Subject: New Cell Tower

Councilman Pickett:

I am writing you today concerning the upcoming vote for the new cell tower to be erected in Saint Lucie West near my home in The Vineyards.

I am wholeheartedly against this installation for a specific reason. It has nothing to do with NIMBY (Not In My Back Yard). It is simply that I am not aware of any actual need for an eyesore like this to be erected. There does not seem to be any current need for improved cellular service in our area, according to my research. So why would we need to erect another large and unattractive cell for minimal or no public benefit?

If you have some information about the benefit to the community that this new cell tower would provide, other than enriching the property owner on which it is to be erected, can you please enlighten me.

I understand a larger version of this project has already been rejected by the council. I wonder then, why the council would now approve a slightly shorter version of the same thing.

It's not the height of the tower I object to, but I question the actual good it would provide a beautiful residential community like Saint Lucie West vs. the eyesore it would create.

I respect your judgement and would love to hear any thoughts you might have concerning this issue.

Respectfully,

Gary Clark

Subject: FW: PROTECT YOUR PROPERTY VALUES!!!

My wife and I just moved to PSL and bought a very nice home in the beautiful Country Club Estates neighborhood. We DO NOT support the construction of the cell tower that reduces our property value!!! While I'm new to the area, there are a LOT of vacant lots that won't hurt the people it serves.

Thank you,

Jim & Suzanne Feight

To Council members David Pickett, Shannon Martin, Stephanie Morgan, Jolien Caraballo, Mayor Greg Oravec,

We ask you to support us in preventing this cell tower installation Special Exception Use P21-082 application near our homes.

Please listen to our pleas and help us to deny this attack on the residential character of our neighborhoods here in St Lucie West.

Numbers 1, 2, and 3 below represent the key reasons highlighted in the rebuttal presentation to be presented at the July 12, 2021, Council Meeting. The presentation prepared by the Saint Lucie West Country Club Estates includes factual data in support of denying P21-082.

1. APPLICANT HAS FAILED TO SHOW PROOF OF COMPLIANCE WITH ARTICLE XIII SECTION 158 OF CITY CODE.
2. THE AREA AROUND THE PROPOSED SITE IS PRIMARILY RESIDENTIAL. REPRESENTING OVER 2500 RESIDENTS. HOME VALUES UP TO 4500 FEET AWAY WOULD BE NEGATIVELY AFFECTED FROM 2% TO 21% OR MORE.
3. 5G TECHNOLOGY WILL ULTIMATELY MAKE 2,3,AND 4G LTE OBSOLETE. 5G USES ANTENNA THAT WILL BE INSTALLED ON EXISTING INFRASTRUCTURES AND NOT ON MONOPOLES OR TOWERS.
4. DATA READILY AVAILABLE DEMONSTRATES THAT THERE IS NO NEED FOR AN ADDITIONAL TOWER IN THE PROPOSED SITE.

The rebuttal presentation will show that the applicant is clearly pursuing the installation of a monopole for RG Towers LLC., financial gain, and not for the need. Moreover, RG Towers, LLC financial gain would be to the detriment of adjacent property owners demise.

Thank you,

Subject: Cell Tower Saint Lucie West

To Council members David Pickett, Shannon Martin, Stephanie Morgan, Jolien Caraballo, Mayor Greg Oravec,

We ask you to support us in preventing this cell tower installation Special Exception Use P21-082 application near our homes.

Please listen to our pleas and help us to deny this attack on the residential character of our neighborhoods here in St Lucie West.

Numbers 1, 2, and 3 below represent the key reasons highlighted in the rebuttal presentation to be presented at the July 12, 2021, Council Meeting. The presentation prepared by the Saint Lucie West Country Club Estates includes factual data in support of denying P21-082.

APPLICANT HAS FAILED TO SHOW PROOF OF COMPLIANCE WITH ARTICLE XIII SECTION 158 OF CITY CODE.

