CA	At CA Technologies, we comply with a multifaceted security standard that includes requirements for security management, policies, procedures, network architecture, software design and other critical protective measures. We ensure the maintenance of vulnerability management programs, implement strong access control measures, regularly monitor and test networks and adhere to the highest industry compliance and security policies. CA offers a variety of SaaS solutions, details for each offering has been provided in Exhibit 1 and 2 of this proposal.
Google	All connections from customer end point devices to Google's Front End Servers are encrypted with enforced HTTPS sessions using Forward Secrecy. Google websites and properties use robust public key technologies: 2048-bit RSA or P-256 ECDSA SSL certificates issued by a trusted authority (currently the Google Internet Authority G2).

	All data in transit between Google's Data Centers traverses across Google's private fiber network using a customized, proprietary encryption technology. Google hard drives leverage technologies like FDE (full disk encryption) and drive locking, to protect data at rest. These methods of encryption are fully managed by Google and Google's Key Management Servers based on 128-bit or stronger Advanced Encryption Standard (AES). Encryption Keys and Ciphers Supported by Google Protocols TLS 1.2 TLS 1.1 TLS 1.0 SSL 3.04 QUIC Cipher suites ECDHE_RSA with AES ECDHE_RSA with 3DES ECDHE_ECDSA RSA with AES RSA with 3DES Signing keys RSA 2048 ECDSA P-256 Hash functions SHA384 SHA256 SHA1 MD5
Salesforce	Government Cloud Encryption Capabilities: As part of the Salesforce Government Cloud, Salesforce is capable of responding to FIPS 140-2 cryptographic implementations for data being transferred between the State's web browser and Salesforce. Data that resides within Salesforce's protected boundary does not use FIPS 140-2 validated encryption as compensating/mitigating controls are in place to protect data. Additional information is provided below. Data In Motion: Salesforce employs cryptographic mechanisms to protect information during transmission. All transmissions between the user and Salesforce are encrypted by default with a 2048- bit Public Key. Our service uses International/Global Step Up certificates. We support one- way TLS, in which customers create secure connections before sharing private data. Secure routing and traffic flow policies ensure that customer traffic is encrypted entering Salesforce until the load balancer decrypts the traffic. The load balancers decrypting the traffic are FIPS 140-2 compliant and are located inside of the Salesforce Government Cloud isolation boundary. Data At Rest: NIST SP 800-53 Rev. 4 states in SC-28, "Information at rest refers to the state of information when it is located on a secondary storage device (e.g., disk drive, tape drive) within an organizational information system." SC-28 also states, "Organizations may choose to employ different

	mechanisms to achieve confidentiality and integrity protections, as appropriate." All secondary storage media (hard drives, disk drives, and tapes) containing customer data are maintained within Salesforce's secure production data centers until the media has been sanitized and destroyed. Salesforce relies on physical access controls as a compensating control to protect the data. For primary data storage, Salesforce provides customers with a built-in capability to apply field-level encryption, using 128-bit keys with AES encryption, for a selection of custom fields included in the Force.com Platform and Salesforce Services. Field-level encryption ensures the data associated with designated fields is encrypted in storage.	
SAP	Ariba	Sensitive data elements, including PCI Primary Account Numbers and system account parameters for internal application communications, are stored in Ariba databases encrypted by the AES (Advanced Encryption Standard) and Triple DES (Data Encryption Standard) encryption algorithms with a minimum key length of 128 bits. Encryption technology is also applied for the client connection to the Web site and to the hosted application passwords in storage. Customer user passwords are one way hashed using SHA256 and salted with random data. Limited Ariba Operations personnel have data query access and monitoring rights for the Ariba Hosting program.
	Fieldglass	
	Hanna	SAP provides for enterprise-grade and industry-standard security. SAP HANA Enterprise Cloud datacenters are enterprise-class security with enterprise-class protection including data encryption, network encryption, firewalling, network isolation, and intrusion detection. HANA data is protected in multiple different ways. SAP HANA Enterprise Cloud is a managed cloud service that employs either a VPN or MPLS connection for transit. By default VPN is encrypted and MPLS can be encrypted. The customer procures the method of connection. At installation, HANA data can be encrypted using a feature called Data Volume Encryption. This encryption protects data in the persistence layer. Storage volume access is restricted to the customer account that created the volume, thus denying all other customer accounts the permission to view or access the volume that includes data isolation, masking, zoning and Logical Unit (LUN) binding. Strict user and access management, authorization management according to the need-to-know principle for administrative accounts, and security logging and security monitoring for critical activities or access, also protect data stored in HANA.
	Hybris	The Hybris platform uses SSL (https) for both the web application tier (browsers and WebService APIs) as well as communicating with back office systems. Data at rest is something that has to be taken into consideration in the application requirements by the partner/customer or PS teams. If encryption is required the application teams need to work on implementing the methods to encrypt and secure the data, for example encrypting data fields in the database.
	SuccessFactors	Each customer's data is maintained in a separate database schema eliminating data segmentation breaches. Each schema has separate authentication credentials and assigned resource profile to restrict access rights and resource consumption. Encryption for data at rest uses the AES256 cipher. All application access is encrypted-in-transit over HTTPS with 128-bit TLS encryption.

FireEye	At rest: Data are collected using automated batch and real-time processes and by manual personnel-driven actions via an Analyst facing Portal. Any information that is collected may be stored temporarily within appliances attached to our customers' networks and may subsequently be transmitted back to one or more FireEye datacenters. Data transmitted from a customer's network to a datacenter travels over a strong encryption Virtual Private Network ("VPN") established by the appliances. At transit: FireEye's network sensors are configured to collect full packet capture of customer network streams, including those originating from or destined to potentially malicious IP addresses, matching signature-based network indicators of compromise, results of domain name lookups, and full e-mail messages including headers, content and attachments. This information is primarily stored on-site on the appliances and only meta data matching FireEye / Mandiant indicators of compromise are sent to FaaS.
VirtueStream	Virtustream's use of Intel® Trusted Execution Technology (Intel® TXT), a hardware-root of trust security feature, and Intel® AES-NI encryption acceleration helps secure and protect virtualized environments against malware and provides more of the critical infrastructure and data protection assurances needed to enable trusted multi-tenancy in the cloud. Virtustream offers solution for data-at-rest and data-in-transit encryption solution for our customers as optional service, as most of our customer environment is only accessible via private network and only to the internal users of the customer. Solutions available to our customer as follows. 1. IPSEC VPN Tunnel for data-in-transit and 2. VM level encryption for files and databases 3. Encrypted Backup (all backups are encrypted by default) The technologies of encryption available throughout the entire data lifecycle and all are FIPS 140-2 compliant. a) DB and File System Encryption b) Encrypts file system and volume data transparently to: i) Applications ii) Databases iii) Storage Infrastructure c) Integrated Key Management d) High Efficiency Encryption i) Centralized Key Management ii) Policy Management iii) Detailed Auditing iv) Highly Available v) FIPS 140-2 Certified Hardware Appliance vi) Very Low Encryption Penalty due to Intel AES-NI enabled chip sets used e) Encryption of Virtual Machine, OS and App i) Integration of SafeNET Protect-V ii) Logging of all image access f) Encryption in Archive g) Implements Encryption, Access Control, Auditing on Host (LUW) h) Kernel Level Driver – Win i) File System – Unix/Linux j) Support for file systems and raw partitions k) Highly efficient block encryption

8.6.13 Describe policies and procedures regarding notification to both the State and the Cardholders of a data breach, as defined in this RFP, and the mitigation of such a breach.

CA	CA Technologies abides to contractual requirements for notification, in addition to working with legal to ensure compliance with regulatory requirements. There may be cases where incident analysis completion is a requirement for confirming the breach, and / or its impact and data leakage boundary. Prior to completion of this activity, CA may not have the needed conclusions for customer communication. Once subscriber data has been identified as part of the investigation, said subscribers will be notified as soon as possible and not longer than 5 days. A report of the incident will be available and distributed to clients within 30 days. Please note that none of the offerings proposed as considered payment products and are not intended for use of storage of cardholder data.	
Google	Google will take and implement appropriate technical and organizational measures to protect Customer Data against accidental or unlawful destruction or accidental loss or alteration or unauthorized disclosure or access or other unauthorized processing. If Google becomes aware of a Data Incident, Google will promptly notify Customer as permitted by law of the Data Incident, and take reasonable steps to minimize harm and secure Customer Data. Notification(s) of any Data Incident(s) will be delivered to the Notification Email Address provided by the Purchasing Entity in connection with the Agreement or, at Google's discretion, by direct communication (e.g., by phone call or an in-person meeting).	
Salesforce	Salesforce will promptly notify the State (within 48 hours, reflected in a negotiated agreement between the parties) in the event Salesforce becomes aware of an actual or reasonably suspected unauthorized disclosure of Customer Data. Notification may include phone contact by Salesforce support, email to the State's administrator and Security Contact (if contact is submitted by State and contact information is kept up to date), and public posting on trust.salesforce.com.	
SAP	Ariba	Ariba has developed a computer security incident response team. Following policies and procedures, this team responds to suspected security incidents to mitigate risks and damage. The team conducts response and forensic analysis of systems and network traffic. This information can be used to assist with prosecution if a security breach is detected and the offender caught.
	Fieldglass	SAP Fieldglass' security team is responsible for managing security incidents and all communication is conducted via the respective account managers to ensure timeliness. The process is defined within the Incident Response Management Standard. Customers are notified of an incident within 48 hours.
	Hanna	SAP will notify via defined communication channels within 36 hours of a confirmed data security breaches to the affected customers. The report will detail the following information: • Details relating to the security incident that has occurred, known at the time of notification. • IT infrastructure and/or application affected by the security incident. • Overview of the performed mitigation actions to restore the security, documented within the incident report form. • All further applicable requirements by country regulations "on obligation to notify" will be met.
	Hybris	Since we do not allow for CC data to be transmitted, stored or processed in our environment, we regularly scan the customer environment in case this is done without our consent. However, we do have a CSIRP in place, in which we would notify the customer and our internal Forensics team in the event that a customer environment should be breached.
	SuccessFactors	Upon the occurrence of a data breach, initial communication is distributed to the appropriate individuals and an escalation process is followed. Upon

		becoming aware of the incident, measures are promptly taken by the team to resolve the situation. All affected customers should be informed within at most 36 hours of confirming a potential breach in the privacy of their data. Following incident resolution, follow-up is required to ensure that the incident has been resolved effectively and that the threat is no longer present. We are aligned with ISO 27k standards for event and incident management and have formal incident management policies and processes in place. These policies and procedures are tested in the ISO 27k and SOC 2 audits.
FireEye	FireEye has a documented policy for incident management that has been approved by management and communicated to appropriate constituents and owners. It is continuously maintain and reviewed annually. The plan has a reporting structure and escalation path. An incident response team with defined roles and response related qualifications are available 24x7x365. The team maintains chain of custody for evidence during the incident investigation. There is a process for reporting client notification for regulatory, legal and contractual issues after a breach if a breach were to be confirmed. If a confirmed breach were to occur a management team would review all the factors and develop a remediation plan to mitigate.	
VirtueStream	There are two primary Incident types; Security Incidents, where there is a possible breach in systems or data integrity, and Services, where there is in impacted or affected service. Although there is some overlap, generally any security-related incident should be classified as a Security Incident and the response must be managed using the 'Virtustream Information Security Procedure – Security Incident Response Plan'. The purpose of this security incident response plan is to provide general guidance to Virtustream staff- both technical and managerial – to enable quick and efficient recovery from security incidents; respond in a systematic manner to incidents and carry out all necessary steps to correctly handle an incident; prevent or minimize disruption of critical computing services; and minimize loss or theft of sensitive or mission critical information including sensitive credit card data. The plan is also a guide to sharing information with other stakeholder organizations who might be impacted by such security incidents such as the credit card associations and law enforcement. The Security Incident Response Plan (SIRP) provides guidance to prepare for, respond to, and recover from potential incidents. Policy statements surrounding the IR-Plan are provided to ensure continued upkeep and standardized use. The SIRP guidance at the procedural level defines the roles, responsibilities, communication methods and flows, contact information, types of potential incidents, and immediate actions that are to be taken upon an incident's identification, and elaborates with subsequent recovery steps. Virtustream's Incident Response Policy requires the implementation and testing of a generalized plan that adheres to the International Standards Organization 27002 guidance for incident management and response, but meets specific requirements for compliance such as PCI-DSS. The Plan covers the corporate environment associated with Virtustream's IT assets, the local IT resources and the IT resources at Virtustream's Data Center. It consists of a series of guidelines (Incident Response Guidelines or "IRG") that should generally be followed as appropriate for the circumstances as when a security incident occurs or as part of the ongoing maintenance of this plan. As the incident progresses and has more impact (i.e. severity level increases), the escalation process will be used to engage appropriate resources. Incidents should be handled at the lowest escalation level that is capable of responding to the incident with as few resources as possible in order to reduce the total impact, and to keep tight control. The Table below defines the escalation levels with the associated team involvement.	

8.7 Migration and Redeployment Plan

8.7.1 Offeror must describe how it manages the end of life activities of closing down a service to a Purchasing Entity and safely deprovisioning it before the Offeror is no longer contractually obligated to maintain the service, include planned and unplanned activities. An Offeror's response should include detail on how an Offeror maintains security of the data during this phase of an SLA, if the Offeror provides for redundancy during migration, and how portable the data is during migration.

The end of life activities for each Purchasing Entity will vary based on the type of service they are currently using and the service that they will be moving too. All Purchasing Entities will be notified in advance of any end of life service so that the Purchasing Entity can work with Carahsoft and the service providers to develop a plan exporting and transitioning data.

8.7.2 Offeror must describe how it intends to provide an orderly return of data back to the Purchasing Entity, include any description in your SLA that describes the return of data to a customer.

At all times during the course of the Service, the Purchasing Entities will have access and ownership of their data. The Purchasing Entity is free to download or access the data through a variety of means based on the service at any time during their service period.

8.8 Service or Data Recovery

8.8.1 Describe how you would respond to the following situations; include any contingency plan or policy.

a. Extended downtime.

CA	APM	If unable to resolve in a timely manner, all customers will be notified via email to the registered admin
	MAA	Customers are kept abreast with progress during incidents, including outages. CA utilizes best-of-breed notification system which enables customer contacts to self-subscribe to different types of notifications that they would be interested in. A DR plan has been created should the extended down time result in DR declaration.
	CA Agile	We would failover to our warm data center in order to restore access to the application as quickly as possible. This is done according to our Disaster Recovery Plan
	ASM	If unable to resolve in a timely manner, all customers will be notified via email to the registered admin. Failover from the primary to DR site may be utilized if the extended amount of time warrants declaration of DR.
Google	Due the redundant nature of the Google infrastruture there is no expectation of any extended downtime. If a data center in use by any of your end users suffers a catatrophic failure, Google's dynamic health monitoring would just reroute the session to a different data center.	
AODocs	All the AODocs data is hosted on the Google Cloud Platform infrastructure. AODocs does not manage any physical infrastructure. Due the redundant nature of the Google infrastruture there is no expectation of any extended downtime. If a data center in use by any of your end users suffers a catatrophic failure, Google's dynamic health monitoring would just reroute the session to a different data center.	
Virtru	Notify users that Virtru service is unavailable, and recommend that they use their offline encryption tools and backups to perform emergency functions.	
Salesforce	Salesforce has maintained high levels of availability across all Salesforce instances since inception. As the only on-demand vendor to provide daily service-quality data on a public Web site (http://trust.salesforce.com), Salesforce proves that we are the leader in availability. And by making its track record completely transparent, Salesforce proves we are worthy of our customers' trust. To ensure maximum uptime and continuous availability, Salesforce provides the best	

	redundant data protection and most advanced facilities protection available, along with a complete data recovery plan—all without affecting performance. Salesforce uses commercially reasonable efforts to make its on-demand services available to its customers 24/7, except for planned downtime, for which Salesforce gives customers prior notice, and force majeure events. Excellent availability statistics are critical to Salesforce's customers' success and to the success of Salesforce as a company. Live and historical statistics on the Salesforce system performance are publicly published at http://trust.salesforce.com/trust/status. The persistence layer underlying Salesforce Platform is proven database technology that powers all of Salesforce's products today, serving more than 150,000 organizations and over 4 billion transactions per day with an average request response time of less than .25 seconds, all with an average up time of 99.9+ percent.
ServiceNow	ServiceNow's data centers and cloud-based infrastructure have been designed to be highly available. All servers and network devices have redundant components and multiple network paths to avoid single points of failure. At the heart of this architecture, each customer application instance is supported by a multi-homed network configuration with multiple connections to the Internet. Production application servers are load balanced within each data center. Production database servers are replicated in near-real time to a peer data center within the same geographic region. ServiceNow leverages this Advanced High Availability (AHA) architecture for customer production instances in several ways: •In the event of the failure of one or more infrastructure components, service is restored by transferring the operation of customer instances associated with the failed components to the peer data center. •Before executing required maintenance, ServiceNow can proactively transfer operation of customer instances impacted by the maintenance to the peer data center. The maintenance can then proceed without impacting service availability. This approach means that the transfer between active and standby data centers is being regularly executed as part of standard operating procedures – ensuring that when it is needed to address a failure, the transfer will be successful and service disruption minimized. RTO is 2 hours. RPO is 1 hour. See the "ServiceNow Security, Operations, and Compliance White Paper" included with this response for more information.
QTS	In the rare instance of failure of the commercially-delivered electrical power, back-up systems at each QTS data center start instantaneously. Batteries provide power for the first 12-15 seconds while on-site diesel generators spin up to synchronize their output with the battery-supplied feed. Once on-line, the generators can supply power indefinitely, and the IT equipment on the data floor as well as critical infrastructure components are all unaffected. While the basics of reliable power seem simple, none of this is taken for granted. Battery banks are sized to provide 15 minutes of power, well beyond the 15 seconds that it typically takes generators to come on line. Inspections are conducted daily and quarterly to ensure that the battery banks are prepared at all times. The diesel generators are inspected by running them each month to circulate and condition the fuel, then running them annually under the full simulated load of the current IT equipment on the data center floor. Factory technicians inspect and maintain the generators semi-annually. Quantities of fuel sufficient to support 48-72 hours of

	operation without resupply are stored on-site, and re-supply contracts are in place with multiple providers to have fuel delivered as soon as the generators come on line.	
SAP	Ariba	Ariba has implemented two sites within each region. In North America the sites are currently located in San Jose, California and Sterling, VA. In Europe the sites are located in St. Leon-Rot, Germany and Amsterdam, Netherlands. The act of failing over from one site to another has a design goal for its Recovery Time Objective (RTO) of no more than four hours. The design goal for the Recovery Point Objective (RPO) is five minutes. Disaster recovery options are included for all Ariba Cloud Services. In the event of a fail-over to the disaster recovery site, no customer changes are required as all URLs that customers use to reach the applications will continue to work. Ariba will notify customers via their email addresses in the event of unplanned downtime. Internally, Ariba uses a documented system recovery plan that outlines the approach and steps for recovering the applications. This document defines roles and responsibilities in the event of disaster: Local Ariba staff maintains the hardware remotely. Ariba maintains the application software. Processes are in place to keep database and fileservers in sync between primary and backup data centers. The failover process of all parts of the infrastructure is automated. In the event of a catastrophe, Ariba will declare the primary data center "down" and locally the script will be run to switchover and start the applications at the remote data center. Ariba tests power outage backup scenarios and the Disaster Recovery Plan on a periodic basis to ensure it is up-to-date, successful, and effective.
	Fieldglass	Customers are notified of unscheduled downtime immediately via email. Updates are frequently emailed out until the issue has been resolved. Customers are notified of scheduled downtime 5 days prior via email.
	Hanna	In case of a disaster depending on the infra & technical architecture defined during HEC technical assessment workshop, systems could fail over to HA node. If DR (optional offering) is selected, the systems could move to secondary DC that where contracted with a DR option & HEC declaring DR. Regular system downtime for patching etc. is planned in advance with the customer and typically follows customers maintenance schedules.
	Hybris	SAP Hybris offers continuous 24/7 systems monitoring in-place, which automatically notifies you, SAP Hybris support and optionally your designated implementation partner in the event of any monitored system problem. Tools used for monitoring include HP Sitescope and Nagios. This service ensures quick response times to emergency problems. Standard monitors are in place for basic site availability. Customer can utilize additional 3rd party monitoring services should it wish to add additional monitoring. Upon request, monthly or quarterly reviews are offered to review performance over the period. When a system problem occurs, in addition to monitor alerts sent to the customer, SAP Hybris support may send emails to a designated customer notification email address to provide status, updates or further detailed information. In addition, a support ticket would be created which would include such information.
	SuccessFactors	Our infrastructure architecture is designed with high availability in mind, and engineered for resiliency. All major components are redundant, including power, HVAC, fire suppression, and the physical components of our network. Production data centers have strict access controls, and are continuously

		staffed and monitored to help prevent acts of sabotage or vandalism. All production data centers are ANSI/EIA/TIA-942Tier III/IV facilities, and are ISO 27001 certified. Production data centers are also geographically dispersed to help prevent a single event from affecting more than one data center. In the event a production data center has an outage we failover to an alternate data center in the same geographic region to minimize impact to customers. Our Cloud Operations teams are also geographically dispersed, working in offices in the US, Europe, South America, and India. Should an office be impacted by an environmental event or pandemic, other offices can continue operations. Aspects of the plan are described in the SOC reports, Disaster Recovery Plan ("DRP") and Business Continuity Plan ("BCP") solutions are dependent on several factors. The customer may be responsible for parts of the recovery/continuity activities.
VMware	VMware vCloud Air leverages proven VMware High Availability technology to minimize the risk of extended downtime. In the unlikely event that an extended outage does occur, VMware will support guide the customer's efforts to restore services to an alternative vCloud Air or vCGS datacenter. We will also provide remedies in the form of service credits as outlined in the following VMware vCloud Air, vCGS, Vmware AirWatch and VMware Identity Manager SLAs.	
FireEye	FireEye has a mature and documented Business Continuity Plan and Disaster Recovery Plan that follows industry best practices that is reviewed and tested annually. The BCP/DRP plan has RPO/RTO timing criteria and other critical business requirements that is available for review if requested in the future.	
VirtueStream	In the event of extended downtime affecting production systems, Virtustream and customer would jointly evaluate the situation and mutually decide on failover declaration, whereby Virtustream would then execute the failover plan to restore customer operations to the secondary data center.	

b. Suffers an unrecoverable loss of data.

CA	APM	Customer data is isolated within dedicated schemas with nightly backups. The maximum data loss would be the previous 24hrs.
	MAA	MAA data is backed up fully daily. The maximum data loss would be the previous 24hrs.
	CA Agile	We have implemented a physical standby database in both hot/Live site as well as warm/standby sites using Oracle Data Guard with real-time apply to achieve the stated recovery objectives.
	ASM	Customer data is isolated within dedicated schemas with nightly backups. The maximum data loss would be the previous 24hrs.
Google	Google performs real time data replication to avoid unrecoverable data loss. Customers that configure the retention policies in Google Apps Vault can ensure that end users can not inadvertently or maliciously delete email in advance of any defined retention schedules.	
AODocs	AODocs data are stored in Google AppEngine and Google Drive: - The data stored in Google AppEngine are backed up every day. The application is hosted on Google Cloud Platform infrastructure and benefits from the network security described in this whitepaper: https://cloud.google.com/files/Google-CommonSecurity-WhitePaper-v1.4.pdf - Data stored in Google Drive is managed by Google within its multiple servers location. Altirnao does not manage this infrastructure. Google Drive can be backed up by third party tool such as Backupify.	

Virtru	Notify users that data within Virtru is unavailable, and recommend that they use their offline encryption tools and backups to perform emergency functions.	
Salesforce	To maximize availability, the service is delivered using multiple world-class data centers supporting primary and replicated disaster recovery instance, plus a separate production-class lab. The infrastructure utilizes carrier-class components designed to support millions of users. Extensive use of high-availability servers and network technologies, and a carrier-neutral network strategy, help to minimize the risk of single points of failure, and provide a highly resilient environment with maximum uptime and performance. The Salesforce services are configured to be N+1 redundant at a minimum, where N is the number of components of a given type needed for the service to operate, and +1 is the redundancy. In many cases, Salesforce has more than one piece of redundant equipment for a given function.	
ServiceNow	Please see our response for 8.8.1a	
QTS	QTS cloud developed a OPS_POL_54_QTS-FC_Contingency_Planning_Policy (v1.2 – 2/6/14), detailing the policies, procedures, roles and responsibilities of key personnel in the event of an emergency and/or disaster.	
SAP	Ariba	Our SLA provides tenant remuneration for losses they may incur due to outages within the infrastructure.
	Fieldglass	The maximum data loss timeframe is guaranteed to be less than three hours; however, offsite backups are performed every 15 minutes so the timeframe is actually much shorter.
	Hanna	Data loss is defined by RPO & RTO. HEC has a maximum RPO of 30 mins & RTO of 12 hours.
	Hybris	For a cloud solution, data backup and restore is handled by SAP. SAP shall follow its archiving procedures for Customer Data as set out in the SAP Hybris Commerce, cloud edition Services Description. In the event of any loss or damage to Customer Data, SAP shall use commercially reasonable efforts to restore the lost or damaged Customer Data from the latest back- up of such Customer Data maintained by SAP in accordance with the archiving procedure described in its SAP Hybris Commerce, cloud edition Services Description. SAP shall not be responsible for any loss, destruction, alteration or disclosure of Customer Data caused by any third party, (except those third parties sub- contracted by SAP to perform services related to Customer Data maintenance and back-up).
	SuccessFactors	Our SLA provides tenant remuneration for losses they may incur due to outages within the infrastructure.
VMware	VMWare IaaS Services As discussed in detail in section 8.8.2.1.a below, VMware IaaS services are architected to minimize the risk of unrecoverable data loss. In addition option services such as vCloud Air Data Protection can be leveraged to further mitigate any risk. VMware's vCloud Air policy regarding data loss can be found in the vCloud Air Terms of use. VMware's vCloud Government Service policy regarding data loss can be found in the vCloud Government Service Terms of Service AirWatch Hosted Services AirWatch Business Continuity and Disaster Recovery strategies include data and hardware redundancy, network configuration redundancy and backups, and robust, regular testing exercises. AirWatch features active-passive configurations for high availability and redundancy with all components made to failover with minimal downtime. Load balancing capabilities are deployed across multiple data centers to ensure timely server recovery. AirWatch also incorporates replication technology featuring SQL log shipping or network SAN byte replication to prevent data loss.	

	• Due to FOIA restrictions and the competitive nature of the EMM marketplace, we cannot provide specific details regarding recovery strategies or timelines.
FireEye	FireEye has a mature and documented Business Continuity Plan and Disaster Recovery Plan that follows industry best practices that is reviewed and tested annually. The BCP/DRP plan has RPO/RTO timing criteria and other critical business requirements that is available for review if requested in the future.
VirtueStream	Multiple copies of customer data exist in multiple datacenters – in the primary datacenter, there is the production copy and a local backup. The local backup is replicated to a secondary datacenter and the production datastores associated with coreVM's are also replicated at regular intervals to the secondary datacenter. If NASPO feels that additional steps/redundancy are required to maintain recoverability, Virtustream is open to discussion.

c. Offeror experiences a system failure.

CA	APM	Disaster to the CA Technologies corporate network in New York will not affect customers' service. Secondary services, such as domain name services will be routed through the secondary CA Technologies network in Illinois. CA has a BCP plan in place to direct its services. The SaaS environment is separate from the CA corporate network and a service specific disaster recovery plan is in place.
	MAA	Customers would be notified in advance, and given ample time to retrieve their data.
	CA Agile	We enable all of our employees with the ability to be able to work remotely and provide remote network access to ensure business functions can continue. All corporate infrastructure has redundate systems that can be utilized in the event of failure.
	ASM	Customers would be notified in advance, and given ample time to retrieve their data manually or via the ASM API.
Google	Google's corporate network is separate from it's production infrastructure. Google is a global organization that has support personnel located at key office installations and tests our business continuity programs annually. These tests are to validate that if corporate headquarters is off the grid that criticial business functions can be picked up by other staff.	
AODocs	AODocs runs 100% over Google's Cloud Platform infrastructure that is naturally redundant, and all AODocs internal systems such as technical support, email, collaboration, source code hosting, etc are run on cloud based services. AODocs personnel can work from any physical location without any business disruption and they do work from remote locations on a regular basis. If one of the AODocs facilities were to be temporarily unavailable due to a natural disaster, AODocs personnel would be able to perform their work without significant interruption.	
Virtru	Notify users that Virtru is or will be permanently unavailable, and recommend that they use their offline encryption tools and backups to perform emergency functions.	
Salesforce	Please see response to items a. and b. above and d. and e. below. Salesforce has documented Disaster Recovery and Business Continuity plans for critical business functions. The Disaster Recovery and Business Continuity plans are tested at least annually. A post mortem documenting the results of the disaster recovery tests can be provided to customers with a signed NDA in place. Business continuity plans are updated each year, including the list of business processes, recovery time objectives, and key resources. Senior management is included in this process. Business continuity plans are exercised on an annual basis. Action items and lessons learned are tracked from each incident and exercise conducted. Action items are prioritized and tracked until	

	closed. Salesforce has developed additional procedures, processes and plans, including a Pandemic plan. Salesforce also recommends customers also devise their own backup strategy for their data, as there is a fee for customers to request for restoration from Salesforce backups. Salesforce provides multiple ways for our customers to obtain periodic backups of its data. We offer a weekly export service (WES) for those customers requiring a local backup copy of their data or a data set for import into other applications (such as an ERP system). Salesforce also supports data replication, which allows customers to store and maintain a local, separate copy of their organization's Salesforce data including the META data (logins, etc.) for specialized uses, such as data warehousing, data mining, custom reporting, analytics, and integration with other applications. Data replication provides customers with local control and the ability to run large or ad hoc analytical queries across the entire data set.	
ServiceNow	Please see our response for 8.8.1a	
QTS	QTS has established an alternate processing site including necessary agreements to permit the resumption of information system operations for essential missions and business functions within [Assignment: organization-defined time period consistent with recovery time objectives] when the primary processing capabilities are unavailable. The QTS cloud hosting facilities in Richmond, VA (RIC1) and Atlanta, GA (ATL1) have agreements with each other to restore services in the event that one of the sites becomes unavailable. Both facilities are QTS managed facilities and are always available to meet the recovery time and recovery point objectives for the system. Agreements are in place to allow QTS to access resources at the alternate processing site physically and via the QTS client network. Richmond and Atlanta Datacenters are independently operated datacenters that offers disaster recovery services to customers. The contingency approach ensures that hardware and software components needed for recovery efforts are already at the alternate facility. QTS ensures that equipment and supplies required to resume operations are available at the alternate site or contracts are in place to support delivery to the site in time to support the organization-defined time period for resumption. Network circuits, networking infrastructure, storage, virtual servers, and management components required to resume operations are available and configured at the alternate site.	
SAP	Ariba	"Ariba modules automatically persist object state to the underlying relational database as users work. When a user performs a significant action, for example, adding an item to an order, performing an approval, etc., the Ariba application tier is aware of the change and automatically saves the relevant object state to the database. This provides transparent persistence of the user's work without the user having to “save” or “submit” changes to avoid losing work in the event of failure or session timeout. This in turn means that the loss of any connections between the tiers or failure of one of the tiers will not leave data in an inconsistent state. While object data is cached in the middle tier for performance, the official record is stored in the database to avoid any potential data loss or corruption. This means that recovery for Ariba modules is implicit and automatic. When the modules start, they retrieve the state of the various business objects from the underlying database as needed for user sessions. If an Ariba module fails, there is no special application recovery process other than restarting the module. The Ariba module will automatically connect to the database and as clients login and commence working, all required business object data will be retrieved from the database."

	Fieldglass	Fieldglass' business continuity program (BC Program) was established to ensure that, after a complete disruption of its Chicago and/or Naperville, Illinois offices, all employees and the functions for which they are responsible, are capable of continued operations in less than one business day. This includes office space as well as all equipment and supplies needed to continue its operations without an interruption in customer services. Fieldglass' BC Program is integrated into all facets of the company due to the criticality of the product that it sells and supports. As such, representatives from all areas of the company are responsible for ensuring that they are familiar with their duties and responsibilities during a disruption and how to recover their areas after the disruption occurs.
	Hanna	Service Level Credits Where SAP fails to meet a Service Level, SAP will be liable to Customer for the corresponding Service Level Credit as set out in this section. The Service Level Credit is calculated as the sum of the Service Level Credits for both DEV/QAS and PRD for the TA Service Level defined in section 5.1 above. SAP will deduct the amount of any Service Level Credits owed to Customer from the next invoice (or, if there is no such invoice, by bank transfer to such bank account as Customer may specify in writing). Customer agrees that under no circumstances will the total maximum Service Level Credits: (i) for any one month, exceed 100% of the Service Fee for that month; and, (ii) for any given contract year, exceed in the aggregate an amount equal to one- third of the annual Service Fee charged for the contract year (or one third of the total Service Fee charged if the Term as defined in the applicable Order Form is less than one (1) year). Customer acknowledges that the Service Level Credits defined hereunder are the sole remedy for SAP's failure to meet the specified Service Level. 5.6 Termination for Service Level Failure Customer may terminate the applicable Order Form with thirty (30) day's termination notice in writing to SAP, if SAP misses a Service Level as specified in this Supplement for three (3) months in sequence. Customer may exercise this termination right only within thirty (30) days after receipt of the respective Service Level report that documents the applicable Service Level failure that would cause such termination right to accrue in Customer.
	Hybris	SAP isn't likely to go out of business in the near future. However, our contract states the following: Upon expiration or termination of the Agreement, SAP may destroy or otherwise dispose of any of Customer Data in its possession unless SAP (i) is requested by Customer to extend the term of the Order Form as permitted in the Order Form to allow Customer to retrieve Customer Data, or (ii) receives, no later than thirty (30) days after the effective date of the termination of this Agreement, a written request for the delivery to Customer of the then most recent back-up of the Customer Data. SAP shall use reasonable commercial efforts to deliver the back-up to Customer within thirty (30) days of its receipt of such a written request, provided that Customer has, at that time, paid all fees and charges outstanding and owed at termination. Customer shall pay all reasonable fees and expenses incurred by SAP in returning or disposing of the Customer Data.

VMware	AirWatch Hosted Services AirWatch Business Continuity (BC) strategies include clear policies and procedures as well as robust, regular testing exercises. Our BC recovery strategies for support and maintenance include provisions for workforce mobility, secondary support locations, and defined leadership roles and responsibilities for all recovery staff. • Multiple Support Locations – AirWatch maintains a Global Support Team, which spans multiple offices around the world. This ensures that if a disaster occurs at one of our offices, our remaining Support Team members can provide assistance to our customers. • Mobile Workforce – Should an AirWatch office become inaccessible, all AirWatch employees are equipped with laptops and can access necessary internal resources. • Defined Leadership – During a disaster, roles and responsibilities are assigned to key personnel, and a recovery manager provides leadership and documents the continuity process. Additionally, emergency contact numbers for key personnel are provided for all vendors and support staff.
FireEye	FireEye has a mature and documented Business Continuity Plan and Disaster Recovery Plan that follows industry best practices that is reviewed and tested annually. The BCP/DRP plan has RPO/RTO timing criteria and other critical business requirements that is available for review if requested in the future.
VirtueStream	Virtustream has built redundancy into all layers of the physical infrastructure in order to deliver SLAs up to 99.999% and mitigate the risks of a system failure. Additional levels of protection include regular system backups (stored locally and replicated offsite) as well as automatic storage replication to a secondary data center to facilitate the ability to restore operations in the event of a system failure.

d. Ability to recover and restore data within 4 business hours in the event of a severe system outage.

CA	APM	CA provides an SLA of 99.8% uptime, which can result in unforeseen outages of ~1.5 hours per month. In the event of a failure to meet a SLA threshold , Customer is entitled to a number of days of credit.
	MAA	Using DB clustering technologies, multiple copies of data are maintained helping in recovery of the data.
	CA Agile	We can meet this requirement.
	ASM	Data is replicated from the primary (production) to secondary (DR) continuously. In the event of catastrophic loss of live data a failover to the DR site would be necessary.
Google	Google's RTO is zero.	
Virtru	See 'Virtru Incident & Breach Policy'	
Salesforce	Customer data, up to the last committed transaction, is replicated to disk in near-real time at the designated disaster recovery data center, and backed up at the primary data center. Backups are performed daily at primary data center facility without stopping access to the application. For business continuity purposes, Salesforce supports disaster recovery with a dedicated team and a 4 hour recovery point objective (RPO) and 12 hour recovery time objective (RTO). Additional details can be provided with the execution of an NDA between Salesforce and your Agency.	
ServiceNow	Please see our response for 8.8.1a	
QTS	As defined in QTS OPS_POL_54_QTS-FC_Contingency_Planning_Policy (v1.2 – 2/6/14), QTS cloud has identified the following potential accessibility problems: • Network Outage – Short Term • Network Outage – Long Term • Facility Power or Environmental Outage – Short Term	

	• Facility Power or Environmental Outage – Long Term • Serious Facility Damage – Short Term • Serious Facility Damage – Long Term or Permanent Both the RIC2 and ATL1 QTS cloud Infrastructure is an Active/Active system and can operate independently of each other indefinitely. If QTS cloud determines that any single event (network, power, facility damage) presents a long-term threat, QTS immediately conducts an emergency meeting and plan to remedy or relocate infrastructure to a viable facility."	
SAP	Ariba	Ariba has implemented two sites within each region. In North America the sites are currently located in San Jose, California and Sterling, VA. In Europe the sites are located in St. Leon-Rot, Germany and Amsterdam, Netherlands. The act of failing over from one site to another has a design goal for its Recovery Time Objective (RTO) of no more than four hours. The design goal for the Recovery Point Objective (RPO) is five minutes.
	Fieldglass	Fieldglass offers the following: • RTO = No more than 48 hours • RPO = No more than 6 hours. Warm site replica with 100% processing power of original site. Disaster recovery site can run without need from resumption.
	Hanna	See our RTO and RPO info below
	Hybris	For a cloud solution, data backup and restore is handled by SAP.SAP shall follow its archiving procedures for Customer Data as set out in the SAP Hybris Commerce, cloud edition Services Description. In the event of any loss or damage to Customer Data, SAP shall use commercially reasonable efforts to restore the lost or damaged Customer Data from the latest back- up of such Customer Data maintained by SAP in accordance with the archiving procedure described in its SAP Hybris Commerce, cloud edition Services Description. SAP shall not be responsible for any loss, destruction, alteration or disclosure of Customer Data caused by any third party, (except those third parties sub- contracted by SAP to perform services related to Customer Data maintenance and back-up). Both IDS and IPS are included the SAP Hybris Commerce, Cloud Edition The security infrastructure includes firewall security and hardened security policies on all servers. Log management procedures are in-place for log review for firewall, applications, network devices, including file-integrity management. SAP Hybris utilizes technologies from leading security firms for Log Management and File Integrity Management. SAP Hybris employs two-factor authentication across its network. SAP Hybris undergoes vulnerability and penetration testing. SAP Hybris validates against requirements for PCI DSS 2.0. The infrastructure also includes Web Application Firewalls and DDoS Mitigation Services. In addition, security policies and change management policies are in-place ensuring that all access and changes to customer systems and information is accessible only by SAP Hybris staff with access authorization. Security of the software application which is controlled by the Customer (or its implementation partner) remains the responsibility of the Customer. Upon expiration or termination of the Agreement, SAP may destroy or otherwise dispose of any of Customer Data in its possession unless SAP (i) is requested by Customer to extend the term of the Order Form as permitted in

		the Order Form to allow Customer to retrieve Customer Data, or (ii) receives, no later than thirty (30) days after the effective date of the termination of this Agreement, a written request for the delivery to Customer of the then most recent back-up of the Customer Data. SAP shall use reasonable commercial efforts to deliver the back-up to Customer within thirty (30) days of its receipt of such a written request, provided that Customer has, at that time, paid all fees and charges outstanding and owed at termination. Customer shall pay all reasonable fees and expenses incurred by SAP in returning or disposing of the Customer Data.
	SuccessFactors	RPO and RTO are defined in the general terms and conditions
VMware	VMware Response: VMware IaaS Services VMware DR service. We can discuss specific recovery information under NDA to participating entities during task order negotiations as required. AirWatch Hosted Services We can discuss specific recovery information under NDA to participating entities during task order negotiations as required.	
FireEye	FireEye has a mature and documented Business Continuity Plan and Disaster Recovery Plan that follows industry best practices that is reviewed and tested annually. The BCP/DRP plan has RPO/RTO timing criteria and other critical business requirements that is available for review if requested in the future.	
VirtueStream	Basic Plus microVM's are designed for mission-critical workloads and for systems that require DR, addition of reserved compute capacity in a secondary datacenter (i.e. Reserve uVM) and automatic storage replication to facilitate the ability to restore operations in the event of an outage at the primary data center. RPO and RTO for core microVM's are 15 minutes and 2 hours respectively.	

e. Describe your Recovery Point Objective (RPO) and Recovery Time Objective (RTO).

CA	APM	Recovery Point Objective (RPO): Maximum data loss: 24 hours Data that is uploaded, but not backed up within the 24 hours may have to be re-entered Recovery Time Objective (RTO): 72 hours
	MAA	Recovery Point Objective (RPO): Maximum data loss: 24 hours Data that is uploaded, but not backed up within the 24 hours may have to be re-entered Recovery Time Objective (RTO): 72 hours
	CA Agile	RTO: 2 hours RPO: 12 hours
	ASM	Recovery Point Objective (RPO): Maximum data loss: 24 hours Data that is uploaded, but not backed up within the 24 hours may have to be re-entered Recovery Time Objective (RTO): 24 hours
Google	RPO/RTO objectives are zero hours.	
AODocs	AODocs is hosted on Google App Engine which is designed to be highly available. Our standard SLA is 99.5% . Specific financial penalties can be discussed as part of the AODocs license contract. Google App Engine is running in multiple datacenters on multiple continents.	

	AODocs data is backed up on a daily basis, and backups are stored on the highly redundant Google Cloud Storage. Backups are retained for at least 90 days	
Virtru	See 'Virtru Incident & Breach Policy'	
Salesforce	For business continuity purposes, Salesforce supports disaster recovery with a dedicated team and a 4 hour recovery point objective (RPO) and 12 hour recovery time objective (RTO). Additional details can be provided with the execution of an NDA between Salesforce and your Agency.	
ServiceNow	Please see our response for 8.8.1a	
QTS	QTS DRaaS will support all of your mission-critical application needs and enables you to achieve a RTO within minutes and RPO of just seconds.	
SAP	Ariba	See above
	Fieldglass	Fieldglass offers the following: • RTO = No more than 48 hours • RPO = No more than 6 hours. Warm site replica with 100% processing power of original site. Disaster recovery site can run without need from resumption.
	Hanna	For disaster Recovery, SAP HEC offers the following RTO & RPO 1. HANA Database RTO - 12 hours, RPO - 30 minutes 2. Sybase ASE Database RTO - 12 hours, RPO - 30 minutes
	Hybris	In the case of catastrophic failure to your primary production data center, we offer anywhere from best efforts to enhanced DR solutions. Enhanced DR options translates to either RTO of 8 hours and RPO of 1 hour for a warm standby solution, or RTO of 30 minutes to RPO of 30 minutes for a hot-site. Customers have 3 choices in DR sites: • as part of our base offering, best effort DR, we would bring your site back up in an alternate datacenter which is a minimum of 500 miles away from the primary datacenter. We would actually push your project server images to the alternate datacenter, but we would still need to set up your various interfaces, 3rd party services, etc, which could day a few days. • 2nd would be to have your DR site managed by hybris Managed Services. • 3rd would be to use your own DC as a DR site, We would need to set up a technical call with our combined teams to synch up on the replication strategies. • Our DR services utilizes VMware Site Recovery Manager with storage-based replication. • For enhanced DR, we would include one annual DR test, but more can be added if required. It also includes a customer specific DR and Business Continuity plan.
	SuccessFactors	Within the contract/subscription agreement, there are provisions for data recovery in the event of disaster. SLA's for RTO (Recovery Time Objective) and RPO (Recovery Point Objective) are defined in the contract. We will prioritize data recovery based upon our contractual obligations for each customer, concerning RTO and RPO.

VMware	VMware IaaS Services Provide the RPO and RTO for DR, point to SLAs for others. RTO – 4 hours or less RPO – 15 minutes to 24 hours – time is configurable by user but there is a bandwidth consideration for shorter replication times. VMWare AirWatch AirWatch Business Continuity (BC) and Disaster Recovery (DR) strategies include data and hardware redundancy, network configuration redundancy and backups, and robust, regular testing exercises. • Business Continuity – Our BC recovery strategies for support and maintenance include provisions for workforce mobility, secondary support locations, and defined leadership roles and responsibilities for all recovery staff. o Multiple Support Locations – AirWatch maintains a Global Support Team, which spans multiple offices around the world. This ensures that if a disaster occurs at one of our offices, our remaining Support Team members can provide assistance to our customers. o Mobile Workforce – Should an AirWatch office become inaccessible, all AirWatch employees are equipped with laptops and can access necessary internal resources. o Defined Leadership – During a disaster, roles and responsibilities are assigned to key personnel, and a recovery manager provides leadership and documents the continuity process. Additionally, emergency contact numbers for key personnel are provided for all vendors and support staff. • High Availability and Disaster Recovery – AirWatch features active-passive configurations for high availability and redundancy with all components made to failover with minimal downtime. Load balancing capabilities are deployed across multiple data centers to ensure immediate server pick up, ensuring zero end user downtime. AirWatch also incorporates replication technology featuring SQL log shipping or network SAN byte replication to prevent data loss. Due to FOIA restrictions and the competitive nature of the EMM marketplace, we cannot provide specific details regarding recovery strategies or timelines.
FireEye	FireEye has a mature and documented Business Continuity Plan and Disaster Recovery Plan that follows industry best practices that is reviewed and tested annually. The BCP/DRP plan has RPO/RTO timing criteria and other critical business requirements that is available for review if requested in the future.
VirtueStream	Virtustream's solution will have a Recovery Point Objective (RPO) of 2 Hours and Recovery Time Objective (RTO) of 30 Minutes for all disaster recovery enabled workloads. The Virtustream Cloud has been designed to deliver continuous operations. The platform is architected to be highly available, with SLAs as up to 99.99%. All infrastructure systems are run in at least an N+1 model and have been designed with no single points of failure. All of the data center facilities and infrastructure has redundant power supplies connected to separate circuits from separate power feeds. Every device is connected via redundant pathways at a LAN/SAN/WAN layer. State of Utah can choose any of our FedRAMP Data Centers to host their applications and the DR location. For illustrative purposes, we have assumed the primary data center will be USDC02 and DR data center would be USDC01. The State of Utah solution has been designed with all workloads running in our San Francisco (USDC02) data center. In the unlikely event of a disaster at the USDC02 facility, State of Utah's production services will be brought back online in the secondary data center located in Northern Virginia (USDC01). The target RPO is 30 minutes for virtual machines with a 2 hour RTO. All production workloads in the primary node will have reserved compute capacity in the secondary node when deployed using Reserve µVMs and replicated storage. All virtual machine disaster recovery services are based on storage replication. The primary and secondary data centers are interconnected by diverse private 10 Gbps Sonet rings from separate Tier 1 providers – AboveNet and Level 3. Data is replicated asynchronously and continuously between the two data centers.

	Virtustream also performs backups on a nightly basis and replicated offsite for further protection. The retention policies are determined by State of Utah per landscape and will be documented during the on-boarding process. **Figure 2. Integrated Disaster Recovery** 

8.8.2 Describe your methodologies for the following backup and restore services:

a. Method of data backups

CA	APM	Backups are stored on disk only
	MAA	Backups are stored on disk only, sync'd between data centers for DR purposes.
	CA Agile	Full database backups are taken once per week, both to onsite and offsite (our warm data center, not a separate 3rd party) systems. Incremental backups are run nightly. Backups are retained for 21 days after which time they are simply aged out and over-written. In addition, snapshots of database transactions are taken every hour to an disaster recovery site allowing for emergency disaster recovery with maximum of 1.5 hours of data loss due to catastrophic onsite failure (fire in cage, natural disaster, etc. at data center). Backups are tested monthly and a full disaster recovery process to the offsite application cluster is tested semi-annually.
	ASM	Backups are stored on disk only, sync'd between data centers for DR purposes.
Google	Keeping in mind that Google stores customer data in encrypted chunks or shards on several servers at several data centers backups should not be considered customer specific. Daily backups of each server are performed to encrypted tapes at each data center.	
Virtru	We perform live database replication to a separate redundant database in Oregon and offline as well in a separate Amazon AWS Region	
Salesforce	Customer data, up to the last committed transaction, is replicated to disk in near-real time at the designated disaster recovery data center, backed up at the primary data center, and then cloned to the disaster recovery data center. Disaster recovery tests verify our projected recovery times and the integrity of the customer data.	

	Backups are performed daily at each data center facility without stopping access to the application. Backup cloning is transmitted over an encrypted network (our MPLS network across all data centers). Tapes never leave our secure data center facilities, unless they are to be retired and destroyed through a secure destruction process. The backup retention policy is 90 days (30 days for sandboxes). Deleted / modified data cannot be recovered after 90 days (30 days for sandboxes). If customers want a longer retention, they can use the weekly export feature available in the system.	
ServiceNow	While Advanced High Availability as described in 8.8.1 is the primary means to recover data and restore service in the case of a service disruption, in certain cases it is desirable to use ServiceNow's more traditional data backup and recovery mechanism. This data backup and recovery system works in concert with AHA and acts as a secondary recovery mechanism. ServiceNow stores production instances in two geographically separate regional data centers, with sub-production instances hosted in a single data center. Backups of the two production databases and the single sub-production database are taken everyday for all instances throughout the private cloud infrastructure. The backup cycle consists of four weekly full backups and the past 6 days of daily differential backups that provide 28 days of backups. All backups are written to disk, no tapes are used and no backups are sent off site. All the controls that apply to live customer data also apply to backups. If data is encrypted in the live database then it will also be encrypted in the backups. Regular, automated tests are run to ensure the quality of backups. Any failures are reported for remediation within ServiceNow.	
QTS	QTS operates and manages high-performance, multi-tenant platforms on which customer system and data file backups can be created and retained for rapid restore of files/volumes. Data can be stored on tape or disk, depending on QTS location, and can reside locally in a QTS data center or off-site. If there is a need for off-site data retention, the backup medium is tape. QTS can also replicate the backed up data from the primary site to a secondary (remote) site to address geographically remote storage and DR requirements. Secure: QTS utilizes a separate, secure gigabit backup network with private VLAN security. Physical security is monitored using a priority badge access system to limit access to the tape libraries, disk arrays, servers, and network infrastructure. From the application, the backup software controls access to the data stored on tape, and access security is limited to QTS staff only. Scalable: QTS backup systems are highly scalable, and capacity can be quickly added as needed.	
SAP	Ariba	Our primary data center is Equinix, in San Jose; CA. Ariba's backup data center is CenturyLink in Sterling, VA. We make many copies of our data to insure no data loss happens: Data is stored in databases on high-availability storage disk-based system in primary datacenter Data is copied as backup to high-availability disk storage in the primary datacenter Data is copied to tape and kept in the primary data center Data is copied to tape and kept in an off-site tape storage facility (Iron Mountain) in Union City Data is replicated to databases high-availability storage disk-based system in the backup datacenter Data is copied as backup to high-availability disk storage in the backup datacenter Data is copied to tape and kept in the backup datacenter

		Data replication to the remote datacenter happens in near-real time. Data is backed up to the backup disks multiple times a day (in each location) Data is written to tape once a day (in each location) These processes and procedures are audited against the ISAE 3402 standard. Our auditor verifies we can restore from these backup methods.
	Fieldglass	All data in the Fieldglass system is stored within our clustered databases. Full backups daily, 15 minute incremental backups, and replication from center to center of backup data continuously.
	Hanna	The backup of SAP systems in HEC is executed on EMC DataDomain deduplication storage. This is done using EMC Networker for backup and administration. The backups on Site A are also replicated to remote Site B.
	SuccessFactors	Data backup is undertaken as follows: storage system snapshots every 24 hours, nightly incremental database backups, and weekly full database backups. These are all standard and provided as part of our hosted service. All backups are stored on disk in the primary and backup data center facilities for 30 days. Database backups are encrypted and stored at a customer's "primary" location, as well as the "alternate" warm-site location for redundancy and disaster recovery purposes. If the customer's primary location is defined as the data center in Amsterdam, NL, then copies of their database would be encrypted and streamed in a secure manner to the data center based in St Leon-Rot, DE, and vice versa. The backup is stored on Storage Area Network systems encrypted with AES-256 bit by encryption appliance. Backups are retained for 30 days. Our Log File Retention Policy is designed to meet or exceed the most stringent industry standards. Archiving of data is the customer's responsibility.
VMware	VMware will provide the following services to participating entities with respect to Data Recovery: •Data protection, such as routine backups, for the vCloud Air infrastructure, including top-layer management and user-management interfaces owned and operated by VMware. •Data and infrastructure restoration for the vCloud Air infrastructure, including top-layer management and user-management interfaces owned and operated by VMware. Participating entities will be responsible for the following services with respect to Data Recovery: •Data protection, such as routine backups, for the data and content accessed or stored on vCloud Air virtual machine's or storage devices, configuration settings, etc. •Data, content, virtual machine and configuration restorations for assets accessed or stored on your vCloud Air account. Data Protection is an optional service that provides secure, image-based backup and recovery capabilities that enable you to protect important virtual machine data and content hosted in your vCloud Air IaaS environment. Through the Data Protection administration interface available in the vCloud Air Console, vApps and their virtual machine members can be selected for policy-based backup and recovery operations. Data Protection feature subscription and activation may be requested via My VMware and is subject to additional service fees based on the amount of backup data capacity. Backup data capacity for the service is measured in front end terabytes (FETB). Once activated, vApps and their virtual machine members may be registered and unregistered with Data Protection features on a self-service basis through the vCloud Air Console. As part of this service, VMware will: •Implement and maintain central service components (backup software appliances, backup and archival storage media and associated network topologies) needed to support Data Protection features. •Perform routine configuration, maintenance and optimization services on behalf of the Data Protection environment and in conformance with industry best practices.	

	•Allocate requisite backup storage based on capacity selections made at the time of subscription enrollment. •Guarantee storage locality per geographical region for all backup data. •Provide necessary Data Protection service reporting as it is requested. Participating entities will be responsible for: •Subscribing to Data Protection as an add-on feature via My VMware and selecting an amount of backup storage capacity commensurate with your requirements. •Creating custom backup protection policies that may include, but are not limited to: affinity settings per VDC, scheduling, and retention periods. •Registering and unregistering individual vApps and their virtual machine members for scheduled backups using Data Protection. •Performing any on-demand backups per vApp and its virtual machine members. •Performing in-place or out-of-place restores per vApp and/or individual virtual machine. •Managing any in-guest recovery tasks, including restore operations at the operating system, file systems and/or any application level. •Managing backup storage capacity and consumption that may include, but is not limited to: activity reporting, ordering additional storage capacity via My VMwareTM and deleting any backup data in inventory to free up space.
FireEye	All backup and restore procedures are in compliance with SOC 2 specifications. Data and server images are backed up digitally and replicated to datacenters in geographically different locations.
VirtueStream	Virtustream performs backups on a nightly basis and replicated offsite for further protection. The retention policies are determined by State of Utah per landscape and will be documented during the on-boarding process. Virtustream provides OS level files are protected with a File System backup and then protect the application with an integrated solution. Some of the databases would dump to a flat file format and those files would be protected with the standard file system backup.

b. Method of server image backups

CA	APM	N/A
	MAA	Automation tools are used to manage the configuration of MAA internal servers, and can be used for recovery.
	CA Agile	Systems are not backed up as we have determined rebuilding is faster than restoring. We manage systems through Chef and the configuration cookbooks are backed up.
	ASM	Automation tools are used to manage the configuration of ASM internal servers, and can be used for recovery.
Virtru	All images are backed up onto cloud storage on two separate provider systems	
Salesforce	Each server has been allocated a different volume group so it can fail over to its backup server within the instance independently of the others.	
ServiceNow	Please see our response to 8.8.2a	
QTS	Your data storage requirements are growing exponentially and a scalable comprehensive solution for storage and data protection is absolutely necessary in today's marketplace. Implementing and managing this necessary storage infrastructure to meet both your application and compliance requirements can be extremely time consuming and costly. Outsource your storage needs to QTS. With our portfolio of high-performance and cost-effective managed storage services, your data will be secure and guaranteed to be available when you need it. By leveraging market leading hardware and software, coupled with certified processes and personnel, QTS delivers dependable, auditable solutions.	

	Managed SAN (Shared and Dedicated)- a fast, reliable Fibre Channel (FC) and iSCSI SAN attached storage solution that easily scales to meet your business requirements. SAN-to-SAN Replication - provides block level asynchronous replication of your Managed SAN FC service between two of our state-of-the-art data centers for your disaster recovery needs.	
SAP	Ariba	See above
	Fieldglass	Fieldglass does not run server image backups. All systems are designed to be created through a series of templates and scripts.
	Hanna	The defined backup package includes a file system, operating system files, and the database backup. The frequency in which the backup is executed varies for each of the components mentioned above. This depends on the standard HEC service schedules and the service levels agreed on with the customer.
VMware	VMware will provide the following services to participating entities with respect to Data Recovery: •Data protection, such as routine backups, for the vCloud Air infrastructure, including top-layer management and user-management interfaces owned and operated by VMware. •Data and infrastructure restoration for the vCloud Air infrastructure, including top-layer management and user-management interfaces owned and operated by VMware. Participating entities will be responsible for the following services with respect to Data Recovery: •Data protection, such as routine backups, for the data and content accessed or stored on vCloud Air virtual machine's or storage devices, configuration settings, etc. •Data, content, virtual machine and configuration restorations for assets accessed or stored on your vCloud Air account. Data Protection is an optional service that provides secure, image-based backup and recovery capabilities that enable you to protect important virtual machine data and content hosted in your vCloud Air IaaS environment. Through the Data Protection administration interface available in the vCloud Air Console, vApps and their virtual machine members can be selected for policy-based backup and recovery operations. Data Protection feature subscription and activation may be requested via My VMware and is subject to additional service fees based on the amount of backup data capacity. Backup data capacity for the service is measured in front end terabytes (FETB). Once activated, vApps and their virtual machine members may be registered and unregistered with Data Protection features on a self-service basis through the vCloud Air Console. As part of this service, VMware will: •Implement and maintain central service components (backup software appliances, backup and archival storage media and associated network topologies) needed to support Data Protection features. •Perform routine configuration, maintenance and optimization services on behalf of the Data Protection environment and in conformance with industry best practices. •Allocate requisite backup storage based on capacity selections made at the time of subscription enrollment. •Guarantee storage locality per geographical region for all backup data. •Provide necessary Data Protection service reporting as it is requested. Participating entities will be responsible for: •Subscribing to Data Protection as an add-on feature via My VMware and selecting an amount of backup storage capacity commensurate with your requirements. •Creating custom backup protection policies that may include, but are not limited to: affinity settings per VDC, scheduling, and retention periods. •Registering and unregistering individual vApps and their virtual machine members for scheduled backups using Data Protection.	

	•Performing any on-demand backups per vApp and its virtual machine members. •Performing in-place or out-of-place restores per vApp and/or individual virtual machine. •Managing any in-guest recovery tasks, including restore operations at the operating system, file systems and/or any application level. •Managing backup storage capacity and consumption that may include, but is not limited to: activity reporting, ordering additional storage capacity via My VMwareTM and deleting any backup data in inventory to free up space.
FireEye	All backup and restore procedures are in compliance with SOC 2 specifications. Data and server images are backed up digitally and replicated to datacenters in geographically different locations.
VirtueStream	OS level files are protected with a File System backup and then protect the application with an integrated solution where available. Otherwise databases would dump to a flat file format and those files would be protected with the standard file system backup. Additionally, core microVM's are automatically replicated to a secondary datacenter for DR purposes.

c. Digital location of backup storage (secondary storage, tape, etc.)

CA	APM	Backups are securely replicated to an alternate location (within the same geographic location (e.g. N. America))
	MAA	Daily differential and full backups reside in the primacy site with weekly data backups residing offsite.
	CA Agile	Backups are stored in our warm data center.
	ASM	CA has an alternate site approximately 900 miles from our primary site.
Google	Tape	
Virtru	All backup storage is hosten in two separate cloud storage regions	
Salesforce	Backups are performed daily at each data center facility without stopping access to the application. Backup cloning is transmitted over an encrypted network (our MPLS network across all data centers). Tapes never leave our secure data center facilities, unless they are to be retired and destroyed through a secure destruction process.	
ServiceNow	Please see our response to 8.8.2a	
QTS	Managed Tape Rotation and Off-site Storage This service provides off-site storage for data backup, and helps many customers who must store data separately from a primary IT site to comply with various laws and regulations. QTS has contracted Iron Mountain — a nationally recognized leader in off-site data storage services — to move the data storage media (tapes) to and from a secure, off-site location. The service enables data security, integrity, and restoration in the event of an outage. Off-site data storage via tape ensures that a customer's information is securely stored in multiple locations. In the event of an emergency, QTS and Iron Mountain deliver the customer's media back to their IT environment or wherever they request delivery. Secure: QTS staff adheres to storage-industry best practices and security procedures. QTS facilities have earned SSAE16-SOC1 accreditations. All media is maintained in a secure environment and locked in secure media containers during transition from the QTS environment to the off-site storage location. Compliance and Tracking: QTS's partnership with Iron Mountain provides the ability to offer logging and tracking information about the customer's off-site media via the SecureSync Web portal.	
SAP	Ariba	See above

	Fieldglass	Fieldglass houses all backup data vaults within its production data centers. Replicas of the vault are performed continuously across data centers more than 1,000 miles apart.
	SuccessFactors	All data is backed up to the secondary site and can be restored from there in the event of a disaster recovery event at the primary site.
VMware	VMware vCloud Air Data Protection provides backup storage to disk	
FireEye	All backup and restore procedures are in compliance with SOC 2 specifications. Data and server images are backed up digitally and replicated to datacenters in geographically different locations.	
VirtueStream	Virtustream performs backups on a nightly basis and replicated offsite for further protection. The retention policies are determined by State of Utah per landscape and will be documented during the on-boarding process. Backup data is stored on local enterprise class disk storage systems and can be replicated to systems in a secondary Virtustream datacenter. All of Virtustream backup is disk based solution. Encryption keys are generated at the time of backup application install on the Client VM(s). Encryption keys are at least AES-128 but can be AES-256. Keys are stored on the backup system databases using the encryption key management tool, the data about the keys on the database is in a unreadable format and cannot be decrypted	

d. Alternate data center strategies for primary data centers within the continental United States.

CA	APM	The location where data is stored is generally in the country where the contract is executed.
	MAA	The MAA service is currently available from one data center only.
	CA Agile	We have a hot/warm data configuration with both data centers located within the US but ~1300 miles apart.
	ASM	ASM has a warm standby with near time data replication between the data centers.
Google	Google does not use the N+1 data center assignment due to the risk of cascading failures. Google's infrastructure makes a dynamic decision for each unique login session which data center is the closest, most highly available data center and which data centers will be used as secondary and tertiary. This assignment would shift for that session throughout the day based on availability and is done completely seamless to the end user.	
Virtru	We utilize multiple availability zones in AWS, and backup all data stored in our database to separate datacenters	
Salesforce	Customer Data for customers in Salesforce's Government Cloud is stored in two of our U.S. data center locations. The Salesforce service performs near real-time replication at each data center and annual disaster recovery tests for the service verify the projected recovery times and data replication between the production data center and the disaster recovery center. The disaster recovery site is a 100% replica of the primary production site of capacity (host, network, storage, data). Data is transmitted between the primary and disaster recovery data centers across encrypted links. Additionally, back-ups of data are performed and data is retained on backups at the geographically separated disaster recovery data center location.	
ServiceNow	Please see our response to 8.8.2a	
QTS	The QTS cloud alternate storage sites are located at the following data centers: Richmond, VA, Atlanta, GA, and Suwanee, GA. The entire QTS cloud is a unified standalone Active cloud architecture and is backed up in both Atlanta and Richmond to include: Customer data in the Service Delivery Hypervisor Cluster, and; Cloud Hypervisor Management Infrastructure and Configuration backups.	

	The QTS cloud Security documentation is backed up in alternate site located Suwanee, GA to include: Software/operating Systems, Configuration Data and Security Documentation QTS cloud Management Infrastructure and Configuration Data: Richmond, VA: The Richmond Cloud Management Layer (Cloud Hypervisor Management Cluster) and Customer data in the Service Delivery Hypervisor Cluster, and Configuration data is backed and staged locally in Richmond on the management layer then backed up across the Site-to-Site Management VPN to Atlanta, GA. This process is separate and independent of the Customers Service Delivery Layer. Atlanta, GA: The Atlanta Cloud Management Layer (Cloud Hypervisor Management Cluster) and Configuration data is backed and staged locally in Atlanta on the management layer then backed up across the Site-to-Site Management VPN to Richmond, VA. This process is separate and independent of the Customers Service Delivery Layer. This process maintains both local and remote management layer data and configuration backup for both locations. Suwanee, GA: software/operating systems, configuration data and security documentation at Rocstor Rocsecure Amphibious X7s with Secure-Encrypted Two-Factor Authentication, Utilizing AES-256 CBC Real-Time Hardware Encryption, with NIST and FIPS 140-2 Certified Cryptographic Modules, in a firerated safe located at Suwanee, GA.	
SAP	Ariba	We have a warm site for failover. Equinix (Our primary data center) is located in San Jose, California and our disaster recovery site is located at CenturyLink Data Center in Sterling, Virginia. The act of failing over from the main data center to the recovery site data center has a design goal recovery time objective (RTO) of four hours. The design goal Recovery Point Objective (RPO) is five minutes. In the event of a fail-over to the disaster recovery site location, all URLs that customers use to reach the San Jose data center will continue to work. We will notify customers via their email addresses in the event of unplanned downtime. Internally, we use a documented system recovery plan that outlines the approach and steps for recovering the applications. The document defines roles and responsibilities in the event of disaster: Local staff maintains the hardware remotely We maintain the application software Processes are in place to keep database and fileservers in sync between primary and backup data centers In the event of a catastrophe, we will declare the primary data center ""down"" and our local staff will follow a script to start the applications at the remote data center We test power outage backup scenarios and the Disaster Recovery Plan on a periodic basis.
	Fieldglass	Please see the answer to Question 8.8.2A. above. Fieldglass' backup data center is located in San Jose, CA.
	Hanna	The backup of SAP systems in HEC is executed on EMC DataDomain deduplication storage. This is done using EMC Networker for backup and administration. The backups on Site A are also replicated to remote Site B. For example, site A &B may be Santa Clara, CA and Sterling, VA, respectively.
	Hybris	In the case of catastrophic failure to your primary production data center, we offer anywhere from best efforts to enhanced DR solutions. Enhanced DR

		options translates to either RTO of 8 hours and RPO of 1 hour for a warm standby solution, or RTO of 30 minutes to RPO of 30 minutes for a hot-site. Customers have 3 choices in DR sites: • as part of our base offering, best effort DR, we would bring your site back up in an alternate datacenter which is a minimum of 500 miles away from the primary datacenter. We would actually push your project server images to the alternate datacenter, but we would still need to set up your various interfaces, 3rd party services, etc, which could day a few days. • 2nd would be to have your DR site managed by hybris Managed Services. • 3rd would be to use your own DC as a DR site, We would need to set up a technical call with our combined teams to synch up on the replication strategies. • Our DR services utilizes VMware Site Recovery Manager with storage-based replication. • For enhanced DR, we would include one annual DR test, but more can be added if required. It also includes a customer specific DR and Business Continuity plan.
	SuccessFactors	Each client has a designated primary and backup data center which is geographically separated as well as existing on different power and telecommunications grids.
VMware	Customers can purchase Rackware to provide geographical HA and COOP, but this service is not provided as a core capability of vCA or vCGS. VMware AirWatch AirWatch backs up the production environment from the primary US data center to the secondary US data center. Due to FOIA restrictions and the competitive nature of the EMM landscape, we cannot provide additional backup scheduling or image security procedures.	
FireEye	All backup and restore procedures are in compliance with SOC 2 specifications. Data and server images are backed up digitally and replicated to datacenters in geographically different locations.	
VirtueStream	State of Utah can choose any of our FedRAMP Data Centers to host their applications and the DR location. For illustrative purposes, we have assumed the primary data center will be USDC02 and DR data center would be USDC01. The State of Utah solution has been designed with all workloads running in our San Francisco (USDC02) data center. In the unlikely event of a disaster at the USDC02 facility, State of Utah's production services will be brought back online in the secondary data center located in Northern Virginia (USDC01). The target Recovery Point Objective (RPO) is 30 minutes for virtual machines with a 2 hour Recovery Time Objective (RTO). All production workloads in the primary node will have reserved compute capacity in the secondary node when deployed using Enterprise Reserve µVMs and replicated storage. All virtual machine disaster recovery services are based on storage replication. The primary and secondary data centers are interconnected by diverse private 10 Gbps Sonet rings from separate Tier 1 providers – AboveNet and Level 3. Data is replicated asynchronously and continuously between the two data centers. Virtustream also performs backups on a nightly basis and replicated offsite for further protection. The retention policies are determined by State of Utah per landscape and will be documented during the on-boarding process.	

8.9 Data Protection

8.9.1 Specify standard encryption technologies and options to protect sensitive data, depending on the particular service model that you intend to provide under this Master Agreement, while in transit or at rest.

CA	APM	All data is encrypted via TLS Mutual Auth during transit

	MAA	HTTPS/TLS encrypts the data in-transit. Sensitive data rest is encrypted using native encryption of SQL and NoSQL vendors.
	CA Agile	All data in transit is encrypted - we support TLS 1+. For data at rest we have both database and disk level encryption. DB encryption utilizes Oracle TDE w/ AES-256.
	ASM	All data transmitted between data centers is encrypted in-transit. HTTPS/TLS is used by the ASM dashboard and API.
Google	All connections from customer end point devices to Google's Front End Servers are encrypted with enforced HTTPS sessions using Forward Secrecy. Google websites and properties use robust public key technologies: 2048-bit RSA or P-256 ECDSA SSL certificates issued by a trusted authority (currently the Google Internet Authority G2). All data in transit between Google's Data Centers traverses across Google's private fiber network using a customized, proprietary encryption technology. Google hard drives leverage technologies like FDE (full disk encryption) and drive locking, to protect data at rest. These methods of encryption are fully managed by Google and Google's Key Management Servers based on 128-bit or stronger Advanced Encryption Standard (AES). Encryption Keys and Ciphers Supported by Google Protocols TLS 1.2 TLS 1.1 TLS 1.0 SSL 3.04 QUIC Cipher suites ECDHE_RSA with AES ECDHE_RSA with 3DES ECDHE_ECDSA RSA with AES RSA with 3DES Signing keys RSA 2048 ECDSA P-256 Hash functions SHA384 SHA256 SHA1 MD5	
AODocs	All data in transit is encrypted via SSL/TLS Vendor interfaces are available only via HTTPS Email is exchanged via SMTP/TLS All AODocs data are stored in Google AppEngine.	
Virtru	AES-256 in CBC mode, TLS 1.2 ECDHE	
Salesforce	Encryption Capabilities Salesforce has many customers that are subject to laws pertaining to the processing of personally identifiable information (PII) or personal data. Salesforce offers its customers a broad spectrum of functionalities and customer-controlled security features that its customers may implement in their	

	respective uses of the Salesforce services. Salesforce believes that these provide its customers the flexibility to comply with laws with stringent privacy and security requirements. Data In Motion All transmissions between the user and the Salesforce Services are TLS encrypted with a 2048-bit Public Key. The Services use International/Global Step Up TLS certificates, with AES 256-bit encryption by default. Data At Rest Salesforce includes a feature to encrypt custom text fields (ECF): The fields can be masked appropriately for specific data types (i.e., credit card number, Social Security Number, National Insurance Number, Social Insurance Number). Access to read the masked parts of the fields is limited by the ""View Encrypted Data"" permission, which is not enabled by default. Customers can manage their encryption key based on their organization's security needs and regulatory requirements. Encrypted fields are encrypted with 128-bit keys and use the AES (Advanced Encryption Standard) algorithm. Additional Salesforce Encryption Capabilities Apex Code extends the powerful and proven success of the Force.com platform by introducing the ability to write code that runs on Salesforce servers. This language makes possible the development of a new class of application and features deployed entirely on demand. Using Apex, your Agency can create user interface classes that utilize the Apex crypto class to encrypt field level data up to AES 256-bit encryption. Third Party Encryption Solutions (Additional License Option) Should additional encryption be required, third party solutions such as CipherCloud, Skyhigh, and PerspecSys are available on the Salesforce AppExchange. These solutions offer data loss prevention, user activity and monitoring, malware protection, as well as data protection with encryption and tokenization. Data can be encrypted and masked at rest, keys managed and stored in Salesforce, and compliance controls to prevent unauthorized access to data and keys.
ServiceNow	ServiceNow makes use of encryption for both data in transit and data at rest. ServiceNow provides optional capabilities with regard to the encryption of data at rest within the system, which customers can apply at their own discretion. Encryption in Transit ServiceNow customers access their instances over the Internet using forced Transport Layer Security (TLS) encryption (AES128/256) for all user access. The level of encryption is based on the browser and must be configured by the customer as ServiceNow does not modify any browser settings. All attempts to access ServiceNow over HTTP are redirected to HTTPS. Integration Encryption For integrations such as LDAP and Web Services, ServiceNow provides customers with the ability to encrypt traffic. LDAP can be configured to run over SSL, this requires customers to provide a certificate for the specific LDAP server. Certificates may also be stored within an instance to allow encrypted transmission for Web Services integrations. FTPS and SCP can be used as file transfer methods to securely transfer files to ServiceNow. Email Encryption Customers may configure their instance to generate emails to their users from the instance. ServiceNow provides the capability to receive email over TLS. Customers are able to configure their

	email system to send email to ServiceNow over TLS and ServiceNow will receive that email over TLS. Encryption at Rest ServiceNow can provide three types of encryption for data at rest that are implemented by the customer or by customer request in the case of edge encryption and dedicated hardware. •Column encryption of customer added fields and attachments: Provides data encryption using AES128/256 or 3DES symmetric key encryption. The customer provides the keys for this encryption. Data stored in these fields cannot be searched or reported on and this does not support out of the box fields. •Edge Encryption Proxy: With optional additional cost Edge Encryption, the customers create and control their encryption keys within their own network. Edge Encryption includes a proxy application that resides in a customer's network. This encrypts data before it is sent (also encrypted in transit) from the customer's environment to the ServiceNow instance. The data always remains encrypted whilst stored in the instance and the data along with the keys and the encryption configuration is never accessible by ServiceNow. Requests for encrypted data must also be made through the proxy application and is therefore decrypted only within the customer's network before being sent to their end users client browser. Please note that data encrypted with Edge encryption cannot be used by back-end scripts or processes and searching and reporting behavior is also modified through its use. •Full disk encryption: Provides via self-encrypting hard drives with AES256 bit encryption. This encryption capability is only available through the purchase of dedicated ServiceNow hardware at an additional cost. This delivers "at-rest" protection only and is focused solely on preventing data exposure through the loss or theft of hard disks holding customer data. Wherever possible, ServiceNow leverages existing FIPS 140-2 certified technologies.	
Docusign	Secure, private SSL 256 bit viewing session Anti-tampering controls Signature verification of signing events Unalterable, systematic capture of signing data Digital certificate technology Customer configurable data retention program	
SAP	Ariba	We enforce minimum AES 128-bit encryption using Transport Layer Security (TLS) for all sessions. We encrypt only PCI-DSS data in the database where appropriate and in support of PCI-DSS compliance. All backup media is encrypted using AES 256-bit cipher prior to transporting to off-site storage
	Fieldglass	Our application provides a high level of application-level security through a combination of encryption, page-level access checking, document envelopes, and activity logging. Application security is handled through a combination of programming checks, application server configuration, and database server configuration. Fieldglass uses 2048-bit SSL (HTTPS) encryption for all data transmissions over the public Internet, including data shared between the product and end users and data shared between the product and back-end systems. Data is decrypted on the internal VLAN to allow IDS monitoring. Passwords are hashed using a one-way hash based on the SHA-256 encryption algorithm. The hash value is saved within the database; not the password. The base Fieldglass application does not require data that would require breach notifications if compromised. While customers should not store sensitive personal data, custom fields may be defined by the customer that can be encrypted with AES-256 to capture any pertinent and permissible data points. These fields can also be optionally masked from view while entering and viewing the fields in the application.

	Hanna	Initial encrypted data load - physical encrypted data transfer possible Encrypted connection to HEC DC - SAP solutions support various VPN-device vendors and specifications that can be used to setup a secure and encrypted tunnel between cloud solutions from SAP on the customer network segment and the customer site. Optional Data at Rest encryption - HANA encryption at Rest activated during system build upon request. Moreover data at rest is properly protected against unauthorized access, these controls include •Physical security controls in SAP HEC Datacenters in place •Physical separation of "online" storage and backup (physically separated DC sections) •Strict User and Access Management (segregation of duties) •Authorization Management according to the need to know principle also for administrative accounts, e.g. DBAs have limited authorizations to perform DB operation only •Security Logging and Security Monitoring for critical activities / access Optional encryption in transit can be configured on customer request which requires a different subset of DC's from delivery perspective.
	Hybris	Encryption is provided through SSL connectivity at the web application layer as well as VPN secure encrypted tunnel for back-office integration connectivity. Further encryption capabilities are available through the hybris Advanced Security Module (optional).
	SuccessFactors	All data in the system is treated as highly sensitive information. The application and infrastructure offers Strong Encryption, Encryption in Transit and Encryption at Rest, including the following (some of these are options that are not included in the base services): Transport Layer Security (TLS) technology, consisting of a public key and a private key, to protect sensitive information. The public key is used to encrypt information and the private key is used to decipher it. When a Web browser points to a secured domain, a handshake authenticates the server (website) and the client (browser). An encryption method is established with a unique session key. Customers may then begin a secure session that facilitates message privacy and integrity. Hitachi SAN storage arrays provide a reliable safe, secure data storage environment. We use AES-256 bit encryption to secure data at the block level of our storage systems. Backups are performed ""disk to disk"". Data is transported over 3DES VPN and stored on encrypted disk using Data Domain replication technology
VMware	VMWare IaaS Services Data in transit will be encrypted based upon the customers selected method of transport (SSL or IPSEC VPN). Data at rest encryption is the responsibility of the customer. By example HyTrust is an endpoint encryption choice for many vCloud Air customers. VMWare AirWatch AirWatch leverages strong, non-proprietary encryption algorithms to protect applicable data at rest and in transit. Due to FOIA restrictions and the competitive nature of the EMM landscape, we cannot provide specific encryption algorithms and protocols.	
FireEye	Each of the FireEye offered solutions have their own implementations and practices concerning encryption:	

	1.Email Threat Prevention (ETP) ETP offers TLS encryption support for data in transmission. ETP only stores email found to contain malware or malicious content and does not encrypt this data. 2.Mobile Threat Prevention (MTP) All data in transit is protected using standard TLS encryption. The database itself is not encrypted. However, all systems are under strict security and access control rules, in compliant with SOC 2 regulations. 3.Threat Analytics Platform (TAP) All data in-transit between a customer environment and TAP instance in Amazon AWS is encrypted with a 256-bit Twofish key. No customer data is stored on disk, however data stores leverage Amazon AWS S3 encryption settings. 4.FireEye as a Service (FaaS CV) FireEye appliance communications, and FireEye as a Service (FaaS) non-person entity (NPE) secured inter-process communications employs industry standard HTTPS encrypted web interfaces, and multifactor SSH management access for the end-to-end protection of sensitive customer data. In addition, FaaS communicates with FireEye appliances with additional layers of protected symmetric key exchanges protecting and establishing encrypted channels for inter-device information.
VirtueStream	Encryption keys are generated at the time of backup application install on the Client VM(s). Encryption keys are at least AES-128 but can be AES-256. Keys are stored on the backup system databases using the encryption key management tool. The data about the keys on the database is in an unreadable format and cannot be decrypted.

8.9.2 Describe whether or not it is willing to sign relevant and applicable Business Associate Agreement or any other agreement that may be necessary to protect data with a Purchasing Entity.

Carahsoft would be willing to sign Business Associate Agreements or similar agreements that are set forth with a purpose of protecting customer data.

8.9.3 Offeror must describe how it will only use data for purposes defined in the Master Agreement, participating addendum, or related service level agreement. Offeror shall not use the government data or government related data for any other purpose including but not limited to data mining. Offeror or its subcontractors shall not resell nor otherwise redistribute information gained from its access to the data received as a result of this RFP.

Agreed and understood. Carahsoft and its' subcontractors will not use any government data for purposes other than those outlined within the frameworks of this contract.

8.10 Service Level Agreements

8.10.1 Offeror must describe whether your sample Service Level Agreement is negotiable. If not describe how it benefits purchasing entity's not to negotiate your Service Level Agreement.

CA	APM	The target availability SLA of 99.8% is standard and not negotiable
	MAA	The target availability SLA of 99.8% is standard and not negotiable
	CA Agile	The target availability SLA of 99.8% is standard and not negotiable
	ASM	The target availability SLA of 99.8% is standard and not negotiable
Google	Google maintains a single SLA for all customers.	
AODocs	AODocs maintains a single SLA for all customers.	
Virtru	Agreement can be negotiated for certain large customers.	

Salesforce	Salesforce does not typically offer Service Level Agreements as part of the base service offering. Our approach is to offer a service with high availability and fast resolution of problems. If a customer requires an SLA it will be negotiated separately. The persistence layer underlying Salesforce Platform is proven database technology that powers all of Salesforce's products today, serving more than 150,000 organizations and over 4 billion transactions per day with an average request response time of less than .25 seconds all with an average up time of 99.9+ percent. Salesforce uses commercially reasonable efforts to make its on-demand services available to its customers 24/7, except for planned downtime, for which Salesforce gives customers prior notice, and force majeure events. Excellent availability statistics are critical to Salesforce's customers' success and to the success of Salesforce as a company. Live and historical statistics on the Salesforce system performance are publicly published at http://trust.salesforce.com/trust/status. Salesforce has maintained high levels of availability across all Salesforce instances since inception. As the only on-demand vendor to provide daily service-quality data on a public Web site (http://trust.salesforce.com), Salesforce proves that we are the leader in availability. And by making its track record completely transparent, Salesforce proves we are worthy of our customers' trust. To ensure maximum uptime and continuous availability, Salesforce provides the best redundant data protection and most advanced facilities protection available, along with a complete data recovery plan—all without affecting performance.	
ServiceNow	ServiceNow's SLA is not negotiable. ServiceNow delivers the same level of world-class support to all customers as described in the "Subscription Service Guide" included with this response. ServiceNow's homogeneous private cloud environment where all applications are on a single platform offers ServiceNow a competitive advantage in being able to concentrate its efforts to make the customer's user experience the best possible. The ServiceNow environment is a private cloud, fully owned and operated by ServiceNow. ServiceNow's experience & understanding of its private cloud and the benefits provided by a consistent infrastructure and standardized processes allow it to provide a high level of security, availability, and performance in a cost effective and reliable manner.	
Docusign	Yes SLA's can be modified per contractual agreement.	
SAP	Ariba	Our SLAs are not negotiable. As mentioned above, the SAP Ariba Cloud Service Level Agreement includes a 99.5% uptime.
	Fieldglass	Our SLA is designed to (i) meet the expectations of our customers and (ii) fit with our operational protocols and capabilities. Because of this our ability to make significant changes to the SLA is limited. However, we are always willing to work with a customer to try and determine how our SLA can address a particular business.
	Hanna	Our SLAs are not negotiable for Support. Under our SLA, System Availability is 99.5% during each month for productive systems. Customers may claim a credit of 2% of Monthly Subscription Fees for each 1% below SLA (not to exceed 100% of Monthly Subscription Fees). This credit may be applied to a future invoice relating to Cloud Service that did not meet the System Availability SLA.
	Hybris	Our SLAs are not negotiable for Support. Under our SLA, System Availability is 99.5% during each month for productive systems. Customers may claim a credit of 2% of Monthly Subscription Fees for each 1% below SLA (not to exceed 100% of Monthly Subscription Fees). This credit may be applied to a

		future invoice relating to Cloud Service that did not meet the System Availability SLA.
	SuccessFactors	Our SLAs are not negotiable for Support. Under our SLA, System Availability is 99.5% during each month for productive systems. Customers may claim a credit of 2% of Monthly Subscription Fees for each 1% below SLA (not to exceed 100% of Monthly Subscription Fees). This credit may be applied to a future invoice relating to Cloud Service that did not meet the System Availability SLA.
VMware	VMware's SLAs are specific to the product or service, and are subject to the product's Terms of Service (which are also provided). The SLA is specific to the product rather than to the customer, to define the expected availability and recourse should the product not meet the stated availability levels. VMware's existing customers include Federal, State and Local government customers as well as commercial customers, who successfully utilize our products in accordance with the current SLA and Terms of Service and their applicable, mandatory laws and regulations. Accordingly, VMware is confident that the existing SLA meets the state and local government requirements, as it is being utilized currently. VMware IaaS Services To best work with our customers and improve our terms in alignment with market requirements, VMware is willing to review the terms of its SLA during negotiations of the Participating Addendum to identify how the existing SLA meets the state's applicable and mandatory laws and regulations. If it becomes apparent to the parties that it is necessary to revise VMware's SLA to comply with the state's applicable and mandatory laws, VMware will enter into discussions about how to best address these requirements Vmware SaaS Services VMware AirWatch AirWatch Service Level Agreements are non-negotiable. AirWatch has a guaranteed uptime SLA of 99.9%. Please refer to the AirWatch Hosted Services Policy for additional information. VMware AirWatch acknowledges that if it is awarded a contract under the RFP that it will annually certify to the Lead State that it still meets or exceeds the mandatory minimum requirements and technical specifications of the RFP.	
FireEye	SLAs are negotiable.	
VirtueStream	Virtustream's Service Level Agreement is generally not negotiable. Our SLAs are one of the strictest in the market place. To change the SLA would mean either changing the design or create operational disruption and higher cost by engaging in non-standard processes and practices. For example, Virtustream's SLA for Tier 1 storage is 10 ms latency. For Virtustream to change this latency means changing the design for Tier 1 storage.	

8.10.2 Offeror, as part of its proposal, must provide a sample of its Service Level Agreement, which should define the performance and other operating parameters within which the infrastructure must operate to meet IT System and Purchasing Entity's requirements.

Below is a sample of Virtustream's Service Level Agreement:

SERVICE LEVEL FRAMEWORK
The service levels ("Service Levels") applicable to the Services specified in Sections 1 and 2 are set forth in Schedule B to this SD ("Service Levels for Cloud Platform Services"). The framework that governs all Service Levels is set forth in this Section.
Commencement of Service Levels
Commencing thirty (30) days from the Service Start Date (as set forth in the applicable Order Form), Virtustream's performance of the Services will meet each applicable Service Level. If Virtustream's performance of the Services

does not meet the applicable Service Level, then Virtustream will use commercially reasonable efforts to restore its performance to meet such Service Level.

Service Level Reports

Service Levels will be calculated and measured monthly by Virtustream on a calendar month basis and reported each month for the previous month. The reports will be provided to Customer by the tenth (10th) working day of the month following that to which such report relates, commencing on the second (2nd) month following the Service Start Date and each month thereafter. The monthly service level report will contain at least the following items: (i) Uptime statistics for the month concerned; (ii) an analysis of reported incidents over the previous month, broken down by type for discussion; (iii) action plans for items giving rise to concern; (iv) comments and observations on any issues arising from Virtustream's performance monitoring activities; (v) recommendations on service delivery strategies to maintain or enhance the service level; and (vi) review of general business requirements ("Service Level Report"). Cloud Platform Services (CPS) has its own specific service levels as described in this document. Cloud Cover Services (CCS) has service levels that pertain to the CCS offerings and are reported separately. Not all Virtustream customers have CCS but all Virtustream customers use CPS.

Service Level Review Meetings

Monthly Service Level review meetings will be conducted by Virtustream with Customer where the monthly Service Level report specified above will be discussed. If any of the Service Levels measured over the previous calendar month period is not achieved in that month, then Virtustream will include the steps taken to rectify the problem in the next monthly Service Level Report. In addition, the issue shall be an agenda topic for discussion at the next monthly service review meeting. Additionally, after restoring service or otherwise resolving any immediate problem as specified in this SD, if Virtustream fails to provide Services in accordance with the Service Levels, Virtustream shall:

a.Promptly investigate and report on the causes of such problem;

b.Provide a Root Cause Analysis of such failure as soon as practical after such failure or at Customer's request;

c.Correct such problem that is Virtustream's fault or responsibility, as soon as reasonably practicable and coordinate the correction of such problem if Virtustream does not have responsibility for the cause of such problem.

d.Advise Customer of the status of remedial efforts being undertaken with respect to such problem;

e.Demonstrate to Customer's reasonable satisfaction that the causes of such problem (that is Virtustream's fault or responsibility) have been or shall be corrected on a permanent basis; and

f.Take corrective actions to prevent any recurrence of such problem (that is Virtustream's fault or responsibility).

Root Cause Analysis

Promptly following Virtustream's failure to meet a Service Level, Virtustream will perform a root cause analysis to determine the reason for that failure. Upon Virtustream's determination of the cause of such failure, it will provide to Customer a preliminary report citing the cause of such failure. If Virtustream determines that the failure was due to Virtustream, an additional report will be provided that details the root causes of the failure, and which details any measures that should be taken to minimize the possibility that such failures will re-occur. Virtustream will correct the problem and use reasonable commercial efforts to minimize the re-occurrence of such failures.

Service Level Exceptions

Virtustream shall not be liable for any failure to meet the Service Levels, to the extent such failure was caused by one or more of the following:

a.A failure of Customer or any of its employees, agents or contractors (including any of Customer's third party service providers) to perform any of its responsibilities under this SD;

b.Any act or omission of Customer or any of its employees, agents or contractors (including Customer's third party service providers or other third parties acting on behalf of Customer);

c.Any hardware, software or other product of a third-party or Customer equipment;

d.Any failure of Customer to secure the proper access rights or maintenance and support services with respect to any component of the Services (e.g., hardware, software, network, maintenance) for which Virtustream does not bear operational responsibility;

e.Downtimes resulting from a Virtustream's scheduled maintenance windows;

f.Customer's reprioritization of the tasks to be performed by Virtustream where such reprioritization causes Virtustream to miss a Service Level;

g.Viruses; provided that the infected Virtustream-provided system had virus protection for which the virus protection software updates were up to date;

h.An election by Customer to purchase a base commitment that is not sufficient to run Customer's system (e.g., If a customer elects to size a µVM pool that is insufficient to run the designated workload);
i.Issues occurring outside of standard working hours (as defined for business level customers) — for which the Service Level Objectives (SLOs) do not apply;
j.Cloud Cover Services (CCS) offerings — for which the Service Level Objectives (SLOs) do not apply;
k.Resolution delays due to lack of client response and/or Customer provided credential based information;
l.Priority levels not agreed upon by both customer and supplier;
m.Claims of performance degradation not substantiated through Customer provided diagnostic testing results.

8.11 Data Disposal

Specify your data disposal procedures and policies and destruction confirmation process.

The disposal of data will vary based on the type of service that is being provided to the Purchasing Entity by Salesforce. As an example, please see Salesforce response for disposal of government data: Data Disposal and Destruction
In the event of termination of the Salesforce service, requests by your Agency made within 30 days after the effective date of termination or expiration of the Subscription Agreement, Salesforce will make your data available to you for export or download. Once the export has been completed, an email will be sent to you containing a link where you can download a .zip file that contains multiple .csv (spreadsheets) files, each representing your Salesforce objects. Your data on disk is flagged within the database and set to inactive status or what can be referred to as a ""soft delete."" This data is no longer available or accessible to the application but is backed up in the full database backup process. The data remains in this state for 180 days; this is done in the event that the customer decides to resume services or needs the data for a legal reason. At 180 days, the data is marked for deletion (""hard delete"") and will be deleted after 30 more days. Once this ""hard delete"" is executed the customer data is physically deleted and non-recoverable from the database. Following the purge, the data will remain on backup for an additional 90 days prior to being overwritten and unrecoverable.

Media Sanitization
Salesforce has an established process for sanitizing media consistent with industry guidelines and consistent with NIST SP 800-88 Guidelines for Media Sanitization [MP-6].

8.12 Performance Measures and Reporting

8.12.1 Describe your ability to guarantee reliability and uptime greater than 99.5%. Additional points will be awarded for 99.9% or greater availability.

CA	APM	CA SaaS production environments have an SLA at 99.8% uptime calculated arrear monthly. 1hr response for P1 issues.
	MAA	CA MAA SaaS production environments have an SLA at 99.8% uptime calculated arrear monthly. 1hr response for P1 issues.
	CA Agile	For Rally SaaS Unlimited Edition customers, our goal is to provide 99.9% up-time during each calendar quarter. If in any calendar quarter an up-time of 99.5% is not met and our customers were negatively impacted (for example, were unable to login to Rally), we will provide a service credit equal to one month of fees for use of the Rally Service.
	ASM	CA SaaS production environments have an SLA at 99.8% uptime calculated arrear monthly. 1hr response for P1 issues.

Google	Google Apps services will be operational and available to the customer at least 99.9% of the time in any calendar month. If Google does not meet the Google Apps SLA, the customer will be eligible to receive service credits.	
AODocs	Altirnao agrees to use commercially reasonable efforts to meet or exceed the Availability Service Level. The Availability Service Level means the Service is available for use by Users for not less than 99.5% of the time excluding the Exclusion Events (as defined below).	
Virtru	Virtru provides the same SLA as Gmail	
Salesforce	Salesforce has maintained high levels of availability across all Salesforce instances since inception. As the only on-demand vendor to provide daily service-quality data on a public Web site (http://trust.salesforce.com), Salesforce proves that we are the leader in availability. And by making its track record completely transparent, Salesforce proves we are worthy of our customers' trust. To ensure maximum uptime and continuous availability, Salesforce provides the best redundant data protection and most advanced facilities protection available, along with a complete data recovery plan—all without affecting performance. Salesforce uses commercially reasonable efforts to make its on-demand services available to its customers 24/7, except for planned downtime, for which Salesforce gives customers prior notice, and force majeure events. Excellent availability statistics are critical to Salesforce's customers' success and to the success of Salesforce as a company. The persistence layer underlying Salesforce Platform is proven database technology that powers all of Salesforce's products today, serving more than 150,000 organizations and over 4 billion transactions per day with an average request response time of less than .25 seconds all with an average up time of 99.9+ percent. Salesforce does not typically offer Service Level Agreements as part of the base service offering. Our approach is to offer a service with high availability and fast resolution of problems. If a customer requires an SLA it will be negotiated separately.	
ServiceNow	ServiceNow's Availablity SLA Is 99.8%, excluding Excused Downtime of up to two hours per month. This is achievable through the use of the Advanced High Availability (AHA) architecture described in 8.8.1 that provides failover capabilities for maintenance and service disruptions to minimize downtime.	
Docusign	DocuSign offers carrier class bank grade, "always on" availability. This means DocuSign has eliminated monthly maintenance (taking 0 minutes of planned downtime per year). We are a multi-year 99.99% operation. Please view the DocuSign Trust site (trust.docusign.com) for additional information.	
QTS	TIA 942 requirements for the design, construction, and management of Tier III facilities is the design basis for all QTS data centers. Using best-of-breed technologies, QTS's highly trained, certified data center professionals tailor efficient and reliable solutions to meet individual customer requirements. Primary commercial power is delivered to facilities through diverse, redundant paths to eliminate single points of failure between the nearest electrical substation (usually on-site) and each piece of customer IT equipment. QTS allows users to inspect the engineering drawings to validate that truly redundant N+1 architectures are in place and that the 99.999% uptime guarantee is supported by sound engineering and operational policies. Meaningful Service Level Agreements are backed by financial penalties spelled out in tailored Master Service Agreements with each customer.	
SAP	Ariba	Our data centers have 99.99% uptime. Our application maintains a 99.% official SLA with the last 12 months seeing 99.98% uptime.
	Fieldglass	For customers hosted in US data centers, we commit to a 99% availability standard. For customers who choose to be hosted in EU data centers, our availability standard is 96.7%. If we fail to meet the availability standard, the

		customer may be entitled to receive a credit equal to two percent (2%) of its transaction fees for the service for that month for each one percent (1%) (or portion thereof) by which we fail to achieve such level, up to one hundred percent (100%) of the fees for such month.
	Hanna	The SAP HEC offers a 99.5% uptime availability SLA for production (PRD) instances and a 95% uptime availability for quality assurance (QAS) and development (DEV) instances. This means that after taking in to account the monthly maintenance window, the TOTAL solution will be available 99.5% of the time - not that we expect it, but this equates to about 3 hours of unscheduled downtime per month. The concept of "total solution" is important because the HEC provides Holistic Solution Availability - our single SLA covers the FULL SOLUTION STACK which means it covers the Infrastructure, Operating System, local DB, the HANA in-Memory DB, and the Application layers. We do not offer individual SLAs on individual layers because if one layer fails, the entire solution is down
	Hybris	The environment is completely redundant and based on a high availability architecture. The hybris private cloud is based on VMWare virtualization and is fully load-balanced. Customer systems reside on a redundant server infrastructure ensuring that if one server (or part of the server infrastructure) fails, a backup is in place to ensure that systems remain operational. The infrastructure is load-balanced ensuring high availability of the system during peak usage periods. The load-balancing allows the systems to support large volumes of simultaneous users balancing the load of activity across multiple servers ensuring peak performance of all systems. Redundancy of Infrastructure Components: • Multihome connectivity to the Internet backbone. Multiple connections to the internet, allows optimizing the best route as well as redundancy. • At an individual component level, all devices have dual physical power connections to protect against any individual power supply failure • Redundant Firewalls • Redundant Routers, • Redundant Load balancers • Virtualized Application and Web servers • Clustered Database - active active cluster mode for enhanced redundancy • High performance SAN storage- from Netapp, with built in redundancy at the disk level (NetApp proprietary RAID technology, similar to a RAID 5) • The data centers provide diverse power (Uninterruptible Power Supply), backup generators and air conditioning systems required to ensure equipment remain online with optimal performance 24/7/365. • SLA: contractually we provide a guarantee on the performance of your application at 99.9% availability.
	SuccessFactors	We contractually guarantee a minimum of 99.5% system uptime, with the exception of regularly scheduled and emergency maintenance.

VMware	VMware's SLAs for vCloud Air. Our Availability Commitment ranges from 99.99% - 99.95 based on the Class of Service. The SLAs are subject to the terms of the applicable Terms of Service for the VMware vCloud Air Service Offerings. Dedicated Cloud 99.99%, Virtual Private Cloud 99.95%, Data Protection 99.95%, Disaster Recovery 99.95%, Virtual Private Cloud On-Demand 99.95% Availability Commitment. IaaS Object Storage: Object Storage powered by Google CLoud Platform (standard) 99.9%, Object Storage powered by Google (durable reduced availability) 99.0% and Object Storage (nearline storage) 99%. vCloud Government Service Dedicated Cloud 99.95% and Virtual Private Cloud 99.9% Availability Commitment.
FireEye	FireEye undertakes all reasonable efforts to ensure the availability for 99.9% of the time during each calendar month. In the event the solution does not meet the monthly service availability, FireEye will provide a credit as outlined in the SLA.
VirtueStream	Virtustream solution for VM workload includes the uptime of 99.99%.

8.12.2 Provide your standard uptime service and related Service Level Agreement (SLA) criteria.

CA	APM	Uptime SLA target is 99.8% CA runs test scripts using application monitoring tools on the Production system to verify that the CA SaaS service is available. Test scripts are run approximately once every ten (10) minutes, twenty-four (24) hours per day, seven days per week, throughout the contracted term of the service.
	MAA	Uptime SLA target is 99.8% CA runs test scripts using application monitoring tools on the Production system to verify that the CA SaaS service is available. Test scripts are run approximately once every ten (10) minutes, twenty-four (24) hours per day, seven days per week, throughout the contracted term of the service.
	CA Agile	See above.
	ASM	Uptime SLA target is 99.8% CA runs test scripts using application monitoring tools on the Production system to verify that the CA SaaS service is available. Test scripts are run approximately once every ten (10) minutes, twenty-four (24) hours per day, seven days per week, throughout the contracted term of the service.
Google	Google Cloud Platform SLA: Google's Cloud platform has SLAs ranging from 99.9 - 99.95% uptime.	
Salesforce	Please see response to 8.12.1 above. Salesforce does not typically offer Service Level Agreements as part of the base service offering. Our approach is to offer a service with high availability and fast resolution of problems. If a customer requires an SLA it will be negotiated separately. Salesforce uses commercially reasonable efforts to make its on-demand services available to its customers 24/7, except for planned downtime, for which Salesforce gives customers prior notice, and force majeure events. Excellent availability statistics are critical to Salesforce's customers' success and to the success of Salesforce as a company. Live and historical statistics on the Salesforce system performance are publicly published.	
ServiceNow	DEFINITIONS (a) "Available" means that the Subscription Service can be accessed by authorized users.	

	(b) “Excused Downtime” means: (i) Maintenance Time of up to two (2) hours per month; and (ii) any time the Subscription Service is not Available due to circumstances beyond ServiceNow’s control, including without limitation modifications of the Subscription Service by any person other than ServiceNow or a person acting at ServiceNow’s direction, a Force Majeure Event, general Internet outages, failure of Customer’s infrastructure or connectivity (including without limitation, direct connectivity and virtual private network (VPN) connectivity to the Subscription Service), computer and telecommunications failures and delays, and network intrusions or denial-of-service or other criminal attacks. (c) “Maintenance Time” means the time the Subscription Service is not Available due to service maintenance. (d) “Availability SLA” means the percentage of total time during which Customer’s production instances of the Subscription Service are Available during a calendar month, excluding Excused Downtime. AVAILABILITY If Customer’s production instances of the Subscription Service fall below the Availability SLA of ninety-nine and eight-tenths percent (99.8%) during a calendar month, Customer’s exclusive remedy for failure of the Subscription Service to meet the Availability SLAs is either: (1) to request that the affected Subscription Term be extended for the number of minutes the Subscription Service was not Available in the month in accordance with the Availability SLA; or (2) to request that ServiceNow issue a service credit to Customer for the dollar value of the number of minutes the Subscription Service was not Available in the month in accordance with the Availability SLA (determined at the deemed per minute rate ServiceNow charges to Customer for Customer’s use of the affected Subscription Service), which Customer may request ServiceNow apply to the next invoice for subscription fees. REQUESTS Customer must request all service credits or extensions in writing to ServiceNow within thirty (30) days of the end of the month in which the Availability SLA was not met, identifying the support requests relating to the period Customer’s production instances of the Subscription Service was not Available. The total amount of service credits for any month may not exceed the subscription fee for the affected Subscription Service for the month, and has no cash value. ServiceNow may delay issuing service credits until such amounts reach one thousand U.S. dollars ($1,000) or equivalent currency specified in the applicable Order Form.	
Docusign	Our industry-leading, global support model is there to back you up, no matter where you do your business. We provide you access to the expertise you want, whether through our communities, our knowledge base and on-demand training, or our team of experienced technical support professionals, who know you and your solutions.	
QTS	99.999% uptime guarantee. Meaningful Service Level Agreements are backed by financial penalties spelled out in tailored Master Service Agreements with each customer.	
SAP	Ariba	We guarantee a 99.5% system availability percentage during each month for production versions, with the exception of regularly scheduled and emergency maintenance.
	Hanna	Technical Availability for PRD systems - 99.5% Technical Availability for non PRD systems - 95% SAP shall track and report to Customer the “Technical Availability” in a monthly summary report. SAP HEC can offer a contractual SLA of 99.7 on a case by case basis.
	Hybris	SLA: contractually we provide a guarantee on the performance of your application at 99.9% availability.

	SuccessFactors	We guarantee a 99.5% system availability percentage during each month for production versions, with the exception of regularly scheduled and emergency maintenance.
VMware	AirWatch Service Level Agreements are non-negotiable. AirWatch has a guaranteed uptime SLA of 99.9%. Please refer to the AirWatch Hosted Services Policy for additional information. VMware AirWatch acknowledges that if it is awarded a contract under the RFP that it will annually certify to the Lead State that it still meets or exceeds the mandatory minimum requirements and technical specifications of the RFP.	
FireEye	FireEye cloud solutions are available 99.9% of the time in any calendar month, other than mutually agreed upon and scheduled downtime.	
VirtueStream	Virtustream IaaS Compute is comprised of computing resources hosted in secure data centers that replace the physical computing hardware traditionally housed on Customer site. These resources include physical servers which are logically divided into VMs (virtual machines), each with an allocation of CPU and memory, and linked to storage. Terms used in the detailed descriptions below: •µVM. Pronounced "micro VM," this is Virtustream's fine-grained unit of measurement designed to accurately measure the actual consumption of cloud resources. A µVM is a unit of computing resources, comprised of CPU, memory, storage IOPS, and associated local network bandwidth. The usage of each µVM resource component (CPU, memory, storage input/output, and network bandwidth) is measured at five minute intervals — one unit each for 200MHz of CPU, 768MiB of memory, 40 storage fabric input/output operations per second (IOPS), and 2Mbps of local network bandwidth. The highest of the four is averaged per hour, and the hour values averaged across the month to determine the overall µVM usage for the month. Note: The measurement is performed at the aggregate level — across Customer's entire µVM resource pool. Bandwidth usage is only within the data center. •Basic Plus uVM. These terms differentiate the two ways Virtustream offers µVMs services. "Basic Plus" µVM services are limited to a single Virtustream data center and have 99.99% availability for the Customer's committed level. "Reserve" µVM service is an equivalent quantity of Basic Plus µVMs reserved at Customer-designated secondary Virtustream data center for on-going operation during disaster events and during scheduled disaster recovery (DR) exercises. In both cases, overage resources required ("surges") up to 20% above the committed level from the contract /order form are provided at the same availability level. If Customer experiences consistent overage above this level, then Customer should reset the committed level. •High Memory. Virtustream offers competitive pricing on compute services for applications that require large amounts of memory (64GiB or more). •Enterprise These terms identify the "zones" within which µVMs are made available for consumption. The "Enterprise" zone is for use by non-Internet facing workloads. Systems deployed into the Enterprise zone are not directly accessible from the Internet. Enterprise Basic Plus µVM (IC-uVM-BASP-ENT) Enterprise Basic Plus µVMs reside in a single Virtustream data center, in the Enterprise zone. Resource availability is 99.99%, and only at the designated data center. Overage resources required ("surges") up to 20% above the committed level from the contract /order form is provided at the same availability level. If Customer experiences consistent overage above this level, then Customer should reset the committed level. Service Level. 99.99% availability for the Customer's committed level. Billing. Monthly, based on resource usage. Tier 0 Block Storage - Local Only (IC-STO-TOA-LOC) Block storage with a Latency Service Level of 3ms that is maintained in a single data center with no replication capability. Billing. Monthly fee, based per GB of storage allocated. Allocated storage is measured every 30 minutes, averaged across the month.	

	Tier I Block Storage - Local Only (IC-STO-T1A-LOC) Block storage with a Latency Service Level of 10ms that is maintained in a single data center with no replication capability. Billing. Monthly fee, based per GB of storage allocated. Allocated storage is measured every 30 minutes, averaged across the month. Tier II Block Storage - Local Only (IC-STO-T2A-LOC) Block storage with a Latency Service Level of 20ms that is maintained in a single data center with no replication capability. Billing. Monthly fee, based per GB of storage allocated. Allocated storage is measured every 30 minutes, averaged across the month. Tier III Block Storage - Local Only (IC-STO-T3A-LOC) Block storage with a Latency Service Level Objective of 40ms that is maintained in a single data center with no replication capability. Billing. Monthly fee, based per GB of storage allocated. Allocated storage is measured every 30 minutes, averaged across the month. Tier 0 Block Storage - Replicated (IC-STO-TOA-REP) Data storage with a Latency Service Level of 3ms that is persisted in Customer's primary Virtustream data center, and replicated to a second data center with an interval to provide a Recovery Point Objective (RPO) of 15 minutes. Service Level. Recovery Time Objective (RTO) of one (1) hour, and a Recovery Point Objective (RPO) of fifteen (15) minutes. Billing. Monthly fee, based per GB of storage allocated. Tier I Block Storage - Replicated (IC-STO-T1A-REP) Data storage with a Latency Service Level of 10ms that is persisted in Customer's primary Virtustream data center, and replicated to a second data center with an interval to provide a Recovery Point Objective (RPO) of 15 minutes. Service Level. Recovery Time Objective (RTO) of one (1) hour, and a Recovery Point Objective (RPO) of fifteen (15) minutes. Billing. Monthly fee, based per GB of storage allocated. Tier II Block Storage - Replicated (IC-STO-T2A-REP) Data storage with a Latency Service Level of 20ms that is persisted in Customer's primary Virtustream data center, and replicated to a second data center with an interval to provide a Recovery Point Objective (RPO) of 15 minutes. Service Level. Recovery Time Objective (RTO) of one (1) hour, and a Recovery Point Objective (RPO) of fifteen (15) minutes. Billing. Monthly fee, based per GB of storage allocated. Tier III Block Storage - Replicated (IC-STO-T3A-REP) Data storage with a Latency Service Level Objective of 40ms that is persisted in Customer's primary Virtustream data center, and replicated to a second data center with an interval to provide a Recovery Point Objective (RPO) of 15 minutes. Service Level. Recovery Time Objective (RTO) of one (1) hour, and a Recovery Point Objective (RPO) of fifteen (15) minutes. Billing. Monthly fee, based per GB of storage allocated.

8.12.3 Specify and provide the process to be used for the participating entity to call/contact you for support, who will be providing the support, and describe the basis of availability.

CA	APM	CA Support can be engaged by telephone or online via CA Support Online at http://www.support.ca.com. CA Support is available 24x7x365. Technical support will be delivered in accordance with customer preference, and will likely include both telephone and email communications. CA Support Online is available 24 hours per

		day and allows customers to manage their cases (i.e. log, view, set severity level, update and close cases). CA Support Online also provides various other useful features, for example: a knowledge base search; product and documentation downloads; fixes, service pack and patch downloads; support utilities; automated notifications; access to communities, beta programs; subscriptions for hyper notifications, etc. While working with CA Support engineers on cases, email communications and a remote access capability can also be used to deliver support services. Secure File Transfer Protocol (FTP) and a secure FTP web client allow for the protected transfer of case file attachments to CA Support, with the web client additionally providing case file transfer protection from CA Support. Files are encrypted and stored securely while on CA systems. Optionally unsecure FTP transfers also are supported."
	MAA	CA Support can be engaged by telephone or online via CA Support Online at http://www.support.ca.com. CA Support is available 24x7x365. Technical support will be delivered in accordance with customer preference, and will likely include both telephone and email communications. CA Support Online is available 24 hours per day and allows customers to manage their cases (i.e. log, view, set severity level, update and close cases). CA Support Online also provides various other useful features, for example: a knowledge base search; product and documentation downloads; fixes, service pack and patch downloads; support utilities; automated notifications; access to communities, beta programs; subscriptions for hyper notifications, etc. While working with CA Support engineers on cases, email communications and a remote access capability can also be used to deliver support services. Secure File Transfer Protocol (FTP) and a secure FTP web client allow for the protected transfer of case file attachments to CA Support, with the web client additionally providing case file transfer protection from CA Support. Files are encrypted and stored securely while on CA systems. Optionally unsecure FTP transfers also are supported."
	CA Agile	Support is available 24/7 and a contact number will be provided upon completion of the contract.
	ASM	CA Support can be engaged by telephone or online via CA Support Online at http://www.support.ca.com. CA Support is available 24x7x365. Technical support will be delivered in accordance with customer preference, and will likely include both telephone and email communications. CA Support Online is available 24 hours per day and allows customers to manage their cases (i.e. log, view, set severity level, update and close cases). CA Support Online also provides various other useful features, for example: a knowledge base search; product and documentation downloads; fixes, service pack and patch downloads; support utilities; automated notifications; access to communities, beta programs; subscriptions for hyper notifications, etc. While working with CA Support engineers on cases, email communications and a remote access capability can also be used to deliver support services. Secure File Transfer Protocol (FTP) and a secure FTP web client allow for the protected transfer of case file attachments to CA Support, with the web client additionally providing case file transfer protection from CA Support. Files are encrypted and stored securely while on CA systems. Optionally unsecure FTP transfers also are supported."
Google	Customers are entitled to direct Google support in additional to whatever Support Services the reseller has to offer. Google has a published Technical Services Support Guide for both Google Apps and Google Cloud Platform that describe the hours of operation, how to get after hours	

	support, how to set the priority on a case, how to contact Google, and what the target response times are.
AODocs	Customers are entitled to direct AODocs support in additional to whatever Support Services the reseller has to offer.
Salesforce	Salesforce is proposing the Premier+Success Plan. Your Agency can cover all of its bases with this plan: support, training, and administration. It's what the + is all about. The Premier+ Success Plan gives you all the benefits of our Premier success plan, including a support rep assigned to your organization, priority case routing, 1-hour response time, 24x7 phone support, unlimited usage of our entire online course library, plus one very helpful addition: access to your own team of expert Salesforce administrators. This lets you focus on design and management while we support your configuration. The Premier+ Success Plan includes: ● Unlimited access to our entire online course catalog of 100+ courses ● 24x7 toll-free phone support ● Priority case queuing and routing ● Quick 1-hour response time ● An assigned support account rep ● Force.com code troubleshooting ● Customizable end-user course templates ● Premier Success Review to measure usage and trends ● Access to our pool of Salesforce Certified Administrators who can configure and maintain your Salesforce edition ● Premier Success Review to measure usage and trends ● Includes administration services: Get configuration help. Request 100+ routine configuration updates like creating users, reports, workflow, and dashboards. You take online administration training to learn the basics, then you tell us your business requirements. Our team of certified administrators updates your Salesforce system. Subject to the Government Cloud Premier+ Success Plan outlined above, access to systems and permissions which could permit access to Customer Data inside of the Salesforce Government Cloud storing U.S. government, U.S. government contractors, and FFRDC Customer Data will be restricted to Qualified U.S. Citizens. Qualified US Citizens are individuals who are United States citizens, and are physically located within the United States when accessing the Salesforce Government Cloud systems; and have completed a background check as a condition of their employment with Salesforce.Severity Levels & Response TimesIssues will be categorized and handled according to an assigned severity level, as follows: Level 1 - Critical Response time: 1 Hour* Critical production issue affecting all users, including system unavailability and data integrity issues with no workaround available. Level 2 - Urgent Response time: 2 Hours* Major functionality is impacted or significant performance degradation is experienced. Issue is persistent and affects many users and/or major functionality. No reasonable workaround available. Also includes time-sensitive requests such as requests for feature activation or a data export. Level 3 - High Response time: 4 Hours**

	System performance issue or bug affecting some but not all users. Short-term workaround is available, but not scalable. Level 4 - Medium Response time: 8 Hours** Inquiry regarding a routine technical issue; information requested on application capabilities, navigation, installation or configuration; bug affecting a small number of users. Reasonable workaround available. Resolution required as soon as reasonably practicable. *24/7 Severity 1 and 2 coverage includes weekends and holidays **Severity 3 and 4 target response times include local business hours only and exclude weekends and holidaysOverview of Support Escalation PathAn issue is received by Tier 1 Support Rep who will document details and attempt to resolve. In the event that the problem cannot be resolved at this level, case will be escalated to a Tier 2 Support Rep for further analysis. Occasionally, a Case may be received for which technical understanding or indicated fix exceeds the responsibility of Support. These issues are quickly brought to the attention of R&D through the Tier 3/QA channel. Throughout the lifecycle of the case, customer will receive regular updates from the case owner at regular intervals based on case severity. Customers can work with their Support Account Specialist (SAS) if assigned through the purchase of Premier Support as a point of escalation should the need arise. Step-by-step escalation path: •Case is logged via Help Portal, Phone or through Live Chat •Depending on the functional area of the case a Tier 1 Support Rep from the appropriate skill group responds to the user confirming that the issue has been received and is in process. •Tier 1 analyzes the issue from the perspective of customer provided information in the case. •Tier 1 makes contact (phone or email) with the customer and gathers more information including any access needed to reproduce the problem. •With all necessary information gathered, Tier 1 will attempt to resolve the issue with the customer. •When resolution cannot be immediately achieved, Tier 1 Support Rep will escalate to a Tier 2 Support Rep in the same skill group. Tier 2 Support Rep will take all steps necessary to reproduce, understand and resolve the issue. •Technical Issues that cannot be resolved by the Tier 2 Support Rep are escalated to Tier 3. This escalation will provide a deeper layer of analysis with the possibility of escalation to QA/Development for Application issues and Escalation to Operation Services for Infrastructure issues as needed. •Functional Issues that cannot be resolved by Tier 3 are escalated to Product Management. •If it is an application Issue, necessary Development work will be performed, tested and a patch created. •Issue Fix Submitted to Operations for Infrastructure issues. •Issue Fix deployed. •Tier 2 Support Rep confirms success of Bug Fix in addressing the problem. •Tier 2 Support Rep contacts customer and confirms that the issue is Resolved. •Case is closed"
ServiceNow	Customer Support is provided by ServiceNow 24 hours a day, 7 days a week, including all holidays. Customer may contact ServiceNow using one of the following means: •Support Portal at https://hi.service-now.com/. Customer may get login access to this self-service portal by contacting its ServiceNow administrator. •Phone using one of the numbers at http://www.servicenow.com/support/contact-support.html. Customer shall contact ServiceNow's authorized reseller in accordance with its agreement with the reseller.

	See the "Customer Support Policy" contained within the "Subscription Service Guide" included with this response for more information.
Docusign	Enterprise Premier support provides 24x7 Live Phone Support.
QTS	Dedicated support staff is available 24x7x365 to generate and track incidents to resolution QTS Customer Portal provides round-the clock visibility into your environment
VMware	Global Support Services
FireEye	FireEye offers 24/7 technical support and its technical support centers around the globe in a follow-the-sun model. •Milpitas, CA, USA (UTC -7 hours) •Reston, VA, USA (UTC -4 hours) •Dublin, Ireland (UTC) •Singapore (UTC +8 hours) •Sydney, Australia (UTC +10 hours) FireEye Support is available via telephone, email, live chat, and web. Phone: U.S: +1 877-347-3393 (877 FIREEYE) Email: Support@FireEye.com Web Support: https://www.fireeye.com/support/get-support.html Support Programs: https://www.fireeye.com/support/support-programs.html
VirtueStream	Virtustream will work collaboratively with State of Utah to develop / maintain a relationship structure that leads to quick resolution, regularly scheduled status meetings, and quarterly business reviews. Virtustream will assign multiple key personnel to State of Utah including an Executive level sponsor. The primary point of contact will be Virtustream's Technical Account Manager (TAM). The TAM is responsible for daily activities/interaction and understanding/ensuring State of Utah's objectives are met at a minimum. Optimizations and other improvements to processes/standard operating procedures are delivered by the TAM in coordination with other Virtustream staff working behind the scenes. The TAM will coordinate day-to-day operation, service level management and SL reporting. The following outlines Virtustream's approach to service desk escalation and issue resolution. <u>Escalations within Virtustream</u> Virtustream will provide Level 0 and Level I support and first call resolution where possible, as determined by Virtustream. Where first call resolution is not possible, the Virtustream Service Desk provides incident management for Incidents and Urgent Service Requests escalated to Level II and Level III resources as defined below. In the event that Virtustream's Response to an Incident is not acceptable to the Customer, Customer can contact the Virtustream Service Desk and request escalation to the head of the Service Desk. Virtustream shall, upon receipt of any such request, immediately escalate the issue to the head of the Service Desk or technical team as appropriate. <u>Service Request Prioritization</u> Service Requests are assigned a priority of either 'Urgent' or 'Standard' and are queued for fulfillment with the corresponding priority. All Service Requests will be reviewed by the Virtustream Service Desk, who will determine the appropriate priority to assign with collaboration of Customer. <u>Incident Prioritization</u> All Incidents that are reported to the Virtustream Service Desk, or that Virtustream otherwise becomes aware of, will be initially assigned a priority by the Virtustream Service Desk as set forth below. Internal escalation for Incidents to Level II and Level III resources are based on the priority level assigned to the Incident.

Incident Prioritization			
Priority/ Severity	**Definition**	**Response Time Service Level**	
1	Major part of the system is unavailable/not operating correctly, affecting multiple users. No workarounds in place and business operations are not possible. **Or** Incident has a critical impact on the business (e.g., loss of the Exchange Production server impacting all users).	**30 minutes**	Response time will be within indicated time beginning from when the customer creates a ticket or a monitoring event is validated. Additional resources are engaged via Virtustream's on Call Process.
2	Part of the system is unavailable/not operating correctly, affecting users in a single function. No workarounds in place and business operations in this function are not possible/severely impacted. **Or** Incident has a serious impact on part of the business (e.g., a configuration change is impacting a small subset of users).	**60 minutes**	
3	Part of the system is unavailable/not operating correctly, affecting users in a single function. Workarounds in place, but business operations are impacted, although not severely. **Or** Incident has a temporary impact on users and is non critical or is a development issue (e.g., email is slow to deliver)	**4 hours**	
4	Incident that is causing inconvenience to the business, but not impacting operations. **Or** Incident has a minor impact on users or business, or issue is a request for further information	**1 business day**	

Virtustream will assign a Technical Account Manager starting on day 1 of the contract. The Cloud Platform, Cloud Cover (managed services), and Cloud Security team's will also be assigned to State of Utah upon execution of the contract. All of the individuals assigned to the State of Utah account have significant years of experience in their fields.

The TAM assigned to State of Utah will provide reports ad hoc but also on a quarterly basis. The quarterly business reviews include but are not limited to performance measurements, service requests. On a monthly basis, the TAM will provide a consumption report detailing the items consumed by each virtual machine. This delivers a very granular cost breakdown to State of Utah which will allow the data to be carved multiple ways. Also, information can be gathered by the State of Utah team any time they want from the xStream portal. State of Utah can also issue a ticket to Virtustream operations center to request information as well. The TAM will conduct scheduled meetings and be in constant contact with State of Utah. The TAM is an extension of the State of Utah team.

Virtustream defines a Root cause analysis (RCA) as the formal process, documented in writing by Virtustream and approved by Customer, to be used by Virtustream to diagnose problems at the lowest reasonable level which includes a report of the corrective action to be taken and defined timelines for corrective actions, which shall eliminate, to the extent reasonably possible, repeat failures. The following details the RASCI for RCA's:

	Role/Function	Customer	Virtustream
	Request Root Cause Analysis tickets by contacting the Virtustream TAM (Customer requests Incident report/Problem record)	R/A	S
	Document, track and manage all Problem tickets using ITSM system	S	R/A
	Provide Problem management review and Root Cause Analysis (RCA) for all in-scope P 1 Incidents (preliminary report within 48 hours; final within 15 calendar days)	S	R/A
	Provide Problem management and RCA of identified Problems (e.g., reoccurring events, alerts) - investigate and diagnose	S	R/A

8.12.4 Describe the consequences/SLA remedies if the Respondent fails to meet incident response time and incident fix time.

CA	APM	In the event that the Service Level Availability committed decreases below the Threshold for Service Availability Default, Minor or Major, Customer may be entitled to take action as outlined in the contract.
	MAA	In the event that the Service Level Availability committed decreases below the Threshold for Service Availability Default, Minor or Major, Customer may be entitled to take action as outlined in the SaaS Listing.
	CA Agile	In the event that the Service Level Availability committed decreases below the Threshold for Service Availability Default, Minor or Major, Customer may be entitled to take action as outlined in the contract.
	ASM	In the event that the Service Level Availability committed decreases below the Threshold for Service Availability Default, Minor or Major, Customer may be entitled to take action as outlined in the SaaS Listing.
AODocs	If AODocs does not meet the SLAs, the customer will be eligible to receive a service credit.	
Virtru	Email support@virtru.com	
ServiceNow	ServiceNow or its authorized reseller, as applicable, will use reasonable efforts to meet the target response times and target level of effort stated in the "Customer Support Policy" contained within the "Subscription Service Guide" included with this response for more information.	
SAP	Ariba	As part of the Cloud subscription, Ariba provides Customer Support services to help diagnose, troubleshoot and resolve functional and technical problems for all users. Ariba's award winning customer service staff can be contacted via phone (toll free), email or Web form Monday-Friday, 24/5 in multiple time zones and languages. Ariba Connect, our online support portal provides 24/7 support for service and enhancement requests. Customers may also choose to purchase ExpertCare. ExpertCare provides each customer with a named contact within Ariba that acts as an ExpertCare Manager for the customer and is knowledgeable about customer specific business process, configurations and customizations.
	Fieldglass	Our best practice is that the program office (managed by the State of Utah or your chosen MSP) provides first-level support for end users including hiring managers, approvers, suppliers, etc. Fieldglass' multi-lingual helpdesk is available by phone, email or web form 24x7x365. Our English language helpdesk is located at our corporate headquarters in Chicago. Merlin Information Systems Ltd., a UK entity, provides helpdesk service in French, German and Japanese from its Manila,

		Philippines and Debrecen, Hungary locations. We are prepared to assist with technical, functional or administrative questions about the Fieldglass application.
	Hanna	Customer key users have several options to communicate incidents into SAP Managed Cloud Delivery. Primary entry point: The best and easiest way to get an incident resolved is by creating and sending incidents directly to SAP Managed Cloud Delivery Service Teams via the SAP Support Portal. This communication channel ensures that all support teams are notified and therefore is the most preferred way to contact SAP on support/service related issues. Alternative option to the primary entry point: Customer key user can also communicate incidents by telephone via the SAP Customer Interaction Center (CIC) (e.g. in case of facing challenges in submitting an incident via the SAP Support Portal). Exceptional option: During business hours, customer key user may also communicate urgent incidents by contacting designated SAP Managed Cloud Delivery service contacts like Customer Engagement Service Manager (CESM) to create an incident on behalf of the customer. However – as already mentioned - this is not the preferred way of communication, but only should be applied in exceptional cases. Support times are contractually agreed upon with each individual customer organization. The SAP Managed Cloud Delivery (MCD) Service Desk and the Service Teams are spread across Europe, Americas and Asia.As a result of the global set-up across several time zones, SAP MCD Service Desk is able to provide worldwide 24/7 support to customers, throughout the entire year and according to the “Follow-The-Sun-Principle”.
	Hybris	Key service levels are delivered through service level objectives, which provide for uptime of 99.9 for the hosted environment. Furthermore, monitoring is in place to report and alert upon uptime and response times of the environment to ensure best possible performance. The following support is specifically for the SAP Hybris Commerce, Cloud Edition. Customers can contact SAP Hybris Commerce, Cloud Edition technical support by toll-free telephone number or e-mail 24 hours per day, seven days per week. Based on the priority level, SAP Hybris’s support personnel will attempt to provide Customer with remote assistance for reported issues. Contact information for technical support is as follows: Toll-Free Telephone Number: 888-944-2664 ext 6 In the event that Customer contacts SAP Hybris support, SAP Hybris shall respond to such reports as follows: Priority Level : Characteristics Response Time Resolution Time Objective

		Priority Level 1 Fatal Issue: Problem causing the Customer Website to cease from operating. This situation is generally described as a total failure. 25 Minutes (7x24) 2 hours Priority Level 2 Major Issue: Problem causing the Customer Website to experience major problems with it ability to operate. This situation exists when the Customer Website is partially failing however it is still able to function. 25 minutes (7x24) 12 hours Priority Level 3 Degradation of Performance: Problem affecting only certain non-critical functions of the Customer Website. This situation is occurring when the Customer Website is usable but has certain limited functions. 2 hours 1 business day Priority Level 4 Minor Issue: This situation includes all other non-critical problems. It is present when the Customer Website is usable however the problem results in a minor issue affecting it. 2 hours 3 business days Upon receipt of a service call classifying the priority level, SAP Hybris will deploy commercially reasonable efforts to respond and assist in the resolution of the problem. Application support for code developed by Customer or its implementation partner will be provided by Customer or Customer's implementation partner. If SAP hybris provides SAP Hybris Commerce, Cloud Edition support to a Customer as requested by Customer, and it is subsequently revealed that SAP Hybris was not responsible for the problem or the problem was not classified correctly by the customer, Customer will pay SAP Hybris on a time and materials basis for such support and assistance.
	SuccessFactors	
VMware	Our Availability Commitment for VMware AirWatch is 99.9%. The SLAs are subject to the terms of the applicable Terms of Service for VMware AirWatch. If the Availability of a class of service that you purchase is less than the associated Availability Commitment, then you may request Service Credits for that affected class of service. Availability in a given month is calculated according to the following formula: "Availability" = ((total minutes in a calendar month – total minutes Unavailable) / total minutes in a calendar month) x 100 A class of service will be considered "Unavailable," subject to the Service Level Agreement Limitations set forth below, if VMware's monitoring tools determine one of the following events has occurred ("SLA Event"). The total minutes that a class of service is Unavailable for a particular SLA Event is measured from the time that VMware validates the SLA Event has occurred, as defined below, until the time that VMware resolves the SLA Event such that the Service Offering is Available to you. If two or more SLA Event occurs simultaneously, the SLA Event with the longest duration will be used to determine the total minutes Unavailable.	

	1. Each of the following will be considered an SLA Event for the Dedicated Cloud, Virtual Private Cloud, or Virtual Private Cloud OnDemand Services: a) Any of the network interfaces of the Service Offering Network are unavailable for more than three (3) consecutive minutes. The "Service Offering Network" means the network that extends from the network interfaces of physical host servers for a class of service to the outside network interfaces providing the Service Offering's public internet connectivity. b) The data store(s) associated with your block level storage for a class of service are unavailable for more than three (3) consecutive minutes. c) The self-service console, available at https://vchs.vmware.com, cannot successfully authenticate a simulated user for more than five (5) consecutive minutes. d) Your running virtual machines for a class of service become inaccessible for more than five (5) consecutive minutes due to physical host server failures. 2. Each of the following will be considered an SLA Event for the Data Protection Service: a) The backup storage repository associated with your Data Protection service is unavailable for more than three (3) consecutive minutes. b) The start time associated with your backup scheduling window is missed for longer than thirty (30) consecutive minutes. c) The standard 24-hour recovery point objective (RPO) is missed for any virtual machines actively enrolled in the service. d) Any restore operation for a virtual machine fails to complete due to backup infrastructure failures. 3. Each of the following will be considered an SLA Event for the Disaster Recovery Service: a) Any of the network interfaces of the Service Offering Network are unavailable for more than three (3) consecutive minutes. b) The data store(s) associated with your block level storage for replication is unavailable for more than three (3) consecutive minutes. c) The self-service console, available at https://vchs.vmware.com, cannot successfully authenticate a simulated user for more than five (5) consecutive minutes. d) Your failed-over virtual machines for a class of service become inaccessible for more than five (5) consecutive minutes due to physical host server failures. e) Any built-in service functions for failover testing, planned migration, or live failover and recovery result in virtual machine replicas not powering on in less than 4 consecutive hours from the time a request is acknowledged and approved by VMware. 4. The following will be considered an SLA Event for the Object Storage service: a) A more than five (5) percent Error Rate for more than ten (10) consecutive minutes – where "Error Rate" means the number of valid requests that result in a response with HTTP Status 500 and Code "Internal Error" divided by the total number of valid requests during each five-minute period.
FireEye	FireEye shall use commercially reasonable efforts to correct any reproducible programming error in the Software attributable to FireEye, employing a level of effort commensurate with the severity of the error, provided, however, that FireEye shall have no obligation to correct all errors in the Software.

8.12.5 Describe the firm's procedures and schedules for any planned downtime.

CA	APM	Planned downtime is scheduled, and customers are notified
	MAA	Customers are notified at least two weeks in advance for planned downtime.
	CA Agile	Regularly scheduled maintenance (planned downtime for upgrades and maintenance) where the customer has been given at least eight (8) hours notice does not count as downtime. Unscheduled maintenance, in which the Rally Service is unavailable and

		advance notice was not provided to customers, will be counted against the up-time SLA.
	ASM	Customers are notified at least two weeks in advance for planned downtime.
Google	Google's maintenance routines are done in a manner that ensures there is no need to schedule any downtime.	
AODocs	AODocs's maintenance routines are done in a manner that ensures there is no need to schedule any downtime.	
Salesforce	There are two types of maintenance at Salesforce: System Maintenance and Release Maintenance. System Maintenance is for sustaining the performance, reliability, security, and stability of the infrastructure supporting our services. When maintenance is scheduled, the specific timing and availability to be expected during that time will be communicated to all customers approximately one week in advance of the maintenance window upon login to Salesforce and via a posting to http://trust.salesforce.com/trust/maintenance. In the event of planned maintenance where the services will be unavailable for more than four hours, or that requires customer action in advance, Salesforce endeavors to communicate via email several months in advance. Please Note: If emergency system maintenance is required, customers may be notified less than one (1) week in advance. Major Release Maintenance is for upgrading the services to the latest product version to deliver enhanced features and functionality. Major release dates and times are posted on http://trust.salesforce.com/trust/maintenance approximately one month before release to Sandbox instances. An email notification and blog post regarding Sandbox preview instructions is also sent approximately one month prior to upgrading Sandbox instances. Email notification of major release dates is sent one month prior to upgrading non-Sandbox instances. The Release Notes document describing the new features and functionality is posted in Help & Training one month prior to upgrading non-Sandbox instances. Final release reminders are communicated to all customers approximately one week prior via email and upon logging into Salesforce. Major release maintenance occurs three times per year. The instance will be unavailable for up to five minutes during the release window. Patch Releases and Emergency Releases are used to deliver scheduled and ad hoc application fixes. Patch releases are scheduled weekly and are usually deployed to instances on Tuesday, Wednesday or Thursday, with release to Asia-Pacific instances the following day. Emergency releases are conducted on an as-needed basis and can occur any day of the week. Whenever possible, patches and emergency releases are deployed during off-peak hours and without downtime.	
ServiceNow	ServiceNow notifies customers at least 10 days prior to scheduled maintenance for infrastructure network, hardware or software that might impact service. ServiceNow targets no more than two hours of downtime due to scheduled maintenance per month.	
Docusign	Continuous availability is a necessity for mission-critical business applications in a global world. It's also a key component of the xDTM standard. Zero maintenance downtime means that DocuSign is always available, regardless of the time-of-year, day-of-week, time zone or country. DocuSign's Carrier Grade System Architecture, a first in SaaS, eliminates maintenance downtime, and ensures the highest level of performance resiliency and data integrity. This is accomplished through a combination of advanced high availability architecture, native DocuSign engineering, and both specialized and commodity hardware and software components.	
SAP	Ariba	Scheduled downtime windows for maintenance, upgrades or new releases are provided in the Service Level Agreement. Our uptime percentage takes scheduled maintenance into account.

	Fieldglass	Fieldglass' maintenance windows are as follows: • Friday maintenance window of 11:00 p.m. – 2:00 a.m. Central (Daylight Savings Observed) • Extended maintenance windows are taken with five days advance notice and are typically as follows: - Second Friday of each of the following months: March, July, and November - Critical service packs, security issues, and other emergencies will still be taken if needed with communication as reasonable
	Hanna	SAP performs periodic scheduled maintenance activities to maintain security patching levels, application transports, fixes, network maintenance, and other scheduled proactive activities during scheduled maintenance window (agreed to by the customer). The predefined maintenance window is 4 hours per month (for example first friday of every month) SAP may perform additional maintenance services on the Customer's Computing Environment in agreement with Customer, with at least ten (10) Business Days prior notice (which notice may be by email to Customer's nominated contact or posting) of the date and anticipated length of the maintenance window, and provided that SAP adheres to Customer's reasonable requirements as to the timing and duration of any such maintenance. SAP reserves the right to apply critical application and operating system security patches in compliance with the SAP Global Security Team's reasonable recommendations. SAP will use reasonable endeavours to provide Customer with forty-eight (48) hours advance notice regarding the critical patch deployment unless a shorter notice period is required in order to address a critical security issue. Non critical security issues shall be dealt with by Scheduled Maintenance
	Hybris	Typically they are two-hour maintenance windows, with no downtime or on occasion maintenance periods require between 2 to 10 minutes of downtime. Other rare periods which may require further maintenance could have downtime between 30 min to 4 hours.
	SuccessFactors	To address issues such as security patches, hot fixes, updates, equipment upgrades, etc., we has established maintenance windows to perform scheduled maintenance. Scheduled maintenance events typically occur during only one of these windows, roughly every 6-8 weeks. A 14-hour/week window will be used for all critical / most emergency patches and all bug fixes (will include tech stack and application patch sets). We define scheduled downtime maintenance windows as: Midnight to 7 a.m. Fri-Sat local time + midnight to 7 a.m. Sat-Sun local time (dependent upon the data center where the customer data is hosted) We will provide customers with at least a 2 days' notice if a larger maintenance window is needed. Typically, for HCM / LMS products, customers receive a 3-5 day notification (via popup on login). When the system is not available during the maintenance there is a notification page displayed for the outage timing. We plan maintenance events conservatively, and use them sparingly.
VMware	VMware IaaS Services Customers are notified in advance of any expected downtime with vCloud Air services. In the event of an unexpected outages or disruption to the service, customers will be notified via their preferred contact means as soon as possible as per the terms outlined in the Service Level Agreement. VMWare AirWatch	

	We maintain standard SLAs with our customers to provide for downtime • SLAs are defined within the AirWatch Hosted Services Policy Per our Hosted Services Policy, we provide outage credits in the event of a service interruption: • ""AirWatch warrants it will provide Availability of the Hosted Services 99.9% of the calendar month (the "Service Level"). To the extent that the Hosted Services fail to conform to the Service Level, Customer may request service credits ("Outage Credits") as provided herein. A failure or lack of Availability for any period of time of at least one minute during which Customer is unable to utilize the Hosted Services due to AirWatch's failure to provide Customer with the specified services constitutes an "Outage". All Outage measurements will be rounded up or down to the nearest one minute increment, with increments equal to or greater than 30 seconds being rounded up to the next minute. Outage Credits are based on cumulative periods of Outage over a calendar month. Final determinations of the length of the cumulative periods of Outage over a calendar month shall be based on AirWatch's internal monitoring equipment and records. Outage Credits will be taken against only the Hosted Service fees for the month in which the Outage occurred.""
FireEye	FireEye undertakes reasonable efforts to ensure that the service availability maintains a minimum of 99.9% availability. However there are circumstances where the system will be down due to the following: a) "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer. Customers receive notification and announcements for any scheduled maintenance period. b)"Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance.
VirtueStream	Virtustream planned downtimes start with the weekly change board meeting by the Platform Operations group. All requested changes whether requested by customers or by the operations staff are reviewed, if approved then scheduled. Depending on the nature of the change, routine and planned, the affected customers are notified as early as possible and adjusted based on customer needs. For example, if the scheduled downtime falls on a weekend that a customer plans to do their quarterly close, Virtustream will reschedule. An emergency/urgent change may have less notice for the customers. But in all cases, customers will be notified of the upcoming downtime multiple times, start of the downtime will be specified and the expected duration. Once the downtime is complete, another notification will go out to the affected

8.12.6 Describe the consequences/SLA remedies if disaster recovery metrics are not met.

CA	APM	In the event that the Service Level Availability committed decreases below the Threshold for Service Availability Default, Minor or Major, Customer may be entitled to take action as outlined in contract. Defined, monetary penalties are provided in the SaaS Listing document.
	MAA	Defined monetary penalties are provided in the SaaS Listing document
	CA Agile	See 8.12.4
	ASM	Defined, monetary penalties are provided in the SaaS Listing document
Google	Customers will be eligible to receive a service credit.	
AODocs	Customers will be eligible to receive a service credit.	
Salesforce	Customer data, up to the last committed transaction, is replicated to disk in near-real time at the designated disaster recovery data center, and backed up at the primary data center. Backups are performed daily at primary data center facility without stopping access to the application.	

	For business continuity purposes, Salesforce supports disaster recovery with a dedicated team and a 4 hour recovery point objective (RPO) and 12 hour recovery time objective (RTO). Additional details can be provided with the execution of an NDA between Salesforce and your Agency. In terms of remedies, the Salesforce Service Terms incorporated as part of the End User Licensing Agreement indicate the following regarding Termination allowing customers to terminate the contract at time of renewal: ""User subscriptions will automatically renew for additional periods of one (1) year at the list price in effect at the time of renewal unless You give Your Reseller notice of termination at least 30 days prior to the end of the relevant subscription term.""	
ServiceNow	See 8.12.2 for the Availability SLA.	
Docusign	See 8.12.4.	
SAP	Ariba	Please see the details provided in 8.12.4 response.
	Fieldglass	Please see the answer to Question 8.12.4, above.
	Hanna	Penalties and remediation for SLA violations are detailed in the Statement of Work.
	Hybris	Our SLA provides tenant remuneration for losses they may incur due to outages within the infrastructure.
VMware	For VMware there is a service credit reimbursement structure outlined above. We have detailed recovery procedures that include defined steps, roles and responsibilities and accountable personnel to help ensure streamlined disaster recovery. As conversations progress, AirWatch can provide specific details regarding our disaster recovery timelines and strategies.	
FireEye	FireEye has established formal Business Continuity and Disaster Recovery plan, as well as Incident Response and Recovery Plans to help maximize availability of critical customer-impacting services.	

8.12.7 Provide a sample of performance reports and specify if they are available over the Web and if they are real-time statistics or batch statistics.

CA	APM	A report of the Service's measured monthly SLA is available to Customer upon request
	MAA	Reports are generated periodically and ad hoc. Customers can use their support.ca.com credentials to access private trust site which contains SLA details for the subscribed service.
	CA Agile	Realtime and historical system status can be viewed at https://status.rallydev.com
	ASM	Reports are generated periodically and ad hoc.
Google	Google does not produce customer specific performance reports. The web based Apps Status Dashboard displays real time System Availability Details. Customers can works with their Google reseller to design a reporting system using Google Sheets based on which incident actually impacts their end users. Service availability issues are isolated to specific applications and specific geographically locations and thus would not impact all of your users or your account at all.	
AODocs	AODocs does not produce customer specific performance reports. Customers can visit the AODocs status page: status.aodocs.com. AODocs provides a set a usage reports and AODocs team can also work with the customer to build specific reports	
Virtru	We have realtime monitoring of both server side operations and client side interactions.	
Salesforce	System Performance ReportsOur track record speaks for itself—Salesforce has maintained high levels of availability across all Salesforce instances since inception. As an on-demand vendor	

	providing daily service-quality data on a public website (http://trust.salesforce.com), Salesforce proves that it is a leader in availability. And by making its track record completely transparent, salesforce.com proves it is worthy of customers' trust. A few metrics that we maintain (and publish publicly via our trust.salesforce.com website) are: -Daily Transaction Counts -Daily Transaction Speeds Salesforce is hitting almost 4 billion transactions a day. These transactions are a mix of user interacting with the system and API calls where other systems are bi-directionally interacting with Salesforce. Our Average Transaction Time hovers between 150 and low 200 milliseconds. Some additional published metrics are uptime & availability, planned maintenance windows, and any performance degradation. The Purchasing Entity can view all of this information and more by going to trust.salesforce.com. Customers can also log a case to request system uptime reports for the last 6 months and last 12 months, however, system reports are not automatically distributed.	
ServiceNow	Administrators can view a wide range of performance metrics for their instance and for the machine on which the instance is running, displayed in a graphical format. Add these graphs and their controls to a home page to monitor the performance of instances. Some of these graphs are intended for use by ServiceNow Technical Support to troubleshoot performance issues or help tune your system for maximum efficiency. Each graph enables admins to filter the data by using different measurements, such as maximum and minimum values, means, and medians. The available graphs reflect performance in eight functional areas of ServiceNow. •Database •Discovery •Disk Partitions •Linux Stats •Logging •MySQL Overview •Node Metrics •Replication •ServiceNow Servlet	
Docusign	For real-time data, please visit the DocuSign Trust site (trust.docusign.com) for additional information.	
SAP	Ariba	We provide a monthly report to customers describing the system availability percentage. Depending on the cloud service, these reports are made available either by email, through the cloud service or through an online portal.
	Fieldglass	Fieldglass executes comprehensive performance testing prior to each release to production. Performance testing is executed in accordance with the Fieldglass Performance Testing Standards document. Types of testing performed include regression, load, stress, and endurance. Results are reviewed and approved by senior members of development, QA, IT, and the Chief Architect. Our standards document can be shared upon request while under NDA. During peak periods, Fieldglass will see 12,000 concurrent users with page response times averaging 400-700ms. Across all of 2015, we have a 99.4% success rate in meeting or exceeding all monthly customer SLAs for page response times.
	Hanna	Performance reports on HEC are available to the customer via the SAP One Portal page. It provides the customer among other things: operational info about systems being managed, incident management, security management, user specific settings, planned downtime, etc.

	SuccessFactors	Customers can view hosting performance and availability information real-time at the following link: https://support.successfactors.com/Service_Status.
VMware	VMware IaaS Services VMware vCloud Air provides Web-based capacity reporting via the MyVMware portal. For detailed performance reporting, participating entities may wish to acquire VMware vRealize Operations suite, which is a non-Web based software product which provides real-time and historic performance statistics for vCloud Air. VMWare AirWatch We can provide sample performance testing documents that validate our ability to handle anticipated workload under real-world conditions as conversations progress. We have a dedicated team for scalability and performance testing. They work with both internal teams and customers to conduct testing.	
FireEye	This is not applicable as each of the FireEye offerings are classified as SaaS. The performance of the FireEye cloud environments are continuously monitored and managed by the cloud service operations (CSO) team to ensure secure operation and availability.	
VirtueStream	Service Levels will be calculated and measured monthly by Virtustream on a calendar month basis and reported each month for the previous month. The reports will be provided to Customer by the tenth (10th) working day of the month following that to which such report relates, commencing on the second (2nd) month following the Service Start Date and each month thereafter. The monthly service level report will contain at least the following items: (i) Uptime statistics for the month concerned; (ii) an analysis of reported incidents over the previous month, broken down by type for discussion; (iii) action plans for items giving rise to concern; (iv) comments and observations on any issues arising from Virtustream's performance monitoring activities; (v) recommendations on service delivery strategies to maintain or enhance the service level; and (vi) review of general business requirements ("Service Level Report"). Cloud Platform Services (CPS) has its own specific service levels as described in this document. Cloud Cover Services (CCS) has service levels that pertain to the CCS offerings and are reported separately. Not all Virtustream customers have CCS but all Virtustream customers use CPS.	

8.12.8 Ability to print historical, statistical, and usage reports locally.

CA	APM	A report of the Service's measured monthly SLA is available to Customer upon request
	MAA	Same as above.
	CA Agile	This is available upon request.
	ASM	Customers are sent monthly SLA reports.
Google	See 8.12.7	
AODocs	See 8.12.7	
Virtru	We may be able to publish reports locally for customers.	
Salesforce	Trust.salesforce.com is the Salesforce community's home for real-time information on system performance and security. On this site you'll find: ● Live and historical data on system performance ● Up-to-the minute information on planned maintenance ● Phishing, malicious software, and social engineering threats ● Best security practices for your organization ● Information on how we safeguard your data	

	In addition to the Salesforce Trust site (http://trust.salesforce.com/trust/status) to monitor uptime and performance, your Agency will also have access to a System Overview, which will help you monitor performance and usage of your own Salesforce org. This overview includes: Schema - # and % of custom objects and data storage Business Logic - # and % of Rules, Apex triggers and classes, as well as % of code used License Usage API Usage - # and % of requests in the last 24 hours User Interface - # and % of custom apps, sites, flows, custom tabs and pages Portal Usage The above list is of all the possible metrics that you may have in your system overview.	
ServiceNow	Yes. Instance performance can be viewed locally. Customers can use the Customer Support Portal to obtain information about the real availability of all their instances. Real availability is the percentage of production time that an instance is up and available for use.	
Docusign	Yes. DocuSign offers a number of pre-defined reports to provide detail and summary information on DocuSign usage in the account, such as by Envelope, Recipients, Velocity of signing, and User Access among many other reports. Users can modify report criteria such as data ranges and reports can be scheduled to execute. All reports can be downloaded or Printed locally.	
QTS	Yes	
SAP	Ariba	User access is browser-based, so printing is enabled via the printers that are setup on the user's workstation. There are several "Print" buttons throughout the applications that will open an additional browser window with a printer-friendly format of the screen.
	Fieldglass	Any user with the correct permissions in the system, as specified by the State of Utah, may locally print historical, statistical, and usage reports.
	Hanna	Yes, available
VMware	VMware IaaS Services At the present time, VMware does not provide end user customers with specific reports for SLA performance. VMware tracks the overall health of the environment and will report to customers in the event of an outage. However, specific SLA performance is not delivered as a report, but as an alert. It is currently the customer's responsibility to track downtime within their environments and report to VMware when they believe SLA has been violated. VMWare AirWatch Customers can export and print solution data using interactive dashboards (CSV), reports (PDF, XLS, and CSV), the AirWatch Hub (PDF), and event log (CSV)	
FireEye	Each of the offerings in this response have reporting capabilities local to the system and users with the appropriate access rights.	

8.12.9 Offeror must describe whether or not its on-demand deployment is supported 24x365.

CA	N/A. CA only offers SaaS solutions and manages all aspects of the service. Clients do not have direct access to the environment.
Google	Purchasing entities will subscribe to an initial set of user licenses and can provision new user accounts at their convenience within that range of licenses.
Salesforce	The Salesforce service can be deployed rapidly since our customers do not have to spend time procuring, installing or maintaining the servers, storage, networking equipment, security products,

	or other infrastructure hardware and software necessary. The service is always available and the customer can deploy 24x365 at their own pace.
ServiceNow	ServiceNow is supported 24x365.
FireEye	The FireEye offerings in this response are SaaS service models. Once the application or service is set up there are no further deployment steps necessary. On-demand Self-service options referenced in section 8.1.2.1 are available 24x365.
VirtueStream	Virtustream's self-service portal allows authorized users to deploy resources on-demand 24x365.

8.12.10 Offeror must describe its scale-up and scale-down, and whether it is available 24x365.

CA	N/A. CA only offers SaaS solutions and manages all aspects of the service; monitoring and capacity planning is included as part of the service.
Google	Purchasing entities will subscribe to an initial set of user licenses and can provision new user accounts at their convenience within that range of licenses. If the purchasing entity has exceeded or is about to exceed their user count they can place an order for additional licenses at any time. Scale-down procedures will be handled on the renewal anniversary.
Salesforce	The Salesforce cloud based architecture will allow the State to deploy Salesforce solutions rapidly and scale at will for future needs. Customer's may scale up and add licenses at any point during their annual contract cycle. User counts are examined on an annual basis at time of renewal to ensure the customer had adequate license coverage.
ServiceNow	ServiceNow can automatically scale its application servers horizontally by adding or subtracting them to the load balancer pools for a particular instance. Scaling is managed by the ServiceNow Cloud Operations team.
FireEye	The FireEye offerings in this response are SaaS service models. FireEye cloud environments are continuously monitored by cloud service operations (CSO) personnel to help ensure optimal resources are allocated to the system 24x365.
VirtueStream	Virtustream's self-service portal allows authorized users to deploy or de-commission resources on-demand 24x365.

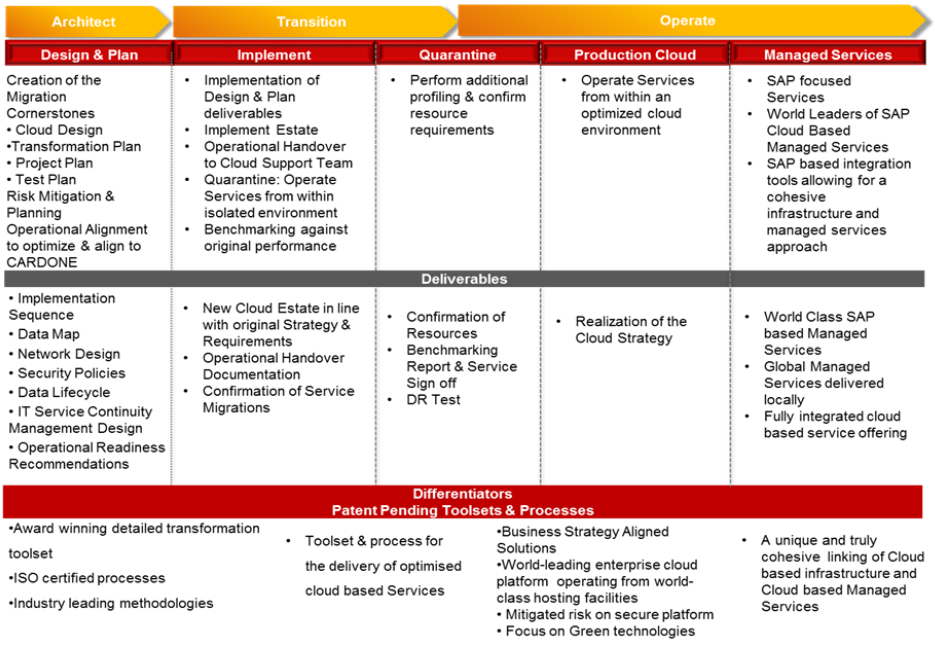
8.13 Cloud Security Alliance

Describe your level of disclosure with CSA Star Registry for each Solution offered.

a. Completion of a CSA STAR Self-Assessment, as described in Section 5.5.3.
b. Completion of Exhibits 1 and 2 to Attachment B.
c. Completion of a CSA STAR Attestation, Certification, or Assessment.
d. Completion CSA STAR Continuous Monitoring.

Carahsoft is proposing a number of Service Providers that are members of the Cloud Security Alliance. For example Salesforce is a corporate member of the Cloud Security Alliance (CSA) and contributes to their research and initiatives in a variety of ways. Salesforce has completed the CSA Consensus Assessments Initiative questionnaire (CAIQ), which maps to the CSA Cloud Controls Matrix (CCM) for the Salesforce Services, including Force.com, Analytics Cloud, Communities, Chatter, Sales Cloud and Service Cloud. A copy of the current completed CSA CAIQ can be provided to prospects or customers under NDA upon request.

8.14 Service Provisioning

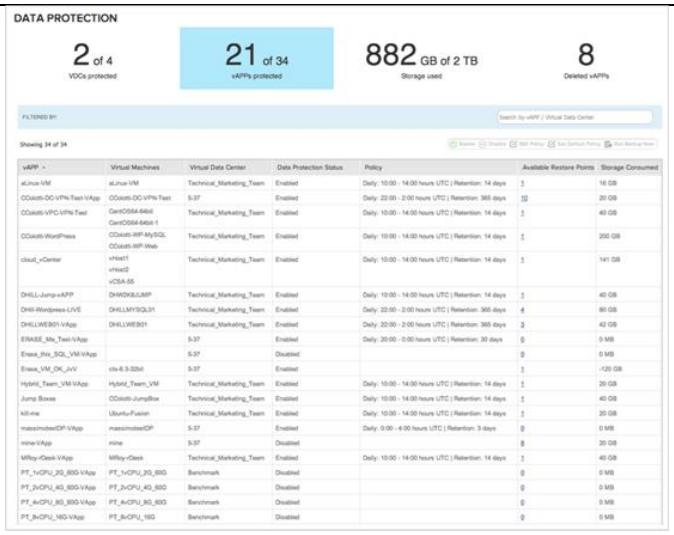


8.14. 1 Describe in detail how your firm processes emergency or rush services implementation requests by a Purchasing Entity.

CA	APM	CA SaaS Ops has a rigorous service introduction and update process that is governed by a central body to ensure adherence. Every step in the process is recorded, tracked and approved.
	MAA	Standard lead times for requests can be waived for requests that have a critical business need
	CA Agile	Standard lead times for requests can be waived for requests that have a critical business need such as a data recovery effort
	ASM	Standard lead times for requests can be waived for requests that have a critical business need such as a data recovery effort
Google	Order processing from the time a valid Purchase Order is submitted has a normal turn around time of three business days. Google's sales team can be contacted to expedite orders when needed.	
AODocs	Order processing from the time a valid Purchase Order is submitted has a normal turn around time of two business days. AODocs's sales team can be contacted to expedite orders when needed.	
Virtru	Requests are triaged by the support and if an emergency is identified, the request is escalated by the VP of Product who immediatlye assigns the issue as a top priority to a developer. Once completed a hotfix is pushed to production.	
Salesforce	Subscription-based, On-Demand Service Salesforce offers on-demand Platform as a Service (PaaS) and Software as a Service (SaaS). The Salesforce PaaS and SaaS offerings are subscription based and in a per user/month or user/year format billed annually with some of our products offered as total logins per month or by defined number of members billed annually. Multi-tenancy gives applications elasticity. Force.com applications can automatically scale from one to tens of thousands of users. Processing more than three billion transactions each day, Force.com is used for large-scale deployments. Any application that runs on Force.com is automatically architected to seamlessly scale from 1 user to 100,000 users without the customer having to do anything differently. All applications (includes mobile, offline and read-only options) and data running on Force.com are deployed to and replicated across multiple data centers in different geographies. Every application, no matter how large or small, gets the full benefits of the backup, failover, disaster recovery, and other infrastructure services required for an organization's mission-critical applications.	
ServiceNow	ServiceNow professional services organization responds to customer needs based on each request. Once a purchase order is received from the Purchasing Entity, ServiceNow contacts the Customer to discuss schedules. Resources are assigned based on the project need. If the customer has a priority issue with the system, they would open a ticket and the ticket SLA process would proceed until the issue is resolved. Every ServiceNow customer is supported based on their priority and need.	
SAP	Hanna	Rush or emergency infra provisioning can be request in exceptional situations and would be addressed on best effort priorty basis.
VMware	VMware IaaS Services Initial Order - Expedite the purchasing process thro - In the event that an emergency or rush service implementation request is received, VMware's NASPO program manager will coordinate an expedited response depending on the request. - Expedited Procurement - The Program Manager will directly interface with each company in the supply chain to ensure that the order is processed immediately upon receipt by each party. - Expedited In Increased capacity	

	VMWare AirWatch Participating Agencies will work with thier dedicated Account Executive to procure addition services for thier AirWatch implementations. Customers can implement and update configurations through the AirWatch administrative console. Additionally, customers can submit ASK tickets for any solution issues that will be tracked through completion.
FireEye	FireEye will make every reasonable effort to accommodate rush provisioning requests. The purchasing entity should contact their sales account team who will interface directly with the corresponding implementation team to coordinate an expedited implementation.

8.14.2 Describe in detail the standard lead-time for provisioning your Solutions.



CA	APM	48 hour turnaround is typically required
	MAA	Services do not generally require client action for provisioning. General service catalog requests have a standard 48 hour lead time
	CA Agile	Services do not generally require client action for provisioning. General service catalog requests, such as a data refresh, have a standard 48 hour lead time
	ASM	Services do not generally require client action for provisioning. General service requests have a standard 48 hour lead time
Google	Standard lead time is three business days.	
AODocs	Standard lead time is two business days.	
Virtru	The Lead-time for provisioning is no more than 15 minutes	
ServiceNow	ServiceNow provisions new instances or newly purchased users or applications to the instance within 48 hours after receipt of order. If users or applications are required more quickly, the customer controls access to all ServiceNOw capabilities at any time and the true-up occurs thereafter.	
Docusign	DocuSign is intuitive and easy-to-use. Getting started with our cloud solution, standard console, can be implemented in a day. Adding integrations or API's will add to the complexity of the implementation, but our Professional Services are there to guide you every step of the way.	
VMware	VMware vCloud Air Services VMware vCloud Air OnDemand services can be purchased and provisioned in minutes via the vCloud Air self service portal. VMware vCloud Air services other than OnDemand are purchased via purchase order. Purchase orders are typically processed on the day of order. Once services have been purchased the user can immediately begin provisioning services from the self service portal. These services are available within minutes of launch. VMware vCloud Government Services VMware vCloud Government Services are purchased via purchase order. Purchase orders are typically processed on the day of order. New environments require an RSA token that is overnighted for 2 factor authentication. Once the user has their RSA token they can begin to provision IaaS Services. VMWare AirWatch AirWatch is committed to implementing the solution in a timely manner and we work closely with customers to meet internal deadlines. Delivery and deployment models will vary depending the hosting model selected by the customer: • SaaS deployments can be implemented within several days and some within a few hours • Large enterprise deployments with numerous integration endpoints may require additional time Once an order is placed, we immediately begin working with the customer to finalize terms and conditions in a mutually agreeable manner and begin the implementation process. We schedule regular check-ins for project status updates and to discuss any questions or concerns.	

FireEye	FireEye anticipates that the standard lead-time is expected to take no more than five (5) business days. However, FireEye is willing to accommodate an urgent request from NASPO in order to provide adequate service to the participating states.
VirtueStream	Virtustream's standard lead-time for provisioning can vary based of the type of deployment and requirement. Resources can be deployed on-demand basis by State of Utah. For the initial services, there is a standard which is maintained as best practice. At project kick-off, Virtustream and State of Utah will develop a detailed Implementation Plan, on a system-by-system, week-by-week basis, to ensure that both sides of the relationship have clear expectations on what is to be accomplished, by whom, and in what timeframe. Upon completion of the Implementation Plan, Virtustream and State of Utah will establish a Project Governance Plan and the Project Governance Plan will manage Implementation Plan and ensure alignment at all tiers of the organization, define expectations for status update frequency and formats, and establish an escalation path for issue identification and resolution. Virtustream offers a dedicated onboarding project team that is charged with migrating clients into the xStream® cloud. This chargeable service includes resources from our platform and SAP teams and development of an onboarding project plan with milestones and deliverables. Virtustream uses a mature methodology to move clients onto our cloud platform, a process which is continuously refined and improved. A link is established to the client site using a Virtual Private Network (VPN) or Multiprotocol Label Switching (MPLS) circuit, for customer access and testing of migrated systems. Prerequisites are put into place (domain controllers, backup systems, infrastructure, networking, etc.) prior to systems being onboarded, in a defined sequence. Virtustream SAP basis team members test the systems before turning them over to Ascend for validation. Once on the xStream® platform, Virtustream monitors, backups and maintains the systems. As a component of the Virtustream platform, all core units are replicated to an alternate data center to provide disaster-recovery capability. **Figure 3. Sample Work Plan** 

8.15 Back Up and Disaster Plan

8.15.1 Ability to apply legal retention periods and disposition by agency per purchasing entity policy and/or legal requirements.

CA	APM	Not currently available.
	MAA	Not Available.
	CA Agile	The customer is responsible for the lifecycle of their data. We will retain all data until it has been deleted from our systems. We can remove data from our systems upon written request from the customer at termination of the contract.
	ASM	Not available.
Salesforce	Salesforce customers are responsible for complying with their company's data retention requirements in their use of the Salesforce Services. If a Salesforce customer must preserve data and the retention procedures above are insufficient, they may schedule a weekly export of data or copy to a sandbox account. Exports of Customer Data are available in comma separated value (.csv) format by request via Salesforce's Customer Support department. In addition, many exports can be manually pulled by the designated org administrators.	
ServiceNow	Once notified ServiceNow has the ability to leverage our internal clone operation process. This provides a locked state copy of the instance, while the customer can continue working on the production instance. Any data additions, changes or deletes will be on the production but not on the frozen instance copy. Additionally, ServiceNow can freeze backups to prevent them from being over written.	
Docusign	DocuSign customers determine their retention policies.	
QTS	Yes QTS will work with customers to meet legal requirements.	
SAP	Ariba	For the network's standard record retention is 180 days, but customers can request longer terms.
	Fieldglass	Fieldglass has many methods in which we can freeze customer data, today. We have the capabilities to restore, utilizing a point in time recovery method to a secondary system for legal review effectively delivering a system that has been frozen in time for all clients.
	Hanna	HEC standard backup retention is 1 month for productive systems, and 14 days for non-productive systems. However retention period can be changed per request and may have cost impact.
	SuccessFactors	A customer can configure as many ""purge rules"" as required to comply with data privacy rules. Since these rules vary by country, the solution provides the flexibility to define different retention periods for groups defined by country, department, division, location, job code and hire date. Customers can grant permissions to the appropriate users to create a request to purge data and to approve the request to purge data. These ""purge rules"" can be scheduled to reoccur. User records are kept in the system, for reporting purposes, but their data is anonymized. Our customers use the solution in compliance with local regulations today in almost 180 countries.
VMware	VMware IaaS Services Participating entities that leverage VMware Data Protection are able to specify the retention period of their backups to comply with policies and legal requirements. Data Protection leverages snapshots to take an image level backup of virtual machines. When a backup is initiated, a snapshot is taken of that virtual machine. Once the snapshot is taken it is then stored on the Data Protection storage for the duration of the retention period assigned in the policy. The policy column in the screenshot below illustrates the variety of data retention policies that have been set within a sample customer's vCloud Air Data Protection instance. In this example retention policies range from 3 to 365 days.	

	 VMWare AirWatch Customers can export and archive solution data using interactive dashboards (CSV), reports (PDF, XLS, and CSV), the AirWatch Hub (PDF), and event log (CSV). Customers in a Dedicated Cloud deployment can leverage a robust data mart.
FireEye	Customers have access to data stored in the varying cloud solutions and are accessible at any time during the length of the subscription contract. Retention periods vary per service offered. See section 8.7.2 for further information.
VirtueStream	Specific retention requirements can be accommodated on a custom basis. More detailed information would need to be provided in order to scope.

8.15.2 Describe any known inherent disaster recovery risks and provide potential mitigation strategies.

CA	APM	DR is provided only in a single geography at this point. Professional Services would need to be engaged to provide multi-geo DR
	MAA	N/A
	CA Agile	None - our DR plan is tested at a minimum semi-annually.
	ASM	None
Virtru	Please see the Virtru Disaster Recovery Plan provided in the Supplemental Information section of this response.	
Salesforce	The Salesforce service performs near real-time replication at each data center and annual disaster recovery tests for the service verify the projected recovery times and data replication between the production data center and the disaster recovery center. The disaster recovery site is a 100% replica of the primary production site of capacity (host, network, storage, data). Data is transmitted between the primary and disaster recovery data centers across encrypted links. Additionally, back-ups of data are performed and data is retained on backups at the geographically separated disaster recovery data center location [CP-4, CP-6, CP-7, CP-9, MP-5].	
ServiceNow	ServiceNow is divided into two distinct environments for Business Continuity (BC) and Disaster Recovery (DR). ServiceNow's corporate environment and its data center environments are physically and logically isolated from each other. A disaster in ServiceNow's corporate environment could occur with little or no impact on the ability for the data centers within the private cloud to operate. In both cases, the BC and the DR are supported by a series of SOPs that allow ServiceNow to quickly and effectively take action when it is required.	

<table>
<tr><td></td><td colspan="2">ServiceNow's customer DR is documented in its Information System Contingency Plan (ISCP), which covers its data center environments, and includes all customer environments as well as the instances that ServiceNow uses to run its business.

ServiceNow formally tests this process on an annual basis and can produce compliance reports for customers requiring them. ServiceNow also uses the process of transferring instances to reduce the impact of maintenance on its service and will move instances out of one data center to the other on a daily basis. As a result, ServiceNow is very well practiced at the process of "failing over" customer instances.

ServiceNow's BC process covers its functional offices and is a separate standard operating procedure from its customer environments. The BC Plan (BCP) has been developed in concert with the entire business including Business Impact Assessments (BIA) to understand the impact of the loss of any given systems or locations.</td></tr>
<tr><td>Docusign</td><td colspan="2">DocuSign is dedicated to providing the industry's most secure eSignature solution through the DocuSign Security Assurance Program.</td></tr>
<tr><td>QTS</td><td colspan="2">Not having a current copy of your information.
Mitigation - QTS's DR High Availability Service provides continuous data replication of your physical and virtual server environments, ensuring you always have access to a current copy of your data, applications and operating systems.</td></tr>
<tr><td rowspan="4">SAP</td><td>Ariba</td><td>Ariba has a strong disaster recovery procedure, tested every 6 months though has never required to fail over to the backup data center. The RTO is 4 hours and RPO is 5 minutes. Please see the SaaS Technical Infrastructure Whitepaper for addiitonal details.</td></tr>
<tr><td>Fieldglass</td><td>None.</td></tr>
<tr><td>Hanna</td><td>SAP Hana Enterprise Cloud helps customers improve their Business Continuity requirements with High Availability (HA) , Disaster Recovery & Backup options.
High Availability (HA) - HA is achieved by failover to standby node
Disaster Recovery (DR) - Systems are configured in the secondary datacenter.
DR is an optional service that can be included as per customer's requirements</td></tr>
<tr><td>SuccessFactors</td><td>We maintain an N+1 approach for all equipment in the hosted cloud environment, so that there is never a single point of failure. All customer database backups are encrypted and streamed in a secure manner from the customer's "primary" data center to their "alternate" data center, allowing for a timely restoration of service in the event of disaster.
Based on the terms of the agreement, we will designate one of the data centers as the customer's "primary" data center, with an additional data center designated as the "alternate" for data redundancy and disaster recovery purposes.</td></tr>
<tr><td>VMware</td><td colspan="2">VMware IaaS Services
The following table provides common inherent disaster recovery risks and potential mitigation strategies.
<table>
<tr><th>RISK</th><th>Unmitigated Probability</th><th>Mitigation</th><th>Mitigated Probability</th></tr>
<tr><td>Participating agency's lack of a disaster recovery plan leads to</td><td>High Risk</td><td>Participating Entities are encouraged to develop a disaster recovery plan to mitigate against service</td><td>No Risk</td></tr>
</table>
</td></tr>
</table>

	service outage or data loss in the event of a disaster.		outage or data loss. In parallel, entities are encouraged to leverage vCloud Air data protection, vCloud Air Disaster Recovery, and other high availability services while a formal plan is written	
	Participating entity chooses inappropriate data center location leading to service degradation or outage.	High Risk	Participating entities are encouraged to choose datacenter(s) that is geographically proximate to their end users to maximize performance. In addition, location of disaster recovery data center should be geographically separated from primary data center.	Low Risk
	Participating entity fails to budget for and acquire appropriate DR technology leading to inability to recover from disasters.	High Risk	Participating entities are encouraged to include DR capabilities in their costs estimates for cloud deployments to ensure budget is available to acquire those services.	No Risk
	Participating entity fails to ensure cloud service SLAs (e.g. RPO & RTO objectives) meet their mission requirements leading to inadequate service recovery times and data loss.	High Risk	Participating entities are encouraged to review SLAs for each cloud service that they are interested in acquiring to ensure that they meet mission requirements. Care should also be taken to ensure service SLAs do not significantly exceed mission requirements to avoid unnecessary cost.	No Risk
	VMWare AirWatch			

	Providing a secure and stable product that mitigates vulnerabilities, reduces risk and quickly responds to the evolving threat landscape is considered a top priority. Following the guidelines established in NIST SP 800-30, regular risk and vulnerability assessments are performed against the production environment to identify, assess and remediate emerging threats. When potential vulnerabilities are discovered, we follow a documented procedure to prioritize and deploy necessary patches. •Vulnerabilities and threat-sources are identified by conducting interviews with various members of the Cloud Operations community and mapping data to the AirWatch business landscape. •We can provide additional information as conversations progress.
FireEye	Varies by service and customer deployment. Will be defined during engagement setup.
VirtueStream	Virtustream has built redundancy into all layers of the physical infrastructure in order to deliver SLAs up to 99.999% and mitigate any known risks. To further mitigate against the unknown, Core microVM's are designed for mission-critical workloads and include reserved compute capacity in a secondary datacenter and automatic storage replication to facilitate the ability to restore operations in the event of an outage at the primary data center.

8.15.3 Describe the infrastructure that supports multiple data centers within the United States, each of which supports redundancy, failover capability, and the ability to run large scale applications independently in case one data center is lost.

CA	APM	AWS datacenters provide redundancy and failover within a single AWS EC2 zone (i.e., a single geographic location). Professional Services would need to be engaged to provide multi-geo DR
	MAA	MAA service is currently available from one data center only.
	CA Agile	We run a hot/warm data center configuration and have the ability to quickly failover if required. Our data centers are ~1300 miles apart to ensure redundancy. We perform full system planned switch over testing at a minimum semi-annually.
	ASM	ASM core services run in one primary data center, and can fail over to the DR site if there is a catastrophic failure.
AODocs	As described elsewhere in this response, AODocs is built on Google Cloud Platform (AppEngine) and Altirnao does not manage this infrastructure.	
Virtru	We operate our infrastructure in multiple Availability Zones, and any given data center failure would not result in data loss.	
Salesforce	Customer Data for customers in Salesforce's Government Cloud is stored in two of our U.S. data center locations. Our service is collocated in dedicated spaces at toptier data centers. Salesforce's hardware is located inside of secure server rooms designated to Salesforce and separated by concrete walls from other data center tenants. Individual racks inside of the data center are secured with a lock. Specific racks are allocated for hardware supporting the Salesforce Government Cloud. Access to the racks supporting the Salesforce Government Cloud hardware is restricted to Qualified U.S. Citizens as described in the section above.	
ServiceNow	ServiceNow's data centers and cloud-based infrastructure have been designed to be highly available. All servers and network devices have redundant components and multiple network paths to avoid single points of failure. At the heart of this architecture, each customer application instance is supported by a multi-homed network configuration with multiple connections to the Internet. Production application servers are load balanced within each data center. Production database servers are replicated in near-real time to a peer data center within the same geographic region.	

	ServiceNow leverages this Advanced High Availability (AHA) architecture for customer production instances in several ways: •In the event of the failure of one or more infrastructure components, service is restored by transferring the operation of customer instances associated with the failed components to the peer data center. •Before executing required maintenance, ServiceNow can proactively transfer operation of customer instances impacted by the maintenance to the peer data center. The maintenance can then proceed without impacting service availability. This approach means that the transfer between active and standby data centers is being regularly executed as part of standard operating procedures – ensuring that when it is needed to address a failure, the transfer will be successful and service disruption minimized. See the "ServiceNow Security, Operations, and Compliance White Paper" included with this response for more information.
Docusign	Each component of our trusted platform - Hardware & Infrastructure, Systems & Operations, Applications & Access, and Transmission & Storage - undergoes tremendous security scrutiny. HARDWARE & INFRASTRUCTURE Three geo-dispersed, SSAE 16 audited datacenters Near real-time secure data replication and encrypted archival 365x24x7 on-site security Annual Business Continuity Planning (BCP) & Disaster Recovery (DR) testing Third-party penetration testing SYSTEMS & OPERATIONS Physically and logically separate networks Two-factor, encrypted VPN access Professional, commercial grade firewalls and border routers Distributed Denial of Service (DDoS) mitigation Active monitoring and alerting APPLICATIONS & ACCESS Formal code reviews and vulnerability mitigation by third parties Application level Advanced Encryption Standard (AES) 256 bit encryption Key Management & Encryption Program Enterprise-class malware protection Digital audit trail Multiple authentication mechanisms TRANSMISSION & STORAGE Secure, private SSL 256 bit viewing session Anti-tampering controls Signature verification of signing events Unalterable, systematic capture of signing data Digital certificate technology Customer configurable data retention program

QTS	QTS cloud utilizes alternate telecommunications services from both TW Telecom and NTT America that reduces the likelihood of experiencing a single point of failure. QTS's failover facilities in RIC1 and ATL1 are a carrier-class and carrier-neutral datacenter with multiple Internet Service Providers. QTS-FC can establish connectivity with another service provider with 24 hours in the event of an unrecoverable catastrophic connectivity failure of QTS-FC's primary/secondary provider.	
SAP	Ariba	Ariba has implemented two sites within each region. In North America the sites are currently located in San Jose, California and Sterling, VA. In Europe the sites are located in St. Leon-Rot, Germany and Amsterdam, Netherlands. The act of failing over from one site to another has a design goal for its Recovery Time Objective (RTO) of no more than four hours. The design goal for the Recovery Point Objective (RPO) is five minutes. Disaster recovery options are included for all Ariba Cloud Services. In the event of a fail-over to the disaster recovery site, no customer changes are required as all URLs that customers use to reach the applications will continue to work. Ariba will notify customers via their email addresses in the event of unplanned downtime. Internally, Ariba uses a documented system recovery plan that outlines the approach and steps for recovering the applications. This document defines roles and responsibilities in the event of disaster: Local Ariba staff maintains the hardware remotely. Ariba maintains the application software. Processes are in place to keep database and fileservers in sync between primary and backup data centers. The failover process of all parts of the infrastructure is automated. In the event of a catastrophe, Ariba will declare the primary data center "down" and locally the script will be run to switchover and start the applications at the remote data center. Ariba tests power outage backup scenarios and the Disaster Recovery Plan on a periodic basis to ensure it is up-to-date, successful, and effective.
	Fieldglass	We host and manage the Fieldglass system within secure Internet data centers provided by CenturyLink in Elk Grove, IL, and our disaster recovery center provided by Equinix in San Jose, CA. Both are managed by Server Central which is a Tier 4 hosting provider and a Tier 1 data provider (see the note below). All systems are ""mission-critical loads"" supported by IDC Redundant Power Management System (UPS, generators etc.). Note: Data centers can be classified by tiers, with Tier 1 being the most basic and inexpensive, and Tier 4 being the most robust and costly. According to definitions from the Uptime Institute and the latest draft of TIA/EIA-942 (Telecommunications Infrastructure Standard for Data Centers), a Tier 1 data center is not required to have redundant power and cooling infrastructures. It needs only a lock for security and can tolerate up to 28.8 hours of downtime per year. In contrast, a Tier 4 data center must have redundant systems for power and cooling, with multiple distribution paths that are active and fault tolerant. Furthermore, access should be controlled with biometric readers and single-person entryways, gaseous fire suppression is required, the cabling infrastructure should have a redundant backbone, and the facility can permit no more than 0.4 hours of downtime per year. Tier 1 or 2 is usually sufficient for enterprise data centers that primarily serve users within a corporation. Financial data centers are typically Tier 3 or 4 because they are critical to our economic stability and, therefore, must meet

		higher standards set by our government. Public data centers that provide disaster recovery/backup services are also built to higher standards.
	Hanna	Infrastructure setup: * Standby SAP HEC systems at DR failover site will be shutdown / not useable during regular operations. * WAN connectivity & special requirements (e.g. acceleration services) fall into the responsibil-ity of the customer. * Customer must have independent network connections to both DR sites. * All DR-relevant systems are going to be installed according to the Adaptive Computing (AC) principle (virtual hostnames + virtual IP addresses HSR will be used to replicate data from Primary to DR site for HANA solutions, similarly Sybase Replication Server (SRS) will be used to replicate data from Primary to DR site for ASE based solutions. For more information, please refer to attached Business Continuity document
	SuccessFactors	Our infrastructure architecture is designed with high availability in mind, and engineered for resiliency. All major components are redundant, including power, HVAC, fire suppression, and the physical components of our network. Production data centers have strict access controls, and are continuously staffed and monitored to help prevent acts of sabotage or vandalism. All production data centers are ANSI/EIA/TIA-942Tier III/IV facilities, and are ISO 27001 certified. Production data centers are also geographically dispersed to help prevent a single event from affecting more than one data center. In the event a production data center has an outage we failover to an alternate data center in the same geographic region to minimize impact to customers. Our Cloud Operations teams are also geographically dispersed, working in offices in the US, Europe, South America, and India. Should an office be impacted by an environmental event or pandemic, other offices can continue operations. Aspects of the plan are described in the SOC reports, Disaster Recovery Plan ("DRP") and Business Continuity Plan ("BCP") solutions are dependent on several factors. The customer may be responsible for parts of the recovery/continuity activities
VMware	VMware IaaS Services VMware offers several technologies to provide redundancy, failover capability and the ability to run large scale applications independently in case one data center is lost. vCloud Air is built upon infrastructure that is architected for High Availability leveraging proven vSphere High Availability (HA), vSphere vMotion, and VMware Distributed Resource Scheduler (DRS). These technologies allow participating entities to migrate live workloads and/or automatically restart VMs in the event of host maintenance or unexpected issues. These technologies also maintain a consistently high level of performance for all tenants. VMWare vSphere vMotion enables migration of live VMs to transfer your workloads during maintenance, without downtime. Unlike other cloud providers, VMWare ensures that tenants are not impacted by standard maintenance. VMware performs vMotion migrations for maintenance behind the scenes for its tenants in vCloud Air during maintenance windows without disrupting tenant applications. vMotion is also used to seamlessly migrate VMs from an on-premises environment to vCloud Air and back. Today, vCloud Air is one of only a few major cloud vendors that uses live migration to do maintenance. This capability will enable NASPO participating entities to perform live migrations to move thier applications to and from the cloud for maintenance and other purposes. This	

	technology inherently prevents the lock-in experienced when migrating to cloud services offered by others. VMware Dynamic Resource Scheduler continuously monitors CPU and memory utilization across a cluster of vSphere hosts, allocating resources among VMs and rebalancing performance during high-volume peak times. This is performed 24x7 within the VMware vCloud Air environment. VMware vSphere High Availability delivers the availability required by most applications running in VMs, independent of the operating system and application running in it. Whether participating entities leverage Microsoft Windows or Linux; off-the-shelf or custom developed application; single VMs or many, HA provides uniform, failover protection against hardware and operating system outages within vCloud Air. HA can: • Monitor VMware vSphere hosts and VMs to detect hardware and guest operating system failures. • Restart VMs on other vSphere hosts in the cluster without manual intervention when a server outage is detected. • Reduce application downtime by automatically restarting VMs upon detection of an operating system failure. Other cloud providers require you to build availability in to your application. In the best case scenario, this is as simple as including a load balancer in front of multiple VMs in the same tier to achieve basic high availability. However, often the technologies of other cloud service providers requires a complete redesign of the hosted application, and often network devices such as load balancers are offered at an additional cost, unlike vCloud Air. vCloud Air was built to run hosted applications as-is, providing availability down to a single VM instance, and balancing resources across multiple tenant needs with DRS. Unlike other clouds, with vCloud Air and vCGS, participating entities are not required to rebuild thier application to get the flexibility and agility that cloud can provide. Of course, vCloud Air customers usually do not just stop at moving applications to vCloud Air. Once in the cloud they start to explore features like our Advanced Networking Services and using APIs, automation, and CI/CD tools to deliver services faster. And, where it makes sense, customers do look at application redesigns as well, but with vCloud Air it is not because they must redesign to ensure the application is always available. VMWare AirWatch AirWatch features active-passive configurations for high availability and redundancy with all components made to failover with minimal downtime. Load balancing capabilities are deployed across multiple data centers to ensure immediate server pick up, ensuring zero end user downtime. AirWatch also incorporates replication technology featuring SQL log shipping or network SAN byte replication to prevent data loss.
FireEye	Varies by service and customer deployment. Will be defined during engagement setup.
VirtueStream	Virtustream's U.S. based data centers are located in Washington, DC, Las Vegas, and San Francisco. All data centers meet the highest industry standard in terms of operational protocol and have redundancy built into all layers of the physical infrastructure. Core microVM's, which are used for mission-critical workloads, provide reserved compute capacity and automatic storage replication so that these systems can be failed over to a secondary data center and have access to the compute capacity required in the event of a catastrophic outage at the primary data center.

8.16 Solution Administration

8.16.1 Ability of the Purchasing Entity to fully manage identity and user accounts.

CA	APM	Customer has full control over all user accounts

	MAA	CA MAA provides user management self-service to customers to manage their own accounts and create accounts for other users.
	CA Agile	The customer is responsible for managing the lifecycle of all user accounts.
	ASM	The Purchasing Entity can manage their account and create sub-accounts within ASM.
Google	Comply	
AODocs	Comply	
Virtru	Virtru does not have an identity system. We federate authentication to Oauth and Email loop verification.	
Salesforce	Identity Management Logon is form-based. When users log into the Salesforce application, they submit a username and password, which are sent to Salesforce via an TLS-encrypted session. Security features are developed by Salesforce and built into the application. Third-party packages are not used for development or implementation of security internal to the application. In addition, single sign-on and two-factor authentication may be used to authenticate users. Some organizations prefer to use an existing single sign-on capability to simplify and standardize their user authentication. You have two options to implement single sign-on—federated authentication using Security Assertion Markup Language (SAML) or delegated authentication. Federated authentication using Security Assertion Markup Language (SAML) allows you to send authentication and authorization data between affiliated but unrelated Web services. This enables you to sign-on to Salesforce from a client application. Federated authentication using SAML is enabled by default for your organization. Delegated authentication single sign-on enables you to integrate Salesforce with an authentication method that you choose. This enables you to integrate authentication with your LDAP (Lightweight Directory Access Protocol) server, or perform single sign-on by authenticating using a token instead of a password. You manage delegated authentication at the profile level, allowing some users to use delegated authentication, while other users continue to use their Salesforce-managed password. Delegated authentication is set by profile, not organization wide. You must request that this feature be enabled by Salesforce. Salesforce can be configured to utilize Active Directory directly via Delegated Authentication, or indirectly via Federated Identity using either SAML 1.1, or SAML 2.0. Additionally your users can be loaded from information drawn from your Active Directory servers and modifications made in Active Directory can be propagated into Salesforce. Customers can use their own SAML Identity Provider, or license one directly from Salesforce with our Identity Connect product. User Accounts All users and application-level security are defined and maintained by the organization administrator, and not by Salesforce. The organization administrator is appointed by the customer. An organization's sharing model sets the default access that users have to each other's data. There are four sharing models: Private, Public Read Only, Public Read/Write, and Public Read/Write/Transfer. There are also several sharing model elements: Profiles, Roles, Hierarchy, Record Types, Page Layouts, and Field Level security.	
ServiceNow	Customers manage their own instances, including assigning users, defining user roles and profiles, and administrating the system. ServiceNow does not have access to the Customer's instances. The ServiceNow wiki has all ServiceNow documentation available.	

Docusign	Yes, DocuSign allows the purchasing entity to mange identities and user accounts. DocuSign for Enterprise is customizable to meet the administrative needs of the largest organizations. Full administration rights give you total control over document custody and retention policies, how signers sign or adopt signatures, user authentication and more. The branding tools ensure recipients can easily identify documents from your organization.
QTS	24x7x365 Operations Staff - Let QTS provide the expertise and experienced staff to monitor and manage your data center facility. Never again worry about staff turnover or whether your technologists are current with data center best practices.
SAP	Hanna Yes
VMware	VMware IaaS Services VMware management infrastructure requires 2-factor authentication and multiple layers of access control. vCloud Air customers have the ability to provide access to their designated users. User account management is maintained by the customer. control. vCloud Air customers have the ability to provide access to their designated users. User account management is maintained by the customer. VMWare AirWatch The Purchasing entity has the ability to fully manage identity and user accounts for administrators and end users through the web console. Customers can optionally integrate with AD/LDAP to inherit your existing structure and policies.
FireEye	User identity and account settings are controlled within the administration sections of the FireEye cloud solutions.
VirtueStream	Virtustream can provide solution for managed solution for Active Directory or LDAP. As standard, we provide support for managing the VM itself and all OS support. However, our typical use case is, customer manages the users and related activities, as Virtustream might not be aware of internal HR elements of User Management.

8.16.2 Ability to provide anti-virus protection, for data stores.

CA	APM	AWS provides protection/virus scanning for data at rest
	MAA	Logical security is provided by ClamAV Antivirus.
	CA Agile	We have ClamAV installed on all Linux hosts and TrendMicro for Windows hosts.
	ASM	Logical security is provided by ClamAV Antivirus.
Google	Comply	
AODocs	N/A	
Virtru	AlienVault IDS is used to perform virus and vulnerability scans.	
Salesforce	Salesforce runs antivirus software on the production systems that store, transmit or process customer information. The Anti-virus scans host filesystems (not customer data). The antivirus software checks for virus definition updates daily. Other controls are also used to address malware such as hardening the Operating System of our servers, firewall configuration to ensure only required ports are open and all others denied, and use of intrusion detection systems. Access to these systems is restricted to authorized personnel and all these systems, as well as the host platforms, are monitored in real time through a security monitoring system. The application only accepts http and https traffic, but Salesforce does not restrict the file types users can upload. Salesforce does not modify or clean any customer data; the system stores the information provided in an encoded format within the database. It is recommended that customers run updated antivirus and antimalware solutions to help mitigate these threats. The production system receives inbound mail as part of the workflow functionality, but this does not pose any threat to our network, application, or users. No code in the email can be executed or transferred,	

	eliminating the malicious software risk. Email sent from the Salesforce system is not currently scanned for viruses.
ServiceNow	If Customers want to schedule an antivirus software scan on certain computers after a pre-defined number of days, Customer would define a model-based plan with a duration-based maintenance schedule. This would do the scan automatically to those models defined in the Planned Maintenance area.
Docusign	Yes, DocuSign maintains enterprise-class malware protection.
QTS	Yes - 24x7x365, dependable and detailed support
SAP	Hanna Yes
VMware	VMware IaaS Services Anti-virus software is installed on all development, domain and production hardware devices owned and operated by VMware, which hold company data, passwords, or keys. These devices maintain the most recent version of the anti-virus software signature file. VMWare AirWatch AirWatch has installed a best-in-class, continuously-updated anti-virus suite on servers in the SaaS environment
FireEye	FireEye employs a multi-layered, continuously monitored and engaged set of active defenses to provide anti-virus protection for customer data stores that both meet and exceed traditional approaches. FireEye, and our customers, not only are prepared to reactively withstand attacks from known virus vectors, but since FireEye and our MVX technology is literally, continuously, and securely detonating viruses and other advanced malware on the way to our customer's data stores, FireEye proactively defends from zero day and other emergent attacks as they happen.
VirtueStream	Virtustream offers Anti-Virus protection based on per virtual machine, per month charge.

8.16.3 Ability to migrate all Purchasing Entity data, metadata, and usage data to a successor Cloud Hosting solution provider.

Carahsoft will work with each Participating Entity to develop a cost effective plan to assist in the migration and implementation of their data into the new service that has been selected.

8.16.4 Ability to administer the solution in a distributed manner to different participating entities.

Carahsoft will view each Participating Entity as a separate customer and privileges can be assigned for control access even within the individual services.

8.16.5 Ability to apply a participating entity's defined administration polices in managing a solution.

Each Participating Entity will have the ability to work with Carahsoft and the Service Provider to identify defined administration policies to mangage the solution.

8.17 Hosting and Provisioning

8.17.1 Documented cloud hosting provisioning processes, and your defined/standard cloud provisioning stack.

CA	APM	CA SaaS Ops has a well defined Service Introduction and update process, including review boards, staged rollouts and followups to ensure service integrity. Our cloud provisioning stack is tied to AWS EC2 services, and includes S3 and RDS for storage; RHEL instances for the applications; route 53 DNS services; cloudfront for monitoring; and ELB for load balancing

	MAA	Automation tools are used to install and configure MAA software on CA infrastructure. SOP documents are used by CA internally.
	CA Agile	All new systems should be provisions according to our baseline standards and we use configuration management tools to ensure all systems are created with the same standards.
	ASM	Automation tools are used to install and configure ASM software on CA infrastructure. SOP documents are used by CA internally.
Google	Google has administrative document and Google Deployment Guides accessible on the web.	
AODocs	This is not applicable to Google.	
Virtru	Ubuntu AMIs provisioned using terraform and configured by Ansible	
Salesforce	Cloud Hosting and Provisioning Salesforce's deployment model is a "public" cloud infrastructure, as defined by NIST 800-145. In the Salesforce Government Cloud, an agency dynamically provisions computing resources over the Internet on our multi-tenant infrastructure. This is a cost effective deployment model for agencies as it gives them the flexibility to procure only the computing resources they need and delivers all services with consistent availability, resiliency, security, and manageability. Salesforce provides market leading PaaS and SaaS solutions and is a multitenant cloud-based subscription service. Multi-tenant cloud solutions provide a single, shared infrastructure, one code base, one platform that is all centrally managed, with platform-based API to support all integration traffic, and multiple release upgrades included as part of the subscription service. Multi-tenancy and the Cloud Computing model remove unneeded tasks from the process of delivering, managing, and integrating software. Salesforce customers will not need to maintain any hardware or software. Without multiple versions to support, integrations don't break during updates; they are simply updated automatically. As a result, both the initial integration and its continued maintenance are simplified. More resources can be focused on creating a better product, with a faster cycle of innovation, instead of having to manage the complexity of many different versions to support a vast installed base. Salesforce's position as an online service enables us to roll out all levels of improvement, from patch releases to major upgrades, that are largely transparent to the end users. When a bug is fixed and tested, it is rolled out to the application as part of regular maintenance; the nature of the service prevents special patches and code branches for individual customers, so all fixes can potentially benefit all customers. The Salesforce Services is delivered using a world-class data center infrastructure. Each customer's org is hosted from a primary and secondary production data center, with near real-time replication occurring between the two sites. Salesforce is a pure multi-tenant web application. No software or infrastructure is required by the customer other than a computer, browser and internet connection or a mobile device. User Administration and ProvisioningUser provisioning and management is performed by the customer through the Salesforce Administrative Setup environment. Users, their profiles, permissions and passwords may be managed, edited, activated and deactivated as needed by those with appropriate permissions. An administrator with appropriate privileges can manage session timeout, password policies, IP range login restrictions, delegated authentication/SSO, and requirements as part of this process. On first time login or password reset request, users are required to change their passwords to gain access.	
ServiceNow	ServiceNow includes all documentation on the wiki at wiki.servicenow.com.	
Docusign	DocuSign hosts customer accounts in its own data centers managed by DocuSign. Upon a new contract executed with a customer, DocuSign provisions a customer account based on the	

	contract terms. A designated point of contact becomes the default primary administrator who then adds additional users and other admin tasks. DocuSign's cloud stack is defined in architecture documents available under separate confidential disclosure.	
QTS		
SAP	Ariba	Our solutions are offered and delivered in a true subscription-based model and shared service (multi-tenant) offering. There is no software to install, no hardware to buy, no maintenance or support costs and no need to hire consultants or tech specialists to run the system. We deploy and manage the infrastructure. Customers only need a web browser for access. Subscriptions include system maintenance, automatic upgrades, enhancements and application of service packs, Level 1– 3 help desk support, professional services and best practices built directly into the application.
	Fieldglass	Fieldglass maintains its own platforms and follows a mature change control process for introducing new systems to the hosted environments.
	Hanna	The Managed Service includes the following: • Infrastructure operations management: monitoring, patching, software updates & maintenance up to the OS Layer • OS management: monitoring, patching, updates, and maintenance of the specific OS • Network and system administration • HANA database platform operations includes: space management revision management , security management , hardware configuration management, backup & recovery, change management coordination • Health check services, proactive monitoring, capacity management • SAP Technical Application Basis Operations (incl. SAP Basis) • Monitoring • Troubleshooting – Incident Management Level 2 and 3 • Patch Management • Housekeeping • Backup/Recovery
	SuccessFactors	We offer a cloud based solution. Our application is standardized on the J2EE technology stack with the majority of our software written in industry-standard software programming languages, such as Java. We also make extensive use of Web 2.0 technologies, such as AJAX and Flash, for improved usability and performance and to deliver a rich and highly interactive experience. Our hardware consists primarily of industry standard web servers, application servers, database servers and storage and networking equipment. Customers share the network security infrastructure, web servers, application servers and database instance, and each customer has their own set of database tables that are logically partitioned in the database containing its own unique database schema. Each company instance can be completely exported out of the database without affecting any other customer. The application utilizes the JAVA and J2EE industry standards. Integration is supported through .CSV, XML and web services standards. The application is portable to any platform and is deployed on Apache (Solaris) Web Servers, JBOSS Application Servers, and Veritas High Availability Cluster Servers, and utilizes Cisco Networking.
VMware	VMware IaaS Services An interface that allows users to select from a catalog of pre built OS images and allows them to provision on the fly.	

	VMWare AirWatch AirWatch uses industry recognized tools and follow best practices to deploy, configure, and maintain server images. We do not apply customer-supplied templates and do not share templates with customers. Our Information Security team identifies applicable security standards and the AirWatch Server Team creates a secure baseline image for deployment throughout the SaaS environment. Due to FOIA restrictions, additional information regarding capacity planning and image creation/safeguarding cannot be disclosed at this time.
FireEye	This is not applicable as each of FireEye's offerings are classified as SaaS.

8.17.2 Provide tool sets at minimum for:

1. Deploying new servers (determining configuration for both stand alone or part of an existing server farm, etc.)

CA	APM	New servers are predefined by the CA SaaS Ops toolchain, and automated using AWS tooling to be able to bring up/down servers on demand
	MAA	Same as above.
	CA Agile	We utilize configuration management tools to ensure consistent configuration across our servers.
	ASM	Same as above.
Google	1. This is not applicable to Google. Capacity planning and server deployment is fully managed by Google. 2. This is not applicable. With the Google IaaS solutions all server images are provided by Google. 3. With respect to the SaaS offfering, Google Apps, if customers have not selected the Google Apps Unlimited option which offers unlimited storage, they have options to upgrade. With respect to the PaaS/IaaS offering, Google Cloud Platform, storage space is allocated dynamically based on actual usage demand. 4. SaaS, Google Apps includes numerous administrative tools to monitor end user and administrator activites."	
AODocs	This is not applicable.	
Virtru	AMIs provisioned using terraform and configured by Ansible to include all configuration parameters	
Salesforce	This is not applicable. These services while applicable to IaaS are not applicable to PaaS/SaaS where all of the infrastructure is managed by Salesforce as the Cloud Service Provider. These services are included and managed as part of the Salesforce subscription service and not directly exposed to the customer. The multitenant architecture and secure logical controls address separation of customer data. There are no dedicated servers used for individual customers. The Salesforce Services infrastructure is divided into a modular architecture based on "Instance". Each Instance is capable of supporting several thousand customers in a secure and efficient manner. Services are grouped within each Instance; with app, search, and database elements contained. There are appropriate controls in place to ensure that any given customer's org (application) is not compromised. The service has been designed to accomplish this and is robustly tested on an ongoing basis by both Salesforce and its customers. An instance consists of a database instance run on clustered database servers and physical storage subsystems. Each server has been allocated a different volume group so it can fail over to its backup server within the instance independently of the others. As scalability needs dictate,	

	additional database instances can be brought online (the application already provides for this). For additional server capacity, one or more databases could be moved onto its own database server.	
ServiceNow	ServiceNow has read and understands this requirement. ServiceNow supports only a SaaS environment so there is no on-premise offering.	
SAP	Ariba	Operating systems when installed through default means and with default settings are typically not secure and often include applications and services not required. Ariba has standardized operating systems' installations based on best practices. Ariba servers are configured with just the applications and services required to run the server as designed. Services not required are disabled and binary files not required for operation are removed, which reduces the total number of vulnerabilities a system may have. Ariba standardized installation process also ensures that all servers of the same type are configured exactly the same, utilizing a process that initiates an upgrade to system binaries across all systems. Based on the system type, the configuration will remain the same. If one server type needs to receive a patch for a vulnerable binary file, that patch is pushed to all systems of that particular server type. If that binary exists on all systems, it is patched across all systems. Patches are then included in the build process as well so that future systems built are in compliance with security standards. Ariba uses this configuration process to 'harden' the operating system prior to implementing additional controls as detailed below.
	Fieldglass	Fieldglass uses group policy to ensure the configuration of all servers match our security requirements.
	Hanna	HEC is a private cloud offering where servers configurations are discussed and approved by customer prior to deployment.
	SuccessFactors	We apply hardening in line with ISO 27k standards and audit key areas in the SOC 2 Type 2 report. Audit reports are available to customers and prospects upon completion of an NDA.
VMware	VMware IaaS Services vCloud Hybrid Service provides an interface that allows users to select from a catalog of pre-built OS images and allows them to provision on the fly. vRealize Automation is the next level for provisioning, delivering, and managing IT services on VMware vSphere infrastructure as well as VMware vCloud Air all with a unified management experience. It provides governance and blueprints to deliver services from on premise into vCloud Air. Customers can integrate vCloud Air with vRealize Automation. In this setup, users access vCloud Air primarily through the vRealize Automation service catalog which handles authentication to the service itself. vRealize Automation supports VMWare AirWatch AirWatch uses industry recognized tools and follow best practices to deploy, configure, and maintain server images. We do not apply customer-supplied templates and do not share templates with customers. Due to FOIA restrictions, additional information regarding capacity planning and image creation/safeguarding cannot be disclosed at this time.	
FireEye	This is not applicable as each of FireEye's offerings are classified as SaaS.	
VirtueStream	Virtustream offers on-demand self-service portal where State of Utah can deploy new servers as stand-alone or part of a server farm.	

2. Creating and storing server images for future multiple deployments

CA	APM	Servers are brought up on demand

	MAA	Same as above.
	CA Agile	We utilize configuration management tools to ensure consistent configuration across our servers.
	ASM	Same as above.
Virtru	Provisioning system automatically persists all past AMIs for ability to roll-back	
Salesforce	This is not applicable. These services while applicable to IaaS are not applicable to PaaS/SaaS where all of the infrastructure is managed by Salesforce as the Cloud Service Provider. These services are included and managed as part of the Salesforce subscription service and not directly exposed to the customer.	
ServiceNow	ServiceNow has read and understands this requirement. ServiceNow supports only a SaaS environment so there is no on-premise offering.	
SAP	Ariba	Ariba has standard 'realms' which are default versions of the various configurations the Ariba on-demand products can be setup for each customer with one test and one production instance. Ariba maintains all hardware, software, realms and entitlements taking the burden off our customers and suppliers whilst providing a platform to configure to each company's needs and business processes
	Fieldglass	Fieldglass uses virtual servers within our hosted environments uses the hardening configurations to maintain the right level of security.
	Hanna	HEC is a private cloud offering where servers configurations are discussed and approved by customer prior to deployment.
VMware	VMware IaaS Services We also allow for template and gold master images to be stored on-premise and deployed to the cloud as well as storage of templates and master images in vCloud Director catalogs in in vCloud Air VMWare AirWatch Our Information Security team identifies applicable security standards and the AirWatch Server Team creates a secure baseline image for deployment throughout the SaaS environment. Due to FOIA restrictions, additional information regarding capacity planning and image creation/safeguarding cannot be disclosed at this time.	
FireEye	This is not applicable as each of FireEye's offerings are classified as SaaS.	
VirtueStream	Virtustream offers server images, templates, or other methods (OVF and blueprints) for multiple deployments as part of standard solution.	

3. Securing additional storage space

CA	APM	AWS EC2 storage is elastic, and can be expanded on demand
	MAA	Virtual storage can be added when needed.
	CA Agile	We have redundant systems for all critical infrastructure and have the ability to add additional storage if deemed necessary.
	ASM	Additional storage is added manually.
AODocs	AODocs storage is based on Google Apps Drive storage and with respect to the SaaS offfering, Google Apps, if customers have not selected the Google Apps Unlimited option which offers unlimited storage, they have options to upgrade.	
Virtru	New hardware added at Cloudant	
Salesforce	Salesforce provides extensive storage capabilities. Storage is divided into two categories: file storage and data storage. File storage includes files in attachments, the Documents tab, the Files tab, the File field, Salesforce CRM Content, Chatter (including user photos), and Site.com assets. Data storage includes the following entities/records stored within the Salesforce application: Accounts, Article types, Article type translations, Campaigns, Campaign Members, Cases, Case	

	Teams, Contacts, Contracts, Custom objects, Email messages, Events, Forecast items, Google docs, Ideas, Leads, Notes, Opportunities, Opportunity Splits, Orders, Quotes, Quote Template Rich Text Data, Solutions, Tags: Tag applications, Tags: Unique tags, and Tasks. For file storage, Unlimited Edition is allocated a per-user limit multiplied by the number of users in the organization plus an additional per-organization allocation. For example, an Unlimited Edition organization with 600 users receives 1,211 GB of file storage, or 2 GB per user multiplied by 600 users plus an additional 11 GB. For data storage, Unlimited Edition is allocated either 1 GB or a per-user limit, whichever is greater. For example, an Unlimited Edition organization with 10 users receives 1 GB because 10 users multiplied by 20 MB per user is 200 MB, which is less than the 1 GB minimum. Additional storage can be purchased, or files can be exported and archived outside of Salesforce, thus freeing up file storage space.	
ServiceNow	ServiceNow has read and understands this requirement. ServiceNow supports only a SaaS environment so there is no on-premise offering.	
QTS	Services that scale to meet your web and IT infrastructure needs - QTS offers space options from single cabinets to multi-rack cages to private suites. Coupled with configurable primary and redundant power options to run your infrastructure, QTS Colocation services can be scaled to support your near term growth requirements and future expansion.	
SAP	Ariba	We carefully monitor all network interfaces. Internally we are well below capacity on our most congested interconnects. To the internet we use Border Gateway Protocol to peer with redundant Internet Service Provider's and manage the bandwidth accordingly.
	Fieldglass	As a software-as-a-service (SaaS), Fieldglass automatically and transparently handles the scaling and redundancy for customers based on SLAs governing performance and availability. Fieldglass monitors application servers, database servers, bandwidth, and infrastructure for average and maximum utilization with Orion. Current utilization averages approximately 20 percent across all components with a goal of scaling the component vertically or horizontally (depending on the specific component) upon reaching a 60 percent threshold). All systems are scalable either horizontally or vertically to handle capacity requirements. This includes but is not limited to web servers, database servers, and storage.
	Hanna	HEC is a private cloud offering where servers configurations are discussed and approved by customer prior to deployment.
VMware	VMware IaaS Services Additional storage can be purchased and provisioned in 48 hours. VMWare AirWatch Our Information Security team identifies applicable security standards and the AirWatch Server Team creates a secure baseline image for deployment throughout the SaaS environment. Due to FOIA restrictions, additional information regarding capacity planning and image creation/safeguarding cannot be disclosed at this time.	
FireEye	This is not applicable as each of FireEye's offerings are classified as SaaS.	

4. Monitoring tools for use by each jurisdiction's authorized personnel – and this should ideally cover components of a public (respondent hosted) or hybrid cloud (including Participating entity resources).

CA	APM	all SaaS based instances are monitored by CA SaaS Ops. With Hybrid deployments, customers can manage the on premise components of the deployment using their own tooling or CA products
	MAA	MAA is monitored internally as well as externally using multiple tools recognized within industry.
	CA Agile	Access to monitoring tools is provisions according to the principle of least priviledge and is only granted based upon business need.
	ASM	ASM uses Nimsoft Monitor, third-party open source monitoring tools, and ASM itself to monitor the health of ASM internal services and servers.
AODocs	AODocs includes numerous administrative tools to monitor end user and administrator activites.	
Virtru	Dtrace, CloudWatch, CloudTrail, Logstache, ElasticSearch, Kibana, DataDog	
Salesforce	Trust.salesforce.com is the Salesforce community's home for real-time information on system performance and security. On this site you'll find: ● Live and historical data on system performance ● Up-to-the minute information on planned maintenance ● Phishing, malicious software, and social engineering threats ● Best security practices for your organization ● Information on how we safeguard your data System Overview In addition to our Trust site (http://trust.salesforce.com/trust/status), you will also have access to a System Overview, which will help Salesforce customers monitor performance and usage of their own Salesforce org. This overview includes: Schema - # and % of custom objects and data storage Business Logic - # and % of Rules, Apex triggers and classes, as well as % of code used Licenses API Usage - # and % of requests in the last 24 hours User Interface - # and % of custom apps, sites, flows, custom tabs and pages Portal The above list is of all the possible metrics that Salesforce customers may have in their system overview.	
ServiceNow	ServiceNow has read and understands this requirement. ServiceNow supports only a SaaS environment so there is no on-premise offering.	
QTS	Alert Logic's Threat Manager Intrusion Detection System (IDS) and Vulnerability Scanning functionality are designed to monitor, detect, report and alert on adverse security issues on behalf of our customers. Within this process there are a number of both automated and manual processes which are supported by our SIEM software ('The Expert System') as well as our Network Security Analysts in our Security Operations Center (SOC). Threat Manager is the Alert Logic IDS and VA scan product. It includes the physical or virtual appliances and software tools used to analyze the customer's infrastructure and monitor that infrastructure for attacks. ActiveWatch is the managed aspect of Threat Manager, providing 24 x 7 monitoring and incident response operations from the Alert Logic SOC. Threat Manager's Expert System identifies valid security events and suppresses false positives through a patented multifactor correlation process. Every security event monitored by its global network of threat sensors is analyzed in real time. When the Expert System determines that a set of events comprise a valid security threat, an incident is created and escalated according to severity via email or through an Alert Logic Network Security Analyst. This approach dramatically	

	reduces false positives and keeps analysts and customers focused on real, actionable incidents. In addition, Alert Logic's security research team continuously monitors threat data and tunes the Expert System to respond to the most current threats.	
SAP	Ariba	Within our solution, specific logging takes place that is viewable by the customer administrator or their designee. Audit logs produced through use of the solution are considered customer data and are maintained within the customer's instance of the database. These logs are retained so long as the customer has an active contract with us. As a user control consideration, customers are responsible for monitoring the proper entry of data to the solution and reviewing reports generated by the system.
	Fieldglass	Fieldglass has a comprehensive set of performance monitoring tools in place. Some tools are built in the application and some are external. The Fieldglass application captures every page hit and the time it takes to respond. It captures the server response time and the client rendering time separately. The average page times are available to be seen by privileged users through the application. The user can drill down to the hour or minute or a single request for analysis. The information can be displayed by time range for all users, by company, or even for an individual user. Orion Network Monitoring watches more than 1,000 different points of interest on the production infrastructure. These monitors include, but are not limited to, the following: CPU, Memory, I/O, Capacity and Synthetic Transactions. These monitors along with our custom application performance monitors are used to produce and comply with customer SLA requirements. Fieldglass also uses Splunk Enterprise Security for event/audit log collection and correlation. Events and logs are retained online for 90 days and offline for two years. Alerts are generated and reviewed as they occur.
	Hanna	SAP HEC uses Solution Manager for monitoring the infrastructure end to end.
	Hybris	SAP Hybris offers continuous 24/7 systems monitoring in-place, which automatically notifies you, SAP Hybris support and optionally your designated implementation partner in the event of any monitored system problem. Tools used for monitoring include HP Sitescope and Nagios. This service ensures quick response times to emergency problems. Standard monitors are in place for basic site availability. Customer can utilize additional 3rd party monitoring services should it wish to add additional monitoring. Upon request, monthly or quarterly reviews are offered to review performance over the period. When a system problem occurs, in addition to monitor alerts sent to the customer, SAP Hybris support may send emails to a designated customer notification email address to provide status, updates or further detailed information. In addition, a support ticket would be created which would include such information.
	SuccessFactors	The application logs the following for every transaction: Event/transaction Time, Transaction ID, Event/transaction Type, Event/transaction Status (Result of the event; if failure, includes reason), Object Attributes (Describes the object affected by the event), Originator User ID (ID of the user who initiated the event or action), Subject ID, Process User ID, Account Number, Transaction Specific Elements. The application audits changes to the major components. Examples of this are goal auditing and document auditing. The audit trail includes who made the change, the date of the change and the ability to see the data as it existed at

		that point in time. The data in the audit log can be viewed with appropriate permissions. We also provide an optional Audit Framework for additional audit logging capabilities. All audit logs within the application are accessible only by customers. Therefore, the review of application audit logs as well as retention periods for the application audit logs are the customer's responsibility, and can be determined as per requirements
VMware	VMware IaaS Services The vCloud Hybrid Service infrastructure, including the top layer management stack, the customer management stack and the computing/storage/network hardware are monitored for availability, capacity and performance. Customers are responsible for monitoring their own VMs (OS, apps). Customers can use on premise monitoring tools to manage and monitor their applications and OSes over VPN and direct connect. VMWare AirWatch The AirWatch Cloud Operations team monitors the SaaS environment. AirWatch follows the Fault, Configuration, Accounting, Performance, and Security (FCAPS) model to monitor the SaaS environment. •We have configured the system to notify support personnel of any issues with key performance items •Because the solution is built on industry-standard ASP.NET architecture, it integrates into existing management and monitoring tools. Administrators can configure log data storage to destinations such as Windows Event Viewer, SNMP traps, syslog, SMTP email alerts, etc. The solution also integrates directly with Microsoft SCCM. The communication layer includes a complete infrastructure for API integration to third parties as well as a rich set of existing APIs, web services, single sign on and authentication protocols. Integrate with security information and event management (SIEM) solutions for enhanced logging of events occurring in the console. Administrators can view events, filter by event type, category and module, and export events. Event logging settings can be configured based on severity levels, with the ability to send specific levels to external system via syslog integration.	
FireEye	This is not applicable as each of FireEye's offerings are classified as SaaS.	

8.18 Trial and Testing Periods (Pre- and Post- Purchase)

8.18.1 Describe your testing and training periods that your offer for your service offerings.

Training and testing periods will vary based on the Service provider as well as the complexity of the request that is made by the Purchasing Entity. Some of the services can be functional within a few days and some will take a few months for full implementation.

8.18.2 Describe how you intend to provide a test and/or proof of concept environment for evaluation that verifies your ability to meet mandatory requirements.

Upon Request, Carahsoft will provide access to any of the Cloud Technologies proposed. The precise Access to the technology may be in a limited or "DEMO" fashion. Access will be to an extent that the State may complete any necessary tests or verifications that may be required. Instructions on precisely how each technology will be accessed will be provided upon request. All of the proposed technologies are currently live/ active and support many customers. A specific instance of the requested technology would be stood up within the cloud framework to support this request. As this will be occurring within a production, the creation of the instance is a quick and straight forward process not requiring any sort of extraordinary effort.

8.18.3 Offeror must describe what training and support it provides at no additional cost.

Carahsoft provides the customer with free training for specific deals on a case by case basis. This can include free installation, training, and maintenance for high value customers who purchase Carahsoft's solution through the NASPO contract vehicle. In addition, Carahsoft will provide webinars with basic training on a quarterly basis, made available to any Purchasing Entity who wishes to participate.

8.19 Integration and Customization

8.19.1 Describe how the Solutions you provide can be integrated to other complementary applications, and if you offer standard-based interface to enable additional integrations.

The integration into other applications will vary base on the Service Provider, however it is standard practice to allow for open AIs for integration development. For example Connecting Salesforce to an existing enterprise application is a common and frequently performed task. Integration options range from native Web Services support (APIs, outbound workflow, etc.) to import/export utilities to middleware integration via packaged connectors to toolkits for Java, .NET, and other open platforms. Our solution provides the ability to call out to virtually all common APIs, to enable synchronization, push / pull, and mash-ups with external apps/systems. Salesforce itself is based on web-service based APIs that in turn simplify access to Salesforce data from external systems. API-based integration is heavily leveraged by our customers.

8.19.2 Describe the ways to customize and personalize the Solutions you provide to meet the needs of specific Purchasing Entities.

The Service Providers customization options are very extensive and highly configurable. For example The Salesforce Platform offers a core set of technologies that not only power the Salesforce SaaS products, but also allows your Agency to build custom apps, connect data from any system, and manage it from anywhere. The Salesforce Platform allows customers to build apps fast with just a few clicks, designed for desktop and mobile devices, all from a single canvas. The Salesforce Platform has been given top ratings by Gartner, Forrester, & Info-Tech Research. To help IT deliver apps faster, the Salesforce Platform offers a simple yet powerful set of declarative, point-and-click tools that anyone can use to achieve business goals at lightning speed. Without writing code, developers and business users alike can quickly and easily create custom apps on the Salesforce Platform with complex business logic and beautiful user interfaces designed specific to every screen. Salesforce Lightning Builder tools allows your Agency to work in alignment with agile development methodologies as IT meet business demands faster. The Platform uses open APIs based on industry standards such as REST and SOAP to make it easy for your Agency to build apps that integrate with legacy systems. For more complex applications, developers can leverage the Apex programming language. Apex is an object-oriented, on-demand language. It is like Java, with similar syntax and notation, and is strongly-typed, compiled on demand, and fully integrated into the Platform. All of the application services come right out of the box, from a powerful workflow engine to API services, integration services, authentication, event log framework, analytics, and collaboration.

8.20 Marketing Plan

Describe your how you intend to market your Solutions to NASPO ValuePoint and Participating Entities.

Carahsoft offers deep experience in public sector marketing. Our dedicated team plans, promotes and executes more than 2,000 public-sector marketing campaigns and events each year, including contract-specific promotional activities. These include but are not limited to:

- News announcements

- Social media promotion (Twitter, Linked In, Facebook, Carahsoft Community)
- Website content/reciprocal links (Carahsoft website page; content for contract sponsor page)
- Marketing materials (FAQs, contract overviews, solution spec sheets, powerpoint slides)
- Training documents
- Co-branded tradeshow graphics, giveaways, display materials
- Tradeshow participation (national, state and local government and education shows)
- Digital and print ads
- Webinars
- Email campaigns
- Proactive marketing opportunity tar available through:
  - National Coalition for Public Procurement (NCPP) – publicprocurementcoalition.org
  - Institute for Public Procurement (NIGP) – nigp.org
  - National Association of Counties (NACo) – naco.org
  - The United States Conference of Mayors – usmayors.org
  - National League of Cities – nlc.org
  - National Governors Association – nga.org
  - Relevant State Associations

8.21 Related Value-Added Services to Cloud Solutions

Describe the valued-added services that you can provide as part of an awarded contract, e.g. consulting services pre- and post- implementation. Offerors may detail professional services in the RFP limited to assisting offering activities with initial setup, training and access to the services.

In addition to Carahsoft's quoting and configuration expertise, we also have a wide range of Service Provider implementation partners that we leverage to work with Purchasing Entities in order to ensure successful adoption and deployment within a Purchasing Entity. We will help to identity needs for initial setup, training and access to the services so that it is all available at the best prices from one source to the Purchasing Entity.

8.22 Supporting Infrastructure

8.22.1 Describe what infrastructure is required by the Purchasing Entity to support your Solutions or deployment models.

The Service Providers that are being proposed operate on their own secure infrastructure. The Purchasing Entities will only need an internet connection to access the services.

8.22.2 If required, who will be responsible for installation of new infrastructure and who will incur those costs?

The Service Providers maintain all costs for updating and building new infrastructures.

8.23 Alignment of Cloud Computing Reference Architecture

Clarify how your architecture compares to the NIST Cloud Computing Reference Architecture, in particular, to describe how they align with the three domains e.g. Infrastructure as a Service (IaaS), Software as a Service (SaaS), and Platform as a Service (PaaS).

CA	APM	The SaaS portal runs in Amazon Web Services.
	MAA	CA MAA is a SaaS service.
	CA Agile	Only SaaS is being offered via a public cloud

	ASM	As a monitoring service, ASM is considered to be SaaS.
Virtru	The capability provided to the consumer is to use the provider's applications running on a cloud infrastructure2 . The applications are accessible from various client devices through either a thin client interface, such as a web browser (e.g., web-based email), or a program interface. The consumer does not manage or control the underlying cloud infrastructure including network, servers, operating systems, storage, or even individual application capabilities, with the possible exception of limited userspecific application configuration settings.	
Salesforce	Salesforce's deployment model is a "public" cloud infrastructure, as defined by NIST 800-145. In the Salesforce Government Cloud, an agency dynamically provisions computing resources over the Internet on our multi-tenant infrastructure. This is a cost effective deployment model for agencies as it gives them the flexibility to procure only the computing resources they need and delivers all services with consistent availability, resiliency, security, and manageability. Salesforce was the first Cloud Service Provider to attain FedRAMP Authority to Operate for both Software as a Service (SaaS) and Platform as a Service (PaaS), consistent with the FedRAMP moderate baseline controls. Salesforce does not provide IaaS as a direct service offering to our customers, it is an underlying part of our PaaS and SaaS offerings. Salesforce Government Cloud In May 23, 2014 Salesforce achieved a FedRAMP Agency Authority to Operate at the moderate impact level (as described in FIPS 199 and 200) issued by Health and Human Services (HHS) for the Salesforce Government Cloud. Additionally, on May 15, 2015, HHS, as the FedRAMP authorizing agency, approved the Salesforce Government Cloud authorization package that was updated based on annual attestation requirements and updates to the FedRAMP baseline which is FISMA compliant and based on the current release of NIST SP 800-53 Rev. 4. Testing for the ATO was performed by a third party assessment organization (3PAO). The Salesforce Government Cloud information system and authorization boundary, is comprised of the Force.com Platform, Salesforce Services (Sales Cloud, Service Cloud, Chatter), and the backend infrastructure (servers, network devices, databases, storage arrays) that support the operations of these products, referred to as the General Support System (GSS). To obtain compliance with FedRAMP, Salesforce conducted security assessment and authorization activities in accordance with FedRAMP guidance, NIST SP 800-37, and HHS guidance. As part of this process Salesforce documented a System Security Plan (SSP) for the Salesforce Government Cloud service offering. The SSP is developed in accordance with NIST SP 800-18, Guide for Developing Federal Information System Security Plans. The SSP identifies control implementations for the GSS and in-scope customer facing products (Force.com Platform, Salesforce Services) according to the FedRAMP moderate baseline and HHS security control parameters. A security assessment of the information system was conducted by a third party assessment organization (3PAO) in accordance with NIST 800-53A and FedRAMP requirements. The security assessment testing determined the adequacy of the management, operational, and technical security controls used to protect the confidentiality, integrity, and availability of the Salesforce service and the customer data it stores, transmits and processes. To maintain compliance with FedRAMP, Salesforce conducts continuous monitoring. Continuous monitoring includes ongoing technical vulnerability detection and remediation, remediation of open compliance related findings, and at least annual independent assessment of a selection of security controls by 3PAO. As part of our FedRAMP annual assessment, Salesforce is now aligned with NIST SP 800-53, Rev. 4 controls.	
ServiceNow	ServiceNow's architecture aligns with Software as a Service (SaaS).	

Docusign	DocuSign's DTM® solution is ISO 27001:2013 certified and many of the ISO 27001:2013 controls are mapped to the NIST 800-53 requirements; we can provide additional information upon request.	
SAP	Ariba	Our solutions are offered and delivered in a true subscription-based model and shared service (multi-tenant) offering. There is no software to install, no hardware to buy, no maintenance or support costs and no need to hire consultants or tech specialists to run the system. We deploy and manage the infrastructure. Customers only need a web browser for access. Subscriptions include system maintenance, automatic upgrades, enhancements and application of service packs, Level 1– 3 help desk support, professional services and best practices built directly into the application.
	Fieldglass	Fieldglass is offered in a SaaS model. We follow the public cloud model identified by NIST. All customers access the same Fieldglass application version in a multi-tenancy database. The system is hosted in a secure hosting facility. Fieldglass manages everything from the cage in including all servers, devices, wiring, software, and configuration. Fieldglass uses the Cloud Security Alliance framework to measure itself against the recommended controls, in addition to ISO 27001 and SOC 2 controls in the Trust Services Principles of Security, Availability, Processing Integrity, Confidentiality, and Privacy.
	Hanna	HEC is a private cloud offering from SAP that provides fully 'managed' Infrastructure as a Service (IaaS) following NIST Cloud Computing Reference Architetcure.
	Hybris	The SAP Hybris Commerce, Cloud Edition is a Private Cloud Managed Service that offers a best practice multichannel commerce platform built on hybris accelerator technology, running in SAP Hybris own datacenters with a pay as you grow subscription model.
	SuccessFactors	Our IT architecture is aligned with ISO 27002. We are Safe Harbor certified and in alignment with BS10012 and ISO 20000 for Service Delivery. We demonstrate an on-going commitment to protecting the confidentiality, integrity and availability ("CIA") of data from internal and external threats, making us a reliable and secure system provider. Our secure multi-tenant Software as a Service (SaaS) platform is designed for availability, security, scalability, and performance. Industry best practices and standards are adopted and incorporated. Our Network also complies with the Authority to Operate as a Moderate Risk Federal Information System by the Office of Personnel Management and Department of Homeland Security; NIST SP800-53 Security Controls; EU Privacy Directive 95/46/EC for EU and non-EU customer data; Payment Card Industry (PCI) Data Security Standard (DSS) v 2.0; Safe Harbor. We provide privacy compliant data center facilities not only in the United States but also as a Member State of the European Union (EU) or a state of the European Economic Area (EEA). Currently, such data centers are certified for ISO27001, ISO9001 and PCI-DSS compliance. Our security services provide complete and thorough monitoring of all traffic on the network on a 24x7x365 basis, and include security technology, alert services and incident management support. We are audited twice annually to SSAE16 (US) or ISAE 3402 (international) accounting standards.

<table>
<tr><td>VMware</td><td>See section 8.1.1 for additional details.

Due to FOIA restrictions, we cannot share specific infrastructure details or architecture diagrams at this time. We can provide sample architecture diagrams under NDA to participating entities during task order negotiations as required.

VMWare AirWatch
AirWatch partners with co-located and cloud-hosted Tier III data centers to support of SaaS offering.
Due to FOIA restrictions, we cannot share specific infrastructure details or architecture diagrams at this time. We can provide sample deployments as under NDA to participating entities during task order negotiations as required.</td></tr>
<tr><td>FireEye</td><td>Each of the FireEye cloud solutions are classified as Software as a Service (SaaS) and leverage a private cloud deployment model. With respect to the NIST Cloud Computing Reference Architecture, the following actors are integral to the overall design of the solutions:

<table><tr><th>Actor</th><th>Definition</th></tr><tr><td>Cloud Consumer</td><td>Customer organizations who have purchased FireEye cloud solutions</td></tr><tr><td>Cloud Provider</td><td>FireEye</td></tr><tr><td>Cloud Carrier</td><td>Internet service providers and organizations who have been contracted to host FireEye cloud solutions.</td></tr></table>
A Cloud Broker is not leveraged in the FireEye cloud offerings. FireEye has contracted independent service auditors for evaluating controls relevant to security and confidentiality, however this occurs on an as-needed basis.</td></tr>
<tr><td>VirtueStream</td><td>Virtustream solution is fully NIST compliant for Essential Characteristics, as the Infrastructure as a Service (IaaS) Service Model, with all deployment options – Private Cloud, Community Cloud, Public and Hybrid Cloud. To that extent:
1.Virtustream IaaS provides a self-service portal called xStream, where users can access, view, edit, provision, and modify compute, storage, network and application services based on granular Role Based Access Control, which can be integrated with Active Directory or LDAP.
2.Virtustream IaaS provides Broad Network Access, where it can provide landing zone for any private network (Point-to-Point, Virtual Private Label Switching, Multi-Protocol Label Switching, or Direct Connect), public network (Internet, Trusted Internet Connectivity as landing zone, IPSEC VPN and SSL VPN) and also extranet connectivity (shared network, i.e, Cloud Connect, Cloud Exchange, NetBond, etc.) which is growing rapidly as option for connecting cloud resources.
3.Key to Virtustream solution is its proprietary and patented solution of uVM technology, which is effectively a granular solution for resource pooling, providing application performance, pay for consumption only and segregate resources for security and compliance, but aggregate for cost efficiency. In addition, Virtustream is currently one of very few Cloud Service Provider with capabilities for Geo-Fencing and Geo-Tagging of the virtual machines to a specific data center, and getting down to cluster and host machine level.
4.Virtustream's self-service portal, ticketing system and also the Technical Account Manager, who is the single point of contact for State of Utah allows for provisioning and deprovisioning of resources and services. In addition, Virtustream is uniquely positioned to provide application level provisioning as part of its standard automation and orchestration tool.
5.The fundamental of Virtustream solution is based on uVM Technology, which is very unique in terms of billing. Virtustream solution takes average consumption of compute resources, and State of Utah would only pay for actual resources based on a monthly average. This is in comparison</td></tr>
</table>

	with traditional cloud solution, where the billing is based on allocation of resources in T-Shirt size (Micro, S, M, L, XL, XXL), and if the server is up, consumer of the cloud pays, but when it is down, they don't. In case of the Virtustream solution, customer only pays based on the average of vCPU, RAM, IOPS and Network I/O; the key is average, not aggregate and based on consumption not allocation. In addition, all storage, security, application management services are offered as a monthly fee, based on the VMs; also, Virtustream can provide consultative and project support based on time and materials. 6.The deployment of Virtustream cloud can be on-premise or private based on purchase of its Cloud Management Platform, Community Cloud based on its IaaS, Public Cloud based on its IaaS and Hybrid cloud based on its ability to provide software and IaaS combined.

CONFIDENTIAL, PROTECTED, OR PROPRIETARY INFORMATION

All confidential, protected or proprietary Information must be included in this section of proposal response. Do not incorporate protected information throughout the Proposal. Rather, provide a reference in the proposal response directing Lead State to the specific area of this protected Information section.

If there is no protected information, write "None" in this section.

Failure to comply with this Section and Section 3.13 of the RFP releases the Lead State, NASPO ValuePoint, and Participating Entities from any obligation or liability arising from the inadvertent release of Offeror information.

Carahsoft Technology Corporation ("Carahsoft") respectfully requests that section 6.3 Financials of Carahsoft's response be treated as a trade secret under the Utah Uniform Trade Secrets Act, Utah Code § 13-24-2 and submits this justification in accordance with Utah Code 63-G-2-305 demonstrating that its audited financials should be treated as a trade secret under Utah's Uniform Trade Secrets Act. Additionally, Carahsoft is claiming the same confidentiality of the Consensus Assessments Initiative Questionnaire provided in relation to DocuSign and FireEye offerings, as well as the Cloud Controls Matrix for DocuSign.

Carahsoft has marked this attachment as "confidential" in accordance with the RFP instructions by including all confidential data into the Confidential, Protected, or Proprietary Information in our response.

Carahsoft is claiming confidentiality for these specific Consensus Assessments Initiative Questionnaires and Cloud Controls Matrix because releasing these documents would cause irreparable damage and would create the potential for cyber security breach. While portions of this information are in the public domain, the information contained within is not represented or assimilated this way in any other format.

Carahsoft's Audited Financial Data satisfies the three-part test of the Utah Uniform Trade Secrets Act as set forth below and should therefore be treated as confidential and by the Utah Division of Purchasing and should not subject to public disclosure as provided in Utah Code § 63G-2-305.

1. *Carahsoft's Audited Financial Data is a "compilation" within the meaning of Utah Code § 13-24-2(4).*
Carahsoft's Audited Financial Data is a compilation of all of the Company's financial data and results for 2014. While some aspects of this information may be available, the compilation of this information is unique and the result of sustained and distinct effort by the Company's financial staff and its accountants.

2. *As required by Utah Code § 13-24-2(4)(a) Carahsoft derives independent economic value, actual or potential, from its Audited Financial Data not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.*
Carahsoft is a leading distributor of technology products and services to public sector customers such as the State of Utah, and throughout the United States and Canada. Sales in this market are intensely and deliberately competitive, with each sale subject to a structured bidding process in which low price is frequently the deciding factor on which contract award is based. Competition in this market is fierce, with competitors regularly competing with one another for federal, state, county and city business.

Carahsoft's competitors closely monitor this market, and regularly attempt to gain financial and other information about Carahsoft and other competing vendors. Allowing Carahsoft's competitors access to this compilation of financial data by releasing it in response to a public records request will damage Carahsoft's competitive position because it will provide competitors insight into Carahsoft's financial structure, including compensation, overhead costs, rental rates, profit margins and the like. Indeed, allowing insight into compensation may violate individual employees' expectations of privacy. Once competitors have this access and insight, they can use it to undercut Carahsoft in the marketplace, damaging Carahsoft's business with its customers and its suppliers, and inflicting economic hardship upon the Company.

For these reasons, Carahsoft does not itself disclose its Audited Financial Data except when required by law to do so. For example, Carahsoft discloses its financial information in filing its periodic tax returns—disclosure of which is prohibited by applicable state and federal law. In this regard, we note that Carahsoft is a privately owned company. Therefore, Carahsoft does not publicly report its financial results to the United States Securities and Exchange Commission.

3. Carahsoft uses reasonable efforts to maintain the secrecy of its Audited Financial Data.

The third part of the Utah Uniform Trade Secret Act's test for trade secret treatment is whether the information "…is the subject of efforts that are reasonable under the circumstances to maintain its secrecy." Utah Code § 13-24-2(4)(b).

Carahsoft satisfies this test because it takes reasonable steps to maintain the secrecy of its financial information. As noted above, Carahsoft is a privately held company and therefore does not report its financial results publically to either its shareholders or the Securities and Exchange Commission. This is in contrast to public companies such as IBM or AT&T who report financial results quarterly as a matter of public record.

Even within Carahsoft's business operations itself, Carahsoft's management strictly limits disclosure of this information to a few carefully selected employees, and then only on a "need to know" basis in connection with their work assignments. Indeed, each Carahsoft employee signs a Confidentiality Agreement agreeing not to disclose this information.

Conclusion

Based on the forgoing, Carahsoft believes it has demonstrated that its Audited Financial Data, Consensus Assessments Initiative Questionnaires, and Cloud Controls Matrix are trade secret as defined in Utah Code § 23-24-2 . It is a compilation the content of which affords Carahsoft a competitive advantage. Carahsoft's competition cannot readily discern it by proper means. Moreover, Carahsoft itself treats this information as a trade secret even within its own business operations.

Should there be a public records request for this information, Carahsoft respectfully requests that the State afford Carahsoft's requested confidential information and documents trade secret protection in accordance with Utah law and deny the request. In the event that the State determines to release the requested confidential data, Carahsoft requests that you notify us promptly so that we may provide further justification for trade secret protection of this confidential data.

