**Statement of General Experience:**

I offer significant environmental project management experience in the private and regulatory sectors, providing solutions to complex environmental concerns for clients and the regulated public. Project management challenges included multiple demands, shifting priorities, ambiguity, and change. Core skills include the organization, planning, performance, management, and oversight of hundreds of site assessments and remedial actions of varying nature and complexity. I am capable of working independently with minimal supervision, or as a contributing team member. My professional relationships with Clients, co-workers, legal staff, drilling, analytical, and other subcontractors have ensured success on all projects. I am familiar with desktop hardware, Microsoft Windows Operating Systems, Office, Adobe Acrobat, and other software which I use to work more efficiently, communicate more effectively, and to be more productive.

**2013 to Present      Principal, Edward G. Rahrig, P.G. LLC, Port St. Lucie, FL**

Currently own and manage a small environmental consulting firm. Recent challenges include providing environmental site assessment reports to several different Clients, in Client-specific formats, on time and within budget. Performed tank closure assessments, site assessments, and waste characterization and disposal services. Inspected operating dry cleaner and petroleum service stations for compliance with local and State regulations. Obtained insurance and licenses, managed Clients and time, worked with vendors and scheduled work, directed business development efforts, managed banking and cash flow, maintained company financials, in addition to providing professional environmental services to the best Clients in the USA.

**2019 to 2020      Environmental Planner (Mid), CDM Smith/CCPRS, Various FEMA Field Offices and JFO, Iowa**

Mr. Rahrig successfully completed his first FEMA deployment (DR-4421-IA) as a FEMA contractor under EHP in the role of mid-level Environmental Planner. He onboarded in mid July 2019 and demobilized at the end of February 2020. This time period coincided with the early and mid-disaster response timeline. Location assignments have included Branches 2, 3/4, and the JFO based on FEMA's needs for EHP field support at any given moment. Experience includes:

- Represented EHP at RSM and SI site meetings with a variety of Applicants and prepared meeting documentation for upload to the EHP Drive;
- Report preparation and uploading into Grants Manager and the EHP Drive;
- Floodplain reviews (Cat C-F);

- Environmental reviews (Cat A-F);
- Entry of analysis data results into the draft Record of Environmental Consideration;
- Over 100 Floodplain and Environmental worksheet preparation reviews forwarded;
- Experience includes both Cat A/B and permanent Cat C-F projects;
- Familiar with Grants Manager and EHP EIMS software;
- Over \$10 MM in projects forwarded;
- Ability to work well with others in difficult conditions and challenging situations; and
- Comfortable working in both field and office environments.

**2004 to 2012                      Vice President, Solutech, Inc., West Palm Beach, FL**

Scheduled and managed multiple concurrent environmental projects working with a project team or independently, with short deadlines and conflicting goals. Relevant experience included:

- Familiarity with County, State, and Federal environmental regulations;
- Preparation of proposal scopes of work, scope modifications, and Change Orders;
- Collection of soil, surface and groundwater, soil gas, and air quality data in high traffic and remote areas, under harsh weather conditions;
- Authored and reviewed hundreds of storage tank and RCRA closures, hazardous and solid waste inspection reports, and petroleum and RCRA site assessments of all types;
- Design, performance, and supervision of groundwater investigations, vapor intrusion, and indoor air quality, radon, lead-based paint, and asbestos screening assessments;
- Desktop reviews and evaluations of third-party environmental reports;
- Site inspections for compliance with petroleum, RCRA, NEPA, CWA, CAA, TSCA, and other State and Federal environmental programs;
- Preparation and auditing of construction and operating air and water permit applications;
- Property transaction due diligence and NEPA site investigations;
- Petroleum and dry-cleaning solvent remedial actions;
- Preparation of partial and final project invoices;
- Review and evaluation of sensitive outgoing correspondence for potential complications;
- Performance, supervision, and direction of environmental field work using EPA and FDEP SOP to produce repeatable, consistent data to meet data quality objectives for decision-making purposes. Evaluated groundwater physical parameters for geochemical consistency;
- Designed and supervised installation of monitor, test, recovery, and other well types;
- Provided expert testimony, environmental permit and operating support, case guidance, and recommendations to legal and engineering Clients. Competently represented Clients in meetings with legal, regulatory, and environmental representatives, resulting in solutions acceptable to all parties;
- Ability to maintain office sampling equipment, and keep detailed field, instrument calibration, and maintenance logs;
- Trained and supervised employees and subcontractors to ensure compliance with FDEP Standard Operating Procedures, regulatory standards, protection of worker health, and compliance with safety procedures; and

- Mentored junior and mid-level geologists, engineers, and environmental specialists, and guided their professional development.

**1992 to 2004                      Project Manager, Glasgow Equipment Service, Inc.,  
West Palm Beach, FL**

Managed multiple storage tank installation, upgrade, replacement, and removal projects for this leading Petroleum Storage System Specialty Contractor. Relevant experience included:

- Performed numerous petroleum-related tank closure, site assessment, and remedial actions;
- Inspected Clients' retail and commercial petroleum storage and distribution facilities for compliance with environmental regulations. Prepared written inspection reports as needed;
- Performed monthly inspection and monitoring service for several commercial Clients;
- Authored environmental documents for Clients in accordance with EPA, State regulations, and FDEP and County guidance documents, including NEPA and historic preservation regulations;
- Reviewed the fueling needs of industrial and governmental clients, and presented site-specific fueling and storage tank system solutions to meet these needs;
- Provided Clients with design options, detailed cost estimates, and managed the engineering, permitting, and construction of their fueling system projects;
- Successfully bid on numerous fuel system construction and design-build projects for private sector and governmental Clients;
- Oversaw subcontractors and employee field work;
- Implemented the Company safety, health, and quality training programs including classroom instruction;
- Performed safety inspections and prepared reports for senior management; and
- Prepared traffic control plans, confined space entry permits, and Health and Safety Plans for Company operations.

**1989 to 1992                      Environmental Specialist and Professional Geologist, Southeast  
District of the Florida Department of Environmental Protection  
(FDEP), West Palm Beach, FL**

Managed multiple permitting, compliance, and enforcement cases for the Waste Management and Water Facilities Divisions of the State of Florida's Department of Environmental Protection Southeast District office. Relevant experience included:

- Hazardous waste compliance and enforcement inspections of permitted and unpermitted hazardous waste generators;
- Performed site inspections, prepared inspection reports, communicated Code requirements to the regulated public;
- Prepared Non-Compliance letters, Notices of Violation, Consent Orders, and Case Reports for use in enforcement cases;

**Edward G. Rahrig, P.G.**  
**1086 SW Sultan Drive**  
**Port Saint Lucie, Florida 34953**

---

- Reviewed site assessments of all types, remedial action plans, and groundwater monitoring proposals for compliance with regulations;
- Provided written review and guidance comments for signature by senior District management;
- Conducted permit-related Underground Injection Control inspections of Class I deep injection wells;
- Reviewed injection and monitor well construction and operating data used to support permit applications, issued Request for Information letters, and prepared permits for signature by the District Director; and
- Member of the Florida Injection Well Technical Advisory Committee that included FDEP, South Florida Water Management District, and U.S. Environmental Protection Agency Region IV professional staff.