THE AREA AROUND THE PROPOSED SITE IS PRIMARILY RESIDENTIAL. REPRESENTING OVER 2500 RESIDENTS.

HOME VALUES UP TO 4500 FEET AWAY WOULD BE NEGATIVELY AFFECTED FROM 2% TO 21% OR MORE.

5G TECHNOLOGY WILL ULTIMATELY MAKE 2,3,AND 4G LTE OBSOLETE. 5G USES ANTENNA THAT WILL BE INSTALLED ON EXISTING INFRASTRUCTURES AND NOT ON MONOPOLES OR TOWERS.

DATA READILY AVAILABLE DEMONSTRATES THAT THERE IS NO NEED FOR AN ADDITIONAL TOWER IN THE PROPOSED SITE.

The rebuttal presentation will show that the applicant is clearly pursuing the installation of a monopole for RG Towers LLC., financial gain, and not for the need. Moreover, RG Towers, LLC financial gain would be to the detriment of adjacent property owners demise.

Thank you,

sa

Dear Sir,

In addition to all the reasons we do not want or need this structure here, I find it Damn insulting and presumptuous that RG Towers LLC ALREADY SHOWS THIS PROPOSED TOWER ON ITS COMPANY WEBSITE, where company accomplishments are listed. These people have some nerve !!!! I would not trust this group one bit !

Please deny Special Exception Use P21-082 approval. We are a residential area at Country Club Estates whose quality of life will be adversely affected. The P21-082 is definitely not a benefit to our community of roughly 2500 residents, nor is it needed. This "exception" to City Code is not worthy of approval. G. Landen

Subject: Cell tower in County Club Estates

To whom it may concern:

We live at 1425 SW Osprey Cove in County Club Estates. We did attend the Committee hearing last month and found it a bit unnerving. The big issue to us was when asked about the need, all she said was that people are complaining that they are getting cell phone coverage dropped frequently. No hard evidence proving her claim. We have Verizon and have NEVER had a call dropped. My guess is that MOBILE ONE customers are complaining and it is a fact that MOBILE ONE has coverage issues nationwide. They are a cheaper provider for a reason. We also feel that technology is changing so rapidly that cell towers will not be needed to be so close together. 5G technology will make these towers absolute in a few years. This is nothing more than a revenue source for some, at the expense of homeowners health and financial well-being. We were very disappointed in the lack of due diligence that the committee performed. They simply didn't care enough. It should not have advanced this far. Please vote against this tower.

Subject: Objection: cell tower installation Special Exception Use P21-082 application

Executive Assistant to Stephanie Morgan, Jolien Caraballo, and Shannon Martin

To Council members David Pickett, Shannon Martin, Stephanie Morgan, Jolien Caraballo, Mayor Greg Oravec,

We ask you to support us in preventing this cell tower installation Special Exception Use P21-082 application near our homes.

Please listen to our pleas and help us to deny this attack on the residential character of our neighborhoods here in St Lucie West.

Numbers 1, 2, and 3 below represent the key reasons highlighted in the rebuttal presentation to be presented at the July 12, 2021, Council Meeting. The presentation prepared by the Saint Lucie West Country Club Estates includes factual data in support of denying P21-082.

1. APPLICANT HAS FAILED TO SHOW PROOF OF COMPLIANCE WITH ARTICLE XIII SECTION 158 OF CITY CODE.
2. THE AREA AROUND THE PROPOSED SITE IS PRIMARILY RESIDENTIAL. REPRESENTING OVER 2500 RESIDENTS. HOME VALUES UP TO 4500 FEET AWAY WOULD BE NEGATIVELY AFFECTED FROM 2% TO 21% OR MORE.
3. 5G TECHNOLOGY WILL ULTIMATELY MAKE 2,3,AND 4G LTE OBSOLETE. 5G USES ANTENNA THAT WILL BE INSTALLED ON EXISTING INFRASTRUCTURES AND NOT ON MONOPOLES OR TOWERS.
4. DATA READILY AVAILABLE DEMONSTRATES THAT THERE IS NO NEED FOR AN ADDITIONAL TOWER IN THE PROPOSED SITE.

