Subject: eRFP #20210032 - City of Port St. Lucie CEI & GEO Services for the PSL BLVD North Project
Attachments: Notice #2 (1).PDF

Good morning Mr. Jason Bezak:

Please accept this email as AE Engineering's notification that our firm will not participate in the City's interview process set for Thursday, February 25, 2021. Our team attended the initial scoring and see no reason to continue with the selection process based on the initial scoring and the remaining 10-minute presentation requirement. Good luck with the City's process and this project moving forward. Thanks RM

eRFP # 20210032
Request for Proposals (RFP) for
CEI & GEO Services for the PSL BLVD North Project

Instructions to Proposers

The City of Port Saint Lucie has scheduled a Presentation / Questions and Answers Meeting for **February 25, 2021 starting @ 1:30 PM EST.**

The firms are scheduled to present as follows:

1:30 PM AE ENGINEERING, INC.

2:00 PM CONSOR ENGINEERING, LLC

2:30 PM JOHNSON, MIRMIRAN & THOMPSON, INC. (JMT)

The format will be a 20-minute time period to allow committee members to ask clarifying questions based on the firm's written responses already supplied by the firms from the firm's submittal and Q&A questionnaire.

The following format will be observed:

Up to 10-minutes for the firm's presentation. This is the first ten minutes of the session should be information that the firm deems necessary for the committee members to have a clear understanding about their proposed work plan, timeline overview of the project and approach to the project.

Up to 10-minutes for the Q&A clarifying session. This is a conversation between the committee and the firm to gain a better understanding and more insight into the firm's qualifications and fitness for the project based on the firm's submittal and the Q&A answers previously supplied to the committee and any follow up questions the committee may have.

Please limit the firm's presentation team to **no more than three team members.** All team members present must be a part of the assigned team for this project, if awarded. The Committee is allowing firms to dictate what personnel they feel is imperative to the project's success.

Visuals in the format that the firm chooses is also permitted.
