12. Unfinished Business

There was nothing scheduled under this item.

13. New Business

There was nothing scheduled under this item.

14. City Manager's Report

City Manager Blackburn stated that Governor DeSantis was present in Port St. Lucie on Friday and provided a check for \$3.5 million. He recommended substituting the water main that was coming to serve Southern Grove that would be around \$1 million and including it in the State Legislative Plan, to which it was consensus of the Council to accept the City Manager's recommendation. He also stated that they would be starting the dispute resolution with St. Lucie County relative to Mobility Fees, which would be scheduled for meetings on August 24, 2021 and August 26, 2021, and that it would need to be completed by October 3, 2021.

City Manager Blackburn stated that Amazon would be the occupant of the 1.1 million square-foot facility located on Midway Road and that their employment was estimated to be 500, but he was told it could be higher.

City Manager Blackburn informed the Council that there was COVID-19 within the Organization, and that they were doing everything that they could and continued to monitor it. He stated that they had offered a point-of-distribution for the vaccine and would be offering another.

15. Councilmembers Report on Committee Assignments

Councilwoman Morgan stated that she attended the Transportation Planning Organization and Tamco Event with Governor DeSantis.

Councilman Pickett discussed attending the Treasure Coast Council of Local Governments and getting committee members for re-districting. The City Clerk

stated that the Board Liaison had reached out to other Committee Members and members of the community, and Communications had assisted on social media.

Councilwoman Caraballo stated that she saw very little good faith in the upcoming meeting, and that she had spoken to several members of the community as well as some members of the County Commission. She asked Attorney Stokes about Impact Fees and if the same fee could be charged twice, to which Attorney Stokes responded in the affirmative and stated that the City and the County could also separately charge Impact Fees. Councilwoman Caraballo stated that they needed to mitigate for the City impacts, the City projects, and the County roads.

Vice Mayor Martin stated that she agreed with Councilwoman Caraballo, and that the way that the Agenda item for the informal meeting was written was placing blame on the City of Port St. Lucie for moving forward with their Mobility Plan and anything the County does relating to future assessments of Impact Fees. She stated that it is untrue that the City would be charging double and that it was not the responsibility of the City of Port St. Lucie to collect the County's Impact Fees. She also stated that due to Port St. Lucie representing 65% of St. Lucie County, the City should be getting more of the Park's Impact Fee funding, and that they might need to start collecting their own Park Impact Fees.

Councilwoman Caraballo stated that Mobility Fees are a separate tool, and that you are not going to build more roads to solve your way out of a problem. She stated that she visited Cleveland Clinic and discussed with them the future of the Cleveland Clinic and any spin-off companies that might happen. She also stated that she attended TPO and met with Governor DeSantis and thanked him for the funding.

Vice Mayor Martin stated that she also attended the TPO Board Meeting and that the announcement of Amazon was great for the City, and thanked City Manager Blackburn and the team for setting up with short notice for Governor DeSantis' event.