The rebuttal presentation will show that the applicant is clearly pursuing the installation of a monopole for RG Towers LLC., financial gain, and not for the need. Moreover, RG Towers, LLC financial gain would be to the detriment of adjacent property owners demise.

Thank you,

Larry L. Hoague

Subject: Tower

We as residents of Country Club Estates do not wish to have the cell tower erected in our neighborhood. We are a residential community and have no need of this in our midst. This is only a monetary ploy on the part of the owner . He has tried other avenues to try to profit from them. This tower would only devalue homes in its area as well as emit harmful rays.

PLEASE DO NOT ALLOW THIS TO BE ERECTED.

Mr. & Mrs. S. Zirt

Subject: P212-082 Cell tower

To all,

I live just 1000 feet from the proposed cell tower location. In my opinion, and several others, there is no need for another cell tower, especially in this residential area. There are way too many people that will be affected by this project. It's just another way for the property owner to gain revenue, knowing the residents in the vicinity are deeply opposed to the tower. The value of our homes will be jeopardized by installing the unsightly object. If that should take place, many of the people, including myself, will file a lawsuit, not only to the property owners, but also to the city of PSL, for allowing it to pass in the first place. I hope you all will consider turning down this project for the sake of the tax paying residents being affected.

Subject: Cell Tower Installation Special Exception Use P21-082

To Council members David Pickett, Shannon Martin, Stephanie Morgan, Jolien Caraballo, Mayor Greg Oravec,

We ask you to support us in preventing this cell tower installation Special Exception Use P21-082 application near our homes.

Please listen to our pleas and help us to deny this attack on the residential character of our neighborhoods here in St Lucie West.

Numbers 1, 2, and 3 below represent the key reasons highlighted in the rebuttal presentation to be presented at the July 12, 2021, Council Meeting. The presentation prepared by the Saint Lucie West Country Club Estates includes factual data in support of denying P21-082.

1. APPLICANT HAS FAILED TO SHOW PROOF OF COMPLIANCE WITH ARTICLE XIII SECTION 158 OF CITY CODE.
2. THE AREA AROUND THE PROPOSED SITE IS PRIMARILY RESIDENTIAL. REPRESENTING OVER 2500 RESIDENTS. HOME VALUES UP TO 4500 FEET AWAY WOULD BE NEGATIVELY AFFECTED FROM 2% TO 21% OR MORE.
3. 5G TECHNOLOGY WILL ULTIMATELY MAKE 2,3,AND 4G LTE OBSOLETE. 5G USES ANTENNA THAT WILL BE INSTALLED ON EXISTING INFRASTRUCTURES AND NOT ON MONOPOLES OR TOWERS.
4. DATA READILY AVAILABLE DEMONSTRATES THAT THERE IS NO NEED FOR AN ADDITIONAL TOWER IN THE PROPOSED SITE.

The rebuttal presentation will show that the applicant is clearly pursuing the installation of a monopole for RG Towers LLC., financial gain, and not for the need. Moreover, RG Towers, LLC financial gain would be to the detriment of adjacent property owners demise.

Thank you,

Barry Fournier

5G TECHNOLOGY WILL ULTIMATELY MAKE 2,3,AND 4G LTE OBSOLETE. 5G USES ANTENNA THAT WILL BE INSTALLED ON EXISTING INFRASTRUCTURES AND NOT ON MONOPOLES OR TOWERS.

DATA READILY AVAILABLE DEMONSTRATES THAT THERE IS NO NEED FOR AN ADDITIONAL TOWER IN THE PROPOSED SITE.

The rebuttal presentation will show that the applicant is clearly pursuing the installation of a monopole for RG Towers LLC., financial gain, and not for the need. Moreover, RG Towers, LLC financial gain would be to the detriment of adjacent property owners demise.

