

ART IN PUBLIC PLACES PROGRAM AGENDA ITEM

October 23, 2023

Idea 10: Temporary Celebration

An impactful experiential temporary public art installation can show the residents of Port St. Lucie the true potential of public art. This installation will be a draw to not only Port St. Lucie residents but regional residents and visitors as well. This installation should be done in a prominent area, such as the Civic Center and should last for several months. A budget of \$150,000 or more should be considered based on available funds.

This project advances the Strategic Plan priority of Implementation of the **Public Art Master Plan** and advancing the **strategic goal of Culture, Nature and Fun Activities**.

Temporary Public Art Installation

Trumpet

pure freestylers

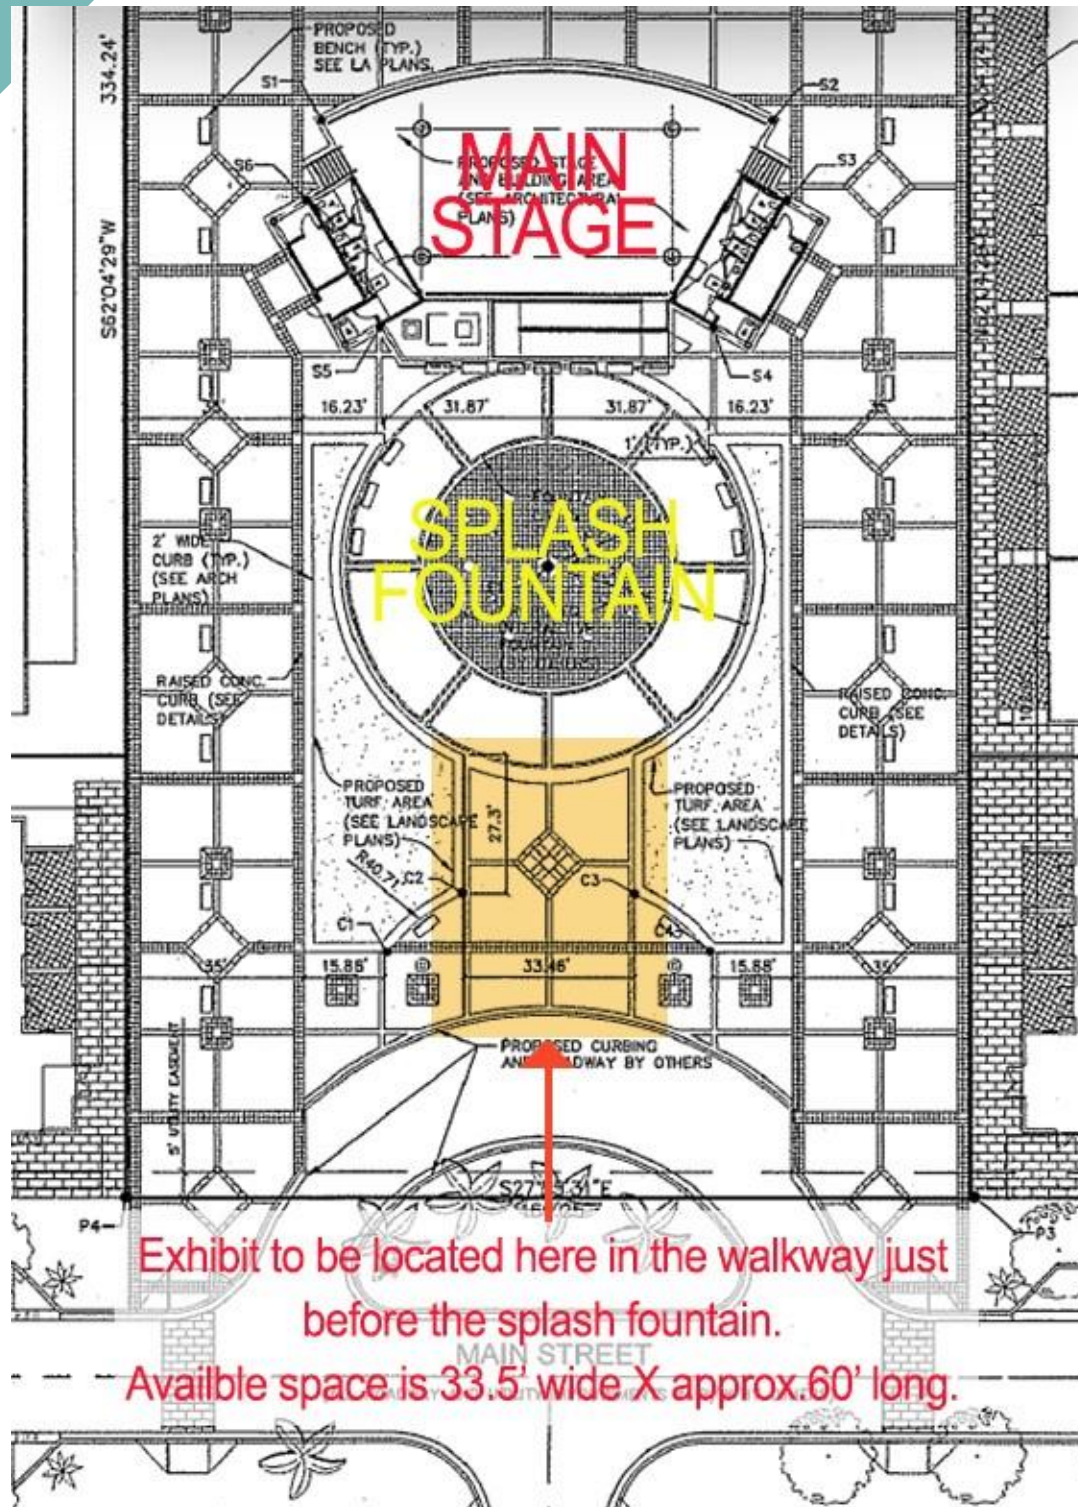

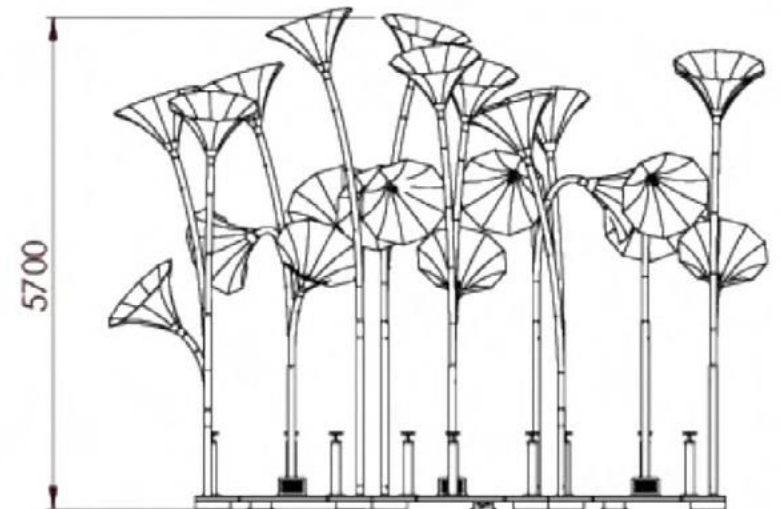

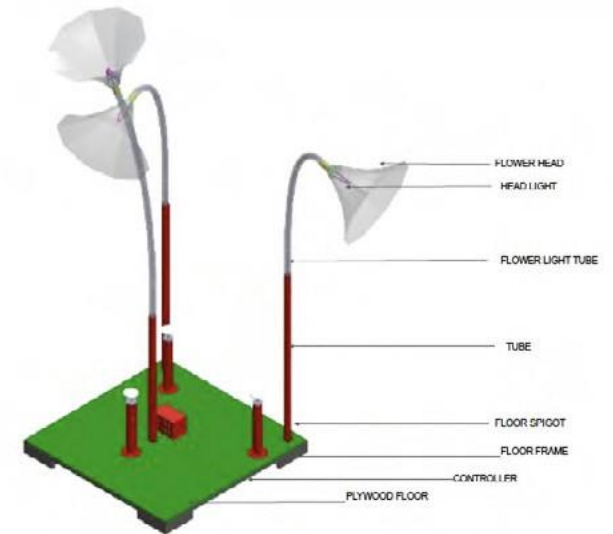

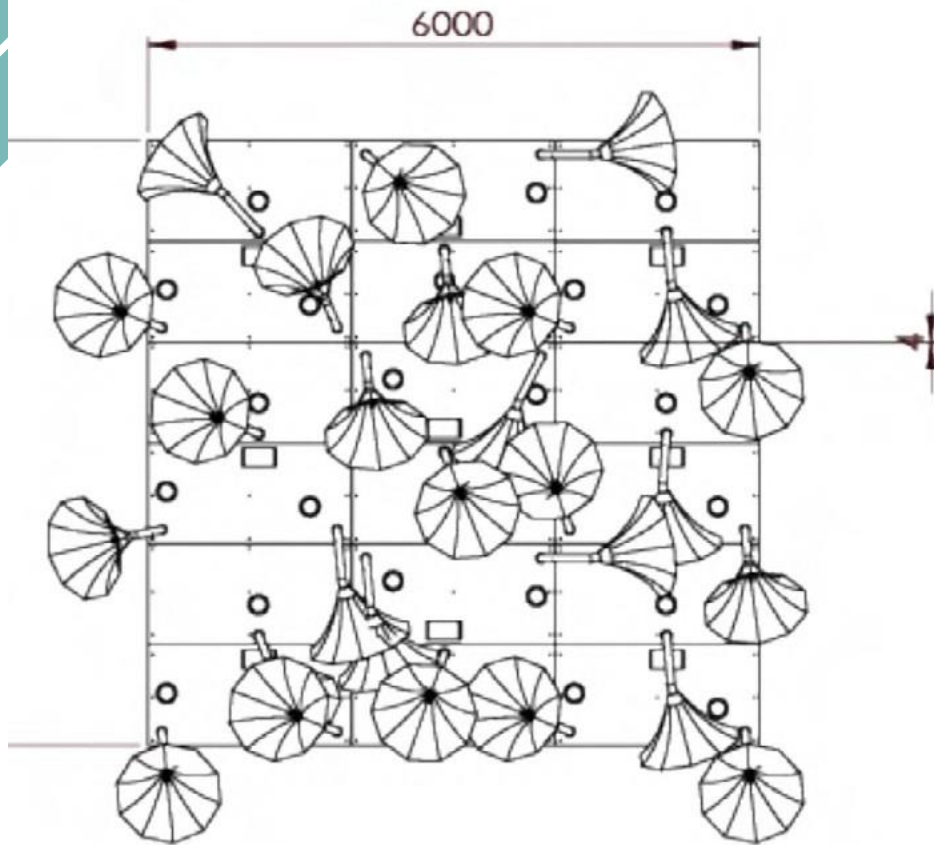

Exhibit to be located here in the walkway just before the splash fountain.
