Solid Waste Task Force: For Review

Were you nominated or recommended to apply by the Mayor or a Councilmember?

Yes No

Please Agree with the Following Statement

I have read and guarantee that I meet all the requirements for board service.

I Agree

Interests & Experiences

Why are you interested in serving on a board or committee?

As a resident I have been impacted by service failures of Waste Pro. I would like to be part of the solution.

Why do you think you are qualified to serve on this board or committee?

With a BS in Industrial Engineering and 34 years experience in a public utility, I gained a wealth of experience in solving problems, with the firm belief that there is always a better way to do almost anything. But there is always the requirement that the workforce must be properly trained and equipped for the task at hand.

Brief description of Education & Experience

My college degree is a BS in Industrial Engineering. IE focuses on streamlining processes and on quality control. While I did not spend my career in a manufacturing setting, I found almost daily opportunities to use the thought processes I was taught in my career as an Engineer and a Supervising Engineer with Philadelphia Electric Company, a public utility.
