SUBJECT: P07-002-A1 Milner Drive Fire Station
Traffic Generation, Stacking & Circulation Approval

This application and Traffic Statement prepared by WGI received September 8, 2023 has been reviewed by the Public Works Department and the transportation elements of the project were found to be in compliance with the adopted level of service and requirements of Chapter 156 of City Code, and Public Works Policy 19-01pwd.

The proposed amendment includes the addition of a fire station only. The Peak hour traffic trips are estimated at only 18 trips. This is a minimal effect on the surrounding City roadways and not considered a concern to the Public Works Department.
