Mayor Martin stated the City received over 50 applications for the Solid Waste Task Force (SWTF) Committee and thanked those who took the time to apply. She explained she wanted to add more members for

additional citizen input and to ensure a good balance among the Council districts.

Vice Mayor Caraballo stated the Bylaws, under Article XIII - General Rules, reads: "Section 1. The following general rules shall apply to the conduct of the Solid Waste Task Force Members of the Committee, through the Chairperson, may ask questions at any point." She said Article XIV - Parliamentary Authority refers to Robert's Rules of Order, so the aforementioned is not necessary.

She stated that Section 2 reads, "City staff are not prohibited from serving on the Committee if they are representative of a required specialty member on the Committee. The Solid Waste Division Director can only function as the authorized staff for the Committee." Vice Mayor Caraballo expressed her concern of staff serving on the Committee. She indicated the City Manager and City Attorney both said that probably was not the intent.

Mayor Martin stated that this language should be taken out. She said she made sure no City employees applied during the application process, because she did not think it was right or fair. City Manager Blackburn stated there was no intent to have City employees on the Committee. He said the City will staff the Committee, but the City has no voting rights. He stated it is a citizen led committee with recommendations to the Council.

There being no further discussion, Councilwoman Morgan moved to approve Resolution 21-R127. Councilman Pickett seconded the motion.

Under discussion, Vice Mayor Caraballo clarified they were modifying the language from 9 to 11 members with two alternates and removing the language regarding City employees serving on the Committee.

Councilman Pickett asked that the Bylaws be e-mailed to the newly elected members once the amendments have been made, to which the City Clerk responded in the affirmative.

Mayor Martin noted that the first meeting of the Solid Waste Task Force is on Thursday, October 14th, and that she will be there to greet everyone.

Vice Mayor Caraballo stated that Mayor Martin did a great job on selecting the members for this Committee. Mayor Martin said for those who were not selected, other Committees and Boards will be coming in the future, so they can stay engaged and apply for those as well. She stated she will send a note to properly thank the applicants and encourage them to stay engaged.

The City Clerk restated the motion as follows: to approve Resolution 21-R127 with the amendments of eleven (11) members and two (2) alternates and the removal of language in the Bylaws as stated. The motion passed unanimously by roll call vote.

[2021-804](#)

Russ Blackburn, City Manager, stated the City was presented an opportunity to swap a number of small parcels in the Tesoro area for a larger parcel that is not in the City's base housing area. He said staff would like Council's review and approval.

David Graham, Assistant City Manger, presented a PowerPoint presentation on the Tesoro PUD Land Swap Proposal. He stated the City has been offered two parcels on Southbend Boulevard a half mile south of Jessica Clinton Park. He said the parcel total is just over 4.5 acres and is separated by a drainage canal. He explained a team of staff members walked the site and were excited about the potential of these properties. He said their findings were presented to the High Performance Public Spaces Team and they agreed it would be beneficial to acquire the property.

Mr. Graham explained that Parcel A is just over 1.8 acres and is considered good for a trailhead for the Southbend Trail. He said it could also serve as a neighborhood park or general open space for the public. He stated that Parcel B, just south of the canal, has possible use for a CIP staging area and parallels the E-4 drainage canal, which is the primary outfall for 8,000 residential acres to the east. Mr.

Graham indicated that Mr. Dunton noticed tremendous build up towards the pipe going under the road that would need to be addressed fairly soon. He said Mr. Dunton was also excited about removing some exotics from both parcels, because of the wonderful natives on the property.

Mr. Graham stated that in exchange for the two Southbend parcels, RM Tesoro would receive the eight (8) City-owned residential lots located within the Tesoro PUD. He said these parcels were escheated to the City from the St. Lucie County Board of County Commissioners. He stated if Council approves moving forward, staff will prepare a City Council agenda item, inclusive of the required Ordinance and disclose all financial obligations and related considerations for Council to make an informed decision.

Vice Mayor Caraballo moved to approve Item 13.a, the Authorization of Staff to Negotiate a Land Swap of Eight (8) City-Owned Single-Family Parcels in the Tesoro Planned Unit Development (PUD) in Exchange for Two "Open Space" Parcels Totaling 4.51 Acres Along the Western Side of SE Southbend Boulevard Approximately Midway Between SE Port St. Lucie Boulevard and SE Becker Road. Councilman Pickett seconded the motion.

Under discussion, Vice Mayor Caraballo stated she was excited about the potential and the availability of open property. She said in discussing high performing spaces, they have considered using the City's stormwater ponds and other assets to provide similar amenities to what is on Crosstown, such as walking trails, exercise stations, etc. Mayor Martin agreed and stated that they were moving towards open space and land preservation. She said they will be talking about this at Council's October 18th meeting.

The motion passed unanimously by voice vote.

Vice Mayor Caraballo asked for an update on Waste Pro. City Manager Blackburn stated they were moving in the right direction after planning, labor, and equipment had caused some issues. He said that Waste Pro is starting to get their equipment back and new equipment is being delivered weekly. He informed Council that there were no missed or incomplete routes on Friday, which is the first time in months. Mayor Martin added that the complaints are way down and she hopes that stays consistent.

City Manager Blackburn explained that City employees were helping to pick up the yard debris, but have now been released back to their normal jobs. Carmen Cappezuto, Neighborhood Services Director, added that in addition to the influx of trucks from now until the end of the year, Waste Pro is planning for two trucks in each quarter of 2022 to keep up with the growth, as the City plans for 300 to 400 homes per month.

Vice Mayor Caraballo stated it will take some time to rebuild the confidence from the residents, so it is important they continue to work together to never have these issues again. Mayor Martin and Vice Mayor Caraballo thanked the staff and employees for stepping up.
