11. Resolutions

- 11.a** Resolution 25-R28, Quasi-Judicial, Public Hearing, a [2025-497](#)
Resolution Granting a Special Exception Use, Pursuant to
Section 158.124(C)(11) of the Zoning Code, to Allow a
Convenience Store with Fuel Sales in the CG (General
Commercial) Zoning District for a Project Known as Murphy
USA (P24-096) Located at the Northeast Corner of SW Port
St. Lucie Boulevard and SW Bayshore Boulevard.

The City Clerk administered the Oath of Testimony.

The City Clerk read Resolution 25-R28 aloud. The Council confirmed there was no ex-parte communication.

Francis Forman, Planner III, Planning and Zoning Department, presented the Special Exception Use Application.

Councilwoman Morgan asked clarifying questions relating to the ingress and egress on Port St. Lucie Boulevard.

Vice Mayor Caraballo inquired about the landscaping buffering, to which Planner Forman clarified that proper hedges would be installed.

The Applicant was present via Zoom; however, they did not have any comments.

Vice Mayor Caraballo expressed concern over the lack of a landscape buffer based on the renderings provided. She stressed the importance of adequate buffering as the area was a City gateway and that it included a gateway sign.

Councilwoman Morgan noted that the landscape plan was included. Vice Mayor Caraballo expressed concern over the height of the landscape buffer.

Mary Savage-Dunham, Director of Planning and Zoning, indicated that if the City Council had a desire to ensure enhanced landscape buffering behind the gateway, they certainly could approve the SEU to include that condition. She noted that the current landscape plan was only a conceptual one.

Vice Mayor Caraballo stated she would like to find a way to condition the approval of the SEU. She asked the Staff to recommend a language to include a condition.

Director Savage-Dunham recommended that the Council provide height restrictions on the hedge and noted that the City typically refers to the City's landscape architect to recommend certain shrubs that would provide proper screening.

Mayor Martin and Councilwoman Morgan indicated they were hesitant to say what should be placed as the hedge, as they were not landscape architects and would prefer to leave it to their discretion.

Senior Deputy City Attorney Elizabeth Hertz offered the City Council potential language for conditional approval of the SEU. She noted that the site plan must comply with the standards that the City's landscape architect thinks are necessary to ensure adequate screening and buffering, according to Section 158.260(D) of the City Code, and that it may go above and beyond what the City's standard code specifications are, thereby giving leeway for the professional to go above and beyond standard code.

Vice Mayor Caraballo stated she agreed with the language provided by Attorney Hertz.

Councilman Pickett explained that the last thing he wanted to see coming into the City was a gas station. He noted that it will be difficult to navigate that area and stated he did not agree with another gas station being added on Port St. Lucie Boulevard.

Councilwoman Morgan explained that the Turnpike Interchange would be changing in the future.

The City Clerk provided Colt Schwerdt, Director of Public Works, the Oath of testimony. Director Schwerdt advised that the Bayshore portion of the Turnpike Interchange would still exist, as it would be for those traveling south, and the new portion for those traveling north would be south of the bus ride parking lot.

Mayor Martin noted that the property location has been a gas station twice now.

Vice Mayor Caraballo explained the Council was unable to vote it down based on it becoming a gas station.

Mayor Martin opened the Public Hearing. There being no one, Mayor Martin closed the Public Hearing.

Vice Mayor Caraballo moved to approve Resolution 25-R28 with the following conditions: that the Site Plan must comply with the standards that the City's Landscape Architect thinks are necessary to ensure adequate screening and buffering pursuant to City Code Section 158.260 (D) and that it may go above and beyond what the City's Standard Code specifications are, thereby giving some leeway for the professional to go above and beyond standard code and to include the Staff's recommendation that before the issuance of the first building permit, a City Gateway Sign easement shall be recorded for the proposed location

provided on the conceptual plans in a form reviewed and accepted by the City. Councilwoman Morgan seconded the motion, which passed unanimously by voice vote.

- 11.b** Resolution 25-R44, Public Hearing, a Resolution of the City of Port St. Lucie, Florida, Approving the Extension of the Community Redevelopment Agency in Accordance with Section 163.3755(1), Florida Statutes, from September 30, 2039 to June 11, 2055; Providing for Conflict; Providing for Severability; Providing an Effective Date.
