Site Data:

Total Area:	666,143 sf	15.29 ac.
Impervious Area:	368,248 sf	8.46 ac.
Building:	65,381 sf	1.50 ac.
Vehicular Use Area:	248,471 sf	5.71 ac.
Sidewalks & Pedestrian Access:	54,396 sf	1.25 ac.
Pervious Area:	297,895 sf	6.83 ac.
Landscape Area:	272,156 sf	6.24 ac.
Retention / Stormwater:	25,739 sf	0.59 ac.
Existing Zoning:	MPUD	
Future Land Use Designation:	NCD	
Existing Use:	Vacant	

Building Data

Gross Floor Area:	65,381 s.f.
Maximum Height:	35'
Proposed Height:	28'-10"
Building Coverage:	9.8%
Open Space:	40.8%

Phase 1 Building Setback Requirements*

	Provided to CDD Easement	Provided to Right of Way
Front:	1.1'	70.7'
Rear:	67.4'	N/A
Side:	4.4'	15.6'

*Setbacks per the SG-3 MPUD. Future outparcels to have setbacks reviewed separately at the time of their submittal.

Parking Requirements

Building	Required	Provided
Retail (1) 29,500 sf	4 sp/1,000 sf 118 spaces	150 spaces
Retail (2) 9,250 sf interior 2,350 sf outdoor seating 11,600 sf total	4 sp/1,000 sf 46 spaces	76 spaces
Restaurant 5,800 sf interior 2,150 sf outdoor seating 7,950 sf total	1 sp/100 sf 79 spaces	91 spaces
Grocery 19,231 sf 1,600 sf future 20,831 sf total	4 sp/1,000 sf 83 spaces	114 spaces
Heart in the Park Refer to SG-3 Shared Parking Agreement	10 Spaces	10 Spaces
Total	336 spaces	441 spaces

Handicap Parking 8 spaces 16 spaces (Already counted towards total)

Per the Southern Grove 3 MPUD Section 4(A)- The maximum number of parking spaces to be provided is limited to 125% of that required by the provisions set forth herein.

336 required spaces x 1.25 = 420 spaces max. allowed

Any parking spaces provided on the site plan that are above what is required by code may be allocated towards future parking requirements in Future Development Parcels 1, 2, and 3.

General Notes:

- Hazardous waste disposal shall comply with all federal, state and local regulations.
- All landscape areas abutting vehicular use areas shall be curbed or protected by curb stops.
- All building, parking and access areas shall document compliance with the requirements of the American Disabilities Act prior to the issuance of a building permit.
- Soil erosion and sediment control devices shall be in place prior to the commencement of construction activities.
- Landscaping shall be in accordance with the requirements of chapter 153 of the landscape code of the City of Port St. Lucie.
- No landscaping other than grasses shall be located within 10' of a City utility line or appurtenance. All other utilities shall be a minimum of 5' horizontal separation from City utility mains for parallel installations and a minimum 18" below City mains. (All measurements are taken from outside to outside.)
- No landscaping shall be placed in a manner that would create conflicts with the intended operation and maintenance of any existing utility.
- This application is not vested for any municipal fees. All fees are calculated at time of payment. This includes specifically impact fees, upland preserve fees and any administrative review fees for City Departments. No fees are vested based on date of City Council approval.
- Signs are not part of this review and shall be permitted separately from this application. (See Chapter 155 (Sign Code) City of Port St Lucie Land Development Regulations.)
- The property owner, contractor, and authorized representatives shall provide pickup, removal, and disposal of litter within the project limits and shall be responsible for maintenance of the area from the edge of pavement to the property line within the City's right-of-way in accordance with City Code, Section 41.08 (g).

Traffic Statement

Mackenzie Engineering and Planning, Inc. performed an analysis of the traffic impacts resulting from the SG-3 Commercial Parcel within the Southern Grove DRI. The project is located at the south of Discovery Way between Village Parkway and Community Boulevard, Port St. Lucie, Florida. The applicant proposes:

- 57,981 square feet of commercial use
- 9,333 square feet of high-turnover sit-down restaurant use

The analysis was conducted in accordance with the requirements of the City of Port St. Lucie for a project within an approved development of regional impact (Southern Grove DRI).

The proposed project is expected to generate the following net new external trips:

- 2,518 Daily, 164 AM peak hour (89 in/65 out), and 377 PM peak hour (187 in/190 out) trips.

The proposed project is expected to generate the following cumulative driveway trips:

- 6,295 Daily, 276 AM peak hour (167 in/109 out), and 632 PM peak hour (314 in/318 out) trips.

The analysis shows that the roadways are projected to operate acceptably with the addition of the proposed development. Because the project is part of the approved Southern Grove DRI, concurrency is satisfied.

Drainage Statement

The stormwater management system for this project is part of the overall Southern Grove master drainage system. There is an existing 36" RCP stormwater stub at the southeast corner of the site that the proposed development will connect to. The on-site ponds will retain the required 0.5" of runoff over the site and the water quality is provided in the master system.