Thank you,

Sincerely,

Marilyn A. Smiley
1704 SW Mockingbird Drive
Port Saint Lucie, FL 34986

Pending cell tower approval

We oppose giving the Ok to erect a 120 cell tower on the golf club property as we have a beautiful back yard overlooking a canal and golf course fairway. We would be looking at a cell tower that would be disaster and drastically reduce the value to our property

There are numerous other areas that are not near Residential areas that should be considered.

Thank you

Subject: Proposed Installation of cell phone tower (P21-082)

Honorable Mayor Oravec and Council members Morgan, Caraballo, Martin and Pickett:

We, as well as the other residents of Country Club Estates and nearby communities, ask you to support us by denying the application for the above referenced cell tower installation near our homes (Special Exception Use P21-082).

This proposal is clearly not in keeping with the residential character of our neighborhoods in St. Lucie West that are near the proposed location.

Outlined below are key factors that will be highlighted in the rebuttal presentation to be given to your Honorable Body at the July 12, 2021 Council meeting:

1). Applicant has failed to show proof of compliance with Article XIII, Section 158 of the City Code

2). The area around the proposed site is primarily residential and comprised of over 2,500 individuals

3). It is estimated that home values up to 4,500 feet away from the tower would be negatively affected anywhere from 2 to 21 percent or more

In addition, it must be noted that 5G technology will ultimately make 2, 3 and 4G LTE obsolete and uses antennae that will be installed on existing infrastructure as opposed to monopoles or towers such as the one being proposed.

Further, available data demonstrates that there is no need for an additional tower at the proposed site.

In conclusion, it is anticipated that the rebuttal presentation will show financial gain, and not necessity, to be the overriding driving force in pursuing the installation of a monopole for RG Towers LLC, and that such action would likely be economically detrimental to adjacent property owners.

Thank you for your consideration of our concerns.

Thomas and Joyceen Mazur

Subject: Attention please!

To Port St. Lucie Council Members Stephanie Morgan, Jolien Caraballo, and Sharon Martin.

I'm writing to ask for your support in **denying** P21-082 which has to do with a request for approval of a cell tower installation Special Exception Use application affecting an area in very close proximity to my home at 574 Southwest Sanctuary Drive, Port St. Lucie 34986 - a residence that is part of St. Lucie West Country Club Estates. The specifics of this protest are itemized below:

1. The applicant has failed to show proof of compliance with Article XIII, Section 158 of the City Code.
2. The area surrounding the proposed site is primarily residential, representing over 2,500 residents.
3. Home values up to 4500 feet away (of which my home is immediately a part) would be negatively affected from 2% to 21% or more.
4. 5G technology will ultimately make 2, 3, and 4G LTE obsolete. 5G uses antenna that will be installed on existing infrastructures and not on monopods or towers.
5. Data readily available demonstrate that there is no need for an additional tower in the proposed site.

The rebuttal presentation will show that the applicant is clearly pursuing the installation of a monopole for RG Towers LLC financial gain and not for the need. RG Towers, LLC's financial gain would be to the detriment of adjacent property owners.

Thank you in advance for denial of P21-082.

Subject: Saint Lucie West Country Club Estates - Cell Tower

This email is in support of denying the installation of a 5G cell tower in the Country Club Estate, Port Saint Lucie, FL. The applicant in this matter has failed to show proof of compliance as stipulated in ARTICLE XIII, SECTION 158 of the City Code. The proposed installation is in a residential area and such action would grossly depreciation residential property values (2% - 21%). Furthermore, installation of the proposed technology (5G) will result in forced obsolescence of G2, G3, and G4 technology. In a free markets economy, profit motivates such actions with the long-term growth and enrichment of the community of secondary consideration.

When I purchased a home in Country Club Estates (2020), the atmosphere, ambiance, and emotions generated by the area were of most importance. Country Club Estates represent a *community* compared to the *cookie cutter* subdivisions, which are so protonate in housing areas developed west of I-95. Country Club Estates is unique in Port Saint Lucie, with residents taking deep pride in being as a resident of the area. **Contaminating** Country Club Estates with a 5G tower would injury the *community*, have long-term impact, and scarifies the qualities of Port Saint Lucie West. In additional to previously noted issues with this action, inequities that are not easily assigned a statistic should be considered. Thank you.

