Sandpiper and discussed the two file IDs for this project. She stated that they were willing to work with the developer, but he was not making himself available.

Resident John Keck spoke on homeowners being cited for the amount of political signs on their property, but not candidates.

Vice Mayor Caraballo asked for clarification on the two file IDs for Sandpiper, to which Planning & Zoning Director Mary Savage-Dunham stated that P24-033 was the Comprehensive Plan Amendment (Land Use change) and P24-070 was the PUD Amendment and noted that there was still an insufficient application for the PUD so they were waiting to obtain the traffic study. Vice Mayor Caraballo requested for staff to send a courtesy email to the applicant to hold meetings with the residents, and she discussed the political signage regulations, noting that the regulations were for all signs and not just political. Eric Sexauer, Tradition Community Development District, discussed the plans for TIM and stated that they were waiting for NHTSA (National Highway Traffic Safety Administration) approval which will take TIM out of the round-about, and that they were in the process of completing the trail in Western Grove which would make TIM move out of the roadway and onto the trail. He also noted that the CDD Engineer already placed an order for replacement delineators. Mr. Sexauer noted that TIM does not operate inside of communities, and he discussed the various shuttle stops.
