CONE OF SILENCE AND COMMUNICATION DOCUMENT*

Pass

To ensure fair consideration is given for all Proposers, it must be clearly understood that upon release of the proposal and during the proposal process, firms and their employees of related companies as well as paid or unpaid personnel acting on their behalf shall not

contact or participate in any type of contact with City employees, department heads or elected officials, up to and including the Mayor and City Council. The "Cone of Silence" is in effect for this solicitation from the date the solicitation is advertised on the OpenGov Portal, until the time an award decision has been approved by City Council and fully executed by all parties. Information about the Cone of Silence can be found under the City Code of Ordinances, Section 35.13. Contact with anyone other than the Issuing Officer may result in the vendor being disqualified. All contact must be coordinated through the Issuing Officer, for the procurement of these services.

CONTRACTOR'S CODE OF ETHICS*

Pass

The City of Port St Lucie ("City), through its Procurement Management Division ("Procurement Management Division") is committed to a procurement process that fosters fair and open competition, is conducted under the highest ethical standards and enjoys the complete confidence of the public. To achieve these purposes, Procurement Management Division requires each vendor who seeks to do business with the City to subscribe to this Contractor's Code of Ethics.

A Contractor's bid or proposal will be competitive, consistent and appropriate to the bid documents.

- A Contractor will not discuss or consult with other Vendors intending to bid on the same Contract or similar City Contract for the purpose of limiting competition. A Vendor will not make any attempt to induce any individual or entity to submit or not submit a bid or proposal.
- Contractor will not disclose the terms of its bids or proposal, directly or indirectly, to any other competing Vendor prior to the bid or proposal closing date.
- Contractor will completely perform any Contract awarded to it at the contracted price pursuant to the terms set forth in the Contract.

Contractor will submit timely, accurate and appropriate invoices for goods and/or services actually performed under the Contract.

• Contractor will not offer or give any gift, item or service of value, directly or indirectly, to a City employee, City official, employee family member or other vendor contracted by the City.

- Contractor will not cause, influence or attempt to cause or influence, any City employee or City Official, which might tend to impair his/her objectivity or independence of judgment; or to use, or attempt to use, his/her official position to secure any unwarranted privileges or advantages for that Vendor or for any other person.
- Contractor will disclose to the City any direct or indirect personal interests a City employee or City official holds as it relates to a Vendor contracted by the City.
- Contractor must comply with all applicable laws, codes or regulations of the countries, states and localities in which they operate. This includes, but is not limited to, laws and regulations relating to environmental, occupational health and safety, and labor practices. In addition, Contractor must require their suppliers (including temporary labor agencies) to do the same. Contractor must conform their practices to any published standards for their industry. Compliance with laws, regulations and practices include, but are not limited to, the following:
 - o Obtaining and maintaining all required environmental permits. Further, Contractor will endeavor to minimize natural resource consumption through conservation, recycling and substitution methods.
 - o Providing workers with a safe working environment, which includes identifying and evaluating workplace risks and establishing processes for which employee can report health and safety incidents, as well as providing adequate safety training.
 - o Providing workers with an environment free of discrimination, harassment and abuse, which includes establishing a written antidiscrimination and anti-bullying/harassment policy, as well as clearly noticed policies pertaining to forced labor, child labor, wage and hours, and freedom of association.

DISCLAIMER: This Code of Ethics is intended as a reference and procedural guide to Contractors. The information it contains should not be interpreted to supersede any law or regulation, nor does it supersede the applicable Contractor Contract. In the case of any discrepancies between it and the law, regulation(s) and/or contractor contract, the law, regulatory provision(s) and/or vendor contract shall prevail.

