**P17-071 SOUTHERN GROVE – DEL WEBB AT TRADITION – CONSTRUCTION PLANS
AMENDMENT**

Adam Schildmeier, WGI, represented the Applicant. Mr. Schildmeier inquired if the record could be updated to remove Kimley-Horn, to which Chair Cox replied that she would work with IT on this. Mr. Schildmeier then stated that he did not know how to adequately address the comments related to the plat revision due to trying to shift those separately via the legal side, not via plat revision. He added that he uploaded the items to reflect the adjustment to the proposed easement crossing. Chair Cox clarified to the reviewers that this was not a change to the plat itself, that they were going to be abandoning the easement, creating a new one, and amending the plat dedication, but it would be done through separate instruments.

Chair Cox inquired if there were any changes to utility lines, to which Mr. Schildmeier responded in the affirmative and stated that per the meeting with Utilities staff, they shifted the water main. Chair Cox then inquired if that would take it outside of the platted easement, to which Mr. Schildmeier responded in the affirmative. Chair Cox asked if it would require a new easement, to which Mr. Schildmeier responded in the affirmative. Chair Cox then informed that the Construction Plans could not yet be approved until all other documents had been approved.
