BRASS BALL VALVES, LEADED AND LEAD-FREE	12.8%	BRBVLV321	BRBVLV721

These increases will be in the form of new published list prices. Current discount multipliers will remain in place. Orders placed by the end of the day on Friday, July 9th will be honored at current pricing, although we reserve the right to limit quantities based on historical purchases and availability. Back-ordered material may be subject to the new price levels. Please contact your Merit Brass Sales representatives if you have questions regarding specific orders.

EXCEL VERSIONS OF THESE LIST PRICES WILL BE AVAILABLE ON WWW.MERITBRASS.COM NO LATER THAN THE END OF THE DAY ON JUNE 14TH, 2021.

Thank you for your continued support.

Regards,

Merit Brass Co.

American-made products since 1970

June 8, 2021

To whom it may concern,

This letter is meant to address questions regarding the state of the PVC resin and PVC pipe industry and the reason for our decision to raise pricing on existing in-house orders.

The industry is experiencing upheaval driven by the following issues; February's Winter Storm Uri, which devastated the Petro-chemical industry located in the Gulf Coast of the US, the latest rain event dumping 6+'' on the Gulf Coast, truck and driver shortages, and micro ingredient scarcity.

The storms caused extensive damage to our primary raw material suppliers (PVC resin), forcing 3 of the 4 PVC resin producers to declare Force Majeure, one has recently rescinded their declaration. However, a major backlog of unfulfilled resin orders remains. Two of those 3 suppliers provide 100% of our resin. The remaining supplier is not taking any new customers. These Force Majeure declarations have resulted in a reduction of our contracted supply of PVC resin by 25-30%. We have not been given any indication of when we will be back to 100%. This reduction in available raw materials has forced National Pipe to reduce our production a commensurate amount. To further complicate our industry's situation, the price of PVC resin has skyrocketed in the past 6 months, increasing the price of PVC pipe by nearly 45%. We have attempted to keep up with these increases by raising our prices for new orders as well as existing orders that cannot be shipped within the quoted terms. Our current stance is fair.

We have been working nonstop with our existing flatbed truck vendors, qualifying new carriers and working on new ideas to ensure a steady supply of trucks to haul our pipe. Despite our efforts, available trucks are in short supply and those willing to haul are asking for a much higher rate per mile.

In addition to the PVC resin issues, several micro ingredients necessary to produce pipe have become scarce and direct replacements are not available. While the overall volume per pound of these "micros" are small, they are necessary to process the resin into pipe. Our team has worked tirelessly to find, trial, and test these replacements. Many of these replacements are coming in at a much higher pricing per pound and the processing window is much different than our "normal" compound therefore reducing our production rates.

Our intent in taking these steps is to remain a viable supplier beyond this situation.

We appreciate your understanding during these difficult times.

Regards,

Matt G Siegel
Vice President

RE: Price Increase Notification

On July 6, 2021 Spears® Manufacturing Company will initiate a price increase on certain PVC and CPVC pipe, fittings, valves and ancillary product lines. We are doing our best to provide products to the markets we serve while the costs of raw material, labor, packaging and logistics continue to rise.

The price change will be as follows:

- All PVC and CPVC pipe, fittings, valves and ancillary products will increase by 10%.
- All Solvent Cement products will remain at current prices, without increase, until further notice.
- All FlameGuard® CPVC pipe, fittings and ancillary products will remain at current prices, without increase, until further notice.

Updated list pricing will be available on our website at www.spearsmfg.com the week of July 6, 2021.

Quotations issued on or before July 2, 2021 will be honored only until July 2, 2021. Pre-increase pricing will expire at 5:00pm local branch time on 7/2/21.

All orders will be monitored and those outside typical purchasing characteristics in size and frequency are subject to revision or refusal. No future-ship orders will be accepted.

Thank you for your continued support.

Sincerely,

Matt Baker
Vice President, Sales Operations
