ATTACHMENT 3-1 REVISED GRANT WORK PLAN

PROJECT TITLE: Control Structure SWW-1 Rehabilitation

PROJECT LOCATION: The Project will be located in the City of Port St. Lucie within St. Lucie County; Lat/Long (27.2865111, -80.2747083)

PROJECT BACKGROUND: Excessive nutrient loading from home fertilizer use is one of the biggest water quality issues facing the St. Lucie estuary, contributing in part to excessive algae growth. Algae blooms block sunlight from reaching plant life at the bottom of the waterway, causing them to die off and decompose in a process that depletes the amount of dissolved oxygen in the water.

The City of Port St. Lucie (Grantee) proposes to modify the SWW-1 control structure to treat runoff from 504.5-acres of tributary drainage basins. The SWW-1 structure controls flow between the Tiffany Basin (control elevation 10.5 NAVD) and the Backwell Basin (control elevation 12.5 NAVD) of the City of Port St. Lucie Eastport SWM System. The project will slow, spread, soak, and filter water before it discharges into Warner Creek and the North Fork of the St. Lucie. Expected nutrient load reduction is estimated at 17.65 lbs/yr of total nitrogen (55.0%), 3.72 lbs/yr of total phosphorus (68.5%), 5,809.56 lbs/yr of biological oxygen demand (72.0%), and 18,193.2 lbs/yr of total suspended solids (47.5%).

PROJECT DESCRIPTION: The Grantee will rehabilitate the existing manually-operated SWW-1 structure and update its operation to include remote telemetry controls, to allow the transfer of stormwater between two basins which are currently served by separate pump stations. The project will include a transfer pump at the same location to pump excess stormwater from the Tiffany Basin up to the Blackwell Basin to provide additional treatment, storm attenuation, reduce nutrient loading to the St Lucie River, and promote ground water recharge.

The DEP Grant Funds associated with this Agreement were awarded based on local contributions pledged towards the total project costs: \$224,520.28 from the City of Port St. Lucie. A summary of the local contributions will be required in the Final Report, and financial supporting documentation of locally pledged contributions shall be provided upon request.

TASKS: All documentation should be submitted electronically unless otherwise indicated.

Task #1: Construction

Deliverables: The Grantee will construct the Control Structure SWW-1 Rehabilitation in accordance with the construction contract documents.

Documentation: The Grantee will submit: 1) a signed acceptance of the completed work to date, as provided in the Grantee's Certification of Payment Request; and 2) a signed Engineer's Certification of Payment Request. Upon request by the Department's Grant Manager, the Grantee will provide additional supporting documentation relating to this task.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement no more frequently than monthly.

Task #2: Final Report

Deliverables: The Grantee will prepare a Final Report summarizing the results of the project, including all tasks in the Grant Work Plan. The Final Report must include at a minimum:

- Project location and background, project description and timeline, grant award amount and anticipated benefits.
- Financial summary of actual costs versus the budget, along with any changes required to the budget. Include any match or locally pledged contributions provided, along with other related project work performed outside of this Agreement to identify the overall project cost.
- Discussion of project schedule versus actual completion, including changes required to the schedule, unexpected site conditions and adjustments, significant unexpected delays and corrections, and/or other significant deviations from the original project plan.
- Summary of activities completed as well as those not completed and why, as well as a brief summary of any additional phases yet to be completed.
- Dated color photographs of work performed (representative of the entire project), appropriate figures (site location, site plan(s), etc.), appropriate tables summarizing data/information relevant to Grant Work Plan tasks, and appropriate attachments relevant to the project.
- Projects associated with and listed in a Water Quality Restoration Plan are expected to be maintained for the life of the project to retain reduction credits under the Plan(s) unless noted otherwise. If possible, identify the expected lifetime of the Best Management Practices (BMPs) and if there is a detailed plan to operate and maintain the system through this period. If possible, describe the amount of time, cost, and work will be required to operate and maintain the system.

Documentation: The Grantee will submit: 1) a copy of the draft Final Report in Word format; and 2) a copy of the Department-approved Final Report in Word or PDF format.

Performance Standard: The Department's Grant Manager will review the documentation to verify that the deliverables have been completed as described above. Upon review and written acceptance by the Department's Grant Manager, the Grantee may proceed with payment request submittal.

Payment Request Schedule: The Grantee may submit a payment request for cost reimbursement or match documentation following the conclusion of the task

PROJECT TIMELINE & BUDGET DETAIL: The tasks must be completed by, and all documentation received by, the corresponding task end date. Cost reimbursable grant funding must not exceed the budget amounts as indicated below.

Task No.	Task Title	Budget Category	Grant Amount	Task Start Date	Task End Date
1	Construction	Contractual Services	\$336,780.41	09/15/2021	05/31/2025
2	Final Report - Draft	No-Cost Deliverable	\$0	09/15/2021	07/31/2025
	Final Report - Final			09/15/2021	09/30/2025
Total:			\$336,780.41		

Note that, per Section 8 of Attachment 1 in the Agreement, authorization for continuation and completion of work and any associated payments may be rescinded, with proper notice, at the discretion of the Department if the Legislature reduces or eliminates appropriations. Extending the contract end date carries the risk that funds for this project may become unavailable in the future. This should be a consideration for the Grantee with this and future requests for extension.

(State and Federal Financial Assistance)**

Attachment 5-1

This part is applicable if the recipient is a State or local government or a non-profit organization as defined in 2 CFR §200.330

1. A recipient that expends \$1,000,000 or more in Federal awards in its fiscal year, must have a single or program-specific audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F. EXHIBIT 1 to this Attachment indicates Federal funds awarded through the Department of Environmental Protection by this Agreement. 3. A recipient that expends less than \$1,000,000 in federal awards in its fiscal year is not required to have an audit conducted in accordance with the provisions of 2 CFR Part 200, Subpart F-Audit Requirements. If the recipient expends less than \$1,000,000 in federal awards in its fiscal year and elects to have an audit conducted in accordance with the provisions of 2 CFR 200, Subpart F-Audit Requirements, the cost of the audit must be paid from non-federal resources (i.e., the cost of such an audit must be paid from recipient resources obtained from non-federal entities).

In determining the state financial assistance expended in its fiscal year, the recipient shall consider all sources of state financial assistance, including state financial assistance received from the Department of Environmental Protection, other state agencies, and other nonstate entities. State financial assistance does not include federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.
2. In connection with the audit requirements addressed in Part II, paragraph 1; the recipient shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. PART III: OTHER AUDIT REQUIREMENTS

(NOTE: This part would be used to specify any additional audit requirements imposed by the State awarding entity that are solely a matter of that State awarding entity's policy (i.e., the audit is not required by Federal or State laws and is not in conflict with other Federal or State audit requirements). Pursuant to Section 215.97(8), Florida Statutes, State agencies may conduct or arrange for audits of State financial assistance that are in addition to audits conducted in accordance with Section 215.97, Florida Statutes.
