This entire proposal includes data that shall not be disclosed outside Martin County Board of County Commissioners and shall not be duplicated, used or disclosed – in whole or in part – for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offer, or as a result of or in connection with, the submission of this data, Martin County Board of County Commissioners shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit your right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in all pages of this proposal.

Martin County Board of County Commissioners
2401 S.E. Monterey Road
Stuart, FL 34996

Attn: Purchasing Division - Pur_Div@martin.fl.us

Securitas Electronic Security, Inc., (SES) is pleased to submit our proposal to become the trusted security partner for Martin County Board of County Commissioners. We are uniquely positioned to provide you with the most innovative security solutions and industry leading security services to keep your people, locations and assets secure.

As a leader in security integration and service, SES has the reach, influence and expertise to bring together the many elements that contribute to an effective security strategy. We possess the experience and resources to fully support this project.

Our regional, national and global infrastructure includes thousands of highly skilled account managers and service technicians offering unparalleled security, service and support. SES has built one of the largest national installation and service organizations in the industry, with over 1,600 associates dedicated to Electronic Security and over 700 skilled installation and service professionals, service and part locations in all major metropolitan cities in the US and Canada. This extensive network of highly trained SES personnel enables us to provide the expert service and fast response time you expect. Our world class alarm monitoring services are the best in class, winning the coveted TMA Alarm Monitoring Center of the Year three times, the most in the industry.

Your primary point of contact:

Miguel Casanova
Senior Account Manager
646-302-4611
Miguel.Casanova@securitates.com

A partnership with SES can help you increase efficiency, simplify your operations, lower your total cost of ownership and achieve maximum ROI. We look forward to providing a full presentation to you in the future.

Sincerely,

Jeff Wasden

Section 1 – Minimum Requirements

A. Proposer must be a Dell Customer Service Provider.

SES acknowledges and complies.

Securitas’ Palm City, Florida office is registered with Dell Tech Direct. The portal allows our certified techs access to DOSD (Dell On-Line Self Dispatch) and parts/tech support.

B. Proposer must employ a Microsoft Certified Systems Engineer (MCSE) that is current on all server and workstation operating systems. This technician must be assigned to the Treasure Coast (FL) area.

SES acknowledges and complies

C. Proposer must include a proposed disaster recovery plan for the access server in direct approval and cooperation from United Technologies Corporation, (UTC).

Please see the attachment – Business Resiliency Plan

D. Proposer must be a partner with Lenel and have achieved Lenel Certified Expert in all concentration areas or equivalent.

SES acknowledges and complies

May 06, 2021

To Whom It May Concern:

LenelS2, a division of Carrier Fire & Security Americas Corporation, hereby confirms that Securitas Electronic Security Inc, 3800 Tabs Drive, Ste A, Uniontown, Ohio, 44685, United States has, as of the date of this letter and continuing through June 30, 2022, an agreement with LenelS2 that authorizes Securitas Electronic Security Inc to market, resell and implement LenelS2 products and support services in United States and Canada.

Sincerely,

Jeff Stanek
President
LenelS2

A Carrier Company,

1212 Pittsford-Victor Road, Pittsford, NY 14534,

E. Proposer must be a current partner for service and equipment for the Intrepid intrusion detection system.

SES acknowledges and complies

F. Proposer must have an established partnership for servicing of HySecurity Gate operators and provide documentation to show history and duration of relationship.

SES acknowledges and complies. SES has had an established partnership with both Florida Door Control and HySecurity Gate, Inc. for 10+ years:

Florida Door Control Vendor ID: FLORI-002

Hysecurity SES vendor ID: HYSEC-001

G. Proposer must be designated under the Department of Homeland Security SAFETY Act and must be Systems and Organization Controls 2 SOC2 Compliant.

March 17, 2021 - Securitas AB, Securitas Holdings, Inc., Securitas Services, Inc., Securitas Electronic Security, Inc., and Securitas Electronic Government Security, Inc., provide Electronic Security Service (the "Technology"). The Technology consists of design, engineering, installation, service, monitoring and maintenance services for electronic security systems. The Technology also includes manuals, training and support services. This Designation will expire on April 30, 2026.