CLAIM OF BUSINESS CONFIDENTIALITY

Pursuant to Utah Code Annotated, Subsections 63G-2-305(1) and (2), and in accordance with Section 63G-2-309, Carahsoft Technology Corporation (company name) asserts a claim of business confidentiality to protect the following information submitted as part of this solicitation. Pricing/Cost Proposals may not be classified as confidential or protected and will be considered public information. **An entire proposal cannot be identified as "PROTECTED", "CONFIDENTIAL" or "PROPRIETARY".**

☒ Non-public financial statements
☐ Specific employee name and contact information
☐ Specific customer information, client lists, or subscription lists
☒ Other (specify): Consensus Assessments Initiative Questionnaires and Cloud Controls Matrix

This claim is asserted because this information requires protection as it includes:

☒ trade secrets as defined in Utah Code Annotated Section 13-24-2 ("Trade secret" means information, including a formula, pattern, compilation, program, device, method, technique, or process, that: (a) derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use; and (b) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy).

☒ commercial information or non-individual financial information obtained from a person if: (a) disclosure of the information could reasonably be expected to result in unfair competitive injury to the person submitting the information or would impair the ability of the governmental entity to obtain necessary information in the future; [and] (b) the person submitting the information has a greater interest in prohibiting access than the public in obtaining access.

This statement of reasons supporting the claim of business confidentiality applies to the following information in this proposal:

Page	Paragraph	Reason

Exhibit 1-FireEye Excel	N/A	See Confidential, Trade Secret, & Proprietary Information Explanation Page 176-177 of Carahsoft's Technical Response
Exhibit 2-DocuSign Excel	N/A	See Confidential, Trade Secret, & Proprietary Information Explanation Page 176-177 of Carahsoft's Technical Response

Please use additional sheets if needed.

You will be notified if a record claimed to be protected herein under Utah Code Annotated § 63G-2-305(1) or (2) is classified public or if the governmental entity determines that the record

should be released after weighing interests under Utah Code Annotated § 63G-2-201(5)(b) or Utah Code Annotated § 63G-2-401(6). See Utah Code Annotated § 63G-2-309.

Signed: Robert R. Moore, Vice President
On behalf of (company): Carahsoft Technology Corporation
Date: March 10, 2016

(Revision 6/4/2015)

EXCEPTIONS AND/OR ADDITIONS TO THE STANDARD TERMS AND CONDITIONS

Proposed exceptions and/or additions to the Master Agreement Terms and Conditions, including the exhibits, must be submitted in this section. Offeror must provide all proposed exceptions and/or additions, including an Offeror's terms and conditions, license agreements, or service level agreements in Microsoft Word format for redline editing.

Offeror must also provide the name, contact information, and access to the person(s) that will be directly involved in terms and conditions negotiations. If there are no exceptions or additions to the Master Agreement Terms and Conditions, write "None" in this section.

The point of contact who will be directly involved in terms and conditions negotiations is Jack Dixon – Contract Specialist. He can be reached at – 703.230.7545 / Jack.Dixon@Carahsoft.com.

32. Transition Assistance:

a. The Contractor shall reasonably cooperate with other parties in connection with all Services to be delivered under this Master Agreement, including without limitation any successor service provider to whom a Purchasing Entity's Data is transferred in connection with the termination or expiration of this Master Agreement. The Contractor shall assist a Purchasing Entity in exporting and extracting a Purchasing Entity's Data, in a format usable without the use of the Services and as agreed by a Purchasing Entity, at no additional cost to the Purchasing Entity. Any transition services requested by a Purchasing Entity involving additional knowledge transfer and support may be subject to a separate transition Statement of Work.

b. A Purchasing Entity and the Contractor shall, when reasonable, create a Transition Plan Document identifying the transition services to be provided and including a Statement of Work if applicable.

c. The Contractor must maintain the confidentiality and security of a Purchasing Entity's Data during the transition services and thereafter as required by the Purchasing Entity.

Carahsoft takes exception to section 32 – Transition Assistance and request it includes the following.

9.4 RETURN OF CUSTOMER DATA. Carahsoft shall provide Customer Data in its standard database export format, excluding the any Core Technology, to Customer upon Customer's written request and at no additional cost to Customer, provided that Carahsoft receives such request from Customer within forty-five (45) days following the expiration or termination of a provided service. If Carahsoft has not received a request within the foregoing time frame, Carahsoft shall have no obligation to maintain or provide any Customer Data and shall thereafter, unless legally prohibited, have the right to delete all Customer Data in its systems or otherwise in its possession or under its control and delete Customer's instances of any provided service.

Carahsoft takes exception to Section 13 – Indemnification. Carahsoft requests that Indemnification from the state to the customer under a certain set of circumstances.

IN SUMMARY

Carahsoft Technology Corporation appreciates the opportunity to offer this solution for the State of Utah's initiative.

The Carahsoft Team has proposed a superior and cost-effective solution that fully complies with the State of Utah's requirements set forth in Solicitation # CH16012. We understand the importance of your project goals, and we are confident you will benefit from this solution and our expertise.

Carahsoft looks forward to the opportunity to speak with you regarding the details of this proposal, as well as the opportunity to work with the State of Utah on this project.

1 Introduction

This document provides a general overview of the SAP Fieldglass security and hosting infrastructure. It is effective as of the revision date indicated below. However, as security needs continue to evolve, the specific information relating to the topics covered may be subject to change over time.

Security

The SAP Fieldglass solution was architected to be the most reliable and secure Vendor Management System available today.

SAP Fieldglass is proud to offer our customers, subject to review and acceptance by our audit partner, the following assurances:

- ISO 27001 certified since 2011
- SSAE 16/ISAE 3402 Type 2 SOC1 audits conducted since 2005
- SSAE 16 Type 2 SOC2 audits in the Trust Services Principles for:
- Security – the system is protected, both logically and physically, against unauthorized access
- Availability – the system is available for operation and use as committed or agreed to
- Processing Integrity – system processing is complete, accurate, timely, and authorized
- Confidentiality – information that is designated as “confidential” is protected as committed or agreed
- SSAE 16 Type 1 SOC2 audit in the Trust Services Principle for Privacy (Type 2 audit scheduled for Q3 2015)
- Annual third party pen testing of our network and application

This document provides an understanding of how SAP Fieldglass handles the following areas across its global operations:

- Scope of Operations
- Security Management
- Application Security
- Physical Security
- Network Security
- Data Management
- Release Management
- Disaster Recovery
- Business Continuity

1.1 Scope of Operations

SAP Fieldglass has global operations located in the following regions:

United States

Business office

SAP Fieldglass
111 N. Canal Street
Suite 600
Chicago, IL 60606

Active and passive datacenters

Century Link 2425 Busse Road Elk Grove Village, IL 60007	Equinix / ServerCentral 1735 Lundy Avenue San Jose, CA 95131

APAC

Business office

SAP Fieldglass
Suite 5, 48 Lovett Street
Manly Vale
NSW 2094
Australia

European Union

Business office

SAP Fieldglass
One Valentine Place
London
SE1 8QH
United Kingdom

Active and passive datacenters

ServerCentral c/o Equinix Laarderhoogtweg 57 1101EB Amsterdam, Netherlands	ServerCentral c/o Telehouse North 14 Coriander Avenue London E14 2AA United Kingdom

The terms "active" and "passive" designate which of the production hosting environments is being used as the primary (active) and which is being used as the backup (passive or disaster recovery). These designations are not static and SAP Fieldglass will occasionally fail over the active hosting environment to the passive hosting environment. This practice ensures that SAP Fieldglass is capable and ready in the unlikely event a disaster occurs and we need to fail over to the passive site.

1.2 Security Management

SAP Fieldglass' Security Team is responsible for implementing and maintaining the security controls to ensure that SAP Fieldglass information systems are secure. SAP Fieldglass has based its security program on industry standards and best practices. For our established datacenters, these practices are audited annually by a third party with results available to customers in October.

1.2.1 Security Policies, Standards and Procedures

SAP Fieldglass maintains a comprehensive set of policies that define the information security goals and objectives. Each policy may be supported by a standard that dictates the required security requirements to ensure the uniform application of technologies and processes.

1.2.2 Risk Management

SAP Fieldglass manages risk by the identification of threats and vulnerabilities to its information systems and through a control selection process. Controls selected fall into the following categories:

- Policy
- Physical and Environmental Security
- Organizational Security
- Communications and Operations Management
- Acceptable Use
- Access Control
- Third Party Access
- Information Systems Acquisition, Development and Maintenance
- Asset Management
- Incident Management
- Personnel Security

- Compliance

As an element of our ISO 27001 compliance, SAP Fieldglass conducts an enterprise-wide risk assessment. Key individuals from every department are interviewed so that risks can be identified. Risks are then evaluated and entered into a risk treatment plan. This plan is managed by the Security team with oversight by the Security Steering Committee. The Security Steering Committee meets on a quarterly basis.

1.2.3 Assessments

SAP Fieldglass periodically assesses the security controls to review the effectiveness of each control in addressing risk. If SAP Fieldglass' assessment suggests a need for changes, the baseline standard may be changed to include additional controls.

Internal Audit

SAP Fieldglass conducts quarterly internal audits for critical controls. Evidence is reviewed by our Sr. Compliance Analyst and a formal assessment report is prepared. Failed controls are made visible by this process so they can be remediated. Executive sign off on the internal audit reports is required.

External Audit

SAP Fieldglass also contracts with third parties on an annual basis to perform formal security audits on the following:

- ISO 27001 surveillance audit
- SSAE 16/ISAE 3402 Type 2 SOC1 audit
- SSAE 16 Type 2 SOC2 audits in the Trust Services Principles for:
- Security
- Availability
- Processing Integrity
- Confidentiality
- SSAE 16 Type 1 SOC2 audit in the Trust Services Principle for Privacy (Type 2 audit scheduled for Q3 2015)
- Network penetration test
- Application penetration test

These assessments allow SAP Fieldglass to maintain an appropriate security posture in order to protect the company and its systems, as well as its customers' data.

We are currently working with our third party audit partner in bringing our EU datacenters into scope for our 2015 ISO 27001 audit and SSAE 16/ISAE 3402 Type 2 SOC1 and SOC2 examinations.

1.3 Application Security

Our application provides application-level security through a combination of encryption, page-level access checking, document envelopes, and activity logging. Application security is handled through a combination of programming checks, application server configuration, and database server configuration. SAP Fieldglass uses 128-bit SSL (HTTPS) encryption for all data transmissions over the public Internet, including data shared between the product and end users and data shared between the product and back-end systems.

Passwords are encrypted using a one-way hash with salt based on the SHA-256 encryption algorithm. The hash value is saved within the database; not the password.

The base SAP Fieldglass application does not require data that would require breach notifications if compromised. If the customer chooses to store sensitive data, custom fields may be defined by the customer that can be encrypted with AES-256. These fields can also be optionally masked from view while entering and viewing the fields in the application.

1.3.1 Encryption

By default, the application utilizes SSL encryption for all data transmissions over the public Internet.

In addition, the SAP Fieldglass hosted application encrypts sensitive data stored on the database so that only properly authorized users (or systems) will be able to decrypt the data. Because no state information is stored on the application server, in the unlikely event of unauthorized access to the database, the sensitive data is still encrypted.

1.3.2 Database Segmentation

SAP Fieldglass is a SaaS and utilizes a multi-tenancy database. Each customer is assigned a unique company code. Every record written to the database is keyed using this company code. After a user authenticates into the system, a session ID is generated which holds vital information about the user including their company code, user role, and data visibility restrictions. The session ID is cached server side to eliminate any ability for a malicious user to modify its contents.

1.3.3 Document Envelopes

Throughout the system, there are a number of events that generate “documents.” These are digital representations of their real-world counterparts. For example, job postings, work orders, time sheets, and invoices are all represented in the system as documents.

Each document in the system has an accompanying digital envelope that stores all access to that document. For example, when a job posting is created, an envelope entry is added for creation that records the date, time, and person. When it is submitted, another entry is added recording the date, time, and person.

1.3.4 Page-Level Access Checking

The application has been designed so that every single web page checks for access rights before displaying itself. Additionally, each page performs a second check to ensure that an authorized user will only have access to those data elements and functionality that has been expressly authorized by the system administrator.

The post-authentication session ID that is generated and cached server-side is validated prior to showing each page. SAP Fieldglass stores a non-persistent cookie in the browser and compares back to the server-side session ID. If they no longer match due to malicious activity, the user is redirected to a "You are not authorized" page.

Authorization is handled through the use of user-defined User Roles. User Roles provide the customer, through its designated administrators, the flexibility to specify the type of access given to a member of that user group based on the definitions configured by the administrator. The User Role controls what areas of the application are accessible to the user group and what actions they can perform in those areas (e.g. job posting create, time sheet approve, etc.).

1.3.5 URL Encryption

SAP Fieldglass does not pass any sensitive data in its URL query strings. Parameters that are used to identify users in the system are protected by anonymizing the field variable and then encrypting the associated value using AES-256.

1.3.6 Activity Logging

As users access the system, all of their business significant activities are tracked and logged including failed login attempts, successful logins, approvals, submissions, etc. This activity log provides a full audit trail of what actions a particular user performed within the system and the timestamp as well.

1.3.7 Application Testing

Upon request, SAP Fieldglass will provide customers with a sandbox environment where system testing can occur outside of production. This is useful when testing out configuration changes, new integrations, and/or new reports prior to making the changes live in the customer's production instance.

Upon request, customer's data can be anonymized. SAP Fieldglass has the ability to scrub the data such that it is unrecognizable. Data element replacement is accomplished by an automated SAP Fieldglass utility that replaces the customer's company code, user names, business units, cost centers, and sites from a store of random variables. Any or all of these elements may be chosen for replacement.

Sensitive data that has been designated by the customer to be stored in the SAP Fieldglass application is encrypted with AES-256. The encryption and decryption keys are different between production and test environments and are different between the US and EU datacenters. These keys are stored in the corporate password vault and are accessible only by the Database Administrators and the Lead Architect.

Once customer testing has been completed, the Environment Management team (a team within Professional Services) destroys the environment. The database is purged and the VM is returned into circulation.

1.3.8 Password Management

The SAP Fieldglass application provides each customer the ability to define a Password Policy. This policy contains custom-defined password rules that each user in the customer's instance must adhere to. The policy provides 20 different password rules such as minimum length, user lockout preference (hard lockout vs. time-based reset), days to expiration, minimum password age, etc. Also included is the ability to specify a regex pattern(s). This pattern dictates the password value syntax that each user must follow.

When customer chooses to use a test instance ("sandbox"), all user password values remain unchanged from their production values. All passwords and visibility restrictions remain unchanged to ensure that users in the test instance are not able to gain access to data they're not privileged to see in production. Also, the password policy that is enforced in in the production instance is also enforced in the test instance.

New user invitations are sent via email. Recipients enter their 1-time passcode and are then forced to specify a new password that complies with the customer's password policy rules. User invitations expire after 21-days.

1.3.9 Email Approvals

In order to better support our growing mobile workforce, SAP Fieldglass offers customers a supplementary method for approving their work items. Via email, approvers are able to submit their approval or rejection response by simply replying to the approval work item that was sent to them. This method has been proven to reduce approval cycle times by several days since the approver does not have to be in the office. This feature has been architected with the following security controls:

- Only the original recipient can approve/reject the work item. If the recipient forwards the email to another person, the system will not accept the response.
- Email spoofing is not a risk. A unique ID is generated for each approval request. This unique ID along with the person ID of the intended recipient is stored encrypted with AES-256. So even if the email address sending the approval/rejection response is legitimate but the sender is not, the system will detect this anomaly and not accept the response.
- A SAP Fieldglass approver can identify another user as their Proxy and/or Delegate when they will be out of the office and unable to handle the approval requests. By design, neither of these roles receive approval work items via email. So only the original recipient can ever submit an approval/rejection response via email.
- If the customer created custom fields where sensitive information is stored encrypted, those fields and associated values are not allowed to be selected for inclusion in these email approval notifications.
- The system audit trail is updated with all user actions including approval/rejection activities via email. This audit trail is accessible by privileged customer users and can be used to monitor user activity.

In order to compromise the security of our email approval feature, a malicious user would need to hack into another user's email account, locate the SAP Fieldglass approval request email, and then submit the approval/rejection response.

1.3.10 Application Penetration Testing

SAP Fieldglass uses a combination of manual and automated testing to ensure the application is secure. Various automated commercial tools are used prior to each major release of the SAP Fieldglass system (three times per year).

On an annual basis, SAP Fieldglass engages a 3rd party security company to conduct pen testing services against our application. This is in addition to SAP Fieldglass' own internal penetration testing efforts.

SAP Fieldglass has several test environments available for customers to conduct their own application penetration testing if requested.

1.4 Physical Security

The SAP Fieldglass data center provides physical security through its secure hosted facilities. The application is hosted within a secure unmarked cage. SAP Fieldglass manages everything from the cage in. Meaning, SAP Fieldglass manages all servers, devices, and software in the cage. The hosting provider provides physical security, internet connectivity, and HVAC.

1.4.1 Internet Data Center Construction

Exterior perimeter walls, doors and windows are constructed of materials that afford UL Standard #752, Level V Ballistic Protection.

1.4.2 Access Control

The data center uses an Access Control System (ACS), which supports a networked card reader and alarm system. The ACS uses proximity card readers to control access into perimeter doors, shipping/receiving areas, storerooms and other areas. Biometric hand scanners are installed to control access into the network control center, telecommunications node room and customer vaults. Additional access control measures include:

- Designated with signage as controlled access areas
- Areas within the internet data center are designated as restricted
- Access into the internet data center and restricted areas is controlled by biometric hand scanners, and is limited to authorized personnel
- Card access badges or contractor/visitor badges are required to gain entry
- All employees, customers, vendors, contractors and visitors must be sponsored by a facilities pre-approved sponsor to gain access
- Visitors are escorted at all times within the controlled access area perimeter

1.4.3 Man Traps

The system includes the following key features:

- Anti-passback
- Integrated metal & explosive detection
- Video monitored / recorded
- Two-way intercom audio to Security Control Room
- Level V ballistic protection
- Weight sensors limit entry to one person at a time (no tailgating)
- ADA compliant
- Intrusion / tampering alarm monitoring by Security Control Room
- Integrated card access & biometric access control systems limits access to persons verified by hand geometry
- All systems are supported by redundant power management system (generators).

1.4.4 Key Control

Facilities security staff is the custodian of all security and cage keys. These keys are maintained and tracked through a comprehensive issue, retrieval, audit, and storage process. The listing of all customers, customer employees and cage assignments is updated in real-time maintained to ensure that cage access is restricted to authorized personnel.

1.4.5 Alarm System

The ACS is used to monitor and log security alarms. The ACS monitors all:

- Perimeter doors
- Restricted Area doors
- Shipping / receiving doors

1.4.6 Closed Circuit Television System

Facilities employ an extensive closed circuit television system to monitor the exterior and interior of the internet data center. Exterior cameras provide views of critical support equipment and perimeter doors. Interior cameras are positioned to monitor all internet data center aisle ways, requests for entry and entry into the internet data center, shipping / receiving areas, high-security vaults and the internet data center lobby. All cameras are recorded on digital video recorders 24 x 7.

1.4.7 Background Checks

SAP Fieldglass requires background checks be performed at the time of hiring on all personnel. These background checks are performed by a nationally recognized third party company. SAP Fieldglass initiates the background check request for all potential employees and independent consultants. If the independent contractor is placed through

an agency, the agency will conduct a background check and confirm with Human Resources whether the results were completed with/without discrepancies. If the independent contractor is placed directly, SAP Fieldglass will conduct the background check.

Background checks include the following:

- Social Security Trace
- Statewide & National Criminal Report (7 years)
- Sex Offender Registry & Terrorist Watch
- Compliance Authorities Database Checks – Global (OFAC level verification)
- Education verification
- Employment verification (7 years)
- Global Sanctions & Prohibited Parties
- Credit (only for specific finance roles)

1.4.8 Hosting Facility Security Personnel

The security office duties include:

- Response to calls for assistance
- Security facility inspections
- Fire and safety patrols
- Shipping / receiving security
- Physical security audits and assessments

1.5 Network Security

The SAP Fieldglass network infrastructure includes redundant components, firewalls, and 24/7 monitoring.

1.5.1 Redundant Components

Most network components are internally redundant. For example, routers have redundant power supplies; servers have redundant drives, power supplies, and NIC cards. Additionally, all network components are redundant to provide redundancy and security in the event of a component failure.

1.5.2 Private Virtual LANs

The application network architecture has been designed with multiple private virtual LANs using redundant Cisco routers. Every major network layer is placed on its own virtual LAN with rules about which protocols and ports are accessible.

1.5.3 Firewall

SAP Fieldglass has implemented dual-vendor redundant firewalls between the public internet and the SAP Fieldglass private network, as well as between each virtual LAN. This

firewall has been configured to enforce protocols and ports that are able to cross LANs with a default deny stance.

1.5.4 24/7 Monitoring

SAP Fieldglass provides 24/7 monitoring of suspicious activity. Any failure is promptly reported and, after an initial analysis, escalated to the next appropriate level.

1.5.5 Enterprise SIEM

Our security incident and event management (SIEM) tool has been configured to collect logs and events from all systems and devices within the SAP Fieldglass network. Forwarders are used to collect, filter, normalize and forward relevant data to an Indexer. Each installation listens for Syslog data and actively pulls WMI information from its respective environment. Security related issues are monitored and alerted on where required.

1.5.6 Network Pen Testing

On an annual basis, SAP Fieldglass engages a 3rd party security company to conduct pen testing services on our network.

1.6 Data Management

1.6.1 Data Backups and Replication

SAP Fieldglass has a highly available backup solution that guarantees data can be restored as expediently as possible. Our solution performs a continuous replication of data to our passive production hosting facility. SAP Fieldglass takes incremental SQL backups every 15 minutes and full backups on a nightly basis. Backups are transferred to the passive production hosting environment over a secure channel. SAP Fieldglass' solution offers continuous protection of customer data geographically without imposing performance degradation or scaling limitations. Data is encrypted both at rest and in transit with AES-256.

Data backups and replication are performed between the active and passive production environments. The US-based active production environment replicates data to the US-based passive environment. Likewise, The EU-based active production environment replicates data to the EU-based passive environment.

Also refer to section 3.1 Disaster Recovery.

1.6.2 Data Archiving

Data is archived throughout the year. Eligible transactional and reporting data are moved from the active database to an archive database after 24 months. Archived data can be accessed only by customer users with a user role of Administrator. Archive data is accessed using the same login screen and user interface that is used to access current data. Reports can also be generated using archive data from the standard interface.

The criteria for archiving data are as follows:

- Data remains in the active database for 24 months, at which point eligible data is moved to the archive database.
- Data remains in the active report database for 24 months, at which point eligible data is moved to the archive report database.
- Archiving begins with the worker. When a worker's end date is more than 24 months old, the worker and all associated data including the worker's work orders, job seeker record, job posting, time sheets, expense sheets, and payment-related items such as invoices are archived.
- The archive process is run as a batch job on a weekly basis to move data from the active databases to the archive databases.
- Data cannot be moved back from the archive database to the active database.

SAP Fieldglass does not delete data from its archive databases and has data older than 7 years. In the future, if SAP Fieldglass decides to delete archived data, we will ensure that a minimum 7 years of data is retained.

1.6.3 Data Deletion

Data deletion occurs only when required by a customer. SAP Fieldglass' data deletion capabilities allow customers to remain compliant with data privacy, data protection, and other related data directives.

- Deletion logic is based solely on a customer's business requirements. A custom script is developed by SAP Fieldglass.
- Results are verified in a non-production environment by both SAP Fieldglass and the customer prior to executing in production.
- A "Preservation" flag is available for use. Customers can set this flag on any data to override logic that would otherwise delete the data. This is useful during times when litigation or eDiscovery efforts are in progress and certain data must be preserved.
- Script execution frequency is determined by the customer.

SAP Fieldglass is contractually obligated to retain at least 7 years of data for customers.

1.6.4 Data Usage

Customer data is required in non-production environments for various reasons:

- Second level help desk support for customer defect investigation and resolution.
- Supporting customer requests for updating data, whether it be for desired changes or corrections for data modified by the customer in error.
- Customer sandboxes – these are non-production environments configured only with the customer's data (customer's data is "sliced" out from the multi-tenancy production database). These sandboxes are required for many

reasons, including testing of new or changed integration connectors, reports, and/or application configuration changes such as revised approval workflows. New application features can also be turned on and reviewed in the sandbox before turning on in the live production instance.

- Any data deletion scripts that are developed between the customer and SAP Fieldglass must be tested in a non-production environment prior to executing in production.
- Customer Preview testing – this is an opportunity for customers to gain early access to a future upgrade of the SAP Fieldglass application. This allows customers to gain confidence that the system is working as expected prior to the release date. Customer participation is optional.
- SAP Fieldglass regression testing – the SAP Fieldglass application is offered in a Software as a Service (SaaS) model. One of the services we provide is testing of the application prior to each production release. To ensure a customer's configuration, integrations, and reports are working as expected with the new codebase, SAP Fieldglass Quality Assurance uses a scrubbed production copy of the database in our regression testing. Regression testing is where we execute test cases against the current production codebase and the future codebase using a common data input. Output files from each test are compared to ensure any changes are expected.

Customers may opt out of this process. However, all responsibility in ensuring the customer's SAP Fieldglass instance is properly working and maintained is transferred to the customer.

To date, all SAP Fieldglass customers have declined to assume this responsibility.

1.6.5 Data Scrubbing

In order to properly service our customers, access to production data is required. All customer data is classified as Confidential. SAP Fieldglass takes every possible precaution to ensure data is protected from unauthorized access and misuse.

Data is protected in the following ways:

- First names and last names of buyers, suppliers, and workers are anonymized by replacing with a test value.
- Email addresses of buyers, suppliers, and workers are changed to a single false email address such as qatest8@SAP Fieldglass.com which is configured to automatically purge all email sent to it.
- Buyer and supplier company names are anonymized.
- Any custom fields created by the customer remain unchanged. Custom fields that contain sensitive data are encrypted with AES-256 and optionally display masked when entering and displaying values in the user interface. There is no way to decrypt these values since the decryption keys between production and test are different. Keys are stored in the corporate password vault and

access is limited to only select senior members of the technology team. This access list is reviewed quarterly by the internal audit team and by a third party in our annual SSAE 16 / ISAE 3402 Type 2 SOC1 and SOC2 audits.

The data scrubbing process is:

- A backup of the data is taken at the location where the source database resides
- Data is filtered where only the most recent 3 months of data remain
- Data is scrubbed as described above
- Data is then securely transferred from the production system to the test system

Once scrubbed, all personally identifiable information (PII) has been removed and any sensitive custom field data cannot be read.

Our test systems reside in secure third party data centers with the same controls as our production data centers.

1.6.6 Data Access

Direct access to production data is required in specific cases. Access is provided based on business need and not by role alone. Access reviews are conducted monthly and reviews are subject to recurring quarterly reviews by the SAP Fieldglass internal audit team. Executive review and sign off is performed for all quarterly reviews.

Access is required for the following puposes:

- Professional Services Data Services team – this team receives a customer's master and/or worker data and executes data uploads into test and/or production environments. Once the data are successfully uploaded and customer has signed off on the accuracy and completeness of the upload, the data are destroyed.
- First level help desk – when customers call our help desk, the caller may require the help desk agent to to view data or log in as the caller in order to help them with their problem. This is only performed when authorized by the caller.

SAP Fieldglass has help desk locations in the following regions:

United States

SAP Fieldglass
111 N. Canal Street
Suite 600
Chicago, IL 60606

Europe and APAC

Merlin-IT Hungary Information Technology Services Kft. Vagohid u. 2., 4034 Debrecen, Hungary	Merlin Information Systems Philippines Inc. 6th Floor C ommerce and Industry Plaza Building, McKinley Hill Cyberpark, Taguig City, Philippines

The SAP Fieldglass Security team conducted an onsite security audit in 2014 at Merlin Hungary. Contractually, Merlin must meet SAP Fieldglass' security requirements. The following security controls are in place:

- Help desk agents are not able to cut/paste using their secured workstation.
- External media including any USB drive is disabled.
- Printing is not supported.
- Help desk agents have been background checked by Merlin using SAP Fieldglass' background check requirements (see section 1.4.7 Background Checks).

1.6.7 Data Loss Prevention

Our DLP solution has been installed and configured for use on devices subject to exposure to sensitive information. It has been implemented to guard data at its endpoints and to ensure leakage of information classified as Confidential does not occur. Policies can be pushed from the central management console or pulled from an individual endpoint client. Client installs are configured to update (pull) policy changes every 90 minutes.

Our enterprise SIEM tool is configured to pull data in real time from the DLP database. Dashboards are created to allow quick overviews of agent statuses/details, alert details, and logging details.

The SIEM is configured to notify the Security Team in real time when an alert is detected. The Analyst then logs into the SIEM and investigates the alert to determine whether it's legitimate or a false positive.

1.6.8 Customer Termination

If a customer were to terminate their contract with SAP Fieldglass, the customer's data could be sliced out of the production database and delivered to the customer on a media of their choice. The size of the data will determine what media is appropriate.

2 Release Management

2.1 Release Management Process

The SAP Fieldglass Release Management team is responsible for the management of all delivables required in upgrading the production SAP Fieldglass system. This team is comprised of key members from the Development, Quality Assurance, Product Management, Professional Services, and executive teams. SAP Fieldglass customers benefit from our release management in that the release deployment schedule repeats itself year over year; releases are deployed over the same weekends of predetermined months.

SAP Fieldglass has several different release types:

Major Releases

In the US, Major releases occur on the second Fridays in March, July, and November. In the EU, Major releases occur on the third Fridays in March, July, and November

These releases can include new product features, new or changed functionality, user experience enhacements, and changes to the user interface. These are our most formal releases and the only type of release that requires an extended maintenance window. The Release Manager and the Release Management team closely monitor all phases of the Software Development Lifecycle and analyze PKIs at each phase transition. Release notes are provided as well as an opportunity for customers to optionally participate in a customer preview opportunity. This is where users can log into a non-production environment that is running the future codebase. The benefit of participating is that customers can gain confidence the system is behaving as expected prior to the official release date.

Minor Releases

Minor releases occur on the second Fridays in January, May and September.

These releases do not require the formalities of major releases. This type of release is used when deploying customer-specific product features and integrations to production. These releases are deployed to both US and EU customers at the same time.

Service Packs

Serivce packs are deployed as required to resolve product defects. These releases are deployed to both US and EU customers at the same time.

All releases are deployed to production by a central deployment team located in the US. During the deployment process, the codebase is replaced with the new codebase and data transformation scripts are executed. During this process, customer data is not viewed or accessed. Upon completion of the deploy, the Quality Assurance team executes a post-deploy verification checklist to ensure the system is ready for general availability. One such verification is verifying an MD5 hash to ensure the certified codebase was installed in production without modification. Test companies are used in conducting all testing.

3 Disaster Recovery and Business Continuity Plan

3.1 Disaster Recovery

SAP Fieldglass maintains a disaster recovery plan with backup, hardware repair, and data restoration, along with the ability to bring up the SAP Fieldglass application at a hot backup site in the event of a declared disaster (as described in the SAP Fieldglass disaster recovery plan) where the primary site is destroyed or disabled. This plan is tested on a yearly basis. Lessons learned are recorded in the test results and the plan is adjusted and improved accordingly.

SAP Fieldglass has the concept of active and passive production hosting facilities. The active environment is the live production hosted facility that all SAP Fieldglass users are actively using. The passive environment is a hot production hosting environment. Our data replication solution ensures that the passive environment is ready at anytime to be failed over to. In a disaster scenario, SAP Fieldglass changes the DNS to the passive hosting center's set of IPs. Users are then seamlessly routed to the other datacenter. There is not multi-day data migration that has to occur due to the ongoing data replication that is in place.

SAP Fieldglass proactively conducted a datacenter failover from the active datacenter to the passive datacenter in April 2015. The entire failover process was conducted in just over 8 hours with zero data loss. SAP Fieldglass plans to repeat this proactive datacenter failover between 1 and 3 times per year.

Also refer to section 1.6.1 Data Backups and Replication.

3.2 Business Continuity

The primary objective of our business continuity plan (BCP) is to enable SAP Fieldglass to recover all functions within their respective Recovery Time Objectives (RTOs) after any type of disruption occurs which prevents SAP Fieldglass personnel from engaging in ongoing business operations. A Recovery Point Objective (RPOs) has also been defined to identify our tolerance for any data loss. This Plan is designed to support the employees responsible for leading recovery efforts to enable SAP Fieldglass to resume daily operations following a disruption.

A business impact analysis (BIA) has been developed to fully quantify and prioritize restoration of mission-critical processes.

I. Company

Virtru may be referred to as "**Company**."

A. Document Control

A staff copy of this document is available with the **Virtru** Privacy Officer, Will Ackerly, willackerly@virtru.com or (202) 577-3683.

B. Security Document Library

These policies and procedures and related privacy and security practice information will be kept in our Security Documentation Library (SDL). The Library is located in Google Drive and backed up to a local NAS.

Outdated and superseded materials from the Security Documentation Library (or Notebook) will be kept in an archive (the Security Documentation Archive) for at six (6) years after the date when they are first outdated or superseded.

II. Management and Protection of Personally-Identifiable Information

A. Overview

The Privacy Rules place certain restrictions on the acquisition, use and disclosure of Personally-Identifiable Information (PII). These policies establish the minimum care with which PII in the custody of **Virtru** personnel must be maintained.

B. Purpose

The purpose of this document is to provide basic instruction to all **Virtru** employees regarding the management and protection of Personally-Identifiable Information.

C. Applicability

This policy applies to all **Virtru** employees, which are defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru.**

D. Definitions

Covered Entity means a health plan, a health care clearinghouse, or a health care provider that transmits any health information in electronic form relating to any covered transaction.

Personally-Identifiable Information (PII) means any information about an individual maintained by **Virtru,** including:

1. Any information that can be used to distinguish or trace an individual's identity, such as name, social security number, date and place of birth, mother's maiden name, or biometric records; and

2. Any other information that is linked or linkable to an individual, such as medical, educational, financial, and employment information

Treatment, Payment and Health Care Operations (TPO) include all the following:

1. *Treatment* means the provision, coordination, or management of health care and related services, consultation between providers relating to an individual, or referral of an individual to another provider for health care.
2. *Payment* means activities undertaken to obtain or provide reimbursement for health care, including determinations of eligibility or coverage, billing, collections activities, medical necessity determinations and utilization review.
3. *Health Care Operations* includes functions such as quality assessment and improvement activities, reviewing competence or qualifications of healthcare professionals, conducting or arranging for medical review, legal services and auditing functions, business planning and development, and general business and administrative activities including the creation of de-identified health information as defined by these regulations.

Disclosure means the release, transfer, provision of access to, or divulging in any other manner of information outside the entity holding the information.

Use means, with respect to individually identifiable health information, the sharing, employment, application, utilization, examination, or analysis of such information within an entity that maintains such information.

Personal Representative means a person who has authority under applicable law to make decisions related to health care on behalf of an adult or an emancipated minor, or the parent, guardian, or other person who is authorized under law to make health care decisions on behalf of an un-emancipated minor.

Employees means all employees of **Virtru** as well as its temporary employees, interns, independent contractors, trainees, and other persons in the performance of work for the **Company**, its offices, programs or facilities.

Privacy Rules means the rules adopted by various state and federal agencies to implement the requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and regulations promulgated under this Act as well as those obligations that arise under the privacy and security standards adopted by the Health Insurance Marketplaces, pursuant to 45 C.F.R. §155.260.

E. Policy

For details on specific requirements, refer to the appropriate policies in this manual as indicated in *[brackets]*.

1. Generally: Personally-Identifiable Information shall not be obtained, used or disclosed except as permitted or required by law.

2. Permitted and Required Uses and Disclosures: Personally-Identifiable Information may or shall be disclosed as follows:

   a) To the individual

   b) To carry out TPO activities as allowed under HIPAA and/or pursuant to and in compliance with a current and valid Authorization *[Receipt, Use and Disclosure of Personally-Identifiable Information].*

   c) In keeping with a Business Associate Agreement *[Business Associate Agreement].*

   d) As otherwise allowed or required under the HIPAA Rules or other federal and/or state laws concerning privacy of information that is used by **Virtru** in the course of its business operations.

3. Minimum Necessary: Generally, when obtaining, using or disclosing Personally-Identifiable Information, or when requesting PII from another entity, reasonable efforts must be made to limit the PII used or disclosed to the minimum necessary to accomplish the intended purpose. However, the Privacy rules were not intended to severely complicate business processes and **Virtru** may, where appropriate, use a single format to provide data containing PII for our various services *[Minimum Necessary Standard].*

4. De-identified Personally-Identifiable Information: PII may be considered not to be individually identifiable in the following circumstances:

   a) The following identifiers of the individual (and relatives, employers or household members) are removed. (This is the "Safe Harbor" method that **Virtru** will generally use.)

      - Names
      - Information relating to the individual's geographic subdivision if it contains fewer than 20,000 people
      - Elements of dates (except year) directly related to the individual
      - All ages and elements of dates that indicate age for individuals over 89, unless aggregated into a single category of age 90 and older
      - Telephone numbers
      - Fax numbers

- Email addresses
- Social Security Numbers
- Medical record numbers
- Health plan beneficiary numbers
- Account numbers
- Certificate or license numbers
- Vehicle identifiers and serial numbers, including license plate numbers
- Device identifiers and serial numbers
- Web Universal Resource Locators (URLs)
- Internet Protocol (IP) address numbers
- Biometric identifiers; full face photographic images
- Any other unique identifying number, characteristic or code.

b) As allowed in the Privacy Rules, **Virtru** shall provide a number of longitudinal identifiers in the de-identified data. These identifiers shall not allow identification of the individual who is the subject of this data in that:
    1) These identifiers will be encrypted using industry level encryption techniques
    2) The method of encryption shall not be divulged to the receiver of the de-identified data

5. Complaint Process: **Virtru** has put into place a process for individuals to make complaints about our Privacy Policies and Procedures and/or our compliance with those Policies and Procedures.

6. Documentation: **Virtru** must maintain written or electronic copies of all policies and procedures, communications, actions, activities or designations as are required to be documented under this manual for a period of six (6) years from the later of the date of creation or the last effective date.

F. Enforcement

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies. *[Sanction Policy]*

III. Administrative Requirements for HIPAA Implementation

A. Overview

The Privacy Rules require that a Business Associate have in place appropriate administrative safeguards to protect the privacy of Personally-Identifiable Information.

B. Purpose

To provide instructions regarding **Virtru**'s obligations relating to the implementation of administrative requirements of the Privacy Rules.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

D. Policy

1. Personnel Designations: **Virtru** has designated and documented designations of the following:
   a. Will Ackerly has been designated as the Privacy Officer.
      1) He is responsible for the development and implementation of corporate-wide policies and procedures relating to the safeguarding of Personally-Identifiable Information.
      2) He will also be responsible for receiving complaints relating to Personally-Identifiable Information and for providing information about the **Company's** privacy practices.

   b. Persons with access to Personally-Identifiable Information are listed by title and department including a listing of individuals' names on the Risk Assessment; and will be updated if **Virtru** makes any major changes to processes, staff, programming or company location; or at a minimum annually. **Virtru** will retain the previous listing for a period of not less than six (6) years.

2. Training Requirements: **Virtru** shall document the following training actions: All **Virtru** employees shall receive training on applicable policies and procedures relating to Personally-Identifiable Information as necessary and appropriate for such persons to carry out their functions within the **Company**.

   a. Each new employee shall receive the training as described above within 30 days after joining **Virtru**.

b. Each employee whose functions are impacted by a material change in the policies and procedures relating to Personally-Identifiable Information, or by a change in position or job description, shall receive the training as described above within 30 days after the change becomes effective.

c. Complaints handled by Committee...

3. Safeguards: **Virtru** shall have in place appropriate Administrative, Technical, and Physical Safeguards to reasonably safeguard Personally-Identifiable Information from intentional or unintentional unauthorized receipt, use or disclosure.

4. Complaint process: **Virtru** shall have in place a process for individuals to make complaints about the **Company**'s HIPAA Policies and Procedures and/or **Virtru**'s compliance with those Policies and Procedures, and shall document all complaints received and the disposition of each complaint. (See Complaint Process)

5. Sanctions**:** Our Privacy Policies call for our workforce that has access to Personally-Identifiable Information to perform certain duties and to refrain from certain actions. Failure to do so will be sanctioned according to the policy below.

These sanctions apply to the designated workforce members including managers, supervisors, and staff who have access to Personally-Identifiable Information.
It is intended as guidance for our business management in sanctioning information security policy infractions. We reserve the right to implement sanctions differently if, in our judgment, the situation warrants it.

We define a serious infraction as one that results in known significant damage or that threatens imminent significant damage. Other infractions are simple infractions.

First security infraction

If the infraction is:

a. A simple infraction, and
b. The first infraction in the last 3 years

The sanction will be retraining the workforce member on the appropriate policy/procedure and placement of a written letter of reprimand in the employee file. The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

Second security infraction or first serious infraction

If the infraction is:

a. A serious infraction, or

b. The second infraction of either type within 3 years

The sanction will include a written letter of reprimand that is given to the person at fault, placement of a copy of the letter in the employee file, and one week's suspension without pay. The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

Third security infraction or second serious infraction

If the infraction is:

a. A second serious infraction within 3 years, or
b. A third infraction of any type within 3 years.

The sanction will be dismissal from the workforce.

Virtru makes exceptions for disclosures made by employees who qualify as whistleblowers or certain crime victims.

6. Mitigation efforts required*:* **Virtru**, to the extent practicable, shall mitigate any harmful effects of unauthorized uses or disclosures of Personally-Identifiable Information by the **Company** or any of its Business Associate Subcontractors.

7. Prohibition on intimidating or retaliatory acts: Neither **Virtru** nor any employee shall intimidate, threaten, coerce, discriminate against, or take other retaliatory action against any individual for the exercise of their rights or participation in any process relating to HIPAA compliance, or against any person for filing a complaint with the Secretary of the U.S. Department of Health and Human Services, participating in an investigation, compliance review, proceeding or hearing, or engaging in reasonable opposition to any act or practice that the person in good faith believes to be unlawful under the Privacy Rules as long as the action does not involve disclosure of Personally-Identifiable Information in violation of the regulations.

Virtru shall document the following actions relating to its policies and procedures:

a. Required policies and procedures: **Virtru** shall implement policies and procedures to assure appropriate safeguarding of Personally-Identifiable Information in its operations.
b. Changes to policies and procedures: **Virtru** shall change its policies and procedures as necessary and appropriate to conform to changes in law or regulation. **Virtru** may also make changes to policies and procedures at other times as long as the policies and procedures are still in compliance with applicable law. Where necessary, **Virtru** shall make correlative changes in its Privacy Notice.

E. Documentation Requirements

Virtru must maintain the required policies and procedures in written or electronic form, and must maintain written or electronic copies of all communications, actions, activities or designations as are required to be documented hereunder, or otherwise under the Privacy Rules, for a period of six (6) years from the later of the date of creation or the last effective date.

F. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

IV. Minimum Necessary Standard

A. Overview

The Privacy Rules place certain restrictions on the receipt, use and disclosure of Personally-Identifiable Information in regards to the amount reasonably necessary to accomplish the task being performed. However, the Privacy Rules also allow Personally-Identifiable Information to be disclosed for business appropriate needs.

The policies developed by **Virtru** will follow this business appropriate philosophy as well as that of administrative simplification, which is the subsection of the HIPAA law under which the Privacy Rule was developed. **Virtru** shall use standard data formats for information acquisition or disclosure and tailor these formats to contain a business reasonable minimum necessary amount of Personally-Identifiable Information. The **Company's** policies establish the minimum necessary use provisions for Personally-Identifiable Information in the custody of **Virtru** employees.

B. Purpose

To issue instructions regarding **Virtru's** obligations relating to the Privacy Rules to obtain, use and disclose only the minimum amount of Personally-Identifiable Information (PHI) necessary to accomplish the intended purpose.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of the **Company**.

D. Policy

Virtru will make reasonable efforts to ensure that the Minimum Necessary amount of Personally-Identifiable Information is disclosed, used, or requested to accomplish the intended purpose. Exceptions to the Minimum Necessary Standard include disclosures:

1. To the individual who is the subject of the information;

2. Made pursuant to an authorization provided by the individual;
3. To healthcare providers for treatment purposes;
4. Required for compliance with the standardized HIPAA transactions;
5. Made to the Secretary of HHS or his agent pursuant to a privacy investigation;
6. Otherwise required by the Privacy Rules or other law.

Employees shall be trained on the policies and procedures developed to apply these principles to the use or disclosure of, or requests for Personally-Identifiable Information.

E. Procedures

The following procedures will be implemented to ensure that this policy is enforced effectively across all parts of **Virtru**.

1. Each user of a system which accesses Personally-Identifiable Information shall be identified and the classes or types of PII to which access is needed and any conditions appropriate to such access will be established. It will be the responsibility of the Privacy Officer to maintain this information using the *Employee Access Request Form* [**Forms for Employees**] and *System Access Log* [**Change Control Logs for Security**].

2. Reasonable efforts will be taken to limit the access of each user of Personally-Identifiable Information to the amount needed to carry out the individual's duties. These efforts will include internal use of PII.

3. For situations where Personally-Identifiable Information disclosure occurs on a routine and recurring basis, the PII disclosed will be limited to the amount of information reasonably necessary to achieve the purpose of the disclosure.

4. Requests for disclosures that are not routine and recurring and thereby covered by **Virtru** standard procedures (other than to the individual, the Secretary of HHS or his agent, or where required by law) shall be reviewed by the Privacy Officer to determine that the Minimum Necessary Standard is applied to the extent reasonable.

5. Questions regarding these procedures should be directed to the **Virtru** Privacy Officer, Will Ackerly, willackerly@virtru.com, or (202) 577-3683.

F. Enforcement

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

V. Business Associate Agreements

A. Overview

The Privacy Rules impose certain requirements on Business Associates who create, receive, use or disclose Personally-Identifiable Information on behalf of their Covered Entity partners. **Vitru** must comply with the requirements in this section.

B. Purpose

To provide instructions to all **Virtru** employees regarding the necessity of and the requirements for Business Associate Agreements relating to Covered Entities.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru.**

D. Policy

1. Generally: A Covered Entity may disclose Personally-Identifiable Information to **Virtru**, or allow **Virtru** to create or receive PII on the Covered Entity's behalf. **Virtru** will appropriately safeguard the PII obtained from the Covered Entity. **Virtru** will document these assurances through a written agreement.

2. Content Requirements: The agreement between the Covered Entity and **Virtru** must meet the following requirements, as applicable:

    a. Establish permitted and required uses or disclosures of Personally-Identifiable Information that are consistent with those authorized for the Covered Entity, except that the agreement may permit **Virtru** to use or disclose Personally-Identifiable Information for its own management and administration if such use or disclosure is required by law, or **Virtru** provides reasonable assurance to the Covered Entity to which the Personally-Identifiable Information is disclosed that the confidentiality of the PII will be maintained.

    b. Provide that **Virtru** will:

        1. Not use or disclose the Personally-Identifiable Information except as authorized under the agreement or required by law.
        2. Use safeguards to prevent unauthorized use or disclosure.
        3. Report unauthorized uses or disclosures to the Covered Entity.

4. Pass on the same obligations relating to protection of Personally-Identifiable Information to any subcontractors.
5. Make Personally-Identifiable Information available for access by the Covered Entity in accordance with relevant law and policy.
6. Make Personally-Identifiable Information available to the Covered Entity for amendment, and incorporate any approved amendments to Personally-Identifiable Information, in accordance with relevant law and policy.
7. Make information available for the provision of an accounting of uses and disclosures in accordance with relevant law and policy.
8. Make its internal practices, books and records relating to its receipt or creation of Personally-Identifiable Information available to the Secretary of HHS for purposes of determining **Virtru's** compliance with Privacy Rules.
9. Authorize termination of the agreement by the Covered Entity upon a material breach by **Virtru**.

3. Compliance Responsibilities: Virtru agrees to report any use or disclosure of Personally-Identifiable Information not permitted by this agreement and any successful security incident to Covered Entity within a commercially reasonable period, but in no event later than within thirty (30) business days, after it is discovered.

E. Enforcement

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use of Personally-Identifiable Information was or may have been involved, these individuals may additionally be reported to the appropriate law enforcement agencies.

VI. Business Associate Subcontractor Agreements

A. Overview

The Privacy Rules impose certain requirements on Business Associate Subcontractors who create, receive, use or disclose Personally-Identifiable Information on behalf of **Virtru**. All Business Associate Subcontractors of **Virtru** must comply with the requirements in this section.

B. Purpose

To provide instructions to all **Virtru** employees regarding the necessity of and the requirements for Business Associate Subcontractor Agreements relating to Business Associate Subcontractors who receive, use or disclosure Personally-Identifiable Information on behalf of **Virtru**.

C. Applicability

This policy applies to all **Virtru** employees and Business Associate Subcontractors, which are defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru** and the Business Associate Subcontractor.

D. Policy

1. Generally: **Virtru** may disclose Personally-Identifiable Information to a Business Associate Subcontractor, or allow a Business Associate Subcontractor to create or receive PII on **Virtru**'s behalf, if adequate assurances are obtained by **Virtru** that the Business Associate Subcontractor will appropriately safeguard the PII. **Virtru** must document these assurances through a written agreement. This requirement does not apply with respect to:
   a. Disclosures made to a provider concerning the individual's treatment, payment or health care operations; or
   b. Uses or disclosures made to a governmental agency for purposes of public benefit eligibility or enrollment determinations where such company is authorized by law to make these determinations.

2. Content Requirements: The agreement between **Virtru** and a Business Associate Subcontractor must meet the following requirements, as applicable:

   a. Establish permitted and required uses or disclosures of Personally-Identifiable Information that are consistent with those authorized for the entity, except that the agreement may permit the Business Associate Subcontractor to use or disclose Personally-Identifiable Information for its own management and administration if such use, or disclosure is required by law, or the Business Associate Subcontractor obtains reasonable assurance from the entity to which the Personally-Identifiable Information is disclosed that the confidentiality of the PII will be maintained.

   b. Provide that the Business Associate Subcontractor will:
      1) Not use or disclose the Personally-Identifiable Information except as authorized under the agreement or required by law.
      2) Use safeguards to prevent unauthorized use or disclosure.
      3) Report unauthorized uses or disclosures to **Virtru**.
      4) Pass on the same obligations relating to protection of Personally-Identifiable Information to any subcontractors or agents.
      5) Make Personally-Identifiable Information available for access by **Virtru**, in accordance with relevant law and policy.

6) Make Personally-Identifiable Information available to **Virtru** for amendment, and incorporate any approved amendments to PII, in accordance with relevant law and policy.
7) Make information available to **Virtru** for the provision of an accounting of uses and disclosures in accordance with relevant law and policy.
8) Make its internal practices, books and records relating to its receipt or creation of Personally-Identifiable Information available to the Secretary of HHS for purposes of determining the Business Associate Subcontractor's compliance with Privacy Rules.
9) If feasible, return or destroy all Personally-Identifiable Information upon termination of contract; if any PII is retained, continue to extend the full protections specified herein as long as the PII is maintained.
10) Authorize termination of the agreement by the entity upon a material breach by the Business Associate Subcontractor.

3. Compliance Responsibilities: If **Virtru** knows of a pattern or practice of the Business Associate Subcontractor that amounts to a material violation of the Agreement, **Virtru** and the Business Associate Subcontractor must attempt to cure the breach to end the violation, and if unsuccessful, terminate the agreement. If terminating the Agreement is not feasible, **Virtru** must report the problem to the Secretary of HHS.

E. Enforcement

An employee of **Virtru** or an employee of the Business Associate Subcontractor found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use of Personally-Identifiable Information was or may have been involved, these individuals may additionally be reported to the appropriate law enforcement agencies.

VII. Receipt, Use and Disclosure of Personally-Identifiable Information

A. Overview

The Privacy Rules impose certain requirements on Covered Entities and Business Associates who create, receive, use or disclose Personally-Identifiable Information on behalf of their Covered Entity partners.

B. Purpose

To provide instructions to all **Virtru** employees regarding the receipt, uses and disclosures of Personally-Identifiable Information, which are permitted or required by HIPAA.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of the **Company**.

D. Special Definition

Public Health Authority means a governmental company or authority, or a person or entity acting under a grant of authority from or a contract with such a public company, including the employees or agents of the public company, its contractors and those to whom it has granted authority, that is responsible for public health matters as part of its official mandate.

E. Policy

State and federal law permit and require certain receipt, uses and disclosures of Personally-Identifiable Information such as those related to Business Associate Agreements. Additional uses and/or disclosures are allowed or required that related to public responsibility that require no agreement or authorization on the part of the individual who is the subject of the PII. It is the policy of **Virtru** to obtain, use and disclose PII only as permitted and/or required by law or regulation including the following situations:

1. Treatment, Payment or Healthcare Operations: Personally-Identifiable Information may be used or disclosed for the purposes of providing treatment, payment or healthcare operations. Such disclosures will be made only as allowed by and pursuant to prevailing state and federal law.
    a. Discussions involving Personally-Identifiable Information shall be conducted only in appropriate business areas including but not limited to offices, conference rooms and other non-public areas;
    b. Conducted only for the purpose of fulfilling a legitimate business need; and
    c. Conducted with regard to and in compliance with the "Minimum Necessary Standard." *[Minimum Necessary Standard]*

2. Contained in a Business Associate Agreement: For permitted and required uses or disclosures of Personally-Identifiable Information that are consistent with those authorized by the Covered Entity in a Business Associate Agreement.

3. Required by Law: Personally-Identifiable Information may be used or disclosed to the extent such use or disclosure complies with and is limited to the requirements of such law.

4. Abuse and Neglect: Except for reports of child abuse or neglect, Personally-Identifiable Information about an individual believed to be a victim of abuse, neglect, or domestic violence may be disclosed to a governmental authority authorized to receive such reports if the individual agrees or the reporting entity believes, in the exercise of professional judgment, that the disclosure is necessary to prevent serious physical harm. If the individual lacks the capacity to agree, disclosure may be made if not intended for use against the individual and delaying disclosure would materially hinder law

enforcement activity. The individual whose Personally-Identifiable Information has been released must be promptly informed that the report was made unless doing so would place the individual at risk of serious harm.

5. Judicial Proceedings: Personally-Identifiable Information may be disclosed in response to a court order.

6. Law Enforcement: Personally-Identifiable Information may be disclosed for the following law enforcement purposes and under the specified conditions:
    a. Pursuant to court order or as otherwise required by law, i.e. laws requiring the reporting of certain types of wounds or injuries
    b. Decedent's Personally-Identifiable Information may be disclosed to alert law enforcement to the death if entity suspects that death resulted from criminal conduct
7. Serious Threats to Health or Safety: Consistent with applicable law and ethical standards, Personally-Identifiable Information may be used or disclosed if the entity believes in good faith that the use or disclosure is necessary to prevent or lessen a serious and imminent threat to a person or the public, and disclosure is to someone reasonably able to prevent or lessen the threat, or the disclosure is to law enforcement authorities to identify or apprehend an individual who has admitted to violent criminal activity that likely caused serious harm to the victim or who appears to have escaped from lawful custody. Disclosures of admitted participation in a violent crime are limited to the individual's statement of participation and are not permitted when the information is learned in the course of treatment to affect the propensity to commit the subject crime, or through counseling, or therapy or a request to initiate the same.

8. Specialized Government Functions: National Security and Intelligence: Personally-Identifiable Information may be disclosed to authorized federal officials for the conduct of lawful intelligence, counter-intelligence, and other activities authorized by the National Security Act.(45 CFR 164.512(k)(2))

9. Protective Services: Personally-Identifiable Information may be disclosed to authorized federal officials for the provision of protective services to the President, foreign heads of state, and others designated by law, and for the conduct of criminal investigations of threats against such persons. (45 CFR 164.512(k)(3));

10. Public Benefits: Personally-Identifiable Information relevant to administration of a government program providing public benefits may be disclosed to another governmental program providing public benefits serving the same or similar populations as necessary to coordinate program functions or improve administration and management of program functions.

11. Workers' Compensation: Personally-Identifiable Information may be disclosed as authorized and to the extent necessary to comply with laws relating to workers' compensation and other similar programs.

F. Procedures

The following procedures will be implemented to ensure that this policy is enforced effectively across all parts of **Virtru**.

Any request for disclosure of Personally-Identifiable Information, 1) pursuant to a court order, warrant or subpoena; 2) by a law enforcement agent; 3) by a public health authority; or 4) by a national security, intelligence or other federal company, must be directed to the Privacy Officer and the CEO for review and action. Any such request will include an acknowledgement of receipt to insure that the document was actually received by the appropriate corporate individual and will retain a copy of the request. If the acknowledgement is not received within two working days of submitting to the appropriate corporate individual, then the request will be resubmitted to the Privacy Officer and CEO.

G. Enforcement

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

VIII. Complaint Process

A. Overview

The Privacy Rules require that **Virtru** provide a process for individuals to make complaints concerning the **Company**'s policies and procedures required by these regulations and document all complaints received, and the dispositions of these complaints, if any.

B. Purpose

To issue instructions regarding **Virtru** obligations relating to the Privacy Rules to provide a process for individuals to complain about the **Company**'s policies and procedures and the requirement to document complaints received and the disposition of these complaints.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

D. Policy

Virtru shall maintain a process to receive complaints from individuals about **Company** Privacy Policies and Procedures, for complaints from individuals who believe their privacy rights have been violated and from employees or Business Associate Subcontractors who believe that **Virtru** is not abiding by its policies and procedures and/or assurances concerning Personally-Identifiable Information. This process shall include the following:

1. Any complaints or questions should be submitted to the Privacy Officer or his assistant.
2. All service and complaint issues will be stored in the Desk.com app.

Virtru shall work in good faith to resolve complaints received to the satisfaction of the submitter, where possible.

E. Procedures

The following procedures will be implemented to ensure that this policy is enforced effectively across all parts of **Virtru**.

1. Complaints shall be submitted in writing on paper or electronically.

2. Complaints shall be entered into the complaint tracking system either automatically or by the individual designated to provide information on the **Company** complaint process. and when manually entered shall be in the exact words provided by the submitter.

3. The **Virtru** Privacy Officer shall investigate complaints and make a determination as to whether or not the complaint has merit.

4. The **Virtru** Privacy Officer shall present complaints received to **Virtru**'s senior executive for immediate action.

5. If the Privacy Officer has completed the investigation of the complaint and made a determination, such determination shall be presented to the **Virtru** Executive Board

6. If the investigation has not been completed nor a provisional determination made by the Privacy Officer, it shall be the prerogative of the senior executive to make a summary determination or to direct the Privacy Officer to continue with the investigation and to report on the complaint at the next scheduled meeting.

If a determination is made that **Virtru** is in violation of the privacy provisions of the Privacy Rules or that changes are needed in the Privacy Policies or Business Associate Agreement to clarify the allowed practices of **Virtru**, the **Virtru** CEO and Privacy Officer shall determine the actions that the **Company** shall take.

Complaint determinations and actions that **Virtru** takes pursuant to such complaints, if any, shall be reported to the submitter of the complaint, if such person is known. Privacy Officer, or his designated agent, shall update the complaint tracking system with the findings of the Privacy Officer's investigation, any determination made, direction or actions of the **Virtru** CEO and Privacy Officer with regard to the complaint, and a copy of any information provided to the submitter in response to their complaint.

F. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

IX. Fax Policy

A. Overview

The Privacy Rules require that **Virtru** implement appropriate administrative, technical, and physical safeguards to protect the privacy of Personally-Identifiable Information.

B. Purpose

To provide instructions to all **Virtru** employees regarding the use of faxes with respect to Personally-Identifiable Information and the measures necessary to maintain an adequate level of security for such information. This policy defines rules necessary to achieve this level of protection. These standards are designed to minimize the potential exposure to **Virtru** from damages, which may result from unauthorized disclosure of Personally-Identifiable Information through facsimile use.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

D. Special Definitions

Fax: An electronic facsimile of a document stored as a series of zeroes and ones (binary data) that can be transmitted like normal computer data. When received by a fax machine, the incoming stream is translated into dots creating a representation of the original document.

Inappropriate Disclosure: The intentional or unintentional revealing of Personally-Identifiable Information to people who do not have a need to know such information.

E. Corporate Policies

Employees must exercise utmost caution when sending faxes to parties outside of **Virtru**. Faxes containing Personally-Identifiable Information should only be received on and sent to user or departmental specific fax machines and not to systems that have general access.

In cases where Personally-Identifiable Information is received from outside on a non-departmental specific fax machine, the receiving department shall notify the **Virtru** Privacy Officer of the source of such information. The employee shall communicate the approved fax number to the external entity and record such actions. Should PHI be disclosed by fax to an inappropriate party, **Virtru** shall, to the extent possible, remediate such disclosures.

All fax documents sent by **Virtru** employees shall contain the following statement:

This fax is intended for the individual/individuals or entity/entities named above and may be covered by copyrights, business partner confidentiality agreements, non-disclosures or other legally binding instruments. If you are not the intended recipient, do not read, copy, use or disclose the contents of this communication to others. Immediately notify the sender by reply fax, destroy all hard copies and delete this document from all systems. Thank you!

F. Procedure

In the cases where data that contains Personally-Identifiable Information is disclosed by fax machine use to an inappropriate party, the following procedure shall be followed:

1. The receiving party shall be contacted by telephone at the earliest opportunity and requested to destroy the fax without reading.
2. The name of the company, the person contacted, the date and time shall be recorded as well as any comments made by the person receiving such calls.
3. A fax shall also be sent to the receiving party containing the same instructions as detailed for the phone call requesting a return fax message indicating that the requested action was taken.
4. The cause of the inappropriate disclosure shall be determined and reported to the **Virtru** Privacy Officer.

Methods to prevent a reoccurrence of the inappropriate disclosure shall be formulated and put into place.

Any additional actions prescribed by regulations shall be performed to the extent possible.

G. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use

or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

X. Scanner Policy

A. Overview

The Privacy Rules require that **Virtru** implement appropriate administrative, technical, and physical safeguards to protect the privacy of Personally-Identifiable Information.

B. Purpose

To provide instructions to all **Virtru** employees regarding the use of scanners with respect to Personally-Identifiable Information and the measures necessary to maintain an adequate level of security for such information. This policy defines rules necessary to achieve this level of protection. These standards are designed to minimize the potential exposure to **Virtru** from damages, which may result from unauthorized disclosure of Personally-Identifiable Information.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

D. Special Definitions

Scanner: An electronic copy of a document stored as a series of zeroes and ones (binary data) that can be transmitted like normal computer data. When received by a computer, the incoming stream is translated into dots creating a representation of the original document.

Inappropriate Disclosure: The intentional or unintentional revealing of Personally-Identifiable Information to people who do not have a need to know such information.

E. Corporate Policies

Employees must exercise utmost caution when scanning and transmitting these documents to their devices and parties outside of **Virtru**. Scans containing Personally-Identifiable Information should only be received on and sent to user or departmental specific computer in an encrypted format, or sent using **Virtru's** encrypted email application.

F. Procedure

In the case where scanned data that contains Personally-Identifiable Information is disclosed to an inappropriate party, the following procedure shall be followed:

1. The receiving party shall be contacted by telephone at the earliest opportunity and requested to destroy the scan without reading.

2. The name of the company, the person contacted, the date and time shall be recorded as well as any comments made by the person receiving such calls.
3. The cause of the inappropriate disclosure shall be determined and reported to the **Virtru** Privacy Officer.

Methods to prevent a reoccurrence of the inappropriate disclosure shall be formulated and put into place. Any additional actions prescribed by regulations shall be performed to the extent possible.

G. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

XI. Training Policy

A. Overview

The Privacy Rules require that **Virtru** train their employees on the requirements of our Privacy Policies and Procedures developed to protect the Personally-Identifiable Information to which employees are provided access. The **Company** has determined that all employees of **Virtru** shall be trained on Privacy so that we can provide the necessary assurances for the protection of Personally-Identifiable Information to our clients, vendors and business partners as required under the Privacy Rules.

B. Purpose:

To provide instructions to all **Virtru** employees regarding the requirement for HIPAA training.

C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

D. Policy

1. General: It is the policy of the **Company** that all employees of **Virtru** and its current and future subsidiaries be trained on Privacy and the **Company** policies and procedures created to protect Personally-Identifiable Information.

2. Duty Specific Training: Privacy training shall be appropriate to the tasks that each employee performs. In the case where an employee does not come into contact with Personally-Identifiable Information as a normal course of the employee's duties, the employee shall be trained on the corporate policies and procedures.

3. New Employees: New employees shall be trained on the corporate policies and procedures as part of their normal employment process and shall be trained on our Privacy Policies and Procedures, if applicable, within 30 days of being employed by **Virtru.** The Assistant ISO, Jordan Duggan, shall document this training and provide the Privacy Officer with documentation of this training within the 30-day period.

4. Transfers: When an employee transfers from one department to another, the employee shall be trained on our Privacy Policies and Procedures within 30 days of being assigned. Jordan Duggan shall document this training and provide the Privacy Officer with documentation of this training, within the 30-day period.

5. Material Change in Policies and Procedures: when a material change in the policies and procedures occurs, each employee shall receive training on such changes within 30 days of the implementation of the change. Jordan Duggan shall document this training and provide the Privacy Officer with documentation of this training, within the 30-day period.

E. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

Security Policies and Procedures

Provide leadership relating to new security risks, controls and technologies
Oversee and approve the sharing and reuse of Personal Identifiable Information (PII) collected by or processed by the company
VI. Information Classifications and Requirements
Overview
B. The Security classification process
IT platforms such as servers and workstations
IT applications including database transaction processing and email
Data sets
Paper copies of information
Information types typically known to workforce members, such as customer information
Development, acquisition or deployment of software
Connections of computers or networks to outside systems or networks
Granting of access to any outside organizations
C. The classes of information for Security and Privacy
Data Types
Company-owned data that relates to such areas as corporate financials, employment records, payroll, etc.
Setting requirements for business continuity
Required uptime for the information asset
Required restoration time if the data must be restored
Required frequency of backups
Requirements for storage of backups
Requirements for testing of the recovery process
Enforcement
VII. Handling Rules for the Information Classifications
Overview
Inventory of Information Assets and Electronic Asset Management Log
Rules for access to information assets
VIII. Access Control Policy
Overview
Access levels
Granting access
The ISO will provide accounts with the matching technical privileges and give the workforce member the account information including a one-time-use password that the user must change to a private password upon first use of the account.
1. Only the person assigned to an account will be allowed to use that account.
Vendors, contractors and other outsiders
Individuals
Policy

Security Policies and Procedures

IX. Rules by Data Classification
- Public/unclassified data
- B. Private/internal data
- C. Confidential or protected data
- D. Managing data sources
- E. Retention of media
  - Agent of Record letters and Letters of Authorization requests are held for no less than ninety (90) days
  - New Business Group documents are held for no less than ninety (90) days
  - General documents are held for no less than ninety (90) days
  - Banking statements are held for seven (7) years
  - Workforce member records are held for seven (7) years
- F. Sanitization of Media
- G. Information sharing and privacy
- H. Release of company information

X. Risk Analysis and Management
- Risk reviews
- B. Risk management
  - Increasing a protection to a level higher than what is listed in this document
  - Improving oversight or monitoring of the risk to limit impact and minimize response time
  - Limiting transactions or other events to minimize the possible impact of the risk event

XI. IDs and Accounts
- User IDs
- B. ID and account creation
  - Expiration dates for the User ID
  - Renewal process for the User ID
  - Documentation of the role, business process and job function relating to the User ID
- C. Account management
- Application Specific IDs

XII. Authentication and Passwords
- Overview
- Password format
- Rules

XIII. Authorization and Rights Management
- General Access Roles
  - Super Admin Access: Access to all front and backend products as well as product metrics
  - Admin Access: Access to all front end products as well as product metrics
  - General Access: Access to product metrics

- Low Access: Access to corporate email, sales, and marketing data only
- Amazon Web Services (AWS)
- Cloudant
- Github
- ELK Stack
- Mixpanel
- Kissmetrics
- Salesforce

Access Rules

- Limiting access to datasets and types
- Limiting access to operating systems
- Limiting times of access

Temporary Privileged Users and Accounts

D. Assignment and Revocation Procedure

- An Employee Access Log for all new hires and/or workforce member change of status.
- An Exit Checklist for all terminations.

E. Logout After Inactivity

XIV. Breaches or Impermissible Uses/Disclosures

Definitions

- Penetrations of systems, applications, networks or databases
- Denial of service attacks
- Misuse or mishandling of assets
- Virus or other malware contamination
- Transaction errors
- Breaches of confidentiality agreements or contracts
- Legal or regulatory violations

XV. Breach Response

A. Overview

Confidential Reporting:

- Calling (may leave voice message) the ISO or AISO
- Sending an email to the ISO or AISO, or;

XVI. Personnel Security

Screening for newly hired personnel, third parties, vendors

- Professional qualifications
- Identity checks
- Criminal checks
- Confirmation of academic and professional experience

B. Training and Awareness

- Managing malicious software (e.g. viruses)
- Using workstation(s) securely

Managing passwords and
Monitoring and reporting suspicious use of account(s)
C. Terms of employment
D. Acknowledgement
E. Exit process for users
Relinquish all access to control devices
Report all User IDs in use by the person
Relinquish all information stored, whether on paper or on backup media
Relinquish all information processing devices, including workstations, all
Virtru-owned mobile devices and others
All systems access will be revoked.
Security Sanction Policy
First Security Infraction
A simple infraction, and
The first infraction in the last 3 years
Second Security Infraction or First Serious Infraction
A serious infraction, or
The second infraction of either type within 3 years
Third Security Infraction or Second Serious Infraction
A second serious infraction within 3 years, or
A third infraction of any type within 3 years
The sanction will be dismissal from the workforce.
XVII. Legal and Regulatory Issues
Legal processes
Copyrights and licenses
C. Export controls
XVIII. Malware and Antivirus
Definitions
Operating system anti-malware requirements
Macintosh, Linux and iPhones:
PC Operating Systems:
Android and Windows Phone Operating Systems:
Affiliates
Infected devices
Employees' Requirements
Workforce members will not load software on our Company's information equipment without permission from the ISO.
Workforce members will not open electronic files from unfamiliar sources.
Enforcement
XIX. Change Control Logs
Preface

- B. Policy
  - Sufficient information is available for proper investigation of use, misuse, incidents and performance
  - User ID, event type, date and time are maintained
  - Time is according to a known time stamp so that events across systems can be coordinated
  - 4. End-to-end accountability is always maintained
  - Changes to operating systems, application code or other tools
  - Backup and restore events
  - Changes affecting any cryptographic keys or devices
  - Stop or start of critical processes
  - Transaction failure, retry or duplication
  - KissMetrics

Security Policies and Procedures

I. Virtru

Virtru may be referred to as "**Company**."

A. Document control

A staff copy of this document is available with the Information Security Officer (ISO), Will Ackerly, willackerly@virtru.com (202) 577-3683, and Assistant Information Security Officer(AISO), Jordan Duggan, jordan@virtru.com (202) 577-3683.

B. Security Document Library

These policies and procedures and related security practice information will be kept in our **Security Documentation Library** (SDL). The **SDL** is located in google drive and backup to the Synology NAS.

Documentation about security practices (logs of activities, etc.) will either be kept in this SDL (or Notebook) or in a short file in the SDL that will describe where the security practice documentation resides. The intended result is that anyone with access to the SDL will be able to locate any piece of documentation associated with our security program.

Outdated and superseded materials from the SDL will be kept in an archive (the Security Documentation Archive) for at least seven (7) years after the date when they are first outdated or superseded.

II. Preface and Background Material

A. Overview

It is vital to the reputation and profitability of **Virtru** that our information and our clients' information, in all forms, be protected from unauthorized use, modification, loss, copying, etc. This document sets out the default standards, which must be met to ensure that control.

Our information may exist on paper, in voice systems, on IT systems and networks, in the minds of our people, and in other forms. The information which needs protection includes, but is not limited to:

1. Client information (both for customer companies and for people as individuals)
2. Financial information, including credit cards, salaries, banking, transactions and more
3. Medical information of all types
4. **Company** patents, business plans and other intellectual property

5. **Company** business records and planning materials, including our customer list, marketing and sales efforts, product line plans and more
6. Copyrighted materials, both which our **Company** creates and those which we obtain under license from others

B. Policy

Compliance with these standards is mandatory. Any deviation from these standards must be approved beforehand by the ISO.

III. Key Concepts

A. Information Security Principles

The protection of information can be described in several key dimensions:

1. Confidentiality
2. Integrity
3. Availability
4. Provability

In this document, the standards given are the **Company** defaults. They must be applied where appropriate, but always balanced against the cost of implementing the control, and the value of the information involved.

B. Definitions

To prevent confusion, these are the definitions used throughout this document.

Policies: Corporate documents which set out **Virtru's** position regarding business processes, behavior of personnel and similar topics. Policies are a high-level statement of **Virtru's** position. Some of **Virtru's** policies, which relate to information security are:

1. Information Security Policy
2. Privacy Policy
3. Acceptable Use Policy for IT Systems Users
4. Employment Policies

Standards: Rules that must be followed to enable an effective information security program. Compliance with the Standards is mandatory, but deviation is possible if approved by the ISO.

Standards define the minimum baseline procedures, practices and configurations for systems, applications, controls, networks and related topics. Standards are designed to provide a single reference point for use during software development and adoption,

installation of systems and tools, and during the contracts process with vendors and service providers. Standards do not, however, give detailed command-line instructions on how to meet the **Virtru's** policies. Those are given in the guidelines.

Guidelines: Built for each application and platform; to be followed when implementing that particular tool. A Guideline may vary a bit from one implementation to another, as long as the Security Standards are met and justification is given and properly documented.

Combined, these three levels of documents provide a method for **Virtru** to audit itself and ensure proper controls are in place, without excess cost or risk. They also provide a means for **Virtru** to explain to regulators, examiners, external auditors or investors how our **Company** is safe, trustworthy and efficient.

IV. Using These Standards

A. Audience – Who will use this document

This document applies to **Virtru's** employees, business units and any Business Associate Subcontractor supporting **Virtru**:

1. Technology and business process providers should comply with these Standards as a matter of contractual obligation
2. Employees and Business units within Virtru should comply, unless a Risk Assessment has been done and a deviation is approved by the ISO

B. How the document is used

This Standards document is a reference point to ensure a consistent framework of protections is in place. Implementing these standards involves:

1. Review of existing controls, procedures and tools against the Standards
2. Documenting compliance or deviations
3. Gap Analysis to determine where improvements are needed
4. A Risk Assessment to validate that the improvements are justified against the costs of the controls and the value of the information involved
5. Creation of a plan to close the gaps OR signoff of a deviation
6. Documentation of the new controls, procedures and tools

No signoff or approvals are needed if a level of protection higher than what is given in this Standard is determined to be needed for a given information asset.

C. Maintaining this document

This document must be reviewed at least once a year or anytime there are significant changes in software or security. Updates must be made to keep it in accord with **Virtru's** overall business goals and risk position. The document will be reviewed by the ISO or AISO. Any updates, improvements or suggestions should be sent to the ISO.

V. Roles and Responsibilities

A. Rules for ownership of information

The information and systems provided by **Virtru** to workforce members, contractors and representatives are owned by **Virtru**, which also determines appropriate usage and access rules. All data on **Virtru's** systems and networks is owned by **Virtru**, with the exception of software that the ISO has approved to be open sourced or otherwise transferred to another entity through code escrow or code exchange and/or trade.

In this document, the words 'information owner' refer to the person who owns the responsibility for the information. The information itself remains the property of **Virtru**.

B. Information users

Every user of **Virtru's** information must protect that information and ensure that it is used for **Virtru's** business purposes only. Any incidents or questionable issues in the security of our information must be reported to the ISO or AISO.

Information users may not assign access rights, authorize destruction or copying of information, or change the protections given to information assets. Information users must comply with all laws, regulations and **Virtru's** policies and procedures.

C. Information Security Officer

Virtru's ISO and AISO will:

1. Manage awareness programs relating to security and privacy topics
2. Maintain a central record of exceptions to this Standards document
3. Manage changes to this Standards document
4. Provide leadership relating to new security risks, controls and technologies
5. Oversee and approve the sharing and reuse of Personal Identifiable Information (PII) collected by or processed by the company

See Appendices for further information and *Information Security Committee* for a current listing of members.

VI. Information Classifications and Requirements

A. Overview

Information is classified by system to ensure that the controls applied to it are sufficient and also to ensure that the controls applied do not impair **Virtru's** business, ability to compete or **Virtru's** image.

All information must have a classification for security and must have requirements set for business continuity.

B. The Security classification process

Each information asset will go through the following classification process. Information assets include, but are not limited to:

1. IT platforms such as servers and workstations
2. IT applications including database transaction processing and email
3. Data sets
4. Paper copies of information
5. Information types typically known to workforce members, such as customer information

In general, an information asset includes both the raw information itself (paper, oral or data entry), the location where it resides, the business processes which handle it and the systems and tools that handle it.

Information assets will also be reviewed during:

1. Development, acquisition or deployment of software
2. Connections of computers or networks to outside systems or networks
3. Granting of access to any outside organizations

The security classification of an information asset is assigned according to the highest of these dimensions. As an example, if an asset is regulated by law, then it needs the highest classification, even if the asset is not critical to the Company's business.

C. The classes of information for Security and Privacy

This policy applies to all workforce members, management, contractors, vendors, business partners and any other parties who have access to Company or client data.

Data Types

The security classification of an information asset is assigned according to the highest of these dimensions. As an example, if an asset is regulated by law, then it needs the highest classification, even if the asset is not critical to **Virtru's** business. **Virtru** deals with two main kinds of data:

1. **Company-owned data** that relates to such areas as corporate financials, employment records, payroll, etc.

2. **Personally Identifiable Information (PII)** that is the property of our clients or workforce members, such as Protected Health Information, social security numbers, credit card information, contact information, etc.

D. Setting requirements for business continuity

The requirements for an information asset relating to business continuity are not set by classification, but are specific to that asset. They include:

1. Required uptime for the information asset
2. Required restoration time if the data must be restored
3. Required frequency of backups
4. Requirements for storage of backups
5. Requirements for testing of the recovery process

The default requirements for business continuity are listed in the information handling rules' section. See *Handling rules for the information classifications* in this document and *Disaster Recovery Plan* for detailed information.

This section outlines the basic rules for handling information types according to the classifications. More specific standards for platforms, processes and networks appear in each topic section of this standards document.

E. Enforcement

It is the responsibility of everyone who works at **Virtru** to protect our data. Even unintentional abuse of classified data will be considered punishable in accordance with the extent and frequency of the abuse.

VII. Handling Rules for the Information Classifications

A. Overview

This section outlines the basic rules for handling information types according to the classifications. More specific standards for platforms, processes and networks appear in each topic section of this standards document.

B. Inventory of Information Assets and Electronic Asset Management Log

An inventory is maintained of all significant information assets belonging to, or used by **Virtru**. This inventory includes:

1. Serial numbers/license numbers
2. MAC Addresses
3. Model
4. Device Type
5. Manufacturer
6. The information owner
7. Username
8. Location
9. OS Version
10. The custodian of the information and repository location (database, file cabinet, etc.)
11. Purpose in our systems
12. Asset value in dollars or other suitable measurement
13. The sensitivity of the asset, due to regulations, laws, customer expectations or other requirements
14. Requirements for the asset regarding availability, uptime, etc.
15. Contact information for one or more parties who can repair, restore, replace, or recover this asset. Examples are hardware/software vendors, IT support vendors, and/or staff members

This asset list contains information that is restricted to executives and super-admins, and therefore is stored securely on the Synology NAS, which itself is backed up to AWS Glacier.

This inventory will be reviewed and updated quarterly, or as new assets and devices are added. Logs are maintained as the *Inventory of Information Assets Log* and the

Organizational Chart/Electronic Asset Management Log. A current copy of this inventory will be kept at a separate location as described in our *Disaster Recovery Plan.*

C. Rules for access to information assets

If any given security incident involves a breach of Personally Identifiable Information (PII), the ISO will follow our security policies and *Incident and Breach Policy* for handling such a breach.

If a security incident includes the potential that personal information may have been obtained by unauthorized individuals, the ISO will work with the client to notify affected persons of this event, in compliance with relevant federal and/or state law.

See also *Breaches or Impermissible Uses/Disclosures* within these Security Policies and Procedures.

VIII. Access Control Policy

A. Overview

This policy defines how **Virtru** manages access to electronic information and systems. **Virtru** provides access to electronic data relative to the workforce member's job requirement. We limit access to categories of data and systems that each person needs to do his/her job. We require that each workforce member restrict his/her access to only those specific records and functions needed to carry out his/her job. For the purposes of this policy workforce members are anyone in **Virtru** who has access to Personally Identifiable Information (PII).

B. Access levels

The ISO will qualify the workforce member to have one of these forms of access based on the job role (in order of increasing access permissiveness):

1. Low Access to Corporate Email and Salesforce Data
2. General Access to product metrics
3. Admin Access to all front end products as well as product metrics
4. Super Admin Access to all front and backend products as well as product metrics

The access will match the person's job responsibilities The ISO will keep a record of the type of access provided to each workforce member. The record will include a date and justification and will be kept in our *Employee Access Request Log* in the **Security Documentation Library.**

The granting of access to Business Associate Subcontractors will be done in the same way as it is done for workforce members.

C. Granting access

The ISO will provide accounts with the matching technical privileges and give the workforce member the account information including a one-time-use password that the user must change to a private password upon first use of the account.

1. Only the person assigned to an account will be allowed to use that account.

2. Each time a user logs in to a system, a log will be maintained by that specific program with the following information
    a) When the user accessed the system
    b) What information the user accessed while in the program
    c) Tracking will be done by using the User ID and IP Address
    d) The ISO will maintain this log for a period of 1 year

3. The ISO and AISO will each have a special account that allows them to create new accounts. The accounts will be used:
    a) In an emergency when all other accounts have been disabled or locked out;
    b) To either reset the passwords on locked accounts; or
    c) To create new accounts that provide needed access.

4. When a change in the role of a workforce member requires a change in access privileges, the ISO will reassess the needs and provide new access privileges based on the policy in Access Levels in this section.
    a) If a workforce member leaves **Virtru**, the ISO will remove that member's access as soon as the access is no longer needed.
    b) If a workforce member takes a leave of absence and is not expected to require access, the ISO will disable the workforce member's account when he/she leaves and re-enable it upon his/her return to work.
    c) For other people who work around protected electronic information but are not qualified to access it, the ISO will decide which of the following two steps to take:
        1) Train the person to understand his/her responsibilities
        2) Supervise while he/she is exposed to the data
    d) For cases in which the provision of individual accounts is not feasible {e.g. access by any one person of a large help desk staff of a vendor}, the ISO will make:
        1) A serially reusable account and provide a one-time-use password to the vendor's representative for each time that access is needed; and

2) The password will be changed by the ISO on the account after each use of the account to a value not known to the vendor.

D. Vendors, contractors and other outsiders

Any outside organization that wishes to gain access to our or our client's Private/Internal, Confidential or Protected information must:

1. Sign a Business Associate Subcontractor Agreement; AND
2. Be willing and able to show that their privacy and security controls are at least as stringent as **Virtru's** controls.

See *Business Associate Subcontractor Agreement* for details of Agreement.

A written history of incidents reported by Business Associate Subcontractors (BAS) will be maintained. If the ISO becomes aware of a pattern of activity in which the BAS is not carrying out the contractually required safeguards, then the ISO will do one of the following:

1. Attempt to remedy this failure
2. Terminate the contract, if attempt to remedy is not feasible
3. Report the situation to the U.S. Secretary of Health and Human Services, if terminating the contract is not feasible.

If any given security incident involves a breach of Personally Identifiable Information, the ISO will follow our privacy policies and incident management plan for handling such a breach.

If a security incident reported by a BAS includes the potential that personal information may have been obtained by unauthorized individuals, the ISO will work with the BAS to notify affected persons of this event in compliance with relevant federal and/or state law.

See also *Breaches or Impermissible Uses/Disclosures* within these Security Policies and Procedures.

E. Individuals

Individual persons who work for such an organization must also be bound to the outside organization's controls. Such individuals must:

1. Have Business Associates Subcontractor Agreement with their own company; OR
2. Have a contract with their company; AND
3. Have appropriate background checks and bonding in place.

F. Policy

Virtru will not knowingly accept any confidential information belonging to third parties until that information is reviewed against our protections and the appropriate agreements put into place and signed by the information owner. The agreements should include all requirements for controls over the third-party information and the processes to be followed.

IX. Rules by Data Classification

A. Public/unclassified data

This type of information does not require special marking or storage, except to ensure that it is available when needed. It does need to be kept safe from unauthorized modification.

B. Private/internal data

Access is granted on a need-to-know basis, as authorized by the manager of the user of the information. Some types of jobs are automatically granted access to data in this class.

Paper products and backup media containing this type of information must be stored and handled in a secure manner. This includes:

1. Printing this class of information only to a known printers located in secure areas on secure networks.
2. Encrypting or physically securing backup media
3. Keeping paper copies of information locked or otherwise secured

This class of information is not released to anyone outside **Virtru** without a non-disclosure agreement, a Business Associate Subcontractor Agreement, and/or without the approval of the information owner. Private/Internal use information must not be transmitted across any unsecured outside network or path without proper controls. This means encryption for files and emails or secured packaging for paper copies.

C. Confidential or protected data

Access to this type of information is on a need-to-know basis, as approved by the ISO or information owner.

This class of information is not released to anyone outside the Company without a non-disclosure agreement and without the approval of the information owner.

Confidential or Protected information must not be transmitted across any unsecured outside network or path without proper controls. This means encryption for files and emails, or secured packaging for paper copies.

Paper products and backup media containing this type of information must be stored and handled in a secure manner. This includes:

1. Printing this class of information only to a known, secure printer
2. Encrypting and physically securing backup media
3. Keeping paper copies of information locked or otherwise secured

D. Managing data sources

The key to managing **Virtru's** business' media and documents is to first consider the source of the information, then the media type. **Virtru's** media and documents containing Protected Information (PHI, CJIS, or other) require protection from inception through disposition. Regardless of the owner relationship, the Company will be cognizant of the following Media Types:

1. **Hard Copy:** paper printouts, printer and facsimile ribbons, drums, etc.
2. **Electronic:** the bits and bytes contained on hard drives, flash drives, phones and tablets.

E. Retention of media

Retention: The length of time documentation and/or information is retained according to the level of confidentiality and to the business continuity requirements. System/ information owners should consult with the ISO to ensure compliance with the record retention regulations.

Virtru's hard copy record retention policy is as follows:
We will digitize and encrypt these records for secure storage on the Synology NAS, which will be backed up to AWS Glacier.

Virtru's electronic record retention policy is as follows:

1. Agent of Record letters and Letters of Authorization requests are held for no less than ninety (90) days
2. New Business Group documents are held for no less than ninety (90) days
3. General documents are held for no less than ninety (90) days
4. Banking statements are held for seven (7) years
5. Workforce member records are held for seven (7) years

F. Sanitization of Media

When media (hard copy and electronic) becomes obsolete, is no longer required or no longer usable, it is critical that proper sanitization is accomplished.

Sanitization Types

Disposal: the act of discarding media. This is often done via recycling paper containing "non-confidential" material.

*Reinitializing***:** Re-formatting drives so information cannot be retrieved by recovery utilities or any other forms including keystroke recovery attempts. This is achieved by overwriting the disk with zeros for no less than one (1) time.

Purging: exposing the magnetic media to a strong magnetic field in order to disrupt the recorded magnetic domains, this is also known as degaussing.

Destroying: destruction of media so it cannot be reused as its original purpose.

Virtru's electronic disposal policy is as follows:

1. Hard-drives are purged, reinitialize or destroyed
2. CD or DVD disks are destroyed
3. Flash drives are re-initialized or destroyed
4. Backup tapes are purged, reinitialized or destroyed

Any systems that are leased must be securely sanitized of all Company data prior to being returned to the leasing company. Any additional media (e.g. hard drives, USB drives etc.) will be reformatted then written with zeros for no less than one (1) time to ensure that the data contained on the media has been destroyed.

Virtru shall maintain appropriate records of sanitization. This entails validating how, where and when media is sanitized. See *Media Sanitization*.

G. Information sharing and privacy

In most cases the sharing and reuse of Personally Identifiable Information is governed by law, regulation and customer expectation. To ensure **Virtru** meets those requirements, no Personally Identifiable Information will be shared with outside companies, vendors or personnel without written approval from the ISO.

Personally Identifiable Information includes:

1. Names
2. Addresses

3. Phone Numbers
4. Email Address
5. Dates of birth
6. Social Security Numbers
7. Ages
8. Gender
9. Personal Financial Information
10. Personal Medical Information
11. Criminal History Information
12. Personal Employment Information
13. Personal Buying Histories
14. IP Addresses

Aggregated and statistical data developed from this personal information is not personally identifiable and, thus, does not need the approval of the ISO for sharing and re-use.

Virtru will comply with all applicable laws and regulations regarding the privacy of personal information, including such laws as:

1. Health Insurance and Portability and Accountability Act (HIPAA)
2. Health Information Technology for Economic and Clinical Health (HITECH)
3. Family Educational Rights and Privacy Act (FERPA)
4. Criminal Justice Information Systems (CJIS)
5. Federal Information Security Management Act (FISMA)

Virtru's workforce members, contractors, vendors and suppliers may come into possession of Personally Identifiable Information as a part of their relationship with **Virtru**. Each person must comply with all laws, regulations and policies and ensure such information is properly protected.

H. Release of company information

Virtru's information may only be released with the approval of the ISO or the information owner. This includes the posting of **Virtru's** information of any type onto bulletin board systems, public networks, social media or other open sharing tools. Any information released must contain proper copyright, trademark, disclaimer and patent notices as appropriate.

X. Risk Analysis and Management

Risks to **Virtru's** assets and environment should be addressed proactively rather than reactively. The controls applied to the risks must also be periodically reviewed to ensure the controls are working properly and efficiently.

Security Policies and Procedures

A. Risk reviews

The job of reviewing risks and setting requirements for controls is the ISO's. Risks should be reviewed or assessed when:

1. Developing or deploying new applications, systems, networks or software
2. When significant changes are made to that same list
3. When business processes change
4. When **Virtru** enters a new geographical area of business
5. When **Virtru** enters a new line of business
6. When incidents occur or new risks emerge
7. When new regulations or standards are set

B. Risk management

Risks may be accepted, avoided or mitigated.

Accepting the risk is appropriate when the cost of avoiding or mitigating the risk is greater than the expected loss. The losses considered should include the less tangible items such as **Virtru's** reputation, loss of market share and loss of public trust in **Virtru**. Acceptance of a risk requires complete documentation of the risk analysis and approval by the information owner.

Avoiding the risk is appropriate when the cost of insurance is less than the cost of incremental controls. However, basic controls must always be in place.

Mitigating the risk is appropriate in most situations. These situations are those where compensating controls are possible, cost-effective and manageable. These mitigating controls may include:

1. Increasing a protection to a level higher than what is listed in this document
2. Improving oversight or monitoring of the risk to limit impact and minimize response time
3. Limiting transactions or other events to minimize the possible impact of the risk event

The method chosen for managing the risk (acceptance, avoidance, mitigation) must match the business value and costs involved and must be approved by the information owner.

For further detail, see the *Risk Management Policy* and the *Disaster Recovery Plan*.

XI. IDs and Accounts

A. User IDs

Each user shall be assigned a unique identification, called the User ID. This User ID is not considered to be sensitive, unless the User ID relates to an authentication process, systems or application management role.

On sensitive systems or applications the User ID should not be easily identifiable, thus making unauthorized usage more difficult.

Sharing of User IDs is not permitted, unless justified by business requirements and approved by the ISO. For any such shared User ID, the password will be shared using LastPass, and the password will not be shared with the additional user. If this password is shared, it must be changed immediately after the User ID is used to keep the shared User ID from becoming generally available and a risk to **Virtru**.

Guest and anonymous User IDs are not allowed, unless the system involved is not connected to any of **Virtru's** networks and the system does not have any **Company** information on it. Typically, these guest or anonymous User IDs are only used during development or during marketing/sales demonstrations.

B. ID and account creation

User IDs are only to be created following a process approved by the information owner. This User ID creation process should include:

1. Expiration dates for the User ID
2. Renewal process for the User ID
3. Documentation of the role, business process and job function relating to the User ID

User IDs are to be created for the purpose needed and not in a manner to compromise segregation of duties.

A record of all User IDs and their owners will be maintained by the ISO. See the **Change Control Logs for Security** for further detail.

C. Account management

A periodic check will be made of all User IDs and any redundant, dormant or unused IDs will be removed. The ISO must review the privileges set up for User IDs no less than once every year.

D. Application Specific IDs

Application Specific IDs and logins are used in support of automated applications, transactions, processes or batch jobs. These have non-expiring passwords.

1. Application Specific IDs must not be used by individuals.
2. Application Specific IDs must be created only with the approval of the ISO, must be documented and have strictly limited access rights.
3. Application Specific IDs must not have ad hoc or interactive capabilities on the applications, systems, transactions or data involved.

XII. Authentication and Passwords

A. Overview

All systems, applications, databases or other information repositories shall require users to authenticate themselves prior to granting access. Authentication may be via an approved password scheme or via an access control device. All systems that support 2-factor authentication must have them enabled.

The authentication method used must suit the value of the information asset, matching the cost of the authentication method against the level of protection required. In general, administrative and other high-value User or Service IDs will use the most secure methods of authentication.

B. Password format

Must be at least twenty (20) characters in length and must contain characters from all of the following four (4) categories:

1. English uppercase characters (A through Z)
2. English lowercase characters (a through z)
3. Base 10 digits (0 through 9)
4. Non-alphabetic characters (for example, ! , @, #, $)

C. Rules

Users are forced to create a new password every 3 months. Users must not write down on paper or store any passwords; they must also never share their passwords with other users. Software is provided to securely store user passwords, with encryption.

A maximum 5 attempts will be permitted prior to disabling the account. New passwords must be different from the previous three (3) passwords. Passwords must be changed immediately upon first use of a new ID. Passwords must never be stored or transmitted in clear text. Systems must not echo back the password as it is entered.

Passwords must not be retained by any system or application longer than is needed to grant access. Initial passwords must be transmitted separately from the ID.

XIII. Authorization and Rights Management

A. General Access Roles

Access roles are defined as:

1. *Super Admin Access:* Access to all front and backend products as well as product metrics
2. *Admin Access:* Access to all front end products as well as product metrics
3. *General Access:* Access to product metrics
4. *Low Access:* Access to corporate email, sales, and marketing data only

Amazon Web Services (AWS)
Users who have access to AWS have Super Admin Access. User sessions will expire after one (1) hour of inactivity

Cloudant
Users who have access to Cloudant have Super Admin Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

Github
Users who have access to Github have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

ELK Stack
Users who have access to ELK Stack have Admin Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

Mixpanel
Users who have access to Mixpanel have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

Kissmetrics
Users who have access to Kissmetrics have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

Salesforce
Users who have access to Salesforce have General Access. User sessions automatically time out after twenty (20) minutes.

Segment.io
Users who have access to Segment.io have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

B. Access Rules

User IDs and accounts must be authorized to access only those elements needed for the user's role, including:

1. Limiting access to datasets and types
2. Limiting access to operating systems
3. Limiting times of access

Access to operating systems, ad hoc transaction capabilities, software development tools, and other system devices must be controlled and limited to only those User IDs which require that access.

Segregation of duties shall be established for all information asset controls to minimize the possibility that one person is responsible for an entire asset.

A user (and hence User ID) that changes role or job function must have access rights updated to match the new job role or function. Any changes will be documented in the *Responsibility Change Log*.

C. Temporary Privileged Users and Accounts

Temporary privileged users are defined as those who:

1. Have any control over security tools on an application, system or network
2. Can update operating systems or similar tools
3. Can directly modify data within a database or application
4. Have any special capabilities built in by the vendor of the application software, operating system or platform

Access at a temporary privileged user level shall be granted only on a need-to-know, need-to-perform basis, and then only to the assets required. Temporary privileged user access shall only be granted to those supporting **Virtru's** applications, networks and systems.

D. Assignment and Revocation Procedure

The ISO shall electronically complete:

1. An Employee *Access Log* for all new hires and/or workforce member change of status.
2. An *Exit Checklist* for all terminations.

E. Logout After Inactivity

The ISO shall verify that all users have activated a password-protected screensaver that automatically prevents unauthorized users from viewing or accessing electronic protected information from any system or device that can be used to access electronic information systems. After a maximum of 10 minutes of inactivity the system should log off and lock the device, making information inaccessible. Once logged off a user must re-enter a password to gain access to electronic protected information.

XIV. Breaches or Impermissible Uses/Disclosures

A. Definitions

Incident is defined as any breach of security, privacy, continuity, legal or regulatory controls over information assets of any type. Examples of such incidents include but are not limited to:

1. Penetrations of systems, applications, networks or databases
2. Denial of service attacks
3. Misuse or mishandling of assets
4. Virus or other malware contamination
5. Transaction errors
6. Breaches of confidentiality agreements or contracts
7. Legal or regulatory violations

Breach is defined as an impermissible access, use or disclosure, which compromises the privacy or security of PHI.

XV. Breach Response

A. Overview

Virtru will maintain an effective method so that all information users, custodians and owners can readily report incidents.

Incidents will be reported to the person's immediate manager or the ISO. Once the ISO has been notified, said Officer will then follow the directions in the *Incident and Breach Policy*.

The ISO will investigate incidents and will log or report significant losses or threats immediately. The appropriate authorities will be contacted by the ISO depending on the severity of incident.

Incidents involving misuse by workforce members will be investigated by the ISO.

Depending on the severity of the incident, the Emergency Contact list may provide additional contacts. See the *Emergency Contact List* located in the *Disaster Recovery Plan*.

Confidential Reporting:

Confidential reporting may be done either by:

1. Calling (may leave voice message) the ISO or AISO
2. Sending an email to the ISO or AISO, or;
3. Google Form for anonymous reporting

XVI. Personnel Security

A. Screening for newly hired personnel, third parties, vendors

Proper verification checks must be made prior to granting any new workforce member, contractor, vendor, agent or affiliate access to Private, Internal, Confidential or Protected information. These verification checks will meet the requirements set forth by the **Company** and may include:

1. Professional qualifications
2. Identity checks
3. Criminal checks
4. Confirmation of academic and professional experience

The ISO is responsible for ensuring that background checks are made biannually on parties who are not newly hired workforce members. A third party will conduct background checks.

B. Training and Awareness

Virtru will provide security awareness training to each new member of our workforce with access to electronic **Company**-owned or private data (Refer to Data Types information Classifications) whose activities in the business we directly control. The training will be provided prior to that person assuming his/her duties. The training is designed to inform the person of his/her responsibilities under **Virtru's** security policies. At a minimum, this training will include the workforce member's role in:

1. Managing malicious software (e.g. viruses)
2. Using workstation(s) securely
3. Managing passwords and
4. Monitoring and reporting suspicious use of account(s)

Virtru's employees will also be trained annually on **Virtru's** Policies and Procedures. A record of successful completion of this training and annual retraining will be kept online by **Total HIPAA Compliance**.

Within 30 days of starting, individuals who are employed as developers will receive training on the security measures and mechanisms used to protect the company's systems and service. All new developers will be required to take and pass online training modules covering secure coding when using Node.js. Developers who will be managing or developing operational aspects of the company's systems will also be required take the Security Operations on AWS training course from Amazon.

A record of training will be kept of training that lists the employee, type of training, date of completion, the employee's signature, and an admins signature asserting successful completion of the training.

C. Terms of employment

Compliance with **Virtru's** policies regarding security and privacy are a condition of employment.

D. Acknowledgement

All users shall be required to sign an acknowledgement after being trained on **Virtru's** security and privacy policies.

E. Exit process for users

Upon exiting employment or any relationship with **Virtru**, all users who have been granted access to any information asset shall:

1. Relinquish all access to control devices
2. Report all User IDs in use by the person
3. Relinquish all information stored, whether on paper or on backup media
4. Relinquish all information processing devices, including workstations, all **Virtru**-owned mobile devices and others

All systems access will be revoked.

The ISO will verify termination is completed, and document this procedure has been followed. See *Exit Checklist*.

F. Security Sanction Policy

Virtru's security policies call for the workforce that has access to electronic Protected Employee or Client Data and others to perform certain duties and to refrain from certain actions. Failure to do so will be sanctioned according to the policy below.

If the infraction involves the unauthorized use or disclosure of electronic Protected Employee or Client Data, the sanctions below apply to the designated workforce members including managers, supervisors, and staff who have access to Protected Employee or Client Data.

We define a serious infraction as one that results in known significant damage or that threatens imminent significant damage. Other infractions are simple infractions. The process below is intended as guidance for our business management in sanctioning Security Policies and Procedure infractions. We reserve the right to implement sanctions differently if, in our judgment, the situation warrants it.

First Security Infraction

If the infraction is:

1. A simple infraction, and
2. The first infraction in the last 3 years

The sanction will be retraining the workforce member on the appropriate policy/procedure and placement of a written letter of reprimand in the employee file.

The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

Second Security Infraction or First Serious Infraction
If the infraction is:

1. A serious infraction, or
2. The second infraction of either type within 3 years

The sanction will include a written letter of reprimand that is given to the person at fault, placement of a copy of the letter in the employee file, and one week's suspension without pay. The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

Third Security Infraction or Second Serious Infraction
If the infraction is:

1. A second serious infraction within 3 years, or
2. A third infraction of any type within 3 years

The sanction will be dismissal from the workforce.

XVII. Legal and Regulatory Issues

A. Legal processes

Responses to subpoenas, deposition requests and other legal issues will be referred to and handled by the CEO. The ISO will not respond to such legal processes without company legal counsel.

B. Copyrights and licenses

Virtru may have agreements in place governing the use and handling of software, information and other tools that are owned by other entities. All users and information owners will comply with those agreements.

Users are responsible for complying with copyrights regarding any material obtained via the Internet. This includes files, graphics, software, audio and video materials.

Users may not agree to a new copyright license, unless given permission by the ISO.

Licensed software must be used in accordance with the license agreement and only the number of copies licensed must be created or used.

C. Export controls

Information may not be exported across country boundaries without prior written approval of the **Company**'s ISO.

XVIII. Malware and Antivirus

A. Definitions

Anti-Malware: malicious software that may reside on a computer, steal information or cause destruction. This can include a virus, trojan horse, keylogger, hijacker or dialer.

Sandbox: A highly controlled area where programs and software can be tested before being allowed access to the rest of the system.

B. Operating system anti-malware requirements

Macintosh, Linux and iPhones:
Virtru has determined that software for anti-malware scanning on Macintosh, Linux and iPhones is not necessary due to the low probability of encountering malware, the demand on computer processing power, and loss of productivity by the user. This policy will be reviewed annually or as needed to determine if this is still valid.

PC Operating Systems:
Data entering **Virtru's** Window-based systems must be subject to an up-to-date anti-malware scanning tool that is scheduled to run at regular intervals. In addition, all emails, attachments, disks, backup media, USB memory devices and other data carrying tools must be scanned before they are downloaded or allowed access to the system. All incoming data must be sandboxed by the anti-malware program before it is allowed access to the system. The anti-malware pattern files must be regularly updated.

Android and Windows Phone Operating Systems:
All such devices must have anti-malware tools in place prior to being connected to **Virtru's** networks. These systems must be subject to an up-to-date anti-malware scanning tool that is scheduled to run at regular intervals. In addition, all emails, attachments, and SD cards must be scanned before they are downloaded or allowed access to the system.

C. Affiliates

Virtru and all of its affiliates, contractors, consultants, vendors, representatives or other service providers must make certain that adequate controls are in place to guarantee that data coming from their systems and networks is free from malware.

D. Infected devices

The ISO will use approved tools to monitor and remove malicious software from **Virtru's** assets. Virus-infected computers, tablets or phones must be removed from the network immediately until they are verified as virus-free.

E. Employees' Requirements

1. Workforce members will not load software on our **Company's** information equipment without permission from the ISO.
2. Workforce members will not open electronic files from unfamiliar sources.
3. Will exercise best practices when using the **Virtru** network. The employee will not:
    a. Circumvent user authentication on any device
    b. Sniff network traffic
    c. Access data, servers, or accounts they are not authorized to access
    d. Cause a disruption of servers
    e. Violate copyright law by transmitting copyrighted pictures, music, video and/or software
    f. Export or import software, technical information, encryption software, or technology in violation of international or regional export control laws
    g. Use the Internet or network in a manner that violates **Virtru's** Security Policies, or local laws
    h. Intentionally introducing malicious code; including, but not limited to, viruses, worms, Trojan horses, e-mail bombs, spyware, adware, and keyloggers

The workforce will be trained to know and carry out these malware protections. The ISO will generally provide permissions as required above only for actions that are intended for our **Company's** business and only under conditions that limit the potential for the introduction of malware.

F. Enforcement

Any activities with the intention to create and/or distribute malicious programs into **Virtru's** networks (e.g., viruses, worms, Trojan Horses, e-mail bombs, etc.) are prohibited, and user will be subject to **Virtru's** Sanction Policy, and will be reported to the proper state and federal authorities.

XIX. Change Control Logs

A. Preface

The ISO is required to maintain logs of systems that document any changes and access users may have to sensitive systems. The following are the retention policies for these logs.

B. Policy

Audit logs will be retained for at least one (1) year in raw format, preferably electronic, to preserve evidence. Audit logs must be configured to prevent overflow, erasure or tampering. Audit logs will be configured to record information such that:

1. Sufficient information is available for proper investigation of use, misuse, incidents and performance
2. User ID, event type, date and time are maintained
3. Time is according to a known time stamp so that events across systems can be coordinated
4. End-to-end accountability is always maintained

Events to be recorded include, but are not limited to:

1. Login and activity by any other privileged accounts
2. Changes to operating systems, application code or other tools
3. Backup and restore events
4. Changes affecting any cryptographic keys or devices
5. Stop or start of critical processes
6. Transaction failure, retry or duplication

All systems and tools involved in the protection process are required to always have change logs enabled and properly configured. This includes:

1. Firewalls
2. Email servers
3. Anti-malware tools especially the administration tools
4. Security administration tools such as password resets and account modifications
5. Monitoring tools
6. Routers and other network devices
7. Github
8. Amazon Web Servers (AWS)

9. IBM Cloudant
10. SalesForce
11. Elk Stack
12. Mixpanel
13. KissMetrics
14. Segment.io
15. Sendgrid
16. Customer.io

Logs will be reviewed and analyzed by delegates of the ISO.

Reports of problems and incidents will follow the incident reporting method, listed in the *Incident and Breach Policy*.

XX. Encryption

A. Preface

Encryption is the process of encoding messages of information is such a way that only authorized parties can read it.

B. Application Encryption Policy

Virtru encrypts all client data using NIST-approved cryptographic modules. **Virtru** uses AES 256 encryption for its application. **Virtru's** key length requirements shall be reviewed annually as part of the yearly security review and upgraded as technology allows.

The use of proprietary encryption algorithms is not allowed for any purpose, unless reviewed by qualified experts outside of the vendor in question and approved by the ISO.

C. Key Rotation Policy

Virtru requires the following key rotation policy to protect all external systems. The following is the list of policies for the following keys:

1. **Secure Socket Layer (SSL)Keys**
   Virtru uses SSL keys to enable Transport Layer Security (TLS) traffic between clients and **Virtru's** servers.

   Rotation Policy

Rotation of SSL Keys is done upon SSL Key expiration. They are set to expire at 1 (one) year and rotated at that time. If there is an incident or the security keys are thought to be compromised, the keys will be rotated immediately.

2. **Secure Shell (SSH) Keys**
   The SSH keys provide a layer of authentication to get into the production servers. SSH Keys are used as the authentication mechanism to remotely login to a server. They are also used as the first factor of authentication to assume root access on the production servers. Each developer has his/her own SSH key and is responsible for keeping this key secure.

   Rotation Policy
   All SSH keys are rotated at a minimum of every three (3) months. If there is an incident or the SSH keys are thought to be compromised, keys will be rotated immediately.

3. **Amazon Web Services (AWS) Access Keys**
   Unique AWS Access Keys are given to each developer with a unique AWS Login. This allows the developer to make Application Protocol Interface (API) calls to AWS. Currently, 1-2 AWS Access keys exist per developer. Where are these stored? How do you know how many keys each developer has?

   Rotation Policy
   These keys are rotated at a minimum of every 90 days. If there is an incident or the AWS keys are thought to be compromised, keys will be rotated immediately

4. **Application Keys**
   Virtru uses these keys to encrypt sensitive key data stored in the CouchDB database managed by IBM. There is only one copy of this key.

   Rotation Policy
   No rotation requirement.

   Backup Policy
   Backup of the key is kept with **Virtru's** Super Administrators.

The export of encryption technologies is restricted by the U.S. government. Residents of countries other than the United States should make themselves aware of the encryption technology laws of the country in which they reside.

D. Device Encryption Policy

Virtru requires devices have encryption enabled for any files, folders, drives, databases, or other stored data that may have sensitive information including protected personally identifiable information.

The implementation of any encryption scheme is performed by the user and the deployment of the encryption tool, including all keys, must meet industry best practices and be properly documented. Currently the minimum standard is 128-Bit encryption. Encryption keys will be managed by the user and a log will be maintained by the ISO.

Mac OS Devices:
Mac OS devices that store Protected Information (PHI, CJIS, etc), are required to use full disk encryption using FileVault 2. Users must provide a copy of their key to the ISO; both will maintain the key in a secure location.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

Windows OS Devices:
Windows OS devices that store Protected Information (PHI, CJIS, etc) are required to use full disk encryption with the program Bitlocker. The encryption key will be maintained in a secure location by both the user and the ISO.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

Linux OS Devices
Linux OS devices that store Protected Information (PHI, CJIS, etc) are required to use full disk encryption. This will be encrypted at a minimum of 128 bit encryption. The encryption key will be maintained in a secure location by both the user and the ISO.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

Android Devices
All Android devices that store Protected Information (PHI, CJIS, etc) will have encryption turned on and will be password protected at all times. The encryption key will be maintained in a secure location by both the user and the ISO.

Windows Phone
All Windows Phones that store Protected Information (PHI, CJIS, etc) will have encryption turned on and will be password protected at all times. The encryption key will be maintained in a secure location by both the user and the ISO.

iPhone
iPhones are natively encrypted. These devices are required to be password protected and/or biometrically protected at all times.

E. Wi-Fi network encryption

All wireless access points owned by **Virtru** are required to be protected using Wi-Fi Protected Access 2 with Advanced Encryption Standard (WPA2-AES). This password will be changed quarterly and will not be shared with users that are not employees or authorized Business Associates. Any outside users are required to use guest access points.

Employees that access **Virtru** resources from home are required to use Wi-Fi Protected Access 2 with Advanced Encryption Standard (WPA2-AES) to protect their devices. This password should be changed quarterly.

F. Email encryption

Virtru requires the use of its secure, encrypted email service to communicate with our employees about their Personally Identifiable Information, and to communicate any sensitive data. All email communication that includes personally identifiable data, and potentially sensitive data will be encrypted.

Virtru uses only its secure, encrypted email service to communicate with clients about their Personally Identifiable Information.

Virtru forbids the use of chat, texting or instant messaging programs by devices that store PHI.

G. Enforcement

Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment.
See *Sanction Policy*.

XXI. Assessments and Testing

A. Overview

The Security Rule of HIPAA mandates that covered entities implement appropriate information security policies and procedures to protect PI from "reasonably anticipated threats and hazards."

B. Penetration testing

Penetration testing of all servers containing PII will be conducted monthly by internal personnel, and by an external 3rd party at least annually or whenever there is a major system update. Testing shall validate the security of:

1. External connections
2. Operating systems
3. Applications
4. Databases
5. Network controls
6. Security procedures, including monitoring and incident response

C. Vulnerability assessment testing

Vulnerability assessments will be conducted periodically on all network-connected systems devices. Any vulnerability found must be corrected in a timely manner. Vulnerability assessments also shall be conducted when:

1. A new system, application or network is installed inside the Company
2. Changes are made to firewalls, VPNs or other security control tools
3. Changes are made to a web server's operating system
4. Changes are made to email servers
5. Configuration changes are made to databases
6. Configuration changes are made to critical applications
7. Changes are made to encryption scheme(s)

NOTE: *Vulnerability and penetration tests will not be conducted except with the prior approval of the ISO. No user will have vulnerability or penetration testing tools loaded onto any* ***Company*** *system without prior permission from the ISO.*

D. Wireless access testing

Testing of wireless access points (war-driving) shall occur regularly, to cover all wireless access points under the control of **Virtru**.

E. Password testing

Password cracking software shall be run periodically to validate the enforcement of password rules.

F. 3rd Party Security Management

A comprehensive list of 3rd parties with which the company does business with shall be maintained. Any 3rd party who handles or holds sensitive data or who provides a service which is critical to operations shall be required to assert that their own security practices and procedures meet or exceed that of the company's. Each 3rd party shall be assessed for conformance annually.

XXII. Use of Email, Internet, Messaging, Public Sites, Blogs, Social Media

A. Policy

Confidential, Private or Protected information and Internal Use information must not be transmitted across any unsecured outside network or path without proper controls. **Virtru** requires encryption for files and emails, or secured packaging for paper copies.

Users are responsible for ensuring that their use of these tools complies with all of **Virtru's** policies, and with applicable laws and regulations. This includes all employment policies such as sexual harassment, stalking, ethics and appropriate use.

These tools may not be used to access, send or receive, store or display:

1. Sexually explicit material
2. Confidential, Private or Protected Information or Internal Use material, except as meets the *Handling Rules* section
3. Viruses
4. Threats
5. Inappropriate or unlawful language, including:
    a. Offensive language
    b. Language inappropriate for the **Company** environment
6. Discriminatory or harassing language
7. Tools usable for hacking, password cracking, vulnerability scanning or penetration testing

These tools are the property of **Virtru** and are to be used only for **Virtru's** business. Access may be unavailable at any time, at the **Company's** discretion. Users must not assume that access to these tools will be available for incidental personal use.

All content transmitted over these tools is the property of **Virtru**. Content, including emails, may be inspected by **Virtru**. Such inspections will occur with the approval of the ISO or of the **Company** legal department. **Virtru** may monitor, filter or block content on these tools.

Users of blogs, social media sites such as Facebook, and other such tools must follow the guidelines outlined in **Virtru's** Social Media Policy. See *Social Media Policy*.

Users of blogs, social media sites such as Facebook, and other such tools must not represent their comments as coming from, or being representative of, the business or opinions of **Virtru**.

XXIII. Hardware

A. Definitions

Workstations: PCs, desktop computers, tablets and mobile computing devices that are located at **Virtru's** home office, or at remote locations. These devices are easily attacked and therefore must have access controls and anti-malware as specified in those sections of this document.

Servers: Devices that may or may not be housed at **Virtru** locations. Regardless of their location, these must secured in a manner that prevents them from being physically accessed without the appropriate level of security clearance.

B. Policy

A current copy of the *Organizational Chart/Electronic Asset Management Log* (**Risk Assessment**) will be kept at an off site location so it can be accessed quickly in the case of theft, fire, flood or other events that may make inventory information useful.

The ISO will keep a log of events noting when a physical security mechanism is repaired, replaced, installed, removed, modified, or maintained. This *Maintenance Log* will contain the: who, what, when, where, and why of the change and be kept in the **Security Documentation Library**.

Users of these devices are required to ensure that all appropriate protections are in place, including:

1. Physical security to prevent theft or misuse
2. Access controls suitable for the class of information on the device
3. Anti-malware
4. Keeping the devices locked to a desk or other secure location when outside

Virtru

5. Keeping control over backup media, as to minimize the possibility of theft or loss
6. Ensuring that the transport of these devices is secure and is safe from damage - for example, these devices should only travel in padded containers and should be locked and shut down during transit
7. Keeping all operating systems and tools up-to-date, with all updates and patches. Specific requirements for these topics are in the appropriate sections of this document

Virtru's devices must not be used by people who are not authorized, including family members and friends.

Software loaded onto such devices must follow the rules in the *Software* section of this document. In general, only approved software may be loaded, and shareware, games and other such software are not permitted.

International travel with these devices may require special approvals or configurations, especially in regards to encryption and licensed software. Before traveling internationally, users must contact the ISO to determine if such special considerations exist.

Connecting these devices to **Virtru's** networks must follow the rules in the *Networks* section of this document. In general, all such devices must be approved prior to connecting.

Remote access from these devices to **Virtru's** networks and devices must meet the controls specified in the *Networks* section of this document. In general, such access must be approved, and must have adequate controls over the security of information in transit.

Devices of these types that are owned by contractors, vendors or other third parties must meet all **Virtru** requirements prior to being connected.

C. Asset management

The ISO is responsible for maintaining an inventory of devices; as such he shall employ software to aid in the management of hardware and software asset. See *Handling Rules for the information classifications*

D. Enforcement

Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment. See *Sanction Policy*.

XXIV. Networks

A. Overview

Virtru's networks and devices shall designed, deployed and operated in a manner so as to provide proper levels of protection for the data being accessed and transported. Significant changes in network designs must be piloted before deployment.

Mechanisms must be in place to alert the ISO of possible attacks and breaches, to include:

1. Denial of service attacks
2. Improper access
3. Virus infections
4. Unauthorized software installations, email, FTP or other improper usage

Analysis must be conducted at least annually to validate the failure mode and recovery for all devices, network circuits and protocols. See *Change Logs* for details.

Responsibilities must be defined for:

1. Administration of network and communications connections
2. Operations of all devices
3. Monitoring
4. Timely review of audit logs and response to alerts or alarms
5. Review of unusual patterns of usage or activity

To minimize risks, any network connections or network segments should be disconnected when not in use.

B. Monitoring

Virtru uses AlienVault's Unified Security Management System to monitor all traffic on their network. Notifications are set to alert the IT staff of any unusual traffic and vulnerabilities, as well as log any security events that may occur.

C. Access control and physical security

Sites where **Virtru's** network equipment or communications lines exist are considered to be high-value and are subject to the access control and physical security rules

outlined in the *Physical Security* section of this document. In general, these rules will require:

1. Access limited to authorized personnel only
2. Physical security, including RFID or passcode controlled locks, are in place

D. Modifications, updates

Changes to the network architecture which affect the protections must be approved by the ISO. Examples of such changes include firewalls, wireless configurations, ports and proxies.

E. Documentation

The ISO shall maintain an accurate set of documentation of the networks and their components. This documentation is considered to be highly valuable and will be classified "Protected".

F. Network design

The goal for network design is to facilitate **Virtru's** business, while still providing protection for **Company** assets.

G. Segmentation

Virtru's networks will be segmented, in order to limit access to Confidential and Protected Information, without impacting the **Company's** business. There will be a guest network that will have no access to **Virtru's** Network Attached Storage, and other vital network resources.

H. Firewalls

Virtru's network and workstations in the DC office is protected using the Fortinet FortiGate 100D Firewall appliance. This device is configured to monitor and log all unusual traffic and warn **Virtru** of any network irregularities or attacks.

Definitions

Firewall: A part of the computer operating system or network that is designed to block unauthorized access while permitting outward communication. There are two different types of firewalls.

1. *Software Firewall:* Part of the operating system or can be a software add-on.
2. *Hardware Firewall:* Built into a router or a stand alone device. All computing devices will access a network through this point.

Firewall Settings

1. *Whitelisting:* Blocks all incoming traffic, and only allows traffic from good, or known IP addresses. The user will be required to authorize connections to their device.

2. *Blacklisting:* Authorizes all traffic as a default, and the user is responsible for denying unauthorized connections to their computing device from unrecognized or unknown IP addresses.

Software Firewall Policy

Virtru requires every device to have their internal software firewall activated at all times, and set to only allow whitelisted traffic. This will require the user to authorize any connections to their device. Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment.

I. Internet

Connections to the Internet must be:

1. Approved by the ISO
2. Periodically reviewed and tested for vulnerabilities
3. Protected by firewalls, intrusion detection systems and anti-malware tools

Some Internet tools, such as FTP, Internet Relay Chat, Telnet and Remote Procedure Call are restricted in use and must be approved for use by the ISO.

J. VPN-remote access

Virtual private networks (VPNs) will be used for traffic flowing over public networks to ensure the proper level of protection of **Virtru's** data.

K. Wireless

All wireless connections must have WPA2 with Advanced Encryption Standard (AES) turned on. This applies to all networks for **Virtru's** home office, and all telecommuting employees.

L. Telework Policy

If a staff member is allowed to telework/telecommute, they must comply with the **Virtru's** various employment policies, remote security measures and use the provided web portal via HTTPs, VPN and SSL. They must also make sure their home WI-FI is encrypted properly.

If they are accessing sites while on an unsecure router, they must make sure the sites they visit have a valid SSL certificate before proceeding.

M. Patching of systems and applications

Microsoft Windows OS Patches

To manage the patching of Microsoft Windows operating systems (OS), Windows Software Update Service (WSUS) is used. The WSUS server automatically checks for patches once a day not during business hours. Then downloaded patches are manually released from the WSUS server to be downloaded and applied on the workstations. The ISO will evaluate all patches before they are applied; workstations will not automatically download OS patches from the WSUS server and updates will not be automatically installed. Installation of OS patches is done within a planned downtime.

Apple OS Patches
All Macintosh Operating System (OS) patching will be done through the App Store, and is the responsibility of the individual user to install. These should be applied within one (1) week of release from Apple.

Linux OS Patches
These patches should be applied and tested in an app staging environment before they are applied systemwide. The User is required to document where they received the patch, who downloaded it, what version of patching they are using, and when the patch was applied to the system. This documentation should be submitted to the ISO upon completion of the patching.

iPhone iOS Patching
All iPhone (OS) patching will be done through the App Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Apple.

Android Phone Patching
All Android patching will be done through the Google Play Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Google.

Windows Phone Patching
All Windows Phone patching will be done through the Windows Phone Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Windows.

Patching of applications is done on a weekly basis, unless a zero-day exploit is found in an application that is used within the domain. If such an exploit is found and a patch is released for said exploit, an emergency planned downtime will be called for at the conclusion of the business day to patch the application in question.

N. Network hardening

Upon adding new devices to the network, installation procedures and set-up must be followed. Hardening will be done on network devices as well as systems (e.g. laptops, workstations and servers) and handled by the ISO or AISO.

Hardening will be broken down into the following categories which include, but are not limited to:

1. Preparation and installation
2. Updates to: software, firmware and hardware
3. Setting of appropriate account and auditing rules
4. Setting of appropriate security rules
5. Turning on the internal firewall
6. Turning on full disk encryption (If device will have access to PHI)
7. Other internal operations such as:
    a. Installation of appropriate software for workstation, server or laptop

The ISO will notify all affected staff when making changes to the hardening policy and will update the Security Policies and Procedures at that time. Written approval for hardening procedures above and beyond what is currently mandated is not necessary.

XXV. Physical and Environmental Protections

A. Definitions

Secure sites: These are locations that require the highest level of protection. These sites include:

1. Computing centers
2. Network connection points
3. Media storage locations
4. Locations containing platforms which carry high-value or critical information or transactions

Physical Security: These may occur within **Virtru** where the overall building is operated to a lower level of security, but a certain area is more controlled due to documents, assets or processes which occur in that area.

B. Secure Sites Policy

Secure sites shall be established for all computing centers and other locations where there is a concentration of high-value or sensitive information, systems or networks.

Sites will be designed and operated according to best practices and in consideration of threats appropriate to the site such as hurricanes, tornados, power outages and intruders.

This standard is not to be construed as a complete list of requirements for a secure site. It should be used in conjunction with expert advice, architects, fire marshals, OSHA and other regulations.

Separate, isolated areas will be created within the secure site for:

1. Media libraries
2. Electrical supplies and controls
3. Environmental and mechanical controls

Access to these sub-areas will be on a need-only basis. Critical assets and operations must be conducted in a secured area or secured site, with protections implemented in accordance with the risks and value of the assets, information and operations.

C. Data Centers

All data centers used by the company must provide proof that they meet or exceed the security requirements and standards of the company.

XXVI. Physical Security Policy

A. Entry Policy

All **Virtru's** workforce members are allowed access to the physical site at any time of the day, and any day of the week. The site is secured with an electronic door lock that accepts RFID cards and a numeric passcode. RFID cards are issued by the ISO or AISO by request and after approval.

B. Loss of RFID key

If a workforce member loses their RFID key, they will notify the ISO or AISO as soon as possible so the key may be deactivated. Any workforce member found to have violated

this policy may be subject to disciplinary action, up to and including termination of employment. See *Sanction Policy*.

C. Mobile devices

Mobile devices (laptops, netbook, tablets, iPhones, iPads, etc.) must have the appropriate encryption. Devices must have a power-on password or PIN, data encryption, auto-lock and role-based access per user. See *BYOD Policy* (**Forms for Employees**).

D. Video monitoring

Virtru's main office is monitored by a video camera. The data is stored in the Network Attached Storage which is physically secured in a locked cage in the IT closet. This data is stored for up to one (1) month.

E. Alarm system

Virtru's main office is monitored by an alarm system. It is attached to all doors and windows, and requires a 4-digit pin plus a modifier to deactivate. Once triggered, there is a 45-second delay before the local authorities, ISO and CEO are notified by the monitoring company. ADT is the company that is responsible for monitoring **Virtru's** main office.

The alarm pin code is changed quarterly, or at the time that an employee is fired or leaves the Company.

Virtru requires that this alarm be set by the last person to exit the office, and should be active anytime there is not an authorized employee on the premises.

F. Fire protection

Fire protection meet all regulations, including federal, state and local. Fire extinguishers shall be deployed in accordance with regulations of OSHA and fire inspectors. Periodic testing of alarms, fire extinguishers and fire evacuation procedures shall be conducted.

XXVII. Software

A. Overview

This section outlines the standards applying to operating systems, applications, databases and other software tools.

B. Acquisition of software

It is up to the developer to decide which software tools they will require for their workstation. All regulated software will only be download from trusted sources, such as the Apple App Store, Windows Store, or directly from reputable websites, etc.

Unregulated software is allowed, but must be fully documented and approved for use by the ISO. Documentation will include:

1. The source of the software
2. When it was downloaded
3. Who downloaded it for use and;
4. The date the ISO approved the use of the software

All software for Windows OS devices is required to be screened for malware prior to installation.

Any unauthorized software must be approved and validated, or removed.

Users of workstations, netbooks, wireless and other personal devices must not install unapproved software.

C. Open Source Software

The use of open source shareware or open source freeware may only occur if:

1. It is not used in a production environment OR
2. Prior to use it is fully tested, documented and **Virtru's** personnel are assigned to support it. Checks to be performed include:
    a. Verify usage license (no strong or weak copyleft licenses)
    b. Review open CVEs and available patches
    c. Perform internal security evaluation
    d. Flag for external security evaluation during next penetration test
3. The source of the software is documented
    a. URL
    b. Project lead
    c. Contributors
    d. Whether the project is actively maintained
4. The ISO approves of the use

D. Documentation

Documentation for sensitive applications and the operating systems which run those systems shall be stored securely. Backups of all documentation shall be maintained off

site. Access to the documentation for sensitive applications and the operating systems will be on a need-to-use basis.

E. Change Control and Maintenance

All proposed changes to production systems must be registered in the companies issue tracking system. Changes shall be categorized as standard, normal, or emergency. Standard changes are those that are performed frequently and considered low risk. Standard changes are reviewed quarterly and pre-approved for the following quarter. Normal changes are those which are not performed frequently and may pose some risk to the business. Each normal change must be reviewed by a minimum of two super-admins, the CTO and/or VP of engineering prior to being made. Reviewers are responsible for assessing the impact of the change in regards to the functionality, availability, durability, and security of the system. If a consensus among reviewers is reached, the proposed change is sized, sorted, and executed through the standard engineering workflow. Emergency changes are those that are required to rectify some form of degradation of the system. Emergency changes must be reviewed by a minimum of two super-admins. If a consensus is reached, emergency changes can bypass the standard engineering workflow and be made immediately. All changes to production systems must be captured in the company's issue tracking system without exception.

F. Operating Systems

Only approved operating systems will be loaded onto **Virtru**-owned assets. Before major upgrades to systems, authorization by the ISO and AISO will be required.

Default settings must be reviewed prior to installation to identify any security vulnerabilities. These settings will be communicated with all workforce members, or they will surrender their devices to the ISO or AISO for configuration.

G. Applications

All applications, whether developed or purchased, must comply with **Virtru's** policies and protection standards. The information owner is responsible for ensuring that these requirements are included during the development or acquisition of software.

The protection requirements for applications include:

1. Access control
2. Authorization
3. Information classification
4. Storage controls
5. Backup and restoration
6. Confidentiality and integrity requirements
7. Audit logs
8. Privacy, export control and other such requirements

All product associated applications must use HTTPS to communicate with all remote hosts, both Virtru hosted services and external third parties. HTTP and other non-encrypted communications are not allowed under any scenario.

Virtru applications shall treat user credentials with the utmost sensitivity and must follow security best practices for storing and transmitting user credentials. All credentials which are shared with a client device must be sent over HTTPS or another encrypted communication channel. All user credentials which are stored in a data store, must be stored in a benign state so that leakage of information from the data store does not compromise user accounts.
All application logs must be sent to a central logging cluster for aggregation and analysis.

H. Configuration Management

Where possible, Virtru applications and infrastructure follow an immutable paradigm. All changes to production infrastructure and application code is deployed on a brand new Amazon Machine Image (AMI). This allows all changes which are deployed to be tracked and audited. This also means that no configuration or application code will be modified on a production instance. All application servers have osquery installed and configured to monitor key files on the system for any change (File Integrity Monitoring). Any changes to configuration are logged and sent to AWS Cloudwatch Logs, where they trigger an alarm and cause an email to be sent to the Virtru DevOps team for further investigation.

Where possible, Virtru utilizes Terraform, Ansible, and other similar tools to define their infrastructure as code. This allows the production infrastructure to be versioned in a git repository and easily audited for change over time.

I. Asset management for software

The ISO is responsible for maintaining an inventory of software; as such it shall employ software to aid in the management of software assets.

J. Enforcement

Any workforce member found to have violated these policies may be subject to disciplinary action, up to and including termination of employment. See *Sanction Policy*.

XXVIII. Removable Media Device Policy

A. Purpose

The purpose of this policy is to minimize the risk of loss or exposure of Confidential or Protected Information maintained by **Virtru** when it is stored, transferred or accessed on a removable media device. This policy also aims to reduce the risk of acquiring malware infections on computers operated by Company. Any questions or comments about this policy should be directed to the ISO

B. Scope

This policy covers all removable media that contains **Virtru's** data or that is connected to **Virtru's** network.

C. Definitions

Removable media: devices or media that is readable and/or writable by the end user and are able to be moved from computer to computer without modification to the computer. This includes flash memory devices such as thumb drives, SD cards, cameras, MP3 players or any other storage medium; removable hard drives (including hard drive-based MP3 players); optical disks such as CD and DVD disks.

Encryption: a procedure used to convert data from its original form to a format that is unreadable and/or unusable to anyone without the tools/information needed to reverse the encryption process.

Malware: software of malicious intent/impact such as viruses, worms, and spyware.

D. Policy

Workforce members may use removable media in their work computers if they take all reasonable and prudent measures to ensure the safety and confidentiality of all information that is downloaded to any removable media or portable device

E. Using Removable Media Devices

PHI should be stored on removable media only when required in the performance of assigned duties or when responding to legitimate requests for information. When

Protected and Confidential information is stored on removable media, it must be encrypted in accordance with **Virtru's** Encryption Standards.

The workforce member shall take all reasonable and prudent measures to physically secure all removable media or to portable devices. Users shall not open or attempt to open the encasement of any removable media or portable devices nor otherwise circumvent any lock system that secures the device or its components. Users should take reasonable measures to secure device at all time and report any lost or stolen removable media or portable devices immediately.

Workforce members may not copy information or other sensitive data onto personal devices, unless approved by management in conjunction with the *Confidentiality Agreement for Employees*.

F. Exceptions

Exceptions to this policy may be requested on a case-by-case basis by petition to the ISO.

G. Refusal

Virtru reserves the right to refuse the ability to connect removable media devices to the Company network if such media is being used in such a way that puts **Virtru's** systems, data, users and customers at risk.

H. Enforcement

Anyone found to have violated this policy may be subject to disciplinary action, up to and including suspension of access to technology resources or termination of employment. A violation of this policy by a temporary worker, contractor or vendor may result in action up to and including termination of their contract or assignment with **Virtru**.

XXIX. Application Recovery Plan

A. Overview

Virtru backs up of all production data hourly and stores it remotely on two separate Amazon Web Server (AWS) Accounts. These backups are a combination of both differential and full backups. These backups are durable a the same rate as S3 data, each snapshot is 99.99999% durable.

B. Scope

These policies apply to all production servers and data that **Virtru** is responsible for maintaining on behalf of our clients.

C. Data durability and reliability

Virtru uses Amazon S3 to provide a highly durable storage infrastructure designed for mission-critical and primary data storage. Amazon S3 redundantly stores data in multiple facilities and on multiple devices within each facility. To increase durability, Amazon S3 synchronously stores **Virtru's** data across multiple facilities before confirming that the data has been successfully stored. In addition, Amazon S3 calculates checksums on all network traffic to detect corruption of data packets when storing or retrieving data. Amazon S3 performs regular, systematic data integrity checks and is automatically self-healing.

D. Encryption

Virtru uses Server-side encryption to protect data at rest. Server-side encryption with Amazon S3-managed encryption keys (SSE-S3) employs strong multi-factor encryption by encrypting each object with a unique key. As an additional safeguard, it encrypts the key itself with a master key that it regularly rotates. Amazon S3 server-side encryption uses 256-bit Advanced Encryption Standard (AES-256) to encrypt **Virtru's** data.

E. Load balancing

Virtru uses Amazon Web Services' Elastic Load Balancing (ELB) to automatically distribute incoming application traffic, to automatically route traffic across multiple instances. and multiple Availability Zones. This is used to insure that only healthy servers are receiving traffic.

F. Restoration of data

Restoration of production data is done on an as-needed basis. The following employees are responsible for restoration of the application if it is needed:

1. Reuven Gonzales, Lead Developer, or
2. Conor Gilsenan, Developer Ops.

The needed backup data will not be restored "on top of" the current "bad" data. The restores will be redirected to a new location, and first verified. Upon verification, the "bad" data will be removed from the drive, and stored and relabeled as "old data." Then the backup data will replace the "old data" on the drive. Once the restored data has been verified once more, the "old data" will be destroyed.

G. Testing and revision of plan

Once every quarter, after doing a full backup, **Virtru** will recover the saved data. During hours when the business is closed, we will operate the application using this recovered data in a test mode. The tests will consist of a set of tasks that are designed to exercise the main system functions to confirm that the data is usable and as up-to-date as we expected given the backups that were used to do the recovery. This testing process

should take an hour. The restore process should take an hour or two, once the files are retrieved.

If the process does not work as documented in our policy, it will be updated to reflect the actual procedure we need to implement to achieve successful recovery and operation.

Whenever we make changes to software or hardware, we will create/update and test using our *Inventory of Devices/Software Assets* and store this checklist in the **Security Documentation Library**.

XXX. Network Attached Storage and Workstation Backup Plan

A. Overview

Virtru recognizes that the backup and maintenance of data in the Network Attached Storage (NAS) and individual workstations are critical to operations. It is essential that certain basic standard practices be followed to ensure that data files are backed up on a regular basis.

B. Policy

Virtru will be using a Synology DS1515+ Network Attached Storage for backing up all workstations, firewall logs, and video surveillance footage. This data will also be backed up to a Amazon Web Services Glacier account.

C. Backup software

Virtru uses Cloud Station software to perform all backups. This will be installed on all workstations and must not be disabled by the user for more than one (1) business day. The software will maintain one month of file versions for restoring purposes

D. Remote backups

Virtru will provide a Virtual Private Network (VPN) for employees to login to for backing up their devices. Credentials for the VPM will be provided to remote employees, and they will be expected to configure their devices properly. If they are unsure, or have issue in setup, the IT department will be available for configuration assistance.

E. Local backups

Virtru encourages all users to do daily local backups of their data. These backups are to be encrypted using the encryption standards listed below. Any local backups must be surrendered at the time an employee no longer is employed by **Virtru**.

F. Encryption of backups

The backups of data will be encrypted on the NAS using AES 256 bit encryption. Any local backups that employees make must be encrypted at a minimum of 256 bit encryption.

G. Restoring data

In the event that a workstation fails, is stolen, or is damaged whether physically or by malware. It is the policy of **Virtru** that this device will be replaced within 24 hours. The IT department will be responsible for reprovisioning this device, and testing that the workstation is functioning properly before giving the device to the employee.

H. Enforcement

Anyone found to have violated this policy may be subject to disciplinary action, up to and including suspension of access to technology resources or termination of employment. A violation of this policy by a temporary worker, contractor or vendor may result in action up to and including termination of their contract or assignment with **Virtru**.

XXXI. Information Integrity Management Policy

A. Overview

The other policies in this document contribute to the integrity of the data in our systems. Notably, the Data Backup Plan, the Access Control Policy, and the Malware Management Policy contribute to data integrity. In addition to these, we add the following policy elements.

B. Policy

Virtru will configure our applications software to use the available edits on data that is entered into our systems. These edits will check for internal data consistency, reasonableness of data, and logical relations among data items.

XXXII. Security Incident Management Policy

A. Overview

Virtru recognizes that, despite having reasonable security safeguards, we may have security incidents.

B. Procedures

To manage these incidents, **Virtru** will do the following:

1. We will train each workforce member to recognize the common telltale signs of a security incident. When a member of the workforce detects one of these signs, he/she will be responsible for notifying the ISO.
2. The ISO will maintain a set of tests to detect events in the system logs that may indicate security incidents. These tests will be written into a script and run against the system log on a daily basis or whenever needed. The tests currently are:
    a) Account creation/deletion
    b) High volume of unsuccessful logon attempts
    c) Alerts from our malware monitoring systems
    d) High volume of file or database access/creation/deletion activity for the time of day, or for day of the week
    e) Account activity at unusual times of the day or night
    f) Absence of expected log records of activity when expected
    g) Unusual level of record access for a given account
    h) Daily logs will be tested by the firewall in real time,
    i) User data will be reviewed weekly
    j) Logs for the past month will be retained. When anomalies are discovered, the script will provide a report that is immediately brought to the attention of the ISO or designee as a potential security incident.
    k) Account lock out due to excessive password retry failure.

The ISO will determine, in consultation with others if needed, whether an event is a security incident.

If an event is a security incident, the ISO (or designee) will proceed to contain and repair damage from the incident by working with staff, vendors, and Business Associates as needed. The security incident will be tracked in JIRA and treated as an application defect. A log of relevant actions taken to contain and repair the damage will be stored in JIRA. The permanent home of this log will be in the **Security Documentation Library**. The ISO will determine if the event involves a workforce member action that is covered under the sanction policy and will follow that policy. The ISO will determine if the event represents a security incident for which a Business Associate is responsible. If so, the ISO will follow our *Incident and Breach Policy* in this area.

C. Policy

If an event is a security incident, the ISO (or designee) will proceed to contain and repair damage from the incident by working with staff, vendors, and Business Associate relations in order to further deter future incidents of the same type.

XXXIII. Security Plan Review Policy

A. Overview

We recognize that our underlying security risk will change and our ability to manage this risk will improve over time. To ensure that we adjust our policies and procedures to take these two factors into account, we will review our Security Policies and Procedures annually. The ISO will lead this review and involve others as needed. Documentation of the review will be contained in a document called *Annual Security Review* and restored in the **Security Documentation Library** {or **Notebook**}.

B. Procedures

At a minimum, the review process will consist of:

1. Evaluating changes in the last year that may affect our Security Policy. These will include changes in:
    a) Number, sizes or locations of our business sites
    b) Our workforce size and composition
    c) Hardware/software
    d) State or federal laws that apply to us
    e) Type of medical insurance that we provide
2. Reading each Policy to determine whether or not the changes may affect it and/or the practices driven by the Policy. We will make a list of changes that need to be made, then write a paragraph describing how.
3. Creating a list of changes in Policies and/or Procedures that our **Company** will carry out.
4. Developing and implementing any changes in our Policies and Procedures on a timely basis.

Security Policies and Procedures

Appendices

A. Change Logs

The Change Logs are logs and reports that are reviewed, at a minimum, twice a year. It provides information on programs available and which employees have access to which programs. The actual logs are found in the **Change Control Logs for Security** section of the documents.

1. Annual Security Review
2. Application/Database Change
3. Employee Access
4. Incident - Disaster
5. Maintenance
6. Media Sanitization
7. Operating System Changes Audit
8. Organizational Chart/Electronic Asset Management
9. Network Change
10. Physical Entry Access
11. Responsibility Change

B. Information Security Committee

Information Security Officer:
Will Ackerly
willackerly@virtru.com
(202) 577-3683

Information Security Committee:
Jordan Duggan
Jordan@virtru.com
(919) 696-7936

Reuven Gonzales, Director of Operations
Cell: (949) 878-6154
reuven@virtru.com

Conor Gilsenan, Operations Developer
Cell: 973-986-6650
conor@virtru.com

Disaster Recovery Plan for Virtru

We define a disaster as any event that affects our information systems and, as a result, substantially interferes with the operations of our business. Examples are fire, flood, hardware failure of critical elements (servers), software failures, theft, chemical/radiation hazard, and sabotage. Our definition of recovering from a disaster is taking all the actions needed to restore the systems to their normal operational state. Our plan to recover from disasters is described below.

1. What we will do to prepare to perform a disaster recovery:

    A. We will train the workforce to recognize and report a disaster.

    B. We will organize the workforce responsibilities so that during a recovery we are not dependent on only one person for any critical step.

    C. We will report disasters to the ISO and AISO. The ISO will make the formal determination as to whether or not to classify the event as a disaster.

    D. We will store paper backup copies of key disaster related documents with the offsite backups. These documents will include a List of Support Contacts – vendor, reseller, and/or support group contact information for all of our software and hardware.

    E. We will keep an *Inventory of Device/Software Assets* for [Name of Business]–– a detailed checklist for each asset, such as the server, PCs, the router, network switch, databases, and software programs containing tasks that must be completed to recover that asset. The list will include key data about the device including a party responsible for the recovery whose role is to diagnose and, if needed, repair, replace, and/or rebuild a device.

    F. We will have current copies of system data and software available at the off site location, as our data backup plan specifies.

2. Once the ISO (or designee) has certified a disaster, we will:

    A. Use the ISO or designee to facilitate the recovery. The facilitator will direct the recovery process, coordination and communication of the actions of the various parties that are involved in the recovery.
    B. Determine which devices/software (e.g. servers, PCs, power units, AC units) are not functioning normally, conferring with the appropriate staff, vendors, and other support personnel to make this determination. When in doubt about the status of the device, we will either use a test that is described in the IT Assets Recovery Checklist for the device/system or depend on the recovery responsible party to make this determination.
    C. Review the *Inventory of Device/Software Assets* for the devices to be recovered. Each checklist will have as an initial task, "Contact the appropriate parties responsible for restoring the devices/software to be recovered." Guidance and other recovery activities from these parties are key contributors to the recovery process.
    D. After all of the non-functioning assets have been restored, follow the instructions in the part of the Emergency Operations Plan that deals with what to do when the system is available again.

Organization

Emergency Planning & Crisis Management Team (**EPCMT**):

- Will Ackerly, CTO & ISO
- Jordan Duggan, VP of Product & Development & AISO
- Reuven Gonzales, Director of Operations
- Conor Gilsenan, Operations Developer
- Zack Nelson, Director of Development

Primary Disaster coordination handled through:

Crisis Manager 1:

Reuven Gonzales, Director of Operations
Cell: (949) 878-6154
reuven@virtru.com

Crisis Manager 2:

Conor Gilsenan, Operations Developer
Cell: 973-986-6650
conor@virtru.com

Other Members' Contact Information

- Zack Nelson 443-834-3791
- Payam Abedi 703-656-6227
- Tyler Biscoe 301-642-8844
- Jon Gilpen 303-358-6689
- Jason Ghent 803-658-6645

Off-Site Meeting Location

Used if team needs to meet to formulate an action plan.

If primary location is not accessible, we may need to operate from an off-site locations such as:

Employees' Home Offices
Jack Rose Restaurant

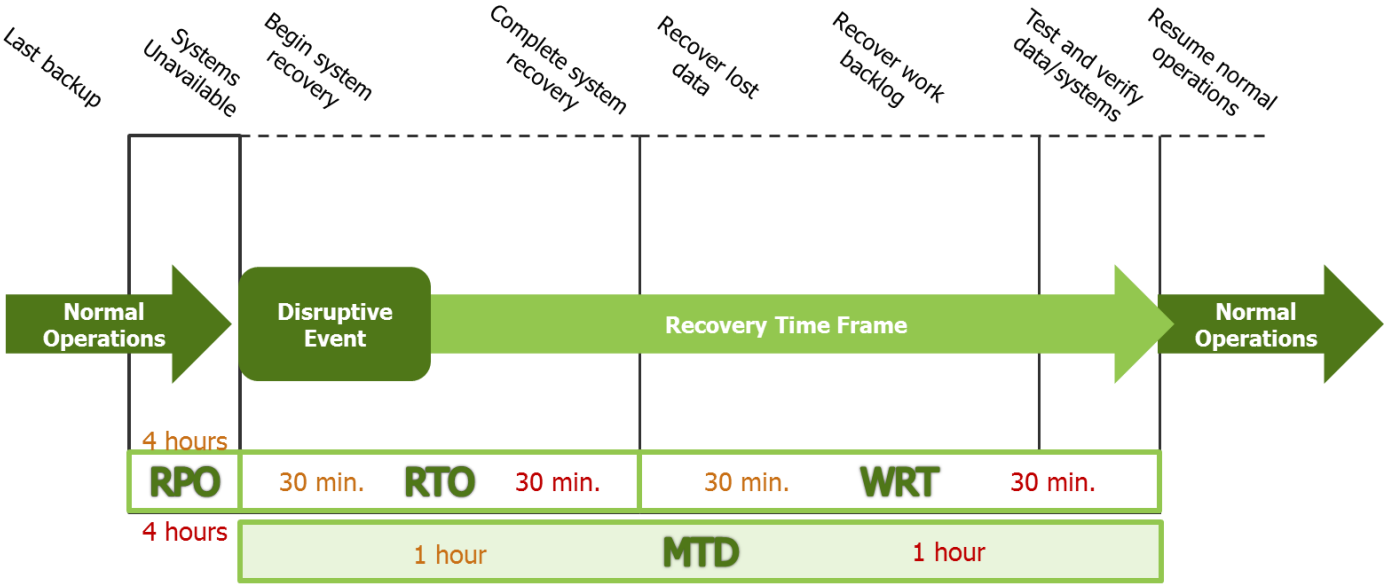
Extended off-site locations will be determined after assessing the severity of the disaster.

Disaster Recovery Timeframes

Maximum Tolerable Downtime (MTD)

The total amount of time our company is willing to accept for an outage or disruption, including all impact considerations. This guides our Crisis Management Team in determining the selection of an appropriate recovery method, and the depth of detail which will be required when developing recovery procedures, including their scope and content.

Recovery Point Objective (RPO)



This is the point in time, prior to a disaster or disruptive event, which our company has accepted for data loss. RPO determines the frequency of our data backups. When determining RPO, we need to consider how much newly entered data we can afford to lose. *Therefore, if RPO is set to 4 hours, then we must have offsite backups maintained every 4 hours.*

Recovery Time Objective (RTO)

RTO determines the target time for recommencement of business activity. The Crisis Management Team will determine what business functions (i.e. telecommunications, web servers, etc.) should be restored based on priority.

Working Recovery Time (WRT)

This is the time our company will spend recovering lost data and work backlog, and testing and verifying data and systems. WRT usually is the difference between MTD and RTO.

Physical Security Example Times
Minor Disaster and Major Disaster

(See next page)

Disaster Timeframe Expectations

Internal Network
The server and network must be functioning in order for any of our other information systems to function. We could afford to be without the server/network for ten (10) minutes without materially affecting our business. If the server/network is down for longer than ten (10) minutes, staff will switch over the mobile tethering, or will go to an approved location to continue their work.

Production Servers
Production servers must be functioning at all times in order for our applications to work. We cannot afford to be without the production servers without materially affecting our business. Traffic will be automatically routed to another server via Amazon Web Services' Elastic Load Balancing.

Workstations
If a workstation crashes, we can easily use another one with only modest inconvenience. Ideally, we would like to replace/restore a workstation within 72 hours.

Printer and Fax
We have two multifunction printers. We can lose all printers for up to a week with little effect on data flow.

Email and Web Browser
Currently, we can function for no more than 10 minutes without email or web browsing. We will tether devices via smartphones after that time.

Wireless Network
We have a wireless network and the office depends on it for routine transactions. A backup router is available; it is preconfigured and encrypted using WPA2-AES.

IT Resources
We depend on the availability of certain employees and our IT service provider to diagnose and fix problems quickly. A chain of contacts is available in this document.

Power and HVAC Equipment
We depend on external power and environmental equipment (especially our AC unit) to maintain the power and environmental support for our system. Failure of either of these systems could inhibit the use of our IT systems, and could also stop us from doing business. These failures are not IT-specific risks. We are comfortable enough with the track record of these services not to need more than a short term UPS to allow us to smoothly shut the network down in the event of a sustained power outage. We have to yearly revisit the question of whether or not we need

more power/environmental backup to ensure that the satellite site will able to operate even if power/cooling at the main site is out.

Disaster Timeframes Table

{This is a sample. Please fill in according to Virtru's standards. Functions can include departments, as listed below, or they can include more specific tasks, such as invoicing.}

	Minor Disaster				Major Disaster			
Function	**MTD**	**RTO**	**WRT**	**RPO**	**MTD**	**RTO**	**WRT**	**RPO**
Physical Security (office/suite)	1 hour	30 minutes	30 minutes	4 hours	1 hour	30 minutes	30 minutes	4 hours
IT (server, hardware, equipment)								
Sales and Marketing								
Administration								
HR								

EVACUATION PLAN - during business hours:

For a disaster where you will need to **leave the building:**

If a disaster happens during normal business hours all Company employees will meet at **Jack Rose Restaurant, 2007 18th St NW, Washington, DC 20009.**

This will prevent Company employees from being in the way of emergency crews. A head count by managers will determine if all staff members have fully exited the building.

Headcount numbers will be brought to the ISO or CEO.

If the disaster happens after the meeting location has closed, employees will wait outside of the same address.

For a disaster where you will need to **stay in the building:**

If a disaster happens during normal business hours, all Company employees will meet in the **Basement**. A head count will determine if all staff members have fully exited the suite. See above for head count procedures.

{Please fill in the appropriate personnel for the following responsibilities}

Office/Evacuation Managers	Assembly Managers
Will Ackerly	John Ackerly
John Ackerly as Backup	Will Ackerly as Backup
System Shutdown Manager	**Back-up System Shutdown Manager**
Jordan Duggan	Jordan Duggan
Will Ackerly as Backup	Will Ackerly as Backup

Critical Operation Priority List

If or when a disaster happens, certain contacts will need to be made.

Operation	Employee in Charge	Action Plan
Current enrollment processes (any pending business)	Will Ackerly	Notify carriers of current situation—give cell number if needed.
Communications	Will Ackerly	eBlast to client list
IT—phones, faxes, e-mail	John Ackerly	Set up remote office
Payroll-Banking issues-Commissions	John Ackerly	Notify payroll/banking institutions of disaster and action plan

Potential Purchase List

If or when a disaster happens, certain items may need to be replaced:

1. 3 UPS (Uninterruptible Power Supply)(s)(Batteries)
2. Network Attached Storage (NAS)
3. Network Switch(s)
4. Network cable(s)
5. Power cable(s)
6. Power strip(s)
7. Monitor(s) / Monitor Cable(s)
8. Keyboard(s) / Mouse(s)
9. Firewall
10. Workstation(s) / Laptop(s)
11. Phone(s) & Headsets
12. Security Camera
13. Electronic Door Lock
14. Video Conference Microphones
15. Minifridge
16. Projector
17. Software
    a. OSX
    b. Windows
    c. Acrobat
    d. Office Suite
18. Paper
    a. Printer paper
    b. Sticky notes
    c. New Checks
19. Multifunction Color Printer
20. Office Furniture/Equipment
21. Carrier (Marketing) Supplies
22. Office Supplies

Fire Plan

EVACUATION PLAN - FIRE!

If the fire alarm goes off during business hours, **evacuate the building immediately**. If you discover a fire or smell heavy smoke inside building:
DO NOT ATTEMPT TO FIGHT THE FIRE!!

1. Pull fire alarm, evacuate the building and call 911 on the way out of the building

2. Perform head count at the designated assembly point

    - If anyone is missing, call their emergency contacts to determine if the missing individual has made contact with them. If they have not, alert the authorities.

3. Action Plan - developed by ***EPCMT***

    - Re-open based on damage
    - If the office must remain closed:
        - Notify employees and/or employees emergency contacts.
        - If there is any impact to customer operations, email all clients with a status update and recovery plan.

NOTE: First Aid kit located in the drawer of the white cabinet located to the right of the spiral staircase.

Earthquake Plan

EVACUATION PLAN - Earthquake!

During an Earthquake

- **DO NOT USE THE ELEVATOR DURING AN EMERGENCY EVACUATION**.
- If you're indoors, stay there. Get under -- and hold onto --a desk or table, or stand against an interior wall. Stay clear of exterior walls, glass, heavy furniture, fireplaces and appliances. The kitchen is a particularly dangerous spot. If you're in an office building, stay away from windows and outside walls and do not use the elevator.
- If you're outside, get into the open. Stay clear of buildings, power lines or anything else that could fall on you.

After an Earthquake

- Perform head count at the designated assembly point
    - If anyone is missing, call their emergency contacts to determine if the missing individual has made contact with them. If they have not, alert the authorities.
- Shut down systems, if time permits, see **Emergency Shutdown Procedures**
    - Check for fire or fire hazards. If you smell gas, shut off the main gas valve. If there's evidence of damage to electrical wiring, shut off the power at the control box.
    - If the phone is working, only use it in case of emergency. Likewise, avoid driving if possible to keep the streets clear for emergency vehicles.

- Be aware that items may fall out of cupboards or closets when the door is opened, and also that chimneys can be weakened and fall with a touch. Check for cracks and damage to the roof and foundation of your home.
- Listen to the radio for important information and instructions. Remember that aftershocks, sometimes large enough to cause damage in their own right, generally follow large quakes.
- If you leave home, leave a message telling friends and family your location.

- Action Plan - developed by ***EPCMT***
  - Re-open based on damage
  - If the office must remain closed:
    - Notify employees and/or employees emergency contacts.
    - If there is any impact to customer operations, email all clients with a status update and recovery plan.

NOTE: First Aid kit located in the drawer of the white cabinet located to the right of the spiral staircase.

Tornado Plan

EVACUATION PLAN - Tornado!

If the city or county signal a tornado warning, move away from the perimeter of the building and any exterior glass.

DO NOT USE ANY ELEVATORS DURING AN EMERGENCY EVACUATION.

1. Move to the basement of the office suite.
2. Shutdown systems, if time permits, see **Emergency Shutdown Procedures**
3. Perform head count at the designated assembly point
    - If anyone is missing, call their emergency contacts to determine if the missing individual has made contact with them. If they have not, alert the authorities.
4. Action Plan - developed by ***EPCMT***
    - Re-open based on damage
    - If the office must remain closed:
        - Notify employees and/or employees emergency contacts.
        - If there is any impact to customer operations, email all clients with a status update and recovery plan.

NOTE: First Aid kit located in the drawer of the white cabinet located to the right of the spiral staircase.

Flood Plan

EVACUATION PLAN - Flood!

1. Evaluate the situation
    - Shutdown systems routine, see **Emergency Shutdown Procedures**
    - Perform head count
        - If anyone is missing, call their emergency contacts to determine if the missing individual has made contact with them. If they have not, alert the authorities.
2. Action Plan - developed by ***EPCMT***
    - Remain open - *based on damage or location*
        - Relocate staff within suite
        - Evaluate IT requirements
    - Close - send staff home
        - Re-open based on damage
        - If the office must remain closed:
            - Notify employees and/or employees emergency contacts.
            - If there is any impact to customer operations, email all clients with a status update and recovery plan.

After Hours Plan

EVACUATION PLAN - after business hours

If the building is in a disastrous state after working hours, the **EPCMT** will notify employees. *See **Virtru** Phone Tree*.

If **re-opening** on a workday at the primary location:

1. Verify location is safe for operations - including systems
2. Communications
    a. Emergency Contact List
    b. Client Blast

If **NOT re-opening** on the following workday at the primary location:

1. The **EPCMT** must decide estimated length of time we will not be able to function
    a. If less than or equal to one day, office is closed.
        i. **[Name of Business]** will open the following work day
        ii. Verify location is safe for operations
        iii. Communications
            1. Emergency Contact List
            2. Client Blast

2. If office needs to move to secondary location or close for a **short** period of time.
    a. The **EPCMT** meets to develop a plan of action
    b. Determine the validity of systems
        i. If valid, move critical systems to secondary location
        ii. If not valid, retrieve necessary items and contact suppliers for new systems
            1. Restore systems from backups
            2. Restore connectivity
                a. Skeleton crew of selected staff members (possibly several from each department)

c. Communications

i. Emergency Contact List

ii. Client Blast

3. If office needs to move to secondary location or close for a **longer** period of time:

a. The **EPCMT** meets to develop a plan of action

b. Determine the validity of Systems

i. If valid, move critical systems to secondary location

ii. If not valid, retrieve necessary items and contact suppliers for new systems

1. Restore systems from backups
2. Restore connectivity

ii. Determine staff needs - full or partial capacity

iii. Communications

Emergency Shutdown Procedures

If an electrocution occurs while working in server room, staff will pull all of the UPS cords from the outlet by the interior door. If that outlet is inaccessible due to fire or victim's position, staff will shut off the power at the breaker, located in the basement on the wall to the left of the TV.

If there is a fire within the building or suite, staff should concentrate on notifying authorities.

If there is severe flooding that threatens to affect the server room, staff will shutdown and unplug all equipment and move it to the second story platform of the suite.

BRIGHTLINE

CERTIFICATE OF REGISTRATION

Information Security Management System - ISO/IEC 27001:2013

The Certification Body of BrightLine hereby certifies that the following organization operates an Information Security Management System that conforms to the requirements of ISO/IEC 27001:2013

ServiceNow, Inc.

for the following scope of registration

The scope of the ISO/IEC 27001:2013 certification is limited to the information security management system (ISMS), which supports ServiceNow as a provider of cloud-based solutions that define, structure, manage and automate services across the global enterprise, as well as all supporting resources including global data center operations and infrastructure, applications, end-user services, and product development, and in accordance with the Statement of Applicability, approved July 28, 2015. Assets within scope of the ISMS include: internal information assets, customer data, software, hardware, people, and physical assets to host, support and operate the cloud-based solutions. The data centers in the following locations house the infrastructure used to deliver the cloud-based solutions: Virginia, California, Florida, Washington, Montreal, Toronto, London, Amsterdam, Geneva, Zurich, Sydney, Brisbane, Singapore, Hong Kong, São Paulo and Campinas. Additionally, ServiceNow uses Amazon Web Services (AWS) to host some ServiceWatch customers. Excluded from the scope are all operations of third party data centers and AWS.

the scope of this certification includes the following locations:

Santa Clara (HQ): 3260 Jay Street, Santa Clara, California, 95054, United States
San Diego: 4810 Eastgate Mall, San Diego, California, 92121, United States
Kirkland: 4400 Carillon Point, Kirkland, Washington, 98033, United States
Orlando: 3501 Quadrangle Blvd, Suite 150, Orlando, FL 32817, United States
Amsterdam (EMEA HQ): Hoekenrode 3, 1102 BR Amsterdam, The Netherlands
London: 3rd Floor, Future House, The Glanty, Egham, Surrey, TW20 9AH, United Kingdom
Sydney: Level 21, 50 Bridge St, Sydney, New South Wales, 2000, Australia

Certificate Number: **1980700-4**

ISO 27001 CERTIFIED BY BRIGHTLINE

CONDITIONS & LIMITATIONS:

1. The aforementioned organization has a perpetual responsibility to maintain compliance with ISO 27001:2013 during the period of certification.
2. This certificate is subject to the satisfactory completion of annual surveillance audits by BrightLine.
3. ISO 27001:2013 compliance audits are not designed to detect or prevent criminal activity or other acts that may result in an information security breach. As such, this certification should not be construed as a guarantee or assurance that an organization is unsusceptible to information security breaches.
4. The information in this document is provided "AS IS", without warranties of any kind. BrightLine expressly disclaims any representations and warranties, including, without limitation, the implied warranties of merchantability and fitness for a particular purpose.
5. This certificate is the property of BrightLine and is bound by the conditions of contract. The authenticity of this certificate can be validated at www.BrightLine.com/Certificate-Directory.

vCLOUD GOVERNMENT SERVICE

Compliant cloud solutions built for government agencies

Whether spurred by the need to increase efficiency, meet government mandates or deal with rapidly expanding data sets and workloads, more and more agencies are moving some or all of their applications or infrastructure to the cloud. However, for many agencies, the most cost-effective, secure and efficient solution is a hybrid cloud model that allows them to not only leverage their existing investments in IT infrastructure, but also extend their systems seamlessly to the technology platform that best meets their needs.

VMware®, the global leader in virtualization and cloud infrastructure, and QTS, a trusted cloud operator and leading provider of hybrid cloud services and managed hosting for government agencies and enterprises, have partnered to deliver VMware vCloud® Government Service provided by Carpathia™ (A QTS Company).

vCloud Government Service is an enterprise-class hybrid cloud service designed to run new and existing applications in exactly the same way, giving government organizations application and data mobility. Being able to use existing people, processes, tools, and automation enables government organizations to focus on the benefits of the cloud to their mission, rather than taking time and resources to re-architect for new infrastructure. Federal organizations can securely extend their data centers to the cloud quickly and confidently, using an integrated cloud infrastructure with the security of a JAB-based FedRAMP Provisional Authorization.

KEY FEATURES

Robust Security and Compliance

- vCloud Government Service is a secure cloud platform that enables customers to maintain security and data protection that meets a broad range of regulations, standards, and best practices including FedRAMP, International Traffic Arms Regulations (ITAR), FIPS 140-2, and AT 101 SOC Type 2.

Efficiency and Manageability

- Agencies can write, deploy, and manage applications in the cloud in the same way they do today, without making any changes or additional investments. With management tools consistent across on premises and cloud environments, you can accelerate application deployments, streamline the deployment and update process, leverage pre-built components, and reuse application models across environments, and clouds.

Seamless Network Integration

- vCloud Government Service is built on a seamless virtualized network that is quickly customizable to support your application and security needs. Network virtualization allows you to configure your firewalls and network as if they were in your own data center so that you can replicate the network your applications need to operate. Get common identity and access management across your onsite and offsite cloud locations.

BENEFITS

- Ease of Use – Leverage your existing investments in applications and infrastructure and avoid the complexity of re-architecting for public cloud infrastructure
- Secure and Compliant – Secure cloud platform, with security controls designed to meet the unique requirements of government customers, most notably the FedRAMP standards
- Hybrid – True hybrid cloud solution enables both onsite and offsite IT environments to run new and existing applications seamlessly
- Fastest Path to Cloud Value – Use a common platform to leverage internal and external cloud resources without having to retrain your staff, and lower overall costs

Why vCloud Government Service?

vCloud Government Service has a FedRAMP Provisional Authority to Operate (P-ATO) and is generally available to U.S. government and defense organizations. It can be used for a variety of applications and workloads including:

- Test and development
- Packaged application hosting
- Backup and Disaster Recovery
- Web hosting and customer service
- On-demand data center expansion

Trusted Cloud Services

QTS is redefining the industry with trusted cloud services that leverage innovation to improve the flexibility, scalability, and cost-effectiveness of cloud services.

- We are a trusted cloud operator with past performance serving the government market -- including DoD, Civilian and Intelligence agencies -- across multiple programs and applications
- QTS data centers deliver the highest levels of security and compliance, and meet many compliance standards including FISMA, DIACAP, PCI, and HIPAA
- We hold a number of certifications and accreditations across multiple federal agencies and programs and support over 50 Federal systems holding active Authorizations to Operate (ATO)

Security

vCloud Government Service operates with a FedRAMP Provisional Authorization to Operate (P-ATO) issued by the Joint Authorization Board (JAB). Built with a defense in-depth strategy that puts our customers' critical applications and data in the innermost ring, our people, processes and procedures ensure 100 percent compliance at implementation and through the lifecycle of the project.

Hybrid Options

vCloud Government Service is a true enterprise-class hybrid cloud service, offering a seamless platform for migrating and managing workloads between dedicated virtualized environments, on-premise infrastructures, third-party data centers and the cloud.

ABOUT QTS

QTS Realty Trust, Inc. (NYSE: QTS) is a leading provider of secure, compliant data center solutions and fully managed services, and the owner of Carpathia Hosting, a leading provider of hybrid cloud services and managed hosting. QTS' integrated technology service platform of custom data center (C1), colocation (C2) and cloud and managed services (C3) provides flexible, scalable, secure IT solutions for web and IT applications. QTS' Critical Facilities Management (CFM) provides increased efficiency and greater performance for data center owners and operators. QTS owns, operates or manages 25 data centers and bsupports more than 1,000 customers in North America, Europe and Asia Pacific.

State of Utah Division of Purchasing
3150 State Office Building
Capitol Hill
Salt Lake City, Utah 84114

Mr. Hughes:

As a privately owned company, Carahsoft Technology Corp. does not report to D&B. As such, the information in D&B is incorrect. To support you to determine that we have the financial resource to perform the contract we provide you the following information.

We are a stable, conservative and profitable company. Carahsoft continues to grow as noted by our year over year revenue below:

2010 $820 Million
2011 $1.12 Billion
2012 $1.46 Billion
2013 $1.81 Billion
2014 $2.45 Billion
2015 $3 Billion

We currently employ close to 500 employees.

To support you to determine that we have the financial resource to perform the contract we provide you the following information:

We maintain a $25M line of credit available (currently 100% available) with Xenith Bank. I have included a recent banking clarification letter from Xenith.

Mr. Joe Humphries is the Regional President and can be reached at 703-869-3610 if you need any information from him.

We have received numerous accolades including:

- For the 6th consecutive year CRN's 2012 Fast Growth List
- Washington Business Journal's 2012 List of Largest Government Contractors in Metro DC
- Third consecutive year Washington SmartCEO magazine's 2012 Future 50 list which recognizes the metro areas fastest growing companies.

Should you require additional details please call me and I can discuss our confidential financial information with you or provide you trade references that can further assist you.

Sincerely,

Jillian Dewey Szczepanek
Controller

Credit Information

Risk Summary

Risk of Late Payment

Risk of late payment is based on the following prioritized factors in addition to other information in D&B's files:

- Proportion of slow payments in recent months
- Higher risk industry based on delinquency rates for this industry
- Increase in proportion of delinquent payments in recent payment experiences
- Proportion of past due balances to total amount owing
- Evidence of open liens

Indications of slowness can be the result of disputes over merchandise, skipped invoices, etc.

Payment Performance Trend

The payment performance trend for this company is Increased . Payment Trend currently is Increased compared to payments three months ago. The most recent payment information in D&B's files is:

- Payments currently: 11 days beyond terms
- Payments 3 months ago: 19 DAYS BEYOND terms
- Industry average: 5 DAYS BEYOND terms

*Note: Payments to suppliers are averaged weighted by dollar amounts.

AODocs Terms of Service - Version published on the Web Site

TERMS OF SERVICE

These Terms of Service **("Terms")** are a legal agreement between Altirnao, Inc., herein **"Altirnao",** having an office and place of business at 221 Kearny Street, Suite 300, San Francisco, CA 94108, USA, and the person or entity agreeing to the terms herein **("Customer", "You" or "you").** By using or accessing any part of A0Docs (the **"Service"),** You agree that You have read, understand, and agree to be bound by all of the terms and conditions contained herein. If You do not agree to these Terms, You must not use or access the Service. If You are entering into this Terms on behalf of a company, You represent that You have the authority to bind that company to these Terms. If You have purchased a license to use A0Docs through an Altirnao reseller, You also agrees to comply with the terms of any agreement between You and such reseller. In the event of an inconsistency between these Terms and any such reseller agreements, these Terms shall control.

Description of Service

AODocs is an online document management solution for Google Apps. The Service is offered and provided subject to these Terms and solely for Your business purposes. You may connect to the Service using any Internet browser supported by the Service.

The Service requires one or more Google Apps for Business account that will be the owner(s) of all files stored and managed by the Service. The Service stores all the files that it stores and manages for You in the Google Drive account(s) that You will assign to AODocs when You deploy AODocs. You understand and acknowledge that You are solely responsible for obtaining the Internet access and all equipment necessary to use the Service, for appropriately configuring Your Google Apps account(s) and for allocating a sufficient number of accounts and sufficient Google Drive storage space to allow proper operation of the Service, as per the recommendation of Altirnao's technical support or product documentation. You also understand and agree that content you store through your use of the Service will be made available to Google as part of Google providing the Google Apps service. All fees associated with the foregoing shall be paid by You.

Modifications

To these Terms: Altirnao reserves the right to update and change the Terms of Service upon notice from time to time. You will be provided notice of any such modification by electronic mail or by the publishing of such on the website http://www.aodocs.com/terms-of-service. You may terminate your use of the Service if the Terms are modified in a manner that substantially affects your rights in connection with use of the Service. Your continued use of the Service after any such changes shall constitute your consent to such changes. You can review the most current version of the Terms of Service at any time at http://www.aodocs.com/terms-of-service.

To the Service: Altirnao may make changes to the Service from time to time. Altirnao will notify you of any material changes or modifications. Any updates, upgrades, additions or new features to the Service, including the release of new tools and resources, shall be subject to these Terms and may require you to agree to additional terms and conditions.

Use of the Service

Access to Service: Access to the Service is only available to the Customer and the end users **("Users")** to whom Customer has purchased individual user licenses and granted access. Upon registration with Altirnao, Customer will specify the email address of a Google Apps account (the **"Account"),** which will be granted access to the Service. Customer is solely responsible for granting the Service access to Customer's Google Apps files and revoking such access when Customer ceases use of the Service. Customer is responsible for maintaining the confidentiality of Customer's password. Customer agrees not to share its password with anyone other than Users, let anyone else access its password or do anything else that might jeopardize the security of its password. Customer agrees to notify Altirnao if Customer's password is lost, stolen or disclosed to an unauthorized third party, if there is any unauthorized use of its password or Account, or if Customer learns of any other breach of security in relation to the Service. Customer is solely responsible for any and all activities that occur through the use of Customer's Account.

License to Customer: Subject to Customer's compliance with these Terms and the Google Acceptable Use Policy (available at https ://cloud.google .com/terms/aup), including, without limitation, Customer's payment of all applicable fees, Altirnao hereby grants Customer a limited, revocable, non-transferable non-exclusive, non-sublicensable license to access and use the Service, solely for Customer's own internal use, and not for timesharing, application service provider or service bureau use.

Customer is at all times fully responsible and liable for all acts and omissions by Users to whom Customer has granted access to the Service and Customer agrees to indemnify Altirnao for all claims and losses related to any such acts and/or omissions.

Each user license ordered by Customer is specific to the email address of only one User and, once granted to that User, may not be transferred or reassigned to any other user unless the User originally granted the license will no longer use the Service. Any such transfer or reassignment is permanent and Licensee shall not permit the original User to use the Service after such User's license has been used by a different User.

Altirnao reserves the right to terminate unpaid Accounts and Accounts that are inactive for a continuous period of ninety (90) days. In the event of any termination, all data associated with such Account will be deleted and Customer shall be responsible for revoking the Service's access to Customer's Google Apps domain data and files. Altirnao will provide Customer with prior notice of such termination and will send a data backup to Customer by email. In case of Accounts with more than one User, if at least one of the Users is active, the Account will not be considered inactive.

Restrictions on Use

Restrictions on Use of AODocs: In addition to all other terms and conditions contained herein, you shall not and shall not permit others to:

1. copy, modify, adapt, translate or otherwise create derivative works of the Service;
2. reverse engineer, decompile, disassemble or otherwise attempt to discover the source code of the Service;
3. rent, lease, sell, assign or otherwise transfer rights in or to the Service;
4. remove any proprietary notices or labels from the Service;
5. use, post, transmit or introduce any device, software or routine which interferes or

attempts to interfere with the operation of the Service.

6. use the Service for spamming or any other illegal or unauthorized purpose or engage in illegal or deceptive trade practices; or

7. otherwise use of the Service in violation of any laws in your jurisdiction (including but not limited to copyright laws).

8. use the Service for High Risk Activities;

9. process or store any content on or through the Service that is subject to the International Traffic in Arms Regulations maintained by the Department of State.

10. if you are (or become) a Covered Entity or Business Associate, as defined in the Health Insurance Portability and Accountability Act **("HIPAA"),** use the Service for any purpose or in any manner involving Protected Health Information (as defined in HIPAA) unless you have received prior written consent to such use from both Google and Altirnao.

11. use the Service as a way to circumvent your obligation to provision one Google Apps End User Account for each User.

This list of prohibitions provides examples and is not complete or exclusive.

Restrictions on Use of Google Apps: You understand and agree that your use of the Service requires the use of Google Apps. You agree that you shall not and shall not permit others to:

copy, modify, create a derivative work of, reverse engineer, decompile, translate, disassemble, or otherwise attempt to extract the source code of Google Apps or any component thereof;

use the Google Apps or any component thereof for uses such as the operation of nuclear facilities, air traffic control, or life support systems, where the use or failure of Google Apps or any component thereof could lead to death, personal injury, or environmental damage;

sublicense, resell, or distribute Google Apps or any component thereof;

use Google Apps or any component thereof to create, train, or improve (directly or indirectly) a substantially similar product or service, including any machine translation engine;

access Google Apps or any component thereof in a manner intended to avoid incurring fees;

use Google Apps or any component thereof to operate or enable any telecommunications service or in connection with any application that allows end users to place calls to or to receive calls from any public switched telephone network; or

process or store any data that is subject to the International Traffic in Arms Regulations maintained by the U.S Department of State or any other applicable law.

Altirnao reserves the right to suspend or terminate your access to Service with or without cause and with or without notice, for any reason or no reason, or for any action that Altirnao determines is inappropriate or disruptive to the Service or to any other user of this Service. Google may suspend your Google Apps account if: (a) your use of Google Apps is in violation of Google's Acceptable Use Policy, which could disrupt: (i) Google Apps; (ii) other users' use of Google Apps; or (iii) the Google network or servers used to provide Google Apps services; or
(b) there is unauthorized third party access to Google Apps.

You acknowledge and agree that Altirnao, in its sole discretion, with or without notice, may establish or revise from time to time general practices and limits concerning your use of the

Service, including without limitation, establishing the maximum number of Google Drive operations that can be done on your behalf in a given period of time. In addition, Altirnao may limit, without notice, the volume of e-mail forwarding or file downloading from the Service in response to unreasonable activity (such as spamming).

Altirnao may report to law enforcement authorities any actions that may be illegal, and any reports it receives of such conduct. When legally required or at Altirnao's discretion, Altirnao will cooperate with law enforcement agencies in any investigation of alleged illegal activity associated with the Service or on the Internet.

Unauthorized use of any trademarked, copyrighted or patented materials contained in the Service may violate certain laws and regulations.

You agree to indemnify and hold Altirnao and its officers, directors, employees, affiliates, agents, licensors, and business partners harmless from and against any and all costs, damages, liabilities, and expenses (including attorneys' fees and costs of defense) Altirnao or any other indemnified party suffers in relation to, arising from, or for the purpose of avoiding, any claim or demand from a third party that your use of this Service or the use of Service by any person using your Account (including without limitation, Your Content (as defined below)) violates any applicable law or regulation, or the copyrights, trademark rights or other rights of any third party.

Suspension

Altirnao reserves the right to suspend or terminate Customer's access to the Service with or without notice if Altirnao reasonably determines that:
(a) there is a threat or attack on the Service (including a denial of service attack) or other event that may create a risk to the Service, Altirnao, Customer, or any user of the Service;
(b) Customer's or its users' use of the Service or Customer Content disrupts or poses a security risk to the Service or any user of the Service, may harm Altirnao's systems, or may subject Altirnao or any third party to liability;
(c) Customer or any User is using the Service for fraudulent or illegal activities;
(d) Customer or any User is causing performance disruptions in the Service or in Google Drive by using the Service in a way that is not recommended in the performance guidelines published in the Service's documentation or by ignoring performance recommendations provided by Altirnao's technical support;
(e) subject to applicable law, Customer has ceased to continue Customer's business in the ordinary course, made an assignment for the benefit of creditors or similar disposition of its assets, or become the subject of any bankruptcy, reorganization, liquidation, dissolution or similar proceeding;
(f) Customer or any User is using the Service or other Altirnao property in breach of this Agreement;
or (g) Customer is in default of its payment obligations hereunder (collectively, "Service Suspensions"). Altirnao will make commercially reasonable efforts, circumstances permitting, to provide written notice of any Service Suspension to Customer, and to provide updates regarding resumption of Customer's access to the Service following any Service Suspension.

Subscription terms

Customer agrees to pay the subscription fee applicable to Customers and its Users use of the Service. Such fees will be paid on a periodic basis as agreed to Altirnao or to your Altirnao reseller as agreed when you registered for the Service.

In case of non-payment for any reason (including, if applicable, Altirnao's inability to charge your credit card or other payment method for any reason) or any violation of these Terms, Altirnao shall be entitled – without liability – to immediately suspend Customer's and Users' access to the Service. If you purchase your license to use the Service from Altirnao, you hereby expressly agree that Altirnao is permitted to bill you for the applicable fees, any applicable tax and any other charges you may incur in connection with your use of the Service, or charge such fees to your credit card or other payment method designated on your initial registration with the Altirnao at regular intervals for the remainder of the term of these Terms. If you cancel your Account at any time, you will not receive any refund.

Customer agrees that Customer's paid use of the Service is neither contingent on the delivery of any future functionality or features nor dependent on any oral or written public or private comments made by Altirnao or any Altirnao reseller regarding future functionality or features.

Intellectual Property

Customer hereby acknowledges and agrees that, subject to the limited rights granted hereunder, Altirnao (or its licensors) own all legal right, title and interest in and to the Service, including, without limitation, any Intellectual Property Rights or other proprietary rights which exist in the Service (whether such rights are registered or unregistered, and wherever in the world those rights may exist) **("Our Technology").** For purposes of these Terms, "Intellectual Property Rights" means, on a worldwide basis, any and all now known or hereafter known (a) rights associated with works of authorship including copyrights and moral rights, (b) trademark and trade name rights and similar rights, (c) trade secret rights, (d) patent rights and other industrial property rights, (e) intellectual and industrial property rights of every other kind and nature and however designated, whether arising by operation of law or otherwise, and (f) all registrations, applications, renewals, extensions, continuations, divisions, or reissues thereof now or hereafter existing, made, or in force (including any rights in any of the foregoing).

Our Technology may not be copied, modified, reproduced, republished, posted, transmitted, sold, offered for sale, or redistributed in any way without our prior written permission and the prior written permission of our applicable licensors. You must abide by all copyright notices, information, or restrictions contained in or attached to any of Our Technology. Nothing in these Terms of Use grants you any right to receive delivery of a copy of Our Technology or to obtain access to Our Technology except as generally and ordinarily permitted through the Service according to these Terms. Furthermore, nothing in these Terms of Use will be deemed to grant, by implication, estoppel or otherwise, a license to Our Technology. Certain of the names, logos, and other materials displayed on the Service constitute trademarks, trade names, service marks or logos **("Marks")** of Altirnao or other entities. You are not authorized to use any such Marks. Ownership of all such Marks and the goodwill associated therewith remains with and will inure to us or those other entities. To the extent indicated, any use of third party software provided in connection with the Service will be governed by such third parties' licenses and not by these Terms of Service. Furthermore, any comments, ideas and/or reports about the Service that you provide to us, whether in written or electronic form **("Feedback"),** shall be considered our proprietary and confidential information, and you hereby irrevocably transfer and assign to us all intellectual property rights embodied in or arising in connection with such Feedback, and any other rights or claims that you may have with respect to any such Feedback.

Ownership & Privacy

As between You and Altirnao, you retain all right, title and interest in any and all data, files, attachments, text, images, personally identifiable information, and other content that You and Your Users upload or submit to the Service (collectively, **"Your Content").** You may not upload, post or otherwise make available through the Service any material protected by copyright.

trademark, or any other proprietary right -without the express permission of the owner of such copyright, trademark or other proprietary right owned by a third party, and the burden of determining whether any material is protected by any such right is on you. You shall have sole responsibility for the accuracy, quality, integrity, legality, reliability, appropriateness, and intellectual property ownership or right to use any and all of Your Content. You represent and warrant that you have all rights, permissions and consents necessary (a) to make Your Content available on or through the Service, and (b) to grant Altirnao the limited rights to use Your Content set forth in these Terms.

You agree that Altirnao may use Your Content to provide the Service and its features, including by making it available for viewing, download and modification by other Users with access rights to Your Content. You hereby grant Altirnao a non-exclusive, perpetual, royalty-free, worldwide license (including the right to sublicense through multiple tiers) to access, use, reproduce, distribute, store, transmit, modify, adapt, reformat, publicly display, publicly perform and create derivative works of Your Content as required for the purpose of providing the Service to you.

You understand and agree that Altirnao does not have the ability to grant or revoke the Service's access to Customer's Google Apps domain data and files or other content and materials stored in Customer's Google Apps account. Therefore, You are solely responsible for granting the Service access to such Google Apps files and revoking such access when You cease use of the Service. Altirnao shall not be responsible and shall have no liability for any damages that result from Your failure to grant or revoke such access.

You understand and agree that Altirnao may, notwithstanding any provision of any separate nondisclosure agreement that may have been executed between You and Altirnao, distribute and disclose Your Content (a) to your Users, and (b) to Altirnao's service providers who act on Altirnao's behalf in providing the Service. Altirnao's use of any personally identifiable information you provide through the Service is governed by our Privacy Policy. Your use of the Service indicates your acceptance of the terms of our Privacy Policy. You can review the most recent version of our Privacy Policy at http://www .altirnao .com/pr ivacy-policy/ .

You hereby consent that, if You choose to become a paying customer of the Service, Altirnao may identify You as a Altirnao customer (using Your name and logo) and generally describe the products or services it provides to You in its promotional materials, presentations, and proposals to other current and prospective customers.

If you cancel your Service subscription, your information is no longer used and Altirnao will delete your Account and data associated with your Account within ninety (90) days of your cancellation. Please note, however, that some information like billing and subscription may remain with us for accounting and legal reasons.

Availability.

Altirnao will make the Service available to You in accordance with the Service Level Agreement available online at https://www.aodocs.com/sla (the **"SLA").** Altirnao does not make any representations or guarantees regarding uptime or availability of the Service unless specifically identified in the SLA. The Service may be unavailable at certain times as specified in the SLA, including during any unanticipated or unscheduled downtime or unavailability of all or any portion of the Service as a result of system failures or force majeure events.

Warranty Disclaimer

THE SERVICE IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, IMPLIED WARRANTIES OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE

OR NON-INFRINGEMENT. ALTIRNAO MAKES NO WARRANTY THAT (I) THE SERVICE IS FREE OF VIRUSES OR OTHER HARMFUL COMPONENTS; (II) THE SERVICE WILL BE ERROR-FREE OR UNINTERRUPTED (INCLUDING, WITHOUT LIMITATION, INTERRUPTIONS THAT OCCUR IN THE CONTEXT OF REGULARLY SCHEDULED MAINTENANCE); (Ill) ANY INFORMATION OR ADVICE OBTAINED BY YOU IN CONNECTION WITH THE SERVICE WILL BE ACCURATE OR COMPLETE; OR (IV) THE RESULTS OF USING THE SERVICE WILL MEET YOUR REQUIREMENTS. SOME STATES DO NOT ALLOW EXCLUSION OF AN IMPLIED WARRANTY, SO THIS DISCLAIMER MAY NOT APPLY TO CUSTOMER.

Limitation of Liability

IN NO EVENT SHALL ALTIRNAO BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, INDIRECT, SPECIAL, PUNITIVE, OR OTHER LOSS OR DAMAGE WHATSOEVER (INCLUDING BUT NOT LIMITED TO LOSS OF DATA, LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, COMPUTER FAILURE, LOSS OF BUSINESS INFORMATION), ARISING OUT OF OR CAUSED BY YOUR USE OF OR INABILITY TO USE THE SERVICE, EVEN IF ALTIRNAO HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. YOUR SOLE AND EXCLUSIVE REMEDY FOR ANY DISPUTE WITH ALTIRNAO RELATED TO ANY OF THE SERVICE SHALL BE TERMINATION OF SUCH SERVICE. IN NO EVENT SHALL ALTIRNAO'S ENTIRE LIABILITY TO YOU IN RESPECT OF ANY SERVICE, WHETHER DIRECT OR INDIRECT, EXCEED THE FEES PAID BY YOU TOWARDS SUCH SERVICE. SOME STATES DO NOT ALLOW THE LIMITATION OR EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE LIMITATIONS OR EXCLUSIONS IN THIS PARAGRAPH MAY NOT APPLY TO CUSTOMER.

Other Terms

These Terms, their interpretation, performance or any breach thereof, will be construed in accordance with, and all questions with respect thereto will be determined by, the laws of the State of California. Both parties hereby irrevocably submit any disputes under these Terms to the jurisdiction of the courts located in the State of California.

Channel Foundation Agreement
U.S. Public Sector

1. INTRODUCTION

1.1 This Channel Foundation Agreement ("Foundation Agreement") specifies the terms and conditions agreed between CA and the Ordering Activity, as defined in GSA Order ADM4800.2G and as revised from time to time ("End User" or "Customer") as a foundation for their relationship as further defined in the applicable Modules. Ordering Activity understands and agrees that Ordering Activity's right to use the CA Offerings, ordered by Ordering Activity and submitted to CA by an Authorized CA Partner, is subject to Ordering Activity's compliance with this Foundation Agreement and the relevant Module for such CA Offering. The Foundation Agreement and the Module(s) incorporated into the GSA Schedule contract for the CA Offering(s) purchased by Ordering Activity will govern orders from an Authorized CA Partner for Ordering Activity's acquisition of the CA Offering and such terms shall remain binding upon both Ordering Activity and CA for that CA Offering absent mutual written agreement to the contrary.

1.2 Modules to this Foundation Agreement include the Channel Software Module, , Channel SaaS Module, Channel Hardware Appliance Module, and Channel Education Module.

2. DEFINITION

2.1 "Agreement" means this Foundation Agreement, the applicable Module, and License Metric for the applicable CA Offering, and any document incorporated expressly therein or incorporating the foregoing by reference.

2.2 "Authorized CA Partner" means an entity having a valid, current authorization from CA to market, offer and resell to Ordering Activity the right to use the CA Offering. Ordering Activity may find information regarding authorized CA Partners here: www.ca.com/partners.

2.3 "CA Offering" means the individual offering (such as software, services, software as a service etc.) made available by CA as defined in the Module and/or, License Metric.

2.4 "Confidential Information" means any information, maintained in confidence by the disclosing Party, communicated in written or oral form, marked as proprietary, confidential or otherwise so identified, that is exempt from disclosure under the Freedom of Information Act (FOIA), 5.U.S.C. §552(b) under one or more exemptions to that Act, and/or any information that by its form, nature, content or mode of transmission would to a reasonable recipient be deemed confidential or proprietary, including, without limitation, CA Offerings, Documentation, and any benchmark data and results produced.

2.5 "Documentation" means the documentation, technical product specifications and/or user manuals, published by CA or any entity within CA group of companies (each a CA entity) that is made generally available with CA Offerings.

2.6 "License Metric" means the specific criteria for measuring the usage of the CA Offering (such as MIPS, CPUs, tiers, servers, or users).

2.7 "Module" means the additional terms and conditions applicable to the CA Offering.

2.8 "Parties" means individually and or collectively CA and or the Ordering Activity.

2.9 "Prime Contractor" means the entity contracting directly with the Ordering Activity, if other than an Authorized CA Partner.

2.10 "Term" means the period for which Ordering Activity is authorized to use the CA Offering as specified in CA's order with Ordering Activity's chosen Authorized CA Partner or the Prime Contractor.

3. ORDERING AND DELIVERY

3.1 This Agreement applies to each specific CA Offering purchased by Ordering Activity from an Authorized CA Partner or Prime Contractor. Use of the CA Offerings, or of this Agreement to procure CA Offerings, by Ordering Activity's Affiliates outside of the jurisdiction specified for Ordering Activity in the order between CA and the Authorized CA Partner or Prime Contractor is not permitted unless such Affiliate signs a participation agreement with CA to adopt and adhere to the terms of this Agreement.

3.2 CA will deliver or make available a CA Offering to Ordering Activity only upon, and in accordance with, CA's execution of an order with the Authorized CA Partner. Any terms that may appear on an Ordering Activity's purchase order (including without limitation pre-printed terms), or as part of Ordering Activity's order with an Authorized CA Partner or Prime Contractor, that conflict or vary from the terms and conditions of this Agreement shall not apply to CA and shall be deemed null and void unless otherwise required by law.

3.3 The CA Offering will be delivered by CA to Ordering Activity either by electronic delivery (ESD) or in tangible media in accordance with the terms of the GSA Schedule contract and the relevant purchase order. CA agrees to be responsible for all customs duties and clearances.

4. CONFIDENTIAL INFORMATION

4.1 The Parties agree that when receiving Confidential Information from the disclosing Party, that the receiving Party shall hold it in confidence and shall not disclose or use such information except as permitted under the Agreement. The receiving Party shall treat the disclosing Party's Confidential Information confidentially and in the same manner as it treats its own proprietary and/or confidential information, which shall not be less than a reasonable standard of care, and the receiving Party shall use Confidential Information only for the purposes described in the Agreement. Confidential Information may be disclosed to receiving Party's employees, agents, financial advisors, contractors and attorneys on a need-to know basis and the receiving Party shall ensure that such persons maintain such Confidential Information pursuant to the terms of the Agreement.

4.2 The receiving Party shall be permitted to disclose Confidential Information in connection with a judicial or administrative proceeding to the extent that such disclosure is required under applicable law or court order, provided that the receiving Party shall, where reasonably possible, give the disclosing Party prompt and timely written notice of any such proceeding and shall offer reasonable cooperation in any effort of the disclosing Party to obtain a protective order.

4.3 For the purposes of the Agreement, Confidential Information shall exclude: (i) information which the receiving Party has been authorized in writing by the disclosing Party to disclose without restriction; (ii) information which was rightfully in the receiving Party's possession or rightfully known to it prior to receipt of such information from the disclosing Party; (iii) information which was rightfully disclosed to the receiving Party by a third Party having proper possession of such information, without restriction; (iv) information which is part of or enters the public domain without any breach of the obligations of confidentiality by the receiving Party; and (v) information which is independently developed by the receiving Party without use or reference to the disclosing Party's Confidential Information.

4.4 Nothing in the Agreement will (i) preclude CA from using the ideas, concepts and know-how which are developed in the course of providing any CA Offerings to Ordering Activity or (ii) be deemed to limit CA's rights to provide similar CA Offerings to other customers. Ordering Activity agrees that CA may use any feedback provided by Ordering Activity related to any CA Offering for any CA business purpose, without requiring consent including reproduction and preparation of derivative works based upon such feedback, as well as distribution of such derivative works.

4.5 To the extent permitted by the Federal Records Act, the receiving Party agrees, upon request of the disclosing party, to return to the disclosing Party all Confidential Information in its possession or certify the destruction thereof.

4.6 For CA software (including code) and Documentation, and Ordering Activity's and/or CA's Confidential Information expressly designated in writing as perpetually confidential, the obligations of this section are perpetual and shall survive termination. For all other Confidential Information, the foregoing obligations shall extend for five (5) years from the date of initial disclosure.

5. FEES

5.1 The Parties acknowledge and agree that all terms governing the fees, payments, payment schedules, pricing and discounts for the applicable CA Offering procured by Ordering Activity under this Agreement are and shall be between solely Ordering Activity and their chosen Authorized CA Partner or Prime Contractor.

6. TITLE

6.1 CA retains all right, title, copyright, patent, trademark, trade secret and all other proprietary interests to all CA Offerings and any derivatives thereof. No title, copyright, patent, trademark, trade secret or other right of intellectual property not expressly granted under the Agreement is exchanged between the Parties.

7. WARRANTY

7.1 Each Party represents and warrants that it has the legal power to enter into the Agreement.

7.2 CA represents and warrants that it owns or otherwise has sufficient rights to grant Ordering Activity the rights defined in the Agreement.

8. INDEMNIFICATION

8.1 CA will indemnify any third party claims that Ordering Activity's use of the specific CA Offering licensed or purchased by Ordering Activity under this Agreement infringes any valid US patent or copyright within the jurisdictions where Ordering Activity is authorized to use the CA Offering at the time of delivery. CA may, at its option and expense: (i) procure for Ordering Activity the

right to continue to use the CA Offering; (ii) repair, modify or replace the CA Offering so that it is no longer infringing; or (iii) provide a pro-rated refund to the Authorized CA Partner of the fees paid for the CA Offering which gave rise to the indemnity calculated against the remainder of the Term from the date it is established that CA is notified of the third party claim. If the CA Offering is CA Software, and is licensed on a perpetual basis, an amortization schedule of three (3) years shall be used for the basis of the refund calculation.

8.2 CA shall have no liability: (i) in the event the allegation of infringement is a result of a modification of the CA Offering except a modification by CA, (ii) if the CA Offering is not being used in accordance with CA's specifications, related documentation and guidelines, (iii) if the alleged infringement would be avoided or otherwise eliminated by the use of a CA published update or patch, (iv) if the alleged infringement is a result of use of the CA Offerings in combination with any third party product, or (v) if the applicable fees due for the specific CA Offering have not been paid by Ordering Activity or Prime Contractor to its Authorized CA Partner. The indemnifications contained herein shall not apply and CA shall have no liability in relation to any CA Offering produced by CA at the specific direction of Ordering Activity. THE FOREGOING PROVISIONS STATE THE ENTIRE LIABILITY AND OBLIGATIONS OF CA REGARDING CLAIMS OF INFRINGEMENT, AND THE EXCLUSIVE REMEDY AVAILABLE TO ORDERING ACTIVITY WITH RESPECT TO ANY ACTUAL OR ALLEGED INFRINGEMENT OR MISAPPROPRIATION OF ANY INTELLECTUAL PROPERTY OR OTHER PROPRIETARY RIGHTS.

8.3 CA shall indemnify Ordering Activity against all damages, fees, (including reasonable attorney's fees) fines, judgments, costs and expenses finally awarded as a result of a third party action alleging a bodily injury or death which arises under the Agreement, provided that such liabilities are the proximate result of gross negligence or intentional tortuous conduct on the part of CA.

8.4 The above indemnities are contingent upon: (i) Ordering Activity providing prompt notice of any claim of infringement and assistance in the defense thereof, (ii) CA's right to consult with Ordering Activity at any time and to intervene in the proceedings through CA's chosen counsel at CA's expense, provided that Ordering Activity shall not have the right to settle any claim requiring CA to make a payment or to admit liability without CA's prior written agreement , and (iii) Ordering Activity not taking any actions or failing to take actions that hinder the defense or settlement process.

9. LIMITATION OF LIABILITY

EXCEPT IN THE CASE OF A BREACH OF TITLE, INFRINGMENT OF CA'S INTELLECTUAL PROPERTY RIGHTS OR CONFIDENTIALITY, OR OF THIRD PARTY CLAIMS ARISING UNDER THE INDEMNIFICATION SECTION, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW NEITHER PARTY (INCLUDING ANY OF CA'S SUPPLIERS) SHALL BE LIABLE FOR A) ANY INDIRECT, SPECIAL, CONSEQUENTIAL, INCIDENTAL, OR PUNITIVE DAMAGES OF ANY NATURE, INCLUDING, BUT NOT NECESSARILY LIMITED TO, LOSS OF PROFIT, DAMAGES RELATING TO MONIES SAVED OR FEES GENERATED AND OR ANY LOSS OF DATA BY USE OF ANY CA OFFERING, REGARDLESS OF WHETHER A PARTY WAS APPRISED OF THE POTENTIAL FOR SUCH DAMAGES; AND B) IN NO EVENT WILL A PARTY'S LIABILITY, EXCEED THE FEES PAID AND OR OWED TO CA FOR THE THEN CURRENT INITIAL OR RENEWAL TERM FOR WHICH THE ORDERING ACTIVITY HAS PROCURED THE CA OFFERING OR AS FURTHER DEFINED IN THE MODULE. FURTHERMORE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, CA SHALL NOT INCUR ANY LIABILITY FOR DEATH OR BODILY INJURY TO ANY THIRD PARTY UNLESS THE SAME ARISES FROM THE INTENTIONAL OR GROSSLY NEGLIGENT ACT(S) OF CA. This clause shall not impair the U.S. Government's right to recover for fraud or crimes arising out of or related to this Agreement under any federal fraud statute, including the False Claims Act, 31 U.S.C. §§ 3729-3733.

10. TERM & TERMINATION

10.1 This Foundation Agreement shall continue in effect unless otherwise terminated in accordance with this section or as required pursuant to Federal Acquisition Regulation (FAR) 52.212-4 "Contract Terms and Conditions- Commercial Items" sections (l) "Termination for the Government's Convenience" and (m) "Termination for Cause."

10.2 In the event Ordering Activity elects to terminate an order for its convenience prior to the expiration of the then current term, and such order includes licenses for CA Software, Ordering Activity shall also, within a reasonable period of time, delete all copies of such software from its systems, including copies stored for archival purposes and either destroy or return them to CA. The foregoing shall not apply, however, where such licenses were perpetual and Ordering Activity, at the time of such termination, has paid all associated perpetual license fees.

10.3 Termination does not release either Party from any liability which, at the time of such termination, had already accrued to the other Party or which is attributable to a period prior to such termination, nor preclude either Party from pursuing any rights or remedies it may have under law or in equity with respect to any breach of this Foundation Agreement or the Agreement.

11. DISPUTE RESOLUTION

11.1 Prior to the initiation of formal dispute resolution procedures regarding any dispute, controversy, or claim arising out of the Agreement or interpretation thereof (a "Dispute"), the Parties shall first meet as often, and for such duration and as promptly as the Parties reasonably deem necessary to discuss the Dispute and negotiate in good faith in an effort to resolve it.

11.2 The provisions of paragraph 11.1 will not be construed to prevent a Party from instituting formal proceedings to the extent necessary to avoid the expiration of any applicable limitations period or to pursue equitable rights or injunctive remedies deemed reasonable necessary to protect its interests.

11.3 Disputes relating to the payments of fees, any third party products or services or otherwise relating to the terms and conditions of an order between an Authorized CA Partner and Ordering Activity, shall be between Ordering Activity and such Authorized CA Partner, or if applicable, between Ordering Activity and Prime Contractor, and Ordering Activity agrees that it shall have no right of contribution or other claim from or against CA by reason thereof.

12. GENERAL TERMS

12.1 **Amendments**. The terms of the Agreement may only be amended by mutual written agreement of the Parties.

12.2 **Force Majeure**. Except for payment obligations and obligations pertaining to non-disclosure, notwithstanding any contrary provision in the Agreement, neither Party will be liable for any action taken, or any failure to take any action required to be taken, in the event and to the extent that the taking of such action or such failure arises out of causes beyond a Party's control, including, without limitation, war, civil commotion, act of God, strike or other stoppage (whether partial or total) of labor, any law, decree, regulation or order of any government or governmental body (including any court or tribunal).

12.3 **Order of Precedence**. Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) the relevant Module and(3) this Channel Foundation Agreement. Notwithstanding this Order of Precedence, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

12.4 **Ordering Activity Data**. If Ordering Activity transfers any personal data to CA as a requirement pursuant to any CA Offering, then Ordering Activity represents that (i) it is duly authorized to provide personal data to CA and it does so lawfully in compliance with relevant legislation, (ii) CA and any entity within the CA group of companies (each a "CA entity") or its subcontractors can process such data for the purposes of performing its obligations and (iii) CA may disclose such data to any CA entity and its subcontractors for this purpose and may transfer such data to countries outside of the country of origin. CA, Inc. is Safe Harbour certified and the CA Entities have committed to comply with relevant data protection/privacy legislation.

12.5 **Import Export**. Ordering Activity agrees that CA Offerings, Documentation, and or Confidential Information is subject to export controls of the United States of America and import controls of any other country in which such information may be used. Ordering Activity agrees to export, re-export or import such information only in compliance with such laws and controls.

12.6 **Announcements**. Neither Party may issue press releases relating to the Agreement without approving the content with the other Party. Either Party may include the name and logo of the other Party in lists of customers or vendors in accordance with the other Party's standard guidelines.

12.7 **Counterparts**. This Foundation Agreement and any Module, as applicable, may be signed in any number of counterparts by the Parties and each part shall be considered part of the whole and valid, legally binding document.

12.8 **Notice**. All notices hereunder shall be delivered to the other Party identified in the Agreement either personally, via certified mail, facsimile or overnight courier. If delivered personally, notice shall be deemed effective when delivered; if delivered via facsimile, notice shall be deemed effective upon electronic confirmation; and if delivered via certified mail or overnight courier, notice shall be deemed effective upon confirmation of delivery.

12.9 **Headings**. The section headings used herein are for information purposes only and shall not affect the interpretation of any provision of this Agreement.

12.10 **Validity**. In the event any term or provision of the Agreement shall be held to be invalid, the same shall not affect in any respect whatsoever the validity of the remainder of the Agreement.

12.11 **Third Parties**. This Agreement shall not create any rights in favor of, or any obligations owed by, any third party unless otherwise expressly defined in any Module. The Parties agree that any action arising from this Agreement shall solely be brought by Ordering Activity, the U.S. Government, or CA, unless otherwise permitted by law.

12.12 **Choice of Law**. To the extent that federal law is not dispositive of a dispute hereunder, the laws of the State of New York (excluding its conflict of laws provisions) shall govern the construction and enforceability of the Agreement.

12.13 **Survival**. Sections pertaining to Confidentiality, Title, Limitation of Liability, Termination, and Import Export shall survive termination of this Foundation Agreement.

12.14 **Entire Agreement**. The Agreement and all documents incorporated by reference therein shall comprise the entire agreement as pertaining to the subject matter thereof and all other prior representations, proposals, and other such information exchanged by the Parties concerning the subject matter is superseded in their entirety by the Agreement.

Channel SaaS Module

U.S. Public Sector

1. INTRODUCTION

1.1. This Module for Software as a Service ("SaaS Module") specifies terms and conditions which apply to Software as a Service that CA will provide to Ordering Activity.

1.2. This SaaS Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this SaaS Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

2. DEFINITIONS

2.1. "Ordering Activity Data" means information stored in the SaaS database.

2.2. "Force Majeure Event" means an event of Force Majeure as defined in the Foundation Agreement and/or delays caused by an internet service provider or hosting facility that results in data center outages resulting from causes not within CA's control.

2.3. "ISO 27001" means an Information Security Management System standard published by the International Organization for Standardization (ISO). This particular standard specifies a management system that is intended to bring information security under explicit management control and mandates specific requirements when this standard is met.

2.4. "Production" means the "live" environment of SaaS provided to process data on a real-time basis.

2.5. "Production Availability" means, for purposes of measuring the Service Level, the aggregate number of minutes during the month in which the SaaS is available for Production access and use by Ordering Activity.

2.6. "SaaS" means the online version of the CA Software specified in the Authorized CA Partner's order with CA for access to and usage by its customers via a website(s) environment.

2.7. "SAS 70 Type II" means the standards used by an independent auditor that employs procedures, policies and controls of SAS 70 Type I to verify and validate that the organization is following those procedures regarding control objectives, activities and control over information technology, and related processes.

2.8. "SaaS Support" means support of the underlying CA software so it operates materially in accordance with the Documentation.

2.9. "Sandbox" means a development or test environment that is not Production.

2.10. "Scheduled Downtime" means planned downtime of SaaS availability where CA provides notice to Ordering Activity at least 72 hours in advance.

2.11. "Service Level" means as described in the section entitled: Service Level Commitments.

2.12. "Subscription Term" means the period of the Ordering Activity's subscription to the SaaS as specified in the Authorized CA Partner's order with CA.

2.13. "Users" means the number of individuals authorized to access and use of SaaS by Ordering Activity and who have been provided user identifications and passwords by Ordering Activity (or by CA at Ordering Activity's request), measured by CA on an aggregate monthly basis by the amount of User Logins. Users may include Ordering Activity and Affiliate's employees and independent contractors that agree to be bound by terms and conditions no less restrictive than those contained herein and are acting on behalf of Ordering Activity and not a third party.

2.14. "User Logins" means the initial and standard login screen where a User is required to enter its user ID and the password.

3. SAAS OFFERING

3.1. CA shall provide SaaS to Ordering Activity during the Subscription Term directly or through a third party SaaS provider in accordance with the terms of the Agreement.

3.2. CA hereby provides Ordering Activity a non-transferable and non-exclusive right to access and use SaaS for the sole purpose of supporting its internal business use. A new User may replace a former User who no longer requires access to, or use of, the SaaS. Users may be Ordering Activity employees, Ordering Activity third party consultants, contractors or agents, which third parties may

access and use the SaaS solely for the benefit of Ordering Activity's internal business purposes in accordance with the provisions of this Agreement.

3.3. Ordering Activity acknowledges and agrees that in order for CA to effectively provide SaaS, Ordering Activity may be required to provide necessary information and shall not delay, prevent or interfere with CA's provision of SaaS.

4. FEES & RENEWAL

4.1. Ordering Activity may access SaaS for solely the number and type of Users specified in the Authorized CA Partner's order with CA. Additional Users, or an additional SaaS offering, if available, shall require Ordering Activity to procure with CA or an Authorized CA Partner (whether directly or through a Prime Contractor) for such users or offering. Unless otherwise agreed by CA, (i) additional Users may be purchased only in increments of 50 Users; and (ii) such additional User subscriptions shall be coterminous with the expiration of the Subscription Term.

4.2. CA may with notice prior to any renewal, replace the Ordering Activity ordered SaaS with replacement, underlying software that is generally available to customers with alternative, materially similar, functionality.

4.3. The fees for SaaS subscription are not contingent upon the delivery of any future functionality or features of the CA Software.

5. ORDERING ACTIVITY DATA

5.1. Ordering Activity exclusively owns all rights, title and interest in and to all Ordering Activity Data. Ordering Activity Data shall be considered to be Confidential Information under the Agreement. CA shall not access Ordering Activity's User accounts, or Ordering Activity Data, except (i) in the course of data center business operations if required, (ii) in response to SaaS or technical issues or (iii) at Ordering Activity's specific request as reasonably required in the provision of SaaS. CA will segregate Ordering Activity's Data from other customers' data.

5.2. CA operates and maintains a disaster recovery procedure. In case of a Force Majeure Event, Ordering Activity acknowledges and agrees that Ordering Activity Data may not be recoverable and accepts responsibility for re-entry of such data.

5.3. Ordering Activity Data will be returned to the Ordering Activity at the end of the Subscription Term or at the termination of the SaaS subscription in the manner described in the SaaS Documentation.

6. SECURITY

6.1. CA shall adhere to SAS 70 Type II audit compliance criteria and data security procedures which meet ISO 27001 status during the Subscription Term.

6.2. CA shall comply with CA's security policy and procedures, which policies and procedures are designed to provide and maintain commercially reasonable safeguards against the destruction, loss or alteration of, or unauthorized access to or use of the Ordering Activity Data in CA's possession or control and which safeguards are, at a minimum, no less rigorous than those maintained by CA for its own information of a similar nature.

6.3. Ordering Activity Data shall be stored pursuant to CA's data security procedures, which shall be provided to Ordering Activity upon request. Except as required herein, CA will not be responsible for any unauthorized access to, or alteration, theft or destruction of Ordering Activity Data, unless caused as a result of CA's negligence or intentional misconduct, in which case restoring or recovery of Ordering Activity Data shall be limited to the most recent back-up of Ordering Activity Data. CA is not responsible for loss of Ordering Activity Data arising from Ordering Activity's: (i) transmission of data in contravention of the User Guide; or (ii) failure to act on any CA provided communication.

6.4. CA shall comply with the applicable EU member states' implementation of the Directive 95/46/EC ("Directive") governing the processing of personal data as defined specifically in the Directive and CA, Inc. is Safe Harbour certified.

6.5. Ordering Activity or an independent third party may audit CA's operations within the applicable data center to verify CA's compliance with the security and technical provisions defined in this Module. The audit may take place, no more than once annually, upon thirty (30) days prior written notice subject to Ordering Activity or its independent third party having executed a CA confidentiality agreement and stating the purpose and scope of the request. Such audit shall be conducted during normal business hours in a manner that does not disrupt business operations.

7. INITIATION AND SUPPORT PROCESSES

7.1. The following processes apply to the SaaS:

i. CA will send an email to Ordering Activity's technical contact identified in the Authorized CA Partner's order with CA setting out the SaaS URL(s) and other information necessary for initial use of the SaaS. Ordering Activity shall provide information as requested within 7 days of receiving the email.

ii. Customer will utilize the CA Support website, or other site or notification mechanism as CA may designate from time to time, to notify CA of SaaS availability issues, request other in-scope technical support assistance, or for Customer's to provide feedback or approvals on requests as applicable.

8. SAAS SUPPORT

8.1. The Ordering Activity shall be provided with SaaS Support during the Subscription Term.

8.2. For any SaaS Support requests, Ordering Activity should be prepared to provide to SaaS Support personnel, all pertinent information, in English, including but not limited to, Ordering Activity number or site identification number, incident severity, SaaS/software name, area of SaaS (Production or Sandbox), incident description, and a technical contact familiar with Ordering Activity's environment or the problem to be solved. Ordering Activity must use reasonable efforts to communicate with CA in order to verify the existence of the problem and provide information about the conditions under which the problem could be duplicated.

8.3. Upon receiving Ordering Activity's technical contact information, SaaS Support will be provided in a timely and professional manner by qualified support engineers as defined below:

i. Access to CA help desk and the ability to open and manage support incidents via CA support online or by telephone.

ii. Production environment support: 24x7 for severity 1 incidents; normal business hours for severities 2-4.

iii. Sandbox environment support: Normal business hours for incidents of all severities.

iv. Access to CA support website (currently: http://support.ca.com) for 24x7x365 online support and access to CA software product and documentation, global user communities and regional user groups, FAQs, samples, webcast recordings and demos, usage tips, technical updates and HYPER notifications, as such are made available by CA.

v. Interactive remote diagnostic support allowing CA support engineers to troubleshoot an incident securely through a real-time browser-based remote control feature.

vi. Additional support such as file storage, point in time backup, periodic file refresh and basic reporting may be available at CA's discretion according to the SaaS provided.

Any additional support requirements are only by prior written agreement with CA.

8.4. In order to respond to an issue raised through SaaS Support, CA may request Ordering Activity to upgrade to appropriate operating systems and or third party applications as required in order to properly operate and access the SaaS offering. Any such upgrades or installations shall be at the Ordering Activity's sole option and discretion. The costs associated with any upgrades required and any such installations are not included as SaaS Support and all such costs shall be the responsibility of the Ordering Activity.

9. ORDERING ACTIVITY RESPONSIBILITIES

9.1. Ordering Activity is responsible for all activities that occur in, or are related to, User accounts including the data, information stored or transmitted when accessing SaaS.

9.2. Because Ordering Activity may integrate or utilize third party links to other software, hardware or other service which are associated with, or otherwise available through SaaS, Ordering Activity agrees that it and its Users shall use such third party links in their sole discretion. CA shall have no responsibility or liability with respect to such third party links used by Ordering Activity's or Users' or for any act or omission of any such third party provider.

9.3. Ordering Activity shall not: (i) make SaaS available to any third party not authorized, other than to Users or as otherwise contemplated by this Agreement; (ii) send or store code that can harm or result in damage to the SaaS offering (including but not limited to malicious code and malware); (iii) wilfully interfere with or disrupt the integrity of SaaS or the data contained therein; (iv) attempt to gain unauthorized access to the SaaS or its related system or networks; (v) use SaaS to provide services to external end users and or to process data other than Ordering Activity's as an outsourcer, service bureau or consultant without written permission provided by CA.

10. WARRANTY

10.1. CA warrants that (i) SaaS shall perform materially in accordance with the applicable SaaS Documentation and (ii) that SaaS will be available online according to the performance levels described in the Service Levels defined in this SaaS Module.

10.2. EXCEPT AS EXPRESSLY SET FORTH ABOVE, TO THE EXTENT PERMITTED BY LAW, NO OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THIRD PARTY WARRANTIES, IMPLIED WARRANTIES OF MERCHANTABILITY, SUITABILITY OR SATISFACTORY QUALITY, OR THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE ARE MADE BY CA AND CA MAKES NO WARRANTIES HEREUNDER WITH RESPECT TO ANY HARDWARE EQUIPMENT OR THIRD PARTY SOFTWARE WHICH CA MAY USE TO PROVIDE THE SAAS.

10.3. Ordering Activity warrants that (i) it has the right to transmit any data or information as may be required for the purposes of accessing SaaS (ii) it will ensure compliance to the Agreement by itself and its Users and (iii) it is responsible for all activities that occur in User accounts, (iv) it shall not misuse SaaS through sending spam or otherwise duplicative or unsolicited messages or store infringing, obscene, threatening, or otherwise unlawful material that is harmful to children or violates third party privacy rights.

11. WARRANTY REMEDY

11.1. In the event of a breach of the Warranty by CA, CA may in consultation with Ordering Activity (i) use reasonable efforts consistent with industry standards to cure the defect as defined in CA Support process outlined in this SaaS Module and or (ii) Ordering Activity may exercise its rights to termination as defined under the Service Level Commitment section below and qualify for a refund as defined therein and or (iii) mutually agree with Ordering Activity to terminate the subscription and provide a pro-rata refund to the Authorized CA Partner calculated on the number of months left remaining on the Subscription Term. Warranty remedies are conditioned upon (i) any error or defect complained of is reasonably reproducible by CA, (ii) the breach is not attributable in whole or in part to any non-CA product(s) or service(s).

12. SERVICE LEVEL COMMITTMENT

12.1. Service Levels: The following Service Levels will apply to the applicable SaaS offering during the applicable Subscription Term:

i. Production Availability of SaaS 99.5% on a monthly basis. If Production Availability falls below 99%, it shall be considered a minor failure; and if Production Availability falls below 98%, it shall be considered a major failure.

12.2. Ordering Activity will be provided monthly electronic reports regarding Service Levels and follow the procedure set out below:

i. CA will investigate missed Service Levels through determining the root cause of the issue then using commercially reasonable efforts to correct the issue and advising Ordering Activity as reasonably requested by Ordering Activity of the status of efforts being undertaken with respect to the issue;

ii. Provide Ordering Activity reasonable evidence to Ordering Activity that the cause of the issue is being corrected or will be corrected and

iii. In the event of a minor failure, Ordering Activity is entitled to 2 additional days of the applicable SaaS offering at no additional charge. In the event of a major failure, Ordering Activity is entitled to 5 additional days of the applicable SaaS offering at no additional charge.

12.3. Pursuant to FAR 52.212-4(l), Ordering Activity may terminate for convenience its subscription to SaaS without incurring any additional charges or termination fees. In the event of such termination for convenience CA shall refund to the CA Authorized Partner that portion of the fees paid which have not yet been applied towards SaaS as of the effective date of termination. Any such refund herein shall be Ordering Activity's sole and exclusive remedy under this SaaS Module with respect to CA only and CA shall have no further liability arising out of the applicable SaaS subscription, and shall not impact termination of any other Module or the Foundation Agreement. This section does not limit the rights or remedies of the Ordering Activity under FAR 52.212-4(m), Termination for cause.The following events shall be excluded from the calculation of any Service Level failures: (i) Force Majeure Event; (ii) outages due to Scheduled Downtime such as upgrading data center infrastructure; (iii) outages based on Ordering Activity networks or domain name server issues; (iv) Ordering Activity's configuration, scripting, coding; (v) internet outages; (vi) Ordering Activity outages requested by Ordering Activity (vii) Ordering Activity changes to its environment which hinder SaaS production and (viii) inability for Ordering Activity to log in due to use of Lightweight Directory Access Protocol (LDAP) to control authentication.

13. NIMSOFT SaaS

13.1. The following sections of this Module are not applicable to Nimsoft Saas transactions:

i. 2.2;

ii. 2.3;

iii. 2.7;

iv. 5.2;

v. 6.1;

vi. 6.5 and

vii. 12.2;

13.2. The following sections of this Module are modified or added as follows for Nimsoft SaaS (On-Demand) transactions to the extent consistent with U.S. Federal law:

i. Section 7.1 ii: "Ordering Activity will utilize the **Nimsoft** CA Support website, or other site or notification mechanism as CA may designate from time to time, to notify CA of SaaS availability issues, request other in-scope technical support assistance, or for Ordering Activity to provide feedback or approvals on requests as applicable."

ii. Section 8.1: "The Ordering Activity shall be provided with SaaS Support pursuant ot the terms of http://www.nimsoft.com/content/dam/nimsoft/documents/un-secure/agreements/nimsoft-us-support-agreement.pdf during the Subscription term."

iii. Section 10.1: "CA warrants that (i) SaaS shall perform materially in accordance with the applicable SaaS Documentation for a period of 60 days from the commencement of the Term and (ii) that SaaS will be available online according to the performance levels described in the Service Levels defined in this SaaS Module.

iv. Add the following as Section 15:

"15. **REPORTING AND AUDIT**

Reports. Ordering Activity agrees to prepare and submit monthly reports to the Authorized CA Partner and CA that shall include, without limitation, information detailing the use of SaaS pursuant to the license metrics applicable to SaaS ("Report"). Ordering Activity shall submit each Report to the Authorized CA Partner and CA on the fifteenth day of each calendar month.

Overage. If the Report shows the Ordering Activity has exceeded the Authorized Use Limitation at any time during a month, such Report shall constitute a basis for a claim to the relevant Contracting Officer pursuant to the Contract Disputes Act and FAR 52.233-1. In no event may the SaaS quantity be lowered below the original numberordered.

14. **GENERAL TERMS**.

14.1. Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this Channel SaaS Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

Channel Hardware Appliance Module
U.S. Public Sector

1. INTRODUCTION

1.1. This Module for the Hardware Appliance ("Hardware Appliance Module") specifies terms and conditions which apply to the Hardware Appliance which CA will provide to Ordering Activity.

1.2. This Hardware Appliance Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this Hardware Appliance Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

2. DEFINITIONS

2.1. "Hardware" means a single CA-supplied third party physical server or device.

2.2. "Hardware Appliance" means Hardware that is bundled with and operates the CA Software licensed by Ordering Activity and pre-installed on the Hardware.

3. APPLIANCE OFFERING

3.1. CA shall provide the Hardware Appliance specified in the Authorized CA Partner's order with CA.

3.2. The terms for license and support for the underlying CA Software is covered separately under the Software Module.

4. FEES

4.1. Ordering Activity may order Hardware Appliance with, and pay the associated fees and other charges to an Authorized CA Partner or Prime Contractor. CA will deliver to Ordering Activity the Hardware Appliance specified in the Authorized CA Partner's order with CA.

4.2. Upon CA's receipt of payment from the Authorized CA Partner, Ordering Activity will own the Hardware free of any liens or encumbrances.

5. WARRANTY

5.1. Upon the purchase of a Hardware Appliance, CA will pass through to the Ordering Activity the applicable Hardware warranty. Such warranty will be provided for a period of twelve (12) months or more depending on the type of Hardware Appliance purchased. A copy of the applicable third party support warranty coverage is available under the "Get Support" section of CA's Support website located at https://support.ca.com.

6. WARRANTY REMEDY

6.1. To address a warranty issue on the Hardware, CA will provide Ordering Activity telephone assistance to access the third party Hardware support to address support issues with the Hardware.

6.2. Except for procuring third party warranty coverage for the Hardware as described above, the Hardware is provided on an "AS IS" basis and CA makes no warranties, and disclaims any and all express or implied warranties (including but not limited to warranties of merchantability or satisfactory quality or fitness for a particular purpose), with respect to the Hardware. None of the warranties specified in the Foundation Agreement or any other agreement shall apply to the Hardware.

7. ORDERING ACTIVITY REQUIREMENTS

7.1. Ordering Activity is solely responsible for use of the Hardware, including assuring proper supported environment configuration, CA software installation, and operating methods in accordance with the Hardware specifications and Documentation.

7.2. CA will not support modifications to the Hardware nor will it support the Hardware if Ordering Activity fails to comply with the terms of the Agreement to the extent such failure causes the Hardware's failure to perform in substantial accordance with the applicable Hardware documentation.

7.3. CA shall have no obligation to replace the Hardware, or provide additional hardware, in cases where future Versions or Releases (as such terms are defined in the Software Module) of the CA Software require an upgrade of or addition to such Hardware.

8. GENERAL TERMS

8.1. Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this Channel Hardware Appliance Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase

order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

1. INTRODUCTION

1.1. This Module for Education ("Education Module") specifies terms and conditions which apply to Education that CA will provide to Ordering Activity.

1.2. This Education Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this Education Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

2. DEFINITIONS

2.1. "Attendees" mean the participants authorized by Ordering Activity to attend or participate in the Education offerings as indicated in the Transaction Document.

2.2. "Course Materials" means any Education content provided to Ordering Activity in any media form pursuant to a Transaction Document, including without limitation, all publications, courseware, training manuals and materials, user guides, web portals, or virtual labs provided by CA or a CA subcontractor.

2.3. "Education" means any standard or customized education offerings, training or instruction, or related services, provided by CA or a CA subcontractor in any format or location, including without limitation, (i) instructor led training, including at CA or Ordering Activity site(s), (ii) virtual training, including online classes, courses, or course catalogues and/or (iii) class room training or testing, at a CA or third party training facility.

3. EDUCATION OFFERING

3.1. CA shall provide the Education as specified in the Authorized CA Partner's order with CA.

3.2. CA may require the registration or pre-registration of Attendees in order to attend or access the applicable Education. Ordering Activity acknowledges that CA reserves the right to refuse entry or access to any individual that cannot authenticate their registration or authorization for such Education.

4. FEES AND CANCELLATION

4.1. The Parties acknowlede and agree that all terms governing the fees, payments, payment schedules, pricing and discounts for the applicable CA Offering procured by Ordering Activity under this Agreement are and shall be between solely Ordering Activity and their chosen Authorized CA Partner or Prime Contractor.

4.2. If CA cancels a class due to unforeseen circumstances, or low enrollment, CA will provide as much advance notice as possible but no less than ten (10) business days prior to the class in which case Ordering Activity may reschedule the class to an alternative time.

4.3. Cancellation in writing by Ordering Activity must be provided at least ten (10) business days prior to the class. If such notice is not given CA may charge Authorized CA Partner up to 100% of the fees for the class. If fees are pre-paid, no refund will be provided to the Authorized CA Partner

4.4. Neither party shall be liable for any travel related fees or expenses incurred by the other party in relation to Education which such party has properly cancelled in compliance with this section.

5. INTELLECTUAL PROPERTY RIGHTS

5.1. CA grants to Ordering Activity, a non-exclusive, non-transferable license to use the Course Materials for the internal use of the Ordering Activity, but limited to the specific Attendees and subject to terms of the Agreement. Ordering Activity shall be responsible for all use of the Education and Course Materials by its Attendees.

6. WARRANTY

6.1. If CA provides an instructor, the delivery of the Course Offering shall be provided in a professional, workman-like manner.

6.2. EXCEPT AS SET FORTH IN THIS SECTION, NO OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THIRD PARTY WARRANTIES, THE IMPLIED WARRANTIES OF MERCHANTABILITY OR SUITABILITY AND/OR THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE ARE MADE BY CA.

7. WARRANTY REMEDY

7.1. In the event of a breach of the Warranty section, Ordering Activity's remedy shall be, at CA's discretion and in consultation with Ordering Activity, to re-perform the Education at no additional charge to the Ordering Activity. These remedies are contingent upon the alleged breach not resulting from Ordering Activity's failure to abide by its obligations or to conform to the Course Materials.

8. GENERAL TERMS

Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this Channel Education Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

1. INTRODUCTION

1.1. This Module for CA Software ("Software Module") specifies terms and conditions which apply to CA Software that CA will license to Ordering Activity and the Support that applies.

1.2. This Software Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this Software Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

2. DEFINITION

2.1. "Access" means use of CA Software remotely by an Authorized End User.

2.2. "Authorized End Users" means Ordering Activity as well as its employees and support contractors (but excluding any outsourcer, facilities management providers, managed service provider, or application service provider) that are bound by terms and conditions no less restrictive than those contained herein and are acting on behalf of Ordering Activity and not a third party.

2.3. "Authorized Use Limitation" means the quantity of the CA Software authorized by CA in accordance with the License Metric specified in the order between CA and the Authorized CA Partner.

2.4. "CA Software" means the computer software programs, either provided individually or packaged as a software appliance, made generally available and licensed to a Ordering Activity under this Module, including all Versions, Releases, provided as part of Support if applicable.

2.5. "Distributed" means the CA Software designated as distributed that is generally used for indepedent usage across individuals systems or hardware based on the Licensed Metric in a decentralized form of computing.

2.6. "Mainframe" means CA Software designated as mainframe that is generally used for a large capacity processor that provides links to users through less powerful devices such as workstations or terminals based on the Licensed Metric in a centralized form of computing.

2.7. "Maintenance" means the provision of new Releases made available while on active Support or new Versions if applicable to the generally available CA Software licensed by Ordering Activity.

2.8. "Perpetual License" means a license to use CA Software for an indefinite period subject to compliance with the Agreement.

2.9. "Release" means a general available release of a CA software product, which may contain minor new software product functionality, code, or compatibility and incorporates all previous fixes (if any exist) since the last Version. Typically, a Release requires a new installation, rather than an overlay to the already installed software. Unless otherwise specified by CA for a particular product, a Release is tied to the preceding Version and is typically designated by a number to the right of the decimal point such as 1.1, 1.2, 1.3, etc.

2.10. "Subscription" or "UMF" (Usage and Maintenance Fee) license means a license to use CA Software for a specific period of time which shall include Support unless otherwise specified by CA in its order with the Authorized CA Partner.

2.11. "Support" means the provision of technical support and Maintenance provided for a particular CA Software as specified in the Authorized CA Partner's order with CA.

2.12. "Territory" is the location where Ordering Activity is authorized to install the CA Software as specified in the Authorized CA Partner's order with CA or the Prime Contractor.

2.13. "Version" means a release of a CA Software Product that contains major changes in software product functionality, code, or compatibility and incorporates the previous release (if one has occurred), fixes and service Packs (if they have occurred). Typically, a Version requires a new installation, rather than an overlay to the already installed software. Unless otherwise specified by CA for a particular product, a Version is designated by the number to the left of the decimal point such as 1.0, 2.0, 3.0, etc.

3. SOFTWARE OFFERING & OBLIGATIONS

3.1. CA grants the Ordering Activity a limited, non-exclusive, non-transferable license, for the Term:

3.1.1. install and deploy the CA Software in the Territory up to the Authorised Use Limitation.

3.1.2. permit its Authorized End Users Access to the CA Software for Ordering Activity's and Affiliates' internal business wherever located. Ordering Activity hereby expressly agrees that a breach by an Authorized End User of the Agreement shall be considered to be a breach by and the responsibility of the Ordering Activity.

3.1.3. make a reasonable number of copies of the CA Software for disaster recovery "cold standby", backup and archival purposes. Use of such copies is limited to testing Ordering Activity's disaster recovery procedures and effectiveness and as is necessary during any reasonable period subsequent to the occurrence of an actual disaster during which Ordering Activity cannot operate the CA Software.

3.1.4. relocate CA Software to a new Ordering Activity location within the Territory upon prior written notice.

3.2. The specifications and specified operating environment information of the CA Software may be found in the Documentation accompanying the CA Software, if available (e.g., a user manual, user guide, or readme.txt or notice.txt file).

3.3. Upon request by CA, Ordering Activity agrees to provide records reasonably requested by CA to verify its compliance with the Authorized Use Limitation during the period in which Ordering Activity is licensed to use the CA Software and for a period of twelve (12) months after expiration including certified copies of statements or records as applicable. Such reports will be based on the License Metric for the CA Software ordered for Customer by CA.

3.4. The grant of license is contingent upon Ordering Activity's compliance with the following obligations set out under this provision: Ordering Activity agrees, that it shall not: (i) access or use any portion of the CA Software not expressly authorized by CA or the Documentation of the CA Software; (ii) cause or permit de-compilation, reverse engineering, or otherwise translate all or any portion of the CA Software; (iii) modify, unbundle, or create derivative works of the CA Software and/or Documentation; (iv) rent, sell, lease, assign, transfer or sublicense the CA Software or use the CA Software to provide hosting, service bureau, on demand or outsourcing services for the benefit of a third party; (v) remove any proprietary notices, labels, or marks on or in any copy of the CA Software or Documentation; (vi) use the CA Software beyond the Authorized Use Limitation.

3.5. CA reserves the right, on reasonable notice to the Ordering Activity and subject to any security measures the Ordering Activity deems appropriate, to conduct an audit remotely or onsite of Ordering Activity and/or its Affiliates facilities to verify Ordering Activity's compliance with the terms of the Agreement. CA agrees that such audit shall be conducted during regular business hours at Ordering Activity's offices and CA shall endeavor to conduct such audit so as not to interfere unreasonably with Ordering Activity's activities and/or use an independent third party to conduct the audit subject to terms of non-disclosure if required.

3.6. All rights not specifically granted hereunder are expressly reserved.

4. SUPPORT OFFERING

4.1. If Support is purchased by Ordering Activity, CA will provide Ordering Activity with technical support for the CA Software, according to the Support specified in the Authorized CA Partner's order with CA, to operate according to the Documentation, help desk support and Maintenance for the CA Software based on Support guidelines as described on http://www.support.ca.com.

4.2. In order to initiate an issue, Ordering Activity will provide CA sufficient information so that CA can provide assistance to Ordering Activity in a timely manner.

4.3. CA will provide a minimum of twelve months prior written notice to Ordering Activity if CA ceases to provide new Versions or Releases for a CA Software product.

4.4. CA will renew Support for Ordering Activity's use of the CA Software upon its acceptance of an order with an Authorized CA Partner for such Support.

5. THIRD PARTY TERMS

The CA Software may contain third-party software components. Ordering Activities are advised to review any additional terms, notices, and/or information applicable to third-party software components, which are available at https://support.ca.com/prodinfo/tpterms.

6. PERFORMANCE WARRANTY

6.1. For Distributed Software. CA warrants that the CA Software will operate materially in accordance with the applicable specifications set forth within the Documentation for a period of ninety (90) days after delivery of the CA Software to Ordering Activity subject to Ordering Activity's compliance with the Agreement.

6.2. For Mainframe Software. CA warrants that the Mainframe Software will operate materially in accordance with the applicable specifications set forth within the Documentation for the Term, subject to Ordering Activity's compliance with the Agreement.

7. PERFORMANCE WARRANTY REMEDY

7.1. If CA has breached either warranty set forth in the section entitled: Performance Warranty, Ordering Activity's remedy is for CA to, in consultation with Ordering Activity, to either (i) use reasonable efforts consistent with industry standards to cure the defect, or (ii) replace the CA Software(s) with one that materially complies with the Documentation, or (iii) mutually agree to terminate the license

and provide a pro-rata refund to the Authorized CA Partner of the license fees paid and or Support fees. If option (iii) applies, the pro-rata refund shall be calculated on the number of months left remaining on the Term of the applicable Transaction Document or if the CA Software is licensed under a Perpetual License, using (only for purposes of a refund calculation) an amortization schedule of three (3) years.

7.2. Warranty remedies are conditioned upon (i) any error or defect complained of is reasonably reproducible by CA, (ii) the CA Software is not modified and is being used in accordance with CA Documentation, and (iii) the breach is not attributable in whole or in part to any non-CA product(s) or service(s).

7.3. **THE ABOVE WARRANTIES ARE THE SOLE WARRANTIES PROVIDED BY CA. NO OTHER WARRANTIES, INCLUDING THAT THE CA SOFTWARE IS ERROR FREE, WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY, NONINFRINGEMENT, OR SUITABILITY AND/OR THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE ARE MADE BY CA.**

8. ACCEPTANCE

8.1 All CA Software is deemed accepted upon issuance of an order to CA from CA Authorized Partner.

9. VIRTUALIZATION

When CA Software is used on multiple machines (physical and "virtual"), each such use of the CA Software shall be counted for the purposes of determining the Authorized Use Limitation for that CA Software. A "virtual" PC or server environment is created where Virtual Machine Technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously.

10. NEW PRODUCT LANGUAGE AND DISTRIBUTED CA SOFTWARE EXCLUSION

10.1 In addition to and separate from unspecified upgrades and enhancements to be provided as maintenance under the initial Term specified in the order with Authorized CA Partner (together with any extension(s) or renewal(s) thereof, the "Term" for purposes of this section), in the event CA develops a new release of a mainframe CA Software that it designates and makes generally available as a new product (typically containing new functions in addition to or different from existing functionality (a "New Product"), then upon CA's receipt of Ordering Activity's written request and without additional charge, such currently unspecified mainframe New Product shall be made available for use by the Ordering Activity during the Term, on the same basis as applies to such mainframe CA Software, even if CA then determines to charge a separate license fee for the mainframe New Product to CA's other licensees.

10.2 Such rights shall not extend to any Hardware provided under this Agreement. Notwithstanding anything to the contrary in the Agreement by and between the parties hereto (i) the Distributed CA Software herein shall not be construed as a "New Product" for the purposes of any prior agreement between the parties; and (ii) the provisions of any "New Product" provision in any prior agreement shall not apply to the distributed CA Software herein or any subsequent license for CA Software.

