The County may, at its discretion and with the consent of the Contractor, renew the Agreement under all of the terms and conditions contained in this Agreement for two (2) additional one (1) year(s) periods. - 2. **COMMENCEMENT OF SERVICES.** The Contractor shall commence the work upon issuance of a Purchase Order ~~Notice to Proceed~~.
- 3. **STATEMENT OF WORK.** The Contractor shall provide services in accordance with the terms and conditions of Request for Proposal (RFP) ~~Invitation to Bid (ITB)~~ Other _____ (_____) # 23-8149, including all Attachment(s), Exhibit(s) and Addenda and the Contractor's proposal referred to herein and made an integral part of this Agreement.

The Contractor shall also provide services in accordance with **Exhibit A – Scope of Services** attached hereto.

3.1 This Agreement contains the entire understanding between the parties and any modifications to this Agreement shall be mutually agreed upon in writing by the Parties, in compliance with the County's Procurement Ordinance, as amended, and Procurement Procedures in effect at the time such services are authorized.

4. **THE AGREEMENT SUM.** The County shall pay the Contractor for the performance of this Agreement based on **Exhibit B- Fee Schedule**, attached hereto and the price methodology as defined in Section 4.1. Payment will be made upon receipt of a proper invoice and upon approval by the County's Contract Administrative Agent/Project Manager, and in compliance with Chapter 218, Fla. Stats., otherwise known as the "Local Government Prompt Payment Act".

4.1 Price Methodology (as selected below):

Lump Sum (Fixed Price): ~~A firm fixed total price offering for a project; the risks are transferred from the County to the contractor; and, as a business practice there are no hourly or material invoices presented, rather, the contractor must perform to the satisfaction of the County's project manager before payment for the fixed price contract is authorized.~~

Time and Materials: ~~The County agrees to pay the contractor for the amount of labor time spent by the contractor's employees and subcontractors to perform the work (number of hours times hourly rate), and for materials and equipment used in the project (cost of materials plus the contractor's markup). This methodology is generally used in projects in which it is not possible to accurately estimate the size of the project, or when it is expected that the project requirements would most likely change. As a general business practice, these contracts include back up documentation of costs; invoices would include number of hours worked and billing rate by position (and not company (or subcontractor) timekeeping or payroll records), material or equipment invoices, and other reimbursable documentation for the project.~~

Unit Price: The County agrees to pay a firm total fixed price (inclusive of all costs, including labor, materials, equipment, overhead, etc.) for a repetitive product or service delivered (i.e. installation price per ton, delivery price per package or carton, etc.). The invoice must identify the unit price and the number of units received (no contractor inventory or cost verification).

4.2 Any County agency may obtain services under this Agreement, provided sufficient funds are included in their budget(s).

4.3 Payments will be made for services furnished, delivered, and accepted, upon receipt and approval of invoices submitted on the date of services or within six (6) months after completion of the Agreement. Any untimely submission of invoices beyond the specified deadline period is subject to non-payment under the legal doctrine of "laches" as untimely submitted. Time shall be deemed of the essence with respect to the timely submission of invoices under this Agreement.

4.4 The County, or any duly authorized agents or representatives of the County, shall have the right to conduct an audit of Contractor's books and records to verify the accuracy of the Contractor's claim with respect to Contractor's costs associated with any Payment Application, Change Order, or Work Directive Change.

4.5 (check if applicable) ~~Travel and Reimbursable Expenses: Travel and Reimbursable Expenses must be approved in advance in writing by the County. Travel expenses shall be reimbursed as per Section 112.061 Fla. Stats.~~

The duty to defend arises immediately upon presentation of a claim by any party and written notice of such claim being provided to Contractor. Contractor's obligation to indemnify and defend under this Article 13 will survive the expiration or earlier termination of this Agreement until it is determined by final judgment that an action against the County or an indemnified party for the matter indemnified hereunder is fully and finally barred by the applicable statute of limitations.

14. **AGREEMENT ADMINISTRATION.** This Agreement shall be administered on behalf of the County by the Capital Project Planning, Impact Fees, and Program Management.
15. **CONFLICT OF INTEREST.** Contractor represents that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with the performance of services required hereunder. 1. Keep and maintain public records required by the public agency to perform the service.
2. Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the cost provided in this chapter or as otherwise provided by law.
3. Ensure that public records that are exempt or confidential and exempt from public records disclosure requirements are not disclosed except as authorized by law for the duration of the contract term and following completion of the contract if the Contractor does not transfer the records to the public agency.

The County may nullify the whole or any part of any approval for payment previously issued and the County may withhold any payments otherwise due to Contractor under this Agreement or any other Agreement between the County and Contractor, to such extent as may be necessary in the County's opinion to protect it from loss because of: (a) defective Work not remedied; (b) third party claims failed or reasonable evidence indicating probable filing of such claims; (c) failure of Contractor to make payment properly to subcontractors or for labor, materials or equipment; (d) reasonable doubt that the Work can be completed for the unpaid balance of the Contract Amount; (e) reasonable indication that the Work will not be completed within the Contract Time; (f) unsatisfactory prosecution of the Work by the Contractor; or (g) any other material breach of the Contract Documents.