SES is SOC2 Compliant – Please see the attachment SOC2 Bridge Letter

H. Proposer assigned staff and subcontractor staff shall meet all current FBI CJIS Security Policy requirements.

SES acknowledges and complies

I. Proposer must have at least three (3), locally assigned (Martin County/Treasure Coast, FL) service technicians that are currently certified in the following:

1. Motorola Avigilon video management software
2. UTC access control platforms
3. UTC hardware
4. Lenel Certified Associate LCA & Lenel Certified Professional LCP or equivalent
5. Axis Cameras
6. Mobotix cameras
7. Dell Server Administration with Dell Online Self Dispatch (DOSD)
8. Intrepid detection equipment
9. ONSSI Video management systems
10. Burglar Alarm Systems Agent (BASA)
11. Fiber Networking Certification

SES acknowledges and complies

J. Proposer must have and provide an established web-based service request platform for multiple service requestors within the county and provide documentation of functionality.

SES delivers the next generation of security with our groundbreaking online services suite, SecureStat. Our innovative online dashboard revolutionizes the way you view your security. Integrating with your existing equipment and available on any smart device, anytime, anywhere, SecureStat makes comprehensive security management a reality.

1. **SecureStat Monitoring** - View alarm account data and activity, put systems in/out of test mode and more for a single site or all of your sites.
2. **SecureStat Fire** - Instantly view the number of fire alarms and trouble conditions that have been recorded over the last 24 hours for any site in your network.
3. **SecureStat Account Management** - Reference site maps, account detail, audit information and receive relevant news.
4. **SecureStat Service** - Initiate and track maintenance service requests.
5. **SecureStat Service Messenger** - Real-time email notices from service request to service completion.
6. **SecureStat Installation** - Initiate inquiries, track and monitor install project progress.
7. **SecureStat Alarm** - Remotely arm and disarm, check current status and alerts, bypass and manage your alarm systems, regardless of location or platform.
8. **SecureStat Managed Access** - Determine how and when facilities are accessed by modifying or deleting cardholders, remotely locking/unlocking doors and managing access schedules.
9. **SecureStat Video Health Check** - Ensure video system performance with continuous monitoring of video components for network connectivity, recording status, video loss, hard-drive operation and capacity, component temperature or pull up the video and more.
10. **SecureStat Cloud Storage** - Your video can easily and seamlessly be saved to and retrieved from cloud storage exclusively or in combination with local IP storage, with live view capabilities.

ES is also introducing SecureStat 360. See below for details.

K. Proposer must agree to assist in updating and keeping updated, the countywide inventory log for replacement/new and life cycle cost tracking.

SES acknowledges and complies.

L. All new equipment and labor must be warranted for a minimum of one year after paid invoice.

SES acknowledges and complies

M. Proposer must agree that invoicing requirements, especially at Martin County’s end of Fiscal year, must be met. *(All invoices for service and installations prior to September must be submitted to the county by the second week of September. Any Invoices due to service or other need in the Month of September must have the invoices submitted to the County no later than October 7th of that year. Any invoices submitted after that would need Board approval to transfer funds to be paid, of which representatives of the Proposer would have to request said transfer/payment in front of the Board of County Commissioners, publicly televised.)*

SES acknowledges and complies

N. All Project work (especially underground conduit) shall have as built diagrams supplied at the end of project completion in digital electronic format agreed upon with the County. Marking tape must be installed 6” to 12” above conduit in underground installations. Trace wire shall be used for all fiber optic in ground installations.

SES acknowledges and complies

O. Proposer must provide electronic digital electronic drawings of new camera, access control and other security equipment used for all locations prior to installation using an electronic format agreed upon with the County.

SES acknowledges and complies

P. Service response times shall be:		
Normal	Priority	Emergency
24-48 hours	Same day of request	Within 1 hour

SES acknowledges and complies

Normal = 24-48 Hours

Priority = Same day of request

Emergency = Within 1 hour technician will acknowledge the and provide ETA

Additional Information: Technician Experience

Reuben Thompson

Reuben is an SES install project manager. He provides guidance on service installations. He has in-depth knowledge of Martin County systems and processes gained over several years of experience on the account. His relative certifications and training are Milestone VMS, ACU hardware certified, Legacy UTC platform FCWinx as well as Diamond II and Lenel Silver certified for On Guard platform, years of experience on Axis and Mobotix cameras with access to tech support, can spec and install current servers and has access to tech support, Intrepid certified, ONSSI VMS certified, FASA/BASA certified and Advanced Fiber Network certified with FIS.