Subject: Please help us stop the installation of the cell tower near our home.

We bought our retirement home in Fairway Isle because it was uncommercialized, relaxing, and comfortable.

After two years of bliss, we now face along with our other neighbors, the possibility of losing our investment and comfort due to a cell tower being installed too close to our homes. We are against this being built so close to our home because this is a residential area, noise, technical issues, safety and the ugly distraction it will create and how it will hurt the value of our home. Is it fair to force the 2,500 residents who support our city and community with our tax dollars, charitable contributions and services to lose what we have all worked so hard for to satisfy the financial greed of RG Towers, LILC?

We ask you to support us in preventing this cell tower installation Special Exception Use P21-082 application near our homes.

Please listen to our pleas and help us to deny this attack on the residential character of our neighborhoods here in St Lucie West.

Key reasons highlighted in the rebuttal presentation to be presented at the July 12, 2021, Council Meeting. The presentation prepared by the Saint Lucie West Country Club Estates includes factual data in support of denying P21-082.

APPLICANT HAS FAILED TO SHOW PROOF OF COMPLIANCE WITH ARTICLE XIII SECTION 158 OF CITY CODE.

THE AREA AROUND THE PROPOSED SITE IS PRIMARILY RESIDENTIAL. REPRESENTING OVER 2500 RESIDENTS.

HOME VALUES UP TO 4500 FEET AWAY WOULD BE NEGATIVELY AFFECTED FROM 2% TO 21% OR MORE.

5G TECHNOLOGY WILL ULTIMATELY MAKE 2,3,AND 4G LTE OBSOLETE. 5G USES ANTENNA THAT WILL BE INSTALLED ON EXISTING INFRASTRUCTURES AND NOT ON MONOPOLES OR TOWERS.

DATA READILY AVAILABLE DEMONSTRATES THAT THERE IS NO NEED FOR AN ADDITIONAL TOWER IN THE PROPOSED SITE.

The rebuttal presentation will show that the applicant is clearly pursuing the installation of a monopole for RG Towers LLC., financial gain, and not for the need. Moreover, RG Towers, LLC financial gain would be to the detriment of adjacent property owners demise.

Please support the residents of country club estates by not approving the installation of proposed cell tower. Why place it in the sight of a beautiful gated community? This is a financial gain for some but a financial loss for many in cce. Thank you for your support.

To Council members David Pickett, Shannon Martin, Stephanie Morgan, Jolien Caraballo, Mayor Greg Oravec,

We ask you to support us in preventing this cell tower installation Special Exception Use P21-082 application near our homes.

Please listen to our pleas and help us to deny this attack on the residential character of our neighborhoods here in St Lucie West.

Numbers 1, 2, and 3 below represent the key reasons highlighted in the rebuttal presentation to be presented at the July 12, 2021, Council Meeting. The presentation prepared by the Saint Lucie West Country Club Estates includes factual data in support of denying P21-082.

1. APPLICANT HAS FAILED TO SHOW PROOF OF COMPLIANCE WITH ARTICLE XIII SECTION 158 OF CITY CODE.

2. THE AREA AROUND THE PROPOSED SITE IS PRIMARILY RESIDENTIAL. REPRESENTING OVER 2500 RESIDENTS.

HOME VALUES UP TO 4500 FEET AWAY WOULD BE NEGATIVELY AFFECTED FROM 2% TO 21% OR MORE.

3. 5G TECHNOLOGY WILL ULTIMATELY MAKE 2,3,AND 4G LTE OBSOLETE. 5G USES ANTENNA THAT WILL BE INSTALLED ON EXISTING INFRASTRUCTURES AND NOT ON MONOPOLES OR TOWERS.

