She stated that no new swale liners would be installed and that the Residential Review and Permitting Guidelines would be modified. She said that the City would remove the swale liner and apply the new swale section. She offered three options for swale liner maintenance, option one is to cancel maintenance contracts in the next 60 days, make it the landowner's responsible for the cleaning & to leave swale liner in until the re-work program occurs. Option two, which is recommended by staff, is to continue maintenance for this Fiscal Year, 2022-2023, and to reduce the amount in next Fiscal Years (3 cleanings in FY 2023-2024, 1 cleaning in FY 2024-2025 and 0 cleaning beyond). Option three is to remove all swale liners with current maintenance contractor, and to either add sod or leave until re-work program occurs. She broke down the communication plan that was in place which would include social media, a press release, letters, utility bill inserts, an e-mail blast and videos.

Councilwoman Morgan and Ms. Eason discussed how the swales would grow from nine inches to two feet, and Councilwoman Morgan felt that option three was the best way forward. Councilwoman Morgan inquired if a resident could keep the liner in until the re-work occurred, to which Ms. Eason responded in the affirmative. Councilman Pickett did recommend removing the swale liners in stages. Mayor Martin voiced her concern over ripping out the liners without a re-work program in place.
