Mayor Oravec opened the Public Hearing and asked if there were any ex-parte communications to disclose, to which there was none. Ms. Tobin stated that the staff report outlined the traffic impacts of the change and it was significantly reduced as a result of moving to Low Density Residential. (Clerk's Note: A PowerPoint was shown at this time.) Ms. Tobin stated that she had been sworn in and the official file was submitted to the City Clerk 5 days prior to the hearing and asked that it be entered into the record. She stated that it was the same property and applicant as the above item, but this request was for the rezoning. She added that the Residential Estate required one-acre lots and would allow for single-family residential. She informed the City Council that the request was consistent with policies in the Zoning code and added that the Planning & Zoning Board had recommended approval. She stated that she did not believe that any other property within the City had this designation. Mr. Mowery stated that he had been sworn in and said that this was a unique request since a church was previously going to use

the site which would have disrupted the residential neighborhood. Mayor Oravec entered Jennifer Durick's comment from 8 f) into the record for this item. He inquired if there was any public who wished to speak on the item, there being none the Public Hearing was closed, and Councilwoman Caraballo moved to approve Ordinance 20-65. She stated that it abutted residential properties, but it was in line with other commercial development along Gatlin Boulevard. She explained the current land use, zoning, Concept Plan, elevations and the conversion district. She stated that it was consistent with policy and met the area requirements for the conversion district and added that the Site Plan Review Committee and the Planning & Zoning Board had recommended approval. Councilwoman Caraballo inquired as to why it was not being zoned differently since it was creating more uses, to which Ms. Dodd replied that the surrounding areas were in different classifications, which included General Commercial, mostly located at intersections with higher intensity development. She explained that the applicant's intention was to remove the higher intensity and the LMD

Classification would limit the commercial uses; she referred to the LMD Zoning as PUD Light. Jose Chaves, Story Book Holdings, stated that he had been sworn in and was available for questions. Mayor Oravec inquired if there was any public that wished to speak on this item, there being none, the Public Hearing was closed. The Mayor stated that there was a single-family home on the block and in the surrounding areas. Councilwoman Caraballo voiced that she would support the item since the applicant would not be using a more intense use. It was the consensus of the City Council to have a discussion at a future Retreat regarding the corridors in the City. Councilwoman Caraballo stated that Special Exception Uses were available and could cause issues in the future. There being no further discussion, Vice Mayor Martin moved to approve Ordinance 20-66. She stated that the property was west of I-95, north of Becker Road, east of SW Village Parkway and south of the Paar Road right-of-way.; which was located in a designated regional business center subdistrict. She said that it would provide for Tradition Trail as well as 2.6 million of industrial use, 550,000 square feet of mixed retail/office, and 750 residential units; the units would be limited to the

mixed commercial land use subarea. She explained that there would be two distinct areas: 144 acres would be a business park along I-95, 68 acres would be mixed commercial development along Becker Road and SW Village Parkway, and the remaining acres would be for road rights-of-way and stormwater. (Clerk's Note: Ms. Kean pointed out the different areas of the property on a map.) She stated that MPUD was consistent with the policies and the Planning & Zoning Board had recommended approval. Dennis Murphy, Culpepper & Terpening, stated that it had been a pleasure working with the City Council and staff on the project. [2020-810](#)

The City Clerk read Ordinance 20-68 aloud by title only. Mayor Oravec opened the Public Hearing and inquired if there was any ex-parte communication, to which there was none. Ms. Tobin stated that she had been sworn in and the official file was submitted to the City Clerk 5 days prior to the hearing and asked that it be entered into the record. She explained that the item was a request to rezone 1.46 acres, 3 lots, to Multiple Family Residential which was consistent with the Future Land Use Designation. She stated that the intent was to subdivide two of the lots into four lots which were located on the south side of SE Gena Road between SE Delano Road and SE Gena Road. She gave a brief history of the property and stated that one lot had a single-family home currently built on it while the other lots were currently vacant. She explained that a change to RM-5 would allow 7,500 square foot lots. She informed the City Council that the request was consistent with policy and the Planning & Zoning Board had recommended approval. (Clerk's Note: A PowerPoint was shown at this time.) Mr. Mowery stated that he had been sworn in and explained that the request was compatible with the neighborhood and consistent with the Comprehensive Plan and would meet all setbacks and City requirements. Mayor Oravec inquired as to what the anticipated

development would be on the lots, to which Mr. Mowery replied single-family. He inquired if Mr. Mowery spoke with any opposed public, to which Mr. Mowery replied that he spoke with and answered questions from one member of the public after the Planning & Zoning Board meeting.

Kahart Pinder stated that he had been sworn in and spoke against the rezoning stating that it was not compatible or consistent and should not be allowed. Mayor Oravec inquired if there was anyone else from the public to be heard, to which there was no one, therefore the Public Hearing was closed. Mayor Oravec stated that they recently had a similar request and denied it, but the difference in this request was a change in land use. Councilwoman Caraballo stated that the City Council did not understand the RM-5 on the denied request but understood it on this item. Councilman Carvelli inquired as to how many units could be built on the property, to which Ms. Tobin replied four 10,000 square foot lots but that did not include Lot 3. Councilman Carvelli stated that it was 1.46 acres and RM-5, therefore 5 units could be built, to which Ms. Tobin replied that Lot 3 would not be included, and Lot 1 had a curve which reduced the potential, therefore only four units could be built. Councilman Carvelli inquired as to what the total development could be on the total acreage, to which Ms. Tobin replied that the Code would allow up to five, but the request would allow four. Councilman Carvelli stated that there was opposition from the residents. Ms. Tobin explained that she spoke with the residents and explained the request to lessen the concerns.

Vice Mayor Martin moved to approve Ordinance 20-68. Councilwoman Morgan seconded the motion. Under discussion, Mayor Oravec requested the amount of undeveloped ROI districts in the City. He stated that the current land use was ROI and inquired as to what Zoning Districts were compatible per the Comprehensive Plan, to which Ms. Tobin replied RM-5, Institutional, LMD, and Professional. Mayor Oravec stated that Land Use was more important since it was a legislative act of the City Council and the Comprehensive Plan, by rule, explained which zoning was consistent with the land use. Councilwoman Caraballo voiced that the law required the City Council to move forward despite personal opinion. Mayor Oravec stated that the public could contact him through the City Council office if they had any questions or concerns.
