SECTION III **DESCRIPTION OF SERVICES TO BE PROVIDED**

The specific work that the Contractor has agreed to perform pursuant to the E-Bid Specifications #20240061, and all agenda, are made part of this Contract for Installation & Maintenance of Traffic Signals & Street Lights for the City of Port Saint Lucie on an as needed basis.

Locations: Throughout the City of Port Saint Lucie, Florida.

Scope of Work: Contractor shall provide all materials, equipment and services necessary to provide City-wide signalization services including emergency on-call response, new construction, rehabilitations, selected maintenance of traffic signals, traffic monitoring sites and streetlight facilities on all City and State roads within the City of Port St. Lucie.

Contractor shall furnish and install new equipment related to traffic signals, streetlights, pedestrian lighting and associated traffic control facilities (devices) such as but not limited to school zone flashers, flashing beacons, traffic monitoring devices, interconnect (fiber optics) and associated improvements.

Contractor shall assist with the emergency repair and maintenance of existing traffic control facilities and street lighting.

Work covered under the contract is intended to include repair and maintenance necessary because of normal wear and tear and minor incidental damage.

In the event of sudden, and unexpected damage, such as a catastrophic loss due to knockdowns, floods, hurricanes, severe and prolonged lightening discharge, fires, riots, civil disturbances, wars, etc., necessitating extensive and major repairs beyond and in excess of those normally expected, the Contractor shall only be required to repair or replace the equipment.

It shall be the responsibility of the Contractor to call to the attention of the City those instances where extensive repairs are necessary and where it is economically advantageous to the City to replace equipment rather than repair it.

The specific work which the Contractor has agreed to perform shall be governed by the following standards:

Installation & Maintenance of Traffic Signals & Street Lights

- Florida Department of Transportation (FDOT) Division II and III "Standard Specifications for Road and Bridge Construction", latest edition
- "Manual on Uniform Traffic Control Devices for Streets and Highways" (MUTCD) latest edition

All equipment operated at night shall comply with the noise levels established by the City of Port St. Lucie noise ordinance. Any additional costs associated with work outside of the hours of work allowed shall be borne by the Contractor. This shall include, but not be limited to costs of inspection, testing, police assistance, and construction administration.

SECTION IV **TIME OF PERFORMANCE**

The Contract Period start date will be _____ and will terminate three (3) years thereafter on _____. The Contractor will be required to commence work under this Contract within ten (10) calendar days after the start date identified in this Contract. Written requests shall be submitted to the Project Manager for consideration of extension of completion time due to strikes, unavailable materials, or other similar causes over which the Contractor feels he has no control. Requests for time extensions shall be submitted immediately, but in no event, more than two (2) weeks upon occurrence of conditions, which, in the opinion of the Contractor, warrant such an extension, with reasons clearly stated and a detailed explanation given as to why the delays are considered to be beyond the Contractor's control.

SECTION V **RENEWAL OPTION**

The initial term of the contract is for three (3) years from the execution date of the contract. PSL shall have one (1), twenty-four (24) month option(s) to renew, which options shall be exercisable at the sole discretion of PSL. Progress Payments – N/A.

Acceptance and Final Payment – Upon receipt of written notice that the work is ready for final inspection and acceptance, the City will promptly make such inspection. When City finds the work acceptable under the terms of the Contract and the Contract is fully performed, the entire balance will be due the Contractor and will be paid to the Contractor within twenty (20) business days. Such final payment of the Contractor shall be subject to the covenants in the Contract's Standard Specifications and any liquidated damages will be assessed against the Contractor at that time.

Before issuance of final payment, the Contractor shall submit evidence that all payrolls, material bills and other indebtedness connected with the work have been satisfied and paid in full. Final Release of Liens from all contractors, subcontractors, suppliers for materials, and sub-subcontractors are to be attached to the final invoice. In lieu of Final Release, the Contractor may submit a Consent of Surety along with the Final Invoice. All manufacturer's warranty documents must be provided in the format requested by the City prior to final payment.

Invoices for services shall be submitted once per month, by the tenth (10th) day of each month, and payments shall be made within twenty (20) business days, unless Contractor has chosen to take advantage of the Purchasing Card Program, which guarantees payment within several days. No payment for projects involving improvements to real property shall be due until Contractor delivers to City a complete release of all claims arising out of the Contract or receipts in full in lieu thereof, and an affidavit on his personal knowledge that the releases and receipts include labor and materials for which a lien could be filed.

All invoices and correspondence relative to this Contract must contain the City's Contract number and Purchase Order number, detail of items with prices that correspond to the Contract, a unique invoice number and partial and final release of liens.

All invoices are to be sent to the Project Manager.

