Materials Purchase for the McCarty Ranch Potable Watermain Extension

The undersigned acknowledges that the Build America, Buy America Act (BABA) requires that NEH will not provide federal financial assistance for “infrastructure” projects “unless all of the iron, steel, manufactured products, and construction materials used in the project are produced in the United States” (Section 70914 of Public Law No. 117-58, §§ 70901-52). The undersigned certifies that for the Materials Purchase for the McCarty Ranch Potable Watermain Extension that the iron, steel, manufactured products, and construction materials used in this contract are in full compliance with BABA requirements, including:

All manufactured products purchased with NEH financial assistance were produced in the United States. For a manufactured product to be considered produced in the United States, the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55% of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation.

All construction materials were manufactured in the United States. This means that all manufacturing processes for the construction material occurred in the United States.

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).
