All Change Orders must be approved and signed by Management/Board President/Building Owner (whichever applies.)

This charge may be billed due to, but not limited to: site unavailability for commencement of the work due to vehicles encroaching on the work area, change of schedule by Owner/Authorized Agent without prior consent of contractor or repairs to work caused by trespassing. Atlantic Southern Paving will provide a schedule to be approved by Owner prior to any additional mobilizations
8. Atlantic Southern Paving & Sealcoating, LLC cannot guarantee 100% drainage in areas where the design grade is less than 1% fall.

19. **Asphalt Price Index:** Proposal is based on the current price of liquid asphalt. If there is a price increase in liquid asphalt, there will be additional charge for the difference.

## Paving Commercial | Owner Responsibility & Conditions

1. **Barricaded Parking Lot:** It is vital that all vehicles are removed from our area of work no later than 7:15 am, unless otherwise agreed. As you can imagine, our project costs are based on the property having all cars, people and

objects off the area of work. Tow Trucks need to be arranged 5 days prior to the start of any work and must be on call to remove cars from the scheduled work zone. If any cars are left on the area of work, we cannot be held responsible for any damage to the vehicles. ***There will be additional costs if we are unable to access the work area billed at a minimum of (\$5,000 for Paving)***

2. **Site Services:** The property is responsible to notify all landscapers and garbage companies to not show on the area of work the day we are performing work. In the event of a reschedule due to unforeseen conditions, you are required to let all service providers know about the change.
3. **Rain:** If it's raining the day of scheduled service, assume we aren't coming and we will contact you to reschedule as soon as possible. If it rains after our installation, please contact your representative. We monitor the weather closely and can generally predict this very well. In the event that an unexpected storm happens, we will touch up any areas where sealer has not bonded.
4. **Sprinklers:** should be off 24 hours prior until 48 hours after service. Avoid lawn cutting during this same period of time. The surface must be dry for our arrival. Areas where the newly sealed pavement is wet may wear prematurely.
5. **Drainage:** Atlantic Southern Paving and Sealcoating cannot guarantee 100% drainage in areas where the design grade is less than 1% fall.
6. **Asphalt Over-Runs:** will be billed to owner at \$175.00 per ton.
7. **Reflective Cracking:** Atlantic Southern Paving and Sealcoating will not accept responsibility for reflective cracking of new asphalt overlay due to the cracked condition of the existing asphalt pavement
8. **Asphalt Price Index:** Proposal is based on the current price of liquid asphalt. If there is a price increase in liquid asphalt, there will be additional charge for the difference.
9. De-mucking and removal of unsuitable materials not included.
10. **Driving on Surface:** Once you start driving on paved/sealed surface, avoid turning your wheels unless your car is moving. We understand this may be difficult to do, but understand that when wheels are turned on a freshly paved/sealed asphalt surface, scuffing and turn marks will be evident, ***no worries in time they will blend in with surrounding surface.***