Jonathan Raynard

Jonathan is a service tech in Martin County. He has in-depth knowledge of Martin County systems and processes gained over several years of experience on the account. His relative certifications and training are local training and mentoring for Milestone VMS, years of experience and multiple certifications on Lenel hardware/software. Jonathan has years of Axis and Mobotix camera experience, Dell Server certified with access to DOSD and Tech Direct, Intrepid certified. Jonathan is currently certified in Lenel, ONSSI VMS, Axis, DMP, FASA/BASA certified, experienced in Fiber Networking.

Kyle Rhodes

Kyle is a service tech in Martin County. He has knowledge of Martin County systems and processes. His relative certifications and training are FASA/BASA certified, video and alarm training including DMP alarm used at Martin County. He is scheduled for Lenel, ONSSI certification training early 2022.

Kevin Hoock

Kevin is a service tech in Palm Beach / Martin County. He has knowledge and experience with Martin County systems and processes. He is a backup resource and support for Martin County when needed. His relative certifications and training include ONSSI, DMP and FASA/BASA certified. Kevin has many years of electronic security experience

John Harris

John is a service tech in Martin County. He has some knowledge of Martin County systems and processes. He is a backup resource and support for Martin County when needed. His relative certifications and training are DMP intrusion systems, FASA/BASA certified, video and alarm training. He also has experience on IP video Networking. John is scheduled for Lenel training early in 2022.

Tony Plasse

Tony is an SES Technology integration technician. He provides remote I.T support for Martin County access and video systems. He is a backup resource and support for Martin County when needed. Tony is currently certified in Lenel, SWH, ONSSI, FASA/BASA and DMP

Carl Schneider

Carl is the current service manager for SES S. FL. Region. SES Maintains an office in Stuart FL. within Martin County FL. He has years of experience with Martin County processes including year-end invoicing requirements. He provides training certification for support of the local techs.

Section 2 – Governmental References

Securitas ES has a long track record of successfully planning, designing and implementing complex security, infrastructure projects. For more than 155 years, Securitas ES has met the technology integration needs of multinational Fortune 500 corporations requiring global networks on a large scale, smaller private companies looking for a competitive edge, Federal Agencies, State and Local Governments.

Securitas ES knows how to partner effectively with customers such as Martin County to design and implement a high value physical security solution. Repeat business and referrals from many of the customers listed below are a testimony to the high quality and cost-effectiveness of our services.

RFP2022-3366
SECURITY & ACCESS CONTROL SERVICE, EQUIPMENT & INSTALLATION

List the total number of technicians by type that would be assigned to perform work for Martin County.	
TYPE	QUANTITY
Service Technicians	5
Install Technicians	5
Programming Technicians	3

Provide the following information for the technicians that would be assigned to perform work for Martin County.				
NAME	LOCATION OF RESIDENCE (CITY, STATE)	TECHNICIAN TYPE	YEARS OF EXPERIENCE	CERTIFICATION(S)
See the attached response				

Labor Rates (Cost per Hour)			
TYPE	NORMAL / SCHEDULED*	EMERGENCY / PRIORITY	OVERTIME
Service/Install Technician	\$91.00	\$100.00	\$137.00
Helper	\$91.00	\$100.00	\$137.00
Programming Technician	\$107.00	\$134.00	\$161.00
Project Manager	\$116.00	\$134.00	\$174.00
Design Engineer Services	\$104.00	\$126.00	\$156.00
Other Types/Rates (Cost per Hour)			
TYPE	NORMAL / SCHEDULED*	EMERGENCY / PRIORITY	OVERTIME

*Scheduled "After County Hours" would be for known & prearranged scheduled service for covert or investigations only, to ensure clandestine/covert conditions are met as needed to fulfill the security operation. This should not be considered overtime.

Provide cost markup for the following manufacturer/supplier at the lowest possible rate and be able to provide cost verification/auditing for cost analysis for equipment and services for the duration of contract. (This list must not be construed as the only equipment currently utilized by Martin County now or in the future.)	
DESCRIPTION OF EQUIPMENT TYPE/CATEGORY/MANUFACTURER/SUPPLIER	PERCENTAGE (%) MARK-UP ON SOURCE COST
UTC	25%
ONSSI	25%
LENEL	25%
AXIS	25%
LOCKNETICS	25%
LG Monitor (includes 3 year warranty parts & labor)	25%
HID Corporate 1000 access cards	25%
Other cameras not listed	25%
Other NVRs	25%
DMP alarm system	25%
Zenitel System	25%
Motorola Avigilon System	25%
All other equipment not listed	25%
Mark-up for oversight and project management for subcontractors that would perform work for Martin County contracted by proposer.*	25%

*Note that this percentage mark-up will be held firm for the term of the awarded contract.

