**Importance:** High

To Whom It May Concern:

I am writing in response to the Special Exception Use Application regarding the property located at 490 SW Kentwood Road, Port Saint Lucie, Florida 34953.

I strongly oppose this application and believe that significant concerns regarding the ownership, sale, and transfer of this property must be addressed before any additional approvals are considered.

It is my understanding and belief that the property was sold by Lisa Saffioti, President of the Windmill Pointe 1 POA, to Robert Brown of Remade Church without proper consent or approval from the homeowners within our community. To my knowledge, there was no community vote authorizing this transaction, and there has been a lack of transparency regarding the circumstances surrounding the sale, including how the proceeds from the sale were handled or distributed.

I also have serious concerns that the property may have been sold below fair market value, which raises questions that deserve a full and independent review. Despite these concerns, there has been no apparent action taken by the City of Port St. Lucie, St. Lucie County, or the State of Florida to address the issues raised by members of our community.

Given these unresolved concerns, it is extremely troubling that Robert Brown is now requesting approval for an enclosed assembly area and associated uses, including on-premises consumption of alcoholic beverages, when there are still unanswered questions regarding the legality and transparency of the property transfer itself.

Our community has already experienced significant distress and division as a result of these events. I believe it would be inappropriate to grant any additional approvals until the ownership concerns, transaction history, and compliance with all applicable laws and governing documents have been fully reviewed.

I respectfully request that this application be denied, or at minimum, tabled until a thorough investigation and review of the property transaction and related concerns can be completed.

Sincerely,

Kimberly Ann Halhofer
