2022 performance highlights:²

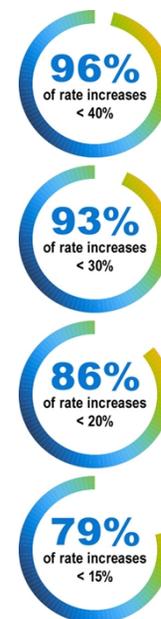

Understanding stop loss rates

Pricing stop loss is a complex process and there are many factors that impact rates, especially at renewal. Here are some things we consider when determining the best possible price for your plan:

- **Plan design:** what services are covered; how much are employee copays, coinsurance, deductibles and/or premiums; are there wellness or other value-add programs included?
- **Group population:** how many people are covered; where do members live and/or receive care; what are the demographics of the group?
- **Managed care networks:** are provider and hospital networks helping to lower plan risk; what is the network usage rate?
- **Claims experience:** what is the claims experience history; how many claims, to date, are over the Specific deductible; how many are expected before the end of the plan year?
- **Medical trend:** how much are health care costs projected to increase?
- **Share of risk:** what is your deductible threshold and risk tolerance; how will rising medical trend impact your plan and the accompanying stop loss policy?

What does a typical Symetra renewal look like? During the last five years:

Based on Symetra renewal data from June 1, 2022, to May 31, 2023.

Lowering premium renewal increases through deductible leveraging

Annual renewal is an opportunity to review how your plan performed over the past year, and to evaluate whether your current Specific deductible is still appropriate. This is especially true when rising medical costs are paired with higher than expected claims, as this combination typically means a rate adjustment is needed for the new plan year.

Leveraged trend or, as applied, deductible leveraging, can help mitigate higher renewal rates by sharing the impact of medical trend between the health plan and Symetra stop loss via a higher Specific deductible.

Here's how it works:

Option 1 – keeping the same deductible at renewal			
	Plan year 1	Plan year 2	Increase
Paid claim amount	\$300,000	\$330,000	10%
Specific deductible	\$150,000	\$150,000	0%
Symetra reimbursement	\$150,000	\$180,000	20%

Option 2 – raising the deductible at renewal			
	Plan year 1	Plan year 2	Increase
Paid claim amount	\$300,000	\$330,000	10%
Specific deductible	\$150,000	\$165,000	10%
Symetra reimbursement	\$150,000	\$165,000	10%

For illustrative purposes only.

With deductible leveraging, you're trading lower premiums for a higher Specific deductible due to medical trend increases. It can be an effective way to help control the impact of rising costs on your plan.

If you're interested in deductible leveraging for your renewal, talk with your Symetra stop loss professional.

Plan Sponsor's Plan Document

Submission and Symetra Acceptance Required. As stated in Symetra's Proposal for Group Stop Loss Insurance, the Plan Sponsor's Plan Document must be submitted to Symetra no later than 90 days after the proposed effective date of Stop Loss Insurance coverage. The Stop Loss Insurance policy ("Policy") requires that only eligible charges payable under the terms of the Plan Document as approved by Symetra will be covered expenses eligible for reimbursement under the Policy.

The policy will be issued after the Plan Document is received and approved by Symetra or a signed Confirmation of Medical Benefit Plan is submitted to Symetra by the prospective policyholder.

Symetra may withhold reimbursement of covered expenses prior to the receipt and acceptance of the final signed Plan Sponsor's Plan Document or amendment.

In reviewing the Plan Document for acceptance, Symetra will consider whether the Plan Document:

1. Adequately addresses key plan components, including but not limited to eligibility rules, benefits promised, plan administration, discretionary language for court review of benefit claims, subrogation and coordination of benefits provisions.
2. Addresses the Plan's obligations under federal law, including
 - a. **ERISA (Employee Retirement Income Security Act) required provisions,**
 - b. **ACA (Affordable Care Act) required provisions;** or
 - c. **a statement of grandfathered status, if applicable.**

Symetra will have no liability for reimbursing Plan Sponsor obligations that are not clearly stated in the Plan Document whether or not the Plan remains obligated in the absence of express inclusion. It is recommended that the Plan Document include express reference to other federal mandates and laws to which Plan is subject or a "conformity with law" provision.

3. Contains typical exclusions or limitations, including but not limited to:
 - a. Experimental/investigations treatment (except as required by ACA), and
 - b. non-medically necessary treatment

The absence of or inadequate treatment of these subjects in the Plan Document may result in a superseding provision in the Stop Loss policy.