BUILD AMERICA, BUY AMERICA CERTIFICATION OF COMPLIANCE

This solicitation is for services related to an infrastructure project that is subject to the Build America, Buy America Act (BABAA) requirements included in the Infrastructure Investment and Jobs Act (IIJA), Pub. L. 177-58, §§ 70901-70953. Absent an approved waiver, all iron, steel, manufactured products, and construction materials used in this project must be produced in the United States, as further outlined in 2 CFR Part 184 and the Office of Management and Budget's Memorandum M-24-02 titled, "Implementation Guidance on Application of Buy America Preference in Federal Financial Assistance Programs for Infrastructure," dated October 25, 2023.

Any request for substitute or "or equal" shall include the manufacturer's certification of compliance with the Build America, Buy America Act (BABAA) requirements included in the Infrastructure Investment and Jobs Act (IIJA), Pub. L. 177-58, §§ 70901-70953.

Definitions section:

<u>BABAA</u>: The Infrastructure Investment and Jobs Act (IIJA), also known as the Bipartisan Infrastructure Deal of 2021 includes the Build America, Buy America Act that requires a Buy America Preference for federal financial assistance awards for infrastructure which stipulates that all iron and steel, manufactured products, and construction materials used in such infrastructure projects are produced in the United States.

Construction Materials: Construction materials are defined as articles, materials, or supplies that consist of only one of the following items: non-ferrous metals, plastic and polymer-based products (including polyvinylchloride, composite building materials, and polymers used in fiber optic cables), glass (including optic glass), fiber optic cable (including drop cable), optical fiber, lumber, engineered wood, or drywall. Minor additions of articles, materials, supplies, or binding agents to one of the construction materials listed above, or the inclusion of one of these listed construction materials as an input to another listed construction material, does not change the categorization of the construction material

Manufactured Product: Manufactured product are articles, supplies, or materials that have been (i) processed into a specific form and shape; or (ii) combined with other articles, materials, or supplies to create a product with different properties than the individual articles, materials, or supplies. If an item is classified as an iron or steel product, a construction material, or a Section 70917(c)

material¹ under 2 CFR 184.4(e) and the definitions set forth in 2 CFR 184.3, then it is not a manufactured product.

However, an article, material, or supply classified as a manufactured product under 2 CFR 184.4(e) and under section i and ii of this definition may include components that are construction materials, iron or steel products, or section 70917(c) materials. BABA-compliant manufactured products are produced in the United States, and the cost of components that are mined, produced, or manufactured in the United States exceeds 55 percent of the total cost of all components, with total cost calculated as follows:

- (a) For components purchased by the manufacturer, the acquisition cost, including transportation costs to the place of incorporation into the manufactured product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
- (b) For components manufactured by the manufacturer, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (a), plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the manufactured product.

Manufacturer's Certification: Documentation provided by a manufacturer certifying that the items provided by manufacturer meet the Buy America Preference requirements of BABAA.

Contractor's Responsibilities section:

All products must meet BABAA requirements.

Contractor shall include manufacturer's certification for BABAA requirements with all applicable submittals. If a specific manufacture is used in the bidding, a statement that Manufacturer will comply with BABAA requirements must be included with the bid submission. Contractor shall comply with BABAA requirements, including coordination with manufacturers, distributors, and suppliers to correct deficiencies in any BABAA documentation.

Contractor shall certify upon completion that all work and materials have complied with BABAA requirements.

For any change orders, Contractor shall provide BABAA documentation for any new products or materials required by the change.

¹ Section 70917(c) materials means "cement and cementitious materials; aggregates such as stone, sand, or gravel; or aggregate binding agents or additives."

Installation of materials or products that are not compliant with BABAA requirements shall be considered defective work. Contractor should ensure that Engineer/Architect has an approved manufacturer's certification or waiver prior to items being delivered to the project site.

By submitting an application for payment, based in whole or in part on furnishing equipment or materials, Contractor certifies that such equipment and materials, to Contractor's knowledge, are compliant with BABAA requirements.

Bidder is familiar with all laws and regulations that may affect the cost, progress, and performance of the work, including the Build America, Buy America Act (BABAA) requirements.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they