11. NIMSOFT ON PREMISE

11.1. **The following terms are modified or added for all Nimsoft transactions to the extent consistent with U.S. Federal law:**

11.1.1. **Section 2.4**: "Nimsoft Software" means the computer software programs, made generally available and licensed to a Ordering Activity under this Module, including all Versions, Releases, provided as part of Support if applicable."

11.1.2. **Section 4.1: "**If Support is purchased by Ordering Activity, CA will provide Ordering Activity with technical support for the Nimsoft Software, according to the Support specified in the Authorized CA Partner's order with CA, to operate according to the Documentation, help desk support and Maintenance for the Nimsoft Software pursuant to the following: http://www.nimsoft.com/content/dam/nimsoft/documents/un-secure/agreements/nimsoft-us-support-agreement.pdf."

11.1.3. **Add as Section 15: "15. REPORTS.** Ordering Activity agrees to prepare and submit monthly reports to the CA Authorized Reseller and CA that shall include, without limitation, information detailing the use of the Nimsoft Software pursuant to the license metrics applicable to the Software ("Report"). Ordering Activity shall submit each Report to CA Authorized Reseller and CA on the fifteenth day of each calendar month."

11.1.4. **Add as Section 16:** "**16. OVERAGE**. If the Report shows the Ordering Activity has exceeded the Authorized Use Limitation at any time during a month, such Report shall constitute the basis for a claim to the relevant Contracting Officer pursuant to the Contract Disputes Act and FAR 52.233-1. In no event may the Perpetual License or Subscription License quantity be lowered below the original number ordered."

12. GENERAL TERMS

12.1. Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this

Channel Software Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

Attachment A to Channel Software Module
Definitions and License Metrics

APPLICABILITY

The following definitions and License Metrics shall apply to the CA Software licensed by Ordering Activity to the extent such terms and/or CA Software are included in Ordering Activity's agreement with Authorized CA Partner or Prime Contractor:

Arcot

"Tier Servers" means single server of any tier up to and including Tier 9 Server. "Server" shall designate a specialized computer or a serial of processors assigned to store and to distribute information to and from Customer's personal computer (workstations). Linked to a company network, it enables a shared access to the files and a printing service support. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis.

CA Access Control Premium Edition

"Managed Device" means a virtual or physical machine to which the CA Software controls access.

CA Access Control Privileged User Password Management (PUPM)

"Managed Device" means a virtual or physical system or application whose privileged account passwords are being managed by the CA Software, including but not limited to operating system instances, databases, applications, Command Line Interface Software Development Kits, Open Database Connectivity/Java Database Connectivity applications, Windows services and managed tasks, and managed configuration files. When CA Software is used (i) in connection with a Managed Device or (ii) in connection with a virtual or physical system or application that leverages or interoperates with a Managed Device (a "Password Consumer System or Application"), each such use of the CA Software shall be counted for the purposes of determining the Authorized Use Limitation.

CA Automation Suite for Data Centers

A "Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores. CA Configuration Automation program is included in the delivery of CA Automation Suite for Data Centers for use in server environments managed under CA Automation Suite for Data Centers license. Use of this program with server environments not managed by CA Automation Suite for Data Centers requires a separate license for additional fees. Systems Performance for Infrastructure Manager (SystemEDGE) and Virtual Assurance for Infrastructure Manager AIMS components are included in the delivery of the CA Automation Suite for Data Centers for use only with this product. Use of these components with other CA products requires a separate license for additional fees.CA IT Client Management solution consists of CA Software Delivery, CA Asset Management, CA Remote Control programs and is included in the delivery of the CA Automation Suite for Data Centers. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.CA Asset Intelligence and CA Patch Manager programs are included in the delivery of the CA Automation Suite for Data Centers. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.CA Process Automation program is included in the delivery of CA Automation Suite for Data Centers. CA Process Automation includes two Orchestrators, all non-Premium Connectors, unlimited Agents and 75 Concurrent Processes per Orchestrator. Additional Orchestrators and Premium Connectors are available as an add-on option at additional cost. "Agent" means a single installation of the agent software component of the CA Process Automation program on a specific operating system which can be identified as unique host identification on a physical or virtual hardware server. "Orchestrator" means a single installation of the Orchestrator software component of the CA Process Automation program on a specific operating system which can be identified as unique host identification on a physical or virtual hardware server. This installation can be a stand-alone Orchestrator or as a node of a new or existing clustered Orchestrator. "Connector" is the software program connecting the CA Process Automation program with specific named third party software or other CA software. For example, CA Process Automation Connector For CA Service Desk connects CA Process Automation with CA Service Desk. Each Connector may only be used to connect the CA Software with the specific named third party software or CA software program. "Premium Connector" means a Connector identified by CA in the Order Form. "Process instance" means a single copy of a Process definition that has been scheduled to run (Queued state), is running (Running state), or has completed running (Failed or Completed state) on a particular "Orchestrator".

“Concurrent Processes” means the number of CA Process Automation Process instances that are marked in the Running state within an Orchestrator at any given time.

CA AutoSys Workload Automation

“Instance” means the number of copies of CA AutoSys Workload Automation installed in your physical and/or virtual environment.

CA Clarity Project & Portfolio Manager

"CA Software" means the CA Clarity Project and Portfolio Manager (also known as CA Clarity PPM). CA Clarity PPM is licensed by Environment and the number of Users (Manager, Team Member or Viewer). Customer is granted the right to install and use CA Clarity PPM in not more than three (3) Environments, of which only one (1) may be a production Environment. An “Environment” can consist of any or all of the following, provided that all of the servers in the Environment function as one logical Environment: one or more application servers, search servers, report servers, background servers, and/or database servers. Typical examples of Environments include production Environments, development Environments and test Environments. A production Environment is a computer system used to process an organization's daily work on a real-time operation, not systems used only for development and testing. "Manager User" means Customer's designated users who have full use of and access to the functions within CA Clarity PPM. "Team Member User" means Customer’s designated users who have limited rights to the functions within CA Clarity PPM, and may only (i) view data and run reports in all licensed products; (ii) collaboratively participate in processes, discussions and document sharing and receive notifications in all licensed products; (iii) view project tasks and calendars, and report and approve time and project status; and (iv) enter and view status of ideas. "View Only User" means Customer’s designated users who have limited rights to the functions within CA Clarity PPM and may only (i) view data and run reports; (ii) originate idea workflows, and participate in the continuation of those workflows.

CA Client Automation

A "Managed System" is any physical or virtual computer system that can host an operating system, including, but not limited to, a desktop computer or laptop computer, used by an end-user as part of their job function to access data, applications and resources, that is administered or managed by CA Client Automation by way of a management infrastructure, whether a CA management agent resides on the system or not. This includes laptops, desktops and virtual desktops running Windows, Macintosh and Linux operating systems, and it excludes Windows Servers, Linux Servers and UNIX systems. The management infrastructure components, such as Domain Manager, Scalability Server, and System Engine, that run on server platforms do not require a separate license, except if these systems themselves are being managed by an active agent for purposes other than serving as the CA Client Automation management infrastructure.

CA Client Automation consists of:
CA IT Client Manager
CA Patch Manager
CA Desktop Migration Manager
CA Asset Intelligence
CA Workflow for CA IT Client Manager (it is included in the delivery of CA Client Automation for use only for automating workflows inside CA Client Automation and between CA Client Automation and other software programs)

CA Configuration Automation:

The CA Software is licensed by the number of Physical Sockets. A “Physical Socket” means an electrical component attached to a printed circuit board (“PCB”) and electrically interconnects a central processing unit (“CPU”) and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

CA Database Performance

CA Database Performance is licensed by the number of CPUs when used as a distributed product. “CPU” means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously. With the Authorized Use Limitation as “CPU” or “Processor”, the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with databases monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with databases monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing databases(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

CA Systems Performance for Infrastructure Managers (formerly known as "CA SystemEdge") is a separate program included in the delivery of CA Database Performance. Customers can use this program only for communication with other CA Technologies tools and/or monitoring CA Technologies software systems only. Full functionality of the program to monitor and manage servers requires a separate license with additional fees.

CA DLP

CA DLP includes CA DLP Enterprise Suite, CA DLP Platform & Surveillance, CA DLP Endpoint, CA DLP Stored Data, CA DLP Message Server and CA DLP Network. CA DLP Network and CA DLP Enterprise Suite (which includes CA DLP Network) require and may only be used on a licensed CA DLP Network Appliance.

"CA DLP Network Appliance" means the hardware that operates the CA DLP Network. "User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless specified on the Order Form, a User shall not be counted more than once or a concurrent basis. If an Appliance is included with the CA Software, Support for an Appliance is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com.

CA Enterprise Log Manager

"Agent" means a single installation of the agent software on a specific operating system instance which can be identified as a unique host identification on a hardware server. A hardware server may have multiple operating system instances installed on it (through partitioning or virtualization). Each instance of the operating system on a partitioned/virtualized server must license an agent if required for job scheduling purposes. "Node" means, in a communications system, a network junction or connection point. Any system or device connected to a network is also called a node or cluster. "Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA ESP Workload Automation
(MIPS Based license. Operating System is IBM z/OS)

CA ESP Workload Automation is licensed by the specified number of MIPS (the "Authorized Use Limitation in MIPS"). "MIPS" means millions of instructions per second. The MIPS capacity of a computer shall be calculated by reference to CA's published schedules of the MIPS capacity and if a computer isn't listed then the manufacturer's published specifications should apply. In the event that any particular computer is not accounted for on CA's schedule, the manufacturer's published specification of MIPS capacity shall control. Further, in the event a special purpose processor, designed to perform one or more dedicated functions, is being used as a general purpose processor, CA shall treat such processor as a general purpose processor for purposes of calculating Authorized Use Limitation in MIPS. "Customer Site" means the site(s) specified at the time of licensing the CA Software or the Customer Address if no Customer Site has been indicated. Customer may use the CA Software only on the specific computers upon which the CA Software is installed to run at the Customer Site or on computers which are linked, connected to and/or which can remotely access such computers, irrespective of the platform designations of the hardware or operating systems, provided that such computer is capable of accessing, using, executing or benefiting from the CA Software, subject to the aggregate MIPS capacity not exceeding the Authorized Use Limitation in MIPS.

CA Fast Unload for Distributed Databases:

The CA Software is licensed by the number of servers. “Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA Federation Manager:

(a) “Federate” means to link or bind two or more entities together, enabling identity, account, attribute, authentication, and authorization federation across different trust realms.
(b) “Federation” means a relationship or an association between a specific system entity’s identified users, partners or accounts.
(c) “Federation Partner” means an internal or external entity (i) for which a unique federation configuration is required in order to join a Federation, and (ii) with whom Customer interoperates using Federation Manager, with or without SAML AA.
(d) “Federation Partnership Licensee” means the Federation Partner designated by Customer as licensed to use SAML AA or Federation Manager in accordance with the provisions of the Agreement and who has agreed in writing to Customer terms and conditions substantially similar to the Federation Manager and SAML AA license provisions contained herein, as well as the confidentiality provisions contained in the Agreement. Such Federation Partnership Licensee shall not have any right to further copy, distribute, or otherwise transfer such software or any rights therein, notwithstanding any provision of the Agreement to the contrary. With regard solely to such Federation Partner’s use of the Licensed Programs in accordance herewith, the term “Customer” in the Agreement includes such Federation Partner.
(e) “Federation User” means any user who is allowed to use a Federation via the specific configuration of Federation Manager that Customer deploys. A Federation User shall not be counted more than once or on a concurrent basis.

CA GEN ENC Cross-Gen Opt Linux

“Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. “Non Tier Servers” means single server of any tier up to and including Tier 9 Server.

CA GEN Implementation Toolset

“Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. “Non Tier Servers” means single server of any tier up to and including Tier 9 Server.

CA GEN TRANSACTION Enabler

“Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. “Non Tier Servers” means single server of any tier up to and including Tier 9 Server.

CA GEN TRANSACTION Enabler User Fnl

“Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. “Non Tier Servers” means single server of any tier up to and including Tier 9 Server.

CA GEN WRKSTN Cross-Gen Linux

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. "Non Tier Servers" means single server of any tier up to and including Tier 9 Server.

CA Identity Manager

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA Identity Manager. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. "Internal User" is an intranet User defined as an employee or contractor of the Customer. CA Identity Manager may be used for Customer's internal use only, by the Internal Users on Customer's local area network and client/server system or a HTTP-based Web server infrastructure. Internal Users licensed hereunder may not be aggregated by a Customer contractor with any users of CA Identity Manager separately licensed by such contractor. "External User" is either an extranet or internet User defined as an employee of Customer's authorized third parties, which may be Customer's customers, clients, or consumers, on internet website(s) owned by, or under the control of, Customer. External Users licensed hereunder may not be aggregated by a Customer's vendor or business partner with any Users of CA Identity Manager separately licensed by such vendor or partner.

CA Infrastructure Insight

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines, but excluding endpoint devices such as IP telephones. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

a. For network-connected devices, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

b. For network-connected devices, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA Infrastructure Insight consists of CA Spectrum Infrastructure Manager and CA NetQoS ReporterAnalyzer.

CA Database Performance is included in the delivery of CA Infrastructure Insight for use only for monitoring the databases included in CA Infrastructure Insight. Full functionality of CA Database Performance to monitor other databases requires a separate license for additional fees.

CA Systems Performance for Infrastructure Managers is included in the delivery of CA Infrastructure Insight for use only for provisioning and performance monitoring of the systems that are running CA Infrastructure Insight. Full functionality of CA Systems Performance for Infrastructure Managers requires a separate license for additional fees.

If an Appliance is included with the CA Software, Support for a CA-provided physical server platform hardware appliance which is bundled with and used to operate one or more pre-installed licensed CA software products is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com.

CA Infrastructure Management

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines, but excluding endpoint devices such as IP telephones. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

a. For network-connected devices, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

b. For network-connected devices, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA Infrastructure Management consists of CA Spectrum Infrastructure Manager, CA eHealth Performance Manager and CA NetQoS ReporterAnalyzer.

CA Database Performance is included in the delivery of CA Infrastructure Management for use only for monitoring the databases included in CA Infrastructure Management. Full functionality of CA Database Performance to monitor other databases requires a separate license for additional fees.

CA Systems Performance for Infrastructure Managers is included in the delivery of CA Infrastructure Management for use only for provisioning and performance monitoring of the systems that are running CA Infrastructure Management. Full functionality of CA Systems Performance for Infrastructure Managers requires a separate license for additional fees.

If an Appliance is included with the CA Software, Support for a CA-provided physical server platform hardware appliance which is bundled with and used to operate one or more pre-installed licensed CA software products is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com.

CA Infrastructure Performance

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines, but excluding endpoint devices such as IP telephones. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

a. For network-connected devices, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

b. For network-connected devices, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA Infrastructure Performance consists of CA eHealth Performance Manager and CA NetQoS ReporterAnalyzer.

CA Database Performance is included in the delivery of CA Infrastructure Performance for use only for monitoring the databases included in CA Infrastructure Performance. Full functionality of CA Database Performance to monitor other databases requires a separate license for additional fees.

CA Systems Performance for Infrastructure Managers is included in the delivery of CA Infrastructure Performance for use only for provisioning and performance monitoring of the systems that are running CA Infrastructure Performance. Full functionality of CA Systems Performance for Infrastructure Managers requires a separate license for additional fees.

If an Appliance is included with the CA Software, Support for a CA-provided physical server platform hardware appliance which is bundled with and used to operate one or more pre-installed licensed CA software products is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com.

CA Insight Database Performance Manager

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.CA Systems Performance for Infrastructure Managers (formerly known as "CA System Edge") Limited Use, is a separate program included in the delivery of CA Insight Database Performance Manager. The customers can use this program only for communication with other CA Technologies tools and/or monitoring CA Technologies Software systems only. Full functionality of the program to monitor and manage servers requires a separate license with additional fees.

CA IT Asset Manager

"CA Software" means the CA IT Asset Manager and CA Software Compliance Manager. A "Managed System" is any physical or virtual desktop, laptop, server, and tablet computer that may be tracked and/or managed by the CA Software, based upon user-supplied unique designations to identify such computers, regardless of use purpose including non-production, spares, or disaster recovery. If the optional component CA Software Compliance Content Subscription is listed on the applicable Order Form, Customer is granted a term license to use such content with CA Software Compliance Manager or CA IT Asset Manager beginning on the Term Start Date and ending on the Term End Date. The subscription fees for CA Software Compliance Content Subscription include the right to receive content updates during the Term of the content subscription. Such license for CA Software Compliance Content Subscription shall renew at the option of the Ordering Activity and be extended for successive periods equivalent to the original subscription Term, subject to the parties' agreement concerning fees to be paid during each such extended term. Use of the CA Software is limited as to several components included unless separately licensed. Software technology for Software Distribution, Remote Control and Asset Discovery and Inventory (CA IT Client Management) are included with CA Software Compliance Manager and CA IT Asset Manager, however the only authorized use is the ability to import Microsoft SMS 2003 or Microsoft SystemCenter Configuration Manager 2007 through the CA Asset Converter for Microsoft SMS, importing inventory from other third party discovery tools using the Asset Collector technology and CA IT Client Manager technology. Explicitly, Customer is not licensed to use the software distribution, remote control technologies as well as the full asset inventory and discovery agents. Use of the CA Software or CA Software Compliance Content Subscription is not a substitute for Customer's compliance with any laws (including but not limited to any act, statute, regulation, requirement, rule, standard, directive, administrative order, executive order, etc. (collectively, "Laws")). Customer should consult with competent legal counsel regarding any such Laws. Use of the CA Software or CA Software Compliance Content Subscription is not a substitute for Customer's compliance with its contractual obligations. The CA Software and CA Software Compliance Content Subscription require Customer to (i) manually or electronically enter or (ii) make decisions regarding software license data and other information for purposes of tracking authorized use, compliance with its software license contractual obligations and other information ("Data Entry"). Notwithstanding the provisions of any warranty to the contrary, CA makes no warranty with respect to the CA Software or CA Software Compliance Content Subscription failure, error, omission or inaccuracy to the extent that any such failure, error, omission or inaccuracy relates, in whole or in part, to Data Entry errors, omissions, decisions, inaccuracies, misinterpretations or otherwise.

CA IT Client Manager

"Managed System" is any physical or virtual computer system that can host an operating system, including, but not limited to, a desktop computer, server, or laptop computer, that is administered or managed by the CA Software (IT Client Manager / IT Inventory Manager) by way of a CA management agent, whether it resides on the asset or not. A "Non-CA managed system" has their inventory gathered by a non-CA management agent; however, the information about that asset is still stored in the Management Database (MDB). This asset information may have been obtained using the SMS Connector or Asset Collector. If Customer is licensed for CA IT Client Manager Patch Subscription, Customer is granted a term license to use such program with CA IT Client Manager beginning on the Term Start Date and ending on the End Date for the subscription term. The term license for the CA IT Client Manager Patch Subscription shall renew at the Ordering Activity's option and be extended for successive periods equivalent to the original term, subject to the parties' agreement concerning fees to be paid during each extended term.

CA Mainframe for IBM Rational Developer for System z Unit Test (CA Mainframe Suite for RDz UT):

a) Additional license rights to the CA software program(s) referenced below ("CA Software") are provided under the following terms and conditions in addition to any terms and conditions referenced (i) on the Order Form entered into by you and the CA entity ("CA") through which you obtained a license for the CA Software and (ii) in the software license agreement between you and CA for the CA Software. These terms shall be effective from the effective date of the Order Form.

b) **Program Name:** CA Mainframe Suite for IBM Rational Developer for System z Unit Test ("RDz UT")

c) Specified Operating Environment

The license rights set forth herein apply only to CA Software separately licensed from CA for the z/OS environment and for use hereunder only in the IBM RDz UT environment.

d) CA Software

CA Software for IBM RDz UT Environment:

CA 1™ Tape Management, CA TLMS® Tape Management
CA ACF2™, CA ACF2™ Option for DB2
CA Aion® Business Rules Expert
CA Auditor for z/OS, CA Cleanup
CA Bundl®
CA Cleanup
CA Compliance Manager for z/OS
CA Database Management for DB2 for z/OS
CA Database Management for IMS for z/OS
CA Datacom®
CA Deliver™
CA Disk™ Backup and Restore
CA Dispatch™
CA Easytrieve®
CA Endevor® Software Change Manager
CA FileMaster™ Plus, CA FileMaster™ Plus IMS
CA Gen
CA Gener/OL
CA IDMS™
CA InterTest™ for CICS, CA InterTest™ Batch
CA JCLCheck™ Workload Automation
CA JobTrac™ Job Management
CA Librarian®
CA Mainframe Application Tuner
CA Mainframe Software Manager™
CA NetMaster® File Transfer Management, CA NetMaster® Network Automation, CA NetMaster® Network Management for SNA, CA NetMaster® Network Management for TCP IP
CA Optimizer®/II
CA Panvalet®
CA Roscoe®

CA Scheduler® Job Management
CA Spool™
CA SymDump® Batch, CA SymDump® for CICS
CA Telon®
CA Top Secret®, CA Top Secret® Option for DB2
CA UFO™
CA View®
CA Workload Automation CA 7® Edition, CA Workload Automation ESP Edition, CA Workload Automation Restart Option EE, CA Workload Automation Restart Option for z/OS Schedulers
CA XCOM™ Data Transport®

e) Licensing Model and Terms

The license rights set forth herein authorize you to use CA Software for which you are separately licensed only in the IBM RDz UT environment for non-production purposes. During the term of this license, you must also be licensed to use the IBM RDz UT environment. Use of the CA Software in any other environment or in the RDz UT environment for production purposes is expressly prohibited. This restriction does not change your existing license rights to use the CA Software in a production environment. A production environment is a computer system used to process an organization's daily work on a real-time operation and is not a system used only for development and testing. During the term of this license, if you license additional CA Software, the license rights granted herein apply to such subsequently licensed CA Software.

The license rights are provided on a “per Seat” basis. “Seat” means a single person or identity whose access and use rights can be authenticated, authorized, or administered, or who has the ability to view content aggregated or managed by the CA Software. In general, a Seat shall not be counted more than once or on a concurrent (logged-in) basis. One Seat license shall authorize you to use any of the CA Software for which you are separately licensed in the RDz UT environment. The term of this license (the “Term”) is the lesser of: (i) one (1) year; (ii) the term end date for the applicable separately licensed CA Software; or (iii) the term end date for your use of the IBM RDz UT environment. Any termination under clauses (ii) or (iii) immediately above shall not result in refund of any license fees paid hereunder. Subject to the limitations set forth in clauses (i) (ii) and (iii) immediately above, any renewal or extension of the license term for the separately licensed CA Software or the IBM RDz UT environment, as the case may be, shall continue the Term of this agreement for the period identified above. If you have multiple CA Software products with different term end dates, the license rights granted herein terminate as to each specific CA Software product in the lesser of one (1) year or when the applicable term license for such CA Software ends. Termination of license rights hereunder shall not terminate your license to any CA Software product.

CA does not provide support for the CA Software in the RDz UT environment. Any issues with the CA Software in the RDz UT environment must be reproduced by you in the z/OS environment and reported as such through CA Technologies normal support process for the CA Software.

CA NetQoS NetVoyant

"Device” means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines. Endpoint devices used solely as IP telephones are not considered to be Devices, unless the CA Software is specifically licensed by the number of phones. For the purposes of CA NetQoS Unified Communication Monitor only, endpoint devices used solely as IP telephones are considered to be Devices. When the Authorized Use Limitation is “Device”, the calculation with respect to the number of Licenses is determined as follows:

1. For network-connected devices, in non-virtual server environments, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

2. For network-connected devices, in non-virtual server environments, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, in non-virtual environments, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA NetQoS Reporter Analyzer

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines. Endpoint devices used solely as IP telephones are not considered to be Devices, unless the CA Software is specifically licensed by the number of phones. For the purposes of CA NetQoS Unified Communication Monitor only, endpoint devices used solely as IP telephones are considered to be Devices. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

1. For network-connected devices, in non-virtual server environments, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

2. For network-connected devices, in non-virtual server environments, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, in non-virtual environments, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces (50/5 = 10 licenses while 600/200 = 3 licenses).

CA RegFort:

CA RegFort is licensed by the number of Users or Issuance.

"User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA RegFort or who has the ability to view content aggregated or managed by CA RegFort. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

"Issuance" means any activity in the life cycle of a Public Key Infrastructure credential that is managed by CA RegFort, including, but not limited to, creation of a new credential, revocation, renewal, re-issue or update of the credential.

"RegFort Client" means a portion of CA RegFort which enables end-users to interface with smartcards and tokens.

Limited License Grant. In addition to the rights granted in the applicable license agreement, CA grants Customer and its affiliates a nonexclusive license to distribute RegFort Client to end-users. Customer may use Customer's logo and name with the RegFort Client. No title to or ownership of the RegFort Client is transferred to Customer.

CA RiskFort:

CA RiskFort is licensed by the number of Users.

"User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA RiskFort or who has the ability to view content aggregated or managed by CA RiskFort. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

CA Role and Compliance Manager

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. An "Internal User" is an intranet User defined as an employee or contractor of the Customer. CA Role and Compliance Manager may be used for Customer's internal use only, by the Internal Users on Customer's local area network and client/server system or a HTTP-based Web server infrastructure. Internal Users licensed hereunder may not be aggregated by a Customer contractor with any users of CA Role and Compliance Manager separately licensed by such contractor. An "External User" is either an extranet or internet User defined as an employee of Customer's authorized third parties, which may be Customer's customers, clients, or consumers, on internet website(s) owned by, or under the control of, Customer. External Users licensed hereunder may not be aggregated by a Customer's vendor or business partner with any Users of CA Role and Compliance Manager separately licensed by such vendor or partner.

CA Server Automation

"Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

CA Systems Performance for Infrastructure Manager (SystemEDGE) and CA Virtual Assurance for Infrastructure Manager AIMS components are included in the delivery of the CA Server Automation for use only with this product. Use of these components with other CA products requires a separate license for additional fees.

CA IT Client Management solution consists of CA Software Delivery, CA Asset Management, CA Remote Control programs and is included in the delivery of the CA Server Automation. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.

CA Asset Intelligence and CA Patch Manager programs are included in the delivery of the CA Server Automation. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.

CA Service Desk Manager

"CA Software" and "SDM" mean the CA Service Desk Manager – Analyst License, CA Service Desk Manager - Full License, or CA CMDB Manager Servers described herein in object code form. CA Service Desk Manager-Full License and CA Service Desk Manager-Analyst License are licensed on a Concurrent Analyst basis. In CA Service Desk Manager-Full License, CA Service Desk Manager-Analyst License, the authorized users are assigned various roles based upon the functions needed to accomplish designated tasks. "Concurrent Analyst", in the context of CA Service Desk Manager, means a software license that is based on the number of simultaneous (concurrent) users accessing the program. For the purpose of SDM, all roles (for example: Analyst, Manager, Administrator), and programmatic API and/or web services calls require a license. The Software does not prohibit additional users from access, but does log a license exception for auditing purposes. Customer is entitled to have the specified number of Concurrent Analysts access CA Service Desk Manager simultaneously. For CA Service Desk Manager-Full License, CA Service Desk Manager-Analyst License, You are also licensed for End-User Self-Service, which is granted to the employee and customer roles to allow for the creation, modification, and closure of a ticket on their own behalf, but not on behalf of someone else. CA Service Desk Manager-Full License includes a limited entitlement to CA Cohesion, and use of CA Cohesion is restricted to a maximum of one hundred (100) Managed Servers. Use for additional Servers requires additional licenses for CA CMDB Managed Server. CA Service Desk Manager-Analyst License does not include the CA Cohesion entitlement. CA CMDB Managed Servers is licensed by the number of Servers. "Managed Servers" means a virtual or physical Server managed by CA Software. "Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA Service Desk Manager includes a limited entitlement to CA Business Intelligence. This entitlement is restricted to use within the context of reporting for SDM only. Specifically, SDM reports created using CA Business Intelligence may access and incorporate data created by, derived from, or used by SDM or third party data sources, provided that such data facilitates or augments data for Customer's use of SDM.

CA Service Desk Manager includes a limited entitlement to CA Process Management for Workflows. This entitlement is restricted to use within the context of Workflows associated with SDM only. This entitlement includes: the Service Desk Manager connector; three (3) Custom Operators; and five (5) Agents. This entitlement does not include any Premium Connectors. Multiple Orchestrators can be deployed with the constraints specified herein. There are no license limitations on the number of concurrent processes per Orchestrator.

For the purpose of CA Process Management for Workflows, "Agent" means a single installation of the agent software component of the CA Process Management for Workflows on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server.

For the purpose of CA Process Management for Workflows, "Connector" is the software program connecting CA Process Management for Workflows with specifically named third-party software or other CA software. For example, "CA Process Management for Workflows Connector for CA Service Desk Manager" connects CA Process Management for Workflows with CA Service Desk Manager. Each Connector may only be used to connect the CA Software with the specific named third-party software or CA software program.

For the purpose of CA Process Management for Workflows, "Custom Operator" means a type of automation object within the CA Process Management for Workflows that can be created to enhance, modify, or restrict the capabilities of an existing "Connector".

For the purpose of CA Process Management for Workflows, "Orchestrator" means a single installation of the Orchestrator software component of CA Process Management for Workflows on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server. This installation can be a stand-alone Orchestrator or as a node of a new or existing clustered Orchestrator.

CA SiteMinder

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. An "Internal User" is an intranet User defined as an employee or contractor of the Customer. CA SiteMinder may be used for Customer's internal use only, by the Internal Users on Customer's local area network and client/server system or a HTTP-based Web server infrastructure. Internal Users licensed hereunder may not be aggregated by a Customer contractor with any users of CA SiteMinder separately licensed by such contractor. An "External User" is either an extranet or internet User defined as an employee of Customer's authorized third parties, which may be Customer's customers, clients, or consumers, on internet website(s) owned by, or under the control of, Customer. External Users licensed hereunder may not be aggregated by a Customer's vendor or business partner with any Users of CA SiteMinder separately licensed by such vendor or partner.

CA SOA Security Manager

"Secured Web Service" means a software system designed to support interoperable machine-to-machine interaction over a network which needs to be secured from unauthorized access, software routines or components that is or are intended to disable, erase, or otherwise harm software, equipment, or data, or cause other similar damage. This web service can be a URI or web services End point defined in a WSDL file. "URI" (Uniform Resource Identifier) means a compact string of characters for identifying an abstract or physical resource. “End point” means a specific location for accessing a web service using a specific protocol and data format. "WSDL" (Web Service Definition Language) means an XML (Extensible Markup Language) format for describing network services as a set of endpoints operating on messages containing either document-oriented or procedure-oriented information. "User" means a single person, application or identity listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software or who has the ability to view content aggregated or managed by CA SOA Security Manager. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

CA SOA Security Manager with Gateway

CA SOA Security Manager is licensed in number of Secured Web Services and Users. CA SOA Security Gateway is licensed in number of Instances. "Secured Web Service" means a software system designed to support interoperable machine-to-machine interaction over a network which needs to be secured from unauthorized access, software routines or components that is or are intended to disable, erase,

or otherwise harm software, equipment, or data, or cause other similar damage. This web service can be a URI or web services End point defined in a WSDL file. "URI" (Uniform Resource Identifier) means a compact string of characters for identifying an abstract or physical resource. “End point” means a specific location for accessing a web service using a specific protocol and data format. "WSDL" (Web Service Definition Language) means an XML (Extensible Markup Language) format for describing network services as a set of endpoints operating on messages containing either document-oriented or procedure-oriented information. "User" means a single person, application or identity listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA SOA Security Manager or who has the ability to view content aggregated or managed by CA SOA Security Manager. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis. "Installation" means the number of copies of CA SOA Security Manager installed in the Customer’s physical and/or virtual environment.

CA Spectrum Infrastructure Manager

"Managed Network Device” means a virtual or physical network-connected device with less than 200 ports that is managed by CA Spectrum Infrastructure Manager and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, virtual or physical servers, and virtual or physical machines, but excluding endpoint devices such as IP telephones.

CA Spectrum Service Assurance

“Site” or “Installation” means use of CA Spectrum Service Assurance in a data center comprised of one or more CPUs conforming to the following conditions: Two or more CPUs will be considered part of the same site if (i) the CPUs are located in a single building, (ii) each CPU shares access to data storage and peripheral devices with one or more of the other CPUs without requiring any programming interface to another CPU, and (iii) the CPUs function as a data processing facility under common data processing operations supervision. Use of CA Spectrum Service Assurance on two or more CPUs will be considered multiple and separate sites if all of the foregoing conditions of a single site are not satisfied, regardless of (i) whether they occupy different floors or locations in the same building or share the same mailing location address, or (ii) the extent to which the CPUs are integrated within a network or serve a functional role as part of a larger data processing organization. Customer is granted the right to deploy CA Spectrum Service Assurance at the Sites with the addresses listed in the Order Form. Customer may change and amend the addresses of the Sites by notice to CA providing that the total number of Sites listed does not exceed the number listed in the Order Form. “Connection” means a data source indicated by CA Spectrum Service Assurance to have a connector status of “Online”. A Connection may consist of a connection to a CA Software product (i.e. CA Wily, CA Spectrum), a third party product (i.e. HPOV), or a custom application. “Data source” means any software application that provides data to CA Spectrum Service Assurance.

CA SYSVIEW for CA Wily APM

Customer is granted a limited license to use CA SYSVIEW for CA Wily APM solely for the integration with CA Wily APM or CA Wily Introscope 8.2 or above (“CA Wily”). With this license, Customer is only authorized to install, configure and use CA SYSVIEW for CA Wily APM components to support its authorized use with CA Wily to provide mainframe performance metrics to CA Wily and trace transactions tagged by CA Wily that perform activity on the mainframe. Customer may not use CA SYSVIEW for CA Wily APM for other purposes. Any additional use requires a separate non-restricted license. In the event Customer chooses to increase its Authorized Use for CA Wily, Customer must also increase its Authorized Use for CA SYSVIEW for CA Wily APM and pay all applicable additional license and maintenance fees related thereto in order to use CA SYSVIEW for CA Wily APM with such increased CA Wily capacity. Additional use of CA Wily without obtaining a separate non-restricted license may be the basis for filing a claim with the relevant Contracting Officer under the Contract Disputes Act and FAR 52.233-1.

CA TSreorg for Distributed Databases

“Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA Virtual Assurance

"Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

If an Appliance is included with the CA Software, Support for an Appliance is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com.

CA Virtual Automation

"Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

CA Virtual Configuration

"Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

CA Virtual Performance Management (CA VPM)

"CPU" or "Processor" means central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A Processor may not exceed a maximum of 12 processing cores.

CA WebFort:

CA WebFort is licensed by the number of User Credentials and Users.

"Credential" means an attestation of qualification, competence, or authority issued to a User by the CA Software.

"User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA WebFort or who has the ability to view content aggregated or managed by CA WebFort. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

"User Credentials" means the number of Credentials set forth on the Order Form to be issued to the Users who are authorized to access and use CA WebFort. Each User may have more than one credential for different verification methods.

"ArcotID Client" or "ArcotOTP Client" means portions of CA WebFort which enable end-users to use the ArcotID and ArcotOTP credentials.

Limited License Grant. In addition to the rights granted in the applicable license agreement, CA grants Customer and its affiliates a nonexclusive license to distribute the ArcotID Client or ArcotOTP Client to end users. Customer may use Customer's logo and name with the ArcotID Client or ArcotOTP Client. No title to or ownership of the ArcotID Client or ArcotOTP Client is transferred to Customer.

CA Wily Application Performance Management v9 (CA Wily APMv9)

CA Wily APMv9 is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units ("MSUs") and number of System z Application Assist Processors ("zAAPs") and number of System z Integrated Information Processors ("zIIPs") or (b) number of integrated facilities for Linux ("IFLs"), when used in the mainframe environment. "CPU" means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously ("Virtual Machine Technology"). When the

Authorized Use Limitation is “CPU” or “Processor”, the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is “MSUs”, “zAAPs”, or “zIIPs” (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An “LPAR” means the division of a computer’s processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications.

When the Authorized Use Limitation is “IFLs”, the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by the CA Software.

CA Wily Transaction Impact Monitor (“TIM”) “Software Appliance” means the software running TIM on Customer’s network feed to capture http/https transactions necessary for the Customer Experience analysis portion of CA Wily APMv9. Customer is responsible for providing hardware on which to run the TIM Software Appliance that meets CA’s specifications. Customer must license a copy of the TIM Software Appliance for each physical server (regardless of the number of CPUs) on which a TIM Software Appliance will be installed and configured.

CA Wily Application Performance Management (CA Wily APM)

CA Wily APM is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units (“MSUs”) and number of System z Application Assist Processors (“zAAPs”) and number of System z Integrated Information Processors (“zIIPs”) or (b) number of integrated facilities for Linux (“IFLs”), when used in the mainframe environment. “CPU” means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously. When the Authorized Use Limitation is “CPU” or “Processor”, the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is “MSUs”, “zAAPs”, or “zIIPs” (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An “LPAR” means the division of a computer’s processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications.

When the Authorized Use Limitation is “IFLs”, the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by CA Wily APM.

An Appliance is a CA-supplied physical server (“Hardware”) that is bundled with and used to operate the CA Software licensed by Customer which is pre-installed on the Hardware. Support is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com. Customer must acquire at least one license (per CPU, MSU or IFL) in order to purchase a CA Wily Transaction Impact Monitor (“TIM”) or CA Wily Transaction Event & Statistics Server (“TESS”). Both a TIM and a TESS are required for any production installation. CA Wily Solutions for Lab Environments (“Wily LAB”) is a single Appliance that contains TIM and TESS capabilities but is not supported for a production environment. The Wily LAB system includes one CPU license for CA Wily APM at no additional charge.

CA Wily Customer Experience Manager (CA Wily CEM)

CA Wily CEM is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units (“MSUs”) and number of System z Application Assist Processors (“zAAPs”) and number of System z Integrated Information Processors (“zIIPs”) or (b) number of integrated facilities for Linux (“IFLs”), when used in the mainframe environment. “CPU” means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously (“Virtual Machine Technology”). When the Authorized Use Limitation is “CPU” or “Processor”, the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is “MSUs”, “zAAPs”, or “zIIPs” (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An “LPAR” means the division of a computer’s processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications.

When the Authorized Use Limitation is “IFLs”, the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by the CA Software.

An Appliance is a CA-supplied physical server (“Hardware”) that is bundled with and used to operate the CA Software licensed by Customer which is pre-installed on the Hardware. Support is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at http://support.ca.com. Customer must acquire at least one license (per CPU, MSU or IFL) in order to purchase a CA Wily Transaction Impact Monitor (“TIM”) or CA Wily Transaction Event & Statistics Server (“TESS”). Both a TIM and a TESS are required for any production installation. CA Wily Solutions for Lab Environments (“Wily LAB”) is a single appliance that contains TIM and TESS capabilities but is not supported for a production environment. The Wily LAB system includes one CPU license for CA Wily CEM at no additional charge.

CA Wily Introscope

CA Wily Introscope is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units ("MSUs") and number of System z Application Assist Processors ("zAAPs") and number of System z Integrated Information Processors ("zIIPs") or (b) number of integrated facilities for Linux ("IFLs"), when used in the mainframe environment. "CPU" means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously ("Virtual Machine Technology"). When the Authorized Use Limitation is "CPU" or "Processor", the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.

2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.

3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is "MSUs", "zAAPs", or "zIIPs" (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An "LPAR" means the division of a computer's processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications. When the Authorized Use Limitation is "IFLs", the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by the CA Software.

CA Workload Automation

"Instance" means the number of copies of the CA Software installed in the Customer physical and/or virtual environment.

CA XCOM Data Transport for Windows Family Server

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA eHealth Performance Manager

"Managed Network Device" means a virtual or physical network-connected device with less than 200 ports that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, virtual or physical servers, and virtual or physical machines, but excluding endpoint devices such as IP telephones.

Mainframe CPU CA Software only

The CA Software is licensed by the specified number and model of CPU (the "Authorized Use Limitation"). "CPU" shall mean the central processing unit(s) capable of running the CA Software. Customer may only use CPUs specified when licensing the licenses herein and upon which the CA Software is installed and runs ("Designated CPUs"). Customer may change the Designated CPU on providing written notice to CA provided that such replacement CPU is of the same or lower CPU tier/power rating to the Designated CPU (save that Customer may

require an authorization key from CA in order to commence use of such CPU). Should Customer wish to add to the number of Designated CPUs or upgrade the then current Designated CPU(s) to a CPU with greater tier/power rating, Customer may elect to do so by providing CA with prior written notice of such additional CPU and/or upgrade to the Designated CPU(s) and by executing an order form to effect such addition/change and purchasing the applicable license.

Mainframe MIPS CA Software only

The CA Software is licensed by the specified number of MIPS (the "Authorized Use Limitation in MIPS"). "MIPS" means millions of instructions per second. The MIPS capacity of a computer shall be calculated by reference to CA's published schedules of the MIPS capacity and if a computer isn't listed then the manufacturer's published specifications should apply. Further, in the event a special purpose processor, designed to perform one or more dedicated functions, is being used as a general purpose processor, CA shall treat such processor as a general purpose processor for purposes of calculating Authorized Use Limitation in MIPS. "Customer Site" means the site(s) specified at the time of licensing the CA Software or the Customer Address if no Customer Site has been indicated. Customer may use the CA Software only on the specific computers upon which the CA Software is installed to run at the Customer Site or on computers which are linked, connected to and/or which can remotely access such computers, irrespective of the platform designations of the hardware or operating systems, provided that such computer is capable of accessing, using, executing or benefiting from the CA Software, subject to the aggregate MIPS capacity not exceeding the Authorized Use Limitation in MIPS.

Mainframe MSU CA Software only

The CA Software is licensed by the specified number of MSU (the "Authorized Use Limitation in MSU"). "MSU" means millions of service units. The MSU capacity shall be calculated with the aggregate computing power (expressed in millions of service units) by reference to CA's published schedules of the MSU capacity and if a computer isn't listed then the manufacturer's published specifications shall apply of all computers upon which the CA Software is installed to run at the Customer Site ("Customer Site" means the site(s) specified at the time of licensing the CA Software or the Customer Address if no Customer Site has been indicated) or computers which are linked, connected to and/or which can remotely access such computers, irrespective of the platform designations of the hardware or operating systems, provided that such computer is capable of accessing, using, executing or benefiting from the CA Software. Customer may use the CA Software subject to the aggregate MSU Capacity not exceeding the Authorized Use Limitation in MSU.

Pervasive Software:

The Pervasive Software is licensed by either by the number of Server or Users. Pervasive Software may be used to build integrations that connect to any authorized CA Clarity environment.

Pervasive Data Integrator Engine/Agent **for CA** Clarity PPM* is licensed by the number of Servers.
* includes one User license of Pervasive Data Integrator Analyst **Studio for C**A Clarity PPM

Pervasive Data Integrator Analyst **Studio for C**A Clarity PPM is licensed by the number of Users**.**

Pervasive Data Profiler Engine for CA Clarity PPM is licensed by the number of Servers.

Pervasive Data Profiler Analyst Studio for CA Clarity PPM is licensed by the number of Users**.**

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the Pervasive Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis.

CA Process Automation:

CA Software means the CA Process Automation software described herein in object code form only.

“Agent” means a single installation of the agent software component of the CA Software on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server.

“Orchestrator” means a single installation of the Orchestrator software component of the CA Software on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server. This installation can be a stand-alone Orchestrator or as a node of a new or existing clustered Orchestrator.

"Connector" is the software program connecting the CA Software with specific named third party software or other CA software. For example, CA Process Automation Connector For CA Service Desk connects CA Process Automation with CA Service Desk. Each Connector may only be used to connect the CA Software with the specific named third party software or CA software program.

“Premium Connector” means a Connector identified as “Premium” by CA.

“Custom Operator” means a type of automation object within the CA Process Automation Orchestrator that can be created to enhance, modify, or restrict the capabilities of an existing “Connector”.

“Process” means a type of automation object within CA Process Automation Orchestrator that contains connectors and other logical constructs that define a set of actions that will take place when the “Process” is executed by the Orchestrator.

“Process instance” means a single copy of a Process definition that has been scheduled to run (Queued state), is running (Running state), or has completed running (Failed or Completed state) on a particular “Orchestrator”.

“Concurrent Processes” means the number of CA Process Automation Process instances that are marked in the Running state within an Orchestrator at any given time.

“Power Pack” means a combination of Process definitions, Premium Connectors, Custom Operators and other automation objects that are packaged together to implement a specific solution.

The CA Software is licensed in different editions, as set forth in this Order Form, which authorizes the use of the specified number of Orchestrators, Agents, Connectors, and Concurrent processes (the "Authorized Use Limitation"). The various editions are:

CA Process Automation Player License includes: one Orchestrator, forty Agents, all non-Premium Connectors, and two hundred Concurrent Processes per Orchestrator. This license requires the purchase of either a “Power Pack” or a Services contract for the implementation of a solution that will be executed by the Player. No new automation objects may be created with the Player License. Only modifications of the purchased Power Packs and any Services delivered content is allowed.

CA Process Automation Express License includes: two Orchestrators, forty Agents, all non-Premium Connectors, and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Standard License includes: two Orchestrators, unlimited Agents, three Premium Connectors, all non-Premium Connectors, and two hundred Concurrent Processes per Orchestrator.

CA Process Automation Enterprise License includes: unlimited Orchestrators, unlimited Agents, twenty Premium Connectors, all non-Premium Connectors, and four hundred and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Level 1 Orchestrator includes: one Orchestrator and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Level 2 Orchestrator includes: two Orchestrators and two hundred Concurrent Processes per Orchestrator.

CA Process Automation Level 3 Orchestrator includes: three Orchestrators and four hundred and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Premium Connector License includes the right to use a Premium Connector to connect to a single instance of the target application or system.

CA Process Management for Workflows License includes: unlimited Orchestrators, five Agents, and three Custom Operators. No Premium connectors are available for purchase with this license. The only CA product connectors that are available are those associated with the product(s) providing the entitlement. This is a limited use entitlement and its use is restricted to the context of Workflows associated with the CA product(s) providing the entitlement. The component limits are not cumulative across multiple instances of the license at any individual customer.

The number of concurrent processes executing on any licensed Orchestrator may be exceeded as long as the total number of concurrent processes executing on all licensed Orchestrators is not exceeded. For example, if the license is for two Orchestrators with seventy-five Concurrent Processes per Orchestrator, one hundred Concurrent Processes could be utilized on one Orchestrator so long as only fifty Concurrent Processes are utilized on the second Orchestrator.

Server:

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA Virtual Assurance for Infrastructure Managers and CA System Performance for Infrastructure Managers

"Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

DOCUSIGN, INC.
CORPORATE SUBSCRIBER TERMS AND CONDITIONS
v121008

These Terms and Conditions are incorporated by this reference into the Order Form (collectively referred to as the "Agreement") entered into by DocuSign, Inc. ("DocuSign") and the customer identified in the Order Form ("Subscriber").

1. DEFINITIONS

"Account" means a unique account established by Subscriber to enable its Authorized Users to access and use the Subscription Service and, where applicable, other DocuSign Products.

"Authorized User" means any employee of Subscriber, identified by a unique email address and user name, who is registered under the Account; provided that no two persons may register or use the Subscription Service as the same Authorized User.

"Consulting Services" means any additional professional services to be delivered by DocuSign, such as integration consulting or assistance, custom development, training, and transition services, that are set forth in an Order Form or Work Order as described in Section 15.

"DocuSign API" means the application programming interface that supports interoperation of applications with the Subscription Service.

"DocuSign Products" means the products and services identified on an Order Form, which may include the Subscription Service, the Repository Services, the Consulting Services and any other DocuSign offerings.

"eContract" refers to a contract, notice, disclosure, or other record or document deposited into the System by Subscriber for Processing using the Subscription Service.

"Envelope" means an electronic record containing one or more eContracts consisting of a single page or a group of pages of data uploaded to the System.

"Order Form" means a standard DocuSign order form or any other document separately and specifically approved by DocuSign that describes the DocuSign Products to be purchased by Subscriber and is signed by both parties.

"Personal Data" means any of the following: (a) nonpublic personally identifiable information, including driver's license numbers, national identification numbers such as social security account numbers, credit card numbers, digital identity certificates; (b) personally identifiable financial information regarding a consumer (i) provided by a consumer to a financial institution, (ii) resulting from any transaction with the consumer or any service performed for the consumer by a financial institution, or (iii) otherwise obtained by the financial institution, including any list, description, or other grouping of consumers (and publicly available information pertaining to them) that is derived using any nonpublic personal information; (c) personally identifiable medical or health-related information.

"Process" means any operation or set of operations performed upon Subscriber's data, whether or not by automatic means, such as collection, recording, organization, storage, adaptation or alteration, retrieval, accessing, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, blocking, erasure or destruction.

"Repository Services" means the Contract Repository or eVaulting Services, each as defined in the Terms and Conditions for Repository Services (available at http://www.docusign.com/company/terms-and-conditions/eoriginal/v121005), that are made the subject of an Order Form.

"Specifications" means the technical specifications set forth in the "Subscription Service Specifications" available at http://docusign.com/company/specifications.

"Subscription Service" means DocuSign's on-demand electronic signature service, which provides online display, certified delivery, acknowledgement, electronic signature, and storage services for eContracts via the Internet.

"System" refers to the software systems and programs, communication and network facilities, and hardware and equipment used by DocuSign or its agents to provide the Subscription Service.

"Term" means the period of effectiveness of this Agreement, as described in more detail in Section 9 below.

"Transaction Data" means the metadata associated with an Envelope and maintained by DocuSign for the purpose of establishing a digital audit trail, such as transaction history, image hash value, method and time of Envelope deletion, sender and recipient names, email addresses and signature IDs.

2. THE SUBSCRIPTION SERVICE

2.1 During the Term and subject to these Terms and Conditions, DocuSign will provide the Subscription Service in accordance with the Specifications, and Subscriber will have the right to obtain an Account and register its Authorized Users, who may access and use the Subscription Service. The right to use the Subscription Service is: (a) limited to its Authorized Users (accordingly, Subscriber may not resell or otherwise provide or assist with the provision of the Subscription Service to any third party); and (b) conditioned on Subscriber's acknowledgement and agreement with the following:

i) Nothing in this Agreement will be construed to make DocuSign a party to any eContract, and DocuSign makes no representation or warranty regarding the transactions sought to be effected by any eContract;

ii) DocuSign maintains no control of or access to the contents of any eContract, and so the content, quality, and format of any eContract is at all times in the exclusive control and responsibility of Subscriber;

iii) If Subscriber elects to use optional features designed to verify the identity of the intended recipient of an eContract ("Authentication Measures"), DocuSign will apply only those Authentication Measures (if any) selected by the Subscriber, but makes no representations or warranties about the appropriateness of any Authentication Measure and further, assumes no liability for the inability or failure by the intended recipient or other party to satisfy the Authentication Measure or to circumvent it;

iv) Certain types of agreements and documents are excepted from electronic signature laws, such that they cannot be legally formed by electronic signatures, and additionally, various agencies may have promulgated specific regulations that apply to electronic signatures and electronic records. DocuSign assumes no responsibility to determine whether any particular eContract is an exception to applicable electronic signature laws, or whether it is subject to any particular agency promulgations, or whether it can be legally formed by electronic signatures;

v) Subscriber is solely responsible for making available to third parties (including all parties to its eContracts) all contracts, documents, and other records required by applicable law, including, without limitation, electronic signature laws and other laws that may require records relating to a transaction to be retained or made accessible for a certain period of time;

vi) Certain laws or regulations impose special requirements with respect to electronic transactions involving one or more "consumers," such as (among others) requirements that the consumer consent to the method of contracting and/or that the consumer be provided with a copy, or access to a copy, of a paper or other non-electronic, written record of the transaction. DocuSign assumes no responsibility to: (A) determine whether any particular transaction involves a consumer; (B) furnish or obtain any such consents or to determine if any such consents have been withdrawn; (C) provide any information or disclosures in connection with any attempt to obtain any such consents; (D) provide legal review of, or to update or correct any information or disclosures currently or previously given; (E) provide any such copies or access except as expressly provided in the Specifications for all transactions, consumer or otherwise; or (F) otherwise to comply with any such special requirements; and

vii) Subscriber expressly undertakes to determine whether any consumer is involved in any eContract presented by its Authorized Users for Processing, and, if so, to comply with all requirements imposed by law on such eContracts or their formation.

3. SUBSCRIPTION PLANS AND USAGE PRICING

3.1 The pricing, features and options of the DocuSign Products selected by Subscriber are set forth in the Order Form. The Subscription Service is sold on a subscription basis and may be limited by usage ("Envelope Allowance"), or by the number of Authorized Users ("Seats"), or both. Optional features, such as Authentication Measures or fax-back services, may be purchased on a periodic or per-use basis.

3.2 If Subscriber selects an Envelope Allowance Subscription, then Subscriber is allowed to send the number of Envelopes in the Envelope Allowance specified in the Order Form during the Term. All Envelopes sent in excess of the Envelope Allowance will incur a per-Envelope charge that will be invoiced within 30 days of the date first incurred. The total number of Envelopes used is based on the sum of all Envelopes that have been sent for signature or for certified delivery from the Account. An Envelope will be deemed consumed at the time it is sent by an Authorized User, whether or not it has been received by the recipients or the recipients have performed any actions upon any eContract in the Envelope.

3.3 If Subscriber selects a Seat Subscription, then Subscriber is allowed to manually send Envelopes from the number of Seats specified in the Order Form during the Term. A Seat is defined as a natural person manually preparing and sending Envelopes, and excludes the Processing of Envelopes using automated batch or bulk sending operations, or the use of the

DocuSign API for sending Envelopes. If the number of Envelopes sent from a particular Seat or a group of Seats is abusive and/or unduly burdensome (indicating automated Processing), DocuSign will promptly notify Subscriber and the parties will review the use-case scenario as well as any continued monitoring and additional Seats that may be required to be purchased. The number of Seats is determined by the total number of active Authorized Users listed in the membership of an Account at any one time. No two individuals may log onto or use the Subscription Service as the same Authorized User, but Subscriber may unregister or deactivate Authorized Users and replace them with other Authorized Users without penalty, so long as the number of active Authorized Users registered at any one time is equal to or less than the number of Seats purchased. The addition by Subscriber of more Authorized Users than the number of Seats purchased in an Order Form will result in an additional charge for one Seat per additional Authorized User for the remainder of the Term, to be invoiced immediately.

4. ADDITIONAL SUBSCRIBER RESPONSIBILITIES

4.1 Subscriber agrees that it will not use or permit the use of the Subscription Service to send unsolicited mass mailings outside its organization, it being understood that the term "unsolicited mass mailings" includes all statutory and other common definitions, including all Commercial Electronic Marketing Messages as defined in the U.S. CAN SPAM Act.

4.2 Subscriber agrees that it is solely responsible for the nature and content of all materials, works, data, statements, and other visual, graphical, video, written or audible communications of any nature submitted by any Authorized User or otherwise Processed through its Account.

4.3 Subscriber further agrees not to use or permit the use of the Subscription Service: (a) to communicate any message or material that is defamatory, harassing, libelous, threatening, or obscene; (b) in a way that violates or infringes upon the intellectual property rights or the privacy or publicity rights of any person or entity or that may otherwise be unlawful or give rise to civil or criminal liability (other than contractual liability of the parties under eContracts Processed through the Subscription Service); (c) in any manner that is likely to damage, disable, overburden, or impair the System or the Subscription Service or interfere in any way with the use or enjoyment of the Subscription Service by others; or (d) in any way that constitutes or encourages conduct that could constitute a criminal offense.

4.4 Although DocuSign does not monitor the content Processed through the Subscription Service, DocuSign may at any time suspend any use of the Subscription Service and/or remove or disable any content as to which DocuSign reasonably and in good faith believes is in violation of this Agreement. DocuSign agrees to provide Subscriber with notice of any such suspension or disablement before its implementation unless such suspension or disablement is necessary to comply with legal process or prevent imminent harm to DocuSign's System, the Subscription Service or any third party, in which case DocuSign will notify Subscriber of such suspension or disablement as soon as reasonably practicable thereafter.

5. INTELLECTUAL PROPERTY AND TRADEMARK LICENSE

5.1 DocuSign is the owner of various intellectual property and technology rights associated with the Subscription Service, its document management, digital signature, and notary system, including patent, copyright, trade secret, and trademark and service mark rights. Except for the rights expressly granted in this Agreement, DocuSign does not license or transfer to Subscriber or any Authorized User or other third party any of DocuSign's technology or other intellectual property or technology rights. All right, title, and interest in and to DocuSign's technology and intellectual property will remain solely with DocuSign. Subscriber agrees that it will not, directly or indirectly, reverse engineer, decompile, disassemble, or otherwise attempt to derive source code or other trade secrets from or about any of the DocuSign Products or DocuSign's technology. DocuSign agrees that data and information provided by Subscriber under this Agreement shall remain, as between Subscriber and DocuSign, owned by Subscriber.

5.2 DocuSign hereby grants to users and licensees of its products and services a limited, revocable, nonexclusive and nontransferable right to use DocuSign's regular trade names, trademarks, titles and logos ("Licensed Marks") solely for purposes of identifying DocuSign's products and services. Details of this trademark license are available at: http://www.docusign.com/trademark-license.

6. CUSTOMER SUPPORT

DocuSign will provide customer support to Subscriber in accordance with the package that is identified on the Order Form, as further detailed at http://www.docusign.com/products/support-plans.

7. eCONTRACT STORAGE AND DELETION

7.1 DocuSign will store in accordance with the Specifications all completed eContracts sent by Subscriber until the termination or expiration of the Agreement, unless otherwise directed by Subscriber. Copies of stored eContracts may be retrieved by Subscriber at any time during that period, provided that following the expiration or termination of the Agreement, Subscriber may

request DocuSign's assistance in retrieving completed eContracts still remaining on the System pursuant to the transition services terms described in Section 9.4.

7.2 Prior to the expiration or termination of this Agreement, Subscriber may elect to purchase post-expiration or post-termination storage services for their completed eContracts. Where Subscriber opts not to purchase storage services, all copies of eContracts may be deleted by DocuSign without prior notice after the period available for transition services has expired pursuant to the terms described in Section 9.4. Subscriber may, at its option and wholly at Subscriber's risk, direct that any eContract be deleted at a time stated by Subscriber and prior to the end of the Term.

7.3 DocuSign may at its sole discretion delete an uncompleted eContract from the System immediately and without notice upon earlier of: a) expiration of the Envelope (where Subscriber has established an expiration for such Envelope, not to exceed 365 days); or b) expiration of the Term.

7.4 DocuSign will retain the Transaction Data permanently, provided that any Transaction Data that constitutes Confidential Information of Subscriber will at all times maintain that status and DocuSign will comply with its obligations in Section 13.

8. FEES AND PAYMENT TERMS

8.1 Subscriber will pay DocuSign the amounts set forth in each Order Form. An Order Form is not binding until it is executed by both DocuSign and Subscriber, at which point it will be deemed to be incorporated into this Agreement. Unless otherwise specified in an applicable Order Form, the first invoice will be submitted to Subscriber within 30 days after the Order Start Date, and Subscriber will pay all amounts due within 30 days of the date of the applicable invoice.

8.2 If Subscriber's usage under an Envelope Allowance Subscription exceeds the Envelope Allowance prior to the end of the Term, the unpaid balance of the Order Form for such Envelope Allowance Subscription shall become immediately due and payable.

8.3 Any undisputed amount not paid when due will be subject to finance charges equal to 1.5% of the unpaid balance per month or the highest rate permitted by applicable usury law, whichever is less, determined and compounded daily from the date due until the date paid. Subscriber will reimburse any costs or expenses (including reasonable attorneys' fees) incurred by DocuSign to collect any undisputed amount that is not paid when due. DocuSign may accept any check or payment in any amount without prejudice to DocuSign's right to recover the balance of the amount due or to pursue any other right or remedy. Amounts due to DocuSign under this Agreement may not be withheld or offset by Subscriber for any reason against amounts due or asserted to be due to Subscriber from DocuSign. All amounts payable under this Agreement are denominated in United States dollars, and Subscriber will pay all such amounts in United States dollars.

8.4 Taxes. Other than federal and state net income taxes imposed on DocuSign by the United States, Subscriber will bear all taxes, duties, and other governmental charges (collectively, "taxes") resulting from this Agreement or transactions conducted in relation to this Agreement or the DocuSign Products. If a tax is imposed on DocuSign by a jurisdiction outside the United States, Subscriber will not be obligated to bear that tax to the extent: (a) the tax is allowable as a credit against the United States federal income taxes of DocuSign; (b) Subscriber reduces such tax to the extent possible, giving effect to the applicable Income Tax Convention between the United States and other jurisdictions; and (c) Subscriber furnishes DocuSign with such evidence as the United States taxing authorities may require to claim the credit. Subscriber will pay any additional taxes as are necessary to ensure that the net amounts received and retained by DocuSign after all such taxes are paid are equal to the amounts that DocuSign would have been entitled to in accordance with this Agreement as if the taxes did not exist.

9. TERM AND TERMINATION

9.1 Term. Unless sooner terminated as stated below, and subject to Section 17 with respect to Work Orders (as defined below), the effectiveness of this Agreement will commence upon the Order Start Date and will continue for the term specified on the Order Form (the "Term").

9.2 Termination for Cause. If either party commits a material breach or default in the performance of any of its obligations under this Agreement, then the other party may terminate this Agreement by giving the defaulting party written notice of termination if the material breach or default in performance is not cured within 30 days after the defaulting party receives notice thereof. Without limiting the foregoing, any failure by Subscriber to timely pay to DocuSign any amounts owing under this Agreement will constitute a material breach of this Agreement. If Subscriber fails to timely pay any amounts due for services to be performed by DocuSign, then without limitation to any of its other rights or remedies, DocuSign may suspend performance of such services until it receives all amounts due.

9.3 Post-Termination Obligations. If this Agreement expires or is terminated for any reason: (a) Subscriber will pay to DocuSign any amounts required to be paid under this Agreement that have accrued prior to, and remain unpaid as of, the date of

termination or expiration (including Subscription fees, which become due upon termination of this Agreement as set forth in an Order Form, and any one-time or recurring fees through the end of the billing cycle in which termination occurs); (b) any and all liabilities accrued prior to the effective date of the termination will survive; (c) Subscriber will destroy all copies of DocuSign software, documentation, and materials within five business days of such termination, and immediately thereafter, if requested by DocuSign, provide DocuSign with a written certification signed by an authorized Subscriber representative certifying that all copies of software, documentation, and materials have been destroyed; (d) licenses to use DocuSign software and the provision of DocuSign services will immediately end; and (e) the parties' rights and obligations under Sections 1, 7.4, 9.3, 9.4, 10.3, and 11 through 14 will survive.

9.4 Transition Services. Upon expiration or termination of this Agreement for any reason, at Subscriber's request and at DocuSign's then-current standard professional services rates plus expenses, DocuSign shall provide reasonable transition services for a period not to exceed 90 days to assist Subscriber in moving Subscriber's data to another provider or exporting eContracts to external media. As part of such transition services, DocuSign shall at a minimum transfer, and cause any of its independent contractors to transfer, all data and electronic files associated with the Subscription Service. At its then-current standard professional services rates, DocuSign shall at Subscriber's request further cooperate with Subscriber in the development of a transition plan and shall use reasonable efforts to assist Subscriber and/or another service provider in the transition. DocuSign may at its discretion require advance payment or other adequate security for payment as DocuSign may consider appropriate in connection with or as a condition to the provision of services described in this section.

10. WARRANTIES AND DISCLAIMERS

10.1 DocuSign Warranties. DocuSign represents and warrants that: (a) the Subscription Service as delivered to Subscriber and used in accordance with the Specifications will not infringe on any United States patent, copyright or trade secret; (b) the Subscription Service shall be performed in accordance with the Specifications in their then-current form at the time of the provision of such Subscription Service; (c) any DocuSign Products that are software shall be free of harmful or illicit code, trapdoors, viruses, or other harmful features; (d) the proper use of the Subscription Service by Subscriber in accordance with the Specifications and applicable law in the formation of an eContract not involving any consumer will be sufficient under the Electronic Signatures in Global and National Commerce Act, 15 U.S.C. §§ 7001 et seq. (the "ESIGN Act") to support the validity of such formation, to the extent provided in the ESIGN Act; (e) the proper use of the Subscription Service by Subscriber in accordance with the Specifications and applicable law in the formation of an eContract involving a consumer will be sufficient under the ESIGN Act to support the validity of such formation, to the extent provided in the ESIGN Act, so long as and provided that Subscriber complies with all special requirements for consumer eContracts, including and subject to those referenced in Section 2.1(vi) and (vii) above; and (f) DocuSign has implemented information security policies and safeguards to preserve the security, integrity, and confidentiality of Personal Data and to protect against unauthorized access and anticipated threats or hazards thereto, that meet the objectives of the Interagency Guidelines Establishing Standards for Safeguarding Customer Information as set forth in Section 501 (b) of the Gramm-Leach-Bliley Act.

10.2 Mutual Warranties. Each party represents and warrants to the other that: (a) this Agreement has been duly executed and delivered and constitutes a valid and binding agreement enforceable against such party in accordance with its terms; (b) no authorization or approval from any third party is required in connection with such party's execution, delivery, or performance of this Agreement; and (c) the execution, delivery, and performance of this Agreement does not violate the laws of any jurisdiction or the terms or conditions of any other agreement to which it is a party or by which it is otherwise bound.

10.3 Disclaimer. EXCEPT FOR THE EXPRESS REPRESENTATIONS AND WARRANTIES STATED IN SECTIONS 10.1 AND 10.2 ABOVE (WHICH ARE NOT APPLICABLE TO CONSULTING SERVICES), DOCUSIGN MAKES NO ADDITIONAL REPRESENTATION OR WARRANTY OF ANY KIND -- WHETHER EXPRESS, IMPLIED IN FACT OR BY OPERATION OF LAW, OR STATUTORY -- AS TO ANY MATTER WHATSOEVER. DOCUSIGN EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. DOCUSIGN DOES NOT WARRANT THAT THE DOCUSIGN PRODUCTS (INCLUDING CONSULTING SERVICES OR RELATED DELIVERABLES, IF ANY), ARE OR WILL BE ERROR-FREE, WILL MEET SUBSCRIBER'S REQUIREMENTS, OR BE TIMELY OR SECURE. SUBSCRIBER WILL NOT HAVE THE RIGHT TO MAKE OR PASS ON ANY REPRESENTATION OR WARRANTY ON BEHALF OF DOCUSIGN TO ANY THIRD PARTY.

11. INDEMNIFICATION

11.1 By DocuSign. DocuSign will defend Subscriber, and its employees, directors, agents, and representatives ("Indemnified Party") from any actual or threatened third party claim arising from: (a) any breach by DocuSign of its confidentiality obligations in Section 13, and/or (b) alleged infringement by DocuSign of any third party intellectual property rights (each a "Subscriber Claim").

11.2 By Subscriber. Subscriber will defend DocuSign, and its employees, directors, agents, and representatives ("Indemnified Party") from any actual or threatened third party claim arising from: (a) any breach by Subscriber of its confidentiality obligations in Section 13, and/or (b) alleged infringement by Subscriber of any third party intellectual property rights, and/or (c) the content submitted by any Authorized User or otherwise Processed through Subscriber's Account (each a "DocuSign Claim").

11.3 Procedures. The parties' respective indemnification obligations above are conditioned on: (a) the Indemnified Party gives the Indemnifying Party prompt written notice of the Subscriber Claim or DocuSign Claim (as the case may be, a "Claim"); (b) the Indemnifying Party has full and complete control over the defense and settlement of the Claim; (c) the Indemnified Party provides assistance in connection with the defense and settlement of the Claim as the Indemnifying Party may reasonably request; and (d) the Indemnified Party complies with any settlement or court order made in connection with the Claim. The Indemnifying Party will indemnify the Indemnified Party against: (i) all damages, costs, and attorneys' fees finally awarded against any of them in any Claim under this Section 11; (ii) all out-of-pocket costs (including reasonable attorneys' fees) reasonably incurred by any of them in connection with the defense of the Claim (other than attorneys' fees and costs incurred without the Indemnifying Party's consent after it has accepted defense of such Claim); and (iii) if any Claim arising under this Section 11 is settled by the Indemnifying Party or with its approval, then the Indemnifying Party will pay any amounts to any third party agreed to by the Indemnifying Party in settlement of any such Claims.

12. LIMITATIONS OF LIABILITY

12.1 Disclaimer of Consequential Damages. EXCEPT WITH RESPECT TO INDEMNIFICATION OBLIGATIONS OF SECTION 11, NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED IN THIS AGREEMENT, NEITHER PARTY WILL, UNDER ANY CIRCUMSTANCES, BE LIABLE TO THE OTHER PARTY FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR RELATED TO THE TRANSACTIONS CONTEMPLATED UNDER THIS AGREEMENT (INCLUDING WITH RESPECT TO CONSULTING SERVICES, IF ANY), INCLUDING, BUT NOT LIMITED TO, LOST PROFITS OR LOSS OF BUSINESS, EVEN IF APPRISED OF THE LIKELIHOOD OF SUCH DAMAGES OCCURRING.

12.2 Cap on Liability. EXCEPT WITH RESPECT TO INDEMNIFICATION OBLIGATIONS OF SECTION 11, UNDER NO CIRCUMSTANCES WILL EITHER PARTY'S TOTAL LIABILITY OF ALL KINDS ARISING OUT OF OR RELATED TO THIS AGREEMENT (INCLUDING, BUT NOT LIMITED TO, WARRANTY CLAIMS AND WITH RESPECT TO CONSULTING SERVICES, IF ANY), REGARDLESS OF THE FORUM AND REGARDLESS OF WHETHER ANY ACTION OR CLAIM IS BASED ON CONTRACT, TORT, OR OTHERWISE, EXCEED THE TOTAL AMOUNT PAID BY SUBSCRIBER TO DOCUSIGN UNDER THIS AGREEMENT DURING THE 12 MONTHS PRECEDING THE DATE OF THE ACTION OR CLAIM.

12.3 Independent Allocations of Risk. EACH PROVISION OF THIS AGREEMENT THAT PROVIDES FOR A LIMITATION OF LIABILITY, DISCLAIMER OF WARRANTIES, OR EXCLUSION OF DAMAGES REPRESENTS AN AGREED ALLOCATION OF THE RISKS OF THIS AGREEMENT BETWEEN THE PARTIES. THIS ALLOCATION IS REFLECTED IN THE PRICING OFFERED BY DOCUSIGN TO SUBSCRIBER AND IS AN ESSENTIAL ELEMENT OF THE BASIS OF THE BARGAIN BETWEEN THE PARTIES. EACH OF THESE PROVISIONS IS SEVERABLE AND INDEPENDENT OF ALL OTHER PROVISIONS OF THIS AGREEMENT, AND EACH OF THESE PROVISIONS WILL APPLY EVEN IF THE WARRANTIES IN THIS AGREEMENT HAVE FAILED OF THEIR ESSENTIAL PURPOSE.

13. CONFIDENTIALITY

13.1 "Confidential Information" means any trade secrets or other information of DocuSign or Subscriber, whether of a technical, business, or other nature (including, without limitation, in the case of DocuSign, DocuSign software and related information, and in the case of Subscriber, Personal Data and eContracts), that is disclosed to the other party (the "Recipient"). Confidential Information does not include any information that: (a) was known to Recipient prior to receiving it from the disclosing party; (b) is independently developed by Recipient without use of or reference to any Confidential Information of the other party; (c) is acquired by Recipient from another source that did not receive it in confidence from the other party to this Agreement; or (d) is or becomes part of the public domain through no fault or action of Recipient.

13.2 Restricted Use and Nondisclosure. During and after the Term, Recipient will: (a) use the Confidential Information of the other party solely for the purpose for which it is provided; (b) not disclose such Confidential Information to a third party; and (c) protect such Confidential Information from unauthorized use and disclosure to the same extent (but using no less than a reasonable degree of care) that it protects its own Confidential Information of a similar nature.

13.3 Required Disclosure. If Recipient is required by law to disclose Confidential Information of the other party or the terms of this Agreement, Recipient must give prompt written notice of such requirement before such disclosure and assist the disclosing party to obtain where reasonably available an order protecting the Confidential Information from public disclosure.

13.4 Return of Materials. Except for as provided in Section 7.4, upon written request by the disclosing party, Recipient will destroy or deliver to the disclosing party all of the disclosing party's Confidential Information that Recipient may have in its possession or control.

13.5 Ownership. Recipient acknowledges that, as between the parties, all Confidential Information it receives from the disclosing party, including all copies thereof in Recipient's possession or control, in any media, is proprietary to and exclusively owned by the disclosing party. Nothing in this Agreement grants Recipient any right, title or interest in or to any of the disclosing party's Confidential Information. Recipient's incorporation of the disclosing party's Confidential Information into any of its own materials shall not render Confidential Information non-confidential.

13.6 Remedies. Recipient acknowledges that any actual or threatened violation of this confidentiality provision may cause irreparable, non-monetary injury to the disclosing party, the extent of which may be difficult to ascertain, and therefore agrees that the disclosing party shall be entitled to seek injunctive relief in addition to all remedies available to the disclosing party at law and/or in equity. Absent written consent of the disclosing party, the burden of proving that the disclosing party's Confidential Information is not, or is no longer, confidential or a trade secret shall be on the Recipient.

13.7 Existing Obligations. The obligations in this Section 13 are in addition to, and supplement, each party's obligations of confidentiality under applicable law and/or under any nondisclosure or other agreement between the parties.

14. GENERAL

14.1 Relationship. At all times, the parties are independent actors, and are not the agent or representative of the other. This Agreement is not intended to create a joint venture, partnership, or franchise relationship, or give rise to any third party beneficiary. Subscriber must not represent to anyone that Subscriber is an agent of DocuSign or is otherwise authorized to bind or commit DocuSign in any way without DocuSign's prior authorization.

14.2 Assignability. Subscriber may not assign its rights, duties, or obligations under this Agreement without DocuSign's prior written consent. If consent is given, this Agreement will bind Subscriber's successors and assigns. Any attempt by Subscriber to transfer its rights, duties, or obligations under this Agreement except as expressly provided in this Agreement is void. Notwithstanding the foregoing, either party may assign this Agreement to a successor of its business without the other party's consent.

14.3 Nonsolicitation. During the Term of this Agreement and for a period of one year thereafter, Subscriber will not, directly or indirectly, employ or solicit the employment or services of a DocuSign employee or independent contractor without the prior written consent of DocuSign.

14.4 Notices. Any notice required or permitted to be given in accordance with this Agreement will be effective if it is in writing and sent using: (a) the "acknowledge receipt" function of the Subscription Service; (b) by certified or registered mail; or (c) insured courier, to the appropriate party at the address set forth on the Order Form. Either party may change its address for receipt of notice by notice to the other party in accordance with this Section. Notices are deemed given upon receipt if delivered using the Subscription Service, two business days following the date of mailing, or one business day following delivery to a courier.

14.5 Force Majeure. Except for any payment obligations, neither party will be liable for, or be considered to be in breach of or default under this Agreement on account of, any delay or failure to perform as required by this Agreement as a result of any cause or condition beyond such party's reasonable control, so long as such party uses all commercially reasonable efforts to avoid or remove such causes of non-performance or delay.

14.6 Dispute Resolution. In the event of any dispute regarding any right or obligation under this Agreement, the aggrieved party shall notify the other party in a writing describing the dispute ("Notice of Dispute"). Upon receipt of the Notice of Dispute, the parties shall arrange a meeting between their representatives. Over a period not to exceed 10 business days after receipt of Notice of Dispute ("Period"), the parties shall engage in good faith negotiations to resolve such dispute. If the parties' representatives are unable to resolve the dispute at such meetings during the Period, then each party may seek any remedies available to it in law or equity. Notwithstanding the foregoing, either party may seek injunctive relief at any time. Each party hereby irrevocably waives, to the fullest extent permitted by law, any and all right to trial by jury in any legal proceeding arising out of or relating to this Agreement.

14.7 Governing Law. This Agreement will be interpreted, construed, and enforced in all respects in accordance with the local laws of the State of Washington, U.S.A., without reference to its choice of law rules to the contrary. The provisions of the 1980 U.N. Convention on Contracts for the International Sale of Goods are expressly excluded and do not apply to this Agreement. Any legal action by Subscriber arising under this Agreement must be initiated within two years after the cause of action arises.

14.8 Waiver. The waiver by either party of any breach of any provision of this Agreement does not waive any other breach. The failure of any party to insist on strict performance of any covenant or obligation in accordance with this Agreement will not be a waiver of such party's right to demand strict compliance in the future, nor will the same be construed as a novation of this Agreement.

14.9 Severability. If any part of this Agreement is found to be illegal, unenforceable, or invalid, the remaining portions of this Agreement will remain in full force and effect. If any material limitation or restriction on the grant of any license to Subscriber under this Agreement is found to be illegal, unenforceable, or invalid, the license will immediately terminate.

14.10 Counterparts. This Agreement may be executed in any number of identical counterparts, notwithstanding that the parties have not signed the same counterpart, with the same effect as if the parties had signed the same document. All counterparts will be construed as and constitute the same agreement.

14.11 Entire Agreement. This Agreement is the final and complete expression of the agreement between these parties regarding the DocuSign Products. This Agreement supersedes, and the terms of this Agreement govern, all previous oral and written communications regarding these matters. This Agreement may be changed only by a written agreement signed by an authorized agent of both parties.

ADDITIONAL TERMS AND CONDITIONS FOR CONSULTING SERVICES

The following additional terms and conditions apply to Consulting Services, if any, that are made the subject of an Order Form.

15. SERVICES, WORK ORDERS, AND CHANGE ORDERS

15.1 Services. Subject to the terms and conditions of this Agreement, DocuSign will, if ordered as provided hereunder, perform for Subscriber certain Consulting Services.

15.2 Work Orders. The specific details of the Consulting Services to be performed will be determined on a per-project basis, and the details for each project will be described in a Work Order that is executed by both parties (called the "Work Order" for purposes of the Consulting Services). An Order Form that lists a DocuSign standard training or consulting package as a DocuSign Product constitutes a Work Order. Once executed by both parties, each Work Order will be a unique agreement that incorporates the terms of this Agreement and stands alone with respect to all other Order Forms. If there is a conflict between the terms of this Agreement and the terms of a Work Order, the terms of this Agreement will control unless the Work Order states that a specific provision of this Agreement will be superseded by a specific provision of the Work Order.

15.3 Change Orders. Unless otherwise specified in a Work Order, Subscriber may reasonably request in writing that revisions be made with respect to the Consulting Services or deliverables set forth in that Work Order ("Change Order"). If a Change Order recites revisions that materially increase the scope of the Consulting Services or the effort required to deliver deliverables under the applicable Work Order, then within 10 business days after DocuSign's receipt of the Change Order, DocuSign will deliver to Subscriber a written, revised Work Order reflecting DocuSign's reasonable determination of the revised Consulting Services, deliverables, delivery schedule, payment schedule, and adjusted fees or fee estimates, if any, that will apply to the implementation of the revisions. If Subscriber approves the revised Work Order, then the parties will execute it, and upon execution, the revised Work Order will supersede the then-existing Work Order. If Subscriber does not approve the revised Work Order within 10 business days after its receipt by Subscriber, the then-existing Work Order will remain in full force and effect, and DocuSign will have no further obligation with respect to the applicable Change Order.

16. PERFORMANCE OF CONSULTING SERVICES

16.1 Project Management. For each project described in a Work Order, each party will designate a single point of contact within its organization to manage the project ("Project Leader"). The Project Leaders will meet as necessary to manage the Consulting Services to be performed under a Work Order. Disputes will be escalated to more senior executives if the Project Leaders are unable to resolve a problem. DocuSign's Project Leader will provide Subscriber's Project Leader with regular reports on the status of the Consulting Services at least once per month.

16.2 Performance Standard. DocuSign warrants to Subscriber that the Consulting Services will be performed in a good and workmanlike manner in accordance with standard industry practice and the applicable Work Order, including any specifications

in such Work Order. DocuSign will complete the Consulting Services, including the delivery of any deliverables, in accordance with the schedule of times and milestones specified in the Work Order.

16.3 Fees. Unless otherwise specified in a Work Order, Subscriber will pay DocuSign for Consulting Services on a time-and-materials basis at DocuSign's then-current rates and under payment terms described in this Agreement ("Consulting Fees").

16.4 Disclaimer. EXCEPT FOR WARRANTIES PROVIDED HEREIN OR EXPRESSLY IDENTIFIED AS SUCH IN A WORK ORDER, THE CONSULTING SERVICES AND ANY RELATED DELIVERABLES WILL BE PROVIDED AS-IS AND WITHOUT WARRANTY OF ANY KIND. DOCUSIGN EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT AS TO ANY AND ALL CONSULTING SERVICES AND RELATED DELIVERABLES.

17. TERM AND TERMINATION OF WORK ORDERS

17.1 Term. Each Work Order is non-cancellable except pursuant to a Change Order, and will commence on the specified effective date and will continue until each party's obligations under the Work Order have been fulfilled or the Work Order is terminated as provided in the Work Order.

17.2 Effect of Termination. If any Work Order is terminated in accordance with this Section 17, then Subscriber will pay to DocuSign any Consulting Fees and all other payment obligations accrued and payable for the Consulting Services performed under the terminated Work Order through the effective date of the termination. If a Work Order is terminated for any reason other than for material breach by DocuSign, Subscriber will pay to DocuSign all Consulting Fees due under the Work Order had the Work Order not been terminated and had the Consulting Services been fully performed in accordance with the schedule then in effect, which amount owing will be evidenced in a final termination invoice to be provided by DocuSign to Subscriber. The amount of Consulting Services Fees specified in such termination invoice from DocuSign will be final and binding on the parties, absent manifest error.

18. PROPRIETARY RIGHTS

18.1 Subscriber Materials. Any materials provided by Subscriber to DocuSign specifically for use by DocuSign in the course of the Consulting Services ("Subscriber Materials") will be used and disclosed solely as required to perform the Consulting Services. As between the parties, Subscriber will continue to own the Subscriber Materials.

18.2 Inventions. Except as expressly set forth to the contrary in a Work Order, all works of authorship, inventions, discoveries, improvements, methods, processes, formulas, designs, techniques, and information: (a) conceived, discovered, developed or otherwise made by DocuSign, solely or in collaboration with others, in the course of performing the Consulting Services; or (b) that form all or part of a deliverable provided as part of the Consulting Services, whether developed as part of the Consulting Services or separately, but excluding Subscriber Materials (as defined in Section 18.1) (collectively, "Inventions"), will be the sole property of DocuSign. Upon and subject to final payment by Subscriber of all amounts owing to DocuSign, DocuSign hereby grants to Subscriber a nonexclusive, perpetual, worldwide, royalty-free license to use, copy, modify, and prepare derivative works of the Inventions solely for purposes of Subscriber's internal business operations only.

MASTER PURCHASE AGREEMENT

This Master Purchase Agreement (this "Agreement") is entered into as of [DATE] (the "Effective Date") by and between FireEye (as defined below) and _____, a _____ corporation, with its principal place of business at _____("Customer"). This Agreement will govern Customer's initial purchase of FireEye Offerings and any future orders by Customer as agreed between the parties in writing. FireEye shall provide its Offerings pursuant to the terms and conditions below. For good and valuable consideration, the parties hereby agree as follows:

Structure and Order of Precedence. This Agreement provides the general terms under which the Customer may use FireEye's various Offerings. The explicit rights for the Customer to use and receive Products, Support Services or Subscriptions or otherwise engage with specific FireEye Offerings are set forth in the applicable Exhibit. In the event of conflict between any of the terms in this Agreement and an Exhibit, the Exhibit shall govern.

GENERAL TERMS APPLICABLE TO ALL FIREEYE OFFERINGS

1. DEFINITIONS.

1.1 "Content Feed" means all intelligence and content feeds associated with Products, which may consist of inbound and outbound feeds that are part of FireEye's Dynamic Threat Intelligence (DTI) Cloud, downloads of Indicators for use with Products, and/or intelligence provided as part of the Advanced Threat Intelligence (ATI) Subscription.

1.2 "Deliverables" means the written reports that are created specifically for Customer as a result of the Professional Services provided hereunder.

1.3 "Documentation" means the user manuals generally provided in writing by FireEye to end users of the Products and Subscriptions in electronic format, as amended from time to time by FireEye.

1.4 "FireEye" means (i) FireEye, Inc., a Delaware corporation with its principal place of business at 1440 McCarthy Blvd., Milpitas, CA, 95035 with respect to Offerings that are shipped to, deployed or rendered inside of North America (including the United States, Mexico, Canada and the Caribbean), Central America and South America (collectively, the "Americas"); or (ii) with respect to all Offerings that are shipped to, deployed or rendered outside of the Americas, FireEye Ireland Limited, a company incorporated under the laws of Ireland with principal place of business at 2 Park Place, City Gate Park, Mahon, Cork, Ireland. FireEye includes the operating divisions Mandiant and iSIGHT.

1.5 "FireEye Materials" means all FireEye proprietary materials, Deliverables, intellectual property related to Products or Subscriptions, (such as all rights in any software incorporated into a Product or Subscription, copyrights, and patent, trade secret and trademark rights related to Products, and screens associated with Products or Subscriptions), Documentation, any hardware and/or software used by FireEye in performing Services or providing Subscriptions, Content Feeds, FireEye's processes and methods (including any forensic investigation processes and methods), Indicators of Compromise, materials distributed by FireEye during Training, and any FireEye templates and/or forms, including report and presentation templates and forms. FireEye Materials does not include Third Party Materials.

1.6 "Indicators of Compromise" or "Indicators" means specifications of anomalies, configurations, or other conditions that FireEye is capable of identifying within an information technology infrastructure, used by FireEye in performing Professional Services and providing Subscriptions.

1.7 "Intellectual Property Rights" means copyrights (including, without limitation, the exclusive right to use, reproduce, modify, distribute, publicly display and publicly perform the copyrighted work), trademark rights (including, without limitation, trade names, trademarks, service marks, and trade dress), patent rights (including, without limitation, the exclusive right to make, use and sell), trade secrets, moral rights, right of publicity, authors' rights, contract and licensing rights, goodwill and all other intellectual property rights as may exist now and/or hereafter come into existence and all renewals and extensions thereof, regardless of whether such rights arise under the law of the United States or any other state, country or jurisdiction.

1.8 "Offerings" means, collectively, Products, Subscriptions, Training, Professional Services and Support Services.

1.9 "Order" means a written purchase order or similar ordering document, signed or submitted to FireEye by Customer and approved by FireEye, under which Customer agrees to purchase Offerings.

1.10 "Products" means the FireEye software and hardware appliances (which may include embedded software or firmware components) as described in Exhibit A to this Agreement.

1.11 "Professional Services" means, collectively, those security consulting services provided by FireEye under a Statement of Work and/or set forth on an Order, which may consist of Product-related services such as deployment, configuration or installation services; proactive security consulting such as penetration testing, vulnerability assessments or compromise assessments; or incident response or other remediative services.

1.12 "Service" or "Services" means the Professional Services, Support Services and Training.

1.13 "Statement of Work" or "SOW" means a mutually agreed-upon document between FireEye and Customer, describing Professional Services, rates and timelines (if applicable) for those Professional Services, and incorporating this Agreement.

1.14 "Subscription" means a service provided by FireEye for a fixed term, under which FireEye provides access to certain features, functionality, and/or information, as described in the applicable Exhibit for each Subscription attached to this Agreement.

1.15 "Support Services" means the Product support and maintenance services provided by FireEye with respect to each Product, and that are described in the applicable Exhibit for each Product attached to this Agreement.

1.16 "Third Party Materials" means software or other components that are licensed to FireEye by third parties for use in FireEye's Offerings.

1.17 "Training" means training in the use of Products, or on security-related topics in general, provided by FireEye.

2. ORDERS AND STATEMENTS OF WORK.

2.1. Orders. Customer may purchase Offerings by submitting an Order. If accepted by FireEye, the "Order Effective Date" will be the date of the Order. All Orders will be governed by this Agreement. For clarity, FireEye will not be obligated to ship any Product, or provide any Services, Training or Subscriptions until Customer has issued a valid Order for those Offerings.

2.2. Statements of Work. Each Statement of Work will incorporate and be governed by this Agreement. The "Statement of Work Effective Date" will be the date both Customer and FireEye have agreed to the Statement of Work, either by executing the Statement of Work or by issuing and accepting an Order for the Professional Services described on the Statement of Work. For clarity, FireEye will not be obligated to perform any Professional Services until a SOW describing those Professional Services has been agreed by both parties or an Order listing those Professional Services has been accepted by FireEye.

3. PAYMENT. Customer agrees to purchase the Offerings for the prices set forth in each Order and/or Statement of Work, as applicable ("Fees"). If Customer purchases through a FireEye partner (such as an authorized reseller or distributor, collectively, "FireEye Partners"), all fees and other procurement and delivery terms shall be agreed between Customer and the applicable partner. If Customer purchases directly from FireEye, Customer will make full payment in the currency specified in FireEye's invoice, without set-off and in immediately available funds, within thirty (30) days of the date of each invoice. All Fees are non-cancelable and non-refundable. All Fees described on an Order will be fully invoiced in advance, unless otherwise agreed by FireEye. Unless otherwise specified in a Statement of Work, all Fees related to Professional Services will be invoiced

fully in advance. Customer shall reimburse FireEye for any and all expenses incurred so long as such expenses are directly attributable to the Services or Subscriptions performed for or provided to Customer. FireEye will provide appropriate vouching documentation for all expenses exceeding $25. If any payment is more than fifteen (15) days late, FireEye may, without limiting any remedies available to FireEye, terminate the applicable Order or Statement of Work or suspend performance until payment is made current. Customer will pay interest on all delinquent amounts at the lesser of 1.5% per month or the maximum rate permitted by applicable law. All Fees are exclusive of all present and future sales, use, excise, value added, goods and services, withholding and other taxes, and all customs duties and tariffs now or hereafter claimed or imposed by any governmental authority upon the Offerings which shall be invoiced to and paid by the Customer. If Customer is required by law to make any deduction or withholding on any payments due to FireEye, Customer will notify FireEye and will pay FireEye any additional amounts necessary to ensure that the net amount FireEye receives, after any deduction or withholding, equals the amount FireEye would have received if no deduction or withholding had been required. Additionally, Customer will provide to FireEye evidence, to the reasonable satisfaction of FireEye, showing that the withheld or deducted amounts have been paid to the relevant governmental authority. For purposes of calculating sales and similar taxes, FireEye will use the address set forth on the Order or Statement of Work, as applicable, as the jurisdiction to which Offerings and shipments are delivered unless Customer has otherwise notified FireEye in writing as of the Order Effective Date or Statement of Work Effective Date, as applicable. Customer will provide tax exemption certificates or direct-pay letters to FireEye on or before the Order Effective Date or Statement of Work Effective Date, as applicable. FireEye reserves the right to increase Fees at any time, although increases in Fees for Subscriptions or Support Services will not go into effect until the next Renewal Subscription Term or Renewal Support Term, as applicable.

4. TITLE AND RISK OF LOSS; INSPECTION. All hardware, including Products and any hardware provided for use with Subscriptions and/or Services, is shipped FOB Origin (FCA) from FireEye's designated manufacturing facility or point of origin, and title to such hardware and the risk of loss of or damage to the hardware shall pass to Customer at time of FireEye's delivery of such hardware to the carrier. FireEye is authorized to designate a carrier pursuant to FireEye's standard shipping practices unless otherwise specified in writing by Customer. Customer must provide written notice to FireEye within five (5) days of delivery of the Products of any non-conformity with the Order, e.g., delivery of the wrong Product or incorrect quantities.

5. TERMS APPLICABLE TO OFFERINGS.

5.1. Products and Support Services. Customer's purchase and use of each Product and Support Services for each Product will be subject to the licenses and terms specific to each Product set forth in Exhibit A.

5.2. Subscriptions. Customer's purchase of and access to each Subscription will be subject to the terms specific to each Subscription set forth in Exhibit B.

5.3. Training. Customer's purchase of Training will be subject to the terms in this Section 5.3. Training delivery dates and location for such Training will be mutually agreed upon by the parties. If an Order does not specify such dates and/or locations, then the parties will mutually agree upon the dates and locations for Training. Customer must request rescheduling of Training no less than two (2) weeks in advance of the scheduled start date. FireEye will use reasonable efforts to reschedule the Training, subject to availability, and Customer will pay any expenses associated with the rescheduling, including any expenses associated with cancelling or changing travel plans. If Customer cancels attendance at a public Training class, Customer must notify FireEye no later than two (2) business days before the date of the Training class. If Customer timely notifies FireEye of the cancellation, FireEye will issue Customer a credit for the amount paid for that public Training class, which Customer may apply toward another public Training class held within one (1) year of the date of the Order on which the cancelled Training class was included. Customer may substitute a named attendee at a public Training class, but Customer will notify FireEye in advance of any such substitution. FireEye reserves the right to refuse admittance to public Training classes to any person, for any reason, and if FireEye refuses admittance, FireEye will refund the amount paid for that person's attendance at the public Training class. FireEye does not refund or credit Fees paid for attendees who do not attend Training classes or who leave before a Training class concludes. If Customer purchases a block of Training hours (for example, 10 hours of Training), then Customer must use those hours within one (1) year of the effective date of the applicable Order. All Training must be scheduled and conducted within one (1) year of the date of the applicable Order for that Training.

5.4. Professional Services.

5.4.1. Deliverables. Subject to Customer's timely payment of applicable fees, and subject to this Agreement and each applicable SOW, Customer shall have a perpetual, non-exclusive, nontransferable, right and license to use, display and reproduce the Deliverables for its internal business purposes. Deliverables may not be shared with any third party other than law enforcement agencies. In no event may Deliverables be used for sales or marketing activities.

5.4.2. Customer-Owned Property. Customer will be and remain, at all times, the sole and exclusive owner of the Customer-Owned Property (including, without limitation, any modification, compilation, derivative work of, and all intellectual property and proprietary rights contained in or pertaining thereto). FireEye will promptly return to Customer all Customer-Owned Property upon the termination or expiration of the applicable Statement of Work or Order, or sooner at Customer's request. "Customer-Owned Property" means any technology, software, algorithms, formulas, techniques or know-how and other tangible and intangible items that were owned by Customer, or developed by or for Customer prior to the SOW Effective Date that are provided by Customer to FireEye for incorporation into or used in connection with the development of the Deliverables or performance of Professional Services.

5.4.3. Customer Responsibilities. If the Services or Subscriptions require the installation and use of FireEye equipment or software, Customer will facilitate the installation and shall provide physical space, electrical power, Internet connectivity and physical access as reasonably determined and communicated by FireEye. Notwithstanding anything to the contrary herein or in any Statement of Work, including confidentiality provisions, if Customer has hired FireEye to perform a PCI DSS Compliance Audit or a PCI investigation, FireEye may provide The Payment Card Industry Security Standards Council, LLC (PCI SSC), card companies and the relevant merchant bank with all Reports of Compliance (ROC) and all related assessment and investigative report documents generated in connection with such work, as required by PCI DSS rules.

5.4.4. Additional Assumptions. (a) estimated Fees for Professional Services do not include any hardware, software, licensing, maintenance or support costs of any FireEye or other third-party product or service suggested by FireEye in the course of performing Professional Services; (b) when FireEye's personnel are performing Professional Services on site at Customer's premises, Customer will allocate appropriate working space and physical access for all FireEye personnel; (c) Customer will make available key individuals within the security program that can best help plan and coordinate activities described in the SOW; (d) either party may elect to submit written change requests to the other party proposing changes to the Statement of Work. All changes to the requirements and Statement of Work will be made using agreed-to project change control procedures.

5.5 Evaluations. If Customer receives a Product or Subscription for evaluation purposes ("Evaluation Offerings") then Customer may use the Evaluation Offerings for its own internal evaluation purposes for a period of up to thirty (30) days from the date of receipt of the Evaluation Offerings (the "Evaluation Period"). Customer and FireEye may, upon mutual written agreement (including via email), extend the Evaluation Period. If the Evaluation Offering includes hardware components, Customer will return the hardware within ten (10) days of the end of the Evaluation Period, and if Customer does not return the hardware within this period, Customer shall be invoiced for the then-current list price for the applicable Evaluation Offering. Customer acknowledges that title to hardware components of Evaluation Offerings remains with FireEye at all times, and that Evaluation Offerings may be used and/or refurbished units. If the Evaluation Offering does not include hardware components, Evaluator must delete all software and other components (including Documentation) related to the Evaluation Offering at the end of the Evaluation Period, and confirm those deletions in writing to FireEye, or the Evaluator shall be invoiced for the then-current list price for the Evaluation Offering. If the Evaluation Offering is a Subscription, Evaluator understands that FireEye may disable access to the Subscription automatically at the end of the Evaluation Period, without notice to Evaluator. EVALUATION OFFERINGS ARE PROVIDED "AS IS", AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, FIREEYE DISCLAIMS ALL WARRANTIES RELATING TO THE EVALUATION OFFERINGS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES AGAINST INFRINGEMENT OF THIRD PARTY RIGHTS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

6. INTELLECTUAL PROPERTY

6.1. Ownership of FireEye Materials; Restrictions. All Intellectual Property Rights in FireEye Materials, Products, Deliverables, Documentation, and Subscriptions belong exclusively to FireEye and its licensors. Customer will not (and will not allow any third party to): (i) disassemble, decompile, reverse compile, reverse engineer or attempt to discover any source code or underlying ideas or algorithms of any FireEye Materials (except to the limited extent that applicable law prohibits reverse engineering restrictions); (ii) sell, resell, distribute, sublicense or otherwise transfer, the FireEye Materials, or make the functionality of the FireEye Materials available to any other party through any means (unless otherwise FireEye has provided prior written consent), (iii) without the express prior written consent of FireEye, conduct any benchmarking or comparative study or analysis involving the FireEye Materials ("Benchmarking") for any reason or purpose except, to the limited extent absolutely necessary, to determine the suitability of Products or Subscriptions to interoperate with Customer's internal computer systems; (iv) disclose or publish to any third party any Benchmarking or any other information related thereto; (v) use the FireEye Materials or any Benchmarking in connection with the development of products, services or subscriptions that compete with the FireEye Materials; or (vi) reproduce, alter, modify or create derivatives of the FireEye Materials. Between Customer and FireEye, FireEye shall retain all rights and title in and to any Indicators of Compromise FireEye developed by or for FireEye in the course of providing Subscriptions or performing Services.

6.2. Third Party Materials. Customer acknowledges that Products and Subscriptions may include Third Party Materials. FireEye represents that these Third Party Materials will not diminish the license rights provided herein or limit Customer's ability to use the Products and Subscriptions in accordance with the applicable Documentation, and neither the inclusion of Third Party Materials in any Product or Subscription or use of Third Party Materials in performance of Services will create any obligation on the part of Customer to license Customer's software or products under any open source or similar license.

7. WARRANTIES.

7.1. Product Warranty. FireEye warrants to Customer that during the one (1) year period following the shipment of the Products, the Products will perform substantially in accordance with the applicable Documentation. The warranty stated in this Section 7.1 shall not apply if the Product has: (i) been subjected to abuse, misuse, neglect, negligence, accident, improper testing, improper installation, improper storage, improper handling or use contrary to any instructions issued by FireEye; (ii) been repaired or altered by persons other than FireEye; (iii) not been installed, operated, repaired and maintained in accordance with the Documentation; or (iv) been used with any third party software or hardware which has not been previously approved in writing by FireEye. If during the one-year Product warranty period: (a) FireEye is notified promptly in writing upon discovery of any error in a Product, including a detailed description of such alleged error; (b) such Product is returned, transportation charges prepaid, to FireEye's designated manufacturing facility in accordance with FireEye's then-current return procedures, as set forth by FireEye from time to time; and (c) FireEye's inspections and tests determine that the Product contains errors and has not been subjected to any of the conditions set forth in 7.1(i)-(iv) above, then, as Customer's sole remedy and FireEye's sole obligation under the foregoing warranty, FireEye shall, at FireEye's option, repair or replace without charge such Product. Any Product that has either been repaired or replaced under this warranty shall have warranty coverage for the remaining warranty period. Replacement parts used in the repair of a Product may be new or equivalent to new.

7.2. Services Warranty. FireEye warrants to Customer that Services will be performed in a professional manner in accordance with industry standards for like services. If Customer believes the warranty stated in this Section has been breached, Customer must notify FireEye of the breach no later than thirty (30) days following the date the Services were performed, and FireEye will promptly correct or re-perform the Services, at FireEye's expense.

7.3. Subscription Warranty. FireEye warrants to Customer the Subscriptions will be provided in a professional manner in accordance with industry standards for similar subscriptions. If Customer believes the warranty stated in this Section has been breached, Customer must notify FireEye of the breach no later than thirty (30) days following the date the warranty was allegedly breached, and FireEye will promptly correct the non-conformity, at FireEye's expense.

7.4. Remedies Exclusive. Except for any Service Level Credits described in Exhibit B, the remedies stated in Sections 7.1-7.3 above are the sole remedies, and FireEye's sole obligation, with respect to Products, Subscriptions and Services that fail to comply with the foregoing warranties.

7.5. Disclaimer of Warranties. EXCEPT FOR THE EXPRESS WARRANTIES SET FORTH HEREIN, ALL PRODUCTS, SUBSCRIPTIONS, FIREEYE MATERIALS, DELIVERABLES AND SERVICES ARE PROVIDED ON AN "AS IS" BASIS WITHOUT ANY WARRANTY WHATSOEVER. FIREEYE AND ITS SUPPLIERS EXPRESSLY DISCLAIM, TO THE MAXIMUM EXTENT PERMISSIBLE UNDER APPLICABLE LAW, ALL WARRANTIES, EXPRESS, IMPLIED AND STATUTORY, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, ACCURACY, NONINFRINGEMENT, OR ARISING FROM COURSE OF PERFORMANCE, DEALING, USAGE OR TRADE. FIREEYE ALSO MAKES NO WARRANTY REGARDING NONINTERRUPTION OF USE OR FREEDOM FROM BUGS, AND MAKES NO WARRANTY THAT PRODUCTS, FIREEYE MATERIALS, DELIVERABLES, SERVICES OR SUBSCRIPTIONS WILL BE ERROR-FREE.

8. INFRINGEMENT INDEMNITY.

8.1. FireEye shall defend Customer, and its officers, directors and employees, against any third party action alleging that the FireEye Materials infringes a valid U.S. patent or copyright issued as of the date of delivery or performance, as applicable, and FireEye shall pay all settlements entered into, and all final judgments and costs (including reasonable attorneys' fees) finally awarded against such party in connection with such action. If the FireEye Materials, or parts thereof, become, or in FireEye's opinion may become, the subject of an infringement claim, FireEye may, at its option: (i) procure for Customer the right to continue using the applicable FireEye Materials; (ii) modify or replace such FireEye Materials with a substantially equivalent non-infringing FireEye Materials; or (iii) require the return of such FireEye Materials or cease providing affected Product, Subscriptions, Deliverables or Services, and refund to Customer, with respect to Products, a pro-rata portion of the purchase price of such Products based on a three-year straight line amortization of the purchase price, and with respect to Subscriptions, a portion of any pre-paid Fees for such Subscriptions, pro rated for any unused Subscription Term, and with respect to Services, any pre-paid Fees for Services that have not been delivered. THIS SECTION 8.1 STATES THE ENTIRE LIABILITY OF FIREEYE AND CUSTOMER'S SOLE REMEDY WITH RESPECT TO ANY INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS BY THE OFFERINGS, FIREEYE MATERIALS, OR DELIVERABLES.

8.2. FireEye shall have no indemnification obligations with respect to any action arising out of: (i) the use of any Product, Subscription, Deliverable, or Service, or any part thereof, in combination with software or other products not supplied by FireEye; (ii) any modification of the Products, Subscriptions, Deliverables, or Services not performed or expressly authorized by FireEye; or (iii) the use of any the Products, Subscriptions, Deliverables, or Services other than in accordance with this Agreement and applicable Documentation.

8.3. The indemnification obligations shall be subject to Customer: (i) notifying FireEye within ten (10) days of receiving notice of any threat or claim in writing of such action; (ii) giving FireEye exclusive control and authority over the defense or settlement of such action; (iii) not entering into any settlement or compromise of any such action without FireEye's prior written consent; and (iv) providing reasonable assistance requested by FireEye.

9. LIMITATION OF LIABILITY.

9.1. Consequential Damages Waiver. EXCEPT FOR LIABILITY ARISING UNDER A BREACH OF ANY INTELLECTUAL PROPERTY RIGHT OF FIREEYE, OR THE INDEMNIFICATION OBLIGATIONS SET FORTH IN SECTION 8 (INFRINGEMENT INDEMNITY), IN NO EVENT WILL FIREEYE BE LIABLE FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES OF ANY KIND, INCLUDING BUT NOT LIMITED TO ANY LOST PROFITS AND LOST SAVINGS, HOWEVER CAUSED, WHETHER FOR BREACH OR REPUDIATION OF CONTRACT, TORT, BREACH OF WARRANTY, NEGLIGENCE, OR OTHERWISE, WHETHER OR NOT FIREEYE WAS ADVISED OF THE POSSIBILITY OF SUCH LOSS OR DAMAGES.

9.2. Limitation of Monetary Damages. EXCEPT FOR LIABILITY ARISING UNDER A BREACH OF ANY INTELLECTUAL PROPERTY RIGHT OF FIREEYE, PAYMENT OBLIGATIONS OF CUSTOMER, AND THE INDEMNIFICATION OBLIGATIONS SET FORTH IN SECTION 8 (INFRINGEMENT INDEMNITY), AND NOTWITHSTANDING ANY OTHER PROVISIONS OF THIS AGREEMENT OR ANY ORDER OR STATEMENT OF WORK, FIREEYE'S TOTAL LIABILITY ARISING OUT OF THIS AGREEMENT, THE OFFERINGS, THE FIREEYE IP AND DELIVERABLES SHALL BE LIMITED TO THE TOTAL AMOUNTS

RECEIVED BY FIREEYE FOR THE RELEVANT OFFERINGS DURING THE TWELVE (12) MONTHS IMMEDIATELY PRECEDING THE FIRST OCCURRENCE OF THE EVENTS GIVING RISE TO SUCH LIABILITY.

9.3. Applicability. THE LIMITATIONS AND EXCLUSIONS CONTAINED HEREIN WILL APPLY ONLY TO THE MAXIMUM EXTENT PERMISSIBLE UNDER APPLICABLE LAW, AND NOTHING HEREIN PURPORTS TO LIMIT EITHER PARTY'S LIABILITY IN A MANNER THAT WOULD BE UNENFORCEABLE OR VOID AS AGAINST PUBLIC POLICY IN THE APPLICABLE JURISDICTION.

9.4 SAFETY Act. FireEye and Customer hereby mutually waive and release each other from any and all liabilities relating to any claims for losses or damages of any kind (including, but not limited to, business interruption losses) arising out of an Act of Terrorism as defined by the Support Anti-Terrorism By Fostering Effective Technologies Act of 2002 ("SAFETY Act")(6 U.S.C. §§ 441-444). FireEye and Customer further agree to be solely responsible to the full extent of any and all losses they may sustain, or for any and all losses their respective employees, officers, or agents may sustain, resulting from an Act of Terrorism as defined by 6 U.S.C. §§ 441-444 when FireEye's Multi-Vector Virtual Execution Engine and any subscriptions, cloud services platform or associated services (the "Qualified Anti-Terrorism Technology") are utilized in defense against, response to, or recovery from an Act of Terrorism.

10. Export Control; Anti-Corruption; U.S. Government Restricted Rights.

10.1. Export Control. Export Control. Each party represents and warrants that it shall comply with all laws and regulations applicable to it with respect to the Offerings. Customer further acknowledges and agrees that the Products and FireEye Materials may be subject to restrictions and controls imposed by the United States Export Administration Act, the regulations thereunder, as well as European Union ("EU") or National export control laws and obligations and similar laws in other jurisdictions. Customer agrees to comply with all applicable export and re-export control laws and regulations, including the Export Administration Regulations ("EAR") maintained by the U.S. Department of Commerce, trade and economic sanctions maintained by the Treasury Department's Office of Foreign Assets Control, and the International Traffic in Arms Regulations ("ITAR") maintained by the Department of State. Specifically, Customer covenants that it shall not, directly or indirectly, sell, export, reexport, transfer, divert, or otherwise dispose of any Products, FireEye Materials, or technology (including products derived from or based on such technology) received from FireEye under this Agreement to any destination, entity, or person prohibited by the laws or regulations of the United States and the EU, without obtaining prior authorization from the competent government authorities as required by those laws and regulations. These prohibitions include, but are not limited to the following: (i) the Products and FireEye Materials cannot be exported or re-exported to any countries embargoed by the United States (currently including Cuba, Iran, North Korea, Sudan or Syria) which includes nationals of these countries employed by Customer; (ii) the Products and FireEye Materials cannot be exported or re-exported for military use in country group 'b' prior to valid 'export license' or valid 'license exception'; and (iii) the Products and FireEye Materials cannot be used for any prohibited end uses including any "nuclear, biological or chemical weapon related activities."; and (iv) the Products and FireEye Materials will not be re-exported or otherwise sold or transferred if it is known or suspected that they are intended or likely to be used for such purposes. Customer agrees to notify FireEye of any suspicious activities by any employee related to the Products. Customer agrees to indemnify, to the fullest extent permitted by law, FireEye from and against any fines or penalties that may arise as a result of Customer's breach of this provision. This export control clause shall survive termination or cancellation of any Orders.

10.2. Anticorruption Laws. Each Party acknowledges that it is familiar with and understands the provisions of the U.S. Foreign Corrupt Practices Act ("the FCPA") and the U.K. Bribery Act of 2010 ("UKBA") and agrees to comply with its terms as well as any provisions of local law related thereto. Each party further understands the provisions relating to the FCPA and UKBA's prohibitions regarding the payment or giving of anything of value, including but not limited to payments, gifts, travel, entertainment and meals, either directly or indirectly, to an official of a foreign government or political party for the purpose of influencing an act or decision in his or her official capacity or inducing the official to use his or her party's influence with that government, to obtain or retain business involving the Offering. Each Party agrees to not violate or knowingly let anyone violate the FCPA or UKBA, and Each Party agrees that no payment it makes will constitute a bribe, influence payment, kickback, rebate, or other payment that violates the FCPA, the UKBA, or any other applicable anticorruption or anti-bribery law.

10.3. U.S. Government Restricted Rights. The Offerings, Deliverables and Documentation are "commercial items", "commercial computer software" and "commercial computer software documentation," pursuant to DFAR Section 227.7202 and FAR Section 12.212, as applicable. All Offerings and FireEye Materials are and were developed solely at private expense. Any use, modification, reproduction, release, performance, display or disclosure of the Offerings, FireEye Materials and Documentation by the United States Government shall be governed solely by the this Agreement and shall be prohibited except to the extent expressly permitted by this Agreement.

11. CONFIDENTIAL INFORMATION.

11.1. Confidential Information. "Confidential Information" means the non-public information that is exchanged between the parties, provided that such information is: (i) identified as confidential at the time of disclosure by the disclosing party ("Discloser"); or (ii) disclosed under circumstances that would indicate to a reasonable person that the information should be treated as confidential by the party receiving such information ("Recipient"). The terms of any commercial transaction between the parties (including pricing related to the Offerings) shall be considered Confidential Information.

11.2. Maintenance of Confidentiality. Each party agrees that it shall: (i) take reasonable measures to protect the Confidential Information by using the same degree of care, but no less than a reasonable degree of care, to prevent the unauthorized use, dissemination or publication of the Confidential Information as the Recipient uses to protect its own confidential information of a like nature; (ii) limit disclosure to those persons within Recipient's organization with a need to know and who have previously agreed in writing, prior to receipt of Confidential Information either as a condition of their employment or in order to obtain the Confidential Information, to obligations similar to the provisions hereof; (iii) not copy, reverse engineer, disassemble, create any works from, or decompile any prototypes, software or other tangible objects which embody the other party's Confidential Information and/or which are provided to the party hereunder; and (iv) comply with, and obtain all required authorizations arising from, all U.S. and other applicable export control laws or regulations.. Confidential Information shall not be used or reproduced in any form except as required to accomplish the purposes and intent of an Order or Statement of Work. Any reproduction of Confidential Information shall be the property of Discloser and shall contain any and all notices of confidentiality contained on the original Confidential Information.

11.3. Exceptions. The parties agree that the foregoing shall not apply to any information that Recipient can evidence: (i) is or becomes publicly known and made generally available through no improper action or inaction of Recipient; (ii) was already in its possession or known by it prior to disclosure by Discloser to Recipient; (iii) is independently developed by Recipient without use of or reference to any Confidential Information; or (iv) was rightfully disclosed to it by, or obtained from, a third party. Recipient may make disclosures required by law or court order provided that Recipient: (a) uses diligent efforts to limit disclosure and to obtain, if possible, confidential treatment or a protective order; (b) has given prompt advance notice to Discloser of such required disclosure; and (c) has allowed Discloser to participate in the proceedings.

11.4. Injunctive Relief. Each party will retain all right, title and interest to such party's Confidential Information. The parties acknowledge that a violation of the Recipient's obligations with respect to Confidential Information may cause irreparable harm to the Discloser for which a remedy at law would be inadequate. Therefore, in addition to any and all remedies available at law, Discloser shall be entitled to seek an injunction or other equitable remedies in all legal proceedings in the event of any threatened or actual violation of any or all of the provisions hereof.

11.5. Return of Confidential Information. Within thirty (30) days after the date when all Orders and SOWs have expired or been terminated, or after any request for return of Confidential Information, each party will return to the other party or destroy all of such other party's Confidential Information, at such other party's discretion, and, upon request, provide such other party with an officer's certificate attesting to such return and/or destruction, as appropriate.

11.6. Privacy. If FireEye is a data processor under this Agreement, further to the provisions of Article 17 and 25 of the EU Data Protection Directive EU (Directive 95/46/EC), FireEye agrees that it will:

11.6.1 only deal with and process personal data controlled by Customer in compliance with, and subject to, the instructions received from Customer and in compliance with this Agreement and will not use or process the personal data for any other purpose whatever;

11.6.2 adopt and maintain appropriate (including organizational and technical) security measures in dealing with Customer's personal data in order to protect against unauthorized or accidental access, loss, alteration, disclosure or destruction of such data, in particular where the processing involves the transmission of data over a network, and against all other unlawful forms of processing; and

11.6.3 take all reasonable steps to ensure that (i) persons employed by it, and (ii) other persons engaged at its place of work, are aware of and comply with applicable data privacy laws and regulations.

11.6.4 FireEye may process or otherwise transfer any personal information in or to any country outside the European Economic Area or any country not deemed adequate by the European Commission pursuant to Article 25(6) to the extent necessary for the provision of the Offerings. If required, FireEye will enter into the EU Standard Contractual Clauses as approved by the European Commission for ensuring an adequate level of data protection in respect of the personal information that will be processed or transferred.

12. TERM AND TERMINATION.

12.1. Term.

12.1.1 Products. Products will be licensed according to the applicable terms in Exhibit A, for the period of time stated on the Order (e.g., if the Order lists a Product as being provided for "3Y," the license for that Product is provided for three years from the date of the Order). If no period of time is stated on the Order, then the Product is licensed perpetually, unless otherwise terminated as set forth herein.

12.1.2 Support Services. Support Services will begin ten (10) days from the date of shipment of the associated Product and continue for the period of time stated on the Order("Initial Support Term"). Unless otherwise stated on the Order, the Support Services will automatically renew for additional periods of one (1) year each (each, a "Renewal Support Term" and together with the Initial Support Term, the "Support Term"), unless either party notifies the other of its intention not to renew Support Services at least sixty (60) days prior to the expiration of the then-current Support Term. Customer may terminate Support at any time, for convenience, on thirty (30) days' written notice to FireEye. If Customer terminates Support Services for convenience before the end of the then-current Support Term, Customer will pay any remaining fees owing for the remainder of the then-current Support Term within thirty (30) days of the effective date of termination.

12.1.3 Subscriptions. The term of each Subscription will begin on the Order Effective Date and will continue in effect for the period of time stated in the Order ("Initial Subscription Term"). Unless otherwise stated on the Order, the Subscription will automatically renew after its Initial Subscription Term for additional periods of one (1) year each (each, a "Renewal Subscription Term" and together with the Initial Subscription Term, the "Subscription Term"), unless either party notifies the other of its intention not to renew that Subscription at least sixty (60) days prior to the expiration of the then-current Subscription Term. Customer may terminate a Subscription at any time, for convenience, on thirty (30) days' written notice to FireEye. If Customer terminates a Subscription for convenience before the end of the then-current Subscription Term, Customer will pay any remaining fees owing for the remainder of the then-current Subscription Term within thirty (30) days of the effective date of termination.

12.1.4 Professional Services; Statements of Work. Professional Services described on an Order will be provided at mutually agreed-upon times, and will continue until complete, unless otherwise terminated as set forth herein. The term of each SOW will be as set forth in that SOW. If no term is expressed in an SOW, then the term of that SOW will begin on the SOW Effective Date and continue until the Professional Services described in that SOW are complete or the SOW is earlier terminated as set forth herein. Unless otherwise stated in a SOW, Customer may terminate a SOW at any time for convenience by giving FireEye at least thirty (30) days' written notice of its intent to terminate the SOW. If Customer terminates an SOW for convenience as set forth in this Section, Customer will pay any amounts owing for Professional Services and Deliverables provided under that SOW up to and including the date of termination. Customer may request that FireEye suspend performing Professional Services during the term of a Statement of Work, and FireEye will suspend such Professional Services within 24 hours of Customer's request. Customer acknowledges that any such suspension will not affect Customer's obligation to pay fees for Professional Services rendered through the date of suspension, and that

resumption of Professional Services may be delayed if FireEye redeploys personnel to other engagements during the period of suspension.

12.2. Termination for Material Breach. Either party may terminate any Order or any SOW upon written notice of a material breach of the applicable Order or SOW by the other party as provided below, subject to a thirty (30) day cure period ("Cure Period"). If the breaching party has failed to cure the breach within the Cure Period after the receipt by the breaching party of written notice of such breach, the non-breaching party may give a second notice to the breaching party terminating the applicable Order or SOW. Termination of any particular Order or SOW under this Section will not be deemed a termination of any other Order or SOW, unless the notice of termination states that another Order or SOW is also terminated. Notwithstanding the foregoing, the Cure Period applicable to a breach by Customer of any payment obligations under any Order or any SOW will be fifteen (15) days. Notwithstanding the foregoing, this Agreement shall terminate automatically in the event Customer has breached any license restriction and, in FireEye's determination, that breach cannot be adequately cured within the Cure Period.

12.3. Effect of Termination. Termination or expiration of any Order or SOW will not be deemed a termination or expiration of any other Orders or SOWs in effect as of the date of termination or expiration, and this Agreement will continue to govern and be effective as to those outstanding Orders and SOWs until those Orders and SOWs have expired or terminated by their own terms or as set forth herein. The provisions of Section 3 (Payment), Section 6 (Intellectual Property), Section 7.5 (Disclaimer of Warranties), 9 (Limitation of Liability), 10 (Export Control; Anti-Corruption; U.S. Government Restricted Rights), 12 (Confidential Information), and 13 (Miscellaneous), and all accrued payment obligations, shall survive the termination of all Orders and SOWs and the relationship between FireEye and Customer.

13. MISCELLANEOUS.

13.1. Assignment. Customer may not assign any Order or Statement of Work, or any rights or obligations thereunder, in whole or in part, without FireEye's prior written consent, and any such assignment or transfer shall be null and void. FireEye shall have the right to assign all or part of an Order or Statement of Work without Customer's approval. Subject to the foregoing, each Order and Statement of Work shall be binding on and inure to the benefit of the parties' respective successors and permitted assigns.

13.2. Entire Agreement. This Agreement along with any Order, Statement of Work and the Exhibits attached hereto is the entire agreement of the parties with respect to the Offerings and supersedes all previous or contemporaneous communications, representations, proposals, commitments, understandings and agreements, whether written or oral, between the parties regarding the subject matter thereof. FireEye does not accept, expressly or impliedly and FireEye hereby rejects and deems deleted any additional or different terms or conditions that Customer presents, including, but not limited to, any terms or conditions contained or referenced in any order, acceptance, acknowledgement, or other document, or established by trade usage or prior course of dealing. This Agreement may be amended only in writing signed by authorized representatives of both parties.

13.3. Force Majeure. Neither party will be liable to the other for any delay or failure to perform any obligation under this Agreement (except for a failure to pay fees) if the delay or failure is due to unforeseen events, which occur after the signing of this Agreement and which are beyond the reasonable control of the parties, such as strikes, blockade, war, terrorism, riots, natural disasters, refusal of license by the government or other governmental agencies, in so far as such an event prevents or delays the affected party from fulfilling its obligations and such party is not able to prevent or remove the force majeure at reasonable cost.

13.4. Governing Law. This Agreement shall be deemed to have been made in, and shall be construed pursuant to the laws of the State of California and the United States without regard to conflicts of laws provisions thereof, and without regard to the United Nations Convention on the International Sale of Goods or the Uniform Computer Information Transactions Act. Any legal suit, action or proceeding arising out of or relating to the Offerings, the FireEye Materials, this Agreement, an Order or a Statement of Work will be commenced exclusively in a federal court in the Northern District of California or in state court in Santa Clara County, California, and each party hereto irrevocably submits to the jurisdiction and venue of any such court in any such suit, action or proceeding.

13.5. Independent Contractors. The parties are independent contractors. Nothing in this Agreement, any Order or any Statement of Work shall be construed to create a partnership, joint venture or agency relationship between the parties. Customer shall make no representations or warranties on behalf of FireEye.

13.6. Language. This Agreement and each Order and Statement of Work are in the English language only, which shall be controlling in all respects. All communications, notices, and Documentation to be furnished hereunder shall be in the English language only.

13.7. Notices. All notices required to be sent hereunder shall be in writing, addressed to receiving party's current business contact, if known, with a cc: to the General Counsel/Legal Department of the receiving party, and sent to the party's address as listed in this Agreement, or as updated by either party by written notice. Notices shall be effective upon receipt and shall be deemed to be received as follows: (i) if personally delivered by courier, when delivered; or (ii) if mailed by first class mail, or the local equivalent, on the fifth business day after posting with the proper address.

13.8. Severability. If any provision of this Agreement is held to be illegal, invalid or unenforceable under the laws of any jurisdiction, the provision will be enforced to the maximum extent permissible so as to effect the intent of the parties, and the remaining provisions of this Agreement will remain in full force and effect.

13.9. Third Party Rights. Other than as expressly set out in this Agreement, this Agreement does not create any rights for any person who is not a party to it and no person who is not a party to this Agreement may enforce any of its terms or rely on any exclusion or limitation contained in it.

13.10. Waiver. The waiver of a breach of any provision of this Agreement shall not constitute a waiver of any other provision or any subsequent breach.

13.11. Equal Opportunity. FireEye is committed to the provisions outlined in the Equal Opportunity Clauses of Executive Order 11246, the Rehabilitation Act of 1973, the Vietnam Era Veterans Readjustment Act of 1974, the Jobs for Veterans Act of 2003, as well as any other regulations pertaining to these orders.

Wherefore, the parties have caused this Master Purchase Agreement to be executed as of the Effective Date.

EXHIBIT A
PRODUCT LICENSE AND SUPPORT TERMS
(FIREEYE NX, EX, AX, PX, FX, HX, SECURITY ORCHESTRATOR™, MVX SMART GRID, AND CENTRAL MANAGEMENT SERIES (CMS) PRODUCTS)

The following terms apply to the FireEye NX, EX, AX, PX, FX, HX, Security Orchestrator, MVX Smart Grid, and Central Management Series (CMS) Products, including any add-on features such as FireEye Advanced Threat Intelligence (ATI).

1. Grant of License and Restrictions. Subject to the terms hereof, payment of all fees, and any applicable user/use limitations, FireEye grants Customer a personal, perpetual, nonsublicensable, nonexclusive, right to use the Product, in accordance with the Agreement and this Exhibit A. Customer will maintain the copyright notice and any other notices that appear on the Product, including any interfaces related to the Product. With respect to the FireEye HX Series Product, Customer may install the "agent" software component of the Product on the number of Nodes stated on the applicable Order. With respect to the FireEye EX Series Product, Customer may use the Product in connection with the number of attached URL engines (i.e., email accounts) ("Attached URL Engines") stated on the applicable Order. FireEye reserves the right to audit Customer's use of the Product to ensure compliance with this Agreement. "Nodes" are endpoint computing devices owned or controlled by Customer (such as laptops, workstations, and servers), on which Customer installs the agent software. Updates, preview features, Content Feeds and/or Support Services are not necessarily provided with the Software, may require additional payment or include additional terms and conditions, and may be provided on a "preview" basis for a limited period at no additional charge but then licensed for an additional fee at a later date. Customer acknowledges that Third Party Software distributed with the Products may be subject to separate license terms, and specifically, if the Oracle™ Java® software is included within the Product, that software is subject to the license found at http://www.oracle.com/technetwork/java/javase/terms/license/index.html.

2. Content Feeds. Subject to Customer's payment in full of all associated fees for the applicable FireEye Content Feed, as set forth on the applicable Order, FireEye shall grant a limited, non-exclusive, personal, non-transferable, non-sublicenseable right to use the Content Feed as set forth in the Documentation for the applicable Product, for Customer's internal business purposes during the active Support Term for the applicable Product. FireEye shall not disclose to any third party any personally identifiable data or Customer Confidential Information in connection with the Content Feed unless expressly authorized to do so by Customer. The Content Feeds available to the Customer with respect to the Products may include:

2.1 FireEye Dynamic Threat Intelligence™ (DTI™) – The DTI Content Feed (currently available only for customers who have purchased the FireEye NX, EX, AX, HX or FX Product) provides continual, updated information to the Product about threats.

2.2. FireEye Advanced Threat Intelligence™ (ATI™) – The ATI Content Feed (currently available only for customers who have purchased the FireEye NX Product) provides contextual information about malware detected in Customer's environment, such as information regarding threat groups associated with certain malware, industry verticals in which FireEye has observed certain threat groups operate and in which certain malware is used, and relative frequency of observation of various threats and malware.

3. Support Services. Subject to Customer's payment in full of all associated fees for FireEye Support Services, FireEye shall provide Support Services for the Products as set forth in Exhibit C, as may be updated by FireEye in its discretion.

EXHIBIT B
SUBSCRIPTION TERMS

EXHIBIT B-1
SUBSCRIPTION TERMS FOR FIREEYE AS A SERVICE (FAAS) – CONTINUOUS PROTECTION

The following terms govern the FireEye as a Service (FaaS) – Continuous Protection (CP) Subscription.

1 Definitions.

1.1 **"Alert"** means, individually and collectively, APT Alerts, High Priority Alerts, and Low Priority Alerts.

1.2 "**APT Alert**" means (a) with respect to Products other than HX, an alert generated by a Product, that is identified by the Product as being associated with a "targeted threat," which means advanced persistent threat (APT) actors or APT activity; (b) with respect to the HX Product, an alert designated by HX as XPLT, EXC, or PRE, that is triggered by a FireEye standard Indicator; and (c) with respect to the TAP Subscription, an "APT Alert" means a TAP Alert designated as an "APT Alert" in the table in Section 1.11 below.

1.3 "**APT Only Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of APT Alert. If Customer purchases the APT Only Service, FireEye will provide FaaS Reports and monitoring of only APT Alerts, and not any other Alerts.

1.4 "**Covered System**" means (i) a computing device (to the extent supported by FireEye) that Customer specifies as within the scope of the CP Subscription, and if the Customer has purchased the HX Product, on which a software agent has been installed to support CP Subscription delivery, or (ii) a computing device (to the extent supported by FireEye) whose network traffic is observable to support CP Subscription delivery; (iii) with respect to ETP Subscriptions, mailboxes monitored to support CP Subscription delivery; or (iv) any computing device that both Customer and FireEye agree is within scope of the CP Subscription.

1.5 "**Full Coverage Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of all Alerts, regardless of the severity level of the Alert as classified by the Product.

1.6 "**High Priority Alert Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of High Priority Alerts and APT Alerts.

1.7 "**FaaS Reports**" means the written reports relating to Alerts that FireEye creates and makes available to Customer through the CP Subscription.

1.8 "**High Priority Alert**" means (a) with respect to Products other than HX and FX, an alert generated by that Product that is classified by that Product as severity level "critical" or "major"; (b) with respect to the FX Product, any alert generated by the FX Product, including APT Alerts; and (c) with respect to a TAP subscription, a TAP Alert designated as a "High Priority Alert" in the table in Section 1.11 below.

1.9 "**Low Priority Alert**" means an alert generated by a Product or TAP Subscription (as applicable) that is not an APT Alert or a High Priority Alert.

1.10 "**Nodes**" or "**Node Band**" refers to number of Covered Systems within the Customer environment, which is reflected on the Subscription Order.

1.11 "**TAP Alert**" means an alert generated by the TAP Subscription, with a severity level assigned by the TAP Subscription (e.g., "Critical," "High," "Medium"). TAP Alerts are investigated and reported on as "APT Alerts" and "High Priority Alerts" as shown in the table below, depending on the TAP Rule Pack that invoked the TAP Alert:

FireEye Rule Pack	APT Alerts	High Priority Alerts
Application Detection		
Cloud Infrastructure		
Commodity Malware		All

Current Events	Critical, High	Critical, High
DTI Rules		All
Exploit Kits		All
FTP		
Industrial Control Systems	Critical, High, Medium	Critical, High, Medium
Intel Match	Critical, High, Medium	Critical, High, Medium
Linux		Critical, High
Malware Methodology		Critical, High
Phishing	Critical High	Critical, High
Point of Sale	All	All
Security Tools		Critical, High, Medium
Targeted Malware	All	All
Vendor – FireEye		
Vulnerability		Critical, High, Medium
Web Application Attacks		Critical, High, Medium
Windows		Critical, High

1.13 "**TAP Rule Packs**" means a predefined set of criteria that identifies suspicious events or threats based on the associated rule type within the TAP Subscription.

2 **Scope of FaaS – Continuous Protection (CP) Subscription**. During the Subscription Term, FireEye will provide the CP Subscription as set forth in this Section 2, according to the Subscription level purchased by Customer as set forth in the Subscription Order. If the Subscription Order does not specify the Subscription lvel purchased, then Customer will be deemed to have purchased the APT Only Service. All services Customer requests that are not described in this Section 2 will be performed at mutually agreed upon rates as set forth in Statements of Work. Unless otherwise specified, the CP Subscription is provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. The CP Subscription is available for the number of Nodes purchased (available for Customers who have purchased the FireEye NX, FX, or EX Product or the ETP or TAP Subscription). If the number of Nodes exceeds the amount reflected in the Subscription Order by more than ten percent (10%), FireEye will notify Customer in writing, and will issue an invoice for the next higher Node Band at FireEye's then-current rates pro-rated for the remaining portion of the then-current Subscription Term.

2.1 Event Analysis.

(a) Time to Begin Analysis. FireEye will begin analysis of an Alert within the times set forth in the table below, calculated from the time the Alert was generated by the Product or TAP Subscription (as applicable).

(b) Alerts Investigated. FireEye will investigate and report on the Alerts that correspond with the Subscription level the Customer purchased. If the Customer purchased the APT Only Service, FireEye will investigate and report on only APT Alerts. If the Customer purchased the High Priority Alerts Service, FireEye will investigate and report on only High Priority Alerts and APT Alerts. If the Customer purchased the All Alerts Service, FireEye will investigate and report on APT Alerts, High Priority Alerts, and Low Priority Alerts. FireEye has no obligation to investigate and report on Alerts that fall outside the purchased Subscription level.

(c) Initial Investigation. FireEye analysts will perform an initial analysis of the Customer's Covered Systems to determine if the Alert is a true or false positive, benign or suspicious activity.

(d) FaaS Reports. If FireEye's investigation determines that the Alert indicates a true compromise, FireEye will publish a FaaS Report to the FaaS Portal within one (1) hour of the time FireEye makes that determination. Regardless of whether FireEye's investigation determines that an Alert indicates a true compromise, FireEye will publish a FaaS Report on the Alert to the FaaS Portal within the times set forth in the table

below, based on the classification of the Alert (APT Alert, High Priority Alert, Low Priority Alert). Customer acknowledges that in some cases, when FireEye's investigation is not complete, a FaaS Report may provide only an update of current status of the Alert investigation.

Alerts Investigated (Level of Service)			**FaaS Alert Classification**	**Time to Begin Investigation (from time Product or TAP Subscription generates Alert)**	**Time to Publish FaaS Report (from time FireEye validates actual compromise)**	**Time to Publish FaaS Report (when no validation of actual compromise; from time Product or TAP Subscription generates Alert)**
APT Only Service	**High Priority Alerts Service**	**Full Coverage Service**				
Yes	Yes	Yes	APT Alert	1 hours	1 hour	24 hours
No	Yes	Yes	High Priority Alert	7 hours	1 hour	24 hours
No	No	Yes	Low Priority Alert	24 hours	1 hour	48 hours

The service levels noted in the table above will become effective thirty (30) days following the Order Effective Date, to allow time for Customer to install Products and for FireEye to determine the level of staffing needed to respond to Alerts in Customer's environment.

(e) Extended Investigations; Multiple Related Alerts. When FireEye has identified a true positive or suspicious activity, FireEye analysts may perform an extended investigation, and/or may aggregate and review multiple Alerts from related Covered Systems to determine the extent of activity related to the Alert. FireEye analysts may append results from the extended investigation or subsequent Alert investigations to the initial FaaS Report if FireEye determines that additional or subsequent Alerts are related, and in such cases, FireEye will not be required to issue a separate FaaS Report for each such related Alert.

(f) Non-Remediable Alerts. FireEye has no obligation to notify the Customer or generate a new FaaS Report on new Alerts that are directly related to previous investigations where a FaaS Report has been published and FireEye has provided recommended remediation steps, when the Customer has acknowledged the FaaS Report but chooses not to or cannot remediate the cause of these Alerts.

(g) Alert Priority. FireEye may re-prioritize Alerts, regardless of their severity classification, to provide focus to Alerts that FireEye determines may have the largest impact to the Customer's environment.

(h) Continuity of Monitoring. All monitoring, investigation and reporting activities described in this Section 2.1 will be provided on a 24/7/365 basis.

2.2 System Health Monitoring and Notification. For Customers who have purchased the FireEye NX, EX, or FX Product, FireEye will provide Customer with notifications of system health issues such as connectivity problems.

2.3 Containment. When the Customer has purchased the HX Product, FireEye may, when appropriate, recommend containment of the target Covered System from the Customer's network. Containment must be executed by the Customer.

2.4 Portal Access. Alerts and FaaS Reports will be provided via an online portal ("FaaS Portal"), and FireEye will provide login credentials to the Customer to enable access to the FaaS Portal. The FaaS Portal will be available 99.9% of the time in any calendar month, other than Downtime, as defined below, and this FaaS Portal Service Level commitment will be subject to the Service Level Credits set forth in Section 3 below.

2.5 FireEye Intelligence Center. During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

(a) Permitted Use; Reports. Customer may access, view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye IP. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

(b) Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100) queries of IP addresses and domain names and (B) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

(c) User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC, including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including CTI, to the extent such information is de-identified.

(d) Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.

(e) Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

2.6 Reseller and Partner Purchases. If Customer receives the Subscription via a FireEye authorized services or support partner (a "Partner"), Customer agrees that the Subscription and FaaS Reports may be delivered to Customer through the Partner. Notwithstanding any other confidentiality obligations between the parties, Customer authorizes FireEye to disclose information related to the Subscription and Customer Data to Partner.

2.7 Customer Networks. The Subscription may only be provided for computer systems and networks leased to or owned by Customer, and under Customer's control, up to the number of Nodes allowed, as set forth in the applicable Subscription Order.

2.8 Connectivity Requirements. Unless otherwise specified, the Subscription are provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. Customer must provide outbound TCP-based connectivity from all Products to FireEye for the establishment of a virtual private network (VPN). Details pertaining to specific network access requirements will be established in conjunction with installation activities.

2.9 **Credential Security.** Customer will be responsible for the following: (a) providing accurate information to FireEye for provisioning access to (and removal of) Customer personnel access to the FaaS Portal; (b) implementing and adhering to strong password standards; (c) providing accurate information to FireEye for domain whitelisting; and (d) reporting any security issues related to the Subscription (including the FaaS Portal) to FireEye immediately.

2.10 **Exclusions.** Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide the Subscription for (i) Products for which Customer does not have an active Subscription in place; (ii) Products that the Customer (or FireEye or another third party on Customer's behalf) has configured with a one-way feed of FireEye's Dynamic Threat Intelligence (DTI) Subscription; (iii)

Products with an installed FireEye operating system less than version 6.2; (iv) Products that have been declared end of life; (v) Products that have no active Support Service in place; (vi) Products for which software updates have not been applied; (vii) Products that have not been installed and deployed; or (viii) Products that are misconfigured or incorrectly deployed, which prevents the Products from monitoring the Covered Systems. Customer acknowledges that to facilitate FireEye's efficient performance of the Subscription, FireEye may control some features and functionality of the Products, and that such features or functionality may not be available for Customer's independent use during the Subscription Term.

3. FaaS Portal Availability

3.1 FireEye shall undertake commercially reasonable efforts to ensure the FaaS Portal availability for 99.9% of the time during each calendar month.

3.1.1 "Service Outage" is where the FaaS Portal is not available due to a failure or a disruption in the FaaS Portal that is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

3.1.2 "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the FaaS Portal may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

3.1.3 "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the FaaS Portal during the Emergency Maintenance.

3.1.4 "System Availability" means the percentage of total time during which the FaaS Portal shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

3.2. Remedy

3.2.1 In the event that the FaaS Portal does not meet the monthly service availability defined in 3.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

Percent of FaaS Portal Availability per Calendar Month	Service Credit
<99.9%	2%
<99.0%	5%
<98.0%	10%

3.2.2 For determining the Credit, the duration of a Service Outage will be measured as the time starting when Customer experiences a disruption in availability of the FaaS Portal and ending when a successful solution or workaround allowing for full restoration of the FaaS Portal is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the calendar month in which the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

3.2.3 Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

3.2.4 Customer shall not be entitled to receive a Credit that exceeds 10% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

EXHIBIT B-2
SUBSCRIPTION TERMS FOR FIREEYE AS A SERVICE (FAAS) – CONTINUOUS VIGILANCE

The following terms govern the FireEye as a Service (FaaS) – Continuous Vigilance (CV) Subscription.

3 Definitions.

3.1 **"Alert"** means, individually and collectively, APT Alerts, High Priority Alerts, and Low Priority Alerts.

3.2 "**APT Alert**" means (a) with respect to Products other than HX, an alert generated by a Product, that is identified by the Product as being associated with a "targeted threat," which means advanced persistent threat (APT) actors or APT activity; (b) with respect to the HX Product, an alert designated by HX as XPLT, EXC, or PRE, that is triggered by a FireEye standard Indicator; and (c) with respect to the TAP Subscription, an "APT Alert" means a TAP Alert designated as an "APT Alert" in the table in Section 1.11 below.

3.3 "**APT Only Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of APT Alert. If Customer purchases the APT Only Service, FireEye will provide FaaS Reports and monitoring of only APT Alerts, and not any other Alerts.

3.4 "**Covered System**" means (i) a computing device (to the extent supported by FireEye) that Customer specifies as within the scope of the CV Subscription, and if the Customer has purchased the HX Product, on which a software agent has been installed to support CV Subscription delivery, or (ii) a computing device (to the extent supported by FireEye) whose network traffic is observable to support CV Subscription delivery; (iii) with respect to ETP Subscriptions, mailboxes monitored to support CV Subscription delivery; or (iv) any computing device that both Customer and FireEye agree is within scope of the CV Subscription.

3.5 "**Full Coverage Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of all Alerts, regardless of the severity level of the Alert as classified by the Product.

3.6 "**High Priority Alert Service**" means the Subscription level in which FireEye will provide FaaS Reports and monitoring of High Priority Alerts and APT Alerts.

3.7 "**FaaS Reports**" means the written reports relating to Alerts that FireEye creates and makes available to Customer through the CV Subscription.

3.8 "**High Priority Alert**" means (a) with respect to Products other than HX and FX, an alert generated by that Product that is classified by that Product as severity level "critical" or "major"; (b) with respect to the FX Product, any alert generated by the FX Product, including APT Alerts; and (c) with respect to a TAP subscription, a TAP Alert designated as a "High Priority Alert" in the table in Section 1.11 below.

3.9 "**Low Priority Alert**" means an alert generated by a Product or TAP Subscription (as applicable) that is not an APT Alert or a High Priority Alert.

3.10 "**Nodes**" or "**Node Band**" refers to number of Covered Systems within the Customer environment, which is reflected on the Subscription Order.

3.11 "**TAP Alert**" means an alert generated by the TAP Subscription, with a severity level assigned by the TAP Subscription (e.g., "Critical," "High," "Medium"). TAP Alerts are investigated and reported on as "APT Alerts" and "High Priority Alerts" as shown in the table below, depending on the TAP Rule Pack that invoked the TAP Alert:

FireEye Rule Pack	APT Alerts	High Priority Alerts
Application Detection		
Cloud Infrastructure		
Commodity Malware		All

Current Events	Critical, High	Critical, High
DTI Rules		All
Exploit Kits		All
FTP		
Industrial Control Systems	Critical, High, Medium	Critical, High, Medium
Intel Match	Critical, High, Medium	Critical, High, Medium
Linux		Critical, High
Malware Methodology		Critical, High
Phishing	Critical High	Critical, High
Point of Sale	All	All
Security Tools		Critical, High, Medium
Targeted Malware	All	All
Vendor – FireEye		
Vulnerability		Critical, High, Medium
Web Application Attacks		Critical, High, Medium
Windows		Critical, High

1.13 "**TAP Rule Packs**" means a predefined set of criteria that identifies suspicious events or threats based on the associated rule type within the TAP Subscription.

2 **Scope of FaaS – Continuous Vigilance (CV) Subscription**. During the Subscription Term, FireEye will provide the CV Subscription as set forth in this Section 2, according to the Subscription level purchased by Customer as set forth in the Subscription Order. If the Subscription Order does not specify the Subscription lvel purchased, then Customer will be deemed to have purchased the APT Only Service. All services Customer requests that are not described in this Section 2 will be performed at mutually agreed upon rates as set forth in Statements of Work. Unless otherwise specified, the CV Subscription is provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. The CV Subscription is available for the number of Nodes purchased (available for Customers who have purchased the FireEye NX, FX, or EX Product or the ETP or TAP Subscription). If the number of Nodes exceeds the amount reflected in the Subscription Order by more than ten percent (10%), FireEye will notify Customer in writing, and will issue an invoice for the next higher Node Band at FireEye's then-current rates pro-rated for the remaining portion of the then-current Subscription Term.

2.1 Event Analysis.

(e) Time to Begin Analysis. FireEye will begin analysis of an Alert within the times set forth in the table below, calculated from the time the Alert was generated by the Product or TAP Subscription (as applicable).

(f) Alerts Investigated. FireEye will investigate and report on the Alerts that correspond with the Subscription level the Customer purchased. If the Customer purchased the APT Only Service, FireEye will investigate and report on only APT Alerts. If the Customer purchased the High Priority Alerts Service, FireEye will investigate and report on only High Priority Alerts and APT Alerts. If the Customer purchased the All Alerts Service, FireEye will investigate and report on APT Alerts, High Priority Alerts, and Low Priority Alerts. FireEye has no obligation to investigate and report on Alerts that fall outside the purchased Subscription level.

(g) Initial Investigation. FireEye analysts will perform an initial analysis of the Customer's Covered Systems to determine if the Alert is a true or false positive, benign or suspicious activity.

(h) FaaS Reports. If FireEye's investigation determines that the Alert indicates a true compromise, FireEye will publish a FaaS Report to the FaaS Portal within one (1) hour of the time FireEye makes that determination. Regardless of whether FireEye's investigation determines that an Alert indicates a true compromise, FireEye will publish a FaaS Report on the Alert to the FaaS Portal within the times set forth in the table

below, based on the classification of the Alert (APT Alert, High Priority Alert, Low Priority Alert). Customer acknowledges that in some cases, when FireEye's investigation is not complete, a FaaS Report may provide only an update of current status of the Alert investigation.

Alerts Investigated (Level of Service)			**FaaS Alert Classification**	**Time to Begin Investigation (from time Product or TAP Subscription generates Alert)**	**Time to Publish FaaS Report (from time FireEye validates actual compromise)**	**Time to Publish FaaS Report (when no validation of actual compromise; from time Product or TAP Subscription generates Alert)**
APT Only Service	**High Priority Alerts Service**	**Full Coverage Service**				
Yes	Yes	Yes	APT Alert	1 hours	1 hour	24 hours
No	Yes	Yes	High Priority Alert	7 hours	1 hour	24 hours
No	No	Yes	Low Priority Alert	24 hours	1 hour	48 hours

The service levels noted in the table above will become effective thirty (30) days following the Order Effective Date, to allow time for Customer to install Products and for FireEye to determine the level of staffing needed to respond to Alerts in Customer's environment.

(e) Extended Investigations; Multiple Related Alerts. When FireEye has identified a true positive or suspicious activity, FireEye analysts may perform an extended investigation, and/or may aggregate and review multiple Alerts from related Covered Systems to determine the extent of activity related to the Alert. FireEye analysts may append results from the extended investigation or subsequent Alert investigations to the initial FaaS Report if FireEye determines that additional or subsequent Alerts are related, and in such cases, FireEye will not be required to issue a separate FaaS Report for each such related Alert.

(f) Non-Remediable Alerts. FireEye has no obligation to notify the Customer or generate a new FaaS Report on new Alerts that are directly related to previous investigations where a FaaS Report has been published and FireEye has provided recommended remediation steps, when the Customer has acknowledged the FaaS Report but chooses not to or cannot remediate the cause of these Alerts.

(g) Alert Priority. FireEye may re-prioritize Alerts, regardless of their severity classification, to provide focus to Alerts that FireEye determines may have the largest impact to the Customer's environment.

(h) Hunting. FireEye will conduct periodic proactive hunting techniques on Covered Systems to look for additional indicators of malicious or attacker activity. When FireEye's investigation reveals a compromise, then within one (1) hour of the time FireEye makes that determination, FireEye will publish a FaaS Report related to that activity to the FaaS Portal.

(i) Continuity of Monitoring. All monitoring, investigation and reporting activities described in this Section 2.1 will be provided on a 24/7/365 basis.

2.2 System Health Monitoring and Notification. For Customers who have purchased the FireEye NX, EX, or FX Product, FireEye will provide Customer with notifications of system health issues such as connectivity problems.

2.3 Containment. When the Customer has purchased the HX Product, FireEye may, when appropriate, recommend containment of the target Covered System from the Customer's network. Containment must be executed by the Customer.

2.4 Portal Access. Alerts and FaaS Reports will be provided via an online portal ("FaaS Portal"), and FireEye will provide login credentials to the Customer to enable access to the FaaS Portal. The FaaS Portal will be

available 99.9% of the time in any calendar month, other than Downtime, as defined below, and this FaaS Portal Service Level commitment will be subject to the Service Level Credits set forth in Section 3 below.

2.5 FireEye Intelligence Center. During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

(f) Permitted Use; Reports. Customer may access, view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye IP. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

(g) Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100) queries of IP addresses and domain names and (B) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

(h) User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC, including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including CTI, to the extent such information is de-identified.

(i) Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.

(j) Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

2.6 Reseller and Partner Purchases. If Customer receives the Subscription via a FireEye authorized services or support partner (a "Partner"), Customer agrees that the Subscription and FaaS Reports may be delivered to Customer through the Partner. Notwithstanding any other confidentiality obligations between the parties, Customer authorizes FireEye to disclose information related to the Subscription and Customer Data to Partner.

2.7 Customer Networks. The Subscription may only be provided for computer systems and networks leased to or owned by Customer, and under Customer's control, up to the number of Nodes allowed, as set forth in the applicable Subscription Order.

2.8 Connectivity Requirements. Unless otherwise specified, the Subscription are provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. Customer must provide outbound TCV-based connectivity from all Products to FireEye for the establishment of a virtual private network (VPN). Details pertaining to specific network access requirements will be established in conjunction with installation activities.

2.9 **Credential Security.** Customer will be responsible for the following: (a) providing accurate information to FireEye for provisioning access to (and removal of) Customer personnel access to the FaaS Portal; (b) implementing and adhering to strong password standards; (c) providing accurate information to FireEye for domain whitelisting; and (d) reporting any security issues related to the Subscription (including the FaaS Portal) to FireEye immediately.

2.10 **Exclusions.** Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide the Subscription for (i) Products for which Customer does not have an active Subscription in place; (ii) Products that the Customer (or FireEye or another third party on Customer's behalf) has configured with a one-way feed of FireEye's Dynamic Threat Intelligence (DTI) Subscription; (iii) Products with an installed FireEye operating system less than version 6.2; (iv) Products that have been declared end of life; (v) Products that have no active Support Service in place; (vi) Products for which software updates have not been applied; (vii) Products that have not been installed and deployed; or (viii) Products that are misconfigured or incorrectly deployed, which prevents the Products from monitoring the Covered Systems. Customer acknowledges that to facilitate FireEye's efficient performance of the Subscription, FireEye may control some features and functionality of the Products, and that such features or functionality may not be available for Customer's independent use during the Subscription Term.

3. FaaS Portal Availability

3.1 FireEye shall undertake commercially reasonable efforts to ensure the FaaS Portal availability for 99.9% of the time during each calendar month.

3.1.1 "Service Outage" is where the FaaS Portal is not available due to a failure or a disruption in the FaaS Portal that is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

3.1.2 "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the FaaS Portal may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

3.1.3 "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the FaaS Portal during the Emergency Maintenance.

3.1.4 "System Availability" means the percentage of total time during which the FaaS Portal shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

3.2. Remedy

3.2.1 In the event that the FaaS Portal does not meet the monthly service availability defined in 3.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

Percent of FaaS Portal Availability per Calendar Month	Service Credit
<99.9%	2%
<99.0%	5%
<98.0%	10%

3.2.2 For determining the Credit, the duration of a Service Outage will be measured as the time starting when Customer experiences a disruption in availability of the FaaS Portal and ending when a successful solution or workaround allowing for full restoration of the FaaS Portal is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the calendar month in which the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

3.2.3 Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

3.2.4 Customer shall not be entitled to receive a Credit that exceeds 10% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

EXHIBIT B-3
SUBSCRIPTION TERMS FOR FIREEYE THREAT ANALYTICS PLATFORM (TAP)

The following terms govern the Threat Analytics Platform Subscription, including purchase and support of TAP Cloud Collector™ Appliances and Support.

1. TAP Software, Alerts

1.1.1 TAP Software and Hardware. As part of the TAP Subscription, FireEye may deliver to Customer one or more software files (individually and collectively, "TAP Software"), and/or one or more "Cloud Collector" hardware appliances ("Cloud Collector Appliances"), which may contain TAP Software. Subject to full payment of all Fees associated with the TAP Subscription, FireEye grants to Customer a non-exclusive, limited right and license to install and run the TAP Software during the Subscription Term solely for purposes of using the TAP Subscription in accordance with the Documentation for the TAP Subscription.

1.1.2 Access; Customer Logs. FireEye will provide Customer with credentials to enable access to the TAP Subscription. Using the TAP Software, and subject to payment of Fees for the TAP Subscription and any Cloud Collector Appliances, Customer may upload Customer Logs to the TAP portal ("TAP Portal"). "Customer Logs" means any communications, logs and other content and information that Customer or anyone using Customer's account contributes to or through the TAP Portal. Customer grants to FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive license and right to reproduce, modify, create derivative works from, publish, distribute, sell, sub-license, transmit, publicly display and provide access to Customer Logs, for purposes of enhancing FireEye's products and services, so long as (i) FireEye ensures that any Customer Confidential Information is removed from Customer Logs, and (ii) FireEye's use of Customer Logs does not in any way identify Customer or its employees or in any other way allow a third party to identify Customer as the source of the Customer Logs. Customer Logs are Customer's property, and other than the licenses granted in herein, FireEye does not obtain any ownership rights in Customer Logs.

1.1.3 TAP Alerts. Some features of the TAP Subscription may generate alerts of suspected malicious activity (each, a "TAP Alert"). TAP Alerts are FireEye Materials. FireEye hereby grants to Customer a limited, non-exclusive right to use TAP Alerts, and reproduce and distribute those TAP Alerts internally for Customer's own business purposes.

1.1.4 Cloud Collector Management. If Customer has installed Cloud Collectors in connection with the TAP Subscription, then FireEye will continuously monitor the Customer's Cloud Collector Appliances or Cloud Collector TAP Software for system health issues such as monitoring to ensure proper throughput and relay of data.

1.1.5 Cloud Collector Appliances. If the Customer has purchased Cloud Collector Appliances, then during the TAP Subscription Term, FireEye will replace any defective Cloud Collector Appliances as follows:

a) Prior to any return, Customer shall verify that the Cloud Collector Appliance at issue is defective by logging a Support request via one of the mechanisms provided in the Documentation and in accordance with FireEye's RMA procedures, including providing the part number, serial number, quantity and reason for return, an explanation of all failure symptoms and other relevant information.

b) Upon confirmation by FireEye of a defect, Customer shall obtain from FireEye an RMA number. FireEye shall ship via a recognized express courier service a replacement Cloud Collector Appliance to Customer to arrive no later than next business day after FireEye's issuance of an RMA number, provided the RMA number was issued prior to the business day cutoff time local to the defective Cloud Collector Appliance, provided the replacement does not require any custom pre-configuration, and provided no external-to-FireEye circumstances prevent the delivery. The replacement Cloud Collector Appliance may be a new or reconditioned Cloud Collector Appliance (of equivalent or better quality) at FireEye's sole discretion.

c) FireEye shall pay the shipping costs to ship the replacement Cloud Collector Appliance to Customer, but Customer shall bear any and all risk of loss of or damage to said Cloud Collector Appliance at all times after said Cloud Collector Appliance is made available by FireEye to the common carrier.

d) Within five (5) business days after Customer receives the replacement Cloud Collector Appliance from FireEye, Customer shall package the defective Cloud Collector Appliance in its original packing material or equivalent, write the RMA number on the outside of the package and return the defective Cloud Collector Appliance, at FireEye's cost (provided Customer utilizes FireEye's designated courier service and properly packages the defective Cloud Collector Appliance according to FireEye's instructions), shipped properly insured, FOB FireEye's designated facility. Customer shall enclose with the returned Cloud Collector Appliance the applicable RMA form, and any other documentation or information requested by FireEye customer support. Customer shall assume any and all risk of loss of or damage to such Cloud Collector Appliance during shipping. Title to the defective Cloud Collector Appliance shall pass to FireEye upon FireEye's receipt thereof.

e) When a replacement Cloud Collector Appliance is provided and Customer fails to return the defective Cloud Collector Appliance to FireEye within ten (10) business days after Customer receives the replacement Cloud Collector Appliance from FireEye, FireEye may charge Customer, and Customer shall pay for the replacement Cloud Collector Appliance at the then-current list price.

2. Event Volume; True-Up

2.1.1 Fees for the TAP Subscription are divided into "Tiers" based on the volume of events processed through the TAP Subscription per second ("Event Volume"). If at any point during the Subscription Term, Customer's Event Volume exceeds the Tier upon which Customer's TAP Subscription Fees were based, FireEye will not guarantee that Customer Logs in excess of the purchased Tier will be ingested and processed by the TAP Subscription. In times of Event Volume in excess of the paid Tier, Customer Logs will enter a queue. Excessive queueing may cause Customer Logs to be lost from the queue. If at any point during the Subscription Term, Customer's average Event Volume for any consecutive thirty-day period exceeds the Tier upon which Customer's TAP Subscription Fees were based, FireEye may issue a true-up invoice for the pro-rated difference between the Fees already paid for that Subscription Term and FireEye's list prices for the Fees for the Tier associated with Customer's actual Event Volume for that thirty-day period, pro-rated to reflect that thirty-day period and the remainder of the Subscription Term. FireEye will apply any discounts that were applied to initial Fees to FireEye's list prices for any true-up invoice. Until such time that the True Up invoice is paid in full, the TAP Subscription will continue to ingest and process only the Event Volume of the purchased Tier, allowing any excess Customer Logs to enter queueing conditions. The Tier for any Renewal Subscription Term will be the Tier associated with the actual Event Volume for the immediately preceding Subscription Term.

2.1.2 At the end of the Initial Subscription Term and each Renewal Subscription Term, FireEye may true-up Fees for that Subscription Term, and if the average monthly Event Volume for that Subscription Term exceeds the maximum Event Volume for the Tier for which Customer previously paid Fees, then (a) FireEye will issue a true-up invoice reflecting the difference between the Fees already paid for that Subscription Term and the Fees for the Tier associated with Customer's actual Event Volume.

3. TAP Portal Availability

3.1 FireEye shall undertake commercially reasonable efforts to ensure the TAP Portal availability for 99.9% of the time during each calendar month.

3.1.1 "Service Outage" is where the TAP Portal is not available due to a failure or a disruption in TAP Portal that is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

3.1.2 "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the TAP Portal may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

3.1.3 "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the TAP Portal during the Emergency Maintenance.

3.1.4 "System Availability" means the percentage of total time during which the TAP Portal shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

3.2. Remedy

3.2.1 In the event that the TAP Portal does not meet the monthly service availability defined in 6.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

Percent of TAP Portal Availability per Calendar Month	Service Credit
<99.9%	2%
<99.0%	5%
<98.0%	10%

3.2.2 For determining the Credit, the duration of a Service Outage will be measured as the time starting when Customer experiences unavailability of the TAP Portal and ending when a successful solution or workaround allowing for full restoration of the TAP Portal is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the date the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

3.2.3 Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

3.2.4 Customer shall not be entitled to receive a Credit that exceeds 10% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

4. FireEye Intelligence Center™ (FIC™), Community Threat Intelligence™ (CTI™). During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

i. Permitted Use; Reports. Customer may view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye Materials. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports and FIC Content using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

ii. Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100)queries of IP addresses and domain names, and (ii) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

iii. User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including the CTI platform, to the extent such information is de-identified.

iv. Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.

v. Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

EXHIBIT B-4
SUBSCRIPTION TERMS FOR FIREEYE EMAIL THREAT PREVENTION (ETP) and MOBILE THREAT PREVENTION (MTP)

The following terms govern the Email Threat Prevention Subscription and Mobile Threat Prevention Subscription.

1. Definitions.

"Cloud Subscription" means the online, web-based applications and platform which is made accessible to Customer by FireEye via a designated website, which includes the associated offline Software components to be used in connection with FireEye Mobile Threat Prevention and/or FireEye Email Threat Prevention. FireEye Mobile Threat Prevention ("MTP") and FireEye Email Threat Prevention ("ETP") are separate Cloud Subscriptions and usage is conditional on what the Customer has indicated on an Order.

"Customer Data" means data, information, applications, and any other items originated by Customer that Customer submits to the Cloud Subscription.

"Customer Representatives" means any employee or contractor of Customer or Mobile Device Manager to whom Customer provides access to the Cloud Subscriptions (or any component thereof, including Software) for use on behalf of and for the benefit of the Customer and for Customer's internal business purposes, subject to all the terms and conditions of this Agreement.

"Licensed Device" means (i) with respect to MTP, the registered devices that Customer may have at any time that are registered to the Cloud Subscription; which maximum number shall be based on the subscription fees paid by Customer and identified on the relevant purchase order from Customer as approved and invoiced by FireEye; and (ii) with respect to ETP, the number of email inboxes Customer may have at any time that are registered to the Cloud Subscription; which maximum number shall be based on the subscription fees paid by Customer and identified on the relevant purchase order from Customer as approved and invoiced by FireEye. For the avoidance of doubt, with respect to MTP, "registered devices" are those devices which have loaded device Software and which have been registered to the Cloud Subscription and which have not been retired (meaning unregistered).

"Mobile Device Manager" shall mean a third party who has been engaged by the Customer to provide security services for Licensed Devices for the benefit of Customer. Where indicated as such, the Mobile Device Manager shall be a subset of the definition of the Customer Representatives solely as applicable to MTP.

"Software" means the object code version of FireEye's proprietary computer programs delivered to Customer hereunder for use in connection with the Cloud Subscriptions, including collectively and individually the device-side software used on devices registered to the Cloud Subscription ("Device Software") and any connector software and/or any other server-side software (collectively the "Premise Software") , each which are delivered to Customer hereunder for use in connection with the Cloud Subscriptions, and any Documentation, backup copies and updates, upgrades, maintenance releases, bug fixes to any of the forgoing provided to Customer hereunder.

2. Right of Access and Use. During the Subscription Term, and subject to the terms of this Agreement, FireEye grants to Customer a non-exclusive right to (a) permit those Customer Representatives authorized by Customer to access and use the Cloud Subscriptions on Customer's behalf in compliance with the terms of this Agreement, and (b) to install, copy and use Premise Software in connection with Cloud Subscriptions in accordance with the Agreement and this Exhibit, but solely on systems and hardware owned or controlled or otherwise managed by Customer on behalf of and for the benefit of Customer, (c) to install, copy and use Device Software in connection with Cloud Subscriptions in accordance with the Documentation, but solely on devices used by Customer Representatives on behalf of and for the benefit of Customer. Notwithstanding anything else herein, the number of devices Customer and/or Customer Representatives may register to the Cloud Subscriptions may not exceed the number of Licensed Devices.

Notwithstanding anything to the contrary herein, if Customer is using the Cloud Subscriptions for evaluation purposes then such Customer usage is solely for internal testing and evaluation and the Subscription Term shall not exceed fifteen (15) days unless otherwise mutually agreed upon in a signed Evaluation License Agreement.

3. Restrictions. Except as otherwise expressly permitted under this Agreement, Customer agrees that it shall not, nor shall it permit any third party to, (a) use the Cloud Subscriptions (or any portion thereof) in excess of or beyond the Subscription Term, the Licensed Device quantity, and/or other restrictions/limitations described in this Agreement; use the Cloud Subscriptions to store or transmit infringing, libelous, or otherwise unlawful or tortious material, or to store or transmit material in violation of third-party privacy or other rights; (d) interfere with or disrupt the integrity or performance of the Cloud Subscriptions or third-party data contained therein; (e) use the Software on equipment or devices which are not specified in the Documentation; (f) Cloud Subscription specific to ETP Cloud Subscriptions, Customer shall route email through a commercially available secure email gateway for anti-spam scanning prior to relay through the FireEye network. No rights or licenses are granted other than as expressly and unambiguously set forth herein. Customer access and usage for the Cloud Subscriptions is limited to the MTP or ETP Subscription that has been paid or are being evaluated by the Customer.

4. Updates, Malware Detection Content and Support Services. Updates and malware detection content and/or support services are not necessarily provided with the Software or Subscriptions, and may require additional payment or include additional terms and conditions. However, to the extent that an update to the Software and/or malware detection content is provided, such update/content shall be deemed "Software" provided subject to this Agreement. If malware detection content/support services are provided, FireEye reserves the right to change the scope or duration of such services at anytime, and to access, freely use and distribute data collected from Customer through such services. If such services are made available, Customer may be required to pay fees or other charges for use or access to some or all such services, which fees and terms will be specified in the invoice or order form for such service.

5. Device Count Increases; Reporting; Invoice. If the number of devices that Customer or Customer Representatives have registered to the Cloud Subscription ("Actual Device Count") exceeds Customer's then current Licensed Device count or if Customer wishes to increase the Licensed Device count, then Customer shall notify FireEye (or the applicable FireEye Partner) and submit an Order for the incremental Subscription Fees due, and upon receipt of such Order, the Licensed Device count shall be amended to reflect this change. Upon written request, Customer will provide FireEye a report identifying (i) the Actual Devices; (ii) the copies of and location of the Premise Software maintained; and (iii) any other information reasonably requested by FireEye at the time as it relates to the use of the Cloud Subscription to determine compliance with the terms of this Agreement. FireEye and/or its Authorized Resellers may invoice Customer if it learns of any shortfalls, i.e. that the Licensed Device Count is below the Actual Device count. The fees charged to Customer for increases in License Device counts will be based on the then-current Subscription Term pricing.

6. Cloud Subscription Availability

6.1 FireEye shall undertake commercially reasonable efforts to ensure the Cloud Subscription availability for 99.9% of the time during each calendar month.

6.1.1 "Service Outage" is where the Customer is not receiving Cloud Subscription due to a failure or a disruption in the Cloud Subscriptions and is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

6.1.2 "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the Cloud Subscriptions may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

6.1.3 "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the Cloud Subscriptions during the Emergency Maintenance.

6.1.4 "System Availability" means the percentage of total time during which the Cloud Subscriptions shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

6.2. Remedy

6.2.1 In the event that the Cloud Subscription does not meet the monthly service availability defined in 6.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

Percent of System Availability per Calendar Month	Service Credit
<99.9%	25%
<99.0%	50%
<98.0%	100%

6.2.2 For determining the Credit, the duration of a Service Outage will be measured as the time starting when there is a disruption in Cloud Subscription and ending when a successful solution or workaround allowing for full restoration of the Cloud Subscriptions is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the date the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

6.2.3 Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

6.2.4 Customer shall not be entitled to receive a Credit that exceeds 100% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

EXHIBIT B-5
SUBSCRIPTION TERMS FOR FIREEYE ADVANCED THREAT INTELLIGENCE PLUS (ATI+)

The following terms govern the Advanced Threat Intelligence Plus (ATI+) Subscription.

The ATI+ Subscription comprises two features: Continuous Monitoring ("CM" or "Continuous Monitoring") and the FireEye Intelligence Center™ (FIC™) ("FIC").

1. Continuous Monitoring

The Continuous Monitoring portion of the Subscription is purchased in connection with one or more FireEye Products, and includes the following during the Subscription Term for the specific Products for which Continuous Monitoring was purchased (some Products may not be eligible for CM):

(a) Critical Event Notification. For Customers who have purchased the FireEye NX, FX, HX or EX Product, MVX Smart Grid with Network Smart node product combination, or the ETP or TAP Subscription, FireEye will provide Customer with proactive notifications of events FireEye determines to be critical that are logged by the Products ("Alerts"). FireEye will also provide Customer with access to a detailed description of the Alert. Alerts are not proof of vulnerability, threats or attacks on Customer.

(b) System Health Monitoring and Notification. For Customers who have purchased the FireEye NX, EX, FX, HX AX or FX Product, or MVX Smart Grid w/Network Smart node combination (hardware only), FireEye will provide Customer with proactive notifications of serious system health issues related to the hardware for Products covered by Continuous Monitoring. Customers will also be provided with metrics on critical event notifications and, for purchased hardware, the status of monitored hardware parameters.

(c) Portal Access. Alerts and critical event notifications from Continuous Monitoring will be provided via an online portal, and FireEye will provide login credentials to the Customer to enable access to that portal.

(d) Continuity of Monitoring. The monitoring activities described in (a)-(c) above will be provided on a 24/7 basis.

(f) Reseller and Partner Purchases. If Customer receives the Subscription via a FireEye Partner, Customer agrees that the Subscription may be delivered to Customer through the Partner. Notwithstanding any other confidentiality obligations between the parties, Customer authorizes FireEye to disclose information related to the Subscription to the Partner.

(g) Exclusions. Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide the Subscription for (i) Products for which Customer does not have an active Subscription in place; (ii) Products that the Customer (or FireEye or another third party on Customer's behalf) has configured with a one-way feed of FireEye's Dynamic Threat Intelligence subscription; (iii) Products with an installed FireEye operating system less than version 6.2; (iv) Products that are end of life; (v) Products that have no active support service in place; (vi) Products for which software updates have not been applied; or (vii) Products that have not been installed and deployed.

2. FireEye Intelligence Center™ (FIC™), Community Threat Intelligence™ (CTI™)

FireEye will provide the FIC portion of the Subscription, which includes the Community Threat Intelligence (CTI) platform, during the Subscription Term, as set forth below:

2.1 Permitted Use; Reports. Customer may view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye Materials. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports and FIC Content using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

2.2 Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (i) one hundred (100) queries of IP addresses and domain names, and (ii) one hundred (100) queries of malware per day. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

2.3 User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC including any contributions to or through the CTI platform. Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including the CTI platform to the extent such information is de-identified.

2.4 Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC. Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

EXHIBIT B-6
SUBSCRIPTION TERMS FOR FIREEYE INTELLIGENCE CENTER™ (FIC™) (INCLUDING COMMUNITY THREAT INTELLIGENCE™ (CTI™))

The following terms govern the FireEye Intelligence Center™ (FIC™) Subscription, which includes access to the Community Threat Intelligence™ (CTI™) platform.

1. During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

i. Permitted Use; Reports. Customer may view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye Materials. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports and FIC Content using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

ii. Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100)queries of IP addresses and domain names, and (ii) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

iii. User Content. "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including the CTI platform, to the extent such information is de-identified.

iv. Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.

v. Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

EXHIBIT B-7
SUBSCRIPTION TERMS FOR FIREEYE iSIGHT INTELLIGENCE

The following terms govern the FireEye iSIGHT Intelligence Subscription ("iSIGHT" or "iSIGHT Subscription"). FireEye will provide the iSIGHT Subscription purchased by the Customer, as shown on the Order.

1. Definitions.

1.1 "Access Method(s)" or "Access Methods" means the MySIGHT Portal ("MySIGHT"), Software Development Kit ("SDK"), Application Programming Interface ("API"), Browser Plugin, iSIGHT App for Splunk, or any other method provided by FireEye for Customer to access the iSIGHT Subscription, individually or collectively. All Access Methods are FireEye Material as defined in the Agreement.

1.2 "Application" is a software program the Customer creates, or causes to have created on its behalf, that is designed to access the Content, which includes the features of the SDK/API but adds significant functionality beyond that provided by the SDK/API.

1.3 "Application Programming Interface" or "API" means the latest version of the iSIGHT Application Programming Interface software made generally available by iSIGHT, with its developer's guide and other related material (available at http://www.isightpartners.com).

1.4 "Browser Plugin" means the iSIGHT Browser Plugin which a Customer may install on Google Chrome and/or other commercially available and supported browsers that allows the Customer to access and view the Content when licensed to do so. The Browser Plugin displays the iSIGHT logo and links to MySIGHT. The Browser Plugin includes the latest version of the Browser Plugin software, its documentation and any html embedded code.

1.5 "Content" means the cyber threat intelligence data and any reports, threat indicators, trends, events, information, documentation or functionality provided in connection with the iSIGHT Subscription. All Content is FireEye Material as defined in the Agreement.

1.6 "End User" means the Customer or the Customer's employees, as applicable.

1.7 "Software Development Kit" or "SDK" shall mean the latest publicly-available version of the iSIGHT Software Development Kit and any associated documentation, tools, libraries, technical notes, software code, or other materials.

1.8 "iSIGHT App for Splunk" means the application provided by FireEye, which a Customer may install on Splunk, that allows the Customer to access and view the Content in accordance with this Agreement. The iSIGHT App for Splunk includes the latest version of the iSIGHT App for Splunk software, its documentation and any html embedded code.

1.9 "iSIGHT Subscription" includes but is not limited to, Cyber Crime, Cyber Espionage, Critical Infrastructure, Enterprise, Hacktivism, Vulnerability and Exploitation, MySIGHT Portal, Global Response, Analyst Access, iSIGHT SDK, iSIGHT API, iSIGHT Research Reports, or the current offering(s) as listed on the iSIGHT website, and as purchased by the Customer as shown on the Order.

2. License; Access to iSIGHT Subscription and Content.

2.1. Grant of Limited License. During the Subscription Term, FireEye grants to Customer in strict accordance with the terms of this Agreement, a limited, worldwide, revocable, non-exclusive, non-transferable, non-assignable, non-sublicensable royalty-free right and license to:

(a) use MySIGHT, the iSIGHT Subscription, and any Content provided by FireEye for internal use only. The ISIGHT Subscription can be used by End Users who have a valid "need to know" within Customer's organization, typically defined as a person or group that has a direct role in securing information system or networks. FireEye agrees to provide support for the ISIGHT Subscription in accordance with Section 3 below ("Subscription Support" or "Support").

(b) use the API to search, display, and otherwise access the Content. The API can be used to develop, display, or integrate applications, scripts, tools or workflows that interoperate with iSIGHT Subscriptions for the Customer's internal use. FireEye agrees to provide Support for the latest version of the API in accordance with Section 3 below.

(c) download, install and use the Software Development Kit ("SDK") to design, develop and test an Application(s), for the Customer's internal use only, for the purpose of customizing access to the Content. The Customer may modify the source code versions of sample files, if any, included with the SDK for the purpose of creating Customer's Application(s), and may make a reasonable number of copies of the SDK as necessary to develop Customer's Application(s), provided that Customer must reproduce complete copies of the SDK, including without limitation all "read me" files, copyright notices, and other legal notices and terms. FireEye agrees to provide Support for the ISIGHT SDK in accordance with Section 3 below.

(d) use the Browser Plugin to search, display and otherwise access the Content for the Customer's internal use only. Customer may install and use one copy of the Browser Plugin on a single computer per license. FireEye agrees to provide Support for the latest version of the Browser Plugin in accordance with Section 3 below

(e) use the ISIGHT App for Splunk to search, display and otherwise access the Content for the Customer's internal use only. Customer may install and use one copy of the ISIGHT App for Splunk on a single computer per license. FireEye agrees to provide Support for the latest version of the ISIGHT App for Splunk in accordance with Section 3 below.

2.2. Access Keys. Use of the Access Methods and access to the ISIGHT Subscription and the Content by Customer's End Users is provided through access keys or login credentials. Access keys in association with the Access Methods and ISIGHT Subscription shall be kept in confidence by Customer and Customer's End Users. Access keys will be issued to individual End Users by FireEye in accordance with each particular Access Method's parameters and will not be shared between End Users. Customer may not establish group accounts. Any unauthorized disclosure or dissemination of access keys by Customer or End Users shall be deemed a material breach of this Agreement. Customer shall inform FireEye of any data breach concerning login credentials in a timely manner. FireEye reserves the right to change, suspend, remove, or disable Customer's access keys to the Access Methods, ISIGHT Subscription , and Content upon notice if a material breach is suspected and not rectified upon notification.

2.3. Latest Version. The license granted to Customer under this Agreement is for the current version of the Access Methods. FireEye may release future versions of the Access Methods as determined in the sole discretion of FireEye. Nothing in this Agreement is a commitment to Customer of compatibility between the existing Access Methods and any future versions of the Access Methods. FireEye reserves the right to discontinue offering particular Access Methods (or any updates thereto) or to modify the Access Methods at any time in its sole discretion.

2.4. Multiple Copies. Customer may receive software for an Access Method in more than one medium and/or in multiple copies. The Customer's license rights are in accordance with the Order regardless of the number of copies received.

2.5. Additional Licenses. Customer may purchase additional licenses for the Browser Plugin for its authorized End Users through the Chrome Web Store. Customer may purchase additional licenses for the ISIGHT App for Splunk for its authorized End Users through Splunk. Additional licenses for the Browser Plugin and ISIGHT App for Splunk may be purchased and will be valid for the current Subscription Term as provided in the Order.

2.6. Customer Application. The Customer may allow Customer's employees to access and use the SDK/API on Customer's behalf to design an Application. The Customer may not rent, lease, sell, transfer, sublicense or time-share the Customer's Application to any third-party without the express consent of FireEye. Customer shall retain all right, title or interest in the Application and as such, Customer agrees to indemnify and hold harmless FireEye for any claims of infringement made against FireEye in connection with any Application. The Customer's Application(s) must perform in accordance with the terms of this Agreement and must ensure the security and confidentiality of FireEye's Confidential Information. Customer assumes full responsibility for any breach of

security caused by Customer's Application(s) in connection with the Content, API, SDK, and specifically to any unauthorized disclosure of any FireEye Materials or FireEye Confidential Information.

2.7. Content Modifications. Customer may access the Content from the MySIGHT Portal, via email, SMS, HTML, API, any other Access Methods as officially distributed by FireEye or an FireEye sanctioned third-party integration. FireEye reserves the right to modify, amend, augment, reduce or alter the Content's format, or Access Methods, or mode of retrieval of the Content, that in the sole judgment of FireEye is in its customers' best interests. Customer will be entitled to retrieve the Content with any updates, modifications, additions or changes in the Content. These changes may require Customer to upgrade its systems, hardware or software and FireEye will not be responsible for the costs of any such changes.

2.8. Prohibited Usage. Customer must comply with any Intellectual Property rights asserted in any materials contained in the Content. The following conduct and usage restrictions apply during Customer's download, installation, and use of the Content and/or Access Methods, and survive termination of the Agreement or Subscription Term. Customer and its authorized End Users may not:

a. rent, lease, lend, sell, redistribute or sublicense any part of the ISIGHT Subscription or Access Methods to any other party;

b. share the ISIGHT Subscription , Access Methods, Content or Confidential Information with any third-parties, except as expressly authorized in advance by this Agreement or by FireEye in writing;

c. use the ISIGHT Subscription or Access Methods in the operation of a service or in any way to provide services to any third-party;

d. create derivative works for external distribution or use based upon the Content;

e. create apps, extensions, or other products and services that use Content except as set forth herein;

f. display, post, frame, or scrape the Content, except as allowed under this Agreement;

g. use the Access Methods for any other purpose than to access the ISIGHT Subscription and the Content;

h. use the Access Methods for any illegal or unauthorized purpose to promote or provide instructional information about illegal activities or to promote stalking, physical harm or injury against any group or individual, or any use that violates the rights of privacy and publicity of others;

i. create, place, or disseminate any materials or other items that are inappropriate, defamatory, obscene, pornographic, harassing, threatening, abusive, hateful or otherwise offensive, or is unlawful (including any content that infringes any patent, trademark, service mark, copyright, trade secret or other proprietary right of any third-party without appropriate permissions);

j. transmit any viruses, worms, defects, Trojan horses, time-bombs, malware, spyware, or any other computer code of a destructive or interruptive nature in connection with use of the Access Methods;

k. use the Access Methods in connection with or to promote any products, services, or materials that constitute, promote or are used primarily for the purpose of dealing in spyware, adware, or other malicious programs or code, counterfeit goods, unsolicited mass distribution of email ("spam"), hacking, surveillance, interception, descrambling equipment, stolen products and items used for theft;

l. create any Application that exposes or provides functionality of the Access Methods to any third party;

m. interfere, restrict or inhibit any other customer from using the Access Methods or Content or disrupt any services offered by FireEye through any medium;

n. attempt to exceed or exceed the usage limits established by FireEye for the Customer (http://www.isightpartners.com/doc/sdk-bp-docs/#/rate_limiting).

2.9. Restrictions. FireEye expressly reserves the right to limit the number and/or frequency of requests for Content made through the Access Methods in its sole discretion in line with technical design and performance standards as documented in the publicly available developers guide. FireEye may limit the number of network calls that any Application may make via the Access Methods, the maximum file size, or the maximum amount of ISIGHT material that may be accessed. FireEye may change such usage limitations at any time and without notice. In addition to any other rights under this Agreement, FireEye may utilize technical measures to prevent over-usage or to stop usage of any Access Methods or any Application after any usage limitations are exceeded. The most current API/SDK documentation and developers guide can be found at http://www.isightpartners.com/doc/sdk-bp-docs/#/, and these documents detail the current rates and capabilities of the API.

2.10. Customer recognizes and agrees that certain information and data that will be provided by Customer to FireEye pursuant to the ISIGHT Subscription is not owned by Customer and is not Confidential Information of

Customer. Malware submitted by Customer to FireEye for analysis under ISIGHT Global Response, and other information submitted by Customer to FireEye that is not unique to and/or developed by Customer (collectively "Submissions") shall not be considered Confidential Information or Intellectual Property of the Customer. FireEye may use the Submissions, aggregate the Submissions with submissions from other FireEye customers as well as original research and analysis, and share that aggregated intelligence with Customer and with other FireEye customers to enhance the services FireEye provides to its customers. FireEye will anonymize all Submissions prior to distribution, and will not identify the source of any Submission without written permission in each case.

3. Service Levels.

3.1. Service Call and Subscription Support

FireEye maintains a service desk in order to assist its customers with issues, trouble or general questions concerning use of the FireEye ISIGHT Products. Customer may initiate a service call as follows:

Description	Details
FireEye Service Desk (Primary, escalation and off-hours contact)	servicedesk@isightpartners.com
Service Desk Hours	24 x 7
Service Call Response Time ("Response Time Standard")	4 hours for initial response (confirmation of receipt is immediate through an automated ticketing system)
ISIGHT API	General information regarding ISIGHT API which can be accessed at http://www.isightpartners.com/doc/api2.0/docs/#/
Other resources (all other Subscription Support issues)	Existing Clients – Contact your assigned Intelligent Account Manager at: client-engagement@isightpartners.com Prospective Clients – Contact your assigned Sales Engineer at: sales-engineering@isightpartnerns.com Partners, Resellers, Referrals – Contact partners program representative at: partners@isightpartners.com

FireEye will catalog and evaluate all bugs or software issues as they are reported. Such issues will be prioritized based on variables such as customer impact, security impact, etc. and will be scheduled for release accordingly. When applicable, FireEye will notify Customer of urgent patches or bug fixes. Support Services do not include custom programming services, on-site support, or other services including installation of hardware or software, or training.

3.2. Maintenance and Updates

(a) When feasible and appropriate, FireEye will provide Customer prior notification about major releases at least two weeks in advance via communication from FireEye representatives.
(b) Scheduled system maintenance will be performed during the targeted times of 01:00 – 07:00 UTC on Thursdays and 12:00 – 19:00 UTC on Sundays. Prior notification will be provided in the event of any impact to customer facing applications.
(c) Emergency maintenance notifications will be provided by FireEye as early as possible but with a goal of six (6) hours' prior notice provided. Further, FireEye will strive to minimize the impact of any maintenance on any critical system during standard business hours around the globe.

3.3. Subscription Availability

(a) The FireEye ISIGHT API will have at least 99% system uptime ("API Uptime Standard").

(b) The iSIGHT MySIGHT Portal will have at least a 99% system uptime ("Portal Uptime Standard").

(c) FireEye realizes that a failure to meet the Response Time Standard, API Uptime Standard and the Portal Uptime Standard (collectively, the "Service Level Standards") could have an adverse impact to Customer. If FireEye fails to meet any of the Service Level Standards ("Service Level Failure"), FireEye will: (i) promptly investigate and report on the root cause of the problem; (ii) advise Customer of the remedial efforts being undertaken with respect to this failure to meet the Service Level Standards; (iii) use commercially reasonable efforts to correct the problem and begin meeting the Service Level Standards; and (iv) take appropriate preventative measures designed to ensure that the problem does not recur.

EXHIBIT C
FIREEYE SUPPORT SERVICES APPLICABLE FOR FIREEYE PRODUCTS

1. SUPPORT PURCHASED SEPARATELY FROM THE PRODUCTS. In the event Customer has purchased the Products and pass-through Support Services from FireEye through a FireEye authorized reseller (a "Reseller"), Customer will be entitled to all the rights herein set forth related to the level of Support Service requested and paid for by it, provided Customer: (a) is the original purchaser of the covered Products, (b) has provided true, accurate, current and complete information to FireEye included with its purchase; and (c) has maintained and updated this information to keep it true, accurate, current, and complete.

2. SUPPORT SERVICES PROVIDED BY FIREEYE.

FireEye offers a range of programs for the support of its Products as described below ("Support Programs"). Customer shall be entitled to receive the Support Services specified on the applicable support invoice and described below to the extent that Customer has paid in full the applicable Fees for Support Services.

2.1 Software Maintenance Services – include each of the following:

Software Updates. During the Support Term , FireEye shall provide Customer notification of bug fixes, maintenance patches and new releases which may contain minor enhancements to the features or functions of the Product ("**Updates**"). FireEye may designate a particular release of the Product as an Update at its sole discretion. Customer may obtain Updates either through delivery of a machine-readable copy pursuant to instructions contained in the document notifying Customer of an available Update or by downloading the Update from FireEye's server via the Internet. FireEye reserves the right to impose additional charges for releases of Products (i) that provide major enhancements to the features or functions of the Products, as determined by FireEye at its sole discretion; or, (ii) that provide additional features or perform additional functions not provided or performed by the Products.

Software Error Corrections. During the Support Term, FireEye shall use commercially reasonable efforts to correct any reproducible programming error in the software associated with the Product attributable to FireEye, employing a level of effort commensurate with the severity of the error, provided, however, that FireEye shall have no obligation to correct all errors in the Products. Upon identification of any programming error, Customer shall notify FireEye of such error in writing and shall provide FireEye with enough information to locate and reproduce the error. FireEye shall not be responsible for correcting any errors not attributable to FireEye. Errors attributable to FireEye shall be those that are reproducible by FireEye on unmodified Products. If it is found that a particular error is fixed in the most current Product release, then FireEye shall have no obligation to fix the error in any prior Product release and Customer will need to upgrade to the current Product release in order to obtain the fix.

2.2 Support Programs

(a) Platinum Support includes all of the services set forth above under Software Maintenance Service (section 2.1) and additionally:

- *Email, Live Chat, Web or Telephone Support*. During the Support Term, FireEye shall provide Customer technical email, live chat, web or telephone support for the Products twenty-four (24) hours per day, 365 days a year. FireEye's support technician shall only be obligated to respond to Customer's fifteen (15) designated contacts.
- FireEye shall use commercially reasonable efforts to respond to the request for support as detailed in the Initial Response Times table found at https://www.fireeye.com/support/programs.html regarding use or installation of the Product that is communicated to FireEye via one of the mechanisms above to the attention of FireEye's support engineers.
- *Product Return*. During the term of this Agreement, Customer shall have the right to return to FireEye any defective Product subject to the limited warranty. Additionally, FireEye will fulfill the following Advance Return provisions below.

- Advance Replacement. Prior to any return as to which Advance Replacement applies, Customer shall verify that said Product is defective by logging a Support request via one of the mechanisms described above and in accordance with FireEye's RMA procedures, including providing the part number, serial number, quantity and reason for return, an explanation of all failure symptoms and other relevant information. Upon confirmation by FireEye of a defect, Customer shall obtain from FireEye an RMA number. FireEye shall ship via a recognized express courier service a replacement Product to Customer to arrive no later than next business day after FireEye's issuance of an RMA number, provided the RMA number was issued prior to the business day cutoff time local to the defective Product, provided the replacement does not require any custom pre-configuration, and provided no external-to-FireEye circumstances prevent the delivery. The replacement Product may be a new or reconditioned Product (of equivalent or better quality) at FireEye's sole discretion. FireEye shall pay the shipping costs to ship the replacement Product to Customer, but Customer shall bear any and all risk of loss of or damage to said Product at all times after said Product is made available by FireEye to the common carrier. The support service will transfer from the defective Product to the replacement Product. Within five (5) business days after Customer receives the replacement Product from FireEye, Customer shall package said defective Product in its original packing material or equivalent, write the RMA number on the outside of the package and return said defective Product, at FireEye's cost provided Customer utilizes FireEye's designated courier service and properly packages the defective Product according to FireEye's instructions, shipped properly insured, FOB FireEye's designated facility (except that FireEye shall pay for shipping). Customer shall enclose with the returned Product the applicable RMA form, and any other documentation or information requested by FireEye customer support. Customer shall assume any and all risk of loss of or damage to such Product during shipping. Title to the defective Product shall pass to FireEye upon FireEye's receipt thereof. When a replacement Product is provided and Customer fails to return the defective Product to FireEye within ten (10) business days after Customer receives the replacement Product from FireEye, FireEye may charge Customer, and Customer shall pay for the replacement Product at the then-current list price.

(b) Platinum Priority Plus Support iincludes all of the services set forth above under Platinum Support [section 2.2(a)] and additionally:

- *Access to Support*. Customer will be provided with direct priority access to Level 2 Advanced Engineering support who shall respond to Customer's unlimited number of designated contacts. A Designated Support Engineer (DSE) point of contact, who is available during Customer's business hours (for single Customer site if Product(s) installed at multiple Customer sites), will be made available to be the focal point of contact within FireEye, to project manage Customer's technical issues.
- *Onsite Support*. Onsite visits for problem assistance at DSE's sole discretion.
- *Reporting*. FireEye will supply Customer with monthly reports detailing technical support provided during the previous month. Quarterly business reviews will also be conducted.

(c) Government Support, if available, includes all of the services set forth above under Platinum Support [section 2.2(a)] and additionally:

- *Email, Live Chat, Web or Telephone Support*. For the specified country, access to citizens of that country for the fulfillment of Level 1 and 2 technical support requests.

(d) Government Priority Plus Support includes all of the services set forth above under Government Support [section 2.2(c)] and additionally:

- *Access to Support*. Customer will be provided with direct priority access to Level 2 Advanced Engineering support who are citizens of that country and shall respond to Customer's unlimited number of designated contacts. A Designated Support Engineer (DSE) point of contact who is a citizen of that country and available during Customer's business hours (for single Customer site if Product(s) installed at multiple Customer sites), will be made available to be the focal point of contact within FireEye, to project manage Customer's technical issues.
- *Onsite Support*. Onsite visits for problem assistance at DSE's sole discretion.
- *Reporting*. FireEye will supply Customer with monthly reports detailing technical support provided during the previous month. Quarterly business reviews will also be scheduled.

(e) Special Services. FireEye agrees to use commercially reasonable efforts to respond to any requests by Customer for support services not specifically provided for above. Customer acknowledges that all such services provided by FireEye shall be at FireEye's discretion and then-current fees and policies.

3. CUSTOMER RESPONSIBILITIES.

3.1 Requesting Support Services. When requesting Support Services from FireEye under this Agreement, Customer should have the following information available to provide to FireEye, if requested: (i) detailed problem description, including operating system ("OS") version, Product model and serial number(s), of the affected Product, and a detailed description of the troubleshooting that has already been done to try to resolve the problem; (ii) detailed system log files; (iii) configuration and login details to allow FireEye access as needed to the Products via the Internet for the purpose of providing support services and permissions needed in order for FireEye to conduct such remote access; (iv) a detailed description of changes to the environment; and (v) Customer's unique ID, Account ID, the serial number(s) of the Product(s) covered by this Agreement or other unique customer identifier as assigned to Customer by FireEye. Customer acknowledges and agrees that failure to have any or all information or access available as needed by FireEye in order to provide the Support Services may result in delays in FireEye's response, may hinder FireEye's ability to perform the Support Services and/or may cause incorrect Support Program fulfillment. FireEye will not be responsible for any such delays and inability to perform due to causes not due to FireEye.

3.2 Customer Assistance. Customer agrees to: (i) ensure that their site complies with any and all applicable FireEye published system environmental specifications; (ii) follow FireEye's procedures when requesting Support Services; (iii) provide FireEye reasonable access to all necessary personnel to answer questions or resolve problems reported by Customer regarding the Products; (iv) promptly implement all Updates and error corrections provided by FireEye under this Agreement; (v) maintain FireEye supported versions of required third party software, if any; and (v) notify FireEye promptly of any relocation of the Products from the location to which the Products were originally shipped. Customer agrees to use reasonable efforts to resolve internally any support questions prior to requesting Support Services pursuant to this Agreement. During the Support Term, FireEye may obtain information regarding Customer's email communication and Customer agrees that, as a condition to FireEye's provision of Support Services, FireEye may use statistical data generated regarding Customer's email correspondence with customer support so long as the source or content of the emails is not being disclosed.

3.3 Contact People. Customer shall appoint the specified number of individuals (depending upon the Support Program purchased) within Customer's organization to serve as contacts between Customer and FireEye and to receive support through FireEye's telephone support center. Customer's contacts shall have been adequately trained on the Products and shall have sufficient technical expertise, training and experience. All of Customer's support inquiries shall be initiated through these contacts.

4. EXCLUSIONS. Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide any Support Services relating to problems arising out of or related to (i) Customer's failure to implement all Updates to the Product which are made available to Customer under this Agreement; (ii) the failure to provide a suitable installation environment; (iii) any alteration, modification, enhancement or addition to the Products performed by parties other than FireEye; (iv) use of the Products in a manner, or for a purpose, for which they were not designed; (v) accident, abuse, neglect, unauthorized repair, inadequate maintenance or misuse of the Products; or relocation of the Products (including without limitation damage caused by use of other than FireEye shipping containers), (vi) operation of the Products outside of environmental specifications; (vii) interconnection of the Products with other products not supplied by FireEye; (viii) use of the Products on any systems other than the specified hardware platform for such Products; or (ix) introduction of data into any database used by the Products by any means other than the use of the software associated with the Products. Notwithstanding anything else contained in this Agreement to the contrary, FireEye will support all generally available ("GA") versions of the FireEye OS, for a minimum of one (1) year from GA release date, regardless of the number of supported OS GA versions. FireEye will also support the two (2) most current OS GA versions, regardless of the elapsed time from GA release date. If available, and at FireEye's sole discretion, support for any other OS versions or for other problems not covered under this Agreement may be obtained at FireEye's then-current fees and policies for such services. FireEye's complete end of life policy can be found at http://www.fireeye.com/support/supported-products.html

5. LAPSED SUPPORT AND UPGRADED SUPPORT.

5.1 Lapsed Support. After any lapse of Support Services, the parties subsequently may elect to reinstate such Support Services for Products for which the Support Services lapsed pursuant to the terms and conditions set forth in this Agreement; provided, however, that (i) Customer agrees to pay for the period of time that has lapsed as well as any renewal term, and (ii) such Products must be in good working condition, as solely determined by FireEye or its designee.

5.2 Support Program Upgrade. At any time during the Term, Customer may upgrade to FireEye's next level of Support Program by (i) notifying FireEye of Customer's desire to upgrade; (ii) acknowledging in writing the then-current terms and conditions for the relevant Support Program; and (iii) paying FireEye the additional Support Fee owed in connection with such upgraded Support Program.

Exhibit A
Product Passthrough Terms – Google Apps for Work (for Customers)

Customer has entered into a certain written agreement (the "Agreement") pursuant to which Customer has purchased the right to access and use the Product. These Product Passthrough Terms set forth the terms and conditions under which Customer may access and use such Product.

1. Product.

   1.1 Facilities and Data Transfer. All facilities used to store and process Customer Data will adhere to reasonable security standards no less protective than the security standards at facilities where Provider stores and processes its own information of a similar type. Provider has implemented at least industry standard systems and procedures to ensure the security and confidentiality of Customer Data, protect against anticipated threats or hazards to the security or integrity of Customer Data, and protect against unauthorized access to or use of Customer Data. As part of providing the Product, Provider may transfer, store and process Customer Data in the United States or any other country in which Provider or its agents maintain facilities. By using the Product, Customer consents to this transfer, processing and storage of Customer Data.

   1.2 Modifications.

      a. To the Product. Provider may make commercially reasonable changes to the Product, from time to time. If Provider makes a material change to the Product, Customer may be informed of such change, provided that Customer has subscribed with Provider to be informed about such change.

      b. To URL Terms. Provider may make commercially reasonable changes to the URL Terms from time to time. If Provider makes a material change to the URL Terms, Customer may be informed of such change through the Notification Email Address or via the Admin Console. If the change has a material adverse impact on Customer and Customer does not agree to the change, Customer must so notify Partner or Provider via the Help Center within thirty days after receiving notice of the change. Upon such notification, Customer will remain governed by the URL Terms in effect immediately prior to the change until the end of the then-current term for the affected Product. If the affected Product is renewed, they will be renewed under Provider's then current URL Terms.

   1.3 Customer Domain Name Ownership. Prior to providing the Product, Provider or Partner may verify that Customer owns or controls the Customer Domain Names. If Customer does not own, or control, the Customer Domain Names, then Provider will have no obligation to provide Customer with the Product.

   1.4 Federal Information Security Management Act (FISMA). The Provider's Product known as "Google Apps Core Services" received a FISMA "Authorization to Operate" for a Moderate impact system. Provider will continue to maintain a System Security Plan (SSP) for the Google Apps Core Services, based on NIST 800-53 Rev. 3, or a similarly applicable standard. If Provider does not maintain this SSP as stated, Customer's sole and exclusive remedy, and Provider's entire liability, will be Customer's ability to terminate use of the Product upon thirty days prior written notice.

2. Customer Obligations.

   2.1 Compliance. Customer will use the Product in accordance with the Acceptable Use Policy. Provider may make new applications, features or functionality for the Product available from time to time, the use of which may be contingent upon Customer's agreement to additional terms. In addition, Provider will make other Non-Google Apps Products (beyond the Product) available to Customer and its End Users in accordance with the Non-Google Apps Product Terms and the applicable product-specific Provider terms of service. If Customer does not desire to enable any of the Non-Google Apps Products, Customer can enable or disable them at any time through the Admin Console.

   2.2 Customer Administration of the Product. Customer may specify one or more Administrators through the Admin Console who will have the rights to access Admin Account(s) and to administer the End User Accounts. Customer and Partner are responsible for: (a) maintaining the confidentiality of the password and Admin Account(s); (b) designating those individuals who are authorized to access the Admin Account(s); and (c) ensuring that all activities that occur in connection with the Admin Account(s) comply with these

Product Passthrough Terms. Customer agrees that Provider's responsibilities do not extend to the internal management or administration of the Product for Customer and that Provider is merely a data-processor.

2.3 End User Consent. Customer's Administrators may have the ability to access, monitor, use, or disclose data available to End Users within the End User Accounts. Customer will obtain and maintain all required consents from End Users to allow: (i) Customer's access, monitoring, use and disclosure of this data and Provider providing Customer with the ability to do so, and (ii) Provider to provide the Product.

2.4 Unauthorized Use. Customer will use commercially reasonable efforts to prevent unauthorized use of the Product, and to terminate any unauthorized use. Customer or Reseller will promptly notify Provider of any unauthorized use of, or access to, the Product of which it becomes aware.

2.5 Restrictions on Use. Unless Provider specifically agrees in writing, Customer will not, and will use commercially reasonable efforts to make sure a third party does not: (a) sell, resell, lease, or the functional equivalent, the Product to a third party (unless expressly authorized in these Product Passthrough Terms); (b) attempt to reverse engineer the Product or any component; (c) attempt to create a substitute or similar service through use of, or access to, the Product; (d) use the Product for High Risk Activities; or (e) use the Product to store or transfer any Customer Data that is controlled for export under Export Control Laws. Customer is solely responsible for any applicable compliance with HIPAA.

2.6 Third Party Requests. Customer is responsible for responding to Third Party Requests. Provider will, to the extent allowed by law and by the terms of the Third Party Request: (a) promptly notify Customer of its receipt of a Third Party Request; (b) comply with Customer's reasonable requests regarding its efforts to oppose a Third Party Request; and (c) provide Customer with the information or tools required for Customer to respond to the Third Party Request. Customer will first seek to obtain the information required to respond to the Third Party Request on its own, and will contact Provider only if it cannot reasonably obtain such information.

3. Technical Support Services.

3.1 By Customer. Customer or Partner will, at its own expense, respond to questions and complaints from End Users or third parties relating to Customer's or End Users' use of the Product. Customer or Partner will use commercially reasonable efforts to resolve support issues before escalating them to Provider.

3.2 By Provider. If Customer or Partner cannot resolve a support issue consistent with the above, then Customer or Partner (as applicable based on the agreement between Provider and Partner) may escalate the issue to Provider in accordance with the TSS Guidelines. Provider will provide TSS to Customer or Partner (as applicable) in accordance with the TSS Guidelines.

4. Suspension.

4.1 Of End User Accounts by Provider. If Provider becomes aware of an End User's violation of these Product Passthrough Terms, then Provider may specifically request that Customer Suspend the applicable End User Account. If Customer fails to comply with Provider's request to Suspend an End User Account, then Provider may do so. The duration of any Suspension by Provider will be until the applicable End User has cured the breach which caused the Suspension.

4.2 Emergency Security Issues. Notwithstanding the foregoing, if there is an Emergency Security Issue, then Provider may automatically Suspend the offending use. Suspension will be to the minimum extent and of the minimum duration required to prevent or terminate the Emergency Security Issue. If Provider Suspends an End User Account for any reason without prior notice to Customer, at Customer's request, Provider will provide Customer the reason for the Suspension as soon as is reasonably possible.

5. Confidential Information.

5.1 Obligations. Customer and Provider will: (a) protect the other's Confidential Information with the same standard of care it uses to protect its own Confidential Information; and (b) not disclose the Confidential Information, except to Affiliates, employees and agents who need to know it and who have agreed in writing to keep it confidential. Customer and Provider (and any Affiliates, employees and agents to whom it has disclosed Confidential Information) may use Confidential Information only to exercise rights and fulfill its obligations under these Product Passthrough Terms, while using reasonable care to protect it. Customer

and Provider, respectively, will be responsible for any actions of its Affiliates, employees and agents in violation of this Section.

5.2 Exceptions. Confidential Information does not include information that: (a) the recipient of the Confidential Information already knew; (b) becomes public through no fault of the recipient; (c) was independently developed by the recipient; or (d) was rightfully given to the recipient by a third party.

5.3 Required Disclosure. Customer and Provider may disclose the other's Confidential Information when required by law but only after it, if legally permissible: (a) uses commercially reasonable efforts to notify the other; and (b) gives the other the chance to challenge the disclosure.

6. Intellectual Property Rights; Brand Features.

6.1 Intellectual Property Rights. Except as expressly set forth herein, these Product Passthrough Terms does not grant either Customer or Provider any rights, implied or otherwise, to the other's content or any of the other's intellectual property. As between the Customer and Provider, Customer owns all Intellectual Property Rights in Customer Data, and Provider owns all Intellectual Property Rights in the Product.

6.2 Display of Brand Features. Provider may display those Customer Brand Features authorized by Customer (such authorization is provided by Customer uploading its Brand Features into the Product), and within designated areas of the Service Pages. Customer may specify the nature of this use using the Admin Console. Provider may also display Provider Brand Features on the Service Pages to indicate that the Product are provided by Provider. Neither party may display or use the other party's Brand Features beyond what is allowed in these Product Passthrough Terms without the other's prior written consent.

6.3 Brand Features Limitation. Any use of Brand Features will inure to the benefit of the entity holding Intellectual Property Rights in those Brand Features. Any right to use its Brand Features pursuant to these Product Passthrough Terms may be revoked at any time with written notice to the other and a reasonable period to stop the use.

7. Publicity. Customer agrees that Provider may include Customer's name or Brand Features in a list of Provider customers, online or in promotional materials. Customer also agrees that Provider may verbally reference Customer as a customer of the Provider's Product that is the subject of these Product Passthrough Terms.

8. Representations, Warranties and Disclaimers.

8.1 Representations and Warranties. Customer and Provider represent that each will comply with all laws and regulations applicable to its provision, or use, of the Product, as applicable (including applicable security breach notification law). Provider warrants that it will provide the Product in accordance with the applicable SLA.

8.2 Disclaimers. TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, EXCEPT AS EXPRESSLY PROVIDED FOR HEREIN, NEITHER PARTY MAKES ANY OTHER WARRANTY OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR USE AND NONINFRINGEMENT. PROVIDER MAKES NO REPRESENTATIONS ABOUT ANY CONTENT OR INFORMATION MADE ACCESSIBLE BY OR THROUGH THE PRODUCT. CUSTOMER ACKNOWLEDGES THAT THE PRODUCT IS NOT A TELEPHONY SERVICE AND THAT THE PRODUCT IS NOT CAPABLE OF PLACING OR RECEIVING ANY CALLS, INCLUDING EMERGENCY PRODUCT CALLS, OVER PUBLICLY SWITCHED TELEPHONE NETWORKS.

9. Term and Termination.

9.1 Term. The term for the Product will be as decided upon between Partner and Customer. These Product Passthrough Terms will remain in effect for the Term.

9.2 Termination for Breach. The Services may be suspended or terminated, if: (i) Customer is in material breach of these Product Passthrough Terms and fails to cure that breach within thirty days after receipt of written notice; (ii) Customer ceases its business operations or becomes subject to insolvency proceedings and the proceedings are not dismissed within ninety days; or (iii) Customer is in material breach of these Product Passthrough Terms more than two times notwithstanding any cure of such breaches.

9.3 Effects of Termination. If Services are terminated, then: (i) the rights granted by Provider to Customer, and Customer to Provider will cease immediately (except as set forth in this Section); (ii) neither Customer nor Partner will have access to, or the ability to export, the Customer Data; (iii) Provider will begin to delete Customer Data; and (iv) upon request will promptly use commercially reasonable efforts to return or destroy all other Confidential Information of the other.

10. Miscellaneous.

10.1 Product Development. The Product was developed solely at private expense and is commercial computer software and related documentation within the meaning of the applicable civilian and military federal acquisition regulations and any supplements thereto.

10.2 Force Majeure. Due to circumstances beyond Provider's controls, Provider may not be able to provide the Product.

10.3 No Waiver. Failure to enforce any provision of these Product Passthrough Terms will not constitute a waiver.

10.4 No Agency. These Product Passthrough Terms do not create any agency, partnership or joint venture.

10.5 No Third-Party Beneficiaries. There are no third-party beneficiaries to these Product Passthrough Terms. Customer's sole remedies will be set forth in its agreement with the Partner.

10.6 Survival. The following sections will survive expiration or termination of these Product Passthrough Terms: Sections 5, 6, 9.3, 10 and 12.

10.7 Severability. If any term (or part of a term) of these Product Passthrough Terms is invalid, illegal, or unenforceable, the rest of these Product Passthrough Terms will remain in effect.

10.8 Conflicting Terms. If there is a conflict between any terms of these Product Passthrough Terms and any other document that makes up the entire agreement as needed for Customer to use the Product, the terms of these Product Passthrough Terms will take precedence.

11. Additional Product Terms.

11.1 Ads. Provider does not serve Ads in the Product or use Customer Data for Ads purposes.

11.2 Aliases. Customer is solely responsible for monitoring, responding to, and otherwise processing emails sent to the "abuse" and "postmaster" aliases for Customer Domain Names but Provider may monitor emails sent to these aliases for Customer Domain Names to allow Provider to identify Product abuse.

11.3 Google Apps Vault Retention. If Customer is using Google Apps Vault, Provider will have no obligation to retain any archived Customer Data beyond the retention period specified by Customer. If Customer does not renew Google Apps Vault, Provider will have no obligation to retain any archived Customer Data.

12. Definitions.

"Acceptable Use Policy" means the acceptable use policy for the Product available at http://www.google.com/a/help/intl/en/admins/use_policy.html. The Acceptable Use Policy and such URL link may be updated or modified by Provider from time to time.

"Admin Account(s)" means the administrative account(s) provided to Customer for the purpose of administering the Product. The use of the Admin Account(s) requires a password, which Provider will provide to Customer or Partner.

"Admin Console" means the online tool Customer may use in reporting and certain other administration functions.

"Administrators" mean the Customer-designated technical personnel who administer the Product to End Users on Customer's behalf.

"Ads" means online advertisements displayed by Provider to End Users, excluding advertisements provided by any advertising products that are not part of the Product that Customer chooses to use in connection with the Product.

"Affiliate" means any entity that directly or indirectly controls, is controlled by, or is under common control with an entity.

"Brand Features" means the trade names, trademarks, service marks, logos, domain names, and other distinctive brand features of each party, respectively, as secured from time to time.

"Confidential Information" means information disclosed or exchanged under these Product Passthrough Terms that is marked as confidential or would normally be considered confidential under the circumstances. Customer Data is Customer's Confidential Information.

"Customer Data" means data, including email, provided, generated, transmitted or displayed via the Product by Customer, End Users, or Partner on behalf of Customer.

"Customer Domain Names" mean the domain names owned or controlled by Customer, which will be used in connection with the Product.

"Emergency Security Issue" means either: (a) Customer's use of the Product in violation of the Acceptable Use Policy, which could disrupt: (i) the Product; (ii) other customers' use of the Product; or (iii) the Provider network or servers used to provide the Product; or (b) unauthorized third party access to the Product.

"End Users" means the individuals Customer permits to use the Product.

"End User Account" means a Provider-hosted account established by Customer through the Product for an End User.

"Export Control Laws" means all applicable export and reexport control laws and regulations, including trade and economic sanctions maintained by the Treasury Department's Office of Foreign Assets Control, and the International Traffic in Arms Regulations ("ITAR") maintained by the Department of State.

"Google Apps Core Services" means the applicable Product purchased by Customer from Partner which are more fully described here: http://www.google.com/a/help/intl/en/users/user_features.html. The Google Apps Core Services and such URL link may be updated or modified by Provider from time to time.

"Help Center" means the Provider help center accessible at http://www.google.com/support/. The Help Center and such URL link may be updated or modified by Provider from time to time.

"High Risk Activities" means uses such as the operation of nuclear facilities, air traffic control, or life support systems, where the use or failure of the Product could lead to death, personal injury, or environmental damage.

"HIPAA" means the Health Insurance Portability and Accountability Act of 1996, as may be amended from time to time, and any regulations issued thereunder.

"Intellectual Property Rights" means current and future worldwide rights under patent law, copyright law, trade secret law, trademark law, moral rights law, and other similar rights.

"Non-Google Apps Products" means Provider products which are not part of the Product, but which may be accessed by End Users using their End User Account login and password. The Non-Google Apps Products are set forth at the following URL: http://www.google.com/support/a/bin/answer.py?hl=en&answer=181865. The Non-Google Apps Products and such URL link may be updated or modified by Provider from time to time.

"Non-Google Apps Product Terms" means the terms found at the following URL: http://www.google.com/apps/intl/en/terms/additional_services.html. The Non-Google Apps Product Terms and such URL link may be updated or modified by Provider from time to time.

"Notification Email Address" means the email address designated by Customer to receive email notifications from Provider. Customer may provide a Partner email address for this purpose if it so chooses. Customer may change this email address through the Admin Console.

"Provider" means the third party provider of the Product.

"Partner" means the entity Customer is paying to provide access to and use of the Product.

"Service Pages" mean the web pages displaying the Product to End Users.

"Product" means, as applicable, the Google Apps Core Services purchased from Partner.

"SLA" means the Service Level Agreement located here for applicable Google Apps Core Services: http://www.google.com/apps/intl/en/terms/reseller_sla.html. The SLA and such URL link may be updated or modified by Provider from time to time.

"Suspend" means the immediate disabling of access to the Product, or components of the Product, as applicable, to prevent further use of the Product.

"Term" means the term of these Product Passthrough Terms, which will continue for as long as Customer is receiving Product from Provider, unless terminated earlier pursuant to these Product Passthrough Terms, or pursuant to Customer's agreement with Partner.

"Third Party Request" means a request from a third party for records relating to an End User's use of the Product. Third Party Requests can be a lawful search warrant, court order, subpoena, other valid legal order, or written consent from the End User permitting the disclosure.

"TSS" means the technical support Product provided by Provider to the Administrators during the Term pursuant to the TSS Guidelines.

"TSS Guidelines" means Provider's technical support Product guidelines then in effect for the Product. TSS Guidelines are at the following URL: http://www.google.com/a/help/intl/en/admins/tssg.html. The TSS Guidelines and such URL link may be updated or modified by Provider from time to time.

"URL Terms" means the Acceptable Use Policy, the SLA and the TSS Guidelines.

SALESFORCE Service Terms

"AppExchange" means the online directory of on-demand applications that work with the Service, located at http://www.appexchange.com or at any successor websites.

"Service" means the online, Web-based application provided by Salesforce.com (sometimes referred to as "SFDC") via http://www.salesforce.com and/or other designated websites, including associated offline components but excluding AppExchange applications.

"Third-Party Applications" means online, Web-based applications and offline software products that are provided by third parties, interoperate with the Service, and are identified as third-party applications, including but not limited to those listed on the AppExchange.

"User Guide" means the online user guide for the Services, accessible via http://www.salesforce.com, as updated from time to time.

"Users" means Your employees, representatives, consultants, contractors or agents who are authorized to use the Service and have been supplied user identifications and passwords by You (or by Salesforce.com or Your reseller at Your request).

"You" and **"Your"** means the customer entity which has contracted to purchase subscriptions to use the Service subject to the conditions of these SFDC Service Terms.

"**Your Data**" means all electronic data or information submitted by You to the Service.

1. **Use of Service**

(a) User subscriptions cannot be shared or used by more than one User (but may be reassigned from time to time to new Users who are replacing former Users who have terminated employment with You or otherwise changed job status or function and no longer require use of the Service).

(b) You (i) are responsible for all activities occurring under Your User accounts; (ii) are responsible for the content of all Your Data; (iii) shall use commercially reasonable efforts to prevent unauthorized access to, or use of, the Service, and shall notify Your reseller or Salesforce.com promptly of any such unauthorized use You become aware of; and (iv) shall comply with all applicable federal laws and regulations in using the Service.

(c) You shall use the Service solely for Your internal business purposes and shall not: (i) license, sublicense, sell, resell, rent, lease, transfer, assign, distribute, time share or otherwise commercially exploit or make the Service available to any third party, other than to Users or as otherwise contemplated by these SFDC Service Terms; (ii) send spam or otherwise duplicative or unsolicited messages in violation of applicable laws; (iii) send or store infringing, obscene, threatening, libelous, or otherwise unlawful or tortious material, including material that is harmful to children or violates third party privacy rights; (iv) send or store viruses, worms, time bombs, Trojan horses and other harmful or malicious code, files, scripts, agents or programs; (v) interfere with or disrupt the integrity or performance of the Service or the data contained therein; or (vi) attempt to gain unauthorized access to the Service or its related systems or networks.

(d) You shall not (i) modify, copy or create derivative works based on the Service; (ii) frame or mirror any content forming part of the Service, other than on Your own intranets or otherwise for its own internal business purposes; (iii) reverse engineer the Service; or (iv) access the Service in order to (A) build a competitive product or service, or (B) copy any ideas, features, functions or graphics of the Service.

2. **Service Provision.** Salesforce.com will use commercially reasonable efforts to make the Services available 24 hours a day, 7 days a week, except for: (a) planned downtime (of which SFDC shall give at least 8 hours notice via the Services and which SFDC shall schedule to the extent practicable during the weekend hours from 6:00 p.m. Pacific time Friday to 3:00 a.m. Pacific time Monday), or (b) any unavailability caused by circumstances beyond SFDC's reasonable control, including without limitation, acts of God, acts of government, flood, fire, earthquakes, civil unrest, acts of terror, strikes or other labor problems (other than those involving SFDC employees), or Internet service provider failures or delays.

Salesforce.com will provide the Services only in accordance with applicable laws and government regulations.

3. **Acquisition of Third-Party Products and Services.** Any acquisition by You of third-party products or services, including but not limited to Third-Party Applications and implementation, customization and other consulting services, and any exchange of data between You and any third-party provider, is solely between You and the applicable third-party provider. Salesforce.com does not warrant or support third-party products or services, whether or not they are designated by Salesforce.com as "certified" or otherwise. No purchase of third-party products or services is required to use the Service as provided by Salesforce.com.

4. **Third-Party Applications and Your Data.** If You install or enable Third-Party Applications for use with the Service, You acknowledge that Salesforce.com may allow providers of those Third-Party Applications to access You Data as required for the interoperation of such Third Party Applications with the Service. Salesforce.com shall not be responsible for any disclosure, modification or deletion of You Data resulting from any such access by Third-Party Application providers. The Service shall allow You to restrict such access by restricting Users from installing or enabling such Third-Party Applications for use with the Service.

5. **Google Services.** Service features that interoperate with Google services depend on the continuing availability of the Google application programming interface ("API") and program for use with the Service. If Google Inc. ceases to make the Google API or program available on reasonable terms for the Service, Salesforce.com may cease providing such Service features without entitling You to any refund, credit, or other compensation.

6. **Proprietary Rights.** Subject to the limited rights expressly granted hereunder, Salesforce.com reserves all rights, title and interest in and to the Service, including all related intellectual property rights. The Service is deemed Salesforce.com confidential information, and You will not use it or disclose it to any third party except as permitted in these SFDC Service Terms and except as required by law, upon notice to Salesforce.com.

7. **Your Data.** As between Salesforce.com and You, You exclusively own all rights, title and interest in and to all of Your Data. Your Data is deemed your confidential information, and Salesforce.com shall not access Your User accounts, including Your Data, except to respond to service or technical problems or at your request.

8. **Compelled Disclosure.** If either You or Salesforce.com is compelled by law to disclose confidential information of the other party, it shall provide the other party with prior notice of such

compelled disclosure (to the extent legally permitted) and reasonable assistance, at the other party's cost, if the other party wishes to contest the disclosure.

9. **Suggestions** You agree that Salesforce.com shall have a royalty-free, worldwide, transferable, sublicenseable, irrevocable, perpetual license to use or incorporate into the Service any suggestions, enhancement requests, recommendations or other feedback provided by You or Your Users relating to the operation of the Service.

10. **Fees.** Contracted for fees for use of the Service represent a firm commitment and the number of User subscriptions contracted for cannot be reduced in the middle of a subscription term.

11. **Termination.** The master contract governs your termination (FAR 52.212-4(l) & (m)) and cancellation rights with the contractor, and the contract requires continued performance while any disputes are resolved (FAR 52.233-1(i)).

12. **Data Storage.** You are entitled to a cumulative amount of storage per User subscription for no additional charge as set forth in the User Guide for the Service subscription type purchased. You may purchase additional storage if necessary, and you may contact Your reseller for then-current rates listed in master contract price list.

13. **Support.** SFDC will provide You with basic support as described from time to time by SFDC at www.salesforce.com. In the event that You have purchased an upgraded support package, then upgraded support contact information will be provided to You together with your initial account set up information.

14. **No Warranty.** SALESFORCE.COM MAKES NO WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE REGARDING THE SERVICE AND/OR SUPPORT, AND SPECIFICALLY DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW. IN THE EVENT THAT YOUR AGREEMENT WITH YOUR RESELLER PROVIDES ANY WARRANTIES WITH RESPECT TO THE SERVICE AND/OR SUPPORT, SUCH WARRANTIES ARE SOLELY BETWEEN YOU AND YOUR RESELLER. This clause does not disclaim any warranties expressly provided in a contract with the U.S. Government."

15. **No Liability.** IN NO EVENT SHALL SALESFORCE.COM HAVE ANY LIABILITY TO YOU OR ANY USER FOR ANY DAMAGES WHATSOVER, INCLUDING BUT NOT LIMITED TO DIRECT, INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR DAMAGES BASED ON LOST PROFITS, HOWEVER CAUSED AND, WHETHER IN CONTRACT, TORT OR UNDER ANY OTHER THEORY OF LIABILITY, WHETHER OR NOT EITHER YOU OR SALESFORCE.COM HAVE BEEN ADVISED OF THE POSSIBILI TY OF SUCH DAMAGES. This clause shall not impair the

U.S. Government's right to recover for fraud or crimes arising out of or related to this Contract under any federal fraud statute, including the False Claims Act, 31 U.S.C. §§ 3729-3733. Furthermore, this clause shall not impair nor prejudice the U.S. Government's right to EXPRESS remedies provided in the Contract (i.e. clause 552.238-72 – Price Reductions, clause 52.212-4(h) – Patent Indemnification, Liability for Injury or Damage (Section 3 of the Price List), and GSAR 552.215-72 – Price Adjustment – Failure to Provide Accurate Information).

16. **Further Contact.** Salesforce.com may contact you regarding new Salesforce.com service features and offerings.

17. **Third Party Beneficiary.** SFDC shall be a third party beneficiary to the agreement between You and Reseller solely as it relates to these SFDC Service Terms.

SOFTWARE LICENSE AND SUPPORT AGREEMENT
General Terms and Conditions
("GTC")

1. DEFINITIONS.

1.1 "Add-on" means any development using SAP API's that adds new and independent functionality, but does not modify existing SAP functionality.

1.2 "Agreement" means these GTCs, any Order Form referencing these GTCs, and the Use Terms and Schedules referenced by these GTCs and/or such Order Forms. All such components are integral to the agreement, and collectively are referred to herein as the "Agreement".

1.3 "API" means SAP's application programming interfaces, as well as other SAP code that allow other software products to communicate with or call on SAP Software (for example, SAP Enterprise Services, BAPIs, Idocs, RFCs and ABAP or other user exits) provided under this Agreement.

1.4 "Affiliate" mean any legal entity in the Territory in which the Licensee, directly or indirectly, holds more than fifty percent (50%) of the shares or voting rights. Any such legal entity shall be considered an Affiliate for only such time as such equity interest is maintained.

1.5 "Business Partner" means a legal entity that requires access to the Software in connection with Licensee's internal business operations, such as customers, distributors and/or suppliers of Licensee.

1.6 "Confidential Information" means, with respect to SAP, all information which SAP protects against unrestricted disclosure to others, including but not limited to: (a) the Software and Documentation and other SAP Materials, including without limitation the following information regarding the Software: (i) computer software (object and source codes), programming techniques and programming concepts, methods of processing, system designs embodied in the Software; (ii) benchmark results, manuals, program listings, data structures, flow charts, logic diagrams, functional specifications, file formats; and (iii) discoveries, inventions, concepts, designs, flow charts, documentation, product specifications, application program interface specifications, techniques and processes relating to the Software; (b) the research and development or investigations of SAP; (c) product offerings, content partners, product pricing, product availability, technical drawings, algorithms, processes, ideas, techniques, formulas, data, schematics, trade secrets, know-how, improvements, marketing plans, forecasts and strategies; and (d) any information about or concerning any third party (which information was provided to SAP subject to an applicable confidentiality obligation to such third party). With respect to Licensee, "Confidential Information" means all information which Licensee protects against unrestricted disclosure to others and which (i) if in tangible form, Licensee clearly identifies as confidential or proprietary at the time of disclosure; and (ii) if in intangible form (including disclosure made orally or visually), Licensee identifies as confidential at the time of disclosure, summarizes the Confidential Information in writing, and delivers such summary within thirty (30) calendar days of any such disclosure.

1.7 "Documentation" means SAP's documentation which is delivered or made available to Licensee with the Software under this Agreement.

1.8 "Intellectual Property Rights" means patents of any type, design rights, utility models or other similar invention rights, copyrights, mask work rights, trade secret or confidentiality rights, trademarks, trade names and service marks and any other intangible property rights, including applications and registrations for any of the foregoing, in any country, arising under statutory or common law or by contract and whether or not perfected, now existing or hereafter filed, issued, or acquired.

1.9 "Modification" means (i) a change to the delivered source code or metadata; or (ii) any development, other than a change to the delivered source code or metadata, that customizes, enhances, or changes existing functionality of the Software including, but not limited to, the creation of any new application program interfaces, alternative user interfaces or the extension of SAP data structures; or (iii) any other change to the Software (other than an Add-on) utilizing or incorporating any SAP Materials (defined below).

1.10 "Professional Services Schedule" means the terms and conditions governing SAP's delivery of professional services, attached hereto and made a part hereof.

1.11 "SAP Materials" means any software, programs, tools, systems, data, or other materials made available by SAP to Licensee in the course of the performance under this Agreement including, but not limited to, the Software and Documentation, as well as any information, materials or feedback provided by Licensee to SAP relating to the Software and Documentation.

1.12 "SAP Support" means SAP's then-current SAP support offering specified in the applicable Order Forms and made available to Licensee as stated in the applicable SAP Support Schedule found at www.sap.com/company/legal/index.epx as of the effective date of the first Software Order Form issued under these GTCs. Such SAP Support Schedule is incorporated herein by reference. For the avoidance of doubt, such SAP Support Schedule shall apply to all Order Forms issued under these GTCs, unless otherwise agreed by the parties. SAP recommends Licensee prints a copy of the applicable SAP Support Schedule for Licensee's own records.

1.13 "Software" means (i) any and all software products licensed to Licensee under this Agreement as specified in Software Order Forms hereto, all as developed by or for SAP, SAP AG, Business Objects Software Limited and/or any of their affiliated companies and delivered to Licensee hereunder; (ii) any new releases thereof made available through unrestricted shipment pursuant to the respective support agreement and (iii) any complete or partial copies of any of the foregoing.

1.14 "Software Order Form" means the order form for the Software and related SAP Support ordered by Licensee thereunder, including information on Software, SAP Support, fees, and other information necessary for the delivery of such items to Licensee.

The Software Order Form does not include fees for professional services, which shall be billed under separate statements of work in accord with the Professional Services Schedule.

1.15 "Territory" means the world except for those countries prohibited by United States' export laws, and further subject to Section 12.4 of the GTC.

1.16 "Third Party Software" means (i) any and all software products and content licensed to Licensee under this Agreement as specified in Software Order Forms hereto, all as developed by companies other than SAP, SAP AG, Business Objects Software Limited and/or any of their affiliated companies and delivered to Licensee hereunder; (ii) any new releases thereof made available through unrestricted shipment pursuant to the respective SAP Support Schedule and (iii) any complete or partial copies of any of the foregoing.

1.17 "Use" means to activate the processing capabilities of the Software, load, execute, access, employ the Software, or display information resulting from such capabilities.

1.18 "Use Terms" means, with regard to Software specified in a Software Order Form, the SAP Software Use Rights document current at the time of execution of such Software Order Form, copies of which are found at www.sap.com/company/legal/index.epx and made a part hereof. Such SAP Software Use Rights documents are incorporated herein by reference. SAP recommends Licensee prints copies of the applicable SAP Software Use Rights documents for Licensee's own records

2. LICENSE GRANT.

2.1 License.

2.1.1 Subject to Licensee's compliance with all the terms and conditions of this Agreement, SAP grants to Licensee a non-exclusive, perpetual (except for subscription based or term licenses) license to Use the Software, Documentation, and other SAP Materials at specified site(s) within the Territory to run Licensee's and its Affiliates' internal business operations (including customer back-up and passive disaster recovery) and to provide internal training and testing for such internal business operations and as further set forth in the Software Order Form, unless terminated in accordance with Section 5 herein. This license does not permit Licensee (without being limited specifically to such restrictions) to: (i) use the SAP Materials to provide services to third parties (e.g., business process outsourcing, service bureau applications or third party training) other than to Affiliates (subject to Section 2.2); (ii) lease, loan, resell, sublicense or otherwise distribute the SAP Materials, other than distribution to Affiliates (subject to Section 2.2); (iii) make any Use of or perform any acts with respect to the SAP Materials other than as expressly permitted in accordance with the terms of this Agreement; or (iv) use Software components other than those specifically identified in the Software Order Form, even if it is also technically possible for Licensee to access other Software components. Business Partners may Use the Software only through screen access and solely in conjunction with Licensee's Use and may not Use the Software to run any of Business Partners' business operations.

2.1.2 Licensee agrees to install the Software only on information technology devices (e.g. hard disks or central processing units) identified by Licensee pursuant to this Agreement and that has been previously approved by SAP in writing or otherwise officially made known to the public as appropriate for Use or interoperation with the Software (the "Designated Unit"). Licensee must hold the required licenses as stated herein and in the applicable Order Forms, for any individuals that Use the Software, including employees or agents of Affiliates and Business Partners. Use may occur by way of an interface delivered with or as a part of the Software, a Licensee or third-party interface, or another intermediary system.

2.1.3 The terms and conditions of this Agreement relative to "Software" apply to Third Party Software except as otherwise stated in the Software Use Rights Schedule, a Schedule, an Order Form, or an Amendment.

2.2 Affiliate Use. Affiliates' Use of the Software, Documentation and other SAP Materials to run their internal business operations as permitted under Section 2.1.1 is subject to the following: (i) the Affiliate agrees to be bound by the terms herein in the form of Schedule A ("Affiliate Use Agreement") attached hereto; and (ii) a breach of such Affiliate Use Agreement by Affiliate shall be considered a breach by Licensee hereunder. If Licensee has an affiliate or subsidiary with a separate agreement for SAP software licenses and/or support services with SAP AG, any SAP AG affiliate (including SAP) or any other distributor of SAP software, the Software shall not be Used to run such affiliate's or subsidiary's business operations and such affiliate or subsidiary shall not receive any support services under this Agreement even if such separate agreement has expired or is terminated, unless otherwise agreed to in writing by the parties.

2.3 Outsourcing Services. With SAP's prior written consent, Licensee may permit services providers to access the Software solely for the purpose of providing facility, implementation, systems, application management or disaster recovery services to Licensee in connection with the business of Licensee for which the Software is herein licensed provided: (i) Licensee and such services provider execute a written agreement that includes provisions requiring such services provider's compliance with the terms of this Agreement prior to such access, including without limitation non-disclosure of SAP Confidential Information; (ii) Licensee shall hold the required licenses as stated in the Use Terms for all employees of such services provider authorized to access the Software; (iii) such services provider shall be permitted to Use the Software solely to install and configure the Software in accordance with the business of Licensee as set forth herein (or in the case of a disaster recovery vendor, to provide disaster recovery services only); (iv) under no circumstances may such services provider Use the Software to operate or provide processing services to Licensee or any other party, or in connection with such services provider's own business operations; (v) Licensee shall be responsible for any additional Software, migration tools, or third party software needed to effect such transition; and (vi) Licensee expressly agrees to indemnify SAP, its officers, employees, agents and subcontractors from and against all claims, liabilities, losses, damages and costs (including reasonable attorney fees) suffered by SAP arising from a breach by the services provider of the conditions of this Agreement. Upon SAP request, Licensee shall provide written confirmation to SAP that items (i)-(iv) are fulfilled.

3. VERIFICATION. SAP shall be permitted to audit (at least once annually and in accordance with SAP standard procedures, which may include on-site and/or remote audit) the usage of the SAP Materials. Licensee shall cooperate reasonably in the conduct of such audits. In the event an audit reveals that (i) Licensee underpaid license fees and/or SAP Support fees to SAP and/or (ii) that Licensee has Used the Software in excess of the license quantities or levels stated in the Software Order Form, Licensee shall pay such underpaid fees and/or for such excess usage based on SAP List of Prices and Conditions Software and Support governing use in effect at the time of the audit, and shall execute an additional Software Order Form in accordance with the terms of this Agreement

to affect the required licensing of any additional quantities or levels. Reasonable costs of SAP's audit shall be paid by Licensee if the audit results indicate usage in excess of the licensed quantities or levels. SAP reserves all rights at law and equity with respect to both Licensee's underpayment of License fees or SAP Support fees and usage in excess of the license quantities or levels.

4. PRICE, PAYMENT, AND DELIVERY.

4.1 Fees. Licensee shall pay to SAP license fees for the Software and fees for SAP Support on the terms in Software Order Forms hereto. Fees for consulting services will be paid as set forth in the Professional Services Schedule. Any fees not paid when due shall accrue interest at the rate of 18% (eighteen percent) per annum, but not to exceed the maximum amount as allowed by law.

4.2 Taxes. Fees and other charges described in this Agreement do not include federal, state or local sales, foreign withholding, use, property, excise, service, or similar transaction taxes ("Tax(es)") now or hereafter levied, all of which shall be for Licensee's account. Any applicable direct pay permits or valid tax-exempt certificates must be provided to SAP prior to the execution of this Agreement. If SAP is required to pay Taxes, Licensee shall reimburse SAP for such amounts. Licensee hereby agrees to indemnify SAP for any Taxes and related costs, interest and penalties paid or payable by SAP.

4.3 Delivery of the Software and SAP Support. SAP will deliver the Software and SAP Support by making it available for electronic download through the SAP ServiceMarketplace (http://service.sap.com/swdc) to Licensee. Risk of loss passes at the time of such electronic delivery. Licensee agrees not to request any physical delivery of Software or SAP Support and should it occur that any such delivery will be rejected by Licensee. Licensee agrees and understands that the calculation of Taxes may be affected by the delivery method and delivery location of the Software and corresponding SAP Support.

5. TERM.

5.1. Term. This Agreement and the license granted hereunder shall become effective as of the date first set forth in the first Software Order Form issued under these GTCs, and shall continue in effect thereafter unless this Agreement is terminated upon the earliest to occur of the following: (i) thirty days after Licensee gives SAP written notice of Licensee's direction to terminate this Agreement, for any reason, but only after payment of all license and SAP Support fees then due and owing; (ii) thirty days after SAP gives Licensee notice of Licensee's material breach of any provision of the Agreement (other than Licensee's breach of its obligations under Sections 6, 10 or 11, which breach shall result in immediate termination), including more than thirty days delinquency in Licensee's payment of any money due hereunder, unless Licensee has cured such breach during such thirty day period; (iii) immediately if Licensee files for bankruptcy, becomes insolvent, or makes an assignment for the benefit of creditors. For the avoidance of any doubt, termination of the Agreement shall strictly apply to all licenses under the Agreement, its appendices, schedules, addenda and order documents and any partial termination of the Agreement by Licensee shall not be permitted in respect of any part of the Agreement, its appendices, schedules, addenda, order documents.

5.2 End of Term Duties. Upon any termination hereunder, Licensee and its Affiliates shall immediately cease Use of all SAP Materials and Confidential Information. Within thirty (30) days after any termination, Licensee shall irretrievably destroy or upon SAP's request deliver to SAP all copies of the SAP Materials and Confidential Information in every form, except to the extent it is legally required to keep it for a longer period in which case such return or destruction shall occur at the end of such period. Licensee must certify to SAP in writing that it has satisfied its obligations under this Section 5.2. Licensee agrees to certify in writing to SAP that it and each of its Affiliates has performed the foregoing. Sections 3, 4, 5.2, 6, 7.2, 8, 9, 10, 12.4, 12.5, 12.6 and 12.8 shall survive such termination. In the event of any termination hereunder, Licensee shall not be entitled to any refund of any payments made by Licensee. Termination shall not relieve Licensee from its obligation to pay fees that remain unpaid.