The Contractor shall not be paid additional compensation for any loss or damage arising out of the nature of the work, from the action of the elements, or from any delay or unforeseen obstruction or difficulties encountered in the performance of the work, or for any expenses incurred by or in consequence of the suspension or discontinuance of the work.

In the event the City deems it expedient to perform work which has not been done by the Contractor as required by these Specifications, or to correct work which has been improperly and/or inadequately performed by the Contractor as required in these Specifications, all expenses thus incurred by the City, at the City's option, will be invoiced to the Contractor and/or deducted from payments due to the Contractor. Deductions thus made will not excuse the Contractor from other penalties and conditions contained in the Contract.

All payments not made within the time specified by this section shall bear interest from thirty (30) calendar days after the due date at the rate of one (1) percent per month on the unpaid balance.

SECTION VII WORK CHANGES

The City reserves the right to order work changes in the nature of additions, deletions or modifications without invalidating the Contract, and agrees to make corresponding adjustments in the Contract price and time for completion. Any and all changes must be authorized by a written change order signed by the City's Purchasing Agent or his designee as representing the City. Work shall be changed and the Contract price and completion time shall be modified only as set out in the written change order. Any adjustment in the

Contract price resulting in a credit or a charge to the City shall be determined by mutual agreement of the parties before starting the work involved in the change. Any dispute concerning work changes which is not resolved by mutual agreement shall be decided by the City Manager who shall reduce the decision to writing. The decision of the City Manager shall be final and conclusive.

This indemnification shall survive the termination of this Contract.

SECTION X

The requirements contained herein, as well as City's review or acceptance of insurance maintained by Contractor are not intended to and shall not in any manner limit or qualify the liabilities and obligations assumed by Contractor under the Contract.

The parties agree and recognize that it is not the intent of the City of Port St. Lucie that any insurance policy/coverage that it may obtain pursuant to any provision of this Contract will provide insurance coverage to any entity, corporation, business, person, or organization, other than the City of Port St. Lucie and the City shall not be obligated to provide any insurance coverage other than for the City of Port St. Lucie or extend its sovereign immunity pursuant to Section 768.28, Florida Statutes, under its self-insured program. This amended requirement may be satisfied by way of endorsement to the Commercial General Liability, or separate Business Auto Coverage form. Certificate holder must be listed as additional insured. A waiver of subrogation shall be provided. Coverage shall apply on a primary non-contributory basis.
5. Professional Liability Insurance: Contractor shall agree to maintain Professional Liability, or equivalent Errors & Omissions Liability, at a limit of liability not less than \$2,000,000 Per Occurrence. When a self-insured retention (SIR) or deductible exceeds \$10,000, the City reserves the right, but is not obligated, to review and request a copy of Contractor's most recent annual report or audited financial statement. For policies written on a "Claims-Made" basis, Contractor warrants that the retroactive date equals or precedes the effective date of this Contract. In the event the policy is canceled, non-renewed, switched to an Occurrence Form, retroactive date advanced, or any other event triggering the right to purchase a Supplemental Extended Reporting Period (SERP) during the life of this Contract, Contractor shall agree to purchase a SERP with a minimum reporting period not less than four (4) years. If policy contains an exclusion for dishonest or criminal acts, defense coverage for the same shall be provided.
6. Installation Floater Insurance: Contractor shall purchase and maintain Installation Floater insurance in an amount equal to 100% of the completed value of the project (contractor's labor, equipment, materials, or fixtures to be installed, in-transit, or stored off-site during the performance of the

contract) including any amendments thereto (without coinsurance). The Installation Floater shall provide property damage coverage for any building, structure, machinery or equipment damaged, impaired, broken, or destroyed during the performance of the work, including during transit, installation, and testing at the work site. Coverage shall be written on an all risk, replacement cost basis and shall include coverage for fire, lightning, windstorm/and hail, theft, flood and earth movement as well as coverage for losses that may occur during equipment testing. The policy shall include coverage for pollutant cleanup, debris removal, demolition, water damage, backup of sewer and drains, installation/testing of traffic signals and signs. Policy shall be maintained until whichever of the following shall first occur: (1) final payment has been made; or, (2) until no person or entity, other than the City of Port St. Lucie, has an insurable interest in the property required to be covered. Policy shall be endorsed such that the insurance shall not be canceled or lapse because of any partial use or occupancy by the City of Port St. Lucie. The Installation Floater shall provide coverage from the time the equipment/material becomes the responsibility of the Contractor and shall continue without interruption during the installation, including any time during which the equipment/material is being transported to the installation site, or awaiting installation, whether on or off site. Contractor is responsible for the payment of all deductibles under the Installation Floater policy. The Installation Floater coverage shall include a waiver of subrogation rights endorsement in favor of the City.

