Subject: Botanical Gardens Art Selection

Hello. The Friends of the Port St Lucie Botanical Gardens reviewed the following 3 pieces: Faubert - Tree Root System, Richard Herzog - Dalband Satellite Flower and Kirk Seese - Feathers of Three for the Botanical Gardens. We chose Kirk Seese - Feathers of Three for the Botanical Gardens. It is a very colorful piece that looks great from every side. I went over the process with the board, and they are okay with it if we retain a certain degree of say. I realize that we need to work together and feel that the Friends are up to making this work. Please let me know what our next steps will be. I am still excited about this!

Thanks,
Tim Sutton
