## 2022 POINT IN TIME HOMELESS COUNT

### General Information

The Point-in-Time (PIT) count is a count of sheltered and unsheltered **literally** homeless persons on a single night in January. Treasure Coast Homeless Services Council, Inc. conducted its 2022 Point in Time Count on **January 31, 2022**. To be counted in the PIT count, individuals must be literally homeless (sleeping on the street, in a car, in the woods, in camp, etc.) or sheltered (emergency shelter, transitional shelter, hotel paid for by an Agency). There was a total of 24 agencies that surveyed unsheltered homeless individuals during the PIT count and a total of 7 agencies that reported sheltered homeless individuals.

### 2022 Homeless Data

On January 31, 2022, there were a total of 846 individuals (668 adults and 178 children) who were counted as homeless on the Treasure Coast. These numbers show a 4% increase from the 2021 PIT count.

### Couch Surfers

Additional individuals temporarily staying with family or friends because of economic reasons (“couch surfers”) are not considered homeless in this count. An additional 1,986 households were reported as couch surfers by participating agencies during the Point in Time count. This is up from 1,319 during 2021, which is a 51% increase over last year’s numbers.

### Methods

The Point in Time (PIT) numbers reflect the official homeless numbers, as reported to HUD by the Continuum of Care. We utilize street outreach teams, service organizations, school homeless liaisons, and shelter programs to provide an accurate count of individuals who meet HUDs definition of homelessness, counted on one specific day in the last 10 days of January. For validation purposes, we have deleted any duplicates and double checked HMIS to verify program enrollment on the day of the count. This method of counting has been utilized for all homeless data provided by this Continuum of Care and is an accurate way to show trends in homelessness.