6. INTELLECTUAL PROPERTY RIGHTS.

6.1 Reservation of Rights. The SAP Materials, and all Intellectual Property Rights embodied in the foregoing, shall be the sole and exclusive property of SAP, SAP AG (the parent company of SAP) or its or their licensors, subject to any rights expressly granted to Licensee in Section 2 and 6.3 herein. Except for the rights set forth in Section 6.3 herein, Licensee is not permitted to modify or otherwise make derivative works of the Software. Any such unauthorized works developed by Licensee, and any Intellectual Property Rights embodied therein, shall be the sole and exclusive property of SAP or SAP AG.

6.2 Protection of Rights. Licensee shall not copy, translate, disassemble, or decompile, nor create or attempt to create the source code from the object code of the Software in any manner. Reverse engineering of the Software and other SAP Materials is prohibited. Licensee is permitted to back up data in accordance with good information technology practice and for this purpose to create the necessary backup copies of the Software. Backup copies on transportable discs or other data media must be marked as backup copies and bear the same copyright and authorship notice as the original discs or other data media. Licensee must not change or remove SAP's copyright and authorship notices.

6.3 Modifications/Add-ons.

6.3.1 Conditioned on Licensee's compliance with the terms and conditions of this Agreement, Licensee may make Modifications and/or Add-ons to the Software in furtherance of its permitted Use under this Agreement, and shall be permitted to use Modifications and Add-ons with the Software in accordance with the License grant to the Software set forth in Section 2.1.1 herein. Licensee shall comply with SAP's registration procedure prior to making Modifications or Add-ons. All Modifications and all rights associated therewith shall be the exclusive property of SAP and SAP AG. All Add-ons developed by SAP (either independently or jointly with Licensee) and all rights associated therewith shall be the exclusive property of SAP and SAP AG. Licensee agrees to execute those documents reasonably necessary to secure SAP's rights in the foregoing. All Add-ons developed by or on behalf of Licensee without SAP's participation ("Licensee Add-on"), and all rights associated therewith, shall be the exclusive property of Licensee subject to SAP's rights in and to the Software; provided, Licensee shall not commercialize, market, distribute, license, sublicense, transfer, assign or otherwise alienate any such Licensee Add-ons. SAP retains the right to independently develop its own Modifications or Add-ons to the Software, and Licensee agrees not to take any action that would limit SAP's sale, assignment, licensing or use of its own Software or Modifications or Add-ons thereto.

6.3.2 Any Modification developed by or on behalf of Licensee without SAP's participation or Licensee Add-on must not (and subject to other limitations set forth herein): enable the bypassing or circumventing any of the restrictions set forth in this Agreement and/or provide Licensee with access to the Software to which Licensee is not directly licensed; nor permit mass data extraction from

Software to any non-SAP software, including use, modification saving or other processing of data in the non-SAP software; nor unreasonably impair, degrade or reduce the performance or security of the Software; nor render or provide any information concerning SAP software license terms, Software, or any other information related to SAP products.

6.3.3 Licensee covenants, on behalf of itself and its successors and assigns, not to assert against SAP or its affiliated companies, or their resellers, distributors, suppliers, commercial partners and customers, any rights in any Modifications developed by or on behalf of Licensee without SAP participation or Licensee Add-ons , or any other functionality of the SAP Software accessed by such Modification developed by or on behalf of Licensee without SAP participation or Licensee Add-on.

7. PERFORMANCE WARRANTY.

7.1 Warranty. SAP warrants that the Software will substantially conform to the specifications contained in the Documentation for six months following delivery. The warranty shall not apply: (i) if the Software is not used in accordance with the Documentation; or (ii) if the defect is caused by a Modification or Add-on (other than a Modification or Add-on made by SAP and which is provided through SAP Support or under warranty), Licensee or third-party software. SAP does not warrant that the Software will operate uninterrupted or that it will be free from minor defects or errors that do not materially affect such performance, or that the applications contained in the Software are designed to meet all of Licensee's business requirements. Provided Licensee notifies SAP in writing with a specific description of the Software's nonconformance within the warranty period and SAP validates the existence of such nonconformance, SAP will, at its option: a) repair or replace the nonconforming Software, or b) refund the license fees paid for the applicable nonconforming Software in exchange for a return of such nonconforming Software. This is Licensee's sole and exclusive remedy under this warranty.

7.2 Express Disclaimer. SAP AND ITS LICENSORS DISCLAIM ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE EXCEPT TO THE EXTENT THAT ANY WARRANTIES IMPLIED BY LAW CANNOT BE VALIDLY WAIVED.

8. INDEMNIFICATION.

8.1 Infringement and Defense of Licensee. SAP shall defend Licensee against claims brought against Licensee in the Territory by any third party alleging that Licensee's Use of the Software, in accordance with the terms and conditions of this Agreement, constitutes a direct infringement or misappropriation of a patent claim(s), copyright or trade secret rights, and SAP will pay damages finally awarded against Licensee (or the amount of any settlement SAP enters into) with respect to such claims. This obligation of SAP shall not apply if the alleged infringement or misappropriation results from Use of the Software in conjunction with any other software, an apparatus other than a Designated Unit, failure to use an update promptly provided by SAP if such infringement or misappropriation could have been avoided by use of the update, or unlicensed activities. This obligation of SAP also shall not apply if Licensee fails to timely notify SAP in writing of any such claim. SAP is permitted to control fully the defense and any settlement of any such claim as long as such settlement shall not include a financial obligation on Licensee. In the event Licensee declines SAP's proffered defense, or otherwise fails to give full control of the defense to SAP's designated counsel, then Licensee waives SAP's obligations under this Section 8.1. Licensee shall cooperate fully in the defense of such claim and may appear, at its own expense, through counsel reasonably acceptable to SAP. SAP expressly reserves the right to cease such defense of any claim(s) in the event the Software is no longer alleged to infringe or misappropriate, or is held not to infringe or misappropriate, the third party's rights. SAP may settle or mitigate damages arising from any claim or potential claim, by substituting alternative substantially equivalent non-infringing programs and supporting documentation for the Software. Licensee shall not undertake any action in response to any infringement or misappropriation, or alleged infringement or misappropriation of the Software that is prejudicial to SAP's rights.

8.2 THE PROVISIONS OF THIS SECTION 8 STATE THE SOLE, EXCLUSIVE, AND ENTIRE LIABILITY OF SAP AND ITS LICENSORS TO LICENSEE, AND IS LICENSEE'S SOLE REMEDY, WITH RESPECT TO THE INFRINGEMENT OR MISAPPROPRIATION OF THIRD-PARTY INTELLECTUAL PROPERTY RIGHTS.

9. LIMITATIONS OF LIABILITY.

9.1 Not Responsible. SAP and its licensors will not be responsible under this Agreement (i) if the Software is not used in accordance with the Documentation; or (ii) if the defect or liability is caused by Licensee, a Modification or Add-on (other than a Modification or Add-on made by SAP which is provided through SAP Support or under warranty), or third-party software. SAP AND ITS LICENSORS SHALL NOT BE LIABLE FOR ANY CLAIMS OR DAMAGES ARISING FROM INHERENTLY DANGEROUS USE OF THE SOFTWARE AND/OR THIRD-PARTY SOFTWARE LICENSED HEREUNDER.

9.2 Exclusion of Damages; Limitation of Liability. ANYTHING TO THE CONTRARY HEREIN NOTWITHSTANDING, EXCEPT FOR DAMAGES RESULTING FROM UNAUTHORIZED USE OR DISCLOSURE OF CONFIDENTIAL INFORMATION OR DEATH OR PERSONAL INJURY ARISING FROM EITHER PARTY'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, UNDER NO CIRCUMSTANCES AND REGARDLESS OF THE NATURE OF ANY CLAIM SHALL SAP, ITS LICENSORS OR LICENSEE BE LIABLE TO EACH OTHER OR ANY OTHER PERSON OR ENTITY FOR AN AMOUNT OF DAMAGES IN EXCESS OF THE PAID LICENSE FEES FOR THE SOFTWARE DIRECTLY CAUSING THE DAMAGES OR BE LIABLE IN ANY AMOUNT FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR INDIRECT DAMAGES, LOSS OF GOOD WILL OR BUSINESS PROFITS, WORK STOPPAGE, DATA LOSS, COMPUTER FAILURE OR MALFUNCTION, ATTORNEYS' FEES, COURT COSTS, INTEREST OR EXEMPLARY OR PUNITIVE DAMAGES. The provisions of this Agreement allocate the risks between SAP and Licensee. The license fees reflect this allocation of risk and the limitations of liability herein.

10. CONFIDENTIALITY.

10.1. Use of Confidential Information. Confidential Information shall not be reproduced in any form except as required to accomplish the intent of this Agreement. Any reproduction of any Confidential Information of the other shall remain the property of the disclosing party and shall contain any and all confidential or proprietary notices or legends which appear on the original. With respect to the Confidential Information of the other, each party : (a) shall take all Reasonable Steps (defined below) to keep all Confidential Information strictly confidential; and (b) shall not disclose any Confidential Information of the other to any person other than its bona fide individuals whose access is necessary to enable it to exercise its rights hereunder. As used herein "Reasonable Steps" means those steps the receiving party takes to protect its own similar proprietary and confidential information, which shall not be less than a reasonable standard of care. Confidential Information of either party disclosed prior to execution of this Agreement shall be subject to the protections afforded hereunder.

10.2 Exceptions. The above restrictions on the use or disclosure of the Confidential Information shall not apply to any Confidential Information that: (a) is independently developed by the receiving party without reference to the disclosing party's Confidential Information, or is lawfully received free of restriction from a third party having the right to furnish such Confidential Information; (b) has become generally available to the public without breach of this Agreement by the receiving party; (c) at the time of disclosure, was known to the receiving party free of restriction; or (d) the disclosing party agrees in writing is free of such restrictions.

10.3 Confidential Terms and Conditions; Publicity. Licensee shall not disclose the terms and conditions of this Agreement or the pricing contained therein to any third party. Neither party shall use the name of the other party in publicity, advertising, or similar activity, without the prior written consent of the other, except that Licensee agrees that SAP may use Licensee's name in customer listings or, at times mutually agreeable to the parties, as part of SAP's marketing efforts (including without limitation reference calls and stories, press testimonials, site visits, SAPPHIRE participation).

11. ASSIGNMENT. Licensee may not, without SAP's prior written consent, assign, delegate, pledge, or otherwise transfer this Agreement, or any of its rights or obligations under this Agreement, or the SAP Materials or SAP Confidential Information, to any party, whether voluntarily or by operation of law, including by way of sale of assets, merger or consolidation. SAP may assign this Agreement to any of its affiliates.

12. GENERAL PROVISIONS.

12.1 Severability. It is the intent of the parties that in case any one or more of the provisions contained in this Agreement shall be held to be invalid or unenforceable in any respect, such invalidity or unenforceability shall not affect the other provisions of this Agreement, and this Agreement shall be construed as if such invalid or unenforceable provision had never been contained herein.

12.2 No Waiver. If either party should waive any breach of any provision of this Agreement, it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision hereof.

12.3 Counterparts. This Agreement may be signed in two counterparts, each of which shall be deemed an original and which shall together constitute one Agreement.

12.4 Regulatory Matters. The Software, Documentation and SAP Materials are subject to the export control laws of various countries, including without limit the laws of the United States and Germany. Licensee agrees that it will not submit the Software, Documentation or other SAP Materials to any government agency for licensing consideration or other regulatory approval without the prior written consent of SAP, and will not export the Software, Documentation and SAP Materials to countries, persons or entities prohibited by such laws. Licensee shall also be responsible for complying with all applicable governmental regulations of the country where Licensee is registered, and any foreign countries with respect to the use of the Software, Documentation or other SAP Materials by Licensee and/or its Affiliates.

12.5 Governing Law; Limitations Period. This Agreement and any claims arising out of or relating to this Agreement and its subject matter shall be governed by and construed under the laws of Commonwealth of Pennsylvania without reference to its conflicts of law principles. In the event of any conflicts between foreign law, rules, and regulations, and United States law, rules, and regulations, United States law, rules, and regulations shall prevail and govern. The United Nations Convention on Contracts for the International Sale of Goods shall not apply to this Agreement. The Uniform Computer Information Transactions Act as enacted shall not apply. Licensee must initiate a cause of action for any claim(s) arising out of or relating to this Agreement and its subject matter within one (1) year from the date when Licensee knew, or should have known after reasonable investigation, of the facts giving rise to the claim(s).

12.6 Notices. All notices or reports which are required or may be given pursuant to this Agreement shall be in writing and shall be deemed duly given when delivered to the respective executive offices of SAP and Licensee at the addresses first set forth in any Software Order Form. Where in this section 12.6 or elsewhere in this Agreement written form is required, that requirement can be met by facsimile transmission, exchange of letters or other written form.

12.7 Force Majeure. Any delay or nonperformance of any provision of this Agreement (other than for the payment of amounts due hereunder) caused by conditions beyond the reasonable control of the performing party shall not constitute a breach of this Agreement, and the time for performance of such provision, if any, shall be deemed to be extended for a period equal to the duration of the conditions preventing performance.

12.8 Entire Agreement. This Agreement constitutes the complete and exclusive statement of the agreement between SAP and Licensee, and all previous representations, discussions, and writings are merged in, and superseded by this Agreement and the parties disclaim any reliance on any such representations, discussions and writings. This Agreement may be modified only by a writing signed by both parties. This Agreement shall prevail over any additional, conflicting, or inconsistent terms and conditions which may appear on any purchase order or other document furnished by Licensee to SAP. This Agreement shall prevail over any additional, conflicting or inconsistent terms and conditions which may appear in any clickwrap end user agreement included in the Software. Signatures sent by electronic means (facsimile or scanned and sent via e-mail) shall be deemed original signatures. This Agreement does not create any partnership, joint venture or principal and agent relationship.

12.9 Hierarchy. The following order of precedence shall be applied in the event of conflict or inconsistency between provisions of the components of this Agreement: (i) the Software Order Form; (ii) the Schedules; (iii) the Use Terms; and (iv) the GTC.

Schedule B to the GTC
"Professional Services Schedule"

The parties agree that this Schedule is hereby annexed to and made a part of the GTC. In each instance in which provisions of this Schedule contradict or are inconsistent with the provisions of the GTC, the provisions of this Schedule shall prevail and govern.

WHEREAS, Licensee licensed from SAP the right to Use SAP Software pursuant to the Agreement and SAP provides, through its employees, affiliates, and third party contractors ("Consultants"), consulting and professional services ("Services") including support of installation and implementation of the licensed Software in the United States.

1. Services. Upon request by Licensee, SAP will provide a Consultant(s) to perform, at Licensee's direction, consulting and professional services including support of installation and implementation of the applicable SAP Software ("Services"). Any Statement(s) of Work ("SOW") more fully describing the project assumptions, scope, duration and fees for the Services shall reference this Schedule. All Services of the SAP Consultant(s) will be coordinated with the designated Licensee representative. Licensee is responsible for making the necessary internal arrangements for the carrying out of the Services on a non-interference basis.

2. Satisfaction with Performance. If at any time Licensee or SAP is dissatisfied with the material performance of an assigned Consultant or a Licensee project team member, the dissatisfied party shall immediately report such dissatisfaction to the other party in writing and may request a replacement. The other party shall use its reasonable discretion in accomplishing any such change.

3. Compensation of SAP. All Services will be provided by SAP on a time and expense basis at SAP's then current rates, unless otherwise agreed by the parties in a SOW.

4. Taxes. The fees listed in the applicable SOW do not include taxes. If SAP is required to pay sales, use, property, value-added or other taxes based on the Services provided under this Schedule, then such taxes shall be billed to and paid by Licensee. This section shall not apply to taxes based on SAP's income. Licensee also agrees to pay SAP for additional tax amounts if any, created by the taxability of Consultants reimbursed travel and living expenses resulting from long term assignments at Licensee's locations.

5. Work Product. Unless otherwise agreed to in writing by the parties in a SOW, SAP shall have the sole and exclusive right, title and ownership to any and all ideas, concepts, or other intellectual property rights related in any way to the techniques, knowledge or processes of the SAP Services and deliverables, whether or not developed for Licensee.

6. Warranty. SAP warrants that its Services shall be performed consistent with generally accepted industry standards. SAP MAKES NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR ANY OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY, IN CONNECTION WITH THIS SCHEDULE AND THE SERVICES PROVIDED HEREUNDER.

7. Limitation of Liability. WITH RESPECT TO SERVICES, ANYTHING TO THE CONTRARY NOTWITHSTANDING, EXCEPT FOR DAMAGES RESULTING FROM UNAUTHORIZED USE OR DISCLOSURE OF THE PROPRIETARY INFORMATION AND SAP'S RIGHT TO COLLECT UNPAID FEES, UNDER NO CIRCUMSTANCES SHALL SAP, ITS CONSULTANTS OR LICENSEE BE LIABLE TO EACH OTHER OR ANY OTHER PERSON OR ENTITY FOR AN AMOUNT OF DAMAGES IN EXCESS OF THE FEES PAID FOR THE APPLICABLE SERVICES HEREUNDER OR BE LIABLE IN ANY AMOUNT FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR INDIRECT DAMAGES, LOSS OF GOOD WILL OR BUSINESS PROFITS, WORK STOPPAGE, DATA LOSS, COMPUTER FAILURE OR MALFUNCTION, OR EXEMPLARY OR PUNITIVE DAMAGES. The provisions of the Schedule allocate the risks between SAP and Licensee. The License Fees reflect this allocation of risk and the limitations of liability herein.

8. Termination. The terms of this Schedule shall be effective as of the Effective Date of the Agreement and shall remain in effect until terminated by either party upon thirty (30) days prior written notice or otherwise in accordance with a particular SOW. Licensee shall be liable for payment to SAP for all Services provided prior to the effective date of any such termination, including any expenses incurred pursuant to the provision of such Services, in accord with the applicable SOW.

9. General Provisions.
   9.1 SAP may subcontract all or part of the Services to be performed to a qualified third party.
   9.2 With respect to the Services provided by SAP under this Schedule and any SOW hereto, the relationship of SAP and Licensee is that of an independent contractor.
   9.3 This Schedule, including any applicable SOWs, constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements between the parties, whether written or oral, relating to the same subject matter. In the event of any inconsistencies between this Schedule and a SOW, the SOW shall take precedence over the Schedule. Any purchase order or other document issued by Licensee is for administrative convenience only.

10. Survival. Sections 5 and 7 above shall survive any termination of this Schedule.

SUBSCRIPTION SERVICE AGREEMENT

This Subscription Service Agreement (including the Subscription Service Guide, attached hereto) ("***Agreement***") is made between the ServiceNow entity ("***ServiceNow***") and the customer entity ("***Customer***") on the ordering document and becomes effective on the last signature date of the ordering document issued by ServiceNow ("***Effective Date***").

The Subscription Service Guide includes: (1) the Customer Support Policy; (2) the Upgrade Policy; (3) the Data Security Guide; and (4) any other attachment set forth or referenced in the Subscription Service Guide. The Subscription Service Guide is posted on www.servicenow.com/schedules.do and incorporated herein by reference.

Pursuant to a separate transaction between Customer and ServiceNow's authorized reseller ("***Reseller***"), Customer has purchased from Reseller certain services to be delivered by ServiceNow. This Agreement specifies the terms and conditions under which those services will be provided, apart from price, payment and other terms specified in the separate agreement between Customer and Reseller.

1. DEFINITIONS

1.1. "***Confidential Information***" means: (a) ServiceNow Core Technology (which is Confidential Information of ServiceNow); (b) Customer Data and Customer Technology (which are Confidential Information of Customer); (c) any other information of a party that is disclosed in writing or orally and is designated as *Confidential* or *Proprietary* at the time of disclosure (and, in the case of oral disclosures, summarized in writing within thirty (30) days of the initial disclosure and delivered to the receiving party), or that due to the nature of the information the receiving party would clearly understand it to be confidential information of the disclosing party; and (d) the specific terms and conditions of this Agreement, any Use Authorization, any SOW, and any amendment and attachment thereof, between the parties. Confidential Information shall not include any information that: (i) is or becomes generally known to the public through no fault or breach of this Agreement by the receiving party; (ii) was rightfully in the receiving party's possession at the time of disclosure without restriction on use or disclosure; (iii) is independently developed by the receiving party without use of the disclosing party's Confidential Information; or (iv) was or is rightfully obtained by the receiving party from a third party not under a duty of confidentiality and without restriction on use or disclosure.

1.2. "***Customer Data***" means electronic data uploaded by or for Customer and Customer's agents, employees and contractors, and processed in the Subscription Service, excluding the ServiceNow Core Technology.

1.3. "***Customer Technology***" means software, methodologies, templates, business processes, documentation or other material authored, invented or otherwise created or licensed (other than by or from ServiceNow) by Customer using or for use with the Subscription Service, excluding the ServiceNow Core Technology.

1.4. "***Development Tools***" means source code, application programming interfaces (APIs), executable software and tools in human readable format made available by ServiceNow for the implementation, customization, configuration, and use of the Subscription Service, such as scripts, code snippets, sample code, and development tools published by ServiceNow.

1.5. "***Documentation***" means the ServiceNow product documentation relating to the operation and use of the Subscription Service, Software and Development Tools, including technical program or interface documentation, user manuals, operating instructions and release notes, as updated from time to time by ServiceNow.

1.6. "***Product Overview***" means the description of the ordered products and their functionalities attached to a Use Authorization or referenced therein.

1.7. "***Professional Services***" means any services provided by ServiceNow pursuant to an agreed SOW or Service Description.

1.8. "***Service Description***" means the written description for a packaged Professional Service, attached to a Use Authorization or referenced therein.

1.9. "***ServiceNow Core Technology***" means: (a) the Subscription Service; Software; Development Tools, Documentation; and ServiceNow technology and methodologies (including, without limitation, products, software tools, hardware designs, algorithms, templates, software (in source and object forms), architecture, class libraries, objects and documentation) existing as of the Effective Date or otherwise arising outside of work under a Professional Service; (b) updates, upgrades, improvements, configurations, extensions, and derivative works of the foregoing and related technical or end user documentation or manuals; and (c) intellectual property anywhere in the world relating to the foregoing.

1.10. "***Software***" means software provided by ServiceNow to Customer that operates on Customer-provided machines solely to facilitate the use of the Subscription Service.

1.11. "***SOW***" means a statement of work for Professional Services.

1.12. "***Subscription Service***" means the ServiceNow software as a service (SaaS) offering identified in a Use Authorization.

1.13. "***Subscription Term***" means the term of authorized use of the Subscription Service as set forth in the Use Authorization.

1.14. "***Use Authorization***" means a written document provided to Customer specifying the services that Customer has purchased, along with the term and scope of the authorized use thereof.

2. GRANT OF USE RIGHTS

2.1. SUBSCRIPTION SERVICE. Subject to the terms of this Agreement, ServiceNow authorizes Customer to access and use the purchased Subscription Service during the Subscription Term as set forth in an applicable Use Authorization for its internal business purposes in accordance with the Documentation. Customer shall not use or otherwise access the Subscription Service in a manner that exceeds Customer's authorized use as set forth in this Agreement and the applicable Use Authorization.

2.2. SOFTWARE. ServiceNow grants Customer a limited, personal, worldwide, non-sublicensable, non-transferable (except as set forth in Section 10.1 (Assignment)), non-exclusive license during the Subscription Term to install and execute Software on machines operated by or for Customer solely to facilitate Customer's authorized access to and use of the purchased Subscription Service. The Software may include code that is licensed under third party license agreements, including open source made available or provided with the Software. Software is licensed and not sold even if for convenience ServiceNow makes reference to words such as *sale* or *purchase*.

2.3. DEVELOPMENT TOOLS. In support of Customer's authorized internal business use of the Subscription Service during the Subscription Term, ServiceNow grants to Customer a limited, personal, worldwide, non-sublicensable, non-transferable (except as set forth in Section 10.1 (Assignment)), non-exclusive license to download and make a reasonable number of copies of the Development Tools, and to use, copy, modify and create derivative works of the Development Tools, in: (a) using, implementing and integrating the ServiceNow applications with other software and systems; and (b) creating applications on the ServiceNow platform (to the extent Customer has purchased authorized use of the Subscription Service to create applications on the ServiceNow platform). Customer shall not use the Development Tools in a manner that causes it to exceed the limits of its authorized use of the Subscription Service as set forth in this Agreement and the Use Authorization. From time to time, ServiceNow may provide Development Tools subject to the terms and conditions of separate agreements which will be provided to Customer for review and to which Customer will be required to agree prior to use of such Development Tools; provided that ServiceNow shall not require Customer to agree to separate terms and conditions for any Development Tool that is necessary for Customer's use of its ordered Subscription Service in conformance with the Product Overview unless set forth on the Use Authorization.

2.4. RESTRICTIONS. Customer shall not (and shall not permit others to) do the following with respect to the ServiceNow Core Technology: (i) use the Subscription Service with external programs in a manner that intentionally circumvents contractual usage restrictions; (ii) license, sub-license, sell, re-sell, rent, lease, transfer, distribute or time share or otherwise make any of it available for access by third parties except as otherwise expressly provided in a Use Authorization; (iii) access it for the purpose of developing or operating products or services intended to be offered to third parties in competition with the Subscription Service; (iv) disassemble, reverse engineer or decompile it; (v) copy, create derivative works based on or otherwise modify it except as permitted in this Agreement; (vi) remove or modify a copyright or other proprietary rights notice in it; (vii) use it to reproduce, distribute, display, transmit or use material protected by copyright or other intellectual property right (including the rights of publicity or privacy) without first obtaining the permission of the owner; (viii) use it to create, use, send, store or run viruses or other harmful computer code, files, scripts, agents or other programs or otherwise engage in a malicious act or disrupt its security, integrity or operation; or (ix) access or disable any ServiceNow or third party data, software or network (other than Customer's instance of the Subscription Service in accordance with this Agreement). Before Customer exercises any of the foregoing actions that Customer believes it is entitled to, Customer shall provide ServiceNow with thirty (30) days' prior written notice to legalnotices@servicenow.com (or, if applicable law or the relevant court order does not allow for such notice, then the maximum amount of notice allowable), and provide reasonably requested information to allow ServiceNow to assess Customer's claim and, at ServiceNow's sole discretion, provide alternatives that reduce adverse impacts on ServiceNow's intellectual property and other rights.

3. ORDERING

3.1. RESELLER ORDERS. Customer shall order and purchase the Subscription Service and Professional Services directly from Reseller pursuant to a separate agreement specifying price, payment and other commercial terms. ServiceNow is not a party to such separate agreement but will provide the purchased services pursuant to this Agreement. For each order, Reseller or ServiceNow will provide Customer with a Use Authorization for Customer to sign and return to ServiceNow. ServiceNow will have no obligation to provide services unless and until it has received a Use Authorization signed by Customer. Reseller is not authorized to make any changes to this Agreement (including any Use Authorizations issued hereunder) or bind ServiceNow to any additional or different terms or conditions. Additional orders for ServiceNow products or services may be placed either through Reseller or ServiceNow, provided that if Customer places an order directly through ServiceNow, Customer shall sign an addendum to this Agreement setting forth pricing, payment and other commercial terms between Customer and ServiceNow.

3.2. USE VERIFICATION. ServiceNow or Reseller may remotely review Customer's use of the Subscription Service, and upon ServiceNow or Reseller's written request Customer shall provide any reasonable assistance, to verify Customer's compliance with the Agreement. If ServiceNow determines that Customer has exceeded its permitted use of the Subscription Service then ServiceNow will notify Customer and within thirty (30) days thereafter Customer shall either: (i) disable any unpermitted use or (ii) purchase additional subscriptions commensurate with Customer's actual use. If Customer fails to regain compliance within such thirty (30) day period or fails to make payment as provided in its agreement with Reseller, ServiceNow may suspend Customer's use of the Subscription Service or terminate this Agreement for cause in accordance with Section 9 (Term and Termination), in addition to any other rights or remedies ServiceNow may have.

4. INTELLECTUAL PROPERTY

4.1. SERVICENOW OWNERSHIP. As between ServiceNow and Customer, all rights, title, and interest in and to all intellectual property rights in the ServiceNow Core Technology are owned exclusively by ServiceNow notwithstanding any other provision in this Agreement. Except as expressly provided in this Agreement, ServiceNow reserves all rights in the ServiceNow Core Technology and does not grant Customer any rights, express or implied or by estoppel.

4.2. CUSTOMER OWNERSHIP. As between Customer and ServiceNow, Customer shall retain all of its rights, title, and interest in and to its intellectual property rights in Customer Data and Customer Technology. Customer hereby grants to ServiceNow a royalty-free, fully-paid, non-exclusive, non-transferable (except as set

forth in Section 10.1 (Assignment)), sub-licensable, worldwide right to use Customer Data and Customer Technology solely for the purpose of providing the Subscription Service and Professional Services to Customer.

4.3. FEEDBACK. ServiceNow encourages Customer to provide suggestions, proposals, ideas, recommendations or other feedback regarding improvements to ServiceNow's services and related resources. To the extent Customer provides such feedback, Customer grants to ServiceNow a royalty-free, fully paid, sub-licensable, transferable (notwithstanding Section 10.1 (Assignment)), non-exclusive, irrevocable, perpetual, worldwide right and license to make, use, sell, offer for sale, import and otherwise exploit feedback (including by incorporation of such feedback into the ServiceNow Core Technology) without restriction.

4.4. PROFESSIONAL SERVICES. Subject to the provisions of this Section 4.4, ServiceNow shall assign to Customer any Newly Created IP (as defined below) in Deliverables upon payment in full by Customer of all amounts due for the Professional Service under which the Deliverable was created. A "***Deliverable***" is a deliverable that is identified in the applicable SOW or Service Description and that is created by ServiceNow for Customer in the performance of the Professional Services. "***Newly Created IP***" means intellectual property in any inventions or works of authorship that are made by ServiceNow specifically for Customer in the course of performing Professional Services for Customer that is identified as "Newly Created IP" in an SOW, excluding the ServiceNow Core Technology. To the extent (if at all) any ServiceNow Core Technology is incorporated into a Deliverable, ServiceNow grants to Customer a non-exclusive, royalty-free, non-transferable, non-sublicensable worldwide license to use the ServiceNow Core Technology solely to use the Deliverable in connection with the Subscription Service as contemplated under this Agreement during the Subscription Term. Nothing in this Agreement shall be deemed to restrict or limit ServiceNow's right to perform similar Professional Services for any other party or to assign any employees or subcontractors to perform similar Professional Services for any other party or to use any information incidentally retained in the unaided memories of its employees providing Professional Services.

5. WARRANTIES

5.1. LIMITED SUBSCRIPTION SERVICE WARRANTY. ServiceNow warrants that during the Subscription Term Customer's production instances of the Subscription Service shall materially conform to the Product Overview. To submit a warranty claim under this Section, Customer shall (1) reference this Section; and (2) submit a support request to resolve the non-conformity as provided in the Subscription Service Guide. If the non-conformity persists without relief more than thirty (30) days after written notice of a warranty claim provided to ServiceNow under this Section 5.1, then Customer may terminate the affected Subscription Service and submit to Reseller a claim for refund of any prepaid subscription fees covering the remainder of the Subscription Term of the affected Subscription Service after the date of termination. Notwithstanding the foregoing, this warranty shall not apply to any non-conformity due to a modification of or defect in the Subscription Service that is made or caused by any person other than ServiceNow or a person acting at ServiceNow's direction. THIS SECTION 5.1 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

5.2. LIMITED PROFESSIONAL SERVICES WARRANTY. ServiceNow warrants that the Professional Services will be performed in a competent and workmanlike manner in accordance with accepted industry standards and practices and all material requirements set forth in the SOW or Service Description. Customer shall notify ServiceNow in writing of any breach within thirty (30) days after performance of the non-conforming Professional Services. Upon receipt of such notice, ServiceNow, at its option, shall either use commercially reasonable efforts to re-perform the Professional Services in conformance with these warranty requirements or shall terminate the affected Professional Services, in which case Customer may submit to Reseller a claim for a refund of any amounts paid for the nonconforming Professional Services. THIS SECTION 5.2 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

5.3. DISCLAIMER OF WARRANTIES. EXCEPT FOR THE WARRANTIES EXPRESSLY STATED IN THIS AGREEMENT, TO THE MAXIMUM EXTENT ALLOWED BY LAW, SERVICENOW DISCLAIMS ALL WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, ORAL OR WRITTEN, INCLUDING WARRANTIES

ARISING UNDER STATUTE, WARRANTIES OF MERCHANTABILITY, ACCURACY, TITLE, NON-INFRINGEMENT OR FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTIES ARISING FROM USAGE OF TRADE, COURSE OF DEALING OR COURSE OF PERFORMANCE. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, SERVICENOW SPECIFICALLY DOES NOT WARRANT THAT THE SUBSCRIPTION SERVICE, SOFTWARE, PROFESSIONAL SERVICES, DEVELOPMENT TOOLS, DOCUMENTATION OR DELIVERABLES WILL MEET THE REQUIREMENTS OF CUSTOMER OR OTHERS OR THAT THEY WILL BE ACCURATE OR OPERATE WITHOUT INTERRUPTION OR ERROR. CUSTOMER ACKNOWLEDGES THAT IN ENTERING THIS AGREEMENT IT HAS NOT RELIED ON ANY PROMISE, WARRANTY OR REPRESENTATION NOT EXPRESSLY SET FORTH HEREIN.

6. CONFIDENTIAL INFORMATION

6.1. CONFIDENTIALITY OBLIGATIONS. The recipient of Confidential Information shall: (i) at all times protect it from unauthorized disclosure with the same degree of care that it uses to protect its own confidential information, and in no event using less than reasonable care; and (ii) not use it except to the extent necessary to exercise rights or fulfill obligations under this Agreement. Each party shall limit the disclosure of the other party's Confidential Information to those of its employees and contractors with a need to access such Confidential Information for a party's exercise of its rights and obligations under this Agreement, provided that all such employees and contractors are subject to binding disclosure and use restrictions at least as protective as those set forth herein. Each party's obligations set forth in this Section 6 shall remain in effect during the term and three (3) years after termination of this Agreement. The receiving party shall, at the disclosing party's request or upon termination of this Agreement, return all originals, copies, reproductions and summaries of Confidential Information and other tangible materials and devices provided to the receiving party as Confidential Information, or at the disclosing party's option, certify destruction of the same. Provisions for the return of Customer Data are set forth in Section 9.3 (Return of Customer Data).

6.2. REQUIRED DISCLOSURES. A party may disclose the disclosing party's Confidential Information to a court or governmental body pursuant to a valid court order, law, subpoena or regulation, provided that the receiving party: (a) promptly notifies the disclosing party of such requirement as far in advance as possible to the extent advanced notice is lawful; and (b) provides reasonable assistance to the disclosing party in any lawful efforts by the disclosing party to resist or limit the disclosure of such Confidential Information.

6.3. EQUITABLE REMEDIES. The parties agree that the receiving party's disclosure of Confidential Information except as provided herein may result in irreparable injury for which a remedy in money damages may be inadequate. The parties further agree that in the event of such disclosure or threatened disclosure, the disclosing party may be entitled to seek an injunction to prevent the breach or threatened breach without the necessity of proving irreparable injury or the inadequacy of money damages, in addition to remedies otherwise available to the disclosing party at law or in equity.

7. INDEMNIFICATION

7.1. SERVICENOW OBLIGATION. Subject to the exclusions set forth below, ServiceNow shall: (i) defend Customer, its officers, directors and employees against any third party suit, claim, action or demand (each a *"**Claim**"*) to the extent alleging: (A) that the Subscription Service used in accordance with this Agreement infringes any third party patent, copyright or trademark, or misappropriates any third party trade secret; or (B) that ServiceNow's personnel when onsite at Customer's premises caused death, bodily harm or damage to tangible personal property due to their negligence or willful misconduct; and (ii) pay any court-ordered award of damages or settlement amount to the extent arising from any such Claims. If any portion of the Subscription Service becomes the subject of a Claim under Section 7.1(i)(A), ServiceNow may: (a) contest the Claim; (b) obtain permission from the claimant for Customer's continued use of the Subscription Service; (c) replace or modify the Subscription Service to avoid infringement, if such replacement or modification has substantially the same capabilities as the Subscription Service; or, if the foregoing (a), (b), and (c) are not available on commercially reasonable terms in ServiceNow's judgment, then (d) terminate Customer's use of the affected Subscription Service upon sixty (60) days' written notice, whereupon Customer may submit to Reseller a claim for a refund of any prepaid subscription fees covering the remaining portion of the applicable Subscription Term for the affected

Subscription Service after the date of termination. Notwithstanding the above, ServiceNow shall have no obligation or liability for any Claim under Section 7.1(i)(A) arising in whole or in part from: (1) any use of the Subscription Service which exceeds the authorized use permitted under this Agreement or not in accordance with the Documentation; (2) Customer Data or Customer Technology; (3) use of the Subscription Service by Customer in violation of applicable law; (4) use of the affected Subscription Service after termination in accordance with clause (d) of this Section 7.1; (5) modifications to the Subscription Service made to Customer's specifications or otherwise made by any person other than ServiceNow or a person acting at ServiceNow's direction if the Claim would have been avoided by use of the unmodified Subscription Service; or (6) use of the Subscription Service in combination with any hardware, software, application or service that was not provided by ServiceNow, if the Claim would have been avoided by the non-combined or independent use of the Subscription Service.

7.2. CUSTOMER OBLIGATION. Customer shall: (i) defend ServiceNow, its officers, directors and employees against any Claim alleging that: (A) Customer Data, (B) Customer Technology or (C) a modification to the Subscription Service made to Customer's specifications or otherwise made by or on behalf of Customer by any person other than ServiceNow or a person acting at ServiceNow's direction (but only if the Claim would have been avoided by use of the unmodified Subscription Service), infringes any patent, copyright or trademark, misappropriates any third party trade secret, or violates any third party privacy rights; and (ii) pay any court-ordered award of damages or settlement amount to the extent arising from such Claim.

7.3. PROCESS. All of the foregoing indemnity obligations of ServiceNow and Customer are conditioned on the indemnified party notifying the indemnifying party promptly in writing of any actual or threatened Claim, the indemnified party giving the indemnifying party sole control of the defense thereof and any related settlement negotiations, and the indemnified party cooperating and, at the indemnifying party's request and expense, assisting in such defense. SECTION 7 STATES EACH PARTY'S ENTIRE LIABILITY AND THE OTHER PARTY'S EXCLUSIVE REMEDY FOR THIRD PARTY CLAIMS AND ACTIONS.

8. LIMITATIONS OF LIABILITY

8.1. LIMITATIONS OF LIABILITY. SERVICENOW SHALL HAVE NO LIABILITY FOR ANY REFUND THAT, IN ACCORDANCE WITH THE TERMS OF THIS AGREEMENT, IS TO BE PAID BY RESELLER. TO THE EXTENT PERMITTED BY LAW, THE TOTAL, CUMULATIVE LIABILITY OF EACH PARTY ARISING OUT OF OR RELATED TO THIS AGREEMENT OR THE PRODUCTS OR SERVICES PROVIDED HEREUNDER WHETHER BASED ON CONTRACT, TORT (INCLUDING NEGLIGENCE) OR ANY OTHER LEGAL OR EQUITABLE THEORY, SHALL BE LIMITED TO THE AMOUNTS PAID BY CUSTOMER FOR THE PRODUCTS OR SERVICES GIVING RISE TO THE CLAIM DURING THE TWELVE (12) MONTH PERIOD PRECEDING THE FIRST EVENT GIVING RISE TO LIABILITY. THE EXISTENCE OF MORE THAN ONE CLAIM SHALL NOT ENLARGE THIS LIMIT. THE FOREGOING LIMITATION OF LIABILITY SHALL NOT APPLY TO:
(1) CUSTOMER'S OBLIGATION TO PAY FOR PRODUCTS, SERVICES OR TAXES; (2) A PARTY'S OBLIGATIONS IN SECTION 7 (INDEMNIFICATION); AND (3) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS.

8.2. EXCLUSION OF DAMAGES. TO THE EXTENT PERMITTED BY LAW, NEITHER SERVICENOW NOR CUSTOMER SHALL BE LIABLE TO THE OTHER OR ANY THIRD PARTY FOR LOST PROFITS (WHETHER DIRECT OR INDIRECT) OR LOSS OF USE OR DATA, COVER, SUBSTITUTE GOODS OR SERVICES, OR FOR INCIDENTAL, CONSEQUENTIAL, PUNITIVE, SPECIAL OR EXEMPLARY DAMAGES (INCLUDING DAMAGE TO BUSINESS, REPUTATION OR GOODWILL), OR INDIRECT DAMAGES OF ANY TYPE HOWEVER CAUSED, WHETHER BY BREACH OF WARRANTY, BREACH OF CONTRACT, IN TORT (INCLUDING NEGLIGENCE) OR ANY OTHER LEGAL OR EQUITABLE CAUSE OF ACTION EVEN IF SUCH PARTY HAS BEEN ADVISED OF SUCH DAMAGES IN ADVANCE OR IF SUCH DAMAGES WERE FORESEEABLE. THE FOREGOING EXCLUSIONS SHALL NOT APPLY TO: (1) PAYMENTS TO A THIRD PARTY ARISING FROM A PARTY'S OBLIGATIONS UNDER SECTION 7 (INDEMNIFICATION); AND (2) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS.

8.3. GROSS NEGLIGENCE; WILFUL MISCONDUCT. AS PROVIDED BY LAW, NOTHING HEREIN SHALL BE INTENDED TO LIMIT A PARTY'S LIABILITY IN AN ACTION IN TORT (SEPARATE AND DISTINCT

FROM A CAUSE OF ACTION FOR BREACH OF THIS AGREEMENT) FOR THE PARTY'S GROSS NEGLIGENCE OR WILFUL MISCONDUCT.

9. TERM AND TERMINATION

9.1. TERM AND TERMINATION. This Agreement continues until terminated under the terms of this Agreement. Each party may terminate this Agreement in its entirety either: (i) upon thirty (30) days' prior written notice to the other party, if at the time of notice there are no Use Authorizations in effect; or (ii) upon written notice if the other party becomes the subject of a petition in bankruptcy or any proceeding related to its insolvency, receivership or liquidation, in any jurisdiction, that is not dismissed within sixty (60) days of its commencement or an assignment for the benefit of creditors. Either party may terminate a Subscription Service or Professional Services upon written notice if the other party materially breaches this Agreement or the applicable Use Authorization for the affected service and does not cure the breach within thirty (30) days after receiving written notice thereof from the non-breaching party. Professional Services are separately ordered from the Subscription Service, and are not required for the Subscription Service. A breach by a party of its obligations with respect to Professional Services shall not by itself constitute a breach by that party of its obligations with respect to the Subscription Service even if the services are enumerated in the same Use Authorization.

9.2. EFFECT OF TERMINATION OF SUBSCRIPTION SERVICE. Upon termination of the Subscription Service for any reason, Customer shall stop using, and ServiceNow shall stop providing, the Subscription Service and all rights granted to Customer in this Agreement shall terminate. If the Subscription Service is terminated by Customer due to ServiceNow's breach, then Customer may submit to Reseller a claim for refund of all prepaid fees for the remaining portion of the Subscription Term for the terminated Subscription Service after the effective date of termination. Within thirty (30) days following the effective date of a termination by ServiceNow for Customer's breach, Customer shall pay all remaining amounts for the Subscription Term applicable to the Subscription Service covering the remainder of the Subscription Term regardless of the due dates specified in Reseller's order form to Customer.

9.3. TRANSITION SERVICES. At least thirty (30) days prior to either the expiration of the Subscription Term (where Customer elects not to renew) or in connection with the termination by Customer of the Subscription Service in accordance with Section 9.1, provided that Customer signs an addendum to this Agreement setting forth payment and other commercial terms between Customer and ServiceNow, Customer may purchase the following services from ServiceNow: (i) one (1) extension of the Subscription Service for up to six (6) months ("***Transition Subscription Service***"); and (ii) Professional Services. Prior to the commencement of any Transition Subscription Service or Professional Services, Customer shall sign an ordering document and shall pay in advance for the Transition Subscription Service and any Professional Services plus verifiable travel and expenses.

9.4. RETURN OF CUSTOMER DATA. ServiceNow shall provide Customer Data in its standard database export format, excluding the ServiceNow Core Technology, to Customer upon Customer's written request and at no additional cost to Customer, provided that ServiceNow receives such request from Customer within forty-five (45) days following the expiration or termination of this Agreement for the Subscription Service (including any Transition Subscription Service term, if applicable).If ServiceNow has not received a request within the foregoing time frame, ServiceNow shall have no obligation to maintain or provide any Customer Data and shall thereafter, unless legally prohibited, have the right to delete all Customer Data in its systems or otherwise in its possession or under its control and delete Customer's instances of the Subscription Service.

9.5. SURVIVAL. Sections 2.4 (Restrictions), 4.1 (ServiceNow Ownership), 4.2 (Customer Ownership), 4.3 (Feedback) and 6 (Confidential Information) through 10 (General Provisions) of this Agreement, together with any other provision required for their construction or enforcement, shall survive termination of this Agreement for any reason.

10. GENERAL PROVISIONS

10.1. ASSIGNMENT. Neither party may assign its rights or obligations under this Agreement, whether by operation of law or otherwise, without the prior written consent of the other party. Notwithstanding the

foregoing, either party may, upon notice and without the other party's consent: (i) in connection with a merger, reorganization or sale of all or substantially all of the assets or equity of such party, assign this Agreement in its entirety to such party's successor; and (ii) assign this Agreement in its entirety to any Affiliate. "***Affiliates***" shall mean any person or entity directly or indirectly Controlling, Controlled by or under common Control with a party to the Agreement, where "***Control***" means the legal power to direct or cause the direction of the general management of the company, partnership or other legal entity. Any attempted or purported assignment in violation of this Section 10.1 will be null and void. Subject to the foregoing, this Agreement shall bind and inure to the benefit of the parties, their respective successors and permitted assigns.

10.2. COMPLIANCE WITH LAWS. ServiceNow shall comply with any statutes and regulations that apply to its provision of the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables, under the Agreement, including but not limited to those applicable to the privacy and security of personal information, including trans-border data transfers and data breach notification requirements as required of ServiceNow by law. Customer shall comply with all laws that apply to its use of the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables, under the Agreement, including but not limited to those applicable to collection and processing of Customer Data in ServiceNow systems through the Subscription Service. Customer agrees to provide any required disclosures to and obtain any required consents for the transfer of Customer Data to ServiceNow. ServiceNow shall not be responsible for compliance with any laws applicable to Customer and its industry that are not generally applicable to information technology service providers.

10.3. EXPORT COMPLIANCE. Each party shall comply with United States and foreign export control laws and regulations. Customer acknowledges that the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables are subject to the U.S. Export Administration Regulations (the "***EAR***") and that Customer shall comply with the EAR. Without limiting the foregoing, Customer represents and warrants that: (i) Customer is not located in, and shall not use the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables from, any country that is subject to U.S. export restrictions (currently including, but not necessarily limited to, Cuba, Iran, North Korea, Sudan and Syria); (ii) Customer shall not use the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables in the design, development or production of nuclear, chemical or biological weapons, or rocket systems, space launch vehicles, sounding rockets or unmanned air vehicle systems; and (iii) Customer is not prohibited from participating in U.S. export transactions by any federal agency of the U.S. government. In addition, Customer is responsible for complying with any local laws which may impact Customer's right to import, export or use the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables.

10.4. US GOVERNMENT RIGHTS. All ServiceNow software (including Software) is commercial computer software and all services are commercial items. "***Commercial computer software***" has the meaning set forth in Federal Acquisition Regulation ("***FAR***") 2.101 for civilian agency purchases and the Department of Defense ("***DOD***") FAR Supplement ("***DFARS***") 252.227-7014(a)(1) for defense agency purchases. If the software is licensed or the services are acquired by or on behalf of a civilian agency, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of this Agreement as required in FAR 12.212 (Computer Software) and FAR 12.211 (Technical Data) and their successors. If the software is licensed or the services are acquired by or on behalf of any agency within the DOD, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of this Agreement as specified in DFARS 227.7202-3 and its successors. Only if this is a DOD prime contract or DOD subcontract, the Government acquires additional rights in technical data as set forth in DFARS 252.227-7015. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFARS or other clause or provision that addresses Government rights in computer software or technical data.

10.5. NOTICE. Except as otherwise provided herein, all notices shall be in writing and deemed given upon: (i) personal delivery; (ii) when received by the addressee if sent by a recognized overnight courier (receipt requested); (iii) the second business day after mailing; or (iv) the first business day after sending by email with

confirmation of receipt, except that email shall not be sufficient for notices regarding a Claim. Notices shall be sent to the parties as set forth on the signature page of this Agreement or as subsequently updated in writing.

10.6. FORCE MAJEURE. No party shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement (excluding Customer's failure to pay amounts owed when due), when and to the extent such failure or delay is caused by or results from acts beyond the affected party's reasonable control, including without limitation: strikes, lock-outs or other industrial disputes (whether involving its own workforce or a third party's), trespassing, sabotage, theft or other criminal acts, failure of energy sources or transport network, acts of God, export bans, sanctions and other government actions, war, terrorism, riot, civil commotion, interference by civil or military authorities, national or international calamity, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, explosions, collapse of building structures, fires, floods, storms, earthquakes, epidemics or similar events, natural disasters or extreme adverse weather conditions (each a "***Force Majeure Event***"). The party suffering a Force Majeure Event shall use reasonable efforts to mitigate against the effects of such Force Majeure Event.

10.7. HIGH RISK ACTIVITIES. Customer shall use the ServiceNow Core Technology within the intended business purposes described in the Documentation, and not for any purpose that requires fail-safe performance including, but not limited to, stock trading, financial transaction processing, management of hazardous facilities or applications for which failure could result in death, personal injury, or severe physical or environmental damage ("***High Risk Activity***"). ServiceNow, its licensors and suppliers expressly disclaim all warranties of fitness for any such use and Customer shall release and hold ServiceNow, its licensors and suppliers harmless from liability arising out of the use of the ServiceNow Core Technology for High Risk Activity.

10.8. USE OF AGGREGATE DATA. Customer agrees that ServiceNow may collect, use and disclose quantitative data derived from the use of the Subscription Service for industry analysis, benchmarking, analytics, marketing, and other business purposes. All data collected, used, and disclosed will be in aggregate form only and will not identify Customer or its users.

10.9. ENTIRETY. This Agreement, together with the Use Authorizations, Product Overviews, SOWs, Service Descriptions, and the Subscription Service Guide (including the Customer Support Policy, the Upgrade Policy and the Data Security Guide), is the final and entire agreement between the parties regarding the products and services provided hereunder and supersedes all prior or contemporaneous oral or written agreements, representations, understandings, undertakings and negotiations with respect to the subject matter hereof. The terms of this Agreement apply to the exclusion of any other terms that Customer seeks to impose or incorporate, or which are implied by trade, custom, practice or course of dealing. Customer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of ServiceNow that is not set out in this Agreement. Customer's orders are not contingent on, and Customer has not relied on, the delivery of any future functionality regardless of any verbal or written communication about ServiceNow's future plans. This Agreement may be executed in counterparts, each of which shall be deemed to be an original.

10.10. WAIVER AND AMENDMENT. A waiver of any right is only effective if it is in writing and only against the party who signed such writing and for the circumstances given. Any modification of this Agreement must be in writing and signed by authorized representatives of both parties.

10.11. RELATIONSHIP OF THE PARTIES. The parties are independent contractors. Nothing in this Agreement shall be construed to create a partnership, joint venture or agency relationship. Neither party shall have any right or authority to assume or create any obligation of any kind expressed or implied in the name of or on behalf of the other party.

10.12. GOVERNING LAW; JURISDICTION AND VENUE. This Agreement shall be governed by the laws of the state of California, without regard to its conflict of laws principles. The parties hereby irrevocably consent to the exclusive jurisdiction of, and venue in, any federal or state court of competent jurisdiction located in Santa Clara County, California, for the purposes of adjudicating any dispute arising out of this Agreement. Each party hereto expressly consents to service of process by registered mail. To the extent permitted by law, choice of law rules and the United Nations Convention on Contracts for the International Sale of Goods shall not apply.

Notwithstanding the foregoing, either party may at any time seek and obtain appropriate legal or equitable relief in any court of competent jurisdiction for claims regarding such party's intellectual property rights.

10.13. CONSTRUCTION. Products and services shall be provided in the English language unless agreed otherwise. The parties confirm that they have requested that this Agreement and all related documents be drafted in English at the express wishes of the parties. Les parties confirment avoir expressément exigé que le présent contrat et les documents de ServiceNow qui y sont attachés soient rédigés en anglais. Section headings are for convenience only and are not to be used in interpreting this Agreement.

SUBSCRIPTION SERVICE GUIDE

Capitalized terms not defined herein shall have the meaning set forth in the ordering agreement or the use agreement between Customer and ServiceNow.

1. SUPPORT

During the Subscription Term, ServiceNow or its authorized reseller, as applicable, shall provide support for the Subscription Service as set forth in the ***Customer Support Policy*** attached hereto, and incorporated herein by reference.

2. UPGRADES

ServiceNow determines whether and when to develop, release and apply any Upgrade (as defined in the ***Upgrade Policy*** attached hereto, and incorporated herein by reference) to Customer's instances of the Subscription Service.

3. DATA SECURITY

ServiceNow shall implement and maintain security procedures and practices appropriate to information technology service providers to protect Customer Data from unauthorized access, destruction, use, modification, or disclosure, as described in the ***Data Security Guide*** attached hereto, and incorporated herein by reference.

4. INSURANCE

ServiceNow agrees to maintain in effect during the Subscription Term, at ServiceNow's expense, the following minimum insurance coverage:

(i) (a) Workers' Compensation Insurance, in accordance with applicable statutory, federal, and other legal requirements and (b) Employers' Liability Insurance covering ServiceNow's employees in an amount of not less than $1,000,000 for bodily injury by accident, $1,000,000 policy limit for bodily injury by disease, and $1,000,000 each employee for bodily injury by disease;

(ii) Commercial General Liability Insurance written on an occurrence form and including coverage for bodily injury, property damage, products and completed operations, personal injury, advertising injury arising out of the services and/or products provided by ServiceNow under this Agreement with minimum limits of $1,000,000 per occurrence/$2,000,000 aggregate;

(iii) Commercial Automobile Liability Insurance providing coverage for hired and non-owned automobiles used in connection with this Agreement in an amount of not less than $1,000,000 per accident combined single limit for bodily injury and property damage;

(iv) Combined Technology Errors' & Omission Policy with a $5,000,000 per Claim limit, including: (a) Professional Liability Insurance providing coverage for the services and software in this Agreement. Such coverage to be maintained for at least two (2) years after the termination of this Agreement; and (b) Privacy, Security, and Media Liability Insurance providing liability coverage for unauthorized access or disclosure, security breaches or system attacks, as well as infringements of copyright and trademark that might result from this Agreement; and

(v) Excess Liability over Employers' Liability, Commercial General Liability and Commercial Automobile Liability with a $5,000,000 aggregate limit.

For the purpose of this Section, a "***Claim***" means a written demand for money or a civil proceeding which is commenced by service of a complaint or similar pleading.

5. AVAILABILITY SERVICE LEVEL

5.1. DEFINITIONS

(a) "***Available***" means that the Subscription Service can be accessed by authorized users.

(b) "***Excused Downtime***" means: (i) Maintenance Time of up to two (2) hours per month; and (ii) any time the Subscription Service is not Available due to circumstances beyond ServiceNow's control, including without limitation modifications of the Subscription Service by any person other than ServiceNow or a person acting at ServiceNow's direction, a Force Majeure Event, general Internet outages, failure of Customer's infrastructure or connectivity (including without limitation, direct connectivity and virtual private network (VPN) connectivity to the Subscription Service), computer and telecommunications failures and delays, and network intrusions or denial-of-service or other criminal attacks.

(c) "***Maintenance Time***" means the time the Subscription Service is not Available due to service maintenance.

(d) "***Availability SLA***" means the percentage of total time during which Customer's production instances of the Subscription Service are Available during a calendar month, excluding Excused Downtime.

5.2. AVAILABLITY

If Customer's production instances of the Subscription Service fall below the Availability SLA of ninety-nine and eight-tenths percent (99.8%) during a calendar month, Customer's exclusive remedy for failure of the Subscription Service to meet the Availability SLAs is either: (1) to request that the affected Subscription Term be extended for the number of minutes the Subscription Service was not Available in the month in accordance with the Availability SLA; or (2) to request that ServiceNow issue a service credit to Customer for the dollar value of the number of minutes the Subscription Service was not Available in the month in accordance with the Availability SLA (determined at the deemed per minute rate ServiceNow charges to Customer for Customer's use of the affected Subscription Service), which Customer may request ServiceNow apply to the next invoice for subscription fees.

5.3. REQUESTS

Customer must request all service credits or extensions in writing to ServiceNow within thirty (30) days of the end of the month in which the Availability SLA was not met, identifying the support requests relating to the period Customer's production instances of the Subscription Service was not Available. The total amount of service credits for any month may not exceed the subscription fee for the affected Subscription Service for the month, and has no cash value. ServiceNow may delay issuing service credits until such amounts reach one thousand U.S. dollars ($1,000) or equivalent currency specified in the applicable Order Form.

CUSTOMER SUPPORT POLICY

This Customer Support Policy governs the support that ServiceNow or its authorized reseller, as applicable, will provide for the Subscription Service. This Policy may be updated from time to time.

Scope

The purpose of Customer Support is to resolve defects that cause the Subscription Service to perform not in substantial conformance to the Product Overview. A resolution to a defect may consist of a fix, workaround or other relief ServiceNow deems reasonable.

Customer Support does not include:

- implementation services
- configuration services
- integration services
- customization services or other custom software development
- training
- assistance with administrative functions

Customer Support is not required to provide resolutions for immaterial defects or defects due to modifications of the Subscription Service made by any person other than ServiceNow or a person acting at ServiceNow's direction.

Business Hours

Customer Support is available 24 hours a day, 7 days a week, including all holidays.

Access Contacts

Customer may contact ServiceNow using one of the following means:

- Support Portal at https://hi.service-now.com/. Customer may get login access to this self-service portal by contacting its ServiceNow administrator.
- Phone using one of the numbers at http://servicenow.com/support/contact-support.html.

Customer shall contact ServiceNow's authorized reseller in accordance with its agreement with the reseller.

Incident Priority

Incident priority for a defect is determined using the guidelines below:

Priority	Definition
P1	Any defect that causes an instance to be unavailable.
P2	Any defect that causes a critical function to fail.
P3	Any defect that significantly impedes work or progress.
P4	Any defect that does not significantly impede work or progress.

Response Times and Level of Effort

Customer submits an incident with ServiceNow via phone or web and with ServiceNow's authorized reseller as directed by reseller. All support requests are tracked online and can be viewed by Customer's authorized contacts. Response times do not vary if the incident was filed via phone or web.

ServiceNow or its authorized reseller, as applicable, will use reasonable efforts to meet the target response times and target level of effort stated in the table below. Support from the reseller may be limited to business hours only.

Priority	Target Response Times	Target Level of Effort
P1	30 minutes	Continuously, 24 hours per day, 7 days per week
P2	2 hours	Continuously, but not necessarily 24 hours per day, 7 days per week
P3	1 business day	As appropriate during normal business hours
P4	N/A	Varies

Customer Responsibilities

Customer's obligations are as follows:

(a) Customer agrees to receive from ServiceNow or its authorized reseller, as applicable, communications via email, phone or through the Support Portal regarding the Subscription Service.

(b) Customer shall appoint no more than five (5) contacts ("***Customer Authorized Contacts***") to engage Customer Support for questions and/or technical issues.

(i) Only Customer Authorized Contacts are authorized to contact Customer Support.

(ii) Customer must ensure the information for these contacts is current in the Support Portal at https://hi.service-now.com/.

(iii) Customer Authorized Contacts are trained on the use and administration of the Subscription Service.

(c) Customer shall cooperate to enable ServiceNow to deliver the Subscription Service and support for the service.

(d) Customer is solely responsible for the use of the Subscription Service by its authorized users.

UPGRADE POLICY

1. UPGRADES

"***Upgrades***" are ServiceNow's releases of the Subscription Service for repairs, enhancements or new features applied by ServiceNow to Customer's instances of the Subscription Service at no additional fee during the Subscription Term. ServiceNow has the discretion to provide new functionality as an Upgrade or as different software or service for a separate fee. ServiceNow determines whether and when to develop, release and apply any Upgrade to Customer's instances of the Subscription Service.

2. NOTICE; MAINTENANCE DOWNTIME

ServiceNow shall use reasonable efforts to give Customer thirty (30) days prior notice of any Upgrade to the Subscription Service. ServiceNow shall use reasonable efforts to give Customer ten (10) days prior notice of any Upgrade to the cloud infrastructure network, hardware, or software used by ServiceNow to operate and deliver the Subscription Service if ServiceNow in its reasonable judgment believes that the infrastructure Upgrade will impact Customer's use of its production instances of the Subscription Service. ServiceNow will use commercially reasonable efforts to limit the period of time during which the Subscription Service is unavailable due to the application of Upgrades to no more than two (2) hours per month. Notwithstanding the foregoing, ServiceNow may provide Customer with a shorter or no notice period of an Upgrade if necessary, in the reasonable judgment of ServiceNow, to maintain the availability, security or performance of the Subscription Service or the ability of ServiceNow to efficiently provide the Subscription Service.

3. NOMENCLATURE

A pending Upgrade may be a "Feature Release", "Patch" or "Hotfix." A "***Feature Release***" is an Upgrade that includes new features or enhancements. A "***Patch***" or a "***Hotfix***" is an Upgrade to a Feature Release that maintains the functionality of the Feature Release and does not include new functionality. ServiceNow refers to each Feature Release and its associated Patches and Hotfixes as a "***Release Family***." For example, ServiceNow's Feature Release "Aspen" established the "Aspen" Release Family, and ServiceNow's subsequent Feature Release "Berlin" established the "Berlin" Release Family.

4. PINNING REQUESTS

Customer may submit a support request for "no Upgrade" not fewer than five (5) business days' prior to a pending Upgrade of the Subscription Service. Subject to the terms and conditions of this Upgrade Policy, Customer's "no Upgrade" request shall be granted, and the Upgrade shall not be applied to Customer's instances of the Subscription Service.

5. SUPPORTED AND NON-SUPPORTED RELEASE FAMILIES

ServiceNow offers support for the then current Release Family and the prior two (2) Release Families ("***Supported Release Families***") as set forth in the Customer Support Policy. A Customer using a Supported Release Family may be required to Upgrade to a Patch or Hotfix within the Supported Release Family to correct a defect. At its discretion, ServiceNow may offer limited support for additional Release Families ("***Non-Supported Release Families***"). Without limiting ServiceNow's discretion to determine the availability of support for Non-Supported Release Families, a Customer using a Non-Supported Release Family may be required to Upgrade to a Supported Release Family to correct a defect. Any service level agreements, recovery time objectives or recovery point objectives are not applicable to Non-Supported Release Families. Details of ServiceNow support are further set forth in the Customer Support Policy.

Customer acknowledges that the current Release Family is the most current feature, availability, performance and security version of the Subscription Service. Within a Supported Release Family, the most recent Patch contains the most current feature, availability, performance and security version of the Subscription Service for that Release Family. A Customer that has submitted a "no Upgrade" request may experience defects, for which Customer hereby agrees that ServiceNow is not responsible, including without limitation those that affect the features, availability, performance and security of the Subscription Service, that are fixed in the most

current version of the Subscription Service.

6. REQUIRED UPGRADES

If Customer has requested "no Upgrade" it may nevertheless be required to Upgrade if in the reasonable judgment of ServiceNow the Upgrade is necessary to maintain the availability, security or performance of the Subscription Service or the ability of ServiceNow to efficiently provide the Subscription Service, as follows:

6.1. SUPPORTED RELEASE FAMILY. If Customer is using a Supported Release Family, it may be required to Upgrade to a Patch or Hotfix within the Supported Release Family.

6.2. NON-SUPPORTED RELEASE FAMILY. If Customer is using a Non-Supported Release Family, it may be required to Upgrade to a Supported Release Family.

7. EXCEPTIONS

Notwithstanding the other provisions of this Upgrade Policy, Customer may not submit a support request for "no Upgrade" for any Upgrade to, or that is essential for, the infrastructure network, hardware, or software used by ServiceNow to operate and deliver the Subscription Service.

DATA SECURITY GUIDE

Security Statement of an Enterprise IT Cloud Company

The ServiceNow cloud is built for the enterprise customer with every aspect aimed towards meeting the customer's demand for reliability, availability and security. ServiceNow's comprehensive approach to address this demand is enabled by the following: (a) ServiceNow's robust cloud infrastructure runs on its own applications and utilizes industry best-of-breed technology to automate mission critical functionalities in the cloud service with around-the-clock and around-the-world delivery; (b) ServiceNow achieves flexibility and control in its ability to deliver a stable user experience to the customer by having a logical single tenant architecture; (c) ServiceNow's application development which has a paramount focus on quality, security, and the user experience is closely connected to the operations of delivering those applications in a reliable and secure cloud environment; (d) ServiceNow invests in a comprehensive compliance strategy that allows its customers to attain their own compliance to applicable laws by obtaining attestations and certifications and running its subscription service from paired data centers situated close to where its customers are located; and (e) ServiceNow's homogeneous environment where all applications are on a single platform offers ServiceNow a competitive advantage in being able to concentrate its efforts to make the customer's user experience the best possible.

This Data Security Guide describes the measures ServiceNow takes to protect Customer Data when it resides in the ServiceNow cloud. This Data Security Guide forms a part of any legal agreement into which this Data Security Guide is explicitly incorporated by reference (the "***Agreement***") and is subject to the terms and conditions of the Agreement. Capitalized terms that are not otherwise defined herein shall have the meaning given to them in the Agreement.

1. SECURITY PROGRAM

While providing the Subscription Service, ServiceNow shall maintain a written information security program of policies, procedures and controls ("***Security Program***") governing the processing, storage, transmission and security of Customer Data. The Security Program includes industry standard practices designed to protect Customer Data from unauthorized access, acquisition, use, disclosure, or destruction. ServiceNow may periodically review and update the Security Program to address new and evolving security technologies, changes to industry standard practices, and changing security threats, provided that any such update does not materially reduce the commitments, protections or overall level of service provided to Customer as described herein.

2. CERTIFICATIONS AND ATTESTATIONS

2.1. Certifications and Attestations. ServiceNow shall establish and maintain sufficient controls to meet the objectives stated in ISO 27001 and SSAE 16 / SOC 1 and SOC 2 Type 2 (or equivalent standards) (collectively, the "***Standards***") for the information security management system supporting the Subscription Service. At least once per calendar year, ServiceNow shall perform an assessment against such Standards ("***Assessment***"). Upon Customer's written request, which shall be no more than once per calendar year, ServiceNow shall provide a summary of the Assessment(s) to Customer. Assessments shall be Confidential Information of ServiceNow.

2.2. Safe Harbor. ServiceNow shall maintain self-certified compliance under the U.S.-EU and U.S.-Swiss Safe Harbor Frameworks developed by the U.S. Department of Commerce regarding the collection, use and retention of Personal Data (defined in Section 6 below) from European Union member countries and Switzerland.

3. PHYSICAL, TECHNICAL AND ADMINISTRATIVE SECURITY MEASURES

The Security Program shall include the following physical, technical and administrative measures designed to protect Customer Data from unauthorized access, acquisition, use, disclosure, or destruction:

3.1. Physical Security Measures

(a) Data Center Facilities: (i) Physical access restrictions and monitoring that may include a combination of any of the following: multi-zone security, man-traps, appropriate perimeter deterrents (for example,

fencing, berms, guarded gates), on-site guards, biometric controls, CCTV, and secure cages; and (ii) fire detection and fire suppression systems both localized and throughout the data center floor.

(b) Systems, Machines and Devices: (i) Physical protection mechanisms; and (ii) entry controls to limit physical access.

(c) Media: (i) Industry standard destruction of sensitive materials before disposition of media; (ii) secure safe for storing damaged hard disks prior to physical destruction; and (iii) physical destruction of all decommissioned hard disks storing Customer Data.

3.2. Technical Security Measures

(a) Access Administration. Access to the Subscription Service by ServiceNow employees and contractors is protected by authentication and authorization mechanisms. User authentication is required to gain access to production and sub-production systems. Access privileges are based on job requirements and are revoked upon termination of employment or consulting relationship. Production infrastructure includes appropriate user account and password controls (for example, the required use of virtual private network connections, complex passwords with expiration dates, and a two-factored authenticated connection) and is accessible for administration.

(b) Logging and Monitoring. The production infrastructure log activities are centrally collected and are secured in an effort to prevent tampering and are monitored for anomalies by a trained security team.

(c) Firewall System. An industry-standard firewall is installed and managed to protect ServiceNow systems by residing on the network to inspect all ingress connections routed to the ServiceNow environment.

(d) Vulnerability Management. ServiceNow conducts periodic independent security risk evaluations to identify critical information assets, assess threats to such assets, determine potential vulnerabilities, and provide for remediation. When software vulnerabilities are revealed and addressed by a vendor patch, ServiceNow will obtain the patch from the applicable vendor and apply it within an appropriate timeframe in accordance with ServiceNow's then current vulnerability management and security patch management standard operating procedure and only after such patch is tested and determined to be safe for installation in all production systems.

(e) Antivirus. ServiceNow updates anti-virus, anti-malware, and anti-spyware software on regular intervals and centrally logs events for effectiveness of such software.

(f) Change Control. ServiceNow ensures that changes to platform, applications and production infrastructure are evaluated to minimize risk and are implemented following ServiceNow's standard operating procedure.

3.3. Administrative Security Measures

(a) Data Center Inspections. ServiceNow performs routine reviews at each data center to ensure that it continues to maintain the security controls necessary to comply with the Security Program.

(b) Personnel Security. ServiceNow performs background and drug screening on all employees and all contractors who have access to Customer Data in accordance with ServiceNow's then current applicable standard operating procedure and subject to applicable law.

(c) Security Awareness and Training. ServiceNow maintains a security awareness program that includes appropriate training of ServiceNow personnel on the Security Program. Training is conducted at time of hire and periodically throughout employment at ServiceNow.

(d) Vendor Risk Management. ServiceNow maintains a vendor risk management program that assesses all vendors that access, store, process or transmit Customer Data for appropriate security controls and business disciplines.

4. DATA PROTECTION AND SERVICE CONTINUITY

4.1. Data Centers; Data Backup. ServiceNow shall host Customer's instances in primary and secondary SSAE 16 Type II or ISO 27001 certified (or equivalent) data centers in the geographic regions specified on the Order Form for the Subscription Term. Each data center includes full redundancy (N+1) and fault tolerant infrastructure for electrical, cooling and network systems. The deployed servers are enterprise scale servers with redundant power to ensure maximum uptime and service availability. The production database servers are replicated in near real time to a mirrored data center in a different geographic region. Each customer instance is supported by a network configuration with multiple connections to the Internet. ServiceNow backs up all Customer Data in accordance with ServiceNow's standard operating procedure.

4.2. Personnel. In the event of an emergency that renders the customer support telephone system unavailable, all calls are routed to an answering service that will transfer to a ServiceNow telephone support representative, geographically located to ensure business continuity for support operations.

5. INCIDENT MANAGEMENT AND BREACH NOTIFICATION

5.1. Incident Monitoring and Management. ServiceNow shall monitor, analyze and respond to security incidents in a timely manner in accordance with ServiceNow's standard operating procedure. Depending on the nature of the incident, ServiceNow security group will escalate and engage response teams necessary to address an incident.

5.2. Breach Notification. Unless notification is delayed by the actions or demands of a law enforcement agency, ServiceNow shall report to Customer the unauthorized acquisition, access, use, disclosure or destruction of Customer Data (a "Breach") promptly following determination by ServiceNow that a Breach occurred. The initial report shall be made to Customer security contact(s) designated in ServiceNow's customer support portal. ServiceNow shall take reasonable measures to promptly mitigate the cause of the Breach and shall take reasonable corrective measures to prevent future Breaches. As information is collected or otherwise becomes available to ServiceNow and unless prohibited by law, ServiceNow shall provide information regarding the nature and consequences of the Breach that are reasonably requested to allow Customer to notify affected individuals, government agencies and/or credit bureaus. Customer is solely responsible for determining whether to notify impacted Data Subjects (defined in 6.1 below) and for providing such notice, and for determining if regulatory bodies or enforcement commissions applicable to Customer or Customer Data need to be notified of a Breach.

5.3. Customer Cooperation. Customer agrees to cooperate with ServiceNow in maintaining accurate contact information in the customer support portal and by providing any information that is reasonably requested to resolve any security incident, identify its root cause(s) and prevent a recurrence.

6. DATA PROCESSING GUIDELINES; COMPLIANCE WITH LAWS

6.1. Customer as Data Controller. Customer acknowledges that in relation to Personal Data supplied and/or processed under the Agreement it acts as Controller and it warrants that it will duly observe all of its obligations under all applicable laws and regulations of the European Union, the European Economic Area and their member states regarding the processing of Personal Data (collectively referred to as "Data Protection Laws") including, without limitation, obtaining and maintaining all necessary notifications and obtaining and maintaining all necessary Data Subject Consents. Customer shall (i) have sole responsibility for the accuracy, quality, integrity, legality and reliability of Personal Data and of the means by which it acquired Personal Data, (ii) ensure that data processing instructions given to ServiceNow comply with applicable Data Protection Laws, and (iii) comply with all applicable Data Protection Laws in collecting, compiling, storing, accessing and using Personal Data in connection with the Subscription Service. For the purposes of this Data Security Guide, "Personal Data", "Controller", "Data Subject" and "Data Subject Consent" shall have the meaning given to these terms in Directive 95/46/EC. For clarity, "process" or "processing" means any operation or set of operations performed upon Customer Data.

6.2. ServiceNow as Data Processor. ServiceNow shall process or otherwise use Personal Data (including possible onward transfers) on behalf of Customer solely for the purpose of providing the services

described in the Agreement and only in accordance with Customer's lawful instructions (limited to those instructions which ServiceNow can reasonably carry out in the provision of the Subscription Service), the terms of the Agreement, and this Data Security Guide. ServiceNow shall ensure that those employees to whom it grants access to such Personal Data are directed to keep such Personal Data confidential and are informed of any additional data protection obligations applicable to such Personal Data. ServiceNow shall, to the extent legally permitted, promptly notify Customer with respect to any request or communication ServiceNow receives from any regulatory authority in relation to any data processing activities ServiceNow conducts on behalf of Customer. In addition, ServiceNow will cooperate and assist Customer, at Customer's cost, in relation to any such request and to any response to any such communication. ServiceNow will pass on to the Customer any requests of a Data Subject to access, delete, correct, or block Personal Data processed under the Agreement. If ServiceNow is compelled by law to disclose Customer's information as part of a civil proceeding to which Customer is a party, and Customer is not contesting the disclosure, Customer will reimburse ServiceNow for its reasonable cost of compiling and providing secure access to that information.

6.3. Subcontractors. ServiceNow may engage subcontractors for processing Customer Data under the Agreement, provided ServiceNow shall ensure compliance by such subcontractor(s) with the requirements of this Section 6 by entering into written agreements with such subcontractors which provide that the subcontractor will apply the Safe Harbor principles to the processing of Personal Data. ServiceNow's use of any subcontractor will not relieve, waive or diminish any obligation ServiceNow has under the Agreement or this Data Security Guide.

7. PENETRATION TESTS

7.1. By a Third Party. ServiceNow contracts with third party vendors to perform an annual penetration test on the ServiceNow platform to identify risks and remediation that help increase security.

7.2. By Customer. No more than once per calendar year Customer may request to perform, at its own expense, an application penetration test of its instances of the Subscription Service. Customer shall notify ServiceNow in advance of any test by submitting a request using ServiceNow's online support portal and completing a penetration testing agreement. ServiceNow and Customer must agree upon a mutually acceptable time for the test; and Customer shall not perform a penetration test without ServiceNow's express written authorization. The test must be of reasonable duration, and must not interfere with ServiceNow's day-to-day operations. Promptly upon completion of the penetration test, Customer shall provide ServiceNow with the test results including any detected vulnerability. Upon such notice, ServiceNow shall, consistent with industry standard practices, use all commercially reasonable efforts to promptly make any necessary changes to improve the security of the Subscription Service. Customer shall treat the test results as Confidential Information of ServiceNow.

8. SHARING THE SECURITY RESPONSIBILITY

8.1. Product Capabilities. The Subscription Service has the capabilities to: (i) authenticate users before access; (ii) encrypt passwords; (iii) allow users to manage passwords; and (iv) prevent access by users with an inactive account. Customer manages each user's access to and use of the Subscription Service by assigning to each user a credential and user type that controls the level of access to the Subscription Service.

8.2. Customer Responsibilities. ServiceNow provides the cloud environment that permits Customer to use and process Customer Data in the Subscription Service. The architecture in the Subscription Service includes, without limitation, column level encryption functionality and the access control list engine. Customer shall be responsible for using the column level encryption functionality and access control list engine for protecting all Customer Data containing sensitive data, including without limitation, credit card numbers, social security numbers, financial and health information, and sensitive personal data. Customer is solely responsible for the results of its decision not to encrypt such sensitive data. ServiceNow protects all Customer Data in the ServiceNow cloud infrastructure equally in accordance with this Data Security Guide, regardless of the classification of the type of Customer Data. Customer shall be responsible for protecting the confidentiality of each user's login and password and shall manage each user's access to the Subscription Service.

8.3. Customer Cooperation. Customer shall promptly apply any application upgrade that ServiceNow determines is necessary to maintain the security, performance or availability of the Subscription Service.

8.4. Limitations. Notwithstanding anything to the contrary in the Agreement or this Data Security Guide, ServiceNow's obligations extend only to those systems, networks, network devices, facilities and components over which ServiceNow exercises control. This Data Security Guide does not apply to: (i) information shared with ServiceNow that is not data stored in its systems using the Subscription Service; (ii) data in Customer's virtual private network (VPN) or a third party network; or (iii) any data processed by Customer or its users in violation of the Agreement or this Data Security Guide.

ServiceNow Product Overview

Effective Date: May 2, 2016

ServiceNow Applications	
Activity Designer	Enables a user to construct reusable activities that suit an organization's business needs. Requires Orchestration Core.
Activity Packs	A collection of related workflow activities that allow Orchestration Core to connect to, and automate work with, external systems. Some Activity Packs require Orchestration Core and others require Cloud Management.
Agile Development	Provides capabilities to manage the software development process in projects including enhancement requests, defect prioritization, definition of release content, and tasks.
Asset Management	Provides capabilities to track and manage the physical, contractual, and financial aspects of assets.
Audit Management	Provides a centralized process for Internal Audit teams to automate the complete audit lifecycle by providing the capability to plan, scope and execute integrated, risk-based audit plans.
Change Management	Allows repeatable methods and procedures to be used for introducing change into the IT infrastructure by providing capabilities for creating, assessing, approving, and executing changes.
Client Software Distribution	Allows administrators to distribute software from the service catalog using third party management systems. Requires Orchestration Core.
Cloud Management	Provides the capability to automate the provisioning and management lifecycle of public and private virtual servers. Requires Orchestration Core.
Configuration Automation	Provides the capability to manage the configuration settings of a physical or virtual server. Requires Orchestration Core.
Cost Management	Provides capabilities to track one-time and recurring costs of configuration items used by IT and allocate those costs to business units using allocation rules.
Cost Transparency	Provides insight for executives seeking to align spending to business goals. Users can classify general ledger records, define reporting structures and allocation rules, and view summary reports.
Customer Service Management	Includes the following key features: Omni–channel customer engagement across portal, chat, email, and phone (native telephony integration requires Notify); a robust customer data model for accounts, partners, and contacts; case management with advanced skills-based routing, real-time service level agreement (SLA), service contracts and service entitlements; pre-packaged service analytics using both real-time data as well as snapshots for trend analysis (trend analytics requires Performance Analytics use rights); and voice of customer feedback through online surveys and customer satisfaction reporting.

ServiceNow and the ServiceNow logo are trademarks of ServiceNow, Inc. All other brand and product names are trademarks or registered trademarks of their respective holders.

Demand Management	Consolidates IT requests through a service catalog and routes them in a workflow to stakeholders who gather additional information to prioritize investment decisions.
Discovery	Locates physical and virtual devices connected to an enterprise network. When Discovery locates a device, it explores its configuration, status, software, and relationships to other connected devices, and updates the Configuration Management Data Base (CMDB).
Edge Encryption	Resides on Customer-owned servers and encrypts and decrypts eligible data stored in their instance. Customer controls and manages the encryption keys for the eligible data in their instance.
Enterprise Service Portal - HR	In support of HR service delivery, provides employee self-service via an HR service catalog and provides HR the capability to assign tasks to employees. Uses prebuilt layouts, controls, and content. Requires HR Service Management.
Event Management	Aggregates events from monitoring tools used by Customer in its infrastructure, de-duplicates and correlates inputs from such events to CMDB, and provides the ability to filter and prioritize events to create incidents for remediation.
Facilities Service Management	Provides capabilities to manage the service delivery of a facilities department by offering a self-service catalog and assignment of requests based on fulfillment rules.
Field Service Management	Provides capabilities to create work order records for the repair and service of equipment. Requires Asset Management.
Financial Planning	Assists executives and budget owners in the automation of budget and forecast planning, helping to increase efficiency and simplify the planning process.
Finance Service Management	Enables the finance department to define its services and fulfill requests through workflow capabilities and knowledge management, and provides visibility into resource utilization and service delivery performance through dashboards.
HR Service Management	Provides capabilities to manage HR service delivery using case management to document the interactions between the employee and HR supported by the knowledge base.
Incident Management	Facilitates the process of restoring normal IT operations by providing capabilities to record, classify, distribute, and manage incidents through to resolution. Includes Performance Analytics limited to 15 key performance indicators (KPIs), one dashboard and 90 days of data captured by Incident Management.
Legal Service Management	Enables the legal department to define its services and fulfill requests through workflow capabilities and knowledge management, and provides visibility into resource utilization and service delivery performance through dashboards.
Marketing Service	Enables the marketing department to define its services and fulfill requests

Management	through workflow capabilities and knowledge management, and provides visibility into resource utilization and service delivery performance through dashboards.
Notify	Provides the capability to initiate notification from Customer's instance of the subscription service to a supported third-party platform for SMS, voice and other communications protocols. Customer is required to separately purchase any third-party service required to work with Notify.
Orchestration Core	Enables orchestration of activities outside Customer's instance of the subscription service. Allows Customer to automate discrete tasks or processes using graphical workflows that interact with external systems or services.
Password Reset	Provides the capability to reset User's passwords that are stored and pre-authenticated in a credential store outside Customer's instance of the subscription service, such as Active Directory and other supported credential stores. Requires Orchestration Core.
Performance Analytics	Provides advanced analytics and time series analysis for KPIs.
Platform Runtime	Allows customer to deploy applications developed on the ServiceNow Platform into production.
Policy and Compliance Management	Provides a centralized process for creating and managing policies, standards, and internal control procedures that are cross-mapped to external regulations and best practices. Additionally, the application provides structured workflows for the identification, assessment, and continuous monitoring of control activities.
Problem Management	Facilitates the process of identifying the root causes of errors in the IT infrastructure by providing capabilities to record, escalate, and manage problems through to resolution.
Project Portfolio Management	Provides capabilities to plan, organize, and manage projects and project portfolios including associated tasks and resources.
Release Management	Facilitates the planning, design, build, configuration, testing, and release of hardware and software into the IT infrastructure.
Request Management	Provides capabilities to approve and fulfill requests for goods and services defined and presented in the service catalog.
Resource Management	Provides a view of projects and the availability, allocation, and capacity of assigned resources.
Risk Management	Provides an executive view into risk to allow risk managers to quickly identify at-risk assets, perform assessments, and continuously monitor risk exposure.
Security Incident Response	Enables SOC/SIRT teams to enact response plans to address security-related activities, events or incidents. Enables response team collaboration, investigation of network and non-network related activities (i.e. intellectual property theft, criminal activities, etc.) and includes the capability for automated request assignment and remediation across IT and security teams.

ServiceNow and the ServiceNow logo are trademarks of ServiceNow, Inc. All other brand and product names are trademarks or registered trademarks of their respective holders.

Service Mapping	Discovers business services of the organization and builds a comprehensive map of all devices, applications, and configuration profiles used in these business services.
Test Management	Provides a user acceptance testing framework to help project teams and business users align on project deliverables, and provides visibility into the status of the project testing when used in conjunction with Project Portfolio Management and Agile Development. Project Portfolio Management and Agile Development are separately authorized.
Threat Intelligence	Provides the ability to support multiple threat intelligence feeds to enhance the context of a security incident by enabling analysts to see potential threats and related systems in an integrated view. Threat Intelligence also allows Customers to add their own custom feeds and to place confidence scores or weighting on each feed to accelerate the identification of legitimate security issues.
Vendor Performance Management	Enables Customer to manage, evaluate and compare vendors based on predefined criteria.
Vulnerability Response	Integrates with the National Vulnerability Database (NVD) and third-party solutions to generate a set of actionable reports of vulnerable assets in the Customer environment. Incident response tasks, change requests or problem tickets can easily be opened from vulnerabilities to allow security teams to perform further investigation or to allow IT to perform remediation.
ServiceNow Platform Services	
Business Service Maps	Graphically displays the configuration items related to a business service, and indicates the status of those configuration items.
Chat	Provides real-time communication capability via instant messaging between Users.
Coaching Loops	Provides the capability to monitor and provide feedback on a specific behavior of an individual or group.
Configuration Management (CMDB)	Provides capabilities to identify, record, and report on IT configuration items and their relationships.
Connect	Provides the capability to connect people, processes and information into a unique and centralized collaboration workspace to cut down on resolution times. Features include real-time chat, document delivery, active lists to see who is working and the ability to interact straight from the activity stream.
Content Management System	Provides the ability to create custom interfaces.
Form Designer	Allows creation of forms and tables with visual controls.

Google Maps	ServiceNow may make Google Maps available for use with the subscription service. If Customer uses Google Maps, Customer agrees to the following terms: (i) Customer shall limit its use to 60,000 map views on an annual basis and additional use shall be purchased from Google subject to Google's terms and conditions, to which ServiceNow is not a party; (ii) Customer agrees, and shall cause its end users to agree, to Google's Maps Terms (http://maps.google.com/help/terms_maps.html or a successor URL as provided by Google), the Legal Notices (http://www.maps.google.com/help/legalnotices_maps.html or a successor URL as provided by Google), and the Acceptable Use Policy (http://www.google.com/enterprise/earthmaps/legal/us/maps_AUP.html or a successor URL as provided by Google); and (iii) Customer agrees that Google may use Customer data in accordance with its privacy policy and that Google may provide its maps services to Customer. Google Maps may not be available to Customer due to location availability and may not be available during Customer's entire subscription term. ServiceNow support and warranty do not apply to Google Maps.
Graphical Workflow	Provides the capability to automate multi-step processes within Customer's instance of the subscription service. Each workflow can manage a sequence of activities, such as creating records or running scripts, and the condition-based transitions between them. Customer is required to purchase Orchestration Core to orchestrate activities using the Graphical Workflow that interact outside Customer's instance of the subscription service.
Knowledge Management	Provides role-based tools to create, store, and publish information. Provides mechanisms for version control and approvals of documents in the review process.
Live Feed	Provides a place to post and share content.
Mobile	Provides a customizable ServiceNow interface for mobile devices.
On-Call Scheduling	Enables creation of on-call schedules and escalation rosters.
OpenFrame	An interface technology that enables real-time communication channels such as telephone systems to be integrated into the ServiceNow Platform. OpenFrame consists of UI elements as well as a set of APIs that support exchange of events and data between ServiceNow and the communications system.
Reporting	Provides the capability to create and share reports and dashboards.
REST API	Provides the ability to integrate external systems through REST APIs using standard respond codes, header information, pagination support and streaming data on requests.
Service Catalog	Displays a listing of the goods and services that Customer provides within the enterprise to its employees and contractors.
Service Creator	Provides capabilities for building no-code service catalog items.

ServiceNow and the ServiceNow logo are trademarks of ServiceNow, Inc. All other brand and product names are trademarks or registered trademarks of their respective holders.

Service Level Management	Establishes and monitors status of service contracts and SLAs between the organization and its customers or third-party service providers.
Service Portal Designer	Provides the capability to build portals with a consumer-like experience using both ServiceNow out-of-the-box widgets and templates as well as Customer's own widgets and styles, while leveraging only HTML and CSS.
Skills Management	Assigns configured competencies to groups or users.
Studio	Integrated Development Environment (IDE) for professional and low-code (i.e., IT administration) application developers.
Survey Management	Allows for polling and collection of data, including configuration for specific events and/or conditions.
Time Cards	Records time worked on tasks either manually or automatically.
Visual Task Boards	Enables a Kanban-style workspace for either individual or team-based management of tasks.
Visualizations	Displays interactive 2-D and 3-D visual representations for any logical data relationships within an instance.

GENERAL TERMS AND CONDITIONS

These General Terms and Conditions and any referenced documents form the agreement (the "***Agreement***") under which an Order Form is executed.

1. PROVISION OF SERVICES

ServiceNow will make the following purchased services available to Customer, subject to the terms and conditions of the Agreement and each ordering document signed by Customer and ServiceNow (each, an "***Order Form***") and the product overview attached thereto or referenced therein ("***Product Overview***"), including without limitation:

(a) use of the ServiceNow applications which are made available by ServiceNow as a software as a service (SaaS) ("***Subscription Service***"); and

(b) professional services and training services ("***Professional Services***").

An Order Form for Professional Services shall specify ServiceNow packaged professional services (each offering, a "***Packaged Service***"), as described in one or more service descriptions (if not attached to the Order Form, then as set forth on www.servicenow.com/be_schedules.do) ("***Service Description***") or other Professional Services described in one or more written statements of work ("***SOW***") signed by ServiceNow and Customer.

2. ORDERING

2.1 ORDERS AND PAYMENT. Upon execution by Customer and ServiceNow, each Order Form is non-cancellable and non-refundable except as provided in the Agreement. Prices stated in each Order Form are final. Except as expressly set forth in the applicable Order Form, Subscription Service fees are invoiced annually in advance. Each Subscription Term (as defined in Section 3.1) as set forth in the Order Form is a continuous and non-divisible commitment for the full duration of the Subscription Term regardless of the invoice schedule. Except as expressly set forth in the applicable Order Form or SOW or Service Description, Professional Services fees are invoiced on a time and materials basis monthly in arrears. Customer shall pay each invoice in full within thirty (30) days after the date of invoice. Customer may issue a purchase order consistent with the terms of the Order Form, but a purchase order is not required. If Customer issues a purchase order, then it shall be for the full amount of the Order Form, and any additional or conflicting terms appearing in a purchase order shall not amend the Order Form or the Agreement. Upon request, ServiceNow shall reference the purchase order number on its invoices (solely for administrative convenience) so long as Customer provides the purchase order at least fifteen (15) business days prior to the date of the invoice. Late payments shall accrue interest at a rate of one and one-half percent (1.5%) per month or the legal maximum interest rate, whichever is lower. If Customer is delinquent in payment of amounts for the services owed hereunder, ServiceNow may give notice to Customer of such delinquency and, in such case, Customer shall cure the delinquency within thirty (30) days from the date of ServiceNow's written notice. If Customer fails to cure the delinquency, ServiceNow may suspend Customer's use of the Subscription Service or terminate the Agreement for cause in accordance with Section 7 (Term and Termination), in addition to other rights and remedies available.

2.2 TAXES. All payments required by the Agreement are stated exclusive of all taxes, duties, levies, imposts, fines or similar governmental assessments including sales and use taxes, value-added taxes ("***VAT***"), goods and services taxes ("***GST***"), excise, business, service, and similar transactional taxes imposed by any jurisdiction and the interest and penalties thereon (collectively, "***Taxes***"). Customer shall be responsible for and bear Taxes associated with its purchase of, payment for, access to or use of the Subscription Service and Professional Services. Taxes shall not be deducted from the payments to ServiceNow, except as required by law, in which case Customer shall increase the amount payable as necessary so that after making all required deductions and withholdings, ServiceNow receives and retains (free from any Tax liability) an amount equal to the amount it would have received had no such deductions or withholdings been made. Each party is responsible for and shall bear taxes imposed on its net income. If Customer is a tax-exempt entity or claims exemption from any Taxes under the Agreement, Customer shall provide a tax exemption number on the Order Form and a certificate upon execution of the Order Form and, after receipt of valid evidence of exemption, ServiceNow shall not charge Customer any Taxes from which it is exempt. If ServiceNow is required to invoice or collect Taxes associated with Customer's purchase of, payment for, access to or use of the Subscription Service or Professional Services, ServiceNow will issue an invoice to Customer including the amount of those Taxes, itemized where required by law. Customer shall provide to ServiceNow its VAT or GST identification number(s) on the Order Form for (i) the country where Customer has established its business and/or (ii) any other country where Customer has a fixed establishment. Customer shall use the ordered Subscription Service and Professional Services for Customer's business use in the foregoing location(s) in accordance with the provided VAT or GST identification number(s). The parties' obligations under this Section shall survive the termination or expiration of the Agreement.

2.3 USE VERIFICATION. Customer may not use or otherwise access the Subscription Service in a manner that exceeds Customer's authorized use. ServiceNow may review Customer's use of the Subscription Service, and Customer shall provide any reasonable assistance to verify Customer's compliance with the Agreement. If ServiceNow determines that Customer has exceeded its permitted use of the Subscription Service then ServiceNow will notify Customer and within thirty (30) days thereafter Customer shall either: (i) disable any unpermitted use or (ii) purchase additional subscriptions. If Customer fails to regain compliance within such thirty (30) day period, ServiceNow may suspend Customer's use of the Subscription Service or terminate the Agreement for cause in accordance with Section 7 (Term and Termination), in addition to any other rights or remedies ServiceNow may have.

3. GRANT OF USE RIGHTS; OWNERSHIP; CUSTOMER RESTRICTIONS

3.1. SUBSCRIPTION SERVICE. Customer is authorized to use the Subscription Service limited by the purchased amount and subscription term ("***Subscription Term***") on the Order Form and the Product Overview.

3.2. DOCUMENTATION. ServiceNow grants to Customer a non-exclusive, non-transferable, worldwide right during the Subscription Term to access and use the documentation relating to the operation and use of the Subscription Service that is provided by ServiceNow to Customer under the Agreement, as updated by ServiceNow from time to time ("***Documentation***").

3.3. CUSTOMER DATA. Customer grants ServiceNow a non-exclusive, non-transferable, worldwide right to use the electronic data pertaining to Customer and/or its users that is processed using the Subscription Service (collectively "***Customer Data***") strictly for the limited purpose of providing the Subscription Service to Customer.

3.4. SOFTWARE. ServiceNow may provide ServiceNow software products ("***Software***") for use in connection with the Subscription Service. Any Software is licensed and not sold (even if for convenience ServiceNow makes reference to words such as "sale" or "purchase"). ServiceNow grants Customer a limited, personal, worldwide, non-sublicensable, non-transferable, non-exclusive license to install and execute the Software on machines operated by or for Customer solely to permit Customer to use the Subscription Service during the Subscription Term in accordance with the terms and conditions of the Agreement. The Software may include code that is licensed under third party license agreements, including open source made available or provided with the Software.

3.5. OWNERSHIP. As between ServiceNow and Customer, all rights, title, and interest in and to all intellectual property rights in the Subscription Service, Software and/or Documentation are owned exclusively by ServiceNow. Except as expressly provided in the Agreement, ServiceNow does not grant Customer (and expressly reserves) any rights, express or implied, or ownership in the Subscription Service, Software and/or Documentation. ServiceNow shall have a royalty-free, worldwide, non-exclusive, transferable, sub-licensable, irrevocable, perpetual right to make, use, sell, offer for sale, import, or otherwise incorporate into the Subscription Service, Software and/or Documentation, any suggestions, enhancements, recommendations or other feedback provided by Customer relating to the Subscription Service, Software and/or Documentation.

3.6. RESTRICTIONS. Customer shall not (and shall not permit others to) do the following with respect to the Subscription Service, Software or Documentation: (i) license, sub-license, sell, re-sell, rent, lease, transfer, distribute or time share or otherwise make any of them available for access by third parties; (ii) disassemble, reverse engineer, decompile or modify them or otherwise create derivative works thereof; (iii) access them for the purpose of developing products or services that compete with the Subscription Service; (iv) use them to operate more or different type of applications or platform not authorized under the Agreement; (v) use them to create, use, send, store or run viruses or other harmful computer code, files, scripts, agents or other programs or engage in any other malicious act; (vi) disrupt their security, integrity or operation; (vii) remove or modify a copyright or other proprietary rights notice in them; (viii) use them to reproduce, distribute, display, transmit or use material protected by copyright or other intellectual property right (including the rights of publicity or privacy) without first obtaining the permission of the owner; (ix) use them to damage the property of another; (x) use them in any manner which violates any law or regulation of the United States, any state thereof or other government authority; (xi) use them in any manner that disables, hacks or otherwise interferes with any security, digital signing, digital rights management, verification or authentication mechanisms or (xii) use them in a manner that temporarily or permanently alters, erases, removes, copies, modifies, halts or disables any ServiceNow or third party data, software or network.

4. WARRANTIES

4.1. LIMITED SUBSCRIPTION SERVICE WARRANTY. ServiceNow warrants that during the Subscription Term Customer's production instances of the Subscription Service shall materially conform to the Product Overview. To submit a warranty claim under this Section, Customer shall (1) reference this Section; and (2) submit a support request to resolve the non-conformity as provided in the Subscription Service Guide, which is set forth on www.servicenow.com/be_schedules.do. If the non-conformity persists without relief more than thirty (30) days after written notice of a warranty claim provided to

ServiceNow under this Section 4.1, then Customer may terminate the affected Subscription Service and ServiceNow shall refund to Customer any prepaid subscription fees covering the remainder of the Subscription Term of the affected Subscription Service after the date of termination. Notwithstanding the foregoing, this warranty shall not apply to any non-conformity due to a modification of or defect in the Subscription Service that is made or caused by any person other than ServiceNow or a person acting at ServiceNow's direction. THIS SECTION 4.1 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

4.2. LIMITED PROFESSIONAL SERVICES WARRANTY. ServiceNow warrants that the Professional Services will be performed in a competent and workmanlike manner in accordance with accepted industry standards and practices and all material requirements set forth in the SOW or Service Description. Customer shall notify ServiceNow in writing of any breach within thirty (30) days after performance of the non-conforming Professional Services. Upon receipt of such notice, ServiceNow, at its option, shall either use commercially reasonable efforts to re-perform the Professional Services in conformance with these warranty requirements or shall terminate the affected Professional Services and refund to Customer any amounts paid for the nonconforming Professional Services. THIS SECTION 4.2 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

4.3. DISCLAIMER OF WARRANTIES. EXCEPT FOR THE WARRANTIES EXPRESSLY STATED IN THE AGREEMENT, TO THE MAXIMUM EXTENT ALLOWED BY LAW, SERVICENOW DISCLAIMS ALL WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, ORAL OR WRITTEN, INCLUDING WARRANTIES ARISING UNDER STATUTE, WARRANTIES OF MERCHANTABILITY, ACCURACY, TITLE, NON-INFRINGEMENT OR FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTIES ARISING FROM USAGE OF TRADE, COURSE OF DEALING OR COURSE OF PERFORMANCE. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, SERVICENOW SPECIFICALLY DOES NOT WARRANT THAT THE SUBSCRIPTION SERVICE, SOFTWARE, PROFESSIONAL SERVICES OR DOCUMENTATION WILL MEET THE REQUIREMENTS OF CUSTOMER OR OTHERS OR THAT THEY WILL BE ACCURATE OR OPERATE WITHOUT INTERRUPTION OR ERROR. CUSTOMER ACKNOWLEDGES THAT IN ENTERING THE AGREEMENT IT HAS NOT RELIED ON ANY PROMISE, WARRANTY OR REPRESENTATION NOT EXPRESSLY SET FORTH HEREIN.

5. CONFIDENTIALITY AND NON-USE RESTRICTIONS

5.1. CONFIDENTIAL INFORMATION. "***Confidential Information***" means all information disclosed by a party ("***Disclosing Party***") to the other party ("***Receiving Party***"), whether orally or in writing, that is designated as confidential or that reasonably should be understood to be confidential given the nature of the information and the circumstances of the disclosure, including without limitation: each party's respective business plans and processes; financial and employee data; proprietary technology and product information and designs; the Subscription Service and Software and Customer Data. The terms of the Agreement and Order form(s) are Confidential Information of ServiceNow. Confidential Information excludes information that: (i) is or becomes generally known to the public; (ii) was known to the Receiving Party prior to its disclosure by the Disclosing Party without breach of any obligation to the Disclosing Party; (iii) is received from a third party without any obligation of confidentiality to a third party or breach of any obligation of confidentiality to the Disclosing Party; or (iv) was independently developed by the Receiving Party without reference to the Disclosing Party's Confidential Information.

5.2. PROTECTION. The Receiving Party shall: (i) at all times protect the confidentiality of the Disclosing Party's Confidential Information with the same degree of care that it uses to protect its own confidential information, and in no event using less than reasonable care; and (ii) not use Confidential Information of the Disclosing Party except to the extent necessary to exercise its rights or fulfill its obligations under the Agreement. To the extent necessary under the Agreement, the Receiving Party may disclose the Confidential Information of the Disclosing Party to the Receiving Party's employees or contractors who are bound by written obligations of confidentiality and non-use and non-disclosure restrictions at least as protective as those set forth herein. In the event of a court order or government regulation compelling disclosure of any Confidential Information, the Receiving Party shall provide the Disclosing Party with prompt written notice thereof, and shall reasonably cooperate with the Disclosing Party to seek confidential or other protective treatment. Each party's obligations set forth in this Section 5 shall remain in effect during the term and three (3) years after termination of the Agreement. The Receiving Party shall promptly return to the Disclosing Party or destroy (with certification of such destruction provided by the Receiving Party upon request) all Confidential Information of the Disclosing Party in its possession or control upon request from the Disclosing Party. Provisions for the return of Customer Data are set forth in Section 7.3 (Return of Customer Data).

6. LIMITATIONS OF LIABILITY AND DAMAGES

6.1. LIMITATIONS OF LIABILITY. TO THE EXTENT PERMITTED BY LAW, THE TOTAL, CUMULATIVE LIABILITY OF EACH PARTY ARISING OUT OF OR RELATED TO The AGREEMENT OR THE SERVICES PROVIDED HEREUNDER, WHETHER BASED ON CONTRACT, IN TORT OR ANY OTHER LEGAL OR EQUITABLE THEORY, SHALL BE LIMITED TO THE AMOUNTS PAID BY CUSTOMER FOR THE SERVICE GIVING RISE TO THE CLAIM DURING THE

TWELVE (12) MONTH PERIOD PRECEDING THE FIRST EVENT GIVING RISE TO LIABILITY. THE EXISTENCE OF MORE THAN ONE CLAIM SHALL NOT ENLARGE THIS LIMIT. THE FOREGOING LIMITATION OF LIABILITY SHALL NOT APPLY TO: (1) BODILY INJURY OR DEATH; (2) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS; AND (3) CUSTOMER'S OBLIGATION TO PAY AMOUNTS OWED FOR SERVICES PROVIDED HEREUNDER.

6.2. EXCLUSION OF DAMAGES. TO THE EXTENT PERMITTED BY LAW, NEITHER SERVICENOW NOR CUSTOMER SHALL BE LIABLE TO THE OTHER OR ANY THIRD PARTY FOR LOST PROFITS (WHETHER DIRECT OR INDIRECT) OR LOSS OF USE OR DATA, COVER, SUBSTITUTE GOODS OR SERVICES, OR FOR INCIDENTAL, CONSEQUENTIAL, PUNITIVE, SPECIAL OR EXEMPLARY DAMAGES (INCLUDING DAMAGE TO BUSINESS, REPUTATION OR GOODWILL), OR INDIRECT DAMAGES OF ANY TYPE HOWEVER CAUSED, WHETHER BY BREACH OF WARRANTY, BREACH OF CONTRACT, IN TORT OR ANY OTHER LEGAL OR EQUITABLE CAUSE OF ACTION EVEN IF SUCH PARTY HAS BEEN ADVISED OF SUCH DAMAGES IN ADVANCE OR IF SUCH DAMAGES WERE FORESEEABLE. THE FOREGOING EXCLUSIONS SHALL NOT APPLY TO: (1) BODILY INJURY OR DEATH; AND (2) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS.

7. TERM AND TERMINATION

7.1. TERM AND TERMINATION. The Agreement continues until terminated in accordance with its terms. Each party may terminate the Agreement in its entirety either: (i) upon thirty (30) days' prior written notice to the other party, if at the time such notice is served there are no Order Forms in effect; or (ii) upon written notice if the other party becomes the subject of a petition in bankruptcy or any proceeding related to its insolvency, receivership or liquidation, in any jurisdiction, that is not dismissed within sixty (60) days of its commencement or an assignment for the benefit of creditors. Either party may terminate a Subscription Service or Professional Services effective immediately upon written notice if the other party materially breaches a material obligation under the Agreement or the applicable Order Form for the affected service and does not cure the breach within thirty (30) days after receiving written notice thereof from the non-breaching party. Professional Services are separately ordered from the Subscription Service, and are not required for the Subscription Service. A breach by a party of its obligations with respect to Professional Services shall not by itself constitute a breach by that party of its obligations with respect to the Subscription Service even if the services are enumerated in the same Order Form.

7.2. EFFECT OF TERMINATION OF SERVICE. Upon expiration or other termination of the Subscription Service for any reason, Customer shall stop using, and ServiceNow shall stop providing, the terminated Subscription Service. (a) If the Subscription Service is terminated by Customer due to ServiceNow's breach, then ServiceNow shall refund to Customer, within thirty (30) days after the effective date of termination, all prepaid fees for the remaining portion of the Subscription Term for the terminated Subscription Service after the effective date of termination. (b) If Professional Service is terminated by Customer due to ServiceNow's breach, then ServiceNow shall refund to Customer, within thirty (30) days after the effective date of termination, any prepaid amounts for unperformed Professional Service. (c) If the Subscription Service is terminated by ServiceNow due to Customer's breach, then Customer shall pay to ServiceNow, within thirty (30) days after the effective date of termination, fees for the terminated Subscription Service that would have been payable for the remainder of the Subscription Term after the effective date of termination. (d) Upon expiration or other termination of the Subscription Service for any reason, Customer shall be eligible to request the return of Customer Data in accordance with Section 7.3 (Return of Customer Data).

7.3. RETURN OF CUSTOMER DATA. Following the end of the Subscription Term, where Customer has not renewed, Customer shall have forty-five (45) days to request a copy of the Customer Data from ServiceNow; and, if requested, ServiceNow shall use commercially reasonable efforts to provide a copy of that data within fifteen (15) days in a mutually agreed upon, commercially standard format at no cost to Customer unless ServiceNow determines in its reasonable discretion that the data output is not routine, in which case the parties shall mutually agree on a statement of work for professional services. After such forty-five (45) day period, ServiceNow shall have no obligation to maintain or provide any Customer Data and shall thereafter, unless legally prohibited, have the right to delete all Customer Data in its systems or otherwise in its possession or under its control and delete Customer's instances of the Subscription Service.

7.4. SURVIVAL. Upon termination of the Agreement for any reason, Customer shall pay all amounts owed hereunder. Sections 3.5 (Ownership), 3.6 (Restrictions), and 5 (Confidentiality and Non-Use Restrictions) through 8 (General Provisions) of these General Terms and Conditions, together with any other provision required for their construction or enforcement, shall survive termination of the Agreement for any reason.

8. GENERAL PROVISIONS

8.1. ASSIGNMENT. Neither party may assign its rights or obligations, whether by operation of law or otherwise, without the prior written consent of the other party. Notwithstanding the foregoing, either party may, upon notice and without the other party's consent: (i) in connection with a merger, reorganization or sale of all or substantially all of the assets or equity

of such party, assign the Agreement in its entirety to such party's successor; and (ii) assign the Agreement in its entirety to any company, partnership or other legal entity which from time to time directly or indirectly controls, is controlled by or is under the common control with such party. Any attempted or purported assignment in violation of this Section 8.1 will be null and void. Subject to the foregoing, the Agreement shall bind and inure to the benefit of the parties, their respective successors and permitted assigns.

8.2. NOTICE. Except as otherwise provided herein, all notices shall be in writing and deemed given upon: (i) personal delivery; (ii) when received by the addressee if sent by a nationally recognized overnight courier (receipt requested); (iii) the second business day after mailing; or (iv) the first business day after sending by email, except that email shall not be sufficient for notices regarding a Claim. Notices shall be sent to the parties as set forth on the Order Form or as otherwise agreed to by the parties in writing.

8.3. EXPORT COMPLIANCE. Each party shall comply with United States and foreign export control laws and regulations. Customer acknowledges that the Subscription Service, Professional Services, Software and Documentation are subject to the U.S. Export Administration Regulations (the "***EAR***") and that Customer shall comply with the EAR. Without limiting the foregoing, Customer represents and warrants that: (i) Customer is not located in, and shall not use the Subscription Service, Professional Services, Software and Documentation from, any country that is subject to U.S. export restrictions (currently including, but not necessarily limited to, Cuba, Iran, North Korea, Sudan and Syria); (ii) Customer shall not use the Subscription Service, Professional Services, Software and Documentation in the design, development or production of nuclear, chemical or biological weapons, or rocket systems, space launch vehicles, sounding rockets or unmanned air vehicle systems; and (iii) Customer is not prohibited from participating in the U.S. export transactions by any federal agency of the U.S. government. In addition, Customer is responsible for complying with any local laws which may impact Customer's right to import, export or use the Subscription Service, Professional Services, Software and Documentation.

8.4. FORCE MAJEURE. No party shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached the Agreement, for any failure or delay in fulfilling or performing any term of the Agreement, when and to the extent such failure or delay is caused by or results from acts beyond the affected party's reasonable control, including without limitation: strikes, lock-outs or other industrial disputes (whether involving its own workforce or a third party's), trespassing, sabotage, theft or other criminal acts, failure of energy sources or transport network, acts of God, war, terrorism, riot, civil commotion, interference by civil or military authorities, national or international calamity, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, explosions, collapse of building structures, fires, floods, storms, earthquakes, epidemics or similar events, natural disasters or extreme adverse weather conditions (each a "***Force Majeure Event***"). The party suffering a Force Majeure Event shall use reasonable efforts to mitigate against the effects of such Force Majeure Event.

8.5. US GOVERNMENT RIGHTS. All ServiceNow software is commercial computer software and all services are commercial items. "***Commercial computer software***" has the meaning set forth in Federal Acquisition Regulation ("***FAR***") 2.101 for civilian agency purchases and the Department of Defense ("***DOD***") FAR Supplement ("***DFARS***") 252.227-7014(a)(1) for defense agency purchases. If the software is licensed or the services are acquired by or on behalf of a civilian agency, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of the Agreement as required in FAR 12.212 (Computer Software) and FAR 12.211 (Technical Data) and their successors. If the software is licensed or the services are acquired by or on behalf of any agency within the DOD, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of the Agreement as specified in DFARS 227.7202-3 and its successors. Only if this is a DOD prime contract or DOD subcontract, the Government acquires additional rights in technical data as set forth in DFARS 252.227-7015. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFARS or other clause or provision that addresses Government rights in computer software or technical data.

8.6. ENTIRETY. Customer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of ServiceNow which is not set out in the Agreement. Customer's order is not contingent on, and Customer has not relied on, the delivery of any future functionality regardless of any verbal or written communication about ServiceNow's future plans. The Agreement supersedes all prior or contemporaneous oral or written agreement, representations and negotiations, including, but not limited to, any terms contained in Customer's purchase order.

8.7. WAIVER AND AMENDMENT. A waiver of any right is only effective if it is in writing and only against the party who signed such writing and for the circumstances given. Any modification of the Agreement, an Order Form, the Product Overview, the Subscription Service Guide, a SOW or a Service Description must be in writing and signed by authorized representatives of both parties.

8.8. RELATIONSHIP OF THE PARTIES. The parties are independent contractors. Nothing in the Agreement shall be construed to create a partnership, joint venture or agency relationship. Neither party shall have any right or authority

to assume or create any obligation of any kind expressed or implied in the name of or on behalf of the other party. ServiceNow may at any time subcontract or delegate in any manner any or all of its obligations under the Agreement to any third party or agent.

8.9. GOVERNING LAW; VENUE; TIME FOR BRINGING ACTION. The Agreement shall be governed by, subject to, and interpreted in accordance with the laws of the state of California, United States of America, if Customer is located in Canada, United States or Mexico, and the laws of England if Customer is located elsewhere. If Customer is located in Canada, United State or Mexico, the parties hereby irrevocably consent to the nonexclusive jurisdiction of, and venue in, any federal or state court of competent jurisdiction located in San Diego, California, or New York, New York, for the purposes of adjudicating any action or proceeding to enforce the terms of the Agreement. If Customer is located elsewhere, then any dispute arising under the Agreement shall be finally settled by binding arbitration in London, England. Such arbitration shall be conducted in English in accordance with the rules of the International Chamber of Commerce by one (1) arbitrator appointed in accordance with such rules. The arbitrator shall allow such discovery as is appropriate in accomplishing a fair, speedy, and cost-effective resolution of the dispute, and shall be expressly empowered to issue appropriate injunctive relief. The award of arbitration shall be final and binding upon both parties, and judgment on the award rendered by the arbitrator may be entered in any court having jurisdiction thereof. Any monetary award shall be payable in United States dollars. To the extent permitted by law, choice of law rules and the United Nations Convention on Contracts for the International Sale of Goods shall not apply. No cause of action arising hereunder or relating hereto may be brought more than one (1) year after it first accrues. The prevailing party in an action to enforce the Agreement shall be entitled to costs of bringing the claim and reasonable attorneys' and experts' fees and expenses. Notwithstanding the foregoing, either party may at any time seek and obtain appropriate legal or equitable relief in any court of competent jurisdiction for claims regarding such party's intellectual property rights.

8.10. CONSTRUCTION. The Subscription Service and Professional Services shall be provided in the English language unless agreed otherwise. The parties confirm that they have requested that the Agreement and all related documents be drafted in English at the express wishes of the parties. Les parties ont exigé que le présent contrat et ServiceNow les documents connexes soient rédigés en anglais selon la volonté expresse des parties. Capitalized terms not defined herein shall have the meaning set forth or referenced in the Subscription Service Guide. Section headings are for convenience only and are not to be used in interpreting the Agreement.

SUBSCRIPTION SERVICE GUIDE

Capitalized terms not defined herein shall have the meaning set forth in the Express General Terms and Conditions or Subscription Service Agreement.

1. CUSTOMER OPERATION OF SUBSCRIPTION SERVICE

1.1. PASSWORDS AND USER NAMES. Customer shall: (a) protect the names and passwords of users of the Subscription Service and prevent and notify ServiceNow of unauthorized use of the Subscription Service; (b) appoint up to five (5) designated support contacts for purposes of contacting ServiceNow support regarding questions and/or technical issues ("***Authorized Customer Support Contacts"***) and ensure that the Authorized Customer Support Contacts' information is current in the ServiceNow support portal; (c) be responsible for the lawfulness of, and results obtained from, all Customer Data submitted by users to the Subscription Service and each user's acts and omissions; and (d) use the Subscription Service only in accordance with the Documentation.

1.2. ACCESS CONTROL. ServiceNow provides the technical architecture that permits Customer to use and process Customer Data in the Subscription Service. This architecture includes an access control list engine. Customer shall be responsible for using the access control list engine for protecting all Personal Data. Customer shall ensure that access to and use of Subscription Service is restricted to only users authorized by Customer. Customer shall be responsible for ensuring all such users maintain the security of any passwords, usernames and other forms of authentication to the Subscription Service. A username and password must be uniquely assigned to a specific person and may not be shared by multiple persons at any one time or transferred. "***Personal Data***" means information identifying a natural person; an identifiable natural person is someone who can be identified, directly or indirectly, in particular by reference to an identification number or to one or more factors specific to his or her physical, physiological, mental, financial, cultural or social identity.

2. SECURITY PROGRAM; EXCEPTIONS

ServiceNow shall maintain a security program ("***Security Program***") that includes industry standard practices designed to protect Customer Data from unauthorized access, use, disclosure, alteration, distribution and destruction. Notwithstanding anything to the contrary in this Agreement, the Security Program apply only to those systems, networks, network devices, facilities and components over which ServiceNow exercises control. The Security Program does not apply to: (i) information shared with ServiceNow that is not Customer Data; (ii) Customer Data in transit over the Internet, Customer's virtual private network (VPN), or another third party network; (iii) any Customer Data processed by Customer or its users in violation of this Agreement; or (iv) any part of the Subscription Service that is not hosted by ServiceNow.

3. UPGRADES

3.1. UPGRADES. "***Upgrades***" are ServiceNow's releases of the Subscription Service for repairs, enhancements or new features applied by ServiceNow to Customer's instances of the Subscription Service at no additional fee during the Subscription Term. ServiceNow has the discretion to provide new functionality either: (i) as an Upgrade, or (ii) as different software or service for a separate fee. ServiceNow determines whether and when to develop, release and apply any Upgrade to Customer's instances of the Subscription Service.

3.2. MAINTENANCE. ServiceNow shall use reasonable efforts to give Customer ten (10) days' notice of any service maintenance to the infrastructure network, hardware or software used by ServiceNow to operate and deliver the Subscription Service if ServiceNow, in its reasonable judgment, believes that such cloud infrastructure maintenance will impact Customer's use of its production instances of the Subscription Service. ServiceNow will use reasonable efforts to limit the Maintenance Time (as defined below) to no more than two (2) hours per month. Notwithstanding the foregoing, ServiceNow may provide Customer with a shorter or no notice period of service maintenance if necessary, in the reasonable judgment of ServiceNow, to maintain the availability, security, stability or performance of the Subscription Service.

4. SUPPORT

During the Subscription Term, ServiceNow shall use reasonable efforts to resolve Defects in the Subscription Service ("***Support***").

A "***Defect***" means a problem causing the Subscription Service to not conform to the Product Overview. Customer may request Support for a Defect at the online portal https://hi.service-now.com/ or any successor site.

A Defect will be assigned a priority level as follows:

- A Priority Level 1 Defect is any Defect that causes Customer's instance(s) of the Subscription Service to be not Available (as defined below).
- A Priority Level 2 Defect is any Defect that causes a mission critical function of the Subscription Service to fail.
- A Priority Level 3 Defect is any Defect that significantly impedes work or progress.
- A Priority Level 4 Defect is any Defect that does not significantly impede work or progress.

Upon notification by Customer of a Defect, ServiceNow shall, in all instances, target an initial response (the "***Initial Response***") within the timeframes set forth in the Support Table, as measured from the time that Customer notifies ServiceNow. The initial response from ServiceNow shall include, as applicable and without limitation: (i) ServiceNow's acknowledgment or notification to Customer of such Defect, and (ii) the classification of such Defect as a Priority Level 1, 2, 3 or 4.

SUPPORT TABLE

Priority Level	Target Initial Response
1	30 minutes; at all times
2	2 hours; at all times
3	Within 1 business day
4	Varies

Support does not include: implementation services; configuration services; integration services; customization services or other custom software development; support for modifications of the Subscription Service by any person other than ServiceNow or a person acting at ServiceNow's direction; training or "how-to"; assistance with administrative functions; professional services; corrections of immaterial Defects or Defects that have a viable workaround; or corrections that will degrade the Subscription Service.

5. SERVICE LEVEL OBJECTIVE

5.1. DEFINITIONS.

(a) "***Available***" means that the Subscription Service can be accessed by authorized users.

(b) "***Excused Downtime***": means (i) Maintenance Time of up to two (2) hours per month; and (ii) any time the Subscription Service is not Available due to circumstances beyond ServiceNow's control, including without limitation modifications of the Subscription Service by any person other than ServiceNow or a person acting at ServiceNow's direction, a Force Majeure Event, general Internet outages, failure of Customer's infrastructure or connectivity (including without limitation, direct connectivity and virtual private network (VPN) connectivity to the Subscription Service), computer and telecommunications failures and delays not within ServiceNow's control, and network intrusions or denial-of-service or other criminal attacks.

(c) "***Maintenance Time***" means the time the Subscription Service is not Available due to service maintenance.

(d) "***Availability Service Level Objective***" means the percentage of total time during which Customer's production instances of the Subscription Service are Available during a calendar month, excluding Excused Downtime.

5.2. AVAILABLITY. ServiceNow shall use reasonable efforts to provide an Availability Service Level Objective of 99.8% over any calendar month. There is no service credit offered for a failure to meet this Availability Service Level Objective.

SCHEDULE A

TERMS AND CONDITIONS TO
VIRTRU PRO
SUBSCRIPTION AGREEMENT

1. DEFINITIONS

For purposes of this Agreement, the following terms shall have the following meanings:

1.1 "**Derivative Work**" shall mean a new or modified work that is based on or derived from a preexisting work, including, without limitation, a work that, in the absence of a license, would infringe the copyright in such preexisting work or that uses trade secrets or other proprietary information with respect to such preexisting work.

1.2 "**Materials**" shall mean the Virtru Pro software (including any object code, executable files, or browser plug-ins) or materials related thereto provided by Virtru to Customer hereunder, including, without limitation, any software downloaded from Virtru's website or from the Virtru Pro Services; any related materials and documentation therefor; and any modifications, error corrections, bug fixes, new releases, enhanced functionality (including platform integration features not generally available to non-commercial users of Virtru's software) or other updates thereto that may be provided hereunder by Virtru to Customer during the term of this Agreement.

1.3 "**Third Party Services**" shall mean any services used in connection with the Materials that are hosted by a party other than Virtru or Licensee.

1.4 "**Virtru Pro Services**" shall mean the Virtru hosted services made available by Virtru to Customer in connection with the Materials.

2. RIGHTS IN MATERIALS AND TO USE SERVICE

2.1 Grant of Rights. Subject to the terms and conditions of this Agreement, Virtru (a) hereby grants to Customer a restricted, non-exclusive, nontransferable, nonsublicensable, royalty-free (except as set forth in Section 2.3), revocable right to use, during the term of this Agreement and in accordance with the documentation provided by Virtru, the Materials (the **"License"**), and (b) Virtru will make the Virtru Pro Services available to Customer pursuant to this Agreement during the term of this Agreement. Except as set forth in this Section 2.1, no other right or license of any kind is granted by Virtru to Customer hereunder with respect to the Materials or the Virtru Pro Services. Customer acknowledges and agrees that, unless otherwise agreed in writing between the parties, Customer shall be solely responsible for procuring and complying with any license or right to use any Third Party Services, including those offered by Customer's email services provider.

2.2 Restrictions. Customer shall not, without the prior written consent of Virtru: (a) copy all or any portion of the Materials or Virtru Pro Services; (b) decompile, disassemble, scrape or otherwise reverse engineer the Materials, Virtru Pro Services or any portion thereof, or determine or attempt to determine any source code, algorithms, methods or techniques embodied in the Materials or used in the Virtru Pro Services or any portion thereof; (c) modify, translate or create any Derivative Works based upon the Materials or Virtru Pro Services; (d) distribute, disclose, market, rent, lease, assign, sublicense, pledge or otherwise transfer the Materials, in whole or in part, to any third party or export the Materials outside the United States; (e) remove or alter any copyright, trademark, trade name or other proprietary notices, legends, symbols or labels appearing on or in copies of the Materials or the Virtru Pro Services; (f) perform, or release the results of, benchmark tests or other comparisons of the Materials or Virtru Pro Services with other programs or services; (g) transfer the Materials to any computer other than a computer owned by Customer and used by Customer in Customer's operations; (h) permit the Materials or Virtru Pro Services to be used for processing the data of any third party; (i) incorporate the Materials, Virtru Pro Services or any portion thereof into any other program, product or service, or use the Materials or Virtru Pro Services to provide similar services or functionality to third parties; (j) provide any third party with access to the Virtru Pro Services other than as expressly permitted herein or by the Terms of Service (as defined below); (k) use the Materials or Virtru Pro Services for any unlawful or tortious purpose; or (l) use the Materials or Virtru Pro Services for any purpose other than in accordance with the terms and conditions of this Agreement or Virtru's then-current terms of service (available at https://www.virtru.com/terms-of-service) (the "**Terms of Service**"). Customer shall ensure that all Customer end users of the Virtru Pro Service and Materials comply with

the terms and conditions of this Agreement. Customer shall be responsible for compliance with this Agreement by each Customer end user and it shall monitor and manage all Customer users in connection with this Agreement.

2.3 Fees; Payment. In consideration of the Virtru's provision of the Virtru Pro Services and Materials, Customer shall make payments to Virtru in accordance with the terms set forth on the cover page of this Agreement. Sales and use tax, VAT, or GST are Customer's sole responsibility, and Customer acknowledges and agrees that all fees are exclusive of all such taxes.

2.4 Seats; Reporting. Customer shall initially be permitted to use the Materials and Virtru Pro Services with respect to the number of seats set forth on the cover page of this Agreement (the "**Baseline Seat Count**"). Each seat shall be used by one Customer user. During the term of this Agreement, Customer will report to Virtru the total number of users of the Materials and Virtru Pro Services on an annual basis. Such report will be submitted to sales@virtru.com and shall be due thirty (30) days prior to each anniversary of the date of this Agreement (each, a "**Reporting Date**") based on the actual number of users as of the date thirty (30) days prior to such Reporting Date (each, a "**Seat Count Date**"). If the actual number of Customer users as of any Seat Count Date is higher than the Baseline Seat Count, Customer will pay the "Subscription Fee per Seat" set forth on the cover page of this Agreement (the "**Subscription Fee**") for each such additional user for any Renewal Term.

2.5 Adjustment Events. In addition to the annual reporting required under Section 2.4 above, Customer shall report to Virtru any increase of ten percent (10%) or more in the aggregate number of Customer users in excess of the Baseline Seat Count that occurs between Reporting Dates (an "**Adjustment Event**") and agrees to pay Virtru, within thirty (30) days following any such Adjustment Event, a prorated Subscription Fee for each such additional user for the remaining portion of the applicable term and for any Renewal Term.

2.6 Seat Count Audit. At any time during the term of this Agreement, Virtru shall have the right to audit Customer's usage of the Virtru Pro Services and Materials (a "**Seat Count Audit**"). If the actual number of Customer users as of the date of any Seat Count Audit is higher than the Baseline Seat Count, Customer will pay the "Subscription Fee per Seat" set forth on the cover page of this Agreement for the remaining portion of the applicable term and for any Renewal Term.

3. SUPPORT

Virtru will provide support to Customer and its end users through Virtru's generally available online ticketing and support system. Except as expressly provided in Schedule B, which is incorporated herein by reference, in this Section 3 or as may otherwise be provided under a written support agreement entered into by Virtru and Customer, Virtru is under no obligation to support the Materials or Virtru Pro Services in any way, nor to provide any modification, error correction, bug fix, new release or other update (each an "**Update**") to or for the Materials or Virtru Pro Service. In the event Virtru, in its sole discretion, supplies or makes available any Update to Customer, such Update shall be deemed to be part of the Materials or Virtru Pro Services (as applicable) hereunder and shall be subject to the terms and conditions of this Agreement.

4. PROPRIETARY RIGHTS

4.1 General. As between Virtru and Customer, Virtru retains all right, title and interest, including, without limitation, all patent rights, copyrights, trademarks and trade secrets, in and to the Materials, Virtru Pro Services and any portion thereof, including, without limitation, any copy or Derivative Work of the Materials, Virtru Pro Services or any portion thereof and any Update thereto. Customer agrees to take any action reasonably requested by Virtru to evidence, maintain, enforce or defend the foregoing. Customer shall not take any action to jeopardize, limit or interfere in any manner with Virtru's ownership of and rights with respect to the Materials, Virtru Pro Services or any Derivative Work or Update. Customer shall have only those rights in or to the Materials, Virtru Pro Services and any Derivative Work or Update granted to it pursuant to this Agreement.

4.2 Feedback. Customer and its authorized users may provide suggestions, requests, recommendations and other feedback concerning Customer's use of the Materials and Virtru Pro Services (including, without limitation, any errors or difficulties discovered with respect thereto) (the "**Feedback**"). Customer agrees that all Feedback shall be the sole

property of Virtru and Virtru may use such Feedback at its discretion without the consent of Customer.

5. PROPRIETARY INFORMATION

5.1 Proprietary Information. Both parties acknowledge that, in the course of this Agreement each may obtain confidential or proprietary information of the other party ("**Proprietary Information**"). "Proprietary Information" will include, without limitation, (a) the existence of and terms of this Agreement, (b) trade secrets, know-how, inventions (whether or not patentable), techniques, processes, programs (whether in source code or object code form), ideas, algorithms, formulas, schematics, testing procedures, software design and architecture, computer code, documentation, design and functional specifications, product requirements, problem reports, performance information, software documents, hardware, devices, designs, drawings, unpublished patent applications, data, plans, strategies and forecasts, and (c) technical, engineering, manufacturing, product, marketing, servicing, financial, personnel and other information. Virtru's "Proprietary Information" will include, without limitation, the Materials (including all Derivative Works and Updates) and all confidential information related thereto provided by Virtru to Customer in connection with this Agreement. Virtru's Proprietary Information shall, as between Customer and Virtru, belong solely to Virtru, and Customer's Proprietary Information shall, as between Customer and Virtru, belong solely to Customer.

5.2 Use and Disclosure Restrictions. Each party agrees (a) to protect the other party's Proprietary Information from unauthorized dissemination and use; (b) to use the other party's Proprietary Information only for the performance of this Agreement and the exercise of any rights under this Agreement; (c) not to disclose any Proprietary Information, or any part or parts thereof, to any of its employees, agents, contractors or any other individuals except to its employees who are under confidentiality obligations no less restrictive than the requirements of this Section 5; (d) with respect to Customer, not to disclose or otherwise provide to any third party, without the prior written consent of Virtru or as otherwise set forth in a separate written agreement between the parties hereto entered into after the date hereof, as applicable, any of Virtru's Proprietary Information, materials or any data or other information produced, obtained or created by Customer in connection with Customer's use of the Materials, including, without limitation, the existence of this Agreement and the existence and possible applications of the Materials; (e) to undertake whatever action is necessary (or authorize the other party to do so in the name of such party) to prevent or remedy any breach of such party's confidentiality obligations herein set forth or any other unauthorized disclosure of any Proprietary Information by its current or former employees, agents or contractors; and (f) not to remove or destroy any proprietary or confidential legends or markings placed upon or contained within the Proprietary Information provided to such party by the other party.

5.3 Exclusions. The foregoing restrictions on disclosure and use shall not apply with respect to any Proprietary Information that: (a) is or becomes publicly known through no act or omission of the other party; (b) was rightfully known by the receiving party without confidential or proprietary restriction before receipt from the other party, as evidenced by the receiving party's contemporaneous written records; (c) becomes rightfully known to the receiving party without confidential or proprietary restriction from a source other than the disclosing party that does not owe a duty of confidentiality with respect to such Proprietary Information; or (d) is independently developed without the use of the Proprietary Information as evidenced by the receiving party's written records. In addition, a party may use or disclose Proprietary Information to the extent (i) approved in writing by the other party and (ii) a party is legally compelled to disclose such Proprietary Information, provided, however, that prior to any such compelled disclosure, such party shall cooperate fully with the other party in protecting against any such disclosure and/or obtaining a protective order narrowing the scope of such disclosure and/or use of the Proprietary Information. Further, each party may disclose the terms and conditions of this Agreement: (A) in confidence, to legal counsel; (B) in confidence, to accountants, banks, and financing sources and their advisors; and (C) in connection with the enforcement of this Agreement or any rights hereunder.

5.4 Equitable Relief. Each party agrees that, due to the unique nature of the other party's Proprietary Information, the unauthorized disclosure or use of the other party's Proprietary Information or any other breach of any provision of this Section 5 will cause irreparable harm and significant injury to the other party, the extent of which will be difficult to ascertain and for which there will be no adequate remedy at law. Accordingly, each party agrees that the other party, in addition to any other available remedies, shall have the right to seek an immediate injunction and other equitable relief enjoining any breach or threatened breach of this Section 6 without the necessity of posting any bond or other security. Each party shall notify the other party in writing immediately upon becoming aware of any such breach or threatened breach.

6. NO WARRANTY

THE MATERIALS AND VIRTRU PRO SERVICES ARE PROVIDED "AS IS" AND VIRTRU DISCLAIMS ALL WARRANTIES AND REPRESENTATIONS, WHETHER EXPRESS OR IMPLIED, RELATING TO THE MATERIALS AND VIRTRU PRO SERVICES, INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OF DESIGN, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NONINFRINGEMENT OF THIRD PARTY RIGHTS, OR WARRANTIES ARISING FROM A COURSE OF DEALING, COURSE OF PERFORMANCE, USAGE OR TRADE PRACTICE. VIRTRU DOES NOT GUARANTEE THE ACCURACY OF THE INFORMATION INCLUDED IN, TRANSMITTED THROUGH OR MADE AVAILABLE BY THE MATERIALS OR VIRTRU PRO SERVICES, WHICH MAY INCLUDE INACCURACIES OR ERRORS. VIRTRU DOES NOT GUARANTEE THAT THE MATERIALS OR VIRTRU PRO SERVICES WILL BE UNINTERRUPTED OR ERROR-FREE, THAT BUGS OR MALFUNCTIONS WILL BE CORRECTED OR THAT THE MATERIALS, VIRTRU PRO SERVICES OR VIRTRU'S SERVERS ARE FREE OF HARMFUL COMPONENTS. VIRTRU DOES NOT GUARANTEE THAT THE MATERIALS OR VIRTRU PRO SERVICES ARE ACCURATE, WITHOUT ERROR OR RELIABLE.

7. VIRTRU'S ENTIRE LIABILITY

TO THE EXTENT ALLOWED BY APPLICABLE LAW AND NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY OR LIMITATION OF LIABILITY: (a) IN NO EVENT SHALL VIRTRU OR ITS SUPPLIERS BE LIABLE FOR ANY DAMAGES FOR LOSS OF PROFITS, LOSS OF BUSINESS, LOSS OF USE OR DATA, INADVERTENT DISCLOSURE OF DATA, OR INTERRUPTION OF BUSINESS, OR FOR ANY INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND OR OTHER ECONOMIC LOSS ARISING FROM OR RELATING TO THIS AGREEMENT OR THE SUBJECT HEREOF, EVEN IF VIRTRU HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, HOWEVER CAUSED, AND (b) NOTWITHSTANDING ANYTHING IN THIS AGREEMENT TO THE CONTRARY, VIRTRU'S ENTIRE LIABILITY ARISING FROM OR RELATING TO THIS AGREEMENT OR THE SUBJECT HEREOF, UNDER ANY LEGAL THEORY (WHETHER IN CONTRACT, TORT, INDEMNITY OR OTHERWISE), IF ANY, SHALL NOT EXCEED ONE THOUSAND DOLLARS (US$1,000).

8. INDEMNIFICATION

Customer shall defend, indemnify and hold Virtru harmless against any loss, liability, damage or cost (including reasonable attorneys' fees) in connection with claims, actions, demands, suits, or proceedings made or brought against Virtru by a third party alleging (a) that any modification or addition to the Materials or Virtru Pro Services made by or for Customer (other than by Virtru) infringes a copyright, mask work right, trade secret, trademark right or patent of the third party; (b) in combination with any other product or service not provided, specified or recommended in writing by Virtru for use with the Materials or Virtru Pro Services; or (b) with respect to the development, manufacture, marketing, sales, distribution or use of any of the Materials or Virtru Pro Services, including, without limitation, a product liability claim or a claim for breach of any warranty or support obligations. In connection with a claim under this Section 9, Virtru shall: (i) provide Customer with prompt notice of the claim; (ii) permit Customer to control the defense and any settlement of the claim (provided that Customer may not settle any claim unless such settlement unconditionally releases Virtru of all liability in connection with such claim); and (iii) provide cooperation as reasonably requested by Customer (at Customer's expense).

9. TERM AND TERMINATION

9.1 Term. This Agreement shall commence on the Effective Date and, unless sooner terminated pursuant to the terms hereof, shall continue in full force and effect for one (1) year (the "**Initial Term**"). Thereafter, this Agreement shall automatically renew for successive one (1) year periods (each a "**Renewal Term**"), unless either party provides the other party with written notice of its intent not to renew at least thirty (30) days prior to the end of the then-current term. The automatic renewal of this Agreement will be for the Baseline Seat Count, as adjusted pursuant to Sections 2.4, 2.5 and/or 2.6, on the same payment terms as set forth on the cover page of this Agreement.

9.2 Termination. Either party may terminate this Agreement immediately upon written notice to the other party if the other party fails to perform any of its duties or obligations hereunder and, except with respect to Customer's breach of Section 2.1 or 2.2, which breach shall not be subject to any cure period, fails to cure such default within thirty (30) days following receipt of written notice from the non-defaulting party specifying the occurrence or existence of the default. Customer shall notify Virtru within twenty-four (24) hours of Customer becoming aware of any breach (other than by Virtru) of the terms and conditions of this Agreement, including, without limitation, Sections 2 and 5.

9.3 Effect of Termination. Upon the expiration or termination of this Agreement, the rights granted to Customer hereunder shall terminate, Customer will cease all use of the Materials, return to Virtru or destroy the Materials in its possession, and, upon Virtru's request, so certify such actions to Virtru. Any costs

incurred in returning or destroying the Materials upon termination shall be borne by Customer. The provisions of Sections 2.2, 4.2, 5, 6, 7, 8, 9.3, and 10 shall survive the expiration or any termination of this Agreement. Termination of this Agreement by either party shall not act as a waiver of any breach of this Agreement and shall not act as a release of either party from any liability for breach of such party's obligations under this Agreement. Neither party shall be liable to the other for damages of any kind solely as a result of terminating this Agreement in accordance with its terms, and termination of this Agreement by a party shall be without prejudice to any other right or remedy of such party under this Agreement or applicable law.

10. GENERAL PROVISIONS

10.1 Notices. Any notice, request, demand or other communication required or permitted hereunder shall be in writing, shall reference this Agreement and shall be deemed to be properly given: (a) when delivered personally; (b) seven (7) days after having been sent by registered or certified mail, return receipt requested, postage prepaid; or (c) two (2) business days after deposit with a private industry express courier, with written confirmation of receipt. All notices shall be sent to the address set forth on the cover page of this Agreement and to the notice of the person executing this Agreement (or to such other address as may be designated by a party by giving written notice to the other party pursuant to this Section 10.1).

10.2 Assignment. This Agreement may not be assigned, in whole or part, whether voluntarily, by operation of law or otherwise, by Customer without the prior written consent of Virtru. Subject to the preceding sentence, the rights and liabilities of the parties hereto shall bind, and inure to the benefit of, their respective assignees and successors and is binding on the parties and their successors and assigns. Any attempted assignment other than in accordance with this Section 10.2 shall be null and void.

10.3 Governing Law, Jurisdiction and Venue. This Agreement is to be construed in accordance with and governed by the internal laws of the Commonwealth of Virginia (but expressly excluding the Uniform Computer Information Transactions Act ("**UCITA**") as enacted in Virginia) without giving effect to any choice of law rule that would cause the application of the laws of any jurisdiction other than the internal laws of the Commonwealth of Virginia (excluding UCITA) to the rights and duties of the parties. Any legal suit, action or proceeding arising out of or relating to this Agreement shall be commenced in a federal court in the Eastern District of Virginia or in state courts with jurisdiction over Fairfax County**,** Virginia, and each party hereto irrevocably submits to the exclusive jurisdiction and venue of any such court in any such suit, action or proceeding.

10.4 Attorneys' Fees. If any legal action, including, without limitation, an action for arbitration or injunctive relief, is brought relating to this Agreement or the breach hereof, the prevailing party in any final judgment or arbitration award, or the non-dismissing party in the event of a dismissal without prejudice, shall be entitled to the full amount of all reasonable expenses, including all court costs, arbitration fees and actual attorneys' fees paid or incurred in good faith.

10.5 Waiver. The waiver by either party of a breach of or a default under any provision of this Agreement, shall be in writing and shall not be construed as a waiver of any subsequent breach of or default under the same or any other provision of this Agreement, nor shall any delay or omission on the part of either party to exercise or avail itself of any right or remedy that it has or may have hereunder operate as a waiver of any right or remedy.

10.6 Severability. If the application of any provision of this Agreement to any particular facts or circumstances shall be held to be invalid or unenforceable by an arbitration panel or a court of competent jurisdiction, then (a) the validity and enforceability of such provision as applied to any other particular facts or circumstances and the validity of other provisions of this Agreement shall not in any way be affected or impaired thereby and (b) such provision shall be enforced to the maximum extent possible so as to effect the intent of the parties and reformed without further action by the parties to the extent necessary to make such provision valid and enforceable.

10.7 Relationship of the Parties. Nothing contained in this Agreement shall be deemed or construed as creating a joint venture, partnership, agency, employment or fiduciary relationship between the parties. Neither party nor its agents have any authority of any kind to bind the other party in any respect whatsoever, and the relationship of the parties is, and at all times shall continue to be, that of independent contractors.

10.8 Restricted Rights. If Customer is an agency or instrumentality of the United States Government, the Materials are "commercial computer software" and "commercial computer software documentation," and, pursuant to FAR 12.212 or DFARS 227.7202, and their successors, as applicable, use reproduction and disclosure of the Materials are governed by the terms of this Agreement.

10.9 Reference. Customer agrees to serve as a "reference customer" that may be disclosed by Virtru to third parties (including by displaying Customer's name, logo and/or a link to Customer's web site on Virtru's web site) and, upon reasonable notice from Virtru, shall serve as a reference to potential customers, vendors, investors, or other third parties designated by Virtru; provided, however, that Virtru shall provide Customer with reasonable prior notice of its need to have Customer serve as a reference.

10.10 Entire Agreement. This Agreement, any Schedules and any Exhibits attached hereto and incorporated herein by reference, and the Terms of Service constitute the entire agreement between the parties concerning the subject matter hereof and supersede all prior or contemporaneous representations, discussions, proposals, negotiations, conditions, agreements and communications, whether oral or written, between the parties relating to the subject matter of this Agreement and all past courses of dealing or industry custom. No amendment or modification of any provision of this Agreement shall be effective unless in writing and signed by a duly authorized signatory of each of Virtru and Customer.

10.11 Counterparts and Electronic Signatures. The Parties may execute this Agreement in counterparts, each of which is deemed an original, but all of which together constitute one and the same agreement. This Agreement may be delivered electronically or by facsimile transmission, and the parties hereby agree that any electronic or facsimile signatures hereto are legal, valid and enforceable as originals.

SCHEDULE B

MAINTENANCE AND SUPPORT SERVICES SCHEDULE

1. DEFINITIONS

For purposes of this Schedule, the following term shall have the following meaning:

(a) "**Support Services**" means the delivery of front-end support to Customer's end users by telephone, email or other methods and the training of Customer's end users, in each case relating to the use of the Materials and Virtru Pro Services.

2. SUPPORT SERVICES.

Virtru will be responsible for providing Customer's end users with Support Services. Virtru will not be required to provide the Support Services if Customer has failed to pay any amount payable to Virtru under this Agreement and such amount is more than thirty (30) days overdue.

3. UPDATES.

Virtru will provide Customer with one copy of each Update made generally available by Virtru to its customers that pay for customer support and maintenance during the term of this Agreement.

4. SUPPORT HOURS.

Virtru will provide the Support Services during Virtru's normal business hours, Monday to Friday, except holidays. Virtru will respond to Customer support inquiries or requests within one business day.

vCloud Air (U.S. and Japan Data Centers)

TERMS OF SERVICE

Last updated: November 5, 2014

VMware vCloud Air is an infrastructure as a service offering. By accessing any service offered through VMware vCloud Air (the " **Service Offering**") you agree to be bound by these terms of service between you and VMware (" **Agreement**"). If you do not agree to this Agreement, you must not access the Service Offering. An individual accepting this Agreement on behalf of an organization represents and warrants having legal authority to bind that organization. " **You**" means the entity accepting this Agreement. " **VMware**," " **we**," or " **us**" means VMware, Inc., a Delaware corporation, to the extent that you are purchasing the Service Offering in the United States, VMware vCloud Service G.K., a company organized and existing under the laws of Japan, to the extent that you are purchasing the Service Offering in Japan, and VMware International Limited, a company organized and existing under the laws of Ireland, to the extent that you are purchasing the Service Offering elsewhere. Capitalized terms used in this Agreement are defined throughout this Agreement and in Section 14.

EVALUATION PROGRAM USE. When you access the Service Offering under a VMware evaluation program, you may use the Service Offering only for non-production computing activity. Notwithstanding any other provision in this Agreement, under a VMware evaluation program, we provide the Service Offering "AS-IS" without indemnification, support or warranty of any kind, expressed or implied, and we will not be liable for any damages. Upon termination of the evaluation, you will no longer have access to the Service Offering and Your Content.

1. The Service Offering.

1.1 Generally. This Agreement governs your access and use of the Service Offering. We may deliver the Service Offering to you with the assistance of our affiliates, licensors and providers. Service Level Agreements may apply to the Service Offering. You will comply with all laws, rules and regulations applicable to your use of the Service Offering, and with the Third Party Terms, the Service Description, the Privacy Addendum, and the Support Policy, all of which are incorporated herein by reference.

1.2 Access to the Service Offering. You may access and use the Service Offering solely for your own benefit and only in accordance with this Agreement. To access the Service Offering, you must register for the Service Offering and set up an authorized account with Login Credentials. You may monitor and manage your Service Offering account via the My VMware Portal available at www.vmware.com/accounts and through the Service Offering Portal available at http://vcloud.vmware.com. You must keep confidential your Login Credentials. If you set up an authorized account for an organization, you will require that all authorized users of that account (including anyone providing services to you) keep confidential their Login Credentials. You will keep your registration information accurate, complete and current as long as you use the Service Offering. You are responsible for any use that occurs under your Login Credentials, including any activities by you, or your employees, contractors or agents. If you believe an unauthorized user has gained access to your Login Credentials, you will notify us as soon as possible. Neither we nor our affiliates are responsible for any unauthorized access to or use of your account.

1.3 Verifying; Cooperation. We have the right to verify your compliance with this Agreement. If we

seek to verify that compliance, you will provide information or other materials reasonably requested by us to assist the verification. We monitor the overall performance and stability of the infrastructure of the Service Offering. You may not block or interfere with that monitoring. If we reasonably believe a problem with the Service Offering may be attributable to Your Content or your use of the Service Offering, you will cooperate with us to identify and resolve the source of that problem.

1.4 Additional Terms; Third Party Content. As part of your use of the Service Offering, you may receive access to additional data, content, software or applications subject to separate terms. If so, those separate terms will prevail over this Agreement as to your use of that data, content, software or applications. Third Party Content is available "AS IS" without indemnification or support, and we disclaim all express and implied warranties (including warranties of merchantability, fitness for a particular purpose, and non-infringement). You are responsible for reviewing, accepting, and complying with any third party terms of use or other restrictions applicable to the Third Party Content. Those terms will be available to you through a notification within the Service Offering or in a document available at https://www.vmware.com/files/pdf/support/vmware-vcloud-air-third-party-terms.pdf. It is your responsibility to check the Third Party Terms, which may be modified from time to time. We may provide billing and related services associated with the Third Party Content. We will not provide any support for the Third Party Content unless otherwise noted in the Third Party Terms. We reserve the right to suspend or terminate the Third Party Content at any time, but we will use commercially reasonable efforts to provide reasonable notice of that suspension or termination.

1.5 Early Evaluation/Beta Features. We may identify and make available on an early evaluation or beta basis certain features or functionality within the Service Offering. You must use these features or functionality only for evaluation purposes and for the period that we specify. We provide these features and functions "AS-IS," without indemnification or support and disclaim all express and implied warranties (including warranties of merchantability, fitness for a particular purpose, and non-infringement). Any early evaluation or beta features or functionality do not constitute an implied commitment to offer to you or anyone these features and functionality as part of the Service Offering on a generally available basis.

1.6 Open Source Software. You may receive open source software when you use the Service Offering and any open source software distributed to you is made available under the applicable open source license, which can be found at: http://www.vmware.com/download/open_source.html. You may obtain a copy of these licenses and any source code (and modifications) that we are required to make available under these licenses (the " **Source Files**") at http://www.vmware.com/download/open_source.html or by sending a written request, with your name and address to: VMware, Inc., 3401 Hillview Avenue, Palo Alto, CA 94304, United States of America. All written requests must clearly specify: Open Source Files Request, Attention: General Counsel. This offer to obtain a copy of the Source Files is valid for three years from the date you last received open source software as part of the Service Offering or last accessed the Service Offering.

2. Data Protection and Security.

2.1 Data Protection. We will process personal data contained in Your Content as set forth in the Privacy Addendum.

2.2 Your Content and Security. You are solely responsible for Your Content. You are responsible for protecting the security of Your Content, including any access you might provide to Your Content by your employees, customers or other third parties, and in transit to and from the Service Offering. The Service Offering provides you with certain software and functionality to help you protect Your Content from unauthorized access. You will take and maintain appropriate security, protection and backup of Your Content, which might include the use of encryption technology to protect Your Content from unauthorized access. You are responsible for providing any necessary notices to your

users and obtaining any legally-required consents from your users concerning their use of the Service Offering. You are solely responsible for complying with any laws or regulations that might apply to Your Content. You are responsible for any losses or other consequences arising from your failure to encrypt or back up Your Content.

3. Acceptable Use.

3.1 General Restrictions. You and those accessing the Service Offering through you may not: (a) resell or sublicense the Service Offering; or (b) use or access the Service Offering: (i) in a way prohibited by law, regulation, governmental order or decree; (ii) to violate any rights of others; (iii) to try to gain unauthorized access to, test the vulnerability of, or disrupt the Service Offering or any other service, device, data, account or network; (iv) to spam or distribute malware; (v) in a way that could harm the Service Offering or impair anyone else's use of it; (vi) in a way intended to work around the Service Offering's technical limitations, recurring fees or usage limits; or (vii) in any application or situation where failure of the Service Offering could lead to the death or serious bodily injury of any person, or to severe physical or environmental damage. You must ensure that your users comply with the terms of this Agreement, and you agree that if you become aware of any violation by one of your users, you will terminate that user's access to Your Content immediately. If we have reason to believe that you or your users have breached this Agreement, we or our designated representative may review your use of the Service Offering, including your account, Your Content, and your records, to verify your compliance with this Agreement.

3.2 Content Restrictions. You will take steps to ensure that those accessing any service you provide with the Service Offering do not post content that: (a) may create a risk of harm, loss, physical or mental injury, emotional distress, death, disability, disfigurement, or physical or mental illness to anyone; (b) may create a risk of any other loss or damage to any person or property; (c) may constitute or contribute to a crime or tort; (d) contains any information or content that is illegal, unlawful, harmful, abusive, pornographic, racially or ethnically offensive, defamatory, infringing, invasive of personal privacy or publicity rights, harassing, humiliating to other people (publicly or otherwise), libelous, threatening, or otherwise objectionable; or (e) contains any information or content that you do not have a right to make available under any law or under contractual or fiduciary relationships. You are solely responsible for any software, product or service that a third party licenses, sells or makes available to you that you install or use with the Service Offering. Your use of that software, product or service is governed by separate terms between you and that third party. We are not a party to and are not bound by any of those separate terms. You represent and warrant that Your Content does not and will not violate any third-party rights, including any Intellectual Property Rights, and rights of publicity and privacy. You will ensure that your use of the Service Offering complies at all times with your privacy policies and all applicable laws and regulations, including any encryption requirements.

3.3 Violations of Acceptable Use. If you become aware that any of Your Content or your user's use of Your Content violates Section 3.1 or 3.2, you will take immediate action to remove the applicable part of Your Content or suspend the end user's access. If you fail to do so, we may ask you to do so. If you fail to comply with our request within twenty-four hours, we may suspend your account or disable access to Your Content until you comply with our request.

3.4 Notification of Infringement Concerns. If you believe that your copyrighted work has been copied and is accessible on our Service Offering in a way that constitutes copyright infringement, please send a notice to us as further detailed in Section 8 of the Community Terms of Use available at http://www.vmware.com/community_terms.html.

4. IP Ownership.

4.1 Ownership of Service Offering. We and our licensors own and retain all right, title and interest in and to the Service Offering and any related VMware Software, including all improvements, enhancements, modifications and derivative works thereof, and all Intellectual Property Rights therein. This includes any information that we collect and analyze in connection with the Service Offering, such as usage patterns, user feedback and other information to improve and evolve our software products and services offerings. Your rights to use the Service Offering are limited to those expressly granted in this Agreement. No other rights with respect to the Service Offering, any related VMware Software, or any related Intellectual Property Rights are implied.

4.2 Ownership of Your Content. You and your authorized users retain all right, title and interest in and to Your Content and all Intellectual Property Rights therein. Our rights to access and use Your Content are limited to those expressly granted in this Agreement. No other rights with respect to Your Content or any related Intellectual Property Rights are implied.

4.3. Feedback. We will be free to use for any purpose any feedback (such as comments or suggestions) that you provide to us regarding the Service Offering. You hereby grant to us a non-exclusive, perpetual, irrevocable, royalty-free, transferable, worldwide right and license, with the right to sublicense, to use, reproduce, perform, display, disclose, distribute, modify, prepare derivative works of and otherwise exploit the feedback without restriction in any manner now known or in the future conceived and to make, use, sell, offer to sell, import and export any product or service that incorporates the feedback.

5. Order, Delivery, Payment, and Taxes.

5.1 Generally. Sections 5.3 (Direct Orders), 5.4 (Delivery), 5.5 (Invoicing and Payment Terms) and 5.6 (Taxes) apply only to orders you place directly with, and the Service Offering you purchase directly from, VMware. When ordering through, or purchasing the Service Offering from, a VMware authorized reseller, the authorized reseller might specify similar terms.

5.2 Orders. All Orders issued to VMware are subject to the terms of this Agreement and are not binding until accepted by VMware. We are not required to provide any Service Offering to you until you provide all information we require for processing your Order.

5.3 Direct Orders. For orders placed directly with VMware, you must issue a purchase order to VMware for the initial Service Offering order, but a purchase order is not required for the monthly billings that occur after the initial Order billing. For subsequent billings, all fees (including subscription renewals, metered usage components, and other add-ons) will be paid in accordance with this Agreement. Your Order will be deemed accepted when we authorize the purchased Service Offering for your Login Credentials.

5.4 Delivery. When VMware accepts your Order for the Service Offering, we will deliver the corresponding Login Credentials to you by email to the address associated with your account. If VMware ships a physical object in connection with an add-on feature of the Service Offering, shipping and delivery terms are Ex Works VMware's regional fulfillment facility (INCOTERMS 2010).

5.5 Invoicing and Payment Terms. You will pay all fees for use of the Service Offering in the amount and currency specified in your invoice, within 30 days after the date of the invoice, and regardless of your usage level during a billing period. You will also be responsible for all additional fees for any subscription renewals and metered usage components consumed, and other subscriptions, features, products, services or add-ons that you purchase within the Service Offering. You will be billed in advance for the monthly or prepaid charges due to the subscription services purchased. Any metered usage components and any initial monthly fees will be billed in arrears. The applicable fees for subscriptions (including renewals), features and other available products and

services will be governed by the then-current applicable price list at the time the initial, renewal, or add-on order is submitted, or as otherwise agreed. We may increase or add new fees for the Service Offering by notifying you at least 30 days in advance.

5.6 Taxes. Service Offering fees are exclusive of taxes, and you shall pay or reimburse for all taxes arising out of transactions contemplated by this Agreement. If you are required to pay or withhold any tax for payments due under this Agreement, you shall gross your payments to us so we receive sums due in full and free of any deductions. You will provide documentation to us showing that taxes have been paid to the relevant taxing authority. " **Taxes**" means any sales, VAT, use, gross receipts, business and occupation, and other taxes (other than taxes on our income), export and import fees, customs duties and similar charges imposed by any government or other authority. You hereby confirm that we can rely on the name and address you provide to us when you agree to the Service Offering or in connection with your payment method as being the place of supply for sales tax and income tax purposes or as being the place of supply for VAT purposes where you have established your business.

6. Temporary Suspension.

6.1 Generally. Upon prior written notice to you, we may suspend your use of the Service Offering if we reasonably determine: (a) payment for the Service Offering is not received within 30 days from the date on which payment is due; (b) you or your use of the Service Offering is in breach of this Agreement; (c) you fail to address our request to take action as specified in Section 3.3; (d) your use of the Service Offering poses a security risk to the Service Offering or other users of the Service Offering; or (e) suspension is required pursuant to our receipt of a subpoena, court order, or other request by a law enforcement agency.

6.2 Effect of Suspension. You will remain responsible for all fees incurred before or during the suspension. You will not be entitled to any service credits under the Service Level Agreement that you might have otherwise accrued during the period of suspension.

7. Term and Termination.

7.1 Term of Agreement. This Agreement will be in effect through the Subscription Term, plus any renewals, unless terminated earlier as permitted under this Agreement or the Service Description. Upon the completion of the Subscription Term, the subscription will automatically renew as specified in the Service Description, unless terminated as permitted under the Service Description.

7.2 Termination for Cause. We may terminate this Agreement effective immediately upon sending you an email notice if: (a) you breach any provision in Sections 3.1 or 3.2; (b) you do not resolve the underlying cause resulting in a suspension of your account pursuant to Section 6.1 (other than suspension due to a subpoena, court order, or other request by a law enforcement agency) within 10 days after your account is suspended; or (c) you commit a material breach that cannot be cured.

7.3 Termination for Insolvency. We may terminate this Agreement effective immediately upon sending you an email notice if you: (a) terminate or suspend your business; (b) become insolvent, admit in writing your inability to pay your debts as they mature, make an assignment for the benefit of creditors; or (c) become subject to control of a trustee, receiver or similar authority or any bankruptcy or insolvency proceeding.

7.4 Effect of Termination. Upon the termination of this Agreement for any reason: (a) all rights granted to you under this Agreement, including your ability to access the Service Offering, will immediately terminate; and (b) you must promptly discontinue all use of the Service Offering and delete or destroy any of our Confidential Information. We will retain Your Content for a period of 30

days following the effective date of the termination, although you will cease to have access to the Service Offering or Your Content during this period. After the 30 days, Your Content will be deleted. Sections 1.6 (Open Source Software), 3 (Acceptable Use) 4 (IP Ownership), 5 (Order, Delivery, Payment and Taxes), 7 (Term and Termination), 9 (Disclaimer), 11 (Limitation of Liability), 12 (Confidential Information), 13 (General), and 14 (Definitions), will survive the termination of this Agreement. Termination of the Service Offering (except to the extent that the termination is permitted under Section 13.3 of this Agreement or Section 3.6 of the Service Description) will not entitle you to any refunds, credits, or exchanges, and you will be liable for all monthly billing fees for the remainder of the Subscription Term after termination, as well as all usage and other fees incurred up to the termination date.

8. Support and Subscription Services. When applicable, and subject to the terms of this Agreement, we will provide to you support for the Service Offering in accordance with the terms specified in the Support Policy. We will not provide support to any end users of Your Content.

9. Disclaimer. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, WE AND OUR LICENSORS AND SERVICE PROVIDERS DISCLAIM ALL WARRANTIES, WHETHER EXPRESS, IMPLIED, OR STATUTORY, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT AND ANY WARRANTIES ARISING FROM COURSE OF DEALING OR COURSE OF PERFORMANCE REGARDING OR RELATING TO THE SERVICE OFFERING OR ANY MATERIALS OR SERVICES FURNISHED OR PROVIDED TO YOU UNDER THIS AGREEMENT. WE AND OUR LICENSORS AND SERVICE PROVIDERS DO NOT WARRANT THAT THE SERVICE OFFERING WILL BE UNINTERRUPTED OR FREE FROM DEFECTS, OR THAT THE SERVICE OFFERING WILL MEET (OR IS DESIGNED TO MEET) YOUR BUSINESS REQUIREMENTS.

10. Indemnification.

10.1 Indemnification by Customer. You will defend and indemnify us against any third party claim arising from or relating to: (a) Your Content; (b) any infringement or misappropriation of any Intellectual Property Rights by you, your customers, your end users or your suppliers; (c) violation of law by you; (d) your use of the Service Offering (including any activities under your account and any use by your employees, personnel or end users) in violation of this Agreement, or (e) your use of any Third Party Content. We will (a) provide you with notice of the claim within a reasonable period of time after learning of the claim; and (b) reasonably cooperate in response to your requests for assistance. You may not settle or compromise any indemnified claim without our prior written consent.

10.2 Defense and Indemnification. Subject to the remainder of this Section 10, we will defend you against an Infringement Claim and indemnify you from the resulting costs and damages finally awarded against you to that third party by a court of competent jurisdiction or agreed to in settlement. You will (a) provide us with notice of any Infringement Claim within a reasonable period of time after learning of it; (b) allow us sole control over the claim's defense and settlement; and (c) reasonably cooperate in response to our requests for assistance. You may not settle or compromise any Infringement Claim without our prior written consent.

10.3 Remedies. If the Service Offering becomes, or in our opinion is likely to become, the subject of an Infringement Claim, we will at our option and expense either: (a) procure the rights necessary for you to keep using the Service Offering; (b) modify or replace the Service Offering to make it non-infringing; or (c) terminate this Agreement and refund any pre-paid fees for the Service Offering pro-rated for its remaining Subscription Term.

10.4 Exclusions. We will have no obligation under this Section 10 or otherwise with respect to any

claim based on: (a) a combination of VMware Software with non-VMware products or content, including Your Content; (b) use of the Service Offering for a purpose or in a manner not specified in this Agreement or the Service Description; (c) any modification to the Service Offering made without our express written approval; or (d) any Service Offering provided on a no charge basis. This Section 10 states your exclusive remedy for any infringement actions or claims.

11. Limitation of Liability.

11.1 Generally. TO THE MAXIMUM EXTENT PERMITTED BY LAW, IN NO EVENT WILL WE OR OUR LICENSORS OR SERVICE PROVIDERS BE LIABLE FOR ANY LOST PROFITS OR BUSINESS OPPORTUNITIES, LOSS OF USE OF THE SERVICE OFFERING, LOSS OF REVENUE, LOSS OF GOODWILL, BUSINESS INTERRUPTION, LOSS OF DATA, OR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES UNDER ANY THEORY OF LIABILITY, WHETHER BASED IN CONTRACT, TORT, NEGLIGENCE, PRODUCT LIABILITY, OR OTHERWISE. IN ADDITION, OUR AND OUR LICENSORS' AND SERVICE PROVIDERS' LIABILITY UNDER THIS AGREEMENT WILL NOT, IN ANY EVENT, REGARDLESS OF WHETHER THE CLAIM IS BASED IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, EXCEED THE GREATER OF: (A) THE AGGREGATE FEES PAID OR PAYABLE TO US FOR YOUR ACCESS TO AND USE OF THE SERVICE OFFERING IN THE TWELVE (12) MONTHS PRIOR TO THE EVENT GIVING RISE TO YOUR CLAIM, OR (B) $5,000 USD (OR THE EQUIVALENT IN LOCAL CURRENCY). REGARDLESS OF WHETHER WE OR OUR LICENSORS OR SERVICE PROVIDERS HAVE BEEN ADVISED OF THE POSSIBILITY OF THOSE DAMAGES AND REGARDLESS OF WHETHER ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. THESE LIMITATIONS OF LIABILITY IN THIS SECTION 11.1 WILL NOT APPLY TO (A) VMWARE'S INDEMNIFICATION OBLIGATIONS UNDER THIS AGREEMENT OR (B) ANY LIABILITY WHICH MAY NOT BE EXCLUDED BY APPLICABLE LAW.

11.2 Further Limitations. Our licensors and service providers will have no liability of any kind under this Agreement. You may not bring a claim under this Agreement more than eighteen (18) months after the cause of action arises.

12. Confidential Information.

12.1 Protection. A party may use Confidential Information of the other party solely to exercise its rights and perform its obligations under this Agreement or as otherwise permitted under this Agreement. Each party will disclose the Confidential Information of the other party only to the employees, service providers or contractors of the recipient party who have a need to know the Confidential Information for purposes of this Agreement and who are under a duty of confidentiality no less restrictive than each party's duty hereunder. Each party will use reasonable care to protect the confidentiality of the other party's Confidential Information.

12.2 Exceptions. The recipient's obligations under Section 12.1 with respect to any Confidential Information will terminate if the recipient can show by written records that the information: (a) was already known to the recipient at the time of disclosure by the other party; (b) was disclosed to the recipient by a third party who had the right to make the disclosure without any confidentiality restrictions; (c) is, or through no fault of the recipient has become, generally available to the public; or (d) was independently developed by the recipient without access to, or use of, discloser's Confidential Information. The recipient may disclose Confidential Information to the extent the disclosure is required by law or regulation. The recipient will provide the other party notice, when practicable, and will take reasonable steps to contest and limit the scope of any required disclosure.

13. General.

13.1 Assignment. You may not assign or transfer this Agreement, in whole or in part, by operation of law or otherwise, without our prior written consent. Any attempted assignment or transfer without that consent will be void. Subject to these limits, this Agreement will bind and inure to the benefit of the parties and their respective successors and assigns.

13.2 Notices. Any notice delivered by us to you under this Agreement will be delivered by email to the email address associated with your account or by posting on either the Service Offering Portal or the My VMware Portal, except as otherwise set forth in this Agreement. Please direct legal notices or other correspondence to VMware, Inc., 3401 Hillview Avenue, Palo Alto, California 94304, United States of America, Attention: Legal Department.

13.3 Modifications. We may change periodically the Service Offering, the terms of your access to the Service Offering, this Agreement, the Service Description, the Privacy Addendum, the Third Party Terms, the Service Level Agreement, or the Support Policy. It is your responsibility to regularly check the Service Offering console and the My VMware portal for updates. We will notify you of any material, detrimental change to this Agreement, the Service Description, the Privacy Addendum, the Service Level Agreement, or the Support Policy. The modified Agreement, Service Description, Privacy Addendum, Service Level Agreement, or Support Policy, as applicable, will become effective as of the date stated in that notification. If we make a material, detrimental change to the Service Offering (other than the termination or modification of any beta feature or functionality), this Agreement, the Service Description, the Privacy Addendum, the Service Level Agreement, or the Support Policy, then you may terminate this Agreement within 30 days of the change to the Service Offering or within 30 days of the notification. In that event, the termination will be effective as of the date we receive your notification, unless you state an effective date in your notification that is within 45 days after we receive your notification. In the event of that termination, we will refund any prepaid fees, pro-rated for the remainder of your Subscription Term, and less any discounts that would then not be earned. Your continued use of the Service Offering after the effective date of any modification to the Agreement, the Service Description, the Privacy Addendum, the Third Party Terms, the Service Level Agreement, or the Support Policy will be deemed acceptance of the modified terms, as applicable.

13.4 Waiver. The waiver of a breach of any provision of this Agreement will not constitute a waiver of any other provision or any later breach.

13.5 Severability. If any provision of this Agreement is held to be invalid or unenforceable, the provision will be enforced to the maximum extent permissible so as to effect the intent of the parties, and the remaining provisions of this Agreement will remain in force.

13.6 Compliance with Laws; Export Control. Each party will comply with all laws applicable to the actions contemplated by this Agreement. You acknowledge that the Service Offering is of United States origin, is provided subject to the U.S. Export Administration Regulations (including "deemed export" and "deemed re-export" regulations), and may be subject to the export control laws of the applicable territory. You represent and warrant that (a) you are not, and are not acting on behalf of, (1) any person who is a citizen, national, or resident of, or who is controlled by the government of any country to which the United States has prohibited export transactions; or (2) any person or entity listed on the U.S. Treasury Department list of Specially Designated Nationals and Blocked Persons, or the U.S. Commerce Department Denied Persons List or Entity List; (b) you will not permit the Service Offering to be used for any purposes prohibited by law, including any prohibited development, design, manufacture or production of missiles or nuclear, chemical or biological weapons; (c) Your Content will not be classified or listed on the United States Munitions list, contain defense articles, defense services or contain ITAR-related data; (d) Your Content will not require an export license and is not restricted from export to any VMware global resource or personnel under applicable export control laws; and (e) you are not subject, either directly or indirectly, to any order

issued by any agency of the United States government, revoking or denying, in whole or in part, your United States export privileges. You will notify VMware immediately if you become subject to any such order.

13.7 Government Regulations. For purposes of sales to government entities in the U.S.: The Service Offering and its documentation are deemed to be "commercial computer software" and "commercial computer software documentation," respectively, pursuant to DFARS Section 227.7202 and FAR Paragraph 12.212(b), as applicable. Any use, modification, reproduction, release, performing, displaying or disclosing of the Service Offering and documentation by or on behalf of the U.S. Government will be governed solely by the terms and conditions of this Agreement.

13.8 Force Majeure. We will not be liable for any delay or failure to perform any obligations under this Agreement due to any cause beyond our reasonable control, including acts of God, labor disputes or other industrial disturbances, systemic electrical, telecommunications or other utility failures, earthquakes, storms or other elements of nature, blockages, embargoes, riots, acts or orders of government, acts of terrorism or war.

13.9 Construction. The headings of sections of this Agreement are for convenience and are not for use in interpreting this Agreement. As used in this Agreement, the word 'including' means "including but not limited to."

13.10 Governing Law. This Agreement is governed by the laws of the State of California, United States of America (excluding its conflict of law rules), except as follows: To the extent that you choose a Japan data center Service Offering, then this Agreement is governed by the laws of Japan (excluding its conflict of law rules). The United Nations Convention for the International Sale of Goods does not apply.

13.11 Third Party Rights. Other than as expressly set out in this Agreement, this Agreement does not create any rights for any person who is not a party to it, and no person who is not a party to this Agreement may enforce any of its terms or rely on any exclusion or limitation contained in it.

13.12 Order of Precedence. The terms of this Agreement will supersede and control over any conflicting or additional terms and conditions of any other purchasing related document issued by you.

13.13 Entire Agreement. This Agreement, as may be revised by us, is the entire agreement of the parties regarding its subject matter. This Agreement supersedes all prior or contemporaneous communications, understandings and agreements, whether written or oral, between the parties regarding its subject matter.

14. Definitions.

14.1 "Confidential Information" means non-public technical, business or other information or materials disclosed or otherwise made available by one party that are in tangible form and labeled "confidential" or the like, or, information which is provided under circumstances reasonably indicating their confidentiality. Our Confidential Information includes: (1) Login Credentials; and (2) any information or materials relating to the Service Offering.

14.2 "Infringement Claim" means any third party claim that any VMware Software used to provide the Service Offering infringes any patent, trademark or copyright of the third party, or misappropriates a trade secret (but only to the extent that the misappropriation is not a result of your actions) under the laws of: (a) the United States; (b) Canada; (c) the European Economic Area; (d) Australia; (e) New Zealand; (f) Japan; or (g) the People's Republic of China, to the extent that those

countries are part of your places of use of the Service Offering.

14.3 "Intellectual Property Rights" means all worldwide intellectual property rights, including copyrights, trademarks, service marks, trade secrets, patents, patent applications, and moral rights, whether registered or unregistered.

14.4 "Login Credentials"mean any passwords, authentication keys or security credentials that enable your access to and management of the Service Offering.

14.5 "Order" means the internet order page, order document, purchase order, or purchase agreement issued to VMware that specifies your purchase of the Service Offering.

14.6 "Privacy Addendum" means the then-current version of the Service Offering Data Privacy Addendum document available at http://vcloud.vmware.com/legal, which we may modify from time to time.

14.7 "Service Description" means the then-current Service Offering Service Description document available at https://www.vmware.com/files/pdf/vcloud-air/vcloud-air-Service-Description.pdf, which contains technical and other information and which we may modify from time to time.

14.8 "Service Level Agreement" means the then-current Service Level Agreement document available at https://www.vmware.com/support/vcloud-air/sla.html, which we may modify from time to time.

14.9 "Subscription Term" means the time period of your access to the Service Offering, as specified by your Order.

14.10 "Support Policy" means the then-current version of the Service Offering Support Policy document available at http://www.vmware.com/support/services/iaas-production.html, which we may modify from time to time.

14.11 "Third Party Content" means third party data, service, content, software or applications, including open source software.

14.12 "Third Party Terms" means the then-current version of the third party license terms applicable to the Service Offering that are available at https://www.vmware.com/files/pdf/support/vmware-vcloud-air-third-party-terms.pdf, which we may modify from time to time.

14.14 "VMware Software" means the software programs listed in our commercial price list.

14.15 "Your Content" means any and all applications, files, information, data or other content uploaded to or published or displayed through the Service Offering by you, your users, us (acting upon your instructions as part of a service), or any third party users who access any service you provide with the Service Offering.

OpenGov Statement of Work

1. Project Scope and Understanding

This Statement of Work ("SOW") outlines the Professional Services OpenGov will provide to City of Port St. Lucie, FL ("Customer") under the applicable Order Form. Professional Services or technical requirements not listed in this SOW are out of scope.

2. Exhibits

The following exhibits are incorporated by reference and are part of this SOW:

- 2.1. Exhibit 1: Implementation Activities
  - 2.1.1. Government App Builder - Capital Budget & Project Management
- 2.2. Exhibit 2: Technical Requirements
  - 2.2.1. Government App Builder

3. OpenGov Responsibilities

OpenGov will provide a framework for planning, communication, progress tracking, and coordination for activities in Exhibit 1. In collaboration with Customer, OpenGov will develop and maintain the Project Plan. The "Project Plan" is a detailed, living document that defines how the project will be executed, including tasks, timelines, milestones, and team assignments. OpenGov will monitor progress against the Project Plan, coordinate adjustments to tasks and schedules as needed, and conduct status meetings as agreed to by the parties. OpenGov will provide weekly status reports, a Project Charter, and a RAID register (Risks, Actions, Issues, and Decisions). The "Project Charter" is a high-level document outlining the project's purpose, goals, key stakeholders, success criteria, and major milestones.

4. Customer Responsibilities

The Customer will appoint a primary point of contact with authority to make binding decisions ("Customer's Project Manager"). This person will coordinate internal resources, assign subject matter experts ("SMEs"), and oversee implementation. Responsibilities include attending status meetings, making timely decisions, providing requested information, escalating issues internally, and collaborating on the Project Plan and Change Order process, if applicable.

Customer acknowledges that the success of this project is contingent on its full participation. Customer must provide data within ten (10) business days of a request, maintain consistent data formats and access throughout the project, and allocate the necessary Customer resources and time to support deliverables and meet agreed-upon timelines.

Any failure by Customer to meet its responsibilities under this SOW (each, a "Customer Delay") will automatically suspend the affected obligations of OpenGov

for the duration of the Customer Delay and for a reasonable restart period thereafter. All affected milestones, delivery dates, and service-level commitments will be extended on a day-for-day basis (or as otherwise reasonably necessary) to account for the Customer Delay, and may result in an adjustment of the fees if OpenGov incurs additional time, materials, or other costs as a result. Under no circumstances will any consequence of a Customer Delay constitute a breach by OpenGov of this SOW or of the Agreement, nor will OpenGov be liable for any failure to meet a performance obligation that is caused, in whole or in part, by a Customer Delay.

5. Project Delivery

OpenGov will perform services under this SOW remotely. OpenGov may use a combination of OpenGov personnel and OpenGov-trained implementation partners to deliver the services described in this SOW.

6. Estimated Schedule

The specific timeline, including order of delivery of the product(s), will be determined during the project planning activities in the Initiate Phase. Services are estimated to begin within two (2) weeks and no later than four (4) weeks from contract signature. OpenGov reserves the right to adjust the schedule based on the availability of Customer or OpenGov resources, and the timeliness of deliverables provided by the Customer.

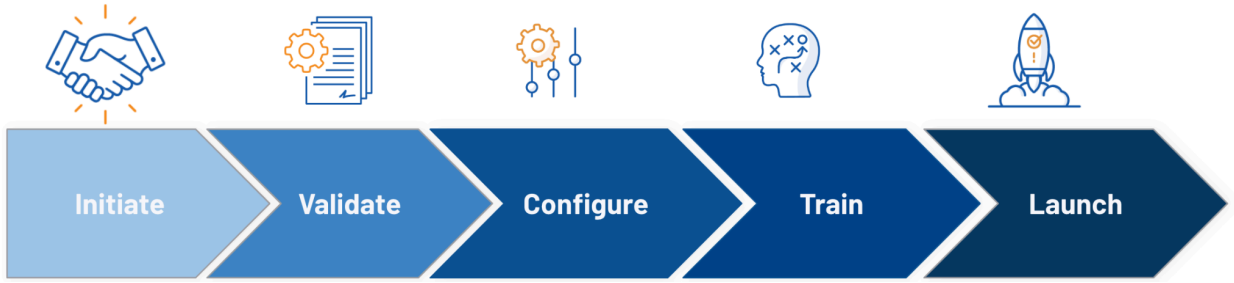
7. Acceptance Procedure

OpenGov will submit completed deliverables to the Customer's Project Manager for review. Within five (5) business days of receipt, the Customer's Project Manager will either provide written acceptance or a list of requested revisions. In the event there are requested revisions, the subsequent review period for acceptance will follow the same timeline until final acceptance. If Customer does not respond within this period, the deliverable will be deemed accepted. Once a deliverable is accepted, any requested changes will require a paid Change Order.

Acceptance milestones and review timelines will be tracked in the Project Plan. Both parties acknowledge that delays in task completion or unresolved issues may impact the project timeline. If OpenGov determines in good faith that Customer is not fulfilling its responsibilities under this SOW, OpenGov may place services on hold following a minimum of five (5) business days' written notice. The notice will specify the actions needed to progress the project. During the hold period, OpenGov may reallocate resources without penalty and will not be responsible for resulting delays.

8. Modifications

The fees and estimated timeline are based on the scope and assumptions in this SOW. If either party determines that a change to the scope is necessary, the parties



will collaborate to define the required modification, which may result in fee adjustments based on OpenGov's standard rates. All modifications must be documented in a written Change Order and signed by both parties ("Change Order"). Examples of changes include revisions to the project timeline, deliverables, or resource allocation.

9. Communication and Escalation Procedure

OpenGov and Customer agree to maintain regular communication in alignment with the Project Plan to ensure progress, resolve questions promptly, and minimize risk. Both parties will raise any issues or concerns in a timely manner. If challenges are not resolved through standard project discussions, Customer and OpenGov Project Managers will escalate to their respective executive leadership teams to jointly determine a resolution and align on a path to successful implementation.

Exhibit 1: Implementation Activities

OpenGov Implementation Methodology Overview

Every OpenGov implementation follows a five-phase hybrid methodology designed to ensure a structured and collaborative deployment. The phases are:

1. Initiate – OpenGov provisions access and performs initial system setup.
2. Validate – OpenGov works with the Customer to confirm requirements and review initial configurations.
3. Configure – OpenGov completes system configuration as outlined in this SOW.
4. Train – OpenGov provides training to system administrators and/or end users, as applicable.
5. Launch – OpenGov provides post-go-live support and transitions the Customer to OpenGov's Customer Success Team.

Each implementation is structured around these phases. Deliverables, sign-offs, and completion criteria are aligned to the relevant phase.

Capital Budget & Project Management

Project Oversight

Overview
Provide strategic coordination and day-to-day project management to maintain scope, quality, and schedule across all workstreams.

OpenGov Responsibilities

- Assign a dedicated Project Manager; maintain RAID log; lead status cadence; coordinate OpenGov and City tasks; manage decision/approval checkpoints; surface risks and mitigation.

Customer Responsibilities

- Assign a City PM; ensure SME participation; review weekly updates; make timely decisions; escalate blockers.

Boundaries & Assumptions

- Remote delivery by default; City provides access to required systems and stakeholders.

Completion Criteria

- Project artifacts current; milestones achieved; formal closeout completed.

Initiate

Overview
Kickoff; environment provisioning; role mapping; initial backlog; project governance and shared workspace setup.

OpenGov Responsibilities

- Conduct kickoff; provision GAB tenant; configure initial roles; establish collaboration hub; draft initial configuration backlog and plan.

Customer Responsibilities

- Confirm project team and decision owners; validate access; provide branding, org/department structure, and initial process documents (intake forms, CO/SOV templates, compliance and invoice approval workflows).

Boundaries & Assumptions

- City supplies user list and security roles within five (5) business days of request.

Completion Criteria

- Access confirmed; governance and plan baselined; configuration backlog approved to move to Validate.

Validate

Overview
Structured checkpoint to confirm scope, data sources, integration methods, and acceptance criteria; finalize sprint plan.

OpenGov Responsibilities

- Facilitate working sessions; confirm data model and import strategy; finalize integration approach (API vs. file); define reporting inventory; lock initial sprint backlog.

Customer Responsibilities

- Provide sample datasets (CIP inventory, project budgets, funding sources, procurement contracts, invoices, CO/SOV examples), approval matrices, and compliance checklists; confirm integration contacts for Procurement, EAM/Cartograph, Budget/ERP, GIS, and (optionally) permitting.

Boundaries & Assumptions

- Additional requirements identified here may require change order.

Completion Criteria

- Solution blueprint approved; readiness confirmed; begin Configure.

Configure

CIP Intake & Prioritization

Overview
Standardize multi-department project intake, scoring, and portfolio selection.

OpenGov Responsibilities

- Build intake forms; configure scoring criteria and weights; enable cross-department routing and approvals; set portfolio views and summaries.

Customer Responsibilities

- Provide scoring rubric and approval roles; supply sample intakes; validate workflows.

Boundaries & Assumptions

- Up to 4 unique intake forms.

Completion Criteria

- Intake and scoring live with role-based access and approval flow validated.

Capital Budget & Funding Model

Overview
Support 5–15 year planning; map projects to multiple funding sources (local, bonds, grants) with controls.

OpenGov Responsibilities

- Configure funding source tables; allocation rules; multi-year planning views; import baseline capital plan; set debt/bond linkages where provided.

Customer Responsibilities

- Provide funding catalogs and business rules; supply baseline CIP plan; confirm budget rollup logic.

Boundaries & Assumptions

- ERP integration limited to agreed export/import or API endpoints; complex debt modeling is out of scope.

Completion Criteria

- Multi-year plan and allocations visible; validations in place; baseline loaded.

Project Scheduling & Milestones

Overview
Provide project timelines with Gantt, dependencies, milestones, and task ownership.

OpenGov Responsibilities

- Configure schedule objects; milestone templates by project type; task assignments and notifications; import one schedule per pilot project; enable calendar views.

Customer Responsibilities

- Provide milestone templates and task owners; validate dependencies; maintain dates once live.

Boundaries & Assumptions

- External scheduling tools (e.g., MS Project/Primavera) integrations are not included.

Completion Criteria

- Schedules functional; notifications working; sample schedules validated.

Spend & Approval Management

Overview
Route and track encumbrances, pay apps/invoices, and budget drawdowns against allocations.

OpenGov Responsibilities

- Configure approval workflows by amount/fund/dept; set pre-check controls; map to chart segments and FAW logic where applicable; enable dashboards for available vs. encumbered vs. invoiced.

Customer Responsibilities

- Provide approval matrices, account structures, FAW or equivalent, and sample invoices; identify exception paths.

Boundaries & Assumptions

- Real-time actuals feed depends on ERP connectivity; otherwise imports will be scheduled.

Completion Criteria

- Requests route correctly; drawdown and variance dashboards reflect configured data.

Contracts, Change Orders & Schedule of Values (SOV)

Overview
Centralize vendor contracts, amendments, SOV line items, and change order approvals.

OpenGov Responsibilities

- Configure contract objects; SOV structure; CO request/approval workflow; versioning and audit trail; import a pilot contract record with SOV; link to Procurement vendor records where available.

Customer Responsibilities

- Provide contract and SOV templates; CO thresholds and approvers; sample historical records.

Boundaries & Assumptions

- No external contractor portal; attachments stored as documents; Bluebeam/Adobe remain for mark-ups.

Completion Criteria

- Contracts/SOV/CO workflows live; audit logs and document links validated.

Compliance & Document Control

Overview
Embed compliance checklists and evidence capture for labor standards, environmental, and grant conditions.

OpenGov Responsibilities

- Configure checklist templates (Davis-Bacon/prevailing wage, Section 3, environmental review, Buy America as applicable); enable attestations and file capture; set assignment and reminders; produce compliance reports.

Customer Responsibilities

- Supply policy/checklist content; define evidence standards and retention; identify compliance reviewers.

Boundaries & Assumptions

- Native certified payroll ingestion not included; evidence captured as documents.

Completion Criteria

- Checklists live; assignments and reminders operating; sample compliance package produced.

Reporting & Dashboards

Overview
Deliver portfolio, finance, schedule, and compliance dashboards for executives and PMs; prepare optional public view.

OpenGov Responsibilities

- Configure role-based dashboards (executive, portfolio, department, PM); build standard reports (table/summary/chart/map/calendar); enable exports.

Customer Responsibilities

- Prioritize KPIs; validate layout and filter logic; identify public-facing content (if Option D selected).

Boundaries & Assumptions

- Up to 5 internal dashboards and 20 KPI reports included in core.

Completion Criteria

- Dashboards and reports approved; export formats verified.

Integrations

OpenGov Procurement (Pro)

Overview
Link projects to awarded contracts/vendors; import contract metadata; support intake continuity where applicable.

OpenGov Responsibilities

- Map fields; establish record links; schedule import/API as available; test and document flows.

Customer Responsibilities

- Provide field mappings and sample award data; coordinate access with system admin.

Boundaries & Assumptions

- Data exchange limited to agreed objects/fields; changes in Pro configuration may require mapping updates.

Completion Criteria

- Linked records present; sync job(s) successful; reconciliation test passed.

OpenGov EAM

Overview
Surface asset/work order context for capital projects; enable reference from projects to assets.

OpenGov Responsibilities

- Configure project↔asset link fields; import reference lists; provide links to work orders.

Customer Responsibilities

- Provide asset IDs and crosswalks; confirm linkage rules by project type.

Boundaries & Assumptions

- Core delivery includes reference linking; bi-directional work order sync in Option C.

Completion Criteria

- Asset references visible on projects; sampled links validated.

Budget/ERP (budget & actuals exchange)

Overview
Exchange budget/actuals to support controls and reporting.

OpenGov Responsibilities

- Configure imports/exports; schedule jobs; validate totals against source reports.

Customer Responsibilities

- Provide data extracts or API access; confirm reconciliation rules.

Boundaries & Assumptions

- One inbound actuals feed and one outbound budget/encumbrance export included.

Completion Criteria

- Periodic loads successful; reconciliation report accepted.

GIS/Esri Map Overlays

Overview
Display project footprints and right-of-way impacts; support coordination with permitting.

OpenGov Responsibilities

- Configure map layers and project geometry fields; set up read-only Esri services; enable filterable map views.

Customer Responsibilities

- Provide authoritative map services; maintain layer availability.

Boundaries & Assumptions

- Read-only overlays in core; editing geometries requires additional scope.

Completion Criteria

- Map views render correctly; sample layer filters approved.

Data Migration

Overview
Seed the system with **active:** projects, funding sources, and key contracts for continuity (up to twenty five (25) projects.

OpenGov Responsibilities

- Provide import templates; perform field mapping; run one test load + one final load; deliver record counts and variance report.

Customer Responsibilities

- Prepare clean datasets; validate sample; approve final import.

Boundaries & Assumptions

- Data cleansing is a City responsibility; additional iterations charged separately.

Completion Criteria

- Data visible and validated; variance report signed off.

Train

Overview
Role-based enablement for admins, PMs, finance, and department contributors.

OpenGov Responsibilities

- Deliver admin training (forms, workflows, reports, permissions); deliver end-user training for PMs/approvers; provide recordings and quick-start guides.

Customer Responsibilities

- Ensure attendance; complete practice scenarios; confirm readiness.

Boundaries & Assumptions

- Remote delivery; two waves included (admins; end users).

Completion Criteria

- Training completed; admins and users can perform core tasks; readiness confirmed.

Launch

Overview
Hypercare support during go-live and transition to Customer Success.

OpenGov Responsibilities

- Monitor system; resolve early-life issues; conduct post-launch review; transition to Customer Success.

Customer Responsibilities

- Report issues; participate in review; sign Solution Acceptance.

Boundaries & Assumptions

- Hypercare is time-boxed per LOE; subsequent requests move to support/success.

Completion Criteria

- Go-live complete; known issues addressed or queued; acceptance signed.

Exhibit 2: Technical Requirements

Government App Builder Technical Requirements

- Migration
    - All data must be accessible to OpenGov in Excel or CSV format
    - Maximum historical record count: 500
- Flat File Integrations
    - Customer must
        - Provide OpenGov with the export file (a delimited file) from the external system
        - Automate the export and/or import of data into and out of the external system.
- API Integrations
    - Customer is responsible for:
        - Fees associated with purchasing the external system
        - Providing OpenGov with access to the API and/or access to technical staff from that vendor.
        - Access to a test instance of the third party API including a URL, authentication credentials, and relevant documentation.
        - Changes to scope resulting from a change in the third-party vendor's API.
        - Testing expected workflows and data in both test and production environments
    - To display a location on a map, the third party system must be able to provide location data via their API, as shapes or coordinates. Text addresses are limited to populating address fields.

Agenda Summary

2026-493

Agenda Date: 6/22/2026 **Agenda Item No.:** 7.d

Placement: Consent Agenda

Action Requested: Motion / Vote

Approve Amendment #1 to Renew Contract #20250312 for Legislative and Government Representation and Consulting Services with The P5 Group, LLC.

Submitted By: A'lexis Curry-Hibbert Procurement Contracts Officer II, Procurement Management Division (PMD).

Strategic Plan Link: The City's Goal of a high-performing city government organization.

Summary Brief (Agreements/Contracts only)

1. Prepared by: A'lexis Curry-Hibbert Procurement Contracts Officer II, PMD.
2. Parties: City of Port St. Lucie and The P5 Group, LLC.
3. Purpose: To provide the City with collaborative economic development support, legislative engagement, pursuit of funding opportunities, strategic communication input, and targeted assistance for Port St. Lucie Utility System priorities.
4. New/Renewal/Modified: Modified.
5. Duration: The initial term began on Sep 1, 2025, through Aug 31, 2026. Amendment #1 renews the Contract for an additional 12-month term, through August 31, 2027.
6. Benefits to Port St. Lucie: The P5 Group provides Port St. Lucie with seasoned legislative representation, strategic policy guidance, and strong advocacy at the state level.
7. Cost to Port St. Lucie (Annual and Potential): The original Contract amount was $5,416 per month, totaling $64,992 annually. Amendment #1 maintains the same pricing.

Presentation Information: N/A.

Staff Recommendation: Move that the Council approve Amendment #1 to Contract #20250312 for Legislative and Government Representation and Consulting Services with The P5 Group, LLC.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve Amendment #1 to Contract #20250312.
2. Move that the Council Move that the Council not approve Amendment #1 to Contract #20250312 and provide staff with direction.

Background: The P5 Group, LLC, a comprehensive governmental affairs and public policy consulting firm headquartered in Florida, was established in 2011 by former Florida Senate President Ken Pruitt. The City of

Port St. Lucie enlisted their expertise to secure a second seasoned legislative representation and knowledgeable policy guidance at the state level. The firm actively champions every City initiative, ensuring that Port St. Lucie's interests are well represented. Their efforts led to an unprecedented milestone for the City, with three projects incorporated into the state's budget. The P5 Group demonstrates remarkable responsiveness by swiftly advocating for policies that benefit and protect the City. Their extensive, long-standing relationships with influential state leaders and agencies prove invaluable, particularly when navigating critical initiatives and challenges.

Issues/Analysis: The original Contract was under the threshold for City Council approval, however, the cumulative funds that will be added to the Contract under Amendment #1 require City Council approval under City Code of Ordinances, Section 35.09(a). Section 35.09(a) mandates that when a contract "approved under the City Manager's authority is increased and such increase raises the contract price to above the City's Manager's approval threshold, such increase must be authorized by City Council."

Financial Information: Funds will be appropriated in the City Manager professional services line (#001-1200-53100).

CONTRACT AMENDMENT

This Amendment #1 ("Amendment") to Contract # 20250312 – Legislative and Government Representation and Consulting Services ("the Contract"), by and between the City of Port St Lucie ("City") and the Contractor, as defined below, shall be effective as of the date this Amendment is fully executed.

Contractor's Full Legal Name:	The P5 Group, LLC
Solicitation No./Event ID:	20250312
Solicitation Title/Event Name:	Legislative and Government Representation and Consulting Services
Contract Award Date:	Sep. 1, 2025
Initial Contract Term:	Sep. 1, 2025 through Aug. 31, 2026
Current Contract Expiration Date:	Aug. 31, 2026
Requested Contract Expiration Date:	Aug. 31, 2027
Initial Contract Amount:	$5,416 monthly ($64,992 annually)
Current Contract Amended Amount:	$5,416 monthly ($64,992 annually)
Requested Financial Change Amount:	$0.00
New Contract Amount:	$5,416 monthly ($64,992 annually)
Amendment No.:	1
Amendment Type:	**Renewal**

WHEREAS, the Contract, including any previous amendments, is in effect through the

Current Contract Expiration Date, as defined above; and

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties do hereby agree as follows:

The following modifications to the Terms and Conditions contained in Contract are hereby incorporated and made a part of that Contract.

1. **RENEWAL**. The parties hereby agree that the Contract will be renewed for an additional period, as follows:

    a. Renew Contract term for an additional twelve (12) months, as follows:

    - Beginning Date of Amendment Term: **Sep. 1, 2026**
    - End Date of Amendment Term: **Aug. 31, 2027**

    b. The parties agree the Contract will expire at midnight on the date defined as the "End Date of Amendment Term" unless the parties agree in a duly executed writing to extend the Contract for an additional period.

2. **SUCCESSORS AND ASSIGNS**. This Amendment shall be binding upon and inure to the benefit of the successors and permitted assigns of the parties hereto.
3. **ENTIRE AGREEMENT.** Except as expressly modified by this Amendment, the Contract, including any written amendments thereto, shall be and remain in full force and effect in accordance with its terms and shall constitute the legal, valid, binding, and enforceable obligations of the parties. This Amendment and the Contract, including any written amendments thereto, collectively, are the complete agreement of the parties and supersede any prior agreements or representations, whether oral or written, with respect thereto.

Balance of page left intentionally blank

IN WITNESS WHEREOF, the parties have caused this Amendment to be duly executed by their authorized representatives.

CITY OF PORT ST. LUCIE
CONTRACT #20250312

This CONTRACT executed this 1ST day of September 2025, by and between the CITY OF PORT ST. LUCIE, FLORIDA, a municipal corporation, duly organized under the laws of the State of Florida, hereinafter called "City," and the P5 Group, LLC, 2835 Sherry Brook Lane, Lutz, Florida, 33559; (772) 971-5760, hereinafter called "Contractor" or "Proposer." City and Contractor may be referred to herein individually as a "party" or collectively as the "parties."

SECTION I
RECITALS

In consideration of the below agreements and covenants set forth herein, the parties agree as follows:

WHEREAS, Contractor is licensed in the State of Florida; and

WHEREAS, the City wishes to contract with a contractor for Legislative and Government Representation and Consulting Services, as well as other tasks more specifically described in this Contract; and

WHEREAS, Contractor is qualified, willing, and able to provide the Work specified on the terms and conditions set forth herein; and

WHEREAS, the City desires to enter into this Contract with Contractor to perform the Work specified and in the amount as agreed upon below.

NOW THEREFORE, in consideration of the premises and the mutual covenants herein, the parties agree as follows:

The Recitals set forth above are hereby incorporated into this Contract and made a part hereof for reference.

SECTION II
NOTICES

All notices or other communications hereunder shall be in writing and shall be deemed duly given if delivered in person, sent by certified mail with return receipt request, email with read receipt, or by Fed-EX, UPS, courier or other similar and reliable carrier and addressed as follows, unless written notice of a change of address is given pursuant to the provisions of this Contract. Each such notice shall be deemed to have been provided:

A. The same day, if sent via email with read receipt.

B. Within one (1) day in the case of overnight hand delivery, courier, or Services such as Fed-Ex or UPS with guaranteed next day delivery; or,

C. Within seven (7) days after it is deposited in the U.S. Mail in the case of registered U.S. Mail.

From time to time, the parties may change the name and address of the person designated to receive notice. Such change of the designated person or their designees and/or address shall be in writing to the other party and as provided herein.

SECTION III
DESCRIPTION OF SERVICES TO BE PROVIDED

Contractor agrees to provide, and the City agrees to retain, services as outlined in the Scope of Work below.

The Scope of Work includes, but is not limited to, the following responsibilities as agreed upon by both parties:

Economic Development & Collaboration: Contractor will collaborate with the City to expand economic development opportunities by engaging with governmental partners and service providers.

Legislative Engagement: Contractor will schedule and facilitate meetings between the City and key decision-makers on issues identified by the City. At the City's request, the Contractor will communicate the City's positions to the St. Lucie County Legislative Delegation and state legislative leaders regarding proposed legislation.

Funding & Grants: Contractor will pursue state funding opportunities, including state-sponsored and federally passed-through grants, for the City's prioritized initiatives.

Strategic Communication: Contractor will contribute to the City's communication strategy by providing input that highlights the efficiency of the City's governance and the benefits it delivers to residents.

Support for Utility System Priorities: Contractor will provide targeted support for the priorities of the Port St. Lucie Utility System through the services outlined above including a focus on water policy.

SECTION IV
TIME OF PERFORMANCE

The Contract Period start date will begin upon the date last executed and will terminate twelve (12) months thereafter.

SECTION V

RENEWAL OPTION

The parties may, upon mutual agreement memorialized through a duly executed Contract Amendment, agree to renew the Contract for an additional period, as set forth in such agreement.

SECTION VI
COMPENSATION

The total amount to be paid by the City to the Contractor is on a monthly basis, in the amount of $5,416 per month.

Contractor shall invoice the City on the first day of each month. The City shall pay each invoice as provided by law. No further compensation is contemplated under this Contract.

All invoices and correspondence relative to this Contract must contain the City's Contract number, detail of items with prices that correspond to the Contract, and a unique invoice number.

All invoices are to be sent to the Project Manager.

The Contractor shall not be paid additional compensation for any loss or damage arising out of the nature of the work, from the action of the elements, or from any delay or unforeseen obstruction or difficulties encountered in the performance of the work, or for any expenses incurred by or in consequence of the suspension or discontinuance of the work.

In the event the City deems it expedient to perform work which has not been done by the Contractor as required by these Specifications, or to correct work which has been improperly and/or inadequately performed by the Contractor as required in these Specifications, all expenses thus incurred by the City, at the City's option, will be invoiced to the Contractor and/or deducted from payments due to the Contractor. Deductions thus made will not excuse the Contractor from other penalties and conditions contained in the Contract.

All payments not made within the time specified by this section shall bear interest from thirty (30) calendar days after the due date at the rate of one (1) percent per month on the unpaid balance.

SECTION VII
INDEMNIFICATION/HOLD HARMLESS

Contractor agrees to indemnify, defend, and hold harmless, the City, its officers, agents, and employees from, and against any and all claims, actions, liabilities, losses, and expenses including, but not limited to, attorney's fees for personal, economic, or bodily injury, wrongful death, loss of or damage to property, at law or in equity, which may arise or may be alleged to have risen from the negligent acts, errors, omissions or other wrongful conduct of Contractor, agents, laborers, subcontractors or other personnel entity acting under Contractor's control in connection with the Contractor's performance of services under this Contract. To that extent, Contractor shall pay such claims and losses and shall pay all such costs and judgments which may issue from any lawsuit arising from such claims and losses including wrongful termination or allegations of discrimination or harassment, and shall pay all costs and attorney's fees expended by the City in defense of such claims and losses, including appeals. That the aforesaid hold-harmless agreement by Contractor shall apply to all damages and claims for damages of every kind suffered, or alleged to have been suffered, by reason of any of the aforesaid operations of Contractor or any agent, laborers, subcontractors, or employee of Contractor regardless of whether or not such insurance policies shall have been determined to be applicable to any of such damages or claims for damages. Contractor shall be held responsible for any violation of laws, rules, regulations, or ordinances affecting in any way the conduct of all persons engaged in or

the materials or methods used by Contractor on the work. This indemnification shall survive the termination of this Contract.

SECTION VIII
SOVEREIGN IMMUNITY

Nothing contained in this Contract shall be deemed or otherwise interpreted as waiving the City's sovereign immunity protections existing under the laws of the State of Florida, or as increasing the limits of liability as set forth in section 768.28, Florida Statutes.

SECTION IX
INSURANCE

The Contractor shall, on a primary basis and at its sole expense, agree to maintain in full force and effect at all times during the life of this Contract, insurance coverage and limits, including endorsements, as described herein. The requirements contained herein, as well as City's review or acceptance of insurance maintained by Contractor are not intended to and shall not in any manner limit or qualify the liabilities and obligations assumed by Contractor under the Contract.

The parties agree and recognize that it is not the intent of the City of Port St. Lucie that any insurance policy/coverage that it may obtain pursuant to any provision of this Contract will provide insurance coverage to any entity, corporation, business, person, or organization, other than the City of Port St. Lucie and the City shall not be obligated to provide any insurance coverage other than for the City of Port St. Lucie or extend its sovereign immunity pursuant to section 768.28, Florida Statutes, under its self-insured program. Any provision contained herein to the contrary shall be considered void and unenforceable by any party. This provision does not apply to any obligation imposed on any other party to obtain insurance coverage for this project and/or any obligation to name the City of Port St. Lucie as an additional insured under any other insurance policy or otherwise protect the interests of the City of Port St. Lucie as specified in this Contract.

1. Workers' Compensation Insurance & Employer's Liability: The Contractor shall agree to maintain Workers' Compensation Insurance & Employers' Liability in accordance with section 440, Florida Statutes. Employers' Liability must include limits of at least $100,000.00 each accident, $100,000.00 each disease/employee, $500,000.00 each disease/maximum. A Waiver of Subrogation endorsement shall be provided. Coverage shall apply on a primary basis. Should scope of work performed by Contractor qualify its employee(s) for benefits under Federal Workers' Compensation Statute (for example, U.S. Longshore & Harbor Workers Act or Merchant Marine Act), proof of appropriate Federal Act coverage must be provided.

2. Commercial General Liability Insurance: The Contractor shall agree to maintain Commercial General Liability insurance issued under an Occurrence form basis, including Contractual liability, to cover the hold harmless agreement set forth herein, with limits of not less than:

Each occurrence	$1,000,000
Personal/advertising injury	$1,000,000
Products/completed operations aggregate	$2,000,000
General aggregate	$2,000,000
Fire damage	$100,000 any 1 fire
Medical expense	$10,000 any 1 person

3. Additional Insured: An Additional Insured endorsement **must** be attached to the certificate of insurance and must include coverage for on-going and Completed Operations (should be ISO CG2037 & CG2010) under the General Liability policy. Products & Completed Operations coverage to be provided for a minimum of five (5) years from the date of possession by City or completion of Contract. Coverage is to be written on an occurrence form basis. Coverage shall apply on a primary and non-contributory basis. A per project aggregate limit endorsement should be attached. Defense costs are to be in addition to the limit of liability. A waiver of subrogation shall be provided in favor of the City. Coverage for the hazards of explosion, collapse and underground property damage (XCU) must also be included when applicable to the work performed. No exclusion for mold, silica or respirable dust or bodily injury/property damage arising out of heat, smoke, fumes, or hostile fire shall apply. Coverage shall extend to independent contractors and fellow employees. Contractual Liability is to be included. Coverage is to include a cross liability or severability of interests' provision as provided under the standard ISO form separation of insurers clause.

   Except as to Workers' Compensation, Employers' Liability, and Professional Liability, said Certificate(s) and policies shall clearly state that coverage required by the Contract has been endorsed to include the City of Port St. Lucie, a municipality of the State of Florida, its officers, agents and employees as Additional Insured added to its Commercial General Liability policy and Business Auto policy. The name for the Additional Insured endorsement issued by the insurer shall read: **"City of Port St. Lucie, a municipality of the State of Florida, its officers, employees and agents shall be listed as additional insured and shall include Contract #20250312 – Legislative and Governmental Representation and Consulting Services."** The Policies shall be specifically endorsed to provide thirty (30) days written notice to the City prior to any adverse changes, cancellation, or non-renewal of coverage thereunder. All notices shall be sent to the Procurement Management Division, 121 SW Port St. Lucie Blvd., Port St. Lucie, Florida 34984. In the event that the statutory liability of the City is amended during the term of this Contract to exceed the above limits, the Contractor shall be required, upon thirty (30) days written notice by the City, to provide coverage at least equal to the amended statutory limit of liability of the City. Copies of the Additional Insured endorsements including Completed Operations coverage shall be attached to the Certificate of Insurance.

4. Business Automobile Liability Insurance: The Contractor shall agree to maintain Business Automobile Liability at a limit of liability not less than $1,000,000.00 each accident covering any auto, owned, non-owned and hired automobiles. In the event the Contractor does not own any automobiles, the Business Auto Liability requirement shall be amended allowing Contractor to agree to maintain only Hired & Non-Owned Auto Liability. This amended requirement may be satisfied by way of endorsement to the Commercial General Liability, or separate Business Auto Coverage form. Certificate holder must be listed as additional insured. A waiver of subrogation shall be provided. Coverage shall apply on a primary non-contributory basis.

5. Professional Liability Insurance: Contractor shall agree to maintain Professional Liability, or equivalent Errors & Omissions Liability, at a limit of liability not less than $2,000,000 Per Occurrence. When a self-insured retention (SIR) or deductible exceeds $10,000, the City reserves the right, but is not obligated, to review and request a copy of Contractor's most recent annual report or audited financial statement. For policies written on a "Claims-Made" basis, Consultant warrants that the retroactive date equals or precedes the effective date of this Contract. In the event the policy is canceled, non-renewed, switched to an Occurrence Form, retroactive date advanced, or any other event triggering the right to purchase a Supplemental Extended Reporting Period (SERP) during the life of this Contract, Contractor shall agree to purchase a SERP with a minimum reporting period not less than four (4) years. If policy contains an exclusion for dishonest or criminal acts, defense coverage for the same shall be provided.

6. Waiver of Subrogation: By entering into this Contract, Contractor agrees to a Waiver of Subrogation for each required policy. When required by the insurer, or should a policy condition not permit an insured to

enter into a pre-loss contract to waive subrogation without an endorsement, then Contractor shall agree to notify the insurer and request the policy be endorsed with a Waiver of Transfer of Rights of Recovery Against Others, or its equivalent. This Waiver of Subrogation requirement shall not apply to any policy where a condition to the policy specifically prohibits such an endorsement, or voids coverage should Contractor enter into such a contract on a pre-loss basis.

7. Deductibles: All deductible amounts shall be paid for and be the responsibility of the Contractor for any and all claims under this Contract. Where an SIR or deductible exceeds $5,000, the City of Port St. Lucie reserves the right, but is not obligated, to review and request a copy of the Contractor's most recent annual report or audited financial statement.

It shall be the responsibility of the Contractor to ensure that all independent contractors and/or subcontractors comply with the same insurance requirements as listed herein, including Products & Completed Operations coverage for a minimum of five (5) years from the date of possession by City or completion of Contract. It will be the responsibility of the Contractor to obtain Certificates of Insurance from all contractors and subcontractors listing the City as an Additional Insured, without the language, "when required by written contract." If Contractor, any independent contractors, and/or any subcontractors maintain higher limits than the minimums shown above, the City requires and shall be entitled to coverage for the higher limits maintained by Contractor/independent contractor/subcontractor.

The Contractor may satisfy the minimum limits required above for either Commercial General Liability, Business Auto Liability, or Employers' Liability coverage under Umbrella or Excess Liability. The Umbrella or Excess Liability shall have an Aggregate limit not less than the highest "Each Occurrence" limit for either Commercial General Liability, Business Auto Liability, or Employers' Liability. When required by the insurer, or when Umbrella or Excess Liability is written on Non-Follow Form," the City shall be endorsed as an "Additional Insured."

The City, by and through its Risk Management Department, reserves the right, but is not obligated, to review, modify, reject, or accept any required policies of insurance including limits, coverages, or endorsements, herein from time to time throughout the term of this Contract. All insurance carriers must have an AM Best rating of at least A:VII or better.

A failure on the part of the Contractor to execute the Contract and/or punctually deliver the required insurance, and other documentation may be cause for annulment of the award.

SECTION X
PROHIBITION AGAINST FILING OR MAINTAINING LIENS AND SUITS

Subject to the laws of the State of Florida and of the United States, neither Contractor nor any subcontractor, supplier of materials, laborer, or other person or entity shall file or maintain any lien for labor or materials delivered in the performance of this Contract against the City. The right to maintain such lien for any or all the above parties is hereby expressly waived.

SECTION XI
COMPLIANCE WITH LAWS

The Contractor shall give all notices required by and shall otherwise comply with all applicable laws, ordinances, and codes and shall, at his own expense, secure and pay the fees and charges for all permits required for the performance of the Contract. All materials furnished and works done are to comply with all federal, state, and local laws and regulations. Contractor will comply with all requirements of 28 C.F.R. § 35.151.

SECTION XII
PUBLIC RECORDS

Contractor and any subcontractors shall comply with section 119.0701, Florida Statutes. The Contractor and any subcontractors are to allow public access to all documents, papers, letters, or other material made or received by the Contractor in conjunction with this Contract, unless the records are exempt from Article I, section 24(a), Florida Constitution, and section 119.07(1)(a), Florida Statutes. Pursuant to section 119.10(2)(a), Florida Statutes, any person who willfully and knowingly violates any of the provisions of chapter 119, Florida Statutes, commits a misdemeanor of the first degree, punishable as provided in sections 775.082 and 775.083, Florida Statutes.

RECORDS

The City of Port St. Lucie is a public agency subject to chapter 119, Florida Statutes. The Contractor shall comply with Florida's Public Records Laws. CONTRACTOR'S RESPONSIBILITY FOR COMPLIANCE WITH CHAPTER 119, FLORIDA STATUTES. Pursuant to section 119.0701, Florida Statutes, Contractor agrees to comply with all public records laws, specifically to:

Keep and maintain public records required by the City in order to perform the service.

A. The timeframes and classifications for records retention requirements must be in accordance with the General Records Schedule GS1-SL for State and Local Government Agencies and GS2 for Criminal Justice Agencies and District Medical Examiners.

B. During the term of the Contract, the Contractor shall maintain all books, reports, and records in accordance with generally accepted accounting practices and standards for records directly related to this Contract. The form of all records and reports shall be subject to the approval of the City.

C. Records include all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business with the City. Contractor's records under this Contract include, but are not limited to, supplier/subcontractor invoices and contracts, project documents, meeting notes, emails and all other documentation generated during this Contract.

D. The Contractor agrees to make available to the City, during normal business hours all books of account, reports and records relating to this Contract.

E. A Contractor who fails to provide the public records to the City within a reasonable time may also be subject to penalties under section 119.10, Florida Statutes.

Upon request from the City's custodian of public records, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in chapter 119 or as otherwise provided by law.

Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Contract term and following completion of the Contract if the Contractor does not transfer the records to the City.

Upon completion of the Contract, transfer, at no cost to the City, all public records in possession of the Contractor or keep and maintain public records required by the City to perform the service. If the Contractor transfers all public records to the City upon completion of the Contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the Contract, the Contractor shall meet all applicable requirements for

retaining public records. All records stored electronically must be provided to the City, upon request from the City's custodian of public records, in a format that is compatible with the information technology systems of the City.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

CITY CLERK
121 SW Port St. Lucie Blvd.
Port St. Lucie, FL 34984
(772) 871 5157
prr@cityofpsl.com

TRADE SECRETS

Any material submitted to the City that Contractor contends constitutes or contains trade secrets or is otherwise exempt from production under Florida public records laws (including chapter 119, Florida Statutes) ("Trade Secret Materials"), must be separately submitted and conspicuously labeled: "EXEMPT FROM PUBLIC RECORD PRODUCTION – TRADE SECRET." In addition, simultaneous with the submission of any Trade Secret Materials, the Contractor shall provide a sworn affidavit from a person with personal knowledge attesting that the Trade Secret Materials constitute trade secrets under section 688.002, Florida Statutes, and stating the factual basis to support the attestation. If a third party submits a request to the City for records designated by the Contract as Trade Secret Materials, the City shall refrain from disclosing the Trade Secret Materials, unless otherwise ordered by a court of competent jurisdiction or authorized in writing by the Contractor. Contractor shall indemnify and defend the City, its employees, agents, assigns, successors, and subcontractors from any and all claims, causes of action, losses, fines, penalties, damages, judgments, and liabilities of any kind, including attorney's fees, litigation expenses, and court costs, relating to the nondisclosure of any Trade Secret Materials in response to a records request by a third party.

SECTION XIII
SCRUTINIZED COMPANIES

By entering into this Contract with the City, Contractor certifies that it and those related entities of Contractor, as defined by Florida law, are not on the Scrutinized Companies that Boycott Israel List, created pursuant to section 215.4725, Florida Statutes, and are not engaged in a boycott of Israel. The City may terminate this Contract if Contractor or any of those related entities of Contractor, as defined by Florida law, are found to have submitted a false certification or any of the following occur with respect to the company or a related entity: (i) it has been placed on the Scrutinized Companies that Boycott Israel List, or is engaged in a boycott of Israel, or (ii) for any contract for goods or services of one million dollars or more, it has been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or it is found to have been engaged in business operations in Cuba or Syria. Notwithstanding the preceding, the City reserves the right and may, in its sole discretion, on a case by case basis, permit a company on such lists or engaged in business operations in Cuba or Syria to be eligible for, bid on, submit a proposal for, or enter into or renew a contract for goods or services of one million dollars or more, or may permit a company on the Scrutinized Companies that Boycott Israel List to be eligible for, bid on, submit a proposal for, or enter into or renew a contract for goods or services of any amount, should the City determine that the conditions set forth in section 287.135(4), Florida Statutes, are met.

SECTION XIV
CONTRACT ADMINISTRATION

Amendments. The City and the Contractor agree that they will, from time to time, execute, acknowledge, and deliver, or cause to be executed, acknowledged, and delivered, such supplements hereto and such further instruments as may reasonably be required for carrying out the expressed intention of the Contract. The Contract may be amended in writing from time to time by mutual consent of the parties. All amendments to the Contract must be in writing and fully executed by duly authorized representatives of the City and the Contractor.

Fiscal Year- All reference to Fiscal Year shall mean the City's Fiscal Year. The City's Fiscal Year is from October 1st through September 30th.

Joint Venture. Nothing in the Contract shall be construed as creating or constituting the relationship of a partnership, joint venture, or other association of any kind or agent and principal relationship, between the vested parties. Each party shall be deemed to be an independent contractor contracting for the services and acting toward the mutual benefits expected to be derived from the mutually agreed upon Contract. Neither Contractor nor any of Contractor's agents, employees, subcontractors, or contractors shall become or be deemed to become agents, or employees of the City. Contractor shall therefore be responsible for compliance with all laws, rules, and regulations involving its employees and any subcontractors, including, but not limited to, employment of labor, hours of labor, health and safety, working conditions, workers' compensation insurance, and payment of wages. No party has the authority to enter into any contract or create an obligation or liability on behalf of, in the name of, or binding upon another party to the Contract.

Performance by Industry Standards. The Contractor represents and expressly warrants that all aspects of the Services provided or used by it shall, at a minimum, conform to the standards in the Contractor's industry. This requirement shall be in addition to any express warranties, representations, and specifications included in the Contract, which shall take precedence

Permits, Licenses, and Certifications. The Contractor shall be responsible for obtaining all permits, licenses, certifications, etc., required by Federal, State, County, and Municipal laws, regulations, codes, and ordinances for the performance of the work required in these specifications and to conform with the requirements of said legislation. The Contractor shall be required to complete a **W-9 Taxpayer Identification Form,** provided with the City's Contract, and return it with the signed contract and insurance documents.

Use of Name or Intellectual Property. Contractor agrees it will not use the name or any intellectual property, including but not limited to, City trademarks or logos in any manner, including commercial advertising or as a business reference, without the express prior written consent of the City.

Waiver. Except as specifically provided for in a waiver signed by duly authorized representatives of the City and the Contractor, failure by either party at any time to require performance by the other party or to claim a breach of any provision of the Contract shall not be construed as affecting any subsequent right to require performance or to claim a breach. Each waiver, if mutually agreed upon, shall be published as a Contract amendment.

SECTION XV
ADDITIONAL REQUIREMENTS

City's Public Relations Image – The Contractor's personnel shall at all times handle complaints and any public contact with due regard to the City's relationship with the public. Any personnel in the employ of the Contractor

involved in the execution of work that is deemed to be conducting himself in an unacceptable manner shall be removed from the project at the request of the City Manager.

Dress Code – All personnel in the employ of the Contractor shall be appropriately attired. Employees engaged in the course of work shall wear company uniforms neat and clean in appearance, readily identifiable to all City employees and the public. Tee shirts with obscene pictures or writings shall not be allowed. Swimsuits, tank tops, shorts and sandals are also prohibited. Safety-toed shoes shall be worn at all times.

Patent Fees, Royalties, and Licenses – If the Contractor requires or desires to use any design, trademark, device, material or process covered by letters of patent or copyright, the Contractor and his surety shall indemnify and hold harmless the City from any and all claims for infringement in connection with the work agreed to be performed. The Contractor shall indemnify the City from any cost, expense, royalty, or damage which the City may be obligated to pay by reason of any infringement at any time during the prosecution of or after completion of the work.

Contractual Relations – The Contractor(s) are advised that nothing contained in the Contract or specifications shall create any contractual relations between the City and subcontractor(s) of the Contractor.

Labor and Equipment – The Contractor shall utilize experienced personnel who are thoroughly capable of performing the work assigned to them. The Contractor shall utilize proper equipment in good repair to perform assigned work. Failure on the part of the Contractor to furnish such labor or equipment shall be sufficient cause for annulment of any award resulting from these specifications.

SECTION XVI
INSPECTION AND CORRECTION OF DEFECTS

In order to determine whether the required materials have been delivered or the required work performed in accordance with the terms and conditions of the Contract documents, the Project Manager shall make inspection as soon as practicable after receipt from the Contractor of a Notice of Performance or delivery ticket. If such inspection shows that the required materials have been delivered and required work performed in accordance with terms and conditions of the Contract documents and that the material and work is entirely satisfactory, the Project Manager shall approve the invoice when it is received. Thereafter the Contractor shall be entitled to payment, as described in Section VI. However, if, upon such inspection the Project Manager is not satisfied, he shall as promptly as practicable inform the parties hereto of the specific respects in which his findings are not favorable. Contractor shall then be afforded an opportunity if desired by him, to correct the deficiencies so pointed out at no additional charge to the City, and otherwise on terms and conditions specified by the Project Manager. Upon failure of the Contractor to perform the work in accordance with the Contract Documents, including any requirements with respect to the Schedule of Completion, and after five (5) days written notice to the Contractor, the City may, without prejudice to any other remedy it may have, correct such deficiencies. The Contractor shall be charged all costs incurred to correct deficiencies. Such examination, inspection, or tests made by the Project Manager, at any time, shall not relieve Contractor of his responsibility to remedy any deviation, deficiency, or defect.

SECTION XVII
LICENSING

Contractor warrants that it and its employees possess all licenses and certifications necessary to perform required work and is not in violation of any laws. Contractor warrants that such licenses and certificates are current and will be maintained throughout the duration of the Contract.

SECTION XVIII
ASSIGNMENT

Contractor shall not delegate, assign, or subcontract any part of the work under this Contract or assign any monies due him hereunder without first obtaining the written consent of the City. If Contractor sells all or a majority of its shares, merges with, or otherwise is acquired by or unifies with a third party, it shall notify the City within ten (10) days. If after such notice, the City determines in its sole discretion, it may terminate the Contract, without penalty. The City's consent to any assignment is strictly conditioned upon the third party assuming all obligations under the Contract as it exists at the time of the assignment and/or assumption. Contractor shall ensure that any business transaction complies with the terms of this section, and failure to so comply shall render any alleged assignment and/or assumption void.

SECTION XIX
TERMINATION, DELAYS, AND LIQUIDATED DAMAGES

A. **Termination for Cause** – The occurrence of any one or more of the following events shall constitute cause for the City to declare the Contractor in default of its obligations under the Contract:

I. The Contractor fails to deliver or has delivered nonconforming services or fails to perform, to the City's satisfaction, any material requirement of the Contract or is in violation of a material provision of the Contract, including, but without limitation, the express warranties made by the Contractor;

II. The Contractor fails to make substantial and timely progress toward performance of the Contract;

III. In the event the Contractor is required to be certified or licensed as a condition precedent to providing the Services, the revocation or loss of such license or certification may result in immediate termination of the Contract effective as of the date on which the license or certification is no longer in effect;

IV. The Contractor becomes subject to any bankruptcy or insolvency proceeding under federal or state law to the extent allowed by applicable federal or state law including bankruptcy laws; the Contractor terminates or suspends its business; or the City reasonably believes that the Contractor has become insolvent or unable to pay its obligations as they accrue consistent with applicable federal or state law;

V. The Contractor has failed to comply with applicable federal, state, and local laws, rules, ordinances, regulations, and orders when performing within the scope of the Contract;

VI. If the City determines that the actions, or failure to act, of the Contractor, its agents, employees, or subcontractors have caused, or reasonably could cause, life, health, or safety to be jeopardized;

VII. The Contractor has engaged in conduct that has or may expose the City to liability, as determined in the City's sole discretion; or

VIII. The Contractor furnished any statement, representation, or certification in connection with the Contract, which is materially false, deceptive, incorrect, or incomplete.

B. **Notice of Default.** Except as provided in Section XXIII.C, if there is a default, breach, or noncompliance event caused by the Contractor, the City shall provide written notice to the Contractor requesting that the breach, default, or noncompliance be remedied within the period specified in the City's written notice to the Contractor. If the breach or noncompliance is not remedied within the period specified in the written notice, the City may:

I. Immediately terminate the Contract without additional written notice(s); and/or
II. Enforce the terms and conditions of the Contract and seek any legal or reasonable remedies; and/or
III. Procure substitute services from another source and charge the difference between the Contract and the substitute contract to the defaulting Contractor. Such a charge, in the City's option, may be invoiced to the Contractor and/or may be deducted from payments due to the Contractor. Deductions thus made will not excuse the Contractor from other penalties and conditions contained in the Contract.

C. **Irreparable or Irreversible Breach, Default, or Noncompliance.** The parties agree that there may be certain breaches, defaults, or acts or omissions of noncompliance that are, by their very nature, irreparable or irreversible. In the event there is a breach, default, or noncompliance that is irreparable or irreversible, the City may immediately take any or all actions listed under Section XXIII.B.I-III, upon notice to Contractor of its decision to exercise such right(s). Whether a breach, default, or noncompliance is irreparable or irreversible will be determined in the sole discretion of the City.

D. **Termination for Convenience.** The City, in its sole discretion, may terminate this Contract at any time without cause, by providing at least thirty (30) days' prior written notice to Contractor. Following termination without cause, the Contractor shall be entitled to compensation upon submission of invoices and proper proof of claim, for services provided under the Contract to the City up to the time of termination, pursuant to Florida law.

E. **Conversion of Termination for Cause to Termination for Convenience.** If the City terminates this Contract for cause, and the basis for such termination is later found to be insufficient, then the termination shall automatically convert to a termination for convenience.

SECTION XX
APPROPRIATION APPROVAL

The Contractor acknowledges that the City of Port St Lucie's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the City Council. The Contractor agrees that, in the event such appropriation is not forthcoming, this Contract may be terminated by the City effective the last date for which funding was appropriated and that no charges, penalties, or other costs shall be assessed.

SECTION XXI
LAW, VENUE, AND WAIVER OF JURY TRIAL

This Contract is to be construed as though made in and to be performed in the State of Florida and is to be governed by the laws of Florida in all respects without reference to the laws of any other state or nation. The venue of any action taken to enforce this Contract, arising out of this Contract, or related to this Contract, shall be in St. Lucie County, Florida.

The parties to this Contract hereby freely, voluntarily, and expressly, waive their respective rights to trial by jury on any issues so triable after having the opportunity to consult with an attorney.

SECTION XXII
CONFLICT OF INTEREST

The Contractor represents that it presently has no interest and shall acquire no interest, either directly or indirectly, which would conflict in any manner with the performance of services under this Contract, as provided for in section 112.311, Florida Statutes. The Contractor further warrants and agrees that it shall not employ any person having such interest to perform under this Contract.

The Contractor shall promptly notify the City in writing of all potential conflicts of interest prohibited by existing state law for any prospective business association, interest or other circumstance which may influence, or appear to influence, the Contractor's judgment or quality of services being provided under this Contract. Such written notification shall identify the prospective business association; the interest or circumstance; the nature of the work that the Contractor may undertake; and any additional information a reasonable person would want to consider to issue the opinion in the next sentence. The written notice shall also request that the City provide an opinion as to whether the association, interest, or circumstance would, in the sole opinion of the City, constitute a conflict of entered if entered into by the Contractor. The City agrees to notify the Contractor of its opinion within thirty (30) days of receipt of the Contractor's request for opinion. If, in the City's opinion, the prospective business association, interest, or circumstance would not constitute a conflict of interest by the Contractor, then the Contractor may enter into said association, interest, or circumstance and it shall not be deemed a conflict of interest with respect to the services provided by the Contractor to the City under the Contract, to the extent disclosed in Contractor's written request to the City.

SECTION XXIII
PROHIBITION AGAINST CONTINGENT FEES

The Contractor warrants that he or she has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor, to solicit or secure this Contract and that he has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Contract.

SECTION XXIV
ATTORNEY'S FEES

Each party is responsible for its own attorney's fees for any action arising from or related to this Contract. Each party expressly waives any right to seek attorney's fees from the other party, regardless of the source of such right.

SECTION XXV
CODE OF ETHICS

Contractor warrants and represents that its employees will abide by any applicable provisions of the State of Florida Code of Ethics in Chapter 112.311 et seq., Florida Statutes, and Code of Ethics Ordinances in Section 9.14 of the City of Port St. Lucie Code.

SECTION XXVI
POLICY OF NON-DISCRIMINATION

Contractor shall not discriminate against any person in its operations, activities, or delivery of services under this Contract. Contractor shall affirmatively comply with all applicable provisions of federal, state, and local equal employment laws and shall not engage in or commit any discriminatory practice against any person based on race, age, religion, color, gender, sexual orientation, national origin, marital status, physical or mental disability, political affiliation, or any other factor which cannot be lawfully used as a basis for service delivery.

SECTION XXVII
SEVERABILITY

The provisions of this Contract shall be deemed severable and if any portion of the Contract is found invalid or unenforceable, it shall not affect the validity or enforceability of the other provisions herein.

SECTION XXVIII
AUDITS

The Contractor shall establish and maintain a reasonable accounting system that enables the City to readily identify the Contractor's assets, expenses, costs of goods, and use of funds throughout the term of the Contract for a period of at least seven (7) years following the date of final payment or completion of any required audit, whichever is later. Records shall include, but are not limited to, accounting records, written policies and procedures; subcontract files (including proposals of successful and unsuccessful bidders, bid recaps, etc.); all paid vouchers including those for out-of-pocket expenses; other reimbursement supported by invoices; ledgers; canceled checks; deposit slips; bank statements; journals; original estimates; estimating worksheets; contract amendments and change order files; back charge logs and supporting documentation; insurance documents; payroll documents; timesheets; memoranda; and correspondence. The Contractor shall permit the City's authorized auditor or any authorized representative of the State, and where federal funds are involved, the Comptroller General of the United States, or any other authorized representative of the United States government, to access and examine, audit, excerpt and to make copies of all books, documents, papers, electronic or optically stored and created records, or other records relating or pertaining to this Contract kept by or under the control of the Contractor, including, but not limited to, those kept by the Contractor, its employees, agents, assigns, successors, and subcontractors. Such records shall be made available to the City during normal business hours at the Contractor's office or place of business. The Contractor shall not impose a charge for audit or examination of the Contractor's books and records. If an audit discloses incorrect billings or improprieties, the City reserves the right to charge the Contractor for the cost of the audit and appropriate reimbursement. Any adjustments and/or payments that must be made as a result of any such audit or inspection of the Contractor's invoices and/or records shall be made within a reasonable amount of time (not to exceed ninety (90) days) from presentation of the City's findings to the Contractor. Evidence of criminal conduct will be turned over to the proper authorities.

The Contractor shall ensure the City has these rights with Contractor's employees, agents, assigns, successors, and subcontractors, and the obligations of these rights shall be explicitly included in any subcontracts or agreements formed between the Contractor and any subcontractors to the extent that those subcontracts or agreements relate to fulfillment of the Contractor's obligations to the City.

SECTION XXIX
FORCE MAJEURE

Any deadline provided for in this Contract may be extended, as provided in this paragraph, if the deadline is not met because of one of the following conditions occurring with respect to that particular project or parcel: fire, strike,

explosion, power blackout, earthquake, volcanic action, flood, war, civil disturbances, terrorist acts, hurricanes, and Acts of God. When one of the foregoing conditions interferes with Contract performance, then the party affected may be excused from performance on a day-for-day basis to the extent such party's obligations relate to the performance so interfered with, provided, the party so affected shall use reasonable efforts to remedy or remove such causes of non-performance. The party so affected shall not be entitled to any additional compensation by reason of any day-for-day extension hereunder.

SECTION XXX
CONSTRUCTION

The title of the section and paragraph headings in this Contract are for reference only and shall not govern, suggest, or affect the interpretation of any of the terms or provisions within each section or this Contract as a whole. The use of the term "including" in this Contract shall be construed as "including, without limitation." Where specific examples are given to clarify a general statement, the specific language shall not be construed as limiting, modifying, restricting, or otherwise affecting the general statement. All singular words and terms shall also include the plural, and vice versa. Any gendered words or terms used shall include all genders. Where a rule, law, statute, or ordinance is referenced, it indicates the rule, law, statute, or ordinance in place at the time the Contract is executed, as well as may be amended from time to time, where application of the amended version is permitted by law.

The parties have participated jointly in the negotiation and drafting of this Contract and agree that both have been represented by counsel and/or had sufficient time to consult counsel, before entering into this Contract. In the event an ambiguity, conflict, omission, or question of intent or interpretation arises, this Contract shall be construed as if drafted jointly by the parties, and there shall be no presumption or burden of proof or persuasion based on which party drafted a provision of the Contract.

SECTION XXXI
E-VERIFY

The Contractor agrees to comply with section 448.095, Florida Statutes, including the following:

A. Contractor must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor. The Contractor must provide the City with sufficient proof of compliance with this provision before beginning work under this Contract.
B. If Contractor enters into a contract with a subcontractor, Contractor must require each and every subcontractor to provide the Contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontractor with an unauthorized alien. The Contractor shall maintain a copy of each and every such affidavit(s) for the duration of the Contract and any renewals thereafter.
C. The City shall terminate this Contract if it has a good faith belief that a person or an entity with which it is contracting has knowingly violated section 448.09(1), Florida Statutes.
D. Contractor shall immediately terminate any contract with any subcontractor if Contractor has, or develops, a good faith belief that the subcontractor has violated section 448.09(1), Florida Statutes. If the City has or develops a good faith belief that any subcontractor of Contractor knowingly violated section 448.09(1), Florida Statutes, or any provision of section 448.095, Florida Statutes, the City shall promptly notify the Contractor and order the Contractor to immediately terminate the contract with the subcontractor.
E. The City shall terminate this Contract for violation of any provision in this section. If the Contract is terminated under this section, it is not a breach of contract and may not be considered as such. If the City terminates this Contract under this section, the Contractor may not be awarded a public contract for at least

one (1) year after the date on which the Contract was terminated. A contractor is liable for any additional costs incurred by the City as a result of the termination of the contract.

F. The City, Contractor, or any subcontractor may file a cause of action with a circuit or county court to challenge a termination under section 448.095(5)(c), Florida Statutes, no later than twenty (20) calendar days after the date on which the Contract was terminated. The parties agree that any such a cause of action must be filed in St. Lucie County, Florida, in accordance with the Venue provision herein.

SECTION XXXII
NON-EXCLUSIVITY

The Contractor acknowledges and agrees that this Contract is non-exclusive.

SECTION XXXIII
DISCRIMINATORY, CONVICTED, AND ANTITRUST VIOLATOR VENDOR LISTS

Contractor certifies that neither it nor any of its affiliates, as defined in the statutes below, have been placed on the discriminatory vendor list under section 287.134, Florida Statutes; the convicted vendor list under section 287.133, Florida Statutes; or the antitrust violator vendor list under section 287.137, Florida Statutes. Absent certain conditions under these statutes, neither contractors nor their affiliates, as defined in the statutes, who have been placed on such lists may submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

SECTION XXXIV
COOPERATION WITH INSPECTOR GENERAL

Pursuant to section 20.055, Florida Statutes, it is the duty of every state officer, employee, agency, special district, board, commission, contractor, and subcontractor to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing pursuant to this section. Contractor understands and will comply with this statute.

SECTION XXXV
ENTIRE AGREEMENT

This Contract sets forth the entire agreement between Contractor and City with respect to the subject matter of this Contract. This Contract supersedes all prior and contemporaneous negotiations, understandings, and agreements, written or oral, between the parties. This Contract may not be modified except by the parties' mutual agreement set forth in writing and signed by the parties.

IN WITNESS WHEREOF, the parties have executed this Contract, the day and year first above written.

Placement: Consent Agenda

Action Requested: Motion / Vote

Approve Amendment #2 to Contract #20240046 for Professional Design Services for a New Public Works Administration Building.

Submitted By: Nathaniel Rubel, Procurement Assistant Director, Procurement Management Division (PMD).

Strategic Plan Link: The City's Goal of high-quality infrastructure and facilities.