The "ALL RISK" Installation Floater Insurance must also cover soft costs, including additional advertising/promotional, additional license and permit fees, additional legal/accounting fees, insurance premiums including installation floater, and architects' and engineers' fees that may be necessary to provide plans and specifications and supervision of work for the repair and/or replacement of property damage caused by a covered peril.

This policy must include insurance for the City of Port St. Lucie, Contractor, Subcontractors, Architect/Engineer and Consultants for their interest in covered property. The City's policy will not provide coverage related to this project.

The Contractor has the right to purchase coverage or self-insured any exposures not required by these specifications, but shall be held liable for all losses, deductibles, self-insurance for coverages not required.

The Contractor is responsible for all deductibles including those for windstorms.

7. Waiver of Subrogation: The Contractor shall agree by entering into this Contract to a Waiver of Subrogation for each required policy. When required by the insurer, or should a policy condition not permit an Insured to enter into a pre-loss contract to waive subrogation without an endorsement, then Contractor shall agree to notify the insurer and request the policy be endorsed with a Waiver of Transfer of Rights of Recovery Against Others, or its equivalent. This Waiver of Subrogation requirement shall not apply to any policy where a condition to the policy specifically prohibits such an endorsement, or voids coverage should Contractor enter into such a contract on a pre-loss basis.
8. Deductibles: All deductible amounts shall be paid for and be the responsibility of the Contractor for any and all claims under this Contract. Where an SIR or deductible exceeds \$5,000, the City of Port St. Lucie reserves the right, but is not obligated, to review and request a copy of the Contractor's most recent annual report or audited financial statement.

It shall be the responsibility of the Contractor to ensure that all independent contractors and/or subcontractors comply with the same insurance requirements as listed herein, including Products & Completed Operations coverage for a minimum of five (5) years from the date of possession by City or completion of Contract. It will be the responsibility of the Contractor to obtain Certificates of Insurance from all independent contractors and subcontractors listing the City as an Additional Insured, without the language, "when required by written contract." If Contractor, any independent contractor, and/or subcontractor maintain higher limits than the minimums shown above, the City requires and shall be entitled to coverage for the higher limits maintained by Contractor/independent contractor/subcontractor.

The Contractor may satisfy the minimum limits required above for either Commercial General Liability, Business Auto Liability, or Employers' Liability coverage under Umbrella or Excess Liability. The Umbrella or Excess Liability shall have an Aggregate limit not less than the highest "Each Occurrence" limit for either Commercial General Liability, Business Auto Liability, Professional Liability, Installation Floater Liability, or Employers' Liability. When required by the insurer, or when Umbrella or Excess Liability is written on Non-Follow Form, the City shall be endorsed as an "Additional Insured."

The City, by and through its Risk Management Department, reserves the right, but not obligation, to review, modify, reject, or accept any required policies of insurance including limits, coverages or endorsements, herein from time to time throughout the term of this Contract. All insurance carriers must have an AM Best rating of at least A:VII or better.

Payment & Performance Bonds: The Contractor shall furnish an acceptable recorded Performance and Payment Bond complying with the statutory requirements set forth in section 255.05, Florida Statutes, in the amount of one hundred (100%) percent of the Contract price. A fully authorize Surety, licensed by the State of Florida shall execute the Performance and Payment Bond. The Performance and Payment Bond shall remain in full force and effect for a minimum of one (1) year after the work has been completed and final acceptance of the work is issued by the City.

Should the Surety become irresponsible during the time the Contract is in force, the City may require additional and sufficient sureties and the Contractor shall furnish same to the satisfaction of the City within ten (10) days after written notice to do so. In default thereof, the Contract may be suspended as herein provided.

A failure on the part of the Contractor to execute the Contract and/or punctually deliver the required insurance, and other documentation may be cause for annulment of the award.

SECTION XII

The Contractor shall be responsible for all preparation of the site for Acts of God, including but not limited to: earthquake, flood, tropical storm, hurricane or other cataclysmic phenomenon of nature, rain, wind or other natural phenomenon of normal intensity, including extreme rainfall. No reparation shall be made to the Contractor for damages to the Work resulting from these Acts. The City is not responsible for any costs associated with pre or post preparations for any Acts of God.

Emergencies – In the event of emergencies affecting the safety of persons, the work, or property, at the site or adjacent thereto, the Contractor, or his designee, without special instruction or authorization from the City, is obligated to act to prevent threatened damage, injury, or loss. In the event such actions are taken, the Contractor shall promptly give to the City written notice and contact immediately by phone, of any significant changes in work or deviations from the Contract documents caused thereby, and if such action is deemed appropriate by the City, a written authorization signed by the City covering the approved changes and deviations will be issued.

Any such termination shall be accomplished by delivery in writing of a notice to Contractor.
