St. Lucie County Chamber of Commerce

**BUSINESS
ASSISTANCE**

Before You Buy, Build, Lease or Expand

Government processes when opening or expanding a business can sometimes be unexpectedly costly and daunting. Zoning, code compliance, disabilities regulations and design standards are not areas of expertise for most business owners. We can help.

We put together a group of experts who will take a cursory look at your plans for expansion, rental space, property purchase, or even a build. These are local experts familiar with local processes. The suggestions, opportunities and informal advice they can provide could save you time, money and resources. So before you buy, build, lease or expand your business, let us take a look. It's free.

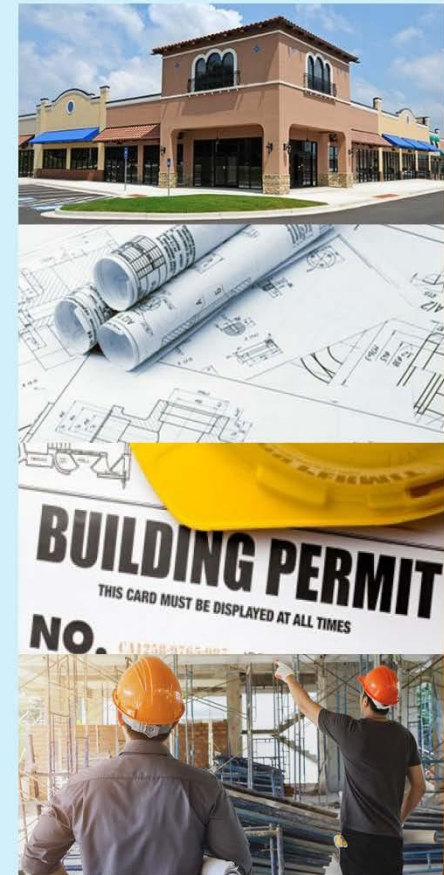

*Disclaimer - This is a free service for anyone with an existing business or plans for a business in the Chamber's service area. No outcome is guaranteed, and all discussions are confidential and non-binding.
