Finding of Fact:

- ❑ A request for a text and map amendment to the St. Lucie West Development of Regional Impacts to accommodate text and map changes.
- ❑ **A request for a small-scale future land use map amendment to change 3.75-acres from General Commercial/Institutional (CG/I) to Commercial Service (C/S).**
- ❑ A request for a rezoning for the subject 3.75-acres parcel from General Commercial (CG) to Planned Unit Development (PUD)
- ❑ **The requests are needed at this time to be compatible with the DRI Map H, permit buildout in SLW entitlements through a conversion matrix, update the reporting, and accommodate the future office/flex-space/warehousing uses proposed within the Applicant's PUD rezoning.**

Future Land Use Request Justification:

Request: a small-scale future land use map amendment to change 3.75-acres from General Commercial/Institutional (CG/I) to Commercial Service (C/S).

Land Use Consistency: The future land use map amendment application is supported by and furthers the following objective and policies of the comprehensive plan:

- Objective 1.1.4 delineates the necessity of the future land use map to convey sound planning principals including the prevention of sprawl, energy efficiency, and natural limitations.
- Policy 1.1.4.2 (d) as it defines the intention of the CS future land use designation is principally to provide for the most intensive commercial development including wholesale, warehouses, vehicle sales, lumber yards, etc. Adequate buffering is required based on site plan reviews.

PUD Rezoning Summary:

The Applicant's request is to rezone approximately 3.75-acres from General Commercial (CG) zoning classification to Planned Unit Development (PUD) zoning classification. Amendments to the PUD include:

- All uses allowed in the City of Port St. Lucie General Commercial (CG) zoning district as well as most uses permitted by right within the Service Commercial (CS) zoning district
- Flexible parking provisions: One (1) parking space per 375 gross square feet of building. (No more than thirty (30) percent of total building area may be office/retail.
- Delineation of non-permitted uses (incompatible/too intensive)
- PUD Development Regulations