Summary Brief (Agreements/Contracts only)

1. Prepared by: Nathaniel Rubel, Procurement Assistant Director, PMD.
2. Parties: City of Port St. Lucie and BEA Architects, Inc.
3. Purpose: Amendment #2 expands the Architect's allowance for increased construction administration activities, site visits, and reporting; adds civil engineering services for lift station and offsite force main design, survey and subsurface utility engineering, and permitting coordination; and threshold inspection services as required by Florida Statutes.
4. New/Renewal/Modified: Modified.
5. Duration: The initial term was from 09/24/2024 through 09/29/2026. Amendment #2 requests an extension of the Contract through 12/31/2027 to coincide with the anticipated completion date for construction.
6. Benefits to Port St. Lucie: Amendment #2 provides the required additional services due to expanded project scope, construction administration services related to increased site size and added civil infrastructure at the Cameo site, and provides for multi-agency coordination requirements.
7. Cost to Port St. Lucie (Annual and Potential): Amendment #2 adds an additional $235,995.00 for a new Contract total amount of $1,971,062.98.

Presentation Information: N/A.

Staff Recommendation: Move that the Council approve Amendment #2 to Contract #20240046 with BEA Architects, Inc. for Professional Design Services for a New Public Works Administration Building.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve Amendment #2 to Contract #20240046.
2. Move that the Council not approve Amendment #2 to Contract #20240046 and provide staff with direction.

Background: BEA Architects, Inc., is currently under contract with the City for the design of the new Public Works Administration Building. As the project transitions from the design to the construction phase, there is the need to amend BEA's scope to reflect anticipated additional services required due to the expanded project scope because of the project's relocation to the Cameo site.

Amendment #2 additional services include the following:

- Expanded Construction Administration (CA) allowance to be used for increased CA at the Cameo site including site visits, reporting, and interagency coordination.
- Civil Engineering Services
    - Due to lack of existing gravity sewer main adjacent to the project site, design of a new lift station and offsite force main connection are required to serve the project site.
    - Additional civil engineering is required to capture City directives to incorporate an aesthetic berm, truck turnaround, and rerouting of bypass drainage conveyance system.
    - Additional survey, subsurface utility engineering (SUE), and civil engineering services for the associated work.
- Threshold Inspection Services
    - Threshold inspection services as required by Florida Statutes and in compliance with the threshold inspection plan included in the project drawings.

Issues/Analysis: Staff has reviewed the proposed changes herein and found them to be fair and reasonable.

Financial Information: The funds are appropriated in Road & Bridge CIP Fund / Operations / Buildings (304-4105-562000-00000).

Special Consideration: N/A.

Location of Project: NE corner of SW Cameo Blvd. and SW Crosstown Parkway.

Attachments:

1. Amendment #2 signed.
2. Amendment #1.
3. Original Contract.

NOTE: All of the listed items in the "Attachment" section above are in the custody of the City Clerk. Any item(s) not provided in City Council packets are available upon request from the City Clerk.

Internal Reference Number: 26147-04.

Legal Sufficiency Review:

CONTRACT AMENDMENT

This Amendment #2 ("Amendment") to Contract #20240046 – Professional Design Services for a New Public Works Administration Building ("the Contract"), by and between the City of Port St Lucie ("City") and the Consultant, as defined below, shall be effective as of the date this Amendment is fully executed.

Consultant's Full Legal Name:	BEA Architects, Inc.
Solicitation No./Event ID:	20240046
Solicitation Title/Event Name:	Professional Design Services for a New Public Works Administration Building
Contract Award Date:	09/23/2024
Initial Contract Term:	09/24/2024 through 09/29/2026 – (735 Calendar Days)
Current Contract Expiration Date:	09/29/2026
Requested Contract Expiration Date:	12/31/2027
Initial Contract Amount:	$1,138,267.98
Current Contract Amended Amount:	$1,735,067.98
Requested Financial Change Amount:	$235,995.00
New Contract Amount:	$1,971,062.98
Amendment No.:	2
Amendment Type:	**Increase of Commodities**

WHEREAS, the Contract, including any previous amendments, is in effect through the

Current Contract Expiration Date, as defined above; and

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties do hereby agree as follows:

The following modifications to the Terms and Conditions contained in Contract are hereby incorporated and made a part of that Contract.

1. **SCOPE OF WORK**. The parties hereby agree that the Contract will be amended to include the additional Scope of Work, as follows:

   Additional services required due to expanded project scope, increased site size, added civil infrastructure, and multi-agency coordination requirements.

   a. Expanded Construction Administration (CA)
      - Allowance added to be used for increased CA, site visits, and reporting.
      - Consultant will have roles and responsibilities during construction administration, as set forth in the contractor's contract. Consultant has reviewed the proposed construction contract attached to the construction contract solicitation. Once the contractor's contract is fully executed, the Contract will be amended to include the specific requirements.

   b. Civil Engineering (per subconsultant proposal from KEITH attached hereto as Exhibit A)
      - Lift Station and offsite force main design.
      - Survey, SUE, and permitting coordination.

   c. Threshold Inspection Services (per subconsultant proposal from TLC Engineering Solutions attached hereto as Exhibit B)
      - Structural inspections per Florida Statutes.
      - Inspection reporting and coordination.

2. **EXTENSION**. The parties hereby agree that the Contract time of performance will be extended for an additional period, as follows:

   a. Extend Contract time of performance for an additional four hundred fifty-nine (459) days, for a new Contract time of performance expiration date of December 31, 2027.

   b. The parties agree the Contract time of performance will expire at midnight on the Requested Contract Expiration Date unless the parties agree in a duly executed writing to extend the Contract time of performance for an additional period.

3. **FEE SUMMARY**

   - Expanded Construction Administration Allowance: $130,000.00

- Civil Engineering: $ 56,795.00
- Threshold Inspection Services (Not to Exceed): $ 49,200.00
- **Total Additional Services: $235,995.00**

4. **SUCCESSORS AND ASSIGNS**. This Amendment shall be binding upon and inure to the benefit of the successors and permitted assigns of the parties hereto.
5. **ENTIRE AGREEMENT.** Except as expressly modified by this Amendment, the Contract, including any written amendments thereto, shall be and remain in full force and effect in accordance with its terms and shall constitute the legal, valid, binding, and enforceable obligations of the parties. This Amendment and the Contract, including any written amendments thereto, collectively, are the complete agreement of the parties and supersede any prior agreements or representations, whether oral or written, with respect thereto.

Balance of page left intentionally blank

IN WITNESS WHEREOF, the parties have caused this Amendment to be duly executed by their authorized representatives.

New Public Works Administration Building
Project Location: 1501 SW Cameo Blvd
Port St. Lucie, FL 34986
KEITH Project Number: 14129.00
Contract Addendum: #03
Project Manager: Noah Martin

DESCRIPTION OF ADDITIONAL SERVICES

Due to lack of existing gravity sanitary sewer main adjacent to the project site, a new lift station and offsite force main connection are required to serve the proposed site. In addition, CONSULTANT will revise onsite civil design to capture CITY directives to incorporate an aesthetic berm, truck turnaround and rerouting of bypass drainage conveyance system. CONSULTANT will provide additional Survey, SUE and Civil Engineering services for the associated work.

Project Exhibit (offsite force main):

MEETINGS AND COORDINATION

Task 002 Additional Project Meetings and Meetings with Permit Authorities

CLIENT has requested additional weekly progress meetings for the duration of the Design and permit phase of the project. As required by CLIENT, CONSULTANT will attend or participate in CLIENT scheduled coordination and progress meetings or telephone conferences in a weekly/bi-weekly basis. CONSULTANT will be represented at reoccurring team meetings by the project manager and when necessary, any team experts for specific disciplines. Additional meetings and coordination efforts will be required with the City of Port St Lucie Utility Department, FDOT Turnpike Authority for the offsite sewer design and drainage connection, and St Lucie West Services District (SLWSD) for the rerouting of the bypass drainage conveyance through the project site.

SURVEY SERVICES

Task 104 Specific Purpose Survey

CONSULTANT will finalize a Specific Purpose Survey of the site as shown within the red outlined area in the exhibit above, which has been partially completed under Task 103.

SUBSURFACE UTILITY ENGINEERING (SUE) SERVICES

CONSULTANT will follow ASCE Standard 38-22 – “Standard Guidelines for the Collection and Depiction of Existing Subsurface Utility Data” during the field and office operations for this project. The quality levels discussed below are defined within the standard. CONSULTANT is to provide professional services associated with designation, location, and mapping of existing subsurface utilities. CONSULTANT will designate all known tone able and non-tone able utilities (Description) Gravity systems, service laterals, irrigation, or overhead facilities are not included in this investigation.

Task 202 Horizontal Designation Services

CONSULTANT will horizontally mark any known tone able and non-tone able underground utilities that are represented on as-built plans, above ground appurtenances, and other miscellaneous utility records (to be provided by CLIENT) within the red limits outlined in aerial image. Conductive utilities will be marked on the surface utilizing active geophysical prospecting techniques in conjunction with electromagnetic equipment utilizing passive radio and audio frequencies. Known non-conductive utilities and/or structures will be marked on the surface utilizing Ground Penetrating Radar (GPR), above ground features, professional judgment, utility plats and/or as-builts. This task does not include identifying gravity systems, service laterals, irrigation, or overhead facilities unless specifically requested by the CLIENT and included in the scope of services.

Task 203 Location Services

CONSULTANT will perform up to seven (7) test holes at specific sites requested by the design engineer. Test holes will be utilized to expose utilities to minimize any potential for damage. Test holes performed will be of minimum size (usually 1’ by 1’). Backfill of test holes will be performed utilizing the removed material, if suitable. Areas will be restored back as close as possible to their original condition. Installation of an identifiable above ground marker will be performed at each test hole location. Field markers will consist of a nail and disk in asphalt, or an iron rod and cap with survey stake in grassed areas. Test holes performed in the street will be patched using cold patch. The test hole number and utility will be identified on the ground or on the stake, as appropriate. A test hole summary report will be created providing coordinates, depth of cover, type, size, and material if applicable. There is a four (4) test hole minimum for location services.

Subsurface Utility Engineering Conditions and Understandings
CLIENT is required by law to contract Sunshine State One Call of Florida forty-eight (48) hours in advance of any CLIENT excavation. CONSULTANT will not access confined spaces. If confined spaces need to be accessed for locating purposes, then the client will be notified, and further arrangements will be made for said access. Additional fees may be applicable. If additional MOT is required beyond the capability of CONSULTANTS standard MOT operations, CONSULTANT will notify the client. Additional requests outside the scope of services, when requested by client and/or client's representative, will be invoiced on an hourly basis. This proposal assumes site access is available and work can be performed between the hours of 7:30 AM and 5:00 PM Monday through Friday.

Task 204 Utility Mapping
CONSULTANT will perform surveying services to collect the surface markings completed in Task 202 and/or Task 203 that mark the underground utilities. Survey of said markings will be based on Real-Time Kinematic (RTK) GPS observations and referenced to the Florida State Plane Coordinate System (NAD83/11) and the North American Vertical Datum of 1988 (NAVD88). Survey of Horizontal Designations will be delivered in a geo-referenced (NAD83/11) AutoCAD file. Survey of Location Services (Test Holes) will be delivered in Excel in PNEZD format.

CIVIL ENGINEERING SERVICES

Task 404 Additional Onsite Engineering, Lift Station & Offsite Force Main Design
CONSULTANT will design a lift station based on City of Port St Lucie standards to serve the proposed development. The required sanitary sewer connection will be made via new offsite force main connection under FDOT FL Turnpike to SW South Macedo Blvd via directional bore. CONSULTANT will prepare sanitary sewer plan and profile, details, and lift station calculations. CONSULTANT will revise onsite plans per CITY preferences on aesthetic landscape features, site functionality, and bypass conveyance design.

Task 405 Additional Engineering Permitting
CONSULTANT will prepare and submit the permit applications for the construction of the following improvements and process them through the following regulatory agencies:

Sanitary Sewer Lift Station and Offsite Force Main
- Florida Department of Transportation (FDOT) – Utility Permit for Force Main
- Florida Department of Environmental Protection (FDEP) – Sanitary Sewer Permit for Lift Station

Paving, Grading, and Drainage System
- St Lucie West Services District (SLWSD) – Stormwater coordination, review, and approval

If additional permits are required, CONSULTANT will process them and the fees for these additional services will be submitted to CLIENT as additional services under a contract addendum if required.

Deliverables
1. Permit applications and submittal documents required for above listed regulatory agencies for the listed project improvements.

SCHEDULE

MEETINGS AND COORDINATION	
Task 002 Additional Project Meetings and Meetings with Permit Authorities	On Going
SURVEY SERVICES	
Task 104 Specific Purpose Survey	TBD
SUE SERVICES	
Task 202 Horizontal Designation Services	Concurrent with Task 103/104
Task 203 Location Services	Concurrent with Task 103/104
Task 204 Utility Mapping	Concurrent with Task 103/104
CIVIL ENGINEERING SERVICES	
Task 404 Additional Onsite Engineering, Lift Station & Offsite Force Main Design	Concurrent with Task 402
Task 405 Additional Engineering Permitting	Concurrent with Task 403

COMPENSATION

MEETINGS AND COORDINATION	
Task 002 Additional Project Meetings and Meetings with Permit Authorities	$4,680 (Hourly/Estimate)*
SURVEY SERVICES	
Task 104 Specific Purpose Survey (Task 103 Remainder)	$3,690 (Lump Sum)
SUE SERVICES	
Task 202 Horizontal Designation Services	$2,165 (Lump Sum)
Task 203 Location Services	$5,130 (Lump Sum)
Task 204 Utility Mapping	$1,330 (Lump Sum)
CIVIL ENGINEERING SERVICES	
Task 404 Additional Onsite Engineering, Lift Station & Offsite Force Main Design	$29,850 (Lump Sum)
Task 405 Additional Engineering Permitting	$9,950 (Lump Sum)
Total Fee	**$56,795 + reimbursables**

**NOTE: The above "(Hourly/Estimate)" project task fees are based on the durations listed in the Project Schedule above. If the Task scheduled durations exceed the estimated time listed in the Project Schedule above, the "(Hourly/Estimate)" fee will increase proportionally. This work will be billed in accordance with CONSULTANT current Professional Service Fee Schedule. If the billing reaches 75% of the estimated fee, an additional contract addendum will be submitted to the CLIENT.*

The CLIENT is required to execute this Addendum and return it to the CONSULTANT prior to commencement of the additional services described herein. All items, terms, and conditions of the original Agreement (as amended to include the scope defined herein) remain unchanged and in full force and effect.

IN WITNESS WHEREOF, CONSULTANT and CLIENT have executed this agreement the day and year indicated below.

Re: PSL Public Works Admin Building
Threshold Inspection Services

Dear Rob:

As requested, TLC Engineering Solutions, Inc. (TLC) has developed the following proposal to provide threshold inspection services for the referenced project. Threshold inspections to include services based on a proposed three-story structure approximately 41,425 GSF with additional roof top garden and mechanical penthouse. The structure is constructed of a combination of tilt-up concrete panels and structural steel framing with composite floors and supported on shallow spread footing foundations.

SCOPE / FEE

TLC proposes to provide threshold inspection services as required by State Statutes and in compliance with the structural threshold inspection plan on TLC drawing S-105 for the Project.

TLC proposes to provide these services based on the following hourly rates and not to exceed (NTE) total costs inclusive of reimbursable expenses. Reimbursable expenses will include mileage, overnight expenses, and reproduction expenses, as necessary to perform these services. Please note that the fees below are an estimate based on the information available at the time of this proposal. The actual cost of the work may be greater or less than the estimated budget based on final baseline construction schedule and the contractor's sequencing in scheduling the quantity of inspections for the work. Refer to **SCHEDULING** section of this Proposal for additional information.

Threshold Inspection Services			
Cost Item	QTY	Rate	**Cost**
Inspector's Representative (hr)	480	$ 78.00	**$ 37,440.00**
Special Inspector (hr)	48	$ 125.00	**$ 6,000.00**
Clerical (hr)	30	$ 42.00	**$ 1,260.00**
Trip Charge (per trip)	60	$ 50.00	**$ 3,000.00**
Reimbursable Expense Estimate (LS)	1	$ 1,500.00	**$ 1,500.00**
Total Estimated Cost			**$ 49,200.00**

Note: A minimum 4-hour charge will apply for all scheduled inspections. A 1.5 multiplier will apply for inspections requested outside of normal working hours (7 p.m. to 6 a.m.), or on weekends or holidays.

SCHEDULING

When extraordinary circumstances, scheduling issues outside of TLC's control, or contractor's sequencing and quantity scheduling of inspections cause expenses to exceed the total estimated cost, TLC will inform **BEA Architects, Inc.** in advance to allow appropriate authorization of additional costs required to complete the work.

Additionally, to allow the Owner to pursue compensation from the general contractor or construction manager, TLC will annotate charges for extraneous inspection requirements. This work is not included in the total estimated cost, shall be billed in addition to estimated cost, and includes but is not limited to the following:

1) Excessive wait time beyond thirty (30) minutes for inspections scheduled but not ready for inspection,
2) Additional onsite time incurred waiting for correction of deficient work,
3) And reinspection of deficient work due to failure of contractor to meet design requirements,

Proposal is based on an approximate maximum construction period of eight (8) months for structural components, and estimated hours of required support effort based on conventional construction practices and scheduling. The total estimated cost shall be increased as necessary for longer durations.

PROPOSED STAFF

Joel Figueroa-Vallines, PE. SI, F.ASCE will serve as Project Special Inspector. Inspector's Representatives will include TLC personnel experienced with Projects of similar size and complexity. As required by State Statute all technical staff personnel assigned to this project will be registered engineers or graduate structural engineers, with necessary experience providing threshold inspection services.

REQUIREMENTS

To perform proposed services in support of the project TLC will require the following when not otherwise provided by TLC on projects where TLC is the structural engineer of record:

1. Special Inspection Plan
2. Proposed Construction Schedule from the General Contractor
3. Permitted Design Drawings and Specifications (when not otherwise prepared by TLC)
4. Shop Drawings of structural systems and shoring plans from the General Contractor
5. Response to RFI's, as well as PR's, ASI's and Addenda issued by the structural engineer of record
6. Circulation list of individuals or entities designated to receive special inspector reports (to be provided by project Owner)
7. Materials testing reports produced by the testing company (concrete, bolted and welded connections, etc.).

LIMITATIONS

Unless otherwise provided, this proposal limits the Special Inspector to provide services only with regard to the structural systems of the building, primary and secondary framing systems, and all items included in the Special Inspection Plan. Proposed services do not include inspection of any safety provisions as required by OSHA or other safety standards, which may apply; nor does it apply to elements such as railings, fire protection, roofing, curtain walls, mechanical, electrical, plumbing, site work or architectural elements that do not contribute to the capacity of the structural building systems. Proposed scope does

not include materials or connections testing or detailed inspection services. In accordance with FS 553.79-5(a), shoring and temporary bracing shall be designed and inspected by the shoring professional engineer retained by the Contractor and responsible for the shoring design and implementation of the Project. The Special Inspector shall not inspect shoring and shall not replace the quality control personnel or responsibilities of the local Building Department, Testing Agencies, Contractor, or Construction Manager.

If our proposal is acceptable, please return a signed copy authorizing us to proceed. Please give me a call with any questions or comments regarding this proposal.

Sincerely,

TLC Engineering Solutions, Inc.

MEMORANDUM

DATE: January 20, 2026

TO: ****ORIGINAL****
CITY CLERK

FROM: Nathaniel Rubel – Procurement Assistant Director
Procurement Management Division

SUBJECT: Record Retention

CONTRACT: 20240046
CONTRACT TITLE: Professional Design Services for a New Public Works Administration Building

VENDOR NAME: BEA Architects, Inc.
VENDOR ADDRESS: 11575 NW 7th Avenue
CITY & STATE: Miami, FL 33168

APPROVED BY COUNCIL: September 23, 2024
7e) - Award Contract #20240046 for Professional Design Services for a New Public Works Administration Building.

CONTRACT AMOUNT: $1,138,267.98 inclusive of a 1% reimbursable allowance plus additional itemized design fees if required.
CONTRACT TERM: 735 calendar days – 9/24/2024 through 09/29/2026, with no option to renew.

APPROVED BY COUNCIL: January 12, 2026
AMENDMENT #1
7n) - Approve Amendment #1 to Contract #20240046 for Professional Design Services for a New Public Works Administration Building.

CONTRACT AMOUNT: Amendment #1 adds $596,800.00 for a new Contract amount of $1,735,067.98.
CONTRACT TERM: No additional time is currently requested. Original term - 735 calendar days – 9/24/2024 through 09/29/2026, with no option to renew.

Please see the attached for (1) original contract for your records.

CONTRACT AMENDMENT

This Amendment #1 ("Amendment") to Contract #20240046 – Professional Design Services for a New Public Works Administration Building ("the Contract"), by and between the City of Port St Lucie ("City") and the Consultant, as defined below, shall be effective as of the date this Amendment is fully executed.

Consultant's Full Legal Name:	BEA Architects, Inc.
Solicitation No./Event ID:	20240046
Solicitation Title/Event Name:	Professional Design Services for a New Public Works Administration Building
Contract Award Date:	09/23/2024
Initial Contract Term:	09/24/2024 through 09/29/2026 – (735 Calendar Days)
Current Contract Expiration Date:	09/29/2026
Requested Contract Expiration Date:	09/29/2026
Initial Contract Amount:	$1,138,267.98
Current Contract Amended Amount:	$1,138,267.98
Requested Financial Change Amount:	$596,800.00
New Contract Amount:	$1,735,067.98
Amendment No.:	1
Amendment Type:	**Increase of Commodities**

WHEREAS, the Contract, including any previous amendments, is in effect through the Current Contract Expiration Date, as defined above; and

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties do hereby agree as follows:

The following modifications to the Terms and Conditions contained in Contract are hereby incorporated and made a part of that Contract.

1. **SCOPE OF WORK**. The parties hereby agree that the Contract will be amended to include the additional Scope of Work, as follows:

    a. Public Works Administration Building Features updated to include the following:

        - The ground floor build-out shall be limited to approximately 60% of the total available area, with the remaining portion reserved for future expansion. The Emergency Operations Center shall be designed as a hardened safe room and shall include a dedicated entrance. Additionally, the main entrance and employee entrances to include “Evolv” security system.
        - The second-floor scope is updated to add data center and commercial kitchen.
        - The third floor shall be fully built-out with offices and cubicles
        - Green Roof has been added to the specialized facilities of the building.

    b. Phase IV (Design Development Package – 60%)
    Add the St. Lucie West Services District (SLWSD) to the list of Authorities Having Jurisdiction included in the “Dry Run Package” for early comment and review once the Design Development Package reaches the 80% level.

    c. Green Roof Design shall be Modular Green Roof Systems
        - System type: Plants and growing media are pre-grown in trays or modules that can be placed directly on the roof.
        - Flexibility: Easy to install, replace, or rearrange without major construction.
        - Ideal Uses: Buildings wanting a phased installation.
        - Depth & Planting: Shallow substrate layer (about 2-6 inches) supporting low-maintenance vegetation like sedum, mosses, and drought-tolerant grasses, small plants, etc.
        - Low-maintenance, drought-tolerant plants like native grasses.

    d. Site Plan Phase: The original project scope assumed site development for an 8.9-acre parcel, limited to basic utility connections, grading, and landscape improvements adjacent to the building footprint. The revised

project site is approximately 38 acres, requiring a substantially expanded level of site design, permitting and coordination. The following services are necessary to support the expanded campus-scale development.

- Master Planning – preparation of a comprehensive site plan to establish circulation, access, parking, pedestrian systems, and overall campus organization.
- Civil Engineering – design of utilities, grading, stormwater management, and drainage systems across the 38-acre parcel, including roadway and infrastructure extensions.
- Landscaping – development of a landscape master plan for the larger site, including open space, planting, and integration of a green roof system.
- Geotechnical & Environmental – due diligence studies to address subsurface conditions, stormwater retention, wetlands, and environmental permitting.
- Regulatory Approvals – preparation of documents and coordination for site plan review and approval with the Authority Having Jurisdiction (AHJ) and the P&Z Site Plan Review Process.
- Site Lighting Design and Coordination.

e. Formal Site Plan Submittal Documents, prepare full site plan package as required by the authority having jurisdiction (P&Z), which may include:
   - Site plan drawings (to scale)
   - Grading and drainage plans (with civil engineer)
   - Utility connection plans
   - Parking, circulation, and access plans
   - Landscaping plans (with landscape architect)
   - Photometric and lighting plans
   - Building elevations and massing studies
   - Project data sheets and zoning tables
   - Complete application forms and assemble all required supporting documents.

f. Permitting and Agency Coordination
   - Submit the site plan application package to the AHJ on behalf of the Owner/Client.
   - Coordinate with planning, zoning, engineering, fire, and other departments/agencies during their review.
   - Respond to review comments and revise drawings as needed to achieve compliance.
   - Attend staff-level or public meetings, hearings, and workshops as required for approvals.
   - Provide presentations, renderings, or exhibits for board/commission reviews if requested.

2. DESIGN FEES

- Additional Building Services (+/- 8,640 SF & Green Roof) - $130,450.00
  - Includes additional 8,640 SF of planning, design, and coordination for added staff and additional future staff. Green Roof Design and Coordination.
- Add Additional Site Landscaping & Green Roof Design $22,450.00 (Site)
  $7,000.00 (GR)
- Master Plan and Site Design (Civil and Architecture) $315,335.00
- Site Plan Review Process (P&Z Approval) $32,300.00
- Additional Design Fees if Required:
  - Survey $46,500.00
  - Environmental Site Assessment (Allowance)
    Geotechnical Exploration (Allowance)
    Traffic Study Traffic Counts (Allowance) $42,765.00*

    **Additional Allowance Funding may be required depending on site plan review requirements such as a tree survey or additional environmental permits.*

- **Total Additional Design Fees: $596,800.00**

3. **SUCCESSORS AND ASSIGNS**. This Amendment shall be binding upon and inure to the benefit of the successors and permitted assigns of the parties hereto.
4. **ENTIRE AGREEMENT.** Except as expressly modified by this Amendment, the Contract, including any written amendments thereto, shall be and remain in full force and effect in accordance with its terms and shall constitute the legal, valid, binding, and enforceable obligations of the parties. This Amendment and the Contract, including any written amendments thereto, collectively, are the complete agreement of the parties and supersede any prior agreements or representations, whether oral or written, with respect thereto.

Balance of page left intentionally blank

IN WITNESS WHEREOF, the parties have caused this Amendment to be duly executed by their authorized representatives.

CITY OF PORT ST. LUCIE
CONTRACT

This Contract, executed this ___24th_ day of ____September___, 2024, by and between the CITY OF PORT ST. LUCIE, FLORIDA, a municipal corporation, duly organized under the laws of the State of Florida, hereinafter called "City", and BEA ARCHITECTS, INC., 11575 NW 7TH AVENUE, MIAMI, FL 33168, hereinafter called "Architect", "Engineer" or "Consultant." City and Consultant may be referred to herein individually as a "party" or collectively as the "parties."

SECTION I
RECITALS

In consideration of the below agreements and covenants set forth herein, the parties agree as follows:

WHEREAS, Consultant is licensed in the State of Florida; and

WHEREAS, the City wishes to contract with a Consultant to provide Professional Design Services for a New Public Works Administration Building based on the terms and subject to the conditions contained herein; and

WHEREAS, Consultant is qualified, willing, and able to provide the Scope of Services and products / services specified on the terms and conditions set forth herein; and

WHEREAS, the City desires to enter into this Contract with Consultant to perform the Scope of Services and product / services specified and, with a commission amount to be paid as agreed upon below.

NOW THEREFORE, in consideration of the premises and the mutual covenants herein name, the parties agree as follows:

The Recitals set forth above are hereby incorporated into this Contract and made a part of hereof for reference.

SECTION II
NOTICES

All notices or other communications hereunder shall be in writing and shall be deemed duly given if delivered in person, sent by certified mail with return receipt request, email, or fax and addressed as follows, unless written notice of a change of address is given pursuant to the provisions of this Contract.

SECTION III
DESCRIPTION OF SERVICES TO BE PROVIDED

This specific work that the Consultant has agreed to perform pursuant to the Bid Specifications **#20240046**, **Professional Design Services for a New Public Works Administration Building** including all Attachments, all Addenda, and all other restrictions and requirements are incorporated herein by this reference.

SCOPE OF PROFESSIONAL SERVICES

Design and permitting a new three-story administration building and civil site design per the approved site plan. This project is essential to meeting the City's administrative needs and integrating functional spaces for various departments while adhering to high design and operational efficiency standards.

The proposed administration building will be a modern three-story structure located in the northwest part of the site, adjacent to the existing Administration building. The design will ensure seamless integration with the surrounding environment and adhere to all necessary zoning and building regulations.

The ground floor will consist of private offices along the northern exterior wall to maximize natural light and views, central open cubicle area facilitating collaboration and flexibility, dedicated spaces for Emergency Management Services, and a Training Room supporting critical operational functions.

The second floor will include additional private offices and open space for cubicles to accommodate expanding administrative needs.

Specialized facilities, including a Break Room, Traffic Control Room, and Data Center, to enhance operational efficiency and employee comfort.

The third level shall be an unfinished floor designed for future expansion and tailored to meet evolving departmental requirements.

The existing site entrance from Thornhill Drive will be retained, ensuring continuity and accessibility for staff and visitors. Throughout the construction period, the existing facility utilized by the Public Works Department will remain fully operational.

Includes comprehensive plans to mitigate disruptions and maintain functionality during the building phase.

Approach to the design process will be collaborative, working closely with Public Works Department Staff and stakeholders; integrating stakeholder insights and preferences to deliver a final design that optimally meets operational needs, enhances workplace functionality, and embodies architectural excellence.

DESCRIPTION OF SCOPE OF ITEMS:

1. **Assessment of Existing Conditions & Due Diligence:** Perform analysis of existing conditions. Perform Architectural and Engineering reviews based on existing conditions and stakeholder requirements. Review as-built drawings provided by City of Port St. Lucie Public Works and perform site visits to verify existing conditions.
2. **Preliminary Layout and Programming:** After information gathering is complete, we will work with the Public Works and stakeholders to lock-in programming and present options of the proposed layout of the space. Meet with stakeholders for final approval.
3. **Prepare Construction Documents:** Prepare permit package including architectural, structural engineering, civil, landscaping, Irrigation, site lighting, mechanical, plumbing, electrical, low voltage, Life Safety engineering and wayfinding construction documents.
4. **Assist in Bid Administration:** Prepare big package including architectural, engineering, civil, landscaping, Irrigation, site lighting, mechanical, plumbing, electrical, low voltage and Life Safety engineering documents, assist with preparing bid requirements, respond to bidders RFI and issue addendums as needed during bid phase. Coordinate with City of Port St. Lucie Public Works to establish minimum criteria from bidders and determine add alternates to control cost / budget.
5. **Construction Administration:** Perform construction administration services, ensuring contractor will conform to design intents, meet owner expectations, and adhere to city and jurisdictional requirements.

PHASES / SCHEDULE:

1. **Phase I (Condition Assessment & Due Diligence):** Prepare existing conditions assessments. Study existing architectural, and mechanical, electrical, and low-voltage conditions, supporting infrastructure. Review any building documentation provided by Owner or Building Department. Site visits to collect project data. Identify code and sustainability requirements, including utility connections. Study of existing site and owner provided design / technical documents.
2. **Phase II (Preliminary Layout and Programming)** Prepare adjacency matrix, room/space area calculations based on occupancy and equipment requirements, establish flow and functional space organization. Meet with Public works and stakeholders for review and approval.
3. **Phase III (Schematic Design Package-30%):** Prepare schematic drawings for above scope items for Owner and stakeholders' approval prior to starting Construction Documents packages. Establish Mechanical and Electrical requirements. Meet with Owner for review and approval.
4. **Phase IV (Design Development Package – 60%):** Develop final option to prepare technical permit and bid packages. Perform Life-Safety Analysis. Create outline for Project Specifications. Meet with Owner for review and approval. Once the **Design Development Package reaches the 80% level:**

Submit a "Dry Run Package" for early comment and review by the City of Port ST Lucie's AHJ's to include the following agencies:

- City of Port St. Lucie Building Department
- City of Port St. Lucie Engineering Department
- City of Port St. Lucie Utilities Department
- City of Port St. Lucie Planning and Zoning Department
- St. Lucie County Fire District
- South Florida Water Management District (SFWMD)
- Florida Department of Environmental Protection (FDEP)
- Tower Stakeholders
- Florida Turnpike Enterprise
- FPL Coordination

5. **Phase V (100% Construction Documents):** This will run concurrent with the "Dry Run" process as described in Phase IV above. This will allow the incorporation of any questions or comments presented by the permitting agencies while the permit package is finalized.
6. **Phase VI (Permitting):** Submitting drawings for permitting with building department. Collaboration with Owner and stakeholders. Coordination with all Agencies Having Jurisdiction. Respond to building department comments.
7. **Phase VII (Bidding):** Provide drawings for final bid. Includes Bid assistance and addendum preparations. Attend pre-bid meeting. Collaboration with Owner and create final bids tabulation.
8. **Phase VIII (Construction Administration & Close-out):**
    - Attend pre-construction meeting
    - Attend Bi-weekly Construction Site Meetings
    - Review and respond to Contractor's RFIs (maximum of 2 reviews per RFI)
    - Review and respond to Contractor's Shop Drawings and (maximum of 2 reviews per Shop Drawing)
    - Respond to conflicts discovered during construction
    - Perform Punch List Review
    - Provide Architect's certification of Substantial Completion
    - Perform Final Completion Review; issue Final Completion Certificate
    - Prepare record documentation based on Contractor's mark-ups
    - Review Pay Requests
    - Review Change Orders
    - 52 site visits included
    - Assumed Period of Construction: 52 weeks
    - Building Code Enforcement
    - Problem Solving / conflict resolution
    - Change Order and Substation review / approval
    - Finding substitution materials if not available or lead time effects construction schedule negatively

Estimated Design / Production time period*:

- Phase I 2 weeks
- Phase II 2 weeks
- Phase III 8 weeks

- Phase IV 8 weeks
- Phase V Runs concurrent with phase VI
- Phase VI 12 weeks
- Phase VII 4 weeks
- Phase VIII 52 weeks (approximately)

*Time periods do not include City/Stakeholder review time for each submittal & permit processing time.

Exclusions:

1. Permit fees, permit submittal or expediting of permit.
2. Phasing plans or MOT (by Contractor).
3. LEED, FGBC, or other Sustainable Building Certifications.

SECTION IV
TIME OF PERFORMANCE

The Contract Period start date will be ___September 24, 2024____ and will terminate **Seven Hundred Thirty-Five (735)** calendar days thereafter on __September 29, 2026_____. The Consultant will be required to commence work under this Contract within ten (10) calendar days after the start date identified in this Contract. In the event all work required in the bid specifications has not been completed by the specified date, the Consultant agrees to provide work as authorized by the Project Manager until all work specified in the bid specifications has been rendered and accepted by the City.

Written requests shall be submitted to the Project Manager for consideration of extension of completion time due to strikes, unavailable materials, or other similar causes over which the Consultant feels it has no control. Requests for time extensions shall be submitted immediately, but in no event, more than two (2) weeks upon occurrence of conditions, which, in the opinion of the Consultant, warrant such an extension, with reasons clearly stated and a detailed explanation given as to why the delays are considered to be beyond the Consultant's control.

SECTION V
RENEWAL OPTION

N/A

SECTION VI
COMPENSATION

The total amount to be paid by the City to the Consultant is on a per unit price basis listed on Schedule "A" for a total amount of **$1,138,267.98** inclusive of a 1% reimbursable allowance.

Additional Design Fees if Required:

- Survey $33,200.00
- Environmental Site Assessment $ 2,500.00

- Geotechnical Exploration $ 4,674.00
- Testing and Inspection Services $32,198.85
- HVAC Commissioning $34,750.00
- Additional Services See Hourly Rates Attached in Schedule "A"

Payments will be disbursed in the following manner:

The Contract Sum - Work to be paid for on the basis of per unit prices: each, lump sum, linear feet, square yards, system, etc.

Progress Payments – Invoices for services shall be submitted once per month, by the tenth (10th) day of each month, and payments shall be made within twenty (20) business days after submission, unless Consultant has chosen to take advantage of the Purchasing Card Program, which guarantees payment within several days. Payments shall be made within twenty (20) business days of receipt of Consultant's valid invoice, if and only if the invoice is accompanied by adequate supporting documentation and is approved by the Project Manager is required under Section XV of the Contract.

No payment for projects involving improvements to real property shall be due until Consultant delivers to City a complete release of all claims arising out of the Contract or receipts in full in lieu thereof, and an affidavit based on Consultant's affiant's personal knowledge that the releases and receipts include labor and materials for which a lien could be filed.

All invoices and correspondence relative to this Contract must contain the City's Contract number and Purchase Order number, detail of items with prices that correspond to the Contract, a unique invoice number, and partial and final release of liens.

All invoices are to be sent to: pwprojectinvoices@cityofpsl.com and the assigned Project Manager for this Contract.

The Consultant shall not be paid any additional compensation for any loss or damage arising out of the nature of the work, from the action of the elements, or from any delay or unforeseen obstruction or difficulties encountered in the performance of the work, or for any expenses incurred by or in consequence of the suspension or discontinuance of the work.

In the event the City deems it expedient to perform work which has not been done by the Consultant as required by these Specifications, or to correct work which has been improperly and/or inadequately performed by the Consultant as required in these Specifications, all expenses thus incurred by the City, at the City's option, will be invoiced to the Consultant and/or deducted from payments due to the Consultant. Deductions thus made will not excuse the Consultant from other penalties and conditions contained in the Contract.

All payments not made within the time specified by this section shall bear interest from thirty (30) calendar days after the due date at the rate of one (1) percent per month on the unpaid balance.

Taxes - Consultant is responsible for all federal, state, and local taxes and other charges related to the performance of this Contract.

SECTION VII
WORK CHANGES

The City reserves the right to order work changes in the nature of additions, deletions, or modifications without invalidating the Contract, and agrees to make corresponding adjustments in the Contract price and time for completion. Any and all changes must be authorized by a written change order signed by the City's Purchasing Agent or his designee as representing the City. Work shall be changed and the Contract price and completion time shall only be modified as set out in the written change order. Any adjustment in the Contract price resulting in a credit or a charge to the City shall be determined by mutual agreement of the parties, memorialized in a signed writing, before starting the work involved in the change. Any dispute concerning work changes which is not resolved by mutual agreement shall be decided by the City Manager who shall reduce the decision to writing. The decision of the City Manager shall be final and conclusive.

SECTION VIII
CONFORMANCE WITH PROPOSAL

It is understood that the materials and/or work required herein are in accordance with the proposal made by the Consultant pursuant to the Solicitation and Specifications on file in the Procurement Management Department of the City. All documents submitted by the Consultant in relation to said proposal, and all documents promulgated by the City for inviting proposals are, by reference, made a part hereof as if set forth herein in full.

SECTION IX
INDEMNIFICATION/HOLD HARMLESS

Consultant agrees to indemnify, defend, and hold harmless, the City, its officers, agents, and employees from, and against any and all claims, actions, liabilities, losses, and expenses including, but not limited to, attorney's fees for personal, economic, or bodily injury, wrongful death, loss of or damage to property, at law or in equity, which may arise or may be alleged to have arisen from the negligent acts, errors, omissions or other wrongful conduct of Consultant, its agents, laborers, subconsultants, or other personnel entity acting under Consultant control in connection with the Consultant's performance of services under this Contract. To that extent, Consultant shall pay such claims and losses and shall pay all such costs and judgments which may issue from any lawsuit arising from such claims and losses including wrongful termination or allegations of discrimination or harassment, and shall pay all costs and attorney's fees expended by the City in defense of such claims and losses, including appeals. That the aforesaid hold-harmless Contract by Consultant shall apply to all damages and claims for damages of every kind suffered, or alleged to have been suffered, by reason of any of the aforesaid operations of Consultant or any agent laborers, subconsultants, or employee of Consultant regardless of whether or not such insurance policies shall have been determined to be applicable to any of such damages or claims for damages. Consultant shall be held responsible for any violation of laws, rules, regulations, or ordinances affecting in any way the conduct of all persons engaged in or the materials or methods used by Consultant on the work. This indemnification shall survive the termination of this Contract.

SECTION X
SOVEREIGN IMMUNITY

Nothing contained in this Contract shall be deemed or otherwise interpreted as waiving the City's sovereign immunity protections existing under the laws of the State of Florida, or as increasing the limits of liability as set forth in Section 768.28, Florida Statutes.

SECTION XI
INSURANCE

The Consultant shall, on a primary basis and at its sole expense, agree to maintain in full force and effect at all times during the life of this Contract, insurance coverage, limits, including endorsements, as described herein. The requirements contained herein, as well as City's review or acceptance of insurance maintained by the Consultant are not intended to and shall not in any manner limit or qualify the liabilities and obligations assumed by Consultant under the Contract.

The parties agree and recognize that it is not the intent of the City of Port St. Lucie that any insurance policy/coverage that it may obtain pursuant to any provision of this Contract will provide insurance coverage to any entity, corporation, business, person, or organization, other than the City of Port St. Lucie and the City shall not be obligated to provide any insurance coverage other than for the City of Port St. Lucie or extend its sovereign immunity pursuant to Section 768.28, Florida Statutes, and as may be amended from time to time, under its self-insured program. Any provision contained herein to the contrary shall be considered void and unenforceable by any party. This provision does not apply to any obligation imposed on any other party to obtain insurance coverage for this project, any/or obligation to name the City of Port St. Lucie as an additional insured under any other insurance policy, or otherwise protect the interests of the City of Port St. Lucie as specified in this Contract.

1. Workers' Compensation Insurance & Employer's Liability: The Consultant shall agree to maintain Workers' Compensation Insurance & Employers' Liability in accordance with Section 440, Florida Statutes, and as may be amended from time to time. Employers' Liability and must include limits of at least $100,000.00 each accident, $100,000.00 each disease/employee, and $500,000.00 each disease/maximum. A Waiver of Subrogation endorsement must be provided. Coverage shall apply on a primary basis. Should scope of work performed by the Consultant qualify it employee for benefits under Federal Workers' Compensation Statute (for example, U.S. Longshore & Harbor Workers Act or Merchant Marine Act), proof of appropriate Federal Act coverage must be provided.

2. Commercial General Liability Insurance: The Consultant shall agree to maintain Commercial General Liability insurance, issued under an Occurrence form basis, including Contractual liability, to cover the hold harmless agreement set forth herein, with limits of not less than:

Each occurrence	$1,000,000
Personal/advertising injury	$1,000,000
Products/completed operations aggregate	$2,000,000
General aggregate	$2,000,000
Fire damage	$100,000 any 1 fire
Medical expense	$10,000 any 1 person

3. Additional Insured: An Additional Insured endorsement **must** be attached to the certificate of insurance (should be CG2026) under the General Liability policy. Coverage is to be written on an occurrence form basis and shall apply as primary and non-contributory. Defense costs are to be in addition to the limit of liability. A waiver of subrogation is to be provided in favor of the City. Coverage shall extend to independent consultants and fellow employees. Contractual Liability is to be included. Coverage is to include a cross liability or severability of interests' provision as provided under the standard ISO form separation of insurers clause.

   Except as to Workers' Compensation and Employers' Liability Insurance, and Professional Liability Insurance, Certificates of Insurance and policies shall clearly state that coverage required by the Contract has been endorsed to include the City of Port St. Lucie, a municipality of the State of Florida, its officers, agents and employees as Additional Insured for Commercial General Liability and Business Auto policies. The name for the Additional Insured endorsement issued by the insurer shall read **"City of Port St. Lucie, a municipality of the State of Florida, its officers, employees and agents shall be listed as additional insured, and include Contract #20240046 – Professional Design Services for a New Public Works Administration Building."** Copies of the Additional Insured endorsements shall be attached to the Certificate of Insurance. The policies shall be specifically endorsed to provide thirty (30) day written notice to the City prior to any adverse changes, cancellation, or non-renewal of coverage thereunder. Formal written notice shall be sent to the City of Port St. Lucie, 121 SW Port St. Lucie Blvd., Port St. Lucie, FL 34984, Attn: Procurement. In the event that the statutory liability of the City is amended during the term of this Contract to exceed the above limits, the Consultant shall be required, upon thirty (30) days written notice by the City, to provide coverage at least equal to the amended statutory limit of liability of the City.

4. Business Automobile Liability Insurance: The Consultant shall agree to maintain Business Automobile Liability at a limit of liability not less than $1,000,000.00 each accident covering any auto, owned, non-owned and hired automobiles. In the event the Consultant does not own any automobiles, the Business Auto Liability requirement shall be amended allowing Consultant to agree to maintain only Hired & Non-Owned Auto Liability. This amended requirement may be satisfied by way of endorsement to the Commercial General Liability, or separate Business Auto Coverage form. Certificate holder must be listed as additional insured. A waiver of subrogation must be provided. Coverage shall apply on a primary and non-contributory basis.

5. Professional Liability Insurance: Consultant shall agree to maintain Professional Liability, or equivalent Errors & Omissions Liability, at a limit of liability not less than $1,000,000 Per Occurrence. When a self-insured retention (SIR) or deductible exceeds $10,000, the City reserves the right, but is not obligated, to review and request a copy of Consultant's most recent annual report or audited financial statement. For policies written on a "Claims-Made" basis, Consultant warrants the retroactive date equals or precedes the effective date of this Contract. In the event the policy is canceled, non-renewed, switched to an Occurrence Form, retroactive date advanced, or any other event triggering the right to purchase a Supplemental Extended Reporting Period (SERP) during the life of this Contract, Consultant shall agree to purchase a SERP with a minimum reporting period not less than four (4) years.

6. Waiver of Subrogation: By entering into this Contract, the Consultant agrees to a Waiver of Subrogation for each required policy. When required by the insurer, or should a policy condition not permit an Insured to enter into a pre-loss Contract to waive subrogation without an endorsement then Consultant shall

agree to notify the insurer and request the policy be endorsed with a Waiver of Transfer of Rights of Recovery Against Others, or its equivalent.

7. Deductibles: All deductible amounts shall be paid for and be the responsibility of the Consultant for any and all claims under this Contract. Where an SIR or deductible exceeds $5,000, the City reserves the right, but is not obligated, to review and request a copy of the bidder's most recent annual report or audited financial statement.

It shall be the responsibility of the Consultant to ensure that all independent consultants and/or sub-consultants comply with the same insurance requirements referenced herein. It shall be the responsibility of the consultant to obtain Certificates of Insurance from all independent consultants and subconsultants listing the City as an Additional Insured without the language "when required by written contract". If the Consultant, independent consultant and/or subconsultant maintain higher limits than the minimums shown above, the City requires and shall be entitled to coverage for the higher limits maintained by the consultant/independent consultant/subconsultant.

The Consultant may satisfy the minimum limits required above for either Commercial General Liability, Business Auto Liability, and Employers' Liability coverage under Umbrella or Excess Liability. The Umbrella or Excess Liability shall have an Aggregate limit not less than the highest "Each Occurrence" limit for either Commercial General Liability, Business Auto Liability, or Employers' Liability. When required by the insurer, or when Umbrella or Excess Liability is written on Non-Follow Form, the City shall be endorsed as an "Additional Insured."

The City by and through its Risk Management Department reserves the right, but is not obligated, to review, modify, reject or accept any required policies of insurance, including limits, coverages or endorsements, herein from time to time throughout the term of this contract. All insurance carriers must have an AM Best rating of at least A:VII or better.

A failure on the part of the consultant to execute the contract and/or punctually deliver the required insurance certificates and other documentation may be cause for annulment of the award.

SECTION XII
ACTS OF GOD

The Consultant shall be responsible for all preparation of the site for Acts of God, including but not limited to: earthquake, flood, tropical storm, hurricane or other cataclysmic phenomenon of nature, rain, wind, or other natural phenomenon of normal intensity, including extreme rainfall. No reparation shall be made to the Consultant for damages to the Work resulting from these Acts. The City is not responsible for any costs associated with pre or post preparations for any Acts of God.

Emergencies - In the event of emergencies affecting the safety of persons, the work, or property, at the site or adjacent thereto, the Consultant, or his designee, without special instruction or authorization from the City, is obligated to act to prevent threatened damage, injury, or loss. In the event such actions are taken, the Consultant shall promptly give to the City written notice and contact immediately by phone, of any significant changes in work or deviations from the Contract documents caused thereby, and if such action is deemed appropriate by the City, a written authorization signed by the City covering the approved changes and deviations will be issued.

SECTION XIII
PROHIBITION AGAINST FILING OR MAINTAINING LIENS AND SUITS

Subject to the laws of the State of Florida and of the United States, neither Consultant nor any subconsultant supplier of materials, laborer, or other person shall file or maintain any lien for labor or materials delivered in the performance of this Contract against the City. The right to maintain such lien for any or all of the above parties is hereby expressly waived.

SECTION XIV
COMPLIANCE WITH LAWS

The Consultant shall give all notices required by and shall otherwise comply with all applicable laws, ordinances, and codes and shall, at its own expense, secure and pay the fees and charges for all permits required for the performance of the Contract. All materials furnished and works done are to comply with all federal, state, and local laws and regulations. Consultant will comply with all requirements of 28 C.F.R. § 35.151. Consultants and any subconsultants, shall comply with § 119.0701, Fla. Stat. The Consultant and any subconsultants are to allow public access to all documents, papers, letters, or other material made or received by the Consultant in conjunction with this Contract, unless the records are exempt from Art. I, § 24(a), Fla. Const. and § 119.07(1)(a), Fla. Stat. (2013). Pursuant to § 119.10(2)(a), Fla. Stat., any person who willfully and knowingly violates any of the provisions of Ch. 119, Laws of Fla., commits a misdemeanor of the first degree, punishable as provided in § 775.082 and § 775.083 Fla. Stat.

RECORDS

The City of Port St. Lucie is a public agency subject to Chapter 119, Florida Statutes. The Consultant shall comply with Florida's Public Records Law. CONSULTANT'S RESPONSIBILITY FOR COMPLIANCE WITH CHAPTER 119, FLORIDA STATUTES. Pursuant to Section 119.0701, F.S.

Consultant agrees to comply with all public records laws, specifically to:

Keep and maintain public records required by the City in order to perform the service;

1. The timeframes and classifications for records retention requirements must be in accordance with the General Records Schedule GS1-SL for State and Local Government Agencies.
2. During the term of the Contract, the Consultant shall maintain all books, reports, and records in accordance with generally accepted accounting practices and standards for records directly related to this Contract. The form of all records and reports shall be subject to the approval of the City.
3. Records include all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business with the City. Consultant's records under this Contract include, but are not limited to, supplier/subconsultant invoices and contracts, project documents, meeting notes, emails and all other documentation generated during this Contract.

4. The Consultant agrees to make available to the City, during normal business hours all books of account, reports and records relating to this Contract.

5. A Consultant who fails to provide the public records to the City within a reasonable time may also be subject to penalties under Section 119.10, Florida Statutes.

Upon request from the City's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.

Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Contract term and following completion of the Contract if the Consultant does not transfer the records to the City.

Upon completion of the Contract, transfer, at no cost to the City, all public records in possession of the Consultant, or keep and maintain public records required by the City to perform the service. If the Consultant transfers all public records to the City upon completion of the Contract, the Consultant shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Consultant keeps and maintains public records upon completion of the Contract, the Consultant shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City's custodian of public records in a format that is compatible with the information technology systems of the City.

IF THE CONSULTANT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONSULTANT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

CITY CLERK
121 SW Port St. Lucie Blvd.
Port St. Lucie, FL 34984
(772) 871 5157
prr@cityofpsl.com

TRADE SECRETS

Any material submitted to the City that Consultant contends constitutes or contains trade secrets or is otherwise exempt from production under Florida public records laws (including chapter 119, Florida Statutes) ("Trade Secret Materials"), must be separately submitted and conspicuously labeled: "EXEMPT FROM PUBLIC RECORD PRODUCTION – TRADE SECRET." In addition, simultaneous with the submission of any Trade Secret Materials, the Consultant shall provide a sworn affidavit from a person with personal knowledge attesting that the Trade Secret Materials constitute trade secrets under section 688.002, Florida Statutes, and stating the factual basis to support the attestation. If a third party submits a request to the City of records designated by the Contract as Trade Secret Materials, the City shall refrain from disclosing the Trade Secret Materials, unless otherwise ordered by a court of competent jurisdiction or authorized in writing by the

Consultant. Consultant shall indemnify and defend the City, its employees, agents, assigns, successors, and subcontractors from any and all claims, causes of action, losses, fines, penalties, damages, judgments, and liabilities of any kind, including attorney's fees, litigation expenses, and court costs, relating to the nondisclosure of any Trade Secret Materials in response to a records request by a third party.

SECTION XV
E-VERIFY

In accordance with section 448.095, Florida Statutes, the Consultant agrees to comply with the following:

1. Consultant must register with and use the E-Verify system to verify the work authorization status of all new employees of the Consultant. Consultant must provide City with sufficient proof of compliance with this provision before beginning work under this Contract.
2. If Consultant enters into a contract with a subconsultant, Consultant must require each and every subconsultant to provide the Consultant with an affidavit stating that the subconsultant does not employ, contract with, or subconsult with an unauthorized alien. The Consultant shall maintain a copy of each and every such affidavit(s) for the duration of the Contract and any renewals thereafter.
3. The City shall terminate this Contract if it has a good faith belief that a person or an entity with which it is contracting has knowingly violated section 448.09(1), Florida Statutes.
4. Consultant shall immediately terminate any contract with any subconsultant if Consultant has, or develops, a good faith belief that the subconsultant has violated section 448.09(1), Florida Statutes. If City has or develops a good faith belief that any subconsultant of Consultant knowingly violated section 448.09(1), Florida Statutes, or any provision of section 448.095, Florida Statutes, the City shall promptly notify the Consultant and order the Consultant to immediately terminate the contract with the subconsultant.
5. The City shall terminate this Contract for violation of any provision in this section. If the Contract is terminated under this section, it is not a breach of contract and may not be considered as such. If the City terminates this Contract under this section, the Consultant may not be awarded a public contract for a least one (1) year after the date on which the Contract was terminated. A contractor is liable for any additional costs incurred by the City as a result of the termination of a contract.
6. The City, Consultant, or any subconsultant may file a cause of action with a circuit or county court to challenge a termination under section 448.095(5)(c), Florida Statutes, no later than twenty (20) calendar days after the date on which the Contract was terminated. The parties agree that such a cause of action must be filed in St. Lucie County, Florida, in accordance with the Venue provision otherwise provided herein.

SECTION XVI
INSPECTION AND CORRECTION OF DEFECTS

In order to determine whether the required material has been delivered or the required work performed in accordance with the terms and conditions of the Contract documents, the Project Manager shall make inspection as soon as practicable after receipt from the Consultant of a Notice of Performance or delivery ticket. If such inspection shows that the required material has been delivered and required work performed in accordance with terms and conditions of the Contract documents and that the material and work is entirely satisfactory, the Project Manager shall approve the invoice when it is received. Thereafter the Consultant shall be entitled to payment, as described in Section VI. If, on such inspection the Project Manager is not

satisfied, he shall as promptly as practicable inform the parties hereto of the specific respects in which his findings are not favorable. Consultant shall then be afforded an opportunity if desired by it, to correct the deficiencies so pointed out at no additional charge to the City, and otherwise on terms and conditions specified by the Project Manager. Upon failure of the Consultant to perform the work in accordance with the Contract Documents, including any requirements with respect to the Schedule of Completion, and after five (5) days written notice to the Consultant, the City may, without prejudice to any other remedy it may have, correct such deficiencies. The Consultant shall be charged all costs incurred to correct deficiencies. All such costs incurred by the City, in the City's option, may be invoiced to the Consultant and/or may be deducted from payments due to the Consultant. Deductions thus made will not excuse the Consultant from other penalties and conditions contained in the Contract. Such examination, inspection, or tests made by the Project Manager, at any time, shall not relieve Consultant of his responsibility to remedy any deviation, deficiency, or defect.

Authority - The Consultant is hereby informed that City inspectors are not authorized to alter, revoke, enlarge, or relax the provisions of these specifications. They are not authorized to approve or accept any portion of the completed work, or instructions contrary to the specifications. An inspector is placed on the project (or sent to the location of materials) to inspect materials being used in the work and to observe the manner in which the work is being performed and to report the progress of the work to the City. The inspector shall have the authority to reject defective materials or suspend any work that is being improperly done subject to the final decision of the City.

Notification - The Consultant shall be responsible to give twenty-four (24) hour notification to the City, when field observations are required.

Defective Work - All work and/or materials not meeting the requirements of these specifications shall be deemed as defective by the City, and all such work and/or material, whether in place or not, shall be removed immediately from the site of the work. All rejected materials that have been corrected shall not be used until the City has issued written approval to the Consultant. Without unnecessary delay and without any additional cost to the City, all work that has been rejected shall be remedied or removed and replaced in a manner acceptable to the City. If the Consultant fails to promptly remove and properly dispose of rejected materials and/or work then replaces same immediately after being notified to do so, the City may employ labor to remove and replace such defective work and/or materials. All charges for replacement of defective materials and/or work shall be charged to the Consultant and may be deducted from any moneys due to the Consultant or his Surety.

Repair or Replacement - Should any defect appear during the warranty period, the Consultant shall, at their own expense, have repaired or replaced such item upon receipt of written notice from the City of said defect. Said repair or replacement must be accomplished within fourteen (14) calendar days after receipt of notification from the City of the defect.

Deductions - In the event the City deems it expedient to perform work which has not been done by the Consultant as required by these Specifications, or to correct work which has been improperly and/or inadequately performed by the Consultant as required in these Specifications, all expenses thus incurred by the City, in the City's option, will be invoiced to the Consultant and/or may be deducted from payments due to the Consultant. Deductions thus made will not excuse the Consultant from other penalties and conditions contained in the Contract.

SECTION XVII
SCRUTINIZED COMPANIES

By entering into this Contract with the City, Consultant certifies that it and those related entities of Consultant, as defined by Florida law, are not on the Scrutinized Companies that Boycott Israel List, created pursuant to § 215.4725, Florida Statutes, and are not engaged in a boycott of Israel. The City may terminate this Contract if Consultant or any of those related entities of Consultant, as defined by Florida law, are found to have submitted a false certification or any of the following occur with respect to the company or a related entity: (i) it has been placed on the Scrutinized Companies that Boycott Israel List, or is engaged in a boycott of Israel, or (ii) for any contract for goods or services of one million dollars or more, it has been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or it is found to have been engaged in business operations in Cuba or Syria. Notwithstanding the preceding, the City reserves the right and may, in its sole discretion, on a case by case basis, permit a company on such lists or engaged in business operations in Cuba or Syria to be eligible for, bid on, submit a proposal for, or enter into or renew a contract for goods or services of one million dollars or more, or may permit a company on the Scrutinized Companies that Boycott Israel List to be eligible for, bid on, submit a proposal for, or enter into or renew a contract for goods or services of any amount, should the City determine that the conditions set forth in § 287.135(4), Florida Statutes, are met.

SECTION XVIII
CONTRACT ADMINISTRATION

Amendments - The City and the Consultant agree that they will, from time to time, execute, acknowledge, and deliver, or cause to be executed, acknowledged and delivered, such supplements hereto and such further instruments as may reasonably be required for carrying out the expressed intention of the Contract. The Contract may be amended in writing from time to time by mutual consent of the parties. All amendments to the Contract must be in writing and fully executed by duly authorized representatives of the City and the Consultant.

Fiscal Year - All reference to Fiscal Year shall mean the City's Fiscal Year. The City's Fiscal Year is from October 1st through September 30th.

Integration of Terms - This Contract represents the entire contract between the parties. The parties shall not rely on any representation that may have been made by either party which is not included in the Contract.

Joint Venture - Nothing in the Contract shall be construed as creating or constituting the relationship of a partnership, joint venture, (or other association of any kind or agent and principal relationship) between the vested parties. Each party shall be deemed to be an independent consultant contracting for the services and acting toward the mutual benefits expected to be derived from the mutually agreed upon contract. Neither Consultant nor any of Consultant's agents, employees, subconsultants or consultants shall become or be deemed to become agents, or employees of the City. Consultant shall therefore be responsible for compliance with all laws, rules and regulations involving its employees and any subconsultants, including but not limited to employment of labor, hours of labor, health and safety, working conditions, workers' compensation insurance, and payment of wages. No party has the authority to enter into any contract or create an obligation or liability on behalf of, in the name of, or binding upon another party to the Contract.

Notice(s) - Any and all notices, designations, consents, offers, acceptances or any other communication provided for herein shall be given in writing by registered or certified mail, return receipt requested, by receipted hand delivery, by Fed-EX, UPS, courier or other similar and reliable carrier which shall be addressed to the person who signed the Contract on behalf of the party at the address identified in the contract. Each such notice shall be deemed to have been provided:

I. Within one (1) day in the case of overnight hand delivery, courier, or Services such as Fed-Ex or UPS with guaranteed next day delivery; or,
II. Within seven (7) days after it is deposited in the U.S. Mail in the case of registered U.S. Mail.

From time to time, the parties may change the name and address of the person designated to receive notice. Such change of the designated person or their designees and/or address shall be in writing to the other party and as provided herein.

Performance by Industry Standards - The Consultant represents and expressly warrants that all aspects of the Services provided or used by it shall, at a minimum, conform to the standards in the Consultant's industry. This requirement shall be in addition to any express warranties, representations, and specifications included in the Contract, which shall take precedence.

Permits, Licenses, and Certifications - The Consultant shall be responsible for obtaining all permits, licenses, certifications, etc., required by Federal, State, County, and Municipal laws, regulations, codes, and ordinances for the performance of the work required in these specifications and to conform with the requirements of said legislation. The Consultant shall be required to complete a **W-9 Taxpayer Identification Form,** provided with the City's contract, and return it with the signed Contract and insurance documents.

Use of Name or Intellectual Property - Consultant agrees it will not use the name or any intellectual property, including but not limited to, City trademarks or logos, in any manner, including commercial advertising or as a business reference, without the express prior written consent of the City.

Waiver - Except as specifically provided for in a waiver signed by duly authorized representatives of the City and the Consultant, failure by either party at any time to require performance by the other party or to claim a breach of any provision of the Contract shall not be construed as affecting any subsequent right to require performance or to claim a breach. Each waiver, if mutually agreed upon, shall be published as a Contract amendment.

SECTION XIX
ADDITIONAL REQUIREMENTS

In the event of any conflict between the terms and conditions appearing on any purchase order issued relative to this Contract, and those contained in this Contract and the Specifications herein referenced, the terms of this Contract and Specifications herein referenced shall apply.

City's Public Relations Image - The Consultant's personnel shall at all times handle complaints and any public contact with due regard to the City's relationship with the public. Any personnel in the employ of the Consultant involved in the execution of work that is deemed to be conducting him/herself in an unacceptable manner shall be removed from the project at the request of the City Manager or his designee.

Contractual Relations - The Consultant is advised that nothing contained in the Contract or specifications shall create any contractual relationship between the City and any subconsultants of the Consultant.

Cooperative Purchasing Agreement - This contract may be expanded to include other governmental agencies provided a cooperative purchasing agreement exists or an inter-local agreement for joint purchasing exists between the City of Port St. Lucie and other public agencies. Consultant(s) may agree to allow other public agencies the same items at the same terms and conditions as this contract, during the period of time that this contract is in effect. Each political entity will be responsible for execution of its own requirements with the Consultant.

SECTION XX
ASSIGNMENT

Consultant shall not delegate, assign, or subcontract any part of the work under this Contract or assign any monies due him hereunder without first obtaining the written consent of the City. If Consultant sells all or a majority of its shares, merges with, or otherwise is acquired by or unifies with a third party, it shall notify the City within ten (10) days. If after such notice, the City determines in its sole discretion, it may terminate the Contract, without penalty.

SECTION XXI
TERMINATION

Default Event - The occurrence of any one or more of the following events shall constitute cause for the City to declare the Consultant in default of its obligations under the Contract:

I. The Consultant fails to deliver or has delivered nonconforming services or fails to perform, to the City's satisfaction, any material requirement of the Contract or is in violation of a material provision of the Contract, including, but without limitation, the express warranties made by the Consultant;
II. The Consultant fails to make substantial and timely progress toward performance of the Contract;
III. In the event the Consultant is required to be certified or licensed as a condition precedent to providing the Services, the revocation or loss of such license or certification may result in immediate termination of the Contract effective as of the date on which the license or certification is no longer in effect;
IV. The Consultant becomes subject to any bankruptcy or insolvency proceeding under federal or state law to the extent allowed by applicable federal or state law including bankruptcy laws; the Consultant terminates or suspends its business; or the City reasonably believes that the Consultant has become insolvent or unable to pay its obligations as they accrue consistent with applicable federal or state law;
V. The Consultant has failed to comply with applicable federal, state and local laws, rules, ordinances, regulations, and orders when performing within the scope of the Contract;
VI. If the City determines that the actions, or failure to act, of the Consultant, its agents, employees or subconsultants have caused, or reasonably could cause, life, health or safety to be jeopardized;

VII. The Consultant has engaged in conduct that has or may expose the City to liability, as determined in the City's sole discretion;
VIII. The Consultant furnished any statement, representation or certification in connection with the Contract, which is materially false, deceptive, incorrect, or incomplete.

Notice of Default/Termination for Cause - If there is a default event caused by the Consultant, the City shall provide written notice to the Consultant requesting that the breach or noncompliance be remedied within the period of time specified in the City's written notice to the Consultant. If the breach or noncompliance is not remedied within the period of time specified in the written notice, the City may:

I. Immediately terminate the Contract without additional written notice(s); and/or
II. Enforce the terms and conditions of the Contract and seek any legal or reasonable remedies; and/or
III. Procure substitute services from another source and charge the difference between the contract and the substitute contract to the defaulting Consultant. Such a charge, in the City's option, may be invoiced to the Consultant and/or may be deducted from payments due to the Consultant. Deductions thus made will not excuse the Consultant from other penalties or conditions contained in this Contract.

Termination for Convenience - The City may, at any time, with or without cause, or for its convenience, terminate all or a portion of the Contract upon thirty (30) days written notice to Consultant. Any such termination shall be accomplished by delivery in writing of a notice to Consultant. Following termination without cause, the Consultant shall be entitled to compensation upon submission of invoices and proper proof of claim, for services provided under the Contract to the City up to the time of termination, pursuant to Florida law.

Termination for Non-Appropriation - The City is a governmental agency which relies upon the appropriation of funds by its governing body to satisfy its obligations. If the City reasonably determines that it does not have funds to meet its obligations under the awarded Contract, the City will have the right to terminate the Contract, without penalty, on the last day of the fiscal period for which funds were legally available.

SECTION XXII
LAW, VENUE, AND WAIVER OF JURY TRIAL

This Contract is to be construed as though made in and to be performed in the State of Florida and is to be governed by the laws of Florida in all respects without reference to the laws of any other state or nation. The venue of any action taken to enforce this Contract, arising out of this Contract, or in relation to this Contract, shall be in St. Lucie County, Florida.

The parties to this Contract hereby freely, voluntarily, and expressly, waive their respective rights to trial by jury on any issues so triable after having the opportunity to consult with an attorney.

SECTION XXIII
APPROPRIATION APPROVAL

The Consultant acknowledges that the City of Port St Lucie's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the City Council. The Consultant agrees that, in the event such appropriation is not forthcoming, this Contract may be terminated by the City and that no charges, penalties or other costs shall be assessed.

SECTION XXIV
TRUTH-IN-NEGOTIATIONS

In accordance with the provisions of Section 287.055, Florida Statutes, the Consultant agrees to execute a truth-in-negotiations certificate and agrees that the original Contract price and any additions may be adjusted to exclude any significant sums by which the Contract price was increased due to inaccurate, incomplete, or non-current wage rates and other factual unit costs.

SECTION XXV
CONFLICT OF INTEREST

The City hereby acknowledges that the Consultant may be performing professional services for private developers within the Treasure Coast area. Should a conflict of interest arise between providing services to the City and/or other clients, the Consultant shall terminate its relationship with the other client to resolve the conflict of interest. The City Manager shall determine whether a conflict of interest exists. At the time of each Project Proposal the Consultant shall disclose all of its Treasure Coast clients and related Scope of Work.

SECTION XXVI
PROHIBITION AGAINST CONTINGENT FEES

The Consultant warrants that he or she has not employed or retained any company or person, other than a bona fide employee working solely for the Consultant, to solicit or secure this Contract and that it has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the Consultant, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Contract.

SECTION XXVII
ATTORNEY'S FEES

Each party is responsible for its own attorney's fees for any event arising from or related to this Contract. Each party expressly waives its right to seek attorney's fees from the other party, regardless of the source of such right.

SECTION XXVIII
CODE OF ETHICS

Consultant warrants and represents that its employees will abide by any applicable provisions of the State of Florida Code of Ethics in Chapter 112.311 et seq., Florida Statutes, and Code of Ethics Ordinances in Section 9.14 of the City of Port St. Lucie Code.

SECTION XXIX
POLICY OF NON-DISCRIMINATION

Consultant shall not discriminate against any person in its operations, activities, or delivery of services under this Contract. Consultant shall affirmatively comply with all applicable provisions of federal, state, and local equal employment laws and shall not engage in or commit any discriminatory practice against any person based on race, age, religion, color, gender, sexual orientation, national origin, marital status, physical or mental disability, political affiliation, or any other factor which cannot be lawfully used as a basis for service delivery.

SECTION XXX
SEVERABILITY

The provisions of this Contract shall be deemed severable and if any portion of the Contract is found invalid or unenforceable, it shall not affect the validity or enforceability of the other provisions herein.

SECTION XXXI
AUDITS

The Consultant shall establish and maintain a reasonable accounting system that enables the City to readily identify the Consultant's assets, expenses, costs of goods, and use of funds throughout the term of the Contract for a period of at least seven (7) years following the date of final payment or completion of any required audit, whichever is later. Records shall include, but are not limited to, accounting records, written policies and procedures; subcontract files (including proposals of successful and unsuccessful bidders, bid recaps, etc.); all paid vouchers including those for out-of-pocket expenses; other reimbursement supported by invoices; ledgers; cancelled checks; deposit slips; bank statements; journals; original estimates; estimating work sheets; contract amendments and change order files; back charge logs and supporting documentation; insurance documents; payroll documents; timesheets; memoranda; and correspondence. The Consultant shall permit the City's authorized auditor or any authorized representative of the State, and where federal funds are involved, the Comptroller General of the United States, or any other authorized representative of the United States government, to access and examine, audit, excerpt, and to make copies of all books, documents, papers, electronic or optically stored and created records, or other records relating or pertaining to this Contract kept by or under the control of the Consultant, including, but not limited to, those kept by the Consultant, its employees, agents, assigns, successors, and subconsultants. Such records shall be made available to the City during normal business hours at the Consultant's office or place of business. The Consultant shall not impose a charge for audit or examination of the Consultant's books and records. If an audit discloses incorrect billings or improprieties, the City reserves the right to charge the Consultant for the cost of the audit and appropriate reimbursement. Any adjustments and/or payments that must be made as a result of any such audit or inspection of the Consultant's invoices and/or records shall be made within a

reasonable amount of time (not to exceed ninety (90) days) from presentation of the City's findings to the Consultant. Evidence of criminal conduct will be turned over to the proper authorities.

The Consultant shall ensure the City has these rights with Consultant's employees, agents, assigns, successors, and subconsultants, and the obligations of these rights shall be explicitly included in any subcontracts or agreements formed between the Consultant and any subconsultants to the extent that those subcontracts or agreements relate to fulfillment of the Consultant's obligations to the City.

SECTION XXXII
ORDER OF PREFERENCE

In the case of any inconsistency or conflict among the specific provisions of this Contract (including any amendments accepted by both the City and the Consultant attached hereto), the E-Bid (including any subsequent addenda and written responses to bidders' questions), and the Consultant's Response, any inconsistency or conflict shall be resolved as follows:

(i) First, by giving preference to the specific provisions of this Contract.
(ii) Second, by giving preference to the specific provisions of the E-Bid.
(iii) Third, by giving preference to the specific provisions of the Consultant's Response, except that objections or amendments by a consultant that have not been explicitly accepted by the City in writing shall not be included in this Contract and shall be given no weight or consideration.

SECTION XXXIII
CONSTRUCTION

The title of the section and paragraph headings in this Contract are for reference only and shall not govern, suggest, or affect the interpretation of any of the terms or provisions within each provision or this Contract as a whole. The use of the term "including" in this Contract shall be construed as "including, without limitation." Where specific examples are given to clarify a general statement, the specific language shall not be construed as limiting, modifying, restricting, or otherwise affecting the general statement. All singular words and terms shall also include the plural, and vice versa. Any gendered words or terms used shall include all genders. Where a rule, law, statute, or ordinance is referenced, it indicates the rule, law, statute, or ordinance in place at the time the Contract is executed, as well as may be amended from time to time, where application of the amended version is permitted by law.

The parties have participated jointly in the negotiation and drafting of this Contract and agree that both have been represented by counsel and/or had sufficient time to consult counsel, before entering into this Contract. In the event an ambiguity, conflict, omission, or question of intent or interpretation arises, this Contract shall be construed as if drafted jointly by the parties, and there shall be no presumption or burden of proof or persuasion based on which party drafted a provision of the Contract.

SECTION XXXIV
DISCRIMINATORY, CONVICTED, AND ANTITRUST VIOLATOR VENDOR LISTS

Contractor certifies that neither it nor any of its affiliates, as defined in the statutes below, have been placed on the discriminatory vendor list under section 287.134, Florida Statutes; the convicted vendor list under

section 287.133, Florida Statutes; or the antitrust violator vendor list under section 287.137, Florida Statutes. Absent certain conditions under these statutes, neither contractors nor their affiliates, as defined in the statutes, who have been placed on such lists may submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

SECTION XXXV
COOPERATION WITH INSPECTOR GENERAL

Pursuant to section 20.055, Florida Statutes, it is the duty of every state officer, employee, agency, special district, board, commission, contractor, and subcontractor to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing pursuant to this section. Contractor understands and will comply with this statute.

SECTION XXXVI
NON-EXCLUSIVITY

Consultant acknowledges and agrees that this Contract is non-exclusive.

SECTION XXXVII
FORCE MAJEURE

Any deadline provided for in this Contract may be extended, as provided in this paragraph, if the deadline is not met because of one of the following conditions occurring with respect to that particular project or parcel: fire, strike, explosion, power blackout, earthquake, volcanic action, flood, war, civil disturbances, terrorist acts, hurricanes, and Acts of God. When one of the foregoing conditions interferes with Contract performance, then the party affected may be excused from performance on a day-for-day basis to the extent such party's obligations relate to the performance so interfered with; provided, the party so affected shall use reasonable efforts to remedy or remove such causes of non-performance. The party so affected shall not be entitled to any additional compensation by reason of any day-for-day extension hereunder.

SECTION XXXVIII
ENTIRE AGREEMENT

This Contract sets forth the entire agreement between Consultant and City with respect to the subject matter of this Contract. This Contract supersedes all prior and contemporaneous negotiations, understandings, and agreements, written or oral, between the parties. This Contract may not be modified except by the parties' mutual agreement set forth in writing and signed by the parties.

TRUTH-IN-NEGOTIATION CERTIFICATE AND AFFIDAVIT

STATE OF FLORIDA §
COUNTY OF ST. LUCIE §

Before me, the undersigned authority, personally appeared affiant Bruno E. Ramos who being first duly sworn, deposes and says:

1. That the undersigned firm is furnishing this Truth in Negotiation Certificate pursuant to Section 287.055(5)(a) of the Florida Statutes for the undersigned firm to receive an agreement for professional services with the City of Port St. Lucie, St. Lucie County, Florida.

2. That the undersigned firm is a corporation which engages in furnishing professional architectural/engineering services and is entering into an agreement with the City of Port St. Lucie, St. Lucie County, Florida to provide professional services for a project known as Professional Design Services for a New Public Works Administration Facility, Contract #20240046.

3. That the undersigned firm has furnished the City of Port St. Lucie, St. Lucie County, Florida a detailed analysis of the cost of the professional services required for the project.

4. That the wage rate information and other factual unit cost, which the undersigned firm furnished, were accurate, complete and current at the time the undersigned firm and the City of Port St. Lucie entered into the agreement for professional services on the project.

5. That the agreement which the undersigned firm and the City of Port St. Lucie entered into on this job contained a provision that the original agreement price and any additions thereto shall be adjusted to include any significant sums by which the City of Port St. Lucie determines the agreement price was increased due to inaccurate, incomplete or non-current wage rates or other factual unit cost and that all such agreement adjustments shall be made within one (1) year following the end of the agreement.

Re: RFP #20240046 City of Port St. Lucie Public Works Building (Phase I)

BEA Architects is pleased to submit this proposal for the Phase 1 Building Program, which involves designing and permitting a new three-story administration building and civil site design per the approved site plan. This project is essential to meeting the City's administrative needs and integrating functional spaces for various departments while adhering to high design and operational efficiency standards.

The proposed administration building will be a modern three-story structure located in the northwest part of the site, adjacent to the existing Administration building. The design will ensure seamless integration with the surrounding environment and adhere to all necessary zoning and building regulations.

The ground floor will consist of private offices along the northern exterior wall to maximize natural light and views, central open cubicle area facilitating collaboration and flexibility, dedicated spaces for Emergency Management Services, and a Training Room supporting critical operational functions.

The second floor will include additional private offices and open space for cubicles to accommodate expanding administrative needs.

Specialized facilities, including a Break Room, Traffic Control Room, and Data Center, to enhance operational efficiency and employee comfort.

The third level shall be an unfinished floor designed for future expansion and tailored to meet evolving departmental requirements.

The existing site entrance from Thornhill Drive will be retained, ensuring continuity and accessibility for staff and visitors. Throughout the construction period, the existing facility utilized by the Public Works Department will remain fully operational. Our proposal includes comprehensive plans to mitigate disruptions and maintain functionality during the building phase.

BEA Architects will approach the design process collaboratively, working closely with Public Works Department Staff and stakeholders. Our team will integrate their insights and preferences to deliver a final design that optimally meets operational needs, enhances workplace functionality, and embodies architectural excellence.

In conclusion, BEA Architects is committed to delivering a state-of-the-art administration building that meets and exceeds the City's expectations. We are confident that our design proposal will provide a dynamic and efficient workspace for city staff while ensuring minimal disruption to ongoing operations. We look forward to the opportunity to contribute to the success of this important project.

DESCRIPTION OF SCOPE OF ITEMS:

A. **Assessment of Existing Conditions & Due Diligence:** Perform analysis of existing conditions. Perform Architectural and Engineering reviews based on existing conditions and stakeholder requirements. Review as-built drawings provided by City of Port St. Lucie Public Works and perform site visits to verify existing conditions.

B. **Preliminary Layout and Programming:** After information gathering is complete, we will work with the Public Works and stakeholders to lock-in programming and present options of the proposed layout of the space. Meet with stakeholders for final approval.

C. **Prepare Construction Documents:** Prepare permit package including architectural, structural engineering, civil, landscaping, Irrigation, site lighting, mechanical, plumbing, electrical, low voltage, Life Safety engineering and wayfinding construction documents.

D. **Assist in Bid Administration:** Prepare big package including architectural, engineering, civil, landscaping, Irrigation, site lighting, mechanical, plumbing, electrical, low voltage and Life Safety engineering documents, assist with preparing bid requirements, respond to bidders RFI and issue addendums as needed during bid phase. Coordinate with City of Port St. Lucie Public Works to establish minimum criteria from bidders and determine add alternates to control cost / budget.

E. **Construction Administration:** Perform construction administration services, ensuring contractor will conform to design intents, meet owner expectations, and adhere to city and jurisdictional requirements.

PHASES / SCHEDULE:

1. **Phase I (Condition Assessment & Due Diligence):** Prepare existing conditions assessments. Study existing architectural, and mechanical, electrical, and low-voltage conditions, supporting infrastructure. Review any building documentation provided by Owner or Building Department. Site visits to collect project data. Identify code and sustainability requirements, including utility connections. Study of existing site and owner provided design / technical documents.

2. **Phase II (Preliminary Layout and Programming)** Prepare adjacency matrix, room/space area calculations based on occupancy and equipment requirements, establish flow and functional space organization. Meet with Public works and stakeholders for review and approval.

3. **Phase III (Schematic Design Package-30%):** Prepare schematic drawings for above scope items for Owner and stakeholders' approval prior to starting Construction Documents packages. Establish Mechanical and Electrical requirements. Meet with Owner for review and approval.

4. **Phase IV (Design Development Package – 60%):** Develop final option to prepare technical permit and bid packages. Perform Life-Safety Analysis. Create outline for Project Specifications. Meet with Owner for review and approval. Once the **Design Development Package reaches the 80% level:** Submit a "Dry Run Package" for early comment and review by the City of Port ST Lucie's AHJ's to include the following agencies:

- **City of Port St. Lucie Building Department**
- **City of Port St. Lucie Engineering Department**
- **City of Port St. Lucie Utility's Department**
- **City of Port St. Lucie Planning and Zoning Department**
- **Port St. Lucie County Fire Department**
- **South Florida Water Management District (SFWMD)**
- **Florida Department of Environmental Protection (FDEP)**
- **Tower Stakeholders**
- **Florida Turnpike Enterprise**
- **FPL Coordination**

5. **Phase V (100% Construction Documents)** This will run concurrent with the "Dry Run" process as described in Phase IV above. This will allow the incorporation of any questions or comments presented by the permitting agencies while the permit package is finalized.

6. **Phase VI (Permitting):** Submitting drawings for permitting with building department. Collaboration with Owner and stakeholders. Coordination with all Agencies Having Jurisdiction. Respond to building department comments.

7. **Phase VII (Bidding):** Provide drawings for final bid. Includes Bid assistance and addendum preparations. Attend pre-bid meeting. Collaboration with Owner and create final bids tabulation.

8. **Phase VIII (Construction Administration & Close-out):**
   - Attend pre-construction meeting
   - Attend Bi-weekly Construction Site Meetings
   - Review and respond to Contractor's RFIs (maximum of 2 reviews per RFI)
   - Review and respond to Contractor's Shop Drawings and (maximum of 2 reviews per Shop Drawing)
   - Respond to conflicts discovered during construction
   - Perform Punch List Review
   - Provide Architect's certification of Substantial Completion
   - Perform Final Completion Review; issue Final Completion Certificate
   - Prepare record documentation based on Contractor's mark-ups
   - Review Pay Requests
   - Review Change Orders
   - 52 site visits included
   - Assumed Period of Construction: 52 weeks
   - Building Code Enforcement
   - Problem Solving / conflict resolution
   - Change Order and Substation review / approval
   - Finding substitution materials if not available or lead time effects construction schedule negative

<u>Estimated Design/Production time period*:</u>

- **PHASE I** 2 weeks
- **PHASE II** 2 weeks
- **PHASE III** 8 weeks
- **PHASE IV** 8 weeks

- **PHASE V** (Runs concurrent with phase VI)
- **PHASE VI** 12 weeks
- **PHASE VII** 4 weeks
- **PHASE VIII** 52 weeks (Approximately)

*Time periods do not include City/Stakeholder review time for each submittal & Permit Processing Time

DESIGN FEES:

- **PHASE I –** Cond. Assess. $ 35,746.00
- **PHASE II –** Programing & Layout $ 53,519.00
- **PHASE III –** 30% DD $ 308,327.00
- **PHASE IV –** 60% CD $ 263,694.00
- **PHASE V –** 100% CD $ 219,062.00
- **PHASE VI –** Permitting $ 12,800.00
- **PHASE VII –** Bidding $ 5,500.00
- **PHASE VIII –** Const. Admin. $ 228,350.00

ADDITIONAL DESIGN FEES IF REQUIRED:

- **Survey (if required)** **$ 33,200.00**
- **Environmental Site Assessment (if required)** **$ 2,500.00**
- **Geotechnical Exploration (if required)** **$ 4,674.00**
- **Testing and Inspection Services (if required)** **$ 32,198.85**
- **HVAC Commissioning** **$ 34,750.00**
- **Additional Services** **See Hourly Rates Attached "A"**

REIMBURSABLE EXPENSES & ALLOWANCES:

1. 1% Reimbursable Allowance $ 11,269.98

EXCLUSIONS:

1. Permit fees, permit submittal or expediting of permit
2. Phasing plans or MOT (by Contractor)
3. LEED, FGBC, or other Sustainable Building Certifications

We appreciate the opportunity to continue building our relationship and look forward to collaborating with the City of Port St. Lucie Public Works Department to realize this important project. Feel free to contact me at your convenience if you have any comments or questions.

Sincerely,

Robert Draper, RA NCARB
Senior Project Manager
BEA architects, Inc.

Agenda Summary

2026-579

Agenda Date: 6/22/2026 **Agenda Item No.:** 7.f

Placement: Consent Agenda

Action Requested: Motion / Vote

Approve Contract #20260247 for the Treatment of Sawgrass Lakes Stormwater Tract.

Submitted By: Kevin Eggleston, Procurement Contracting Officer I, Procurement Management Division (PMD).

Strategic Plan Link: The City's Goal of high-quality infrastructure and facilities.

Summary Brief (Agreements/Contracts only)

1. Prepared by: Kevin Eggleston, Procurement Contracting Officer I.
2. Parties: City of Port St. Lucie and SOLitude Lake Management, LLC.
3. Purpose: Significantly improve the health and appearance of the stormwater tract adjacent to Sawgrass Lakes. The treatment specifically is intended to address the sediment build up and muck at the bottom of the shallow stormwater tract.
4. New/Renewal/Modified: New.
5. Duration: Three years from execution.
6. Benefits to Port St. Lucie: This treatment is intended to improve the water quality conditions within a City-owned body of water that has a history of occurrences of water quality concerns, including blue-green algae blooms and fish kill events. This will be an improvement for stormwater infrastructure as outlined in Goal 5 of the Strategic Plan Link.
7. Cost to Port St. Lucie (Annual and Potential): Not to exceed $1,347,175.00 for the term of Contract.

Presentation Information: N/A.

Staff Recommendation: Move that Council waive the bidding, per City Code of Ordinances, Sections 35.08(c) (good cause shown) and 35.08(a)(25)(a)(1) (sole source where the compatibility of equipment, accessories, or replacement parts is of paramount consideration), as there are no commercially available substitutes for these components and/or replacement parts, which can only be purchased from the manufacture or distributor, and approve Contract #20260247 for the Treatment of Sawgrass Lakes Stormwater Tract with SOLitude Lake Management, LLC.

Alternate Recommendations:

1. Move that Council amend the recommendation and approve Contract #20260247.
2. Move that Council not approve Contract #20260247 and provide staff with direction.

Background: Sawgrass Lakes stormwater tract is a City-owned 121-acre tract that is surrounded by residential properties, and the Westport Wastewater Treatment Facility. In recent years, the tract has started showing

degraded water quality conditions. At the request of the residents, the City began investigating the tract and its change in conditions. To date, the tract has experienced blue-green algae blooms, and fish kill events. The City hired a third-party environmental consultant, Terracon Consultants Inc., who after conducting their own water quality testing, has recommended a treatment plan utilizing TryMarine to improve the tract's condition.

Additionally, staff carefully evaluated several treatment options to address ongoing water-quality concerns within the Sawgrass Lakes Stormwater Tract. On February 17, 2026, staff met with HOA representatives from Sawgrass Lakes, and shared an update on the stormwater tract including two treatment options, and notified them that the City would be hosting a Town Hall. On March 4, 2026, both AVC (existing vendor) and Terracon (third-party consultant) presented their respective treatment options, Metafloc and TryMarine, to Sawgrass residents. After the presentations, residents were given the opportunity to vote, and the majority chose TryMarine as the preferred approach for addressing tract conditions.

Following the Town Hall, staff interviewed other users of the TryMarine product to gain further insight. These other users confirmed their approval of the TryMarine product. This agenda item now brings the Contract forward for Council approval, reflecting the resident-driven preference and the recommendation from the independent consultant. The summary is intended to serve as a brief reminder of the decision history, community engagement process, and the rationale behind presenting the Contract for Council action.

Issues/Analysis: Staff is requesting that Council approve the Contract and waive formal bidding under Sections 35.08(c) (good cause shown); 35.08(a)(25)(a)(1) (sole source where compatibility of equipment, accessories, or replacement parts is the parament consideration); and 35.08(a)(25)(a)(6) (sole source where the item is a component for which there is no commercially available substitute, and which can be purchased only from the manufacturer or distributor).

Under Section 35.08(c), as described in the Background section, both the City's third-party environmental consultant and residents have recommended/chosen TryMarine as the best option for treatment. Additionally, staff independently evaluated treatment options and interviewed other users of the TryMarine product. These steps, recommendations, and evaluations all support Council approving the Contract for good cause shown and deciding to use the TryMarine product.

Under Sections 35.08(a)(25)(a)(1) and (6), TryMarine is a proprietary product only offered/applied by SOLitude Lake Management, LLC. Notably, however, price points were comparable to previous treatments for Sawgrass Lakes Stormwater Tract, and through additional water quality testing the City negotiated a lower cost than initially presented.

Financial Information: Funds appropriated in Stormwater CIP / Drainage / Other Contractual services (Account 401-4126-534000).

Special Consideration: N/A.

Location of Project: Sawgrass Lakes.

Attachments:

1. Signed Contract.

2. Sole Source Approval.

NOTE: All of the listed items in the "Attachment" section above are in the custody of the City Clerk. Any item(s) not provided in City Council packets are available upon request from the City Clerk.

Internal Reference Number: 26153-04.

Legal Sufficiency Review:
Reviewed by Alyssa Lunin, Senior Deputy City Attorney. Approved as to Legal form and sufficiency by Richard Berrios, City Attorney.

CITY OF PORT ST. LUCIE
CONTRACT #20260247

This CONTRACT executed this 15th day of June, 2026, by and between the CITY OF PORT ST. LUCIE, FLORIDA, a municipal corporation, duly organized under the laws of the State of Florida, hereinafter called "City," and SOLITUDE LAKE MANAGEMENT, LLC, 5869 ENTERPRISE PARKWAY FT MYERS, FL 33905, hereinafter called "Contractor." City and Contractor may be referred to herein individually as a "party" or collectively as the "parties."

SECTION I
RECITALS

In consideration of the below agreements and covenants set forth herein, the parties agree as follows:

WHEREAS, Contractor is licensed in the State of Florida; and

WHEREAS, the City wishes to contract with a contractor for the Sawgrass Lake TryMarine Treatment, as well as other tasks more specifically described in this Contract; and

WHEREAS, Contractor is qualified, willing, and able to provide the Work specified on the terms and conditions set forth herein; and

WHEREAS, the City desires to enter into this Contract with Contractor to perform the Work specified and in the amount as agreed upon below.

NOW THEREFORE, in consideration of the premises and the mutual covenants set forth herein and for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

The Recitals set forth above are hereby incorporated into this Contract and made a part hereof for reference.

SECTION II
NOTICES

All notices or other communications hereunder shall be in writing and shall be deemed duly given if delivered in person, sent by certified mail with return receipt request, email with read receipt, or by Fed-EX, UPS, courier or other similar and reliable carrier and addressed as follows, unless written notice of a change of address is given pursuant to the provisions of this Contract. Each such notice shall be deemed to have been provided:

A. The same day, if sent via email with read receipt.

B. Within one (1) day in the case of overnight hand delivery, courier, or services such as Fed-Ex or UPS with guaranteed next day delivery; or,

C. Within seven (7) days after it is deposited in the U.S. Mail in the case of registered U.S. Mail.

From time to time, the parties may change the name and address of the person designated to receive notice. Such change of the designated person or their designees and/or address shall be in writing to the other party and as provided herein.

- Apply 10ppm of TryMarine

- Conduct in-situ monitoring at the time of each visit

- Conduct five rounds of sediment and water quality sampling

SCHEDULE A - TRYMARINE ANNUAL POND MANAGEMENT SERVICES

Sediment and Water Quality Improvements (TryMarine):

1. Solitude will apply a liquid formulation of TryMarine to the surface of the waterbody at a rate of 0.5 - 2ppm per application. Subject to change, please refer to Application Schedule and Area.

2. The product will slowly mix throughout the water column improving oxygen in the water and sediment, resulting in the processing of organic matter, ultimately leading to a reduction in chemical oxygen demand once the organic matter is reduced.

3. TryMarine is NSF 60 certified, meaning it is approved for use in drinking water and cleared at rates of up to at least 522 times the typical dosage.

4. TryMarine is not a pesticide, herbicide, algaecide, nutrient binder, coagulant or live biologic. It has no direct effect on algae or weeds. TryMarine addresses muck in the waterbody.

Project Goals:

1. Significantly improve the health of the sediment/muck at the bottom of the lake by decomposing the organics and reducing internal nutrient levels.

Application Schedule and Area:

1. Applications of TryMarine will be made by the Contractor throughout the growing season each year on a weekly, bi-weekly, or monthly schedule as required.

2. Contractor will ensure the product is applied properly and that the amount of product applied matches the needs of the waterbody.

3. TryMarine product will be applied to the surface of the water body through a combination of topical spray, and or injection as needed.

Monitoring:

1. SOLitude personnel will conduct monitoring of the pond for visual inspections, in-situ meter, Dissolved oxygen, Secchi disk readings.

2. Sediment testing for Standard+ Nitrate N, Ammonia N, Organic N, Moisture, % Ash, Moisture and Organic Matter (5) times per year from four (4) sites. Sediment testing method completed using 2 composite scoops in 16oz bottles. 3. Water quality testing for Standard+ Nitrate N, Ammonia N, Organic N, Aerobic Plate Count, Conductivity and Chemical Oxygen Demand five (5) times per year at four (4) locations. Water quality testing conducted at the surface and bottom of the water column in 16 oz bottles. 4. Biological testing for Algal diversity <20 microns (5) times per year at four (4) locations. Biological testing conducted at the surface and bottom of the water column in 16 oz bottles. 5. All and any changes made to the pond will be observed and noted. 6. If any symptoms require a halt in service, customers will be notified. Reporting: 1. SOLitude Lake Management shall provide a mid-year update report and a final year end report with findings before, during and after applications throughout the three year period. Service Reporting:

1. City will be provided with a service report detailing all of the work performed as part of this Agreement after each visit.

General Qualifications:

1. Contractor is a licensed pesticide applicator in the state in which service is to be provided.

2. Individual Applicators are Certified Pesticide Applicators in Aquatics, Public Health, Forestry, Right of Way, and Turf/Ornamental as required in the state in which service is to be provided.

3. Contractor is a SePRO Preferred Applicator and dedicated Steward of Water. Each individual applicator has been trained and educated in the water quality testing and analysis required for prescriptive site-specific water quality management and utilizes an integrated approach that encompasses all aspects of ecologically balanced management. Each applicator has received extensive training in the proper selection, use, and application of all aquatic herbicides, algaecides, adjuvants, and water quality enhancement products necessary to properly treat City's lakes and ponds as part of an overall integrated pest management program.

4. Contractor guarantees that all products used for treatment are EPA registered and labeled as appropriate and safe for use in lakes, ponds, and other aquatic sites, and are being applied in a manner consistent with their labeling.

5. All pesticide applications made directly to the water or along the shoreline for the control of algae, aquatic weeds, or other aquatic pests as specified in this Contract will meet or exceed all of the Contractor's legal regulatory requirements as set forth by the EPA and related state agencies for NPDES and FIFRA. Contractor will perform treatments that are consistent with NPDES compliance standards as applicable in and determined by the specific state in which treatments are made. All staff will be fully trained to perform all applications in compliance with all federal, state, and local law.

6. Contractor will furnish the personnel, vehicles, boats, equipment, materials, and other items required to provide the foregoing at its expense. The application method and equipment (boat, ATV, backpack, etc.) used is determined by our technician at the time of the treatment to ensure the most effective method is provided for optimal results.

Sediment & Water Testing:

Sediment Testing	Standard+ Nitrate N, Ammonia N, Organic N, Moisture, % Ash, Moisture and Organic Matter	5
Sampling Method / Frequency	2 Composite Scoops in 16oz bottle per location (Frequency defined by program/acre-ft)	Before, 3 Mid-Points, After
Water Quality Testing	Standard+ Nitrate N, Ammonia N, Organic Nitrogen, Aerobic Plate Count, Conductivity, Chemical Oxygen Demand	5
Sampling Method / Frequency	Surface and Bottom in 16 oz bottles	Before, 3 Mid-Points, After
Biological Testing	Algal Diversity w <20 microns	5
Sampling Method / Frequency	same as Water Quality	Before, 3 Mid-Points, After

Site Map:

SECTION IV
TIME OF PERFORMANCE

The Contract Period start date will be _____ and will terminate three (3) calendar years thereafter on _____. The Contractor will be required to commence work under this Contract within ten (10) calendar days after the start date identified in this Contract. In the event all work required in the bid specifications has not been completed by the specified date, the Contractor agrees to provide work as authorized by the Project Manager until all work specified in the bid specifications has been rendered and accepted by the City.

Written requests shall be submitted to the Project Manager for consideration of extension of completion time due to strikes, unavailable materials, or other similar causes over which the Contractor feels he has no control. Requests for time extensions shall be submitted immediately, but in no event, more than two (2) weeks upon occurrence of conditions, which, in the opinion of the Contractor, warrant such an extension, with reasons clearly stated and a detailed explanation given as to why the delays are considered to be beyond the Contractor's control.

SECTION V
RENEWAL OPTION

There is no option to renew the Contract.

SECTION VI
COMPENSATION

The total amount to be paid by the City to the Contractor is on a per project basis for the unit prices listed on **Schedule "B**". Payments will be disbursed in the following manner.

SCHEDULE B – PRICING SCHEDULE

Year 1 (2026) - $449,059
Year 2 (2027) - $449,058
Year 3 (2028) - $449,058

Total Price: **$1,347,175.00**

Invoice Amount: **$37,421.53**

Invoice Frequency: **Monthly**

Additional monitoring/consulting services requested by the City beyond the scope of work proposed herein would be billed at the following rates.

• Principal Biologist	$185/hr.
• Sr. Biologist/Environmental Engineer	$155/hr.
• Biologist	$125/hr.
• Field Technician/Technical Support	$100/hr.
• Meeting Attendance	$500/meeting

• Expenses: (mileage $0.75/mi; copies $0.15/pg; water analysis, postage and miscellaneous expenses cost plus 15%)

Invoices – Invoices for services shall be submitted once per month, for one and only one calendar month (e.g., October 1 through October 31), by the tenth (10th) day of the following month (except as provided in the Fiscal Year End Invoice exception, below), and payments shall be made in accordance with the timelines under Florida's Prompt Payment Act, Chapter 218, Florida Statutes. If the Contractor has chosen to take advantage of the Purchasing Card Program, payment may be received sooner. The City's payment obligations shall arise if and only if Contractor submits a Valid Invoice. A Valid Invoice must meet all the following:

1. Invoices shall be sent to the City's Project Manager.
2. Invoice shall be accompanied by adequate supporting documentation, including, but not limited to, as applicable: date, correct remit address, vendor contact information, time cards, retainage withheld, AIA

Application for Payment, a unique invoice number, PO number, Contract Number, justification for expenditures, a Certification Disbursement of Previous Periodic Payment to Subcontractors form (if the project is funded by FDOT, Contractor shall use FDOT's form (700-010-38, as updated); if it is not, then Contractor shall use the City's form), any other document reasonably requested by the Project Manager and/or the City's Finance Department.

3. Invoice is approved by the City's Project Manager, as set forth in Section XIX of the Contract.

Fiscal Year End Invoice – Any invoice for goods, services, or any other performance in the current fiscal year must be submitted, as otherwise required under this Contract, by October 5 of the next fiscal year. By example, the invoice for September 1, 2026-September 30, 2026 shall be submitted to the City by October 5, 2026. Contractor acknowledges this is a material requirement for the City's accounting and shall comply.

Other – The Contractor shall not be paid additional compensation for any loss or damage arising out of the nature of the work, from the action of the elements, or from any delay or unforeseen obstruction or difficulties encountered in the performance of the work, or for any expenses incurred by or in consequence of the suspension or discontinuance of the work.

In the event the City deems it expedient to perform work which has not been done by the Contractor as required by these Specifications, or to correct work which has been improperly and/or inadequately performed by the Contractor as required in these Specifications, all expenses thus incurred by the City, at the City's option, will be invoiced to the Contractor and/or deducted from payments due to the Contractor. Deductions thus made will not excuse the Contractor from other penalties and conditions contained in the Contract.

All payments not made within the time specified by this section shall bear interest from thirty (30) calendar days after the due date at the rate of one (1) percent per month on the unpaid balance.

SECTION VII
WORK CHANGES

The City reserves the right to order work changes in the nature of additions, deletions, or modifications without invalidating the Contract, and agrees to make corresponding adjustments in the Contract price and time for completion. Any and all changes must be authorized by a written change order signed by the City's Purchasing Agent, or his designee, as representing the City. Work shall be changed and the Contract price and completion time shall be modified only as set out in the written change order. Any adjustment in the Contract price resulting in a credit or a charge to the City shall be determined by mutual agreement of the parties before starting the work involved in the change. Any dispute concerning work changes which is not resolved by mutual agreement shall be decided by the City Manager who shall reduce the decision to writing. The decision of the City Manager shall be final and conclusive.

SECTION VIII
CONFORMANCE WITH PROPOSAL

N/A

SECTION IX
INDEMNIFICATION/HOLD HARMLESS

Contractor agrees to indemnify, defend, and hold harmless, the City, its officers, agents, and employees from, and against any and all claims, actions, liabilities, losses, and expenses including, but not limited to, attorney's fees for personal, economic, or bodily injury, wrongful death, loss of or damage to property, at law or in equity, which may arise or may be alleged to have risen from the negligent acts, errors, omissions or other wrongful conduct of Contractor, agents, laborers, subcontractors or other personnel entity acting under Contractor's control in connection with the Contractor's performance of services under this Contract. To that extent, Contractor shall pay such claims and losses and shall pay all such costs and judgments which may issue from any lawsuit arising from such claims and losses including wrongful termination or allegations of discrimination or harassment, and shall pay all costs and attorney's fees expended by the City in defense of such claims and losses, including appeals. That the aforesaid hold-harmless agreement by Contractor shall apply to all damages and claims for damages of every kind suffered, or alleged to have been suffered, by reason of any of the aforesaid operations of Contractor or any agent, laborers, subcontractors, or employee of Contractor regardless of whether or not such insurance policies shall have been determined to be applicable to any of such damages or claims for damages. Contractor shall be held responsible for any violation of laws, rules, regulations, or ordinances affecting in any way the conduct of all persons engaged in or the materials or methods used by Contractor on the work. This indemnification shall survive the termination of this Contract.

SECTION X
SOVEREIGN IMMUNITY

Nothing contained in this Contract shall be deemed or otherwise interpreted as waiving the City's sovereign immunity protections existing under the laws of the State of Florida, or as increasing the limits of liability as set forth in section 768.28, Florida Statutes.

SECTION XI
INSURANCE

The Contractor shall, on a primary basis and at its sole expense, agree to maintain in full force and effect at all times during the life of this Contract, insurance coverage and limits, including endorsements, as described herein. The requirements contained herein, as well as City's review or acceptance of insurance maintained by Contractor are not intended to and shall not in any manner limit or qualify the liabilities and obligations assumed by Contractor under the Contract.

The parties agree and recognize that it is not the intent of the City of Port St. Lucie that any insurance policy/coverage that it may obtain pursuant to any provision of this Contract will provide insurance coverage to any entity, corporation, business, person, or organization, other than the City of Port St. Lucie and the City shall not be obligated to provide any insurance coverage other than for the City of Port St. Lucie or extend its sovereign immunity pursuant to section 768.28, Florida Statutes, under its self-insured program. Any provision contained herein to the contrary shall be considered void and unenforceable by any party. This provision does not apply to any obligation imposed on any other party to obtain insurance coverage for this project and/or any obligation to name the City of Port St. Lucie as an additional insured under any other insurance policy or otherwise protect the interests of the City of Port St. Lucie as specified in this Contract.

1. Workers' Compensation Insurance & Employer's Liability: The Contractor shall agree to maintain Workers' Compensation Insurance & Employers' Liability in accordance with section 440, Florida Statutes. Employers' Liability must include limits of at least $100,000.00 each accident, $100,000.00 each disease/employee, $500,000.00 each disease/maximum. A Waiver of Subrogation endorsement shall be provided. Coverage

shall apply on a primary basis. Should scope of work performed by Contractor qualify its employee(s) for benefits under Federal Workers' Compensation Statute (for example, U.S. Longshore & Harbor Workers Act or Merchant Marine Act), proof of appropriate Federal Act coverage must be provided.

2. Commercial General Liability Insurance: The Contractor shall agree to maintain Commercial General Liability insurance issued under an Occurrence form basis, including Contractual liability, to cover the hold harmless agreement set forth herein, with limits of not less than:

Each occurrence	$1,000,000
Personal/advertising injury	$1,000,000
Products/completed operations aggregate	$2,000,000
General aggregate	$2,000,000
Fire damage	$100,000 any 1 fire
Medical expense	$10,000 any 1 person

3. Additional Insured: An Additional Insured endorsement **must** be attached to the certificate of insurance and must include coverage for on-going and Completed Operations (should be ISO CG2037 & CG2010) under the General Liability policy. Products & Completed Operations coverage to be provided for a minimum of five (5) years from the date of possession by City or completion of Contract. Coverage is to be written on an occurrence form basis. Coverage shall apply on a primary and non-contributory basis. A per project aggregate limit endorsement should be attached. Defense costs are to be in addition to the limit of liability. A waiver of subrogation shall be provided in favor of the City. Coverage for the hazards of explosion, collapse and underground property damage (XCU) must also be included when applicable to the work performed. No exclusion for mold, silica or respirable dust or bodily injury/property damage arising out of heat, smoke, fumes, or hostile fire shall apply. Coverage shall extend to independent contractors and fellow employees. Contractual Liability is to be included. Coverage is to include a cross liability or severability of interests' provision as provided under the standard ISO form separation of insurers clause.

   Except as to Workers' Compensation, Employers' Liability, and Professional Liability Insurance, said Certificate(s) and policies shall clearly state that coverage required by the Contract has been endorsed to include the City of Port St. Lucie, a municipality of the State of Florida, its officers, agents and employees as Additional Insured added to its Commercial General Liability, Business Auto, and Pollution Insurance policies. The name for the Additional Insured endorsement issued by the insurer shall read: **"City of Port St. Lucie, a municipality of the State of Florida, its officers, employees and agents shall be listed as additional insured and shall include Contract #20260247 – TryMarine Program on Sawgrass Lake."** The Policies shall be specifically endorsed to provide thirty (30) days written notice to the City prior to any adverse changes, cancellation, or non-renewal of coverage thereunder. All notices shall be sent to the Procurement Management Division, 121 SW Port St. Lucie Blvd., Port St. Lucie, Florida 34984. In the event that the statutory liability of the City is amended during the term of this Contract to exceed the above limits, the Contractor shall be required, upon thirty (30) days written notice by the City, to provide coverage at least equal to the amended statutory limit of liability of the City. Copies of the Additional Insured endorsements including Completed Operations coverage shall be attached to the Certificate of Insurance.

4. Business Automobile Liability Insurance: The Contractor shall agree to maintain Business Automobile Liability at a limit of liability not less than $1,000,000.00 each accident covering any auto, owned, non-owned and hired automobiles. In the event the Contractor does not own any automobiles, the Business Auto Liability requirement shall be amended allowing Contractor to agree to maintain only Hired & Non-Owned Auto Liability. This amended requirement may be satisfied by way of endorsement to the Commercial General Liability, or separate Business Auto Coverage form. Certificate holder must be listed as additional insured. A waiver of subrogation shall be provided. Coverage shall apply on a primary non-contributory basis.

5. Pollution Insurance: Contractor shall procure and agree to maintain in full force during the term of this Contract, Contractors Pollution Liability Insurance in limits not less than $1,000,000 per occurrence and $2,000,000 aggregate, for any operations relating to the construction, handling, storage, and transportation of hazardous materials and/or waste. Contractors Pollution should be in force for no less than the entire term of the project and two years extended Completed Operations. The City of Port St. Lucie shall be listed as an additional insured. A waiver of subrogation shall be provided in favor of the City. Coverage shall apply on a primary and non-contributory basis.

6. Professional Liability Insurance: Contractor shall agree to maintain Professional Liability, or equivalent Errors & Omissions Liability, at a limit of liability not less than $2,000,000 Per Occurrence. When a self-insured retention (SIR) or deductible exceeds $10,000, the City reserves the right, but is not obligated, to review and request a copy of Contractor's most recent annual report or audited financial statement. For policies written on a "Claims-Made" basis, Consultant warrants that the retroactive date equals or precedes the effective date of this Contract. In the event the policy is canceled, non-renewed, switched to an Occurrence Form, retroactive date advanced, or any other event triggering the right to purchase a Supplemental Extended Reporting Period (SERP) during the life of this Contract, Contractor shall agree to purchase a SERP with a minimum reporting period not less than four (4) years. If policy contains an exclusion for dishonest or criminal acts, defense coverage for the same shall be provided.

7. Waiver of Subrogation: By entering into this Contract, Contractor agrees to a Waiver of Subrogation for each required policy. When required by the insurer, or should a policy condition not permit an insured to enter into a pre-loss contract to waive subrogation without an endorsement, then Contractor shall agree to notify the insurer and request the policy be endorsed with a Waiver of Transfer of Rights of Recovery Against Others, or its equivalent. This Waiver of Subrogation requirement shall not apply to any policy where a condition to the policy specifically prohibits such an endorsement, or voids coverage should Contractor enter into such a contract on a pre-loss basis.

8. Deductibles: All deductible amounts shall be paid for and be the responsibility of the Contractor for any and all claims under this Contract. Where an SIR or deductible exceeds $5,000, the City of Port St. Lucie reserves the right, but is not obligated, to review and request a copy of the Contractor's most recent annual report or audited financial statement.

It shall be the responsibility of the Contractor to ensure that all independent contractors and/or subcontractors comply with the same insurance requirements as listed herein, including Products & Completed Operations coverage for a minimum of five (5) years from the date of possession by City or completion of Contract. It will be the responsibility of the Contractor to obtain Certificates of Insurance from all contractors and subcontractors listing the City as an Additional Insured, without the language, "when required by written contract." If Contractor, any independent contractors, and/or any subcontractors maintain higher limits than the minimums shown above, the City requires and shall be entitled to coverage for the higher limits maintained by Contractor/independent contractor/subcontractor.

The Contractor may satisfy the minimum limits required above for either Commercial General Liability, Business Auto Liability, or Employers' Liability coverage under Umbrella or Excess Liability. The Umbrella or Excess Liability shall have an Aggregate limit not less than the highest "Each Occurrence" limit for either Commercial General Liability, Business Auto Liability, or Employers' Liability. When required by the insurer, or when Umbrella or Excess Liability is written on Non-Follow Form," the City shall be endorsed as an "Additional Insured."

The City, by and through its Risk Management Department, reserves the right, but is not obligated, to review, modify, reject, or accept any required policies of insurance including limits, coverages, or endorsements, herein from time to time throughout the term of this Contract. All insurance carriers must have an AM Best rating of at least A:VII or better.

A failure on the part of the Contractor to execute the Contract and/or punctually deliver the required insurance, and other documentation may be cause for annulment of the award.

SECTION XII
ACTS OF GOD

The Contractor shall be responsible for all preparation of the site for Acts of God, including, but not limited to: earthquake, flood, tropical storm, hurricane, or other cataclysmic phenomenon of nature, rain, wind, or other natural phenomenon of normal intensity, including extreme rainfall. No reparation shall be made to the Contractor for damages to the work resulting from these Acts. The City is not responsible for any costs associated with pre or post preparations for any Acts of God.

Emergencies – In the event of emergencies affecting the safety of persons, the work, or property, at the site or adjacent thereto, the Contractor, or his designee, without special instruction or authorization from the City, is obligated to act to prevent threatened damage, injury, or loss. In the event such actions are taken, the Contractor shall promptly give to the City written notice and make immediate contact by phone, of any significant changes in work or deviations from the Contract documents caused thereby, and if such action is deemed appropriate by the City, a written authorization signed by the City covering the approved changes and deviations will be issued.

SECTION XIII
PROHIBITION AGAINST FILING OR MAINTAINING LIENS AND SUITS

Subject to the laws of the State of Florida and of the United States, neither Contractor nor any subcontractor, supplier of materials, laborer, or other person or entity shall file or maintain any lien for labor or materials delivered in the performance of this Contract against the City. The right to maintain such lien for any or all the above parties is hereby expressly waived.

SECTION XIV
COMPLIANCE WITH LAWS

The Contractor shall give all notices required by and shall otherwise comply with all applicable laws, ordinances, and codes and shall, at his own expense, secure and pay the fees and charges for all permits required for the performance of the Contract. All materials furnished and works done are to comply with all federal, state, and local laws and regulations. Contractor will comply with all requirements of 28 C.F.R. § 35.151.

SECTION XV
PUBLIC RECORDS

Contractor and any subcontractors shall comply with section 119.0701, Florida Statutes. The Contractor and any subcontractors are to allow public access to all documents, papers, letters, or other material made or received by the Contractor in conjunction with this Contract, unless the records are exempt from Article I, section 24(a), Florida Constitution, and section 119.07(1)(a), Florida Statutes. Pursuant to section 119.10(2)(a), Florida Statutes, any person who willfully and knowingly violates any of the provisions of chapter 119, Florida Statutes, commits a misdemeanor of the first degree, punishable as provided in sections 775.082 and 775.083, Florida Statutes.

RECORDS

The City of Port St. Lucie is a public agency subject to chapter 119, Florida Statutes. The Contractor shall comply with Florida's Public Records Laws. CONTRACTOR'S RESPONSIBILITY FOR COMPLIANCE WITH CHAPTER 119, FLORIDA STATUTES. Pursuant to section 119.0701, Florida Statutes, Contractor agrees to comply with all public records laws, specifically to:

Keep and maintain public records required by the City in order to perform the service.

A. The timeframes and classifications for records retention requirements must be in accordance with the General Records Schedule GS1-SL for State and Local Government Agencies and GS2 for Criminal Justice Agencies and District Medical Examiners.

B. During the term of the Contract, the Contractor shall maintain all books, reports, and records in accordance with generally accepted accounting practices and standards for records directly related to this Contract. The form of all records and reports shall be subject to the approval of the City.

C. Records include all documents, papers, letters, maps, books, tapes, photographs, films, sound recordings, data processing software, or other material, regardless of the physical form, characteristics, or means of transmission, made or received pursuant to law or ordinance or in connection with the transaction of official business with the City. Contractor's records under this Contract include, but are not limited to, supplier/subcontractor invoices and contracts, project documents, meeting notes, emails and all other documentation generated during this Contract.

D. The Contractor agrees to make available to the City, during normal business hours all books of account, reports and records relating to this Contract.

E. A Contractor who fails to provide the public records to the City within a reasonable time may also be subject to penalties under section 119.10, Florida Statutes.

Upon request from the City's custodian of public records, provide the City with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in chapter 119 or as otherwise provided by law.

Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the Contract term and following completion of the Contract if the Contractor does not transfer the records to the City.

Upon completion of the Contract, transfer, at no cost to the City, all public records in possession of the Contractor or keep and maintain public records required by the City to perform the service. If the Contractor transfers all public records to the City upon completion of the Contract, the Contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Contractor keeps and maintains public records upon completion of the Contract, the Contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the City, upon request from the City's custodian of public records, in a format that is compatible with the information technology systems of the City.

IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT:

CITY CLERK
121 SW Port St. Lucie Blvd.
Port St. Lucie, FL 34984
(772) 871 5157
prr@cityofpsl.com

TRADE SECRETS

Any material submitted to the City that Contractor contends constitutes or contains trade secrets or is otherwise exempt from production under Florida public records laws (including chapter 119, Florida Statutes) ("Trade Secret Materials"), must be separately submitted and conspicuously labeled: "EXEMPT FROM PUBLIC RECORD PRODUCTION – TRADE SECRET." In addition, simultaneous with the submission of any Trade Secret Materials, the Contractor shall provide a sworn affidavit from a person with personal knowledge attesting that the Trade Secret Materials constitute trade secrets under section 688.002, Florida Statutes, and stating the factual basis to support the attestation. If a third party submits a request to the City for records designated by the Contract as Trade Secret Materials, the City shall refrain from disclosing the Trade Secret Materials, unless otherwise ordered by a court of competent jurisdiction or authorized in writing by the Contractor. Contractor shall indemnify and defend the City, its employees, agents, assigns, successors, and subcontractors from any and all claims, causes of action, losses, fines, penalties, damages, judgments, and liabilities of any kind, including attorney's fees, litigation expenses, and court costs, relating to the nondisclosure of any Trade Secret Materials in response to a records request by a third party.

SECTION XVI
SCRUTINIZED COMPANIES

By entering into this Contract with the City, Contractor certifies that it and those related entities of Contractor, as defined by Florida law, are not on the Scrutinized Companies that Boycott Israel List, created pursuant to section 215.4725, Florida Statutes, and are not engaged in a boycott of Israel. The City may terminate this Contract if Contractor or any of those related entities of Contractor, as defined by Florida law, are found to have submitted a false certification or any of the following occur with respect to the company or a related entity: (i) it has been placed on the Scrutinized Companies that Boycott Israel List, or is engaged in a boycott of Israel, or (ii) for any contract for goods or services of one million dollars or more, it has been placed on the Scrutinized Companies with Activities in Sudan List or the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or it is found to have been engaged in business operations in Cuba or Syria. Notwithstanding the preceding, the City reserves the right and may, in its sole discretion, on a case by case basis, permit a company on such lists or engaged in business operations in Cuba or Syria to be eligible for, bid on, submit a proposal for, or enter into or renew a contract for goods or services of one million dollars or more, or may permit a company on the Scrutinized Companies that Boycott Israel List to be eligible for, bid on, submit a proposal for, or enter into or renew a contract for goods or services of any amount, should the City determine that the conditions set forth in section 287.135(4), Florida Statutes, are met.

SECTION XVII
CONTRACT ADMINISTRATION

Amendments. The City and the Contractor agree that they will, from time to time, execute, acknowledge, and deliver, or cause to be executed, acknowledged, and delivered, such supplements hereto and such further instruments as may reasonably be required for carrying out the expressed intention of the Contract. The Contract may be amended in writing from time to time by mutual consent of the parties. All amendments to the Contract must be in writing and fully executed by duly authorized representatives of the City and the Contractor.

Fiscal Year- All reference to Fiscal Year shall mean the City's Fiscal Year. The City's Fiscal Year is from October 1st through September 30th.

Joint Venture. Nothing in the Contract shall be construed as creating or constituting the relationship of a partnership, joint venture, or other association of any kind or agent and principal relationship, between the vested parties. Each party shall be deemed to be an independent contractor contracting for the services and acting toward the mutual benefits expected to be derived from the mutually agreed upon Contract. Neither Contractor nor any of Contractor's agents, employees, subcontractors, or contractors shall become or be deemed to become agents, or employees of the City. Contractor shall therefore be responsible for compliance with all laws, rules, and regulations involving its employees and any subcontractors, including, but not limited to, employment of labor, hours of labor, health and safety, working conditions, workers' compensation insurance, and payment of wages. No party has the authority to enter into any contract or create an obligation or liability on behalf of, in the name of, or binding upon another party to the Contract.

Performance by Industry Standards. The Contractor represents and expressly warrants that all aspects of the Services provided or used by it shall, at a minimum, conform to the standards in the Contractor's industry. This requirement shall be in addition to any express warranties, representations, and specifications included in the Contract, which shall take precedence

Permits, Licenses, and Certifications. The Contractor shall be responsible for obtaining all permits, licenses, certifications, etc., required by Federal, State, County, and Municipal laws, regulations, codes, and ordinances for the performance of the work required in these specifications and to conform with the requirements of said legislation. The Contractor shall be required to complete a **W-9 Taxpayer Identification Form,** provided with the City's Contract, and return it with the signed contract and insurance documents.

Use of Name or Intellectual Property. Contractor agrees it will not use the name or any intellectual property, including but not limited to, City trademarks or logos in any manner, including commercial advertising or as a business reference, without the express prior written consent of the City.

Waiver. Except as specifically provided for in a waiver signed by duly authorized representatives of the City and the Contractor, failure by either party at any time to require performance by the other party or to claim a breach of any provision of the Contract shall not be construed as affecting any subsequent right to require performance or to claim a breach. Each waiver, if mutually agreed upon, shall be published as a Contract amendment.

SECTION XVIII
ADDITIONAL REQUIREMENTS

In the event of any conflict between the terms and conditions, appearing on any purchase order issued relative to this Contract, and those contained in this Contract and the Specifications herein referenced, the terms of this Contract and Specifications herein referenced shall apply.

Implied Warranty of Merchantability – It is understood that the implied warranty of merchantability and fitness for the specified purpose are not disclaimed, notwithstanding any representation to the contrary.

Warranty and Guarantee – All products furnished by the Contractor shall be supplied with all warranties and guarantees of the manufacturer. All products must be warranted by the Contractor to be free of defects in workmanship and material for a period of not less than three hundred sixty-five (365) calendar days; said period to commence upon the date products are accepted by the City and Contractor has received final payment.

Miscellaneous Testing – The Contractor agrees to reimburse the City for any expenditure incurred by the City in the process of testing products supplied by the Contractor if said products prove to be defective and/or in other manners not in compliance with the specifications. Expenditures as defined therein shall include, but are not limited to, the replacement value of products destroyed in testing, the cost paid by the City to testing laboratories and other entities utilized to provide tests, and the value of labor and materials expended by the City in the process of conducting the testing. Reimbursement of charges as specified herein shall not relieve the Contractor from other remedies.

City's Public Relations Image – The Contractor's personnel shall at all times handle complaints and any public contact with due regard to the City's relationship with the public. Any personnel in the employ of the Contractor involved in the execution of work that is deemed to be conducting himself in an unacceptable manner shall be removed from the project at the request of the City Manager.

Dress Code – All personnel in the employ of the Contractor shall be appropriately attired. Employees engaged in the course of work shall wear company uniforms neat and clean in appearance, readily identifiable to all City employees and the public. Tee shirts with obscene pictures or writings shall not be allowed. Swimsuits, tank tops, shorts and sandals are also prohibited. Safety-toed shoes shall be worn at all times.

Patent Fees, Royalties, and Licenses – If the Contractor requires or desires to use any design, trademark, device, material or process covered by letters of patent or copyright, the Contractor and his surety shall indemnify and hold harmless the City from any and all claims for infringement in connection with the work agreed to be performed. The Contractor shall indemnify the City from any cost, expense, royalty, or damage which the City may be obligated to pay by reason of any infringement at any time during the prosecution of or after completion of the work.

Permits - The Contractor shall be responsible for obtaining all permits, licenses, certifications, etc., required by Federal, State, County, and Municipal laws, regulations, codes, and ordinances for the performance of the work required in these specifications and to conform with the requirements of said legislation. The Contractor shall be required to complete a **W-9 Taxpayer Identification Form,** provided with the City's contract, and return it with the signed Contract and insurance documents

Discrepancies – If, in the course of performing work resulting from an award under this specification, the Contractor finds any discrepancy between the area defined in these specifications and the actual area where work is being performed, the Contractor shall discontinue work on the subject area and inform the City of the discrepancy. The Contractor shall thereafter proceed as authorized by the City who will document any modification to these specifications that City has authorized in writing as soon as possible.

Permission to Use – The Contractor shall permit any portion of the new work, which is in suitable condition, to be used by the City for the purpose for which it was intended, provided such use does not hinder or make more expensive the work still to be done by the Contractor.

Contractual Relations – The Contractor(s) are advised that nothing contained in the Contract or specifications shall create any contractual relations between the City and subcontractor(s) of the Contractor.

Labor and Equipment – The Contractor shall utilize experienced personnel who are thoroughly capable of performing the work assigned to them. The Contractor shall utilize proper equipment in good repair to perform assigned work. Failure on the part of the Contractor to furnish such labor or equipment shall be sufficient cause for annulment of any award resulting from these specifications.

Standard Production Items - All products offered must be standard production items that have been available to the trade for a period of not less than two (2) years and are expected to remain available in future years.

Storage and Stockpiling – All storage or stockpiling of tools or materials (i.e., lumber, pilings, etc.) shall be limited to uplands. Excess lumber, scrap wood, trash, garbage or other types of debris shall be removed from the project site upon completion of the work.

Florida Produced Lumber – The Contractor agrees to comply with the provisions of section 255.20, Florida Statutes.

Erosion and Sediment Control – The Contractor is responsible for all erosion and sediment control in accordance with all local, State, and Federal regulatory agency guidelines.

Water Resources – The Contractor shall not discharge without permit into waters of lakes, rivers, canals, waterways and ditches, any fuel, oils, bitumen's, garbage, sewage, or other materials which may be harmful to fish, wildlife, or vegetation, or that may be detrimental to outdoor recreation. The Contractor shall be responsible for investigating and complying with all applicable Federal, State, and Local laws and regulations governing pollution of waters. All work under this Contract shall be performed in such a manner that objectionable conditions will not be created in waters through or adjacent to the project areas.

Native Vegetation – No native vegetation shall be removed without written authorization and prior approval by the City.

Sanitary Conditions – the Contractor shall be responsible to permit the City, its inspectors, and other authorized representatives of the City to have access to all parts of the work, and to all materials intended for use in the work, and to all factories where such materials are manufactured, at all times. The above designated City personnel shall be permitted during said access to remove materials and make such inspections, as they deem necessary. Materials submitted for approval will be inspected and passed upon as promptly as practical as will work in process. However, failure to reject defective work at the time it is done and/or failure to reject materials shall in no way prevent rejection at any time prior to final acceptance of the work authorized by the City.

Foreman or Superintendent and Workmen – The Contractor shall at all times during progress of the work, have on site a competent foreman or superintendent with authority to act for it and to cooperate with the City. The Contractor shall provide competent, careful, and reliable workmen engaged on special work, or skilled work, such as concrete bases, pavements, or structure, or in any trade, with sufficient experience in such work to perform it properly and satisfactorily and to operate the equipment involved. Contractor shall provide workmen that shall make do and proper effort to execute the work in the manner prescribed in the Contract Documents.

It is prohibited as a conflict of interest for a Contractor to subcontract with a consultant to perform Contractor Quality Control when the consultant is under contract with the City to perform work on any project described in the Contractor's Contract with the City. Prior to approving a consultant for Contractor Quality Control, the Contractor shall submit to the City a certificate from the proposed consultant certifying that no conflict of interest exists.

Adjustments – The Contractor shall be responsible to arrange with utility companies for any adjustment necessary to the valve boxes, manholes, or castings so that they will conform to the new grade after placement of the sidewalk. The Contractor shall also be responsible to identify and avoid damage to all utilities (publicly and privately owned) within the area where work is being performed.

Damages – The Contractor shall be responsible for the charge and care of all work from damage by the elements or from any cause whatsoever until the City confirms in writing to the Contractor that said work is, "substantially complete" and/or "accepted." The Contractor shall be responsible until said written notice is received to repair and make good at their expense any such damage.

Damage to Property – The Contractor shall preserve from damage all property along the line of work, or which is in the vicinity of or is in any way affected by the work, the removal, or destruction of which is not called for by the plans.

This applies to public and private property, public and private utilities, trees, shrubs, crops, signs, monuments, fences, guardrail, pipe and underground structures, public highways, etc., whenever such property is damaged due to the activities of the Contractor, it shall be immediately restored to a condition equal to or better than existing before such damage or injury was done by the Contractor, and at the Contractor's expense. The Contractor's special attention is directed to protection of any geodetic monument, horizontal, vertical or property corner, located within the limits of construction.

National Geodetic Vertical Datum 1929 (NGVD '29) or North American Vertical Datum 1988 (NAVD '88) monuments shall be protected. If in danger of damage, notify:

Geodetic Information Center
6001 Executive Boulevard
Rockville, MD 20852
Attn: Maintenance Center (301) 443-8319

City of Port St. Lucie vertical or horizontal datum shall also be protected. In case of damage or if relocation is needed, notify:

City of Port St. Lucie
Engineering Department
121 SW Port St. Lucie Boulevard
Port St. Lucie, FL 341984-5099 (772) 871-5175

SECTION XIX
INSPECTION AND CORRECTION OF DEFECTS

In order to determine whether the required materials have been delivered or the required work performed in accordance with the terms and conditions of the Contract documents, the Project Manager shall make inspection as soon as practicable after receipt from the Contractor of a Notice of Performance or delivery ticket. If such inspection shows that the required materials have been delivered and required work performed in accordance with terms and conditions of the Contract documents and that the material and work is entirely satisfactory, the Project Manager shall approve the invoice when it is received. Thereafter the Contractor shall be entitled to payment, as described in Section VI. However, if, upon such inspection the Project Manager is not satisfied, he shall as promptly as practicable inform the parties hereto of the specific respects in which his findings are not favorable. Contractor shall then be afforded an opportunity if desired by him, to correct the deficiencies so pointed out at no additional charge to the City, and otherwise on terms and conditions specified by the Project Manager. Upon failure of the Contractor to perform the work in accordance with the Contract Documents, including any requirements with respect to the Schedule of Completion, and after five (5) days written notice to the Contractor, the City may, without prejudice to any other remedy it may have, correct such deficiencies. The Contractor shall be charged all costs incurred to correct deficiencies. Such examination, inspection, or tests made by the Project Manager, at any time, shall not relieve Contractor of his responsibility to remedy any deviation, deficiency, or defect.

Authority – The Contractor is hereby informed that City inspectors are not authorized to alter, revoke, enlarge, or relax the provisions of these specifications. They are not authorized to approve or accept any portion of the completed work, or instructions contrary to the specifications. An inspector is placed on the project (or sent to the location of materials) to inspect materials being used in the work and to observe the manner in which the work is being performed and to report the progress of the work to the City. The inspector shall have the authority to reject defective materials or suspend any work that is being improperly done subject to the final decision of the City.

Notification – The Contractor shall be responsible to give twenty-four (24) hour notification to the City when field observations are required.

Defective Work – All work and/or materials not meeting the requirements of these specifications shall be deemed as defective by the City, and all such work and/or material, whether in place or not, shall be removed immediately from the site of the work. All rejected materials that have been corrected shall not be used until the City has issued written approval to the Contractor. Without unnecessary delay and without any additional cost to the City, all work that has been rejected shall be remedied or removed and replaced in a manner acceptable to the City. If the Contractor fails to promptly remove and properly dispose of rejected materials and/or work then replaces same immediately after being notified to do so, the City may employ labor to remove and replace such defective work and/or materials. All charges for replacement of defective materials and/or work shall be charged to the Contractor and may be deducted from any monies due to the Contractor or his Surety.

Repair or Replacement – Should any defect appear during the warranty period, the Contractor shall, at their own expense, have repaired or replaced such item upon receipt of written notice from the City of said defect. Said repair or replacement must be accomplished within fourteen (14) calendar days after receipt of notification from the City of the defect.

Deductions – In the event the City deems it expedient to perform work which has not been done by the Contractor as required by these Specifications, or to correct work which has been improperly and/or inadequately performed by the contractor as required in these Specifications, all expenses thus incurred by the City, in the City's option, will be invoiced to the Contractor and/or may be deducted from payments due to the Contractor. Deductions thus made will not excuse the Contractor from other penalties and conditions contained in the Contract.

SECTION XX
LICENSING

Contractor warrants that it and its employees possess all licenses and certifications necessary to perform required work and is not in violation of any laws. Contractor warrants that such licenses and certificates are current and will be maintained throughout the duration of the Contract.

SECTION XXI
SAFETY PRECAUTIONS

Precaution shall be exercised at all times for the protection of persons, including employees, and property. The Contractor shall erect and maintain all necessary safeguards for the protection of the Contractor's employees and subcontractors, City personnel, and the general public; including, but not limited to, posting danger signs, and other warnings against hazards as is prudent and/or required by law to protect the public interest. All damage, injury or loss to persons and/or property caused, directly or indirectly, in whole or in part, by the Contractor's employees, or subcontractor(s), or anyone directly or indirectly employed by said parties shall be remedied by the Contractor. The safety provisions of all applicable laws and building and construction codes shall be observed.

Safety Data Sheets – The Contractor shall provide SDS's and description literature for each chemical/compound/mixture used in the performance of the Contract to the City before the commencement of any work. All SDS's shall be of the latest version and comply with 29 CFR 1910.1200. Hazardous products shall not be used except with prior approval of the City, and must be disposed of properly by the Contractor in accordance with U.S. Environmental Protection Agency 40 CFR 260-265. The Contractor shall maintain

and have readily accessible on-site a complete SDS book of all chemicals, compounds/mixtures used in the execution of the Contract.

Personal Protective Equipment (PPE) – All personnel are required to wear PPE in the process of the work including eye protection, hearing protection, respiratory protection as necessary, gloves, approved safety boots with steel or composite toes, and any other PPE as necessary for the work.

OSHA Compliance – Contractors must agree that the products furnished, and application methods will comply with applicable provisions of the Williams-Steiger Occupational Safety and Health Act of 1970. These requirements shall include all primary and refresher training mandated under the OSHA guidelines.

SECTION XXII
ASSIGNMENT

Contractor shall not delegate, assign, or subcontract any part of the work under this Contract or assign any monies due him hereunder without first obtaining the written consent of the City. If Contractor sells all or a majority of its shares, merges with, or otherwise is acquired by or unifies with a third party, it shall notify the City within ten (10) days. If after such notice, the City determines in its sole discretion, it may terminate the Contract, without penalty. The City's consent to any assignment is strictly conditioned upon the third party assuming all obligations under the Contract as it exists at the time of the assignment and/or assumption. Contractor shall ensure that any business transaction complies with the terms of this section, and failure to so comply shall render any alleged assignment and/or assumption void.

SECTION XXIII
TERMINATION, DELAYS, AND LIQUIDATED DAMAGES

A. Termination for Cause – The occurrence of any one or more of the following events shall constitute cause for the City to declare the Contractor in default of its obligations under the Contract:

I. The Contractor fails to deliver or has delivered nonconforming services or fails to perform, to the City's satisfaction, any material requirement of the Contract or is in violation of a material provision of the Contract, including, but without limitation, the express warranties made by the Contractor;
II. The Contractor fails to make substantial and timely progress toward performance of the Contract;
III. In the event the Contractor is required to be certified or licensed as a condition precedent to providing the Services, the revocation or loss of such license or certification may result in immediate termination of the Contract effective as of the date on which the license or certification is no longer in effect;
IV. The Contractor becomes subject to any bankruptcy or insolvency proceeding under federal or state law to the extent allowed by applicable federal or state law including bankruptcy laws; the Contractor terminates or suspends its business; or the City reasonably believes that the Contractor has become insolvent or unable to pay its obligations as they accrue consistent with applicable federal or state law;
V. The Contractor has failed to comply with applicable federal, state, and local laws, rules, ordinances, regulations, and orders when performing within the scope of the Contract;
VI. If the City determines that the actions, or failure to act, of the Contractor, its agents, employees, or subcontractors have caused, or reasonably could cause, life, health, or

safety to be jeopardized;

VII. The Contractor has engaged in conduct that has or may expose the City to liability, as determined in the City's sole discretion; or

VIII. The Contractor furnished any statement, representation, or certification in connection with the Contract, which is materially false, deceptive, incorrect, or incomplete.

B. Notice of Default. Except as provided in Section XXIII.C, if there is a default, breach, or noncompliance event caused by the Contractor, the City shall provide written notice to the Contractor requesting that the breach, default, or noncompliance be remedied within the period specified in the City's written notice to the Contractor. If the breach or noncompliance is not remedied within the period specified in the written notice, the City may:

I. Immediately terminate the Contract without additional written notice(s); and/or

II. Enforce the terms and conditions of the Contract and seek any legal or reasonable remedies; and/or

III. Procure substitute services from another source and charge the difference between the Contract and the substitute contract to the defaulting Contractor. Such a charge, in the City's option, may be invoiced to the Contractor and/or may be deducted from payments due to the Contractor. Deductions thus made will not excuse the Contractor from other penalties and conditions contained in the Contract.

C. Irreparable or Irreversible Breach, Default, or Noncompliance. The parties agree that there may be certain breaches, defaults, or acts or omissions of noncompliance that are, by their very nature, irreparable or irreversible. In the event there is a breach, default, or noncompliance that is irreparable or irreversible, the City may immediately take any or all actions listed under Section XXIII.B.I-III, upon notice to Contractor of its decision to exercise such right(s). Whether a breach, default, or noncompliance is irreparable or irreversible will be determined in the sole discretion of the City.

D. Termination for Convenience. The City, in its sole discretion, may terminate this Contract at any time without cause, by providing at least thirty (30) days' prior written notice to Contractor. Following termination without cause, the Contractor shall be entitled to compensation upon submission of invoices and proper proof of claim, for services provided under the Contract to the City up to the time of termination, pursuant to Florida law.

E. Conversion of Termination for Cause to Termination for Convenience. If the City terminates this Contract for cause, and the basis for such termination is later found to be insufficient, then the termination shall automatically convert to a termination for convenience.

F. Contractor Allegation of City Default/Breach – if Contractor contends the City has defaulted or breached under the Contract, it shall provide notice to the City, as otherwise required herein, with a copy to: City of Port St. Lucie, Attn: City Attorney's Office, 121 SW Port St. Lucie Blvd., Port St. Lucie, FL 34984, specifying the exact nature of the alleged default/breach. The Contractor shall provide the notice required under this section at least thirty (30) days notice before declaring a default/breach. If after reviewing the notice, the City desires to have a meeting with Contractor to discuss a mutual resolution, Contractor shall attend such a meeting. If the City provides Contractor with a request for a meeting, such request shall toll the thirty (30) days period for Contractor to declare a default/breach. Contractor agrees that it much comply with this paragraph as a condition precedent to filing any lawsuit against the City.

SECTION XXIV
APPROPRIATION APPROVAL

The Contractor acknowledges that the City of Port St Lucie's performance and obligation to pay under this Contract is contingent upon an annual appropriation by the City Council. The Contractor agrees that, in the event such appropriation is not forthcoming, this Contract may be terminated by the City effective the last date for which funding was appropriated and that no charges, penalties, or other costs shall be assessed.

SECTION XXV
LAW, VENUE, AND WAIVER OF JURY TRIAL

This Contract is to be construed as though made in and to be performed in the State of Florida and is to be governed by the laws of Florida in all respects without reference to the laws of any other state or nation. The venue of any action taken to enforce this Contract, arising out of this Contract, or related to this Contract, shall be in St. Lucie County, Florida.

The parties to this Contract hereby freely, voluntarily, and expressly, waive their respective rights to trial by jury on any issues so triable after having the opportunity to consult with an attorney.

SECTION XXVI
CONFLICT OF INTEREST

The City hereby acknowledges that the Contractor may be performing professional services for private developers within the Treasure Coast area. Should a conflict of interest arise between providing services to the City and/or other clients, the Contractor shall terminate its relationship with the other client(s) to resolve the conflict of interest. The City Manager shall determine whether a conflict of interest exists. At the time of each Project Proposal the Contractor shall disclose all its Treasure Coast clients and related Scope of Work.

SECTION XXVII
PROHIBITION AGAINST CONTINGENT FEES

The Contractor warrants that he or she has not employed or retained any company or person, other than a bona fide employee working solely for the Contractor, to solicit or secure this Contract and that he has not paid or agreed to pay any person, company, corporation, individual, or firm, other than a bona fide employee working solely for the Contractor, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Contract.

SECTION XXVIII
ATTORNEY'S FEES

Each party is responsible for its own attorney's fees for any action arising from or related to this Contract. Each party expressly waives any right to seek attorney's fees from the other party, regardless of the source of such right.

SECTION XXIX

CODE OF ETHICS

Contractor warrants and represents that its employees will abide by any applicable provisions of the State of Florida Code of Ethics in Chapter 112.311 et seq., Florida Statutes, and Code of Ethics Ordinances in Section 9.14 of the City of Port St. Lucie Code.

SECTION XXX
POLICY OF NON-DISCRIMINATION

Contractor shall not discriminate against any person in its operations, activities, or delivery of services under this Contract. Contractor shall affirmatively comply with all applicable provisions of federal, state, and local equal employment laws and shall not engage in or commit any discriminatory practice against any person based on race, age, religion, color, gender, sexual orientation, national origin, marital status, physical or mental disability, political affiliation, or any other factor which cannot be lawfully used as a basis for service delivery.

SECTION XXXI
SEVERABILITY

The parties to this Contract expressly agree that it is not their intention to violate any public policy, statutory, or common law rules, regulations, or decisions of any governmental or regulatory body. If any provision of this Contract is judicially or administratively interpreted or construed as being in violation of any such policy, rule, regulation, or decision, the provision, sections, sentence, word, clause, or combination thereof causing such violation will be inoperative (and in lieu thereof there will be inserted such provision, section, sentence, word, clause, or combination thereof as may be valid and consistent with the intent of the Parties under this Contract) and the remainder of this Contract, as amended, will remain binding upon the parties, unless the inoperative provision would cause enforcement of the remainder of this Contract to be inequitable under the circumstances. By way of example, but not limitation, if there is a statute that limits the applicability of a provision herein, then the provision shall be interpreted to apply to the extent permissible by said statute.

SECTION XXXII
AUDITS

The Contractor shall establish and maintain a reasonable accounting system that enables the City to readily identify the Contractor's assets, expenses, costs of goods, and use of funds throughout the term of the Contract for a period of at least seven (7) years following the date of final payment or completion of any required audit, whichever is later. Records shall include, but are not limited to, accounting records, written policies and procedures; subcontract files (including proposals of successful and unsuccessful bidders, bid recaps, etc.); all paid vouchers including those for out-of-pocket expenses; other reimbursement supported by invoices; ledgers; canceled checks; deposit slips; bank statements; journals; original estimates; estimating worksheets; contract amendments and change order files; back charge logs and supporting documentation; insurance documents; payroll documents; timesheets; memoranda; and correspondence. The Contractor shall permit the City's authorized auditor or any authorized representative of the State, and where federal funds are involved, the Comptroller General of the United States, or any other authorized representative of the United States government, to access and examine, audit, excerpt and to make copies of all books, documents, papers, electronic or optically stored and created records, or other records relating or pertaining to this Contract kept by or under the control of the Contractor, including, but not limited to, those kept by the Contractor, its employees, agents, assigns, successors, and subcontractors. Such records shall be made available to the City during normal business hours at the Contractor's office or place of business. The Contractor shall not impose a charge for

audit or examination of the Contractor's books and records. If an audit discloses incorrect billings or improprieties, the City reserves the right to charge the Contractor for the cost of the audit and appropriate reimbursement. Any adjustments and/or payments that must be made as a result of any such audit or inspection of the Contractor's invoices and/or records shall be made within a reasonable amount of time (not to exceed ninety (90) days) from presentation of the City's findings to the Contractor. Evidence of criminal conduct will be turned over to the proper authorities.

The Contractor shall ensure the City has these rights with Contractor's employees, agents, assigns, successors, and subcontractors, and the obligations of these rights shall be explicitly included in any subcontracts or agreements formed between the Contractor and any subcontractors to the extent that those subcontracts or agreements relate to fulfillment of the Contractor's obligations to the City.

SECTION XXXIII
FORCE MAJEURE

Any deadline provided for in this Contract may be extended, as provided in this paragraph, if the deadline is not met because of one of the following conditions occurring with respect to that particular project or parcel: fire, strike, explosion, power blackout, earthquake, volcanic action, flood, war, civil disturbances, terrorist acts, hurricanes, and Acts of God. When one of the foregoing conditions interferes with Contract performance, then the party affected may be excused from performance on a day-for-day basis to the extent such party's obligations relate to the performance so interfered with, provided, the party so affected shall use reasonable efforts to remedy or remove such causes of non-performance. The party so affected shall not be entitled to any additional compensation by reason of any day-for-day extension hereunder.

SECTION XXXIV
CONSTRUCTION

The title of the section and paragraph headings in this Contract are for reference only and shall not govern, suggest, or affect the interpretation of any of the terms or provisions within each section or this Contract as a whole. The use of the term "including" in this Contract shall be construed as "including, without limitation." Where specific examples are given to clarify a general statement, the specific language shall not be construed as limiting, modifying, restricting, or otherwise affecting the general statement. All singular words and terms shall also include the plural, and vice versa. Any gendered words or terms used shall include all genders. Where a rule, law, statute, or ordinance is referenced, it indicates the rule, law, statute, or ordinance in place at the time the Contract is executed, as well as may be amended from time to time, where application of the amended version is permitted by law.

The parties have participated jointly in the negotiation and drafting of this Contract and agree that both have been represented by counsel and/or had sufficient time to consult counsel, before entering into this Contract. In the event an ambiguity, conflict, omission, or question of intent or interpretation arises, this Contract shall be construed as if drafted jointly by the parties, and there shall be no presumption or burden of proof or persuasion based on which party drafted a provision of the Contract.

SECTION XXXV
E-VERIFY

The Contractor agrees to comply with section 448.095, Florida Statutes, including the following:

A. Contractor must register with and use the E-Verify system to verify the work authorization status of all new employees of the Contractor. The Contractor must provide the City with sufficient proof of compliance with this provision before beginning work under this Contract.
B. If Contractor enters into a contract with a subcontractor, Contractor must require each and every subcontractor to provide the Contractor with an affidavit stating that the subcontractor does not employ, contract with, or subcontractor with an unauthorized alien. The Contractor shall maintain a copy of each and every such affidavit(s) for the duration of the Contract and any renewals thereafter.
C. The City shall terminate this Contract if it has a good faith belief that a person or an entity with which it is contracting has knowingly violated section 448.09(1), Florida Statutes.
D. Contractor shall immediately terminate any contract with any subcontractor if Contractor has, or develops, a good faith belief that the subcontractor has violated section 448.09(1), Florida Statutes. If the City has or develops a good faith belief that any subcontractor of Contractor knowingly violated section 448.09(1), Florida Statutes, or any provision of section 448.095, Florida Statutes, the City shall promptly notify the Contractor and order the Contractor to immediately terminate the contract with the subcontractor.
E. The City shall terminate this Contract for violation of any provision in this section. If the Contract is terminated under this section, it is not a breach of contract and may not be considered as such. If the City terminates this Contract under this section, the Contractor may not be awarded a public contract for at least one (1) year after the date on which the Contract was terminated. A contractor is liable for any additional costs incurred by the City as a result of the termination of the contract.
F. The City, Contractor, or any subcontractor may file a cause of action with a circuit or county court to challenge a termination under section 448.095(5)(c), Florida Statutes, no later than twenty (20) calendar days after the date on which the Contract was terminated. The parties agree that any such a cause of action must be filed in St. Lucie County, Florida, in accordance with the Venue provision herein.

SECTION XXXVI
NON-EXCLUSIVITY

The Contractor acknowledges and agrees that this Contract is non-exclusive.

SECTION XXXVII
DISCRIMINATORY, CONVICTED, AND ANTITRUST VIOLATOR VENDOR LISTS

Contractor certifies that neither it nor any of its affiliates, as defined in the statutes below, have been placed on the discriminatory vendor list under section 287.134, Florida Statutes; the convicted vendor list under section 287.133, Florida Statutes; or the antitrust violator vendor list under section 287.137, Florida Statutes. Absent certain conditions under these statutes, neither contractors nor their affiliates, as defined in the statutes, who have been placed on such lists may submit a bid, proposal, or reply on a contract to provide any goods or services to a public entity; may not submit a bid, proposal, or reply on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids, proposals, or replies on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

SECTION XXXVIII
COOPERATION WITH INSPECTOR GENERAL

Pursuant to section 20.055, Florida Statutes, it is the duty of every state officer, employee, agency, special district, board, commission, contractor, and subcontractor to cooperate with the inspector general in any investigation, audit, inspection, review, or hearing pursuant to this section. Contractor understands and will comply with this statute.

SECTION XXXIX
ENTIRE AGREEMENT

This Contract sets forth the entire agreement between Contractor and City with respect to the subject matter of this Contract. This Contract supersedes all prior and contemporaneous negotiations, understandings, and agreements, written or oral, between the parties. This Contract may not be modified except by the parties' mutual agreement set forth in writing and signed by the parties.

Sole Source Justification Form

Vendor: SOLitude Lake Management

Department: Public Works

Is this purchase for Supplies, Services, or Construction: Services

Is this a onetime purchase Y/N: No

Estimated expenditure for the current term of contract, one time purchase or annually:
$424,058 a year, for three years.

Check the box below that applies to the proposed purchase.

- [x] The Supply, Service, or Construction is available from only one source.
- [x] Supplies, Services, or Construction is a proprietary item, there is not more than one potential bidder or offeror for that item.
- [ ] The vendor is the manufacturer, and no other distribution channel is available.
- [x] The Vendor is the sole authorized dealer or reseller for a specified region.
- [x] Required items are proprietary to the Vendor.
- [ ] Compatible with existing software.
- [ ] Compatible with existing equipment.
- [ ] Repair, maintenance or modification of existing equipment.
- [ ] Upgrade to proprietary software or hardware.
- [ ] Must match existing equipment.

The undersigned requests that competitive procurement be waived and that the vendor identified as the supplier of the service or material described in this sole source justification be authorized as a sole source for the service or material.

Requisitioned by:	Signature	Department Director/Designee	Date
Bret Kaiser	Bret Kaiser 2026.05.14 13:17:11 -04'00' Colt Schwerdt (May 15, 2026 14:12:04 EDT)		

****Sole sources are required to be publicly posted by the Organization for seven (7) days business days not including holidays before approval. ****

1. Detailed Description of services and/or items: Describe the product/service you are requesting and its function.
TryMarine is a sustainable, eco-friendly water remediation solution designed to break down organic bottom muck, reduce nutrient overload, and restore water quality in lakes and ponds. It is NSF-60 certified safe for drinking water and, as a non-toxic alternative to dredging, it reverses eutrophication by enhancing natural biodiversity. SOLitude Lake Management is proposing a three year treatment plan using TryMarine for the city owned stormwater management tract, Sawgrass Lake. Sawgrass Lake has experienced degraded water quality conditions for the past couple of years. At the request of the residents who live adjacent to the tract, the city hired an environmental consultant to determine a solution to the tract's condition. After extensive testing and deliberation with the city, the consultant specifically recommended TryMarine as a treatment plan to improve the tract's conditions.
2. Justification for Sole Source/Special Circumstances: Explain why this vendor is the only source from which to obtain this product or service.
SOLitude Lake Management is the sole provider of TryMarine. They are the developer and patent-holder of the product.
3. Efforts to Identify Other Vendors: Describe steps taken to make this determination, vendors contacted, etc.
There is no other vendor as this is a proprietary product that was specifically recommended to the city by a third-party consultant to meet the needs of the stormwater tract. This is directly confirmed by TryMarine via their letter of sole source assurance provided to the city.
4. Provide written justification demonstrating the proposed price is fair and reasonable. This may include, but not limited to, historical pricing comparisons, market research, catalog pricing, or relevant supporting documentation. All evidence must be included with this request.
The city has employed treatment procedure in the past, specifically for Sawgrass Lake. The previous treatment contract was for GreenClean algaecide with Aquatic Vegetation Control (AVC). This used a similar application procedure with a comparable dosage, over the same acreage, to what is expected of TryMarine. The difference between the two treatments is that GreenClean was a one time treatment, while TryMarine is a multitude of smaller dosage treatments that will eventually add up to the target dosage required. With this in mind, GreenClean was approx. $340k for the one time, while TryMarine is approx $424k a year. Comparing the application frequency (one-time treatment vs. multiple treatments) increase as well as factoring the intention of the treatments (algaecide vs. full lake treatment), the TryMarine treatment was expected to be more expensive. Through discussions with TryMarine, they have confirmed that SOLitude is their proprietary consultant, and through additional water quality testing we were able to negotiate the price down and feel the price is reasonable.

Action Requested: Motion / Vote

Accept the Agreement Between Children's Services Council of St. Lucie County and The City of Port St. Lucie, through its Police Department - Safe Return and Wandering Prevention Program

Submitted By: Leo Niemczyk, Chief of Police

Strategic Plan Link: The City's Mission to enhance our community's safety.

Executive Summary (General Business): The Children's Services Council of St. Lucie County (CSC SLC) considers Special Designation Requests from local nonprofits and government agencies to support child-focused initiatives, capacity building, and one-time operational needs outside of standard grant cycles.

Presentation Information: N/A

Staff Recommendation: Move that the Council accept the Agreement and authorize the Chief of Police to sign the Agreement.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the agreement.
2. Move that the Council not approve and/or provide staff with direction.

Background: On April 16, 2026, the Children's Services Council of St. Lucie County made the City aware of an opportunity to apply for the CSCSLC Special Designation request. The project, The Safe Return and Wandering Prevention Program, is a public safety initiative to better locate and protect children prone to wandering.

Issues/Analysis: N/A

Financial Information: The Children's Services Council of St. Lucie County agrees to pay the City, through its Police Department, an amount not to exceed $9,910.32 for equipment and subscriptions for the Safe Return and Wandering Prevention Program. There is a 50/50 match required.

Special Consideration: N/A

Location of Project: City of Port St. Lucie

Business Impact Statement: N/A

Attachments:
1. Special Designations Request
2. Funding Request Approval Email
3. Agreement

NOTE: All of the listed items in the "Attachment" section above are in the custody of the City Clerk. Any item(s) not provided in City Council packets are available upon request from the City Clerk.

New Program Name	The Safe Return and Wandering Prevention Program

Special Designations Request

Agency Name	Port St. Lucie Police Department
Agency Address	121 SW Port St Lucie Blvd, Port Saint Lucie, FL 34984
Agency Mission Statement	Through courage, knowledge, and integrity, the Port St. Lucie Police Department is committed to providing superior customer service and keeping Port St. Lucie one of America's safest cities.
Agency History	Established in 1980, the department had a force of nine officers serving 12,000 residents. Today, it employs 360 sworn officers and 86 civilians. The City of Port St. Lucie encompasses approximately 120 square miles and serves a population of approximately 260,194 residents. The Port St. Lucie, Florida, Police Department patch displays the state seal, flanked by the U.S. and state flags. Beneath the seal is an inscription of the agency's core values — courage, knowledge, and integrity. These words remind each officer of the department's mission and principles, which are instrumental in the agency's law enforcement profession and tradition.
Project Name	The Safe Return and Wandering Prevention Program
Project Contact Name	Brianne Nasso
Project Contact Title	Police Grants Manager
Project Contact Email	bnasso@cityofpsl.com
Project Contact Telephone	772-807-4426
Project Description	The Safe Return and Wandering Prevention Program is a public safety initiative by the Port St. Lucie Police Department to better locate and protect individuals prone to wandering. It upgrades outdated radio-frequency tracking to real-time GPS monitoring, allowing for earlier detection, faster recovery, and more effective responses. Overall, the program aims to reduce search times and lower the risk of injury or death among vulnerable individuals.

Need for Project	This project addresses the growing number of wandering incidents involving individuals with autism, Alzheimer's, dementia, and similar conditions that limit their ability to stay safe. These individuals face high risks from traffic, water, and environmental hazards. By introducing GPS tracking with geofence alerts, the department can respond earlier and recover individuals faster, improving safety outcomes. The program will be implemented in the City of Port St. Lucie, Florida, a 120-square-mile community with about 260,000 residents, serving at-risk individuals within the community.
Project Outcomes	The project aims to reduce injuries and deaths from wandering incidents by upgrading the Port St. Lucie Police Department's tracking system from reactive RF technology to proactive, real-time GPS monitoring. This will improve early detection through instant alerts, enable faster recovery with precise location data, and reduce the need for large-scale search efforts. It also enhances protection for at-risk individuals, such as those with Alzheimer's, dementia, or autism, while giving caregivers tools like geofencing and real-time tracking for better prevention and peace of mind. Overall, the project strengthens response effectiveness and community safety.

---

Congratulations on the approval of your funding request! The Children's Services Council team has agreed to support your request for AngelSense subscriptions for the total amount of $9,910.32.

Attached please find the contract agreement. Please submit a signed copy of this contract to our office. Once internal signature has been completed, a fully executed copy will be returned to your agency.

In addition, the corresponding reimbursement worksheet is attached and is expected to be utilized to document reimbursement of expended funds. All expenses must be paid on or before 9/30/2026. Reimbursement documentation must be submitted no later than 09/30/2026.

We have also attached a guide to our reimbursement requests. In addition, our Fiscal Specialist, Jessy Suriel is copied on this email. She will be your best point of contact for questions about reimbursement documentation or necessary files for payment.

Should you have any questions or concerns, please do not hesitate to contact our office.

ST. LUCIE COUNTY Children's SERVICES COUNCIL
Our Children · Our Community · Our Future

Florida has very broad public records laws. Written communications to or from Children's Services Council officials are generally considered public records available to the public and media upon request. Your email communications will be subject to public disclosure unless an exemption applies to the communication. If you received this email in error, please notify the sender by reply email and delete all materials from all computers.

AGREEMENT BETWEEN

CHILDREN'S SERVICES COUNCIL OF ST. LUCIE COUNTY

AND

PORT ST. LUCIE POLICE DEPARTMENT
Safe Return and Wandering Prevention Program

THIS AGREEMENT made as of this 14th day of May, 2026 by and between the CHILDREN'S SERVICES COUNCIL OF ST. LUCIE COUNTY, an independent special taxing district for the State of Florida, whose address is 546 NW University Blvd., Suite 201, Port St. Lucie, FL 34986, hereinafter referred to as COUNCIL, and THE CITY OF PORT ST. LUCIE, a municipal corporation duly established in accordance with Florida law, through its POLICE DEPARTMENT, hereinafter referred to as the PROVIDER, whose address is 121 SW Port St. Lucie Blvd., Port St. Lucie, FL 34984.

WHEREAS, the PROVIDER is a qualified provider whose application for Special Designations funds has been accepted by the COUNCIL; and

WHEREAS, the COUNCIL has determined that it is in the best interest of the children of St. Lucie County to enter into this Agreement with the PROVIDER.

NOW THEREFORE, for good and valuable consideration, the sufficiency of which is hereby acknowledged, the parties, intending to be legally bound, hereby agree as follows:

1. **Services**. PROVIDER agrees to provide support for equipment subscriptions as set forth in the approved proposal, a copy of which is on file with the COUNCIL.

2. **Compensation**. COUNCIL agrees to pay PROVIDER an amount not to exceed $9,910.32, as set forth in the approved PROVIDER's proposal, a copy of which is on file with the COUNCIL. PROVIDER will submit receipts of expenditures up to the maximum of $9,910.32. Any expenditure variances from the aforementioned itemized items approved for payment must be requested and explained to COUNCIL. Expenditures incurred which exceed the maximum amount set forth in this Agreement without written authorization from the Council shall be the sole liability of the PROVIDER.

3. **Miscellaneous**. PROVIDER agrees to comply with the provisions set forth below:
   i. Following the Funding Request Fiscal Guidelines (attached to contract), the CSC Non-Recurring Funded Contracts Form, receipts and any pertinent documentation must be submitted by September 30, 2026.

ii. The project and the purchase of any related goods and services is being accomplished with use of tax-payer funds and therefore requires PROVIDER to document all expenditures to show reasonable and effective use of these funds. As per CSC Fiscal Policy, equipment purchased with CSC funds becomes the property of CSC if the program terminates within two years of equipment purchase.

iii. A narrative description on the activities and success of the project including demographics on usage by children and families where appropriate.

iv. Any acknowledgments or press releases regarding this project will include mention of the support of the Children's Services Council of St. Lucie County and use of CSC logo whenever possible. Please submit copies of any press releases or advertisements with reimbursements.

4. **Independent Contractor**. The PROVIDER is and shall be in the performance of this Agreement, an independent contractor, and not an employee, agent or servant of the Council. All persons responsible for the purchase or implementation of the goods and/or services provided for in this Agreement shall at all times and in all places be subject to the PROVIDER's sole direction, supervision, and control. The PROVIDER shall exercise control over the means and manner in which it and its employees comply with this Agreement. In performing its obligations hereunder, each party agrees to comply in all material respects with all applicable laws, rules and regulations. The PROVIDER hereby binds its successors and assigns in respect to all covenants of this Agreement.

5. **Waiver**. No express or implied consent to or waiver of, any breach or default by the other party, in the performance of the obligations hereunder, shall be deemed or construed to be a consent to, or waiver of, any breach or default in the performance hereunder.

6. **Public Entity Crimes**. The PROVIDER acknowledges and agrees that a person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not reply on a contract with a public entity or be awarded or perform work as a consultant under a contract with any public entity and may not transact business with

any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes (Category 2) for a period of 36 months.

7. **Survivability; Severability**. Any provision of the Agreement which is of a continuing nature or imposes an obligation which extends beyond the term of the Agreement shall survive its expiration or earlier termination. If any term or provision of this Agreement, or the application thereof to any person or circumstance shall, to any extent, be held invalid or unenforceable, the remainder of the Agreement shall not be affected, and every other term, provision, and application thereof shall be deemed valid and enforceable to the extent permitted by law.

8. **Public Records**. Regarding business and records directly related to this Agreement, PROVIDER shall comply with Florida's Public Records Act, Chapter 119, Florida Statutes, and, if determined to be acting on behalf of the COUNCIL as provided under section 119.011(2), Florida Statutes, specifically agrees to:

i. Keep and maintain public records required by the COUNCIL to perform the service.

ii. Upon request from the COUNCIL's custodian of public records or designee, provide the COUNCIL with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law.

iii. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of this Agreement and following completion of this Agreement if the PROVIDER does not transfer the records to the COUNCIL.

iv. Upon completion of this Agreement, transfer, at no cost, to the COUNCIL all public records in possession of the PROVIDER or keep and maintain public records required by the COUNCIL to perform the service. If the PROVIDER transfers all public records to the COUNCIL upon completion of the Agreement, the PROVIDER shall destroy any duplicate public records that are

exempt or confidential and exempt from public records disclosure requirements. If the PROVIDER keeps and maintains public records upon completion of this Agreement, the PROVIDER shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the COUNCIL, upon request from the COUNCIL's custodian of public records or designee, in a format that is compatible with the information technology systems of the COUNCIL.

IF THE PROVIDER HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE PROVIDER'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS OR DESIGNEE AT: CHILDREN'S SERVICES COUNCIL OF ST. LUCIE COUNTY, PHONE: (772) 408-1100, EMAIL: INFO@CSCSLC.ORG, 546 NW UNIVERSITY BLVD, SUITE 201, PORT ST. LUCIE, FL 34986.

9. **Entire Agreement**. The Council and the PROVIDER agree that this document sets forth the entire agreement between the parties, and that there are no promises or understandings other than those stated herein. None of the provisions, terms and conditions contained in this Agreement may be added to, modified, superseded or otherwise altered, except by written instrument executed by the parties hereto. Any conflicts between this Agreement and any PROVIDER terms and conditions shall be resolved in accordance with this Agreement unless otherwise agreed in writing by the COUNCIL.

10. **Scrutinized Companies**. PROVIDER certifies that it and its subcontractors are not on the Scrutinized Companies that Boycott Israel List and are not engaged in the boycott of Israel and shall execute the COUNCIL's "Provider Certification Form Regarding Scrutinized Companies". Pursuant to section 287.135, Florida Statutes, the COUNCIL may immediately terminate this Agreement at its sole option if the PROVIDER or any of its subcontractors are found to have submitted a false certification; or if the PROVIDER or any

of its subcontractors, are placed on the Scrutinized Companies that Boycott Israel List or is engaged in the boycott of Israel during the term of this Agreement.

i. The PROVIDER agrees to observe the above requirements for applicable subcontracts entered into for the performance of work under this Agreement.

ii. The PROVIDER agrees that the certifications in this section shall be effective and relied upon by the COUNCIL for the term of this Agreement, including any and all renewals.

iii. The PROVIDER agrees that if it or any of its subcontrators' status changes in regard to any certification herein, the PROVIDER shall immediately notify the COUNCIL of the same.

11. **E-Verify**. Pursuant to Section 448.095(5), Florida Statutes, the PROVIDER shall:

i. Register with and use the E-Verify system to verify the work authorization status of all newly hired employees and require all subcontractors (providing services or receiving funding under this Agreement) to register with and use the E-Verify system to verify the work authorization status of all the subcontractors' newly hired employees;

ii. Secure an affidavit from all subcontractors (providing services or receiving funding under this Agreement) stating that the subcontractor does not employ, contract with, or subcontract with an unauthorized alien;

iii. Maintain copies of all subcontractor affidavits for the duration of this Agreement;

iv. Comply fully, and ensure all of its subcontractors comply fully, with Section 448.095, Florida Statutes; and

v. Be aware that if the COUNCIL terminates this Agreement under Section 448.095(5)(c), Florida Statutes, the PROVIDER may not be awarded a public contract for at least 1 year after the date on which the Agreement is terminated and the PROVIDER will be liable for any additional costs incurred by the COUNCIL as a result of the termination of the Agreement.

12. **Human Trafficking; Foreign Country of Concern**. By its authorized representative's signature below, the PROVIDER attests, under penalty of perjury, that (1) it does not use coercion for labor or services as defined in section 787.06, Florida Statutes; and (2) pursuant to section 287.138, Florida Statutes, the PROVIDER is not owned by the government of a Foreign Country of Concern, is not organized under the laws of nor has its Principal Place of Business in a Foreign Country of Concern, and the government of a Foreign Country of Concern does not have a Controlling Interest in the PROVIDER. Capitalized terms used herein have the definitions set forth in Rule 60A-1.020, F.A.C. The parties agree that pursuant to section 92.525, Florida Statutes, the PROVIDER's signature below and this paragraph shall satisfy the affidavit and attestation requirements of sections 787.06 and 287.138, Florida Statutes.

13. **Law, Venue, Remedies, Waiver of Jury Trial, Limitation of Liability, Enforcement Costs**. The Agreement shall be governed by the laws of the State of Florida. Any and all legal action necessary to enforce the Agreement will be held in St. Lucie County. No remedy herein conferred upon any party is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any right, power, or remedy hereunder shall preclude any other or further exercise thereof. TO ENCOURAGE PROMPT AND EQUITABLE RESOLUTION OF ANY LITIGATION, EACH PARTY HEREBY WAIVES ITS RIGHTS TO A TRIAL BY JURY IN ANY LITIGATION RELATED TO THE CONTRACT DOCUMENTS. The COUNCIL shall not be liable to the PROVIDER for any special, incidental or consequential damages of any kind whether or not caused by the COUNCIL's negligence even if the parties have been advised of the possibility of such damages. If any legal action or other proceeding is brought for the enforcement of the Agreement, or because of an alleged dispute, breach, default or misrepresentation in connection with any provisions of the Agreement, the parties agree that each party shall be responsible for its own attorney's fees.

14. **Insurance**. The PROVIDER shall, at its own expense, procure and maintain

throughout the term of this Agreement, the types and amounts of insurance conforming to the minimum requirements satisfactory to the COUNCIL and including the COUNCIL as and Additional Insured on applicable coverages. Any such insurance shall apply on a primary basis. The PROVIDER shall not commence performance hereunder until the required insurance, if any, is in force. Compliance with any insurance requirements shall not limit the liability of the PROVIDER.

FOR THE PROVIDER ONLY: By my signature below, under penalties of perjury, I declare and attest that I am an authorized representative of the PROVIDER, and I have read the foregoing paragraph 13. **Human Trafficking; Foreign Country of Concern** required by sections 787.06 and 287.138, Florida Statutes, and the facts stated in it are true.

IN WITNESS WHEREOF, the parties have caused this agreement to be executed by their duly authorized officials.

Ordinance 26-54, Abandoning a Portion of a Twenty (20) Foot Wide Rear Utility and Drainage Easement Affecting Lot 6, Block 152, Port St. Lucie Section Four, According to the Plat thereof, as Recorded in Plat Book 12, Page 14, of the Public Records of St. Lucie County, Florida.

Submitted By: Michelle Reid, Public Works

Strategic Plan Link: The City's Mission to be responsive to our community.

Summary Brief: The owners of 461 SW Duval Avenue, Port St. Lucie, Florida, are requesting to abandon ten (10) feet of the existing twenty (20) foot wide rear utility and drainage easement for a pool.

Presentation Information: N/A

Staff Recommendation: Move that the Council approve the Ordinance abandoning ten (10) feet of the twenty (20) foot wide rear utility and drainage easement located at 461 SW Duval Avenue, Port St. Lucie, Florida.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the Ordinance abandoning ten (10) feet of the twenty (20) foot wide rear utility and drainage easement located at 461 SW Duval Avenue, Port St. Lucie, Florida.
2. Move that the Council not approve the abandonment and provide staff direction.

Background: The real property located at 461 SW Duval Avenue, Port St. Lucie, Florida, was platted with a twenty (20) foot wide rear utility and drainage easement. The owners desire to construct a pool. Prior to construction, a ten (10) foot wide portion of the easement will need to be abandoned. The owners of the property have submitted a request for the abandonment to the City.

Issues/Analysis: The request to abandon a portion of the easement was evaluated by the Public Works Department, Utility Systems Department, and the Public Utility Companies (AT&T, FPL, Comcast, and Florida City Gas). The City Departments and Utility Companies have no objection to the abandonment of ten (10) feet of the twenty (20) foot wide rear utility and drainage easement located at 461 SW Duval Avenue, Port St. Lucie, Florida.

Financial Information: There will be no cost incurred by the City.

Special Consideration: N/A

Location of Project: The property is located at 461 SW Duval Avenue, Port St. Lucie, Florida.

ORDINANCE 26-__

AN ORDINANCE OF THE CITY OF PORT ST. LUCIE, FLORIDA, ABANDONING A PORTION OF A TWENTY (20) FOOT WIDE REAR UTILITY AND DRAINAGE EASEMENT AFFECTING LOT 6, BLOCK 152, PORT ST. LUCIE SECTION FOUR, ACCORDING TO THE PLAT THEREOF, AS RECORDED IN PLAT BOOK 12, PAGE 14, OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the applicants, Brian Christensen and Glenna Christensen, request approval for the abandonment of a portion of a twenty (20) foot wide rear utility and drainage easement affecting Lot 6, Block 152, Port St. Lucie Section Four, according to the plat thereof, as recorded in Plat Book 12, Page 14, of the Public Records of St. Lucie County, Florida, and more particularly described in the attached Exhibit "A" which is incorporated herein.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Ratification of Recitals. The foregoing recital is hereby ratified and confirmed as true and correct and is hereby made a part of this Ordinance.

Section 2. That the portion of the twenty (20) foot wide rear utility and drainage easement described in the attached Exhibit "A" is hereby abandoned and any right, title, or interest of the public in and to that portion of the twenty (20) foot wide rear utility and drainage easement on any recorded map or plat is hereby renounced and reclaimed.

Section 3. The effect of this Ordinance is to abandon a portion of the twenty (20) foot wide above-described utility and drainage easement and to renounce or disclaim any right, title, or interest of the public in and to said utility and drainage

easement.

Section 4. Recordation. The City Council hereby directs that this Ordinance be recorded in the public records of St. Lucie County, Florida.

Section 5. Conflict. If any ordinances, or parts of ordinances, are in conflict herewith this Ordinance shall control to the extent of the conflicting provisions.

Section 6. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect.

Section 7. Effective Date. This Ordinance shall become effective ten (10) days after final adoption on second reading.

PASSED AND ADOPTED by the City Council of the City of Port St. Lucie, Florida this ____ day of _____, 2026.

Ordinance 26-55, Abandoning a Portion of a Twenty (20) Foot Wide Rear Utility and Drainage Easement Affecting Lots 34 and 35, Block 2049, Port St. Lucie Section Twenty-One, According to the Plat thereof, as Recorded in Plat Book 13, Page 27, of the Public Records of St. Lucie County, Florida.

Submitted By: Michelle Reid, Public Works

Strategic Plan Link: The City's Mission to be responsive to our community.

Summary Brief: The owners of 1063 SW McCoy Avenue, Port St. Lucie, Florida, are requesting to abandon ten (10) feet of the existing twenty (20) foot wide rear utility and drainage easement for a pool.

Presentation Information: N/A

Staff Recommendation: Move that the Council approve the Ordinance abandoning ten (10) feet of the twenty (20) foot wide rear utility and drainage easement located at 1063 SW McCoy Avenue, Port St. Lucie, Florida.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the Ordinance abandoning ten (10) feet of the twenty 20-foot-wide rear utility and drainage easement located at 1063 SW McCoy Avenue, Port St. Lucie, Florida.
2. Move that the Council not approve the abandonment and provide staff direction.

Background: The real property located at 1063 SW McCoy Avenue, Port St. Lucie, Florida, was platted with a twenty (20) foot wide rear utility and drainage easement. The owners desire to construct a pool. Prior to construction, a ten (10) foot wide portion of the easement will need to be abandoned. The owners of the property have submitted a request for the abandonment to the City.

Issues/Analysis: The request to abandon a portion of the easement was evaluated by the Public Works Department, Utility Systems Department, and the Public Utility Companies (AT&T, FPL, Comcast, and Florida City Gas). The City Departments and Utility Companies have no objection to the abandonment of ten (10) feet of the twenty (20) foot wide rear utility and drainage easement located at 1063 SW McCoy Avenue, Port St. Lucie, Florida.

Financial Information: There will be no cost incurred by the City.

Special Consideration: N/A

Agenda Date: 6/22/2026 **Agenda Item No.:** 8.d

Placement: Second Reading of Ordinances / Public Hearing

Action Requested: Motion / Vote

Ordinance 26-57, Public Hearing, an Ordinance to Establish the McCarty's Choice Community Development District

Submitted By: Russell Ward, Deputy City Attorney

Strategic Plan Link: The City's Goal of high-quality infrastructure and facilities.

Executive Summary (General Business): McCarty Town Development, LLC, (the "Petitioner") has submitted a petition to the City of Port St. Lucie requesting the adoption of an ordinance establishing the McCarty's Choice Community Development District

Presentation Information: Questions will be answered upon request.

Staff Recommendation: Move that the Council approve the Ordinance

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the Ordinance
2. Move that the Council not approve the Ordinance.

Background: A Community Development District ("CDD") is an independent unit of special purpose local government authorized by Chapter 190, Florida Statutes, to plan, finance, operate and maintain community-wide infrastructure in large, planned community developments. CDDs provide a "solution to the state's planning, management and financing needs for delivery of capital infrastructure to service projected growth without overburdening other governments and their taxpayers." *See* section 190.002(1)(a), Florida Statutes.

A CDD is not a substitute for the local, general-purpose government in which it lies. A CDD does not have the permitting, zoning, or police powers possessed by general purpose governments (e.g. City of Port St. Lucie). A CDD is an alternative means of financing, constructing, operating, and maintaining community infrastructure for planned developments.

The exclusive and uniform method for establishment of a CDD of less than 2,500 acres in size, if all the land in the area for the proposed district is within the territorial jurisdiction of a municipal corporation, is pursuant to an ordinance adopted by the municipality in whose jurisdiction the CDD is located. The Petitioner has submitted a petition to the City of Port St. Lucie requesting the adoption of an ordinance establishing the McCarty's Choice Community Development District (The "District"). The proposed District covers approximately 72.024 acres of land. The boundaries of the proposed District are described in the Legal

Description attached to the Petition as Exhibit 2.

Issues/Analysis:

Statutory Analysis

Before the Petition can be considered for review, a determination must be made as to whether the requirements of section 190.005, Florida Statutes, have been satisfied. The City of Port St. Lucie's Planning and Zoning, Finance, Public Works, Utility Systems, and Legal Department applied the six (6) statutory criteria to the information provided in the Petition, which were:

1. *Whether all statements contained within the petition have been found to be true and correct.*

Staff has reviewed the Petition and finds that all statements within the Petition to be true and correct.

2. *Whether the establishment of the district is inconsistent with any applicable element or portion of the state comprehensive plan or of the effective local government comprehensive plan.*

Planning and Zoning Staff has found the establishment of the proposed District to be consistent with the City of Port St. Lucie's Comprehensive Plan.

3. *Whether the area of land within the proposed district is of sufficient size, is sufficiently compact, and is sufficiently contiguous to be developable as one functional interrelated community.*

Planning and Zoning Staff has found that the area of land within the proposed District to be sufficiently sized, sufficiently compact, and sufficiently contiguous to be developed as one functional community.

4. *Whether the district is the best alternative available for delivering community development services and facilities to the area that will be served by the district.*

The Petitioner has provided an analysis of alternatives that demonstrates that the proposed District is favorable to other alternatives. The Utility Systems Department and Public Works Department agree that the establishment of a CDD to manage and maintain infrastructure within this development is consistent with other private subdivisions within the City.

5. *Whether the community development services and facilities of the district will be incompatible with the capacity and uses of existing local and regional community development services and facilities.*

The Utility Systems Department and Public Works Department believe that the community development services to be provided by the proposed District are compatible with the capacity and uses of existing local and regional community development services and facilities.

6. *Whether the area that will be served by the district is amenable to separate special-district government.*

The area to be served by the proposed District is amenable to special-district government based on consideration of the above criteria. The Petitioner has obtained written consent to establish the District from owners of one hundred percent (100%) of the real property located within the boundaries of the proposed District, in accordance with Section 190.005, Florida Statutes. Documentation of the consent is contained in Exhibit 8 to the Petition.

In making its determination of whether to grant or deny the Petition establishing the District, City Council should consider the same six (6) factors set forth above.

Special Powers

The petitioner is seeking for the District to be able to exercise the special powers set forth in sections 190.012 (2)(a) and (d), Florida Statutes, which includes the powers to plan, establish, acquire, construct or reconstruct, enlarge or extend, equip, operate, and maintain systems and facilities for (1) parks and facilities for indoor and outdoor recreational, cultural, and educational uses; and (2) security, including, but not limited to, guardhouses, fences and gates, electronic intrusion detection systems, and patrol cars, when authorized by proper governmental agencies; provided, however, that the District may not exercise any police power, but may contract with the appropriate local general purpose government agencies for an increased level of service within the District boundaries. Said powers shall be discharged in accordance with Chapter 190, Florida Statutes.

The proposed establishment Ordinance contains language indicating that the District's exercise of special powers pursuant to section 190.012(2)(d), Florida Statutes, may not impede the public's access to public roadways and that the District shall not impose special assessments of any kind for whatsoever on real property to be dedicated or owned by the City. Additionally, the District shall not operate or maintain any water and sewer facilities within its boundaries unless an interlocal agreement is entered into between the City and the District and all of such facilities shall be dedicated to and/or owned by the City.

Taxing Authority

Pursuant to section 190.021(1), Florida Statutes, "[a]n ad valorem tax levied by the board for operating purposes, exclusive of debt service on bonds, shall not exceed 3 mills, except that a district authorized by a local general-purpose government to exercise one or more powers specified in s. 190.012(2) may levy an additional 2 mills for operating purposes, exclusive of debt service on bonds." Ultimately, by authorizing the exercise of the above powers, the proposed District will be able to levy an additional 2 mills for the sole purpose of operations.

The City and CDDs

The City has granted such Petitions in the past but has required that following construction, potable water and wastewater facilities be dedicated to the City of Port St. Lucie, and that authorization to operate potable water and wastewater facilities requires an interlocal agreement between the District and the City.

Financial Information: The only annual costs the City faces are the minimal costs of receiving and reviewing the various reports that the District is required to provide to the City. The Petitioner's estimated project costs of constructing the services, based on available data, are shown in Exhibit 6 to the Petition. Any debt obligations incurred by the proposed District to construct its infrastructure, or for any other reason, are not debts of the State of Florida or any unit of local government. In accordance with State law, debts of the District are strictly its own responsibility. The City would be responsible for maintenance costs of infrastructure built outside of the CDD boundaries.

Special Consideration: N/A

Location of Project: The site is generally located east of McCarty Road, southeast of the intersection of McCarty Road and Williams Road, south of Palomino Drive, and north of Glades Cut Off Road.

ORDINANCE 26-57

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PORT ST. LUCIE, FLORIDA, ESTABLISHING MCCARTY'S CHOICE COMMUNITY DEVELOPMENT DISTRICT PURSUANT TO CHAPTER 190, FLORIDA STATUTES; NAMING THE DISTRICT; DESCRIBING THE EXTERNAL BOUNDARIES OF THE DISTRICT; DESCRIBING THE FUNCTIONS AND POWERS OF THE DISTRICT; DESIGNATING FIVE PERSONS TO SERVE AS THE INITIAL MEMBERS OF THE DISTRICT'S BOARD OF SUPERVISORS; PROVIDING FOR NOTICE OF SPECIAL ASSESSMENTS; PROVIDING FOR CONDITIONS; PROVIDING FOR EXCEPTIONS AND INTERLOCAL AGREEMENTS WITH THE CITY; PROVING A SEVERABILITY CLAUSE; PROVIDING FOR REPEAL OF CONFLICTING ORDINANCES; PROVIDING FOR FILING WITH THE DEPARTMENT OF STATE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, McCarty Town Development, LLC (the "Petitioner"), a Florida limited liability company with an address of 3801 PGA Blvd, Suite 806, Palm Beach Gardens, FL 33410, has petitioned the City Council of the City of Port St. Lucie, Florida (the "City") to adopt an ordinance establishing the boundaries of McCarty's Choice Community Development District (the "District") pursuant to Chapter 190, Florida Statutes, and

WHEREAS, such petition contains the information required by sections 190.005(1)(a) and 190.005(2)(a), Florida Statutes; and

WHEREAS, the Petitioner has obtained written consent to the establishment of McCarty's Choice Community Development District by the owners of one hundred percent (100%) of the real property to be included in the District; and

WHEREAS, all interested persons and affected units of general-purpose local government were afforded an opportunity to present oral and written comments on the petition at a duly noticed public hearing conducted by the City Council, in accordance with the requirements and procedures of section 190.005(1)(d), Florida Statutes, on June 22, 2026; and

WHEREAS, in accordance with Section 190.005(1)(e), Florida Statutes,

upon consideration of the record established at that hearing, the City Council determined that the statements within the Petition are true and correct; that the establishment of the District is not inconsistent with any applicable element or portion of the state comprehensive plan or the City's comprehensive plan; that the land within the District is of sufficient size, is sufficiently compact and is sufficiently contiguous to be developable as a functionally interrelated community; that the District is the best alternative available for delivering community development services and facilities to the area that will be served by the District; that the community development services and facilities of the District will not be incompatible with the capacity and uses of existing local and regional community development services; and that the area that will be served by the District is amenable to separate special-district governance; and

WHEREAS, the establishment of the District shall not act to amend any land development approvals and/or regulations governing the land area to be included within the District; and

WHEREAS, the establishment of the District will constitute a timely, efficient, effective, responsive, and economic way to deliver community development services in the area described in the petition; and

WHEREAS, the City Council of the City has determined that it is authorized pursuant to Section 190.005, Florida Statutes, to establish community development districts that are less than 2,500 acres in size and located within the corporate boundaries of the City;

NOW THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

1. Ratification of Recitals. The City Council of the City of Port St. Lucie, Florida, hereby adopts and ratifies those matters as set forth in the foregoing recitals.

2. Authority. This Ordinance is adopted in compliance with and pursuant to the Uniform Community Development District Act of 1980 codified in Chapter 190, Florida Statutes. Nothing contained herein shall constitute an amendment to any land development approvals for the land area included within the District.

3. District Name. There is hereby established a community development district situated entirely within the City of Port St. Lucie, St. Lucie County, Florida, which shall be known as “McCarty’s Choice Community Development District”, and which shall be referred to in this ordinance as the "District."

4. District External Boundaries. The external boundaries of the District are described in Exhibit “A" attached hereto, said boundaries encompassing 72.024 acres, more or less.

5. District Powers and Functions. McCarty’s Choice Community Development District shall have all those general powers granted pursuant to Section 190.011, Florida Statutes and those special powers granted pursuant to Section 190.012(1), Florida Statutes. Consent is hereby given to the District to exercise those powers relating to parks and facilities for indoor and outdoor recreational, cultural, and educational uses contained in Section 190.012(2)(a), Florida Statutes, and security, including, but not limited to, guardhouses, fences and gates, electronic detection systems, and patrol cars, as set forth in Section 190.012(2)(d), Florida Statutes, provided, however, that the District may not exercise any police power, but may contract with the appropriate local general-purpose government agencies for an increased level of such services within the District boundaries. Notwithstanding the foregoing, the adoption and passage of this Ordinance approving the Petition for the establishment of McCarty’s Choice Community Development District ("District") shall not be construed to delegate, authorize, or in any way consent to the District established hereunder to engage in the ownership and operation of a water and/or wastewater facility(s) which would allow the District to engage in the wholesale or retail sale of water, wastewater and/or reuse water services, or provide garbage services and/or any other municipal services absent the express written consent and/or agreement of the City. The District’s exercise of special powers pursuant to section 190.012(2)(d), Florida Statutes, may not impede the public’s access to public roadways. The District shall not impose special assessments of any kind whatsoever on real property to be dedicated to or owned by the City.

6. Termination of District. In the event that the District established

hereunder is terminated for any reason, the City shall in no way be required to accept ownership and/or maintenance responsibility for any improvements made by the District including, but not limited to, the road rights of way, stormwater management and drainage systems, and street lighting that are necessary for the development in the District without the City's express written consent. In the event of termination, the District shall be responsible for ensuring the transfer of such ownership and maintenance responsibilities to an appropriate entity other than the City as authorized by law.

7. Board of Supervisors. The five persons designated to serve as initial members of the District's Board of Supervisors are: Jack Berry, Bobbie Henley, Jessica Kowalski, Justin Frye, and Charleigh Berry.

8. Notice Requirements. The District shall provide public notice of all meetings pursuant to law.

9. Special Assessments. Non ad valorem special assessments, as defined in Chapter 190, Florida Statutes, shall only be levied by the District on those lands included within the District boundary, as such boundary may be amended, and in accordance with Chapter 190, Florida Statutes.

10. District Charter; Exercise of Special Powers. Pursuant to section 190.004(4), Florida Statutes, the charter for the District shall be sections 190.006 through 190.041, Florida Statutes, including the special powers provided by sections 190.012(1), (2)(a), and (2)(d), Florida Statutes. The exercise by the District of powers set forth in section 190.012(2)(b), (c), (e), and (f), Florida Statutes, shall require prior consent by the City Council, which consent shall only be provided by resolution or ordinance after specific petition to the City Council.

11. Notice of Special Assessments. The District is solely responsible for the implementation of special assessments upon benefited property within the District's internal boundaries. The Petitioner, its successors, and assignees shall provide notice of said special assessments to all prospective purchasers of said property.

    a. The Petitioner, its successors, and assigns shall provide full

disclosure of the public financing and maintenance of improvements undertaken by the District. This disclosure shall include a statement in bold print that special assessments imposed by the District will appear in the tax bill for each property within the District. This disclosure shall meet the requirements of section 190.048, Florida Statutes, as amended from time to time, and shall be included in every contract for purchase and sale of property within the District, and in every recorded deed of conveyance from the Petitioner. The District shall record a notice of assessments in the Public Records after any bond sale.

b. The Petitioner, its successors, and assignees shall disclose the fact that the development is located in a special taxing district, and that a special assessment will be collected on the tax roll against all benefited property within the District. This information shall be in bold type in any sale brochures, in any sales information, and on the front page of the Declaration of Restrictive Covenants creating the Property Owners Association or Homeowners Association.

c. The Petitioner, its successors, and assigns, shall provide all the disclosures required by this Ordinance in a separate page as part of the contract for purchase and sale of property within the District. The prospective purchaser must sign this page.

d. An affidavit of compliance by the Petitioner and, as applicable, its successors, and assignees, shall be submitted annually to the City of Port St. Lucie until all units have been sold, outlining the number of units sold, providing samples of the documents used in the closing process, and certifying compliance with the disclosure requirements contained in this Ordinance. Upon ten (10) days' written notice, the City shall have the right to audit these records and only these records of the Petitioner, its successors, and assignees, to verify the compliance with the disclosure requirements in this Ordinance. Failure to comply with the disclosure requirements in this Ordinance shall be a violation of a City ordinance and shall be punishable as provided by law including, but not limited to, enforcement procedures established in the City's Land Development Code. Petitioner shall have no

obligation to comply with the requirements of this paragraph in the event that Petitioner is not party to a real estate transaction. However, in the event of any sale or transfer of property by Petitioner to any person who is not the initial purchaser of a residential unit, Petitioner shall impose the obligations of this Section 11 on any recipient of such property.

12. Conditions. The District shall be subject to the following conditions:

    a. The Petitioner and all future property owners and persons within the District shall be subject to all City ordinances including, but not limited to, site plan approval and all permitting and review requirements and processes.

    b. All construction shall be subject to City inspections and requirements.

    c. The construction of all utility infrastructure relating to ponds, landscaping, hardscaping and walls, sanitary sewer, stormwater management (including ponds and retention and transmission facilities), roads and paving, sidewalks, and water supply and distribution shall be built to City standards.

13. Exceptions and Interlocal Agreements. The District shall have all of the authority and power contained with Chapter 190, Florida Statutes, as set forth in this Ordinance. Although the District may construct potable water or wastewater facilities, the District shall not operate such facilities unless, pursuant to Chapter 163, Florida Statutes, an interlocal agreement is promulgated between the City and the District; provided, however, that following construction, the District will dedicate such facilities to the City after the City has inspected and approved the facilities through its turnover process.

14. Severability. If any provision of this Ordinance, or the application thereof, is finally determined by a court of competent jurisdiction to be invalid, illegal or unenforceable, such provision shall be deemed severable and the remaining provisions shall continue in full force and effect provided that the invalid, illegal or unenforceable provision is not

material to the logical and intended interpretation of this Ordinance.

15. The correction of typographical and/or scrivener errors which do not affect the intent may be authorized by the City Manager or designee, without need of public hearing, by filing a corrected or recodified copy of same with the City Manager.

16. This Ordinance shall not be codified, but the City Manager shall retain this Ordinance as a permanent record of action taken by the City Council, City of Port St. Lucie, Florida.

17. All ordinances in conflict herewith are hereby repealed to the extent necessary to give this Ordinance full force and effect.

18. This Ordinance shall take effect pursuant to the laws of the State of Florida.

19. The Clerk is hereby directed to send a certified copy of this Ordinance to the Bureau of Administrative Code and Laws, Department of State, The Capitol, Tallahassee, Florida 32304.

RE: KVW Responses to City of Port St. Lucie Comments Provided Via Email on March 25th, March 26th, March 27th, and March 30th of 2026, regarding *Fourth Amended Petition to Establish McCarty's Choice Community Development District* (the "Fourth Amended Petition")

Dear Ms. Hertz and Mr. Ward:

On behalf of our client McCarty Town Development, LLC, please find in this email a link to the updated *Fourth Amended Petition to Establish McCarty's Choice Community Development District* ("**Fourth Amended Petition**"). Our responses to the City's comments provided on March 25th, March 26th, March 27th, and March 30th follow:

1. The Petition requests the ability to fund security improvements, as well as roads. Per the attached letter, all CDD, County, and City roads are open to the public and so any road that would be gated or otherwise restrict access would have to be funded in some other way. Please confirm this still remains the case. (*Email dated March 25, 2026)*

The Petitioner confirms that the proposed District will not fund any security improvements that would gate or otherwise restrict public access to any CDD, City, or County road. All roads within the District will remain open to the public to the extent required by federal and state law.

2. One additional development since initial submission has been a change to Section 120.541, Florida Statutes, regarding regulatory impact statements. There is not a direct requirement for inclusion of an additional section, but Ch. 2025-189 requires that:

In evaluating the impacts described in paragraphs (a) and (e), an agency must include, if applicable, the market impacts likely to result from compliance with the proposed rule, including:

- Changes to customer charges for goods or services.
- Changes to the market value of goods or services produced, provided, or sold.
- Changes to costs resulting from the purchase of substitute or alternative goods or services.
- The reasonable value of time to be spent by owners, officers, operators, and managers to understand and comply with the proposed rule, including, but not limited to, time to be spent completing required education, training, or testing.

I assume the consultant that prepared the statement considered these and determined them to not be applicable. Please confirm. (*Email dated March 25, 2026)*

The establishment of the District by City ordinance is not a rulemaking action, and the Statement of Estimated Regulatory Costs submitted with the Petition was prepared pursuant to Chapter 190, Florida Statutes, rather than Chapter 120. Accordingly, the amendments to Section 120.541 made by Ch. 2025-189 do not govern this SERC. In any event, the market impact factors enumerated in Ch. 2025-189 would not apply to the establishment of the District. The Petitioner is prepared to provide supplemental information regarding the basis for this determination upon request.

3. The City Surveyor has reviewed the exhibits and found that the legal descriptions provided within **Exhibits 2 and 8** do not close mathematically. Please have those exhibits double checked and make corrections as needed. If everything is confirmed right, let me know as well. (*Email dated March 26, 2026)*

The legal descriptions contained in Exhibits 2 and 8 of the Petition have been reviewed, revised, and corrected. The corrected legal description reflects the District boundary of 72.024 acres, more or less, situated in Section 9, Township 36 South, Range 39 East, St. Lucie County, Florida, as confirmed by the boundary survey prepared by Caulfield & Wheeler. Revised Exhibits 2 and 8 are provided herewith. We have also attached a closure report for verification.

4. Public Works would like to request clarification of intent regarding stormwater maintenance. Is the intention for the CDD to be responsible for the maintenance of all stormwater facilities related to the roadways to be maintained by the City or County or for that responsibility to be assumed by the party responsible for roadway maintenance? (*Email dated March 26, 2026)*

The District will own and be responsible for the maintenance of all stormwater facilities located within the District boundaries, including facilities related to roadways to be maintained by the City or County.

5. It appears that the boundaries of the CDD may not match the boundaries of the area from the annexation agreement. Please confirm that the CDD boundaries are correct and let me know if the intent is to be different from what was annexed. If the area for the CDD includes anything not annexed by the City, the CDD may not be able to be created by City ordinance. (*Email dated March 26, 2026*)

The Petitioner confirms that the District boundary, as reflected in the revised legal description and boundary survey comprises 72.024 acres, more or less. The Petitioner has confirmed with the landowner that the annexation agreement and associated PUD are being updated to reflect the same 72.024-acre boundary, such that the District boundary will be coextensive with the annexed area. A copy of the updated annexation agreement will be provided upon execution.

6. The City Utility Department has provided comments on your Water and Sewer Master Plans attached. (*Email dated March 26, 2026*)

The Petitioner has reviewed the comments provided by the City's Utility department and revised the Water and Sewer Master Plans accordingly. A revised Exhibit 5 incorporating those comments is provided herewith. The Petitioner is available to address any further questions the City's Utility department may have.

7. The City Public Works Department has provided comments pertaining to **Exhibits 4, 5, and 6** of the Petition:

- **Exhibit 6** - Table for improvement construction, ownership, and maintenance should be revised to specify internal roadways would be the CDD for construction, ownership and maintenance responsibilities. And then McCarty Rd and E/W 5 construction responsibility would be CDD with

maintenance/ownership being County/City.

- **Exhibits 4 and 5** - The CDD boundary is splitting the road ROWs in half for both McCarty Rd and E/W 5. This would make it difficult in the future, and the boundaries should include the entirety of the ROWs adjacent to the property or should not include the ROW.

More detailed comments are included on the attached document. (*Email dated March 30, 2026*)

The Petitioner has revised Exhibits 4, 5, and 6 of the Petition in response to the comments from the City's Public Works department. Specifically: (i) the improvement construction, ownership, and maintenance table in Exhibit 6 has been revised to reflect that internal roadways will be the responsibility of the District for construction, ownership, and maintenance, and that McCarty Road and East/West-5 Roadway will be the responsibility of the District for construction, with ownership and maintenance by the County (McCarty Road) and City (East/West-5 Roadway), respectively; and (ii) the District boundary depicted in Exhibits 4 and 5 has been revised to include the East/West-5 Roadway rights-of-way adjacent to the property, rather than bisecting those rights-of-way. Revised Exhibits 4, 5, and 6 are provided herewith. The Petitioner has also reviewed the additional detailed comments provided with the City's memorandum and has incorporated those revisions into the Fourth Amended Petition.

Sincerely,

Jennifer Kilinski

Jennifer Kilinski, Esq.

BEFORE THE CITY OF PORT ST. LUCIE CITY COUNCIL
FOURTH AMENDED PETITION TO ESTABLISH
MCCARTY'S CHOICE COMMUNITY DEVELOPMENT DISTRICT

Petitioner, McCarty Town Development, LLC, a Florida limited liability company (hereinafter "Petitioner"), hereby petitions the City of Port St. Lucie City Council pursuant to the "Uniform Community Development District Act of 1980," Chapter 190, Florida Statutes, to establish a community development district (hereinafter "District"), with respect to the land described herein. In support of this Petition, Petitioner states:

1. Location and Size. The proposed District will be located entirely within the city limits of the City of Port St. Lucie, Florida (hereinafter the "City"). **Exhibit 1** depicts the general location of the lands comprising the proposed District. The proposed District covers approximately 72.024 acres of land, more or less. The legal description of the lands that form the external boundaries of the District is set forth in **Exhibit 2.**

2. Excluded Parcels. There are no parcels within the external boundaries of the proposed District which are to be excluded from the District.

3. Authorized Agent. The authorized agent for Petitioner is Kilinski | Van Wyk PLLC. The Authorization of Agent is attached to this petition as **Exhibit 3.** Copies of all correspondence and notices should be sent to:

Jennifer Kilinski
jennifer@cddlawyers.com
Kilinski | Van Wyk PLLC
517 E. College Avenue
Tallahassee, Florida 32301
Attorneys for Petitioner

4. Initial Board Members. The five persons to serve as initial members of the Board of Supervisors of the proposed District are as follows:

Name: Jack Berry

Address: 3801 PGA Blvd., Suite 806
Palm Beach Gardens, Florida 33410

Name: Bobbie Shockley
Address: 346 E. Central Avenue
Winter Haven, Florida 33880

Name: Jessica Kowalski
Address: 3801 PGA Blvd., Suite 806
Palm Beach Gardens, Florida 33410

Name: Justin Frye
Address: 3801 PGA Blvd., Suite 806
Palm Beach Gardens, Florida, Florida 33410

Name: Charleigh Berry
Address: 3801 PGA Blvd., Suite 806
Palm Beach Gardens, Florida 33410

All of the above-listed persons are residents of the state of Florida and citizens of the United States of America.

5. Name. The name of the proposed District is McCarty's Choice Community Development District.

6. Future Land Use. **Exhibit 4** shows the distribution, location, and extent of the public and private land uses proposed for the District by the future land use plan element of the City's Future Land Use Plan. The proposed land uses for lands contained within the proposed District are consistent with the approved City's Future Land Use Plan.

7. Major Water and Wastewater Facilities. **Composite Exhibit 5** indicates the location of major outfall canals and drainage basins for the lands within the proposed District as well as the location of existing major trunk water mains, proposed storm drainage pipes, and wastewater interceptors within the currently undeveloped lands proposed to be included within the District.

8. District Facilities and Services. The District is presently expected to finance,

construct, and install improvements and facilities to benefit the lands within the District in two (2) phases from 2026 to 2032, with the first phase tentatively starting in 2026 and the second phase tentatively starting in 2027. Each phase will take approximately three (3) years to construct from inception. **Exhibit 6** describes the construction timetable and the types of facilities the District presently expects to finance, construct, and install, as well as the entities anticipated for future ownership, operation, and maintenance. The estimated costs of construction are also identified in **Exhibit 6**. Actual construction timetables and expenditures will likely vary, due in part to the effects of future changes in the economic conditions upon costs such as labor, services, materials, interest rates and market conditions.

9. Statement of Estimated Regulatory Costs. **Exhibit 7** is the statement of estimated regulatory costs ("SERC") prepared in accordance with the requirements of Section 120.541, Florida Statutes. The SERC is based upon presently available data. The data and methodology used in preparing the SERC accompany it.

10. Landowner Consent. Petitioner has obtained written consent to establish the District from the owners of one hundred percent (100%) of the real property located within the proposed District. Documentation of consents to the establishment of the District are contained in **Exhibit 8.**

11. This petition to establish McCarty's Choice Community Development District should be granted for the following reasons:

a. Establishment of the District and all land uses and services planned within the proposed District are not inconsistent with applicable elements or portions of the effective State Comprehensive Plan or the City Comprehensive Plan.

b. The area of land within the proposed District is part of a planned

community. It is of a sufficient size and is sufficiently compact and contiguous to be developed as one functional and interrelated community and will be developed in that manner.

c. The establishment of the District will prevent the general body of taxpayers in the City from bearing the burden for installation of the infrastructure and the maintenance of certain facilities within the development encompassed by the District. The District is the best alternative for delivering community development services and facilities to the proposed community without imposing an additional burden on the general population of the local general-purpose government. Establishment of the District in conjunction with a comprehensively planned community, as proposed, allows for a more efficient use of resources.

d. The community development services and facilities of the District will not be incompatible with the capacity and use of existing local and regional community development services and facilities. In addition, the establishment of the District will provide a perpetual entity capable of making reasonable provisions for the operation and maintenance of the District's services and facilities.

e. The area to be served by the proposed District is amenable to separate special- district government.

WHEREFORE, Petitioner respectfully requests for the City of Port St. Lucie City Council to:

a. Schedule a public hearing in accordance with the requirements of Section 190.005(2)(b), Florida Statutes;

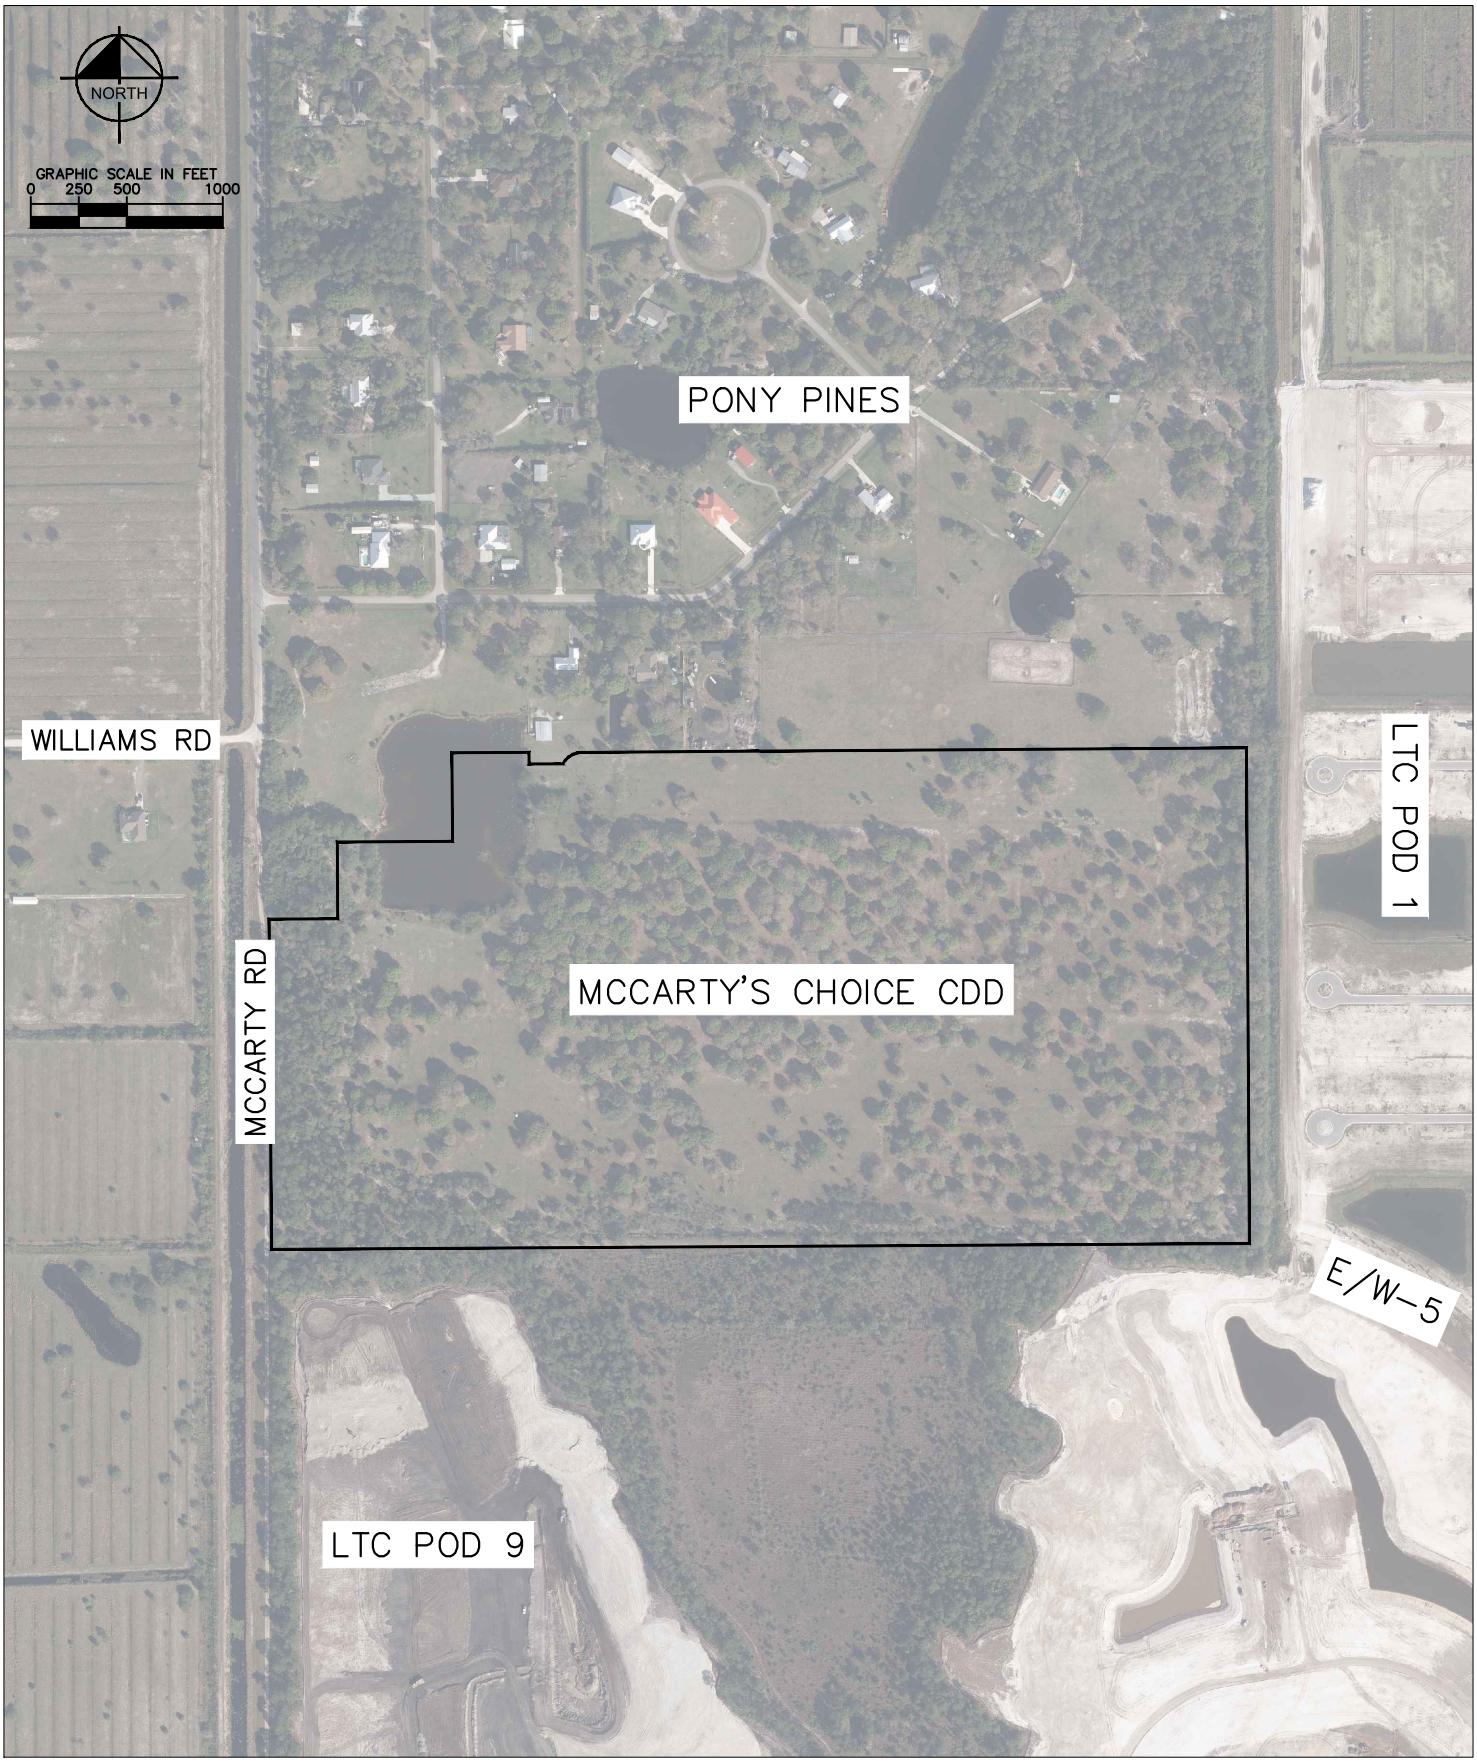
b. Grant the petition and adopt an ordinance establishing the District pursuant to Chapter

190, Florida Statutes;

c. Consent to the District's exercise of certain additional powers to plan, establish, acquire, construct or reconstruct, enlarge or extend, equip, operate and maintain additional systems and facilities for: parks and facilities for indoor and outdoor recreation, cultural, and educational uses and for security, including, but not limited to walls, fences and electronic intrusion detection all as authorized and described by Section 190.012(2)(a) and (d), Florida Statutes; and

d. Grant such other relief as may be necessary or appropriate.

RESPECTFULLY SUBMITTED, this 27th day of April 2026.



Kilinski | Van Wyk PLLC

STATEMENT OF ESTIMATED REGULATORY COSTS

1.0 Introduction

1.1 Purpose and Scope

This Statement of Estimated Regulatory Costs ("SERC") supports the petition to form the **McCarty's Choice Community Development District** (the "District"). The proposed District comprises approximately 72.024 acres of land located within the City of Port St. Lucie, Florida (hereafter "City"). The project is planned for approximately 321 residential units. The limitations on the scope of this SERC are explicitly set out in Section 190.002(2)(d), Florida Statutes, as follows:

"That the process of establishing such a district pursuant to uniform general law shall be fair and based only on factors material to managing and financing the service delivery function of the district, so that any matter concerning permitting or planning of the development is not material or relevant."

1.2 Overview of the McCarty's Choice Community Development District

The District is designed to provide community infrastructure, services, and facilities along with operation and maintenance of such facilities and services to the lands within the District. The District will encompass approximately 72.024 acres.

The development plan for the proposed lands within the District includes approximately 321 residential units to be constructed in multiple phases. Such uses are authorized for inclusion within the District. A community development district ("CDD") is an independent unit of special purpose local government authorized by Chapter 190, Florida Statutes, to plan, finance, construct, operate and maintain community-wide infrastructure in planned community developments. CDD's provide a "solution to the state's planning, management and financing needs for delivery of capital infrastructure to service projected growth without overburdening other governments and their taxpayers." *See* Section 190.002(1)(a), Florida Statutes.

A CDD is not a substitute for the local, general purpose, government unit, e.g., the City/County in which the CDD lies. A CDD does not have the permitting, zoning or general police powers possessed by general purpose governments. A CDD is an alternative means of financing, constructing, operating, and maintaining community infrastructure for planned developments, such as McCarty's Choice Community Development District. The scope of this SERC is limited to evaluating the consequences of approving the petition to establish the District.

1.3 Requirements for Statement of Estimated Regulatory Costs

According to Section 120.541(2), Florida Statutes, a statement of estimated regulatory costs must contain:

(a) An economic analysis showing whether the rule directly or indirectly: is likely to have an adverse impact on economic growth, private sector job creation or employment, or private sector investment in excess of $1 million in the aggregate within 5 years after the implementation of the rule; is likely to have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons doing business in other states or domestic markets, productivity, or innovation in excess of $1 million in the aggregate within 5 years after the implementation of the rule; or is likely to increase regulatory costs, including any transactional costs, in excess of $1 million in the aggregate within 5 years after the implementation of the rule.

(b) A good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a general description of the types of individuals likely to be affected by the rule.

(c) A good faith estimate of the cost to the agency[1], and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state and local revenues.

(d) A good faith estimate of the transactional costs likely to be incurred by individuals and entities, including local governmental entities, required to comply with the requirements of the rule. As used in this paragraph, "transactional costs" are direct costs that are readily ascertainable based upon standard business practices, and include filing fees, the cost of obtaining a license, the cost of equipment required to be installed or used or procedures required to be employed in complying with the rule, additional operating costs incurred, and the cost of monitoring and reporting, and any other costs necessary to comply with the rule.

(e) An analysis of the impact on small businesses as defined by Section 288.703, Florida Statutes, and an analysis of the impact on small counties defined by Section 120.52, Florida Statutes. The impact analysis for small businesses must include the basis for the agency's decision not to implement alternatives that would reduce adverse impacts on small businesses.

(f) Any additional information that the agency determines may be useful.

(g) In the statement or revised statement, whichever applies, a description of any good faith written proposal submitted under Section 120.541(1)(a), Florida Statutes, and either a statement adopting the alternative or a statement of the reasons for rejecting the alternative in favor of the proposed rule.

2.0 Adverse impact on economic growth, business competitiveness or increased regulatory costs, in excess of $1 million.

The creation of the District will not meet any of the triggers in Section 120.541(2)(a), Florida Statutes. The basis for this determination is provided in the discussions in Section 3.0 through Section 6.0 of this SERC.

3.0 A good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a general description of the types of individuals likely to be affected by the rule.

As noted above, the McCarty's Choice Community Development District is a community that is proposed to include approximately 321 residential units. Formation of the District would put all of these units under the jurisdiction of the District. Prior to sale of any units, all of the land owned by the developer and any other landowner will also be under the jurisdiction of the District. Such owners purchase property within the District willingly and with knowledge and advance notice they are subject to the District's jurisdiction, including notice recorded in the public records, in title and through purchase and sale agreements.

4.0 Good faith estimate of the cost to state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state and local revenues.

[1] For the purposes of this SERC, the term "agency" means City of Port St. Lucie and the term "rule" means the ordinance(s) which the City of Port St. Lucie will enact in connection with the creation of the District.

4.1 Costs of Governmental Agencies of Implementing and Enforcing Rule

State Government Entities

There will be only modest costs to various State governmental entities to implement and enforce the proposed formation of the District. The proposed District will encompass under 2500 acres, therefore the City is the establishing entity under sections 190.005(2), (2)(e), Florida Statutes. The modest costs to various State entities to implement and enforce the proposed rule relate strictly to the receipt and processing of various reports that the proposed District is required to file with the State and its various entities. The costs to those State agencies that will receive and process the District's reports are very small, because the District is only one of many governmental units that are required to submit the various reports. Therefore, the marginal cost of processing one additional set of reports is inconsequential. Additionally, pursuant to section 189.018, Florida Statutes, the proposed District must pay an annual fee to the Florida Department of Economic Opportunity, which offsets such costs.

City of Port St. Lucie

The City and its staff will process and analyze the petition, conduct a public hearing with respect to the petition, and vote upon the petition to establish the District. These activities will absorb some resources. However, the City charges the petitioner a filing fee to cover the cost of staff review of the petition.

These costs to the City are modest for a number of reasons. First, review of the petition to establish the District does not include analysis of the project itself. Second, the petition itself provides much of the information needed for a staff review. Third, local governments already possess the staff needed to conduct the review without the need for new or additional staff. Fourth, there is no capital required to review the petition. Finally, local governments routinely process similar petitions for land uses and zoning charges that are far more complex than is the petition to establish a community development district.

The annual costs to the City because of the establishment of the District are minimal. The proposed District is an independent unit of local government. The only annual costs the City faces are the minimal costs of receiving and reviewing the various reports that the District is required to provide to the City. Furthermore, the City will not incur any quantifiable on-going costs resulting from the on-going administration of the District. As previously stated, the District operates independently from the City and all administrative and operating costs incurred by the District relating to the financing and construction of infrastructure are borne entirely by the District and its landowners.

4.2 Impact on State and Local Revenues

Adoption of the proposed rule will have no negative impact on State and local revenues. The District is an independent unit of local government. It is designed to provide community facilities and services to serve the development. It has its own sources of revenue. No state or local subsidies are required or expected.

In this regard it is important to note that any debt obligations incurred by the District to construct infrastructure or facilities, or for any other reason, are not debts of the State of Florida or the City. In accordance with Florida law, debts of the District are strictly the District's own responsibility.

5.0 A good faith estimate of the transactional costs that are likely to be incurred by individuals

and entities required to comply with the requirements of the ordinance.

Table 1 provides an outline of the various facilities and services the proposed District may provide. It is anticipated that the entry feature and signage; master stormwater management system; sewer and water systems; street lighting/conduit; roadway improvements; parks & recreational facilities; and offsite improvements will be financed by the District.

Table 1.
McCarty's Choice CDD Proposed Facilities and Services

Improvement Categories	Construction Entity	Ownership Entity	Maintenance Entity
Roadways	CDD	County/City	County/City
Stormwater Management	CDD	CDD	CDD
Utilities (Water/Sewer/Reclaim)	CDD	City	City
Hardscape/Landscape/Irrigation/Trails	CDD	CDD	CDD
Undergrounding of Conduit	CDD	CDD	CDD
Environmental Conservation/Mitigation	CDD	CDD	CDD
Professional Services	CDD	CDD	CDD
Recreational Improvements	CDD	CDD	CDD

The petitioner has estimated the design and development costs for providing the capital facilities. The cost estimates are shown in Table 2 below. Total development costs for these facilities are estimated to be approximately $45,602,707.00. The District may issue special assessment bonds or other revenue bonds to fund the construction and/or acquisition of these facilities. These bonds would be repaid through non-ad valorem assessments levied on all developable properties in the District that benefit from the District's capital improvement program.

Table 2. Cost Estimate for District Facilities

Facility Description*	Total Cost
Roadways	$5,786,000.00
Stormwater Management	$8,250,000.00
Utilities (Water/Sewer/Reclaim)	$9,206,928.00
Hardscape/Landscape/Irrigation/Trails	$8,415,800.00
Undergrounding of Conduit	$1,950,000.00
Environmental Conservation/Mitigation	$494,200.00
Professional Services	$4,051,600.00
Recreational Improvements	$1,500,000.00
Contingency (15%)	$5,948,179.00
Total	$45,602,707.00

Landowners in the District may be required to pay non-ad valorem assessments levied by the District to secure the debt incurred through bond issuance. In addition to the levy of non-ad valorem assessments for

debt service, the District may also impose non-ad valorem assessments to fund the operation and maintenance of the District and its facilities and services.

It is important to recognize that buying property in the District is completely voluntary. Ultimately, all owners and users of property within the District choose to accept the non-ad valorem assessments as a tradeoff for the numerous benefits and facilities that the District provides.

A CDD provides property owners with the option of having a higher level of facilities and services financed through self-imposed charges. The District is an alternative means to finance necessary community facilities and services. District financing is no more expensive, and often less expensive, than the alternatives of a municipal service taxing unit (MSTU), a neighborhood association, or through developer equity and/or bank loans.

In considering these costs it shall be noted that the lands to be included within the District will receive four major classes of benefits.

First, the property in the District will receive a higher level of public services sooner than would otherwise be the case.

Second, the proposed District is a mechanism for assuring that the community services and amenities will be completed concurrently with development of lands within the District. This satisfies the revised growth management legislation, and it assures that growth pays for itself without undue burden on other consumers. Establishment of the District will ensure that these landowners pay for the provision of facilities, services and improvements to these lands.

Third, the proposed District is the sole form of governance which allows District landowners, through landowner voting and ultimately electoral voting for resident elected boards, to determine the type, quality and expense of the District services they receive, provided they meet the County's overall requirements.

Fourth, the proposed District has the ability to maintain infrastructure better than a Homeowners' Association ("HOA") because it is able to offer a more secure funding source for maintenance and repair costs through assessments collected on the county tax bill pursuant to section 197.3632, Florida Statutes.

The cost impact on the ultimate landowners in the District is not the total cost for the District to provide infrastructure services and facilities. Instead, it is the incremental costs above what the landowners would have paid to install infrastructure via an alternative financing mechanism. Given the low cost of capital for a CDD, the cost impact to landowners is negligible. This incremental cost of the high-quality infrastructure provided by the District is likely to be fairly low.

6.0 An analysis of the impact on small businesses as defined by Section 288.703, Florida Statutes, and an analysis of the impact on small counties and small cities as defined by Section 120.52, Florida Statutes.

There will be no adverse impact on small businesses because of the formation of the District. If anything, the impact may be positive. This is because the District must competitively bid many of its contracts, affording small businesses the opportunity to bid on District work, and may also result in a need for additional retail and commercial services that afford small businesses and opportunity for growth.

The City has an estimated un-incarcerated population that is greater than 10,000 according to the 2020 U.S. Census. Therefore, the City is not defined as a "small city" according to section 120.52(19),

Florida Statutes.

7.0 Any additional useful information.

The analysis provided above is based on a straightforward application of economic theory, especially as it relates to tracking the incidence of regulatory costs and benefits. Inputs were received from the Petitioner's Engineer and other professionals associated with the Petitioner.

8.0 In the statement or revised statement, whichever applies, a description of any good faith written proposal submitted under Section 120.541(1)(a), Florida Statutes, and either a statement adopting the alternative or a statement of the reasons for rejecting the alternative in favor of the proposed rule.

There have been no good faith written proposals submitted to the agency as described in section 120.541(1)(a), Florida Statutes.

EXHIBIT 8

CONSENT AND JOINDER OF LANDOWNER TO INCLUSION IN PROPOSED COMMUNITY DEVELOPMENT DISTRICT

The undersigned is the owner of certain lands more fully described in **Exhibit A** attached hereto and made a part hereof ("**Property**").

The undersigned understands and acknowledges that McCarty Town Development, LLC ("Petitioner") intends to submit an application to establish a community development district in accordance with the provisions of Chapter 190 of the Florida Statutes.

As the owner of lands which are intended to constitute a portion of the community development district, the undersigned understands and acknowledges that pursuant to the provisions of Section 190.005, *Florida Statutes*, the Petitioner is required to include the written consent to the establishment of the community development district of one hundred percent (100%) of the owners of the lands to be included within the community development district.

The undersigned hereby consents to the establishment of the community development district which will include the Property within the lands to be a part of the community development district and agrees to further execute any documentation necessary or convenient to evidence this consent and joinder during the application process for the establishment of the community development district.

The undersigned acknowledges that the consent will remain in full force and effect until the District is established or for a period of twelve months, whichever shall first occur. The undersigned further agrees that it will provide to the next purchaser or successor in interest of all or any portion of the Property a copy of this consent form and obtain, if requested by the District, consent to inclusion of the Property within the boundaries of the District in substantially this form.

The undersigned hereby represents and warrants that it has taken all actions and obtained all consents necessary to duly authorize the execution of this consent and joinder by the person executing this instrument.

BEFORE THE CITY COUNCIL OF
THE CITY OF PORT ST. LUCIE, FLORIDA

IN RE: PETITION TO ESTABLISH)
MCCARTY'S CHOICE COMMUNITY)
DEVELOPMENT DISTRICT)

AFFIDAVIT ADOPTING WRITTEN, PRE-FILED TESTIMONY

STATE OF FLORIDA
COUNTY OF ORANGE

I, Jillian Burns, being first duly sworn, do hereby state for my affidavit as follows:

1. I have personal knowledge of the matters set forth in this affidavit.

2. My name is Jillian Burns and I am a District Manager at Governmental Management Services – Central Florida, LLC.

3. The prepared written, pre-filed testimony consisting of eleven (11) pages, submitted under my name to the City Council of the City of Port St. Lucie, Florida relating to the Petition to Establish the McCarty's Choice Community Development District and attached hereto, is true and correct.

4. If I were asked the questions contained in the pre-filed testimony orally at the establishment hearing, my oral answers would be the same as the written answers presented in my pre-filed testimony.

5. My credentials, experience, and qualifications concerning my work as a special district manager and financial advisor are accurately set forth in my pre-filed testimony.

6. No corrections or amendments to my pre-filed testimony are required.

Under penalties of perjury, I declare that I have read the foregoing and the facts alleged are true and correct to the best of my knowledge and belief.

Executed this 1st day of June 2026.

Jillian Burns

TESTIMONY OF JILLIAN BURNS FOR ESTABLISHMENT OF MCCARTY'S CHOICE COMMUNITY DEVELOPMENT DISTRICT

1. Please state your name and business address.

My name is Jillian Burns. My business address is 219 E. Livingston Street, Orlando, Florida 32801.

2. By whom are you employed and in what capacity?

I am employed with Governmental Management Services – Central Florida, LLC ("GMS") and serve as District Manager and Assessment Administrator for community development districts.

3. Please briefly summarize your duties and responsibilities.

GMS provides management consulting services to community development districts and the real estate industry, including general management, accounting, recording, secretarial services, field services and assessment administration. GMS currently serves as the district manager for over one hundred fifty (150) community development districts ("CDD" or "CDDs") in the State of Florida.

4. Do you work with both public and private sector clients?

GMS primarily works for public entities providing district management services. However, we are retained, from time to time, by private entities to consult on the creation of special districts as well as the viability of certain proposed developments.

5. How long have you been managing special districts such as the one proposed and what are your responsibilities?

I have more than fifteen (15) years of experience in providing management to special districts in the State of Florida. I have extensive knowledge of special district operations, governmental budgeting and finance issues, and the development process. In my role as District Manager, I oversee all the works of the special districts and all management responsibilities similar to a county administrator/manager.

6. Please describe your educational background.

I have a bachelor's degree from the University of Central Florida.

7. Please describe your work with community development districts in Florida.

Through GMS, the clients I serve are both resident-elected and landowner-elected CDDs, depending on the stage in the life of the development. I assist the various Boards of Supervisors and residents by managing the accounting, official recordkeeping, and

operations and management of the assets acquired or constructed by the CDD. I have provided management services to over forty (40) active CDDs across Florida.

8. Are any of these community development districts that you have worked with about the same size as the proposed District in the City of Port St. Lucie, Florida (the "City")?

Yes.

9. What has been your role with respect to the proposed District establishment proceeding?

I serve as a financial, economic, and management consultant relating to the establishment of the proposed District. Specifically, my firm prepared Exhibit 7, the Statement of Estimated Regulatory Costs ("SERC"), of the petition to establish the Proposed District ("Petition").

DISTRICT MANAGEMENT

10. At this point, I will ask you to address certain matters that are related to community development district management. Please describe the general manner in which a community development district actually operates.

Community development districts are governed by a five-member board of supervisors. These board members are initially appointed by the establishment entity in its ordinance. Within 90 days of the establishment of the district, a new board is elected by the landowners in the district. The Board is the governing body of the district. The Board employs a district manager, who supervises the district's services, facilities, and administrative functions. The Board annually considers and, after public notice and hearing, adopts a budget. The district submits a copy of the proposed budget to the applicable local general-purpose government for review and for optional comment prior to its adoption each year.

11. Are there requirements, such as the open meetings and public records laws, imposed upon community development districts in order to safeguard the public that are similar to those imposed upon other general-purpose local governments?

Yes, there are.

12. Please describe these requirements and safeguards.

First, it is important to note that the establishment of a CDD does not change any requirements for local general-purpose governmental approval of construction within the district. Any land development requirements and all state and local development regulations still apply.

Second, members of a CDD Board of Supervisors must be residents of Florida and citizens of the United States. After the Board shifts to being elected by the resident electors of the

CDD, the Supervisors must also be residents and electors of the CDD. Supervisors must annually file the same financial disclosure forms required by other local officials. All meetings of the CDD Board of Supervisors are open to the public and are subject to the government in the sunshine requirements of Chapter 286, *Florida Statutes*. Furthermore, a CDD's records must be open for public inspection in accordance with the Florida law governing public records.

Next, the District must provide financial reports to the state in the same form and manner as is required of all other political subdivisions. The District is annually audited by an independent certified public accountant. As I said before, the District budget is adopted annually by the board after a public hearing. All rates, fees, and charges imposed by the District must be adopted pursuant to Chapter 120, *Florida Statutes*.

Finally, to impose special or non-ad valorem assessments under Chapter 170, 190 and 197, *Florida Statutes*, a CDD must provide published and mailed notice to those who are assessed providing them opportunity to appear before the Board of Supervisors and have an opportunity to comment on the advisability of the assessments. That assessment process entails preparation of an assessment methodology that fairly and equitably allocates the cost of the CDD's projects.

13. Please describe in general terms how a CDD operates financially, both on a day-to-day and a long-term basis.

In the early stages, particularly when a CDD is first formed, the CDD's operating funds may be funded by a "Funding Agreement" between the CDD and the landowner/developer in lieu of assessments that the CDD might have imposed on property within the CDD.

In order to provide long term financing of capital projects, CDDs often issue bonds. All bonds issued by CDDs must be secured by a trust agreement, and any bond maturing over a period of more than five years must be validated and confirmed by court decree pursuant to Chapter 75, *Florida Statutes*. A CDD may borrow funds on a long or short-term basis.

Debt may be retired by the District through non ad valorem or special assessments imposed on benefited properties, or rates, fees, and charges imposed on users of district facilities and services. By law, debt of the District cannot become debt of any other government (city, county or state), without that government's consent.

14. What alternatives, other than community development districts, are you familiar with that might be available to provide community infrastructure for the lands within the proposed District?

In my opinion there are two alternatives that might provide community infrastructure such as the roads, utilities, drainage, recreation and other improvements contemplated for the proposed District. First, the general-purpose local government could finance the improvements utilizing special assessments and/or general funds. Alternatively, the developer could provide infrastructure through private means, including private financing if available. As discussed later in my testimony, neither of these alternatives is preferable

to use of the CDD concept.

15. Do you have an opinion, as someone experienced in district management and operations, as to whether the proposed District is the best available alternative for delivering community services and facilities to the areas that will be served by the District?

Yes. For this project, the proposed District is the best alternative available for delivering the proposed services and facilities to the area that will be served. These improvements include, but are not limited to, stormwater management systems, roadway improvements, water, sewer, and reclaim utilities, hardscaping, landscaping, undergrounding of conduit, recreational amenity facilities, and additional public improvements.

16. What is the basis for your opinion?

Looking at the alternatives, the City could finance and manage the improvements utilizing special assessments or general funds. The developer and/or a property owner's association ("POA") could provide these facilities as well through private financing.

The other alternative is the use of private means, either through a POA or through the developer, or both in combination. This combination can clearly satisfy the high demand for focused service and facilities and managed delivery. However, only a public entity can assure a long-term perspective, act as a stable provider of services and facilities, qualify as a lower cost source of financing, and pay for services at sustained levels. POAs lack the ability to effectively finance the improvements. Their ability to assure adequate funds for sustained high levels of maintenance is less than with a CDD.

Furthermore, neither the developer nor a POA would be required to conduct all actions relating to the provision of these improvements in the "sunshine" as a CDD must or abide by other public access requirements that are incumbent upon a CDD and its Board of Supervisors. Also, provision and long-term operation and maintenance of these improvements by a CDD ensures that residents have guaranteed access to the body or entity making decisions about these facilities, and in fact will one day sit as the five-member board making the decisions that impact their community directly.

A CDD is an independent special purpose unit of local government designed to focus its attention on providing the best long-term service to its specifically benefited properties and residents. It has limited power and a limited area of jurisdiction. The District will be governed by its own board and managed by those whose sole purpose is to provide the District long term planning, management, and financing of these services and facilities. This long-term management capability extends to the operation and maintenance of the facilities owned by the District. Further, the sources for funding and manner of collection of funds will assure that the District facilities will be managed at the sustained levels of quality desired by property owners well into the future.

17. Do you have an opinion, as someone experienced in district management and operations, as to whether the area of land to be included within the proposed District

is of sufficient size, is sufficiently compact, and is sufficiently contiguous to be developable as one functional interrelated community?

Yes.

18. What is your opinion?

The proposed District has sufficient land area, and is sufficiently compact and contiguous to be developed, with the roadway, drainage, water and sewer, and other infrastructure systems, facilities and services contemplated. The District will operate as one functionally interrelated community.

19. What is the basis for your opinion?

The size of the proposed District is approximately 72.024 acres. Based on my previous experience, the proposed District is of sufficient size, compactness, and contiguity to be developed as a functional interrelated community.

The qualities of compactness, contiguity, and size relate directly to whether an area can become one functional interrelated community. From the standpoint of the provision, management and operation of the community infrastructure expected to be provided by the District, the acres contemplated for inclusion within the District is sufficiently compact, contiguous and of sufficient size to maximize the successful delivery of these infrastructure improvements to these lands. The delivery of services and facilities to the lands within the District will not be hampered by insurmountable barriers or spatial problems. The area within the District is suitably configured to maximize the benefits available from the District services and facilities to be provided.

20. Do you have an opinion, as someone experienced in district management and operations, as to whether the area that will be served by the proposed District is amenable to separate special district government?

Yes.

21. What is your opinion?

The District is of sufficient size, compactness, and contiguity. Therefore, the area to be served by the proposed District is clearly amenable to separate special district governance. The configuration of the District is not unlike other CDDs with which I have worked over time.

22. What is the basis for your opinion?

Two criteria are needed to evaluate if a land area is amenable to separate special district government. One, does the land area have need for the facilities and services and will its owners and residents benefit from facilities that the special district could provide. Two, is

the land area of sufficient size, sufficient compactness, and sufficiently contiguous to be the basis for a functional interrelated community.

