**RE: P21-047. CITY OF PSL – COMPREHENSIVE PLAN TEXT  
AMENDMENT TO THE FUTURE LAND USE ELEMENT;  
SPECIFICALLY, POLICY 1.1.4.13**

**DATE: MARCH 24, 2021**

---

**BACKGROUND:**

This is a City initiated text amendment to Policy 1.1.4.13 of the Future Land Use Element of the Comprehensive Plan. This revision is being proposed to address the Institutional (I) zoning district as a compatible zoning district with the Residential, Office, Institutional (ROI) future land use designation.

Currently, the Residential, Office, Institutional (ROI) future land use designation is the one of the City's transitional land use to serve development along major corridors identified in the City's comprehensive plan. Residential, Office, and Institutional (ROI) has been, and is an effective transitional land use, but it is not without its issues. Historically, these issues have to do with the permitted zoning districts permitted with the Residential, Office, Institutional (ROI) future land use; specifically the Institutional (I) zoning district.

**ANALYSIS:**

As outlined in Policy 1.1.4.13, the compatible zoning designations for the Residential, Office, Institutional (ROI) future land use include: Professional (P), Institutional (I), Medium Density Residential (RM-5) and residential PUD (Planned Unit Development) zoning districts. While all these zoning destinations have a place in the City, not all these zoning designations are appropriate in a transitional situation. This amendment is intended to address the

To address this concern, the proposed amendment would delete Institutional (I) zoning from the compatible zoning districts for the Residential, Office, Institutional (ROI) future land use designation. It is important to point out that many typical institutional uses are encompassed in the definition of "enclosed assembly area." Enclosed assembly area is defined as, "Any enclosed area, building, or structure where people assemble for a common purpose, such as social, civic, cultural, recreational and/or religious purposes, whether owned and/or maintained

by a for-profit or not-for-profit entity, and include, but is not limited to, public assembly buildings such as auditoriums, theaters, halls, private clubs and fraternal lodges, assembly halls, exhibition hall, convention center, and places of worship, or other areas, buildings or structure that are used for religious purposes por assembly by persons. Day care centers will be considered an enclosed assembly area”. Several uses are encompassed in the enclosed assembly area definition and accommodates several institutional type uses so those uses will still be allowed in the other compatible zoning districts.

Table 1 below identifies the uses allowed in each zoning district considered compatible with the Residential, Office, Institutional (ROI) future land use designation when the Institutional (I) zoning district is removed.