DRUG FREE WORKPLACE CERTIFICATION

The undersigned Bidder/Contractor, in accordance with Florida Statute 287.087 hereby certifies that

Securitas Electronic Security, Inc. does:
(Name of Business)

1. Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violation of such prohibition.
2. Inform employees about the dangers of drug abuse in the workplace, the business' policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
3. Give each employee engaged in providing the commodities or contractual services that are under this bid a copy of the statement specified in subsection (1).
4. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities, or contractual services that are under bid, the employee will abide by the terms of the statement, and will notify the employer of any conviction of, or plea of guilty, or *nolo contendere* to any violation of Chapter 1893, or of any controlled substance law of the United States, or any State, for a violation occurring in the workplace no later than five (5) days after such conviction.
5. Impose a sanction on or require the satisfactory participation in a drug abuse assistance, or rehabilitation program, if such is available in the employee's community, by any employee who is so convicted.
6. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section.

As the person authorized to sign the statement, I certify that this firm complies fully with the above requirements.

Firm Name: Securitas Electronic Security, Inc.

Title of Authorized Official: Director Local Enterprise Sales

Signature of Authorized Official: 

Date: November 29, 2021

**SWORN STATEMENT UNDER SECTION 287.133 (3) (a), FLORIDA STATUTES,
ON PUBLIC ENTITY CRIMES**

THIS FORM MUST BE SIGNED IN THE PRESENCE OF A NOTARY PUBLIC OR OTHER OFFICIAL AUTHORIZED TO ADMINISTER OATHS.

1. This sworn statement is submitted for Securitas Electronic Security, Inc..
2. This sworn statement is submitted by Jeffrey Wasden
Whose business address is: 3800 Tabs Drive, Uniontown, OH 44685
and (if applicable) its Federal Employer Identification Number (FEIN) is 47-4992129.
(If entity has no FEIN, include the Social Security Number of the individual signing this sworn statement: _____)
3. My name is Jeffrey Wasden and my relationship to the entity named above is Director Local Enterprise Sales
4. I understand that a “public entity crime” as defined in Section 287.133(1)(g), Florida Statutes, means a violation of any state or federal law by a person with respect to and directly related to the transaction of business with any public entity or with an agency or political subdivision of any other state or of the United States, including, but not limited to, any bid or contract for goods or services to be provided to any public entity or an agency or political subdivision of any other state or of the United States and involving antitrust, fraud, theft, bribery, collusion, racketeering, conspiracy, or material misrepresentation.
5. I understand that “convicted” or “conviction” as defined in Section 287.133 (1) (b), Florida Statutes, means a finding of guilt or a conviction of a public entity crime, with or without adjudication of guilt, in any federal or state trial court of record, relating to charges brought by indictment or information after July 1, 1989, as a result of a jury verdict, non-jury trial, or entry of a plea of guilty or nolocontendere.
6. I understand that an “affiliate” as defined in Section 287.133(1) (a), Florida Statutes, means: (1) A predecessor or successor of a person convicted of a public entity crime; or (2) An entity under the control of any natural person who is active in the management of the entity and who has been convicted of a public entity crime. The term “affiliate” includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in the management of an affiliate. The ownership by one person of shares constituting a controlling interest in another person, or a pooling of equipment or income among persons when not for fair market value under an arm’s length agreement, shall be a prima facie case that one person controls another person. A person who knowingly enters into a joint venture with a person who has been convicted of a public entity crime in Florida during the preceding 36 months shall be considered an affiliate.
7. I understand that a “person” as defined in Section 287.133(1) (e), Florida Statutes, means any natural person or entity organized under the laws of any state or of the United States with the legal power to enter into a binding contract and which bids or applies to bid on contracts for the

provision of goods or services let by a public entity, or which otherwise transacts or applies to transact business with a public entity. The term "person" includes those officers, directors, executives, partners, shareholders, employees, members, and agents who are active in management of an entity.

8. Based on information and belief, that statement which I have marked below is true in relation to the entity submitting this sworn statement. [Please indicate which statement applies.]

X Neither the entity submitting this sworn statement, nor one or more of the officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the entity, nor any affiliate of the entity, has been charged with and convicted of public entity crime subsequent to July 1, 1989.

