrict it to two buildings on Parcels 17 and 17a and they cannot exceed four stories. Mayor Martin stated that healthcare issues were nationwide and added that there would be appropriate emergency response systems in place as the Fire District would decide what is needed for the area but they were in the planning phase for three new stations in the County including one in Tradition, and there would also be a new Police District for Tradition. She stated that there was a process in place to ensure questions/concerns are met and she thanked staff & the applicant.

Mayor Martin voiced that there were two hearings for each of the impact fees and felt that the City Council should follow the timelines that were agreed to since this item needed to be addressed. Councilman Pickett asked for clarification on lowering the extraordinary circumstance fees, to which Deputy City Attorney Carland replied that the City Council should consult with Mr. Griffin as he provided the most justifiable and maximum allowable fees under the statute but felt that lowering the fee would not jeopardize the study; it may also require a substantial change in the ordinance.