Under both criteria, the proposed District is a planned community of sufficient size with a need for the facilities and improvements that are presently expected to be provided by the proposed District. As described in the petition, the proposed District will construct and maintain certain identified needed facilities and services. Other facilities and improvements will be constructed by the proposed District and ultimately owned and maintained by the City or Sarasota County. Based on my experience, CDDs of this size are large enough to effectively provide and manage services. From a management and operations perspective, the land area is well suited to the provision of the proposed services and facilities.

23. Do you have an opinion, as someone experienced in district management and operations, as to whether the community development services and facilities of the proposed District will be incompatible with the capacity and use of existing local and regional community development services and facilities?

Yes.

24. What is your opinion?

The proposed services and facilities of the proposed District are not incompatible with the capacity and uses of existing local or regional community development services and facilities.

25. What is the basis for your opinion?

Petitioner presently expects the proposed District to finance and construct certain sanitary sewer collection systems, water distribution systems, stormwater management systems, roadway improvements, and additional public improvements. None of the facilities expected to be provided by the District presently exist. Ultimately, a district may own and maintain certain of those improvements and the City, or other governmental entities, may own and maintain others. There will be no overlap or incompatibility because the facilities and improvements expected to be provided by the proposed District do not exist today.

ECONOMICS AND FINANCING

26. You stated earlier that you are familiar with the Petition, and its Exhibits, filed by the Petitioner, to establish the proposed District. Are you particularly familiar with Exhibit 7 to the Petition?

Yes, Exhibit 7 is the SERC, a requirement of Chapter 190, *Florida Statutes*.

27. What exactly is a "SERC"?

The Statement of Estimated Regulatory Costs is actually a requirement under Section 120.541(2), *Florida Statutes*, which has been incorporated into the law on establishment of community development districts.

28. In general terms, please summarize the economic analyses presented in the SERC.

An understanding of the SERC requires the recognition of the scope of review and evaluation for the establishment of a community development district as set out in Chapter 190. Section 190.002(2)(d), *Florida Statutes*, states "[t]hat the process of establishing such a district pursuant to uniform general law [must] be fair and based only on factors material to managing and financing the service-delivery function of the district, so that any matter concerning permitting or planning of the development is not material or relevant." Thus, the scope of the economic analysis included in the SERC addresses only the establishment of the proposed District, and not the planning or development of the property itself.

The economic analysis sets out the assumptions about the development within the proposed District and the anticipated infrastructure to be provided by it. The analysis addresses each of the potentially affected parties defined in Chapter 120, *Florida Statutes*, and evaluates the impact of the proposed District on each such group.

The proposed District is a specialized unit of local government. It is a special purpose unit of local government with a single objective: the provision of infrastructure and services for a planned new community. Its economic benefits exceed its economic cost to the Petitioner, the City, and to all subsequent purchasers and landowners of the community - in short, to all affected parties.

Once the proposed District is established, there are no direct costs to the City. While the proposed District will provide certain reports and budgets to the City for its discretionary review, there are no requirements that either incur any obligations or expense associated with its review. In addition, to the extent the proposed District utilizes the services of the Property Appraiser or Tax Collector under the provisions of Chapter 197, *Florida Statutes*, to collect its assessments, the proposed District must pay the costs associated with those services.

It is important to note that under Chapter 190, *Florida Statutes*, the debt of the proposed District cannot become the debt of the City, or the State of Florida. Since the proposed District will be an independent unit of government and issue its own bonds, the proposed District will not have any effect on the bonding capacity of the City or the State of Florida.

29. Please describe briefly the data and methodology used in preparing the SERC and related analyses.

The data for the analysis came from the landowner, other experts working on the Petition, and from the Petition itself. The methodology utilized is the standard economic impact assessment.

30. From an economic and financial perspective, do you have an opinion regarding the

financial viability and feasibility of the proposed District?

Yes, I do.

31. What is that opinion?

In my opinion, based on my experience with other districts, the proposed District is expected to be financially viable and feasible.

32. Are you familiar with the State Comprehensive Plan found in Chapter 187, *Florida Statutes*?

Yes.

33. From an economic and financial perspective, do you have an opinion as to whether the proposed District is inconsistent with the State Comprehensive Plan from an economic perspective?

Yes.

34. What is that opinion?

It is my opinion that the proposed District is not inconsistent with any applicable element or portion of the state comprehensive plan.

35. What is the basis for your opinion?

I have reviewed, from an economic and financial perspective, the State Comprehensive Plan, particularly those portions that relate to community development districts. The State of Florida Comprehensive Plan (Chapter 187, *Florida Statutes*) "provides long-range policy guidance for the orderly social, economic, and physical growth of the state." From an economic and financial perspective, four subjects, subjects 15, 17, 20, and 25 of the State Comprehensive Plan are relevant to the establishment of a CDD.

Subject 15, titled Land Use, recognizes the importance of locating development in areas that have the fiscal abilities and service capacity to accommodate growth. It is relevant because CDDs are designed to provide infrastructure services and facilities in a fiscally responsible manner to the areas that can accommodate development. The establishment of the District will not be inconsistent with this goal because the District will have the fiscal capability to provide the specified services and facilities within its boundaries.

Subject 17, titled Public Facilities, relates to (i) protecting investments in existing public facilities; (ii) providing financing for new facilities, (iii) allocating the costs of new public facilities on the basis of the benefits received by future residents; (iv) implementing innovative but fiscally sound techniques for financing public facilities; and (v) identifying and using stable revenue sources for financing public facilities. The establishment of the District will further these State Comprehensive Plan Goals and Policies.

Subject 20, titled Governmental Efficiency, provides that governments shall economically and efficiently provide the amount and quality of services required by the public. The proposed District will be consistent with this element because the proposed District will continue to:

(i) cooperate with other levels of Florida government;

(ii) be established under uniform general law standards as specified in Chapter 190, *Florida Statutes*;

(iii) be professionally managed, financed, and governed by those whose property directly receives the benefits;

(iv) not burden the general taxpayer with costs for services or facilities inside the proposed District; and

(v) plan and implement cost efficient solutions for the required public infrastructure and assure delivery of selected services to residents.

Subject 25, titled Plan Implementation, calls for systematic planning capabilities to be integrated into all levels of government throughout the state, with particular emphasis on improving intergovernmental coordination and maximizing citizen involvement. The proposed District is consistent with this element of the State Comprehensive Plan.

36. Based on your work with districts and from an economic and financial perspective, do you have an opinion as to whether the area of land that is proposed to be included within the proposed District is of sufficient size, sufficient compactness, and sufficient contiguity to be developable as one functional interrelated community?

Yes.

37. What is your opinion?

Based on my previous experience, the proposed District is of sufficient size, compactness, and contiguity to be developed as a functional interrelated community.

38. What is the basis for your opinion?

The project is compact with land use typical of a planned community. The development of the land has been planned to be a functional interrelated community making the most efficient use of public funds available.

39. From a financial perspective, do you have an opinion as to whether the proposed District is the best alternative available for providing the proposed community development services and facilities to the area to be served?

Yes.

40. What is your opinion?

The proposed District is the best alternative to provide community development facilities to the area to be served. This is true for the landowners and the governmental entities for the following reasons.

From the perspective of current and future property owners within the District, the District is the best alternative for providing community facilities, infrastructure, and services. The land development envisioned for the area within the District's boundaries will require substantial provision of infrastructure, facilities and services. The CDD is an alternative method to provide these necessary services. The CDD can access the tax-exempt public capital markets and thereby fund these facilities and services at a lower cost than the alternative of developer funding. Furthermore, unlike a POA, the CDD has the power to assess property and collect those assessments along with other property taxes. Therefore, a CDD can fund large capital improvement programs that a POA cannot.

With regard to the operations and maintenance of community facilities and services, the CDD is also the best alternative. The CDD is preferable to a POA to future landowners for the following reasons. First, unlike a POA, the CDD collects funds for operations and maintenance directly from assessments collected along with all other property taxes, which is a more assured income stream. Unlike a POA, a CDD is a unit of local government, and it must hold its meetings in the sunshine and bid out its contracts where required by law. A CDD provides control to the landowners much sooner in time than a POA. A CDD is focused on providing the community with services, facilities, and their maintenance in a way the general-purpose government, with its competing interests and broad responsibilities, is not. This level of local control serves the best interests of property owners in the CDD.

From the perspective of the State of Florida, the City, and the water management districts, a CDD is the best alternative for providing community facilities and their operations and maintenance for a variety of reasons. First, as noted above, compared to a POA the CDD is a more powerful and more responsive organization for providing and maintaining infrastructure and services. Second, without a CDD the City may have to assume greater responsibility for construction, operations, and maintenance of community facilities and services. Even if the City formed a dependent district to provide community facilities and services to the area to be served by the CDD, and charged appropriately for these services, the City would be enmeshed in the responsibilities and in the management of those facilities. Furthermore, without a CDD the City cannot be assured that only residents of the area to be served by the CDD would bear the full costs of the needed facilities and services.

41. From an economic and financial perspective, do you have an opinion as to whether the services and facilities to be provided by the proposed District will be incompatible with the uses and existing local and regional facilities and services?

Yes.

42. What is your opinion?

The proposed District covers approximately 72.024 acres of land. The configuration of the land is sufficiently compact and contiguous. As such, it will not create any economic disincentives to the provision of the infrastructure facilities contemplated in this case.

Given the scope and expected cost of facilities to be provided, 72.024 acres for a residential development provides a sufficient economic base to absorb the debt costs and annual operating costs for district administration and to efficiently apportion the cost of improvements.

43. From an economic and financial perspective, do you have an opinion as to whether the area that will be served by the proposed District is amenable to separate special district government?

Yes.

44. What is your opinion and its basis?

It is my opinion that the area within the boundaries of the proposed District is amendable to a separate special district government. The lands within the proposed District's boundaries have the need for basic infrastructure.

The land is of sufficient size, compactness, and contiguity and meets those tests. Therefore, from an economic and financial perspective, the area to be served by the proposed District is clearly amendable to separate special district governance.

45. Does this conclude your testimony?

Yes, it does.

BEFORE THE CITY COUNCIL OF THE
CITY OF PORT ST. LUCIE, FLORIDA

IN RE:	PETITION TO ESTABLISH THE MCCARTY'S CHOICE COMMUNITY DEVELOPMENT DISTRICT	))))

AFFIDAVIT ADOPTING WRITTEN, PRE-FILED TESTIMONY

STATE OF FLORIDA
COUNTY OF INDIAN RIVER

I, Kinan Husainy, P.E., being first duly sworn, do hereby state for my affidavit as follows:

1. I have personal knowledge of the matters set forth in this affidavit.

2. My name is Kinan Husainy, and I am employed with Kimley-Horn and Associates, Inc.

3. The prepared written, pre-filed testimony consisting of eight (8) pages, submitted under my name to the City Council of the City of Port St. Lucie, Florida, relating to the petition to establish McCarty's Choice Community Development District and attached hereto, is true and correct.

4. If I were asked the questions contained in the pre-filed testimony orally at the establishment hearing, my oral answers would be the same as the written answers presented in my pre-filed testimony.

5. My credentials, experience and qualifications concerning land development and the construction of public infrastructure as a professional engineer and related matters are accurately set forth in my pre-filed testimony.

6. No corrections or amendments to my pre-filed testimony are required.

Under penalties of perjury, I declare that I have read the foregoing and the facts alleged are true and correct to the best of my knowledge and belief.

Executed this 29 day of May 2026.

Kinan Husainy, P.E.

STATE OF FLORIDA
COUNTY OF Indian River

The foregoing instrument was sworn to and subscribed before me by means of ☑ physical presence or ☐ online notarization, this 29th of May 2026, by Kinan Husainy, who is personally known to me or who has produced _____ as identification.

TESTIMONY OF KINAN HUSAINY, P.E., FOR ESTABLISHMENT OF MCCARTY'S CHOICE COMMUNITY DEVELOPMENT DISTRICT

1. Please state your name and business address.

My name is Kinan Husainy, and my business address is Kimley-Horn and Associates, Inc., 7341 Office Park Place, Suite 102, Melbourne, FL 32940

2. By whom are you employed and in what capacity?

Kimley-Horn as a professional engineer.

3. How long have you been in the engineering field?

19 years.

4. Does your firm represent McCarty Town Development, LLC, ("Petitioner")?

Yes. My firm serves as Project Engineer.

5. Please give your educational background, with degrees earned, major areas of study and institutions attended.

Bachelor of Science in Civil Engineering from Florida State University.

6. Do you have any professional licenses, registrations, or certifications?

Professional Engineering License in the State of Florida (#75481).

7. Have you been involved in any developments of the type and nature similar to those in the proposed McCarty's Choice Community Development District ("District")?

Yes. I have been involved in several developments in the area that contain similar necessary public infrastructure facilities utilizing my expertise in the design, permitting, and construction of similar systems..

8. Are you familiar with the Fourth Amended Petition to Establish McCarty's Choice Community Development District ("Petition") filed by the Petitioner with the City Council of the City of Port St. Lucie, Florida ("City"), on or around May 15, 2026, seeking the establishment of the proposed District?

Yes. My firm assisted the Petitioner with the preparation of some of the exhibits filed with the Petition.

9. Are you familiar with those parcels of land proposed to be included in the District that are located within the City?

Yes, I am.

10. Are you generally familiar with the geographical area, type, and scope of development and the available services and facilities in the vicinity of the proposed District?

Yes, I am.

11. Which documents did you prepare or have others prepare under your supervision?

Exhibits 1, 2, 4, 5, and 6.

12. Do any of those exhibits require any additional changes or corrections?

Not to my knowledge.

13. Are Exhibits 1, 2, 4, 5, and 6 attached to the Petition true and correct?

Yes, to the best of my knowledge.

14. In general, what do Exhibits 1, 2, 4, 5, and 6 attached to the Petition demonstrate?

Exhibit 1 is the map showing the general location of the proposed District.

Exhibit 2 is the metes and bounds legal description of the lands to be included within the proposed District.

Exhibit 4 shows the distribution, location, and extent of the public and private land uses proposed for the District by the future land use plan element of the City's Future Land Use Plan.

Exhibit 5 indicates the location of major outfall canals and drainage basins for the lands within the proposed District as well as the location of existing major trunk water mains and wastewater interceptors within the currently undeveloped lands proposed to be included within the District.

Exhibit 6 describes the types of facilities the District presently expects to finance, construct, and install, as well as the entities anticipated for future ownership, operation, and maintenance.

15. What capital facilities are presently expected to be provided by the District?

At present, the District is expected to provide stormwater management systems, water, wastewater, and reclaim utility systems, roadway improvements, offsite roadway improvements, hardscape including entry features and signage, landscape, irrigation, environmental conservation, and recreational amenity improvements.

16. Based upon your training and experience as an engineer, do you have an opinion as to whether the proposed District is of sufficient size, compactness, and sufficient contiguity to be developed as a functional interrelated community?

Yes. Based on my experience, the proposed District is of sufficient size, compactness and contiguity to be developed as a one functional interrelated community.

17. What is the basis for your opinion?

For many reasons the proposed District facilities can be provided in an efficient, functional and integrated manner.

First, there are sufficient, significant infrastructure needs for the area within the proposed District to allow development as a functionally interrelated community.

Second, the specific design of the community allows infrastructure to be provided in a cost effective manner. The land included within the proposed District area is contiguous, which facilitates an efficient and effective planned development.

Third, the provision of services and facilities through the use of one development plan provides a contiguous and homogenous method of providing services to lands throughout the District.

18. In your opinion, the proposed District is sufficiently compact and contiguous to be developable as a functionally interrelated community. Would you please explain what you mean when stating that the proposed District is of sufficient compactness?

The District will encompass approximately 72.024 acres and will provide a range of residential and residential-support land uses that require the necessary elements of infrastructure including the improvements described in the Petition. The proposed District will have sufficient overall residential density to require all the above-mentioned necessary elements of infrastructure of a comprehensive community. These facilities and services require adequate planning, design, financing, construction, and maintenance to provide the community with appropriate infrastructure. The preferred method of developing land, especially for higher density residential uses, is for the development to be spatially compact. This augments the District's ability to construct and maintain improvements, and provide services, in a cost efficient manner. The lands within the proposed District will be developed with a common overall design and functionality. Also, all the lands will share a common recreational element(s).

19. Can you provide an example of a service or facility and explain why a community development district ("CDD") is a preferred alternative for long-term operation and maintenance?

Yes. A good example would be a stormwater management system. Both a CDD and a

homeowner association are permitted to operate and maintain such systems under applicable Southwest Florida Water Management District ("SWFWMD") rules. However, SWFWMD rules generally require homeowners' associations to provide significantly more information and documentation before the SWFWMD permit can be issued. This additional information is required to ensure that the association has the financial, legal and administrative capability to provide for long-term maintenance of the stormwater management system. Such documentation generally must (1) indicate that the association has the power to levy assessments; (2) mandate that the association will operate and maintain such systems; and (3) provide that the association cannot be dissolved until another entity is found to maintain the system.

In comparison, a CDD is a perpetual local government unit, which by law has the requisite assessment authority, including the ability to collect such assessments on the county tax roll. Thus, a CDD generally must simply provide a letter to the SWFWMD stating that the CDD will accept operation and maintenance responsibility. All things being equal, a CDD is preferred over a homeowners' or property owners' association for operation and maintenance of a stormwater management system.

20. Does the establishment of the proposed District obviate the need for local land development regulations, ordinances or plans?

No. Section 190.004, *Florida Statutes*, explicitly provides that the establishment of a CDD does not in any way impact or change the applicability of any governmental planning, environmental and land development laws, regulations, and ordinances. A CDD cannot take any action that is inconsistent with the comprehensive plan, code of ordinances or regulations of the city or county within which it is located.

21. Based on your experience, do you have an opinion as to whether the services and facilities to be provided by the proposed District will be incompatible with the capacities and uses of existing local and regional community facilities and services?

Yes. It is my opinion that the proposed services and facilities of the proposed District will not be incompatible with the capacity and uses of existing local or regional community development services and facilities.

22. What is the basis for your opinion?

Currently, none of the planned infrastructure improvements that the proposed District plans to provide exist on the subject property in a manner which is useful to the proposed development. Each of the elements of infrastructure for the necessary services and facilities will connect into the existing, surrounding systems according to criteria, review and approval of the existing operational entity; there will be no incompatibility issues.

23. Based on your experience, do you have an opinion as to whether the area to be included within the proposed District is amenable to being served by a separate special district government?

Yes. In my opinion, and to the best of my knowledge, the area identified in the petition is amenable to being served by a separate special district government.

24. What is the basis for your opinion?

The proposed District is limited in purpose and the infrastructure improvements to be provided by the proposed District are limited in scope. This infrastructure is expected to directly benefit the development and may be adequately served by a special district government. In addition, special district governance provides a mechanism whereby long-term maintenance obligations can be satisfied by the persons primarily using the facilities and services.

25. Do you have an opinion, as someone experienced in land planning, as to whether the proposed District is a viable alternative for delivering community services and facilities to the areas that will be served by the proposed District?

Yes. It is my opinion that the proposed District is a viable alternative for providing the proposed services and facilities to the land to be included within the proposed District.

26. What are the alternatives contemplated in rendering this opinion?

There would be two alternatives to the establishment of the proposed District. First, to facilitate economic development, accommodate new growth, and provide new services, the City could perhaps provide the selected facilities. The second alternative would be for the developer or property owners association ("POA") to provide the infrastructure using private financing.

27. How does the proposed District compare to these alternatives?

By comparison of the alternatives referenced above, from a planning perspective, the proposed District is the best alternative available to provide the necessary infrastructure improvements. As a special-purpose "local government," the proposed District is a stable, long-term public entity capable of constructing, maintaining and managing the proposed elements of infrastructure of the necessary facilities and services. The limited purpose and scope of the District, combined with the statutory safeguards in place, such as notice of public hearings and access to district records, would ensure that the proposed District is responsive to the infrastructure needs of the proposed District. The proposed District would be able to obtain low-cost financing to provide the necessary improvements and then impose special or non-ad valorem assessments upon the property owners within the District to fund the infrastructure.

Only a CDD allows for the independent financing, administration, operations and maintenance of the land within the District. Only a CDD allows district property owners, and eventually residents, to completely control the district board and, therefore, the timing and extent of infrastructure improvement and maintenance. Knowing when, where and how

infrastructure will be needed to service the projected population of an area allows for the smooth delivery of those facilities. The proposed District exceeds other available alternatives at focusing attention to when and where and how the next system of infrastructure will be required for this specific area. This results in a full utilization of existing facilities before new facilities are constructed. It reduces the delivered cost to the citizens being served. All other alternatives do not have these characteristics.

28. In the course of your work in Florida, have you had an opportunity to work with the State Comprehensive Plan found in Chapter 187, *Florida Statutes*?

Yes. In the course of preparing planning documents for private development proposals, I have often referred to the State Comprehensive Plan.

29. In the course of your work in Florida, have you had an opportunity to review local government comprehensive plans?

Yes. In fact, I have reviewed the City of Port St. Lucie Comprehensive Plan in the course of my work.

30. At this point, I will ask you to address certain matters that are related to land use and comprehensive planning. Are you familiar with the development approvals that have been obtained or are being sought by the Petitioner to govern the lands within the proposed District?

Yes, I am.

31. Based upon your training and experience as a civil engineer specializing in land development, do you have an opinion as to whether the proposed District is inconsistent with any portion or element of the State Comprehensive Plan found in Chapter 187, *Florida Statutes*?

Yes.

32. What is that opinion?

In my professional opinion, the proposed District is not inconsistent with the applicable provisions of Chapter 187, *Florida Statutes*.

33. What is the basis for your opinion?

I have reviewed, from a planning perspective, applicable portions of the State Comprehensive Plan which relate to CDDs. The State Comprehensive Plan "provides long-range policy guidance for the orderly social, economic, and physical growth of the state." The State Comprehensive Plan provides twenty-five (25) subjects, and numerous goals and policies. Three subjects are particularly relevant, from a planning perspective to the establishment of CDDs: No. 15 - Land Use, No. 17 – Public Facilities, and No. 25 - Plan

Implementation. Several of the policies and goals are particularly supportive of the establishment of the proposed District.

34. Why is subject No. 15 in the State Comprehensive Plan relevant to the establishment of the proposed District?

This goal recognizes the importance of enhancing the quality of life in the State of Florida and attempts to do so by ensuring that development is located in areas that have fiscal abilities and service capacity to accommodate growth. CDDs are designed to provide services and facilities in a fiscally responsible manner to areas which can accommodate development. The proposed District is consistent with this goal because it will continue to have the fiscal capability to provide a range of services and facilities to a population in a designated growth area.

35. Are any of the policies under subject No. 15 relevant?

Yes. Policy 1 promotes efficient development activities in areas which will have the capacity to service new populations and commerce. The proposed District will be a vehicle to provide high quality services in an efficient and focused manner over the long term.

36. What is Subject 17 and why is it relevant?

Subject 17 addresses public facilities. The goal is to finance new facilities in a timely, orderly and efficient manner. In particular, Policy 3 states that the cost of new public facilities should be allocated to existing and future residents on the basis of the benefits received. Policy 6 also encourages the identification and implementation of innovative but fiscally sound and cost-effective techniques for financing public facilities. Establishment of the proposed District will further this goal and related policies.

37. Why is subject No. 25, the other subject you mentioned, relevant to the establishment of the proposed district?

Subject No. 25 addresses Plan Implementation. This goal requires that systematic planning capabilities be integrated into all levels of government throughout the state, with particular emphasis on improving inter-governmental coordination and maximizing citizen involvement. The proposed District will operate through a separate and distinct Board of Supervisors who will systematically plan the construction, operation and maintenance of public improvements and community facilities authorized under Chapter 190, *Florida Statutes*, subject to and not inconsistent with the local government comprehensive plan and land development regulations. Further, meetings held by the Board of Supervisors are publicly advertised and open to the public.

38. Are there any relevant policies in this portion of the State Comprehensive Plan?

Yes. Policy 6 encourages public citizen participation at all levels of policy development, planning and operations. Under Chapter 190, *Florida Statutes*, six (6) years after the

establishment of a CDD, and after two hundred and fifty (250) electors reside in the CDD, the election of the Board of Supervisors begins to transition from a landowner-elected Board to a resident-elected Board. Regardless of whether the board is elected by the landowners or the residents, the District must convene its meetings in accordance with government in the sunshine provisions set forth in Chapter 286, *Florida Statutes*. This encourages citizen participation in the planning and operational activities of the District.

39. Based upon your training and experience as a land development engineer, do you have an opinion as to whether establishment of the proposed District is inconsistent with any portion or element of the Comprehensive Plans of the City?

Yes, I do.

40. What is that opinion?

In my professional opinion, the establishment of the proposed District is not inconsistent with any applicable provisions of the City's Comprehensive Plans.

41. What is the basis for that opinion?

My opinion is based upon years of experience reviewing comprehensive plans (including for purposes of this project the current City's Comprehensive Plan) and there not being any provisions that would render a CDD inconsistent. Furthermore, Chapter 190, *Florida Statutes*, prohibits any CDD from acting in a way that is inconsistent with the local government's comprehensive plan, the exercising of any power must be done with the comprehensive plan in mind.

It is my opinion, therefore, that with respect to the establishment of the proposed District, the proposed District will not be inconsistent with any applicable element or portion of the City's Comprehensive Plan.

42. Does this conclude your testimony?

Yes, it does.

BEFORE THE CITY COUNCIL OF THE
CITY OF PORT ST. LUCIE, FLORIDA

IN RE: PETITION TO ESTABLISH)
MCCARTY'S CHOICE COMMUNITY)
DEVELOPMENT DISTRICT)

AFFIDAVIT ADOPTING WRITTEN, PRE-FILED TESTIMONY

STATE OF FLORIDA
COUNTY OF Palm Beach

I, Jack M. Berry, III, being first duly sworn, do hereby state for my affidavit as follows:

1. I have personal knowledge of the matters set forth in this affidavit.

2. My name is Jack M. Berry, III and I am the designated representative of McCarty Town Development, LLC, for the purposes of this project.

3. The prepared written, pre-filed testimony consisting of six (6) pages, submitted under my name to the City Council of the City of Port St. Lucie, Florida, relating to the petition to establish McCarty's Choice Community Development District and attached hereto, is true and correct.

4. If I were asked the questions contained in the pre-filed testimony orally at the establishment hearing, my oral answers would be the same as the written answers presented in my pre-filed testimony.

5. My credentials, experience and qualifications concerning land development and related matters are accurately set forth in my pre-filed testimony.

6. No corrections or amendments to my pre-filed testimony are required.

Under penalties of perjury, I declare that I have read the foregoing and the facts alleged are true and correct to the best of my knowledge and belief.

TESTIMONY OF JACK M. BERRY, III FOR ESTABLISHMENT OF MCCARTY'S CHOICE COMMUNITY DEVELOPMENT DISTRICT

1. Please state your name and business address.

My name is Jack M. Berry, III. My business address is 3801 PGA Blvd, Suite 806 Palm Beach Gardens, FL 33410.

2. By whom are you employed and in what capacity?

I am the designated representative of the Petitioner, McCarty Town Development, LLC for the purposes of this project.

3. Briefly summarize your duties and responsibilities.

I am responsible for overseeing land development, entitlement and related work for the Petitioner as it relates to this project, as well as overseeing day-to-day operations.

4. Who is the Petitioner in this proceeding?

The Petitioner is McCarty Town Development, LLC ("Petitioner").

5. Are you familiar with the Fourth Amended Petition to Establish McCarty's Choice Community Development District ("Petition") filed by Petitioner with the City of Port St. Lucie, Florida ("City") on or around May 15, 2026, seeking the establishment of the proposed District?

Yes.

6. What is the proposed name of the District?

The proposed name is McCarty's Choice Community Development District ("District").

7. Have you reviewed the contents of the Petition and approved its findings?

Yes, I have.

8. Are there any further changes or corrections to the Petition at this time?

No.

9. Are there any changes or corrections to any of the exhibits submitted to the City at this time?

No.

10. Please generally describe each of the exhibits attached to the Petition.

Exhibit 1 is the map showing the general location of the proposed District.

Exhibit 2 is the metes and bounds legal description of the lands to be included within the proposed District.

Exhibit 3 is the authorization of agent form, which authorizes Kilinski | Van Wyk PLLC to act as agent for the Petitioner.

Exhibit 4 shows the distribution, location, and extent of the public and private land uses proposed for the District by the future land use plan element of the City's Future Land Use Plan.

Exhibit 5 indicates the location of major outfall canals and drainage basins for the lands within the proposed District as well as the location of existing major trunk water mains and wastewater interceptors within the currently undeveloped lands proposed to be included within the District.

Exhibit 6 describes the types of facilities the District presently expects to finance, construct, and install, as well as the entities anticipated for future ownership, operation, and maintenance.

Exhibit 7 is the Statement of Estimated Regulatory Costs ("SERC"), required by statute.

Exhibit 8 is the Consent of Landowner to the establishment of the proposed District, executed by McCarty Road LLC, which represents the consent of one hundred percent (100%) of the owner of the lands to be included within the District.

11. Were these exhibits prepared by you or under your supervision?

Yes, the Petitioner engaged a consultant team and directed the preparation of the exhibits to the Petition. I reviewed the Petition and exhibits prior to its filing.

12. Are the contents of the Petition and the Exhibits attached to it and referenced above true and correct to the best of your knowledge?

Yes.

13. Are you familiar with the area that is proposed to be included within the District?

Yes, I am familiar with the general area and the site specifically.

14. Approximately how large is the proposed District in acres?

The proposed District covers approximately 72.024 acres, more or less, of land.

15. What steps were taken with respect to filing the Petition with the City?

On or around May 15, 2026, the Petitioner filed the Fourth Amended Petition with the City. The Petitioner paid the filing fees, in accordance with the City's fee schedule requirements.

16. Has notice of the hearing been provided in accordance with Section 190.005, *Florida Statutes*?

Yes. The Notice of Public Hearing is being published as a display ad in the Treasure Coast News, a newspaper of general circulation in St. Lucie County and of general interest and readership in the community. An affidavit of the publications will be provided to the City's staff after final publication.

17. Who are the five (5) persons designated in the Petition to serve as the initial Board of Supervisors?

The five persons include: myself, Bobbie Shockley, Jessica Kowalski, Justin Frye, and Charleigh Berry.

18. Do you know each of these persons personally?

Yes, I do.

19. Are each of the persons designated to serve as the initial Board of Supervisors residents of the State of Florida and citizens of the United States?

Yes, they are.

20. Are there residential units planned for development within the proposed District?

Yes. There are approximately 321 residential units planned for development within the proposed District.

21. Are there residents currently living within the areas to be included within the District, and, if so, have they been notified about the creation of the District?

No. As of this date, there are no residents currently living in any of the areas proposed to be included within the boundaries of the proposed District.

22. Would you please describe the proposed timetable for development of land within the proposed District?

The proposed timetable for the construction of infrastructure to develop the land is expected to occur in two (2) phases from 2026 to 2032, with the first phase tentatively starting in 2026 and the second phase tentatively starting in 2027.

23. Would you generally describe the services and facilities you currently expect the proposed District to provide?

The Petitioner presently intends for the District to be involved in providing the following services and facilities: stormwater management systems, water, wastewater, and reclaim utility systems, roadway improvements, offsite roadway improvements, hardscape including entry features and signage, landscape, irrigation, environmental conservation, and recreational amenity improvements. Capital costs of these improvements, including associated contingencies and professional fees, will be borne by the District. The Petitioner's good faith expectation of the costs associated with the acquisition or construction of such improvements is itemized in Exhibit 6 of the Petition.

24. Are these costs expected to include the cost of acquiring land from the developer?

No.

25. Do you have an opinion, as someone experienced in development, as to whether the area of land to be included within the proposed District is of sufficient size, is sufficiently compact, and is sufficiently contiguous to be developable as one functional interrelated community?

Yes.

26. What is your opinion?

The proposed District has sufficient land area, and is sufficiently compact and contiguous to be developed, with the roadway, drainage, water and sewer, and other infrastructure systems, facilities and services contemplated. The District will operate as one functionally interrelated community.

27. What is the basis for your opinion?

The size of the proposed District is approximately 72.024 acres of land, more or less. Based on my previous experience, the proposed District is of sufficient size, compactness, and contiguity to be developed as a functional interrelated community.

The qualities of compactness, contiguity, and size relate directly to whether an area can become one functional interrelated community. From the standpoint of the provision, management and operation of the community infrastructure expected to be provided by the District, the acres contemplated for inclusion within the District is sufficiently compact, contiguous and of sufficient size to maximize the successful delivery of these infrastructure improvements to these lands. The delivery of services and facilities to the lands within the District will not be hampered by insurmountable barriers or spatial problems. The area within the District is suitably configured to maximize the benefits available from the District services and facilities to be provided.

28. In general, what financing methods does the Petitioner propose that the proposed District use to pay for the anticipated facilities and services?

The Petitioner presently expects that the District will finance certain services and improvements through the issuance of tax-exempt bonds. The debt issued by the proposed District is expected to be retired by funds from landowners in the form of "non-ad valorem" or "special" assessments on benefitted property within the proposed District. Ongoing maintenance and operational activities are expected to be funded by maintenance special assessments. At present, the Petitioner expects that the proposed District may issue both long- and short-term bonds that will pay a portion of the cost of these facilities. The short-term bonds, and any facilities not financed with a bond issue, will be funded by the developer through conventional bank financing.

29. Who will be responsible for paying the proposed District's assessments?

Only those property owners, including the developer, within the proposed District will be responsible for paying District assessments.

30. Will these debts of the proposed District be an obligation of the City or the State of Florida?

No. Florida law provides that community development district debt cannot become the obligation of a city, a county, or the state without the consent of that government.

31. Why is the Petitioner seeking to have a community development district established for this area?

Districts are an efficient, effective way to provide infrastructure and have become accepted in the marketplace by home buyers. Further, they are a preferred method of long term maintenance by water management districts and other regulatory agencies because they offer professional staff, assessments collected on the tax roll which makes funding secure and other benefits not offered by a private entity operator of infrastructure.

From our perspective, the establishment of a District is logical for this project. It is a long-term, stable, financially-secure entity. The District is a structured, formal entity, with the legal ability to respond to current and future changes in the circumstances and desires of its residents. This project requires that the landowners within the development must provide for the ownership and maintenance of the roadways and stormwater management system. A District is the best mechanism for the perpetual maintenance and operation of such improvements. Under Florida law, the District has access to the county tax collection mechanisms, which helps ensure that assessments will be collected and that the facilities will be maintained. In that sense, to us, it is preferable to a property owners' association.

In addition, the District has the financial capability to assist in the provision of necessary capital improvements sooner than might otherwise be the case. The City, developers, builders and residents will all benefit from these improvements in terms of access, traffic

flow, safety, and general property value enhancement.

32. Does this conclude your testimony?

Yes.

Agenda Summary

2026-477

Agenda Date: 6/22/2026 **Agenda Item No.:** 10.a

Placement: First Reading of Ordinances / Quasi-Judicial Hearing

Action Requested: Motion / Vote

Ordinance 26-48, Quasi-Judicial, Public Hearing, an Ordinance of the City of Port St. Lucie, Florida, Providing for the Sixteenth Amendment to the Master Planned Unit Development Regulation Book and Concept Plan for the Tradition Master Planned Unit Development (Tradition MPUD) Located South of the Crosstown Parkway, West of I-95 and North and South of Tradition Parkway (P26-026)

Submitted By: Bridget Kean, AICP, Deputy Director

Strategic Plan Link: N/A - Development Application

Executive Summary (General Business): Winding River Crosstown, LLC, the owner of approximately 9.48 acres of property located at the southwest corner of Crosstown Parkway and SW Fairgreen Drive has applied to amend the use designated for the property in the Tradition MPUD from Residential use to Office/Commercial use. The approximately 9.48 acre property is currently within the area identified as Parcel 10 in Exhibit 5, of the Tradition MPUD, Exhibit 8, the Tradition MPUD concept plan, and Exhibit 8B, the Tradition MPUD conceptual land use plan. Parcel 10 is designated for residential use. This application will remove the 9.48 acres from Parcel 10, reclassify the 9.48 acres as Parcel 11A, and designate the use for Parcel 11A as Retail/Office to provide for the property to be developed for commercial and other uses in the future. The subject property was previously Phase C of Heritage Oaks at Tradition. A conceptual site plan was submitted in 2006 for approximately 106 townhome units by the Site Plan Review Committee. There were no follow up applications for the development of the property.

Presentation Information: Staff may provide a short presentation.

Staff Recommendation: Move that the Council approve the amendment subject to the conditions of approval outlined in the adopting ordinance as recommended by the Planning and Zoning Board.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the amendment a subject to the conditions of approval outlined in the adopting ordinance.
2. Move that the Council not approve and provide staff direction.

Background: The Tradition MPUD is approximately 3,038 acres and is located south of the Crosstown Parkway, West of I-95, and North and South of Tradition Parkway. The development plan divides the project into major districts or uses consistent with the NCD future land use sub-district categories. The land use sub-

districts/areas with the MPUD are Residential, Mixed Use, Village Center, and Town Center. As shown in Exhibit 5 of the MPUD regulation book, Exhibit 8, the MPUD concept plan, and Exhibit 8B, the MPUD conceptual land use plan, the acreage in the Tradition MPUD is divided into parcels for planning purposes.

Issues/Analysis: A public hearing before the Planning and Zoning Board was held on April 7, 2026. Staff recommended approval with a condition to require future development of the property to include the installation of an architectural wall and enhanced landscaping along the south and east boundaries of the property due to proximity to residential development. The Planning and Zoning Board voted to table the item to the May 5, 2026, Planning and Zoning Board meeting due to the Board's request for additional information on traffic. At the May 5, 2026, Planning and Zoning Boad hearing, the applicant provided a presentation that addressed transportation, supported staff's recommendation for landscape buffer walls along the eastern and southern boundaries of the property, and proposed two additional conditions of approval. The additional conditions of approval would eliminate any potential access to Heritage Oaks at Glenbrook Drive, and require site lighting to be shielded and/or oriented to minimize impacts to adjacent residential development.

At the May 5, 2026, Planning and Zoning Board public hearing, the Planning and Zoning Board voted to recommend approval subject to the following conditions:

1. Future development of Parcel 11A shall require a minimum ten-foot enhanced landscape buffer strip and architectural wall in accordance with the Landscape Code along the eastern and southern boundaries of the property. The landscape buffer strips shall be located on the inside and outside of the architectural wall. One tree, at least 12 feet in height, shall be provided for each 20 linear feet of the landscape buffer strip, or fractional part thereof, and the wall shall be installed on a one (1) foot berm.
2. All lighting shall be shielded and/or oriented to prevent light spillover. A photometric plan shall be required with each site plan for future development of Parcel 11A.
3. The right-of-way connection to SW Glenbrook Drive shall be eliminated through legal documentation approved by the City Attorney's Office.

Financial Information: N/A

Special Consideration: N/A

Location of Project: The subject property is generally located at the southwest corner of Crosstown Parkway and SW Fairgreen Drive.

ORDINANCE 26 -

AN ORDINANCE OF THE CITY OF PORT ST. LUCIE, FLORIDA, PROVIDING FOR THE SIXTEENTH AMENDMENT TO THE MASTER PLANNED UNIT DEVELOPMENT REGULATION BOOK AND CONCEPT PLAN FOR THE TRADITION MASTER PLANNED UNIT DEVELOPMENT (TRADITION MPUD) LOCATED SOUTH OF THE CROSSTOWN PARKWAY, WEST OF I-95 AND NORTH AND SOUTH OF TRADITION PARKWAY,; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE (P26-026).

WHEREAS, Brad Currie, acting as the agent for Winding River Crosstown, LLC ("Applicant") seeks to amend the Tradition MPUD Regulation Book and Conceptual Plan (P26-026) located south of the Crosstown Parkway, West of I-95, and North and South of Tradition Parkway and more particularly described in Exhibit 7 of attached composite Exhibit "A"; and

WHEREAS, the Tradition MPUD was originally approved by Ordinance 03-151 and subsequently revised and restated by Ordinance 05-124, Ordinance 06-54, Ordinance 07-108, Ordinance 08-21, Ordinance 12-68, Ordinance 14-22, Ordinance 14-47, Ordinance 19-49 and Ordinance 23-22; and

WHEREAS, administrative amendments to the Tradition MPUD were approved by the City on July 23, 2004, April 27, 2005, November 22, 2006, March 26, 2008, February 28, 2018 and May 28, 2025; and

WHEREAS, the Applicant seeks to amend the Tradition MPUD Regulation Book and Conceptual Development Plan for approximately 9.48 acres of property located at the southwest corner of the intersection of Crosstown Parkway and SW Fairgreen Drive as depicted in Composite Exhibit "A" to this Ordinance ("Amended MPUD Document"); and

WHEREAS, proposed Amended MPUD Document is consistent with all applicable elements of the City's adopted Comprehensive Plan and complies with the City's Code of

Ordinances, including Article of X.5 Chapter 158 of Title XV of the Port St. Lucie Code ; and

WHEREAS, the City of Port St. Lucie Planning and Zoning Board held a public hearing on April 7, 2026 and May 5, 2026, to consider the proposed Amended MPUD Document, notice of said hearing to adjoining property owners for a radius of seven hundred fifty (750) feet having been given and advertising of the public hearing having been made; and

WHEREAS, the City Council held a public hearing on May 26, 2026, to consider the amendment to the proposed Amended MPUD Document, advertising of the public hearing having been made; and

WHEREAS, based on substantial and competent evidence, including but not limited to, the recommendations of the City staff, the Site Plan Review Committee, the Planning and Zoning Board, comments made at the public hearing, and careful consideration of the issues and evidence, finds that the proposed Amended MPUD Document is consistent with Article of X.5 Chapter 158 of Title XV of the Port St. Lucie City Code.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Ratifications of Recitals. The City Council of the City of Port St. Lucie, Florida hereby adopts and ratifies those matters as set forth in the foregoing recitals.

Section 2. That the proposed Amended MPUD Document attached as Composite Exhibit "A" is hereby formally adopted, subject to the following conditions:

1. Future development of Parcel 11A shall require a minimum ten-foot enhanced landscape buffer strip and architectural wall in accordance with the Landscape Code along the eastern and southern boundaries of the property. The landscape buffer strips shall be located on the inside and outside of the architectural wall. One tree, at least 12 feet in height, shall be provided for

each 20 linear feet of the landscape buffer strip, or fractional part thereof, and the wall shall be installed on a one (1) foot berm.

2. All lighting shall be shielded and/or oriented to prevent light spillover. A photometric plan shall be required with each site plan for future development of Parcel 11A.
3. The right-of-way connection to SW Glenbrook Drive shall be eliminated through legal documentation approved by the City Attorney's Office.

Section 3. The Amended MPUD Document shall be the internal MPUD design standard.

Section 4. Conflict. If any ordinances, or parts of ordinances, or if any sections or parts of sections of the ordinances of the City of Port St. Lucie, Florida, are in conflict herewith, this Ordinance shall control to the extent of conflicting provisions.

Section 5. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect.

Section 6. Effective Date. This Ordinance shall become effective immediately after its final adoption.

INTRODUCTION

TRADITION, a MPUD, is a mixed-use community consisting of 3,038 acres. The Tradition MPUD is intended to implement the design requirement policies of the NCD land use. TRADITION, offers uses as outlined in the attached Exhibit 5.

The above-mentioned community will have amenities of parks, lakes, upland preservation tracts and recreation areas of parks, playgrounds, or other cultural facilities, golf course and clubhouse.

The internal roadway for TRADITION is designed to ensure an orderly means of ingress and egress movement for both the residents and visitors to the area. The community's primary access will be via Tradition Parkway, together with North and South roadways into the community.

This application is respectfully submitted to the Planning and Zoning Department of the City of Port St. Lucie for processing as a MPUD. The format will follow the outline presented in the PUD Zoning District Standards and Application requirements.

EXHIBIT 2

MPUD APPLICATION CHECKLIST

1. Statement of Unified Control of the entire area within the proposed MPUD is enclosed as Exhibit 3.

2. TRADITION is a proposed mixed use community designed to encompass residential, neighborhood/village commercial, town center and institutional uses.

3. The Conceptual Plan for TRADITION is enclosed as Exhibit 8 of this submittal package.

4. Please see Exhibit 4 for the General Standards established for this Master Planned Unit Development. The maximum building heights, minimum setbacks and other site data are shown in Exhibits 6 and 10. Development uses and standards are shown in Exhibit 6.

5. The community is also known as TRADITION

Re: Evidence of Unity of Control and Binding MPUD Agreement - Tradition MPUD

This letter is to serve as our required letter of Unified Control in compliance with the City of Port St. Lucie zoning regulations. Mattamy Palm Beach LLC, a Delaware limited liability company ("Mattamy"), is the owner of record of Parcels 17, 17A, and 18 of the property described on Exhibit 7, by virtue of the Special Warranty Deed dated June 29, 2018 recorded in Official Records Book 4153, Page 856, and Special Warranty Deed dated December 14, 2022 recorded in Official Records Book 4926, Page 2841, both of the Public Records of St. Lucie County, Florida.

Mattamy is the successor "Developer" under the Amended and Restated Development Order for the Tradition Development of Regional Impact ("DRI"), which DRI was adopted pursuant to Resolution 16-R95 by the City of Port St. Lucie, as memorialized by that Notice of Adoption of the Amended and Restated Development Order for the Tradition Development of Regional Impact recorded in Official Records Book 3864, Page 1840, of the Public Records of St. Lucie County, Florida, as amended from time to time.

Parcels 17, 17A, and 18 of the property described on Exhibit 7 are under unified control and Mattamy agrees (1) to proceed with the proposed MPUD development according to the provisions of the City of Port St. Lucie zoning regulations and any conditions as may be attached to the rezoning of the land to the MPUD, and (2) provide such agreements, contracts, deed restrictions, and relevant securities as may be required by the City of Port St. Lucie for the completion of the development in accordance with the plan approved by the City, and also agrees to provide continuing operation and maintenance of such areas, functions, and facilities on the subject property, unless and until such time as a private property owners' association accepts such responsibilities. Such responsibilities are not to be provided or maintained at public expense. Mattamy acknowledges and consents to the requirements of the existing binding MPUD agreement for Tradition, and further agrees to bind all successors in title to the commitments made hereunder in this paragraph.

Should you have any questions or require additional information, please do not hesitate to contact me.

UNANIMOUS WRITTEN CONSENT IN LIEU OF A MEETING OF THE BOARD OF DIRECTORS OF TRADITION COMMERCIAL ASSOCIATION, INC.

Tradition MPUD – Amendment Application

Anthony Palumbo, Frank Covelli, and Tyler Gaffney, representing the entire Board of Directors (the "Board") of Tradition Commercial Association, Inc. (the "Association"), pursuant to section 617.0821, Florida Statutes, do hereby consent to the following action(s) in lieu of a meeting of the Board, to have the same effect as action(s) taken at a duly called meeting of the Board, at which a quorum of directors was present and voting, as further set forth below:

WHEREAS, the Association is governed by the Amended and Restated Commercial Charter for Tradition, recorded in the Official Records of St. Lucie County in Official Records Book 4512, Page 1357, as amended and supplemented from time to time (the "Charter"); and

WHEREAS, Mattamy Palm Beach LLC, a Delaware limited liability company (the "Founder"), is the Founder under the Charter, pursuant to that certain Assignment of Founder's Rights recorded in the Official Records of St. Lucie County, Florida in Official Records Book 4153, Page 969; and

WHEREAS, pursuant to Section 15.3 of the Charter, the Founder has the right to make changes in the "Master Plan" (as such term is defined in the Charter) in the Founder's sole discretion, subject to such governmental approvals as may be required; and

WHEREAS, the Founder desires to amend the Tradition MPUD as set forth in the MPUD Application for MPUD Rezoning of Tradition 3,038 Acres, attached hereto and incorporated as if fully set forth herein as **Exhibit "A"** (the "Amendment Application"), subject to the approval of the City of Port Saint Lucie (the "City"); and

WHEREAS, the City has requested the consent of the Association to the Amendment Application, and the Association desires to provide its consent to the Amendment Application.

NOW, THEREFORE, BE IT RESOLVED that:

1. **Recitals**. The aforementioned Recitals are true and correct and are hereby incorporated as if fully set forth herein.

2. **Amendment Application**. The Board hereby approves the Amendment Application.

THIS UNANIMOUS WRITTEN CONSENT IN LIEU OF A MEETING shall be effective as of the date of the last signature affixed below. The undersigned affirm that this Unanimous Written Consent in lieu of a Meeting of the Board of Directors was signed on the date(s) set out below and delivered to the Association by delivery to its principal office inside the State of Florida, its principal place of business, the corporate secretary, or another agent of the corporation having custody of the book in which proceedings of meetings of the Association are recorded.

RE: Evidence of Unity of Control and Binding MPUD Agreement – Tradition MPUD

This letter is to serve as our required letter of Unified Control in compliance with the City of Port St. Lucie, FL zoning code regulations. Winding River Crosstown LLC, a Florida limited liability company ("Winding River") is the owner of record of those certain parcels identified as Parcel I.D. Nos.: 4304-502-0022-000-6, and 4304-111-0002-000-0, by virtue of that certain Warranty Deed recorded in Official Records Book 5401, Page 2139, and that certain Warranty Deed recorded in Official Records Book 5328, Page 2672, Public Records of St. Lucie County, Florida (the "Winding River Parcels") for which a PUD Amendment Application has been filed to permit the commercial development of the Winding River Parcels consistent with commercial uses permitted in the DRI (as defined below)., and to collectively designate said parcels as "Parcel 11A" in the Tradition MPUD.

Mattamy Palm Beach LLC, a Delaware limited liability company ("Mattamy"), is the successor "Developer" under the Amended and Restated Development Order for the Tradition Development of Regional Impact ("DRI"), which DRI was adopted pursuant to Resolution 16-R95 by the City of Port St. Lucie, as memorialized by that Notice of Adoption of the Amended and Restated Development Order for the Tradition Development of Regional Impact recorded in Official Records Book 3864, Page 1840, Public Records of St. Lucie County, Florida, as amended from time to time.

The land to be designated as Parcel 11A comprises a portion of the property described on Exhibit 7 to the Tradition MPUD, which is under the unified control of Mattamy, as the successor Developer of Tradition MPUD. In connection with Winding River's MPUD Amendment Application, Mattamy agrees (1) subject to the terms of a written agreement between Mattamy and the owner(s) of the Winding River Parcels to convert the residential units contained within the Winding River Parcels to commercial use, in order to allow the commercial development of the Winding River Parcels consistent with commercial uses permitted in the DRI according to the provisions of the City of Port St. Lucie zoning regulations and any conditions as may be attached to the rezoning of the land to the MPUD, and (2) to provide such agreements, contracts, deed restrictions, and relevant securities as may be required by the City of Port St. Lucie for the completion of development in accordance with the plan approved by the City, and provide (or cause to be provided by Winding River, its successors and assigns) the continuing operating and maintenance of such areas, functions, and facilities on the Winding River Parcels, unless and until such time as a private property owners' association accepts such responsibilities. Such responsibilities are not to be provided or maintained at public expense. Mattamy acknowledges and consents to the requirements of the existing binding MPUD agreement for Tradition and further agrees to bind all successors in title to the commitments made hereunder in this paragraph.

This letter is solely for the purpose of complying with the City of Port St. Lucie's zoning requirements and is not intended for the benefit of any third party, and no such party, other than the City of Port St. Lucie, may enforce any rights or obligations arising under this letter against any Mattamy as a third-party beneficiary.

STATEMENT OF UNIFIED CONTROL

Project Name(s): P24-216 – Tradition MPUD Amend # 16

The property described in the amendment application package for the Tradition MPUD Amendment # 16, more specifically described as Parcel ID 4304-111-0002-000-0 and 4304-502-0022-000-6 (the "Property") is under unified control due to common ownership by Winding River Crosstown LLC. Pursuant to 158.192, Changes in Conceptual Master Plans, City Code of Ordinances ("City Code"), major changes in a conceptual plan require "[a]an up-to-date statement presenting evidence of unified control of the entire area within the MPUD and a renewed agreement to all provisions set forth in subsection 158.175(A)(1) and affected by the proposed changes." The Property is the only area effected by the proposed changes contained in the amendment.

All the property within the Tradition MPUD remains subject to the regulations contained in the Tradition MPUD Conceptual Development Plan and Conditions, and subsequent amendments, including the Binding P.U.D Agreement, Exhibit 9 of Original Tradition MPUD Conceptual Plan and Conditions, executed January 22, 2018.

EXHIBIT 4

GENERAL STANDARDS FOR DISTRICT ESTABLISHMENT

1. The area of TRADITION is 3,038 acres, which exceeds the 200-acre minimum establishment of a MPUD within the NCD land use.

2. TRADITION is located on the west side of I-95 and north and south of Tradition Parkway. Main access to the MPUD will be along Tradition Parkway.

3. TRADITION is designated to include residential uses together with town centers and mixed uses.

4. All recreation areas may be a park or playground or other recreational or cultural facility. Furthermore, there may be a golf course and clubhouse with or without an alcoholic beverage license.

5. TRADITION is located within the TRADITION Development of Regional Impact. Storm water management will be provided by an on-site water lake system, which will be part of Tradition Community Development District (TCDD) water management system, located in TCDDs 1, 2, 3, 4, 5, 6, 7, & 8. The Tradition MPUD will be supplied with water and wastewater services by the City of Port St. Lucie Utility Systems Department and will abide and comply with all applicable City Ordinances, Policies, Specifications and Regulatory Agencies governing such service. Furthermore, the Tradition Phase I PUD acknowledged that the City may require reuse water be utilized for irrigation, equal to the amount of wastewater generated by the PUD, upon availability to the site. The design of the roadway sections shall conform to PSLUSD landscaping specifications and policies, latest revision. All utilities will be located underground. Irrigation will be provided by an onsite system.

6. The original physical characteristics of TRADITION MPUD can be described as approximately 3,038 acres of "improved pasture". There are no existing wetlands within the neighborhood boundaries designated for impact that have not been approved during the original permitting of TRADITION by the South Florida Water Management District (SFWMD). A modification to an existing Army Corps of Engineers permit is in process. There are within the 3,038 acres, wetlands and upland buffers to be preserved. These areas will not be impacted but enhanced by the dedication of additional upland preserve areas.

7. Within TRADITION the minimum finish floor elevations are to be at or above of the minimum elevation for the associated drainage basin as shown in the SFWMD Permit #56- 01569-P.

8. This MPUD application is consistent with the City of Port St. Lucie Comprehensive Land Use Plan. The intent of this MPUD is set forth designated land use areas which illustrate compliance with the policy provisions of the New Community Development District land use.

For purposes of this MPUD the following definition shall apply:

Senior living campus – A residential community including a range of living units, including independent units (detached & attached), assisted care units and skilled nursing care facilities along with a variety of common amenities and ancillary services.

In 2016, two parcels were transferred from the Tradition DRI to the Western Grove DRI [the Taylor Morrison 'Esplanade' (north of Westcliffe) and Mattamy 'Emery' (east of Fern Lake)]. The parcels already had zoning of Tradition MPUD in place and such zoning remains on these parcels to-date. The total of the two parcels transferred from Tradition DRI into Western Grove DRI was approximately 326 acres; however, this acreage remains within the Tradition MPUD.

EXHIBIT 5

SITE INFORMATION

I. TOTAL ACREAGE: 3,038 acres

Development areas included within this MPUD:

- Residential	2,053 acres
- Town Center	190 acres
- Mixed Use	445 acres
- Neighborhood/Village Center	8 acres
- Water Management Tracts	61 acres
- Road Rights-of-Way	188 acres
- Conservation Tracts	39 acres
- Open Space	54 acres
TOTAL	3,038 acres

Note: Development area acreages are approximate.

St. Lucie County Approved Development Areas (Res. 02-141 & 02-142):

• Residential	57.14acres
• Water Management Tracts	61.04 acres
• Open Space	12.16 acres
• Upland Preserve/Wetlands	16.52 acres
• Road Right-of-Way	48.30 acres
• Town Center	26.01 acres
• Parks	13.00 acres
Total	234.17 acres

Development areas included with this MPUD submittal:

• Residential	2,004.47 acres
• Road Right-of-Way	139.97 acres
• Town Center	144.05 acres
• Mixed Use	444.93 acres
• Open Space	41.67 acres
• Conservation Tract	22.98 acres
Total	2,798.07 acres

II. DEVELOPMENT AREA - Overall

Residential: Parcels 3, 6, 9, 12, 13, 13A, 14, 15, 16, 17, 17a, 18, 20, 20a, 21, 22, 23, 32, 34, 35, 36, and 37

- Parcels designated as Civic/Institutional: Total: 1,961.27 acres

Parcels 13A	Area: 2.40 acres
34	Area: 2.31 acres
35	Area: 3.44 acres

- Parcel designated as park: Parcel 22 Area: 118.54 acres
  Parcel 23 0.948 acres

Town Center: Parcels 1,1A,1B,1C, 2, Total: 242.19 acres

- Residential Use: % of Total: 36.4%
  Parcels 1, 1A,1B,1C 7.89 acres
  Parcel 2 39.99 acres

- Office/Retail, Civic:
  Parcel 1 75.89 acres

Mixed Use: Parcels 4, 5, 7, 8, 10, 11, 11A Total Area:443.73 acres

- Residential: Parcel 7 & Parcel 10 % of Total: 44.93% ~~47.07~~
  Parcel 7 23.79 acres ~~185.07 acres~~
  Parcel 10 175.59 acres

- Retail/Office/Hospital/Utility/Civic/Institutional/Assisted Living Facilities and Nursing Homes
  Parcel 4 179.03 acres
  Parcel 8 10.41 acres

- School/Civic/Institutional
  Parcel 5 33.63 acres

- Retail/Office
  Parcel 11 11.73 acres

- Retail/Office:
  Parcel 11A 9.48 acres

Village Center: Parcels 19a,19b Total area: 7.37 acres

Retail/Office/Civic/Church 7.37acres

III. Intentionally Left Blank

IV. UPLAND PRESERVATION

Uplands will be preserved consistent the Tradition DRI development order.

V. MODEL AREA

The proposed location of model/sales areas shall be determined as individual parcels are developed and approved through the conceptual plan process and require site plan approval by the Site Plan Review Committee.

They shall be utilized as a model and sales area in an orderly and organized manner to better service the homeowners who wish to call TRADITION their home. These will remain in effect until such time that it is practicable to offer these home sites for purchase. Fences may be located in private road rights-of-way and cross property lines for model home areas. Site plan approval is required and a bond shall be posted with the city ensuring its removal when the models revert to private residences.

VI. PEDESTRIAN WAYS

The major system of pedestrian movement will consist of sidewalks adjacent to the streets with connections to the neighborhoods.

The minor systems will be developed within the neighborhoods as development occurs.

EXHIBIT 6

PROPOSED DEVELOPMENT USE/STANDARDS

Section 1. Residential Area.

(A) Purpose. The purpose of the residential area shall be to locate and establish neighborhoods within the NCD District which are deemed to be uniquely suited for the development and maintenance of residential living of an urban and suburban character; to designate those uses and services deemed appropriate and proper for location and development within that area; and to establish development standards and provisions as are appropriate to ensure proper development in a residential environment. Residential areas shall contain integrated neighborhoods within a 2-mile radius of shops, services, and other activities. Neighborhoods within the residential area shall be a minimum of ten (10) acres and a maximum of six hundred (600) acres. Gated neighborhoods are permitted provided arterial roads are not gated and they are integrated into the overall community via pedestrian and bicycle connections. Higher density residential uses within the Residential area shall be encouraged to be located near Neighborhood/Village areas, Town Centers and Mixed Use areas, central focal points and the center or edge of neighborhood areas. The following standards shall be met in designing neighborhoods within the residential area.

(B) Permitted Principal Uses and Structures. Neighborhoods within the Residential area may include the following principal uses and structures.

1. Single-family dwelling (attached and detached);

2. Single unit accessory apartments, home offices or studios with a maximum living area of 600 square feet shall be permitted above garages on residential lots;

3. Townhouse dwelling;

4. Multiple-family dwelling;

5. Park or playground, or other public or private recreation or cultural facility (including but not limited to: Golf course or clubhouse, with or without an alcoholic beverage license for sale of alcoholic beverages to members and guests of the clubhouse; Open space devoted to the conservation and maintenance of natural waterways, vegetation and wildlife; Hiking and/or bicycle trails; Nature study areas and boardwalks; Picnic areas);

6. Civic, institutional, or cultural facility [including but not limited to enclosed assembly area, day care centers, schools (public or private), kindergarten through 12 grade, congregate living facilities].

7. Temporary sales trailers located upon the parcel for which sales activities are to be conducted;

8. Senior living campus; and Nursing Home.

9. Paired Villa dwelling

(C) Special Exception Uses. The following uses may be permitted only following the review and specific approval thereof by the City Council:

1. Wireless communication antennas and monopole towers with a maximum height of 100 feet located within parks or school sites designated on Exhibit 8, provided all other criteria as set forth in Section 158.213, City of Port St. Lucie Zoning Ordinances are met.

(D) Accessory Uses. As set forth within Section 6 hereof.

(E) Minimum Lot Requirements / Maximum Residential Density.

1. Single-family dwelling: Two thousand eight hundred (2,800) square feet and width of thirty-five (35) feet with a maximum gross project density of fifteen (15) dwelling units per acre;

2. Townhouse dwelling: One thousand four hundred (1,400) square feet and a width of eighteen (18) feet, with a maximum gross project density of fifteen (15) dwelling units per acre.

3. Multiple-family dwelling: Five (5) acres and width of one hundred fifty (150) feet, with a minimum gross project density of ten (10) units per acre and maximum gross project density of twenty (20) dwelling units per acre.

4. Schools:
   a. Day Care 0.75 acres
   b. K-8th 7.5 acres
   c. High 15 acres

5. All other permitted or special exception uses: Twenty thousand (20,000) square feet and a width of one hundred (100) feet.

6. Paired Villa dwelling: Three thousand five hundred (3,500) square feet and a width of thirty-seven and one-half (37.5) feet, with a maximum gross project density of seven (7) dwelling units per acre.

(F) Maximum Building Coverage.

Single Family and Multi Family: Sixty (60) percent provided that the maximum impervious surface does not exceed eighty (80) percent.

(G) Minimum Open Space. Thirty (30) percent. Within open space areas include a minimum of 5% useable open space in the form of squares, greens, parks, recreation areas and/or conservation areas.

(H) Maximum Building Height. Thirty-five (35) feet measured to midpoint of roof pitch, provided that steeples and similar architectural embellishments shall have a maximum height of sixty-five (65) feet. Schools (K-8th and High) shall have a maximum height of fifty (50) feet. Vertically attached multiple-family dwelling unit buildings on Parcels 17 and 17a, as depicted on the Tradition MPUD Concept Plan, shall have a maximum height of 47'-6" subject to the following conditions:

(a) Aggregately parcels 17 and 17a are restricted to two (2) vertically attached multi-family dwelling unit buildings not to exceed four stories.

(b) The buildings must be located no less 360 feet south of Westcliffe Lane, 765 feet north of Tradition Parkway, 65 feet west of Parcel 18 and 80 feet east of the FPL Easement located adjacent to Parcels 17 and 17A.

(I) Minimum Living Area.

1. Single-family dwelling: One thousand two hundred (1,200) square feet.

2. Townhouse and Multiple-family dwellings:

   i. Studio apartment, six hundred (600) square feet;
   ii. One (1) bedroom, seven hundred (700) square feet;
   iii. Two (2) bedroom, eight hundred (800) square feet;
   iv. Three (3) bedroom, nine hundred (900) square feet.

3. Senior living campus – six hundred (600) square feet for independent units (attached & detached).

(J) Yard Requirements and Buffering: Minimum setbacks shall be stated below unless otherwise indicated on Exhibit 10 of the Tradition MPUD.

1. Single-family dwelling:

Front yard. Each lot shall have a front yard with a building setback line of ten (10) feet for dwellings with alleys, and for rear loaded garage village units, or a front yard with a building setback line of ten (10) feet and a front load garage setback line of eighteen (18) feet for dwellings without alleys. Each lot having frontage on a non-gated collector road shall have a front yard with a building setback line of twenty-five (25) feet.

Side yards. Each lot shall have two (2) side yards, each of which shall result in a separation of twelve (12) feet between adjacent buildings without alleys, and for rear loaded garage village units, or two (2) side yards, each of which shall result in a separation of ten (10) feet between adjacent buildings with alleys. A side yard of ten (10) feet shall be provided adjacent to rights-of-ways, unless there is a side street loaded garage, then a side yard of eighteen (18) feet shall be provided, and a side yard of five (5) feet shall be provided adjacent to alleys.

*Parcels 17, 17a, and 18, shall be permitted to have side yard setbacks of five (5) feet from the side property line which shall result in a minimum separation of ten (10) feet

between adjacent buildings. A side yard of at least ten (10) feet shall be provided adjacent to rights-of-ways or eighteen (18) feet for street-side-loaded garage.
Rear Yard. Each lot shall have a rear yard with a building setback line of ten (10) feet, eighteen (18) feet for garages on alleys, and a fifteen (15) foot setback where there is eighteen (18) feet to the alley travel lane. Exhibit 10H rear loaded garage village units may have a rear yard setback of ten (10) feet to garages.

2. Townhouse dwelling:

Each townhouse dwelling shall have a front yard with a minimum depth of ten (10) feet for townhouse dwellings with alleys or a front yard with a minimum depth of ten (10) feet and a front load garage setback line of eighteen (18) feet for townhouse dwellings without alleys and a rear yard with a minimum depth of ten (10) feet. Screened enclosures shall be set back a minimum of five (5) feet from the rear property line. Each townhouse dwelling having frontage on a non-gated collector road shall have a front yard with a building setback line of twenty-five (25) feet.

No less than three (3) townhouse dwellings and no more than eight (8) townhouse dwellings shall be contiguous. No contiguous group of dwellings shall exceed two hundred forty (240) feet in length.

No portion of a townhouse or accessory structure in or related to one (1). group of contiguous townhouses shall be closer than fifteen (15) feet to any portion of a townhouse or accessory structure related to another group. A side yard having a minimum depth of ten (10) feet shall be provided between the side of any townhouse dwelling and a private or public street or right-of-way.

3. Multiple-family dwelling: In order to provide for a pedestrian oriented streetscape design, all setback requirements shall be established for each specific use as part of the site plan review process. Where two or more buildings are situated upon a parcel, any two buildings shall be separated by a minimum of twenty (20) feet.

    a. Parcels 17 and 17a, shall have a building setback of twenty-five (25) feet from the front yard and public rights-of-ways, and ten (10) feet from the side and rear property lines. Where two or more buildings are situated upon a parcel, any two buildings shall be separated by a minimum of twenty (20) feet for vertically attached units, fifteen (15) feet 4-plex to 8-plex attached units, and a minimum of ten (10) feet for multi-family horizontal detached units.

4. Senior Living Campus: Buildings shall have a setback of ten (10) feet from all property lines. Detached independent units shall be separated by a minimum of twelve (12) feet and the units shall be setback twenty (20) feet from the edge of any internal roadway pavement or sidewalk.

5. All other permitted or special exception uses: All setback requirements shall be established for each specific use as part of the site plan review process.

6. Buffering. Where applicable, buffering shall be provided in accordance with the landscaping requirements of Chapter 15 4 , City of Port St Lucie Ordinances.

7. Paired Villa dwelling:

Each paired villa dwelling shall have a front yard with a minimum depth of eighteen (18) feet for a front load garage setback and a rear yard with a minimum depth of ten (10) feet. Screened enclosures shall be set back a minimum of five (5) feet from the rear property line.

Paired Villa's shall have a minimum of twelve (12) feet distance between buildings (six feet setback to property line). Lots shall have a zero (0) foot Z-lot line setback on the zero (0) foot side of the lot and a side yard having a minimum depth of six (6) feet shall be provided on the non zero (0) foot lot line. A minimum of ten (10) feet distance is required between the side of any paired villa dwelling and a private or public street or right-of-way.

a. * Parcels 17, 17a, and 18 shall have a minimum side yard setback of five (5) feet from the side property line on the non-zero foot lot line providing a minimum of ten (10) feet separation between adjacent buildings.

(K) Off-Street Parking and Service Requirements. As set forth in Section 7 hereof.

(L) Site Plan Review. Each neighborhood within the Residential area shall submit a conceptual plan meeting the criteria set forth above and those criteria contained in the NCD District's Policies of the City of Port St. Lucie's Comprehensive Plan. Conceptual Plans shall be submitted for review by the Planning and Zoning Director or the City's Site Plan Review Committee prior to approval of subdivision plats. Conceptual plans shall include adequate information to determine compliance with the required design standards set forth above, including but not limited to proximity to shops and services, lot sizes and setbacks, and minimum open space. An exhibit indicating building envelopes/ setbacks shall be provided with each conceptual plan or subdivision plat submittal. Multi-Family and non-residential developments within the Residential area shall submit a site plan meeting the criteria set forth above for review and approval by the City's Site Plan Review Committee.

(M) Access. Gated subdivisions shall provide a minimum distance of 100 feet from the gate to the right- of- way. There shall also be provided a space for buses and trucks to maneuver around before the gated entrance. Secondary resident restricted entrances shall provide a minimum distance of 100 feet from the gate to the right of way. A bus and truck maneuvering area will not be required for secondary resident restricted entrances.

Section 2. Neighborhood/Village Commercial Areas

(A) Purpose. The purpose of the neighborhood/village commercial areas shall be to locate and establish areas within the NCD District which are deemed to be uniquely suited for the development and maintenance of limited commercial activities offering convenience goods and personal services to residents of the immediate neighborhood area; to encourage the grouping of interrelationship of established uses so as to permit a high level of pedestrian movement within the area; to designate those uses and

services deemed appropriate and proper for location and development within said areas; and to establish development standards and provisions as are appropriate to ensure proper development and function of uses with the areas. Neighborhood/Village commercial areas shall function as a community of compatible uses in a compact setting, with a minimum area of three (3) acres and a maximum area of thirty-five (35) acres, serving adjoining neighborhoods and may provide for a mix of residential and non-residential land uses. The following standards shall be met in designing neighborhood/village commercial areas:

(B) Permitted Principal Uses and Structures. A minimum of two (2) of the following principal uses and structures shall be contained in the neighborhood /village commercial area, provided that a maximum of fifty (50) percent of the net developable area within a neighborhood / village commercial area may be residential and the maximum gross floor area of any one (l) retail use shall be thirty thousand (30,000) square feet:

1. Any retail, business, or personal service use (including repair of personal articles only) conducted wholly within an enclosed building, including the retail sales of beer and wine for off and on premises consumption;

2. Office for business, professional or medical use;

3. Personal service uses, such as, bank or savings and loan association, dry cleaning or laundry pick up station for work to be sent elsewhere;

4. Day care center;

5. Restaurant (not including drive-in facilities) with or without an alcoholic beverage license for on premises consumption of alcoholic beverages;

6. Service station (as separate use or in conjunction with a permitted use);

7. Park or playground or other public or private recreation or cultural facility;

8. Civic, institutional or cultural facility [including but not limited to enclosed assembly area, day care centers, schools (public or private), kindergarten through 12 grade, congregate living facilities].

9. Townhouse dwelling;

10. Multiple-family dwellings;

11. Temporary sales trailers located upon the parcel for which sales activities are to be conducted; and

12. Congregate living facilities

(C) Special Exception Uses. The following uses may be permitted only following the review and specific approval thereof by the City Council:

Wireless communication antennas and towers with a maximum height of 100 feet, provided all other criteria as set forth in Section 158.213, City of Port St. Lucie Zoning Ordinances.

(D) Accessory Uses. As set forth in Section 6 hereof.

(E) Minimum and Maximum Lot Requirements and Residential Density.

1. Residential: As set forth in Section 1(E) hereof provided the minimum density shall be eight (8) dwelling units per net developable acre and the maximum density shall be twenty (20) dwelling units per net developable acre.
2. Non-residential: A minimum of twenty thousand (20,000) square feet and a minimum width of one hundred (100) feet.

(F) Maximum Building Coverage. Eighty (80) percent provided that the maximum impervious surface does not exceed ninety (90) percent.

(G) Minimum Open Space. Ten (10) percent. Within open space areas include a minimum of 5% useable open space in the form of squares, greens, parks, recreation areas, and/ or conservation areas.

(H) Maximum Building Height.

1. Residential: Thirty-five (35) feet provided that steeples and similar architectural embellishments shall have a maximum height of sixty-five (65) feet.
2. Non-residential: Fifty (50) feet, provided that steeples and similar architectural embellishments shall have a maximum height of one hundred (100) feet.

(I) Minimum Building Size and Minimum Living Area

1. Residential: As set forth in Section 1(H) hereof.
2. Non-residential: Minimum total gross floor area of one thousand two hundred (1,200) square feet.

(J) Setback Requirements and Buffering.

1. Setback for single-family and townhouse uses. See Section 1(I)(1) and (2).
2. Setback for multiple-family and non-residential uses. In order to provide for a pedestrian oriented streetscape design, all setback requirements shall be established for each specific use as part of the site plan review process.

3. Buffering. All mechanical equipment shall be screened from property zoned residential. This screening shall be designed as both a visual barrier and a noise barrier. Buffering shall be provided in accordance with the landscaping requirements of Chapter 154, City of Port St. Lucie Zoning Ordinances, except that buffer walls shall not be required between residential and non-residential uses within the neighborhood /village commercial area.

(K) Off-Street Parking and Service Requirements. As set forth in Section 7 hereof.

(L) Site Plan Review. Prior to approval of site plans for non-residential development in the neighborhood /village commercial area, a conceptual plan meeting the criteria set forth above shall be submitted for review and approval of the Planning and Zoning Director or the City's Site Plan Review Committee. Conceptual plans shall include adequate information to determine compliance with the required designed standards set forth above, including but not limited to proximity to shops and services, lot sizes and setbacks, and minimum open space.

Residential uses within the neighborhood/village commercial area shall submit a conceptual plan meeting the criteria set forth above for review and approval by the Planning and Zoning Director of the City's Site Plan Review Committee prior to approval of subdivision plats. Conceptual plans shall include adequate information to determine compliance with the required designed standards set forth above, including but not limited to proximity to shops and services, lot sizes and setbacks, and minimum open space.

Section 3. Town Center Areas.

(A) Purpose. The purpose of town center areas shall be to locate and establish areas within the NCD District which are deemed to be uniquely suited for the development and maintenance of commercial facilities, said areas to be primarily along established highways where a mixed pattern of commercial usage is to be substantially established; to designate those uses and services deemed appropriate and proper for location and development standards and provisions as are appropriate to ensure proper development and functioning of uses. Town centers shall be designed, with a minimum size of thirty (30) acres and a maximum size of one hundred fifty (150) acres, to meet the needs of the larger residential area. The following standards shall be met in designing town centers:

(B) Permitted Principal Uses and Structures. A minimum of three (3) of the following principal uses and structures shall be contained within the town center area, provided a minimum of thirty (30) percent and a maximum of fifty (50) percent of the net developable area within a town center shall be residential, a minimum of 800 residential units shall be assigned to the town center and areas within 1/4 mile, and maximum gross floor area of any one (1) retail use shall be sixty thousand (60,000) square feet:

1. Any retail, business, or personal service use (including repair of personal articles, furniture, and household appliances) conducted wholly within an enclosed building, where repair, processing or fabrication of products is clearly incidental to and restricted to on-premise sales;

2. Office for administrative, business, professional or medical use;

3. Bank or savings and loan association;

4. Restaurant, including drive-in service;

5. Retail sales of alcoholic beverages for on and off premises consumption;

6. Hotel, motel, inn or bed and breakfast;

7. Theater (indoor);

8. Service station;

9. Car wash as an accessory to a service station only;

10. Public facility or use;

11. Civic, institutional or cultural facility [including but not limited to enclosed assembly area, day care centers, schools (public or private), kindergarten through 12 grade, congregate living facilities].

12. School (public or private), grades kindergarten through 12;

13. School (technical or vocational);

14. Day care center;

15. Single-family dwellings (attached and detached; minimum density of 8 du/ac);

16. Townhouse dwellings;

17. Multiple-family dwellings;

18. Recreation amusement facility;

19. Park or playground, or other public recreation or cultural facility (including but not limited to: Open space devoted to the conservation and maintenance of natural waterways, vegetation, and wildlife; Hiking and/or bicycle trails; Nature study areas and boardwalks; Picnic areas);

20. A single structure containing at least two complementary, integrated, or mutually supporting uses (such as housing, offices, retail, public service or entertainment). The structure must achieve physical and functional integration within itself. All permitted uses, including residential uses, shall be permitted within any floor of a multi-floor building, provided residential dwellings are not permitted on the ground floor of mixed-use structures.

21. Temporary sales trailers located upon the parcel for which sales activities are to be conducted.

22. Temporary outdoor sales and special events, including but not limited to, arts and craft shows, farmer's markets, circuses, carnivals, holiday festivals, and cultural festivals. Such events shall be conducted in accordance with Section 158.225, City of Port St. Lucie Code of Ordinances. Events requiring closure of a public right-of-way shall be conducted in accordance with Chapter 99, City of Port St. Lucie Code of Ordinances.

(C) Special Exception Uses. The following uses may be permitted only following the review and specific approval thereof by the City Council:

Wireless communication antennas and towers with a maximum height of 200 feet, provided all other criteria as set forth in Section 158.213, City of Port St. Lucie Zoning Ordinances.

(D) Accessory Uses. As set forth in Section 6 hereof.

(E) Minimum and Maximum Lot Requirements and Residential Density.

a. Residential: As set forth in Section 1(E) hereof provided the minimum density shall be eight (8) dwelling units per net developable acre and the maximum density shall be twenty (20) dwelling units per net developable acre.

b. Non-residential: A minimum of twenty thousand (20,000) square feet and a minimum width of one hundred (100) feet.

(F) Maximum Building Coverage. Eighty (80) percent provided that the maximum impervious surface does not exceed ninety (90) percent.

(G) Minimum Open Space. Ten (10) percent. Within open space areas include a minimum of 5% useable open space in the form of squares, greens, parks, recreation areas and/ or conservation areas.

(H) Maximum Building Height. Fifty (50) feet, provided that steeples and similar architectural embellishments shall have a maximum height of one hundred (100) feet and residential only uses shall be limited to thirty-five (35) feet.

(I) Minimum Building Size and Minimum Living Area

a. Residential: As set forth in Section I(H) hereof.

b. Non-residential: Minimum total gross floor area of one thousand two hundred (1,200) square feet.

(J) Setback Requirements and Buffering.

1. Setback for single-family and townhouse uses. See Section 1(I)(l) and (2).

2. Setback for multiple-family and non-residential uses. In order to provide for a pedestrian oriented streetscape design, all setback requirements shall be established for each specific use as part of the site plan review process.

3. Buffering. All mechanical equipment shall be screened from property zoned residential. This screening shall be designed as both a visual barrier and a noise barrier. Buffering shall be provided in accordance with the landscaping requirements of Chapter 154, City of Port St. Lucie Zoning Ordinances, except that buffer walls shall not be required between residential and non-residential uses within the neighborhood /village commercial area.

(K) Off-Street Parking and Service Requirements. As set forth in Section 7 hereof.

(L) Site Plan Review. Prior to approval of site plans for nonresidential development in the Town Center area, a conceptual plan meeting the criteria set forth above and those criteria contained in the NCD Land Use Design Policies of the City of Port St. Lucie's Comprehensive Plan. Conceptual Plans shall be submitted for review and approved by the Planning and Zoning Director or the City's Site Plan Review Committee. Conceptual plans shall include adequate information to determine compliance with the required designed standards set forth above, including but not limited to proximity to shops and services, lot sizes and setbacks, and minimum open space.

Residential uses within the Town Center area shall submit a conceptual plan meeting the criteria set forth above for review and approval by the Planning and Zoning Director or the City's Site Plan Review Committee prior to approval of subdivision plats. Conceptual plans shall include adequate information to determine compliance with the required designed standards set forth above, including but not limited to proximity to shops and services, lot sizes and setbacks, and minimum open space.

Section 4. Mixed Use Areas

(A) Purpose. The purpose of mixed use areas shall be to locate and establish areas within the NCD District which are deemed to be uniquely suited for the development and maintenance of a mixture of uses, said areas to be primarily along established highways where a mixed pattern of housing, big box retail, corporate office and large institutional uses are to be substantially established; to designate those uses and services deemed appropriate and proper for location and development standards and provisions as are appropriate to ensure proper development and functioning of uses. Mixed use areas shall be designed with a minimum size of thirty (30) acres and a maximum of three hundred (300) acres, to meet the needs of the NCD District and areas beyond. The following standards shall be met in designing mixed use areas:

(B) Permitted Principal Uses and Structures. A minimum of three (3) of the following principal uses and structures shall be contained within the mixed use area, provided a minimum of thirty (30) percent and a maximum of seventy (70) percent of the net developable area within a mixed use area shall be residential:

1. Any retail, business, or personal service use (including repair of personal articles, furniture, and household appliances) conducted wholly within an enclosed building, where repair, processing or fabrication of products is clearly incidental to and restricted to on-premises sales;

2. Office for administrative, business, professional or medical use;

3. Bank or savings and loan association;

4. Restaurant, including drive-in service; and/or walk-up window

5. Retail sales of alcoholic beverages for on and off premises consumption;

6. Hotel, motel, inn or bed and breakfast;

7. Theater(indoor);

8. Service station

9. Car wash;

10. Self-storage;

11. Public facility or use;

12. Civic or cultural facility (private); Civic, institutional or cultural facility [including but not limited to enclosed assembly area, day care centers, schools (public or private), kindergarten through 12 grade, congregate living facilities].

13. School (public or private), grades kindergarten through 12;

14. School (technical or vocational);

15. Day care center;

16. Single-family dwellings (attached and detached);

17. Townhouse dwellings;

18. Multiple-family dwellings;

19. Recreation amusement facility;

20. Park or playground, or other public recreation or cultural facility (including but not limited to: Open space devoted to the conservation and maintenance of natural waterways, vegetation, and wildlife ; Hiking and/or bicycle trails; Nature study areas and boardwalks; Picnic areas);

21. A single structure containing at least two complementary, integrated, or mutually supporting uses (such as housing, offices, retail, public service or entertainment). The structure must achieve physical and functional integration within itself. All permitted uses, including residential uses, shall be permitted within any floor of a multi-floor building, provided residential dwellings are not permitted on the ground floor of mixed-use structures. Any retail use in a mixed use project will be located on the ground floor;

22. Temporary sales trailers located upon the parcel for which sales activities are to be conducted;

23. Hospital and other medical facilities;

24. Research uses, including product development and engineering.

25. Temporary outdoor sales and special events, including but not limited to, arts and craft shows, farmer's markets, circuses, carnivals, holiday festivals, and cultural festivals. Such events shall be conducted in accordance with Section 158.225, City of Port St. Lucie Code of Ordinances. Events requiring closure of a public right-of-way shall be conducted in accordance with Chapter 99, City of Port St. Lucie Code of Ordinances.

26. Assisted Living Facilities: and

27. Nursing home.

(C) Special Exception Uses. The following uses may be permitted only following the review and specific approval thereof by the City Council:

Wireless communication antennas and towers with a maximum height of 300 feet, provided all other criteria as set forth in Section 158.213, City of Port St. Lucie Zoning Ordinances.

(D) Accessory Uses. As set forth in Section 6 hereof.

(E) Minimum and Maximum Lot Requirement.

1. Residential: As set forth in Section l(E) hereof.

2. Non-residential: A minimum of twenty thousand (20,000) square feet and a minimum width of one hundred (100) feet.

(F) Maximum Building Coverage. Eighty (80) percent provided that the maximum impervious surface does not exceed ninety (90) percent.

(G) Minimum Open Space. Ten (10) percent. Within open space areas include a minimum of 5% useable open space in the form of squares, greens, parks, recreation areas and/or conservation areas.

(H) Maximum Building Height. One hundred (100) feet provided residential only uses shall be limited to thirty-five (35) feet.

(I) Minimum Building Size and Minimum Living Area

1. Residential: As set forth in Section l(H) hereof.

2. Non-residential: Minimum total gross floor area of one thousand two hundred (1,200) square feet. For Quick Service Restaurant with Drive-through, Walk Up service and no indoor seating, a minimum gross floor area of three hundred (300) square feet shall be permitted.

(J) Setback Requirements and Buffering.

1. Setback for single-family and townhouse uses. See Section l(I)(l) and (2).

2. Setback for multiple-family and non-residential uses. In order to provide for a pedestrian oriented streetscape design, all setback requirements shall be established for each specific use as part of the site plan review process.

3. Buffering. All mechanical equipment shall be screened from property zoned residential. This screening shall be designed as both a visual barrier and a noise barrier. Buffering shall be provided in accordance with Chapter 154, City of Port St. Lucie Zoning Ordinances except that buffer walls shall not be required between residential and non-residential uses within the mixed use area.

(K) Off-Street Parking and Service Requirements. As set forth in Section 7 hereof.

(L) Site Plan Review. Prior to approval of site plans for nonresidential development in the Mixed Use area, a conceptual plan meeting the criteria set forth above and those criteria contained in the NCD Land Use Design Policies of the City of Port St. Lucie's Comprehensive Plan. Conceptual plans shall be submitted for review and approved by the Planning and Zoning Director or the City's Site Plan Review Committee. Conceptual plans shall include adequate information to determine compliance with the required designed standards set forth above, including but not limited to mix of uses, lot sizes and setbacks, and minimum open space.

Residential uses within the Mixed Use area shall submit a conceptual plan meeting the criteria set forth above for review and approval by the Planning and Zoning Director or the City's Site Plan Review Committee prior to approval of subdivision plats. Conceptual plans shall include adequate information to determine compliance with the required designed standards set forth above, including but not limited to proximity to shops and services, lot sizes and setbacks, and minimum open space.

Section 5. Resort Areas. (Reserved) Section

6. Accessory Uses and Structures.

(A) General Provisions. Accessory structures and uses are permitted in connection with any principal lawfully existing permitted use, provided that all accessory structures or uses are in full compliance with all setback, height, building coverage and other requirements, or as restricted in the Homeowners Association documents. In no case shall accessory uses, either separately or in combination, exceed more than twenty (20) percent of the total floor area of the principal building or ground area of any lot, whichever is more restrictive unless as otherwise noted for specific uses under section B as follows. Accessory uses are not considered a part of building coverage standards. Detached garages and storage buildings are also subject to size and design standards as listed in subsection (B)(2)h and (B)(2)i.

(B) Accessory Uses in Residential Areas.

Accessory uses or structures shall not be located in that area extending from the front building line to the front property line unless otherwise specifically provided below. Accessory uses or structures shall be located a minimum of five (5) feet from the rear property line, except where lakes or open space are adjacent to the rear property line the setback may be reduced to two (2) feet. The minimum setback from side property lines shall be three (3) feet, provided ten (10) feet shall be provided adjacent to a right-of- way and five (5) feet shall be provided adjacent to an alley and accept where units share a common side property line where then will be be no side setback. The minimum setback for accessory uses from side and rear property lines adjacent to non-gated collector or arterial roads shall be twenty (20) feet.

1) The following accessory uses are allowed in the residential areas, all other accessory uses are prohibited, or as restricted in the Homeowners Association documents.

a. Customary yard structures such as communication antennas (excluding commercial transmission towers), children's playground equipment, and other similar equipment.

b. Swimming pools and related decks, patios and screen enclosures. Maximum size based on allowable setbacks.

c. A basketball backboard and goal may be located in that area extending from the front building line and on driveways as long as they are portable and a minimum of two (2) feet off the edge of the pavement and not on a collector or arterial road.

d. Garden structures, including gazebos, pergolas, separate roofed patios, and well houses.

e. Hot tubs, saunas, free standing cabanas and bath houses, and other similar recreational structures.

f. Fences or screening walls meeting the requirements of Section 158.216 (A) & (B) per the City of Port St. Lucie Zoning Ordinances. Fences and walls may be located in that area extending from the front building line to front property line. Fences are only required to meet the requirements of Section 158.216 (A), (B), (F) & (G). Section 158.216 (C), (D), (E) (H), (I) through (J) are not required to be met and do not apply.

g. Garages. Maximum size = 900 square feet for detached or attached garages and limited in height so that it is not higher than the principal building's roofline. These uses conform in appearance, materials and design to the principal structure (house) if over 300 square feet in size. Only one garage per lot is permitted.

h. Solar collection systems, windmills, and other energy devices based on renewable resources.

i. Outdoor fireplaces, outdoor kitchens, and barbecue pits.

j. Doghouse with a size not to exceed four (4) feet in height by four (4) feet in depth by six (6) feet wide.

k. Noncommercial greenhouses.

l. Dish antennas provided the meet the above and following requirements:

1. Only one (1) dish antenna per residence shall be permitted;

2. Dish antennas shall not exceed eighteen (18) inches in diameter, nor shall the dish in any position exceed a height of fifteen (15) feet.

m. Recreational accessory uses shall be construed to include incidental retail uses such as cafeterias, gift or variety shops, soda bars, and similar use activities conducted solely for the convenience of patrons or visitors.

(C) Accessory Uses in Non-Residential Areas.

Accessory uses or structures shall not be located in th area extending from the front building line to the front property line, unless otherwise specifically provided. Accessory uses or structures shall be located a minimum of ten (10) feet from the rear property line. The minimum setback from side property lines shall be those set forth in Section l

(D) Storage of a Commercial Vehicle or Equipment in a Residential District. Storage of a commercial vehicle or equipment in a residential area is prohibited; unless any vehicle or equipment is placed within a fully enclosed building or structure.

(E) Major Recreation Equipment. Major recreation equipment is hereby defined as including boats and boat trailers, recreational vehicles, motorized dwelling, houseboats and the like. Storage of major recreation equipment in a residential area is prohibited; unless any vehicle or equipment is placed within a fully enclosed building or structure.

(F) Home Occupation. A home occupation as defined herein shall be permitted within residential areas, subject to the following provisions:

1. The holder of the home occupation may have employees engaged in the business provided said employees, except those who reside in the home do not report to or for work at the site of the home occupation.

2. The home occupation shall use no more than two hundred (200) square feet of total floor area of a primary structure, or as provided for in Sec. 6(B)(2)(e).

3. The use of the dwelling for the home occupation shall be clearly incidental and secondary to its use for dwelling purposes. The occupation shall not change the character of the dwelling or reveal from the exterior that the dwelling is being utilized for use other than dwelling purposes. There shall be no display of stock for sale or trade located upon the premises, and no article shall be sold or offered for sale except

such as may be produced on the premises or is utilized in conjunction with the home occupation. The manufacturing of a product for resale shall not be produced with mechanical or electrical equipment which is not normally found in a dwelling and considered as purely a domestic implement.

4. Any use of a dwelling contrary to these provisions or which creates or may create objectionable noises, fumes, odors, dust, electrical interference, or greater than normal residential traffic shall be expressly prohibited.

Section 7. Street, Parking and Pedestrian Requirements

(A) Public Street Requirements. Pursuant to Section 3d of that portion of the Second Capacity Agreement, Tradition Parkway from I-95 to Village Parkway together with that portion of Village Parkway from Tradition Parkway to the north property line will be dedicated to the City of Port St. Lucie. All landscaping shall meet the sight distance and clear zone requirements of FDOT. Arterial, collector and minor collector roads allowing access within the Tradition MPUD as shown on Exhibits shall be designated in accordance with the following minimum criteria.

1. Arterials. Arterial roads shall have a minimum right-of-way width of one hundred thirty (130) feet with ten (10) foot utility easements on each side.

    a. Sidewalks. Arterial roads shall have a five (5) foot minimum sidewalk on both sides if bike lanes are provided in each direction of travel or an eight (8) foot minimum sidewalk on both sides without bike lanes.

2. Major Collector. Collector roads shall have a minimum right-of-way width of one hundred (100) feet.

    a. Sidewalks. Collector roads shall have an eight (8) foot minimum sidewalk on one side with bike lanes.

3. Minor Collector. Minor Collector roads shall have a minimum right-of-way width of eighty (80) feet.

    a. Sidewalks. Minor Collector roads shall have one five (5) foot sidewalk if there are bike lanes in the roadway or one eight (8) foot sidewalk if there are no bike lanes.

4. Intersections.

    a. The minimum intersection radii of pavement or cartway edge, or back of curb, where used, at all typical intersections approximately at right angle shall be a minimum of ten (10) feet to allow for improved pedestrian circulation in neo- traditional neighborhoods and Town Center areas that have been previously approved by St. Lucie County. A minimum radius of twenty-two (22) feet shall be used in additional neo-traditional neighborhoods and town centers approved by the City of Port St. Lucie. All other areas shall have a minimum radius of twenty-five (25) feet.

5. Cul-de-sacs. Permanent dead-end streets shall not exceed one thousand two hundred (1,200) feet in length as measured from the nearest intersecting street. Hammerhead cul-de-sacs shall be permitted provided that the hammerhead spurs shall not exceed one hundred fifty (150) feet in length from the centerline of the intersecting street.

6. Bus Shelters. Bus shelters shall be located in neighborhoods where appropriate and as recommended by the School District, transit authority or other public agency with appropriate pull offs. Locations of bus shelters are subject to the review and approval of the city.

(B) Private Street Requirements. Collector and local roads within neighborhoods which are not dedicated for public access shall be designed in accordance with the following minimum criteria.

1) Typical right-of-way cross-sections for collector and local roads within gated neighborhoods shall be included as part of the conceptual plan prior to subdivision plat approval.

a. Sidewalks. Collector and local roads within gated neighborhoods shall have a five (5) foot minimum sidewalk on one side.

b. Cul-de-sacs. Permanent dead-end streets shall not exceed one thousand two hundred (1,200) feet in length as measured from the nearest intersecting street. Hammerhead cul-de-sacs shall be permitted provided that the hammerhead spurs shall not exceed 150' in length from the centerline of the intersecting street.

(C) Parking Requirements. Each building, use, or structure shall be provided with on-street and/or off-street parking and service facilities in accordance with the provisions set forth herein, to the extent a building, use or structure is not identified below, on-street and/or off-street parking and service facilities shall be in accordance with the provisions set forth on Chapter 158, City of Port St. Lucie Zoning Ordinances. On- street parking spaces (min. dimensions 8'x20' for areas previously approved by St. Lucie County; min. dimensions 9'x20' for all other areas except the collector roads where spaces shall be 10'x20') directly and fully adjacent to a site and available to a development shall be counted toward the maximum. On-street parking (min. dimension 10'x20') may be permitted on collector roads and on local roads subject to site plan review. On-street parking shall not be permitted on arterial roads.

1) Retail and Office: 4 spaces per 1,000 sq. ft.

2) Medical Office:4 spaces per 1,000 sq. ft. (Hospital parking to be reviewed at the time of site plan review).

3) Mixed-use including restaurants: to be reviewed based on individual use of proposed mix of use at the time of site plan review.

4) Residential: 1.5 spaces per dwelling unit.

5) Parks and Recreation:

a. Private Facilities: No parking required provided adequate pedestrian access exists within the area intended to be served by the facility.

b. Public Facilities: All parking requirements shall be established for each specific use as part of the site plan review process.

6) Restaurant (stand-alone): 1 space per 100 sq. ft.

7) Senior Living Units: Independent units (attached and detached) 1 space per unit. All other units (rooms) shall provide a half space (.5) per unit plus 1 space per employee per shift.

8) Nursing Home: One half (0.5) space per unit (room) plus one (1) space per employee per shift.

9) Parcels 17 and 17A shall provide 1.75 spaces for each multi-family residential unit and one guest parking space for every five (5) units. Multi-family dwelling units with garage spaces may include the garage spaces as required parking spaces.

(D) Shared or joint use of parking facilities between and among uses is authorized in Town Center and Mixed Use areas when:

1. There is a relationship among the land uses utilizing shared parking that will attract drivers to two or more uses in a single trip; and,

2. There is adequate linkage between the parking and each of the uses sharing the parking; and,

3. The applicant has submitted a properly drawn legal instrument executed by the parties concerned showing agreement to such joint use and specifying the duration of the agreement.

4. Use of ULI's Shared Parking or comparable analysis is encouraged.

(E) Parking areas shall be encouraged to be located to the rear or side of the property.

(F) Parking lot landscaping shall be in accordance with Chapter 154, City of Port St. Lucie Zoning Ordinances except that ten (10) foot parking islands shall be required to break up rows in groups of twelve (12) contiguous spaces.

(G) Parking decks where proposed shall be designed with internal ramping not visible from the street and access should not be off of major streets. Parking deck interiors shall be screened from view adjacent to roadways and residential areas by use of landscape screening grates, parapet walls or architectural facade treatment.

(H) Pedestrian Access.

1. An on-site pedestrian circulation system which links the street and the primary entrance(s) of the structure(s) on the site shall be provided with each conceptual plan or site plan. Sidewalks or pedestrian ways must connect the required pedestrian system to existing pedestrian systems on adjacent developments if adequate safety and security can be maintained. Convenient pedestrian access to transit stops shall be provided.

2. The circulation system must be hard-surfaced, ADA acceptable, and be at least 5 feet wide.

3. Where the system crosses driveways, parking areas, and loading areas, it must be clearly identifiable, through the use of elevation changes, speed bumps, a different paving material, or other similar method.

4. Lighting for parking lots and pedestrian ways shall be provided to ensure public safety. Lighting shall be integrated into the architectural character both in terms of illumination and fixtures. Lighting shall not produce glare or negatively impact off-site uses or traffic on adjacent streets.

Section 8. Landscaping

(A) Plant Materials

1. Tree species height, spread and minimum clear trunk and shrub heights shall meet or exceed the minimum specified by the USDA's Grades and Standards for Nursery Stock, current edition. Each tree in a grouping shall be counted separately.

2. Tree species shall be a minimum of fourteen (14) feet overall height when planted with a minimum four (4) foot spread and two (2) inch caliper DBH in accordance with the USDA's Grades and Standards for Nursery Stock, current edition.

3. Existing plant material used to meet the intent of this section and Chapter 154, City of Port St. Lucie Ordinance, will not have to be of a quality comparable to Florida No. 1 since this material was not nursery grown.

4. No more than 80% of the required trees may be palm trees.

5. A minimum of 25% of all required trees shall be native species.

6. Landscaping shall meet the city's requirements for xeriscape.

(B) Easement and Utility Area Landscaping. Trees and all vegetation with intrusive root systems shall not be planted within ten (10) feet of any utilities; including water and sewer lines, existing utility pole, guy wires and pad mounted transformer. No protective barriers will be required. All proposed utilities shall maintain separation distances from potable water mains as required by city and FDEP.

(C) Site Perimeter Landscaping

(1) Development Located Adjacent to a Right of Way or to Another Property. One tree shall be provided for each 30 linear feet of right of way or abutting property or fractional part thereof. Shrub spacing shall be based on the growth characteristics of the species and

may exceed 24 inches on center.

(D) Landscape Buffer Strips

1. No wall shall be required adjacent to open space land and senior living campuses. No wall shall be required where a wall is already provided by the adjacent property. Senior living campuses are not required to provide a wall adjacent to single family development. One tree shall be planted for each 30 linear feet of the landscape buffer strip or fractional part thereof. Shrub spacing shall be based on the growth characteristics of the species and may exceed 24 inches on center.

(E) Parking Lot Landscaping. Parking lot landscaping shall be in accordance with Chapter 154 , City of Port St. Lucie Land Development Regulations, except for those items specified below.

(1) To facilitate the integration of uses within Neighborhood /Village Centers, Town Centers, and Mixed Use areas, perimeter landscape buffers may be a minimum of five (5) feet between adjacent parcels where parking areas are interconnected, provided an area equal to a ten (10) foot buffer is provided elsewhere on site.

(F) Landscape Strip Between Buildings and Vehicular Use Areas and Around Building Facades. In the Neighborhood /Village Centers, Town Centers and Mixed Use areas, where the design intent is to bring the buildings closer to the street, a landscape strip shall not be required between buildings and vehicular use areas and around building facades. Street trees will be provided pursuant to the City's Subdivision Regulations.

(G) Residential Landscaping. The number of trees to be provided per lot shall be as follows:

(1) Lots less than 6,000 sq. ft. shall provide two (2) trees.

(2) Lots from 6,000 to 7,500 sq. ft. shall provide three (3) trees.

(4) Lots over 7,500 sq. ft. shall provide four (4)trees.

EXHIBIT 7

DESCRIPTION: TRADITION

A PARCEL OF LAND BEING ALL OF SECTION 9 AND A PORTION OF SECTIONS 4, 5, 6, 7, 8, 10, 15, 16, 17 AND 18, TOWNSHIP 37 SOUTH, RANGE 39 EAST, A PORTION OF SECTION 33, TOWNSHIP 36 SOUTH, RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA AND ALL OF TRADITION PLAT NO. 2, RECORDED IN PLAT BOOK 42, PAGES 3, 3A THRU 3D, ALL OF TRADITION PLAT NO. 3, RECORDED IN PLAT BOOK 43, PAGES 4, 4A AND 4B, ALL OF TRADITION PLAT NO. 4, RECORDED IN PLAT BOOK 43, PAGES 5 AND 5A, ALL OF TRADITION PLAT NO. 5, RECORDED IN PLAT BOOK 42, PAGES 4, 4A THRU 4I, ALL OF TRADITION PLAT NO. 6, RECORDED IN PLAT BOOK 42, PAGES 5, 5A THRU 5F, ALL OF TRADITION PLAT NO. 7, RECORDED IN PLAT BOOK 44, PAGES 7 AND 7A, ALL OF TRADITION PLAT NO. 9, RECORDED IN PLAT BOOK 44, PAGES 2, 2A AND 2B, ALL OF TRADITION PLAT NO. 10, RECORDED IN PLAT BOOK 43, PAGES 19, 19A THRU 19C, ALL OF TRADITION PLAT NO. 12, RECORDED IN PLAT BOOK 44, PAGES 3, 3A THRU 3D, ALL OF TRADITION PLAT NO. 13, RECORDED IN PLAT BOOK 43, PAGES 20 AND 20A, ALL OF TRADITION PLAT NO. 16, RECORDED IN PLAT BOOK 44, PAGES 12, 12A THRU 12J AND ALL OF TRADITION PLAT NO. 17, RECORDED IN PLAT BOOK 43, PAGES 22, 22A THRU 22F, ALL RECORDED IN THE PUBLIC RECORDS OF SAID ST. LUCIE COUNTY, FLORIDA AND BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGIN AT THE SOUTHEAST CORNER OF THE SAID PLAT OF TRADITION PLAT NO. 6 AND THE WESTERLY LIMITS OF GATLIN BOULEVARD RIGHT-OF-WAY AND THE WESTERLY LIMITS OF THOSE LANDS DESCRIBED IN AN ORDER OF TAKING DATED JULY 24, 1979 AND RECORDED IN OFFICIAL RECORDS BOOK 311, PAGES 2946 THROUGH 2952, INCLUSIVE PUBLIC RECORDS OF SAID ST. LUCIE COUNTY AND AS SHOWN ON THE FLORIDA DEPARTMENT OF TRANSPORTATION RIGHT-OF-WAY MAPS FOR STATE ROAD NO. 9 (I-95), SECTION 94001 – 2412, DATED 06/02/77, WITH LAST REVISION OF 09/11/79; THENCE NORTH 00°01'45" EAST AS A BASIS OF BEARINGS ALONG THE EAST LINE OF SAID PLAT AND SAID WESTERLY LIMITS OF GATLIN BOULEVARD, A DISTANCE OF 200.00 FEET. THENCE TRAVERSING SAID WESTERLY LIMITS OF THOSE LANDS DESCRIBED IN AN ORDER OF TAKING BY THE FOLLOWING TWELVE (12) COURSES;

1. SOUTH 89°58'15" EAST DEPARTING SAID EAST LINE, A DISTANCE OF 262.61 FEET;
2. SOUTH 89°58'15" EAST, A DISTANCE OF 372.63 FEET;
3. NORTH 82°24'53" EAST, A DISTANCE OF 317.56 FEET;
4. NORTH 00°01'45" EAST, A DISTANCE OF 64.09 FEET;
5. NORTH 70°02'50" EAST, A DISTANCE OF 289.50 FEET;
6. NORTH 34°39'50" EAST, A DISTANCE OF 207.78 FEET;
7. NORTH 15°33'28" EAST, A DISTANCE OF 491.49 FEET;
8. NORTH 06°58'16 EAST, A DISTANCE OF 373.49 FEET;
9. NORTH 07°32'07" WEST, A DISTANCE OF 374.37 FEET;
10. NORTH 17°47'19" WEST, A DISTANCE OF 510.88 FEET;
11. NORTH 18°47'19" WEST, A DISTANCE OF 714.03 FEET TO A POINT OF CURVATURE WITH A CURVE CONCAVE TO THE EAST AND HAVING A RADIUS OF 5983.58 FEET;
12. NORTHERLY ALONG THE ARC OF SAID CURVE, THRU A CENTRAL ANGLE OF 23°41'41", AN ARC DISTANCE OF 2474.52 FEET TO A POINT OF NON RADIAL INTERSECTION WITH A LINE (THE RADIUS POINT OF SAID CURVE BEARS SOUTH 85°05'37" EAST FROM THIS POINT), SAID LINE ALSO BEING THE NORTH LINE OF SAID SECTION 10 AND THE

BOUNDARY OF THE PLAT OF PORT ST. LUCIE SECTION 35, RECORDED IN PLAT BOOK 15, PAGES 10, 10A THRU 10P, PUBLIC RECORDS OF SAID ST. LUCIE COUNTY;

THENCE TRAVERSING THE BOUNDARY OF THE SAID PLAT OF PORT ST. LUCIE SECTION 35, THE NORTH LINE OF SAID SECTION 10 AND THE EAST LINE OF SAID SECTION 4 BY THE FOLLOWING THREE (3) COURSES,

1. SOUTH 89°54'10" WEST DEPARTING SAID WESTERLY LIMITS, A DISTANCE OF 1793.84 FEET;
2. NORTH 00°36'27" EAST, A DISTANCE OF 2651.97 FEET;
3. NORTH 00°35'12" EAST, A DISTANCE OF 2833.04 FEET;

THENCE CONTINUE NORTH 00°35'12" EAST DEPARTING SAID BOUNDARY, ALONG THE NORTHERLY PROLONGATION OF THE EAST OF THE NORTHEAST ONE QUARTER OF SAID SECTION 4, A DISTANCE OF 259.15 FEET TO A POINT OF INTERSECTION WITH THE SOUTHERLY LINE OF THE O.L. PEACOCK CANAL AS DESCRIBED BY DRAINAGE AND IRRIGATION EASEMENT IN EXHIBIT "A" AND RECORDED IN OFFICIAL RECORDS BOOK 675, PAGE 1942, PUBLIC RECORDS OF SAID ST. LUCIE COUNTY; THENCE TRAVERSING SAID SOUTHERLY LINE BY THE FOLLOWING FOURTEEN (14) COURSES;

1. CONTINUE NORTH 00°35'12" EAST, A DISTANCE OF 12.29 FEET;
2. SOUTH 66°21'07" WEST, A DISTANCE OF 557.84 FEET;
3. SOUTH 56°25'29" WEST, A DISTANCE OF 121.35 FEET;
4. SOUTH 70°54'29" WEST, A DISTANCE OF 143.67 FEET;
5. SOUTH 85°53'58" WEST, A DISTANCE OF 132.02 FEET;
6. SOUTH 54°34'18" WEST, A DISTANCE OF 298.73 FEET;
7. SOUTH 33°56'01" WEST, A DISTANCE OF 30.15 FEET;
8. SOUTH 56°01'38" WEST, A DISTANCE OF 31.64 FEET;
9. NORTH 50°55'52" WEST, A DISTANCE OF 7.43 FEET;
10. SOUTH 73°43'15" WEST, A DISTANCE OF 14.12 FEET;
11. SOUTH 59°06'39" WEST, A DISTANCE OF 424.13 FEET;
12. SOUTH 65°11'40" WEST, A DISTANCE OF 178.59 FEET;
13. SOUTH 76°04'00" WEST, A DISTANCE OF 1244.50 FEET;
14. SOUTH 74°14'30" WEST, A DISTANCE OF 2525.46 FEET;

THENCE SOUTH 13°31'07" WEST DEPARTING SAID SOUTHERLY LINE, A DISTANCE OF 51.88 FEET TO THE NORTHEAST CORNER OF GROVE 3; THENCE SOUTH 74°03'19" WEST ALONG THE NORTH LINE OF SAID GROVE 3, A DISTANCE OF 5341.55 FEET TO THE NORTHWEST CORNER OF SAID GROVE 3; THENCE NORTH 89°33'50" WEST DEPARTING SAID NORTH LINE, A DISTANCE OF 638.42 FEET TO A POINT OF INTERSECTION WITH THE WEST LINE OF THAT 200.00 FOOT WIDE FLORIDA POWER AND LIGHT COMPANY EASEMENT RECORDED IN OFFICIAL RECORDS BOOK 767, PAGE 2676, PUBLIC RECORDS OF SAID ST. LUCIE COUNTY; THENCE TRAVERSING SAID WEST LINE BY THE FOLLOWING THREE (3) COURSES;

1. SOUTH 14°45'25" EAST, A DISTANCE OF 1501.30 FEET;
2. SOUTH 00°41'50" WEST, A DISTANCE OF 6072.71 FEET;
3. SOUTH 00°08'18" WEST, A DISTANCE OF 316.64 FEET;

THENCE NORTH 31°45'23" EAST DEPARTING SAID WEST LINE, A DISTANCE OF 287.45 FEET; THENCE SOUTH 90°00'00" EAST, A DISTANCE OF 479.11 FEET; THENCE NORTH 25°42'03" EAST, A DISTANCE OF 706.40 FEET; THENCE NORTH 55°58'12" WEST, A DISTANCE OF 41.35 FEET; THENCE NORTH 64°04'09" WEST, A DISTANCE OF 36.99 FEET; THENCE NORTH 34°18'02" WEST, A DISTANCE OF 57.12 FEET; THENCE NORTH 04°58'20" EAST, A DISTANCE OF 32.40 FEET; THENCE NORTH 29°38'11"EAST, A DISTANCE OF 56.90 FEET; THENCE NORTH 55°08'19" EAST, A DISTANCE OF 39.86 FEET; THENCE NORTH 67°58'26" EAST, A DISTANCE OF 76.12 FEET, THENCE NORTH 79°45'14" EAST, A DISTANCE OF 78.71 FEET; THENCE NORTH 86°56'06" EAST, A DISTANCE OF 47.36 FEET, THENCE SOUTH 83°49'59" EAST, A DISTANCE OF 32.61 FEET; THENCE SOUTH 76°45'58" EAST, A DISTANCE OF 32.93 FEET; THENCE SOUTH 58°01'15" EAST, A DISTANCE OF 59.29 FEET; THENCE NORTH 67°14'46" EAST, A DISTANCE OF 365.78 FEET, THENCE NORTH 80°50'57" EAST, A DISTANCE OF 312.09 FEET; THENCE SOUTH 39°35'38" EAST, A DISTANCE OF 373.81 FEET; THENCE SOUTH 62°56'57" WEST, A DISTANCE OF 710.69 FEET; THENCE SOUTH 09°44'53" WEST, A DISTANCE OF 529.29 FEET; THENCE NORTH 89°57'05" EAST, A DISTANCE OF 1118.66 FEET;

THENCE NORTH 35°27'24" EAST, A DISTANCE OF 161.02 FEET TO A POINT OF CURVATURE WITH A CURVE CONCAVE TO THE SOUTH AND HAVING A RADIUS OF 200.00 FEET; THENCE NORTHEASTERLY, EASTERLY AND SOUTHEASTERLY ALONG THE ARC OF SAID CURVE, THRU A CENTRAL ANGLE OF 102°13'07", AN ARC DISTANCE OF 356.81 FEET TO A POINT OF NON RADIAL INTERSECTION WITH A LINE (THE RADIUS POINT OF SAID CURVE BEARS SOUTH 47°40'31" WEST FROM THIS POINT); THENCE SOUTH 00°28'44" WEST ALONG SAID NON RADIAL LINE, A DISTANCE OF 3805.52 FEET TO A POINT OF INTERSECTION WITH THE EASTERLY PROLONGATION OF THE NORTH LINE OF THAT CERTAIN PARCEL OF LAND DESCRIBED BY SPECIAL WARRANTY DEED TO METROPOLITAN LIFE INSURANCE COMPANY RECORDED IN OFFICIAL RECORDS BOOK 477, PAGE 560, PUBLIC RECORDS OF SAID ST. LUCIE COUNTY; THENCE SOUTH 89°50'39" EAST ALONG SAID NORTH LINE, A DISTANCE OF 5976.30 FEET; THENCE NORTH 00°02'54" WEST DEPARTING SAID NORTH LINE, A DISTANCE OF 3277.26 FEET; THENCE NORTH 89°57'06" EAST, A DISTANCE OF 200.00 FEET; THENCE NORTH 00°02'54" WEST, A DISTANCE OF 12.84 FEET TO A POINT OF CURVATURE WITH A CURVE CONCAVE TO THE SOUTHEAST AND HAVING A RADIUS OF 175.00 FEET; THENCE NORTHEASTERLY ALONG THE ARC OF SAID CURVE, THRU A CENTRAL ANGLE OF 54°35'41", AN ARC DISTANCE OF 166.75 FEET TO A POINT OF REVERSE CURVATURE WITH A CURVE CONCAVE TO THE NORTHWEST AND HAVING A RADIUS OF 300.00 FEET, SAID POINT ALSO BEING THE SOUTHERLY BOUNDARY OF THE SAID PLAT OF TRADITION PLAT NO. 6; THENCE TRAVERSING THE SAID SOUTHERLY BOUNDARY BY THE FOLLOWING THREE (3) COURSES,

1. NORTHEASTERLY ALONG THE ARC OF SAID CURVE, THRU A CENTRAL ANGLE OF 19°13'06", AN ARC DISTANCE OF 100.63 FEET TO A POINT OF REVERSE CURVATURE WITH A CURVE CONCAVE TO THE SOUTHEAST AND HAVING A RADIUS OF 175.00 FEET,
2. NORTHEASTERLY ALONG THE ARC OF SAID CURVE, THRU A CENTRAL ANGLE OF 54°37'37", AN ARC DISTANCE OF 166.85 FEET TO A POINT OF TANGENCY WITH A LINE;
3. NORTH 89°57'05" EAST ALONG SAID LINE, A DISTANCE OF 2428.13 FEET TO THE POINT OF BEGINNING.

CONTAINING 3014.818 ACRES, MORE OR LESS

TOGETHER WITH:

A PARCEL OF LAND LYING IN SECTION 17, TOWNSHIP 37 SOUTH, RANGE 39 EAST, ST. LUCIE COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCE AT THE NORTHEAST CORNER OF THE PLAT OF TRADITION PLAT NO. 24, AS RECORDED IN PLAT BOOK 62, PAGE 15, PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA; THENCE TO THE BEGINNING OF A CURVE TO THE LEFT, OF WHICH THE RADIUS POINT LIES SOUTH 27°52'26" EAST, A RADIAL DISTANCE OF 130.00 FEET AND HAVING A CHORD BEARING OF SOUTH 15°46'00" WEST, 188.16 FEET; THENCE SOUTHERLY ALONG THE ARC, THROUGH A CENTRAL ANGLE OF A 92°43'08", A DISTANCE OF 210.37 FEET TO A POINT OF REVERSE CURVE TO THE RIGHT HAVING A RADIUS OF 58.00 FEET AND A CENTRAL ANGLE OF 49°08'12"; THENCE SOUTHERLY ALONG THE ARC, A DISTANCE OF 49.74 FEET; THENCE SOUTH 18°32'38" WEST, A DISTANCE OF 53.26 FEET; THENCE SOUTH 26°27'22" EAST, A DISTANCE OF 35.36 FEET; THENCE SOUTH 18°32'38" WEST, A DISTANCE OF 400.72 FEET TO A POINT OF CURVE TO THE LEFT HAVING A RADIUS OF 590.92 FEET, A CENTRAL ANGLE OF 06°54'10", AND A CHORD BEARING OF SOUTH 15°05'34" WEST, 71.15 FEET; THENCE SOUTHERLY ALONG THE ARC A DISTANCE OF 71.19 FEET; THENCE NORTH 71°27'22" WEST, A DISTANCE OF 42.42 FEET; THENCE SOUTH 54°52'19" WEST, A DISTANCE OF 156.59 FEET TO THE POINT OF BEGINNING OF THE FOLLOWING DESCRIBED PARCEL;

BINDING P.U.D. AGREEMENT

TRADITION

The property, as described on Exhibit "7", is under the unified control of the undersigned petitioner who agrees to (1) proceed with the proposed development according to the provisions of the Port St. Lucie P.U.D. Zoning Regulations; and (2) provide such agreements, contracts, deed restrictions and sureties as are acceptable to the City of Port St. Lucie for the completion of the development in accordance with the plan approved by the City. In addition, the said petitioner shall be responsible for the continuing operations and maintenance of such areas, functions and facilities until such time as a private property owners association, yet to be established, agrees to accept the same responsibilities. Such responsibilities are not to be provided or maintained at public expense. The petitioner further agrees to bind all successors in title to the commitments herein in this paragraph made.

IN WITNESS WHEREOF, we have hereunto set our hands and seals this 22 day of January, 2018.

Tradition MPUD Amendment No. 16
MPUD Amendment Application
P26-026

Project Location Map

S**UMMARY**

Applicant's Request:	A request to amend the Tradition MPUD
Agent:	Brad Currie, AICP, Haley Ward
Applicants/Property Owners:	Winding River Crosstown, LLC
Location:	The subject property is generally located at the southwest corner of Crosstown Parkway and SW Fairgreen Drive.
Address:	N/A
Project Planner:	Bridget Kean, AICP, Deputy Director

Project Description and Background

The Tradition MPUD is approximately 3,038 acres and is located south of the Crosstown Parkway, West of I-95, and North and South of Tradition Parkway. The development plan divides the project into major districts or uses consistent with the NCD future land use sub-district categories. The land use sub-districts/areas with the MPUD are Residential, Mixed Use, Village Center, and Town Center. As shown in Exhibit 5 of the MPUD regulation book, Exhibit 8, the MPUD concept plan, and Exhibit 8B, the MPUD conceptual land use plan, the acreage in the Tradition MPUD is divided into parcels for planning purposes. Each parcel is designated for a certain use such as residential, town center, mixed use, and village center. The proposed amendment addresses the development plan for approximately 9.48 acres of undeveloped land that is located at the southwest corner of Crosstown Parkway and SW Fairgreen Drive and adjacent to the Heritage Oaks residential community.

The subject property was previously Phase C of Heritage Oaks at Tradition. A conceptual site plan was submitted in 2006 for approximately 106 townhome units. The conceptual site plan was approved by the Site Plan Review Committee but the project never moved forward. The property eventually escheated to the County due to unpaid taxes and the County deeded the property to the City. The property was sold to a private entity and purchased by Winding River Crosstown, LLC, in 2025.

Winding River Crosstown, LLC, has applied to amend the use designated for the 9.48 acre property from residential to a Retail/Office use. The 9.48 acre property is currently within the area identified as Parcel 10 in Exhibit 5, of the Tradition MPUD, Exhibit 8, the Tradition MPUD concept plan, and Exhibit 8B, the Tradition MPUD conceptual land use plan. Parcel 10 is designated for residential uses. This application will remove the 9.48 acres from Parcel 10, reclassify the 9.48 acres as Parcel 11A, and designate the use for Parcel 11A as Retail/Office to provide for the property to be developed for commercial and other uses in the future.

Policy 1.1.7.3 of the comprehensive plan does states that the City should encourage commercial and mixed use nodes at or near arterial intersections and utilize urban design standards and techniques to beautify and enhance community appearance along major corridors. The subject property is located at the southwest corner of Crosstown Parkway and SW Fairgreen Road. The property at the southeast corner of this intersection was developed as a Circle K convenience store and gas facility, two retail strip centers and self-storage facility. As noted, the subject property was originally intended to be a future phase of the Heritage Oaks residential community and is separated from the larger Heritage Oaks residential community by two water management tracts to the south. A water management tract also separates the property from residential development to the east. As a condition of approval, the Planning and Zoning Department would recommend a requirement for enhanced landscaping and an architectural wall along the eastern and southern boundaries of the property to buffer the existing residential communities from future commercial/non-residential development.

The proposed amendment is attached as Exhibit A to the staff report with additions shown as <u>underlined</u> and deletions shown as strikethrough.

Previous Actions and Prior Reviews

The Site Plan Review Committee recommended approval of the proposed MPUD amendment at the February 25, 2026 Site Plan Review Committee meeting.

Public Notice Requirements

Notice of the rezoning was mailed to property owners within a maximum of 750 feet of the subject property.

EXISTING ZONING

IMPACTS AND FINDINGS

COMPREHENSIVE PLAN REVIEW

Land Use Consistency: The subject property is located within the Tradition Development of Regional Impact (DRI) and is within an area designated as a Mixed Use sub-district as shown on Map H of the Tradition DRI and Figure 1-3 of the Future Land Use Element. Map H is the master development plan for the Tradition DRI and Figure 1-3 is the conceptual land use plan for the Southern Grove NCD District.

Per Policy 1.2.2.7 of the comprehensive plan, Mixed-Use Areas shall be established that include commercial and office uses, hospital and medical uses, restaurants, theaters, hotels, institutional uses, public facilities (including utilities), light industrial, warehouse/distribution, residential and other similar services designed to meet the needs of the larger area. Each mixed use area must contain a minimum of three or more uses as described above, one of which shall be residential. The minimum three-use requirement shall be identified for each Mixed-Use Area as part of an MPUD master plan. Individual parcels within a Mixed-Use Area may undergo separate site-specific applications for development approvals without individually meeting such multi-use requirement provided the site-specific development application is consistent with the MPUD master plan. A minimum of 30% and a maximum 70% of the net acreage within a Mixed-Use Area shall be residential.

The Tradition MPUD provides for a variety of uses under the Mixed Use Sub-Area including residential. As shown under Exhibit 5 of the MPUD, the Mixed Use Sub-Area of the Tradition MPUD consists of Parcels 4, 5, 7, 8, 10, 11 for a total of 443.73 acres. Parcels 7 and 10 are designated for residential use and make up 47.07% of the mixed use acreage. The removal of 9.48 acres from Parcel 10 reduces the percent of residential acreage in the Mixed Use Area to 44.93%. The 44.93% is still within the thresholds for multi-family development in a Mixed Use Area established under Policy 1.2.2.7.

Policy 1.1.7.3 of the comprehensive plan does state that the City should encourage commercial and mixed use nodes at or near arterial intersections and utilize urban design standards and techniques to beautify and enhance community appearance along major corridors. Given the proximity of the property to the Heritage Oaks residential community, staff does recommend as a condition of this amendment that future development of the property must include the installation of an architectural wall and enhanced landscaping along the eastern and southern boundaries of the property.

STAFF RECOMMENDATION

The Planning and Zoning Department staff finds the request to be consistent with the direction and intent of the future land use map and policies of the City's Comprehensive Plan and recommends approval subject to the following condition of approval:

1. Future development of the property shall include the installation of an architectural wall and enhanced landscaping along the eastern and southern boundaries of the property.

Planning and Zoning Board Action Options:

- Motion to recommend approval to the City Council
- Motion to recommend approval to the City Council with conditions
- Motion to recommend denial to the City Council

Please note: Should the Board need further clarification or information from either the applicant and/or staff, it may exercise the right to *table* or *continue* the hearing or review to a future meeting.

WARRANTY DEED

THIS indenture is made and executed as of the 4th day of June 2025 by **5T WEALTH PARTNERS, LP**, a California limited partnership ("**Grantor**"), whose address is 2055 US HWY 1, Vero Beach, Florida 32960, to **WINDING RIVER CROSSTOWN, LLC**, a Florida limited liability company ("**Grantee**"), whose address is 2170 6th CT SE, Vero Beach, Florida 32962.

WITNESSETH: Grantor, for and in consideration of the sum of TEN DOLLARS and other good and valuable considerations to Grantor in hand paid by Grantee, the receipt whereof is hereby acknowledged, has granted, bargained, and sold to Grantee, and Grantee's heirs and assigns forever, the property described land, situate, lying and being in **ST. LUCIE COUNTY, FLORIDA**, as more particularly described on **Exhibit "A"** attached hereto.

TOGETHER WITH all tenements, hereditaments and appurtenances thereto belonging or in anywise appertaining (collectively, the "**Property**").

TO HAVE AND TO HOLD, the same unto Grantee in fee simple forever.

SUBJECT TO real property taxes for the year of 2025, which became a lien on the land January 1st although not due or payable until November 1st of said year, and all matters of record without the intent to reimpose the same.

AND Grantor hereby covenants with Grantee that it is lawfully seized of the Property in fee simple; that it has good right and lawful authority to sell and convey the Property; that it hereby fully warrants the title to the Property and will defend the same against the lawful claims of all persons whomsoever.

IN WITNESS WHEREOF, this Warranty Deed has been executed effective as of the first date written above.

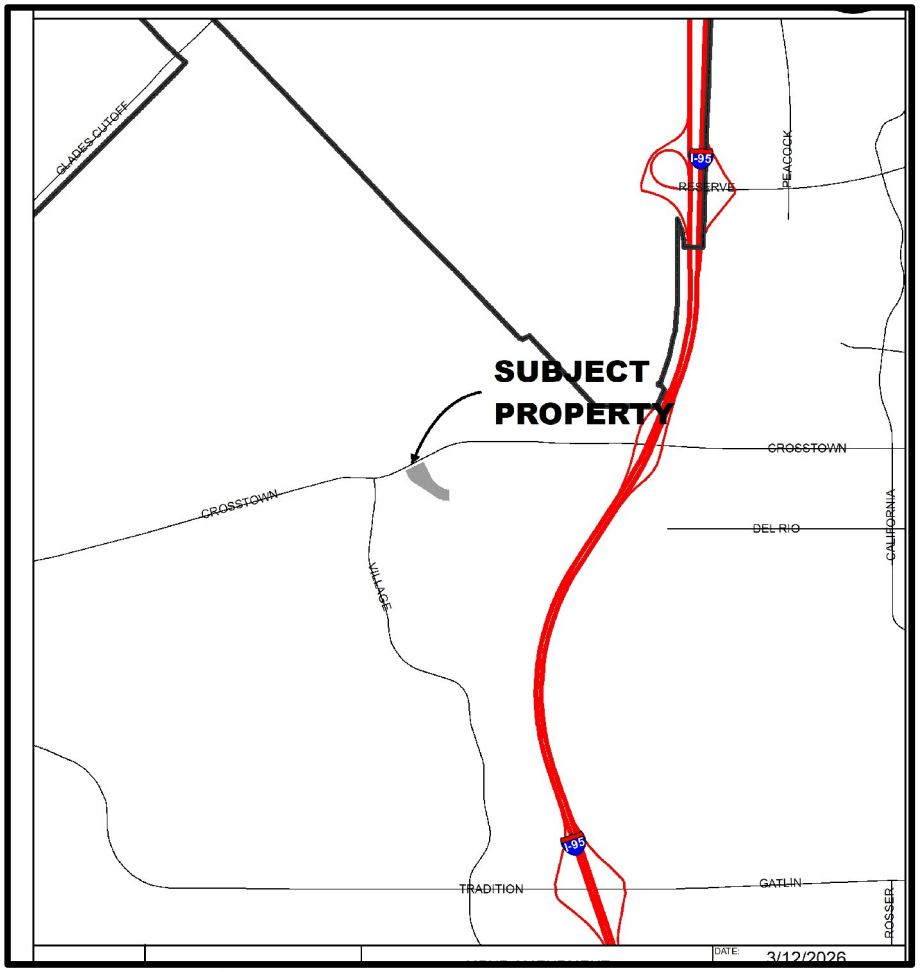
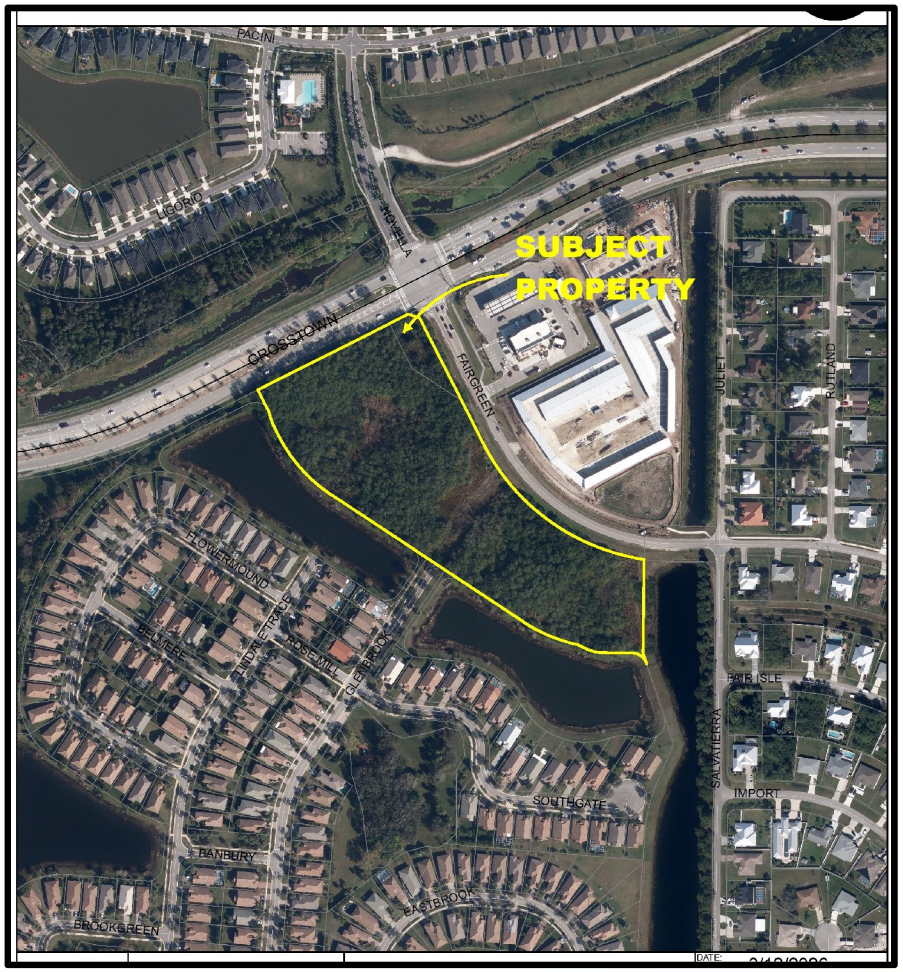
LESS AND EXCEPT that parcel of land described in that certain Special Warranty Deed recorded in Official records Book 2700, Page 109, of the Public Records of St. Lucie County, Florida.

DRAFT

Tradition MPUD Amendment No. 16

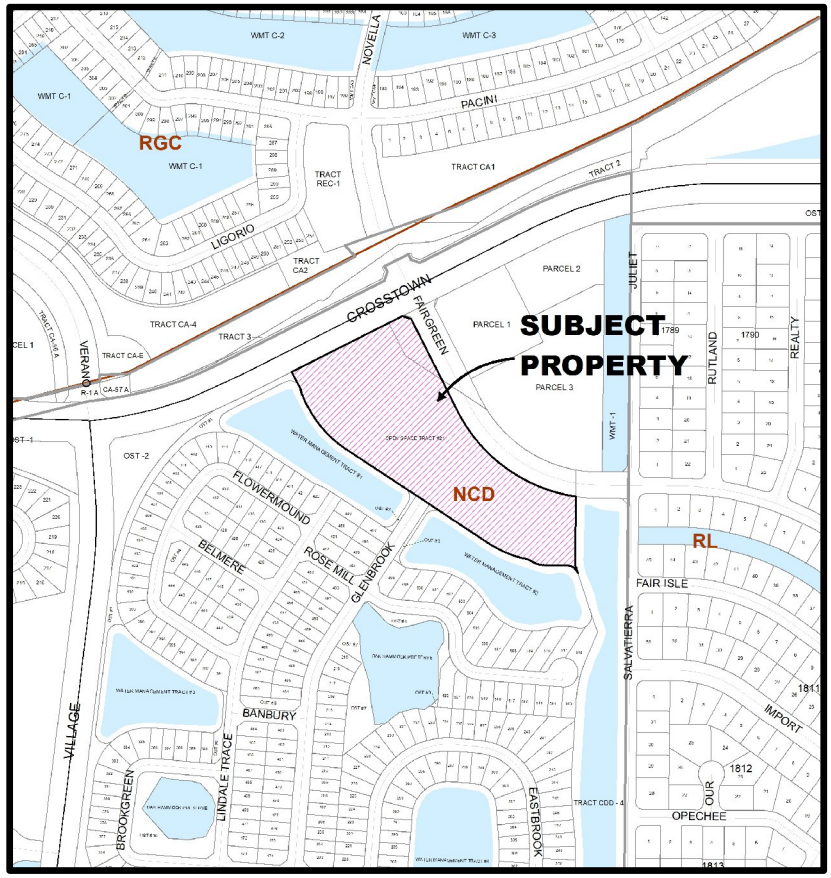


Project No. P26-026

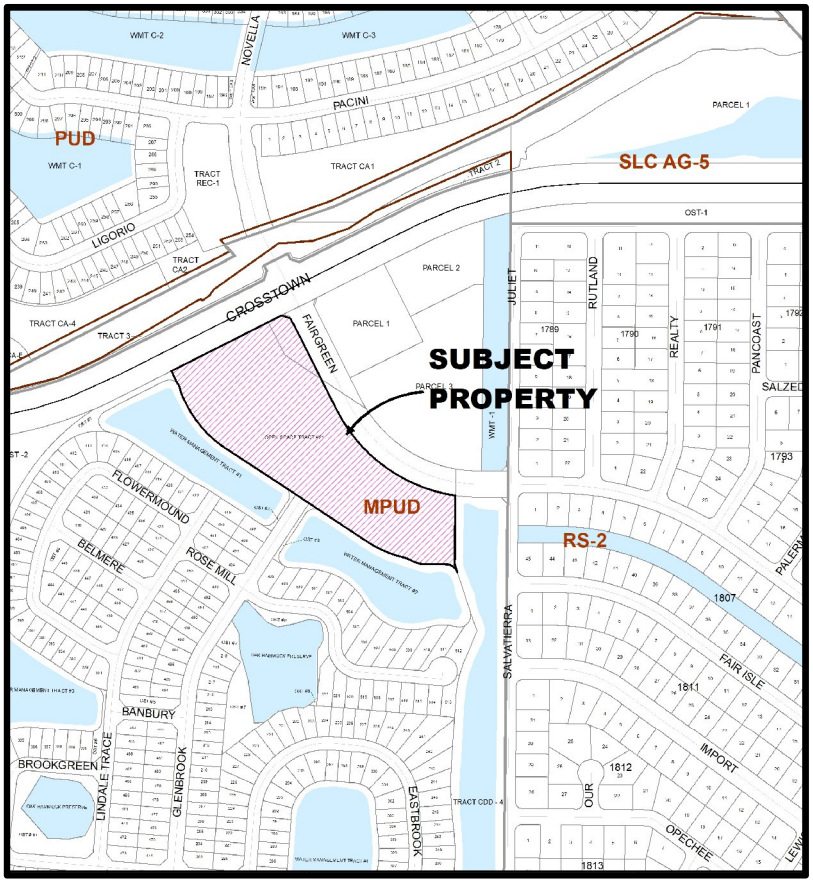


City Council Meeting
May 26, 2026

Request Summary



Owner:	Winding River Crosstown, LLC
Applicant:	Brad Currie, AICP, Haley Ward
Location:	Southwest corner of the intersection at Crosstown Parkway and SW Fairgreen Drive
Request:	A request to amend the Tradition MPUD for 9.48 acres of property.



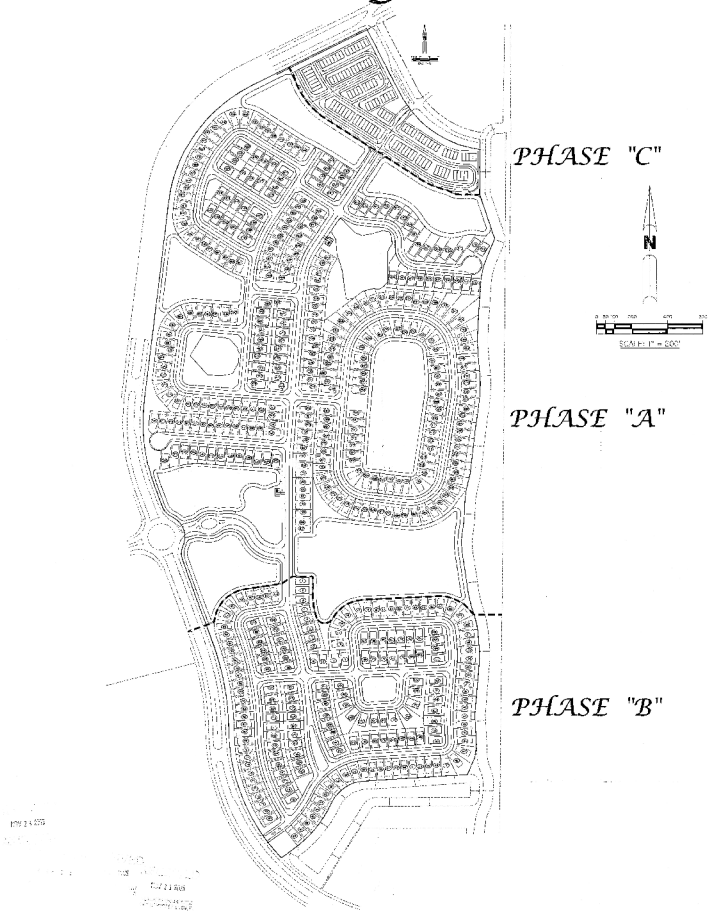
Location and Aerial

Land Use and Zoning

PORT ST. LUCIE
HEART OF THE TREASURE COAST

Surrounding Uses

Direction	Future Land Use	Zoning	Existing Use
North	NCD	MPUD	Convenience store, gas, and self-storage
South	NCD	MPUD	Heritage Oaks residential community
East	RL	RS-2	Single-family residential community
West	RGC	Verano South PUD 1 Pod C	Open space tracts



Project Background

- The Tradition MPUD is approximately 3,038 acres and is located south of the Crosstown Parkway, West of I-95, and North and South of Tradition Parkway.
- The development plan divides the project into major sub-areas - Residential, Mixed Use, Village Center, and Town Center.
- Each sub-area is divided into parcels for planning purposes with each parcel designated for a certain use or combination of uses.

Proposed Project

- The proposed amendment pertains to 9.48 acres of undeveloped land that is located at the southwest corner of Crosstown Parkway and SW Fairgreen Drive.
- The subject property was previously Phase C of Heritage Oaks at Tradition.
- A conceptual site plan for Phase 3 was submitted in 2006 for approximately 106 townhome units.
- No additional applications were submitted and the property has is undeveloped.

HERITAGE OAKS

AT TRADITION

PORT ST. LUCIE
HEART OF THE TREASURE COAST

Proposed Project

- The MPUD currently designates the 9.48 acres for residential use as part of the larger Parcel 10 (Heritage Oaks).
- This application will remove the 9.48 acres from Parcel 10, reclassify the 9.48 acres as Parcel 11A, and designate the use for Parcel 11A as Retail/Office to provide for the property to be developed for commercial and other uses in the future.

Proposed Project

- The non-residential uses permitted in the MPUD for Mixed Use include office use, medical use, banks, restaurant with drive through, retail, service station, car wash, multi-family dwellings, day care, and recreation facility as well as civic and cultural uses.
- To accomplish the change, the application amends Exhibits 5 of the MPUD document, Exhibit 8, the MPUD concept plan, and Exhibit 8B, the conceptual land use plan, to add Parcel 11A and designate it for Retail/Office use.

Land Use Consistency

- The subject property is located within the Tradition DRI and within a designated Mixed Use sub-district as depicted on Map H of the Tradition DRI and Figure 1-3 of the Future Land Use Element.
- Per Policy 1.2.2.7 of the comprehensive plan, Mixed-Use Areas can include commercial and office uses, hospital and medical uses, restaurants, theaters, hotels, institutional uses, public facilities (including utilities), light industrial, warehouse/distribution, residential and other similar services designed to meet the needs of the larger area.
- Each mixed-use area must contain a minimum of three or more uses as described above, one of which shall be residential. A minimum of 30% and a maximum 70% of the net acreage within a Mixed-Use Area shall be residential.

Staff Findings

- The proposed change is consistent with the requirements of Policy 1.2.2.7 for a mixed use area to be between 30% to 70% residential use.
- The mixed use area in the Tradition DRI is currently at 47% residential and this application will reduce it to 44.93% residential.

April 7, 2026 Planning and Zoning Hearing

A public hearing before the Planning and Zoning Board was held on April 7, 2026. Given the proximity of the subject property to residential, staff recommended a condition of approval to require future development of the property to install an architectural wall and enhanced landscaping along the eastern and southern boundaries of the property.

At the April 7 meeting, the Planning and Zoning Board voted to table the item to the May 5, 2026 Planning and Zoning Board hearing due to the Board's request for additional information on traffic.

May 7, 2026 Planning and Zoning Board Hearing

- At the May 5, 2026 Planning and Zoning Boad hearing, the applicant provided a presentation that addressed transportation, supported staff's recommendation for landscape buffer walls along the eastern and southern boundaries of the property, supported the addition of a condition to eliminate any potential access to Heritage Oaks at Glenbrook Drive, and supported the addition of a condition to require site lighting to be shielded and/or oriented to minimize impacts to residential.

Planning and Zoning Board Recommendation

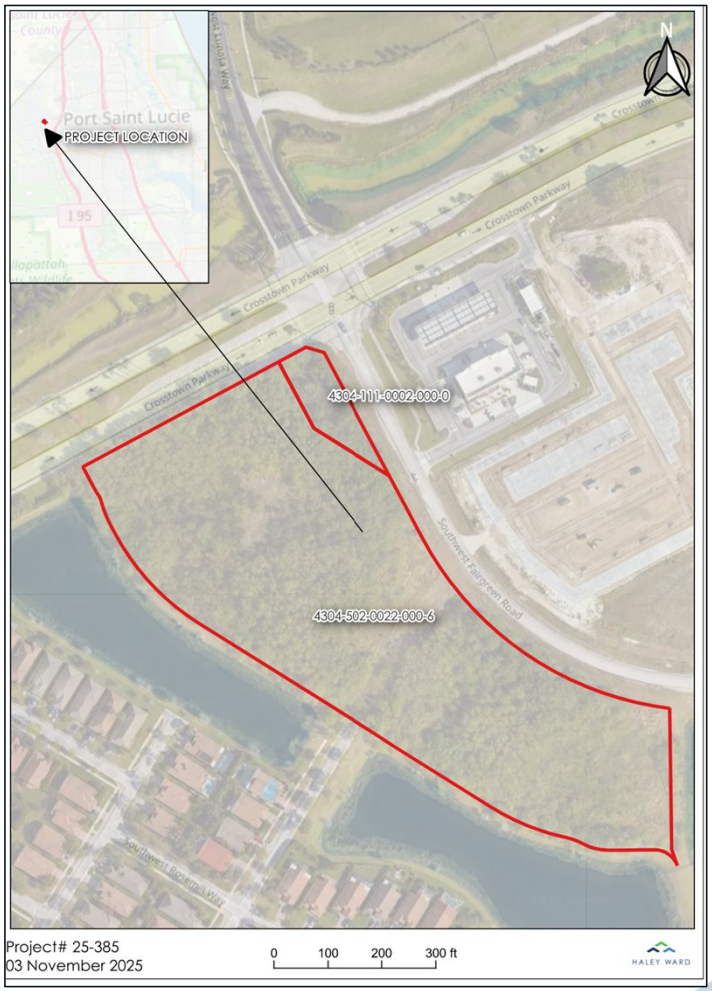
- At the May 5, 2026 Planning and Zoning Board public hearing, the Planning and Zoning Board voted to recommend approval with the following conditions:

Planning and Zoning Board Recommendation

1. Future development of Parcel 11A shall require a minimum ten-foot enhanced landscape buffer strip and architectural wall in accordance with the Landscape Code along the eastern and southern boundaries of the property. The landscape buffer strips shall be located on the inside and outside of the architectural wall. One tree, at least 12 feet in height, shall be provided for each 20 linear feet of the landscape buffer strip, or fractional part thereof, and the wall shall be installed on a one (1) foot berm.
2. All lighting shall be shielded and/or oriented to prevent light spillover. A photometric plan shall be required with each site plan for future development of Parcel 11A.
3. The right-of-way connection to SW Glenbrook Drive shall be eliminated through legal documentation approved by the City Attorney's Office.

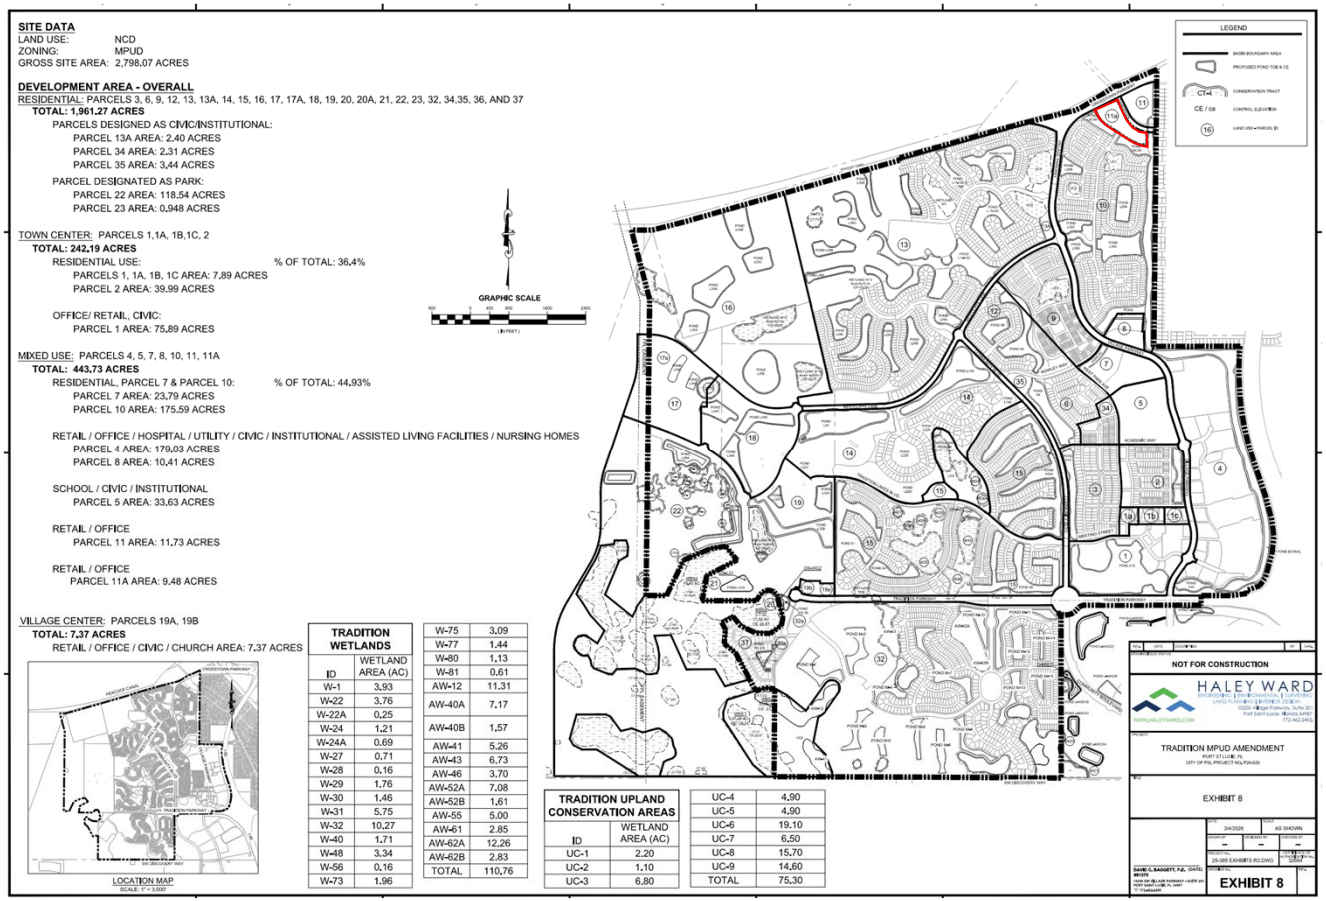
HALEY WARD®

Tradition MPUD Amendment # 16



City Council Meetings

May 26 & June 8, 2026



Amendment No. 16 Request:

- Tradition MPUD Amendment to 9.48 acres of vacant land (two parcels) located south of SW Crosstown Blvd and west of SW Fairgreen Road.
- The parcels current designated use is multi-family residential. Previously proposed for development of 106 units, previously "Phase C" of Heritage Oaks.
- Approval of this amendment would remove the 9.48 acres from "Parcel 10" of the Tradition MPUD and create separate "Parcel 11A".
- The request is to amend the Tradition MPUD and concept plan for two parcels from Residential use to Commercial use.

Site Location:

MPUD Amendment:

HALEY WARD

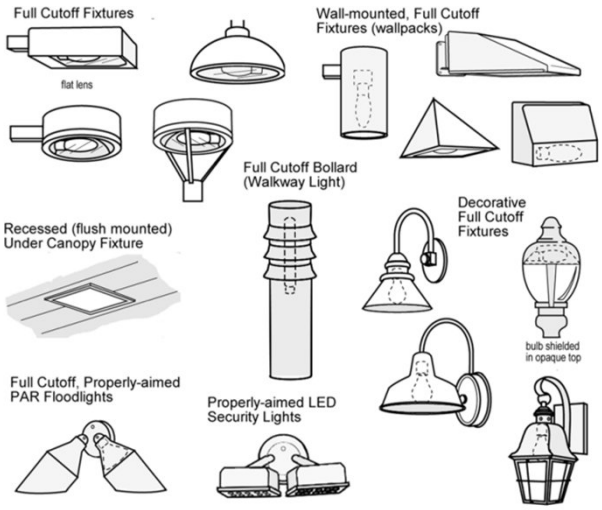
Environmental

- Haley Ward, Inc. conducted an environmental assessment throughout the property to investigate the presence of any plant or animal listed species.
- Found considerable presence of nuisance/exotic vegetation
- No gopher tortoises, nor their burrows or habitat were observed on site at the time of assessment.
- No sandhill cranes or their nests were identified on site at the time of assessment.
- Due to past, man-made disturbances onsite many listed species may not be found due to the lack of suitable foraging and nesting habitat. No other state or federally listed plant/animal species were found on site at the time of assessment.
- Site will be re-assessed for species presence prior to any construction on-site

Schinus terebinthifolia
Brazilian Peppertree



Imperata cylindrica
Cogon Gross

Shielded Site Lighting

- The applicant is in support of a condition site lighting will be shielded and/or oriented to minimize impacts to adjacent residential parcels to the west/south.
- Photometric Plan of proposed lighting will be included at time of site plan submittal(s).

Tradition DRI - Traffic Impact

- In addition to City of PSL code, site development is required to demonstrate consistency with planned traffic generation and level of service on roads within Tradition DRI.
- City Council Workshop in February 2026, recommended improvements at Crosstown and Fairgreen.
- April 13th, 2026, City Council unanimously approved Tradition DRI Amendment (Resolution 25-R12).
- Approval - Increase to allowed commercial space by 79,205 sq ft, a decrease in office space for a total of 353,348 sq ft, and warehouse space is increased by 90,000 sq ft to reflect previous conversion of office space to warehouse space.
- Resolution 25-R12 included a traffic analysis that considers the subject property utilizing a portion of the approved commercial square footage. This was coordinated directly between the applicant/owner and Tradition Master Developer.

- Results - Tradition DRI road network will see a reduction of -5.4% AM Peak Hr Trips, -2.2% PM Peak Hr Trips, and -0.6% total daily trips compared to the approved Tradition DRI

Traffic Impact

- The proposed change in use is being submitted for consistency with the latest Tradition DRI amendment and the associated reduction in trips
- Excerpt – Mackenzie Engineering & Planning, Approved Tradition DRI Amendment Resolution 25-R12

- AM Trip Reduction: 232 trips (-5.4%)
- PM Trip Reduction: 145 trips (-2.2%)
- Daily Trip Reduction: 443 trips (-0.6%)

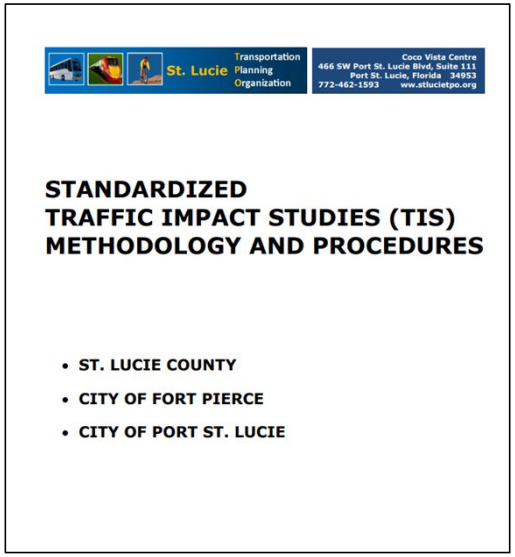
Proposed Intersection Improvements

- Improvements will be made to the intersection of Crosstown Parkway and SW Fairgreen Road by within 6 months of the pre-construction meeting for proposed development on the subject property OR by December 31, 2027 whichever comes first.
- Improvements proposed to improve existing traffic and handle proposed traffic from commercial use on subject property.



- Improvements include:
  - Additional turn lane on Crosstown Parkway
  - Extend the turn lanes on Crosstown Parkway to 400 feet
  - Include an additional receiving lane on SW Fairgreen Road.
  - Dedicated left turn, thru and right turn lane configuration for the northbound Fairgreen Road traffic at Crosstown Parkway

Moving forward with the commercial development anytime before July 2027 will accelerate completion of the intersection improvements.

Traffic Impact – Level of Service

- Per The St. Lucie Transportation Planning Organization (TPO) Standardized Traffic Impact Studies (TIS) Methodology and Procedures an insignificant impact is that which would have less than 5% to adjacent roadways

Data *obtained from latest edition of St. Lucie Transportation Planning Organization (TPO) Traffic Counts and Level of Service Report*

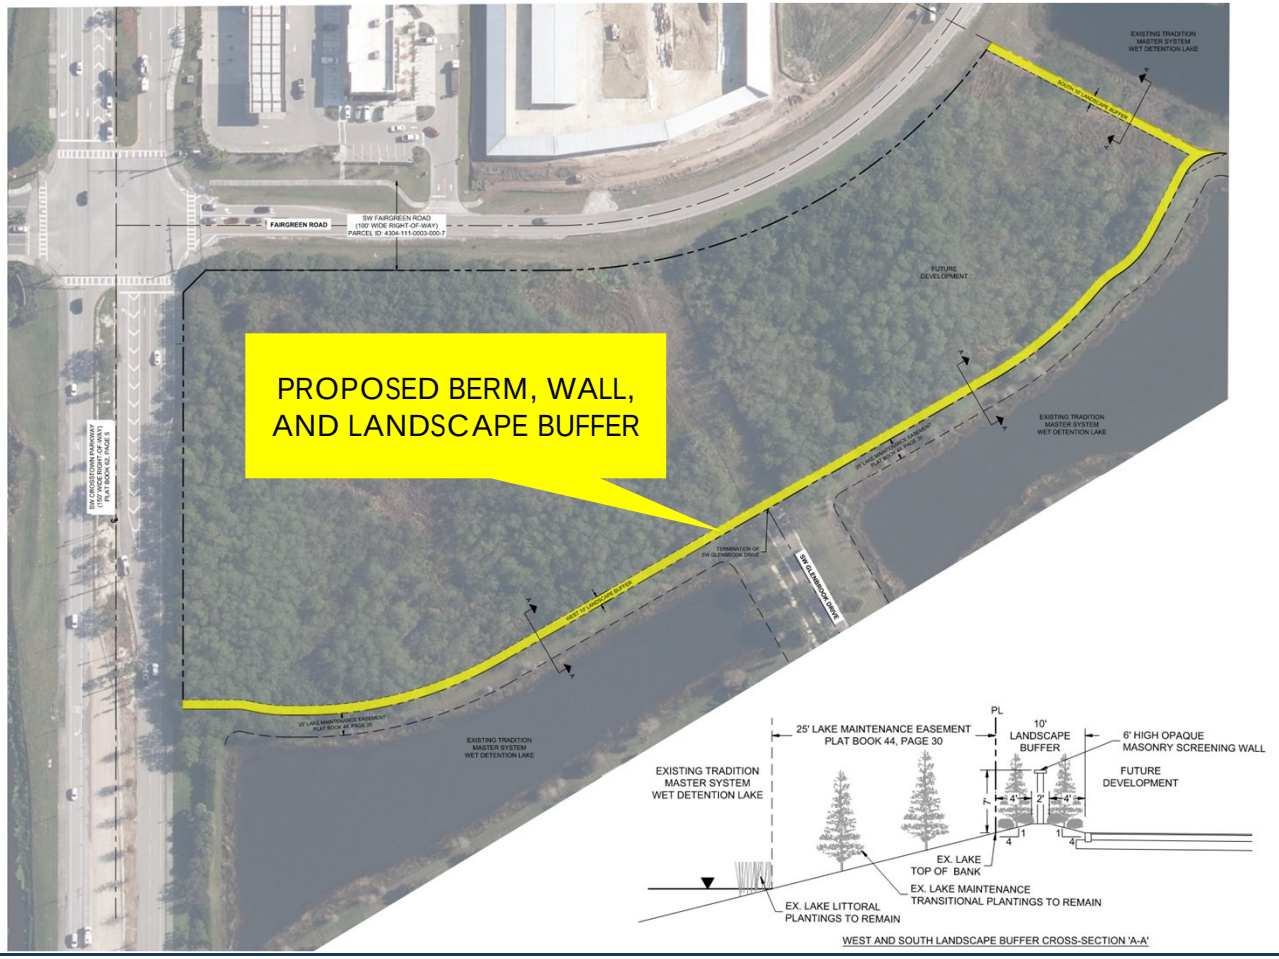
Traffic Impact – Level of Significance

- Existing Allowed Use:
  Multi-Family Residential @ 106 Units
  Peak Hour: 60 Trips
  0.83% Project Significance to Crosstown Parkway
  0.91% Project Significance to Village Parkway
  0.17% Project Significance to Commerce Center Drive
  Near 0% Project Significance to Tradition Parkway
- Conceptual Commercial Use 1:
  Retail (24,500 SF, Strip Plaza)
  Peak Hour: 325 Trips
  4.49% Project Significance to Crosstown Parkway
  4.94% Project Significance to Village Parkway
  0.95% Project Significance to Commerce Center Drive
  Near 0% Project Significance to Tradition Parkway
- Level of Significance Less than 5%, accounting for distribution.

- Data o*btained from latest edition of St. Lucie Transportation Planning Organization Traffic Counts and Level of Service Report, and Institute of Traffic Engineers Trip Generation Manual*

Traffic Impact – Level of Significance

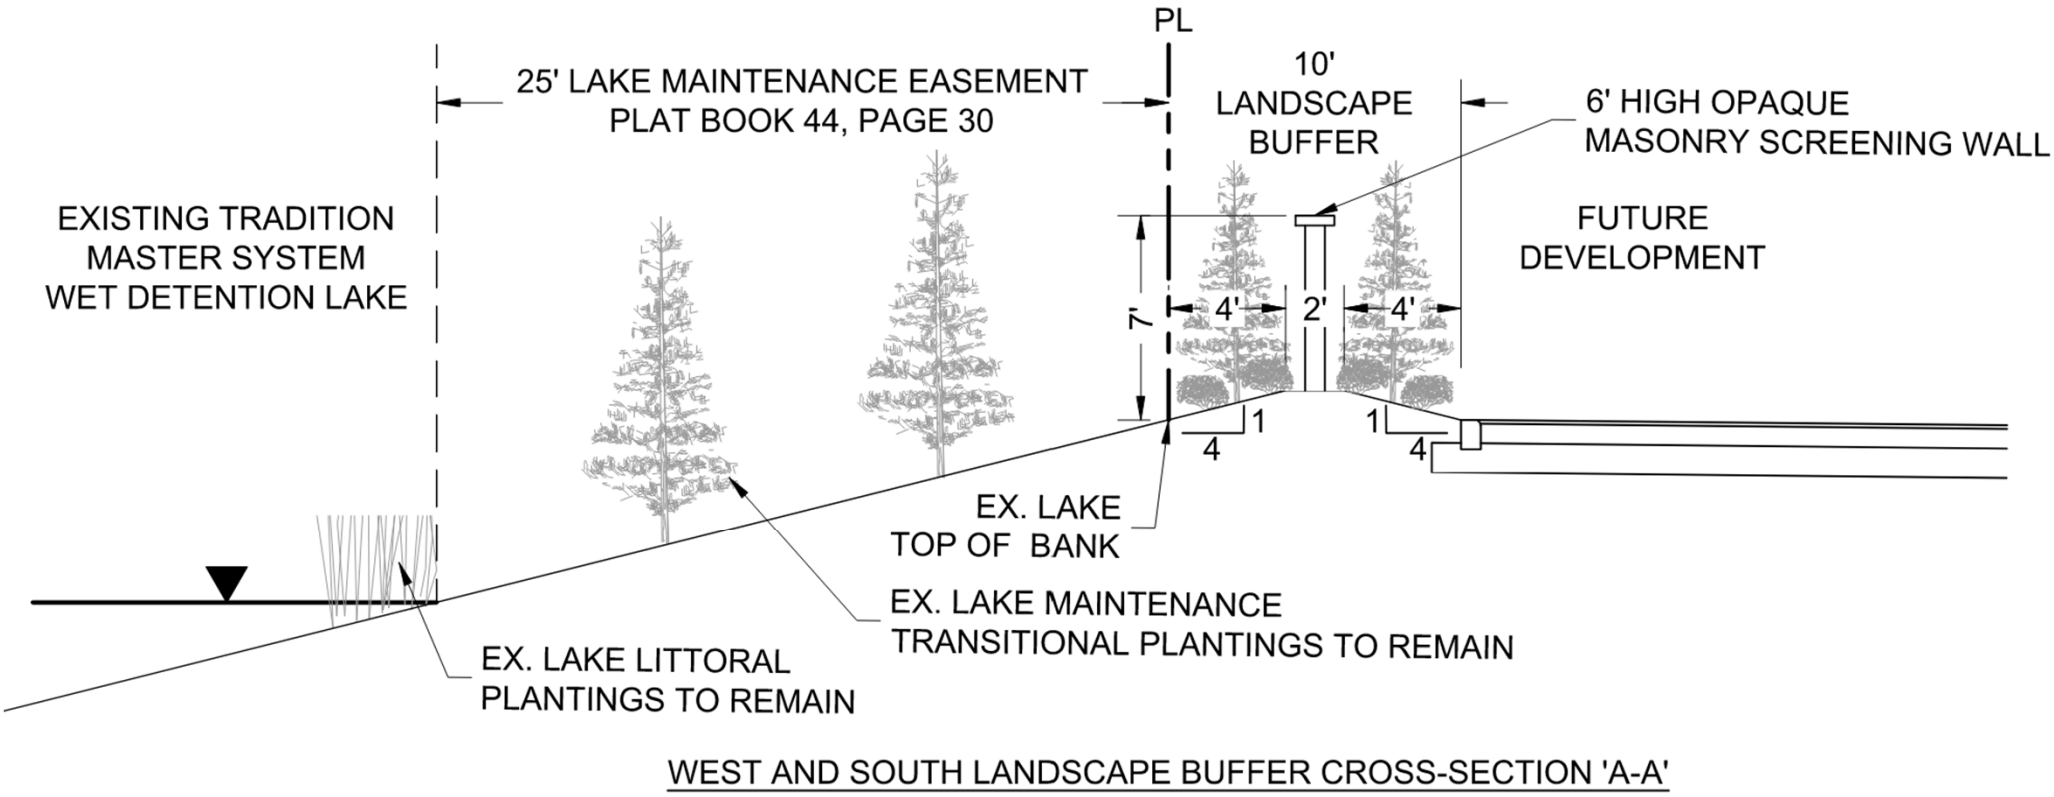


- Conceptual Commercial Use 2:
  Fast-Food Restaurant w/ Drive Thru
  Retail (6,250 SF, Strip Plaza)
  Convenience Store / Gas Station (5.5-10K SF, 16 fueling positions)
  Peak Hour: 327 Trips
  4.51% Project Significance to Crosstown Parkway
  4.97% Project Significance to Village Parkway
  0.96% Project Significance to Commerce Center Drive
  Near 0% Project Significance to Tradition Parkway
- Level of Significance Less than 5%, accounting for distribution

Traffic Impact – SW Fairgreen Rd

- SW Fairgreen Rd – No recorded counts or capacity in the St. Lucie TPO reporting.
- New trips routed primarily on the adjacent Major Roadways.
- Local roadway traffic consists of mostly pass-by capture for existing trips coming from residential area to the southeast, rather than Fairgreen Rd being used as a primary route for new trips.
- St Lucie TPO methodology – the impact to a local/non-major road (that provides access to development) from the Major Road network shall be analyzed at the intersection.
- Result – Intersection Improvements to Crosstown and Fairgreen will be constructed no later than December 31, 2027
- Access will be further assessed at time of final site plan submittal for any other required improvements that may be necessary (additional turn lanes, driveway/intersection spacing, etc).
- Traffic Impact Report for specific development use(s) provided at time of final site plan submittal

Landscape Buffer Exhibit



The applicant is in support of a condition that a wall with a landscape berm will be required along the property line that abuts Heritage Oaks and along the eastern property line when it abuts residential in PSL Section 35.

HALEY WARD

Summary & Conditions

- The request is to amend the Tradition MPUD and concept plan for two parcels from Residential use to Commercial use.
- Change of use on the subject property is not anticipated to result in adverse impacts to the Tradition DRI and proposes consistency with the recent Tradition DRI Amendment Resolution 25-R12.
- All commercial development on the site will be required to submit for final site plan and construction plan approval. Required to demonstrate compliance with the City of Port St. Lucie Code and the Tradition DRI including environmental, landscaping, lighting, drainage, utilities, access and traffic.

Summary & Conditions

The applicant agrees to the following conditions as apart of the Amended MPUD:

1. Future development of Parcel 11A shall require a minimum ten-foot enhanced landscape buffer strip and architectural wall in accordance with the Landscape Code along the eastern and southern boundaries of the property. The landscape buffer strips shall be located on the inside and outside of the architectural wall. One tree, at least 12 feet in height, shall be provided for each 20 linear feet of the landscape buffer strip, or fractional part thereof, and the wall shall be installed on a one (1) foot berm.
2. All lighting shall be shielded and/or oriented to prevent light spillover. A photometric plan shall be required with each site plan for future development of Parcel 11A.
3. The right-of-way connection to SW Glenbrook Drive shall be eliminated through legal documentation approved by the City Attorney's Office.

THANK YOU FOR YOUR TIME AND CONSIDERATION THIS EVENING

Subject: Public Comment – Opposition to MPUD Amendment (P26-026)
Date: Wednesday, April 1, 2026 9:31:45 PM

Dear Planning & Zoning Board Members,

I am writing as a concerned resident regarding the proposed MPUD Amendment No. 16 (P26-026) to convert a portion of land near Crosstown Parkway and SW Fairgreen Drive from residential use to commercial use.

I respectfully oppose this amendment.

This area has been developed and valued as a family-oriented residential community. Introducing commercial zoning in this location would significantly change the character of the neighborhood in ways that many residents did not anticipate when choosing to live here. Increased traffic, congestion, noise, and safety concerns—especially for children and families—are inevitable outcomes of this type of change.

In addition, the existing green space and open areas are essential to maintaining the quality of life in our community. These spaces provide not only environmental benefits, but also a sense of balance, peace, and livability that cannot be replaced once lost. Preserving green areas should be prioritized over additional commercial expansion, particularly in already growing and densely developing areas.

Our community does not need more commercial development at the expense of residential integrity. What we need is thoughtful planning that protects families, reduces overcrowding, and maintains safe, accessible, and green environments.

I urge the Board and City Council to carefully consider the long-term impact of this amendment and to deny the proposed zoning change.

Thank you for your time and consideration.

Sincerely,
Jerline Baltimore
Resident of Fairgreen Community

Formstack Submission For: Public Comment Form

Submitted at 04/01/26 8:56 PM

Date of Meeting:	Apr 07, 2026
Board or Council :	Planning & Zoning Commission
Topic or Agenda Item:	P26-026 - Tradition MPUD Amendment No. 16
Your Comment:	I am a property owner located directly across the pond from the parcel under consideration and I respectfully request that the board deny the proposed rezoning from residential to commercial use. The intersection at Crosstown Parkway already experiences regular congestion, particularly for vehicles turning southbound, and traffic backs up multiple times per day; adding a high traffic commercial use at this location would increase vehicle volume, turning movements, and the risk of accidents while further straining an already impacted intersection. Commercial activity would also introduce sustained noise from vehicles, deliveries, and late night operations, and since the nearby Circle K was built there has been a noticeable increase in noise in this area, which additional commercial development would only intensify and further reduce the quality of life for surrounding residents. The existing tree line serves as a buffer between Crosstown Parkway and the homes to the south, and

	removing this vegetation would expose residences to increased noise, lighting, and roadway activity while also eliminating existing wildlife habitat. This proposed change is not compatible with the surrounding residential character and would introduce a level of intensity that does not align with the existing neighborhood. For these reasons, I respectfully urge the board to deny this rezoning request. Thank you for your time and consideration.

ADDITIONAL PUBLIC COMMENT ITEM 8D

From: aaraujo101
To: Bridget Kean
Subject: Notice to adjacent property owners request for Amendment of MPUD Zoning Regulation Book and Concept Plan P26-026-Tradition MPUD Amendment No.16
Date: Saturday, April 4, 2026 10:22:10 AM

Sent from my Galaxy

Dear City Council Member

We are writing to express our strong opposition to the Amendment of MPUD Zoning Regulation Book and Concept Plan P26-026-Tradition MPUD Amendment No. 16.

We have lived in Port St. Lucie for 6 years, and what made us fall in love with this specific part of Florida was the peace, tranquility, and nature that our area provides. In particular, what enchanted me, Adriana, immensely were our beautiful pine trees; to me, they look like dreamy clouds or pom-poms due to their structure. Notably and unfortunately, more and more of these pines are disappearing, putting them on the path to extinction. Florida's native pines include the longleaf, slash, loblolly, and sand pines, which are vital ecosystems, and it is extremely important to support biodiversity by providing food and shelter for species like the endangered red-cockaded woodpecker, gopher tortoises, and white-tailed deer.

We, as residents of this area, have seen acres and more acres of these beautiful trees and others being cleared for the construction and continuation of Crosstown Parkway and residential and commercial areas. In our backyard, we have received an unprotected diversity of wildlife; among it, neighbors have reported videos and photos of Florida panthers, bobcats, coyotes, turtles, turkeys, wild pigs, and a deer running from a bobcat. Among the coyotes, our camera captured a black dog that did not belong to the coyote family; in fact, they seemed threatened by it. When I researched, I discovered that in the past there were black coyotes and even black wolves in Florida, but these are rare, and in the case of the wolf, it is extinct. I even brought this to the attention of the Wildlife Protection and Conservation Commission. Without research, we will never know if our beautiful Port St. Lucie was home to one of these special animals that are losing their habitat.

Now a bit about us: when we moved to Florida, we had the same mindset as many of wanting a green lawn, which requires extensive maintenance. But as we learned more about this beautiful part of the United States where we chose to make our home, we realized we had to do our part. We noticed that in our yard there were no birds or insects—and how could there be, with the amount of pesticide used to maintain grass? Our home also had no trees, so how could birds make our yard a refuge?

So we decided to make our yard more eco-friendly—and not just that. We decided to plant native trees, shrubs, and flowers to support our fragile ecosystem. As a result, in just two years we noticed a remarkable difference in the diversity of wildlife visiting our yard.

One detail I forgot to mention: we live right across from the property in question. Our trees are still young, so most of these beautiful creatures still seek refuge in the area in question.

Port St. Lucie has been losing a lot of green space due to this significant growth. In our specific area, there is no park. And not enough protected green spaces. We would love for this area to be restored with more native plants so that our beautiful creatures have a safe refuge. Please consider the effects of your decision, which will not only affect traffic, noise pollution —which is already significant, light pollution, and the peace of us residents, but especially our beautiful creatures.

We are extremely proud to have achieved gold standards for our efforts to make our yard more eco-friendly from IFAS.

Feel free to visit us to see for yourself the beautiful wildlife oasis that we recreated right across from the area in question.

We are doing our part! And you?

We plead that you please consider your actions and decisions. Think reasonably and most import, think and take action for those that don't have a voice. We trust you care and will do what is right!

Regards,

Adriana and Fernando Domingues

Subject: Zoning request

Dear City Council Member, David Pickett

I am writing to express my strong opposition to the Amendment of MPUD Zoning Regulation Book and Concept Plan P26-026-Tradition MPUD Amendment No. 16.

As a resident of Tradition and specifically abutting Heritage Oaks I am concerned with the proposed zone change. The original master plan of the property designated the parcel as residential. My current hope would be that it be donated by the owners and designated open space, purchased by the city or sold to a nature conservancy. The small community I retired to Port Saint Lucie from spent millions in bond issue money to preserve open space.It is also commonplace for development plans to require open space. Heritage Oaks itself has several areas which have been left natural or undeveloped…a home for animals and vegetation.

I believe the original vision for the Crosstown/ Village Parkway area has been modified enough. I cannot imagine the grand plan envisioned the issues the area currently experiences.

The exit off of Crosstown to Circle K/Fairgreen already creates a congestive traffic situation backing traffic up towards Publix on Crosstown. The left lane of Crosstown is often blocked by cars unable to get in the turn off lane attempting to turn onto Fairgreen when the turn light is red and the Crosstown light is green. An extension of the turn out lane has already been completed. The situation has worsened. The traffic circle on Village Parkway is automotive Russian Roulette.

Any allowed development of the property will only make the situation worse.

I thank you for your consideration.

John Day

Notably and unfortunately, more and more of these pines are disappearing, putting them on the path to extinction. Florida's native pines include the longleaf, slash, loblolly, and sand pines, which are vital ecosystems, and it is extremely important to support biodiversity by providing food and shelter for species like the endangered red-cockaded woodpecker, gopher tortoises, and white-tailed deer.

We, as residents of this area, have seen acres and more acres of these beautiful trees and others being cleared for the construction and continuation of Crosstown Parkway and residential and commercial areas. In our backyard, we have received an unprotected diversity of wildlife; among it, neighbors have reported videos and photos of Florida panthers, bobcats, coyotes, turtles, turkeys, wild pigs, and a deer running from a bobcat. Among the coyotes, our camera captured a black dog that did not belong to the coyote family; in fact, they seemed threatened by it. When I researched, I discovered that in the past there were black coyotes and even black wolves in Florida, but these are rare, and in the case of the wolf, it is extinct. I even brought this to the attention of the Wildlife Protection and Conservation Commission. Without research, we will never know if our beautiful Port St. Lucie was home to one of these special animals that are losing their habitat.

Now a bit about us: when we moved to Florida, we had the same mindset as many of wanting a green lawn, which requires extensive maintenance. But as we learned more about this beautiful part of the United States where we chose to make our home, we realized we had to do our part. We noticed that in our yard there were no birds or insects—and how could there be, with the amount of pesticide used to maintain grass? Our home also had no trees, so how could birds make our yard a refuge?

So we decided to make our yard more eco-friendly—and not just that. We decided to plant native trees, shrubs, and flowers to support our fragile ecosystem. As a result, in just two years we noticed a remarkable difference in the diversity of wildlife visiting our yard.

One detail I forgot to mention: we live right across from the property in question. Our trees are still young, so most of these beautiful creatures still seek refuge in the area in question.

Port St. Lucie has been losing a lot of green space due to this significant growth. In our specific area, there is no park. And not enough protected green spaces. We would love for this area to be restored with more native plants so that our beautiful creatures have a safe refuge. Please

consider the effects of your decision, which will not only affect traffic, noise pollution—which is already significant, light pollution, and the peace of us residents, but especially our beautiful creatures.

We are extremely proud to have achieved gold standards for our efforts to make our yard more eco-friendly from IFAS.

Feel free to visit us to see for yourself the beautiful wildlife oasis that we recreated right across from the area in question.

We are doing our part! And you?

We plead that you please consider your actions and decisions. Think reasonably and most import, think and take action for those that don't have a voice. We trust you care and will do what is right!

Regards,
Adriana and Fernando Domingues
10640 SW Soughgate CT

Subject: Request for Zoning Amendment P26-026

Dear Mr. Pickett,

I own 9516 SW Flowermound Cir. In Heritage Oaks, the community directly across the small lake from the site of the proposed zoning amendment request.

I am vehemently opposed to the proposed zoning change on these parcels from Residental use to Retail/Office/Civic/Institutional use.

I have owned this house since 2009 and have really enjoyed the trees and wildlife we see across our lake. I always thought there may be a chance that these wooded lots would eventually be developed with residential units, and I'd have to accept that possibility. I never thought there would be a commercial use there. I can't imagine the extra traffic, noise, bright lights, trash and odors that may come from allowing a commercial use there. This would lower the value of my home and others in the community. I would have a very hard time ever renting or selling my home if there was a commercial use across the lake, especially if it was a Wawa as I continue to hear it may become.

I cannot attend the Planning & Zoning Board hearing regarding this proposal on April 7, 2026, but I would like to voice my opinion here that the zoning on these lots should not be changed to allow commercial use. Please forward this message to Board and/or Council members as appropriate.

Thank you,

Carrie Dickinson
Owner: 9516 SW Flowermound Cir.

Subject: Opposition to Rezoning Near Fairgreen Rd & Crosstown Pkwy – Noise and Quality of Life Impact

To Whom It May Concern,

I am a resident of Heritage Oaks, 9552 SW Flowermound Circle, located directly adjacent to the area under consideration for rezoning near Fairgreen Road and Crosstown Parkway.

I am writing to formally oppose the proposed rezoning of this parcel from residential to

commercial due to the already significant and ongoing noise impacts affecting this neighborhood.

At present, the noise level from Crosstown Parkway alone is substantial. Vehicles frequently accelerate from Village Parkway onto Crosstown, often braking at the Fairgreen intersection, and then accelerating again. This repeated pattern creates constant engine noise, including loud exhaust and muffler sounds. Additionally, horns, emergency vehicle sirens, and frequent accidents contribute to an already disruptive environment.

The situation is further intensified by the nearby gas station, where traffic entering and exiting the property generates additional noise at all hours. The presence of the adjacent lake appears to amplify and carry these sounds, making them more pronounced within our neighborhood.

As a result, I am unable to comfortably use my patio or enjoy my outdoor space. This has a direct impact on my quality of life and the quiet enjoyment of my property.

Introducing additional commercial zoning in this immediate area will predictably increase traffic volume, delivery vehicles, and overall activity, further compounding the existing noise problem. This is not a speculative concern—it is an extension of conditions that are already present and problematic.

I respectfully ask the City to:

- Deny the rezoning request based on incompatibility with the surrounding residential area
- Consider the cumulative noise impacts already affecting nearby homes
- Require a formal noise and traffic impact study before moving forward with any changes
- Protect the residential character and livability of this community

This is not simply about future development, but about the current, measurable impacts that residents are already experiencing on a daily basis.

In addition, I would like to raise a concern regarding consistency and fairness in how noise impacts have been addressed across the City.

In other areas—particularly east of I-95—the City has implemented noise abatement measures such as berms, walls, landscaping buffers, and has conducted noise and safety studies to protect residential communities from roadway impacts.

In contrast, west of I-95, including the area around Fairgreen Road and Crosstown Parkway, similar protections have not been provided. The only meaningful noise wall in this vicinity was installed by the Tradition development, not by the City, and it primarily benefits areas closer to that project. This leaves our neighborhood exposed, despite being directly impacted by the

same roadway infrastructure.

As Crosstown Parkway expanded, our area appears to have been left without comparable mitigation, despite experiencing significant and measurable effects from traffic noise and activity.

Approving additional commercial zoning in this already unprotected area would further increase:

- 24/7 lighting from commercial properties
- Extended hours of operation and associated noise
- Vehicle emissions and fuel-related fumes
- Trash collection and service vehicle activity

These are cumulative impacts layered on top of an existing problem that has not yet been addressed.

I also want to note that some residents, including myself, are particularly affected by high levels of noise due to medical or mental health considerations. I am currently on medical leave for PTSD, and excessive and unpredictable noise—like that already present from Crosstown Parkway and nearby traffic—has a measurable impact on my ability to rest, recover, and maintain health. Approving additional commercial zoning in this area would worsen conditions that already interfere with residents' well-being.

I respectfully ask the City to consider whether it is appropriate to intensify development in an area that has not received the same level of protection or mitigation as other parts of the community.

Thank you for your time and consideration.

Sincerely,
Dana Davidson

---

Dear City Council Member, David Pickett

Thank you for responding to my letter, thank you for remaining open-minded and taking my comments into consideration before rendering your vote. With that in mind please also consider the following:

106 apartments or commercial zoning/building**:** As both residential and commercial development cause major damage to our ecosystems, my first preference is neither. However, I fear that is an unrealistic option and as such, for what it's worth I pick apartments. My hope would be the plans are such that land can be preserved for wildlife. This would help protect the wildlife that is protected by The Migratory Bird Treaty Act that calls this piece of land home. This also would provide more real estate value when you consider the view.

You note a positive motion for commercial versus residential being "prevent further rooftops in our city" I apologize as I am not 100% what this refers to as all building commercials or residential have rooftops, regardless of height the site line is there. Large commercial developments often feature massive parking lots and roofs. These "impervious surfaces" prevent water from soaking into the ground, leading to polluted storm-water running off that harm's aquatic ecosystems.

You mentioned road improvements as a positive step for commercial rather than residential development. The commercial developer proposes to extend the turn lane from Crosstown, extend the turning lane coming out of Fairgreen to Crosstown, and two lane all of Fairgreen from Crosstown to the stop sign on Fairgreen. As noted, these are much needed road improvements that would not be funded from our general fund.

Have studies regarding traffic increase caused by the commercial buildings been taken into consideration, WAWA is open 24/7. Have the road work changes been proven to manage the increased traffic caused by the development?

I truly believe the damage to wildlife needs to be taken into consideration. I'd like to add the Florida sandhill crane which are protected as a state designated threaten species, heron and egret covered by Migratory Bird Treaty Act to the wildlife I previously mentioned. I am sure there are many other protected species living on this piece of land that I cannot identify. For me this is reason enough not to move forward with development but, at the very least, not allowing rezoning from residential to

commercial.

Thank you for your time and your consideration.

On Friday, April 3, 2026 at 09:31:39 PM EDT, David Pickett <david.pickett@cityofpsl.com> wrote:

Ms. Mucciolo
Thank you for writing expressing your concern for the property located at Fairgreen and Crosstown. Currently the property is zoned to have up to 106 apartments on that parcel.
The current proposed change would eliminate that entitlement and change the property's zoning to commercial.
Additionally, I would like to address some of the issues that you wrote about as the land use change does not tell the full story.
The developer who has expressed interest in that property also proposes to extend the turn lane from Crosstown, extend the turning lane coming out of Fairgreen to Crosstown, and two lane all of Fairgreen from Crosstown to the stop sign on Fairgreen.
This are much needed road improvements that would not be funded from our general fund. I have been an advocate for the turn lane extension for quite some time now as I live back in that edition and experience the backup of traffic turning onto Fairgreen everyday.
I agree with you in wanting to have green space, but given the circumstances before us it's either allow 106 apartments on that property (which it is currently zone for) to further add to our frustration getting into or out of our neighborhood or allow the zoning to change to be commercial and prevent further rooftops in our city, while getting some much needed road improvements paid for by someone other than the taxpayers of Port St. Lucie.
This land amendment change has to go before the Planning and Zoning board before it comes to council and I will take your comments into consideration before I render my vote.
My mind is not made up, I am simply giving you more information that you might not have been made aware of.
Respectfully,
Dave Pickett

Subject: Subject: Amendment of MPUD Zoning Regulation Book and Concept Plan P26-026-Tradition MPUD Amendment No. 16.

Dear City Council Member, David Pickett

My name is Margaret Mucciolo, I reside at 10540 SW Southgate Ct. Port Saint Lucie Fl. which is within 750 feet of the subject property request for residential to commercial rezoning. I am writing to express my strong opposition to the Amendment of MPUD Zoning Regulation Book and Concept Plan P26-026-Tradition MPUD Amendment No. 16.

Location Site: Residents have previously noted Crosstown Parkway was originally proposed, with the intention to move cars quickly across the city and not to be heavily developed with commercial, commercialization. The corner of Crosstown Parkway and Fairgreen is the planned site area for this development. This creates traffic issues and over development in an area that already has infrastructure issues. We need to maintain designated commercial-free, green spaces in this area.Directly across the area requesting rezoning is Circle K, as well as many other commercial properties. A Publix and a 7-11 Mini Market/gas station approximately ¼ mile away. We do not need additional commercial development.

Wildlife Conservation is a major concern. We have so many beautiful birds, eagles which are heavily protected under the Bald and Golden Eagle Protection Act and the Migratory Bird Treaty Act, and turtles which also are protected under the Federal Endangered Species Act of 1973 and of cause alligators which are protected in the state of Florida while no longer in danger they are protected by state law and federally designated as a “threatened” species due to their similarity appearance to the American crocodile they all call this stretch of land home. Our Ecosystem is a Public Trust that truly needs to be protected. Science relies on our ecosystems to provide essential services of which technology cannot fully reproduce. Our ecosystem helps support clean air and water, disease regulation – all supporting human health.

We don't own the planet Earth, we belong to it. And we must share it with our wildlife.” – Steve Irwin, renowned Australian wildlife expert and conservationist There is no need for a WAWA or any additional commercial/retail stores. Traffic is already unbearable, this would serve to the taking away of safe easy walking paths, an increase in noise level and air pollution, trash, bright lights are all within their reason for not allowing the rezoning.

Therefore, I urge you to oppose the rezoning of subject property. Thank you for your attention to this matter.

Sincerely,

Margaret Mucciolo

I am...	Opposed
Comments:	We are writing to express our strong opposition to the Amendment of MPUD Zoning Regulation Book and Concept Plan P26-026-Tradition MPUD Amendment No. 16. We have lived in Port St. Lucie for 6 years, and what made us fall in love with this specific part of Florida was the peace, tranquility, and nature that our area provides. In particular, what enchanted me, Adriana, immensely were our beautiful pine trees; to me, they look like dreamy clouds or pom-poms due to their structure. Notably and unfortunately, more and more of these pines are disappearing, putting them on the path to extinction. Florida's native pines include the longleaf, slash, loblolly, and sand pines, which are vital ecosystems, and it is extremely important to support biodiversity by providing food and shelter for species like the endangered red-cockaded woodpecker, gopher tortoises, and white-tailed deer.

We, as residents of this area, have seen acres and more acres of these beautiful trees and others being cleared for the construction and continuation of Crosstown Parkway and residential and commercial areas. In our backyard, we have received an unprotected diversity of wildlife; among it, neighbors have reported videos and photos of Florida panthers, bobcats, coyotes, turtles, turkeys, wild pigs, and a deer running from a bobcat. Among the coyotes, our camera captured a black dog that did not belong to the coyote family; in fact, they seemed threatened by it. When I researched, I discovered that in the past there were black coyotes and even black wolves in Florida, but these are rare, and in the case of the wolf, it is extinct. I even brought this to the attention of the Wildlife Protection and Conservation Commission. Without research, we will never know if our beautiful Port St. Lucie was home to one of these special animals that are losing their habitat.

Now a bit about us: when we moved to Florida, we had the same mindset as many of wanting a green lawn, which requires extensive maintenance. But as we learned more about this beautiful part of the United States where we chose to make our home, we realized we had to do our part. We noticed that in our yard there were no birds or insects—and how could there be, with the amount of pesticide used to maintain grass? Our home also had no trees, so how could birds make our yard a refuge?

So we decided to make our yard more eco-friendly—and not just that. We decided to plant native trees, shrubs, and flowers to support our fragile ecosystem. As a result, in just two years we noticed a remarkable difference in the diversity of wildlife visiting our yard.

One detail I forgot to mention: we live right across from the property in question. Our trees are still young, so most of these beautiful creatures still seek refuge in the area in question.

Port St. Lucie has been losing a lot of green space due to this significant growth. In our specific area, there is no park. And not enough protected green spaces. We would love for this area to be restored with more native plants so that our beautiful creatures have a safe refuge. Please consider the effects of your decision, which will not only affect traffic, noise pollution—which is already significant, light pollution, and the peace of us residents, but especially our beautiful creatures.

We are extremely proud to have achieved gold standards for our efforts to make our yard more eco-friendly from IFAS.

Feel free to visit us to see for yourself the beautiful wildlife oasis that we recreated right across from the area in question.

We are doing our part! And you?

We plead that you please consider your actions and decisions. Think reasonably and most import, think and take action for those that don't have a voice. We trust you care and will do what is right!

Port Saint Lucie, FL

RE: Rezoning application for the 9.48 ac of Open Space Tract 21, Tradition Plat No. 18

Thank you for the opportunity to give input on the change in zoning proposed for this land. It is directly behind my home (9528 SW Flowermound Circle). I am quite concerned regarding the impact this narrow strip of land would have on our neighborhood. Change can be difficult for all of us!

Additional residential options exist if Winding River Crosstown chose to withdraw their request for change. Townhouses, cottages could be built here. A wall or landscaping would be needed on the boundary to keep residents from entering our gated community and utilizing the amenities.

If retail/office/civic/institutional uses are approved, they have the potential for greater impact. Noise, lights, traffic and litter are a few of my concerns regarding a commercial project on the narrow strip of land.

The noise issue includes many cars arriving and leaving at various times of day. Trucks and vehicles often leave windows open with loud music playing. Vehicles often need muffler work or use sirens (this is already heard from Crosstown Parkway) but the existing landscaping helps baffle the sounds.

A business would need bright lights in their parking and entry areas for the safety of their customers. At night, the lake and surrounding properties are dark, which makes it wonderful to enjoy the peace and quiet of the lake and for sleeping with windows open. The one street light that currently shines on the lake isn't overwhelming but adding them along the 9.48 acres, and removing the landscaping and trees, would change our yards and homes.

The traffic on Crosstown Parkway and SW Fairgreen Drive is already a mess. The large residential neighborhood in this area back up getting on and off Crosstown Parkway. The stop light is often run and the turn into Circle K often backs up onto Crosstown.

Our HOA regularly cleans up trash that blows from Crosstown Parkway into the corner of Crosstown and Fairgreen. If a business does build there, assuming responsibility to keep trash from blowing into the lake just behind the land would be important.

The HOA for our gated community (Heritage Oaks of Tradition) uses landscaping and fences as a barrier to prevent uninvited individuals. While I would hope Winding River Crosstown would install a 10 foot concrete fence (which would help with the noise, lights and litter), other options could be helpful.

Being good neighbors is always important. I've focused on ways to alleviate the potential issues that a commercial project could have. These concerns would be alleviated if the zoning remains residential. If the City Council approves the rezoning request change the land zoning to commercial, the owners would need to make the investments in the property that I have described.

Thank you for considering my suggestions. Please include my letter in the records of this zoning application.

Sincerely,

Janet Edwards

dianemcginnis1@comcast.net

Dear Sir or Madame,

This letter in response to the proposed change of use request from residential to commercial by the owner of the two parcels of land at the southwest corner of Crosstown Parkway and Fairgreen Drive. We purchased our home in 2020. The main reason we bought it was the narrow lake behind our home that looks at those parcels of land. The scene from our lanai is tranquil and peaceful. We knew when we bought our home that townhomes might built and change our view. That was fine with us.

I was not able to attend the April 7, 2026 Planning and Zoning Board meeting. I did watch it on our TV. I agree with many of the key points made by the residents who are going to be affected by the proposed changes. I appreciate the Board's thoughtful response to everyone who spoke. There is one concern that was not mentioned. It became clear to me after our home was almost flooded two days after the April 7,2026 meeting.

Please look at the enclosed pictures of our home on April 9, 2026, after a few days of rain. As you can see the storm water was halfway up our driveway. The drain in the street in front of our house was clear of debris but was not draining well. The drain across the street from us did not appear to be draining at all. It was clear of debris also. The storm water backed-up into the street due to the height of the lake, which you can see was very high. My husband and I went to see the person in charge of the Tradition CDD. He told us that **all of Tradition** drains by gravity into the narrow lake behind our home. From there, it drains into The Barrow Canal. Unfortunately for us, many properties around us drain into that canal, including the Circle K, the Shopping Center and Storage business next to it. Many of the residential areas around us also drain into the canal. There is a retention pond on Fairgreen Drive, adjacent to the Storage business to stage the runoff and gradually release it into the canal. I think we have reached a tipping point.

When all of the commercial land on Fairgreen and Crosstown Parkway was greenspace, we did not have flooding issues. Now it is proposed to take another greenspace away for commercial space. Even if that space is used for residential townhomes, rainwater is still an issue. There will be 9.48 acres of concrete surfaces and roof to drain somewhere. What are the plans for rainwater control? Do you plan to put a retention pond on the property? Do you plan to divert rainwater from this parcel into the Barrow Canal or the narrow lake behind our home. Remember all of Tradition already drains into our narrow lake and then the Barrow Canal. A confluence of a few heavy days of rain and rainwater drainage from all of the properties in the

area that drain into the canal have created a problem for us. I am worried our home is going to have perpetual flooding issues. I hope decisions can be made to prevent this from happening.

One of the arguments I heard at the Zoning meeting for using the parcel on Crosstown and Fairgreen for commercial use, is that Port Saint Lucie is primarily a residential area and only has 6% commercial space. Tradition, I believe, has a plan for 2/3 of its's land for commercial space and 1/3 for residential. This parcel was at one time part of Tradition. It was planned as residential space. I find it hard to understand why we need more commercial space on the Crosstown Parkway. I love driving on the Parkway because it is mostly free of commercial space. It is beautiful and pleasant with greenspace on either side of the road. (You will not find me driving on St.Lucie West Blvd.! Too much stop and go traffic!)

I would love to see this parcel become a park so that everyone in the community could enjoy it. That would be in keeping with the character and beauty of the Crossway Parkway.

Respectfully,

Diane McGinnis

Subject: Immediate Concern Before Vote: Noise Study Omission and Request for Abatement Wall – Crosstown Parkway

This is time-sensitive, as the Council is scheduled to vote within the hour.

I am writing regarding the proposed project along Crosstown Parkway and two primary concerns: the absence of a noise impact analysis and the inconsistent application of noise mitigation along the corridor.

After reviewing the Public Works memo, third-party review, and traffic study, I found that while traffic capacity and volume were analyzed, no evaluation was conducted on noise or quality-of-life impacts.

This is particularly concerning given existing conditions. Noise abatement measures were installed east of I-95 toward US-1, and a noise wall was constructed within the Tradition area along Crosstown Parkway (from Circle K to the C-24 Canal). However, west of I-95, similarly impacted communities—such as Heritage Oaks—have not received comparable protection.

My address is 9552 SW Flowermound Circle, Port St. Lucie, FL 34987.

The current materials include no noise study, no baseline measurements, no projected increases, and no mitigation strategies. As a result, decisions are being made without addressing how increased traffic will affect nearby residents.

I understand development will continue, but it should be done fairly and with minimal impact on residents' ability to enjoy their homes.

I am specifically requesting the installation of a noise abatement wall or berm along Crosstown Parkway from Fairgreen Drive to Village Parkway. This is a targeted and reasonable solution that would bring consistency to mitigation efforts already implemented in other sections of the corridor.

In addition, I request:

- A formal noise impact analysis
- Evaluation of existing conditions west of I-95
- Consistent application of noise mitigation standards

Thank you for your time and consideration.

Sincerely,
Dana Davidson

Subject: Concern Regarding Wildlife Impact – Proposed Development at Crosstown Parkway & Fairgreen Road

Dear City Commission,

I am writing to express concern regarding the ongoing land clearing and proposed zoning changes for the property located at the corner of Crosstown Parkway and Fairgreen Road in Port St. Lucie, Florida.

This parcel currently supports a variety of wildlife, including a pack of coyotes, a bobcat, gopher tortoises, many varities of birds, and freshwater turtles. In recent weeks, I have

observed tree clearing activity, particularly in the central portion of the property and near the pond, which raises concern about the immediate and long-term impact on these animals.

Given that the surrounding area is already densely developed with residential housing and lacks meaningful green space corridors, displacement of wildlife from this site will likely result in animals moving into nearby neighborhoods. This poses risks both to the animals and to the community, including increased vehicle strikes, human-wildlife conflict, and loss of protected species.

I am particularly concerned about whether appropriate environmental assessments and wildlife relocation protocols are being followed—especially regarding protected species such as gopher tortoises, which require permitted relocation under Florida law. There is concern within the community that proper relocation measures may not be fully implemented.

I respectfully request:

- Clarification on whether an environmental impact assessment and wildlife survey have been completed for this property
- Confirmation that all required permits and relocation efforts for protected species are being obtained and properly executed
- Information on any opportunities for public input, including the upcoming zoning discussions scheduled for next week

If your organization is able to review this situation, provide guidance, or become involved in ensuring appropriate environmental protections, it would be greatly appreciated.

Thank you for your time and for any assistance you may be able to provide in protecting the wildlife and ecological integrity of this area.

Sincerely,

Chanae Pratt

Subject: Tradition Zoning Changes Crosstown and Fairgreen

Mr. Pickett and team,

As residents of Vitalia in Tradition, Port St Lucie, we are against any zoning change regarding the subject area and are opposed to any commercial development adjacent to residential properties.

The over extension of commercial development in Tradition and adjacent areas must stop. There are many areas currently zoned for commercial development that can accommodate stores, restaurants, and gas stations, etc. The constant exemptions and zoning changes will impact property values, and demographics may degrade.

As an alternative, can we please consider creating a commercial zone West of the new high school where future residents can decide if they want to live in an area zoned for commercial properties.

We will actively monitor this subject and hope that you will give our suggestion serious consideration!

Regards,

Kathleen and Irfan Khan

Subject: Fairgreen Crossing/Crosstown - please read!

Hi!

I was hoping for an opportunity to voice my opinion as a home owner in the Fairgreen Crossing neighborhood on the proposal I saw mentioned online. I'm a mom of two young boys and I think turning this small area of land off Crosstown into a playground would benefit generations to come!

We do NOT need another gas station or car wash, especially at the entrance of a family neighborhood.

Many other neighborhoods in PSL have amazing playgrounds but there is nothing for the kids in Fairgreen. Please consider!!!

If you won't turn in into a playground... leave it as is. It won't kill the city to have a few trees left.

Sincerely,

Lisa Blomgren

Sent from my

Dear Board Members,

I want to start by sincerely thanking you for everything you've been doing for Heritage Oaks and for the broader Port St Lucie community. We truly appreciate the time, energy, and attention you've given to this issue.

That said, we are still very concerned about the lack of clarity from the applicant regarding what is actually planned for this property. At this point, we don't have real answers, and the possibility of something as large as a Walmart, drive-through business, or gas station right next to our neighborhood is very unsettling for many of us.

We're also struggling with the idea that the proposed "privacy solution" is just a 12-foot tall row of oak trees. It's hard to see how that will provide meaningful screening from what could end up being a very large structure and loud neighbors .For many residents, it feels like we would be left living right up against a long, imposing wall for years to come since oaks are slow growers.

This isn't just about a business being built next to us—it's about a business that will be directly connected to our community. Because of that, a much more thoughtful and dense buffer isn't just preferred, it's really necessary. What we're asking for is something more natural and intentional—a layered, diverse buffer with native trees like oaks, pines , cabbage palms and shrubs. A mix like that would feel more like a living landscape, not just a row of trees placed as a barrier. It would provide real privacy, support wildlife, and create a much more peaceful transition between the neighborhood and whatever is built next door.

For us, this isn't just about landscaping—it's about how it will feel to live here every day. It's about having a sense of peace in our homes and knowing that our community was truly considered and respected in the process.

We're asking that the applicant be held to a higher standard—one that reflects the reality of building right up against an established residential neighborhood. This is about protecting the character of Heritage Oaks and the quality of life of the families who live here.

Thank you again for listening and for standing with the community. It really does mean a lot to us.

Sincerely,

Adriana Domingues

Please find attached a more thoughtful and neighborly thing to do in regards to how we want the place to look

Agenda Summary

2026-544

Agenda Date: 6/22/2026 **Agenda Item No.:** 10.b

Placement: First Reading of Ordinances / Public Hearing

Action Requested: Motion / Vote

Ordinance 26-53, Public Hearing, an Ordinance of the City of Port St. Lucie, Florida, Amending the Comprehensive Plan of the City of Port St. Lucie to Provide a Large-Scale Amendment to the Future Land Use Map at the Request of Founder's Crossing, LLC, as Follows: (1) Change the Future Land Use Designation for Property Located South of Midway Road and West of McCarty Road from Approximately 30 Acres of RL (Low Density Residential) to Approximately 18 Acres of CG (Commercial General) and Approximately 12 Acres of ROI (Residential, Office, Institutional); (2) Change the Future Land Use for Approximately 18 Acres Of Property Located South of Midway Road and East of McCarty Road from CG (Commercial General) to RL (Low Density Residential); and (3) to Change the Future Land Use for Approximately 12 Acres of Land Located South of Midway Road and East of McCarty Road from ROI (Residential, Office, Institutional) to RL (Low Density Residential); Amending Conditions of Approval Set Forth in Section 1.B of Ordinance 03-169 (P25-113).

Submitted By: Bridget Kean, AICP, Deputy Director Planning and Zoning

Strategic Plan Link: N/A - Development Application

Executive Summary (General Business): This is the transmittal hearing for a large-scale comprehensive plan future land use map amendment for approximately 60 acres of land within the Founder's Crossing PUD and amendment to conditions contained in prior large-scale comprehensive plan amendment Ordinance 03-169.

The purpose of the land use amendment is to shift the location of 18 acres of CG (Commercial General) land and 12 acres of ROI (Residential, Office, Institutional) land from the east side of McCarty Road to the west side of McCarty Road to provide for a proposed amendment to the Founder's Crossing PUD (P25-130). At present, the 18 acres of CG (Commercial General) land use is located at the southeast corner of Midway Road and McCarty Road, and the 12 acres of ROI land use is located approximately one-half mile south of Midway Road on the east side of McCarty Road. The proposal will relocate the 18 acres of CG land to the southwest corner of Midway Road and McCarty Road and move the 12 acres of ROI land use to the west side of McCarty Road directly below the 18 acres of CG (Commercial General) land use.

The proposed Ordinance 26-53 also amends and restates conditions contained within Ordinance 03-169 to align with revised development plans and provides for roadway improvements.

Presentation Information: Staff may provide a short presentation.

Staff Recommendation: Move that the Council approve the amendment for transmittal to the Florida Department of Commerce (state land planning agency) subject to the conditions of approval included in proposed Ordinance 26-53 as recommended by the Planning and Zoning Board.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the amendment for transmittal as noted above.
2. Move that the Council not approve the amendment and provide staff direction.

Background: The Planning and Zoning Board recommended approval with the roadway conditions contained in Exhibit C at the June 2, 2026 Planning and Zoning Board meeting. Exhibit C has been refined and updated since the Planning and Zoning Board meeting to more closely align with a proposed amendment to the annexation agreement for Founder's Crossing (P26-032).

Issues/Analysis: Founder's Crossing, LLC, has applied for a large-scale future land use map amendment to amend the land use as follows:

> (1) changing the future land use for property located south of Midway Road and west of McCarty Road from approximately 30 acres of RL (Low Density Residential) to approximately 18 acres of CG (Commercial General) and approximately 12 acres pf ROI (Residential, Office, Institutional); and
> (2) changing the future land use for approximately 18 acres of property located south of Midway Road and east of McCarty Road from CG (Commercial General) to RL (Low Density Residential); and
> (3) changing the future land use for approximately 12 acres of land located south of Midway Road and east of McCarty Road from ROI (Residential, Office, Institutional) to RL (Low Density Residential) (collectively the "2026 Amendment").

The property that is the subject of the 2026 Amendment is part of a larger 386 acre property known as Founder's Crossing PUD located on land that was annexed into the City in 2004 and was the subject of a large scale comprehensive plan amendment adopted on July 19, 2004, Ordinance 03-169, that amended the future land use map from 386 acres of St Lucie County AG-5 and AG 2.5 land uses to 342.6 acres of RL (Low Density Residential) land use, 18 acres of CG (General Commercial) land use, 12 acres of ROI (Residential Office Institutional) land use, and 13.4 acres of OSC (Open Space Conservation) land use ("Initial FLUM Amendment"), subject to specified conditions in Section 1 of Ordinance 03-169 ("Conditions"). The Conditions constitute data and analysis of the availability of facilities and services to support the Initial FLUM Amendment, pursuant to Section 163.3177 and to guide the development of the property. The City and Founder's Crossing, LLC, agree it is appropriate to amend the Conditions within Ordinance 03-169 to provide consistency with the modifications to the Future Land Use Map requested by the applicant through the 2026 Amendment that involve property within the area controlled by the Initial FLUM Amendment and its corresponding Conditions.

Staff's recommended conditions of approval recognize the Developer's obligations with regard to the County

and include additional City requirements for utility easements, the timing of improvements, and requirements for the conveyance, construction, and completion of Newell Road from McCarty Road to Wylder Parkway and McCarty Road from Midway Road to Newell Road. The proposed amendment to the related Annexation Agreement will be scheduled for the same City Council meeting as the adoption hearing for this comprehensive plan amendment.

Financial Information: N/A

Special Consideration: N/A

Location of Project: The subject property is generally located on the south side of Midway Rd., approx. 2.5 miles west of I-95, and on the east and west sides of McCarty Road.

Business Impact Statement: N/A

ORDINANCE 26-53

AN ORDINANCE OF THE CITY OF PORT ST. LUCIE, FLORIDA AMENDING THE COMPREHENSIVE PLAN OF THE CITY OF PORT ST. LUCIE TO PROVIDE A LARGE-SCALE AMENDMENT TO THE FUTURE LAND USE MAP AT THE REQUEST OF FOUNDER'S CROSSING, LLC AS FOLLOWS:

(1) CHANGE THE FUTURE LAND USE DESIGNATION FOR PROPERTY LOCATED SOUTH OF MIDWAY ROAD AND WEST OF MCCARTY ROAD FROM APPROXIMATELY 30 ACRES OF RL (LOW DENSITY RESIDENTIAL) TO APPROXIMATELY 18 ACRES OF CG (COMMERCIAL GENERAL) AND APPROXIMATELY 12 ACRES OF ROI (RESIDENTIAL, OFFICE, INSTITUTIONAL);

(2) CHANGE THE FUTURE LAND USE FOR APPROXIMATELY 18 ACRES OF PROPERTY LOCATED SOUTH OF MIDWAY ROAD AND EAST OF MCCARTY ROAD FROM CG (COMMERCIAL GENERAL) TO RL (LOW DENSITY RESIDENTIAL); AND

(3) TO CHANGE THE FUTURE LAND USE FOR APPROXIMATELY 12 ACRES OF LAND LOCATED SOUTH OF MIDWAY ROAD AND EAST OF MCCARTY ROAD FROM ROI (RESIDENTIAL, OFFICE, INSTITUTIONAL) TO RL (LOW DENSITY RESIDENTIAL);

AMENDING CONDITIONS OF APPROVAL SET FORTH IN SECTION 1.B OF ORDINANCE 03-169; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE (P25-113).

WHEREAS, the City of Port St. Lucie, Florida, has adopted a comprehensive plan known as the City of Port St. Lucie Comprehensive Plan adopted by Ordinance 97-50, and subsequently amended via Ordinance 12-19 and Ordinance 20-28; and

WHEREAS, the City is committed to planning and managing the growth of the City; and

WHEREAS, the City has the authority to amend its Comprehensive Plan pursuant to Chapter 163, Part II, Florida Statutes; and

WHEREAS, Founder's Crossing, LLC, has applied for a large-scale future land use map amendment to amend the land use for the property legally described in **Exhibit "A"** as follows:

(1) changing the future land use for property located south of Midway Road and west of McCarty Road from approximately 30 acres of RL (Low Density Residential) to approximately 18 acres of CG (Commercial General) and approximately 12 acres pf ROI (Residential, Office, Institutional); and

(2) changing the future land use for approximately 18 acres of property located south of

Midway Road and east of McCarty Road from CG (Commercial General) to RL (Low Density Residential); and

(3) changing the future land use for approximately 12 acres of land located south of Midway Road and east of McCarty Road from ROI (Residential, Office, Institutional) to RL (Low Density Residential) (collectively the "2026 Amendment"); and

WHEREAS, the changes to the future land use map are shown with more particularity in attached **Exhibit "B"** hereto; and

WHEREAS, the property that is the subject of the 2026 Amendment is part of a larger 386 acre property known as Founders Crossing PUD located on land that was annexed into the City in 2004 and was the subject of a large scale comprehensive plan amendment adopted on July 19, 2004, Ordinance 03-169, that amended the future land use map from 386 acres of St Lucie County AG-5 and AG 2.5 land uses to 342.6 acres of RL (Low Density Residential) land use, 18 acres of CG (General Commercial) land use, 12 acres of ROI (Residential Office Institutional) land use, and 13.4 acres of OSC (Open Space Conservation) land use ("Initial FLUM Amendment"), subject to specified conditions in Section 1 of Ordinance 03-169 ("Conditions"); and

WHEREAS, the Conditions constitute data and analysis of the availability of facilities and services to support the Initial FLUM Amendment, pursuant to Section 163.3177 and to guide the development of the property; and

WHEREAS, the City and Founders Crossing, LLC, agree it is appropriate to amend the Conditions within Ordinance 03-169 to provide consistency with the modifications to the Future Land Use Map requested by the applicant through the 2026 Amendment that involve property within the area controlled by the Initial FLUM Amendment and its corresponding Conditions; and

WHEREAS, the City of Port St. Lucie Planning and Zoning Board has been duly designated as the local planning agency pursuant to Section 163.3174, et seq., Florida Statutes; and

WHEREAS, the Planning and Zoning Board met on June 2, 2026, at a duly noticed public meeting, and pursuant to the procedures of Chapter 163, Florida Statutes, Part II, reviewed and heard testimony concerning the proposed amendment (P25-113) to the City's Comprehensive Plan, and submitted its recommendations thereon to the City Council; and

WHEREAS, the City Council held the first reading (Transmittal Hearing) of the Ordinance

at a public hearing on June 22, 2026; and

WHEREAS, the City Council held the second reading (Adoption Hearing) of the Ordinance at a public hearing on _____; and

WHEREAS, having considered the recommendations of the Planning and Zoning Board, the Port St. Lucie City Council has prepared this amendment to the City's Comprehensive Plan as a Large-Scale Amendment in accordance with Section 163.3184, Florida Statutes; and

WHEREAS, the amendment was submitted to and reviewed by the state land planning agency on _____; and

WHEREAS, the said public hearings were held with all required public notice for the purposes of hearing and considering the recommendations and comments of the public, the Local Planning Agency, other public agencies and other jurisdictions prior to final action on the Comprehensive Plan Amendment set forth herein; and

WHEREAS, the City Council of the City of Port St. Lucie desires to amend the Future Land Use Map portion of the Comprehensive Plan and amend the Conditions to guide and control the future development of the City and to preserve, promote and protect the public's health, safety and welfare; and

WHEREAS, the City Council has considered the testimony and evidence, as well as, the recommendations of staff and the Planning and Zoning Board, the City Council has determined that the proposed amendment is consistent with the intent and direction of the City's Comprehensive Plan and wishes to amend the Comprehensive Plan Future Land Use Map and Conditions as provided herein; and

WHEREAS, all conditions required for adoption of this large-scale Comprehensive Plan Amendment have been met, including the necessary hearings and public notices.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Ratification of Recitals. The City Council of the City of Port St. Lucie, Florida, hereby adopts and ratifies those matters as set forth in the foregoing recitals.

Section 2. The Comprehensive Plan of the City of Port St. Lucie is hereby amended in the following respect:

A. The Future Land Use Map is hereby amended for the property legally described in attached

Exhibit "A" is hereby amended as follows, and as depicted in Exhibit "B":

(i) changing the future land use designation for property located south of Midway Road and west of McCarty Road from approximately 30 acres of RL (Low Density Residential) to approximately 18 acres of CG (Commercial General) and approximately 12 acres pf ROI (Residential, Office, Institutional); and

(ii) changing the future land use for approximately 18 acres of property located South of Midway Road and east of McCarty Road from CG (Commercial General) to RL (Low Density Residential); and

(iii) changing the future land use for approximately 12 acres of land located south of Midway Road and east of McCarty Road from ROI (Residential, Office, Institutional) to RL (Low Density Residential); and

B. Section 1.B of Ordinance 03-169, involving the Conditions, shall be deleted and replaced with the following:

Development of the above-described property shall be subject to the following:

i. Mobility Requirements.

1. Midway Road Requirements.

a. The obligations to the County with respect to traffic improvements for Midway Road are as set forth that certain Contribution Agreement entered into by Kenco and St. Lucie County on or about October 28, 2008 and recorded November 17, 2008 in Official Records Book 3033, Page 1644, of the Public Records of St. Lucie County, Florida ("Contribution Agreement").

b. A 20' City Utility easement on the south side of Midway Road will be conveyed to the City in a form reasonably agreeable to the City of Port St. Lucie, if said easement has not already been conveyed to the City, within one hundred twenty (120) days following the issuance of any new PUD[1], or any amendment to the existing PUD, for the Property.

2. McCarty Road Requirements.

1 For purposes of this Ordinance, new PUD or any amendment to the existing PUD, means any PUD or amendment that modifies, terminates, supersedes or otherwise alters the existing approved PUD memorialized in City Ordinance

a. To facilitate a better regional network, McCarty Road will be improved from Midway Road approximately one (1) mile south to Newell Road.

b. Within thirty-six (36) months following the issuance of any new PUD, or any amendment to the existing PUD, for the Property, commence improvements to McCarty Road from Midway Road approximately one (1) mile immediately south to Newell Road for a two (2) lane roadway, in accordance with standard County road design specifications ("McCarty Road Segment").

c. The McCarty Road Segment must be complete, including but not limited to intersection improvements, including signalization if required by a traffic study, within thirty-six (36) months after the approval of the first residential final plat for the Property, or by the 250th residential building permit, whichever is sooner. For purposes of this section, complete shall mean open to the public for use.

d. A 20' City utility easement on the east side of McCarty Road will be conveyed to the City in a form reasonably agreeable to the City, if said easement has not already been conveyed to the City, within one hundred twenty days (120) following the issuance of any new PUD, or any amendment to the existing PUD, for the Property.

e. Use commercially reasonable efforts to secure and convey a 20' City Utility easement on the west side of the McCarty Road Segment to the City, in a form reasonably agreeable to the City, within one hundred twenty (120) days following the issuance of any new PUD, or any amendment to the existing PUD, for the Property.

f. The obligations set forth herein with respect to McCarty Road Segment are in addition to, not in place of, those obligations in favor of the County contained in the Contribution Agreement.

3. Newell Road Requirements.

08-118.

a. The right-of-way for Newell Road from the east boundary of the Property to McCarty Road must be conveyed to the City in fee simple no later than one hundred twenty (120) days from approval of any new PUD or any amendment to the existing PUD for the Property.

b. Cause the conveyance of the right-of-way segment for Newell Road from the east boundary of the Property east to Wylder Parkway no later than one hundred twenty (120) days from approval of any new PUD or any amendment to the existing PUD for the Property.

c. Prior to issuance of any residential building permits (excluding residential building permits issued per the City's builders' at-risk policy), the segment of Newell Road from the east Newell Road entrance to the Property, east to Wylder Parkway shall be platted and open to the public as a two (2) lane roadway.

d. The segment of Newell Road from the east Newell Road entrance of the Property west to McCarty Road must be open to the public for use as a two (2) lane roadway prior to the issuance of the 250th residential building permit or within 36 months of the approval of the first residential plat within the Property, whichever is earlier.

e. Convey a 10' public utility easement on the north side of the right-of-way of Newell Road to public utilities in a form reasonably agreeable to the City of Port St. Lucie no later than one hundred twenty (120) days from approval of any new PUD or any amendment to the existing PUD for the Property.

4. Mobility System. A comprehensive pedestrian and bicycle system will be provided connecting neighborhoods, commercial, institutional and recreational uses.

5. Public Transit. Transit stop location(s) shall be provided within or adjacent to commercial and institutional land uses.

ii. Muti-family residential uses (townhomes, apartments or condominiums) shall be located adjacent to commercial uses.

iii. Development located within the OSC (Open Space Conservation) land use area shall be limited to passive recreational uses, and will not negatively impact the creek located within the property. A minimum buffer of 50 feet from the jurisdictional line of the creek will be provided. A community recreation area will be provided adjacent to the creek and the corresponding buffer area.

iv. A 15-acre site for elementary school purposes will be dedicated on the plat to the City of Port St. Lucie, subject to St. Lucie County School District siting criteria. This condition is intended to be addressed by the Second Amendment to Annexation Agreement for the West Creek PUD, dated August 10, 2009, recorded in Official Records Book 3124, Page 549 and the Agreement for Contribution of School Site dated May 26, 2009, recorded in Official Records Book 3096, Page 535, as amended by the First Amendment to Agreement for Contribution of School Site, dated November 17, 2009, recorded in Official Records Book 3152, Page 2000, all of the Public Records of St. Lucie County, Florida. However, to date the conveyance has not occurred consistent with the Agreement and thus the condition has not yet been satisfied.

v. Nothing herein is intended to determine entitlement to impact fee or mobility fee credits. These types of determinations shall be made separately by the City in accordance with the City's Code and applicable Florida law. Notwithstanding the foregoing, the McCarty Road Segment shall not be eligible for credits against mobility fees and no application for credits shall be submitted to the City.

Section 4. Conflict. If any ordinances, or parts of ordinances, or if any sections, or parts of sections, of the ordinances of the City of Port St. Lucie, Florida, are in conflict herewith, this Ordinance shall control to the extent of the conflicting provisions.

Section 5. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect.

Section 6. Effective Date. The effective date of this plan amendment shall be as provided by law.

PASSED AND APPROVED by the City Council of the City of Port St. Lucie, Florida, this _____ day of _____, 2026.

CITY COUNCIL

CITY OF PORT ST. LUCIE, FLORIDA

BY:_____
Shannon M. Martin, Mayor

ATTEST:

_____
Sally Walsh, City Clerk

APPROVED AS TO FORM:

_____
Richard Berrios, Interim City Attorney

Exhibit “A” Legal Description

EXHIBIT "A"

DESCRIPTION:

A PORTION OF TRACT "A", FOUNDERS CROSSING PUD MASTER PLAT 1st REPLAT, AS RECORDED IN PLAT BOOK 62, PAGES 38 AND 39, INCLUSIVE, OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA. BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS;

BEGINNING AT THE NORTHEAST CORNER OF SAID TRACT "A"; THENCE SOUTH 00°29'12" WEST, A DISTANCE OF 1016.86 FEET; THENCE NORTH 89°46'30" WEST, A DISTANCE OF 928.73 FEET; THENCE NORTH 03°02'33" EAST, A DISTANCE OF 201.27 FEET; THENCE NORTH 10°22'50" EAST, A DISTANCE OF 72.17 FEET; THENCE NORTH 15°44'12" EAST, A DISTANCE OF 98.34 FEET; THENCE NORTH 21°38'08" EAST, A DISTANCE OF 83.18 FEET; THENCE NORTH 32°21'22" WEST, A DISTANCE OF 134.54 FEET; THENCE NORTH 25°43'31" EAST, A DISTANCE OF 182.02 FEET; THENCE NORTH 29°47'39" EAST, A DISTANCE OF 53.00 FEET; THENCE NORTH 36°15'31" WEST, A DISTANCE OF 6.20 FEET; THENCE NORTH 80°16'38" EAST, A DISTANCE OF 11.84 FEET; THENCE NORTH 35°07'00" WEST, A DISTANCE OF 78.23 FEET; THENCE NORTH 09°19'18" EAST, A DISTANCE OF 43.23 FEET; THENCE NORTH 00°55'17" EAST, A DISTANCE OF 41.67 FEET; THENCE NORTH 12°15'36" WEST, A DISTANCE OF 47.07 FEET; THENCE NORTH 01°07'41" EAST, A DISTANCE OF 34.00 FEET; THENCE NORTH 00°00'17" EAST, A DISTANCE OF 15.28 FEET; THENCE SOUTH 89°32'19" EAST, A DISTANCE OF 620.33 FEET TO THE POINT OF BEGINNING.

CONTAINING 804,635 FEET / 18.472 ACRES MORE OR LESS

SURVEYOR'S NOTES:

1. SURVEY MAPS OR THE COPIES THEREOF ARE NOT VALID WITHOUT THE ORIGINAL SIGNATURE AND ORIGINAL SEAL, OR THE AUTHENTICATED ELECTRONIC SIGNATURE AND SEAL, OF A FLORIDA LICENSED PROFESSIONAL LAND SURVEYOR AND MAPPER.
2. ADDITIONS OR DELETIONS TO SURVEY MAPS BY OTHER THAN THE SIGNING PARTY OR PARTIES IS PROHIBITED WITHOUT WRITTEN CONSENT OF THE SIGNING PARTY OR PARTIES.
3. LANDS SHOWN HEREON WERE NOT ABSTRACTED, BY THE SURVEYOR, FOR RIGHTS-OF-WAY, EASEMENTS, OWNERSHIP, OR OTHER INSTRUMENTS OF RECORD.
4. BEARINGS SHOWN HEREON ARE RELATIVE TO A GRID BEARING OF SOUTH 00°29'12" WEST ALONG THE EAST LINE OF TRACT "A", AS SHOWN ON THE PLAT OF FOUNDERS CROSSING PUD MASTER PLAT 1st REPLAT, AS RECORDED IN PLAT BOOK 62, PAGE 38 OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA, RELATIVE TO THE FLORIDA STATE PLANE COORDINATE SYSTEM, EAST ZONE, TRANSVERSE MERCATOR PROJECTION, NORTH AMERICAN DATUM OF 1983, (1990 ADJUSTMENT).
5. THE LAND DESCRIPTION SHOWN HEREON WAS PREPARED BY THE SURVEYOR.
6. DATA SHOWN HEREON WAS COMPILED FROM THE INSTRUMENTS OF RECORD RECORDED IN THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA, AND DOES NOT CONSTITUTE A FIELD SURVEY AS SUCH.
7. INSTRUMENTS OF RECORD SHOWN HEREON ARE RECORDED IN THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA, UNLESS OTHERWISE SHOWN.

Founder's Crossing
Large-Scale Future Land Use Map Amendment
P25-113

Project Location Map

SUMMARY

Applicant's Request:	An application for a future land use map amendment for approximately 60 acres of property.
Applicant and Agent:	Lucido and Associates
Property Owner:	Founder's Crossing, LLC
Location:	The subject property is generally located on the south side of Midway Rd., approx. 2.5 miles west of I-95, and on the east and west sides of McCarty Road
Address:	N/A
Project Planner:	Bridget Kean, Deputy Director

Project Description

This is an application for a future land use map amendment that was submitted by Lucido and Associates on behalf of Founder's Crossing, LLC, property owner. The request will amend the land use for approximately 60 acres of land within the Founder's Crossing PUD. The purpose of the amendment is to shift the location of 18 acres of CG (Commercial General) land and 12 acres of ROI (Residential, Office, Institutional) land from the east side of McCarty Road to the west side of McCarty Road to provide for a proposed amendment to the Founder's Crossing PUD (P25-130). At present, the 18 acres of CG (Commercial General) land use is located at the southeast corner of Midway Road and McCarty Road, and the 12 acres of ROI land use is located approximately one-half mile south of Midway Road on the east side of McCarty Road. The applicant's proposal will move the 18 acres of CG land to the southwest corner of Midway Road and McCarty Road and move 12 acres of ROI land use to the west side of McCarty Road directly below the 18 acres of CG (Commercial General) land use.

This application will amend the land use for approximately 30 acres of land located on the west side of McCarty Road from RL (Low Density Residential) land use to 18 acres of CG (Commercial General) land use and 12 acres of ROI (Residential, Office, Institutional) land use. It will amend the land use for 30 acres of land located on the east side of McCarty Road from 18 acres of CG (Commercial General) land use and 12 acres of ROI (Residential, Office, Institutional) land use to 30 acres of RL (Low Density Residential) land use. The proposed land use changes are shown below and attached T Exhibit "A": Existing future land use and Exhibit "B" proposed future land use:

Existing Land Use

Proposed Land Use

Background

The Founder's Crossing PUD is approximately 386 acres in size and located on the south side of Midway Road at the intersection of McCarty Road and Midway Road. The subject property was annexed into the City in January 2004 (OR 04-09) and is subject to an annexation agreement that provides for 875 residential dwelling units, commercial, office, and institutional square footage uses as well as required infrastructure and other improvements. A large scale comprehensive plan amendment was approved for the property in July 2004 (OR 03-169) that changed the land use from approximately 154 acres of SLC-AG-5 (1 dwelling unit per 5 acres) and approximately 232 acres of SLC-AG-2.5 (1 dwelling unit per 2.5 acres) to the following City of Port St. Lucie Future Land Use classifications: 342.6 acres of RL (Low Density Residential), 18 acres of CG (General Commercial), 12 acres of ROI (Residential Office Institutional), and 13.4 acres of OSC (Open Space Conservation). An application for PUD (Planned Unit Development) rezoning was approved in 2004. The PUD has been amended three times and the 2nd Amendment changed the project name to Founder's Crossing. The 3rd Amendment to the Founder's Crossing PUD set the maximum building thresholds for the project as 875 residential dwelling units, 150,000 square feet of commercial use, and 80,000 square feet of office/institutional uses.

When the future land use amendment (OR 03-169) was approved in July 2004, it included conditions of approval for the development of the property including required roadway improvements. It required the construction of McCarty Road from Midway Road to Newell Road, pedestrian access, and a proposed school site. The annexation agreement required the developer to participate in the funding of improvements to Midway Road from I-95 west to McCarty Road and the improvements to McCarty Road. In 2008, the original developer entered into a contribution agreement with St. Lucie County (attached) that includes a monetary contribution for Midway Road improvements and requirements for construction of McCarty Road from Midway Road to Newell Road.

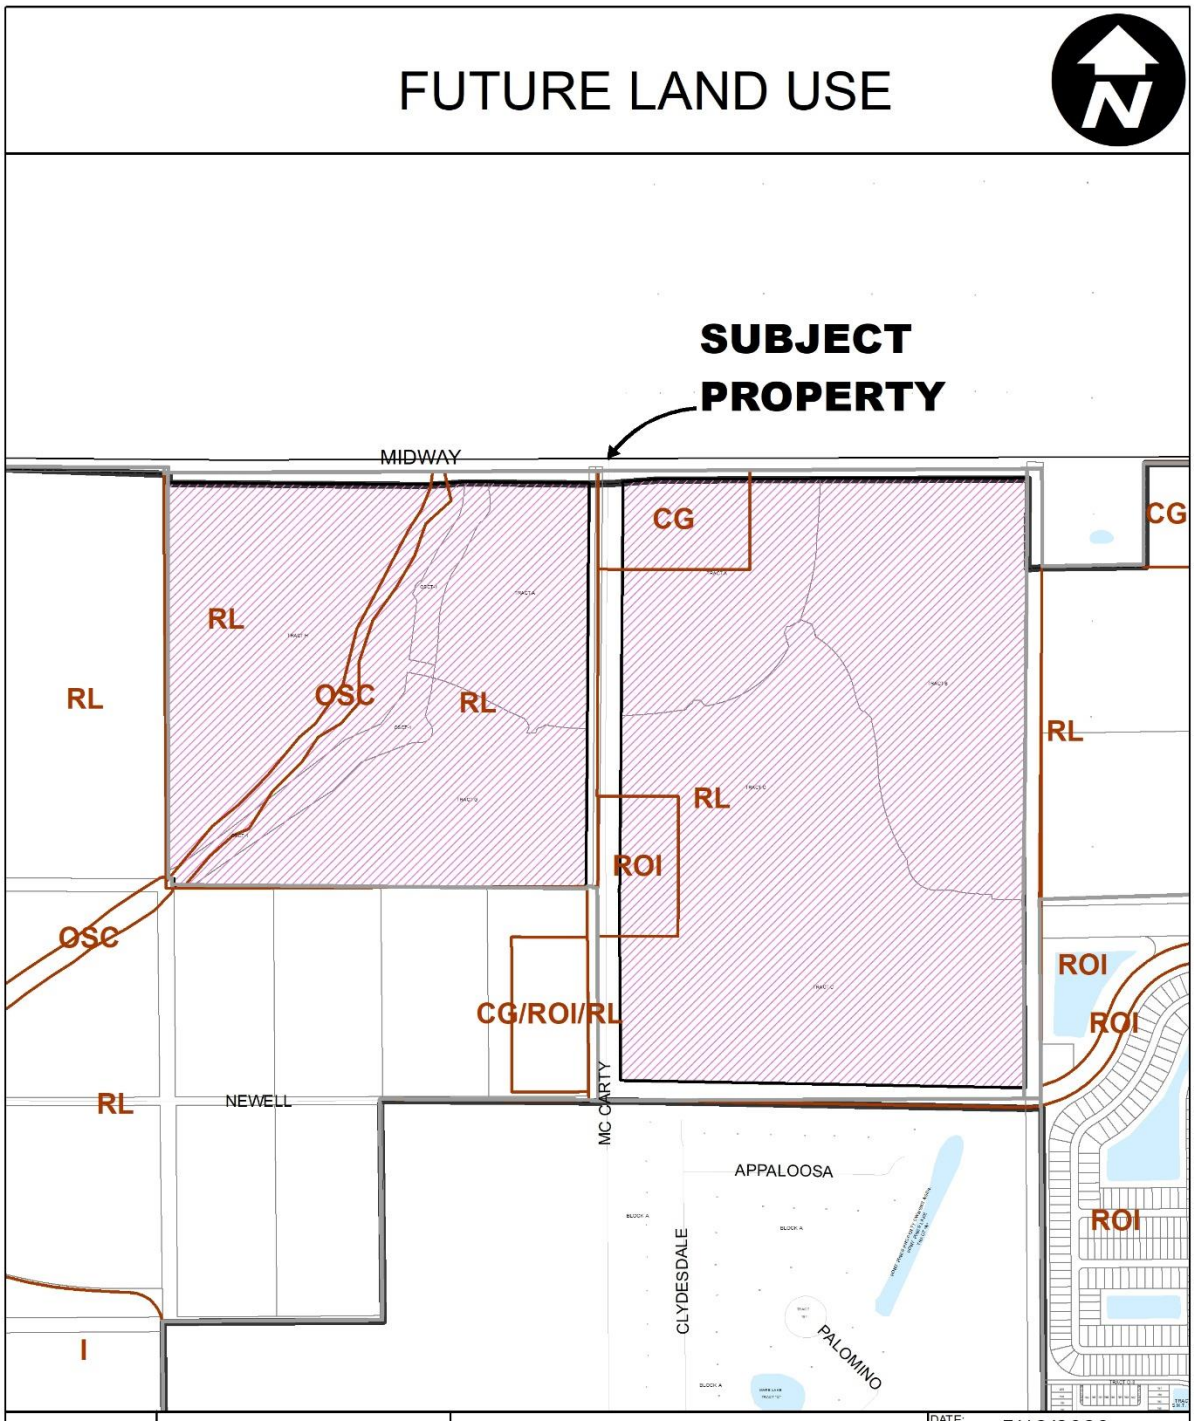
Associated Applications

In association with this application, the City has received an application the 4th Amendment to the Founder's Crossing PUD (P25-130). The new application revises the development plan for the property. The previous development plan provided for a series of single-family villages on the east and west sides of McCarty Road. An 18 acre commercial site and 12 acre site for office and institutional uses was proposed for the east side of McCarty Road and 6.9 acre community center was proposed for the west side of McCarty Road. Primary access to the property was via Midway Road and McCarty Road with a proposed east-west connector (Jagged Creek Drive) through the property. The proposed 4th amendment to the PUD removes the east-west connector road and designates Newell Road along the southern boundary of the property as the primary access for the first phases of development. Newell Road will be constructed to connect to Wylder Parkway within the LTC Ranch DRI.