___ There has been a proceeding concerning the conviction before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer did not place the person or affiliate on the convicted vendor list. [Please attach a copy of the Final Order.]

___ The person or affiliate was placed on the convicted vendor list. There has been a subsequent proceeding before a hearing officer of the State of Florida, Division of Administrative Hearings. The final order entered by the hearing officer determined that it was in the public interest to remove the person or affiliate from the convicted vendor list. [Please attach a copy of the Final Order.]

___ The person or affiliate has not been placed on the convicted vendor list. [Please describe any action taken by or pending with the Department of General Services.]

Our Mission

The Business Resiliency Program works to ensure that Securitas Electronic Security, Inc. (SES) can continue to deliver products and services at acceptable pre-defined levels following a disruption in order to meet client demands and regulatory requirements.

Business Resiliency Objectives

The SES Business Resiliency Program is designed to enable the following outcomes:

- 1) Rapidly adapt and respond to business disruptions to enable continued business operations and delivery of products and services,
- 2) Manage the risks and impacts associated with a disruption to key resources,
- 3) Preserve the safety and well-being of SES associates, and
- 4) Protect SES's reputation with its stakeholders and clients.

Program Requirements

To meet the program's objectives, staff actively work to:

- Maintain a program governance structure that aligns to business strategy, drives preparedness, and enables continual improvement,
- Perform activities to assess the potential impacts of a disruption and identify resources required immediately following an event (Business Impact Analysis and Risk Assessment),
- Identify and select business resiliency strategies,
- Document strategies into plans to enable a repeatable response and recovery,
- Facilitate and participate in exercises and tests to measure response and recovery capability, build participant competencies and identify improvement opportunities.

Disaster Recovery

SES has standards/procedures for developing, maintaining and testing IT Disaster Recovery (DR) for all critical systems and applications.

Incident Response

SES's business representatives from various areas play an active role in establishing and maintaining SES's incident response structure to ensure that leaders are equipped with the tools and strategies to facilitate incident response activities.

Business Continuity

SES operates multiple, parallel alarm monitoring centers where the primary and secondary sites each have the capacity to support SES operations.

Business Impact Analysis (BIA)

The BIA allows SES to identify activities required to deliver in-scope services and analyze the effect a disruptive event might have on them. SES uses the BIA to identify recovery requirements and resources, establish recovery prioritization and timing, and determine minimum acceptable levels of service to continue to meet stakeholder expectations following a disruption.

In addition to the BIA, the Risk Assessment is a process that allows SES to identify risks, analyze their likelihood and impact, and provide a means of evaluating and prioritizing risk treatment options.

Strategy Development and Plan Documentation

Following the BIA and Risk Assessment, SES works to identify and select strategies that align to requirements and risk appetite. Once program stakeholders approve business resilience strategies, SES documents plans to drive a repeatable response and recovery effort.

Strategies and Plans are based on the following four scenarios:

- Loss of Facility
- Loss of People
- Loss of Technology
- Loss of Key Supplier

The strategy identification and selection process includes the design and implementation of response structures and teams.

Pandemic Planning

SES's plans include a loss or reduction of staff in planning strategies. A team has been identified that would make decisions based on the specific restrictions provided by authorities. This includes developing employee leave policies and enforcing quarantine recommendations.

Exercising/Testing

Exercising and testing is a process whereby the Company validates the effectiveness of response and recovery capabilities through exercise and test events. These activities serve to build participant competencies and identify continual improvement opportunities.

Program Monitoring

Business resiliency-related activities are tracked and monitored to determine overall program performance.

Continual Improvement

Throughout all program activities, including following actual disruptions, SES identifies corrective actions and improvement opportunities. Action items are documented and prioritized for program remediation and enhancement.

