“ Had the best experience with William , my family was in desperate need of an electrician and he drove all the way from Martin County to Wellington (over an hour away) to solve our problem with our wiring and our panel in the house, when wed had 3/4 other electricians from our area come out and couldnt figure it out. Well he did ! Within 15 minutes he knew the issues and the work that needed to be done. He is VERY knowledgeable in his field and worked quickly but efficiently and we havent had any electrical issues since thanks to him ! Service: General repairs ”

“ Highly recommend. Have procured Wills services multiple times. Has always retuned my calls and set up service requested in a timely manner. Very conscientious dependable and does a great job. His helper Guilio is also very professional and did an awesome job

Thank

Ellie S Services: Fan installation, Installation, Light fixture installation ”

“ Will installed 19 LED recessed lights (canless) and 3 dimmers for an extremely reasonable price. He was able to complete the job in a day and a half doing most of the work by himself. After many conversations with him, one can see that Will wants to do a good job for his customers.

I am happy with the final product and can recommend Will for your electrical needs. I have him on speed dial for future jobs! Services: Installation, Light fixture installation, Electrical outlet & switch installation ”

Just wanted to share my horrible experience with Make It Happen Electrical. We had 3 companies come out for some simple electrical work and decided to go with Make It Happen Electrical. We were a bit hesitant being he was so young (we werent sure if he would be reliable), but we decided to give him a chance. He was supposed to come in Monday and never showed, we reached out and he profusely apologized and said he had car issues and the company van was at the mechanics office being fixed. He promised he would fit us in the next day and we said fine, we understood these things happen. Tuesday came no call again we called again he was apologetic saying he really tried to squeeze us in, but he was backed up due to the previous day issue with the van. He mentioned Wednesday might be a possibility, but said that Saturday would be best being he had no appointments for that day and would come and get the work done. Saturday came and no phone call and no show. We again reached out and he said the van had issues again and he was getting towed and to get it fixed again. At this point we would have walked away his unreliability and professionalism was really unacceptable. We didnt even get a courtesy call in any of these instances we were the ones that had to reach out. But I told my husband what if this poor kid is having just a bad week? He was apologetic promised to come through and we said fine we will see you in Monday. Today is Monday and we waited until 3pm and guess who didnt show up or call yet again?. I know he has great reviews in Nextdoor it was the very reason he was on my list, but this experience was just horrible. I dont know what kind of business model he follows in terms of customer service and reliability but he is failing miserably at it. It was a very disappointing experience. I definitely do not recommend him. Services: Installation, Electrical outlet & switch installation