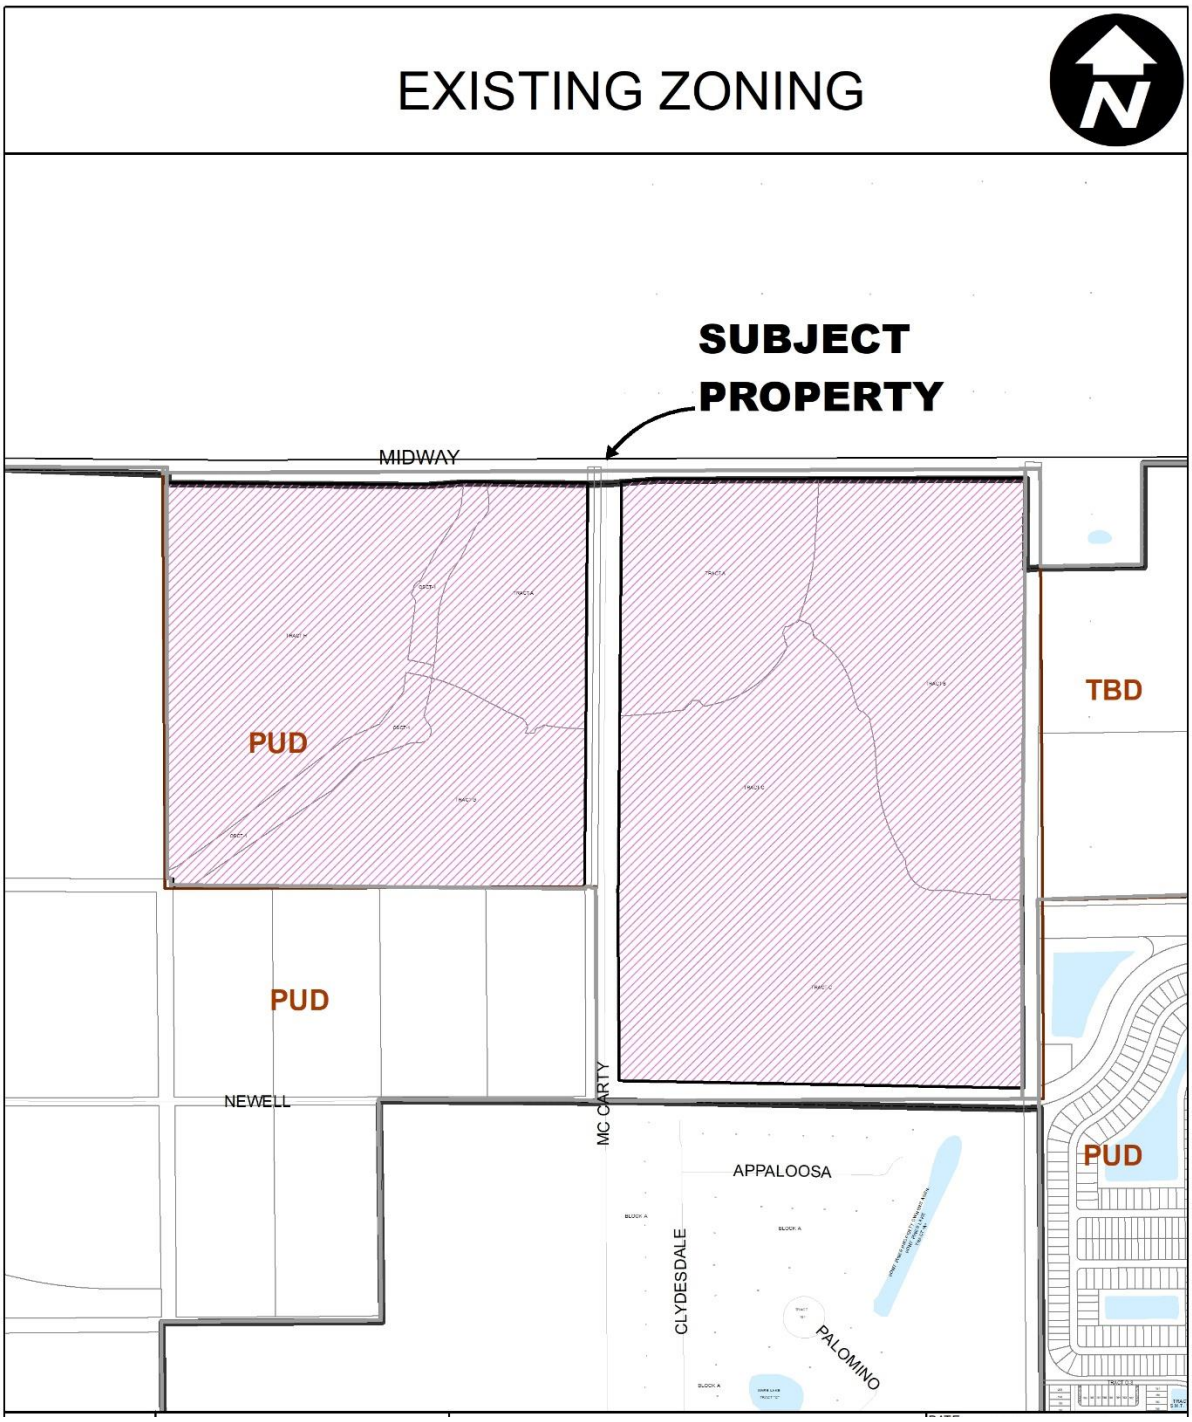
There is an associated application to amend the annexation agreement (P26-032) that is under review by City staff that with updated transportation and infrastructure requirements. The proposed amendment to the annexation agreement will be scheduled for the same City Council meeting as the adoption hearing for the comprehensive plan amendment.

To accommodate the proposed future land use map amendment and a revised development plan for the property per the proposed amendment to the PUD, city staff is recommending revised transportation improvements as outlined in the attached Public Works Memo. Staff's recommendations are attached as Exhibit "C". Staff's recommended conditions of approval recognize the developer's obligations with regard to the County and include additional City requirements for utility easements, the timing of improvements, and requirements for the conveyance, construction, and completion for Newell Road from the east boundary of the property to Wylder Parkway.

Public Notice Requirements



Public notices were mailed to landowners within 750 feet of the parcel, and the item was included in the advertisement for the June 2, 2026, Planning & Zoning Board Meeting.



Location and Site Information

Parcel Number(s):	3304-700-0008-000-7; 3304-700-0009-000-4; 3304-700-0007-000-0; 3305-800-0001-000-8; 3304-700-0011-000-1; 3304-700-0012-000-8; 3304-700-0006-000-3
Property Size:	Approximately 368 acres
Legal Description:	A portion of Tract A, Founder's Crossing PUD Master Plat, a portion of Tract C, Founder's Crossing PUD Master Plat; a portion of Tract A, Founder's Crossing PUD Master Plat 1st Replat; and a portion of Tract G, Founder's Crossing PUD Master Plat
Existing Future Land Use:	30 acres of RL (Low Density Residential) land use on the west side of McCarty Road and 18 acres of CG (Commercial General) and 12 acres of ROI (Residential, Office, Institutional) land use on the east side of McCarty Road
Proposed Future Land Use	18 acres of CG (Commercial General) and 12 acres of ROI (Residential, Office, Institutional) land use on the on the west side of McCarty Road and 30 acres of RL (Low Density Residential) land use on the east side of McCarty Road
Existing Use:	Vacant

COMPREHENSIVE PLAN REVIEW AND ANALYSIS

Land Use Consistency (Policy 1.1.7.1): Policy 1.1.7.1 of the Future Land Use Element states that the City shall review future land use map amendments based on the amount of land required to accommodate anticipated growth, the character of undeveloped land, the availability of water supplies, public facilities and services, the need for job creation, capital investment, and economic development as well as the need to satisfy a deficiency or mix of uses in the Future Land Use Map.

Criteria	Consistent with criteria (Y/N or N/A)
Satisfy a deficiency or mix of uses in the Plan map	*N/A*
Accommodate projected population or economic growth	*N/A*
Diversify the housing choices	*N/A*
Enhance or impede provision of services at adopted LOS Standards	*N/A*
Compatibility with abutting and nearby land uses	*Y*
Enhance or degrade environmental resources	*N/A*
Job creation within the targeted industry list	*N/A*

Staff Analysis: This application maintains the 342.6 acres of RL (Low Density Residential), 18 acres of CG (General Commercial), 12 acres of ROI (Residential Office Institutional), and 13.4 acres of OSC (Open Space Conservation) land uses that were approved for the subject property in 2004 as part of a large scale comprehensive plan amendment (Kenco Communities, Inc. P03-357). It revises the location for the CG (General Commercial) land use and the ROI (Residential, Office and Institutional) land use areas based on a revised development plan for the property. The applicant has stated that the proposed land use changes provide commercial and office uses along Midway Road to serve surrounding development and to provide a transition to lower intensity residential development along McCarty Road. No changes are proposed to the 13.4 acres of OSC (Open Space Conservation) land with this application.

Adequate Public Facilities Review (Objective 1.1.3)

This application does not increase or decrease any of the previously approved land use acreages and project entitlements. This amendment only proposes a location change to the entitled uses for the 18 acres of CG (General Commercial) land use and 12 acres of ROI (Residential Office Institutional) land Therefore, there is no change to the capacity demand analysis previously approved for the project.

Sewer and Water Service

An annexation agreement was approved for the 386-acre, Founder's Crossing project in 2004. The annexation agreement addresses the sewer, water, transportation, stormwater, and other requirements required to serve the property. The applicant has applied for an amendment to the annexation agreement. Both the existing annexation agreement and the proposed amendment to the annexation maintain the requirement for the property owner to install, or cause to be installed, at its sole cost and expense, the on-site water and wastewater transmission facilities to service the property as well as requirements for offsite improvements.

Traffic

The existing annexation agreement requires the property owner to participate in the financing of improvements to Midway Road and McCarty Road via the establishment of a special assessment district. Both Midway Road and McCarty Road are county roadways. In 2008, the original developer entered into a contribution agreement with St. Lucie County (attached) that includes a monetary contribution for

Midway Road improvements and requirements for construction of McCarty Road from Midway Road to Newell Road as a two-lane roadway. Staff's recommended conditions of approval (Exhibit "C") recognize the developer's obligations with regard to the County and include additional City requirements for utility easements, the timing of improvements, and requirements for the conveyance, construction, and completion for Newell Road from the east boundary of the property to Wylder Parkway.

Parks/Open Space: Parks and recreation requirements were met via w contribution of land. Midway Development East, Inc. (Kenco Communities) deeded to the City approximately 36 acres of land in the northwest annexation area for park and recreation uses in 2009.

Solid Waste: Solid waste impacts are measured and planned based on population projections on an annual basis. There is adequate capacity available.

Public School Concurrency Analysis: Public school concurrency was addressed with the original future land use map amendment. There is an existing agreement (attached) between the School Board of St. Lucie County and Midway Development East, Inc. that addresses contribution of a school site.

Environmental: The Founder's Crossing project consist of lands that were previously converted to citrus groves and subsequently cleared and currently used for cattle grazing. There is a segment of Eleven-Mile Creek which occurs within the western portion of the property that is within the 13.4 acres of OSC (Open Space Conservation) designated land. No gopher tortoises or burrows were found on the property. Prior to project clearing, additional surveys will be required.

Flood Zone: The properties that are the subject of this application are within Zone AE: 20.5' on the west side and 19' on the east side. There is a conditional letter of a map revision from FEMA (attached) that provides for the developer to fill the property to where the finished floor elevation of any structure will be raised above the base flood elevation.

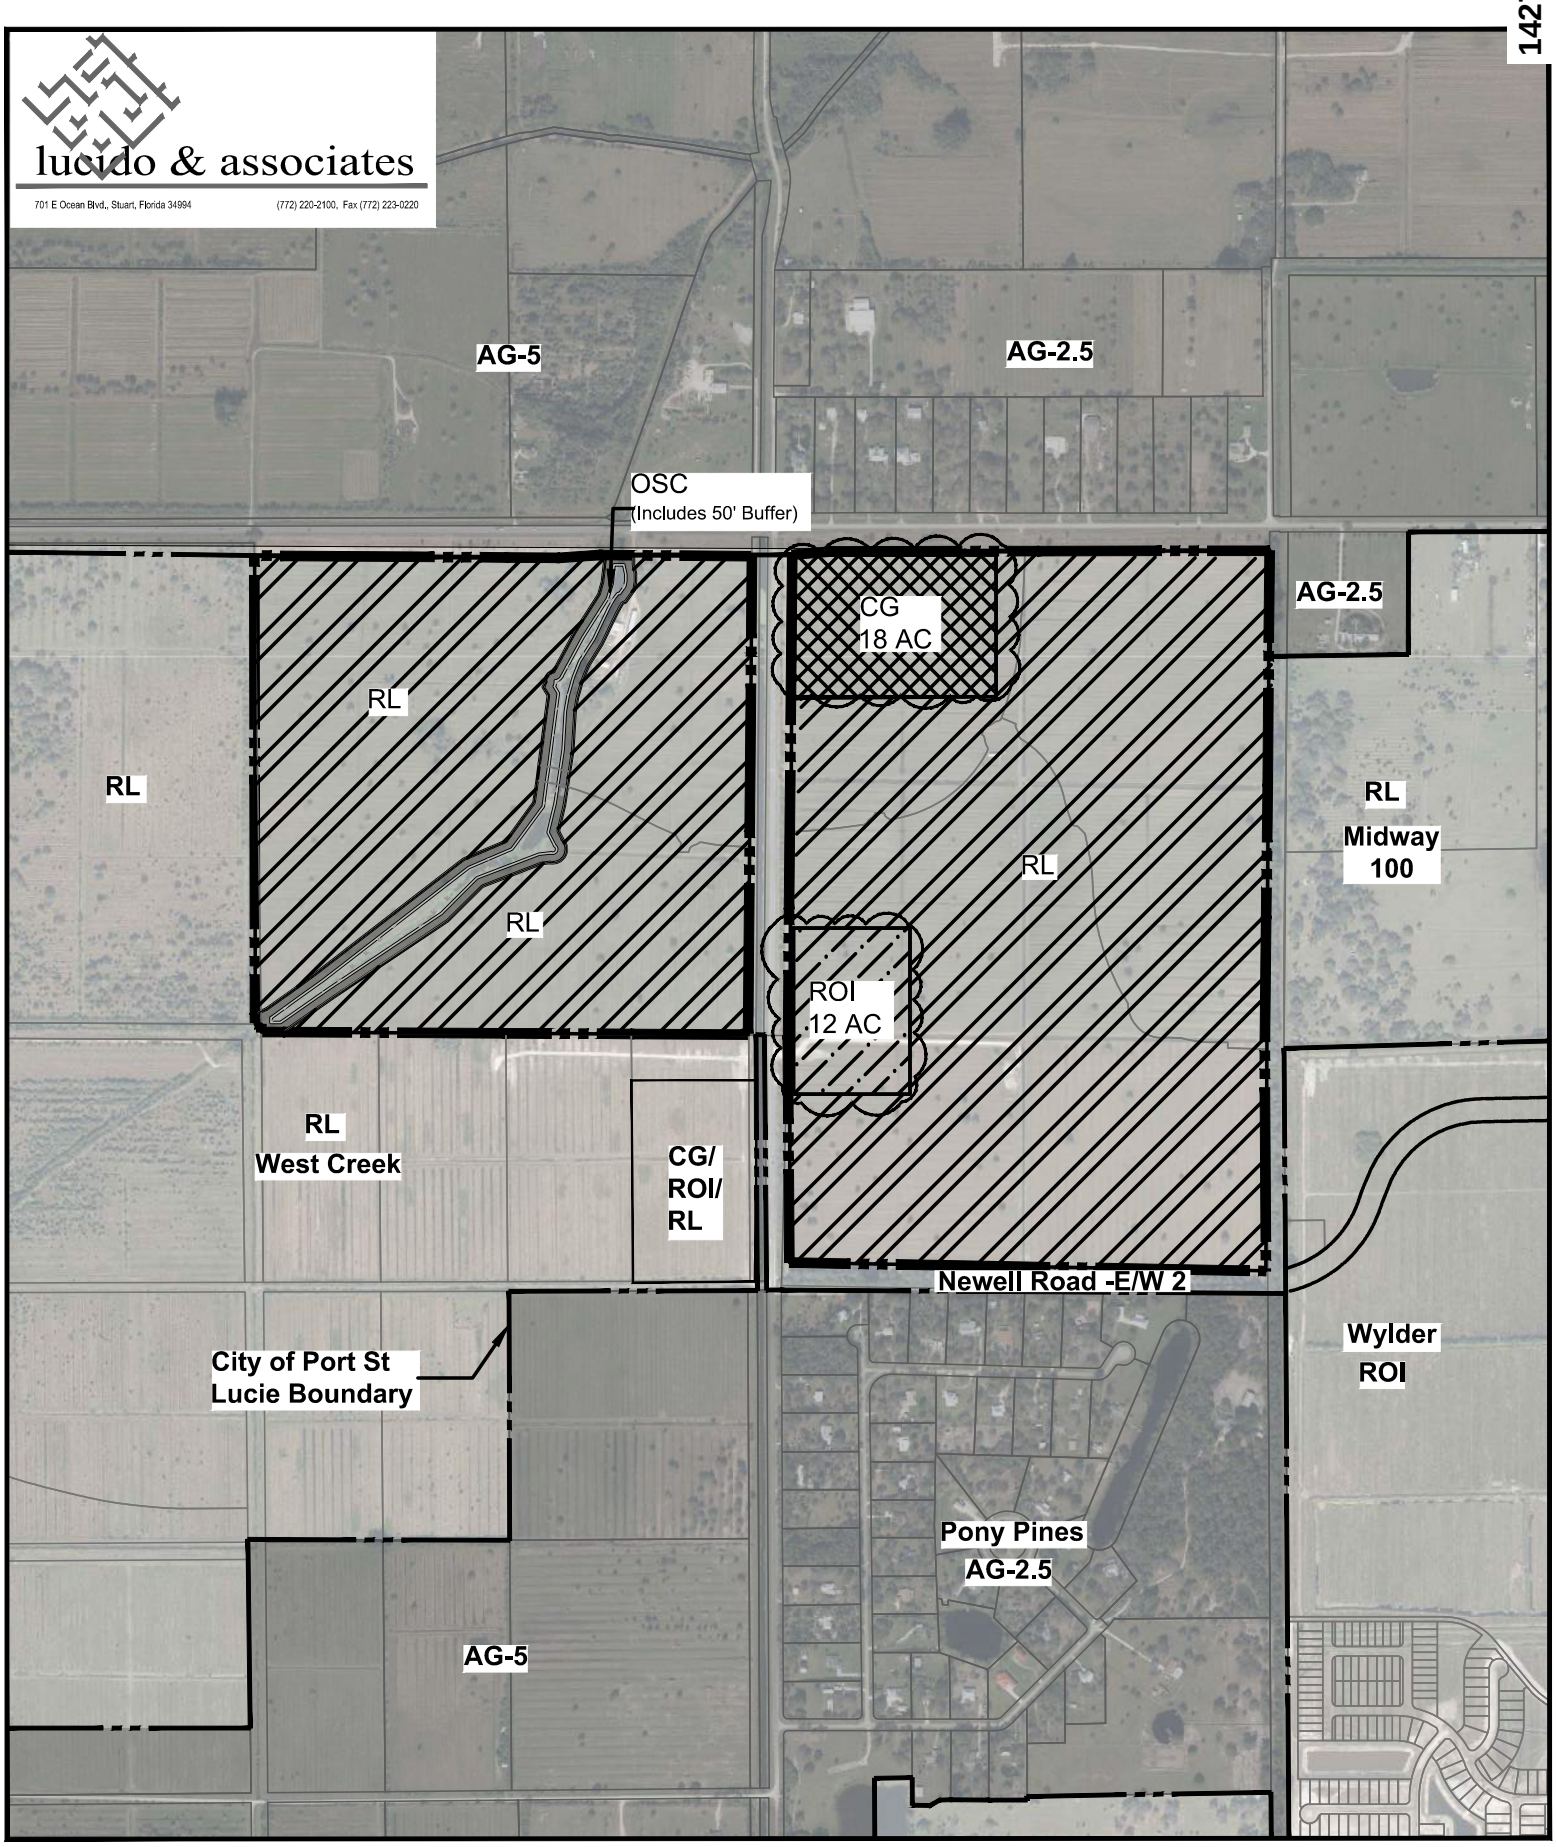
Other

The ordinance adopting the large scale comprehensive plan amendment in 2004 included specific conditions of approval that pertained to the design of the project. These conditions that are no longer applicable to the project and will be removed in the ordinance for this comprehensive plan amendment.

STAFF RECOMMENDATION

The Planning and Zoning Department staff finds the petition to be consistent with the intent and direction of the City's comprehensive plan and recommends approval subject to the conditions listed in Exhibit "C":

Planning and Zoning Board Action Options:



- Motion to recommend approval to the City Council
- Motion to recommend approval to the City Council - with conditions
- Motion to recommend denial to the City Council
- Motion to table

Please note: Should the Board need further clarification or information from either the applicant and/or staff, it may exercise the right to *table* or *continue* the hearing or review to a future meeting.

Re: Founders Crossing – Project History/Justification
Project Type: Comprehensive Plan

Dear Planner,

The Founders Crossing Planned Unit Development (PUD) was originally approved by the City Council on April 11, 2005 (Ordinance 05-165). The project was planned by Kenco Communities as a suburban mixed-use development encompassing approximately 386 acres, with an emphasis on walkability, convenience, and a variety of housing options. The approved PUD entitled up to 875 residential units at a gross density of 2.27 dwelling units per acre, together with an 18-acre commercial pod, a 12-acre office/institutional pod, a 6.9-acre recreation area, and 13.4 acres of conservation/open space along Eleven Mile Creek, all connected by internal pedestrian pathways.

Subsequent amendments to the PUD were approved by the City Council on December 12, 2005 (First Amendment), December 10, 2007 (Second Amendment), and November 11, 2008 (Third Amendment). As part of the Third Amendment, the maximum buildout thresholds were reduced to 150,000 square feet of commercial use and 80,000 square feet of office/institutional use, while the residential entitlement remained unchanged at 875 dwelling units. No changes were made to the overall land use acreages as adopted in the Comprehensive Plan.

Between 2004 and 2010, several agreements supporting the development of Founders Crossing were executed, including the Annexation Agreement, Impact Fee Prepayment Agreement, Developer Master Utility Agreement (and Amendment #1), Contribution Agreement with St. Lucie County, and Settlement Agreements governing roadway and infrastructure improvements. These agreements remain in effect and associated with the project.

Due to the national economic downturn, Kenco Communities was unable to proceed with final development approvals. Consequently, on July 26, 2010, the City Council approved an extension of the PUD expiration date to November 11, 2012.

In 2012, City National Bank of Florida foreclosed on the property and took title on August 13, 2012, through its subsidiary, CNB RE2 Holdings, LLC. Following acquisition, City National brought the project current under the Impact Fee Prepayment Agreement by remitting $33,000.00 for the 2011 Job Growth/Economic Development Public Building Impact Fee.

Founders Crossing remains a well-entitled project in a highly desirable location approximately 1.5 miles from I-95, with more than one mile of frontage along Midway Road and frontage along Eleven Mile Creek. Utility agreements are in place, the property retains its agricultural exemption, and future land use permits residential, commercial, office, and institutional development.

Justification and Planning Consistency
The approved land use configuration provides appropriate transitions between higher- and lower-intensity uses. Commercial (CG) uses are located along Midway Road to serve surrounding development, with Residential/Office/Institutional (ROI) uses co-located adjacent to the commercial area to create a compatible transition. Lower-density residential (RL) uses surround the ROI areas, further buffering residential neighborhoods from higher-intensity development. With the relocation of the CG and ROI land uses to the western parcel, McCarty Road serves as a logical transition toward the residential land uses located on the eastern portion of the site.

From a Comprehensive Plan perspective, there are no changes to the approved land use acreages. The project remains consistent with the City's long-term growth objectives and development patterns.

Surrounding Land Use and Zoning
The property is surrounded by a mix of agricultural lands, residential development, and planned mixed-use communities, consistent with the evolving suburban context of this area of Port St. Lucie:

- **North:** AG-5 and AG-2.5 zoning under St. Lucie County jurisdiction; citrus groves and pasture.
- **South:** AG-5 and AG-2.5 zoning under St. Lucie County jurisdiction; citrus groves and the Pony Pines residential subdivision.
- **East:** AG-2.5 zoning under St. Lucie County jurisdiction and North Pointe PUD under City of Port St. Lucie jurisdiction; nursery operations, pasture, and bedded fields.
- **West:** AG-5 zoning under St. Lucie County jurisdiction; citrus groves and the proposed West Creek PUD.

These surrounding uses are compatible with the approved PUD and consistent with anticipated growth patterns.

The site contains environmentally sensitive features, including Eleven Mile Creek, which traverses the property and serves as a natural drainage corridor. Jurisdictional wetlands are primarily associated with the creek and adjacent low-lying areas. Eleven Mile Creek has been historically impacted by agricultural use and is regulated by an existing control structure at Midway Road. A minimum 50-foot buffer on both sides of the creek, totaling approximately 13.4 acres, is designated as Open Space Conservation (OSC). Existing native vegetation along the creek will be preserved, and native trees throughout the site will be retained or relocated where feasible. Existing Florida Power & Light (FPL) easements, if present, will be accommodated in the final site design. Any unavoidable impacts to wetlands or surface waters will be mitigated in accordance with applicable permitting requirements.

Prior to the initiation of development, the Founders Crossing project will be subject to review and approval by multiple agencies with jurisdiction over land use, infrastructure, environmental resources, and utilities. The City of Port St. Lucie will retain primary regulatory authority, including review for PUD compliance, site plan and engineering approvals, issuance of building permits, concurrency determinations, and assessment of applicable impact fees. The South Florida Water Management District (SFWMD) will review the project and issue an Environmental Resource Permit (ERP) addressing stormwater management, wetlands, and surface water impacts. Where applicable, the Florida Department of Environmental Protection (FDEP) will provide additional review and permitting for regulated wetlands and surface waters. St. Lucie County will coordinate review related to roadway improvements, interlocal agreements, and regional infrastructure connections, while the Florida Department of Transportation (FDOT) will review and issue access and roadway permits for any impacts to state-maintained roadways. Coordination with Florida Power & Light (FPL) will also be required to address existing utility easements and to obtain approval for electrical service to the site.

Re: Founders Crossing – Cover Letter
Project Type: Comprehensive Plan

Dear Planner,

On behalf of Founders Crossing, LLC, we respectfully submit this Comprehensive Plan Amendment application package requesting the reallocation of land uses within the Founders Crossing project.

This modification supports evolving market demands and enhances the project's ability to serve the surrounding community with a more balanced and flexible mix of uses.

We appreciate your consideration of this request and look forward to working with staff throughout the review process. Please find attached the following items in support of the application:

1. Cover Letter
2. Response Letter
3. Response to Ordinance Comments (subject to change)
4. Justification / Project History
5. Property Cards
6. Deed
7. Traffic Analysis
8. Environmental Report (East & West)
9. Map Exhibits
10. Plat
11. Drainage Map
12. Capacity Analysis
13. Agent Authorization

Should you have any questions or require additional information, please do not hesitate to contact me.

Sincerely,

Derrick E Phillips Jr

Re: Founders Crossing

Dear Planning:

As owner of the property referenced above, please consider this correspondence as formal authorization for **Lucido & Associates (Agent)** to represent **Founder's Crossing, LLC (Owner/Applicant)** during the governmental review process for the above referenced project, which may include submission of development applications, plans and permits, and other such related matters to effectuate the review process for the proposed development.

Thank you for your attention to this matter.

Sincerely,

Founder's Crossing, LLC

STATE OF FLORIDA
COUNTY OF PALM BEACH
The foregoing was acknowledged before me this 20 day of May, 2026, by R. Austin Burr, of Founders Crossing, LLC. (He/She [X] is personally known to me or [ ] has produced _____ as identification.

CITY OF PORT ST. LUCIE
HEART OF THE TREASURE COAST

MEMORANDUM

TO: Bridget Kean, AICP, Planning & Zoning

FROM: Diana Spriggs, P.E., Assistant Director, Public Works *D.S.*

DATE: June 16, 2026

SUBJECT: P25-113 Founders Crossing Comprehensive Plan Amendment
Traffic Generation & Circulation Approval

This application and Traffic Impact Analysis Methodology prepared by Traffic & Mobility Consultants on January 8, 2026 has been reviewed by the Public Works Department and our 3rd party consultant of Kittelson & Associates, Kok Wan Mah. The transportation elements of the project included as conditions of approval were found to be in compliance with the adopted level of service and requirements of Chapter 156 of City Code, and Public Works Policy 19-01pwd. A more detailed traffic analysis will be required to be reviewed and approved with the Planned Unit Development and Platting applications to fine tune the details of intersections, capacity, etc.

A full traffic analysis is not required at this time based on the nature of this Comprehensive Plan Amendment. The applicant is relocating the same uses and intensities over their same property boundaries.

As a part of the need to get roadway commitments as early as possible on new developments, City staff is recommending the following conditions of approval for this application:

1. Midway Road Requirements
    a. Developer's obligations to the County with respect to traffic improvements for Midway Road are as set forth in that certain Contribution Agreement entered into by Kenco and St. Lucie County on or about October 28, 2008 and recorded November 17, 2008 in Official Records Book 3033, Page 1644, of the Public Records of St. Lucie County, Florida ("Contribution Agreement").
    b. A 20' City Utility easement on the south side of Midway Road will be conveyed to the City in a form reasonably agreeable to the City of Port St. Lucie, if said easement has not already been conveyed to the City, within one hundred twenty (120) days following the issuance of any new PUD, or any amendment to the existing PUD, for the Property.

2. McCarty Road Requirements
    a. To facilitate a better regional network, McCarty Road will be improved from Midway Road approximately one (1) mile south to Newell Road.
    b. Within thirty-six (36) months following the issuance of any new PUD, or any amendment to the existing PUD, for the Property, commence improvements to McCarty Road from Midway Road approximately one (1) mile immediately south to Newell Road for a two (2) lane roadway, in accordance with standard County road design specifications ("McCarty Road Segment").
    c. The McCarty Road Segment must be complete, including but not limited to intersection improvements, including signalization if required by a traffic study, within thirty-six (36) months after the approval of the first residential final plat for the Property, or by the 250th residential building permit, whichever is sooner. For purposes of this section, complete shall mean open to the public for use.
    d. A 20' City utility easement on the east side of McCarty Road will be conveyed to the City in a form reasonably agreeable to the City, if said easement has not already been conveyed to the City, within one hundred twenty days (120) following the issuance of any new PUD, or any amendment to the existing PUD, for the Property.
    e. Use commercially reasonable efforts to secure and convey a 20' City Utility easement on the west side of the McCarty Road Segment to the City, in a form reasonably agreeable to the City, within one hundred twenty (120) days following the issuance of any new PUD, or any amendment to the existing PUD, for the Property.
    f. The obligations set forth herein with respect to McCarty Road Segment are in addition to, not in place of, those obligations in favor of the County contained in the Contribution Agreement.
3. Newell Road Requirements
    a. The right of way for Newell Road from the east boundary of the Property to McCarty Road must be conveyed to the City in fee simple no later than one hundred (120) days from approval of any new PUD or any amendment to the existing PUD for the Property.
    b. Cause the conveyance of the right-of-way segment for Newell Road from the east boundary of the Property east to Wylder Parkway no later than one hundred twenty (120) days from approval of any new PUD or any amendment to the existing PUD for the Property.
    c. Prior to issuance of any residential building permits (excluding residential building permits issued per builders at-risk policy), the segment of Newell Road from the east Newell Road entrance of the Property east to Wylder Parkway shall be platted and open to the public as a two (2) lane roadway.

d. Newell Road from the east Newell Road entrance of the Property west to McCarty Road must be open to the public as a two (2) lane roadway prior to the issuance of the 250th residential building permit or within 36 months of the approval of the first residential plat within the Property, whichever is earlier.
e. Convey a 10’ public utility easement on the north side of the right-of-way of Newell Road to public utilities in a form reasonably agreeable to the City of Port St. Lucie no later than one hundred twenty (120) days from approval of any new PUD or any amendment to the existing PUD for the Property.

These conditions are not intended to determine entitlement to impact fee or mobility fee credits. These types of determinations shall be made separately by the City in accordance with the City’s Code and applicable Florida law. Notwithstanding the foregoing, the McCarty Road Segment shall not be eligible for credits.

Exhibit "C" City Staff Recommended Conditions of Approval (Revised 6/16/2026)

City staff is recommending the following conditions of approval be included in the ordinance adopting the Founder's Crossing Comprehensive Plan Amendment (P26-113).

1. Midway Road Requirements.

   a. The obligations to the County with respect to traffic improvements for Midway Road are as set forth that certain Contribution Agreement entered into by Kenco and St. Lucie County on or about October 28, 2008 and recorded November 17, 2008 in Official Records Book 3033, Page 1644, of the Public Records of St. Lucie County, Florida ("Contribution Agreement").

   b. A 20' City Utility easement on the south side of Midway Road will be conveyed to the City in a form reasonably agreeable to the City of Port St. Lucie, if said easement has not already been conveyed to the City, within one hundred twenty (120) days following the issuance of any new PUD[1], or any amendment to the existing PUD, for the Property.

2. McCarty Road Requirements.

   a. To facilitate a better regional network, McCarty Road will be improved from Midway Road approximately one (1) mile south to Newell Road.

   b. Within thirty-six (36) months following the issuance of any new PUD, or any amendment to the existing PUD, for the Property, commence improvements to McCarty Road from Midway Road approximately one (1) mile immediately south to Newell Road for a two (2) lane roadway, in accordance with standard County road design specifications ("McCarty Road Segment").

   c. The McCarty Road Segment must be complete, including but not limited to intersection improvements, including signalization if required by a traffic study, within thirty-six (36) months after the approval of the first residential final plat for the Property, or by the 250th residential building permit, whichever is sooner. For purposes of this section, complete shall mean open to the public for use.

d. A 20' City utility easement on the east side of McCarty Road will be conveyed to the City in a form reasonably agreeable to the City, if said easement has not already been conveyed to the City, within one hundred twenty days (120) following the issuance of any new PUD, or any amendment to the existing PUD, for the Property.

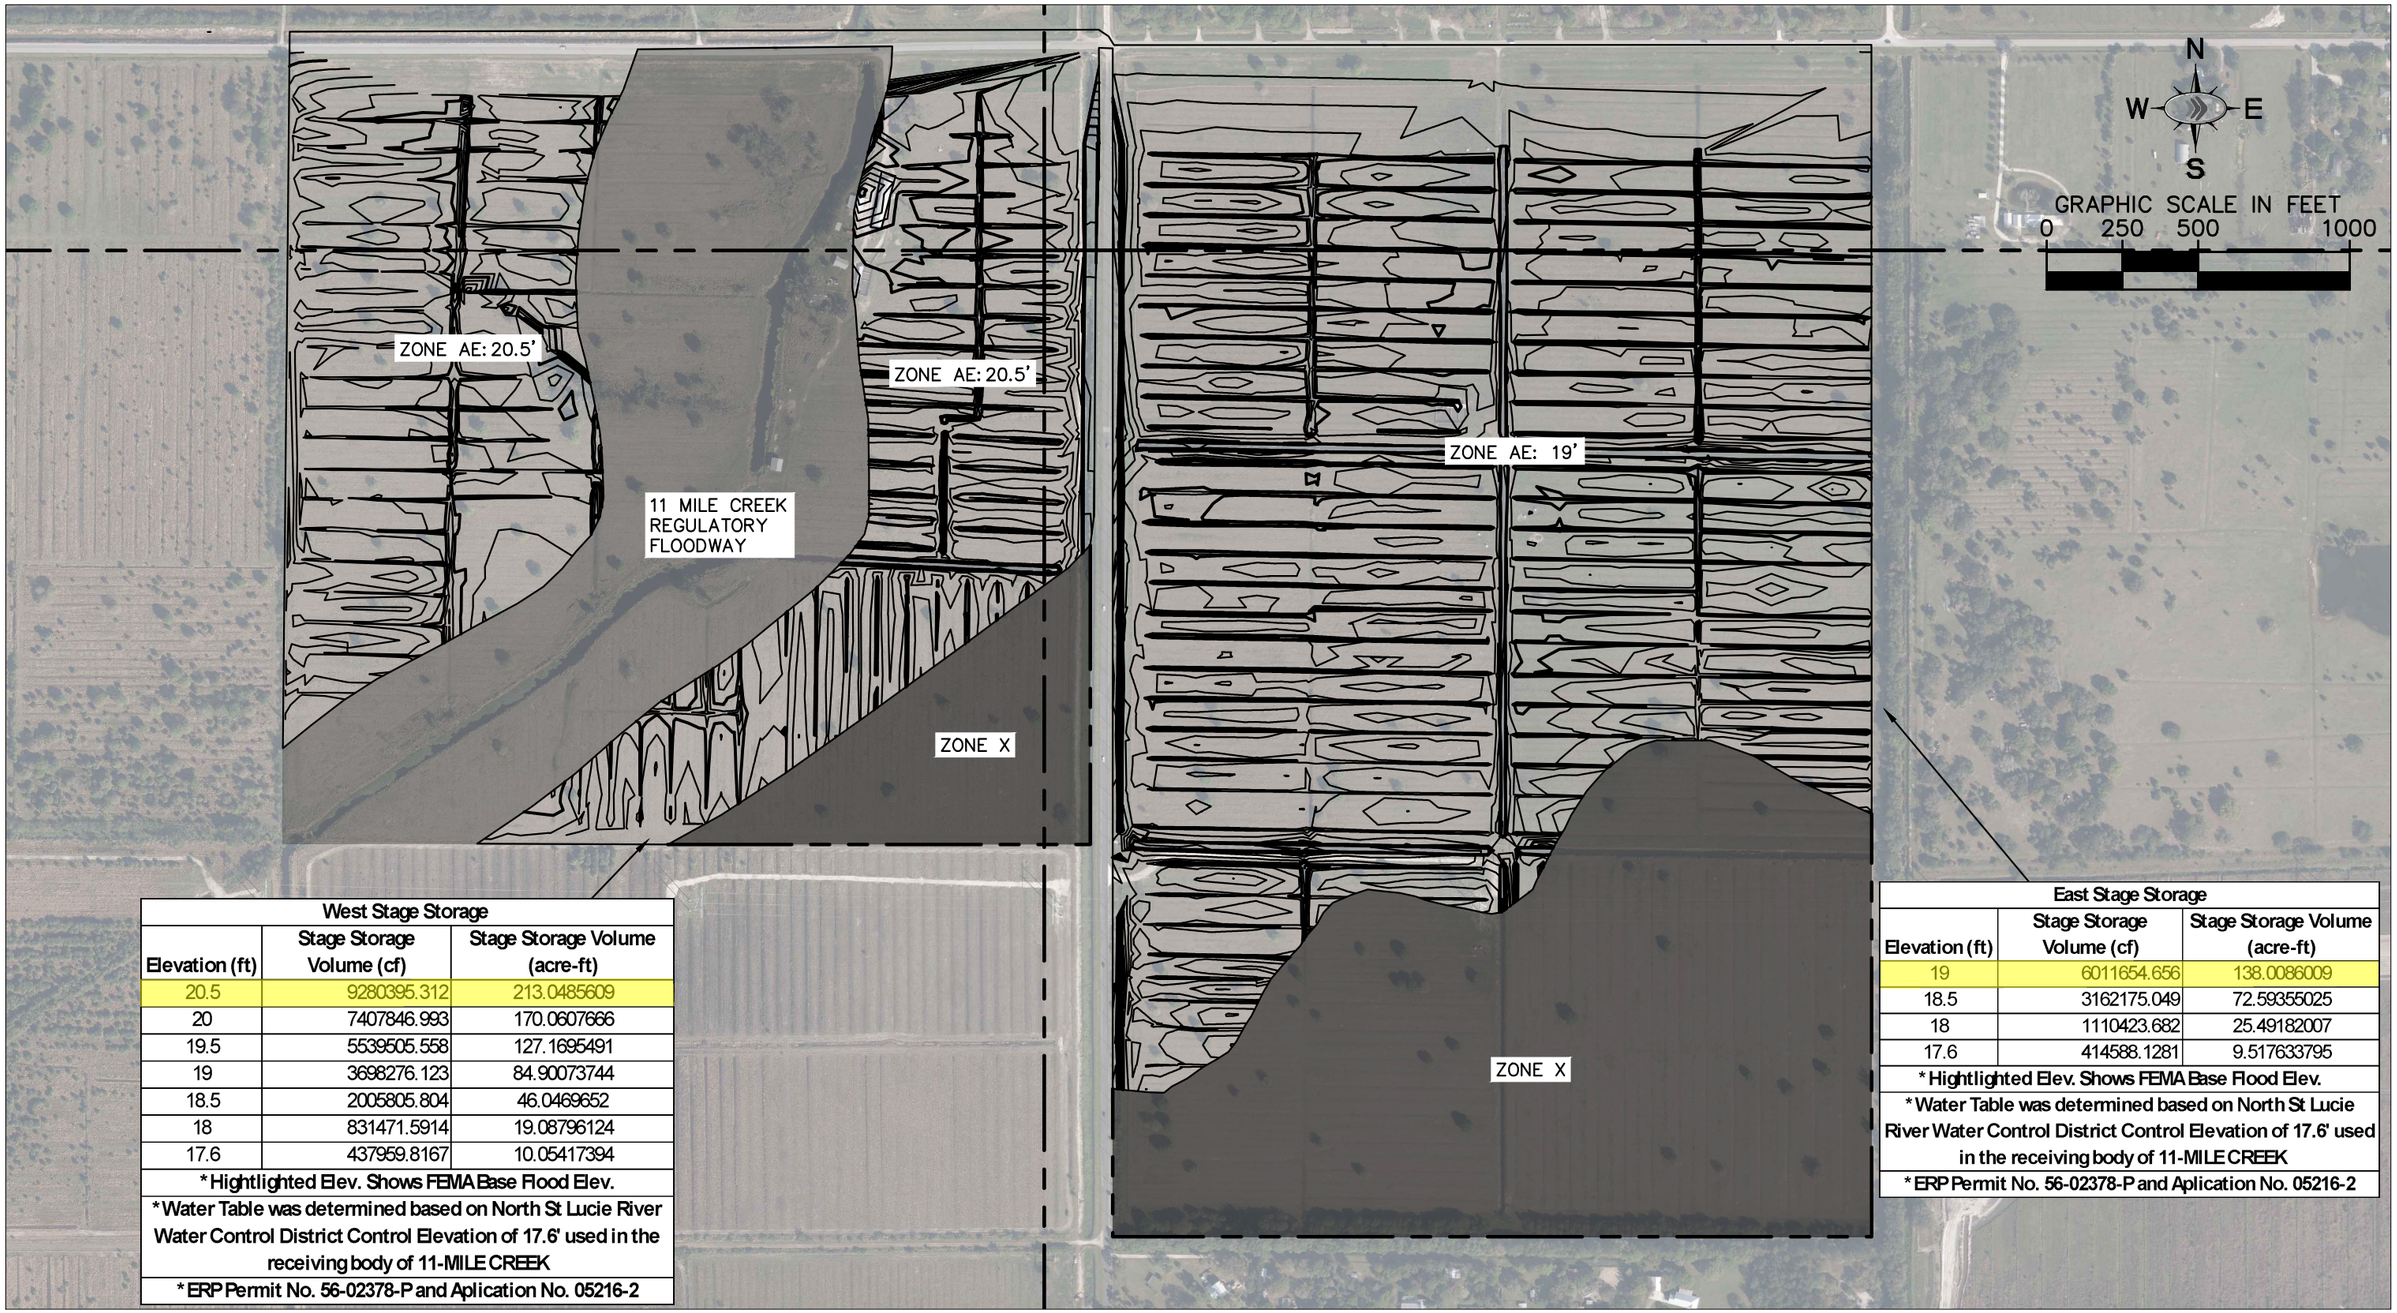
e. Use commercially reasonable efforts to secure and convey a 20' City Utility easement on the west side of the McCarty Road Segment to the City, in a form reasonably agreeable to the City, within one hundred twenty (120) days following the issuance of any new PUD, or any amendment to the existing PUD, for the Property.

f. The obligations set forth herein with respect to McCarty Road Segment are in addition to, not in place of, those obligations in favor of the County contained in the Contribution Agreement.

3. Newell Road Requirements.

a. The right-of-way for Newell Road from the east boundary of the Property to McCarty Road must be conveyed to the City in fee simple no later than one hundred twenty (120) days from approval of any new PUD or any amendment to the existing PUD for the Property.

b. Cause the conveyance of the right-of-way segment for Newell Road from the east boundary of the Property east to Wylder Parkway no later than one hundred twenty (120) days from approval of any new PUD or any amendment to the existing PUD for the Property.



c. Prior to issuance of any residential building permits (excluding residential building permits issued per the City's builders' at-risk policy), the segment of Newell Road from the east Newell Road entrance to the Property, east to Wylder Parkway shall be platted and open to the public as a two (2) lane roadway.

d. The segment of Newell Road from the east Newell Road entrance of the Property west to McCarty Road must be open to the public for use as a two (2) lane roadway prior to the issuance of the 250th residential building permit or within 36 months of the approval of the first residential plat within the Property, whichever is earlier.

e. Convey a 10' public utility easement on the north side of the right-of-way of Newell Road to public utilities in a form reasonably agreeable

to the City of Port St. Lucie no later than one hundred twenty (120) days from approval of any new PUD or any amendment to the existing PUD for the Property.

Nothing herein is intended to determine entitlement to impact fee or mobility fee credits. These types of determinations shall be made separately by the City in accordance with the City's Code and applicable Florida law. Notwithstanding the foregoing, the McCarty Road Segment shall not be eligible for credits.

THE HONORABLE JESUS MEREJO
CITY MANAGER
CITY OF PORT ST. LUCIE
121 SW PORT ST. LUCIE BOULEVARD,
BUILDING A
PORT ST. LUCIE, FL 34984-5042

CASE NO.: 26-04-2299C
COMMUNITY: CITY OF PORT ST. LUCIE, ST. LUCIE COUNTY, FLORIDA
COMMUNITY NO.: 120287

DEAR MR. MEREJO:

This is in reference to a request that the Federal Emergency Management Agency (FEMA) determine if the property described in the enclosed document is located within an identified Special Flood Hazard Area, the area that would be inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood), on the effective National Flood Insurance Program (NFIP) map. Using the information submitted and the effective NFIP map, our determination is shown on the attached Conditional Letter of Map Revision based on Fill (CLOMR-F) Comment Document. This comment document provides additional information regarding the effective NFIP map, the legal description of the property and our comments regarding this proposed project.

Additional documents are enclosed which provide information regarding the subject property and CLOMR-Fs. Please see the List of Enclosures below to determine which documents are enclosed. Other attachments specific to this request may be included as referenced in the Determination/Comment document. If you have any questions about this letter or any of the enclosures, please contact the FEMA Map Insurance eXchange (FMIX) toll free at (877) 336-2627 (877-FEMA MAP) or by letter addressed to the Federal Emergency Management Agency, LOMC Clearinghouse, 3601 Eisenhower Avenue, Suite 500, Alexandria, VA 22304-6426.

Sincerely,

David N. Bascom

David N. Bascom, Acting Director
Engineering and Modeling Division
Risk Analysis, Planning and Information Directorate

Special Flood Hazard Area (SFHA) - The SFHA is an area that would be inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood).

ADDITIONAL CONSIDERATIONS (Please refer to the appropriate section on Attachment 1 for the additional considerations listed below.)

LEGAL PROPERTY DESCRIPTION
PORTIONS REMAIN IN THE SFHA
CONDITIONAL LOMR-F DETERMINATION
STATE LOCAL CONSIDERATIONS

This document provides the Federal Emergency Management Agency's comment regarding a request for a Conditional Letter of Map Revision based on Fill for the property described above. Using the information submitted and the effective National Flood Insurance Program (NFIP) map, we have determined that the proposed described portion(s) of the property(ies) would not be located in the SFHA, an area inundated by the flood having a 1-percent chance of being equaled or exceeded in any given year (base flood) if built as proposed. Our final determination will be made upon receipt of a copy of this document, as-built elevations, and a completed Community Acknowledgement form. Proper completion of this form certifies the subject property is reasonably safe from flooding in accordance with Part 65.5(a)(4) of our regulations. Further guidance on determining if the subject property is reasonably safe from flooding may be found in FEMA Technical Bulletin 10-01. A copy of this bulletin can be obtained by calling the FEMA Map Assistance Center toll free at (877) 336-2627 (877-FEMA MAP) or from our web site at http://www.fema.gov/mit/tb1001.pdf. This document is not a final determination; it only provides our comment on the proposed project in relation to the SFHA shown on the effective NFIP map.

This comment document is based on the flood data presently available. The enclosed documents provide additional information regarding this request. If you have any questions about this document, please contact the FEMA Mapping and Insurance eXchange (FMIX) toll free at (877) 336-2627 (877-FEMA MAP) or by letter addressed to the Federal Emergency Management Agency, LOMC Clearinghouse, 3601 Eisenhower Avenue, Suite 500, Alexandria, VA 22304-6426.

CONDITIONAL LETTER OF MAP REVISION BASED ON FILL COMMENT DOCUMENT

ATTACHMENT 1 (ADDITIONAL CONSIDERATIONS)

PORTIONS OF THE PROPERTY REMAIN IN THE SFHA (This Additional Consideration applies to the preceding 1 Property.)

Portions of this property, but not the subject of the Determination/Comment document, may remain in the Special Flood Hazard Area. Therefore, any future construction or substantial improvement on the property remains subject to Federal, State/Commonwealth, and local regulations for floodplain management.

CONDITIONAL LOMR-F DETERMINATION (This Additional Consideration applies to the preceding 1 Property.)

Comments regarding this conditional request are based on the flood data presently available. Our final determination will be made upon receipt of this Comment Document, certified as-built elevations and/or certified as-built survey. Since this request is for a Conditional Letter of Map Revision based on Fill, we will also require the applicable processing fee, and the "Community Acknowledgement" form. Please note that additional items may be required before a final as-built determination is issued.

This letter does not relieve Federal agencies of the need to comply with Executive Order 11988 on Floodplain Management in carrying out their responsibilities and providing Federally undertaken, financed, or assisted construction and improvements, or in their regulating or licensing activities.

STATE AND LOCAL CONSIDERATIONS (This Additional Consideration applies to all properties in the CLOMR-F COMMENT DOCUMENT)

Please note that this document does not override or supersede any State or local procedural or substantive provisions which may apply to floodplain management requirements associated with amendments to State or local floodplain zoning ordinances, maps, or State or local procedures adopted under the National Flood Insurance Program.

This attachment provides additional information regarding this request. If you have any questions about this attachment, please contact the FEMA Mapping and Insurance eXchange (FMIX) toll free at (877) 336-2627 (877-FEMA MAP) or by letter addressed to the Federal Emergency Management Agency, LOMC Clearinghouse, 3601 Eisenhower Avenue, Suite 500, Alexandria, VA 22304-6426.

PROPERTY INFORMATION FORM

O.M.B. NO. 1660-0015
Expires February 28, 2014

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this data collection is estimated to average 1.63 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting the form. This collection is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0015). **NOTE: Do not send your completed form to this address.**

This form may be completed by the property owner, property owner's agent, licensed land surveyor, or registered professional engineer to support a request for a Letter of Map Amendment (LOMA), Conditional Letter of Map Amendment (CLOMA), Letter of Map Revision Based on Fill (LOMR-F), or Conditional Letter of Map Revision Based on Fill (CLOMR-F) for existing or proposed, single or multiple lots/structures. In order to process your request, all information on this form must be completed ***in its entirety***, unless stated as optional. **Incomplete submissions will result in processing delays.** Please check the item below that describes your request:

☐ LOMA	A letter from DHS-FEMA stating that an existing structure or parcel of land that has not been elevated by fill (natural grade) would not be inundated by the base flood.
☐ CLOMA	A letter from DHS-FEMA stating that a proposed structure that is not to be elevated by fill (natural grade) would not be inundated by the base flood if built as proposed.
☐ LOMR-F	A letter from DHS-FEMA stating that an **existing** structure or parcel of land that has been **elevated by fill** would not be inundated by the base flood.
■ CLOMR-F	A letter from DHS-FEMA stating that a parcel of land or **proposed** structure that will be **elevated by fill** would not be inundated by the base flood if fill is placed on the parcel as proposed or the structure is built as proposed.

Fill is defined as material from any source (including the subject property) placed that raises the ground to or above the Base Flood Elevation (BFE). The common construction practice of removing unsuitable existing material (topsoil) and backfilling with select structural material is not considered the placement of fill if the practice does not alter the existing (natural grade) elevation, which is at or above the BFE. **Fill that is placed before the date of the first National Flood Insurance Program (NFIP) map showing the area in a Special Flood Hazard Area (SFHA) is considered natural grade.**

Has fill been placed on your property to raise ground that was previously below the BFE? ☐ Yes ■ No If yes, when was fill placed? mm/dd/yyyy

Will fill be placed on your property to raise ground that is below the BFE? ■ Yes* ☐ No If yes, when will fill be placed? **Proposed 2027** mm/dd/yyyy

* If yes, Endangered Species Act (ESA) compliance must be documented to FEMA prior to issuance of the CLOMR-F determination (please refer page 4 to the MT-1 instructions).

1. Street Address of the Property (if request is for multiple structures or units, please attach additional sheet referencing each address and enter street names below):

   W Midway Road, Port St. Lucie

2. Legal description of Property (Lot, Block, Subdivision or abbreviated description from the Deed):

   Tracts A, B, and C, Founders Crossing PUD Master Plat

3. Are you requesting that a flood zone determination be completed for (check one):

   ☐ Structures on the property? What are the dates of construction? _____ (MM/YYYY)
   ☒ A portion of land within the bounds of the property? (A certified metes and bounds description and map of the area to be removed, certified by a licensed land surveyor or registered professional engineer, are **required**. For the preferred format of metes and bounds descriptions, please refer to the MT-1 Form 1 Instructions.)
   ☐ The entire legally recorded property?

4. Is this request for a (check one):

   ☐ Single structure
   ☐ Single lot
   ☐ Multiple structures (How many structures are involved in your request? List the number: _____)
   ☒ Multiple lots (How many lots are involved in your request? List the number: 451)

In addition to this form (MT-1 Form 1), please complete the checklist below. **ALL** requests must include one copy of the following:

- ■ Copy of the effective FIRM panel on which the structure and/or property location has been accurately plotted (property inadvertently located in the NFIP regulatory floodway will require Section B of MT-1 Form 3)
- ■ Copy of the Subdivision Plat Map for the property **(with recordation data and stamp of the Recorder's Office)**

OR

- ☐ Copy of the Property Deed **(with recordation data and stamp of the Recorder's Office)**, ***accompanied by*** a tax assessor's map or other certified map showing the surveyed location of the property relative to local streets and watercourses. The map should include at least one street intersection that is shown on the FIRM panel.
- ■ Form 2 – Elevation Form. If the request is to remove the structure, and an Elevation Certificate has already been completed for this property, it may be submitted in lieu of Form 2. If the request is to remove the entire legally recorded property, or a portion thereof, the lowest lot elevation must be provided on Form 2.
- ■ Please include a map scale and North arrow on all maps submitted.

For LOMR-Fs and CLOMR-Fs, the following must be submitted in addition to the items listed above:

- ■ Form 3 – Community Acknowledgment Form

For CLOMR-Fs, the following must be submitted in addition to the items listed above:

- ■ Documented ESA compliance, which may include a copy of an Incidental Take Permit, an Incidental Take Statement, a "not likely to adversely affect" determination from the National Marine Fisheries Service (NMFS) or the U.S. Fish and Wildlife Service (USFWS), or an official letter from NMFS or USFWS concurring that the project has "No Effect" on proposed or listed species or designated critical habitat. Please refer to the MT-1 instructions for additional information.

Please do *not* submit original documents. Please retain a copy of all submitted documents for your records.

DHS-FEMA encourages the submission of all required data in a digital format (e.g. scanned documents and images on Compact Disc [CD]). Digital submissions help to further DHS-FEMA's Digital Vision and also may facilitate the processing of your request.

Incomplete submissions will result in processing delays. For additional information regarding this form, including where to obtain the supporting documents listed above, please refer to the MT-1 Form Instructions located at http://www.fema.gov/plan/prevent/fhm/dl_mt-1.shtm.

Processing Fee (see instructions for appropriate mailing address; or visit http://www.fema.gov/fhm/frm_fees.shtm **for** the most current fee schedule)

Revised fee schedules are published periodically, but no more than once annually, as noted in the **Federal Register**. Please note: single/multiple lot(s)/structure(s) LOMAs are fee exempt. The current review and processing fees are listed below:

Check the fee that applies to your request:

- ☐ $325 (single lot/structure LOMR-F following a CLOMR-F)
- ☐ $425 (single lot/structure LOMR-F)
- ☐ $500 (single lot/structure CLOMA or CLOMR-F)
- ☐ $700 (multiple lot/structure LOMR-F following a CLOMR-F, or multiple lot/structure CLOMA)
- ■ $800 (multiple lot/structure LOMR-F or CLOMR-F)

Please submit the Payment Information Form for remittance of applicable fees. Please make your check or money order payable to:
National Flood Insurance Program.

All documents submitted in support of this request are correct to the best of my knowledge. I understand that any false statement may be punishable by fine or imprisonment under Title 18 of the United States Code, Section 1001.

ELEVATION FORM

O.M.B. NO. 1660-0015
Expires February 28, 2014

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this data collection is estimated to average 1.25 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting the form. This collection is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0015). **NOTE: Do not send your completed form to this address.**

This form must be completed for requests and must be completed and signed by a registered professional engineer or licensed land surveyor. **A DHS - FEMA National Flood Insurance Program (NFIP) Elevation Certificate may be submitted in lieu of this form for single structure requests.**

For requests to remove a structure on natural grade OR on engineered fill from the Special Flood Hazard Area (SFHA), submit the lowest adjacent grade (the lowest ground touching the structure), ***including an attached deck or garage***. For requests to remove an entire parcel of land from the SFHA, provide the lowest lot elevation; or, if the request involves an area described by metes and bounds, provide the lowest elevation within the metes and bounds description. All measurements are to be rounded to nearest tenth of a foot. In order to process your request, all information on this form must be completed ***in its entirety***. **Incomplete submissions will result in processing delays.**

1. NFIP Community Number: 120287 Property Name or Address: Founders Crossing

2. Are the elevations listed below based on ☐ ***existing*** or ■ ***proposed*** conditions? (Check one)

3. For the existing or proposed structures listed below, what are the types of construction? (check all that apply)
☐ crawl space ☐ slab on grade ☐ basement/enclosure ■ other (explain) This MT1 is not for structures, it is to remove area within the metes and bounds

4. Has DHS - FEMA identified this area as subject to land subsidence or uplift? (see instructions) ☐ Yes ■ No
If yes, what is the date of the current re-leveling? / (month/year)

5. What is the elevation datum? ☐ NGVD 29 ■ NAVD 88 ☐ Other (explain)
If any of the elevations listed below were computed using a datum different than the datum used for the effective Flood Insurance Rate Map (FIRM) (e.g., NGVD 29 or NAVD 88), what was the conversion factor?
Local Elevation +/- ft. = FIRM Datum

6. Please provide the Latitude and Longitude of the most upstream edge of the ***structure*** (in decimal degrees to the nearest fifth decimal place):
Indicate Datum: ☐ WGS84 ☐ NAD83 ☐ NAD27 Lat. . Long. .
Please provide the Latitude and Longitude of the most upstream edge of the ***property*** (in decimal degrees to the nearest fifth decimal place):
Indicate Datum: ■ WGS84 ☐ NAD83 ☐ NAD27 Lat. 27.364907 Long. -80.447728

Address	Lot Number	Block Number	Lowest Lot Elevation*	Lowest Adjacent Grade To Structure	Base Flood Elevation	BFE Source

DEPARTMENT OF HOMELAND SECURITY - FEDERAL EMERGENCY MANAGEMENT AGENCY

COMMUNITY ACKNOWLEDGMENT FORM

O.M.B. NO. 1660-0015
Expires February 28, 2014

PAPERWORK BURDEN DISCLOSURE NOTICE

Public reporting burden for this data collection is estimated to average 1.38 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting the form. This collection is required to obtain or retain benefits. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0015). NOTE: Do not send your completed form to this address.

This form must be completed for requests involving the existing or proposed placement of fill (complete Section A) ***OR*** to provide acknowledgment of this request to remove a property from the SFHA which was previously located within the regulatory floodway (complete Section B).

This form must be completed and signed by the official responsible for floodplain management in the community. **The six digit NFIP community number and the subject property address must appear in the spaces provided below. Incomplete submissions will result in processing delays.** Please refer to the MT-1 instructions for additional information about this form.

Community Number: 120287 Property Name or Address: Founders Crossing

A. REQUESTS INVOLVING THE PLACEMENT OF FILL

As the community official responsible for floodplain management, I hereby acknowledge that we have received and reviewed this Letter of Map Revision Based on Fill (LOMR-F) or Conditional LOMR-F request. Based upon the community's review, we find the completed or proposed project meets or is designed to meet all of the community floodplain management requirements, including the requirement that no fill be placed in the regulatory floodway, and that all necessary Federal, State, and local permits have been, or in the case of a Conditional LOMR-F, will be obtained. For Conditional LOMR-F requests, the applicant has or will document Endangered Species Act (ESA) compliance to FEMA prior to issuance of the Conditional LOMR-F determination. For LOMR-F requests, I acknowledge that compliance with Sections 9 and 10 of the ESA has been achieved independently of FEMA's process. Section 9 of the ESA prohibits anyone from "taking" or harming an endangered species. If an action might harm an endangered species, a permit is required from U.S. Fish and Wildlife Service or National Marine Fisheries Service under Section 10 of the ESA. For actions authorized, funded, or being carried out by Federal or State agencies, documentation from the agency showing its compliance with Section 7(a)(2) of the ESA will be submitted. In addition, we have determined that the land and any existing or proposed structures to be removed from the SFHA are or will be reasonably safe from flooding as defined in 44CFR 65.2(c), and that we have available upon request by DHS-FEMA, all analyses and documentation used to make this determination. For LOMR-F requests, we understand that this request is being forwarded to DHS-FEMA for a possible map revision.

B. PROPERTY LOCATED WITHIN THE REGULATORY FLOODWAY

As the community official responsible for floodplain management, I hereby acknowledge that we have received and reviewed this request for a LOMA. We understand that this request is being forwarded to DHS-FEMA to determine if this property has been inadvertently included in the regulatory floodway. We acknowledge that no fill on this property has been or will be placed within the designated regulatory floodway. We find that the completed or proposed project meets or is designed to meet all of the community floodplain management requirements.

ANNEXATION AGREEMENT

THIS ANNEXATION AGREEMENT (this "Agreement") is made and entered into by and among the CITY OF PORT ST. LUCIE, a municipal corporation of the State of Florida (the "City") and KENCO COMMUNITIES AT PORT ST. LUCIE, INC., a Florida corporation ("Kenco").

W I T N E S S E T H

WHEREAS, the City is a Florida municipal corporation located within St. Lucie County, Florida; and

WHEREAS, Kenco owns certain real property in unincorporated St. Lucie County, Florida, as described in Exhibit "A", attached hereto and made a part hereof (the "Property"); and

WHEREAS, approximately 1,280 feet of the Property's 3,973 feet eastern boundary adjoins the municipal boundary of the City; and

WHEREAS, therefore, a substantial part of a boundary of the Property is coterminous with a part of the municipal boundary of the City; and

WHEREAS, therefore, the Property is contiguous to the City; and

WHEREAS, Robert N. Klein, of Dean, Mead, Minton & Klein, as agent for Kenco, has filed a petition for voluntary annexation of the Property into the City dated September 15, 2003; which petition has been signed, ratified and adopted by Kenco; and

WHEREAS, Kenco desires to obtain for the Property the benefits and privileges of inclusion within the boundaries of the City which include the designation of the Property on the City's Future Land Use Map and the assignment of zoning categories to allow the most appropriate development of the Property and the provision of all services, facilities, and utilities as are available to all residents of the City; and

WHEREAS, the City has determined that the Property is concentrated in a single area; and

WHEREAS, annexation of the Property will not result in the creation of unincorporated areas being enclosed on all sides by a single municipality or by a single municipality and a natural or manmade obstacle that allows vehicular access only through unincorporated areas; and

WHEREAS, therefore, the annexation of the Property will not result in the creation of enclaves; and

WHEREAS, annexation of the Property will not result in the creation of either unincorporated or incorporated areas that are winding or turning; and

WHEREAS, therefore, annexation of the Property will not result in the creation of finger areas in a serpentine pattern; and;

WHEREAS, annexation of the Property will not result in the creation of either unincorporated areas that are isolated from other unincorporated areas or incorporated areas that are isolated from other incorporated areas; and

WHEREAS, therefore, annexation of the Property will not result in the creation of pockets; and

WHEREAS, therefore, the Property is reasonably compact; and

WHEREAS, the petition for annexation bears the signature of a person who is authorized to act on behalf of Kenco, the sole owner of the Property; and

WHEREAS, therefore, the petition of annexation bears the signatures of all owners of property in the area proposed to be annexed; and

WHEREAS, the annexation of the Property into the municipal boundaries of the City would be in the best interest of the City and the future residents of the Property; and

WHEREAS, Kenco and the City desire to establish certain development guidelines which specify the manner in which the Property will be developed; and

WHEREAS, Kenco desires to enter into this Agreement to memorialize its understanding and agreements with respect to the annexation, development and use of the Property; and

WHEREAS, upon Kenco's compliance with their respective obligations under this Agreement, the development of the Property will be consistent with the City's comprehensive plan and land development regulations; and

WHEREAS, Kenco and the City agree that it would be beneficial to the parties to initiate the development approval process prior to the effective date of the annexation to expedite development of the Property.

NOW, THEREFORE, in consideration of the mutual promises and other considerations contained herein, the parties hereto agree as follows:

1. **Recitations**. The recitations set forth above are true and correct and are incorporated herein by reference.

2. **Annexation**. On September 15, 2003, Kenco filed a voluntarily petition requesting the City to annex the Property into the municipal boundaries of the City. The parties shall take all actions necessary to effect the annexation of the Property in a timely manner in accordance with the procedures set forth in Section 171.044, Florida Statutes, and any other

applicable ordinances or regulations. It is the desire of all parties that the annexation be accomplished as rapidly as possible.

3. **Effective Date**. This Agreement shall become effective upon execution by both parties.

4. **Land Use**. Kenco proposes to develop the Property with no more than 875 residential dwelling units and up to 290,000 square feet of commercial, retail, professional office and/or institutional use, which Kenco initially believes will be allocated as follows: up to 180,000 square feet of commercial/retail; up to 30,000 square feet of office/showroom and up to 80,000 square feet of institutional use (collectively, the "Intended Uses"). Kenco has submitted a request to amend the City's Comprehensive Plan to include the Property and to assign land use designations to the Property to permit it to be developed with the Intended Uses. The City shall process said application in a timely manner in accordance with applicable statutes, ordinances and other regulations, and subject to paragraph 6 below.

5. **Zoning**. The City agrees that upon assigning the Property a City land use designation, the City shall process a rezoning application for the Property to PUD (Planned Unit Development) in accordance with the process required under the City's Code of Ordinances (the "Code") to permit the Intended Uses consistent with the land use designations. Notwithstanding the foregoing or anything contained in this Agreement to the contrary, any rezoning shall accommodate and permit use of the Property for agriculture or agricultural related purposes until such time as a plat establishing subdivided lots for nonagricultural development is recorded in the Public Records of St. Lucie County, Florida for the Property.

6. **No Waiver of Police Power.** As provided above and otherwise herein, the parties recognize and agree that certain provisions of this Agreement will require the City and/or its boards, departments or agencies, acting in their governmental capacity, to consider certain changes in the City's Comprehensive Plan, zoning ordinances or other applicable City codes, plans or regulations, as well as to consider other governmental actions as set forth in this Agreement. All such considerations and actions shall be undertaken in accordance with established requirements of state statute and City ordinances, including notice and hearing requirements, in the exercise of the City's jurisdiction under the police power. Nothing in this Agreement is intended to limit or restrict the powers and responsibilities of the City in acting on applications for comprehensive plan changes and applications for other development. The parties further recognize and agree that these proceedings shall be conducted openly, fully, freely and fairly in full accordance with law and with both procedural and substantive due process to be accorded the applicant and any member of the public.

7. **Utilities**.

a. The City desires to provide municipal utility services to the Property, including water, wastewater and irrigation, and represents that the City has sufficient existing or planned plant capacity to provide same. The City acknowledges that Kenco may create one or more Community Development Districts ("CDD's") in accordance with the requirements of Chapter 190, Florida Statutes, to finance and construct utility infrastructure, and to finance,

construct, own and maintain other infrastructure, to and for the Property. Kenco shall have no right to own or operate a utility. The City agrees to provide wastewater and potable water service to the Property with a capacity sufficient to accommodate the Intended Uses, so long as Kenco pays its fair share of the cost. Pursuant to and consistent with Sections 63.16 and 63.22 of the Code, on or before development of the Property, Kenco shall install, or cause to be installed, at its sole cost and expense, the on-site water and wastewater transmission facilities to service the Property; provided, however, that to the extent such transmission facilities are upsized or looped at the City's request to serve additional property other than the Property, the City shall reimburse Kenco for that amount that exceeds its hydraulic share in a manner mutually acceptable to Kenco and the City. The parties agree that upon completion and acceptance by the City of the on-site water and wastewater lines, such lines shall be transferred to the City to be owned and maintained by the City in perpetuity. Kenco and City agree that the location and design of any transmission water or sewer lines and easements for same shall be located in areas mutually agreed upon by the parties.

b. The parties agree to negotiate in good faith to enter into appropriate agreements to ensure that the municipal utility services described above are available and constructed as contemplated herein to serve the Property. Said agreements shall include, but not be limited to, a developer's agreement which provides for Kenco's hydraulic share contribution and reservation of line and plant capacity.

8. **Stormwater.** The City and the CDD(s), when and if formed, shall enter into an interlocal agreement which shall provide for the rebate to such applicable CDD of 75% of the stormwater utility assessments collected by the City from the Property. Notwithstanding any regulations to the contrary, no portion of the Property, nor Kenco, shall be assessed for any stormwater utility assessment until (i) the Property has been platted for urban development, and (ii) the Property is no longer used for agriculture or agricultural related purposes. The parties agree that Kenco shall be responsible for its stormwater permitting and with respect to the Property, for compliance with all National Pollution Discharge Elimination System rules and regulations. The CDD(s), when and if formed, shall be responsible for the maintenance of the stormwater system. In no event shall the City be entitled to impose or collect stormwater utility fees or assessments allocable to the years 1993 through 1997 against or with respect to the Property.

9. **Transportation System; Special Assessment Program.**

a. Kenco acknowledges that the improvement (including road surface, drainage and utilities) of (i) McCarty Road to the south boundary of the Property (the "McCarty Improvements"), and (ii) together with other benefited property owners, Midway Road from I-95 to McCarty Road (the "Midway Improvements") may be necessary and desirable in connection with development of the Property for the Intended Uses. The City hereby finds and agrees that constructing the McCarty Improvements and the Midway Improvements, through a special assessment district created pursuant to Chapter 170, Florida Statutes, is appropriate.

b. Upon written request by Kenco, the City agrees, as expeditiously as possible and in accordance with Chapter 170, Florida Statutes, to create a special assessment

district for the financing of the McCarty Improvements and/or the Midway Improvements for properties which will be specially benefited by such improvements and to include the Property in such special assessment district, such that such specially benefited properties shall each bear their pro-rata share of the cost of such improvements based on a reasonable formula and/or allocation.

c. In the event a special assessment district is created, Kenco hereby agrees to the inclusion of the Property into the special assessment district created by the City for the financing of the McCarty Improvements and/or the Midway Improvements which will specially benefit the Property and any other property benefited by such improvements.

d. Kenco agrees to provide the City an engineer's report(s) establishing the properties which would be specifically benefited by the levying of a special assessment for construction of the McCarty Improvements and/or the Midway Improvements; provided, however, that Kenco agrees that the Pony Pines Subdivision shall not be specifically benefited and therefore not required to pay for such improvements. Kenco further agrees to design the facilities identified in the engineer's report(s), which design shall be in accordance with the City's or County's standards, as applicable. The City agrees that Kenco shall be reimbursed from special assessment funds for the costs of each engineer's report, the design of the facilities identified as needed in the engineer's reports, and any other eligible costs advanced by Kenco.

e. The City agrees that the location and design of any stormwater management facilities to be constructed within an area of the Property shall be subject to the approval of Kenco.

f. Both the City and Kenco desire that the annexation of the Property and if requested by Kenco, the levying of any special assessment for financing the McCarty Improvements and/or the Midway Improvements, and the construction of the improvement are accomplished as rapidly as possible. In that regard, the City and Kenco anticipate that if the special assessments are levied, the McCarty Improvements and/or the Midway Improvements will be completed concurrent with the development of the Property.

g. The City and Kenco acknowledge that they intend to enter into a new capacity agreement, or amend the Capacity Agreement attached hereto as Exhibit "B", ensuring the adequate provision of public roads to serve the Property, reserving traffic capacity and providing for traffic concurrency as a result of the construction of the McCarty Improvements and/or the Midway Improvements.

h. The City and Kenco understand and acknowledge that McCarty Road and Midway Road are owned and maintained by St. Lucie County. The City agrees to negotiate and enter into an interlocal agreement or agreements with St. Lucie County authorizing the McCarty Improvements and/or the Midway Improvements pursuant to the special assessment district and to include any property specifically benefited to be assessed for such improvements.

i. To the extent that additional agreements are necessary to provide more specificity regarding the obligations and time periods referenced in this Section 9, the City and Kenco agree to negotiate in good faith to enter into appropriate agreements providing for same.

10. **Impact Fees.** The City agrees to support Kenco's request for its proportionate share of transportation impact fee credits available pursuant to the construction of, and/or land dedications for, the Midway Improvements. To the extent that the City imposes current or future impact fees applicable to future development within the Property, including but not limited to those for transportation, parks and schools, the City agrees that it may provide credit to Kenco against such impact fees for the value of public improvements constructed, or paid for, by Kenco, for funding contributions to public improvements made by Kenco.

11. **Taxation and Assessments.** The City acknowledges that the Property is used for agricultural purposes and in the past has benefited by a Greenbelt Exemption for ad valorem tax purposes (the so-called "agricultural exception"). The City agrees to support Kenco's receipt of a Greenbelt Exemption for the Property, or such undeveloped portion thereof, as the case may be, as long as the Property, or such undeveloped portion, is being used for agricultural purposes or agricultural related purposes prior to non-agricultural development. Further, the City agrees that the Property can be used for agriculture or agricultural related purposes after annexation.

12. **Payment for Public Facilities.** In addition to the amount due hereunder from Kenco for utilities set forth in paragraph 7 above, Kenco agrees to pay the City One Million Dollars ($1,000,000.00) as consideration to ensure that adequate public facilities (excluding water, wastewater and irrigation) exist to serve the Property and to provide concurrency for the Intended Uses. Kenco shall pay the foregoing amount to the City one (1) day prior to the date on which the City holds the public hearing for the second reading of the ordinance annexing the Property into the City (the "Annexation Ordinance"); provided, however, that title to said funds shall not vest in the City unless and until the Annexation Ordinance is approved by the City Council and the Annexation Ordinance becomes effective; provided, further, however, that in the event the Annexation Ordinance is challenged and a court of competent jurisdiction, or arbitration or mediation panel in a binding process, issues an order invalidating the Annexation Ordinance and/or the annexation of the Property, the City agrees to pay One Million Dollars ($1,000,000.00) to Kenco within ten (10) days following the date that such order becomes final and non-appealable. The parties agree to enter into a Capacity Agreement, in form and content substantially similar to that attached hereto as Exhibit "B" and made a part hereof, which will address the foregoing payment to the City and which will constitute a vested rights determination for concurrency purposes.

13. **Time of the Essence.** The parties hereto covenant that time is of the essence and each party shall immediately commence all actions necessary to fulfill their respective obligations under this Agreement.

14. **Severability.** If any section, subsection, sentence, clause, phrase or portion of this Agreement is for any reason held invalid or unconstitutional in any court of competent jurisdiction, such portion shall be deemed a separate, distinct and independent provision, and such holding shall not affect the validity of the remaining portions hereof.

15. **Successors and Assigns**. The obligations imposed and entitlements created pursuant to this Agreement shall run with and bind the Property as covenants running with the land. This Agreement shall inure to the benefit of, and be binding upon, the parties hereto, their successors and assigns, heirs and personal representatives; provided, however, that references herein to Kenco shall mean and refer only to Kenco. The obligations of Kenco may be assigned in whole or part to one or more property owners associations or to the CDD(s), if formed, and in such event, Kenco shall thereafter be relieved of future obligation for such assigned obligations hereunder.

16. **Attorneys' Fees**. Should any party to this Agreement bring an action against any other party to enforce any provision of this Agreement, the prevailing party in said action shall be entitled to recover its reasonable attorneys' fees and court costs in all trial and appellate proceedings.

17. **Recording**. The City shall record this Agreement with the Clerk of the Circuit Court for St. Lucie County within fourteen (14) days after the City executes the Agreement.

18. **Entire Agreement.** This Agreement contains and sets forth all of the promises, covenants, agreements, conditions and understandings between the parties with respect to the subject matter of the Agreement as of the date hereof.

19. **Headings**. Captions and paragraph headings contained in this Agreement are for convenience and reference only and in no way define, describe, extend or limit the scope or intent of this Agreement, nor the intent of any provision hereof.

20. **Governing Law**. This Agreement shall be construed and interpreted according to the laws of the State of Florida and venue with respect to any litigation between the parties related to this Agreement shall be St. Lucie County, Florida.

21. **Amendment**. This Agreement shall not be changed, modified or amended except by an instrument in writing and executed by all parties with the same formality and or equal dignity herewith. The parties agree that this Agreement may be amended, subject to the City's reasonable approval, to include other property adjacent to the Property provided such other property satisfies all requirements for voluntary annexation set forth in Chapter 171, Florida Statutes.

22. **Notice.** Any notice required or permitted under this Agreement shall be in writing and shall be deemed to have been given either (i) when delivered in person to the persons designated hereinbelow for that purpose, (ii) upon delivery to an overnight courier (e.g. Federal Express, Airborne) as evidenced by the sender's copy, addressed as set forth hereinbelow; (iii) upon mailing by United States certified mail, return receipt requested, postage paid, to such address. Such notice shall be deemed received, when either (i) delivered in person to the agents designated hereinbelow for that purpose, (ii) on the first business day after delivery to an overnight courier (e.g. Federal Express, Airborne) as evidenced by the sender's copy, addressed as set forth hereinbelow, or (iii) three (3) days after deposited in the United States Mail, by

certified mail, postage prepaid, return receipt requested, addressed to the other party. The addresses of the parties are as follows:

SECOND AMENDMENT TO ANNEXATION AGREEMENT

THIS SECOND AMENDMENT TO ANNEXATION AGREEMENT ("Second Amendment") is made and entered into by and between the CITY OF PORT ST. LUCIE, a municipal corporation of the State of Florida (the "City") and MIDWAY DEVELOPMENT EAST, INC., a Florida corporation ("MDE").

WITNESSETH

WHEREAS, the City and MDE entered into that certain Annexation Agreement dated July 6, 2006, recorded in Official Records Book 2609, Page 1673, as modified by that certain First Amendment to Annexation Agreement dated August 17, 2006, and recorded in Official Records Book 2654, Page 2085, both of the Public Records of St. Lucie County, Florida (collectively, the "Annexation Agreement") regarding annexation of the property described therein (the "Property"); and

WHEREAS, the City and MDE have agreed to modify the Annexation Agreement for the mutual benefit of both parties; and

NOW, THEREFORE, in consideration of Ten Dollars ($10.00) in hand paid, and the mutual promises and other considerations contained herein, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. The recitations set forth above are true and correct and are incorporated herein by reference.

2. Paragraph 12 in the Annexation Agreement is hereby deleted, and the following is substituted in lieu hereof:

> 12. **Payment for Public Facilities.** In addition to the amount due from MDE for utilities set forth in Paragraph 7 of the Annexation Agreement, MDE agrees to pay the City the amounts set forth or to be calculated below. The City agrees that MDE shall pay the City $1,048,000.00, which represents the current per unit cost of $1,310.00 multiplied by 800 units on or before August 9, 2006 (said sum has been paid). Additionally, MDE shall pay to the City the current per unit amount, with a cost of living adjustment, for each unit over 800 permitted by the Planned Unit

Development approval for the Property, prior to applying for a building permit for any residential or commercial building within any part of the Property. Furthermore, no certificate of occupancy or certificate of completion shall be issued for any residential or commercial building constructed within the Property, until such payment has been made. These payments shall serve as consideration to ensure that adequate public facilities (excluding water, wastewater and irrigation) exist to serve the Property and to provide concurrency for the Intended Uses.

3. Subparagraphs 13.a and 13.b in the Annexation Agreement are hereby deleted and the following is substituted in lieu thereof:

13. **Municipal Benefit Parcel.**

a. MDE has designated the portion of the Property described in **Exhibits "B-1" and "B-2"**, attached hereto and made a part hereof (the "Municipal Benefit Parcel"), as a municipal benefit parcel to be used by the City in accordance with subparagraph c. below. The Municipal Benefit Parcel is unencumbered by any easements or other encumbrances limiting its use, except as specifically provided below in subparagraphs b and c., and it contains no wetlands.

b. MDE shall convey the Municipal Benefit Parcel to the City by Special Warranty Deed. Development and use of the Municipal Benefit Parcel by the City shall be subject to the use restrictions set forth in subparagraph c. below, and such use restrictions shall be set forth in the Special Warranty Deed conveying the Municipal Benefit Parcel to the City. The Special Warranty Deed shall also reserve easements over the Municipal Benefit Parcel in favor of MDE and its successors or assigns, for (a) construction and maintenance of a north-south road, sidewalks and utility and drainage improvements (the "Road Easement"), and (b) maintenance of Eleven Mile Creek, and/or construction and maintenance of a pedestrian path along Eleven Mile Creek (the "Creek Easement"). The location of the Road Easement shall be as described in **Exhibits "C-1" and "C-2"**. The location of the Creek Easement shall be as described in **Exhibit "D"**. The City agrees to cooperate with MDE if additional easements or rights-of-way are required in the future for the north-south road, sidewalks, utilities or drainage. MDE shall not be entitled to any monetary compensation or impact fee credits for dedication of the Municipal Benefit Parcel to the City. The City hereby acknowledges that a portion of the Municipal Benefit Parcel, depicted on **Exhibit "B-1"** as the "MBP Additional Parcel" and being approximately 9.6 acres, has not been, and will not be, annexed into the City by MDE.

4. Paragraph 14 of the Annexation Agreement is hereby deleted.

5. The following Paragraph 26 is hereby added to the end of the Annexation Agreement:

26. **School Parcel.** MDE has designated the portion of the Property described in **Exhibit "E"**, attached hereto and made a part hereof (the "School Parcel") to be used by the School Board of St. Lucie County ("School Board") for a K-8 school site. MDE shall convey the School Parcel to the School Board by Special Warranty Deed, pursuant to the terms and conditions of an agreement entered into by and between MDE and the School Board, dated May 26, 2009 (the "School Board Agreement"). Pursuant to Section 1, Paragraph B.vi. of City Ordinance 03-169, Kenco Communities, Inc. was required to dedicate to the City a 15 acre site for elementary school purposes within the development now known as Founders Crossing PUD. The City hereby acknowledges and agrees that by MDE conveying the School Parcel (located within the West Creek PUD) to the School Board, the requirements of Section 1, Paragraph B.vi. of City Ordinance 03-169, shall be deemed fully satisfied.

6. **Exhibit "B"** to the Annexation Agreement is hereby deleted, and **Exhibits "B-1" and "B-2"** attached hereto and made a part hereof, are hereby substituted in lieu thereof. **Exhibit "C"** to the Annexation Agreement is also hereby deleted. **Exhibits "C-1", "C-2", "D" and "E"** attached hereto and made a part hereof, are hereby attached to and made a part of the Annexation Agreement, as exhibits thereto.

7. MDE shall execute and record the deeds conveying the Municipal Benefit Parcel and the School Parcel, in accordance with the terms and conditions of this Second Amendment and the School Board Agreement, no later than fifteen (15) days after the execution and recordation hereof.

8. The "Effective Date" of this Second Amendment shall be the date the last party hereto signs this Agreement.

9. Except as specifically modified and amended in this Second Amendment, the Annexation Agreement shall remain in full force and effect.

[Signature Pages to Follow]

[Remainder of Page Intentionally Left Blank]

UNOFFICIAL COPY

IN WITNESS WHEREOF, the parties hereto have made and executed this Second Amendment on the respective dates under each signature; MDE signing by and through its duly authorized representative and the City through its City Council, signing by and through its Mayor, authorized to execute same by City Council action on the 10th day of August, 2009.

DESCRIPTION

BEING A PORTION OF LAND LYING IN SECTION 8, TOWNSHIP 36 SOUTH, RANGE 39 EAST, OF THE PUBLIC RECORDS, OF ST. LUCIE COUNTY, FLORIDA AND BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

COMMENCING AT THE NORTHEAST CORNER OF SAID SECTION 8, THENCE NORTH 89°26'58" WEST ALONG THE NORTH LINE OF SAID SECTION 8, A DISTANCE OF 39.01 FEET TO A POINT ON THE WEST RIGHT-OF-WAY LINE OF NORTH SAINT LUCIE WATER MANAGEMENT DISTRICT CANAL NUMBER 90 (A 78 FOOT WIDE RIGHT-OF-WAY); THENCE DEPARTING SAID NORTH LINE, SOUTH 00°26'13" EAST, ALONG SAID WEST RIGHT-OF-WAY LINE, A DISTANCE OF 1,299.85 FEET TO A POINT ON THE NORTH RIGHT-OF-WAY LINE OF NEWELL ROAD (A 50 FOOT WIDE RIGHT-OF-WAY ROAD); THENCE NORTH 89°51'44" WEST ALONG SAID NORTH RIGHT-OF-WAY LINE, A DISTANCE OF 2553.28 FEET TO A POINT ON THE EAST RIGHT-OF-WAY LINE OF NORTH SAINT LUCIE RIVER WATER MANAGEMENT DISTRICT CANAL NUMBER 89 (A 83 FOOT WIDE RIGHT-OF-WAY); THENCE SOUTH 00°29'05" EAST ALONG SAID EAST RIGHT-OF-WAY LINE, A DISTANCE OF 1191.10 FEET; THENCE DEPARTING SAID EAST RIGHT-OF-WAY LINE SOUTH 89°30'55" WEST, A DISTANCE OF 83.00 FEET TO A POINT ON THE WEST RIGHT-OF-WAY LINE OF SAID CANAL NUMBER 89 ALSO BEING THE POINT OF BEGINNING; THENCE SOUTH 00°29'05" EAST ALONG SAID WEST RIGHT-OF-WAY LINE, A DISTANCE OF 176.86 FEET; THENCE DEPARTING WEST RIGHT-OF-WAY LINE SOUTH 89°43'35" WEST, A DISTANCE OF 50.00 FEET; THENCE NORTH 00°29'05" WEST, A DISTANCE OF 176.68 FEET; THENCE NORTH 89°30'55" EAST, A DISTANCE OF 50.00 FEET TO THE POINT OF BEGINNING.

CONTAINING 0.203 ACRES MORE OR LESS.

NOTE: THIS IS NOT A SKETCH OF SURVEY, BUT ONLY A GRAPHIC DEPICTION OF THE DESCRIPTION SHOWN HEREON. THERE HAS BEEN NO FIELD WORK, VIEWING OF THE SUBJECT PROPERTY OR MONUMENTS SET IN CONNECTION WITH THE PREPARATION OF THE INFORMATION SHOWN HEREON.

NOTE: LANDS SHOWN HEREON WERE NOT ABSTRACTED FOR RIGHT-OF-WAY AND/OR EASEMENTS OF RECORD.

Official Record

COUNCIL ITEM 8H
DATE 7/19/04

ORDINANCE 03-169

AN ORDINANCE OF THE CITY OF PORT ST. LUCIE, FLORIDA AMENDING THE COMPREHENSIVE PLAN OF THE CITY OF PORT ST. LUCIE TO INCLUDE AN AMENDMENT TO THE FUTURE LAND USE MAP; PROVIDING THE INVALIDITY OF ANY PORTION SHALL NOT AFFECT THE REMAINING PORTION OF THIS ORDINANCE; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City of Port St. Lucie, Florida has adopted a comprehensive plan known as the City of Port St. Lucie Comprehensive plan, adopted by Ordinance 97-50, as subsequently amended; and

WHEREAS, the City of Port St. Lucie Planning and Zoning Board having been duly designated as the local planning agency pursuant to Section 163.3174 etc. seq., Florida Statutes, and having held a public hearing thereon, has considered this proposed amendment to the Comprehensive Plan and submitted its recommendations thereon to the City Council; and

WHEREAS, having considered the recommendations of the Planning and Zoning Board, the Port St. Lucie City Council has prepared this amendment (Kenco Communities, Inc. P03-357) to the City's Comprehensive Plan and transmitted them to the Department of Community Affairs and other agencies as required by Section 163.3184, Florida Statutes, and the propose amendment has been reviewed by the Department of Community Affairs; and

WHEREAS, two (2) public hearings with due notice have been held by the City Council to inform the public and receive comments and objections; and

WHEREAS, the Port St. Lucie City Council desires to hereby formally adopt this amendment to the City's Comprehensive Plan.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. That the Comprehensive Plan of the City of Port St. Lucie is hereby amended in the following respect:

A. The Future Land Use map is hereby amended for property described as parcels totaling 386 acres located in Sections 4, 5 and 9, Township 36 South, Range 39 East, St. Lucie County, Florida, bounded on the north by Midway Road, to:

i. Have RL (Low Density Residential) for 342.6 acres, CG (General Commercial) for 18 acres, ROI (Residential Office Institutional) for 12 acres, and OSC (Open Space Conservation) for 13.4 acres as is shown in the attached Exhibit "A"; and

ii. Limit residential construction in the RL (Low Density Residential) area of the subject property to 875 dwelling units.

B. Development of the above-described property shall be subject to the following:

i. To facilitate a better regional network, McCarty Road will be improved from Midway Road south to Newell Road and additional right-of-way dedicated on the plat, if necessary, to allow for a four lane section.

ii. To provide readily accessible vehicular and pedestrian connections between various land uses, an internal collector road will be required between Midway Road and McCarty Road and will include bike and pedestrian facilities.

iii. To encourage vehicular trip reduction, commercial and institutional uses shall be located within one-quarter mile (easy walking distance) of a minimum of 50% of the proposed residential units and all residential units will be within one-half mile.

iv. Multi-family residential uses (townhomes, apartments or condominiums) shall be located adjacent to the commercial uses.

v. An approximately 39 acre, centralized mixed use area, incorporating the commercial and institutional land uses, along with residential units, will serve as a village type center.

vi. A 15 acre site for elementary school purposes will be dedicated on the plat to the City of Port St. Lucie, subject to St. Lucie County School District siting criteria.

vii. Development located within the OSC (Open Space Conservation) land use area shall be limited to passive recreational uses, and will not negatively impact the creek located within the property. A minimum buffer of 50 feet from the jurisdictional line of the creek will be provided. A community recreation area will be provided adjacent to the creek and the corresponding buffer area.

viii. Interconnectivity will be accomplished via a hybrid cul-de-sac road network as feasible based on existing site features (the onsite creek and FPL easement). This network will

provide for auto and pedestrian connections in addition to the internal collector road.

ix. The project will provide for a general density transition away from the village type center, with the lowest density residential areas located west of the onsite creek. There will be a mix of residential product types and lots designed to provide mixed income housing.

x. A comprehensive pedestrian and bicycle system will be provided connecting neighborhoods, commercial and institutional uses, and recreational areas.

xi. Transit stop locations(s) shall be provided within or adjacent to the commercial and institutional land uses.

Section 2. That the provisions of the Ordinance are severable, and if any section, sentence, clause, or phrase is for one reason held to be unconstitutional, invalid or ineffective, this holding shall not affect the validity of the remaining portions of this Ordinance, it being expressly declared to be the City Council's intent that it would have passed the valid portions of this Ordinance without inclusion of any invalid portion of portions.

Section 3. The effective date of this plan amendment shall be the date a final order is issued by the Department of Community Affairs or Administration Commission finding that the amendment is in compliance in accordance with section 163.3184, Florida Statues, which ever occurs earlier. If a final order of noncompliance is

issued by the Administration Commission, this amendment may nevertheless be made effective by adoption of a resolution affirming its effective status, a copy of which resolutions shall be sent to the Department of Community Affairs

PASSED AND APPROVED by the City Council of the City of Port St. Lucie, Florida, this 19th day of July, 2004.

CONTRIBUTION AGREEMENT

THIS CONTRIBUTION AGREEMENT (the "Agreement") is hereby entered into by and between ST. LUCIE COUNTY, a political subdivision of the State of Florida (the "County") and KENCO COMMUNITIES AT PORT ST. LUCIE, INC., a Florida corporation ("Kenco").

W I T N E S S E T H:

WHEREAS, the County and Kenco entered into that certain Settlement Agreement (the "Agreement") dated November 18, 2004 and attached hereto and made a part hereof as **Exhibit "A"**, as amended by that certain First Amendment to Settlement Agreement (the "First Amendment") dated December 23, 2005 and attached hereto and made a part hereof as **Exhibit "B"**, providing for the payment of certain voluntary contributions by Kenco to the County for the cost to improve Midway Road and to mitigate the impact of Kenco's development on Midway Road, located on the real property described in **Exhibit "C"**, attached hereto and made a part hereof (the "Property"); and

WHEREAS, pursuant to Section I, Paragraph 4 of the Agreement, Kenco delivered to the County a Letter of Credit in the amount of $1,750,000.000 (the "Letter of Credit"); and

WHEREAS, pursuant to Section II of the Agreement, entitled "Conditions Precedent", the County is obligated to return the Letter of Credit to Kenco, upon delivery by Kenco to the County of, (a) a written request that the County return to Kenco the Letter of Credit (the "Written Request"), and (b) execution of a "Contribution Agreement", containing terms and conditions that are mutually and reasonably satisfactory to the County and Kenco; and

WHEREAS, Kenco delivered the Written Request to the County on August 13, 2008; and;

NOW THEREFORE, in consideration of Ten Dollars ($10.00) in hand paid, the mutual promises and covenants contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. In accordance with Section I, Paragraphs 3 and 7 of the Agreement, Kenco shall pay a voluntary contribution of Two-Thousand Dollars ($2000.00) per residential unit at the time of application for a building permit for each residential unit constructed on the Property, provided however, that the foregoing obligation shall be subject to the provisions of Paragraph 1 of the First Amendment.

2. Any voluntary contribution paid by Kenco to the County pursuant to Paragraph 1 above, shall be utilized in accordance with the provisions of Section I, Paragraph 5 of the Agreement.

3. This Contribution Agreement shall not be interpreted to limit the County's ability to collect Road Impact Fees as provided in the County's impact fee ordinances, provided however, that such Road Impact Fees shall be credited against Kenco's obligation to pay the County a Voluntary Contribution as more specifically set forth in Paragraph 1 of the First Amendment.

4. The County shall deliver the Letter of Credit to Kenco within ten (10) days after the execution of this Contribution Agreement by Kenco and the County.

5. All provisions of the Agreement and the First Amendment shall remain in full force and effect.

6. Should any litigation arise between, among or involving any of the parties concerning or arising out of this Agreement, including, but not limited to, actions for damages, specific performance, declaratory, injunctive or other relief, and whether at law or in equity, and including appellate and bankruptcy proceedings as well as at the trial level, the prevailing party in any such litigation or proceeding shall be entitled to recover reasonable attorneys' fees and costs for same.

7. Upon execution by the parties hereto, this Contribution Agreement shall be recorded in the public records of St. Lucie County, and shall be binding upon Kenco's and the County's successors and assigns in accordance with Section IV of the Agreement, entitled "Successors".

8. This Contribution Agreement may be executed in any number of identical counterparts each of which shall be deemed to be an original for all purposes but all of which shall constitute one and the same instrument, and a copy of such signature received through telefax transmission shall bind the party whose signature is so received as if such signature were an original. In making proof of this Contribution Agreement, it shall not be necessary to produce or account for more of such counterparts than are required to show that each party hereto executed at least one such counterpart.

[SIGNATURE PAGE TO FOLLOW]

IN WITNESS WHEREOF, the parties hereto have executed this Contribution Agreement on the date shown below the signature of each.

vs. CIRCUIT CASE NO.: 04-CA-000377 (PC)

CITY OF PORT ST. LUCIE, a municipal corporation,

Respondent,

and

KENCO COMMUNITIES AT PORT ST. LUCIE, INC., a Florida corporation; and LENNAR HOMES, INC., a Florida corporation,

Intervenors.

_____/

SETTLEMENT AGREEMENT

This Settlement Agreement ("Agreement") is made and entered into by and between St. Lucie County, a political subdivision of the State of Florida, (the "County") and Kenco Communities at Port St. Lucie, Inc., a Florida corporation ("Kenco").

WITNESSETH

WHEREAS, an action is pending in the Circuit Court of the Nineteenth Judicial Circuit in and for St. Lucie County, Florida, Case No. 04-CA-000377(PC) (the "Action"); and

{00001140.7}

WHEREAS, Kenco has been granted leave by the St. Lucie Circuit Court to intervene in the Action; and

WHEREAS, the County has requested the Court in the Action to quash an administrative order and ordinance of the City of Port St. Lucie, a Florida municipal corporation ("City"), authorizing the annexation of land located in the County owned by Kenco and which is vital to the developmental plans of Kenco, said land more particularly described in Exhibit "A", attached hereto and made a part hereof (the "Property"); and

WHEREAS, Kenco and the County agree that it is in their best interest to amicably resolve their differences, without the need for further litigation and expense; and

NOW THEREFORE, in consideration on the promises herein contained, the County and Kenco agree as follows:

I. OBLIGATIONS AND REPRESENTATIONS

1. Within thirty-six (36) months following the issuance of final development permit approvals by the City of Port St. Lucie, Kenco will commence improvements to McCarty Road for approximately one (1) mile immediately south of Midway Road to Newell Road for a two-lane roadway section in accordance with standard County road design specifications. These improvements shall not be eligible for credits against road impact fees.

2. The County understands that Kenco is endeavoring to organize the formation of a voluntary financing mechanism (the "Mechanism") for the funding for design and construction of the improvements to approximately 4.5 miles of Midway

X RF

Road west of I-95 to State Road 70 (Okeechobee Road), or such portion thereof, to create a four-lane boulevard section, with utilities consistent with applicable laws.

3. If a request to create the Mechanism is not delivered to the County within 48 months of the date of this Agreement, Kenco will pay a voluntary contribution of $2,000.00 per residential unit (estimated to total $1,750,000.00 based upon 875 projected residential units) to the County for the cost to improve Midway Road. The actual cost will be based on the number of approved units pursuant to Kenco's final site plan for the Property. There will be no additional fee or contribution applicable to non-residential uses on the Property. This contribution shall not be eligible for credits against road impact fees. Kenco shall have the right to connect to County roads to provide access to the Property, subject to issuance of driveway permit(s) (which shall not be unreasonably withheld or delayed) in accordance with standard County rules and regulations, without the payment of fees other than as shall be required to submit the application for such permit(s) and without the obligation to construct or pay for any non-site related transportation improvements.

4. Kenco will secure its obligation to pay the County pursuant to Paragraph 3 above by delivery to the County of a letter of credit, in form and content reasonably agreeable to the County, in the amount of $1,750,000.00 (the "Letter to Credit") within sixty (60) days from the date of this Agreement. Upon either (x) creation of the Mechanism and levy of any assessment provided for therein, or (y) payment by Kenco pursuant to Paragraph 3 above, the Letter of Credit will be immediately returned to Kenco.

5. Any money received by the County from Kenco pursuant to this Agreement, whether by payment from Kenco or drawdown on the Letter of Credit by the County, shall reduce Kenco's proportionate share pursuant to the Mechanism, if created, or be applied by the County expeditiously either to purchase right of way for, or to construction of improvements to, Midway Road west of I-95, if no Mechanism is created.

6. Kenco agrees to reserve a sufficient portion of the Property, as reasonably determined by the County, for additional right of way for both Midway Road and McCarty Road; provided, however, that such reserved area shall not exceed one hundred (100) feet wide along Midway Road nor sixty (60) feet wide along McCarty Road. Kenco will receive no direct monetary compensation for this right of way, but as to the dedication of right of way along McCarty Road, if Kenco shall apply for impact fee credits for donation of right of way that is non-site related against the impact fees collected by the County for building permits issued for construction on the Property, the County agrees to grant such credits in accordance with the County's ordinances.

7. Kenco may develop additional properties in the future with access to Midway Road west of I-95 and address the impact of same upon Midway Road by the payment of the then current road impact fee, plus the voluntary contribution of an additional amount per residential home calculated based upon the same criteria utilized to determine the payment per unit hereunder, not to exceed $2,000 per unit, up to a maximum of 1,500 additional residential units. Kenco shall have the rights set forth in this Paragraph 7 for a period of time not to exceed 72 months from the date of this Agreement. There will be no additional fee or contribution applicable to non-residential uses on any additional properties. The provisions of this Paragraph 7 shall only address

the impact of traffic for such additional properties and shall not act in any way as a waiver by the County of any rights available to it by law with regard to development of such additional future properties.

8. On or before 12:00 p.m. on November 22, 2004, the County will send by telefax and US Mail the letter, attached hereto as Exhibit "B" and made a part hereof, to the Florida Department of Community Affairs ("DCA").

9. Upon receipt by the County of the Letter of Credit, the County will file the appropriate pleadings necessary to dismiss and/or withdraw the Action in all respects as to Kenco, including the County's request that Port St. Lucie Ordinance 03-169 authorizing the annexation of Kenco's property be quashed. Each party will bear its own fees and costs.

II. CONDITIONS PRECEDENT

Kenco's obligations set forth above are conditioned upon (a) approval of Kenco's pending land use amendment for the Property by DCA, (b) Kenco receiving final site plan approval from the City, for the construction of not less than 680 residential units, and (c) all appeals periods for the foregoing expiring without any appeal having been filed. In the event (i) the foregoing conditions are not satisfied within 18 months following the date of this Agreement (the "Deadline"), or (ii) no request to create the Mechanism is delivered to the County, or if delivered, the Mechanism is not created, then Kenco shall have the right to request, in writing, the return of the Letter of Credit. If Kenco makes such request, the County shall return the Letter of Credit to Kenco, upon delivery by Kenco to the County of the "Contribution Agreement" (as defined below). Notwithstanding the foregoing, Kenco shall have the right to unilaterally extend the

Deadline (not to exceed an additional 24 months) upon written notice to the County of same, in which event the foregoing sentence shall apply to the Deadline, as extended. The Contribution Agreement shall provide, upon terms and conditions that are mutually and reasonably satisfactory to the County and Kenco, that the County shall be paid $2,000.00 at application for building permit for each residential unit constructed on the Property in addition to the then existing road impact fee. The Contribution Agreement shall be recorded in the public records to be binding upon successor and assigns in accordance with the provisions of Article IV below.

III. FURTHER ASSISTANCE AND ASSURANCES

The County and Kenco shall hereafter both timely execute all documents and do all acts necessary, convenient or desirable to effect the provisions of this Agreement, including the review by the County of plans and specifications. Planning, design, engineering and construction of improvements to all roads shall reasonably conform to applicable standards of the County.

IV. SUCCESSORS

The provisions of this Agreement shall be deemed to obligate, extend to, and inure to the benefit of and be a burden on the County and Kenco (with regard to the Property), their heirs, successors, assigns, transferees, grantees, and indemnitees, whether voluntarily or involuntarily, and shall run with the Property. In the event the Property is subdivided or split into more than one parcel, then each parcel shall share pro rata in the benefits and burdens of this Agreement based on the number of residential units approved for each parcel.

V. INTERPRETATION

This Agreement shall be interpreted and enforced under and governed by the laws of the State of Florida. Any change or modification to this Agreement shall be made in writing and with the consent of all parties to the Agreement.

VI. SEVERANCE

If any provision of this Agreement is held to be illegal or invalid by a court of competent jurisdiction, such provision shall be deemed to be severed and deleted; and neither such provision, nor its severance and deletion, shall affect the validity of the remaining provisions.

VII. INTEGRATION

This Agreement (after full execution and delivery) memorializes and constitutes the entire agreement and understanding between the County and Kenco and supersedes and replaces all prior negotiations, proposed agreement and agreements, whether written or unwritten. The parties acknowledge that no other party, nor any agent or attorney of any other party, has made any promise, representation, or warranty whatsoever.

VIII. ENFORCEABILITY

In the event any party hereto shall commence legal proceedings against the other to enforce the terms hereof, or to declare rights hereunder, as the result of a breach of any covenant or condition of this Agreement, the prevailing party in such proceeding shall be entitled to recover from the losing party its cost of suit, including reasonable attorney's fees, as may be fixed by the Court.

IX. VENUE

Venue for any legal proceeding in this matter shall be in St. Lucie County.

X. NOTICES

Until further written notice by either party to the other, all notices provided for herein shall be in writing and transmitted by hand delivery, by certified U.S. mail, return receipt requested or by overnight courier, as follows:

If to Kenco:	Dean Borg Kenco Communities, Inc. 105 Isle Verde Way Palm Beach Gardens, FL 33418
With copy to:	Klein & Dobbins, P.L. 805 Virginia Avenue Suite 25 Fort Pierce, FL 34982 Attn: Robert N. Klein, Esq.
If to County:	St. Lucie County c/o County Attorney's Office 2300 Virginia Avenue Fort Pierce, FL 34982

XI. COUNTERPARTS

This Agreement may be executed in one or more counterparts and shall become effective when such counterparts have been executed by each of the parties.

The signatories to this Agreement represent that they have read and understand the foregoing provisions and are fully authorized and competent to enter into this Agreement.

EXHIBIT "B"

FIRST AMENDMENT TO SETTLEMENT AGREEMENT

EXHIBIT "B"

FIRST AMENDMENT TO SETTLEMENT AGREEMENT

12/23/05

THIS FIRST AMENDMENT TO SETTLEMENT AGREEMENT (the "Amendment") is hereby entered into by and between ST. LUCIE COUNTY, a political subdivision of the State of Florida (the "County") and KENCO COMMUNITIES AT PORT ST. LUCIE, INC., a Florida corporation ("Kenco").

WITNESSETH:

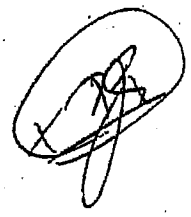
WHEREAS, the County and Kenco entered into that certain Settlement Agreement (the "Agreement") dated November 18, 2004, providing for the payment of certain voluntary contributions by Kenco to the County for the cost to improve Midway Road and to mitigate the impact of Kenco's development on Midway Road; and

WHEREAS, on or about September 6, 2005, the County adopted Ordinance No. 05-030, providing for road impact fees to be levied upon new residential construction within the City of Port St. Lucie (the "Road Impact Fees"); and

WHEREAS, due to the imposition of these Road Impact Fees, the County and Kenco have deemed it appropriate to amend and clarify the terms of the Agreement, so that Kenco does not pay double fees to the County for the impact of its development, as provided hereinbelow.

NOW THEREFORE, in consideration of Ten Dollars ($10.00) in hand paid, the mutual promises and covenants contained herein, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Any Road Impact Fees paid by Kenco to the County with respect to the Property, or any additional properties with access to Midway Road west of I-95, shall be credited against Kenco's obligation to pay the County a voluntary contribution pursuant to Paragraphs 3 and 7 of the Agreement (the "Voluntary Contribution"), such that if the Road Impact Fee paid is greater than the Voluntary Contribution amount, no Voluntary Contribution will be paid, and if the Road Impact Fee paid is less than the Voluntary Contribution amount, the difference shall still be due and payable by Kenco in accordance with Paragraphs 3 and 7 of the Agreement. (**Example 1:** If Kenco is obligated by the Agreement to pay the County a Voluntary Contribution of $2,000.00 per home with respect to the development of a property, and Kenco is also obligated to pay Road Impact Fees in the amount of $2,059.00 per home with respect to the same property, then payment of such Road Impact Fees shall be credited against Kenco's obligation to pay the Voluntary Contribution, thereby eliminating Kenco's obligation to pay any Voluntary Contribution with respect to such property.) (**Example 2:** If Kenco is obligated by the Agreement to pay the County a Voluntary Contribution of $2,000.00 per home with respect to the development of a property, and Kenco is also obligated to pay Road Impact Fees in the amount of $1,500.00 per home with respect to the same property, then payment of the Road Impact Fees shall be credited against Kenco's obligation to pay the Voluntary Contributions, thereby reducing the amount of the Voluntary Contributions to $500.00 per home with respect to such property.)



X 12/23/05

2. Any Road Impact Fees paid by Kenco to the County with respect to the Property or any additional properties with access to Midway Road west of I-95, shall be utilized in accordance with the provisions of Paragraph 5 of the Agreement.

3. Upon the satisfaction of Kenco's obligations pursuant to Paragraph 3 of the Agreement, either by the payment of voluntary contributions or by the payment of Road Impact Fees or a combination thereof, the Letter to Credit shall be immediately returned to Kenco.

4. Except as otherwise provided herein, all provisions of the Agreement shall remain in full force and effect as amended hereby.

5. This Amendment may be executed in any number of identical counterparts each of which shall be deemed to be an original for all purposes but all of which shall constitute one and the same instrument, and a copy of such signature received through telefax transmission shall bind the party whose signature is so received as if such signature were an original. In making proof of this Amendment, it shall not be necessary to produce or account for more of such counterparts than are required to show that each party hereto executed at least one such counterpart.

[SIGNATURE PAGE TO FOLLOW]

IN WITNESS WHEREOF, the parties hereto have executed this First Amendment to Settlement Agreement on the date shown below the signature of each.

FIRST AMENDMENT TO AGREEMENT FOR CONTRIBUTION OF SCHOOL SITE

THIS FIRST AMENDMENT TO AGREEMENT FOR CONTRIBUTION OF SCHOOL SITE ("Agreement") is made and entered into this 17th day of November, 2009, by and between the SCHOOL BOARD OF ST. LUCIE COUNTY ("School Board") and MIDWAY DEVELOPMENT EAST, INC., a Florida corporation ("MDE").

WITNESSETH

WHEREAS, pursuant to the Agreement for Contribution of School Site dated May 26, 2009, and recorded in Official Records Book 3096, Page 535, of the Public Records of St. Lucie County, Florida ("Contribution Agreement"), MDE has agreed to donate and convey to the School Board certain real property defined therein as the School Parcel, and a related easement defined therein as the Road Easement; and

WHEREAS, MDE and the City have agreed that it is in the best interests of the parties hereto to amend the terms and conditions of the Contribution Agreement to delay the conveyance of the School Parcel and the Road Easement, as more specifically set forth herein below; and

NOW, THEREFORE, in consideration of the mutual covenants entered into between the parties, and in consideration of the benefits to accrue to each, the parties agree as follows:

1. **Accuracy of Recitals.** The above recitals are true and correct and incorporated herein.

2. **Condition Precedent.** Paragraphs 6(b) and (c) of the Contribution Agreement are hereby deleted. MDE and the School Board hereby acknowledge that the Condition Precedent identified in Paragraph 6 of the Contribution Agreement has occured.

3. **Impact Fee Credit Waiver.** The last sentence of paragraph 8(a) of the Contribution Agreement is hereby deleted and the following is subsituted in lieu thereof:

> Upon the conveyance of the School Parcel to the School Board, MDE shall execute the Educational Facilities Impact Fees Credit Waiver attached hereto and made a part hereof as **Exhibit "C"**, and record it in the public records of St. Lucie County.

4. **Conveyance.** The following paragraph 12 is hereby added to the end of the Contribution Agreement:

> 12. **Conveyance.** MDE shall convey the School Parcel and the Road Easement to the School Board upon the earlier to occur of either, (a) the platting of the School Parcel and of Newell Road adjacent to the School Parcel, or (b) December 31, 2017, provided, however, that MDE and the School Board may elect to extend the foregoing deadline by mutual written agreement.

5. **Full Force & Effect.** Except as otherwise expressly set forth herein, all provisions of the Contribution Agreement shall remain in full force and effect as amended hereby.

6. **Counterparts.** This Agreement may be executed in any number of identical counterparts each of which shall be deemed to be an original for all purposes but all of which shall constitute one and the same instrument, and a copy of such signature received through telefax transmission shall bind the party whose signature is so received as if such signature were an original. In making proof of this Agreement, it shall not be necessary to produce or account for more of such counterparts than are required to show that each party hereto executed at least one such counterpart.

COPY

IN WITNESS WHEREOF, the parties hereto have caused the execution of this Agreement by their duly authorized officials as of the day and year first above written.

DRAFT

AGREEMENT FOR CONTRIBUTION OF SCHOOL SITE

THIS AGREEMENT FOR CONTRIBUTION OF SCHOOL SITE ("Agreement") is made and entered into this 26 day of May, 2009, by and between the SCHOOL BOARD OF ST. LUCIE COUNTY ("School Board") and MIDWAY DEVELOPMENT EAST, INC., a Florida corporation ("MDE").

WITNESSETH

WHEREAS, pursuant to the Annexation Agreement dated July 6, 2006, and recorded in Official Records Book 2609, Page 1673 (the "Annexation Agreement") MDE annexed certain real property more specifically described therein into the City of Port St. Lucie (the "City"), for the purpose of developing a mixed-use development (the "West Creek Project"); and

WHEREAS, MDE and the City have discussed MDE donating and conveying certain real property located within the West Creek Project, and more particularly described in **Exhibit "A"** attached hereto and made a part hereof (the "School Parcel"), to the School Board to be used for a K-8 school; and

WHEREAS, MDE intends to execute a Second Amendment to the Annexation Agreement requiring the conveyance of the School Parcel to the School Board; and

WHEREAS, as required by School Board Policy 7.73(8)(a)(iii), the School Board has held a public hearing prior to determining whether to accept the proposed donation of the School Parcel; and

WHEREAS, MDE and the School Board agree that it is in the best interests of the parties hereto to set forth herein the terms and conditions of such donation and conveyance of the School Parcel to the School Board.

NOW, THEREFORE, in consideration of the mutual covenants entered into between the parties, and in consideration of the benefits to accrue to each, it is agreed upon as follows:

1. **Accuracy of Recitals.** The above recitals are true and correct and incorporated herein.

2. **Conveyance of Land.** Subject to the Use Restrictions and the Condition Precedent as defined hereinbelow, and all other terms and conditions set forth herein, MDE hereby agrees to convey the School Parcel to the School Board, by Special Warranty Deed, in accordance with the terms and provisions of this Agreement.

3. **Use Restrictions.** The Special Warranty Deed whereby MDE conveys the School Parcel to the School Board shall contain the following use restrictions (the "Use Restrictions"):

> A. The Property shall be developed and used by Grantee in accordance with the planned unit development approvals for the West Creek Project as adopted by the City Council of the City of Port St. Lucie (the "City"), to the extent such approvals are not inconsistent with either the provisions of Chapter 1013, Florida Statutes, or the State Regulations for Educational Facilities, 2007, as may be amended from time to time in accordance with Florida Administrative Code Rule 6A-2.0010, or successor provisions (together, the "Governing Codes").
>
> B. Grantee shall provide to Grantor a copy of any proposed site plan for development of the Property ("Site Plan") not less than thirty (30) days prior to submitting such site plan to the City for consistency review. The Site Plan shall show, in addition to other items required by applicable City code provisions, as limited by the applicable interlocal agreement between the City and Grantee, (1) proposed buffering of adjacent properties, (2) a proposed exterior lighting plan for the campus consistent with the criteria set forth in paragraph C of these covenants and restrictions ("Exterior Lighting Plan"), in order to minimize the impact on adjacent properties, (3) sketches or elevations

of proposed signage (excluding traffic control, regulatory, and information signs required by the Governing Codes), (4) proposed vehicular ingress and egress and traffic flow and control, and (5) proposed drainage and stormwater management facilities.

C. The Exterior Lighting Plan shall adhere to the following criteria: (1) the maximum pole height within one hundred (100) feet of any property line shall be twenty-five (25) feet above the finish grade, (2) the photometric design shall produce no more than ten (10) foot candles of light along any horizontal (at the finish grade of any) property line, and no more than ten (10) foot candles at a height of eight (8) feet above the finish grade on the vertical of any property line, (3) house side shields shall be used where necessary to prevent glare at the property line and on all exterior light fixtures that will be visible from any residential units, and (4) all exterior light fixtures that will be visible from any residential units will be of full cut off design with zero glare optics.

D. Grantee shall cooperate with Grantor in making such reasonable, cost-neutral adjustments to the Site Plan as will minimize the impact of development of the Property on adjacent real property within the West Creek Project, or within the Founders Crossing PUD located north of the West Creek Project.

E. The foregoing covenants and restrictions shall be binding upon any successors or assigns of Grantee, or any successors in title to the Property and shall inure to the benefit of, and be enforceable by, Grantor, any successors or assigns of Grantor, Kenco Communities at Port St. Lucie, Inc., a Florida corporation, or its successors or assigns, or any successors in title to real property now owned by Grantor and located adjacent to and contiguous with the Property, by any remedies available at law or in equity, provided, however, that nothing herein shall be interpreted so as to prevent Grantee from constructing on the Property a K-8 school that is of standard design in St. Lucie County, that has a capacity of not less than 1600 student stations, and that complies with all of the Governing Codes.

4. **Stormwater Retention.** If necessary to accommodate the School Board's then standard design for a 1600 student station K-8 school, the site plan for the improvements to the School Parcel may provide for some of the stormwater retention for such improvements to be located off-site, provided, however, that such off-site stormwater retention shall not exceed an amount required to accommodate the stormwater runoff from a School Parcel containing no

COPY

more than 9.5 acres of developed impervious surface area. In accordance with the foregoing, MDE shall provide stormwater retention facilities for the School Parcel on adjacent property owned by MDE, if necessary, provided that (a) the location and design of such stormwater retention facilities shall be mutually agreed upon by MDE and the School Board, and (b) the volume of such off-site stormwater retention facilities shall be no more than that necessary to accommodate the site plan for the School Board's then standard design for a 1600 student station K-8 school, with a developed impervious surface area not exceeding 9.5 acres, to fit within the School Parcel.

5. Access. Subject to the Condition Precedent as defined hereinbelow, MDE hereby agrees to grant to the School Board an easement for the construction and maintenance of road improvements, and for pedestrian and vehicular ingress and egress, over the real property described in **Exhibit "B"**, attached hereto and made a part hereof (the "Road Easement"). The Road Easement shall contain language providing for its automatic termination in the event that (a) the Newell Road right-of-way is relocated or expanded so that it adjoins the School Parcel and provides legal access thereto, (b) Newell Road is paved in front of the School Parcel and (c) such expanded and/or relocated Newell Road right-of-way and all improvements thereto are turned over to and accepted by the City or St. Lucie County.

6. Condition Precedent.

(a) All obligations of MDE and the School Board pursuant to this Agreement shall be subject to the condition precedent that the City and MDE shall first execute a Second Amendment to the Annexation Agreement, in form satisfactory to MDE, (i) requiring MDE to convey the School Parcel to the School Board, and (ii) acknowledging that such conveyance

DRAFT
Copy

fully satisfies the requirements of Section 1, Paragraph B.vi, of City Ordinance 03-169, described in paragraph 7 of this Agreement (the "Condition Precedent").

(b) Upon the occurrence of the Condition Precedent, MDE shall (i) convey the School Parcel to the School Board, and (ii) record the Educational Facilities Impact Fees Credit Waiver described in paragraph 8 of this Agreement, both in accordance with the terms and conditions hereof.

(c) If the Condition Precedent does not occur within two (2) years after the Effective Date of this Agreement, this Agreement shall be null and void and shall have no further force or effect.

7. Ordinance 03-169. Pursuant to Section 1, Paragraph B.vi. of City Ordinance 03-169, Kenco Communities, Inc. was required to dedicate a 15 acre site for elementary school purposes within the development now known as Founders Crossing PUD. The School Board hereby agrees to support the request by MDE that the City acknowledge that the conveyance of the School Parcel (located within the West Creek Project) to the School Board fully satisfies the requirements of Section 1, Paragraph B.vi. of City Ordinance 03-169.

8. No Impact Fee Credits.

(a) MDE and the School Board hereby agree that MDE shall not receive, as a result of the conveyance of the School Parcel to the School Board, any credits toward impact fees or other exactions for public educational facilities purposes that may be imposed by local ordinance or other land use regulation upon the real property within the West Creek Project, so long as the City deems the requirements of Section 1, Paragraph B.vi. of City Ordinance 03-169, to be fully satisfied. Upon the occurrence of the Condition Precedent, MDE shall execute the Educational

UNOFFICIAL COPY

Facilities Impact Fees Credit Waiver attached hereto and made a part hereof as **Exhibit "C"**, and record it in the public records of St. Lucie County.

(b) Notwithstanding the foregoing, MDE may seek to declare the value of the School Parcel, as determined in accordance with School Board Policy 7.73(8)(b), as a charitable contribution. The School Board agrees to cooperate with MDE, including but not limited to executing Internal Revenue Service forms or other documentation memorializing this transaction, in MDE's efforts to secure recognition of the donation and conveyance of the School Parcel as a charitable contribution.

9. Miscellaneous.

(a) Entire Agreement. This Agreement contains and sets forth all of the promises, covenants, agreements, conditions, and understandings between the MDE and the School Board with respect to the subject matter of this Agreement.

(b) Terms and Words. All terms and words used in this Agreement, regardless of the number and gender in which used, shall be deemed to include any other gender or number as the context or the use thereof may require.

(c) Severability. If any provision of this Agreement is held to be invalid, void, or unenforceable, the remaining provisions of this Agreement shall not be affected or impaired and each remaining provision shall remain in full force and effect. In the event that any term or provision of this Agreement is determined by appropriate judicial authorities to be illegal, void or otherwise invalid, said provision shall be given its nearest legal meaning, or be construed as deleted as such authority determines and the remainder of this Agreement shall be construed to be in full force and effect.

EXECUTED COPY

(d) Headings. Captions and paragraph headings contained in this Agreement are for convenience and reference only and in no way define, describe, extend or limit the scope or intent of this Agreement, nor the intent of any provision hereof.

(e) Governing Law. This Agreement shall be construed and interpreted according to the laws of the State of Florida and venue with respect to any litigation between the parties related to this Agreement shall be St. Lucie County, Florida.

(f) Effective Date. The "Effective Date" of this Agreement shall be the date the last party hereto signs this Agreement.

10. Successors and Assigns. This Agreement shall be binding upon the parties, their heirs, successors, and assigns.

11. Amendments. This Agreement shall not be changed, modified, or amended except by an instrument in writing and executed by the parties.

IN WITNESS WHEREOF, the parties hereto have caused the execution of this Agreement by their duly authorized officials as of the day and year first above written.

EDUCATIONAL FACILITIES IMPACT FEES CREDIT WAIVER

WHEREAS, Midway Development East, Inc., a Florida corporation ("MDE"), and the School Board of St. Lucie County ("School Board") entered into that certain Agreement for Contribution of School Site dated the ___ day of _____, 2009 (the "Contribution Agreement"); and

WHEREAS, pursuant to the Annexation Agreement dated July 6, 2006, and recorded in Official Records Book 2609, Page 1673, of the Public Records of St. Lucie County, Florida, MDE annexed certain real property more specifically described therein into the City of Port St. Lucie (the "City") for the purpose of developing a mixed-use development (the "West Creek Project"); and

WHEREAS, pursuant to the Contribution Agreement, MDE is conveying certain real property more particularly described in **Exhibit "A"** attached hereto and made a part hereof (the "School Parcel"), to the School Board to be used for a K-8 school; and

WHEREAS, pursuant to Section 1, Paragraph B.vi. of City Ordinance 03-169, Kenco Communities, Inc. was required to dedicate a 15 acre site for elementary school purposes within the development now known as Founders Crossing PUD. The City has acknowledged and agreed that by MDE conveying the School Parcel (located within the West Creek Project) to the School Board, the requirements of Section 1, Paragraph B.vi. of City Ordinance 03-169 shall be deemed fully satisfied; and

WHEREAS, MDE and the School Board have agreed that MDE shall not receive, as a result of the conveyance of the School Parcel to the School Board, any credits toward impact fees or other exactions for public educational facilities purposes that may be imposed by local ordinance or other land use regulation upon the real property within the West Creek Project, provided however, that the City has acknowledged that such conveyance fully satisfies the requirements of Section 1, Paragraph B.vi. of City Ordinance 03-169.

NOW THEREFORE, MDE hereby acknowledges and declares, for itself and its successors and assigns as owner of the real property within the West Creek Project, with the intent forever to be bound, that it has waived any and all right to receive, as a result of the conveyance of the School Parcel to the School Board, any credits toward impact fees or other exactions for public educational facilities purposes that may be imposed by local ordinance or other land use regulation upon the real property within the West Creek Project, including but not limited to any right to receive credits arising under or by reason of Section 163.3180(13)(e)2, Florida Statutes, or successor provision, provided however, that such waiver shall not repudiate, cancel, negate or otherwise adversely affect, the

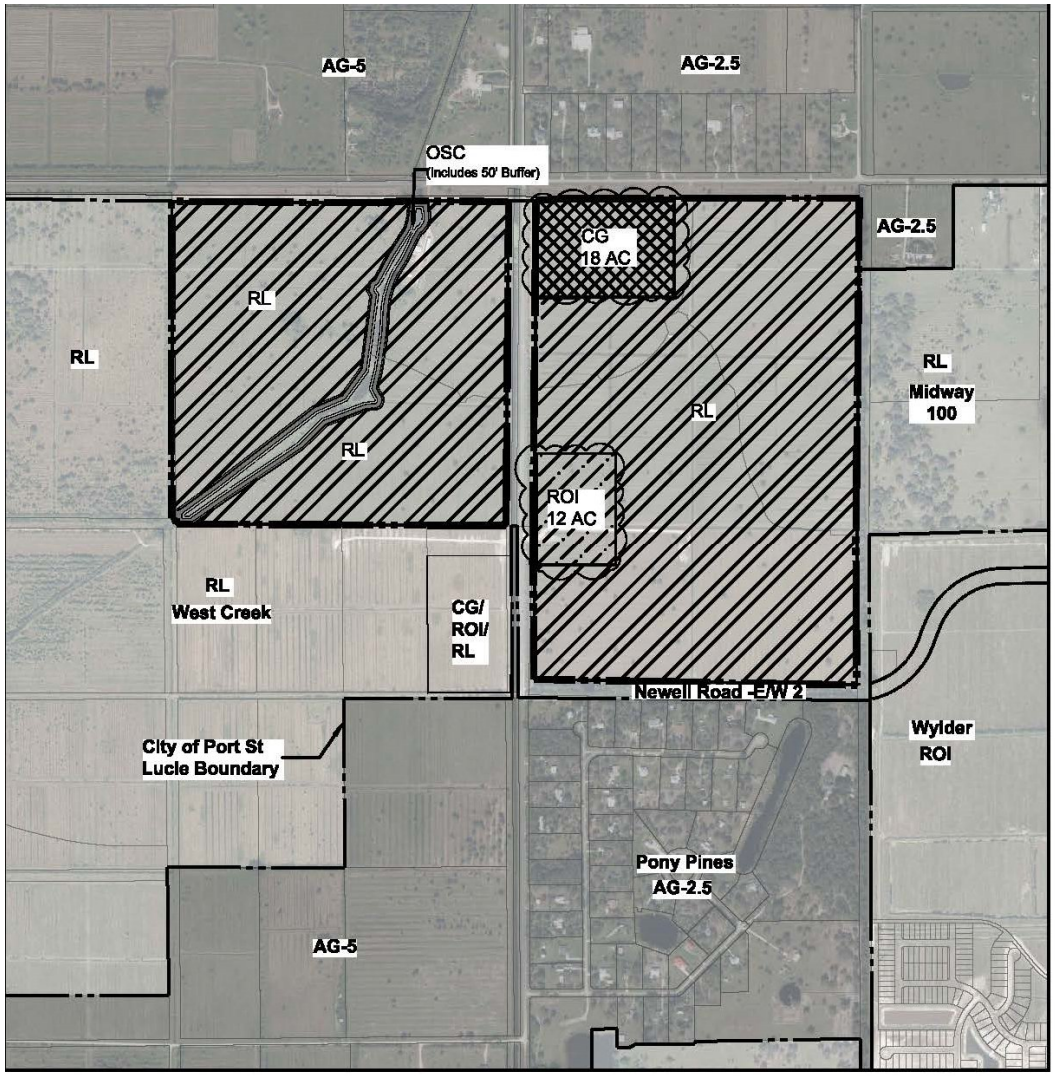
Founder's Crossing Large Scale Comprehensive Future Land Use Map Amendment
P25-130

City Council Transmittal Hearing
June 22, 2026

Request Summary

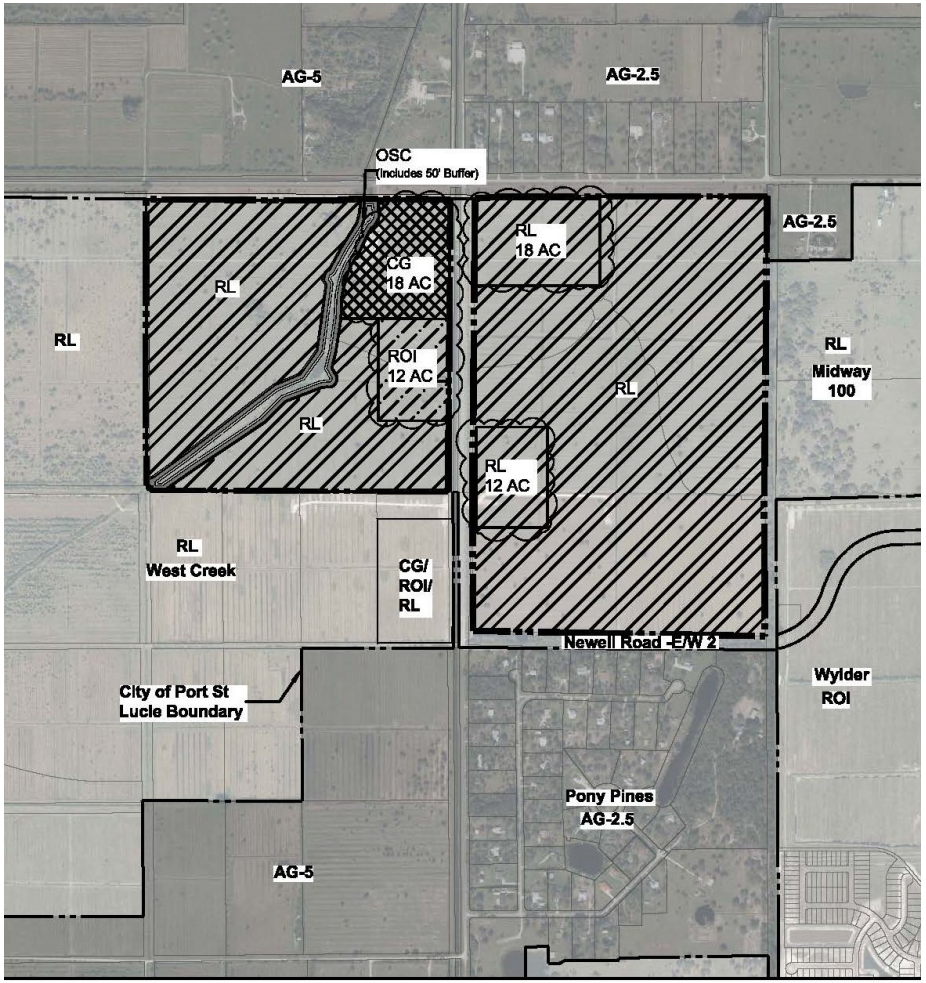
Owner:	Founder's Crossing, LLC
Applicant:	Lucido and Associates
Location:	The subject property is generally located on the south side of Midway Rd., approx. 2.5 miles west of I-95, and on the east and west sides of McCarty Road
Request:	An application for a future land use map amendment for approximately 60 acres of property.

Location Map



Proposed Project

- The request will amend the land use for approximately 60 acres of land within the Founder's Crossing PUD to provide for a proposed 4th amendment to the PUD (P25-130).
- The purpose of the amendment is to shift the location of 18 acres of commercial land use that is located at the southeast corner of Midway Road and McCarty Road to the southwest corner of Midway Road and McCarty Road and to relocate 12 acres of ROI land use located approximately one-half mile south of Midway Road on the east side of McCarty Road to the west side of McCarty Road directly below the 18 acres of CG (Commercial General) land use.



Proposed Amendment

- Amends the land use for approximately 30 acres of land located on the west side of McCarty Road from RL (Low Density Residential) land use to 18 acres of CG (Commercial General) land use and 12 acres of ROI (Residential, Office, Institutional) land use.
- Amends the land use for 30 acres of land located on the east side of McCarty Road from 18 acres of CG (Commercial General) land use and 12 acres of ROI (Residential, Office, Institutional) land use to 30 acres of RL (Low Density Residential) land use.

Existing Land Use

Proposed Land Use

Project Background

- The Founder's Crossing PUD is approximately 386 acres in size.
- The subject property was annexed into the City in 2004 and is subject to an annexation agreement that provides for 875 residential dwelling units, commercial, office, and institutional entitlements and the infrastructure improvements required for the project.
- A large scale comprehensive plan amendment was approved in 2004 that changed the land use from St. Lucie Agriculture to 342.6 acres of RL (Low Density Residential), 18 acres of CG (General Commercial), 12 acres of ROI (Residential Office Institutional), and 13.4 acres of OSC (Open Space Conservation) under Ordinance 03-169.
- An application for PUD zoning was approved in 2004. The PUD has been amended 3 times.

Project Background

- When the future land use amendment (OR 03-169) was approved in July 2004, it included conditions of approval for the development of the property including required roadway improvements which supported the PUD rezoning of the project.
- It required the construction of McCarty Road from Midway Road to Newell Road, pedestrian access, and a proposed school site.
- The associated annexation agreement required the developer to participate in the funding of improvements to Midway Road from I-95 west to McCarty Road and improvements to McCarty Road.

Current Applications

- In association with land use amendment, the applicant has applied for the 4th Amendment to the Founder's Crossing PUD (P25-130).
- The proposed PUD revises the development plan for the property, revises primary access to the property, revises roadway commitments and other changes.
- The applicant has submitted an amendment to the annexation agreement to align with the proposed amendment to the PUD (P26-032).

Staff Analysis

- Policy 1.1.7.1 of the Future Land Use Element states that the City shall review future land use map amendments based on the amount of land required to accommodate anticipated growth, the character of undeveloped land, the availability of water supplies, public facilities and services, the need for job creation, capital investment, and economic development as well as the need to satisfy a deficiency or mix of uses in the Future Land Use Map.
- This application maintains the 342.6 acres of RL (Low Density Residential), 18 acres of CG (General Commercial), 12 acres of ROI (Residential Office Institutional), and 13.4 acres of OSC (Open Space Conservation) land uses that were approved for the subject property in 2004.
- It revises the location for the CG and ROI (Residential, Office and Institutional) areas based on a revised development plan for the property.
- No changes are proposed to the 13.4 acres of OSC (Open Space Conservation) land with this application.

Adequate Public Facilities

- The existing annexation agreement includes requirements for sewer, water, and stormwater improvements necessary to serve the property.
- The proposed amendment to the annexation agreement maintains the requirement for the property owner to install, or cause to be installed, at its sole cost and expense, the on-site water and wastewater transmission facilities to service the property and addresses offsite improvements.

Roadways

- In 2008, the developer entered into a contribution agreement with St. Lucie County that includes a monetary contribution for Midway Road improvements and requirements for construction of McCarty Road from Midway Road to Newell Road as a two-lane roadway.
- For the Planning and Zoning Board hearing, City staff recommended conditions of approval contained in Exhibit "C" based on the revised development plans for the property. Exhibit "C" has been refined and updated since the Planning Board meeting to more closely aligned with the proposed amendment to the annexation agreement for Founder's Crossing.
- Staff's recommended conditions recognize the developer's obligations with regard to the County and include additional City requirements for utility easements, the timing of improvements, requirements for the conveyance, construction, and completion of Newell Road from McCarty Road to Wylder Parkway, and requirements for the construction of McCarty Road from Midway Road to Newell Road.

Flood Zone

- The properties that are the subject of this application are within Flood Zone AE.
- Flood Zone AE is a designation by FEMA that is considered a high risk flood category.
- The applicant has applied to FEMA for a map revision that would allow for the developer to fill the property to where the finished floor elevation of any structure will be raised above the base flood elevation.

Public Schools

- The original Founder's Crossing Large Scale Comprehensive Plan amendment, Ordinance 03-169, included the requirement for the conveyance of a school site.
- Per an agreement with the St. Lucie County School Board, the condition is intended to be addressed by the Second Amendment to the Annexation Agreement for the adjacent West Creek PUD.
- At the time, both the Founder's and West Creek PUDs were under the same ownership.
- To date the conveyance has not occurred.

Planning and Zoning Board

- The Planning and Zoning Board recommended approval with the roadway conditions contained in Exhibit C at the June 2, 2026 Planning and Zoning Board meeting.
- The recommended conditions of approval are contained in the proposed Ordinance 26-53.
- Proposed Ordinance 26-53 also amends and restates conditions contained within Ordinance 03-169.

Planning and Zoning Recommendation

- The Planning and Zoning Department recommends approval of the amendment for transmittal to the Florida Department of Commerce (state land planning agency) subject to the conditions of approval included in proposed Ordinance 26-53 as recommended by the Planning and Zoning Board.

Agenda Summary

2026-577

Agenda Date: 6/22/2026 **Agenda Item No.:** 10.c

Placement: First Reading of Ordinances / Public Hearing

Action Requested: Motion / Vote

Ordinance 26-58, Public Hearing, Authorizing the Conveyance of Real Property Described as Lot 12, Block 2200, Port St. Lucie Section Thirty-Three, as Recorded in Plat 15, Pages 1, 1A through 1V, of the Public Records of St. Lucie County, Florida, to Holiday Builders, Inc., in Exchange for Holiday Builders Conveying Real Property Described as Open Space Tract, Holiday Bougainvillea Plat, as Recorded in Plat Book 140, Page 14, of the Public Records of St. Lucie County, Florida, to the City.

Submitted By: Colt Schwerdt, PE, Public Works Director & City Engineer

Strategic Plan Link: The City's Goal of high-quality infrastructure and facilities.

Summary Brief (Agreements/Contracts only)

1. Prepared by: the City and Holiday Builders, Inc.
2. Parties: City of Port St. Lucie and Holiday Builders, Inc.
3. Purpose: A land swap between the City of Port St. Lucie and Holiday Builders, Inc.
4. New/Renewal/Modified: New
5. Duration: In perpetuity
6. Benefits to Port St. Lucie: It will provide roadway safety and additional access to the City's stormwater canal system.
7. Cost to Port St. Lucie (Annual and Potential): The parties have agreed to split the closing costs equally.

Presentation Information: N/A

Staff Recommendation: Move that the Council approve the Ordinance authorizing the Conveyance of Real Property to Holiday Builders, Inc., in exchange for Holiday Builders, Inc., Conveying Real Property to the City of Port St. Lucie.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the Ordinance.

AN ORDINANCE OF THE CITY OF PORT ST. LUCIE, FLORIDA, AUTHORIZING THE CONVEYANCE OF REAL PROPERTY DESCRIBED AS LOT 12, BLOCK 2200, PORT ST. LUCIE SECTION THIRTY-THREE, AS RECORDED IN PLAT BOOK 15, PAGES 1, 1A THROUGH 1V, OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA, TO HOLIDAY BUILDERS, INC., IN EXCHANGE FOR HOLIDAY BUILDERS, INC., CONVEYING REAL PROPERTY DESCRIBED AS OPEN SPACE TRACT, HOLIDAY BOUGAINVILLEA PLAT, AS RECORDED IN PLAT BOOK 140, PAGE 14, OF THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA, TO THE CITY; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Port St. Lucie ("City") is the owner in fee simple of real property described as Lot 12, Block 2200, Port St. Lucie Section Thirty-Three, according to the plat thereof, as recorded in Plat Book 15, Pages 1, 1A through 1V, of the Public Records of St. Lucie County, Florida (the "City Land"); and

WHEREAS, Holiday Builders, Inc., a Florida corporation ("Holiday Builders"), is the owner in fee simple of real property described as Open Space Tract, Holiday Bougainvillea Plat, according to the plat thereof, as recorded in Plat Book 140, Page 14, of the Public Records of St. Lucie County, Florida (the Holiday Builders Land"); and

WHEREAS, the City's Public Works Department recommends acquiring the Holiday Builders Land for roadway safety purposes as well as providing additional access to the City's stormwater canal system; and

WHEREAS, Holiday Builders has agreed to convey the Holiday Builders Land to the City in exchange for the City conveying the City Land to Holiday Builders; and

WHEREAS, in furtherance of the exchange of real property, the City and Holiday Builders have negotiated an Agreement for the Exchange of Property, which is attached hereto and incorporated herein as Exhibit "A"; and

WHEREAS, after considering the factors set forth herein, the City Council has determined that the conveyance of the City Land to Holiday Builders, in exchange for Holiday Builders conveying the Holiday Builders Land to the Property constitutes a public purpose; and

WHEREAS, City Council desires and hereby authorizes entering into the Agreement for the Exchange of Property with Holiday Builders, in substantially the same form as attached hereto as Exhibit "A" and conveying of the City Land to Holiday Builder, in exchange for Holiday Builders conveying the Holiday Builders Land to the City.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Ratification of Recitals. The foregoing recitals are hereby ratified and confirmed as true and correct and are hereby made a part of this Ordinance.

Section 2. Authorization. The City Council hereby authorizes the conveyance of the City Land to Holiday Builders, Inc., in exchange for Holiday Builders, Inc., conveying the Holiday Builders Land to the City, and further authorizes the Mayor or the City Manager, or their designee, to execute and enter into the Agreement for the Exchange of Property in substantially the same form as attached hereto as Exhibit "A".

Section 3. Execution. The Mayor or the City Manager, or their designee, are hereby authorized and directed to execute any and all documents necessary to complete the conveyance of the City Land to Holiday Builders, pursuant to the provisions of the Agreement for the Exchange of Property, and to fulfill the rights and obligations set forth in said Agreement.

Section 4. Conflict. If any ordinances, or parts of ordinances, are in conflict herewith, this Ordinance shall control to the extent of the conflicting provisions.

Section 5. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect.

Section 6. Effective Date. This Ordinance shall become effective immediately upon final adoption on second reading.

PASSED AND ADOPTED by the City Council of the City of Port St. Lucie, Florida, this _____ day of _____, 2026.

AGREEMENT FOR EXCHANGE OF PROPERTY

This Agreement for Exchange of Property ("Agreement") is entered into this __ day of _____ 2026, by and between the **CITY OF PORT ST. LUCIE,** a Florida municipal corporation, whose address is 121 SW Port St. Lucie Blvd., Port St. Lucie, FL 34984 (the "City") and **HOLIDAY BUILDERS, INC.**, a Florida corporation, whose address is 2293 W Eau Gallie Blvd., Melbourne, FL 32935 ("Holiday Builders"). The City and Holiday Builders may be referred to individually as a "Party" or collectively as "the Parties."

RECITALS

WHEREAS, the City is the owner of real property (the "City Property") legally described as follows:

1. Lot 12, Block 2200, Port St. Lucie Section Thirty-Three, according to the plat thereof, as recorded in Plat Book 15, Pages 1, 1A through 1V, of the Public Records of St. Lucie County, Florida (a/k/a 1691 SW Daysland Ave. with Parcel ID: 3420-660-0621-000-6).

WHEREAS, Holiday Builders is the owner of real property (the "Holiday Builders Property") legally described as follows:

1. Open Space Tract, Holiday Bougainvillea Plat, as recorded in Plat Book 140, Page 14, of the Public Records of St. Lucie County, Florida (Parcel ID: 4313-501-0001-000-8).

WHEREAS, the City desires to acquire the Holiday Builders Property and Holiday Builders desires to acquire the City Property; and

WHEREAS, pursuant to the terms and conditions contained herein, and subject to City Council's approval via ordinance, the Parties desire to exchange the City Property for the Holiday Builders Property.

NOW, THEREFORE, for and in consideration of the premises and mutual covenants and conditions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. EXCHANGE OF PROPERTY.

(a) The City Property. Subject to the terms, provisions and conditions set forth in this Agreement, the City agrees to convey to Holiday Builders the City Property. The City will convey the City Property to Holiday Builders by a Special Warranty Deed without representations and warranties (express or implied) except as to the special warranty of title contained in such deed. In the event certain statutory disclosures or any other disclosures required by law were not made by the City, the Parties for themselves and for their heirs,

representatives, successors and assigns hereby waive any and all such required disclosures and release each other from any claims or right to terminate this Agreement on the basis that such disclosures have not been made.

(b) The Holiday Builders Property. Subject to the terms, provisions and conditions set forth in this Agreement, Holiday Builders agrees to convey to the City the Holiday Builders Property. Holiday Builders will convey the Holiday Builders Property to the City by a Special Warranty Deed without representations and warranties (express or implied) except as to the special warranty of title contained in such deed. In the event certain statutory disclosures or any other disclosures required by law were not made by Holiday Builders, the Parties for themselves and for their heirs, representatives, successors and assigns hereby waive any and all such required disclosures and release each other from any claims or right to terminate this Agreement on the basis that such disclosures have not been made.

2. **CONSIDERATION.** The Parties agree that notwithstanding the ancillary expenses allocated as set forth in this Agreement, the City Property will be conveyed to Holiday Builders for no additional cash consideration, and the Holiday Builders Property will be conveyed to the City for no additional cash consideration.

3. **INSPECTIONS.** The City will be permitted to inspect the Holiday Builders Property at the City's sole cost and expense and Holiday Builders will be permitted to inspect the City Property at Holiday Builder's sole cost and expense, for a period beginning on the Effective Date and ending on the sixtieth (60^{th}) day after the Effective Date (said period of time herein referred to as the "Inspection Period"). If the City determines that the Holiday Builders Property, or if Holiday Builders determines that the City Property, is not acceptable for any reason, as determined by the City and Holiday Builders in their sole and absolute discretion, each Party shall have the option to terminate this Agreement by written notice to the other, which must be delivered on or before the expiration of the Inspection Period. Upon receipt of such termination notice, this Agreement shall be cancelled and rendered null and void and the Parties shall be released of all obligations hereunder, and shall have no further claims against each other.

4. **RIGHT TO ENTER THE PROPERTY.** The Parties agree that during the Inspection Period, either Party, its officers, agents, or employees, shall have at all reasonable times the right to enter the other Party's property for all lawful purposes, including investigation, examination, and testing of the other Party's property, in connection with this transaction.

5. **AS-IS SALE TERMS.** The Parties acknowledge and agree that, except as specifically provided in this Agreement and in any documents executed in connection with this transaction: (i) the Parties have made no representations as to the condition or state of repair of the property being conveyed, title or survey matters, or anything else of any nature whatsoever related to the City Property or the Holiday Builders Property; and (ii) the Parties have made no agreements to alter, repair or improve the City Property or the Holiday Builders Property. The Parties agree to accept possession of the City Property and the Holiday Builders Property on the closing date in AS-IS CONDITION WITH ALL FAULTS and WITHOUT EXPRESS OR IMPLIED WARRANTIES AS TO FITNESS FOR ANY PARTICULAR PURPOSE.

6. **CONDITION OF PROPERTY.**

(a) From the Effective Date and until closing, the City shall continue to maintain the City Property and Holiday Builders shall continue to maintain the Holiday Builders Property in substantially the same condition as it is as of the Effective Date, subject to normal wear and tear. The Parties shall keep in force all existing hazard and liability insurance maintained in connection with the City Property and the Holiday Builders Property but shall be permitted to replace any policies with similar coverage.

(b) The Parties shall promptly provide the other with copies of any written notices, litigation, claims, or actions pertaining to the City Property or the Holiday Builders Property, or any portion thereof, that will not be resolved prior to closing. Following the Effective Date, the Parties shall not enter into any contracts or other documents affecting the City Property or the Holiday Builders Property, or any portion thereof, that will survive the closing, without the other's written consent.

7. **REPRESENTATIONS AND WARRANTIES.** Each Party with respect to the property it is conveying, represents and warrants to the other Party the following representations and warranties which will survive the closing:

(a) There is ingress and egress to the property;

(b) There is no litigation or proceeding pending or threatened against or relating to the property;

(c) The Party is not subject to any bankruptcy, reorganization, insolvency, or other similar proceedings;

(d) The Party has full power and authority to enter into and perform this Agreement in accordance with its terms, and the completion of this transaction will not violate any law, regulation or agreement affecting it or the property it is conveying; and

(e) Possession of the property shall be delivered at the time of closing.

8. **INTEREST CONVEYED.** Holiday Builders is the record owner of the Holiday Builders Property and shall convey to the City at closing, good, marketable, and insurable title by Special Warranty Deed. The City is the record owner of the City Property and shall convey to Holiday Builders at closing, good, marketable, and insurable title by Special Warranty Deed. The Parties agree to convey their respective property, subject to the specific representations, warranties and disclosures contained in this Agreement, "As-is," "Where-is" and "With all Faults" as of the closing date.

9. **TITLE INSURANCE.** Either the City or Holiday Builders may, at its sole cost and expense, obtain a marketable title insurance commitment and, upon either Party's written request, furnish a copy to the requesting Party. Said commitment shall show good, marketable, and insurable title. The City or Holiday Builders may, at its sole cost and expense, obtain an owner's marketable title insurance policy from a title insurance company licensed by the State of Florida ("Title Company"). The Parties shall have thirty (30) days from receipt of the title

commitment to inspect said title documents and report defects, if any, in writing to the other Party. If the title commitment shows title to any parcel to be unmarketable, uninsurable, or unacceptable to either Party, then each Party shall, within said thirty (30) day period, provide to the other Party written notification of any unacceptable title defects. The property owner shall have ten (10) days from the receipt of such notice to notify the other Party that it elects to cure or not cure the defects. Failure to notify the other Party that it elects to cure the defects shall constitute an election not to cure. If one Party does not affirmatively elect to cure the defects, then the other may, by written notice given within five (5) days, terminate this Agreement, thereupon this Agreement shall be cancelled and rendered null and void and the Parties shall be released of all obligations hereunder, and shall have no further claims against each other. If the Parties do not terminate this Agreement pursuant to this section, then any such title defects shall be deemed acceptable. If either Party elects to cure any title defects, that Party shall have until closing to do so, and upon that Party's failure to so cure, the other shall have the option to proceed to closing, or, upon written notice, terminate this Agreement.

10. CLOSING.

(a) The closing of this transaction shall be completed within ninety (90) days after the Effective Date of this Agreement, unless otherwise extended by a written mutual agreement between the Parties. The date, time and place of closing shall be set by both Parties.

(b) On the closing date, the Parties shall deliver any amounts due at closing to **HB Title**, a Florida limited liability company (the "Closing Agent"), whose address is 2285 W. Eau Gallie Blvd, Melbourne, Florida 32935, by bank wire transfer of immediately available U.S. dollars, for distribution in accordance with the terms hereof and according to any adjustments and prorations to which the Parties may be entitled to under this Agreement.

(c) The Closing Agent will prepare the closing documents, including, but not limited to, the deeds, ownership and lien affidavits and the closing statement. The Parties hereby agree that other than the recording fees for documents necessary to cure title, all closing costs shall be shared equally between the Parties, unless otherwise agreed to herein. The City shall be responsible for the recording fees for documents necessary to cure title for the City Property and Holiday Builders shall be responsible for the recording fees for documents necessary to cure title for the Holiday Builders Property.

11. PRORATIONS. The Parties hereby agree that typical prorations (such as, but not limited to, utility service, water and sewer costs, solid waste service, electricity, ad valorem taxes, assessments) shall be prorated as of the closing date.

12. LIENS. All liens of record, including certified municipal, city, and county liens, as well as special assessments, if any, shall be paid in full at or before closing.

13. *RYAN* CLAUSE. Holiday Builders acknowledges and agrees that there may be deed restrictions, restrictive covenants and such other restrictions appearing on the plat or otherwise common to the subdivision affecting the Holiday Builders Property. The City's acceptance of title to the Holiday Builders Property, which may be subject to such restrictions, shall not be construed as a waiver of the City's claim of exemption as a governmental unit from

any cloud or encumbrance created by the above-mentioned matters pursuant to *Ryan v. Manalapan*, 414 So.2d 193 (Fla. 1982). The Parties hereby agree that this language shall appear on the face of the deed transferring title of the Holiday Builder Property to the City.

14. TIME. Time is of the essence with regard to all dates or times set forth in this Agreement; however, all obligations are subject to Acts of God or Nature or any other occurrences, which are beyond the control of the City or Holiday Builders.

15. LOSS. All risk of loss to either Party's property shall be borne by the present property owner until transfer of title.

16. BROKERS. The Parties represent to each other that no broker or finder is entitled to a commission or other compensation in connection with this transaction.

17. DEFAULT. If either Party defaults under this Agreement, then the other Party may waive the default and proceed with closing, in which event any and all claims with respect to such default shall be deemed extinguished, or, either Party may terminate this Agreement and the Parties shall be released of all obligations hereunder, and shall have no further claims against each other.. In no event shall any Party be liable for any damages (actual, special, consequential, punitive, or otherwise) for any default under this Agreement.

18. SOVEREIGN IMMUNITY AND APPROVALS.

(a) The Parties understand and expressly hereby agree that any development is subject to various governmental considerations and approvals that are outside of the terms and conditions of this Agreement. Such considerations and approvals may be processed or considered by one or various agencies and/or departments of the City in the normal course of business for those agencies and/or departments.

(b) The Parties hereby agree that the City of Port St. Lucie shall not be liable in any manner, whatsoever, to any other party or person for the exercise of its governmental authority, regulatory powers and/or police powers. The City of Port St. Lucie retains all of its sovereign prerogatives and rights as provided for under Florida laws and applicable codes, ordinances and regulations, and shall in no way be estopped or otherwise prevented from withholding or refusing to issue any approvals of applications for building, zoning, planning, or development under present or future laws and regulations of whatever nature applicable to the planning, zoning, design, construction, and development of the City Property or the operation thereof, or be liable for the same. Moreover, in no event shall a failure of the City of Port St. Lucie and its governing bodies, boards, or councils to adopt any of the planning and zoning applications, approvals or permits, be construed as a breach or default of this Agreement by the City.

(c) The City's liability in all instances shall be limited to the monetary amounts set forth in Section 768.28, Florida Statutes. Nothing contained in this Agreement or related documents shall be deemed a waiver of the City's sovereign immunity, whether by contract or by law.

19. **SUCCESSORS IN INTEREST.** This Agreement will inure to the benefit of and be binding upon and is intended solely for the benefit of the Parties hereto, and their respective heirs, personal representatives, successors, and assigns, and no third party will have any rights, privileges or other beneficial interests herein or hereunder.

20. **GOVERNING LAW.** This Agreement is governed by and will be construed in accordance with the laws of the State of Florida, and in the event of any litigation concerning the terms of this Agreement; proper venue thereof will be in St. Lucie County, Florida.

21. **INVALID PROVISIONS.** In the event any term or provision of this Agreement is held illegal, unenforceable or inoperative as a matter of law, the remaining terms and provisions will not be affected thereby but will be valid and remain in full force and effect so far as possible. If any provision of this Agreement may be construed in two or more ways, one of which would render the provision invalid or otherwise voidable or unenforceable and another of which would render the provision valid and enforceable, such provision shall have the meaning which renders it valid and enforceable.

22. **COUNTERPARTS.** This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. A facsimile copy of this Agreement and any signatures thereon shall be considered for all purposes as originals.

23. **RECORDING.** This Agreement or notice thereof may be recorded by the City in the minutes of the Clerk of the City Council for Port St. Lucie, St. Lucie County, Florida, but shall not be recorded in the official Public Records of the Clerk of the Court of St. Lucie County, Florida.

24. **ASSIGNMENT.** Neither this Agreement nor any interest therein shall be assigned by either the City or Holiday Builders without the express written consent of each other.

25. **ENTIRE AGREEMENT.** This Agreement contains the entire agreement between the Parties hereto as it pertains to the subject matter contained herein and shall supersede and take precedence over any and all prior and contemporaneous agreements and understandings between the Parties hereto.

26. **EFFECTIVENESS.** The effectiveness of this Agreement is contingent upon approval by the City Council of the City of Port St. Lucie, as well as public hearings, if applicable. The date of such approval of the Agreement by the City Council is the Effective Date of this Agreement.

27. **NOTICES.** All notices, requests, consents, and other communications required or permitted under this Agreement shall be in writing and shall be (as elected by the party giving such notice) hand delivered by messenger or courier service, or by United States Mail with postage prepaid (Airmail if international), and shall be directed to:

Agenda Summary

2026-489

Agenda Date: 6/22/2026 **Agenda Item No.:** 10.d

Placement: First Reading of Ordinances / Public Hearing

Action Requested: Motion / Vote

Ordinance 26-59, Public Hearing, an Ordinance of the City Council of the City of Port St. Lucie, Florida, Providing for the Placement of a Non-Binding Straw Ballot Question on the November 3, 2026 General Election Ballot, Asking Whether the Electors Support Amending the City's Solid Waste Franchise Agreement to Increase Residential Curbside Pickup to Twice Per Week at an Increased Cost Per Household; Providing the Text of the Proposed Straw Ballot Question; Directing the City Clerk to Provide the Supervisor of Elections with a Copy of this Ordinance; Providing for Conflict; Providing for Severability; and Providing for an Effective Date.

Submitted By: Mariana Feldpausch, Solid Waste Director

Strategic Plan Link: The City's Goal of safe, clean, and beautiful.

Executive Summary (General Business): This ordinance provides for the placement of a non-binding straw ballot question on the November 3, 2026 general election ballot. The question asks whether residents would support amending the City's solid waste franchise agreement to provide for Citywide, twice-per-week residential curbside pickup for an increased cost placed on all residents' solid waste assessment by at least $131 in 2028 - with additional increases expected in later years.

Presentation Information: Following a brief presentation, staff will be available to answer any questions.

Staff Recommendation: Move that the Council complete the motion in the affirmative and approve the ordinance for adoption after second reading.

Alternate Recommendations:

1. Move that the Council amend the recommendation, complete the motion in the affirmative and approve the ordinance for adoption after second reading.
2. Move that the Council not approve the ordinance and provide direction.

Background: Since the commencement of the solid waste franchise agreement with FCC Environmental Services, Inc. in 2022, there has been considerable, recurring debate and discussion as to whether the City should increase residential curbside trash collection to twice per week for all City homes. The Council's consensus at previous public meetings is to place a straw ballot question on the next general election ballot in 2026 to ascertain the level of public support for amending the franchise agreement to include twice weekly service at an increased solid waste assessment cost for residents.

Issues/Analysis: N/A

Financial Information: If the franchise agreement is amended, the increased costs of the second weekly pickup service would be included in residents' annual solid waste assessment in 2028 and 2029. It is estimated that residents would pay at least $131 more for their 2028 solid waste assessment, and at least $136 more for their 2029 solid waste assessment.

Special Consideration: Straw ballot questions are non-binding questions that municipalities use to poll public support of a potential item of government business or a potential course of action by government. Formatting and drafting requirements apply, as well as coordination with the St. Lucie County Supervisor of Elections to place the straw ballot question on this year's general election ballot.

Location of Project: Citywide Residential Improved Properties

Business Impact Statement: Yes

Legal Sufficiency Review:
Reviewed by KeAndrea Davis, Deputy City Attorney. Approved as to Legal form and sufficiency by Richard Berrios, City Attorney.

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PORT ST. LUCIE, FLORIDA, PROVIDING FOR THE PLACEMENT OF A NON-BINDING STRAW BALLOT QUESTION ON THE NOVEMBER 3, 2026 GENERAL ELECTION BALLOT, ASKING WHETHER THE ELECTORS SUPPORT AMENDING THE CITY'S SOLID WASTE FRANCHISE AGREEMENT TO INCREASE RESIDENTIAL CURBSIDE PICKUP TO TWICE PER WEEK AT AN INCREASED COST PER HOUSEHOLD; PROVIDING THE TEXT OF THE PROPOSED STRAW BALLOT QUESTION; DIRECTING THE CITY CLERK TO PROVIDE THE SUPERVISOR OF ELECTIONS WITH A COPY OF THIS ORDINANCE; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City of Port Saint Lucie ("City") has entered into a franchise agreement with FCC Environmental Services, Inc. for residential solid waste collection services; and

WHEREAS, under the terms of the franchise agreement, residential curbside trash collection occurs once per week per household, excluding the collection of bulk trash, recycling, and yard waste; and

WHEREAS, since the commencement of the franchise agreement in 2022 there has been recurring debate and discussion as to whether the City should increase residential curbside trash collection to twice per week per household; and

WHEREAS, on August 25, 2025, the City Council reached consensus to place a straw ballot question on the 2026 General Election ballot to finally gauge public support for twice-weekly residential trash collection; and

WHEREAS, the City Council finds it is in the best interest of the City's residents to determine the extent to which the City's residents support a change to twice weekly residential curbside trash pickup; and

WHEREAS, pursuant to the City's home rule powers under Section 166.021, Florida Statutes, and in accordance with the requirements of Section 101.161, Florida Statutes, the City Council desires to place a non-binding, straw ballot

question on the November 3, 2026 general election ballot to determine whether the City's electors would support amending the franchise agreement to increase citywide residential curbside pickup services to twice per week, which would result in an increased solid waste assessment on each household.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Ratification of Recitals. The foregoing recitals are hereby ratified and confirmed as true and correct and are hereby made a part of this Ordinance.

Section 2. Non-binding Ballot Question. The following non-binding straw ballot question, prepared for clarity and compliance with Section 101.161, Florida Statutes, shall be placed on the November 3, 2026 general election ballot:

City of Port St. Lucie Non-Binding Straw Ballot Question

Proposed Increase to Your Tax Bill for an Extra Trash Pickup Day Per Week.

Would you support the City of Port St. Lucie increasing your solid waste assessment by at least $131 in 2028 – with additional increases expected in later years – in order to amend its solid waste contract to provide twice-weekly residential trash pickup citywide starting in 2028 (excluding bulk, recycling, and yard waste)?

Ballot Choices

☐ ***YES*** *— I would support amending the City's solid waste contract to change citywide trash pickup service to twice-weekly for the estimated $131 increase as set forth above.*

☐ ***NO*** *— Keep once-per-week trash pickup per the City's current solid waste contract.*

Section 3. Implementation and Authorization. The City Manager and the City Clerk are hereby authorized to carry out all necessary steps required to place the straw ballot question on the November 3, 2026 general election ballot. The City Clerk shall promptly provide a certified copy of this Ordinance to the Supervisor of Elections of St. Lucie County upon adoption, for placement of the straw ballot question on the November 3, 2026 general election ballot.

Section 4. Conflict. If any ordinances, or parts of ordinances, are in conflict herewith, this Ordinance shall control to the extent of the conflicting provisions.

Section 5. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect.

Section 6. Effective Date. This Ordinance shall become effective upon final adoption on second reading.

[This space left intentionally blank.]

PASSED AND ADOPTED by the City Council of the City of Port St. Lucie, Florida, this _____ day of _____, 2026.

Business Impact Estimate Form

Proposed Title/Reference and Legistar ID # of proposed ordinance:

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PORT ST. LUCIE, FLORIDA, PROVIDING FOR THE PLACEMENT OF A NON-BINDING STRAW BALLOT QUESTION ON THE NOVEMBER 3, 2026 GENERAL ELECTION BALLOT, ASKING WHETHER THE ELECTORS SUPPORT AMENDING THE CITY'S SOLID WASTE FRANCHISE AGREEMENT TO INCREASE RESIDENTIAL CURBSIDE PICKUP TO TWICE PER WEEK AT AN INCREASED COST PER HOUSEHOLD; PROVIDING THE TEXT OF THE PROPOSED STRAW BALLOT QUESTION; DIRECTING THE CITY CLERK TO PROVIDE THE SUPERVISOR OF ELECTIONS WITH A COPY OF THIS ORDINANCE; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

The provisions contained in this Section A constitute exceptions as provided in Section 166.041(4)(c).

If one or more boxes are checked in Section A below, a business impact estimate is not required by state law for the proposed ordinance.

Section A. The Proposed Ordinance ☐ does ☒ does not fall under of the following exceptions:

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant or other financial assistance accepted by the City;
- ☐ The proposed ordinance is an emergency ordinance;
- ☐ The proposed ordinance relates to procurement; or
- ☐ The proposed ordinance is enacted to implement the following:
  a. Development orders and development permits, as those terms are defined in s. 163.3164, and development agreements, as authorized by the Florida Local Government Development Agreement Act under ss. 163.3220-163.3243;
  b. Comprehensive plan amendments and land development regulation amendments initiated by an application by a private party other than the municipality;
  c. Sections 190.005 and 190.046;
  d. Section 553.73, Florida Statutes, relating to the Florida Building Code; or
  e. Section 633.202, Florida Statutes, relating to the Florida Fire Prevention Code.

If one or more of the exceptions above are applicable to the ordinance, then only Section A needs to be completed. If the ordinance falls under none of the above exceptions, Section B must be completed on the next page.

Section B

This section must be completed if the proposed ordinance does not meet any of the exemptions in Section A.

1. A statement of the public purpose to be served by the proposed ordinance such as serving the public health, safety, morals, and welfare of the municipality.

   This ordinance authorizes the placement of a non-binding straw ballot question on the general election ballot. The straw ballot question seeks to determine whether there is public support of amending the City's solid waste franchise agreement to increase residential curbside pickup to twice per week at an increased cost per household, which would appear on residents' solid waste assessment for years 2028 and 2029. If implemented, it has the potential to benefit public health since trash will be picked up more frequently.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City, if any (if none, please put N/A): N/A

   a) An estimate of direct compliance costs that businesses may reasonably incur.

   N/A

   (b) Any new charge or fee on businesses subject to the proposed ordinance, or for which businesses will be financially responsible; and

   N/A

   (c) An estimate of the City's regulatory costs, including an estimate of revenues from any new charges or fees to cover such costs.

   N/A

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

   Only the City's franchise waste hauler would be impacted, and the increased costs of service for the hauler to add a second collection per week would be passed on to the consumer in the form of the increased annual assessments imposed on City residents.

4. Additional information/methodology for preparation, if any:

☐ ***NO*** *– Keep once-per-week trash pickup per City's current solid waste contract.*

TWICE A WEEK GARBAGE SERVICE IMPACTS

- Implementation: 9 – 15 months after vote (late 2027 or early 2028)
- Changes in service scheduled to add Saturday (potentially 3 days per week)
- No Make up days for holidays: 4th of July, Thanksgiving, and Christmas
- FCC: Additional 17 Trucks and drivers
- FCC: Additional 5 Indirect Employees
- FCC: Additional property
- Introduction of 6-day work schedule
- OSW: Additional 4 FTES, and 2 pick-up trucks
- Review contract Administrative Charges to reflect additional service
- Allow 6AM collection due to Saturday landfill hours (8 a.m. to 1 p.m.)
- Lower recycling participation – Increased disposal
- Higher impact on roads, leading to more maintenance

Agenda Summary

2026-567

Agenda Date: 6/22/2026 **Agenda Item No.:** 10.e

Placement: First Reading of Ordinances / Public Hearing

Action Requested: Motion / Vote

Ordinance 26-60, Public Hearing, an Ordinance of the City of Port St. Lucie, Florida, Authorizing the Lease of Real Property Located at 198 NW Marion Ave, Port St. Lucie, Florida to the Agricultural and Labor Program, Inc., a Florida Not-for-Profit Corporation; Authorizing the Mayor, the City Manager, or their Designees, to Execute the Lease Agreement; Providing for Conflict; Providing for Severability; Providing An Effective Date.

Submitted By: Kelly Boatwright, Assistant Director, Parks & Recreation

Strategic Plan Link: The City's Goal to Enjoy Culture, Nature and Recreation.

Summary Brief (Agreements/Contracts only)

1. Prepared by: KeAndrea Davis, Esq., Deputy City Attorney
2. Parties: City of Port St. Lucie and the Agricultural and Labor Program, Inc. (ALPI)
3. Purpose: to allow the operations of providing comprehensive early childhood education, health, nutrition and parent involvement services to low-income children and families within designated areas of property owned by the City of Port St Lucie and located at 198 NW Marion Avenue, Port St. Lucie Florida.
4. New/Renewal/Modified: New
5. Duration: 1 Year, with two 1-year options to renew
6. Benefits to Port St. Lucie: ALPI delivers childcare and development services that aligns with the City's mission to enhance safety, quality of life, educational advancement, and recreational opportunities for residents.
7. Cost to Port St. Lucie (Annual and Potential): N/A

Presentation Information: N/A, staff will be available to answer questions

Staff Recommendation: Move that the Council approve the Ordinance authorizing the Mayor to execute and enter into the lease agreement with the Agricultural and Labor Program, Inc.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the Ordinance.
2. Move that the Council not approve the Ordinance and provide staff with additional direction.

Background: In 2025, the City of Port St. Lucie assumed control of the former Port St. Lucie Elementary School property through a land conveyance from the St. Lucie County School Board (SLCSB). The School Board

transferred approximately 15.4 acres located at 198 SW Marion Avenue to the City, with the transaction formally approved by the City Council on January 13, 2025 (Resolution 25R 02, Legistar 2024 1185). The deed was officially recorded on May 27, 2025. The lease terms previously assumed by the City of Port St Lucie under the original agreement between the St Lucie County School Board and ALPI-including rental rate, permitted use, and maintenance responsibilities-will be substantially replicated in the new proposed lease agreement.

Issues/Analysis: N/A

Financial Information: ALPI will submit a monthly payment to the City in the amount of $7,164.52 per month.

Special Consideration: N/A

Location of Project: 198 NW Marion Avenue, 10 modular classrooms building and 6 portable classrooms along with portions of the surrounding property to include the eastern parking lot.

Attachments:
1. Ordinance 26-60
2. Business Impact Estimate
3. Draft Lease agreement

NOTE: All of the listed items in the "Attachment" section above are in the custody of the City Clerk. Any item(s) not provided in City Council packets are available upon request from the City Clerk.

ORDINANCE 26-60

AN ORDINANCE OF THE CITY OF PORT ST. LUCIE, FLORIDA, AUTHORIZING THE LEASE OF REAL PROPERTY LOCATED AT 198 NW MARION AVE, PORT SAINT LUCIE, FLORIDA TO THE AGRICULTURAL AND LABOR PROGRAM, INC., A FLORIDA NOT-FOR-PROFIT CORPORATION; AUTHORIZING THE MAYOR, THE CITY MANAGER, OR THEIR DESIGNEES, TO EXECUTE THE LEASE AGREEMENT; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE.

WHEREAS, on May 14, 2025, the City of Port St. Lucie (the "City") acquired title to the real property ("the Property") located at 198 NW Marion Ave, Port St. Lucie, Florida; and

WHEREAS, as part of the acquisition of the Property, the City assumed a lease for a portion of the Property ("Leased Property") wherein the Agricultural and Labor Program, Inc. (ALPI) is the lessee and which will expire on June 26, 2026; and

WHEREAS, ALPI expressed interest in extending the term of the lease to continue to provide comprehensive developmental services and family support for low-income children from birth to five years; and

WHEREAS, the City desires to enter into a Lease Agreement with ALPI for the Leased Property in substantially the same form as attached hereto and incorporated herein as Exhibit "A"; and

WHEREAS, City Council deems it to be in the best interest of the City to enter into the Lease Agreement with ALPI in furtherance of the City's mission to enhance safety, quality of life, educational advancement, and recreational opportunities for residents; and

WHEREAS, City Council has determined that entering into the Lease Agreement is in the public interest, for a public purpose and therefore, necessary for the public health, safety and welfare.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Recitals. The foregoing recitals are hereby ratified and confirmed as true and correct and are hereby made a part of this Ordinance.

Section 2. The Mayor, the City Manager, or their designees, are hereby authorized and directed to execute the Lease Agreement in substantially the same form as attached hereto as Exhibit "A" and to take any and all necessary actions, including preparing and executing instruments, required to effectuate the transfer of possession of the Leased Property to the Agricultural and Labor Program, Inc., pursuant to the terms of the Lease Agreement.

Section 3. Conflict. If any ordinances, or parts of ordinances, are in conflict herewith, this Ordinance shall control to the extent of the conflicting provisions.

Section 4. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect.

Section 5. Effective Date. This Ordinance shall become effective immediately after final adoption on second reading.

PASSED AND ADOPTED by the City Council of the City of Port St. Lucie, Florida, this _____ day of _____, 2026.

City of Port St. Lucie
Business Impact Estimate Form

Proposed Title/Reference and Legistar ID # of proposed ordinance:
AN ORDINANCE OF THE CITY OF PORT ST. LUCIE, FLORIDA, AUTHORIZING THE LEASE OF REAL PROPERTY LOCATED AT 198 NW MARION AVE, PORT SAINT LUCIE, FLORIDA TO THE AGRICULTURAL AND LABOR PROGRAM, INC., A FLORIDA NOT-FOR-PROFIT CORPORATION; AUTHORIZING THE MAYOR, THE CITY MANAGER, OR THEIR DESIGNEES, TO EXECUTE THE LEASE AGREEMENT; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE

The provisions contained in this Section A constitute exceptions as provided in Section 166.041(4)(c).

If one or more boxes are checked in Section A below, a business impact estimate is not required by state law for the proposed ordinance.

Section A. The Proposed Ordinance ☐ does ☒ does not fall under of the following exceptions:

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant or other financial assistance accepted by the City;
- ☐ The proposed ordinance is an emergency ordinance;
- ☐ The proposed ordinance relates to procurement; or
- ☐ The proposed ordinance is enacted to implement the following:
  a. Part II of Chapter 163, Florida Statutes, relating to growth policy, county and municipal planning, and land development regulation, including zoning, development orders, development agreements and development permits;
  b. Sections 190.005 and 190.046, Florida Statutes, regarding community development districts;
  c. Section 553.73, Florida Statutes, relating to the Florida Building Code; or
  d. Section 633.202, Florida Statutes, relating to the Florida Fire Prevention Code.

If one or more of the exceptions above are applicable to the ordinance, then only Section A needs to be completed. If the ordinance falls under none of the above exceptions, Section B must be completed on the next page.

Section B

This section must be completed if the proposed ordinance does not meet any of the exemptions in Section A.

1. A statement of the public purpose to be served by the proposed ordinance such as serving the public health, safety, morals, and welfare of the municipality.

The City's Mission to provide exceptional services.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City, if any (if none, please put N/A):

a) An estimate of direct compliance costs that businesses may reasonably incur.

N/A

(b) Any new charge or fee on businesses subject to the proposed ordinance, or for which businesses will be financially responsible; and

N/A

(c) An estimate of the City's regulatory costs, including an estimate of revenues from any new charges or fees to cover such costs.

N/A

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

N/A

4. Additional information/methodology for preparation, if any:

LEASE

By and Between

CITY OF PORT ST. LUCIE

and

THE AGRICULTURAL AND LABOR PROGRAM, INC.

Dated as of

June ___, 2026

LEASE AGREEMENT

THIS LEASE AGREEMENT (the "Lease" or the "Agreement") is made and entered into as of the _____ day of _____, 2026, by and between THE CITY OF PORT ST. LUCIE, a Florida municipal corporation, whose mailing address is 121 SW Port St. Lucie Blvd., Port St. Lucie, Florida 34984 ("Landlord" or the "City"), and THE AGRICULTURAL AND LABOR PROGRAM, INC., INC., a Florida not-for-profit corporation, whose mailing address is P.O. Box 3126, Winter Haven, FL 33885 ("Tenant").

WITNESSETH:

In consideration of Premises, the rents, and the promises and mutual covenants hereinafter set forth, the parties hereto agree as follows:

1. Lease of the Premises. Landlord owns that certain real property situated in St. Lucie County, Florida, as described in **Exhibit A**, attached hereto and incorporated herein, which is commonly known as 198 NW Marion Avenue, Port St. Lucie, Florida, (Parcel ID: 3429-111-0025-000-8). The leased premises may be generally described as the following: 10 modular classrooms, 6 portable classrooms and associated site area, including the non-exclusive eastern parking lot and includes signs, sidewalks, playgrounds, fencing, and common areas.

Landlord hereby leases to Tenant and Tenant hereby leases from Landlord, on the terms and conditions set forth below, the Premises.

2. Term. The initial term of this Lease shall be for a period of one (1) year (the "Initial Term"), commencing on the Effective Date (defined in Section 3 below) and terminating on the date which is the last day of the month which is one (1) year after the Effective Date, unless renewed as provided herein ("Expiration Date"). Tenant may extend the Term of this Agreement for up to two (2) lease renewal periods of twelve (12) months (the "Renewal Term") upon six (6) months written notice to the City prior to the expiration of the Initial Term. Renewal is at the discretion of Landlord. For purposes of this Lease, "**Term**" means both the Initial Term and any applicable Renewal Term, and the designation of "**Expiration Date**" shall be interpreted to include the conclusion of any applicable Renewal Term of this Lease.

3. Conditions Precedent to Effectiveness of this Lease. Notwithstanding anything contained herein to the contrary, this Lease shall not become effective unless and until the City Council of the City of Port St. Lucie shall have approved the execution of this Lease. This Agreement shall be a binding contract and agreement between Landlord and Tenant on the date which both parties have executed this Lease (the "Effective Date").

4. Rent. Tenant agrees to pay to Landlord the sum of $ 7,164.52 per month, as base rent (the "Rent"), during the Term in lawful money of the United States. The Base Rent shall commence on the Effective Date and shall be payable monthly thereafter, in advance, on the first day of each calendar month without demand and without deduction, hold back or set off.

i. **Security Deposit.** Tenant shall not be required to pay a security deposit to Landlord for the lease of the Premises.

5. Termination of Lease. Landlord shall have the right to terminate this Lease, for convenience and at any time, by providing Tenant with sixty (60) days ("Termination Period") prior written notice ("Termination Notice"). In the event Landlord terminates the Lease by providing the Termination Notice, Tenant shall vacate the Premises, and the Lease shall terminate at the expiration of the Termination Period.

6. Maintenance, Repairs and Operational Costs. Tenant shall be solely responsible for all maintenance, repairs, mowing, landscaping, custodial duties, and trash removal. on the Premises during the Term of this Lease. Tenant shall not make any changes, alterations, additions, improvements or repairs without approval from Landlord. In the event Tenant wishes to make any minor alternations, or improvement Tenant shall submit a request to the Director of the City's Parks and Recreation Department requesting any such alterations. Tenant's requests will be reviewed and, if approved, the tenant will receive a written response from the Director of his designee. Tenants' requests will be reviewed and addressed in a reasonably timely fashion. At all times during the Term, Tenant, at its sole cost and expense, shall keep the Premises in good order and condition except for reasonable wear and tear, and shall keep same in a clean, sanitary and safe condition and remove all rubbish and trash from same. Tenant shall obtain all planning, permitting, and approvals for improvements and bear all associated costs.

i. **Waste.** Tenant shall not commit waste, overload, or purposely subject the Premises to any use that would damage the Premises. Tenant shall not permit any hazardous materials or conditions to occur or remain on the Premises. Tenant shall not use or occupy or permit or suffer the Premises to be used or occupied, and shall not do, or permit to be done, anything in or about the Premises, or any part thereof, that will cause material damage to the Premises, or any part thereof, or that will constitute a public or private nuisance or waste.

ii. **Custodial/Housekeeping Maintenance.** Tenant shall be responsible for providing regular custodial services to the Premises , including: (1) cleaning the bathrooms, washing the floors and dusting; (2) the removal of all garbage, trash, and other refuse from the Premises; and (3) keeping the outdoor areas neat and presentable (collectively referred to as "Custodial Maintenance"). Tenant covenants and agrees not to burn trash or garbage in, on, or about the Premises. Tenant shall provide any necessary dispensers for soap and/or paper products, and Tenant shall be responsible for maintaining the necessary supplies for said dispensers.

iii. **Failure to Maintain.** If Tenant refuses or fails to perform its obligations of Custodial Maintenance, as required herein, to the reasonable satisfaction of Landlord, Landlord may (but shall not be obligated to) after giving Tenant fifteen (15) days prior written notice thereof except in cases of emergency, either: (a) undertake such maintenance, and upon completion thereof, Tenant shall reimburse Landlord for the cost of undertaking such maintenance (including labor and materials), upon

presentation of the bill therefor, or (b) declare Tenant in default pursuant to the provisions of this Lease.

7. Use of the Premises. During the Term of this Lease, Tenant shall have the right to use and/or occupy the Premises to operate comprehensive developmental services and family support for low-income children from birth to five years as set forth herein, and for no other purpose ("Primary Use"). The Parties recognize and acknowledge that the manner in which the Premises and improvements thereto are used and operated are matters of importance to Landlord during Landlord's ownership of fee title to the Premises. Tenant shall seek written approval from Landlord for any other uses of the Premises and Landlord shall not unreasonably withhold or delay its consent to such other uses so long as they are consistent with the Primary Use. Tenant agrees that at no time will it knowingly permit the Premises or any portion thereof to be used for any illegal purpose.

Non-Discrimination and Accommodations for Disabled Individuals. Tenant acknowledges and agrees that, to the best of its knowledge, the Premises are and shall be, at all times, maintained in accordance with the requirements for disabled individuals as contained in the Americans with Disabilities Act and Chapter 553, Florida Statutes, as may be amended. Tenant further acknowledges and agrees that it shall not discriminate against any worker, employee, volunteers, applicant, participant, or any member of the public because of race, creed, color, religion, age, sex, or national origin, nor otherwise commit a discriminatory act.

8. No Liability for Personal Property. All personal property placed, move, stored, or constructed on the Premises shall be at the risk of Tenant. Landlord shall not be liable for any damage to said personal property unless caused by or due to negligence of Landlord, its agents or employees, subject to the limitations of Section 768.28, Florida Statutes.

9. Liability for Damage or Injury. Landlord shall not be liable for any damage or injury which may be sustained by any person, party or property on the Premises, from any cause, including but not limited to any damages or injuries sustained on the sidewalks and parking areas within or adjacent to the Premises during the Term of this Lease, other than the damage or injury caused solely by the negligence of Landlord, its agents or employees, subject to the limitations of Section 768.28, Florida Statutes.

10. Insurance. Upon execution of this Lease, Tenant shall, on a primary basis and at its sole expense, maintain in full force and effect at all times during the Term of this Lease, insurance coverage, limits, including endorsements, as described herein. The requirements contained herein, as well as Landlord's review or acceptance of insurance maintained by Tenant are not intended to and shall not in any manner limit or qualify the liabilities and obligations assumed by Tenant under this Lease. The parties agree and recognize that it is not the intent of Landlord that any insurance policy/coverage that it may obtain pursuant to any provision of this Lease will provide insurance coverage to any entity, corporation, business, person, or organization, other than Landlord and Landlord shall not be obligated to provide any insurance coverage other than for Landlord or extend its sovereign immunity pursuant to Section 768.28, Florida Statutes, under its self-insured program. Any provision contained herein to the contrary shall be considered void and unenforceable by any party. This provision does not apply to any obligation

imposed on any other party to obtain insurance coverage for this Lease, any obligation to name Landlord as an additional insured under any other insurance policy, or otherwise protect the interests of Landlord as specified in this Lease.

i. **Workers' Compensation Insurance & Employer's Liability.** Tenant shall agree to maintain Workers' Compensation Insurance & Employers' Liability in accordance with Section 440, Florida Statutes. Employers' Liability and must include limits of at least $100,000.00 each accident, $100,000.00 each disease/employee, $500,000.00 each disease/maximum. Coverage shall apply on a primary basis and non-contributory basis. A Waiver of Subrogation endorsement shall be provided to the Landlord.

ii. **Commercial General Liability Insurance.** Tenant shall maintain Commercial General Liability Insurance, issued under an Occurrence form basis, including Contractual liability, to cover the hold harmless agreement set forth herein, with limits not less than:

Each occurrence	$1,000,000
Personal/advertising injury	$1,000,000
Products/completed operations aggregate	$2,000,000
General aggregate	$2,000,000
Fire damage	$100,000 any 1 fire
Medical expense	$10,000 any 1 person

An Additional Insured endorsement **must** be attached to the certificate of insurance (should be CG2026) under the General Liability policy. Coverage is to be written on an occurrence form basis. Coverage shall apply on a primary and non-contributory basis. Defense costs are to be in addition to the limit of liability. A waiver of subrogation shall be provided in favor of the Landlord. Coverage shall extend to independent contractors and fellow employees. Contractual Liability is to be included. Coverage is to include a cross liability or severability of interests' provision as provided under the standard ISO form separation of insurers clause.

iii. **Automobile Liability Insurance.** Tenant shall maintain Business Automobile Liability at a limit of liability not less than $1,000,000.00 each accident covering any auto, owned, non-owned and hired automobiles. In the event, Tenant does not own any automobiles; the Business Auto Liability requirement shall be amended allowing Tenant to agree to maintain only Hired & Non-Owned Auto Liability. This amended requirement may be satisfied by way of endorsement to the Commercial General Liability, or separate Business Auto Coverage form. Certificate holder must be listed as additional insured. A waiver of subrogation shall be provided to Landlord. Coverage shall apply on a primary and non-contributory basis.

iv. Except as to Workers' Compensation and Employers' Liability, said Certificate(s) and policies shall clearly state coverage required by this Lease have been

endorsed to include the City of Port St. Lucie, a municipality of the State of Florida, its officers, agents and employees as Additional Insured added to its Commercial General Liability and Auto Liability Policies. The name of the Additional Insured endorsement issued by the insurer shall read **"City of Port St. Lucie, a municipality of the State of Florida, its officers, employees and agents."** The policies shall be specifically endorsed to provide thirty (30) days written notice to the City prior to any adverse changes, cancellation, or non-renewal of coverage thereunder. Copies of the Additional Insured endorsements shall be attached to the Certificate of Insurance.

v. **Waiver of Subrogation.** Tenant shall agree by entering into this Lease to a Waiver of Subrogation for each required policy. When required by the insurer or should a policy condition not permit an Insured to enter into a pre-loss Contract to waive subrogation without an endorsement, then Tenant shall agree to notify the insurer and request the policy be endorsed with a Waiver of Transfer of Rights of Recovery Against Others, or its equivalent. This Waiver of Subrogation requirement shall not apply to any policy where a condition to the policy specifically prohibits such an endorsement, or voids coverage should Tenant enter into such a Contract on a pre-loss basis.

vi. **Deductibles.** All deductible amounts, with the exception of property insurance for the on the buildings/structures, shall be paid for and be the responsibility of Tenant for any and all claims under this Lease. Where an SIR (self-insured retention) or deductible exceeds $5,000, the Landlord reserves the right, but not obligation, to review and request a copy of the Tenant's most recent annual report or audited financial statement.

vii. **Property Insurance.** Landlord shall procure and maintain in force, at its own expense and during the Term of this Lease, Commercial Property Insurance for the buildings, structures, fixtures and equipment and property in the open.

viii. **Tenant Responsibility.** Tenant may procure and maintain in force, at its own expense and during the Term of this Lease, Commercial Property Insurance for the contents maintained by Tenant at the Premises, in limits deemed appropriate by Tenant. Landlord shall not be responsible or liable for any loss or damage to Tenant's contents maintained at the Premises, and Landlord will not procure nor maintain insurance for Tenant's contents.

ix. **Approval of Carriers.** Landlord reserves the right, but not obligation, to review, modify, reject, or accept any required policies of insurance including limits, coverages or endorsements, herein from time to time throughout the Term of this Lease. All insurance carriers must have an AM Best rating of at least A: VII or better.

x. **Contractors, Subcontractors and Independent Contractors.** Tenant agrees that in the performance of this Lease it will utilize duly licensed and insured contractors, subcontractors and independent contractors licensed to do business in

the State of Florida. It shall be the responsibility of Tenant to ensure that all contractors, subcontractors and independent contractors comply with the same insurance requirements referenced herein. It will be the responsibility of Tenant to obtain Certificates of Insurance from all contractors, subcontractors, and independent contractors listing the Landlord as an Additional Insured, without the language "when required by written contract.

11. Utilities. All applications and connections for necessary utility services on and to the Premises shall be made in the name of the Tenant. At all times during the Term, Tenant shall be responsible for the payment of any charges, fees or monthly costs associated and pay for all utilities including telephone, water, sewer, electricity, refuse removal, and other services associated with operation of the premises.

12. Security. Tenant, at Tenant's sole cost and expense, shall be responsible for providing sufficient security for the Premises during the Term. Landlord shall not be responsible for providing security to the Premises other than as customarily provided to City owned parks.

13. Compliance with Law. During the Term, Tenant shall be responsible for causing the Premises to comply with all hereinafter enacted laws, ordinances, rules, regulations, authorizations orders and requirements of all federal, state, county and municipal governments, the departments, bureaus or commissions thereof, authorities, regulatory bodies, boards or officers exercising or having jurisdiction over all or any part of the Premises. Neither this Lease, nor any of its provisions, shall prevent Landlord from enacting or seeking to enforce any rule, regulation, ordinance or charter provision which may affect the Premises, regardless of whether such local law is the results of action by the City Council, the Mayor, or by initiative and referendum, or by any other applicable procedure.

14. Alterations and Improvements. Tenant shall not make any alterations or improvements to the Premises without having first obtained Landlord's written consent. All alterations and improvements constructed by Tenant, its agents, or contractors, upon Landlord's written consent, shall: (i) conform to the requirements of this Lease; (ii) be made in a commercially reasonable and workmanlike manner; and (iii) comply with all applicable state, federal, county, and local statutes, ordinances, building codes and any other applicable rules and regulations. Tenant shall be responsible for obtaining any and all necessary permits and approvals required for any improvements constructed at the Premises. At the expiration or termination of the Lease, all such permanent additions, changes, alternations, improvements, and new structures placed, built or brought on the Premises shall be and remain the property of Landlord. Routine non-structural maintenance may be performed by the tenant without prior approval, while structural improvements require the City's written consent and compliance with all codes.

15. Casualty. In the event the Premises are damaged or destroyed by fire, lightning, storm, or other casualty, Tenant shall promptly notify Landlord of such damage and properly secure the Premises to a safe condition in compliance with all applicable laws and ordinances. The parties agree to cooperate with respect to insurance proceeds received in connection with the damage, destruction or casualty loss and performing any remediation work to the Premises with reasonable diligence, it being the parties' intent and goal of fully restoring the Premises to its condition as it was prior to the casualty.

16. Condemnation. If all of the Premises are acquired or condemned by eminent domain, condemnation, or similar proceeding for any public or quasi-public use or purpose, then the Term of this Lease shall cease and terminate as of the date of title vesting as a result of such proceeding, and all Rent and other charges shall be paid by Tenant up to that date. If any portion of the Premises is acquired or condemned by eminent domain, condemnation, or similar proceeding for any public or quasi-public use or purpose, with the result that the remaining portion of the Premises cannot be reasonably used for the Primary Use of the Premises, in Landlord's reasonable opinion, then this Lease shall cease and terminate as of the date of title vesting as a result of such proceeding. In the event of a partial taking or condemnation which does not result in the remaining portion of the Premises being unusable for the Primary Use of the Premises, in Landlord's reasonable opinion, then Tenant shall not be released from Tenant's obligations under this Lease. Tenant shall have no claim or right to any award given by way of any eminent domain, condemnation, or similar proceeding involving the Premises.

17. Expiration of Term. At the expiration or termination of the Term, Tenant shall peaceably and quietly yield up to Landlord possession of the Premises, together with all improvements thereon, in good order and condition, reasonable wear and tear excepted. Upon such expiration or termination, Tenant, at the reasonable request of Landlord, shall deliver to Landlord all plans, surveys, permits and other documents in Tenant's possession relating to, and necessary or convenient for, the operation of the Premises not otherwise considered to contain proprietary information of Tenant. Any personal property of Tenant which remains on the Premises after the expiration or earlier termination of this Lease for a period of thirty (30) days after written request by Landlord for removal, shall, at the option of Landlord, be disposed of without accountability, in such a manner as Landlord may see fit.

18. Assign and Sublet. Tenant shall not assign or sublet its interest in this Lease without the City's prior written consent. In the event of any assignment or subletting of the Premises, Tenant shall remain fully responsible and liable for the payment of Rent and any and all other sums or charges required hereunder and for the performance of all other obligations, promises and covenants imposed upon Tenant herein.

19. Hazardous Material. Landlord represents and warrants to Tenant that, to the best of Landlord's knowledge, the Premises are free and clear of Hazardous Materials (as hereinafter defined). For the purposes of this Lease, "Hazardous Materials" means any hazardous or toxic substances, materials or wastes, including those substances, materials, and wastes listed in the United States Department of Transportation Hazardous Materials Table (49 CFR 172.101) or by the Environmental Protection Agency as hazardous substances (40 CFR Part 302) as now in effect or as same may be amended from time to time, or such substances, materials, and wastes which are now or hereafter become regulated by any federal, Florida, district, St. Lucie county or City of Port St. Lucie environmental agency, including, without limitation, any material, waste or substance which is asbestos and petroleum-related products. Tenant shall not use, generate, store, or dispose of Hazardous Materials on the Premises. Tenant shall have the absolute and sole responsibility to promptly address, cure, and remediate instances in which Hazardous Materials are released on the Premises or migrate to the Premises, as required by applicable laws,

ordinances, rules, orders and regulations of any governmental entity as now existing or promulgated hereafter.

20. Indemnification. Tenant shall indemnify, defend and hold harmless Landlord, and its officers, employees, attorneys, and agents, and all of the successors and assigns of the foregoing ("Indemnified Party") from and against any all "Claims" (as defined below), costs, losses, damages (including but not limited to all fees and charges of attorneys, experts, and other professionals, and all court or other resolutions costs) liabilities, expenditures, or causes of action of any kind, to the end arising from relative to or cause by: (a) the acts or omissions of Tenant, or its officers or employees, or its contractors (including negligent, reckless, or willful or intentional acts or omissions of any contractor, subcontractor or anyone directly or indirectly employed by any of them to perform or furnish any work or services for Tenant) or its invitees, vendors, agents; (b) the maintenance or operation by Tenant of the Premises; (c) a default by Tenant in the performance of its obligations under this Lease; (d) the use of Premises by Tenant, its officers, employees, contractors, invitees or agents; or (e) some or all of the foregoing.

i. **Claims.** Claims shall mean: (a) claims for bodily injury, disease or death; (b) claims for injury or destruction of real or personal property and including the loss of use of value, or both, resulting therefrom; (c) claims alleging violation of the United States or Florida Constitution, Code or statute of any federal or state agency rule or regulation, district regulation or of the St. Lucie County Code or Administrative Rules, or of the City of Port St. Lucie's Code, or of any judgment, order, decree, or permit, or other binding directive, or some or all of the foregoing; (d) claims alleging a violation of any common law duty; (e) claims asserting a mechanic's lien, judgment lien, equitable lien, construction lien, or any other type of lien against the Landlord, or any property owned by the Landlord, its successors or assigns; (f) claims alleging any actual or alleged infringement of any intellectual rights or property of any person; or (g) claims alleging some or all of the foregoing.

ii. **Waiver**. Tenant acknowledges and agrees that it waives and releases any defense, excuse, or avoidance it may now have or ever in the future have that the indemnity provided to the Indemnified Party by the provisions hereof are not fully enforceable as written.

iii. **No Conditions.** The obligations of the Tenant under this Indemnification provision are absolute and unconditional and are not conditioned in any way on any attempt by an Indemnified Party to collect from an insurer any amount under a liability insurance policy or collect against others whom may be liable to the Indemnified Party, and are not subject to any set-off, defense, deduction, or counterclaim that Tenant might have against the Indemnified Party. The insurance requirements set forth herein are independent of Tenant's indemnification and other obligations under this Lease and shall not be construed or interpreted in any way to restrict, limit, or modify Tenant's indemnification and other obligations or to limit Tenant's liability under this Lease.

The obligations of Tenant hereunder shall survive the expiration or other termination of this Lease.

21. Right to Inspect. Upon Landlord's reasonable prior notice to Tenant, Tenant shall permit Landlord, and any agents, employees, or independent contractors of Landlord to have access to and to enter upon the Premises at all reasonable or necessary times to inspect the Premises. Such right of entry, except in cases of emergency, shall at all times, be upon reasonable prior notice to Tenant.

22. No Reliance on Diligence Items. In the course of Tenant's review of the Premises, Landlord may but is not obligated to provide certain due diligence materials (i.e. plats, surveys, legal descriptions, architectural drawings, engineering drawings, sketches, surveys, utility locations and utility-related equipment, recorded or unrecorded easements or licenses affecting the Premises, etc.) (hereafter the "Diligence Items"). Tenant acknowledges and agrees that some or all of the Diligence Items may have been prepared or furnished by third parties outside of Landlord's control or employment and have been provided purely as a courtesy to Tenant. Tenant acknowledges and agrees that none of the Diligence Items shall be deemed to be an express or implied representation of the quality or conditions of the Premises or any portion thereof or confirmation by Landlord of the accuracy of any condition or depiction set forth therein.

23. Default or Breach. Each of the following events shall constitute a default by Tenant of its obligations under this Lease:

i. **Failure to Pay Rent.** Tenant's failure to pay to Landlord the Rent, or any other sums or charges due hereunder within thirty (30) days after the same shall be due.

ii. **Failure to Perform.** Tenant's failure to perform or comply with any of the conditions or provisions of this Lease other than with respect to the payment of Rent, for a period of thirty (30) days after the delivery to Tenant by Landlord of written notice of such failure, or for such additional period of such time as is reasonable provided that Tenant shall commence to cure such matter within such thirty (30) day period and thereafter diligently pursue completion thereof.

iii. **Failure to Maintain All Applicable Licenses.** Tenant's failure to maintain any active licenses in good standing as necessary to lawfully carry out Tenant's operations for the Primary Use in the Premises.

iv. **Failure to Occupy or Operate.** Tenant vacating or abandoning the Premises. Tenant will be considered to have abandoned the Premises if not present for a period of one (1) month. If Tenant abandons the Premises, Landlord shall have the right re-enter the Premises and, after delivering at least thirty (30) days prior written notice, may consider all personal property belonging to Tenant and left on the Premises to also have been abandoned, in which case, Landlord may dispose of the personal property in any manner it deems appropriate and is relieved of all liability for doing so.

24. Effect of Default. In the event of any default by Tenant of its obligations under this Lease, the rights of Landlord shall be as follows:

i. **Termination of Lease.** Landlord may terminate this Lease and all rights of Tenant hereunder by giving Tenant sixty (60) days prior written notice that this Lease is terminated.

ii. **Right to Cure.** Landlord may elect, but shall not be obligated, to make any payment required of Tenant herein or perform any work required to be performed by Tenant hereunder, and Landlord shall have the right to enter the Premises for the purpose of correcting or remedying any such default and to remain until the default has been corrected or remedied, but any expenditure for the correction by Landlord shall not be deemed to waive or release the default of Tenant or the right of Landlord to take any action as may be otherwise permissible hereunder in the case of any default.

iii. **Damages.** Whenever either party may seek or claim damages against the other party (whether by reason of a breach of this Lease by such party, in enforcement of any indemnity obligation, or otherwise), neither Landlord nor Tenant shall seek, nor shall there be awarded or granted by any court, arbitrator, or other adjudicator, any speculative, consequential, collateral, special, punitive, or indirect damages whether such breach shall be willful, knowing, intentional, deliberate, or otherwise. The parties intend that any damages awarded to either party shall be limited to actual, direct damages sustained by the aggrieved party. Neither party shall be liable for any loss of profits suffered or claimed to have been suffered by the other. This provision shall survive the expiration or termination of this Lease.

25. Not Consent to Sue. The provisions, terms or conditions of the Lease shall not be construed as a consent of Landlord, City of Port St. Lucie, to be sued because of said leasehold. Nothing in the Lease shall be construed as an indemnification of Tenant by Landlord or as a waiver of sovereign immunity beyond that provided in Florida Statutes, Section 768.28.

26. No Construction Against Preparer. This Lease has been prepared by Landlord and Tenant. Landlord and Tenant believe that this Lease is the product of their collective efforts, that it expresses their agreement, and that it should not be interpreted in favor of either Landlord or Tenant or against either Landlord merely because of their efforts in preparing it.

27. City's Rights as Sovereign. It is expressly understood that notwithstanding any provision of this Agreement and Landlord's status as City hereunder, the City retains all of its sovereign prerogatives and rights as a municipal corporation under Florida laws (but not in regard to its status as City in its capacity as landlord and the performance of its contractual duties hereunder) and shall in no way be estopped from withholding or refusing to issue any approvals of applications for building or zoning or exercising its planning or regulatory duties and authority. For the avoidance of doubt, this Agreement shall not impose any obligation upon the

City in its regulatory capacity. At Tenant's request, City agrees to cooperate with Tenant in good faith and with reasonable diligence, with any efforts by Tenant to seek approvals and agreements from the City under Chapter 163 of the Florida Statutes, including without limitation City's joinder in any applications for and active support of such approval.

28. Public Records Law. Tenant acknowledges that Landlord is subject to Chapter 119 of the Florida Statutes, commonly known as the Florida Public Records Law. Landlord shall retain copies of this Lease and any and all related documents including written correspondences between Landlord and Tenant and Tenant acknowledges that the same shall become a public record subject to the Florida Public Records Law, which the Landlord shall disclose whenever a public records request is properly made. This provision shall survive the expiration or earlier termination of this Lease.

29. No Equitable Ownership. Nothing in this Lease shall be interpreted to create an equitable ownership of the Property in Tenant's name. Tenant specifically confirms that it is not the equitable owner of the Premises and waives any benefits which may accrue to Tenant in the event that they were deemed to be an equitable owner of the Premises. At all times in this Lease, the Landlord shall remain the owner of the Premises.

30. Mechanics Liens. Tenant has no authority, expressed or implied, to create or place any lien or encumbrance of any kind or nature whatsoever upon, or in any manner to bind the interest of Landlord or Tenant in the Premises or to charge the rentals payable hereunder for any claim in favor of any person dealing with Tenant, including those who may furnish materials or perform labor for any construction or repairs. Tenant covenants and agrees that should any lien be filed, Tenant shall discharge the same within thirty (30) days thereafter by paying the same or by filing a bond, or otherwise, as permitted by law. Tenant agrees that it will save, defend and hold Landlord harmless for any and all loss, costs or expense based on or arising out of any asserted claims or liens against the leasehold estate or against the right, title or interest of the Landlord in the Premises or under the terms of this Lease. Tenant agrees to give Landlord prompt written notice of Tenant's awareness of the placing of any lien or encumbrance against the Premises and Landlord agrees to do the same.

31. Notices. Whenever this Lease requires or permits any notice by one party to the other, such notice shall be written and sent to the addresses set forth below by any of the following means: (a) commercial overnight or next business day guaranteed courier service, (b) certified United States Mail, return receipt requested, (c) hand delivery, or (d) via email transmission with confirmed receipt. Notice shall be deemed given upon receipt or refusal of delivery of said notice. A notice given by an attorney representing the party to this Lease shall be deemed to be given by such party. Addresses for notices are as follows:

Any notice to be served upon Landlord shall be served to the following address:

City of Port St. Lucie
121 SW Port St. Lucie Blvd.
Port St. Lucie, FL 34984
Attention: City Manager

Telephone: 772-871-5163
Email:jmerejo@cityofpsl.com

Work Order Notice shall be served to the following address:

121 SW Port St. Lucie Blvd.
Port St. Lucie, FL 34984
Attention: Director
Telephone : 772-344-4005
Email: bkeen@cityofpsl.com

With a copy to:

City of Port St. Lucie, Florida
121 SW Port St. Lucie Boulevard
Port St. Lucie, FL 34984
Attention: City Attorney
Telephone: 772-871-5294
Email:rberrios@cityofpsl.com

Any notice to be served upon Tenant shall be served to the following address:

The Agricultural and Labor Program, Inc.
300 Lynchburg Road, Lake Alfred, FL 33850
Attn: Caroline Looney, Director
With Copy to: Arlene Dobison, Chief Executive Officer

32. Quiet Enjoyment. Landlord warrants that if Tenant shall pay all Rent as provided herein to be paid by Tenant and perform all the covenants of the Lease to be performed by Tenant, Tenant shall, during the Term hereof, freely, peaceably and quietly occupy and enjoy the full possession of the Premises, together with all appurtenances and all other rights and privileges herein granted, without hindrance or interruption by Landlord or any other person(s) acting through Landlord.

33. Holdover. Any holding over after the expiration of the Term, with the consent of Landlord, shall be construed to be a month-to-month tenancy and shall be subject to the terms of this Lease. If Tenant holds over without Landlord's consent, such tenancy shall be construed as a tenancy at sufferance.

34. Miscellaneous Provisions:

A. Applicable Laws. Each party shall comply with all applicable local, state and federal laws, rules and regulations, as well as any and all governing agencies, pertaining to this Lease.

B. Binding. All terms, conditions and covenants of this Agreement shall inure to the benefit of and be binding upon the successors and permitted assigns and subtenants of the parties hereto.

C. Governing Law and Venue. This Agreement shall be construed according to the laws of the State of Florida and the venue of any action under this Lease shall be in St. Lucie County, Florida.

D. Exhibits. Any and all Exhibits and Attachments referenced in this Lease are incorporated into this Lease by such reference, even if not physically attached hereto.

E. Third Party Beneficiaries. There are no third-party beneficiaries to this Agreement.

F. Severability. If any term, provision, covenant or condition of this Agreement is held by a court of competent jurisdiction to be invalid, void or otherwise unenforceable, the remainder of the provisions of this Lease will remain in full force and effect.

G. Entire Agreement. This Agreement and all exhibits and attachments attached hereto contain the entire and complete understanding and agreement between the parties pertaining to the subject matter herein, and supersedes any and all prior agreements or understandings, whether oral or written, relating to the subject matter hereof.

H. Amendments. This Agreement may be amended or modified by mutual consent of the parties, provided any and all such amendments or modifications shall be in writing and signed by authorized representatives of both parties.

I. Construction. Whenever the context of this Agreement so requires or admits, words used in the neuter gender include the masculine and feminine; the singular includes the plural and the plural the singular; the word "person" includes a corporation, partnership, or unincorporated association as well as a natural person. The fact that a party may be deemed to have drafted or structured any provision hereof shall not be considered in construing the particular provisions either in favor of or against such party.

J. Headings. The paragraph headings contained in this Agreement are labels to assist in locating and reading the respective paragraphs and shall have no effect upon the construction of the Lease.

K. Computation of Time. Unless otherwise specified, term "days" when used in this Agreement mean calendar days. If any time ends on a Saturday, Sunday, or holiday officially recognized by the City, the period will end on the next succeeding business day.

L. No Waiver by City. No failure by Landlord to insist upon the strict performance of any of the terms of this Agreement or to exercise any right or remedy consequent upon a breach thereof, and no acceptance by Landlord of full or partial Rent during the continuance of any such breach, shall constitute a waiver of any such breach or of any of the terms of this Agreement. None of the terms of this Agreement to be kept, observed or performed by Tenant, and no breach thereof, shall be waived, altered or modified except by a written instrument executed by Landlord. No waiver of any breach shall affect or alter this Agreement, but each of the terms of this Agreement shall continue in full force and effect with respect to any other then existing or subsequent breach thereof. No waiver of any default of Tenant hereunder shall be implied from any omission by Landlord to take any action on account of such default, and no express waiver shall affect any default other than the default specified in the express waiver and then only for the time and to the extent therein stated. One or more waivers by Landlord shall not be construed as a waiver of a subsequent breach of the same covenant, term or conditions.

M. Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but all of which together will constitute one and the same Agreement. To the extent permissible under Florida law, a facsimile/electronic (i.e. sent as a PDF attached to an email) signature shall be deemed to constitute an original signature for the purposes of this Lease.

N. Status of Parties. It is mutually understood and agreed that the relationship between the parties shall be that of independent entities contracting with each other at arm's length and that this Agreement does not and shall not be construed to create the relationship of agent, employee, partnership, joint venture or association between the parties.

O. Force Majeure. Neither party shall be liable to the other party for any interruption, failure, inability, or delay to perform hereunder, if such failure, inability, or delay is due to any cause beyond the reasonable control of the party so failing, including, without limitation, acts of God, acts of any government, war or other hostility, civil disorder, the elements, fire, explosion, or labor dispute, or inability to access necessary supplies, and due diligence is used in curing such cause and in resuming performance; provided, however, that the foregoing shall in no event be applicable with respect to the payment of money from Tenant to Landlord.

P. Binding Lease. This Agreement shall be binding upon and shall inure to the benefit of, the parties and their respective representatives, successors and permitted assigns.

Q. Recording. A Memorandum of this Agreement may be recorded among the Public Records of St. Lucie County, Florida, in order to give record notice of the existence of this Agreement, provided the Memorandum shall not include the financial terms of this Lease. Either party may request that such Memorandum be recorded. The Party requesting such Memorandum shall be responsible for the payment of any recording fees and/or taxes.

R. Radon Gas. Radon is a naturally occurring radioactive gas that, when it has accumulated in a building in sufficient quantities, may present health risks to persons who are exposed to it over time. Levels of radon that exceed federal and state guidelines have been found in buildings in Florida. Additional information regarding radon and radon testing may be obtained from your county health department.

S. Time of the Essence. It is understood and agrees between the parties that time is of the essence for all performances and obligations due under this Agreement.

T. Waiver of Jury Trial. NEITHER LANDLORD NOR TENANT SHALL SEEK A JURY TRIAL IN ANY LAWSUIT, PROCEEDING, COUNTER-CLAIM, OR ANY OTHER LITIGATION BASED UPON, OR ARISING OUT OF THIS LEASE, ANY RELATED INSTRUMENT, ANY COLLATERAL OR THE DEALINGS OR THE RELATIONSHIP BETWEEN OR AMONG THE PARTIES, OR ANY OF THEM. NO PARTY WILL SEEK TO CONSOLIDATE ANY SUCH ACTION, IN WHICH A JURY HAS BEEN WAIVED, WITH ANY OTHER ACTION IN WHICH A JURY TRIAL CANNOT OR HAS NOT BEEN WAIVED. THE PROVISIONS OF THIS SECTION HAVE BEEN FULLY DISCUSSED BY THE PARTIES HERETO. NO PARTY HAS IN ANY WAY AGREED WITH OR REPRESENTED TO ANY OTHER PARTY THAT THE PROVISIONS OF THIS SECTION WILL NOT BE FULLY ENFORCED IN ALL INSTANCES. THIS WAIVER SURVIVES THE EXPIRATION OR TERMINATION OF THIS LEASE.

Agenda Summary

2026-562

Agenda Date: 6/22/2026 **Agenda Item No.:** 10.f

Placement: First Reading of Ordinances / Public Hearing

Action Requested: Motion / Vote

Ordinance 26-61, Public Hearing, an Ordinance of the City of Port St. Lucie, Florida, Authorizing the Lease of Real Property Located at 198 NW Marion Ave, Port Saint Lucie, Florida to the Boys and Girls Club of Saint Lucie County, a Florida Not-for-Profit Corporation; Authorizing the Mayor, the City Manager, or their Designees, to Execute the Lease Agreement; Providing for Conflict; Providing for Severability; Providing an Effective Date.

Submitted By: Kelly Boatwright, Assistant Director, Parks & Recreation

Strategic Plan Link: The City's Goal to Enjoy Culture, Nature and Recreation.

Summary Brief (Agreements/Contracts only)

1. Prepared by: KeAndrea Davis, Esq, Deputy City Attorney
2. Parties: City of Port St. Lucie and the Boys & Girls Club of St. Lucie County
3. Purpose: to allow the operations of reduced cost youth after-care programs within designated areas of property owned by the City of Port St Lucie and located at 198 NW Marion Avenue, Port St. Lucie Florida.
4. New/Renewal/Modified: New
5. Duration: 1 Year, with two 1-year options to renew.
6. Benefits to Port St. Lucie: The Boys & Girls Club of St. Lucie County delivers youth development programming that aligns with the City's mission to enhance safety, quality of life, educational advancement, and recreational opportunities for residents.
7. Cost to Port St. Lucie (Annual and Potential): N/A

Presentation Information: N/A, staff will be available to answer questions

- Staff Recommendation: Move that the Council approve the Ordinance authorizing the Mayor to execute and enter into the lease agreement with the Boys & Girls Club of St. Lucie County.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the Ordinance.
2. Move that the Council not approve the Ordinance and provide staff with additional direction.

Background: In 2025, the City of Port St. Lucie assumed control of the former Port St. Lucie Elementary School property through a land conveyance from the St. Lucie County School Board (SLCSB). The School Board transferred approximately 15.4 acres located at 198 SW Marion Avenue to the City, with the transaction

formally approved by the City Council on January 13, 2025 (Resolution 25R 02, Legistar 2024 1185). The deed was officially recorded on May 27, 2025. The lease terms previously assumed by the City of Port St Lucie under the original agreement between the St Lucie County School Board and the Boys & Girls Club-including rental rate, permitted use, and maintenance responsibilities-will be substantially replicated in the new proposed lease agreement.

Issues/Analysis: N/A

Financial Information: The Boys and Girls Club will submit a monthly payment to the City in the amount of $3,735.94.

Special Consideration: N/A

Location of Project: 198 NW Marion Avenue, former PSL Elementary Cafeteria building and portions of the surrounding property.

Attachments:

1. Ordinance 26-61
2. Business Impact Estimate
3. New Lease Agreement

NOTE: All of the listed items in the "Attachment" section above are in the custody of the City Clerk. Any item(s) not provided in City Council packets are available upon request from the City Clerk.

ORDINANCE 26-61

AN ORDINANCE OF THE CITY OF PORT ST. LUCIE, FLORIDA, AUTHORIZING THE LEASE OF REAL PROPERTY LOCATED AT 198 NW MARION AVE, PORT SAINT LUCIE, FLORIDA TO THE BOYS AND GIRLS CLUB OF SAINT LUCIE COUNTY, A FLORIDA NOT-FOR-PROFIT CORPORATION; AUTHORIZING THE MAYOR, THE CITY MANAGER, OR THEIR DESIGNEES, TO EXECUTE THE LEASE AGREEMENT; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE.

WHEREAS, on May 14, 2025, the City of Port St. Lucie (the "City") acquired title to the real property ("the Property") located at 198 NW Marion Ave, Port St. Lucie, Florida; and

WHEREAS, as part of the acquisition of the Property, the City assumed a lease for a portion of the Property ("Leased Property") wherein the Boys and Girls Club of St. Lucie County, Inc. (BGCSLC) is the lessee and which will expire on June 26, 2026; and

WHEREAS, BGCSLC expressed interest in extending the term of the lease to continue the provision of after-care programs to children at a greatly reduced rate; and

WHEREAS, the City desires to enter into a Lease Agreement with BGCSLC for the Leased Property in substantially the same form as attached hereto and incorporated herein as Exhibit "A"; and

WHEREAS, City Council deems it to be in the best interest of the City to enter into the Lease Agreement with the Boys and Girls Club of St. Lucie County in furtherance of the City's mission to enhance safety, quality of life, educational advancement, and recreational opportunities for residents; and

WHEREAS, City Council has determined that entering into the Lease Agreement is in the public interest, for a public purpose and therefore, necessary for the public health, safety and welfare.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Recitals. The foregoing recitals are hereby ratified and confirmed as true and correct and are hereby made a part of this Ordinance.

Section 2. The Mayor, the City Manager, or their designees, are hereby authorized and directed to execute the Lease Agreement in substantially the same form as attached hereto as Exhibit "A" and to take any and all necessary actions, including preparing and executing instruments, required to effectuate the transfer of possession of the Leased Property to the Boys and Girls Club of St. Lucie County, Inc., pursuant to the terms of the Lease Agreement.

Section 3. Conflict. If any ordinances, or parts of ordinances, are in conflict herewith this Ordinance shall control to the extent of the conflicting provisions.

Section 4. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect.

Section 5. Effective Date. This Ordinance shall become effective immediately after final adoption on second reading.

PASSED AND ADOPTED by the City Council of the City of Port St. Lucie, Florida, this _____ day of _____, 2026.

Business Impact Estimate Form

Proposed Title/Reference and Legistar ID # of proposed ordinance:
. AN ORDINANCE OF THE CITY OF PORT ST. LUCIE, FLORIDA, AUTHORIZING THE LEASE OF REAL PROPERTY LOCATED AT 198 NW MARION AVE, PORT SAINT LUCIE, FLORIDA TO THE BOYS AND GIRLS CLUB OF SAINT LUCIE COUNTY, A FLORIDA NOT-FOR-PROFIT CORPORATION; AUTHORIZING THE MAYOR, THE CITY MANAGER, OR THEIR DESIGNEES, TO EXECUTE THE LEASE AGREEMENT; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; PROVIDING AN EFFECTIVE DATE

The provisions contained in this Section A constitute exceptions as provided in Section 166.041(4)(c).

If one or more boxes are checked in Section A below, a business impact estimate is not required by state law for the proposed ordinance.

Section A. The Proposed Ordinance ☐ does ☒ does not fall under of the following exceptions:

- ☐ The proposed ordinance is required for compliance with Federal or State law or regulation;
- ☐ The proposed ordinance relates to the issuance or refinancing of debt;
- ☐ The proposed ordinance relates to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
- ☐ The proposed ordinance is required to implement a contract or an agreement, including, but not limited to, any Federal, State, local, or private grant or other financial assistance accepted by the City;
- ☐ The proposed ordinance is an emergency ordinance;
- ☐ The proposed ordinance relates to procurement; or
- ☐ The proposed ordinance is enacted to implement the following:
  a. Part II of Chapter 163, Florida Statutes, relating to growth policy, county and municipal planning, and land development regulation, including zoning, development orders, development agreements and development permits;
  b. Sections 190.005 and 190.046, Florida Statutes, regarding community development districts;
  c. Section 553.73, Florida Statutes, relating to the Florida Building Code; or
  d. Section 633.202, Florida Statutes, relating to the Florida Fire Prevention Code.

If one or more of the exceptions above are applicable to the ordinance, then only Section A needs to be completed. If the ordinance falls under none of the above exceptions, Section B must be completed on the next page.

Section B

This section must be completed if the proposed ordinance does not meet any of the exemptions in Section A.

1. A statement of the public purpose to be served by the proposed ordinance such as serving the public health, safety, morals, and welfare of the municipality.

The City's Mission to provide exceptional services.

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the City, if any (if none, please put N/A):

a) An estimate of direct compliance costs that businesses may reasonably incur.

N/A

(b) Any new charge or fee on businesses subject to the proposed ordinance, or for which businesses will be financially responsible; and

N/A

(c) An estimate of the City's regulatory costs, including an estimate of revenues from any new charges or fees to cover such costs.

N/A

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

N/A

4. Additional information/methodology for preparation, if any:

LEASE

By and Between

CITY OF PORT ST. LUCIE

and

BOYS AND GIRLS CLUB OF ST. LUCIE COUNTY

Dated as of

June___, 2026

LEASE AGREEMENT

THIS LEASE AGREEMENT (the "Lease" or the "Agreement") is made and entered into as of the_____ day of_____, 2026, by and between THE CITY OF PORT ST. LUCIE, a Florida municipal corporation, whose mailing address is 121 SW Port St. Lucie Blvd., Port St. Lucie, Florida 34984 ("Landlord" or the "City"), and BOYS AND GIRLS CLUB OF ST.LUCIE COUNTY, INC., a Florida not-for-profit corporation, whose mailing address is 3104 Avenue J, Fort Pierce, FL 34947 ("Tenant").

WITNESSETH:

In consideration of Premises, the rents, and the promises and mutual covenants hereinafter set forth, the parties hereto agree as follows:

1. Lease of the Premises. Landlord owns that certain real property situated in St. Lucie County, Florida, as described in **Exhibit A**, attached hereto and incorporated herein, which is commonly known as 198 NW Marion Avenue, Port St. Lucie, Florida (Parcel ID: 3429-111- 0025-000-8), The leased premises includes cafeteria building, signs, the non-exclusive use of the west parking lot, sidewalks, play areas and common areas.

Landlord hereby leases to Tenant and Tenant hereby leases from Landlord, on the terms and conditions set forth below, the Premises.

2. Term. The initial term of this Lease shall be for a period of one (1) year (the "Initial Term"), commencing on the Effective Date (defined in Section 3 below) and terminating on the date which is the last day of the month which is one (1) year after the Effective Date, unless renewed as provided herein ("Expiration Date"). Tenant may extend the Term of this Agreement for up to two (2) lease renewal periods of twelve (12) months (the "Renewal Term") upon six (6) months written notice to the City prior to the expiration of the Initial Term. Renewal is at the discretion of Landlord. For purposes of this Lease, "**Term**" means both the Initial Term and any applicable Renewal Term, and the designation of "**Expiration Date**" shall be interpreted to include the conclusion of any applicable Renewal Term of this Lease.

3. Conditions Precedent to Effectiveness of this Lease. Notwithstanding anything contained herein to the contrary, this Lease shall not become effective unless and until the City Council of the City of Port St. Lucie shall have approved the execution of this Lease. This Agreement shall be a binding contract and agreement between Landlord and Tenant on the date which both parties have executed this Lease (the "Effective Date").

4. Rent. Tenant agrees to pay to Landlord the sum of $3,735.94 per month, as base rent (the "Rent"), during the Term in lawful money of the United States. The Base Rent shall commence on the Effective Date and shall be payable monthly thereafter, in advance, on the first day of each calendar month without demand and without deduction, hold back or set off.

i. **Security Deposit.** Tenant shall not be required to pay a security deposit to Landlord for the lease of the Premises.

ii. **Additional Rent.** Tenant shall not be required to pay any Additional Rent, including operating costs, capital improvement costs, sales taxes, property taxes, or other amounts, except as expressly stated herein.

5. Termination of Lease. Either party shall have the right to terminate this Lease, for convenience and at any time, by providing the other party with sixty (60) days ("Termination Period") prior written notice ("Termination Notice"). In the event a party terminates the Lease by providing the Termination Notice, Tenant shall vacate the Premises and the Lease shall terminate at the expiration of the Termination Period.

6. Maintenance, Repairs and Operational Costs. Tenant shall be solely responsible for all ordinary custodial maintenance, repairs, mowing, landscaping, custodial duties, and trash removal on the Premises during the Term of this Lease. Tenant is not responsible for any repair or replacement cost of building structure or systems except to the extent caused by Tenant other than by ordinary wear and tear. Building structures include without limitation foundation, exterior and load bearing walls, roofs and membranes, and other structural elements of the building. Building systems include without limitation electrical, elevators, internet, plumbing, boilers and water heaters, HVAC, irrigation and exterior lighting, and other equipment and systems of the building and premises. Tenant shall not make any changes, alterations, additions, improvements or repairs without approval from Landlord. In the event Tenant wishes to make any minor alternations, or improvement Tenant shall submit a request to the Director of the City's Parks and Recreation Department requesting any such alterations. Tenant's request will be reviewed and, if approved, the tenant will receive a written response from the Parks and Recreation Director or his designee. Tenant's requests will be reviewed and addressed in a reasonably timely fashion. At all times during the Term, Tenant, at its sole cost and expense, shall keep the premises in good order and condition except for reasonable wear and tear, and shall keep same in a clean, sanitary and safe condition and remove all rubbish and trash from same. Tenant shall obtain all planning, permitting, and approvals for improvements and bear all associated costs.

i. **Waste.** Tenant shall not commit waste, overload, or purposely subject the Premises to any use that would damage the Premises. Tenant shall not permit any hazardous materials or conditions to occur or remain on the Premises. Tenant shall not use or occupy or permit or suffer the Premises to be used or occupied, and shall not do, or permit to be done, anything in or about the Premises, or any part thereof, that will cause material damage to the Premises, or any part thereof, or that will constitute a public or private nuisance or waste.

ii. **Custodial/Housekeeping Maintenance.** Tenant shall be responsible for providing regular custodial services to the Premises , including: (1) cleaning the bathrooms, washing the floors and dusting; (2) the removal of all garbage, trash, and other refuse from the Premises; and (3) keeping the outdoor areas neat and presentable (collectively referred to as "Custodial Maintenance"). Tenant covenants and agrees not to burn trash or garbage in, on, or about the Premises. Tenant shall provide any necessary dispensers for soap and/or paper products and Tenant shall be responsible for maintaining the necessary supplies for said dispensers.

iii. **Failure to Maintain.** If Tenant refuses or fails to perform its obligations of Custodial Maintenance, as required herein, to the reasonable satisfaction of Landlord, Landlord may (but shall not be obligated to) after giving Tenant fifteen (15) days prior written notice thereof except in cases of emergency, either: (a) undertake such maintenance, and upon completion thereof, Tenant shall reimburse Landlord for the cost of undertaking such maintenance (including labor and materials), upon presentation of the bill therefor, or (b) declare Tenant in default pursuant to the provisions of this Lease.

7. Use of the Premises. During the Term of this Lease, Tenant shall have the right to use and/or occupy the Premises for provision of after-care programs to children at greatly reduced rates, as set forth herein, and for no other purpose ("Primary Use"). The Parties recognize and acknowledge that the manner in which the Premises and improvements thereto are used and operated are matters of importance to Landlord during Landlord's ownership of fee title to the Premises. Tenant shall seek written approval from Landlord for any other uses of the Premises and Landlord shall not unreasonably withhold or delay its consent to such other uses so long as they are consistent with the Primary Use. Tenant agrees that at no time will it knowingly permit the Premises or any portion thereof to be used for any illegal purpose.

Non-Discrimination and Accommodations for Disabled Individuals. Tenant acknowledges and agrees that, to the best of its knowledge, the Premises are and shall be, at all times, maintained in accordance with the requirements for disabled individuals as contained in the Americans with Disabilities Act and Chapter 553, Florida Statutes, as may be amended. Tenant further acknowledges and agrees that it shall not discriminate against any worker, employee, volunteers, applicant, participant, or any member of the public because of race, creed, color, religion, age, sex, or national origin, nor otherwise commit a discriminatory act.

8. No Liability for Personal Property. All personal property placed, move, stored, or constructed on the Premises shall be at the risk of Tenant. Landlord shall not be liable for any damage to said personal property unless caused by or due to negligence of Landlord, its agents or employees, subject to the limitations of Section 768.28, Florida Statutes.

9. Liability for Damage or Injury. Landlord shall not be liable for any damage or injury which may be sustained by any person, party or property on the Premises, from any cause, including but not limited to any damages or injuries sustained on the sidewalks and parking areas within or adjacent to the Premises during the Term of this Lease, other than the damage or injury caused solely by the negligence of Landlord, its agents or employees, subject to the limitations of Section 768.28, Florida Statutes.

10. Insurance. Upon execution of this Lease, Tenant shall, on a primary basis and at its sole expense, maintain in full force and effect at all times during the Term of this Lease, insurance coverage, limits, including endorsements, as described herein. The requirements contained herein, as well as Landlord's review or acceptance of insurance maintained by Tenant are not intended to and shall not in any manner limit or qualify the liabilities and obligations assumed by Tenant under this Lease. The parties agree and recognize that it is not the intent of Landlord that any insurance policy/coverage that it may obtain pursuant to any provision of this Lease will provide insurance coverage to any entity, corporation, business, person, or organization, other than Landlord and Landlord shall not be obligated to provide any insurance coverage other than for Landlord or extend its sovereign immunity pursuant to Section 768.28, Florida Statutes, under its self-insured program. Any provision contained herein to the contrary shall be considered void and unenforceable by any party. This provision does not apply to any obligation imposed on any other party to obtain insurance coverage for this Lease, any obligation to name

Landlord as an additional insured under any other insurance policy or otherwise protect the interests of Landlord as specified in this Lease.

i. **Workers' Compensation Insurance & Employer's Liability.** Tenant shall agree

to maintain Workers' Compensation Insurance & Employers' Liability in accordance with Section 440, Florida Statutes. Employers' Liability and must include limits of at least $100,000.00 each accident, $100,000.00 each disease/employee, $500,000.00 each disease/maximum. Coverage shall apply on a primary basis and non-contributory basis. A Waiver of Subrogation endorsement shall be provided to the Landlord.

ii. **Commercial General Liability Insurance.** Tenant shall maintain Commercial General Liability Insurance, issued under an Occurrence form basis, including Contractual liability, to cover the hold harmless agreement set forth herein, with limits not less than:

Each occurrence	$1,000,000
Personal/advertising injury	$1,000,000
Products/completed operations aggregate	$2,000,000
General aggregate	$2,000,000
Fire damage	$100,000 any 1 fire
Medical expense	$10,000 any 1 person

An Additional Insured endorsement **must** be attached to the certificate of insurance (should be CG2026) under the General Liability policy. Coverage is to be written on an occurrence form basis. Coverage shall apply on a primary and non-contributory basis. Defense costs are to be in addition to the limit of liability. A waiver of subrogation shall be provided in favor of the Landlord. Coverage shall extend to independent contractors and fellow employees. Contractual Liability is to be included. Coverage is to include a cross liability or severability of interests' provision as provided under the standard ISO form separation of insurers clause.

iii. **Automobile Liability Insurance.** Tenant shall maintain Business Automobile Liability at a limit of liability not less than $1,000,000.00 each accident covering any auto, owned, non-owned and hired automobiles. In the event, Tenant does not own any automobiles; the Business Auto Liability requirement shall be amended allowing Tenant to agree to maintain only Hired & Non-Owned Auto Liability. This amended requirement may be satisfied by way of endorsement to the Commercial General Liability, or separate Business Auto Coverage form. Certificate holder must be listed as additional insured. A waiver of subrogation shall be provided to Landlord. Coverage shall apply on a primary and non- contributory basis.

iv. Except as to Workers' Compensation and Employers' Liability, said Certificate(s) and policies shall clearly state coverage required by this Lease have been endorsed to include the City of Port St. Lucie, a municipality of the State of

Florida, its officers, agents and employees as Additional Insured added to its Commercial General Liability and Auto Liability Policies. The name of the Additional Insured endorsement issued by the insurer shall read **"City of Port St. Lucie, a municipality of the State of Florida, its officers, employees and agents."** The policies shall be specifically endorsed to provide thirty (30) days written notice to the City prior to any adverse changes, cancellation, or non-renewal of coverage thereunder. Copies of the Additional Insured endorsements

shall be attached to the Certificate of Insurance.

v. **Waiver of Subrogation.** Tenant shall agree by entering into this Lease to a Waiver of Subrogation for each required policy. When required by the insurer or should a policy condition not permit an Insured to enter into a pre-loss Contract to waive subrogation without an endorsement, then Tenant shall agree to notify the insurer and request the policy be endorsed with a Waiver of Transfer of Rights of Recovery Against Others, or its equivalent. This Waiver of Subrogation requirement shall not apply to any policy where a condition to the policy specifically prohibits such an endorsement, or voids coverage should Tenant enter into such a Contract on a pre-loss basis.

vi. **Deductibles.** All deductible amounts, with the exception of property insurance for the on the buildings/structures, shall be paid for and be the responsibility of Tenant for any and all claims under this Lease. Where an SIR (self-insured retention) or deductible exceeds $5,000, the Landlord reserves the right, but not obligation, to review and request a copy of the Tenant's most recent annual report or audited financial statement.

vii. **Property Insurance.** Landlord shall procure and maintain in force, at its own expense and during the Term of this Lease, Commercial Property Insurance for the buildings, structures, fixtures and equipment and property in the open.

viii. **Tenant Responsibility.** Tenant may procure and maintain in force, at its own expense and during the Term of this Lease, Commercial Property Insurance for the contents maintained by Tenant at the Premises, in limits deemed appropriate by Tenant. Landlord shall not be responsible or liable for any loss or damage to Tenant's contents maintained at the Premises, and Landlord will not procure nor maintain insurance for Tenant's contents.

ix. **Approval of Carriers.** Landlord reserves the right, but not obligation, to review, modify, reject, or accept any required policies of insurance including limits, coverages or endorsements, herein from time to time throughout the Term of this Lease. All insurance carriers must have an AM Best rating of at least A: VII or better.

x. **Contractors, Subcontractors and Independent Contractors.** Tenant agrees that in the performance of this Lease it will utilize duly licensed and insured contractors, subcontractors and independent contractors licensed to do business in the State of Florida. It shall be the responsibility of Tenant to ensure that all

contractors, subcontractors and independent contractors comply with the same insurance requirements referenced herein. It will be the responsibility of Tenant to obtain Certificates of Insurance from all contractors, subcontractors, and independent contractors listing the Landlord as an Additional Insured, without the language "when required by written contract.

11. Utilities. All applications and connections for necessary utility services on and to the Premises shall be made in the name of the Tenant. At all times during the Term, Tenant shall be responsible for the payment of any charges, fees or monthly costs associated and pay for all utilities including telephone, water, sewer, electricity, refuse removal, and other services associated with operation of the premises.

12. Security. Tenant, at Tenant's sole cost and expense, shall be responsible for providing sufficient security for the Premises during the Term. Landlord shall not be responsible for providing security to the Premises other than as customarily provided to City owned parks.

13. Compliance with Law. During the Term, Tenant shall be responsible for causing the Premises to comply with all hereinafter enacted laws, ordinances, rules, regulations, authorizations orders and requirements of all federal, state, county and municipal governments, the departments, bureaus or commissions thereof, authorities, regulatory bodies, boards or officers exercising or having jurisdiction over all or any part of the Premises. Neither this Lease, nor any of its provisions, shall prevent Landlord from enacting or seeking to enforce any rule, regulation, ordinance or charter provision which may affect the Premises, regardless of whether such local law is the results of action by the City Council, the Mayor, or by initiative and referendum, or by any other applicable procedure.

14. Alterations and Improvements. Tenant shall not make any alterations or improvements to the Premises without having first obtained Landlord's written consent. All alterations and improvements constructed by Tenant, its agents, or contractors, upon Landlord's written consent, shall: (i) conform to the requirements of this Lease; (ii) be made in a commercially reasonable and workmanlike manner; and (iii) comply with all applicable state, federal, county, and local statutes, ordinances, building codes and any other applicable rules and regulations. Tenant shall be responsible for obtaining any and all necessary permits and approvals required for any improvements constructed at the Premises. At the expiration or termination of the Lease, all such permanent additions, changes, alternations, improvements, and new structures placed, built or brought on the Premises shall be and remain the property of Landlord. **Routine non-structural maintenance may be performed by the tenant without prior approval, while structural improvements require the City's written consent and compliance with all codes.**

15. Casualty. In the event the Premises are damaged or destroyed by fire, lightning, storm, or other casualty, Tenant shall promptly notify Landlord of such damage and properly secure the Premises to a safe condition in compliance with all applicable laws and ordinances. The parties agree to cooperate with respect to insurance proceeds received in connection with the damage, destruction or casualty loss and performing any remediation work to the Premises with reasonable diligence, it being the parties' intent and goal of fully restoring the Premises to its condition as it was prior to the casualty. Rent shall be abated during any period during which the Premises cannot reasonably be fully occupied or used for the Primary Use.