COVID-19 Pandemic Response FAQ

As of March 20, 2020

- 1. Does your organization have a pandemic response plan to respond to and recover from mass absenteeism events, such as Coronavirus (COVID-19)?**
 - Securitas Electronic Security, Inc. (SES) has a Pandemic Response Plan in place and a Pandemic Planning Committee (PPC). The PPC meets regularly to review pandemic and disaster recovery planning (DR) strategies. With the COVID-19 being identified as a “pandemic” by the World Health Organization (WHO), we have transitioned the PPC to our Pandemic Response Task Force (PRTF), which is chartered with navigating the situation. The PRTF will provide proper notification to our associates and clients on actions our field will need to take within impacted areas. SES is monitoring multiple government sources as well as the Centers for Disease Control (CDC), WHO, state and local agencies to help guide our plan.
- 2. Has your organization taken precautions to mitigate the spread of COVID-19?**
 - Yes, SES has provided frequent internal communications in accordance with CDC guidelines to all associates. SES has moved all non-essential associates to a “work from home” remote environment and has restricted access to all critical business facilities and functional areas, among other initiatives.
- 3. Does your organization have contingency strategies to ensure support of client service is uninterrupted during a pandemic event?**
 - SES’s disaster recovery (DR) plans are designed around business continuity. We monitor the current data being provided by federal, state and local authorities and health organizations to assure we provide uninterrupted service safely. This includes loss of facilities, which would include transitioning services to other specified SES locations. SES has multiple centers where primary and secondary sites have the capacity to support SES operations.
- 4. Does your organization have the ability for telecommuters and/or working remotely?**
 - SES has addressed this in an internal communication to all associates and has activated plans for allowing associates to work remotely from home or alternative facilities for non-essential personnel. SES has a robust video & virtual collaboration system to support a remote work environment.
- 5. Have steps been taken in your organization to address any potential impact associated with third parties that support your operation from a pandemic perspective?**
 - SES maintains regular/frequent communications with key suppliers and partners, so we are aware of any possible impact and/or delays in order to find alternate sources. A supplier/partner survey has been distributed to confirm no significant disruption to the SES supply chain.
- 6. What is your organization doing to ensure service technician/employees that visit client locations understand that they should not be reporting for work if they feel sick or have returned from travel; of particular concern being that of the countries and regions that have local pandemic outbreaks?**
 - SES is focusing on prevention methods by encouraging employees to actively take steps to reduce the transmission of contagious illness in the workplace as recommended by the CDC. Social distancing measures, including working remotely, have been implemented by SES.
 - Associates are asked to refrain from coming to work and to notify their manager immediately if they experience COVID-19 symptoms such as fever, tiredness, cough and shortness of breath, or if they have been in contact with someone who has COVID-19. Additionally, associates are asked to notify their manager and SES HR if they (or an immediate family member) has traveled to a high-risk area or are planning to do so.

- 7. Will your organization advise clients that non-essential projects may be delayed, to allow service technicians or installers to focus on high priority service calls or projects?**
- Currently SES field operations are functioning under response rates. Since the COVID-19 outbreak is a fluid situation, the SES PRTF is meeting daily to review all federal, state and local declarations regarding the COVID-19 pandemic. The PRTF then plans strategy and necessary initiatives to provide proper notification to our clients and actions our field operations teams will need to take for business continuity when there is an impacted area.
- 8. If your organization’s alarm monitoring center or service dispatch center were to close, are there contingency plans for transfer of workloads?**
- Yes, SES maintains a network of monitoring centers in Ohio, Hawaii and North Carolina and two service dispatch centers in Ohio and Minnesota. These locations function together and as disaster backup sites to mitigate the transfer of workload. The continuity of monitoring operations is a core part of the company’s DR planning and these facilities are deemed critical business facilities. SES would initiate the company’s DR plan in the event of a closure, which we do not anticipate at this time.
- 9. Is your organization allowing alarm monitoring and service dispatch employees to work remotely to avoid potential disruptions?**
- SES would transfer workload of alarm monitoring operations to backup locations to avoid potential disruptions if associates are restricted from entering a facility. This action would be implemented by the PRTF should the need arise. In addition, steps have been taken to prepare associates in these centers to work remotely if needed. The Service Dispatch teams have transitioned to a temporary “work from home” remote environment. SES continues to monitor the situation daily.
- 10. What is your organization’s threshold triggers and who/how will communications be sent to clients?**
- The SES PRTF is meeting daily to review pandemic response strategy and taking necessary steps to address the situation. The PRTF will provide proper notification relevant to clients and actions our field operations teams will need to take when there is an impacted area. Communications to clients would be relayed by the assigned Account Executive or through SES Corporate Communications. Please ensure you have whitelisted SES to be able to receive said email updates.
- 11. In the case of a locally mandated ‘shelter-in-place’ order what is the ability of SES to service clients in the affected area?**
- SES is in the life safety and security services industry; we install, service and monitor security systems. SES believes that the continued operation of these systems for our clients during a shelter in place order is critical. SES therefore considers our services to be essential and have provided our employees with letters to provide to authorities in the event they are stopped in the performance of their duties. This position is supported by the U.S. Department of Homeland Security Critical Infrastructure guidance under the “Emergency Services Sector” definition, which includes “private security organizations”. If a particular client site or area is considered extremely high risk or unsafe to enter, we will need to postpone service until the area or site is deemed safe for entry.

