The City has proposed a fee of \$467.33 per dwelling unit for the fiscal year 2025-2026. The rate is calculated by multiplying the number of dwelling units on your property by the rate of the assessment. The total number of dwelling units calculated for the above referenced parcel is «Unit» for which the City proposes a net assessment of \$«Amount» for fiscal year 2025-2026. Additionally, unpaid or delinquent fees, charges or assessments due to the City for solid waste services will be included in the solid waste services assessment. The total revenue the City will collect by the assessment is estimated to be \$44,298,314.50 for fiscal year 2025-2026. The rate of the assessment in future fiscal years without additional mailed notices is not to exceed \$513.70 per dwelling unit.

The City levies this assessment amount, using the above-described methodology, unless changed by the City Council. These assessments are collected with your property taxes by the Tax Collector of St. Lucie County. It appears on the “non-ad valorem” part of your current and future tax bills. If you do not pay the fee, a tax certificate might be issued against your property, or foreclosure proceedings may be instituted. This could result in losing ownership of your property.