16. Condemnation. If all of the Premises are acquired or condemned by eminent domain, condemnation, or similar proceeding for any public or quasi-public use or purpose, then the Term of this Lease shall cease and terminate as of the date of title vesting as a result of such proceeding, and all Rent and other charges shall be paid by Tenant up to that date. If any portion of the Premises is acquired or condemned by eminent domain, condemnation, or similar proceeding for any public or quasi-public use or purpose, with the result that the remaining portion of the Premises cannot be reasonably used for the Primary Use of the Premises, in Landlord's reasonable opinion, then this Lease shall cease and terminate as of the date of title vesting as a result of such proceeding. In the event of a partial taking or condemnation which does not result in the remaining portion of the Premises being unusable for the Primary Use of the Premises, in Landlord's reasonable opinion, then Tenant shall not be released from Tenant's obligations under this Lease. Tenant shall have no claim or right to any award given by way of any eminent domain, condemnation, or similar proceeding involving the Premises.

17. Expiration of Term. At the expiration or termination of the Term, Tenant shall peaceably and quietly yield up to Landlord possession of the Premises, together with all improvements thereon, in good order and condition, reasonable wear and tear excepted. Upon such expiration or termination, Tenant, at the reasonable request of Landlord, shall deliver to Landlord all plans, surveys, permits and other documents in Tenant's possession relating to, and necessary or convenient for, the operation of the Premises not otherwise considered to contain proprietary information of Tenant. Any personal property of Tenant which remains on the Premises after the expiration or earlier termination of this Lease for a period of thirty (30) days after written request by Landlord for removal, shall, at the option of Landlord, be disposed of without accountability, in such a manner as Landlord may see fit.

18. Assign and Sublet. Tenant shall not assign or sublet its interest in this Lease without the City's prior written consent. In the event of any assignment or subletting of the Premises, Tenant shall remain fully responsible and liable for the payment of Rent and any and all other sums or charges required hereunder and for the performance of all other obligations, promises and covenants imposed upon Tenant herein.

19. Hazardous Material. Landlord represents and warrants to Tenant that, to the best of Landlord's knowledge, the Premises are free and clear of Hazardous Materials (as hereinafter defined). For the purposes of this Lease, "Hazardous Materials" means any hazardous or toxic substances, materials or wastes, including those substances, materials, and wastes listed in the United States Department of Transportation Hazardous Materials Table (49 CFR 172.101) or by the Environmental Protection Agency as hazardous substances (40 CFR Part 302) as now in effect or as same may be amended from time to time, or such substances, materials, and wastes which are now or hereafter become regulated by any federal, Florida, district, St. Lucie county or City of Port St. Lucie environmental agency, including, without limitation, any material, waste or substance which is asbestos and petroleum-related products. Tenant shall not use, generate, store, or dispose of Hazardous Materials on the Premises, and shall be solely responsible to promptly cure and remediate any breach of that prohibition. Except for Hazardous Materials introduced to the Premises by Tenant in violation of this Lease, Landlord shall have the absolute and sole responsibility to promptly address, cure, and remediate instances in which Hazardous Materials are released on the Premises or migrate to the Premises, as required by applicable laws, ordinances, rules, orders and regulations of any governmental entity as now existing or promulgated hereafter.

20. Indemnification. Tenant shall indemnify, defend and hold harmless Landlord, and its officers, employees, attorneys, and agents, and all of the successors and assigns of the foregoing ("Indemnified Party") from and against any all "Claims" (as defined below), costs, losses, damages (including but not limited to all fees and charges of attorneys, experts, and other professionals, and all court or other resolutions costs) liabilities, expenditures, or causes of action of any kind, to the end arising from relative to or cause by: (a) the acts or omissions of Tenant, or its officers or employees, or its contractors (including negligent, reckless, or willful or intentional acts or omissions of any contractor, subcontractor or anyone directly or indirectly employed by any of them to perform or furnish any work or services for Tenant) or its invitees, vendors, agents; (b) the maintenance or operation by Tenant of the Premises; (c) a default by Tenant in the performance of its obligations under this Lease; (d) the use of Premises by Tenant, its officers, employees, contractors, invitees or agents; or (e) some or all of the foregoing.

i. **Claims.** Claims shall mean: (a) claims for bodily injury, disease or death; (b) claims for injury or destruction of real or personal property and including the loss of use

of value, or both, resulting therefrom; (c) claims alleging violation of the United States or Florida Constitution, Code or statute of any federal or state agency rule or regulation, district regulation or of the St. Lucie County Code or Administrative Rules, or of the City of Port St. Lucie's Code, or of any judgment, order, decree, or permit, or other binding directive, or some or all of the foregoing; (d) claims alleging a violation of any common law duty; (e) claims asserting a mechanic's lien, judgment lien, equitable lien, construction lien, or any other type of lien against the Landlord, or any property owned by the Landlord, its successors or assigns; (f) claims alleging any actual or alleged infringement of any intellectual rights or property of any person; or (g) claims alleging some or all of the foregoing.

ii. **Waiver**. Tenant acknowledges and agrees that it waives and releases any defense, excuse, or avoidance it may now have or ever in the future have that the indemnity provided to the Indemnified Party by the provisions hereof are not fully enforceable as written.

iii. **No Conditions.** The obligations of the Tenant under this Indemnification provision are absolute and unconditional and are not conditioned in any way on any attempt by an Indemnified Party to collect from an insurer any amount under a liability insurance policy or collect against others whom may be liable to the Indemnified Party, and are not subject to any set-off, defense, deduction, or counterclaim that Tenant might have against the Indemnified Party. The insurance requirements set forth herein are independent of Tenant's indemnification and other obligations under this Lease and shall not be construed or interpreted in any way to restrict, limit, or modify Tenant's indemnification and other obligations or to limit Tenant's liability under this Lease.

iv. **Limitation.** Tenant shall have no obligation to indemnify, defend, or hold harmless any Indemnified Party to the extent a Claim arises from or relates to any breach of this agreement by, or any act or omission of, the Indemnified Party.

The obligations of Tenant hereunder shall survive the expiration or other termination of this Lease.

21. Right to Inspect. Upon Landlord's reasonable prior notice to Tenant, Tenant shall permit Landlord, and any agents, employees, or independent contractors of Landlord to have access to and to enter upon the Premises at all reasonable or necessary times to inspect the Premises. Such right of entry, except in cases of emergency, shall at all times, be upon reasonable prior notice to Tenant.

22. No Reliance on Diligence Items. In the course of Tenant's review of the Premises, Landlord may but is not obligated to provide certain due diligence materials (i.e. plats, surveys, legal descriptions, architectural drawings, engineering drawings, sketches, surveys, utility locations and utility-related equipment, recorded or unrecorded easements or licenses affecting the Premises, etc.) (hereafter the "Diligence Items"). Tenant acknowledges and agrees that some or all of the Diligence Items may have been prepared or furnished by third parties outside of Landlord's control or employment and have been provided purely as a courtesy to Tenant. Tenant acknowledges and agrees that none of the Diligence Items shall be deemed to be an express or implied representation of the quality or conditions of the Premises or any portion thereof or confirmation by Landlord of the accuracy of any condition or depiction set forth therein.

23. Default or Breach. Each of the following events shall constitute a default by Tenant of its obligations under this Lease:

i. **Failure to Pay Rent.** Tenant's failure to pay to Landlord the Rent, or any other sums or charges due hereunder within thirty (30) days after the same shall be due.

ii. **Failure to Perform.** Tenant's failure to perform or comply with any of the conditions or provisions of this Lease other than with respect to the payment of Rent, for a period of thirty (30) days after the delivery to Tenant by Landlord of written notice of such failure, or for such additional period of such time as is reasonable provided that Tenant shall commence to cure such matter within such thirty (30) day period and thereafter diligently pursue completion thereof.

iii. **Failure to Maintain All Applicable Licenses.** Tenant's failure to maintain any active licenses in good standing as necessary to lawfully carry out Tenant's operations for the Primary Use in the Premises.

iv. **Failure to Occupy or Operate.** Tenant vacating or abandoning the Premises. Tenant will be considered to have abandoned the Premises if not present for a period of one (1) month. If Tenant abandons the Premises, Landlord shall have the right re-enter the Premises and, after delivering at least thirty (30) days prior written notice, may consider all personal property belonging to Tenant and left on the Premises to also have been abandoned, in which case, Landlord may dispose of the personal property in any manner it deems appropriate and is relieved of all liability for doing so.

24. Effect of Default. In the event of any default by Tenant of its obligations under this Lease, the rights of Landlord shall be as follows:

i. **Termination of Lease.** Landlord may terminate this Lease and all rights of Tenant hereunder by giving Tenant sixty (60) days prior written notice that this Lease is terminated.

ii. **Right to Cure.** Landlord may elect, but shall not be obligated, to make any payment required of Tenant herein or perform any work required to be performed by Tenant hereunder, and Landlord shall have the right to enter the Premises for the purpose of correcting or remedying any such default and to remain until the default has been corrected or remedied, but any expenditure for the correction by Landlord shall not be deemed to waive or release the default of Tenant or the right of Landlord to take any action as may be otherwise permissible hereunder in the case of any default.

iii. **Damages.** Whenever either party may seek or claim damages against the other party (whether by reason of a breach of this Lease by such party, in enforcement of any indemnity obligation, or otherwise), neither Landlord nor Tenant shall seek, nor shall there be awarded or granted by any court, arbitrator, or other adjudicator, any speculative, consequential, collateral, special, punitive, or indirect damages whether such breach shall be willful, knowing, intentional, deliberate, or otherwise. The parties intend that any damages awarded to either party shall be limited to actual, direct damages sustained by the aggrieved party. Neither party shall be liable

for any loss of profits suffered or claimed to have been suffered by the other. This provision shall survive the expiration or termination of this Lease.

25. Not Consent to Sue. The provisions, terms or conditions of the Lease shall not be construed as a consent of Landlord, City of Port St. Lucie, to be sued by any third party because of said leasehold. Nothing in the Lease shall be construed as an indemnification of Tenant by Landlord or as a waiver of sovereign immunity beyond that provided in Florida Statutes, Section 768.28.

26. No Construction Against Preparer. This Lease has been prepared by Landlord and Tenant. Landlord and Tenant believe that this Lease is the product of their collective efforts, that it expresses their agreement, and that it should not be interpreted in favor of either Landlord or Tenant or against either Landlord merely because of their efforts in preparing it.

27. City's Rights as Sovereign. It is expressly understood that notwithstanding any provision of this Agreement and Landlord's status as City hereunder, the City retains all of its sovereign prerogatives and rights as a municipal corporation under Florida laws (but not in regard to its status as City in its capacity as landlord and the performance of its contractual duties hereunder) and shall in no way be estopped from withholding or refusing to issue any approvals of applications for building or zoning or exercising its planning or regulatory duties and authority. For the avoidance of doubt, this Agreement shall not impose any obligation upon the City in its regulatory capacity. At Tenant's request, City agrees to cooperate with Tenant in good faith and with reasonable diligence, with any efforts by Tenant to seek approvals and agreements from the City under Chapter 163 of the Florida Statutes, including without limitation City's joinder in any applications for and active support of such approval.

28. Public Records Law. Tenant acknowledges that Landlord is subject to Chapter 119 of the Florida Statutes, commonly known as the Florida Public Records Law. Landlord shall retain copies of this Lease and any and all related documents including written correspondences between Landlord and Tenant and Tenant acknowledges that the same shall become a public record subject to the Florida Public Records Law, which the Landlord shall disclose whenever a public records request is properly made. This provision shall survive the expiration or earlier termination of this Lease.

29. No Equitable Ownership. Nothing in this Lease shall be interpreted to create an equitable ownership of the Property in Tenant's name. Tenant specifically confirms that it is not the equitable owner of the Premises and waives any benefits which may accrue to Tenant in the event that they were deemed to be an equitable owner of the Premises. At all times in this Lease, the Landlord shall remain the owner of the Premises.

30. Mechanics Liens. Tenant has no authority, expressed or implied, to create or place any lien or encumbrance of any kind or nature whatsoever upon, or in any manner to bind the interest of Landlord or Tenant in the Premises or to charge the rentals payable hereunder for any claim in favor of any person dealing with Tenant, including those who may furnish materials or perform labor for any construction or repairs. Tenant covenants and agrees that should any lien be filed, Tenant shall discharge the same within thirty (30) days thereafter by paying the same or by filing a bond, or otherwise, as permitted by law. Tenant agrees that it will save, defend and hold Landlord harmless for any and all loss, costs or expense based on or arising out of any asserted claims or liens against the leasehold estate or against the right, title or interest of the Landlord in the Premises

or under the terms of this Lease. Tenant agrees to give Landlord prompt written notice of Tenant's awareness of the placing of any lien or encumbrance against the Premises and Landlord agrees to do the same.

31. Notices. Whenever this Lease requires or permits any notice by one party to the other, such notice shall be written and sent to the addresses set forth below by any of the following means: (a) commercial overnight or next business day guaranteed courier service, (b) certified United States Mail, return receipt requested, (c) hand delivery, or
(d) via email transmission with confirmed receipt. Notice shall be deemed given upon receipt or refusal of delivery of said notice. A notice given by an attorney representing the party to this Lease shall be deemed to be given by such party. Addresses for notices are as follows:

32. Quiet Enjoyment. Landlord warrants that if Tenant shall pay all Rent as provided herein to be paid by Tenant and perform all the covenants of the Lease to be performed by Tenant, Tenant shall, during the Term hereof, freely, peaceably and quietly occupy and enjoy the full possession of the Premises, together with all appurtenances and all other rights and privileges herein granted, without hindrance or interruption by Landlord or any other person(s) acting through Landlord.

33. Holdover. Any holding over after the expiration of the Term, with the consent of Landlord, shall be construed to be a month-to-month tenancy and shall be subject to the terms of this Lease. If Tenant holds over without Landlord's consent, such tenancy shall be construed as a tenancy at sufferance.

34. Miscellaneous Provisions:

A. Applicable Laws. Each party shall comply with all applicable local, state and federal laws, rules and regulations, as well as any and all governing agencies, pertaining to this Lease.

B. Binding. All terms, conditions and covenants of this Agreement shall inure to the benefit of and be binding upon the successors and permitted assigns and subtenants of the parties hereto.

C. Governing Law and Venue. This Agreement shall be construed according to the laws of the State of Florida and the venue of any action under this Lease shall be in St. Lucie County, Florida.

D. Exhibits. Any and all Exhibits and Attachments referenced in this Lease are incorporated into this Lease by such reference, even if not physically attached hereto.

E. Third Party Beneficiaries. There are no third-party beneficiaries to this Agreement.

F. Severability. If any term, provision, covenant or condition of this Agreement is held by a court of competent jurisdiction to be invalid, void or otherwise unenforceable, the remainder of the provisions of this Lease will remain in full force and effect.

G. Entire Agreement. This Agreement and all exhibits and attachments attached hereto contain the entire and complete understanding and agreement between the parties pertaining to the subject matter herein, and supersedes any and all prior agreements or understandings, whether oral or written, relating to the subject matter hereof.

H. Amendments. This Agreement may be amended or modified by mutual consent of the parties, provided any and all such amendments or modifications shall be in writing and signed by authorized representatives of both parties.

I. Construction. Whenever the context of this Agreement so requires or admits, words used in the neuter gender include the masculine and feminine; the singular includes the plural and the plural the singular; the word "person" includes a corporation, partnership, or unincorporated association as well as a natural person. The fact that a party may be

deemed to have drafted or structured any provision hereof shall not be considered in construing the particular provisions either in favor of or against such party.

J. Headings. The paragraph headings contained in this Agreement are labels to assist in locating and reading the respective paragraphs and shall have no effect upon the construction of the Lease.

K. Computation of Time. Unless otherwise specified, term "days" when used in this Agreement mean calendar days. If any time ends on a Saturday, Sunday, or holiday officially recognized by the City, the period will end on the next succeeding business day.

L. No Waiver. No failure by either Party to insist upon the strict performance of any of the terms of this Agreement or to exercise any right or remedy consequent upon a breach thereof, and no acceptance by Landlord, nor payment by Tenant, of full or partial Rent during the continuance of any such breach, shall constitute a waiver of any such breach or of any of the terms of this Agreement. None of the terms of this Agreement to be kept, observed or performed by a Party, and no breach thereof, shall be waived, altered or modified except by a written instrument executed by the other Party. No waiver of any breach shall affect or alter this Agreement, but each of the terms of this Agreement shall continue in full force and effect with respect to any other then existing or subsequent breach thereof. No waiver of any default of a Party hereunder shall be implied from any omission by the other Party to take any action on account of such default, and no express waiver shall affect any default other than the default specified in the express waiver and then only for the time and to the extent therein stated. One or more waivers by a Party shall not be construed as a waiver of a subsequent breach of the same covenant, term or conditions.

M. Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed to be an original, but all of which together will constitute one and the same Agreement. To the extent permissible under Florida law, a facsimile/electronic (i.e. sent as a PDF attached to an email) signature shall be deemed to constitute an original signature for the purposes of this Lease.

N. Status of Parties. It is mutually understood and agreed that the relationship between the parties shall be that of independent entities contracting with each other at arm's length and that this Agreement does not and shall not be construed to create the relationship of agent, employee, partnership, joint venture or association between the parties.

O. Force Majeure. Neither party shall be liable to the other party for any interruption, failure, inability, or delay to perform hereunder, if such failure, inability, or delay is due to any cause beyond the reasonable control of the party so failing, including, without limitation, acts of God, acts of any government, war or other hostility, civil disorder, the elements, fire, explosion, or labor dispute, or inability to access necessary supplies, and due diligence is used in curing such cause and in resuming performance; provided, however, that the foregoing shall in no event be applicable with respect to the payment of money from Tenant to Landlord.

P. Binding Lease. This Agreement shall be binding upon and shall inure to the benefit of, the parties and their respective representatives, successors and permitted assigns.

Q. Recording. A Memorandum of this Agreement may be recorded among the Public

Records of St. Lucie County, Florida, in order to give record notice of the existence of this Agreement, provided the Memorandum shall not include the financial terms of this Lease. Either party may request that such Memorandum be recorded. The Party requesting such Memorandum shall be responsible for the payment of any recording fees and/or taxes.

R. Radon Gas. Radon is a naturally occurring radioactive gas that, when it has accumulated in a building in sufficient quantities, may present health risks to persons who are exposed to it over time. Levels of radon that exceed federal and state guidelines have been found in buildings in Florida. Additional information regarding radon and radon testing may be obtained from your county health department.

S. Time of the Essence. It is understood and agrees between the parties that time is of the essence for all performances and obligations due under this Agreement.

T. Waiver of Jury Trial. NEITHER LANDLORD NOR TENANT SHALL SEEK A JURY TRIAL IN ANY LAWSUIT, PROCEEDING, COUNTER-CLAIM, OR ANY OTHER LITIGATION BASED UPON, OR ARISING OUT OF THIS LEASE, ANY RELATED INSTRUMENT, ANY COLLATERAL OR THE DEALINGS OR THE RELATIONSHIP BETWEEN OR AMONG THE PARTIES, OR ANY OF THEM. NO PARTY WILL SEEK TO CONSOLIDATE ANY SUCH ACTION, IN WHICH A JURY HAS BEEN WAIVED, WITH ANY OTHER ACTION IN WHICH A JURY TRIAL CANNOT OR HAS NOT BEEN WAIVED. THE PROVISIONS OF THIS SECTION HAVE BEEN FULLY DISCUSSED BY THE PARTIES HERETO. NO PARTY HAS IN ANY WAY AGREED WITH OR REPRESENTED TO ANY OTHER PARTY THAT THE PROVISIONS OF THIS SECTION WILL NOT BE FULLY ENFORCED IN ALL INSTANCES. THIS WAIVER SURVIVES THE EXPIRATION OR TERMINATION OF THIS LEASE.

Agenda Summary

2026-551

Agenda Date: 6/22/2026 **Agenda Item No.:** 10.g

Placement: First Reading of Ordinances / Public Hearing

Action Requested: Motion / Vote

Ordinance 26-62, Public Hearing, Adopt an Ordinance Authorizing the Issuance of Not to Exceed $85,000,000 in Aggregate Principal Amount of City of Port St. Lucie, Florida Special Obligation Revenue Bonds, Series 2026A to Finance Various Costs Related to the SE Floresta Drive Roadway Improvements, the Public Works Building Project and the Paar Roundabouts Project; Providing for a Covenant to Budget and Appropriate Legally Available Non-Ad Valorem Revenues to Pay the Principal of, Redemption Premium, if any, and Interest on the Bonds; Providing for Certain Rights of the Holders of Such Bonds; and Providing an Effective Date.

Submitted By: Stephen Okiye, Finance Director, Finance Department.

Strategic Plan Link: The City's Mission to utilize fiscal responsibility.

Executive Summary (General Business): Staff recommends the City of Port St. Lucie, Florida issue Special Obligation Revenue Bonds, Series 2026A for the principal purpose of providing funding for the SE Floresta Drive Roadway Improvements, Public Works Building, and Paar Roundabout projects.

Presentation Information: Staff will be available for questions.

Staff Recommendation: Move that the Council adopt Ordinance 26-62 and providing funding for SE Floresta Drive Roadway Improvements, the Public Works Building Project, and the Paar Roundabout Project.

Alternate Recommendations:

1. Move that the Council amend the recommendation and adopt Ordinance 26-62, Authorizing the Issuance of Not to Exceed $85,000,000 in Aggregate Principal Amount of City of Port St. Lucie, Florida Special Obligation Revenue Bonds, Series 2026A.
2. Move that the Council provide staff direction.

Background: The City is proposing the issuance of approximately $85 million in bonds to fund projects included in the adopted Capital Improvement Program. Bond proceeds will be used for Floresta Drive Roadway Improvements ($38.7 million), the Public Works Facility ($37.3 million), and the Paar Drive Roundabout ($9.0 million). The proposed financing provides funding for these projects and allocates project costs over the useful life of the assets.

Issues/Analysis: N/A

Financial Information: The proposed bond issuance is approximately $85 million. Debt service payments associated with the bonds are anticipated to be funded from a combination of Mobility Fees, Public Building Impact Fees, Half-Cent Sales Tax revenues, and General Fund revenues, as applicable to each project. Funding sources have been identified within the City's long-term financial plan and will be appropriated through the annual budget process.

Special Consideration: N/A

Location of Project: N/A

Business Impact Statement: N/A

Attachments: 1. Ordinance 26-XX Draft.

NOTE: All of the listed items in the "Attachment" section above are in the custody of the City Clerk. Any item(s) not provided in City Council packets are available upon request from the City Clerk.

AN ORDINANCE AUTHORIZING THE ISSUANCE OF NOT TO EXCEED $85,000,000 IN AGGREGATE PRINCIPAL AMOUNT OF CITY OF PORT ST. LUCIE, FLORIDA SPECIAL OBLIGATION REVENUE BONDS, SERIES 2026A TO FINANCE VARIOUS COSTS RELATED TO THE SE FLORESTA DRIVE ROADWAY IMPROVEMENTS, THE PUBLIC WORKS BUILDING PROJECT AND THE PAAR ROUNDABOUTS PROJECT; PROVIDING FOR A COVENANT TO BUDGET AND APPROPRIATE LEGALLY AVAILABLE NON-AD VALOREM REVENUES TO PAY THE PRINCIPAL OF, REDEMPTION PREMIUM, IF ANY, AND INTEREST ON THE BONDS; PROVIDING FOR CERTAIN RIGHTS OF THE HOLDERS OF SUCH BONDS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Port St. Lucie, Florida (the "City") hereby determines that certain capital improvements generally described in Exhibit A hereto and more particularly described in the plans and specifications on file with the City (collectively, the "Project") should be acquired, constructed, and equipped in order to improve and maintain the health, safety, and welfare of the City's inhabitants; and

WHEREAS, the most efficient and cost-effective method of financing costs of the Project is by the issuance of the hereinafter defined Bonds payable from a covenant of the City to budget and appropriate sufficient Non-Ad Valorem Revenues (as defined herein) to pay the scheduled debt service on the Bonds, all to the extent and in the manner provided herein and in the hereinafter defined Bond Resolution; and

WHEREAS, the principal of, redemption premium, if any, and interest on the Bonds shall be paid from the Non-Ad Valorem Revenues, budgeted and appropriated in the manner and to the extent provided herein and in the Bond Resolution (as defined herein), unless otherwise paid by such entity as shall provide credit enhancement, if any, on the Bonds; the City shall never use or be required to use its

ad valorem taxing power for the payment of the Bonds and the Bonds shall not constitute a general obligation of the City or a pledge of its faith and credit, nor shall the holders of the Bonds have any lien or encumbrance on any property of the City.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

SECTION 1. DEFINITIONS. When used in this Ordinance, the following terms shall have the following meanings, unless some other meaning is plainly intended:

"Bonds" shall mean the City of Port St. Lucie Special Obligation Revenue Bonds, Series 2026A issued by the City pursuant to this Ordinance and the Bond Resolution in one or more series.

"Bond Resolution" shall mean the resolution of the City providing for the security and payment for the Bonds, the flow of funds, the rights and remedies of the owners of the Bonds and various other terms and details relating to the Bonds, as the same may be amended or supplemented from time to time.

"City" shall mean the City of Port St. Lucie, Florida, a municipal corporation established under the laws of the State of Florida.

"Council" shall mean the City Council of the City.

"Non-Ad Valorem Revenues" shall mean the legally available non-ad valorem revenues of the City available to be budgeted and appropriated to pay the debt service on the Bonds.

"Ordinance" shall mean this Ordinance adopted by the Council on the date hereof, as it may be amended and supplemented from time to time.

"Project" shall mean certain capital improvements related to the SE Floresta Drive Roadway Improvements, the new Public Works Building Project and the Paar Roundabouts Project to be funded with proceeds of the Bonds, as more particularly described in the plans and specifications on file with the City, as the same may be amended and supplemented from time to time.

The words "herein," "hereunder," "hereby," "hereto," "hereof," and any similar terms shall refer to this Ordinance.

Words importing the singular number include the plural number, and vice versa.

SECTION 2. AUTHORIZING THE PROJECT. The Council hereby authorizes and approves the financing and/or reimbursing costs of the Project, all in accordance with the Bond Resolution.

SECTION 3. ISSUANCE OF THE BONDS. The Bonds are hereby authorized to be issued in the aggregate principal amount of not exceeding $85,000,000. The title and designation of the Bonds may be modified by the Bond Resolution to reflect the actual terms and series of such Bonds. The Bonds shall be issued for the principal purposes of (A) financing and/or reimbursing costs of the Project, (B) funding a debt service reserve, if necessary or desirable, (C) paying for any credit enhancement for the Bonds, and (D) paying costs and expenses of issuing the Bonds. The principal of, redemption premium, if any, and interest on the Bonds shall be payable from the Non-Ad Valorem Revenues, budgeted and appropriated in the manner and to the extent provided herein and in the Bond Resolution.

The Bonds shall be dated such date or dates, shall bear interest at such rate or rates, shall mature at such times and in such amounts as may be determined by the

Bond Resolution, and may be made redeemable before maturity, at the option of the City, at such price or prices and under such terms and conditions as may be determined by the Bond Resolution. The Bonds may be issued in one or more series as determined pursuant to the Bond Resolution. The Council shall determine by the Bond Resolution the form of the Bonds, the manner of executing such Bonds, and shall fix the denomination or denominations of such Bonds, the place or places and dates of payment of the principal and interest, and such other terms and provisions of the Bonds as it deems appropriate. The Bonds may be issued as capital appreciation Bonds, current interest paying Bonds, variable rate Bonds, serial Bonds, term Bonds, or any combination thereof, as shall be determined by the Bond Resolution. In case any officer whose signature or a facsimile of whose signature shall appear on the Bonds shall cease to be such officer before the delivery of such Bonds, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until such delivery. The Council may sell the Bonds in such manner and for such price as it may determine by the Bond Resolution to be in the best interests of the City. The Bonds may be further secured by any credit enhancement as the Council by the Bond Resolution, deems appropriate.

The Bonds may be issued without any other proceedings or the happening of any other conditions or things than those proceedings, conditions or things which are specifically required by this Ordinance or the Bond Resolution.

The proceeds of the Bonds shall be disbursed in such manner and under such restrictions, if any, as may be provided by the Bond Resolution.

The Bonds shall be secured by the Bond Resolution which may include, but without limitation, provisions as to the rights and remedies of the holders of the

Bonds, the application of funds and such other matters as are customarily in such an instrument.

SECTION 4. COVENANT TO BUDGET AND APPROPRIATE. The City shall covenant and agree pursuant to the Bond Resolution, to the extent permitted by and in accordance with applicable law and budgetary processes, to prepare, approve and appropriate in its annua1 budget for each fiscal year of the City, by amendment if necessary, legally available Non-Ad Valorem Revenues of the City in an amount which is sufficient to pay scheduled debt service on the Bonds. Such covenant and agreement on the part of the City to budget and appropriate sufficient amounts of legally available Non-Ad Valorem Revenues will be cumulative, and shall continue until such legally available Non-Ad Valorem Revenues in amounts sufficient to make all required debt service payments shall have been budgeted, appropriated and actually paid; provided, however, that such covenant shall not constitute a lien, either legal or equitable, on any of the City's legally available Non-Ad Valorem Revenues or other revenues, nor shall it preclude the City from pledging in the future any of its legally available Non-Ad Valorem Revenues or other revenues to other obligations (subject to any anti-dilution provisions set forth in the Bond Resolution), nor shall it give the holders of the Bonds a prior claim on the legally available Non-Ad Valorem Revenues. Notwithstanding the foregoing covenant of the City, the City does not covenant to maintain any services or programs, now provided or maintained by the City, which generate Non-Ad Valorem Revenues. The City may not expend moneys not appropriated or in excess of its current budgeted revenues. The obligation of the City to budget, appropriate, and make debt service payments from its legally available Non-Ad Valorem Revenues will be subject to the availability of legally available Non-Ad Valorem Revenues after satisfying funding requirements for obligations having an

express lien on or pledge of such Non-Ad Valorem Revenues and after paying all expenses for services necessary for the conducting of the public safety and general governmental operations of the City, all as provided in the Bond Resolution.

SECTION 5. TAXING POWER NOT PLEDGED. The Bonds issued under the provisions of this Ordinance shall not be deemed to constitute a pledge of the faith and credit or taxing power of the City, but such Bonds shall be payable from the Non-Ad Valorem Revenues in the manner and to the extent provided herein and in the Bond Resolution, unless otherwise paid by such entity as shall provide credit enhancement on the Bonds, if any. The issuance of the Bonds under the provisions of this Ordinance shall not directly, indirectly or contingently obligate the City to levy or to pledge any form of ad valorem taxation whatever therefore. No holder of any such Bond shall ever have the right to compel any exercise of the ad valorem taxing power on the part of the City to pay any such Bond or the interest thereon against any property of the City, nor shall the Bonds constitute a charge, lien or encumbrance, legal or equitable, upon any property of the City.

SECTION 6. TRUST FUNDS. All moneys received pursuant to the authority of this Ordinance, whether as proceeds from the sale of the Bonds or any Non-Ad Valorem Revenues, shall be deemed to be trust funds, to be held and applied solely as provided in this Ordinance and in the Bond Resolution.

SECTION 7. REMEDIES OF BONDHOLDERS. The holders of the Bonds, except to the extent the rights herein given may be restricted by the Bond Resolution, may, whether at law or in equity, by suit, action, mandamus or other proceeding, protect and enforce and compel the performance of all duties required hereby, or by such Bond Resolution, to be performed by the City.

SECTION 8. ALTERNATIVE METHOD. This Ordinance shall be deemed to provide an additional and alternative method for the doing of things authorized hereby and shall be regarded as supplemental and additional to powers conferred by other laws, and shall not be regarded as in derogation of any powers now existing or which may hereafter come into existence. This Ordinance, being necessary for the health, safety and welfare of the inhabitants and/or property owners of the City, shall be liberally construed to effect the purposes hereof.

SECTION 9. VALIDATION. To the extent deemed necessary or desirable by Bond Counsel, Nabors, Giblin & Nickerson, P.A., or by the City Attorney, the City Attorney is authorized to institute appropriate proceedings for validation of the Bonds pursuant to Chapter 75, Florida Statutes.

SECTION 10. GENERAL AUTHORITY. The members of the Council of the City and the officers, attorneys and other agents or employees of the City are hereby authorized to do all acts and things required of them by this Ordinance, or desirable or consistent with the requirements hereof for the full, punctual and complete performance of all the terms, covenants and agreements contained herein.

SECTION 11. SEVERABILITY. If any portion or section of this Ordinance is determined to be invalid, illegal or unconstitutional by a court of competent jurisdiction, such decision shall in no manner affect the remaining portions or sections of this Ordinance which shall remain in full force and effect.

SECTION 12. EFFECTIVE DATE. This Ordinance shall take effect immediately upon its adoption by the City Council of the City of Port St. Lucie, Florida.

PASSED AND APPROVED by the City Council of the City of Port St. Lucie, Florida this 13th day of July, 2026.

GENERAL DESCRIPTION OF THE PROJECT

The Project generally includes the following capital improvements, as more particularly described in the plans and specifications on file with the City and as the same may be modified and/or supplemented from time to time:

- **SE Floresta Drive Roadway Improvements - Phase 3**. The third phase of this project consists of a two-lane improved roadway providing bike lanes, sidewalks, landscaping and streetlights on SE Floresta Drive from Prima Vista Boulevard to SE Crosstown Parkway. This phase is approximately 1.3 miles and includes roundabouts at Fallon Drive and Naranja Avenue.

- **Public Works Building Project.** This project includes a three-story facility for Public Works employees and emergency management located off of Crosstown Parkway and Cameo Boulevard.

- **Paar Roundabouts Project.** This project includes the planned installation of roundabouts at the intersections of SW Paar Drive with SW Savona Boulevard and SW Darwin Boulevard. This project also includes 12-foot wide multi-use pathways to provide pedestrian and bicycle access along the corridor. Additional improvements include roadway widening withing the roundabout areas to support current traffic demands and accommodate potential future expansion of Paar Drive and the intersecting roadways.

Agenda Summary

2026-549

Agenda Date: 6/22/2026 **Agenda Item No.:** 10.h

Placement: First Reading of Ordinances / Quasi-Judicial Hearing

Action Requested: Motion / Vote

Ordinance 26-63, Quasi-Judicial, Public Hearing, an Ordinance Approving a Conceptual Plan for Approximately 1.41 Acres Located at the Southwest Corner of SW Sultan Drive and SW Port St. Lucie Blvd and north of the C-24 Canal within the LMD (Limited Mixed Use) District for a Project Known as Riverview Plaza (P26-003).

Submitted By: Marissa Da Breo-Latchman, Environmental Planner II

Strategic Plan Link: The City's Goal of a diverse local economy and employment opportunities.

Executive Summary (General Business): The applicant, StoryBook Development Services, LLC, is requesting approval of a conceptual plan for a 1.41-acre site. The proposed conceptual plan includes a single-story, 10,400 square-foot commercial building. The Planning and Zoning Board approved a Landscape Modification Request to provide enhanced landscaping in lieu of a wall at their June 2, 2026 meeting with the condition that an additional tier of hedges be added along the western portion of the property from the building to the architectural buffer wall, to enhance the screening.

Presentation Information: Staff will provide a presentation.

Staff Recommendation: Move that the Council approve the conceptual plan as recommended by the Planning and Zoning Board at their June 2, 2026, meeting.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the conceptual plan with modifications.
2. Move that the Council deny the conceptual plan.

Background: A conceptual plan was approved when this property was rezoned in 2006 via Ordinance 06-095 (P05-499), which included a 11,677 square foot, 2-story office and retail building and a 1, 847 square foot single-family residence. Per Sec 158.155(N), a Site Plan (P06-420) was approved in 2007 and expired two (2) years after approval. The proposed Conceptual Plan is subject to the notice and public hearing requirements for rezonings per the Zoning Code. The Site Plan Committee recommended approval of the proposed Conceptual Plan at their March 11, 2026, meeting.

Issues/Analysis: The applicant’s proposal to revise the subject property’s conceptual plan is consistent with the direction and intent of the City of Port St. Lucie Comprehensive Plan and Zoning Code. Per Section 158.155(P)

of the Zoning Code (M), any changes to the conceptual plan and/or changes to the proposed uses, is subject to the hearing requirements for rezoning as designated in the Zoning Code. The proposed 10,400 SF, one-story building will be used for restaurants, retail, professional and/or personal service uses conducted wholly within the proposed building are permitted uses within the LMD zoning district, as stated in Section 158.155(C). However, since this use is over 50% commercial use and 5,000 square feet, a concurrent special exception use will need to be approved, in accordance with Section 158.155(D)(4). The applicant has provided preliminary building elevations and a landscape plan per Section 158.155(M)(1) of the Zoning Code. The building elevations and landscape plans are attached.

ORDINANCE 26-63

AN ORDINANCE TO APPROVE A CONCEPTUAL PLAN FOR APPROXIMATELY 1.41 ACRES OF PROPERTY LOCATED AT THE SOUTHWEST INTERSECTION OF SW PORT ST. LUCIE BOULEVARD AND SW SULTAN DRIVE WITHIN THE LMD (LIMITED MIXED-USE) ZONING DISTRICT FOR A PROJECT KNOWN AS RIVERVIEW PLAZA (P26-003); PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABLITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, StoryBook Development Services, LLC, hereinafter referred to as the Applicant, seeks approval of a Conceptual Plan (**Exhibit "A")** for 1.41 acres of property located at the southwest intersection of section of Port St. Lucie Boulevard and SW Sultan Drive and within the City of Port St. Lucie, on property zoned within the Limited Mixed-Use (LMD) Zoning District; and

WHEREAS, the proposed conceptual plan is consistent with all applicable elements of the City's adopted Comprehensive Plan and complies with the City's Code of Ordinances; and

WHEREAS, the City of Port St. Lucie Planning and Zoning Board held a public hearing on June 2, 2026, to consider the application (P26-003), notice of said hearing to adjoining property owners for a radius of seven-hundred and fifty (750) feet having been given and advertising of public hearing having been made; and

WHEREAS, the City Council held a public hearing on the June 22, 2026, to consider the application (P26-003), advertising of the public hearing having been made; and

WHEREAS, the City Council has considered the application (P26-003) and the City Council has determined, based on substantial and competent evidence, to approve the Conceptual Plan for property legally described as Lots 28 through 33, Block 1291, Port St. Lucie Section 12, according to the map or plat thereof as recorded in Plat Book 12, Pages 55, 55A through 55G, of the Official Records of St. Lucie County, Florida, as provided herein.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Ratification of Recitals. The foregoing recitals are hereby ratified and confirmed as true and correct and are hereby made a part of this Ordinance.

Section 2. That the Conceptual Plan for property located at the southwest intersection of SW Port St. Lucie Boulevard and SW Sultan Drive and within the City of Port St. Lucie, and legally described as Lots 28 through 33, Block 1291, Port St. Lucie Section 12, according to the map or plat thereof as recorded in Plat Book 12, Pages 55, 55A through 55G, of the Official Records of St. Lucie County, Florida, and zoned Limited Mixed-Use (LMD) Zoning District be approved.

Section 3. Conflict. If any ordinances, or parts of ordinances, are in conflict herewith this Ordinance shall control to the extent of the conflicting provisions.

Section 4. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect.

Section 5. Effective Date. This Ordinance shall become effective ten (10) days after final adoption on second reading.

PASSED AND ADOPTED by the City Council of the City of Port St. Lucie, Florida, this _____ day of _____, 2026.

LMD Conceptual Plan Amendment
P26-003

Project Location Map

SUMMARY

Applicant's Request:	This is a request to amend an LMD Conceptual plan to allow for the construction of a 10,400 SF commercial structure.
Applicant:	Jose Chaves, Storybook Development Services, LLC
Property Owner:	Rossell, LLC
Location:	The property is generally located on the southwest corner of SW Sultan Drive and SW Port St. Lucie Blvd and north of the C-24 Canal.
Address:	802-832 SW Sultan Dr
Project Planner:	Marissa Da Breo-Latchman, Environmental Planner II

Project Description

The applicant, StoryBook Development Services, LLC, is requesting a change to the conceptual plan for a 1.41-acre site. Section 158.155(P) of the Zoning Code requires the plans to be brought back through the public hearing process with any proposed changes. The existing conceptual plan is for a 11,677 gross square foot, 2-story, office and retail building and a 1,847 square foot, single-family residence (P05-499; R06-095). The proposed conceptual plan offers a single-story, 10,400 square-foot commercial building and associated parking. The proposed development will be accessible from SW Sultan Drive.

The property has a future land use classification of Residential, Office and Institutional (ROI), and a zoning designation of Limited Mixed Use (LMD). The proposed request to amend the approved conceptual plan does not require the property to be rezoned from the LMD zoning district, therefore the current zoning is compatible with the existing land use.

A request to provide enhanced landscaping in lieu of an architectural buffer wall on southern portion of the property per Section 154.12 of the City of Port St. Lucie Code of Ordinances (P26-059 – Riverview Plaza-Buffer Wall-Landscape Modification) and a request for approval of a Special Exception Use (SEU) to allow retail or personal service uses that will exceed fifty percent (50%) of the building's gross floor area and any use that exceeds 5,000 square feet on a parcel zoned Limited Mixed Use (LMD) per Section 155.158(D)(5) of the Zoning Code (P26-004 – Riverview Plaza-Special Exception Use) will be presented to the Planning and Zoning Board at the June 2, 2026, meeting.

Previous Actions and Prior Reviews

P05-499 – O'Donnel Mixed-Use Project – The parcels were rezoned from Single-family Residential (RS-2) to LMD in 2005. The Conceptual Plan provided as part of the rezoning process included a 11,677 square foot, 2-story office and retail building and a 1, 847 square foot single-family residence (P05-499; Ordinance 06-095)

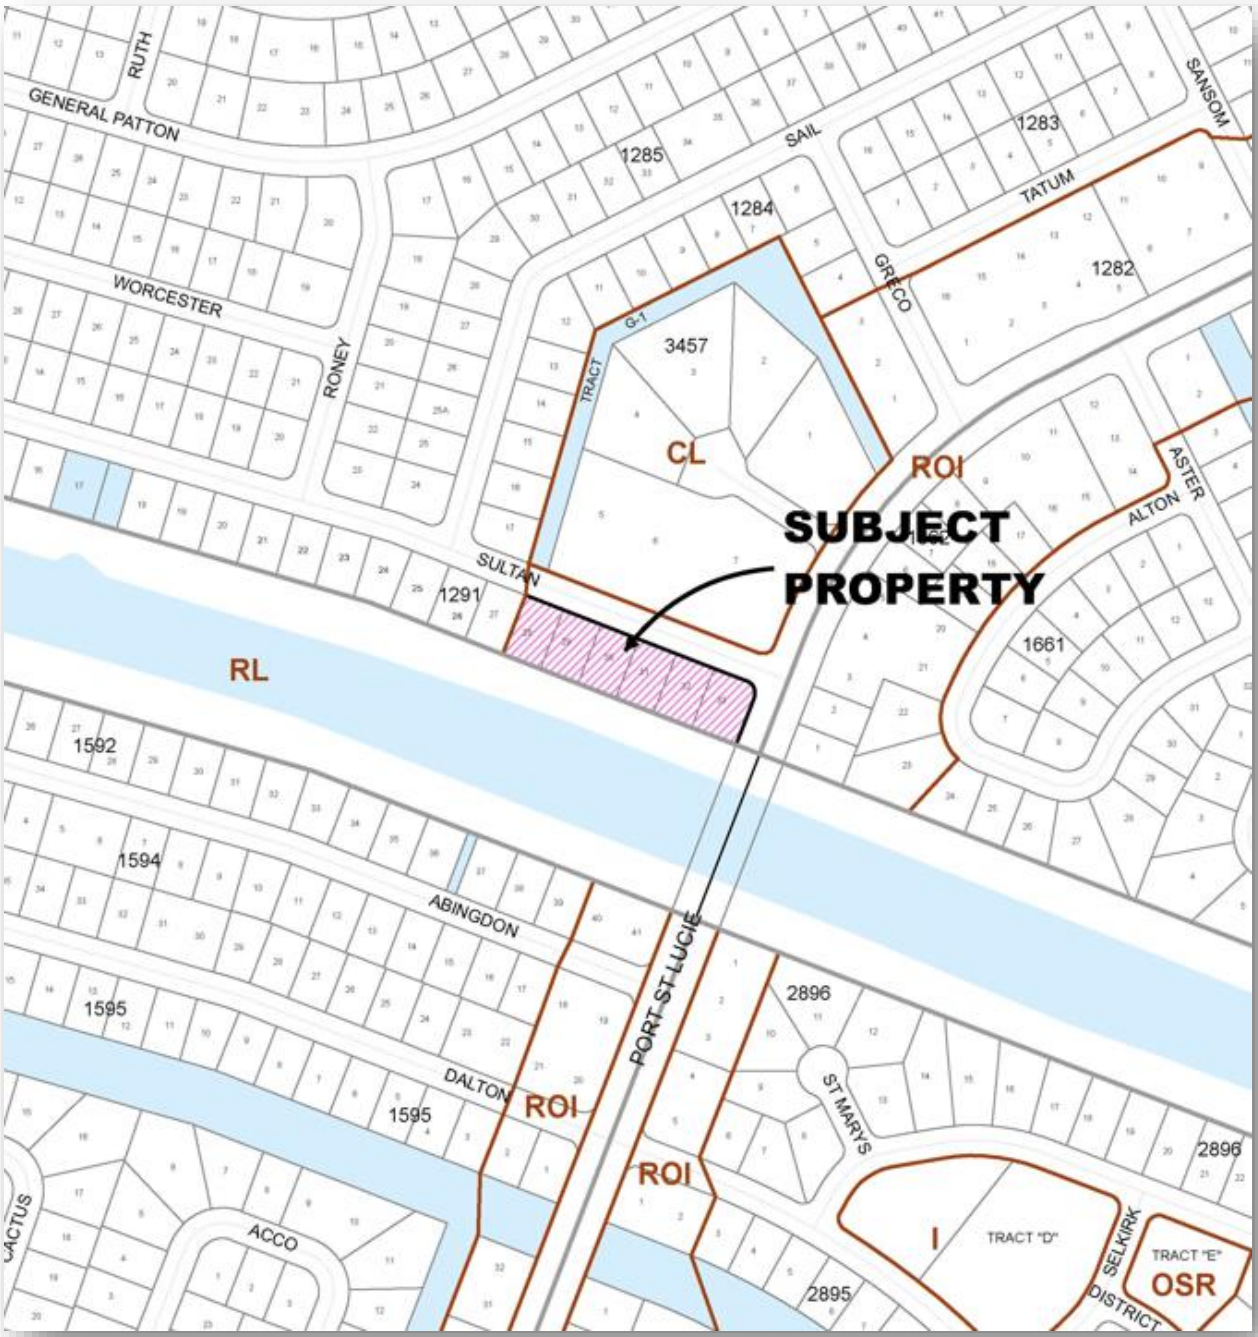
P06-420 – O'Donnel Mixed Use – A Major Site plan approval for a 11,677 gross square footage retail and office building and a 1,847 square foot single-family residential structure was granted on May 29, 2007.

P08-098 – Courtyard of Sultan (Restaurant) – Special Exception Use approval to allow a restaurant on property zoned LMD was granted in 2008 via 08-R62.

The Site Plan Review Committee recommended approval of the proposed LMD Conceptual Plan at a meeting on March 11, 2026.

Public Notice Requirements

Notice of this request to change the conceptual plan was mailed on May 21, 2026, to owners of property within a 750-foot radius of the subject property.



Location and Site Information

Parcel Number:	3420-555-1059-000-9, 3420-555-1060-000-9, 3420-555-1061-000-6, 3420-555-1062-000-3, 3420-555-1063-000-0, 3420-555-1064-000-7
Property Size:	1.41 acres
Legal Description:	Lots 28 through 33, Block 1291, Port St. Lucie Section 12, according to the map or plat as recorded in the Plat Book 12, Page(S) 55, 55A through 55G, public records of St. Lucie County.
Future Land Use:	ROI- Residential, Office and Institutional
Existing Zoning:	Limited Mixed Use (LMD)
Existing Use:	Vacant

Zoning Map

IMPACTS AND FINDINGS

COMPREHENSIVE PLAN REVIEW

Land Use Consistency: The existing zoning designation of the property is consistent with Policy 1.1.4.13 of the Future Land Use Element which establishes the compatible future land use and zoning categories. The Limited Mixed Use (LMD) zoning district is listed as a compatible zoning district under the Residential, Office, Institutional (ROI) future land use classification.

FUTURE LAND USE CLASSIFICATION	COMPATIBLE ZONING DISTRICT(S)
ROI (Residential, Office, Institutional)	P, I, **LMD**, RM-5 or Residential PUD (Planned Unit Development) between 5-11 units per acre

ZONING REVIEW

Justification Statement: The purpose of the request is to modify a previously approved LMD Rezoning (P05-499) to update the conceptual site plan to represent a revised development program. The proposed development program consist of one building sized 10,500 sf+/- that will be used for restaurant, retail, professional and/or personal service uses conducted wholly within an enclosed building including the retail sales of beer and wine for off and incidental on premises consumption in accordance with Chapter 110, but not including convenience/gas sales. These uses shall exceed fifty percent (50%) of the building's gross floor area and exceed 5,000 square feet.

Staff Analysis: The applicant's proposal to revise the subject property's conceptual plan is consistent with the direction and intent of the City of Port St. Lucie Comprehensive Plan and Zoning Code. Per Section 158.155(P) of the Zoning Code (M), any changes to the conceptual plan and/or changes to the proposed uses, is subject to the hearing requirements for rezoning as designated in the Zoning Code. The proposed 10,400 SF, one-story building will be used for restaurants, retail, professional and/or personal service uses conducted wholly within the proposed building are permitted uses within the LMD zoning district, as stated in Section 158.155(C). However, since this use is over 50% commercial use and 5,000 square feet, a concurrent special exception use will need to be approved, in accordance with Section 158.155(D)(4). The applicant has provided preliminary building elevations and a landscape plan per Section 158.155(M)(1) of the Zoning Code. The building elevations and landscape plans are attached.

STAFF RECOMMENDATION

The Planning and Zoning Department staff finds the request to be consistent with the direction and intent of the future land use map and policies of the City's Comprehensive Plan and recommends approval.

Planning and Zoning Board Action Options:

- Motion to recommend approval to the City Council
- Motion to recommend denial to the City Council

Please note: Should the Board need further clarification or information from either the applicant and/or staff, it may exercise the right to *table* or *continue* the hearing or review to a future meeting.

-SOUTH	10 FT	10 FT
-WEST	10 FT	10 FT

*A LANDSCAPE STRIP AT LEAST TEN FEET IN DEPTH, EXCLUSIVE OF CURBING, SHALL BE LOCATED ADJACENT TO ALL RIGHTS-OF-WAY AND ABUTTING PROPERTIES, UNLESS INDICATED OTHERWISE. PROPERTIES WITH A DEPTH IN EXCESS OF 200 FEET HAVING A FRONT OR SIDE FACING PORT ST. LUCIE BOULEVARD SHALL PROVIDE A LANDSCAPE STRIP AT LEAST 15 FEET IN DEPTH. (LDC 154.03.(C).1 & 154.03.(C).2)

10. BUILDING HEIGHTS:
MAXIMUM - 35 FT
PROVIDED - 27 FT (ONE STORY)

11. BICYCLE PARKING:
BICYCLE PARKING WILL BE PROVIDED PER THE CITY'S LAND DEVELOPMENT CODE AND WILL BE LOCATED WITHIN 100 FT OF THE BUILDING'S MAIN ENTRANCE.

12. SITE LIGHTING
SITE LIGHTING SHALL MEET THE CITY'S LAND DEVELOPMENT CODE AND CITY WIDE DESIGN STANDARDS. ALL OUTDOOR LIGHTING SHALL BE SHIELDED FROM ADJACENT PROPERTIES AND ROADWAYS.

13. LIFT STATION, DUMPSTER ENCLOSURES, AND/OR AT GRADE MECHANICAL EQUIPMENT WILL INCLUDE LANDSCAPE SCREENING TO MEET THE CITY'S LAND DEVELOPMENT CODE.

14. POTABLE WATER AND SANITARY SEWER WILL BE PROVIDED BY THE CITY OF PORT ST. LUCIE

15. STORMWATER MANAGEMENT
A DRY RETENTION POND AND AN EXFILTRATION CHAMBERS SYSTEM SHALL BE USED TO PROVIDE THE REQUIRED STORMWATER MANAGEMENT PRIOR TO DISCHARGING TO THE PROPOSED EXTENSION OF THE EXISTING PLASTIC SWALE LINER LOCATED AT THE RIGHT-OF-WAY OF SW SULTAN DR (LIMITED TO 0.5 CFS/ACRE).

16. HAZARDOUS WASTE:
ANY AND ALL HAZARDOUS OR TOXIC MATERIALS GENERATED OR USED OR STORED ON SITE SHALL BE DISPOSED OF IN ACCORDANCE WITH ALL LOCAL, STATE AND FEDERAL REGULATIONS.

17. WELLFIELD PROTECTION ORDINANCE:
THE SUBJECT PARCEL IS NOT LOCATED WITHIN 1,000 FT OF A PUBLIC SUPPLY WELL.

18. TRAFFIC STATEMENT
TRAFFIC IMPACT STATEMENT PREPARED BY MACKENZIE ENGINEERING AND PLANNING, INC. DATED FEBRUARY 05, 2026, STATES THAT THIS PROJECT WILL GENERATE THE FOLLOWING NEW NET EXTERNAL TRIPS: 401 DAILY, 25 AM PEAK HOUR (14 IN / 11 OUT), AND 47 PM PEAK HOUR (23 IN / 24 OUT). AND THE FOLLOWING DRIVEWAY TRIPS: 669 DAILY, 56 AM PEAK HOUR (27 IN / 29 OUT), AND 78 PM PEAK HOUR (39 IN / 39 OUT). 12TH EDITION (ITE REPORT). ITE LAND USE CODE 822.

19. ENVIRONMENTAL STATEMENT
UPLAND AREAS BASED ON ENVIRONMENTAL ASSESSMENT PROVIDED BY HALEY WARD, INC. (DATED DECEMBER 10, 2025).
IT IS THE PROFESSIONAL OPINION OF HALEY WARD, INC. THAT NATIVE UPLAND HABITAT IS LOCATED ONSITE. HOWEVER, THE NATIVE HABITAT AREA IS LESS THAN 2AC. SO PRESERVATION REQUIREMENTS WILL NOT APPLY.

NOTES:
1. ALL MECHANICAL EQUIPMENT TO BE PLACED ON THE BUILDING ROOFTOP AND WILL BE SCREENED BY PARAPET CONSISTENT WITH FLORIDA BUILDING CODE REGULATIONS AND CITY STANDARDS.
2. ALL PROPOSED BUILDING UNITS ARE TO BE PROVIDED BY AN AUTOMATIC SPRINKLER SYSTEM ACCORDING TO NFPA 13 AND ALL APPLICABLE LOCAL CODES.

PROPOSED IMPROVEMENTS LEGEND:

1. PROPOSED BUILDING 1 - 10,400 SF (ONE STORY); MIN. FFE - 25.00 (NAVD); USES: RETAIL / RESTAURANT / PERSONAL / PROF. SERVICES.

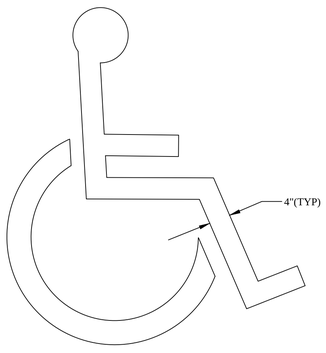
Accessible Parking Spaces

Accessible parking spaces shall be provided in accordance with the current Florida Accessibility Code, Americans with Disabilities Act and any applicable Fair Housing Act requirements, including the following notes:

1. Any commercial real estate property owner offering parking for the general public shall provide specially designed and marked motor vehicle parking spaces for the exclusive use of physically disabled persons who have been issued parking permits pursuant to state law.

2. All spaces shall have an accessible curb-ramp or curb-cut to allow access to the building served. It shall be located so that users will not be compelled to wheel behind parked vehicles.

NOTES:



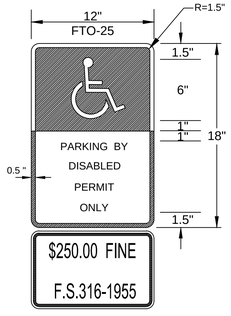
1. EACH ACCESSIBLE PARKING SPACE SHALL BE CONSPICUOUSLY STRIPED IN BLUE PAINT, AND SHALL BE POSTED AND MAINTAINED WITH A PERMANENT, ABOVE-GRADE SIGN BEARING THE INTERNATIONAL SYMBOL OF ACCESSIBILITY, AND THE CAPTION "PARKING BY DISABLED PERMIT ONLY". SUCH SIGNS SHALL NOT BE OBSCURED BY A VEHICLE PARKED IN THE SPACE. ALL DISABLED PARKING SPACES MUST BE SIGNED AND MARKED IN ACCORDANCE WITH THE STANDARDS ADOPTED BY THE DEPARTMENT OF TRANSPORTATION.

2. PARKING SPACE WIDTH AND ACCESS AISLES SHALL BE MEASURED FROM CENTER OF WHITE STRIPE TO CENTER OF WHITE STRIPE.

3. WHERE CURBING EXISTS PARALLEL TO STALL, BLUE LINE SHALL BE REQUIRED ADJACENT TO CURB (WHITE LINE WILL NOT BE REQUIRED).

4. CURB RAMPS CONSTRUCTED ON EXISTING SITES OR FACILITIES MAY HAVE SLOPES AND RISES AS ALLOWED IN ADA 4.1.6 (3) (a) IF SPACE LIMITATIONS PROHIBIT THE USE OF A 1:12 SLOPE OR LESS.

TYPICAL PAVEMENT SYMBOL FOR HANDICAP PARKING (N.T.S.)



NOTES:

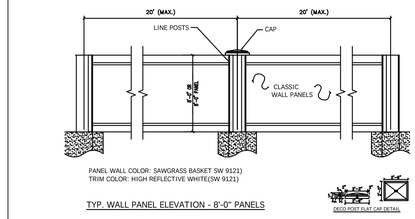
1. SYMBOL SHALL BE 42"x42" OR 48"x48".

2. THIS SYMBOL TO BE WHITE FDOT TRAFFIC RATED PAINT.

TYPICAL HANDICAP PARKING SIGNAGE

NOTES:

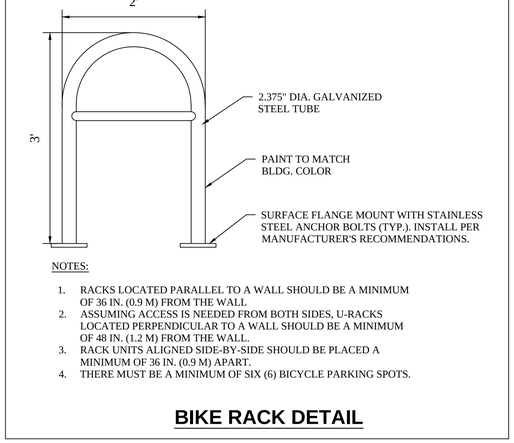
1. ALL LETTERS SHALL BE BLACK AND 1" IN HEIGHT AND SPACED 1" APART. LETTERS ARE TO BE SERIES "B" OR "C", PER MUTCD.



2. TOP PORTION OF SIGN SHALL BE BLUE BACKGROUND WITH WHITE LEGEND AND BORDER.

3. BOTTOM PORTION OF SIGN SHALL BE WHITE BACKGROUND WITH BLACK BORDER.

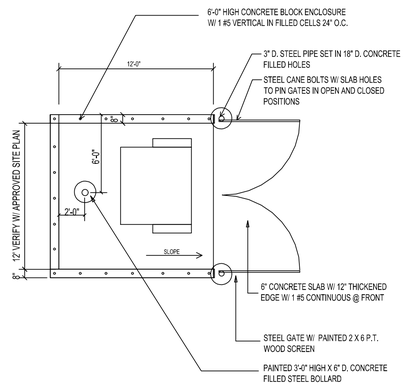
4. ONE SIGN REQUIRED FOR EACH PARKING SPACE.



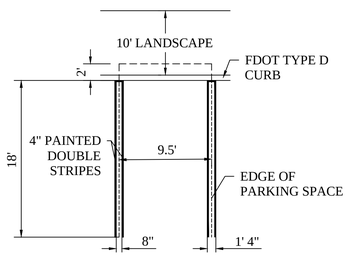
5. THE MINIMUM HEIGHT, MEASURED VERTICALLY FROM THE BOTTOM OF THE ACCESSIBLE SIGN TO THE TOP OF THE CURB, OR IN THE ABSENCE OF CURB, MEASURED VERTICALLY FROM THE BOTTOM OF THE SIGN TO THE ELEVATION OF THE NEAR EDGE OF THE TRAVELED WAY SHALL BE 7 FEET.

6. SIGNS SHALL BE HIGH INTENSITY RETROREFLECTIVE.

TYP. WALL PANEL ELEVATION - 8'-0" PANELS



8' CONCRETE WALL DETAIL



NOTES:

1. RACKS LOCATED PARALLEL TO A WALL SHOULD BE A MINIMUM OF 36 IN. (0.9 M) FROM THE WALL
2. ASSUMING ACCESS IS NEEDED FROM BOTH SIDES, U-RACKS LOCATED PERPENDICULAR TO A WALL SHOULD BE A MINIMUM OF 48 IN. (1.2 M) FROM THE WALL.
3. RACK UNITS ALIGNED SIDE-BY-SIDE SHOULD BE PLACED A MINIMUM OF 36 IN. (0.9 M) APART.
4. THERE MUST BE A MINIMUM OF SIX (6) BICYCLE PARKING SPOTS.

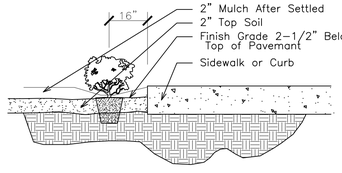
TREE/PALM BRACING DETAIL

NTS

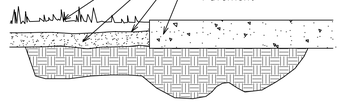
TREE/PALM PLANTING DETAIL

NTS



GENERAL LANDSCAPE NOTES

- The plan takes precedence over the plant list.
- 2 Full business days before digging, call toll free 1-800-432-4770 Sunshine State One Call of Florida, Inc. Notification Center. Contractors are responsible for coordinating with the owners and appropriate public agencies to assist in locating and verifying all underground utilities prior to excavation. All existing utilities shown on the plans are to be considered approximate and should be verified by the contractor prior to the start of work operations.
- General site and berm grading to +/– 1 inch (1") shall be provided by the general contractor. All finished site grading and final decorative berm shaping shall be provided by the landscape contractor.
- All sizes shown for plant material on the plans are to be considered Minimum. All plant material must meet or exceed these minimum requirements for both height and spread. Any other requirements for specific shape or effect as noted on the plan(s) will also be required for final acceptance.
- All plant material furnished by the landscape contractor shall be Florida #1 or better as established by Grades and Standards for Florida Nursery Trees and Plants.
- All trees designated as single trunk shall have a single, relatively straight, dominant leader, proper structural branching and even branch distribution. Trees with bark inclusion, tipped branches, and co-dominant trunks will not be accepted. Trees with girdling, circling and/or plunging roots will be rejected.
- All planting beds shall be free of all rocks ½" or larger, sticks, and all objectionable non-native material including weeds, weed seeds. All limerock, road rock, asphalt shall be removed/cleaned down to the native soils. Planting soil 50/50 sand/topsoil mix shall be delivered to the site in a clean loose and friable condition and is required around the root ball of all trees and palms, the top 6" of all shrubs and ground cover beds and top 2" of all sodded areas. This soil shall be tilled into the existing soil after the existing soil has been cleaned of all rocks, concrete, asphalt, limestone and sticks. Recycled compost is encouraged as a soil amendment alternative.
- All burlap, string, cords, wire baskets, plastic or metal containers shall be removed from the rootballs before planting. Remove all bamboo and metal nursery stakes. Remove all tagging tape.
- All trees/palms shall be planted so the top of the root ball, root flair are slightly above final grade. Shrub material shall be planted such that the top of the plant ball is flush with the surrounding grade. It is the sole responsibility of the landscape contractor to insure that all new plantings receive adequate water during the installation and during all plant warranty periods. Deep watering of all new trees and palms and any supplemental watering that may be required to augment natural rainfall and site irrigation is mandatory to insure proper plant development and shall be provided as a part of this contract.
- All trees/palms shall be staked using biodegradable material. No wire, black strapping, or other synthetic material shall be used. Nailing into trees and palms for any reason is prohibited and the material will be rejected. Please refer to the planting details
- All landscape and lawn areas are irrigated by an existing fully automatic sprinkler system with a minimum 100% coverage with all heads adjusted to 50% overlap. One bubbler shall be provided for each tree. The system is operational with a rain sensor and rust inhibitor.
- No fertilizers are required.
- All landscape areas shall be covered with a 3" layer of Melaleuca mulch or Florimulch when settled. Spread mulch to 1" thickness 3" away from the trunks/stems of all plant material. All trees in sodded areas shall have a clean cut 4' diameter mulch ring. The 5–6" height water ring shall be made from mulch, not soil. Certain areas may receive a thicker mulch cover where noted on plans. Cypress, red, gold and green mulch is prohibited.
- All open areas not covered by trees, palms, shrubs, vines or ground covers shall receive Stenotaphrum secundatum, St. Augustine 'Palmetto' sod, whether labeled on the plans or not, unless a different species is indicated on the planting plan. All noted s.f. shall be approximate; it is the contractor's responsibility to do his or her take off and sod all open areas. It shall be the responsibility of the contractor to include in the bid, the repair of any existing sod which may be damaged during construction.
- Please refer to the planting details for a graphic representation of the above notes.
- All ideas, designs and plans indicated or represented by this drawing are owned by and are the exclusive property of Thomas L White, ASLA–ISA.
- All plant material as included herein shall be warranted by the landscape contractor for a minimum period as follows: All trees and palms for 12 months, all shrubs, vines, groundcovers and miscellaneous planting materials for 90 days, and all lawn areas for 60 days after final acceptance by the owner or owner's representative.
- A min. 5 feet horizontal clearance / horizontal separation is required between city utilities infrastructure and proposed small trees and 10 foot separation from large trees.



Port St. Lucie USD Landscape Notes

- No landscaping shall be planted in a manner that would adversely affect utility easements. Landscaping shall be in compliance with Chapter 154 of the City of Port St. Lucie Code of Ordinances, PSLUSD technical specifications and policies.
- All landscaping within City utility easements shall comply with PSLUSD technical specifications, policies, and codes.
- Trees shall not be planted within ten (10) feet of any PSLUSD underground infrastructure.
- No landscaping other than sod grasses shall be located within 5' of a PSLUSD appurtenance such as a water meter assembly, backflow device, fire hydrant or sewer cleanout, etc.

CONCEPT PLAN SUFFICIENCY CHECKLIST
Revised September, 2013

Project Name: RIVERVIEW PLAZA

Project Number: P _____ New Submittal __X___ or Resubmittal_____ (Check One)

Applicant should submit the concept plan package to Planning & Zoning Department with all items listed below to initiate the review process. Other drawings or information may be required, if deemed necessary, upon review of the submittal for the Site Plan Review Committee Meeting.

The Applicant should complete the Project Information, Applicant Checklist and Applicant Certification. Use the following to complete the checklist: ✓ *= Provided* *X = Incomplete or Missing* *NA = Not Applicable*

Applicant Checklist	*Description of Item Provided*	*Sufficient*		
		P&Z	*Eng.*	*Utility*
√	**Sufficiency Checklist**: One original completed and signed by applicant.			
	2 CD's with all application materials			
√	**Cover Letter:** Sixteen copies of a typed letter explaining the purpose and history of the application.			
	Written Response to Comments: Sixteen copies. For resubmittals only.			
√	**Completed Application:** Sixteen copies. Use black ink or type to fill out completely and legibly.			
√	**Owner's Authorization**: Sixteen copies of authorization on Owner's letterhead.			
√	**Application Fees**: Refer to each department's fee schedule.			
√	**Proof of Ownership:**			
√	Three copies of the recorded deed(s) for each parcel with the exact same name for each parcel or…			
√	…Unity of Title			
	PUD/MPUD Document and Concept Plan (Sections 158.170 – 158.175 of the Zoning Code):			
	Sixteen sets of 11" x 17" concept plans			
	Show traffic access points			
	Show drainage discharge locations			
	Show proposed water and sewer connection points			
	Evidence of unified control and binding PUD agreement			
	Density statement			
	Proposed zoning district regulations			
	LMD Rezoning and Concept Plan (Section 158.155(M) of the Zoning Code):			
	Sixteen sets of 11" x 17" concept plans			
√	Show traffic access points			
√	Show drainage discharge locations			
√	Show proposed water and sewer connection points			
√	Evidence of unified control and development agreement			
√	Preliminary building elevations			
√	Landscape Plan			
	SEU Concept Plan:			
√	Sixteen sets of 11" x 17" plans – either approved site plan or proposed concept plan

LMD Conceptual Plan

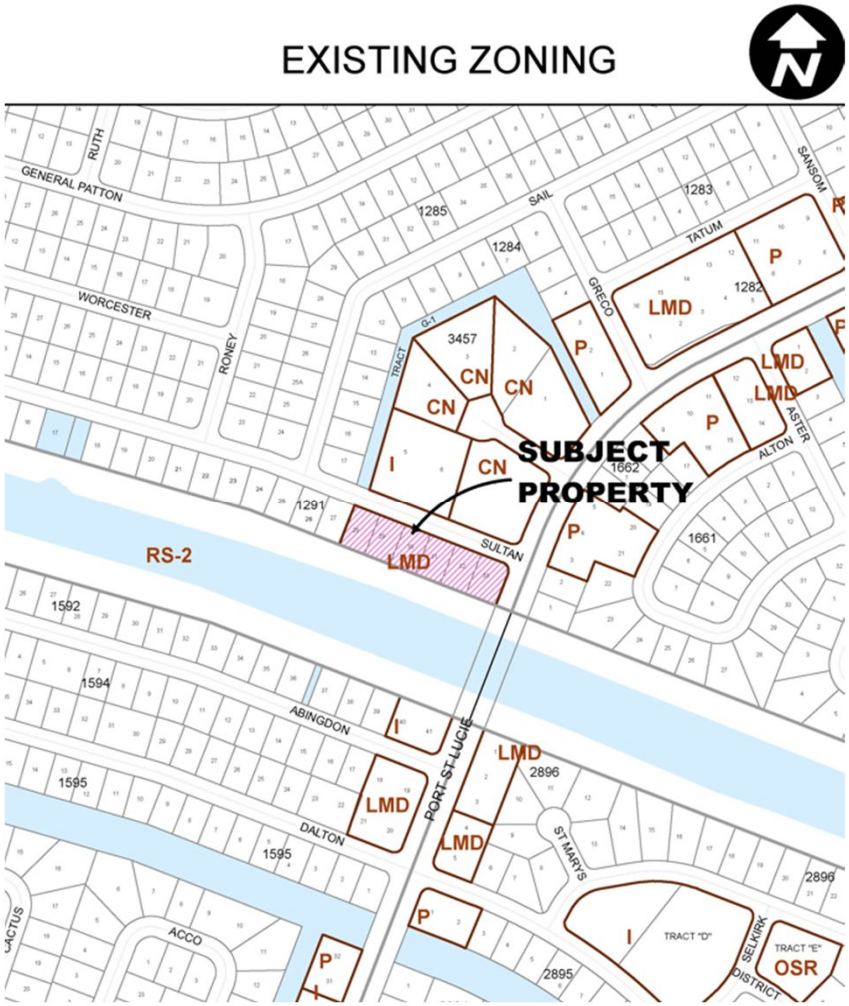
Project No. P26-003

City Council Meeting
Marissa Da Breo-Latchman, Environmental Planner II
June 22, 2026

Request Summary

Applicant/Agent:	Jose Chaves, StoryBook Development Services, LLC
Property Owners:	Rossell, LLC
Location:	Southwest corner of SW Sultan Drive and SW Port St. Lucie Blvd and north of the C-24 Canal.
Request:	To approve a Conceptual Plan for the 1.41-acre property as required by Section 158.155(P) for Limited Mixed Use (LMD) zoning.

Background



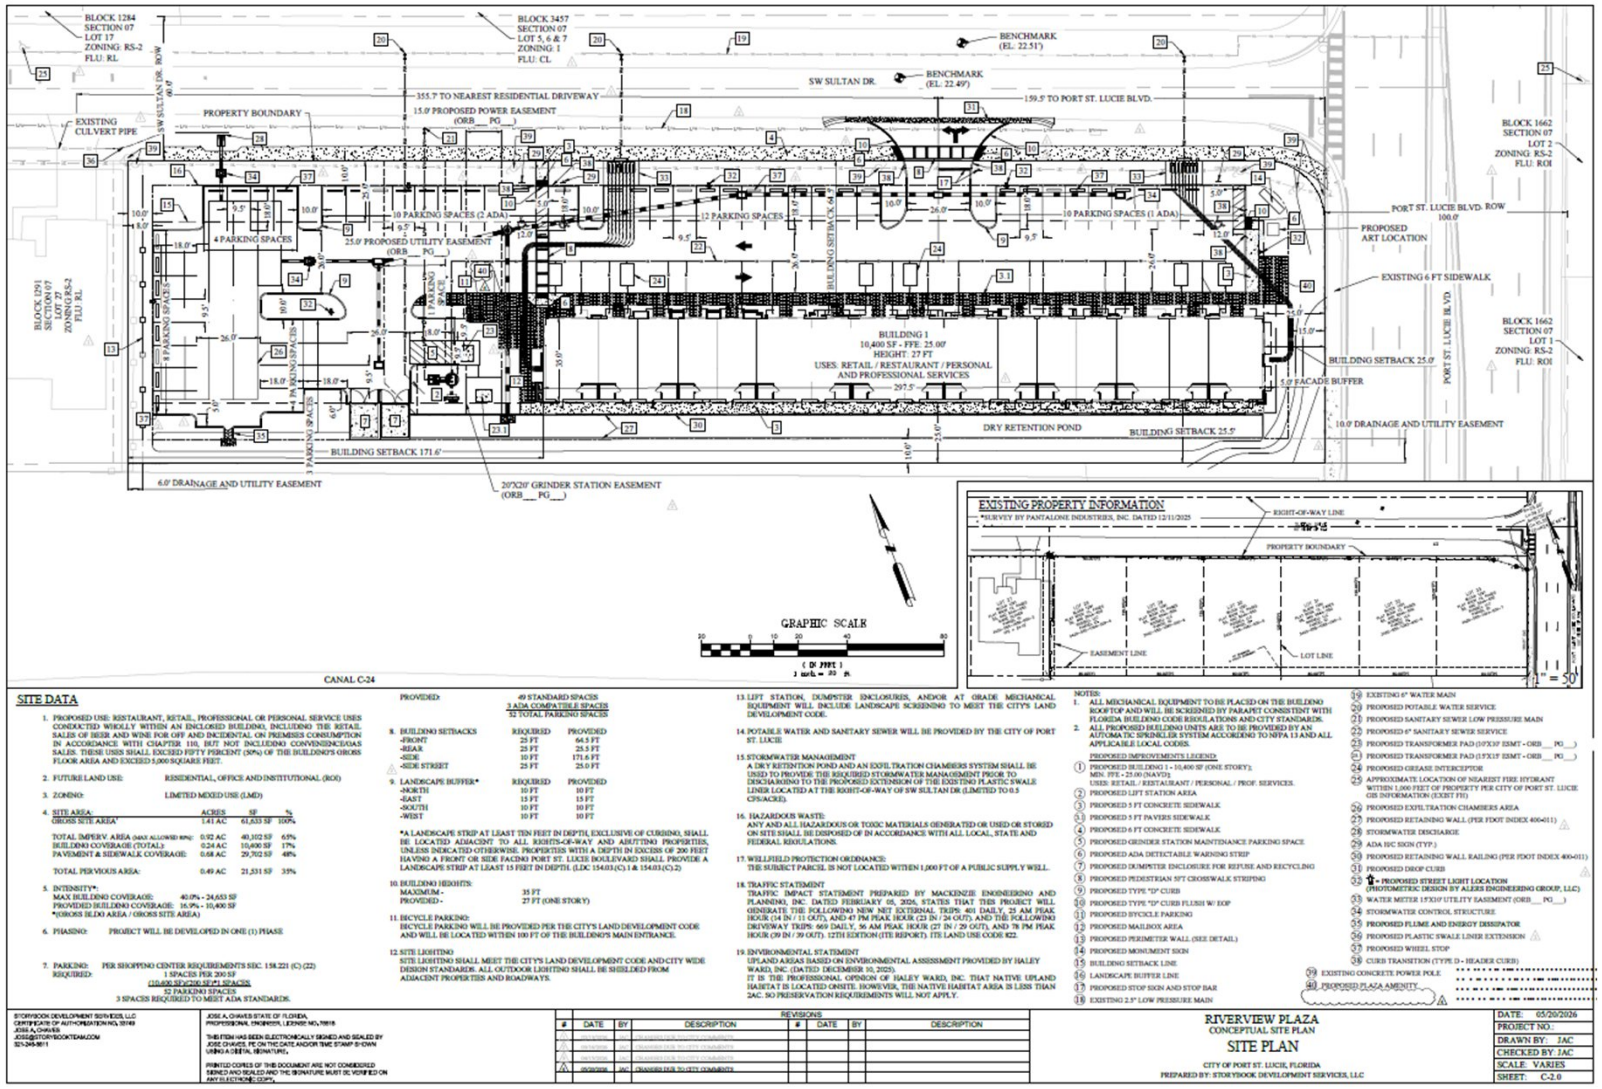
In 2006 this property was rezoned and a conceptual plan for a commercial building and a single-family house was approved. In 2007 a site plan was approved, which has now expired.

At this time the applicant is requesting approval of a revised LMD Conceptual Plan to allow for a 10,400 square foot commercial structure.

Surrounding Areas

Direction	Existing Use	Future Land Use	Zoning
North	Church, daycare	CL	I, CN
South	C-24 Canal, Single-family residential, daycare	RL, ROI	I, RS-2
East	Vacant	ROI	P, RS-2
West	Residential	RL	RS-2

RL – Low-Density Residential, ROI – Residential/Office, RS-2 – Single-Family Residential, CL – Limited Commercial, I– Institutional, CN – Neighborhood Commercia, RL-Low Density Residentiall



Justification

- The proposed rezoning is consistent with Policy 1.1.4.13 of the Future Land Use Element of the Comprehensive Plan which establishes the compatible future land use and zoning categories.

- The Limited Mixed Use (LMD) Zoning District is listed as a compatible zoning district under the Residential, Office and Institutional (ROI) future land use classification.

Policy 1.1.4.13 Future land Use	
Future Land Use Classification	Compatible Zoning District
Residential, Office and Institutional (ROI)	Limited Mixed Use (LMD), Professional (P), Medium Residential (RM-5) or Residential PUD (Planned Unit Development) between 5-11 units per acre.

Proposed Conceptual Plan

SITE DATA

1. PROPOSED USE: RESTAURANT, RETAIL, PROFESSIONAL OR PERSONAL SERVICE USES CONDUCTED WHOLLY WITHIN AN ENCLOSED BUILDING, INCLUDING THE RETAIL SALES OF BEER AND WINE FOR OFF AND INCIDENTAL ON PREMISES CONSUMPTION IN ACCORDANCE WITH CHAPTER 110, BUT NOT INCLUDING CONVENIENCE/GAS SALES. THESE USES SHALL EXCEED FIFTY PERCENT (50%) OF THE BUILDING'S GROSS FLOOR AREA AND EXCEED 5,000 SQUARE FEET.
2. FUTURE LAND USE: RESIDENTIAL, OFFICE AND INSTITUTIONAL (ROI)
3. ZONING: LIMITED MIXED USE (LMD)
4. SITE AREA:

	ACRES	SF	%
GROSS SITE AREA*	1.41 AC	61,633 SF	100%
TOTAL IMPERV. AREA (MAX ALLOWED 80%):	0.92 AC	40,102 SF	65%
BUILDING COVERAGE (TOTAL):	0.24 AC	10,400 SF	17%
PAVEMENT & SIDEWALK COVERAGE:	0.68 AC	29,702 SF	48%
TOTAL PERVIOUS AREA:	0.49 AC	21,531 SF	35%

5. INTENSITY*:
MAX BUILDING COVERAGE: 40.0% - 24,653 SF
PROVIDED BUILDING COVERAGE: 16.9% - 10,400 SF
*(GROSS BLDG AREA / GROSS SITE AREA)
6. PHASING: PROJECT WILL BE DEVELOPED IN ONE (1) PHASE
7. PARKING: PER SHOPPING CENTER REQUIREMENTS SEC. 158.221 (C)-(22)
REQUIRED: 1 SPACES PER 200 SF
(10,400 SF/200 SF)=51 SPACES
52 PARKING SPACES
3 SPACES REQUIRED TO MEET ADA STANDARDS.
PROVIDED: 49 STANDARD SPACES
3 ADA COMPATIBLE SPACES
52 TOTAL PARKING SPACES
8. BUILDING SETBACKS

	REQUIRED	PROVIDED
-FRONT	25 FT	64.5 FT
-REAR	25 FT	25.5 FT
-SIDE	10 FT	171.6 FT
-SIDE STREET	25 FT	25.0 FT

9. LANDSCAPE BUFFER*

	REQUIRED	PROVIDED
-NORTH	10 FT	10 FT
-EAST	15 FT	15 FT
-SOUTH	10 FT	10 FT
-WEST	10 FT	10 FT

*A LANDSCAPE STRIP AT LEAST TEN FEET IN DEPTH, EXCLUSIVE OF CURBING, SHALL BE LOCATED ADJACENT TO ALL RIGHTS-OF-WAY AND ABUTTING PROPERTIES, UNLESS INDICATED OTHERWISE. PROPERTIES WITH A DEPTH IN EXCESS OF 200 FEET HAVING A FRONT OR SIDE FACING PORT ST. LUCIE BOULEVARD SHALL PROVIDE A LANDSCAPE STRIP AT LEAST 15 FEET IN DEPTH. (LDC 154.03 (C) 1 & 154.03 (C)-2)
10. BUILDING HEIGHTS:
MAXIMUM - 35 FT
PROVIDED - 27 FT (ONE STORY)
11. BICYCLE PARKING:
BICYCLE PARKING WILL BE PROVIDED PER THE CITY'S LAND DEVELOPMENT CODE AND WILL BE LOCATED WITHIN 100 FT OF THE BUILDING'S MAIN ENTRANCE.
12. SITE LIGHTING
SITE LIGHTING SHALL MEET THE CITY'S LAND DEVELOPMENT CODE AND CITY WIDE DESIGN STANDARDS. ALL OUTDOOR LIGHTING SHALL BE SHIELDED FROM ADJACENT PROPERTIES AND ROADWAYS.
13. LIFT STATION, DUMPSTER ENCLOSURES, AND/OR AT GRADE MECHANICAL EQUIPMENT WILL INCLUDE LANDSCAPE SCREENING TO MEET THE CITY'S LAND DEVELOPMENT CODE.
14. POTABLE WATER AND SANITARY SEWER WILL BE PROVIDED BY THE CITY OF PORT ST. LUCIE
15. STORMWATER MANAGEMENT
A DRY RETENTION POND AND AN EXFILTRATION CHAMBERS SYSTEM SHALL BE USED TO PROVIDE THE REQUIRED STORMWATER MANAGEMENT PRIOR TO DISCHARGING TO THE PROPOSED EXTENSION OF THE EXISTING PLASTIC SWALE LINER LOCATED AT THE RIGHT-OF-WAY OF SW SULTAN DR (LIMITED TO 0.5 CFS/ACRE).
16. HAZARDOUS WASTE:
ANY AND ALL HAZARDOUS OR TOXIC MATERIALS GENERATED OR USED OR STORED ON SITE SHALL BE DISPOSED OF IN ACCORDANCE WITH ALL LOCAL, STATE AND FEDERAL REGULATIONS.
17. WELLFIELD PROTECTION ORDINANCE:
THE SUBJECT PARCEL IS NOT LOCATED WITHIN 1,000 FT OF A PUBLIC SUPPLY WELL.
18. TRAFFIC STATEMENT
TRAFFIC IMPACT STATEMENT PREPARED BY MACKENZIE ENGINEERING AND PLANNING, INC. DATED FEBRUARY 05, 2026, STATES THAT THIS PROJECT WILL GENERATE THE FOLLOWING NEW NET EXTERNAL TRIPS: 401 DAILY, 25 AM PEAK HOUR (14 IN / 11 OUT), AND 47 PM PEAK HOUR (23 IN / 24 OUT), AND THE FOLLOWING DRIVEWAY TRIPS: 469 DAILY, 36 AM PEAK HOUR (27 IN / 29 OUT), AND 78 PM PEAK HOUR (39 IN / 39 OUT). 12TH EDITION (ITE REPORT). ITE LAND USE CODE 822.
19. ENVIRONMENTAL STATEMENT
UPLAND AREAS BASED ON ENVIRONMENTAL ASSESSMENT PROVIDED BY HALEY WARD, INC. (DATED DECEMBER 10, 2025).
IT IS THE PROFESSIONAL OPINION OF HALEY WARD, INC. THAT NATIVE UPLAND HABITAT IS LOCATED ONSITE. HOWEVER, THE NATIVE HABITAT AREA IS LESS THAN 2AC. SO PRESERVATION REQUIREMENTS WILL NOT APPLY.

NOTES:
1. ALL MECHANICAL EQUIPMENT TO BE PLACED ON THE BUILDING ROOFTOP AND WILL BE SCREENED BY PARAPET CONSISTENT WITH FLORIDA BUILDING CODE REGULATIONS AND CITY STANDARDS.
2. ALL PROPOSED BUILDING UNITS ARE TO BE PROVIDED BY AN AUTOMATIC SPRINKLER SYSTEM ACCORDING TO NFPA 13 AND ALL APPLICABLE LOCAL CODES.

PROPOSED IMPROVEMENTS LEGEND:
1. PROPOSED BUILDING 1 - 10,400 SF (ONE STORY); MIN. FFE - 25.00 (NAVD); USES: RETAIL / RESTAURANT / PERSONAL / PROF. SERVICES.
2. PROPOSED LIFT STATION AREA
3. PROPOSED 5 FT CONCRETE SIDEWALK
3.1. PROPOSED 5 FT PAVERS SIDEWALK
4. PROPOSED 6 FT CONCRETE SIDEWALK
5. PROPOSED GRINDER STATION MAINTENANCE PARKING SPACE
6. PROPOSED ADA DETECTABLE WARNING STRIP
7. PROPOSED DUMPSTER ENCLOSURE FOR REFUSE AND RECYCLING
8. PROPOSED PEDESTRIAN 5FT CROSSWALK STRIPING
9. PROPOSED TYPE "D" CURB
10. PROPOSED TYPE "D" CURB FLUSH W/ EOP
11. PROPOSED BYCICLE PARKING
12. PROPOSED MAILBOX AREA
13. PROPOSED PERIMETER WALL (SEE DETAIL)
14. PROPOSED MONUMENT SIGN
15. BUILDING SETBACK LINE
16. LANDSCAPE BUFFER LINE
17. PROPOSED STOP SIGN AND STOP BAR
18. EXISTING 2.5" LOW PRESSURE MAIN
19. EXISTING 6" WATER MAIN
20. PROPOSED POTABLE WATER SERVICE
21. PROPOSED SANITARY SEWER LOW PRESSURE MAIN
22. PROPOSED 6" SANITARY SEWER SERVICE
23. PROPOSED TRANSFORMER PAD (10'X10' EESMT - ORB___PG___)
24. PROPOSED TRANSFORMER PAD (15'X15' EESMT - ORB___PG___)
24. PROPOSED GREASE INTERCEPTOR
25. APPROXIMATE LOCATION OF NEAREST FIRE HYDRANT WITHIN 1,000 FEET OF PROPERTY PER CITY OF PORT ST. LUCIE GIS INFORMATION (EXIST FH)
26. PROPOSED EXFILTRATION CHAMBERS AREA
27. PROPOSED RETAINING WALL (PER FDOT INDEX 400-011)
28. STORMWATER DISCHARGE
29. ADA SVC SIGN (TYP.)
30. PROPOSED RETAINING WALL RAILING (PER FDOT INDEX 400-011)
31. PROPOSED DROP CURB
32. PROPOSED STREET LIGHT LOCATION (PHOTOMETRIC DESIGN BY ALERS ENGINEERING GROUP, LLC)
33. WATER METER 1"X10' UTILITY EASEMENT (ORB___PG___)
34. STORMWATER CONTROL STRUCTURE
35. PROPOSED FLUME AND ENERGY DISSIPATOR
36. PROPOSED PLASTIC SWALE LINER EXTENSION
37. PROPOSED WHEEL STOP
38. CURB TRANSITION (TYPE D - HEADER CURB)
39. EXISTING CONCRETE POWER POLE
40. PROPOSED PLAZA AMENITY

HEART OF THE TREASURE COAST

Proposed Landscape Plan

Proposed Elevations

SIDE ELEVATION - PORT SINT LUCIE BLVD

FRONT ELEVATION - PARKING LOT

SIDE ELEVATION - PORT SINT LUCIE BLVD

FRONT ELEVATION - PARKING LOT

Justification

- The existing zoning is consistent with Policy 1.1.4.13 of the Future Land Use Element of the Comprehensive Plan which establishes the compatible future land use and zoning categories.
- The applicant's proposal to reconfigure the subject property's conceptual plan is consistent with Section 158.155(P), any changes to the conceptual plan and/or changes to the proposed uses, is subject to the hearing requirements for rezoning as designated in the Zoning Code. The proposed commercial use is permitted within the LMD zoning district, as stated in Section 158.155(C)(2).
- As the proposed use is over 50% commercial and 5,000 square feet, a concurrent special exception use will need to be approved, in accordance with Section 158.155(D)(4). This will come before you on the same agenda as the second reading of this rezoning.

Recommendation

- The Site Plan Committee recommended approval of the proposed Conceptual Plan at their March 11, 2026, meeting.
- The Planning and Zoning Board recommended approval of the reconfiguration of the conceptual plan at the June 2nd, 2026, meeting.

Agenda Summary

2026-550

Agenda Date: 6/22/2026 **Agenda Item No.:** 10.i

Placement: First Reading of Ordinances / Quasi-Judicial Hearing

Action Requested: Motion / Vote

Ordinance 26-64, Quasi-Judicial, Public Hearing, an Ordinance Adopting the Eighth Amendment to the Master Sign Program for Tradition (P16-042-A3).

Submitted By: Marissa Da Breo-Latchman, Environmental Planner II

Strategic Plan Link: N/A - Development Application

Executive Summary (General Business): The proposed amendment is to add a definition for "Jobs Corridor/Economic Development District" and a table specifying the locations, number of signs and sign area allowed in that district. The Jobs Corridor/Economic Development District is located within the Southern Grove DRI, south of Discovery Way, north of Becker Road, between Village Parkway and Interstate 95. Other proposed changes include adding requirements for approval of signs within public and private road rights -of-way (ROWs), increasing the number of Non-Residential Informational/Directional signs from 4 to 24, and additional minor changes.

Presentation Information: Staff will provide a presentation.

Staff Recommendation: Move that the Council adopt the Ordinance as recommended by the Planning and Zoning Board.

Alternate Recommendations:

1. Move that the Council amend the recommendation and adopt the ordinance.
2. Move that the Council not adopt the ordinance and provide staff direction.

Background: The Planning and Zoning Board recommended approval of the amendment at their June 2nd, 2026 meeting.

Issues/Analysis: See Staff Report.

Financial Information: N/A

Special Consideration: N/A

Location of Project: The project is located south of Crosstown Parkway, west of I95 and east of Range Line Road.

Business Impact Statement: Yes

Attachments: 1. Ordinance, 2. Exhibit A-Proposed MSP, 3. Exhibit B-Existing MSP, 4. Staff Report, 5. Application, 6. Staff Presentation.

NOTE: All of the listed items in the "Attachment" section above are in the custody of the City Clerk. Any item(s) not provided in City Council packets are available upon request from the City Clerk.

Internal Reference Number: 26154-04

Legal Sufficiency Review:

ORDINANCE 26-64

AN ORDINANCE OF THE CITY OF PORT ST. LUCIE AMENDING THE TRADITION MASTER SIGN PROGRAM; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Port St. Lucie, Florida, adopted a Master Sign Program known as the Tradition Master Sign Program with the adoption of Ordinance 05-12, which Tradition Master Sign Program has been amended by Ordinances 07-02, 07-68, 08-45, 13-33, 16-54, 21-121, and 24-30 (collectively, as amended, the "Tradition Master Sign Program"); and

WHEREAS, the City of Port St. Lucie, Florida, was requested by Mattamy Palm Beach, LLC, to further amend the Tradition Master Sign Program; and

WHEREAS, the City of Port St. Lucie Planning and Zoning Board held a public hearing on the 2th day of June, 2026 to consider the application (P16-042-A3), with advertising of the public hearing having been made; and

WHEREAS, the City Council held a public hearing on the 22nd day of June, 2026 to consider the amendment to the Tradition Master Sign Program, with advertising of the public hearing having been made; and

WHEREAS, the City Council determines that the granting of the amendment to the Tradition Master Sign Program is authorized by Section 155.03(H), Port St. Lucie City Code, and further the granting of the amendment to the Tradition Master Sign Program will not adversely affect the public interest.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Ratification of Recitals. The foregoing recitals are hereby ratified and confirmed as true and correct and are hereby made part of this ordinance

Section 2. Amendment to Master Sign Program. Now, therefor, the City of Port St. Lucie hereby ordains that the City of Port St. Lucie hereby replaces the existing Master Sign Program titled Tradition Master Sign Program, attached as Exhibit "B" with the amendment to Master Sign Program (P16-042-A3) titled Tradition Master Sign Program, contained in the attached document, Exhibit "A", pursuant to Section 155.03(H), Port St. Lucie Code.

Section 3. Conflict. If any ordinance, or parts of ordinances, or if any sections, or parts of sections, of the ordinances of the City of Port St. Lucie, Florida, are in conflict herewith, this

Ordinance shall control to the extent of the conflicting provisions.

Section 4. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect.

Section 5. Effective Date. That this Ordinance shall become effective ten (10) days after City Council approval.

PASSED AND APPROVED by the City Council of the City of Port St. Lucie, Florida, this _____ day of _____, 2026.

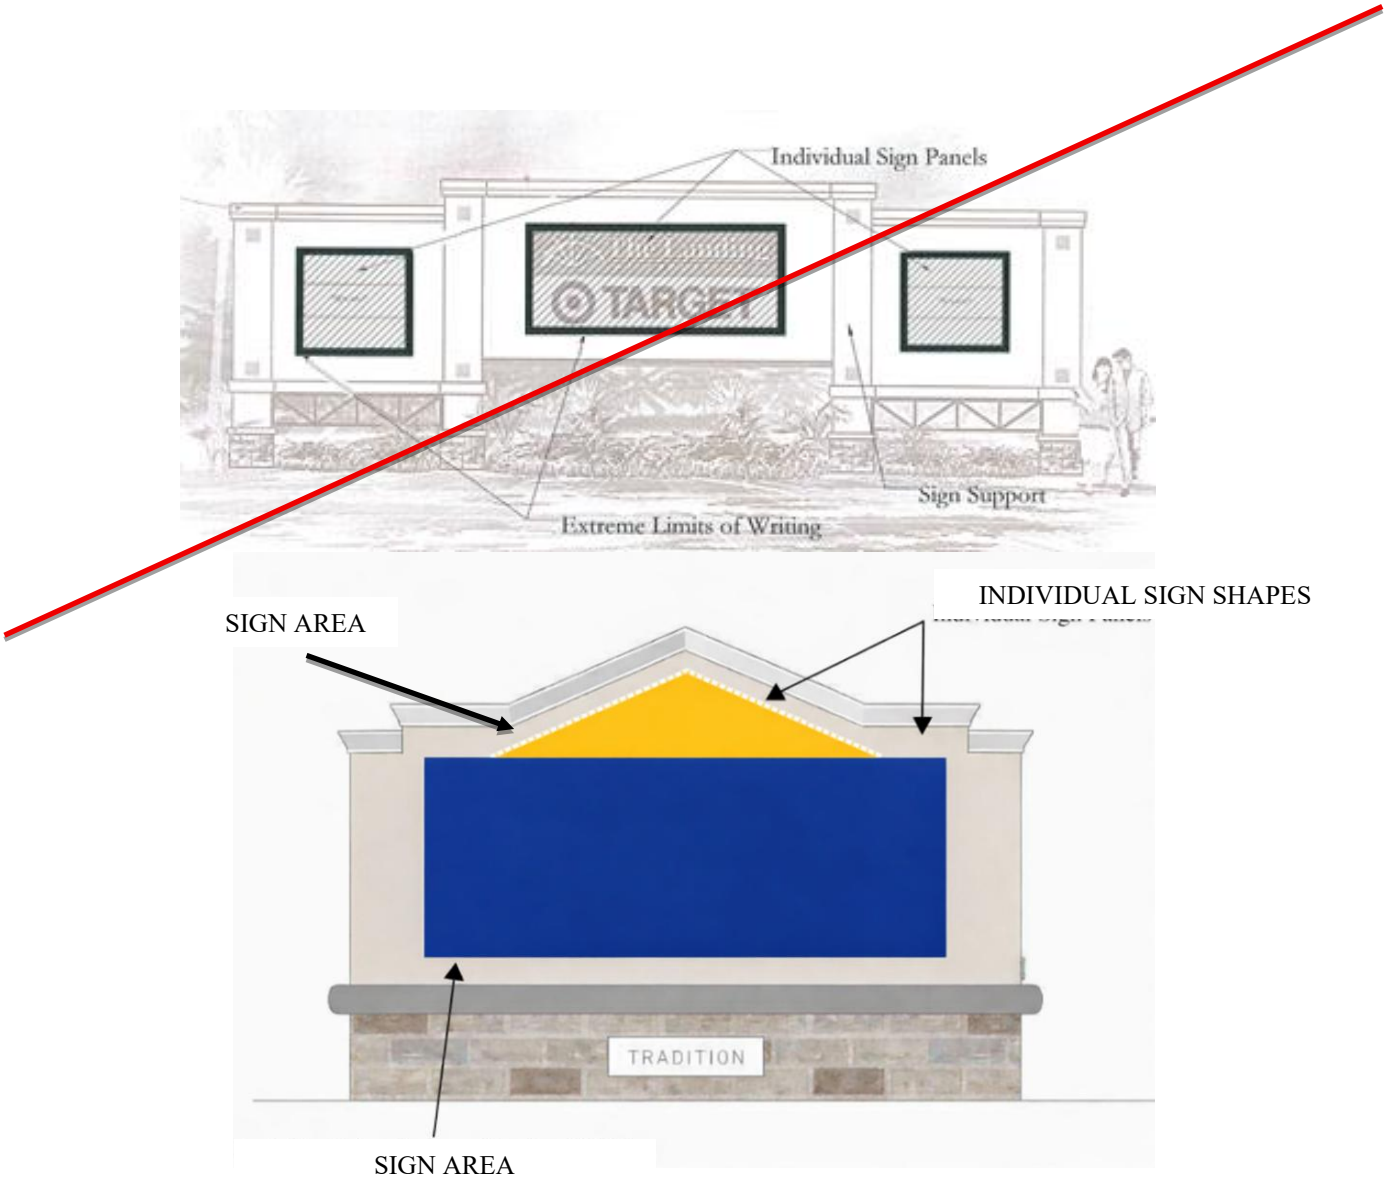
Introduction

This Master Sign Program provides a comprehensive overview of all signs within The Tradition Community. The Tradition Community consists of Tradition, Southern and Western Grove. The Program is composed of ~~three~~ two major sections – Community Signs and Development Signs.~~, and Temporary Signs.~~ The first section describes Community Signs provided by Tradition. The second section provides sign guidelines for those developing projects within The Tradition Community. The guidelines are not intended to restrict imagination, innovation or variety, but to assist in creating a consistent, well-planned solution for identification throughout the community.



Background
The sign guidelines in this manual supersede existing City of Port St. Lucie codes and ordinances and any adopted citywide design standards. Existing city codes shall only be used for sign criteria not addressed in this program.

Procedure
For informational purposes, be advised that the Tradition Design Review Committee (TDRC), has additional signage requirements that are not administered by the city. Please contact the TDRC for the latest copy of their signage requirements. Drop off location is Tradition Management Offices, ~~10807 SW Tradition Square, Port St. Lucie, FL 34987,~~ 10521 SW Village Center Drive, Suite 203, Port St. Lucie, Fl 34987, (772) 345-5101. Email Contact – ashepard@castlegroup.com

General Requirements (Apply to all categories within these guidelines.)

Utility Setbacks:
All structures, including signs, shall be installed a minimum of 10 feet horizontally from all mains (water, gravity, sewer, force and City owned reclaimed water). The 10 foot horizontal setback shall be as measured from the outside edge of the pipe to the nearest point of the structure, including underground (footers for example) or above ground (roof overhangs for example) features. Single or double post community directional and/or informative signs occurring within the rights-of-ways may encroach within these setbacks with Utility Department approval. Those mains installed between structures shall have a 15-foot setback on each side. Additionally, where deep mains are installed, those greater than 9 feet, between structures, the Utility may, at its discretion, require additional horizontal setback.

Sign Area Calculations:
Tradition community seals and "Tradition" community name are encouraged to be used throughout the sign program. These decorative theme reinforcing elements shall not be counted in allowable square-footage or sign face square footage calculations. The "allowable sign area" shall include the entire area within a maximum of two geometric shapes (circle, rectangle or triangle) enclosing the extreme limits of writing, representation, or character, together with any frame of other material or color forming an integral part of the display or used to differentiate the sign from the background or structure against which it is placed; excluding the necessary supports or uprights on which such sign is placed and framing around any panels of a box sign or monument.
(see diagram on following page)

Allowable Sign Area Exhibit

-Maximum allowable sign areas are per face.

Sign Location & Setback:
All signs shall maintain a 10' setback from rights-of-way with the exception of those signs specifically designed to occur within road rights-of-way. Signs shall meet FDOT standards. Any sign located within the road rights-of-way will require approval from the City Engineering Department. Any signs occurring within FDOT Limited Access Right-of-way shall require approval from FDOT prior to sign permits being issued.

Special Signage District:
Civic buildings and/or structures such as schools/universities, fire stations, hospitals, post offices, police stations, and community centers may have additional and/or modified signage due to the significance and location of the proposed facility and the integration of the signage into a community focal point. Additional and/or modified signs for civic buildings will be allowed based

on review and approval by the City of Port St. Lucie. City of Port St. Lucie approval shall be through the Site Plan Review Committee (SPRC) process and shall conclude with SPRC approval.

Jobs Corridor/ Economic Development District:
A district within the Tradition Community, encompassing all parcels located between Discovery Boulevard (northern boundary), Becker Road (southern boundary), Village Parkway (western boundary), and Interstate 95 (eastern boundary).

Height:
No part of any sign affixed to a building shall exceed the height of the deck line to which the sign is affixed. No sign shall project above the deck line for mansard roofs. The portion of a mansard roof located below the deck line shall be eligible for placement of a façade sign. Façade signs are not limited to a placement height.

Size:
The dimensions used under the "size" category are meant as a general size range for the actual sign including all posts, supports, etc. necessary for the sign element Signs may exceed these dimensions based on the final sign design and in an effort to allow creativity and flexibility in the sign program, however "allowable sign are: may not be altered.

Building Façade Signage:
No part of any sign affixed to a building shall exceed the height of the deck line to which the sign is affixed. No sign shall project above the deck line for mansard roofs. The portion of a mansard roof located below the deck line shall be eligible for placement of a façade sign. Façade signs are not limited to a placement height.

Electronic Changeable Copy Signs:
A sign or portion thereof that displays electronic, non-pictorial, text information in which each alphanumeric character, graphic, or symbol (numbers and letters only) is defined by a small number of matrix elements using different combinations of light emitting diodes (LED's), fiber optics, light bulbs or other illumination devices within the display area. Electronic changeable copy signs include computer programmable, microprocessor controlled electronic displays. Electronic changeable copy signs do not include official or time and temperature signs. Maximum 3 lines of copy, limited to static messages/non-scrolling with a minimum of 24 hours between change of message. The sign shall have automatic dimmer software or solar sensors to control brightness for nighttime viewing and variations in daytime ambient light. The intensity of the light source shall not produce glare, the effect of which constitutes a traffic hazard or is otherwise detrimental to the public health, safety or welfare. Lighting from the message module shall not exceed six hundred (600) nits (candelas per square meter) between sunset and sunrise as measured from the sign's face. Lighting from the message module shall not exceed five thousand (5,000) nits or three tenths (0.3) foot candles over the ambient light, whichever is lower, between sunrise and sunset as measured from the sign's face. Permit applications for signs containing a digital electronic display shall include the manufacturer's specification sheet and maximum nit (candelas per square meter) rating.

NIT: A unit of illuminative brightness equal to one candela (12.5 lumens) per square meter, measured perpendicular to the rays of the source.

Digital Display Kiosk:
An Electronic Display Sign with the capability to communicate sequential messages. The message may include multiple lines of text information and incorporate the entire allowable sign area. Non-animated images or graphics may be incorporated to enhance the text message. The hold time of an individual message or display shall be no less than 8 seconds. Any change of message shall be completed immediately without pauses and all parts of the message shall change simultaneously. Animations and transitional effects between messages are prohibited.

Enforcement:
TDRC and/or the Master Developer Management Company shall be responsible for monitoring and enforcing the regulations for electronic and digital signage in the event of a complaint or operating issue. Annual inspections shall confirm digital signs are operating within acceptable parameters.

Prohibited Permanent Signs (unless otherwise described in detail within this document):

- "V"-Shaped Sign
- Credit Card Sign
- Bench Sign
- Exposed Plywood
- Galvanized Sheet Metal
- Fluorescent Lit Sign
- Vacuum Formed Plastic
- Balloon /Inflatable Sign (Only as temporary event signs)
- Sign on Vehicle parked permanently or overnight near a business
- Traffic Sign Replica
- Portable Sign
- Snipe Sign

Community Signs

Throughout the Community of Tradition, a series of signs are provided that identify the community and provide clear direction while echoing the character and materials of the community. The following pages in this section show these proposed signs.

Sign Type:	Locations:	Number of Signs Allowed:	Max Height:	Allowable Sign Area:	Lighting: Internal/ External
Community Tower	Adjacent to I-95, key entries and boundary points.	Six (6)	74'	100 SF (per face) Max. (4) faces - and/or text	Internal/External
Welcome Signs	Crosstown Parkway, Tradition Parkway, Becker Road, ~~Village Parkway, Parr Drive, North/South Road A, E/W #2,3,~~ SW ~~Westcliffe Lane, Fern Lake Drive,~~ Community Blvd, ~~Open View Road,~~ SW Discovery Way	~~Eight (8)~~ Ten (10) total. One sign on each side of roadway, and/or one sign in median.	35'	110 SF maximum per sign face.	Internal/External
Digital Display Kiosk	At trailheads, destinations or along the trail or within the trail	Twelve (12)	8'	150 SF	Internal/External
Primary Directional	All major public roadways.	Forty-Eight (48)	12’	80 SF	External
Secondary Directional	All major public roadways.	Twenty-Four (24)	12'	36 SF	External
Decorative Standards	Attached to subdivision light poles along main and secondary roads and within common areas throughout the subdivision. No decorative pieces will be erected in Public R/W; Private R/W only	Varies. Based on selected poles along various roads within the community.	N/A	12.5 SF (30”x60”) per face/side	Non-illuminated

Residential Primary Entry Sign	Internal roadway Medians and/or both sides of a residential entrance within the individual property.	(3) one sign on each side of roadway, and/or (1) one sign in median.	N/A	150 SF per sign face.	Internal/External
Residential Secondary Entry Sign	Prominent intersections within neighborhoods throughout Tradition.	Max. 8 per subdivision. One sign on each side of roadway, and/or one sign in median.	16'	64 SF	Internal/External
Residential Neighborhood Monuments	Prominent intersections within neighborhoods throughout Tradition.	Max. 8 per subdivision. One sign on each side of roadway, and/or one sign in median. Logo and Name only.	16’	64 SF	Internal/External
Residential Architectural Features	Subdivision property and/or master developer property via recorded easement.	4 signs. Subdivision name and/or logo only.	45’ (Structure) 30' (Signage on Structure)	64 SF	Internal/External
"Amenity" Interior Sign	Interior locations within the subdivision such as the recreation or amenity parcel.	One (1) per major subdivision improvement such as **clubhouse,** recreation area or amenity parcel.	10’	80 SF per face.	External
Decorative Standards	Attached to subdivision light poles along main and secondary roads and within common areas throughout the subdivision. No decorative pieces will be erected in Public R/W; Private R/W only	Varies. Based on selected poles along various roads within the community.	N/A	12.5 SF (3O”x60”) per face/side	Non-illuminated

Signs proposed to be located within a Public road ROW pursuant to Community Signs and Development Signs tables must comply with Florida Department of Transportation standards, if applicable. Additionally, any application for a sign proposed to be located within a ROW pursuant to master sign program must be accompanied by Public Works Department Approval Letter prior to submission of permit applications and prior to installation of any signs or structures within a public ROW. Signs proposed to be located or located within a ROW pursuant to this master sign program that do not meet both of the foregoing requirements will be deemed unauthorized.

Any approved permanent median sign proposed to be located within a Private road ROW pursuant to master sign program must comply with Florida Department of Transportation standards, if applicable. Additionally, any application for a median sign proposed to be located within a Private ROW pursuant to this master sign program must be accompanied by a document authorizing the sign by the owner of the ROW where said sign is proposed, the authorization document must be in a form sufficient to the City. A median sign proposed to be located or located within a Private ROW pursuant to this master sign program that does not meet both of the foregoing requirements will be deemed unauthorized.

Non-Residential					
Sign Type:	**Locations:**	**Number of Signs Allowed:**	**Max Height:**	**Allowable Sign Area:**	**Lighting: Internal/ External**
Non-Residential Parcel Identification (For single or multiple tenants in same building)	Adjacent to roadway(s) on each individual property.	(1) per road frontage	9.5’	Max sign SF = ~~46~~ 50SF	Internal/External
Non-Residential Parcel Identification Electronic Changeable Copy Sign	Adjacent to roadway on each individual property.	(1) per parcel	9.5’	Max sign SF = ~~46~~ 64 SF Max digital sign panel=~~23~~ 32 SF Max 3 lines of copy, non-scrolling. Refer to (Electronic Changeable copy sign) definition and criteria page 3.	Internal/External
Non-Residential Multiple User Parcel Identification (For two or more users/buildings on the same parcel. Does not apply to multiple tenants in same building or same use in multiple buildings.)	Adjacent to primary roadway at major entry into property (in projects median or adjacent to road).	(1) median or (1) per entry side.	9.5’	2-4 users: 64 sf max. 5 or more users: 96 SF max; *if additional SF has been granted from adjacent parcel signage agreement no additional identification signs may be permitted for use.*	Internal/External

Non-Residential Cont.					
Sign Type:	**Locations:**	**Number of Signs Allowed:**	**Max Height:**	**Allowable Sign Area:**	**Lighting: Internal/ External**
Non-Residential Informational/Directional	Adjacent to secondary roadways or entrances within individual parcels	~~Max 4.~~ Max 24	7’	16 SF	Internal
Adjacent Parcel Sign*	Allowed as additional square footage on Non-Residential Multiple User Parcel Identification sign or on real estate development signs as a single user. User's property must be immediately adjacent (shared property line).	1 adjacent parcel user per Non-Residential Multiple User Parcel Identification sign.	NA	Maximum Additional 50% of allowable square footage on Non-Residential Multiple User Parcel Identification	Internal/External
Banner Sign	Within subdivision property only and not visible from adjacent community roadways.	Building frontage under 100 SF = (1) one sign. Building frontage over 100 SF = (2) two signs.	4’	32 SF per face.	Non-illuminated

*Non-residential parcels with more than one road frontage, such as a corner lot, may have 1 (one) parcel identification sign per road frontage. One sign may be located on each road frontage. The primary road frontage may display 100% of allowable sign area. The secondary and tertiary frontage may display no more than 50% of allowable sign area.

Building Mounted Façade Signs				
Sign Type:	**Locations:**	**Number of Signs Allowed:**	**Allowable Sign Area:**	**Lighting: Internal/External**
Non-Residential Building Mounted Façade Sign (less than 10,000 sf bldg.)	Located on the front, rear and/or side building façades depending upon store location.	1 per business façade/section of a façade.	Not to exceed 200 S.F. maximum cumulative area.	Internal/External
Non-Residential Building Mounted Façade Sign (10,000sf to 25,000 sf bldg.)	Located on the front, rear and/or side building façades depending upon store location.	1 per business façade/section of a façade.	Not to exceed 500 S.F. maximum cumulative area.	Internal/External
Non Residential Building Mounted Façade Sign (25,001 sf or greater)	Located on the front, rear and/or side building façades depending upon store location.	1 per business façade/section of a façade.	32 sf plus 1.5sf for each additional linear foot of front facade over 20 feet. Not to exceed 1,000 S.F. maximum.	Internal/External
Awning or Canopy Signage	Located on front awning of building	1 per business	Maximum of 40% of awning surface, or 90% of awning width x 2'0" high.	Internal/External Option (A) Each letter is an independent lightbox the shape of the character. Option (B) Each letter is an independent open channel character w/ exposed neon.
Banner Sign	Within subdivision property only and not visible from adjacent community roadways.	Building frontage under 100 SF = (1) one sign. Building frontage over 100 SF = (2) two signs.	32 SF per face	N/A
Blade sign	Above entry doors or adjacent to front entrance.	1 per business.	Maximum of 10'-0" sf. Minimum height clearance to sidewalk 8'6"	Internal/External

Temporary

Temporary signs shall not require a permit and may remain posted on a property for no longer than 12 months. The exemption does not apply to any structure that would require a building permit.

Sign Type:	Locations:	Number of Signs Allowed:	Max Height:	Allowable Sign Area:	Lighting: Internal/External
Directional/Informational/ Environmental	Throughout the community along roadways within the right of way.	N/A	12’	32 SF	Non-illuminated
Development Sign	Any undeveloped parcel. Any Parcels with I-95 frontage	One (1)	12'	100 SF	Internal/External
Lot Marker	On individual lots within subdivision.	One (1) per lot.	6’	6 SF	Non-illuminated
Construction Entrance Sign	Construction entrances.	One (1) per construction entrance..	8’	16 SF	Non-illuminated
Model Home Sign	On model home lots within subdivision.	One (1) per model home lot.	8’	16 SF	Non-illuminated
Sales Center Sign	On individual lots that contain staffed sales/model center and/or adjacent to Sales Center Entrance within the R/W.	One (1) per lot or entrance location.	8’	18 SF	External
Event/Sales Banner	Subdivision entrance drives and sales center entry drives (within private R/W). On each model home and/or sales center lot.	Four (4) Banners within 400’ of community entrances or sales center entrance. One (1) Banner at road intersections within subdivision from entrance(s) and continuing to sales area.	17’	45 sf (maximum).	Non-illuminated
Builder Sales Sign	Within subdivision property only and not visible from adjacent community roadways.	Max. (4) Four per subdivision or plat.	4’	32 SF per face.	Non-illuminated
Lifestyle Sign	Throughout subdivision within R/W and along Tradition Community roadway frontage on subdivision property only, not within R/W.	Max. (12) twelve per subdivision or plat.	8’	32 SF per face	External

Special Signage District				
Sign Type:	**Locations:**	**Number of Signs Allowed:**	**Allowable Sign Area:**	**Lighting: Internal/External**
Hospital/Civic - Main Identification	On Site welcome sign to identify primary entrances within the designated institutional parcel.	6	A maximum sign area of 150 sq. ft. per face.	Internal/External
Hospital Vehicular Directional Sign	On Site directional signs that guide vehicles and pedestrians from hospital to hospital associated uses; some of which may be isolated or separate from major traffic circulation.	12	36 SF	Internal/External
Landmark Sign	Adjacent to or within community roadways, commercial association property, sign easements or individual properties.	1 per landmark parcel.	Not to exceed 525 SF maximum.	Internal/External

Nothing herein shall be interpreted to provide more favorable treatment of commercial speech over noncommercial speech.

Jobs Corridor / Economic Development District				
Sign Type:	**Locations:**	**Number of Signs Allowed:**	**Allowable Sign Area / Max Height:**	**Lighting: Internal/External**
***Primary Monument Sign**	At projects primary entrance	1	64 SF / 9.5'	Internal/External

Port St. Lucie, Florida

ORDINANCE 24-30

AN ORDINANCE OF THE CITY OF PORT ST. LUCIE AMENDING THE TRADITION MASTER SIGN PROGRAM; PROVIDING FOR CODIFICATION; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Port St. Lucie, Florida, adopted a Master Sign Program known as the Tradition Master Sign Program with the adoption of Ordinance 05-12, which Tradition Master Sign Program has been amended by Ordinances 07-02, 07-68, 08-45, 13-33, 16-54, and 21-121 (collectively, as amended, the "Tradition Master Sign Program"); and

WHEREAS, the City of Port St. Lucie, Florida, was requested by Mattamy Palm Beach, LLC, to further amend the Tradition Master Sign Program; and

WHEREAS, the City of Port St. Lucie Planning and Zoning Board held a public hearing on the 7th day of May, 2024 to consider the application (P16-042-A2), with advertising of the public hearing having been made; and

WHEREAS, the City Council held a public hearing on the 28th day of May, 2024 to consider the amendment to the Tradition Master Sign Program, with advertising of the public hearing having been made; and

WHEREAS, the City Council determines that the granting of the amendment to the Tradition Master Sign Program is authorized by Section 155.03(H), Port St. Lucie City Code, and further the granting of the amendment to the Tradition Master Sign Program will not adversely affect the public interest.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Ratification of Recitals. The foregoing recitals are hereby ratified and confirmed as true and correct and are hereby made part of this ordinance.

Section 2. Amendment to Master Sign Program. The City of Port St. Lucie ordains that the existing Master Sign Program titled Tradition Master Sign Program, attached as Exhibit "B", is hereby replaced with the amendment to Master Sign Program (P16-042-A2) titled Tradition Master Sign Program, attached as Exhibit "A", pursuant to Section 155.03(H), Port St. Lucie Code.

Section 3. Conflict. If any ordinance, or parts of ordinances, or if any sections, or parts of

ORDINANCE 24-30

sections, of the ordinances of the City of Port St. Lucie, Florida, are in conflict herewith, this Ordinance shall control to the extent of the conflicting provisions.

Section 4. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect.

Section 5. Effective Date. That this Ordinance shall become effective ten (10) days after City Council approval.

PASSED AND APPROVED by the City Council of the City of Port St. Lucie, Florida, this 10th day of June, 2024.

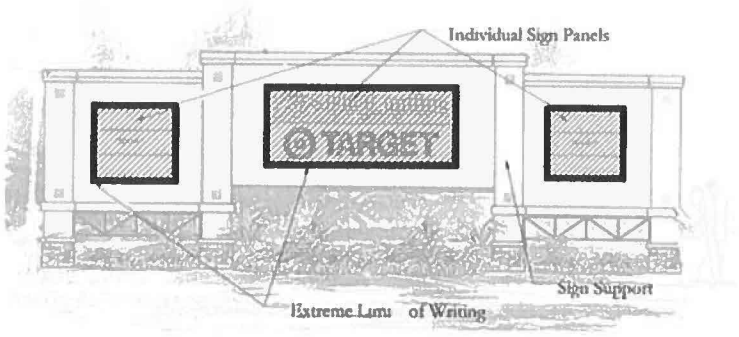
Introduction

This Master Sign Program provides a comprehensive overview of all signs within The Tradition Community. The Tradition Community consists of Tradition, Southern Grove and Western Grove. The Program is composed of three major sections – Community Signs, Development Signs, Building Mounted Façade, and Temporary Signs. The first section describes Community Signs provided by Tradition. The second section provides sign guidelines for those developing projects within The Tradition Community. The guidelines are not intended to restrict imagination, innovation or variety, but to assist in creating a consistent, well-planned solution for identification throughout the community.



Background
The sign guidelines in this manual supersede existing City of Port St Lucie codes and ordinances and any adopted citywide design standards. Existing city codes shall only be used for sign criteria not addressed in this program.

Procedure
For informational purposes, be advised that the Tradition Design Review Committee (TDRC), has additional signage requirements that are not administered by the city. Please contact the TDRC for the latest copy of their signage requirements. Drop off location is Tradition Management Offices, 10807 SW Tradition Square, Port St. Lucie, FL 34987, (772) 345-5101.Email Contact - ashepherd@castlegroup.com

General Requirements (Apply to all categories within these guidelines.)

Utility Setbacks:
All structures, including signs, shall be installed a minimum of 10 feet horizontally from all mains (water, gravity, sewer, force and City owned reclaimed water). The 10-foot horizontal setback shall be as measured from the outside edge of the pipe to the nearest point of the structure, including underground (footers for example) or above ground (roof overhangs for example) features. Single or double post community directional and/or informative signs occurring within the rights-of-ways may encroach within these setbacks with Utility Department approval. Those mains installed between structures shall have a 15-foot setback on each side. Additionally, where deep mains are installed, those greater than 9 feet, between structures, the Utility may, at its discretion, require additional horizontal setback.

Sign Area Calculations:
Tradition community seals and "Tradition" community name are encouraged to be used throughout the sign program. These decorative theme reinforcing elements shall not be counted in allowable square-footage or sign face square footage calculations. The "allowable sign area" shall include the entire area within a circle, rectangle or triangle enclosing the extreme limits of writing, representation, or character, together with any frame of other material or color forming an integral part of the display or used to differentiate the sign from the background or structure against which it is placed; excluding the necessary supports or uprights on which such sign is placed and framing around any panels of a box sign or monument. (see diagram on following page)

Allowable Sign Area Exhibit

-Maximum allowable sign areas are per face.

Sign Location & Setback:
All signs shall maintain a 10' setback from rights-of-way with the exception of those signs specifically designed to occur within road rights-of-way. Signs shall meet FDOT standards. Any sign located within the road rights-of-way will require approval from the City Engineering Department. Any signs occurring within FDOT Limited Access Right-of-way shall require approval from FDOT prior to sign permits being issued.

Special Signage District:
Civic buildings and/or structures such as schools/universities, fire stations, hospitals, post offices, police stations, and community centers may have additional and/or modified signage due to the significance and location of the proposed facility and the integration of the signage into a community focal point. Additional and/or modified signs for civic buildings will be allowed based on review and approval by the City of Port St. Lucie. City of Port St. Lucie approval shall be through the Site Plan Review Committee (SPRC) process and shall conclude with SPRC approval.

Height:
No part of any sign affixed to a building shall exceed the height of the deck line to which the sign is affixed. No sign shall project above the deck line for mansard roofs. The portion of mansard roof located below the deck line shall be eligible for placement of a facade sign. Façade signs are not limited to placement height.

Size:
The dimensions used under the "size" category are meant as a general size range for the actual sign including all posts, supports, etc. necessary for the sign element. Signs may exceed these dimensions based on the final sign design and in an effort to allow creativity and flexibility in the sign program, however "allowable sign area" may not be altered.

Building Façade Signage:
No part of any sign affixed to a building shall exceed the height of the deck line to which the sign is affixed. No sign shall project above the deck line for mansard roofs. The portion of a mansard roof located below the deck line shall be eligible for placement of a façade sign. Façade signs are not limited to placement height.

Electronic Changeable Copy Signs:
A sign or portion thereof that displays electronic, non-pictorial, text information in which each alphanumeric character, graphic, or symbol (numbers and letters only) is defined by a small number of matrix elements using different combinations of light emitting diodes (LED's), fiber optics, light bulbs or other illumination devices within the display area. Electronic changeable copy signs include computer programmable, microprocessor controlled electronic displays. Electronic changeable copy signs do not include official or time and temperature signs. Maximum 3 lines of copy, limited to static messages/non-scrolling with a minimum of 24 hours between change of message. The sign shall have automatic dimmer software or solar sensors to control brightness for nighttime viewing and variations in daytime ambient light. The intensity of the light source shall not produce glare, the effect of which constitutes a traffic hazard or is otherwise detrimental to the public health, safety or welfare. Lighting from the message module shall not exceed six hundred (600) nits (candelas per square meter) between sunset and sunrise as measured from the sign's face. Lighting from the message module shall not exceed five thousand (5,000) nits or three tenths (0.3) foot candles over the ambient light, whichever is lower, between sunrise and sunset as measured from the sign's face. Permit applications for signs containing a digital electronic display shall include the manufacturer's specification sheet and maximum nit (candelas per square meter) rating.

NIT: A unit of illuminative brightness equal to one candela (12.5 lumens) per square meter, measured perpendicular to the rays of the source.

Digital Display Kiosk:
An Electronic Display Sign with the capability to communicate sequential messages. The message may include multiple lines of text information and incorporate the entire allowable sign area. Non-animated images or graphics may be incorporated to enhance the text message. The hold time of an individual message or display shall be no less than 8 seconds. Any change of message shall be completed immediately without pauses and all parts of the message shall change simultaneously. Animations and transitional effects between messages are prohibited.

Enforcement:
TDRC and/or the Master Developer Management Company shall be responsible for monitoring and enforcing the regulations for electronic and digital signage in the event of a complaint or operating issue. Annual inspections shall confirm digital signs are operating within acceptable parameters.

Prohibited Permanent Signs (unless otherwise described in detail within this document):

- Roof Sign
- "V" – Shaped Sign
- Credit Card Sign
- Bench Sign
- Exposed Plywood
- Galvanized Sheet Metal
- Fluorescent Lit Sign
- Vacuum Formed Plastic
- Balloon/inflatable sign (Only as temporary event signs)
- Sign on vehicle parked permanently or overnight near a business
- Traffic sign replica
- Portable Sign
- Snipe Sign

Community Signs

Throughout the Community of Tradition, a series of signs are provided that identify the community and provide clear direction while echoing the character and materials of the community. The following pages in this section show these proposed signs.

Sign Type:	Locations:	Number of Signs Allowed:	Max Height:	Allowable Sign Area:	Lighting: Internal/ External
Community Tower	Adjacent to I-95, primary/key entries and boundary points.	Six (6)	74'	100 SF (per face) Max. (4) faces - and/or text	Internal/ External
Welcome Signs	Crosstown Parkway, Tradition Parkway, Becker Road, Village Parkway, Parr Drive, North/South Road A, E/W #2,3, Westcliffe Lane, Fern Lake Drive, Community Blvd, Open View Road	Eight (8) total. One sign on each side of roadway, and/or one sign in median.	35'	110 SF maximum per sign face.	Internal/ External
Digital Display Kiosk	At trailheads, destinations or along the trail or within the trail	Twelve (12)	8'	150 SF	Internal/ External
Primary Directional	All major public roadways.	Forty-Eight (48)	12'	80 SF	External
Secondary Directional	All major public roadways.	Twenty-Four (24)	12'	36 SF	External
Decorative Standards	Attached to subdivision light poles along main and secondary roads and within common areas throughout the subdivision. No decorative pieces will be erected in Public R/W; Private R/W only	Varies. Based on selected poles along various roads within the community.	N/A	12.5 SF (30"x60") per face/side	Non-illuminated

Permanent Development Signs

Residential					
Sign Type:	**Locations:**	**Number of Signs Allowed:**	**Max Height:**	**Allowable Sign Area:**	**Lighting: Internal/ External**
Residential Primary Entry Sign	Internal roadway medians and/or both sides of a residential entrance within the individual property.	(3) one sign on each side of roadway, and/or (1) one sign in median.	N/A	150 SF per sign face.	Internal/ External
Residential Secondary Entry Sign	Prominent intersections within neighborhoods throughout Tradition.	Max. 8 per subdivision. One sign on each side of roadway, and/or one sign in median.	16'	64 SF	Internal/ External
Residential Neighborhood Monuments	Prominent intersections within neighborhoods throughout Tradition.	Max. 8 per subdivision. One sign on each side of roadway, and/or one sign in median. Logo and Name only.	16'	64 SF	Internal/ External
Residential Architectural Features	Subdivision property and/or master developer property via recorded easement.	4 signs. Subdivision name and/or logo only.	45' (Structure)30' (Signage on Structure)	64 SF	Internal/ External
"Amenity" Interior Sign	Interior locations within the subdivision such as the recreation or amenity parcel.	One (1) per major subdivision improvement such as clubhouse, recreation area or amenity parcel.	10'	80 SF per face.	External
Decorative Standards	Attached to subdivision light poles along main and secondary roads and within common areas throughout the subdivision. No decorative pieces will be erected in Public R/W; Private R/W only	Varies. Based on selected poles along various roads within the community.	N/A	12.5 SF (30"x60") per face/side	Non-illuminated

Non-Residential					
Sign Type:	**Locations:**	**Number of Signs Allowed:**	**Max Height:**	**Allowable Sign Area:**	**Lighting: Internal/ External**
Non-Residential Parcel Identification (For single or multiple tenants in same building)	Adjacent to roadway(s) on each individual property.	(1) per road frontage	9.5'	Max sign SF = 46 SF	Internal/External
Non-Residential Parcel Identification Electronic Changeable Copy Sign	Adjacent to roadway on each individual property.	(1) per parcel	9.5'	Max sign SF = 46 SF Max digital sign panel=23 SF Max 3 lines of copy, non-scrolling. Refer to (Electronic Changeable copy sign) definition and criteria page 3.	Internal/External
Non-Residential Multiple User Parcel Identification (For two or more users/buildings on the same parcel. Does not apply to multiple tenants in same building or same use in multiple buildings.)	Adjacent to primary roadway at major entry into property (in projects median or adjacent to road).	(1) per entry or (1) in median	9.5'	2-4 users: 64 SF max. 5 or more users: 96 SF max; *If additional SF has been granted from adjacent parcel signage agreement no additional identification signs may be permitted for use.*	Internal/External
Non-Residential Informational/Directional	Adjacent to secondary roadways or entrances within individual parcels.	Max 4.	7'	16 SF	Internal
Adjacent Parcel Sign*	Allowed as additional square footage on Non-Residential Multiple User Parcel Identification sign as a single user. User's property must be immediately adjacent (shared property line).	1 adjacent parcel user per Non-Residential Multiple User Parcel Identification sign.	NA	Maximum Additional 50% of allowable square footage on Non-Residential Multiple User Parcel Identification	Internal/External
Banner Sign	Within subdivision property only and not visible from adjacent community roadways.	Building frontage under 100 SF = (1) one sign. Building frontage over 100 SF = (2) two signs.	4'	32 SF per face.	Non-illuminated

*Non-residential parcels with more than one road frontage, such as a corner lot, may have 1 (one) parcel identification signs per road frontage. One sign may be located on each road frontage. The primary road frontage may display 100% of allowable sign area. The secondary and tertiary frontage may display no more than 50% of allowable sign area per sign.

Building Mounted Façade Signs				
Sign Type:	**Locations:**	**Number of Signs Allowed:**	**Allowable Sign Area:**	**Lighting: Internal/External**
Non-Residential Building Mounted Façade Sign (less than 10,000 sf bldg.)	Located on the front, rear and/or side building façades depending upon store location.	1 per business façade/section of a façade.	Not to exceed 200 SF maximum cumulative area.	Internal/External

ORDINANCE 21-121

AN ORDINANCE OF THE CITY OF PORT ST. LUCIE AMENDING THE TRADITION MASTER SIGN PROGRAM; PROVIDING FOR CODIFICATION; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Port St. Lucie, Florida, adopted a Master Sign Program known as the Tradition Master Sign Program with the adoption of Ordinance 05-12, which Tradition Master Sign Program has been amended by Ordinances 07-02, 07-68, 08-45, 13-33 and 16-54 (collectively, as amended, the "Tradition Master Sign Program"); and

WHEREAS, the City of Port St. Lucie, Florida, was requested by Mattamy Palm Beach, LLC, to further amend the Tradition Master Sign Program; and

WHEREAS, the City of Port St. Lucie Planning and Zoning Board held a public hearing on the 2nd day of November, 2021 to consider the amendment to the Tradition Master Sign Program, with advertising of the public hearing having been made; and

WHEREAS, the City Council held a public hearing on the 24th day of January, 2022 to consider the amendment to the Tradition Master Sign Program, with advertising of the public hearing having been made; and

WHEREAS, the City Council determines that the granting of the amendment to the Tradition Master Sign Program is authorized by Section 153.03(H), Port St. Lucie City Code, and further the granting of the amendment to the Tradition Master Sign Program will not adversely affect the public interest.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Ratification of Recitals. The foregoing recitals are hereby ratified and confirmed as true and correct and are hereby made a part of this Ordinance.

Section 2. Amendment to Master Sign Program. That the City of Port St. Lucie hereby approves the amendment to the Tradition Master Sign Program to add the following additional sign types to the Tradition Master Sign Program, which amendment shall be deemed the 6th Amendment to the Tradition Master Sign Program, with the conditions set forth in Section 3 of this Ordinance:

ORDINANCE 21-121

Sign Type:	Location(s):	Number of Signs Allowed:	Max Height / Size:	Allowable Sign Area:	Lighting: Internal / External:
Digital Display Kiosk	At trailheads, destinations, and along trails	Twelve (12)	8'	150 SF	Internal / External
Building Mounted Façade Sign	On the front, rear and/or side building facades depending on location	One (1) per façade or section of façade	N/A	Buildings less than 10,000 SF = Not to exceed 200 SF cumulative area; Buildings 10,000 SF to 25,000 SF – Not to exceed 500 SF cumulative area; and Buildings greater than 25,000 SF – Not to exceed 1,000 SF cumulative area	Internal / External
Properties with more than one road frontage	Primary and Secondary Road Frontage	One (1) per road frontage; Maximum two signs	9.5'	Primary frontage (100% of allowable sign area), Secondary Frontage (no more than 50% of allowable sign area); May combine secondary frontage sign with primary frontage sign not to exceed 150% of allowable sign area and only one sign	Internal / External

ORDINANCE 21-121

Section 3. Conditions of Approval. The City and Mattamy Palm Beach, LLC agree to diligently work together to address and modify any provisions in the Tradition Master Sign Program that may be contrary to applicable law. Mattamy Palm Beach, LLC, or its successor in interest, shall submit a revised Tradition Master Sign Program, in a form found to be legally sufficient by the City Attorney and Mattamy Palm Beach, LLC, to the City Council on or before January 31, 2023, which revised Tradition Master Sign Program shall address, at a minimum, content-neutral signage regulations. If the parties cannot agree upon the form of the revised Tradition Master Sign Program to be submitted to the City Council by November 1, 2022, the parties shall meet and confer within 30 days to address their differences, and shall continue to meet and confer every 30 days until an agreement on the submittal is reached. If Mattamy Palm Beach, LLC does not either: (a) meet and confer pursuant to the provisions contained herein, or (b) submit the revised Tradition Master Sign Program to the City Council by January 31, 2023, no further sign permits will be issued pursuant to the Tradition Master Sign Program until a revised Tradition Master Sign Program is submitted to the City Council in a form agreed upon by the City Attorney and Mattamy Palm Beach, LLC. This condition will expire upon the submission if a revised Tradition Master Sign Program to the City Council in a form agreed upon by the City Attorney and Mattamy Palm Beach, LLC.

Section 4. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect. Nothing herein shall be deemed to be the City of Port St. Lucie's affirmation that any other part of the Tradition Master Sign Plan does or does not comply with applicable laws.

Section 5. Codification. The provisions of this Ordinance shall be made a part of the Tradition Master Sign Program. The sections of this Ordinance may be renumbered or re-lettered to accomplish such intentions; the word "ordinance" may be changed to "section" or other appropriate word as may be necessary.

Section 6. That this Ordinance shall become effective ten (10) days after City Council approval.

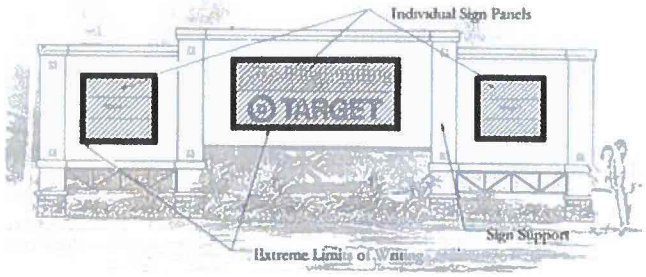
Introduction

This Master Sign Program provides a comprehensive overview of all signs within The Tradition Community. The Tradition Community consists of Tradition, Southern and Western Grove. The Program is composed of three major sections – Community Signs, New Development Signs, and Photograph References. The first section describes Community Signs provided by Tradition. The second section provides sign guidelines for those developing projects within The Tradition Community. The third section displays various examples of sign types described throughout the master sign program. The guidelines are not intended to restrict imagination, innovation or variety, but to assist in creating a consistent, well-planned solution for identification throughout the community. The master sign program offers many opportunities for creativity and individuality.

Procedure
All proposed signs, prior to application for a sign permit from City of Port St. Lucie, must be approved in writing by the Tradition Design Review Committee (TDRC) which will review signs based on the criteria that follows. Letter of Approval by the TDRC is to be used for obtaining City of Port St. Lucie sign permits. No sign permit shall be allowed without a TDRC Letter of Approval and stamped plans. All applicants shall familiarize themselves with and obtain a copy of the current review fees from the TDRC.



Background
The sign guidelines in this manual supersede existing City of Port St Lucie codes and ordinances and any adopted citywide design standards. Existing city codes shall be used for sign criteria not addressed in this program by the TDRC.

General Requirements (Apply to all categories within these guidelines.)

Utility Setbacks:
All structures, including signs, shall be installed a minimum of 10 feet horizontally from all mains (water, gravity, sewer, force and City owned reclaimed water). The 10 foot horizontal setback shall be as measured from the outside edge of the pipe to the nearest point of the structure, including underground (footers for example) or above ground (roof overhangs for example) features. Single or double post community directional and/or informative signs occurring within the rights-of-ways may encroach within these setbacks with Utility Department approval. Those mains installed between structures shall have a 15-foot setback on each side. Additionally, where deep mains are installed, those greater than 9 feet, between structures, the Utility may, at its discretion, require additional horizontal setback.

Sign Area Calculations:
Tradition community seals and "Tradition" community name are encouraged to be used throughout the sign program. These decorative theme reinforcing elements shall not be counted in allowable square-footage or sign face square footage calculations. The "allowable sign area" shall include the entire area within a circle, rectangle or triangle enclosing the extreme limits of writing, forming a

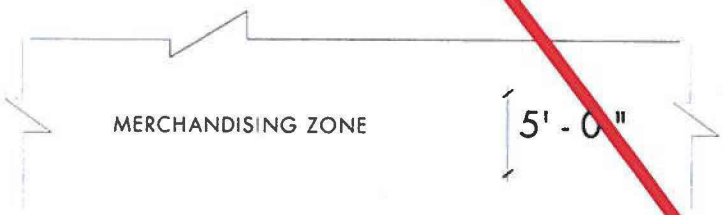
integral part of the display or used to differentiate the sign from the background against which it is placed; excluding the necessary supports or uprights on which such sign is placed. (See Diagram Below)

Allowable Sign Area

-Maximum allowable sign areas are per face, per structure.

Sign Location & Setback:
All signs shall maintain a 10' setback from rights-of-way with the exception of those signs specifically designed to occur within road rights-of-way. Signs shall meet FDOT standards. Any sign located within the road rights-of-way will require approval from the City Engineering Department. Any signs occurring within FDOT Limited Access Right-of-way shall require approval from FDOT prior to sign permits being issued.

Community Building/ Civic Structures:
Civic buildings and/or structures such as schools, fire stations, post offices, police stations and community centers may have additional and/or modified signage due to the significance and location of the proposed facility and the integration of the signage into a community focal point. Additional and/or modified signs for civic buildings will be allowed based on review and approval by the TDRC and the City of Port St. Lucie. City of Port St. Lucie approval shall be through the Site Plan Review Committee (SPRC) process and shall conclude with SPRC approval.



Height:
No part of any sign affixed to a building shall exceed the height of the deck line to which the sign is affixed. No sign shall project above the deck line for mansard roofs. The portion of a mansard roof located below the deck line shall be eligible for placement of a façade sign. Façade signs are not limited to a placement height.

Size:
The dimensions used under the "size" category are meant as a general size range for the actual sign including all posts, supports, etc. necessary for the sign element. Signs may exceed these dimensions based on the final sign design and in an effort to allow creativity and flexibility in the sign program, however "allowable sign area" may not be altered.

Electronic Changeable Copy Signs:
A sign or portion thereof that displays electronic, non-pictorial, text information in which each alphanumeric character, graphic, or symbol (numbers and letters only) is defined by a small number of matrix elements using different combinations of light emitting diodes (LED's), fiber optics, light bulbs or other illumination devices within the display area. Electronic changeable copy signs include computer programmable, microprocessor controlled electronic displays. Electronic changeable copy signs do not include official or time and temperature signs.
Maximum 3 lines of copy, limited to static messages/non-scrolling with a minimum of 24 hours between change of message. The sign shall have automatic dimmer software or solar sensors to control brightness for nighttime viewing and variations in daytime ambient light. The intensity of the light source shall not produce glare, the effect of which constitutes a traffic hazard or is otherwise detrimental to the public health, safety or welfare. Lighting from the message module shall not exceed six hundred (600) nits (candelas per square meter) between sunset and sunrise as measured from the sign's face. Lighting from the message module shall not exceed five thousand (5,000) nits or three tenths (.3) foot candles over the ambient light, whichever is lower, between sunrise and sunset as measured from the sign's face. Permit applications for signs containing a digital electronic display shall include the manufacturer's specification sheet and maximum nit (candelas per square meter) rating.

NIT: A unit of illuminative brightness equal to one candela (12.5 lumens) per square meter, measured perpendicular to the rays of the source.

Merchandising Zone:
The Merchandising Zone is the front of the tenant space that extends from the lease line to all points 5'-0" into the space, and is subject to review and approval by the TDRC. The Merchandising Zone includes all display windows, retail graphics, display fixtures, materials, finishes, color and lighting fixtures within the area.

Merchandising Zone Exhibit

Address Incorporation:
Address to be incorporated in the sign design.
All new freestanding signs shall have an address incorporated in the sign design. Where applicable a range of numbers shall be shown: e.g. 2840--2910. Existing signs shall be required to include this numbering upon applying for any change. All other existing signs shall be replaced or changed to include this information as of January 1, 2004. Numbering will not be included as part of the allowed square footage. It shall be composed of numbers six (6) inches in height. Notification of this requirement to all existing businesses shall be included upon renewal of business tax.
Commercial plazas shall include the name of the plaza on the primary sign. "

1733

Prohibited Signs:

-Flashing Sign
-Roof Sign
-Credit Card Sign
-Fraternal Organizations

-'V'-Shaped Signs

Community Signs

Throughout the Community of Tradition, a series of signs are provided that identify the community and provide clear direction while echoing the character and materials of the community. The following pages in this section show these proposed signs.

	Use:	Locations:	Number of Signs Allowed:	Max Height:	Allowable Sign Area:	Lighting: Internal/External
Sign Type:						
Community Markers	Identifies Tradition Community	Adjacent to I-95, key entries and boundary points. Northern Tower - Exists SW Discovery Way - Exists Becker Road - Proposed	Four (4)	74'	100 SF (per face) Max. (4) faces - and/or text	Internal/External
Welcome Signs	Identifies Tradition Community as one enters the project along Tradition Parkway.	Crosstown Parkway, Tradition Parkway, Becker Road, Village Parkway, Parr Drive, North/South Road A, E/W #2, Westcliffe Lane, Fern Lake Drive, Community Blvd, Open View Road	Eight (8) total. One sign on each side of roadway, and/or one sign in median.	35'	72 SF maximum per sign face.	Internal/External
Community Directional	Identifies Tradition Community as one exits Interstate 95 or enters the community from other roadways such as Crosstown Parkway as well as provides directional wayfinding and identity consistency along major community roadways.	All major public roadways.	Twenty Four (24)	12'	80 SF	External
Primary Directional	Guides vehicles and pedestrians to select destinations some of which may be isolated or separate from major traffic circulation.	All major public roadways.	Thirty (30)	8'	36 SF	External
Decorative Standards	Decorative element for community events, holidays lifestyle and social messages.	All Traditionroadways.	Varies. Based on selected poles along various roads within the community.	N/A	12.5 SF (30"x60") per face/side	Non-illuminated

Signs for New Development

Throughout the Community of Tradition, new development is encouraged to provide signs that identify their project while echoing the character and materials of the community. The following pages in this section show these proposed signs.

Residential

Sign Type:	Use:	Locations:	Number of Signs Allowed:	Max Height:	Allowable Sign Area:	Lighting: Internal/External
Residential Primary Entry Sign	Identifies residential subdivisions within the overall community of Tradition from major roadways.	Internal roadway medians and/or both sides of a residential entrance within the individual property.	(2) one sign on each side of roadway, or (1) one sign in median.		150 SF per sign face.	Internal/External
Residential Secondary Entry Sign	Residential subdivisions identification in the form of architectural features, water features, lighting, public art, landscaping and/or other aesthetic enhancements.	Prominent intersections within neighborhoods throughout Tradition.	Max. 8 per subdivision. One sign on each side of roadway, and/or one sign in median.	16'	64 SF	Internal/External
Residential Neighborhood Monuments	Identifies individual enclaves, changes to product, neighborhoods with a subdivision.	Prominent intersections within neighborhoods throughout Tradition.	Max. 8 per subdivision. One sign on each side of roadway, and/or one sign in median. Logo and Name only.	16'	64 SF	Internal/External
Residential Architectural Features	Identifies a residential subdivision from public Tradition Community Roadways.	Subdivision property and/or master developer property via recorded easement.	4 signs. Subdivision name and/or logo only.	45' (Structure) 30'(Signage on Structure)	64 SF	Internal/External
Lot Marker	Provides information specific to individual lots such as lot number, model home information, sales, builder contact and pricing information.	On individual lots within sales center area and subdivision.	One (1) per lot. No City permit required. TDRC approval only.	6'	6 SF	Non-illuminated
Construction Entrance Sign	Provides information specific to construction entrance.	Construction entrances.	One (1) per construction entrance. No City permit required. TDRC approval only.	8'.	16 SF	Non-illuminated
Model Home Sign	Provides information specific to model home information, sales, builder contact and pricing information.	On individual lots within sales center area.	One (1) per lot within sales area. No City permit required. TDRC approval only.	8'	16 SF	Non-illuminated

Residential (cont'd.)

	Use:	Locations:	Number of Signs Allowed:	Max Height:	Allowable Sign Area:	Lighting: Internal/External
Sales Center Sign	Provides information specific to sales center, builder contact and pricing information.	On individual lots that contain staffed sales/model center and/or adjacent to Sales Center Entrance within the R/W.	One (1) per lot or entrance location.	8'	18 SF	External
Event/Sales Banner	Identifies and markets home sales opportunities and provides way-finding and directional guidance throughout community and subdivisions.	Subdivision entrance drives and sales center entry drives (within the R/W). On each model home and/or sales center lot.	Two (2) Banners within 200' of community entrances or sales center entrance. One (1) Banner at road intersections within subdivision from entrance(s) and continuing to sales area.	17'	45 sf (maximum).	Non-illuminated
Builder Sign	Identifies Tradition subdivision Builders from adjacent public roadways.	Adjacent to community roadways (on subdivision property).	One (1) Per subdivision.	8'	32 SF per face.	Non-illuminated
"Coming Soon" Interior Sign	Identifies interior subdivisions "coming soon" improvements such as amenity center/ clubhouse.	Interior locations within the subdivision such as the recreation or amenity parcel.	One (1) per major subdivision improvement such as clubhouse, recreation area or amenity parcel.	10'	80 SF per face.	External
Builder sales Sign	Communicates sales and brand message to public and potential buyers.	Within subdivision property only and not visible from adjacent community roadways.	Max. (4) four per subdivision or pl	4'	32 SF per face.	External

Tradition Master Sign Program
Master Sign Program Amendment No. 8
P16-042-A3

Project Location Map

S**UMMARY**

Applicant's Request:	Request for approval of an 8th amendment to the Tradition Master Sign Program.
Applicant:	Steven Garrett, Lucido & Associates
Property Owner:	Mattamy Palm Beach, LLC
Location:	The property is located west of I-95, east of Range Line Road, and south of Crosstown Parkway. The land area consists of the Tradition, Western Grove, and Southern Grove Developments of Regional Impact (DRI).
Project Planner:	Marissa Da Breo-Latchman, Environmental Planner II

Project Description

The Tradition Master Sign Program provides the signage regulations for all of the development within the Tradition, Southern and Western Grove Development of Regional Impact (DRI) areas. The primary focus of the proposed amendment is to add a definition for "Jobs Corridor/Economic Development District" and a table specifying the locations, number of signs and sign area allowed in that district. The Jobs Corridor/Economic Development District is located within the Southern Grove DRI, south of Discovery Way, north of Becker Road, between Village Parkway and Interstate 95.

Other proposed changes include adding requirements for approval of signs within public and private road rights -of-way (ROWs), increasing the number of Non-Residential Informational/Directional signs from 4 to 24, and additional minor changes.

The proposed changes are shown as strike-through and underline in the attached Master Sign Program and listed as follows:

1. Updated Revision and Approval List – pg. 2
2. Revised Table of Contents – pg. 3
3. Added Text to Introduction – pg. 4
4. Added Jobs Corridor/Economic Development District definition – pg. 6
5. Community Sign Table Revised – pg. 8
6. Added requirements for signs with road ROWs- Page 10
7. Non Residential Table Revised – pg. 10/11
8. Temporary Signs added as title – pg. 13
9. Jobs Corridor / Economic Development District Chart and Language Added – pg.14
10. Revised List of Changes – pg. 15
11. Revised Map Area – pg. 16

Location and Site Information

Property Size:	Approximately 8,237 acres
Legal Description:	N/A
Future Land Use:	New Community Development (NCD)
Existing Zoning:	Master Planned Unit Development (MPUD)
Existing Use:	Commercial and residential properties.

Surrounding Uses

Direction	Future Land Use	Zoning	Existing Use
North	RGC	PUD	Verano Development
South	NCD	MPUD	Riverland Development & Martin County
East	N/A	N/A	I-95
West	SLC AG-5	SLC AG-5	Vacant Land

Project Analysis

The Tradition Master Sign Program was originally approved by City Council with the adoption of Ordinance 05-12. It has been updated seven times since its adoption. The proposed amendment meets the conditions required by the adoption of the sixth amendment (Ordinance 21-121) with regards to content neutral regulations.

Per Section 155.03 (H)(4) of the City's Sign Code, the master sign program may include modifications to standard sign regulations set forth in Chapter 155 if:

a. The modifications are consistent with the purpose and intent of Chapter 155.
   - *The purpose and intent of the chapter is to allow commercial and non-commercial speech through the use of signs; to provide uniform sign criteria which regulates the size, height, and placement of signs within the City and thereby promote and protect the public health, safety, general welfare, and aesthetics of the City; and to avoid excessive visual clutter and hazards for pedestrians and vehicles. The display of signs should be appropriate to the land, building or use.*

     The Tradition Master Sign provides uniform sign criteria for different types of development within the area. The proposed amendment includes the addition of a table for the "Jobs Corridor/Economic Development District" to address the signage needs for that particular area. The proposed amendment would allow for monument signage at each ingress/egress point instead of based on road frontage as for other non-residential projects. The buildings in this area are typically much larger warehouses and industrial uses situated on larger parcels with multiple access points. The proposed amendment would also allow for potentially more façade signage on the larger buildings over 100,000 square feet in proportion to the larger buildings.

     The sign program is also being amended to clarify the allowable sign area for monument signs for the purpose of calculating the square footage, to clarify the requirements for

placing signs in public and private road rights-of-way and increase the number of directional signs allowed for non-residential development from 4 to 24. The applicant has stated that additional directional signage is needed for large commercial developments.

b. The master sign program incorporates designs which are consistent with accepted principles of street graphics, including consideration of sign placement, size, shape, proportion, lettering, color and overall relation to the overall project and adjacent properties.
   - *The master sign program addresses the size and proportions of signs within the area. It does not address placement, which falls back to the City's Sign Code.*

c. The design concepts reflect a unified design harmonious with the overall project and adjacent properties.
   - *The program creates unified design for each of the different areas (Non-Residential, Residential, Special District and Jobs corridor/Economic Development District) since each has specific signage needs. The adjacent properties in the City have their own master sign programs.*

d. The proposed variations are not detrimental to public property or the health, safety, and welfare of the general public.
   - *The proposed variations do not appear to be detrimental to public property or the health, safety, and welfare of the general public*

STAFF RECOMMENDATION

The Site Plan Review Committee recommended approval of the Master Sign Program amendment on February 25, 2026.

Staff finds that the proposed amendment complies with the requirements of Section 155.03(H), City Sign Code.

PLANNIGN AND ZONING BOARD ACTION OPTIONS

- o Motion to recommend approval
- o Motion to recommend approval with conditions
- o Motion to recommend denial

Should the Board need further clarification or information from either the applicant and/or staff, it may exercise the right to table or continue the hearing or review to a future meeting.

Re: P 16 - 042-A3 Tradition Master Sign Program - 8th Amendment

On behalf of Mattamy Homes LLC, please accept this letter and attachments as a request to amend the existing Tradition Master Sign Program.

The existing master sign program provides a comprehensive overview of all signs within the Tradition Community including the residential and non-residential developments of Tradition, Southern Grove, and Western Grove. The purpose of the amendment is to make the overall document Reed Decision compliant, per the approved conditions included with the adoption of the 6th amendment of the Tradition Master Sign Program within Tradition, City of Port St. Lucie, Florida.

Should you have any questions or need additional information, please feel free to contact me directly.

Sincerely,

Derrick E Phillips Jr.
Project Manager

Project Summary

- The Tradition Master Sign Program provides the signage regulations for all of the development within the Tradition, Southern and Western Grove Development of Regional Impact (DRI) areas.
- The primary focus of the proposed amendment is to add a definition for "Jobs Corridor/Economic Development District" and a table specifying the locations, number of signs and sign area allowed in that district. The Jobs Corridor/Economic Development District is located within the Southern Grove DRI, south of Discovery Way, north of Becker Road, between Village Parkway and Interstate 95.
- Other proposed changes include adding requirements for approval of signs within public and private road rights -of-way (ROWs), increasing the number of Non-Residential Informational/Directional signs from 4 to 24, and additional minor changes

Recommendation

The Planning and Zoning Board recommended approval at their June 2nd, 2026, meeting.

Agenda Summary

2026-553

Agenda Date: 6/22/2026 **Agenda Item No.:** 10.j

Placement: First Reading of Ordinances / Public Hearing

Action Requested: Motion / Vote

Ordinance 26-65, Public Hearing, Authorizing the Conveyance of Real Property Lying in Section Six, Township 36 South, Range 40 East, to the Florida Department of Transportation for the Construction of an Interchange Ramp at Midway Road and the Turnpike and Pursuant to the Memorandum of Agreement Between the Florida Department of Transportation and the City of Port St. Lucie; Providing for Conflict; Providing for Severability; and Providing an Effective Date.

Submitted By: Diana Spriggs, PE, Public Works Assistant Director

Strategic Plan Link: The City's Goal of high-quality infrastructure and facilities.

Summary Brief (Agreements/Contracts only)

1. Prepared by: The City, the Florida Turnpike (Turnpike) and Florida Department of Transportation (FDOT)
2. Parties: The City, Turnpike and FDOT
3. Purpose: The City shall convey Parcels 101A, 101B, 101C, and 101D ("City Parcels") to FDOT via a Quit Claim Deed in exchange for drainage work and the addition of the City's logo.
4. New/Renewal/Modified: New
5. Duration: In perpetuity
6. Benefits to Port St. Lucie: The Project is to construct a partial interchange to connect Midway Road and the Turnpike in the City of Port St. Lucie, Florida. It will also include a 22' noise wall with the City's logo along the Florida Turnpike within Winterlakes Park.
7. Cost to Port St. Lucie (Annual and Potential): The City's conveyance of the City Parcels shall be at the sole cost and expense of FDOT.

Presentation Information: Staff will be present to answer any questions.

Staff Recommendation: Move that the Council approve the Ordinance and authorize the conveyance of the City Parcels to FDOT pursuant to the terms of the Memorandum of Agreement.

Alternate Recommendations:

1. Move that the Council amend the recommendation and complete motion in the affirmative.
2. Move that the Council not approve and provide staff direction.

Background: The City was contacted in an effort to provide a northbound off ramp and southbound on ramp

at Midway Road for the Florida Turnpike. As designs were finalized, the Turnpike is in need of land owned by the City to complete their project. Through negotiations, the City was able to get the City logo incorporated into the noise wall that will run along the outside of Winterlakes Park bordering the turnpike as well as a medallion design of the City logo on the new bridge abutments for the Midway overpass of the turnpike.

Issues/Analysis: N/A

Financial Information: Maintenance of drainage structures that ultimately outfall into the FDOT pond will still be the maintenance of the City.

Special Consideration: N/A

Location of Project: Midway Road and the Florida Turnpike

Attachments:

1. Ordinance
2. Exhibit “A” Memorandum of Agreement

NOTE: All of the listed items in the “Attachment” section above are in the custody of the City Clerk. Any item(s) not provided in City Council packets are available upon request from the City Clerk.

ORDINANCE 26-__

AN ORDINANCE OF THE CITY OF PORT ST. LUCIE, FLORIDA, AUTHORIZING THE CONVEYANCE OF REAL PROPERTY LYING IN SECTION SIX, TOWNSHIP 36 SOUTH, RANGE 40 EAST, TO THE FLORIDA DEPARTMENT OF TRANSPORTATION FOR THE CONSTRUCTION OF AN INTERCHANGE RAMP AT MIDWAY ROAD AND THE TURNPIKE AND PURSUANT TO THE MEMORANDUM OF AGREEMENT BETWEEN THE FLORIDA DEPARTMENT OF TRANSPORTATION AND THE CITY OF PORT ST. LUCIE; PROVIDING FOR CONFLICT; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Port St. Lucie ("City") is the owner in fee simple of real property lying in Section Six, Township 36 South, Range 40 East (the "City Land") and more particularly described in the Quit Claim Deed (the "Deed") which is attached as Exhibit "F" to the Memorandum of Agreement between the Florida Department of Transportation ("Department") and the City, which attached hereto as Exhibit "A" (the "Agreement"); and

WHEREAS, the Department's Five-Year Adopted Work Program includes a project to construct a partial interchange to connect Midway Road and the Florida's Turnpike (SR 91) in the City (the "Project"); and

WHEREAS, to ensure the most effective utilization of public resources and to facilitate the construction of the Project, the City's Public Works Department recommends the conveyance of the City Land to the Department; and

WHEREAS, in exchange for the conveyance of the City Land, the Department has agreed to perform certain drainage work as well as include project enhancements that create a gateway into the City ("Department Work"); and

WHEREAS, in an effort to cooperate and coordinate resources to minimize the costs of construction, maintenance, and other Project-related matters, the parties have negotiated the Agreement setting forth the rights and responsibilities of the parties pertaining to the City Land, the Department Work, and the Project; and

WHEREAS, after considering the factors set forth herein, the City Council has determined that conveyance of the City Land to the Department pursuant to the terms of the Agreement serves a public purpose and hereby authorizes the Mayor, or her designee, to execute and enter into the Agreement in substantially the same form as attached hereto as Exhibit "A" as well as execute and deliver the Deed to the Department.

NOW, THEREFORE, THE CITY OF PORT ST. LUCIE HEREBY ORDAINS:

Section 1. Ratification of Recitals. The foregoing recitals are hereby ratified and confirmed as true and correct and are hereby made a part of this Ordinance.

Section 2. Authorization. The City Council of the City of Port St. Lucie hereby authorizes the conveyance of the City Land to the Florida Department of Transportation pursuant to the terms of the Agreement and authorizes the Mayor, or her designee, to execute the Deed in substantially the same form as attached as Exhibit "F" to the Agreement, and deliver the Deed to the Department.

Section 3. Execution. The City Council of the City of Port St. Lucie further authorizes the Mayor, or her designee, to execute the Agreement in substantially the same form as attached hereto as Exhibit "A" as well as any and all documents necessary to complete the conveyance of the City Land to the Florida Department and accomplish the purposes set forth in the Agreement.

Section 4. Conflict. If any ordinances, or parts of ordinances, are in conflict herewith, this Ordinance shall control to the extent of the conflicting provisions.

Section 5. Severability. The provisions of this Ordinance are intended to be severable. If any provision of this Ordinance is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Ordinance shall remain in full force and effect.

Section 6. Effective Date. This Ordinance shall become effective immediately upon final adoption on second reading.

PASSED AND ADOPTED by the City Council of the City of Port St. Lucie, Florida, this _____ day of _____, 2026.

CITY COUNCIL
CITY OF PORT ST. LUCIE

MEMORANDUM OF AGREEMENT
BETWEEN
FLORIDA DEPARTMENT OF TRANSPORTATION,
AND
CITY OF PORT ST. LUCIE, FLORIDA

This MEMORANDUM OF AGREEMENT (the "Agreement"), is made and entered by and between the FLORIDA DEPARTMENT OF TRANSPORTATION, an executive agency of the State of Florida (the "Department"), and the CITY OF PORT ST. LUCIE, FLORIDA, a political subdivision of the State of Florida (the "City") (the Department and the City may be referred to individually as a "Party" and collectively as the "Parties").

RECITALS

A. The Department is authorized by Section 334.044, Florida Statutes, to coordinate the planning, development, and operation of the State Highway System and to cooperate with local governments in the development of a statewide transportation system and individual components of the system.

B. The Department's Florida's Turnpike Enterprise ("Enterprise") is authorized by Section 338.2216, Florida Statutes, to plan, develop, own, acquire, construct, improve, maintain, operate, and manage the Florida Turnpike System; and to cooperate and contract with other public entities for such purposes.

C. The City is authorized by Chapters 166 and 335, Florida Statutes, to own, construct, operate, and maintain the city road system roads located within the geographical boundaries of the City of Port St. Lucie, Florida, and to enter into agreements with other governmental agencies for performance of the other agencies' authorized functions.

D. The Department owns and operates Florida's Turnpike (SR 91), a limited access highway that is part of the Florida Turnpike System.

E. The Department's Five-Year Adopted Work Program includes a project to construct a partial interchange to connect Midway Road and SR 91 in the City of Port St. Lucie, Florida under Financial Project Number (FPN) 451858-1 (the "Project").

F. To ensure the most effective utilization of public resources and to facilitate the construction of the Project, the Parties agreed to establish this Agreement to coordinate various aspects of the Project.

G. It is the intent of the Parties to cooperate and coordinate their efforts and resources to minimize the costs of construction, maintenance, and other Project-related matters as the Department expands and improves its transportation system and facilities within the City of Port St. Lucie, Florida.

AGREEMENT

In consideration of the mutual covenants and promises contained in this Agreement, the Parties agree that the Recitals are true, correct, and incorporated by reference herein, and further agree as follows:

1. **Representations of the City.**

a. To the knowledge of the City, there is no litigation pending or threatened with respect to this Agreement, or the subject matter hereof, which would affect the performance by the City of its obligations under this Agreement.

b. To the knowledge of the City, the execution of this Agreement does not constitute a violation of applicable law or regulations or a breach of or default under any other agreement to which the City is a party or an event that, with the passage of time, would become a breach of or default under any such agreement.

c. All consents, waivers, approvals and other governmental actions required to be taken in order for the City to enter into this Agreement have been received by the City.

2. **Representations of the Department.**

a. To the knowledge of the Department, there is no litigation pending or threatened with respect to this Agreement, or the subject matter hereof, which would affect the performance by the Department of its obligations under this Agreement.

b. To the knowledge of the Department, the execution of this Agreement does not constitute a violation of applicable law or regulations or a breach of or default under any other agreement to which the Department is a party or an event that, with the passage of time, would become a breach of or default under any such agreement.

3. **Department Responsibilities.** Subject to the timely performance by the City of its obligations under this Agreement:

a. The Department will prepare the design and construction criteria required to construct the Project. The Project will generally include, among other things, adding two (2) new ramps (a new northbound off-ramp from SR 91 to Midway Road, and a new southbound on-ramp from Midway Road to SR 91, collectively the "Ramps"), lighting, intelligent transportation systems, resurfacing, and noise walls. Any future changes requested by the City not contemplated in the Project's design plans approved by the Department ("Project Plans") may be considered by the Department, but all additional costs resulting from any City-requested changes will be borne solely by the City.

b. The Department will construct the proposed 22-foot noise wall along Winterlakes Park and include the City's logo as shown on Exhibit "A" as part of the Project.

c. The Department will obtain, at its own expense, all applicable regulatory permits required for the Project.

d. The Department will construct the Project within the existing Department right-of-way (ROW) and property that will be acquired by the Department through the ROW process, in accordance with the terms and conditions of a construction contract to be advertised by the Department on or about October 4, 2026. The Department may adjust the Project's schedule as necessary and will provide reasonable notice to the City. Such adjustments shall not require an amendment to this Agreement.

e. The Department will administer the work so that the Project is constructed in accordance with the Project Plans, and their respective specifications as approved by the Department. The Department will administer the construction and construction engineering and inspection work for the Project. The Department shall not be responsible for any costs associated with aesthetic enhancements to structures, roadway elements, or landscaping beyond what is in the Project Plans.

f. The Department shall be responsible for permit compliance during construction of the Project.

g. Upon final acceptance of the Project by the Department, the Department will own, operate and maintain, at its sole cost, all areas of the Project for which maintenance responsibility is assigned to the Department as depicted on Exhibit "B" (as such exhibit may later be amended) (subject to Section 4.h below), in accordance with the Department's standard schedules for maintenance. The Department's responsibilities within the Department's maintenance limits will include:

1. All roadway features, fencing and gates, pavement striping, safety devices, lighting, over-head sign structures, and ground-mounted signage.

2. All portions of the Enterprise intelligent transportation system located within the interchange at Midway Road and SR 91.

3. The Ramps.

4. Retaining walls.

5. Noise walls.

h. The Department will maintain the noise wall and City's logo as shown on Exhibit "A" for the proposed 22-foot noise wall along Winterlakes Park as part of the Project.

i. Upon final acceptance of the Project by the Department, the Department shall operate and maintain the drainage features, at its sole cost, for all areas of the Project within the Department's maintenance limits of Exhibit "B" (as such exhibit may later be amended) except

those owned, operated and maintained by the City as depicted in Exhibit "C" (as such exhibit may later be amended).

j. The Department will notify the City at least two (2) business days prior to performing any periodic maintenance on any portions of the Project on the City's right-of-way (ROW) (or which require entry upon City ROW) for which maintenance responsibility is assigned to the Department under this Agreement. However, the Department may perform the work without advance notice to the City if there is an immediate risk of injury to persons or property, in which case, the City shall be notified as soon as possible that emergency maintenance was performed.

4. **City Responsibilities.** As conditions to the Department's responsibilities under this Agreement:

a. The City acknowledges that construction of the Project will partially occur in the City's ROW. The City grants the Department, its consultants, and contractors (at no cost to the Department, its consultants, or contractors), for the duration of the Project, the right to enter upon, over, through, under, across, and to occupy City ROW for the purpose of constructing the Project as more fully described in the Project Plans. The City agrees not to unreasonably withhold the ROW permit(s) required for these purposes.

b. Any future construction and maintenance costs associated with aesthetic enhancements requested by the City over and above Department guidelines, if agreed to by the Department, shall be the responsibility of the City. If the City requests such enhancements, the Department will request the contractor for the Project to provide such enhancements only after the City has made the necessary arrangements with the Department to provide the additional funding for such aesthetic enhancements in accordance with the Department's funding requirements, and after the City has executed a maintenance agreement for the enhancements.

c. The City permits the Department to perform clearing and drainage activities, which includes clearing and grubbing and the establishment of a ditch per the Project Plans, within a City drainage facility (the "Drainage Work") as depicted on Exhibit "D" (as such exhibit may later be amended) as part of the Project.

d. The City permits the Department, during the term of the Project, to perform the Drainage Work within the City's ROW. The Department is responsible for obtaining all permits and other approvals required by any governmental agency having jurisdiction over the Drainage Work. The Drainage Work shall be at the sole cost and expense of the Department.

e. The City shall convey Parcels 101A, 101B, 101C, and 101D, as depicted on Exhibit "E" (as such exhibit may be amended) (collectively referred to as "City Parcels") to the Enterprise. The City shall convey the City Parcels to the Enterprise via a Quit Claim Deed in substantially the same form as the attached Exhibit "F". The City's conveyance of the City Parcels shall be at the sole cost and expense of the Enterprise. The City shall convey the City Parcels to the Enterprise within sixty (60) calendar days of the execution of this Agreement.

f. The parties agree that the legal description to be attached to the Quit Claim Deed describing the City Parcels shall include the following language, "Together with all rights of ingress, egress, light, air and view between Grantor's abutting property and any facility constructed on the above-described property. This does not create any right of access, easements rights or any other interest onto, over, or above the Grantor's abutting property."

g. The Parties agree that Pond 2-1 ("Stormwater Management Pond"), located in the Department's ROW, as reflected in Exhibit "B" to this Agreement, shall be a joint use pond, allowing both Parties to discharge stormwater to this facility. The terms and conditions under which the City may jointly use the Stormwater Management Pond are defined in this Agreement.

1. The Department hereby grants to the City, its successors, and assigns, and its employees, contractors, and agents, a limited, non-exclusive license to discharge stormwater to Pond 2-1 identified in Exhibit "B". The license granted herein is for no other purpose(s) without the express written consent of the Department. The stormwater discharge shall be limited to the contributing areas of Pond 2-1 as depicted in Exhibit "B", as described and approved under South Florida Water Management District ("SFWMD") Environmental Resource Permit ("ERP") Permit No. To Be Determined (Application No. 260318-62538). No additional expansion or drainage connections to the Stormwater Management Pond shall be undertaken by the City without prior written approval from the Department. Department will notify the City of the SFWMD ERP Permit number after the permit is issued. Such notification shall not require an amendment to this Agreement.

2. The City agrees that all stormwater discharges which are the subject of the license(s) granted above shall comply with all applicable local, state and Federal codes, laws, statutes, rules, and requirements, including, but not limited to, the terms and conditions of that certain SFWMD ERP Permit No. To Be Determined (Application No. 260318-62538). Furthermore, the City shall not cause or allow any hazardous or toxic substance or other contaminant regulated under any local, state or Federal code, law, statute, rule or requirement to be discharged or released into or upon the Stormwater Management Pond. In the event of an accident or emergency that creates, or may create a hazardous condition under any local, state, or Federal code, law, statute, rule or requirement, either of the Parties may initiate repairs, clean up or remediation to and on the other Party's stormwater drainage system within the Project limits to limit or eliminate the hazardous condition. The Party performing the repairs, clean up or remediation will coordinate with the other Party for authorization if the repair, clean up or remediation will be conducted on the other Party's stormwater drainage system. If either Party performs such repairs, clean up or maintenance on the other Party's stormwater drainage system, the Party performing the repairs, clean up or maintenance shall be entitled to reimbursement for the cost incurred for the same. The Parties hereby grant

each other all such licenses and rights of access reasonably necessary to allow the other Party to initiate repairs, clean up or remediation to and on the other Party's stormwater drainage system within the Project limits to limit or eliminate a hazardous condition, including, without limitation, the right to enter upon the other Party's property.

3. Nothing herein shall grant the City, the general public, or the owner or occupant of any lands any right, easement, or privilege in or use of the Stormwater Management Pond other than the limited license specifically granted to the City as set forth herein. Notwithstanding anything herein to the contrary, the Department retains the right to remove, reshape, reconstruct, renovate, or otherwise modify the Stormwater Management Pond located in its ROW. The City shall be responsible, at its expense, for damage resulting from the negligent acts or omissions of the City or its agents in the exercise of the license granted to the City herein.

4. It is hereby agreed by the Parties that this Agreement creates a permissive use only for stormwater discharge to Pond 2-1 identified in Exhibit "B". Neither the granting of the license described herein nor either Party's use, occupancy, maintenance, or possession of the other Party's ROW, including, but not limited to, the Stormwater Management Pond, shall operate to create or vest any property right, title, interest or estate to the other Party's respective ROW. The provisions of this paragraph shall survive the expiration or earlier termination of the Agreement in accordance with the laws of the State of Florida.

h. Upon final acceptance of the Project by the Department, the City shall operate and maintain the drainage features, at its sole cost, for all areas of the Project owned by the City as depicted on Exhibit "C" (as such exhibit may later be amended).

i. The City shall perpetually maintain all portions of the Project owned by the City in good repair and working order, and in a manner which will not interfere with the convenient, safe, and continuous use of SR 91 and other Department facilities adjacent thereto. If any portion of the Project owned by the City is damaged such that it is not structurally stable or presents a safety hazard to the public, it shall be repaired to a safe condition in a timely manner.

1. For any periodic maintenance activities on any portion of the Project within the Department's ROW for which maintenance responsibility is assigned to the City under this Agreement, the City shall submit to the Department a maintenance plan in accordance with all Department standards, procedures, and specifications. This maintenance plan must be submitted to the Enterprise's Maintenance Office in advance of the planned maintenance work and approved by the Department prior to commencing any maintenance or repair activities (this requirement shall not be construed to limit the City's responsibility for taking immediate action to protect the traveling public in the event any portion of the Project

maintained by the City is determined to pose an imminent safety threat). It is hereby agreed by the Parties that neither the granting of permission to access the Department's ROW nor the City's use or occupancy of the Department's ROW shall operate to create or vest any property right to or in the City. For any maintenance activities that will require a lane closure on SR 91 or impact traffic on SR 91, the City must provide a signed and sealed Maintenance of Traffic Plan and lane closure analysis to the Department for its review and approval prior to commencing such maintenance activities.

2. Maintenance work performed by the City on the Department's ROW shall only be performed by City staff or qualified contractors, the selection of which is subject to review and approval by the Department, and shall be subject to the requirements of this Agreement generally applicable to work in Department ROW, including the requirements for advance notice of work to be performed, maintenance of traffic, workmanlike performance, erosion and pollution control, environmental requirements, avoidance of damage to Department facilities, public safety, hours of operation, and lane closures. Maintenance work that includes reconstruction of any portions of the Project shall be subject to all provisions of this Agreement applicable to the initial construction of the Project.

3. Unless otherwise agreed to by the Department in a separate writing, improvements constructed as part of the Project for which the City is responsible for maintenance shall be maintained to the same dimensions as originally constructed. The City shall not cause or permit any liens or encumbrances to attach to any portion of Department ROW.

4. If the City fails to properly maintain any portions of the project within the Department's ROW, for which maintenance responsibility is assigned to the City under this Agreement, the Department will provide written notice to the City with a timeframe for correcting the deficiency. Non-emergency repairs will be provided at least thirty (30) calendar days advance notice. If the City fails to perform the required maintenance within the initially designated timeframe or other time frame agreed to by both parties, the Department retains the right to perform the work at the City's expense.

5. The City shall be solely responsible for any damages to Department real property, any surrounding property, real estate, vehicles, pedestrians, or other persons or things occurring as a result of its operation or maintenance activities, at no expense to the Department. In addition, the City will be solely responsible for clean-up and restoration required to correct any environmental or health hazards that may result from its maintenance operations, at no expense to the Department. The City shall not store any hazardous materials within the Department ROW.

The provisions of paragraph 4.i shall survive the expiration or termination of this Agreement.

j. The City must submit its proposed plans to the Department for review and must receive approval from the Department prior to commencing any work to modify any portion of the Project owned by the Department or within Department ROW.

k. The City will notify the Department at least two (2) business days prior to performing any periodic maintenance on any portions of the Project on the Department's ROW (or which require entry upon Department ROW) for which maintenance responsibility is assigned to the City under this Agreement. However, the City may perform the work without proper notice to the Department if there is an immediate risk of injury to persons or property, in which case, the Department shall be notified as soon as possible that emergency maintenance was performed.

l. Unless otherwise authorized by the Department in a separate permit or written agreement, no public access to any portion of the Department's ROW shall be permitted by the City.

Remainder of page intentionally left blank

5. Miscellaneous

a. Any amendment to or modification of this Agreement or any alteration, extension, supplement, or change of time or scope of work shall be in writing and signed by both Parties.

b. Any notice or other document which either Party is required to give or deliver to the other under the terms of this Agreement shall be given in writing and delivered personally or sent to:

TO DEPARTMENT:

Executive Director
Florida's Turnpike Enterprise
Turnpike Headquarters – Bldg. 5315
P.O. Box 613069
Ocoee, Florida 34761

With a copy to:

Chief Counsel
Florida's Turnpike Enterprise
Turnpike Headquarters – Bldg. 5315
P.O. Box 613069
Ocoee, Florida 34761

TO CITY:

Jesus Merejo, City Manager
City of Port St. Lucie
121 SW Port St. Lucie Blvd.
Port St. Lucie, FL 34984

With a copy to:

Richard Berrios, City Attorney
City of Port St. Lucie
121 SW Port St. Lucie Blvd.
Port St. Lucie, FL 34984

c. The Department may cancel this Agreement for refusal of the City to allow public access to all documents, papers, letters, or other materials subject to the provisions of Chapter 119, Florida Statutes, made or received by the City in conjunction with this Agreement.

d. Nothing in this Agreement shall prevent the Parties from entering into third party agreements that require third parties to assist the Parties with their obligations under this Agreement; provided, however, such third-party agreements shall not in any manner relieve the Parties of their obligations under this Agreement. Neither the Department nor the City shall be obligated or liable hereunder to any person or entity not a party to this Agreement. This Agreement confers no rights on any third party and shall not create any third-party beneficiary under this Agreement, nor shall this Agreement authorize anyone not a Party to this Agreement to maintain a suit against the Department or the City pursuant to the terms of this Agreement.

e. Upon request, the City will (at no cost to the Department, its consultants, or contractors) enter into any additional agreement(s) as may be necessary for the Department to perform the work required for the Project to otherwise effectuate the terms of this Agreement.

f. The requirements of Section 339.135(6)(a), Florida Statutes, are incorporated into this Agreement:

"The Department, during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this subsection is null and void, and no money may be paid on such contract. The Department shall require a statement from the comptroller of the Department that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for periods exceeding one (1) year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years; and this paragraph shall be incorporated verbatim in all contracts of the Department which are for an amount in excess of $25,000 and which have a term for a period of more than 1 year."

g. This Agreement shall be governed and construed in accordance with the laws of the State of Florida.

h. No waiver by either Party of any failure by the other Party to timely perform any of its obligations under this Agreement, shall be construed as a waiver of any succeeding failure of the defaulting Party to perform or as a waiver of the defaulting Party's obligations under this Agreement.

i. Nothing in this Agreement shall constitute a waiver by either Party of its sovereign immunity for any damages claimed by third parties, nor shall anything included herein be construed as consent by the City or the Department to be sued by third parties in any matter arising out of this Agreement.

j. To the extent provided by law, each Party agrees to indemnify the other Party against any damages arising out of, relating to or resulting from the indemnifying Party's own negligent acts or omissions in connection with this Agreement, to the extent and within the limitations of Section 768.28, Florida Statutes. The foregoing indemnification shall not constitute a waiver of either Party's sovereign immunity beyond the limits set forth in Section 768.28, Florida Statutes, nor shall the same be construed to constitute an agreement by either Party to assume any liability of any kind for the acts, omissions, and/or negligence of the other Party.

k. If any part of this Agreement is found to be unenforceable by any court of competent jurisdiction, that part shall be deemed severed from this Agreement and the balance of this Agreement shall remain in full force and effect.

l. THE CITY AND THE DEPARTMENT HEREBY IRREVOCABLY AND UNCONDITIONALLY WAIVE TRIAL BY JURY IN ANY LEGAL ACTION OR PROCEEDING RELATING TO THIS AGREEMENT AND FOR ANY COUNTERCLAIM THEREIN.

m. This Agreement shall be binding upon the Parties, their successors and assigns. The City may not assign any of its rights or obligations under this Agreement. The Department may not assign any of its rights or obligations under this Agreement.

n. This Agreement may be executed in two or more counterparts, each of which shall be deemed to be an original, and such counterparts together shall constitute one in the same instrument.

Remainder of page intentionally left blank

IN WITNESS WHEREOF, the Parties have executed this Agreement effective as of the date last signed by a Party.

NOTES:

1. THIS SKETCH OF DESCRIPTION IS SUPPORTED BY THE RIGHT OF WAY CONTROL SURVEY SECTION 94470-000, DATED FEBRUARY 21, 2025 PREPARED BY AND UNDER THE RESPONSIBLE CHARGE OF ALLEN QUICKEL, FLORIDA PROFESSIONAL SURVEYOR AND MAPPER NUMBER 6481. CERTIFIED COPIES OF SAID RIGHT OF WAY CONTROL SURVEY, F.P.NO. 451858-1, ARE FILED AT THE FLORIDA'S TURNPIKE ENTERPRISE HEADQUARTERS, LOCATED IN OCOEE, FLORIDA.

2. THE BEARINGS AND COORDINATES SHOWN HEREON ARE BASED ON THE NORTH AMERICAN DATUM OF 1983, 1990 ADJUSTMENT, STATE PLANE COORDINATES FLORIDA EAST ZONE, DERIVING A BEARING OF N89°55'09"W ALONG THE NORTH LINE OF THE SOUTHEAST QUARTER OF SECTION 1, TOWNSHIP 36 SOUTH, RANGE 39 EAST, SAINT LUCIE COUNTY, FLORIDA.

3. ALL RECORDED PLATS, OFFICIAL RECORD BOOKS, AND DEED BOOKS REFERENCED HEREON ARE FOUND IN THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA.

4. ATTENTION IS DIRECTED TO THE FACT THAT THIS SKETCH MAY HAVE BEEN ALTERED IN SIZE BY REPRODUCTION. THIS MUST BE CONSIDERED WHEN OBTAINING SCALED DATA.

SURVEYOR'S CERTIFICATION:

I hereby certify that, to the best of my knowledge and belief, the attached sketches and legal descriptions of Parcels 101A through 101D as shown on this Sketch of Description designated as 451858-1-32-01 are true, accurate, and were prepared under my direction.

I further certify that said legal descriptions are in compliance with the Standards of Practice as set forth by the Florida Board of Professional Surveyors and Mappers, in Chapter 5J-17 Florida Administrative Code pursuant to Section 472.027, Florida Statutes.

QUITCLAIM DEED

THIS QUITCLAIM DEED, made this ____ day of, _____, 20__, by the **CITY OF PORT ST. LUCIE, a Florida municipal corporation,** whose address is, 121 SW Port St. Lucie Blvd., Port St. Lucie, FL 34984 (hereinafter called the Grantor), to the **STATE OF FLORIDA DEPARTMENT OF TRANSPORTATION,** an executive agency of the State of Florida, whose address is Turnpike Headquarters, P.O. Box 613069, Milepost 263, Florida's Turnpike, Building 5315, Ocoee, Florida 34761 (hereinafter called the "Grantee").

(Wherever used herein the terms "Grantor" and "Grantee" include all the parties to this instrument and the heirs, legal representatives and assign of individuals, and the successors and assigns of organizations.).

WITNESSETH, that the Grantor, for One Dollar ($1.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, by these presents does grant and quit claim unto the Grantee all of the Grantor's right, title and interest in and to those certain pieces, parcels or tracts of land situated in St. Lucie County, Florida more particularly described as follows, to wit:

SEE ATTACHMENT "1" ATTACHED HERETO AND MADE A PART HEREOF.

TOGETHER with all tenements, hereditaments, and appurtenances thereto belonging or in anywise appertaining.

TO HAVE AND TO HOLD the same together with the appurtenances thereunto belonging or in anywise appertaining, and all the estate, right, title, interest, lien, equity and claim whatsoever of the said Grantor, either in law or equity, to the said Grantee forever.

(Signatures included on the following page)

IN WITNESS WHEREOF, the said Grantor has caused these presents to be executed in its name by its Mayor, and its seal to be hereto affixed, attested by its City Clerk, the date first above written.

NOTES:

1. THIS SKETCH OF DESCRIPTION IS SUPPORTED BY THE RIGHT OF WAY CONTROL SURVEY SECTION 94470-000, DATED FEBRUARY 21, 2025 PREPARED BY AND UNDER THE RESPONSIBLE CHARGE OF ALLEN QUICKEL, FLORIDA PROFESSIONAL SURVEYOR AND MAPPER NUMBER 6481. CERTIFIED COPIES OF SAID RIGHT OF WAY CONTROL SURVEY, F.P.NO. 451858-1, ARE FILED AT THE FLORIDA'S TURNPIKE ENTERPRISE HEADQUARTERS, LOCATED IN OCOEE, FLORIDA.

2. THE BEARINGS AND COORDINATES SHOWN HEREON ARE BASED ON THE NORTH AMERICAN DATUM OF 1983, 1990 ADJUSTMENT, STATE PLANE COORDINATES FLORIDA EAST ZONE, DERIVING A BEARING OF N89°55'09"W ALONG THE NORTH LINE OF THE SOUTHEAST QUARTER OF SECTION 1, TOWNSHIP 36 SOUTH, RANGE 39 EAST, SAINT LUCIE COUNTY, FLORIDA.

3. ALL RECORDED PLATS, OFFICIAL RECORD BOOKS, AND DEED BOOKS REFERENCED HEREON ARE FOUND IN THE PUBLIC RECORDS OF ST. LUCIE COUNTY, FLORIDA.

4. ATTENTION IS DIRECTED TO THE FACT THAT THIS SKETCH MAY HAVE BEEN ALTERED IN SIZE BY REPRODUCTION. THIS MUST BE CONSIDERED WHEN OBTAINING SCALED DATA.

SURVEYOR'S CERTIFICATION:

I hereby certify that, to the best of my knowledge and belief, the attached sketches and legal descriptions of Parcels 101A through 101D as shown on this Sketch of Description designated as 451858-1-32-01 are true, accurate, and were prepared under my direction.

I further certify that said legal descriptions are in compliance with the Standards of Practice as set forth by the Florida Board of Professional Surveyors and Mappers, in Chapter 5J-17 Florida Administrative Code pursuant to Section 472.027, Florida Statutes.

SHEET 9 OF 9

Agenda Summary

2026-574

Agenda Date: 6/22/2026 **Agenda Item No.:** 11.a

Placement: Resolutions / Quasi-Judicial Hearing

Action Requested: Motion / Vote

Resolution 26-R41, Quasi-Judicial, Public Hearing, a Resolution Granting a Special Exception Use to Allow an Enclosed Assembly Area over 3,000 Square Feet, without an Alcoholic Beverage License for On-Premises Consumption of Alcoholic Beverages, in the Service Commercial (CS) Zoning District per Section 158.126(D)(3) of the Port St. Lucie Code of Ordinances for a Project Known as SLW Diamond Elite Academy, LLC (P25-220).

Submitted By: Ivan Betancourt, Planner I, Planning & Zoning Department

Strategic Plan Link: N/A - Development Application

Executive Summary (General Business): The applicant is requesting a Special Exception Use (SEU) to permit 10,350 square feet of enclosed assembly recreational space without an alcoholic beverage license for on-premises consumption of alcoholic beverages.

Presentation Information: Staff will provide a presentation.

Staff Recommendation: Move that the Council approve the resolution as recommended by the Planning and Zoning Board.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the resolution.
2. Move that the Council deny the resolution and provide staff with direction.

Background: The proposed use is a private school with a baseball training facility. The applicant is requesting a Special Exception Use (SEU) approval for the recreational component of the project. The applicant proposes to occupy space within an existing building on the developed site with interior modifications to accommodate the training functions. No exterior site changes are proposed. The overall operation consists of two functions; a daytime academic program and an indoor recreational facility that operates during evenings and weekends. This separation in hours of operation eliminates any overlap in parking demand.

The SEU request applies only to the recreational component. Under the City's Zoning Code, the Service Commercial (CS) Zoning District requires Special Exception Use approval for enclosed assembly areas exceeding 3,000 square feet. The proposed recreational facility exceeds this threshold, triggering the requirement for SEU approval.

Issues/Analysis: Special exceptions are uses that would only be allowed under certain conditions and are reviewed for compatibility with the existing neighborhood. Approval of a special exception application shall only be granted by the City Council if it meets the criteria established under Section 158.260 (A) through (L) of the City Code. The applicant's responses to the criteria and the staff's findings are detailed in the staff report. Due to recent legislation, the school use no longer requires Special Exception Use approval and is now permitted by right within the zoning district.

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PORT ST. LUCIE, FLORIDA, GRANTING A SPECIAL EXCEPTION USE TO ALLOW AN ENCLOSED ASSEMBLY AREA OVER 3,000 SQUARE FEET, WITHOUT AN ALCOHOLIC BEVERAGE LICENSE FOR ON-PREMISES CONSUMPTION OF ALCOHOLIC BEVERAGES, IN THE SERVICE COMMERCIAL (CS) ZONING DISTRICT PER SECTION 158.126(D)(3) OF THE PORT ST. LUCIE CODE OF ORDINANCES FOR A PROJECT KNOWN AS SLW DIAMOND ELITE ACADEMY, LLC (P25-220); PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City of Port St. Lucie, Florida, has been requested by Tiffany Romero, on behalf of PSL BUSINESS CENTER PARTNERSHIP, a Florida General Partnership, the property owner, to grant a special exception to allow an enclosed assembly area over 3,000 square feet in the Service Commercial (CS) Zoning District per Section 158.126(D)(3) of the City of Port St. Lucie Code of Ordinances, on property legally described as Lot 1, University Park, St. Lucie West Plat No. 143, Second Replat in Parcel 21D, according to the plat therefore as recorded in Plat Book 41, Pages 29 and 29A, of the Official Records of St. Lucie County, Florida; and

WHEREAS, the subject application has been reviewed in accordance with Section 158.260 of the Code of Ordinances, and meets the special exception use requirements as stipulated; and

WHEREAS, the Planning and Zoning Board held a public hearing on June 2, 2026, to review the special exception use application (P25-220) to determine the suitability of the proposed use at the Property and has submitted its recommendation to the City Council; and

WHEREAS, the City Council held a public hearing on June 22, 2026, to consider the special exception use application (P25-220), advertising of the public hearing having been made; and

WHEREAS, the City Council has considered the special exception use application (P25-220) and, based on substantial and competent evidence, has determined that all of the criteria set forth in Section 158.260 have been met.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY OF PORT ST. LUCIE, FLORIDA:

Section 1. Ratification of Recitals. The foregoing recitals are hereby ratified and confirmed as true and correct and are hereby made a part of this Resolution.

Section 2. Approval of Application for Special Exception Use. The property owner's application for a special exception use is hereby approved to allow an enclosed assembly area over 3,000 square feet, without an alcoholic beverage license for on-premises consumption of alcoholic beverages, more specifically an enclosed assembly area of 10,350 square feet for a recreational facility, in the Service Commercial (CS) Zoning District as set forth in Exhibit "A", Proposed Floor Plan, attached hereto.

Section 3. Conflict. If any resolutions, or parts of resolutions, are in conflict herewith, this Resolution shall control to the extent of the conflicting provisions.

Section 4. Severability. The provisions of this Resolution are intended to be severable. If any part of this Resolution is determined to be void or is declared illegal, invalid, or unconstitutional by a Court of competent jurisdiction, the remainder of this Resolution shall remain in full force and effect.

Section 5. Effective Date. This Resolution shall become effective immediately upon adoption.

PASSED AND ADOPTED by the City Council of the City of Port St. Lucie, Florida, this 22nd day of June, 2026.

SUMMARY

Applicant's Request:	The request is for a Special Exception Use (SEU) to permit 10,350 square feet of enclosed assembly recreational space without an alcoholic beverage license for on-premises consumption of alcoholic beverages.
Applicant:	Tiffany Romero
Property Owner:	PSL BUSINESS CENTER PARTNERSHIP
Location:	East of NW Peacock Blvd and south of NW University Blvd
Project Planner:	Ivan Betancourt, Planner I

Project Description The City of Port St. Lucie has received a request from Tiffany Romero, Diamond Elite Academy, LLC, the applicant, authorized by PSL Business Center Partnership, the property owner, to allow an enclosed assembly area over 3,000 square feet without alcoholic beverage license for on-premise consumption of alcoholic beverages. The property is located at 580 NW University Blvd. The property is zoned Service Commercial (CS) and has a Service Commercial, High Density Residential, and Institutional (CS/RH/I) future land use designation. Per Section 158.126, enclosed assembly areas over 3,000 square feet may be considered by the City Council under a special exception use application. The property is located at 580 NW University Boulevard and legally described as SLW Plat No. 143, Lot 1, Parcel 21D.

Section 158.126(D)(3), Service Commercial (CS) Zoning District, requires enclosed assembly areas over 3,000 square feet, without an alcoholic beverage license for on-premises consumption, to apply for a special exception use. The applicant intends to operate as a baseball training facility. The applicant proposes to occupy space within an existing building on the developed site with interior modifications to accommodate the training functions. No exterior site changes are proposed.

The proposed baseball training facility exceeds 3,000 square feet of enclosed assembly area and is classified as an enclosed assembly use under Chapter 153 of the City's Code of Ordinances. In the CS zoning district, enclosed assembly areas over 3,000 square feet require approval of a Special Exception Use by the Planning & Zoning Board and City Council.

Previous Actions

The subject property is an existing developed site. The original site plan received City Council approval on July 14, 2008, and was later amended and approved administratively on November 9, 2011.

Public Notice Requirements

Notice of this request for a special exception use was mailed on May 21, 2026, to owners of property within a 750-foot radius of the subject property.

PROJECT ANALYSIS

Special exceptions are uses that would only be allowed under certain conditions and are reviewed for compatibility with the existing neighborhood. Approval of a special exception application shall only be granted by the City Council if it meets the criteria established under Section 158.260 (A) through (L) as noted below. The applicant's response to the criteria and Staff's review is below.

Evaluation of Special Exception Criteria (Section 158.260)

(A) Adequate ingress and egress may be obtained to and from the property, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire or other emergency.

- Applicant's Response: *The site's existing driveway connections allow safe and convenient vehicle entry and exit. Customers will enter via the rear entry at the back of the building. The building has 8 means of egress – fast and easy evacuations.*
- Staff Findings: This application does not propose any modifications to the site's existing ingress or egress. During the original site plan approval, it was demonstrated that the property provides adequate vehicular and pedestrian access. The site is currently served by two points of ingress/egress, one on NW Peacock Boulevard and one on NW University Boulevard.

(B) Adequate off-street parking and loading areas may be provided, without creating undue noise, glare, odor, or other detrimental effects upon adjoining properties.

- Applicant's Response: *The property has approximately 400 parking spaces which is more than sufficient capacity for customers.*
- Staff findings: Per Section 158.221(C)(17) of the City Code, recreational facilities require parking at a ratio of one space per 200 square feet of gross floor area. The proposed recreational use consists of 10,350 square feet of assembly area, resulting in a required 52 parking spaces. The required parking for the overall site is at a rate of one space per 250 square feet, resulting in 450 parking spaces. A total of 509 parking spaces are provided, which is sufficient to accommodate the full parking demand associated with this special exception request.

  The majority of the site's existing businesses operate primarily during daytime hours, while the recreational baseball training facility operates from 4:00 PM to 8:00 PM on weekdays, and 9:00 AM to 1:00 PM on Saturdays. Most businesses on the site do not operate on Saturdays, eliminating any overlap in parking demand during the proposed Saturday hours. Additionally, several existing businesses function as flex spaces, which incorporate warehouse-type functionality and therefore require less parking than traditional commercial uses. These operational characteristics further ensure that the proposed use will not create conflicts with existing on-site uses or parking availability.

(C) Adequate and properly located utilities are available or may be reasonably provided to serve the proposed development.

- Applicant's Response: *Adequate and properly located utilities are already available on site.*
- Staff findings: Adequate utilities are available to service the proposed use. St. Lucie West Services District currently provides utility services to the site.

(D) Adequate screening or buffering. Additional buffering beyond that which is required by the code may be required in order to protect and provide compatibility with adjoining properties.

- Applicant's Response: *All business operations will be done during normal business hours and indoors. If required by the city, additional measures can be taken like increased vegetative height or expanded landscape beds.*

- Staff findings: No additional screening or buffering is required. The site's approved landscape plan provides adequate perimeter landscaping.

(E) Signs, if any, and proposed exterior lighting will be so designed and arranged so as to promote traffic safety and to eliminate or minimize any undue glare, incompatibility, or disharmony with adjoining properties. Light shields or other screening devices may be required.

- Applicant's Response: *Signage can be appropriately sized and placed so they are easily seen by drivers without obstructing views sightlines or obstructing traffic. Exterior lighting can use downward facing, shielded fixtures directing lighting onto the site rather than outward.*

- Staff findings: Outdoor lighting complies with the requirements of City Code Section 158.221. Any outdoor signs shall comply with Chapter 155 Sign Code. Any future individual tenant sign shall be permitted through separate building permit application.

(F) Yards and open spaces will be adequate to properly serve the proposed development and to ensure compatibility with adjoining properties to eliminate or minimize any undue glare.

- Applicant's Response: *Outdoor spaces are not needed and will not be used.*

- Staff findings*:* Yard setbacks and open space were previously addressed with the existing site plan. No changes to the existing yards and open space are being requested.

(G) The use as proposed will be in conformance with all stated provisions and requirements of this chapter.

- Applicant's Response: *The existing building meets commercial building and life-safety requirements. Any interior upgrades will be completed with proper permits and incorporate additional improvements requested by P&Z, Engineering or Fire Marshall to ensure compliance.*

- Staff findings: The proposed Special Exception Use may be permitted as defined in Section 158.126(D)(3) – Service Commercial (CS) Zoning District and shall conform to all provisions of the Zoning Code.

(H) Establishment and operation of the proposed use upon the particular property involved will not impair the health, safety, welfare, or convenience of residents and workers in the City.

- Applicant's Response: *The business will operate entirely within an existing commercial structure designed for high traffic, professional use and all activities take place indoors. Entrances and exits are located at the back of the building away from major traffic. There will be no loud outdoor events, no odors or emissions.*

- Staff findings: By adhering to the City Code and regulations, the establishment and operation of the proposed uses are not anticipated to impair the health, safety, or convenience of residents and workers in the City.

(I) The proposed use will not constitute a nuisance or hazard because of the number of persons who will attend or use the facility, or because of the hours of operation, or because of vehicular movement, noise, fume generation, or type of physical activity.

- Applicant's Response: *Business hours for the proposed open area that will include batting cages will be Monday–Friday, 4pm–8pm & Saturdays, 9am–1pm. Vehicle movement will be minimal, using the rear entry along with adequate parking spaces of over 400. All operations will be indoors.*

- Staff findings: The facility is not expected to constitute a nuisance due to noise, the number of people who will attend the facility, the hours of operation or vehicular movement. The day-to-day activities occur indoors, and the proposed operating hours are Monday–Friday, 4 PM–8 PM & Saturdays, 9 PM–1 PM

(J) The use as proposed for development will be compatible with the existing or permitted uses of adjacent property. The proximity or separation and potential impact of the proposed use (including size and height of buildings, access location, light and noise) on nearby property will be considered in the submittal and analysis of the request. The City may request project design changes or changes to the proposed use to mitigate the impacts upon adjacent properties and the neighborhood.

- Applicant's Response: *Any design adjustments required by the city to meet full compatibility will be made. The proposed business use is compatible with existing commercial uses surrounding the property. The batting cages will operate fully indoors, in an existing building with no changes made structurally in size or height. Access remains through existing driveways.*

- Staff findings: The proposed use is not expected to adversely impact surrounding properties. The facility is in an area designated for commercial development. The site is already developed, and the required landscape buffers have been installed.

(K) As an alternative to reducing the scale and/or magnitude of the project as stipulated in criteria (J) above, the City may deny the request for the proposed use if the use is considered incompatible, too intensive or intrusive upon the nearby area and would result in excessive disturbance or nuisance from the use altering the character of the neighborhood.

- Staff findings: Acknowledged.

(L) Development and operation of the proposed use will be in full compliance with any additional conditions and safeguards which the City Council may prescribe, including but not limited to reasonable time limit within which the action for which special approval is requested shall be begun or completed or both.

- Staff findings: Acknowledged.

PLANNING AND ZONING BOARD ACTION OPTIONS

If the Board finds that the special exception use application is consistent with the criteria listed in Section 158.260 (A) through (L) of the City code, then the Board may:

- Motion to recommend approval to the City Council
- Motion to recommend approval to the City Council with conditions

If the Board finds that the special exception use application is inconsistent with the criteria listed in Section 158.260 (A) through (L) of the City code, then the Board may:

- Motion to recommend denial to the City Council

Should the Board need further clarification or information from either the applicant and/or staff, it may exercise the right to table or continue the hearing or review to a future meeting.

NOTE: Signature on this application acknowledges that a certificate of concurrency for adequate public facilities as needed to service this project has not yet been determined. Adequacy of public facility services is not guaranteed at this stage in the development review process. Adequacy for public facilities is determined through certification of concurrency and the issuance of final local development orders as may be necessary for this project to be determined based on the application material submitted. 01/26/26

SPECIAL EXCEPTION USE

The Planning and Zoning Board, and Zoning Administrator, may authorize the special exception use from the provisions of § 158.260. In order to authorize any special exception use from the terms of this chapter, the Planning and Zoning Board, or Zoning Administrator, will consider the special exception criteria in § 158.260 and consider your responses to the following when making a determination.

(A) Please explain how adequate ingress and egress will be obtained to and from the property, with particular reference to automotive and pedestrian safety and convenience, traffic flow, and control, and access in case of fire or other emergency.

The site's existing driveway connections allow safe and convenient vehicle entry and exit. Customers will enter via the rear entry at the back of the building. The building has 8 means of egress - fast and easy evacuations.

(B) Please explain how adequate off-street parking and loading areas will be provided, without creating undue noise, glare, odor or other detrimental effects upon adjoining properties.

The property has approximately 400 parking spaces which is more than sufficient capacity for customers.

(C) Please explain how adequate and properly located utilities will be available or will be reasonably provided to serve the proposed development.

Adequate and properly located utilities are already available on site.

(D) Please explain how additional buffering and screening, beyond that which is required by the code, will be required in order to protect and provide compatibility with adjoining properties.

All business operations will be done during normal business hours and indoors. If required by the city, additional measures can be taken like increased vegitative height or expanded landscape beds.

(E) Please explain how signs, if any, and proposed exterior lighting will be so designed and arranged so as to promote traffic safety and to eliminate or minimize any undue glare, incompatibility, or disharmony with adjoining properties. Light shields or other screening devices may be required.

Signage can be appropriately sized and placed so they are easily seen by drivers without obstructing views sightlines or obstructing traffic. Exterior lighting can use downward facing, shielded fixtures directing lighting onto the site rather than outward.

(F) Please explain how yards and open spaces will be adequate to properly serve the proposed development and to ensure compatibility with adjoining properties.

Outdoor spaces are not needed and will not be used.

(G) Please explain how the use, as proposed, will be in conformance with all stated provisions and requirements of the City's Land Development Regulation.

The existing building meets commercial building and life-safety requirements. Any interior upgrades will be completed with proper permits and incorporate additional improvements requested by P&Z, Engineering or Fire Marshall to ensure compliance.

(H) Please explain how establishment and operation of the proposed use upon the particular property involved will not impair the health, safety, welfare, or convenience of residents and workers in the city.

The business will operate entirely within an existing commercial structure designed for high traffic, professional use and all activities take place indoors. Entrances and exits are located at the back of the building away from major traffic. There will be no loud outdoor events, no odors or emissions.

(I) Please explain how the proposed use will not constitute a nuisance or hazard because of the number of persons who will attend or use the facility, or because of the hours of operation, or because of vehicular movement, noise, fume generation, or type of physical activity.

Business hours for the proposed open area that will include batting cages will be Monday-Friday, 4pm-8pm & Saturdays, 9am-1pm.

Vehicle movement will be minimal, using the rear entry along with adequate parking spaces of over 400. All operations will be indoors.

(J) Please explain how the use, as proposed for development, will be compatible with the existing or permitted uses of adjacent property. The proximity or separation and potential impact of the proposed use (including size and height of buildings, access, location, light and noise) on nearby property will be considered in the submittal and analysis of the request. The City may request project design changes or changes to the proposed use to mitigate the impacts upon adjacent properties and the neighborhood.

Any design adjustments required by the city to meet full compatibility will be made.

The proposed business use is compatible with existing commercial uses surrounding the property. The batting cages will operate fully indoors, in an existing building with no changes made structurally in size or height. Access remains through existing driveways.

Signature of Applicant	Tiffany Romero Print Name	4/28/2026 Date

PLEASE NOTE:

(K) As an alternative to reducing the scale and/or magnitude of the project as stipulated in criteria (J) above, the City may deny the request for the proposed use if the use is considered incompatible, too intensive or intrusive upon the nearby area and would result in excessive disturbance or nuisance from the use altering the character of neighborhood.

(L) Development and operation of the proposed use will be in full compliance with any additional conditions and safeguards which the City Council may prescribe, including but not limited to reasonable time limit within which the action for which special approval is requested shall be begun or completed or both.

SPECIAL EXCEPTION USE

§ 158.260 REQUIREMENTS AND APPROVAL

Special Exceptions are uses that would only be allowed under certain conditions and are required to be compatible with the existing neighborhood. It is expected that any such approval be implemented in a timely manner to ensure the use is established under the physical conditions of the area in place when approved. Therefore, Special Exception Uses shall expire after one year on the date of approval unless the applicant has received final site plan approval, or if a site plan is not required, the appropriate permits to allow development of the use to continue as approved.

Approval of a special exception application shall be granted by the City Council only upon a finding that:

(A) Adequate ingress and egress may be obtained to and from the property, with particular reference to automotive and pedestrian safety and convenience, traffic flow, and control, and access in case of fire or other emergency.

(B) Adequate off-street parking and loading areas may be provided, without creating undue noise, glare, odor or other detrimental effects upon adjoining properties.

(C) Adequate and properly located utilities are available or may be reasonably provided to serve the proposed development.

(D) Adequate screening or buffering. Additional buffering beyond that which is required by the code may be required in order to protect and provide compatibility with adjoining properties.

(E) Signs, if any, and proposed exterior lighting will be so designed and arranged so as to promote traffic safety and to eliminate or minimize any undue glare, incompatibility, or disharmony with adjoining properties. Light shields or other screening devices may be required.

(F) Yards and open spaces will be adequate to properly serve the proposed development and to ensure compatibility with adjoining properties.

(G) The use as proposed will be in conformance with all stated provisions and requirements of this chapter.

(H) Establishment and operation of the proposed use upon the particular property involved will not impair the health, safety, welfare, or convenience of residents and workers in the city.

(I) The proposed use will not constitute a nuisance or hazard because of the number of persons who will attend or use the facility, or because of the hours of operation, or because of vehicular movement, noise, fume generation, or type of physical activity.

(J) The use as proposed for development will be compatible with the existing or permitted uses of adjacent property. The proximity or separation and potential impact of the proposed use (including size and height of buildings, access, location, light and noise) on nearby property will be considered in the submittal and analysis of the request. The City may request project design changes or changes to the proposed use to mitigate the impacts upon adjacent properties and the neighborhood.

(K) As an alternative to reducing the scale and/or magnitude of the project as stipulated in criteria (J) above, the City may deny the request for the proposed use if the use is considered incompatible, too intensive or intrusive upon the nearby area and would result in excessive disturbance or nuisance from the use altering the character of neighborhood.

(L) Development and operation of the proposed use will be in full compliance with any additional conditions and safeguards which the City Council may prescribe, including but not limited to reasonable time limit within which the action for which special approval is requested shall be begun or completed or both.

CONCEPT PLAN COMPLETENESS CHECKLIST

Revised January 2026

Project Name: Diamond Elite Academy LLC

Applicant should submit the concept plan package to Planning & Zoning Department with all items listed below to initiate the review process. Other drawings or information may be required, if deemed necessary, upon review of the submittal for the Site Plan Review Committee Meeting.

Use the following to complete the checklist:
✓ = *Provided* X = *Incomplete or Missing* NA = *Not Applicable*

Applicant Checklist	*Description of Item Provided*
	Completeness Checklist: Completed by applicant.
	Cover Letter: Letter explaining the purpose and history of the application.
	Written Response to Comments: For resubmittals only.
	Owner's Authorization: On Owner's letterhead.
	Application Fees: Paid online or check submitted to Planning & Zoning Dept.
	Proof of Ownership:
	Copy of the recorded deed(s) for each parcel.
	PUD/MPUD Document and Concept Plan (Sections 158.170 – 158.175 of the Zoning Code):
	Show traffic access points
	Show drainage discharge locations
	Show proposed water and sewer connection points
	Evidence of unified control and binding PUD agreement
	Density statement
	Proposed zoning district regulations
	LMD Rezoning and Concept Plan (Section 158.155(M) of the Zoning Code):
	Show traffic access points
	Show drainage discharge locations
	Show proposed water and sewer connection points
	Evidence of unified control and development agreement
	Preliminary building elevations
	Landscape Plan
	SEU Concept Plan:
	Either approved site plan or proposed concept plan

Special Exception Use

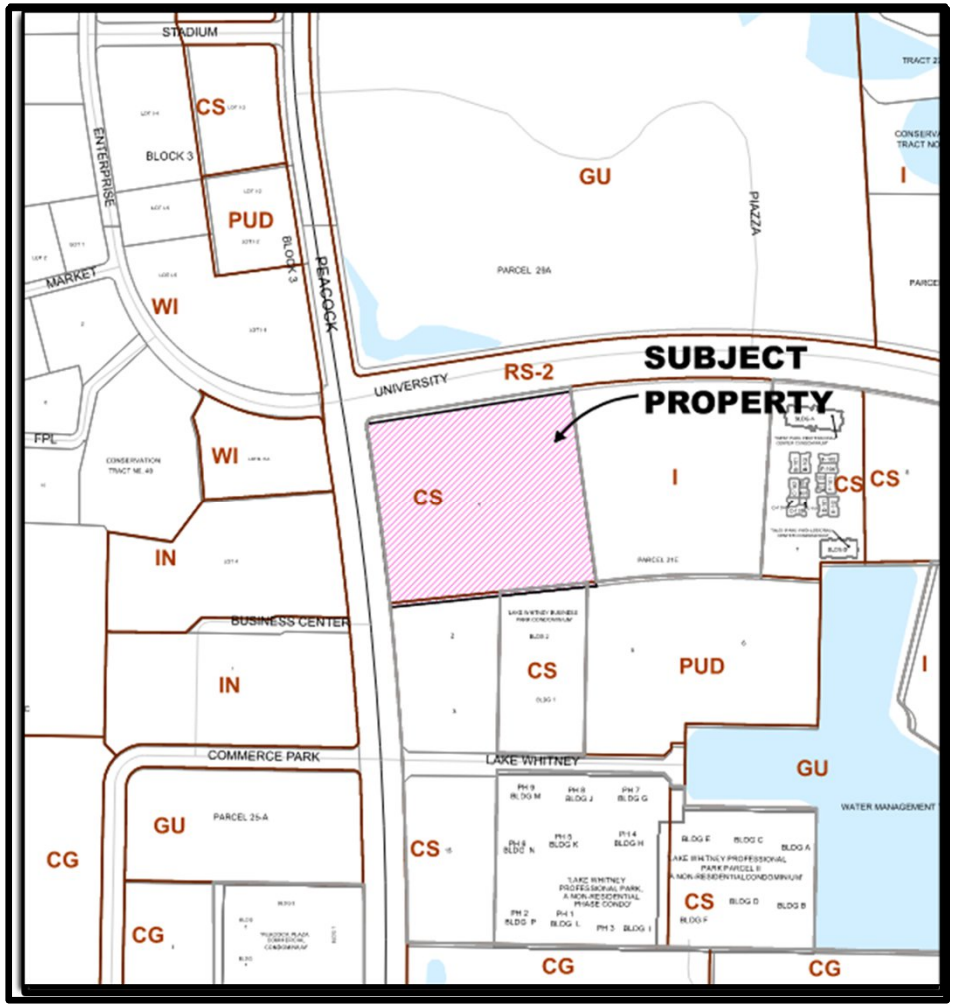
Project No. P25-220

City Council Meeting

Ivan Betancourt, Planner I

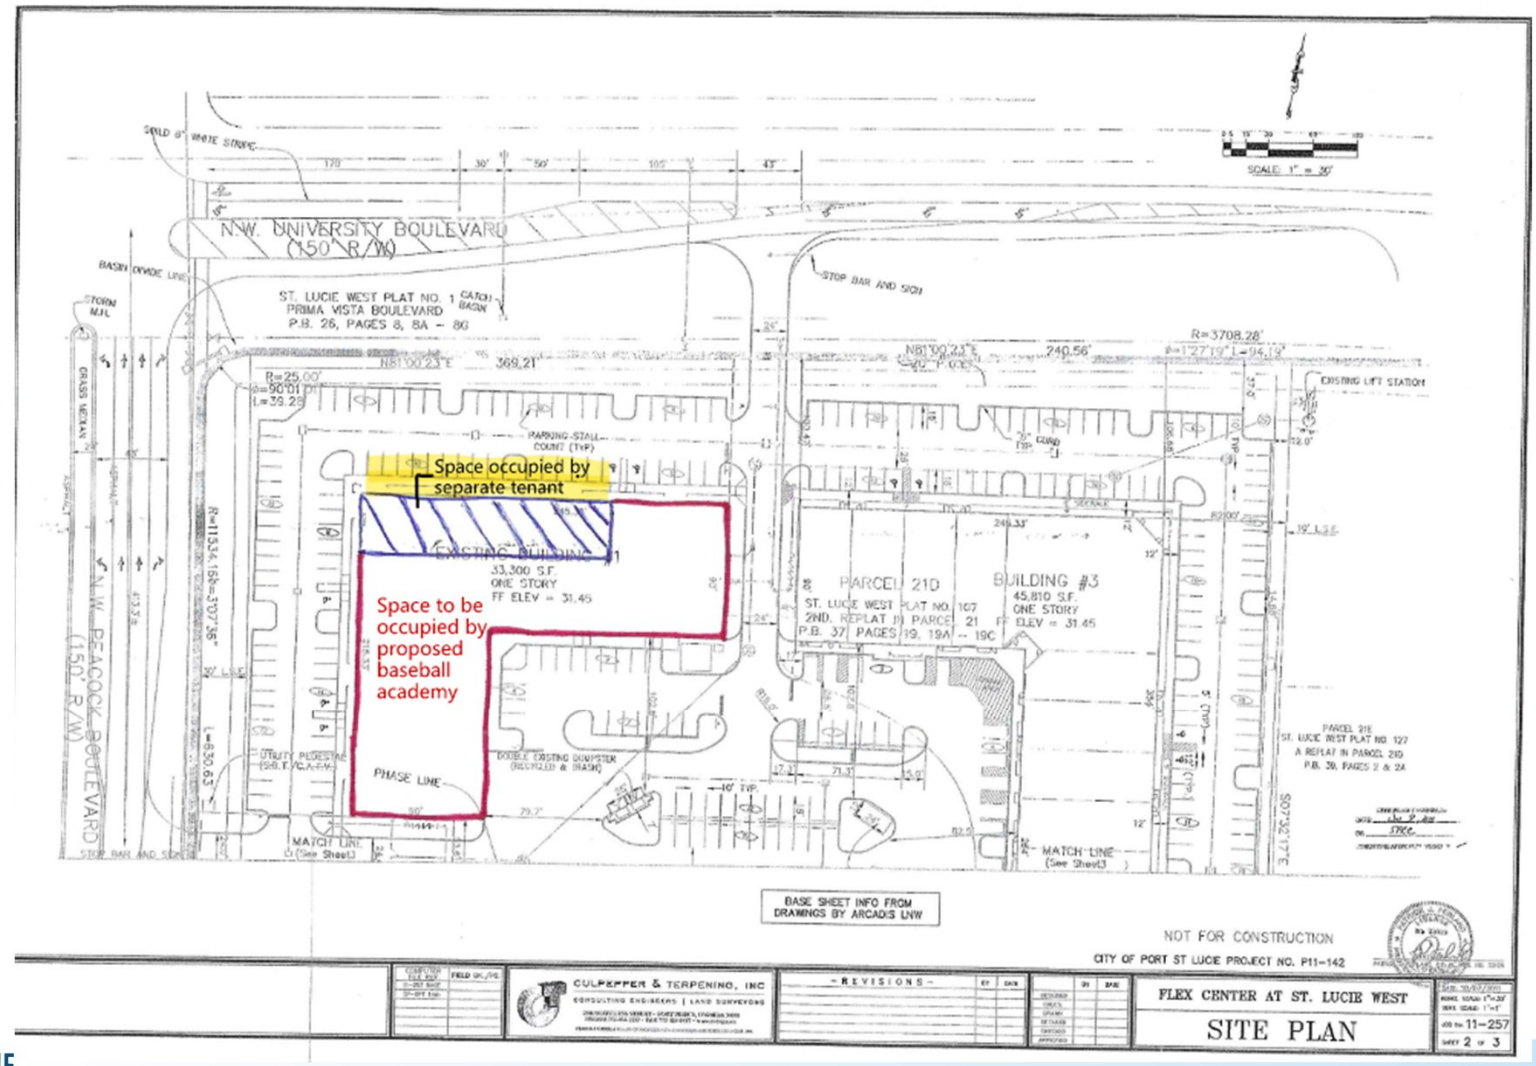
June 22, 2026

Request Summary



Owner:	PSL BUSINESS CENTER PARTNERSHIP
Applicant:	Tiffany Romero
Location:	East of NW Peacock Blvd and south of NW University Blvd
Request:	Special Exception Use (SEU) to permit 10,350 square feet of enclosed assembly recreational space without an alcoholic beverage license for on-premises consumption of alcoholic beverages.

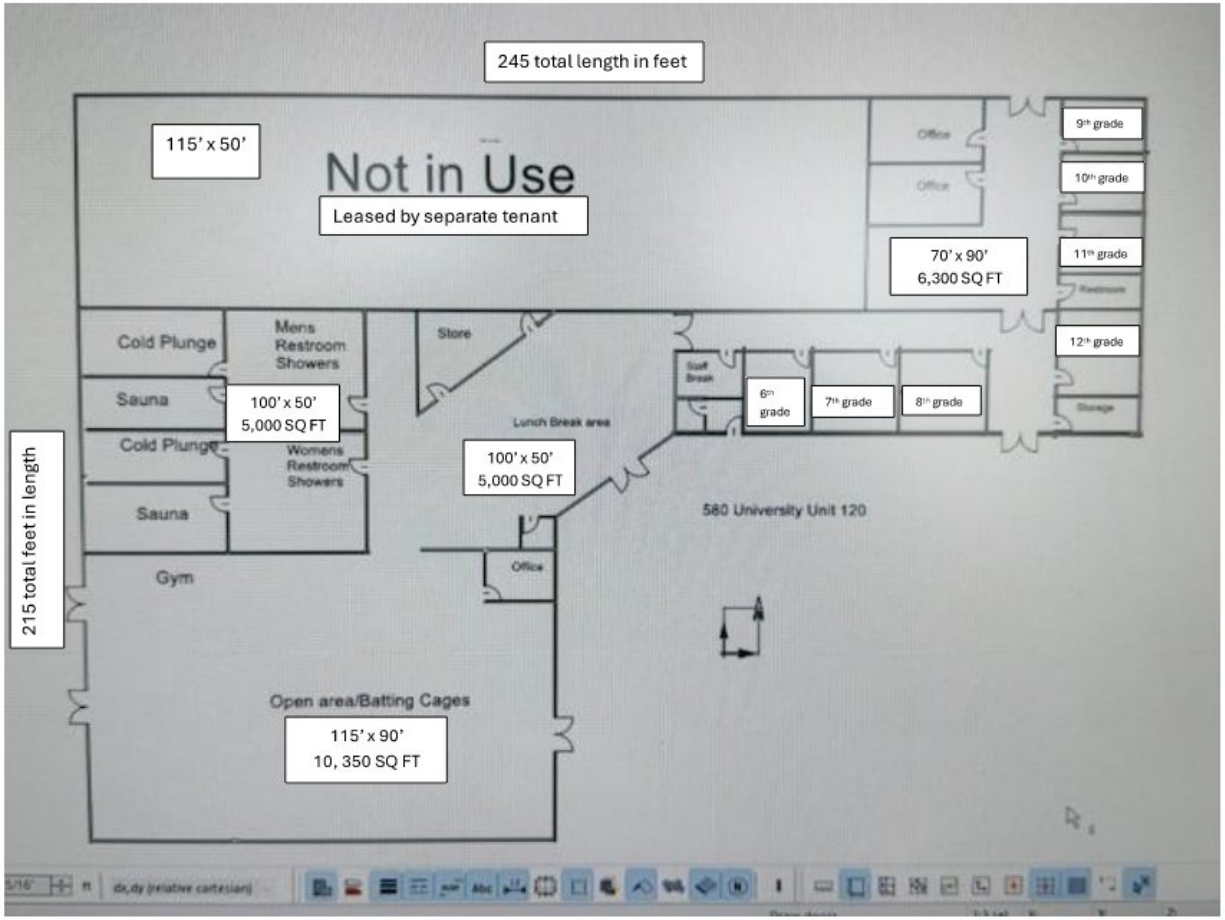
Background



- Section 158.126(D)(3) – Service Commercial (CS) Zoning District – requires enclosed assembly areas over 3,000 square feet, without an alcoholic beverage license for on-premises consumption, to apply for a special exception use.
- The applicant intends to operate as a baseball training facility. The applicant proposes to occupy space within an existing building on the developed site with interior modifications to accommodate the training functions. No exterior site changes are proposed.
- The proposed baseball training facility exceeds 3,000 square feet of enclosed assembly area and is classified as an enclosed assembly use under Chapter 153 of the City's Code of Ordinances. In the CS zoning district, enclosed assembly areas over 3,000 square feet require approval of a Special Exception Use by the Planning & Zoning Board and City Council.

Surrounding Areas

Direction	Existing Use	Future Land Use	Zoning
North:	Baseball stadium	OSR	GU
South:	Commercial business center	CS/RH/I	CS
East:	Recreational field	CG/RH/I	I
West:	Self-storage facility	LI/CS	IN



Approved Site Plan

PORT ST. LUCIE
HEART OF THE TREASURE COAST

Proposed Floor Plan

EVALUATION OF SEU CRITERIA (Section 158.260)	FINDINGS
ADEQUATE INGRESS AND EGRESS (§ 158.260 (A))	No changes to site access are proposed. The property will co two existing access points—a right-in, right-out entrance fro Blvd and a right-in, right-out on NW University Blvd.
ADEQUATE OFF-STREET PARKING AND LOADING AREAS (§ 158.260 (B))	The proposed use consists of 10,350 square feet of assembly a required 52 parking spaces. A total of 450 parking spaces a overall site, and 509 are provided. This is sufficient to accom proposed use. The majority of the site's existing businesses operate primari hours, while the recreational baseball training facility operat to 8:00 PM on weekdays, and 9:00 AM to 1:00 PM on Saturd businesses on the site do not operate on Saturdays, eliminat parking demand during the proposed Saturday hours.
ADEQUATE AND PROPERLY LOCATED UTILITIES (§ 158.260 (C))	St. Lucie West Services District is the provider of utilities.
ADEQUATE SCREENING OR BUFFERING (§§ 158.260 (D) (F))	There is no additional screening or buffering required. T landscape plan provides adequate perimeter landscaping.
SIGNAGE AND EXTERIOR LIGHTING (§158.260 (E))	All signage and lighting shall be required to conform to the C
COMPATIBILITY WITH SURROUNDING USES (§§ 158.260 (H) (I) (J))	The facility is in an area designated for commercial developm expected to adversely impact surrounding properties.

Recommendation:

The Planning and Zoning Board recommended approval at their June 2, 2026, meeting.

Agenda Date: 6/22/2026 **Agenda Item No.:** 11.b

Placement: Resolutions / Quasi-Judicial Hearing

Action Requested: Motion / Vote

Resolution 26-R43, Quasi-Judicial, Public Hearing, a Resolution Approving Artwork Submitted by Midway Glades Developers, LLC, in Connection with the Alternative Equivalent Proposal Request for Public Art for the Project Known as "Ladybug Hideaway" (P23-132-A2).

Submitted By: Bethany Grubbs, AICP, Senior Planner/Public Art Program

Strategic Plan Link: N/A - Development Application

Executive Summary (General Business): Midway Glades Developers, LLC ("Developer") is requesting approval to install the previously approved artwork *Ladybug Hideaway* by Mark Fuller in an alternate location. The artwork was originally approved for placement within two commercial plazas flanking Wylder Parkway. Developer now proposes to install the artwork within an open space tract located between an existing wetland and Wylder Parkway.

Presentation Information: Staff and the Developer will both provide a presentation.

Recommendation: On May 18, 2026, the Public Art Advisory Board voted to forward a recommendation of approval to City Council for the newly proposed artwork location and redesign of the Alternative Equivalent Proposal request. Staff recommends approval subject to standard set of conditions applied to Alternative Equivalent Proposal approvals.

See background materials for the conditions.

Alternate Recommendations:

1. Move that the Council amend the recommendation and approve the proposal subject to the conditions of approval outlined in Section 2 of the Resolution.
2. Move that the Council does not approve the proposal and provide staff and Public Art Advisory Board with direction.

Background: The artwork was approved by Council on May 13, 2024, through Resolution 24-R34 an Alternative Equivalent Proposal under Section 162.08. The original concept consists of twelve sculptural blades incorporating nineteen species of ladybugs, placed within two 5,100-square-foot plazas on the commercial tracts at the intersection of Midway Road and Wylder Parkway. The approved location was intended to provide an opportunity for the public to walk up to and through the art piece while exploring the various ladybugs for educational purposes. The location within a future commercial development was intended to provide parking

and safe public access to the artwork.

The Developer proposes to consolidate the two plazas into a single installation within an open space tract, between a wetland and Wylder Parkway.

In March 2026, the Developer notified staff of their intent to relocate the artwork on a public right-of-way along a nature path with no parking. Any change in location requires returning to the PAAB and City Council for approval.

When an Alternative Equivalent Proposal is approved, a standard set of conditions is applied to ensure proper accountability and compliance. The standard conditions of approval are as follows:
1. A site plan application for the proposed “Ladybug Hideaway” public art sculpture must be submitted for Site Plan Review Committee (SPRC) approval within 180 days of Council approval of the Alternative Equivalent Proposal.
2. A license agreement(s), and any additional agreement(s), between Developer, and other parties related to ownership, maintenance, and operation of the Alternative Equivalent Proposal must be submitted to the City for review and approval prior to the finalization of such agreement(s) to ensure conformance with Section 162.08(d) of the Port St. Lucie City Code.
3. A restrictive covenant, in accordance with Section 162.10 of the Code, is required to ensure retention and maintenance of the “Ladybug Hideaway” public art sculpture. The restrictive covenant must be recorded within ten (10) days of the issuance of the certificate of completion for the sculpture and must be approved by the City prior to execution and recordation.
4. Identified Projects within the Wylder area of the LTC DRI are eligible to fulfill their public art requirements through the value of the "Ladybug Hideaway” sculpture only if a remaining balance is available.
5. For each Identified Project within the Wylder developments and related projects in the LTC DRI, Developer must submit the project’s number and title, project location, and calculated public art assessment; demonstrate how the assessment is deducted from the Estimated or Actual Value (as applicable); and provide the remaining value (“Remaining Value”) for City approval. Public art assessments will be calculated on a plat-by-plat and site plan basis. Total construction costs for calculating the public art assessments will be based on the total construction costs for all property depicted on each plat within the development project.
6. Within thirty (30) days of Council approval of the Proposed Alternative Equivalent Proposal, Developer shall provide the City with the actual total construction costs for each recorded final plat and approved site plan within the LTC Ranch DRI to date. Construction costs for Wylder Parkway shall not be included. The public art assessment shall be calculated at one percent (1%) of the actual total construction costs, as documented in the construction contract(s) for the subject improvements, and shall be deducted from the Actual Value of the “Ladybug Hideaway” sculpture.
7. The public art assessment shall be calculated at one percent (1%) of the actual total construction costs.
8. Developer may not utilize any value of the “Ladybug Hideaway” sculpture toward Identified Projects until:
a. A detailed cost estimate for the sculpture (“Estimated Value”) is provided, consisting of components defined as “Art, artwork or work of art” under section 162.02 of the Code; and
b. A surety acceptable to the City is posted in the amount of the Estimated Value. The intent of the surety is to ensure that the City has a remedy in the event that: (i) the “Ladybug Hideaway” sculpture is not fabricated and installed, or (ii) the Actual Value of the “Ladybug Hideaway” public art sculpture is less than the public art requirements associated with the development projects, and there is a funding deficit.
9. Developer shall provide the City with the actual cost (“Actual Value”) of the “Ladybug Hideaway” sculpture

within thirty (30) days of issuance of the certificate of completion. Only components defined as “Art, artwork or work of art” under section 162.02 of the Code may be included in the Actual Value.

Issues/Analysis: This request is submitted as an Alternative Equivalent Proposal (Option 4) under the City’s Public Art Ordinance for the Wylder sculptures known as “Ladybug Hideaway”. The originally approved design, authorized through Resolution 24-R34 on May 13, 2024, consisted of twelve monumental sculptural blades by Artist Mark Fuller. These blades, arranged in clusters of 8, 10, and 12 feet, were designed to resemble silver and green grass with nineteen species of ladybugs integrated throughout. The layout placed six clusters within each of the two plazas located on the commercial tracts at the intersection of Midway Road and Wylder Parkway.

The applicant is now requesting approval for a revised configuration and location. Instead of the two compact plazas, the proposal expands the installation into a linear design and adds 17 additional “sprout” sculptures. The new design forms an approximately 427-foot linear path, with sculptural clusters flanking both sides of the sidewalk. The changes propose a different way in which users experience the artwork. The artwork going from being a plaza-based gathering experience into a trail-style installation.

A relocation of the artwork from the originally approved commercial tracts requires returning to the Public Art Advisory Board and City Council for approval.

The alternate equivalent proposal satisfies the public art requirements for POD 1, POD 2, POD 4, POD 5, POD 6A, POD 6B, POD 7, POD 8A, POD 8B, POD 8C, POD 9, Tract A, Tract B, and Tract C.

Per Section 162.08(d), the submittal must contain all information and meet all criteria outlined in Section 162.09 for including public art on private development. Required elements include:

The artwork must be located in an exterior place and the application must include:

1. Artist's qualifications, including resume and portfolio establishing the artist's credentials.
2. Detailed description and depiction of the work of art and its location on the site.
3. Drawings and renderings of the proposed work of art, in terms of size, scale, color, shape, and materials in sufficient detail to provide a clear understanding of the art.
4. Maintenance program required for the artwork.
5. Compliance with public accessibility (ADA) requirements.

The City may approve the alternative equivalent proposal if it finds that:

1. The alternative equivalent proposal will further the purposes of the City’s Public Art Ordinance.
2. The proposed location of the alternative equivalent proposal is in reasonable proximity to the location of the site(s) generating the work of art requirement, in order to avoid clustering of all public art in one location.
3. The cost of the proposal will be equal to or greater than the cost of the public art assessment that would otherwise be required for each individual project.
4. The developer has established to the satisfaction of the City that the alternative equivalent proposal will create freely accessible public art in the City to an equal or greater extent than installation of public art on the individual project site or contribution to the Public Art Fund.

In approving a proposal, the City may impose reasonable conditions of approval requiring the developer to enter into agreements with the City or other public agencies or private parties to memorialize the legal obligations of all parties involved with the alternative equivalent proposal.

Financial Information: "Total construction costs" refers to the full cost of the approved improvements for a development project, excluding land value, as documented in the construction contract(s). With a projected construction cost of $1,400,000.00, the project is close to meeting the minimum public art assessment threshold required under Section 162.08(20)(a)-(c) of the City Code. Based on an artwork appraisal of $1,530,850.78, any remaining difference will be paid as a monetary contribution to the Public Art Fund.

Upon completion of construction, Developer intends to convey the land and responsibility for maintenance and operations to the LTC Ranch West Residential Community Development District. The City Attorney's Office will need to review and approve any proposed agreements, deeds, etc.

Special Consideration: The proposed relocation would change how people can interact with the artwork. The original commercial location was meant to be a dedicated public space where anyone could walk up to the sculptures, look for the ladybugs, and enjoy the interactive elements. The new location is located on a path along Wylder Parkway, which is identified as an arterial roadway, that runs from Glades Cut Off Road and Midway Road. There is no parking associated with the artwork plaza; therefore, only pedestrians, primarily being the residents of the adjacent communities, will be able to access and engage with the site. The ordinance states that artwork must be "freely accessible". As a result, far fewer members of the general public are likely to see or interact with the artwork, and it shifts from a public-facing experience to a semi-public neighborhood feature.

Location of Project: The proposed location is south of the intersection of Midway Road and Wylder Parkway, along the west side of Wylder Parkway.