4. DATA READILY AVAILABLE DEMONSTRATES THAT THERE IS NO NEED FOR AN ADDITIONAL TOWER IN THE PROPOSED SITE.

The rebuttal presentation will show that the applicant is clearly pursuing the installation of a monopole for RG Towers LLC., financial gain, and not for the need. Moreover, RG Towers, LLC financial gain would be to the detriment of adjacent property owners demise.

Thank you,

Andrea Strazzeri

Country Club Estates Resident

Subject: Cell tower is needed

To city council members:

Dear Councilpersons:

I often do not have cell phone service here in the Presidential Cove Neighborhood. When I have service, it is usually only 3G level at best.

I live within 500 feet of the proposed cell tower. I urge you to allow it, with one caveat: the operator must stay within local legal requirement (including the proposed zoning waiver).

Cell service to parts of my neighborhood ended when the Services District removed the cell phone repeaters from the water tank.

Many of the arguments against the tower are bogus. We live in a capitalist environment, so private ventures are always profit motivated.

A monopole tower, with the usual fake-tree add-ons, is unlikely to have any significant effect on values, but lack of cell service sure does.

Please ignore the "not in my back yard" ludites and approve the tower.

Sincerely,

--

Subject: Cell Tower Instalation

To Council members David Pickett, Shannon Martin, Stephanie Morgan, Jolien Caraballo, Mayor Greg Oravec,

We ask you to support us in preventing this cell tower installation Special Exception Use P21-082 application near our homes.

Please listen to our pleas and help us to deny this attack on the residential character of our neighborhoods here in St Lucie West.

Numbers 1, 2, and 3 below represent the key reasons highlighted in the rebuttal presentation to be presented at the [July 12, 2021](#), Council Meeting. The presentation prepared by the Saint Lucie West Country Club Estates includes factual data in support of denying P21-082.

APPLICANT HAS FAILED TO SHOW PROOF OF COMPLIANCE WITH ARTICLE XIII SECTION 158 OF CITY CODE.

THE AREA AROUND THE PROPOSED SITE IS PRIMARILY RESIDENTIAL. REPRESENTING OVER 2500 RESIDENTS.

HOME VALUES UP TO 4500 FEET AWAY WOULD BE NEGATIVELY AFFECTED FROM 2% TO 21% OR MORE.

5G TECHNOLOGY WILL ULTIMATELY MAKE 2,3,AND 4G LTE OBSOLETE. 5G USES ANTENNA THAT WILL BE INSTALLED ON EXISTING INFRASTRUCTURES AND NOT ON MONOPOLES OR TOWERS.

DATA READILY AVAILABLE DEMONSTRATES THAT THERE IS NO NEED FOR AN ADDITIONAL TOWER IN THE PROPOSED SITE.

The rebuttal presentation will show that the applicant is clearly pursuing the installation of a monopole for RG Towers LLC., financial gain, and not for the need. Moreover, RG Towers, LLC financial gain would be to the detriment of adjacent property owners demise.

Thank you,

Veronica Ugalde

It is after careful deliberation that we, The Board of Directors at The Club at Saint Lucie West express opposition to the cell tower that is being proposed at The Country Club property. Many residents who live near the proposed tower oppose it. Please help your neighbors and your community and consider that St. Lucie Trails Golf Club [at] 460 SW Utility Drive. is not an appropriate location for this cell tower. One of the reasons residents oppose this cell tower are the loss of property value. People do not like to buy homes near cell towers, they perceive them as a permanent defect with unknown health consequences, and at sales negotiations, buyers demand discounts. Another reason would be that the "fake tree" would be out of scale, proportion and character with its overall surroundings. Will not add to the beautification of The Club at Saint Lucie West or The Country Club. It is inappropriate here. We strongly oppose the construction of this cell tower, please notify the owner of the property of our opposition of this project.

Sincerely,

Franchesca Martens, LCAM

Property Manager

On behalf of The Board of Directors

The Club at Saint Lucie West