If any conditions described above are not remedied or removed, the County may, after three (3) days written notice, rectify the same at Contractor's expense. The County also may offset against any sums due Contractor the amount of any liquidated or unliquidated obligations of Contractor to the County, whether relating to or arising out of this Agreement or any other Agreement between Contractor and the County.

If a subcontractor is a related entity to the Contractor, then the Contractor shall not mark-up the subcontractor's fees. 25. **WARRANTY.** Contractor expressly warrants that the goods, materials and/or equipment covered by this Agreement will conform to the requirements as specified, and will be of satisfactory material and quality production, free from defects, and sufficient for the purpose intended. Goods shall be delivered free from any security interest or other lien, encumbrance or claim of any third party. Any services provided under this Agreement shall be provided in accordance with generally accepted professional standards for the particular service. These warranties shall survive inspection, acceptance, passage of title and payment by the County.

Contractor further warrants to the County that all materials and equipment furnished under the Contract Documents shall be applied, installed, connected, erected, used, cleaned and conditioned in accordance with the instructions of the applicable manufacturers, fabricators, suppliers or processors except as otherwise provided for in the Contract Documents.

If, within one (1) year after final completion, any Work is found to be defective or not in conformance with the Contract Documents, Contractor shall correct it promptly after receipt of written notice from the County. Contractor shall also be responsible for and pay for replacement or repair of adjacent materials or Work which may be damaged as a result of such replacement or repair. These warranties are in addition to those implied warranties to which the County is entitled as a matter of law.

All inspections, tests or approvals shall be performed in a manner and by organizations acceptable to the County.

27. **PROTECTION OF WORK.**

A. Contractor shall fully protect the Work from loss or damage and shall bear the cost of any such loss or damage until final payment has been made. If Contractor or anyone for whom Contractor is legally liable is responsible for any loss or damage to the Work, or other work or materials of the County or County's separate contractors, Contractor shall be charged with the same, and any monies necessary to replace such loss or damage shall be deducted from any amounts due Contractor.

B. Contractor shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall Contractor subject any part of the Work or adjacent property to stresses or pressures that will endanger it.

28. **SUBMITTALS AND SUBSTITUTIONS.** Any substitution of products/materials from specifications shall be approved in writing by the County in advance.
29. **CHANGES IN THE WORK.** The County shall have the right at any time during the progress of the Work to increase or decrease the Work. Promptly after being notified of a change, Contractor shall submit an estimate of any cost or time increases or savings it foresees as a result of the change. Except in an emergency endangering life or property, or as expressly set forth herein, no addition or changes to the Work shall be made except upon modification of the Purchase Order by the County, and the County shall not be liable to the Contractor for any increased compensation without such modification. No officer, employee or agent of the County is authorized to direct any extra or changed work orally. Any modifications to this Agreement shall be in compliance with the County Procurement Ordinance and Procedures in effect at the time such modifications are authorized.
30. **AGREEMENT TERMS.** If any portion of this Agreement is held to be void, invalid, or otherwise unenforceable, in whole or in part, the remaining portion of this Agreement shall remain in effect.
31. **ADDITIONAL ITEMS/SERVICES.** Additional items and/or services may be added to this Agreement in compliance with the Procurement Ordinance, as amended, and Procurement Procedures.
32. **DISPUTE RESOLUTION.** Prior to the initiation of any action or proceeding permitted by this Agreement to resolve disputes between the parties, the parties shall make a good faith effort to resolve any such disputes by negotiation. The negotiation shall be attended by representatives of Contractor with full decision-making authority and by County's staff person who would make the presentation of any settlement reached during negotiations to County for approval. Failing resolution, and prior to the commencement of depositions in any litigation between the parties arising out of this Agreement, the parties shall attempt to resolve the dispute through Mediation before an agreed-upon Circuit Court Mediator certified by the State of Florida. The mediation shall be attended by representatives of Contractor with full decision-making authority and by County's staff person who would make the presentation of any settlement reached at mediation to County's board for approval. Should either party fail to submit to mediation as required hereunder, the other party may obtain a court order requiring mediation under section 44.102, Fla. Stat.
33. **VENUE.** Any suit or action brought by either party to this Agreement against the other party relating to or arising out of this Agreement must be brought in the appropriate federal or state courts in Collier County, Florida, which courts have sole and exclusive jurisdiction on all such matters.

The Contractor shall assign as many people as necessary to complete required services on a timely basis, and each person assigned shall be available for an amount of time adequate to meet required services.

35. **ORDER OF PRECEDENCE.** In the event of any conflict between or among the terms of any of the Contract Documents, the terms of solicitation the Contractor's Proposal, and/or the County's Board approved Executive Summary, the Contract Documents shall take precedence.

