There being no further discussion, Councilwoman Morgan moved to approve Resolution 24-R22 with no cross access. Councilman Bonna seconded the motion to allow discussion. Vice Mayor Caraballo stated this request was different than the previous item as it sits between two lots.

Director Savage-Dunham indicated that after the Council's action at today's meeting the Applicant would have to submit a Site Plan approval. The requirement to show cross access would have to be shown on their Site Plan within their own property line. If the lots next to this lot come in for commercial then the adjacent lots would not be able to place cross access on their own property. She indicated that it would be important to show that there would be a future provision shown if they do not buy those lots. Ms. Reves added that they hope to own all three parcels and acquire both neighboring parcels. She requested that the Council require cross access if those lots are later commercially developed by someone other than them. Mayor Martin indicated that they would be unable to vote on something that was not before them. Vice Mayor Caraballo stated she would not have a problem with removing cross access if the Applicant gains ownership of the two neighboring parcels in the future; however, if another entity develops the neighboring parcels commercially cross access would be required.

Councilwoman Morgan withdrew the motion. Councilwoman Morgan moved to approve Resolution 24-R22 with a requirement for cross access to lots 13 and 15 be provided at such times those lots be developed for commercial use.