SES Questions to Clients

- 12. What steps have you (SES client) made to ensure that SES employees working in your facility(s) are safe to enter and provide services?**
- _____

- 13. Are you expecting SES employees to enter or access site(s) or area(s) that you will not send your own employees?**
- _____

SES maintains regular/frequent communications with our employees through internal corporate communications regarding the preparedness and measures to mitigate the spread of COVID-19. SES is focusing on prevention methods by encouraging employees to actively take steps to reduce the transmission of contagious illness in the workplace as recommended by the Centers for Disease Control and Prevention (CDC) and local health authorities. Associates are asked to refrain from coming to work and notify their manager immediately if they experience COVID-19 symptoms such as fever, tiredness, cough and shortness of breath, or if they have been in contact with someone who has COVID-19. Additionally, associates are asked to notify their manager and SES HR if they (or an immediate family member) has traveled to a high-risk area, or is planning to do so.

Additionally, SES has taken the following steps to support social distancing and hygiene instructions outlined by the CDC and local health authorities:

- All SES associates have received communications instructing them how to properly clean and disinfect their workspaces and cell phones.
- All SES associates are practicing social distancing as recommended in order to flatten the curve.
- All SES associates have received information on preventative steps to stop the spread of germs and information on observing good basic hygiene and social distancing practices to protect themselves, their work associates, and their families.
- SES has temporarily suspended the requirement of client signatures on the technician's handhelds.
- SES's technicians have been instructed to wipe down and sanitize the tools that they use such as cell phones and laptops, as well as areas where work is performed in a safe manner that provides no harm to the employees or equipment maintained.
- All SES field personnel have received hand sanitizer, disinfecting wipes, gloves and face coverings.

Subject: SES SOC2 Bridge Letter

To Whom it May Concern:

Securitas Electronic Security (SES) places a high priority in protecting the confidential information of our customers. We take active measures to ensure that all critical Information Technology (IT) systems are operated under stringent access and change control practices. We have designed our IT and Information Security policies and practices to meet the highest standards of controls and reliability and as such are audited annually by the independent audit firm RSM US LLC (RSM) to the SOC2 Type 2 requirements in the trust areas of Security, Availability, Processing Integrity and Confidentiality.

RSM completed their last SOC2 audit of Securitas Electronic Security, Inc.'s Electronic Security Monitoring Systems as of May 31, 2021. SES recognizes the need to maintain an appropriate internal control environment and report upon the effectiveness, as well as material changes to its internal controls.

As of September 14, 2021, I am not aware of any material changes in our control environment that would adversely affect the Auditor's Opinion reached in the May 31, 2021 report.

Finally, in order to conclude upon the design and effectiveness of internal controls for SES, we refer you to the Report of Independent Service Auditors along with the full SOC2 Type 2 report for 2021. This letter is not intended to be a substitute for the full SOC2 report.

Thank you,

Michael Beattie

Bruce Cunningham
Securitas Electronic Security, Inc.

Dear Bruce:

The purpose of this writing is to describe the business relationship that exists between our firms. FDC has been providing services for you since the mid 1990's.

We at FDC have enjoyed the solid relationship we have had and continue to have with you. We have worked together to provide the best solutions for your customers. The Securitas associates we have worked with take pride in their projects and hold us to a high quality standard. Your personnel are fully informed of our project scopes and are available to answer questions should they arise. All projects to date have been successful endeavors and will continue to be so in the future.

Some of the services the FDC offers and performs for Securitas:

- Provision and installation of custom gates systems
- FDC Strongweld gates and hardware
- FDC Strongweld custom pedestals and camera poles
- FDC Secura-Swing pedestrian gates
- Conduit, trenching, and pavement repair
- Electrical circuits and low voltage circuits
- Hy Security operator installations
- Concrete demo and install
- Detection loops
- Fence repair and replacement
- Turnstiles
- Electrified panic bars and misc. lock hardware

We are thankful for the relationship we have enjoyed and look forward to many successful projects in the future.

Sincerely,

Glenn Harpold
President