ORDER OF PRECEDENCE (Grant Funded). ~~In the event of any conflict between or among the terms of any of the Contract Documents and/or the County's Board approved Executive Summary, the terms of the Agreement shall take precedence over the terms of all other Contract Documents, except the terms of any Supplemental Conditions shall take precedence over the Agreement. To the extent any conflict in the terms of the Contract Documents cannot be resolved by application of the Supplemental Conditions, if any, or the Agreement, the conflict shall be resolved by imposing the more strict or costly obligation under the Contract Documents upon the Contractor at County's discretion.~~

36. **ASSIGNMENT.** Contractor shall not assign this Agreement or any part thereof, without the prior consent in writing of the County. Any attempt to assign or otherwise transfer this Agreement, or any part herein, without the County's consent, shall be void. If Contractor does, with approval, assign this Agreement or any part thereof, it shall require that its assignee be bound to it and to assume toward Contractor all of the obligations and responsibilities that Contractor has assumed toward the County.

Contractor shall be required to maintain records on each employee and make them available to the County for at least

four (4) years. All of Contractor's employees and subcontractors must wear Collier County Government Identification badges at all times while performing services on County facilities and properties. Contractor ID badges are valid for one (1) year from the date of issuance and can be renewed each year at no cost to the Contractor during the time period in which their background check is valid, as discussed below. All technicians shall have on their shirts the name of the contractor's business.

The Contractor shall immediately notify the Collier County Facilities Management Division via e-mail (DL-FMOPS@colliercountyfl.gov) whenever an employee assigned to Collier County separates from their employment. This notification is critical to ensure the continued security of Collier County facilities and systems. Failure to notify within four (4) hours of separation may result in a deduction of \$500 per incident.

Collier County Sheriff's Office (CCSO) requires separate fingerprinting prior to work being performed in any of their locations. This will be coordinated upon award of the contract. If there are additional fees for this process, the Contractor is responsible for all costs.

Collier County, as the owner of the property where the project is taking place shall be the only entity allowed to refuse access to the project. However, this decision shall only be made by Collier County's Risk Management Division Safety Manager and/or Safety Engineer.

DETAILED SCOPE OF WORK

1. General Vendor Requirements:

- a. The Vendor must supply sample kits within 48 hours of request. The kits must contain properly pre-cleaned/pre-preserved/pre-labeled (or required preservatives in a separate container) sample containers (tightly sealed), coolers, electronic chain of custodies, shipping account info/packing slips or QC samples (e.g. trip blanks) at no cost to the County. The Vendor must pay for all shipping costs associated with sample kits.
- b. The Vendor must pay for all shipping costs of sending samples to their sub-contracted laboratory(s).
- c. Provide reports in Excel, and PDF. Both formats may be required, depending on the project. Electronic Data Deliverables (EDDs) must have no critical errors. Should critical errors be identified, data provider must revise the EDD.
- d. Results must be available within ten (10) business days after receipt of the samples by the laboratory.
- e. All results reported must include the program/project name, the County's ID number, station, name of the analyte, result qualifier, detection limit, practical quantitation limit, dilution used, preservative(s) used, the date/time collected/received, date/time analysis performed, and analyst name, laboratory certification number (including subcontractors) and method used.
- f. Results for samples that have multiple analytes shall be listed on one report sheet. Results for samples with a single analyte can be combined in table form.
- g. Laboratory must notify the applicable County section representative via email:
 1. Within 24 hours of sample receipt if analysis cannot be performed.
 2. If the sample can't be analyzed without qualifying the data due to the following reasons: sample out of hold, out of temperature, or improperly preserved, insufficient sample volume or the sample was broken in transit. Once notified, the County will decide whether the laboratory should continue with the analyses. If the County has not been contacted or decides not to go forward with the analyses due to it needing to be qualified, the County will not pay for the analyses.
- h. In the event samples are lost by the Lab or not properly analyzed (incorrect analytes analyzed, samples analyzed beyond approved holding times without County authorization, etc.) the vendor will be liable for costs incurred by the County for collecting additional samples.
- i. The County reserves the right to reject without charge any data that is qualified due to vendors failure and the vendor is responsible for the cost of resampling and shipping.
- j. If a rush charge is needed to analyze sample to avoid data being analyzed out of hold due to the County submitting a sample outside a reasonable holding time, that rush charge must be authorized by the County.
- k. The County can request results within 72 hours. A rush fee may be applicable.
- l. Laboratories may subcontract a portion of the analysis to other facilities, i.e. cyanotoxins. The other facilities are subject to the same requirements in this contract. The Vendor must be responsible for the cost of all packing and shipping of samples and containers that will be sent to other laboratories for subsequent analysis.
- m. The County shall not be charged a sample disposal fee.

- n. Should the initial and re-analysis fail and not support the validity of results the county may withhold payment for analysis of the specific analytes failing the validation test.
- o. Results must be signed by the QA/QC officer or his/her representative of the company verifying the authenticity of the analyses.
- p. The Vendor must complete all Chain of Custody forms as appropriate and return the original completed forms to appropriate County Department/Division.
- q. For all analyses, results should be reported within the linear range and below the highest calibration standard.
- r. Samples shall not be diluted to produce a result that is below the detection limit at an elevated level of detection.
- s. Data qualifiers shall follow 62-160 F.A.C.
- t. The County reserves the right to site audit the awarded Laboratory(s) facility.

2. Category A – Additional Requirements
