#### PROPERTY TYPE & USE "AS IS"

Property Type: Vacant single family residential lot.
 Property Use "as is": Vacant as of the date of appraisal.

Property Location: 3532 SW Savona Blvd, Port St Lucie, Florida

## **SCOPE OF WORK**

Ms. Betty Bollinger, Senior Legal Assistant to the Port St. Lucie City Attorney, representing the Port St. Lucie City Commission, engaged my services to provide an opinion of the <u>Market Value</u> of the <u>Fee Simple Interest</u> in the subject 0.23± acre vacant lot as identified within this report, with my opinion of value subject to Ordinary Assumptions and Limiting Conditions, and Extraordinary Assumptions identified within this report.

The date of appraisal is January 8, 2023, the date of my final inspection of the subject.

To form an opinion of the Market Value of the Fee Simple Interest in the subject the following Scope of Work was required.

The subject consists of a vacant lot, thus valuation via the Sales Comparison Approach is appropriate.

Because the subject consists of undeveloped land, via definition the Cost Approach is not a valid method of valuing the subject. Also, because undeveloped lots seldom lease to obtain an income stream, the Income Capitalization Approach also is not applicable in the valuation process.

Research for sales / listings of comparable properties began within the subject's neighborhood. Research was conducted using public records, multiple listing services (MLS), commercial data services, and interviews with buyers, sellers, brokers, investors, et cetera. When possible, data gathered was verified with a knowledgeable participant of the transaction and then the data was analyzed to interpret market trends followed by applying the analyzed data to the subject to form an opinion of subject's value.

- Appraisal adheres of the minimum standards set forth under Standards Rule 2-2(a) of the 2020-2021 Uniform Standards of Professional Appraisal Practice (USPAP), presented in a USPAP stated "Appraisal Report" format.
- Client: Port St. Lucie City Commission or Commission representatives.
- Use of the Appraisal/Report: The only intended use of this appraisal is for client purchase negotiations and the appraisal is not intended for another use.
- User of the Appraisal/Report: The only intended users of this report are the Port St. Lucie City Commission or representatives of the Commission.
- The appraisal and report are subject to the Ordinary Limiting Conditions, Extraordinary Assumptions, and Certification included within this report.
- Note: The effects on property values of the global outbreak or "novel coronavirus" known as COVID-19 is unmeasurable as of the date of appraisal, thus the reader is cautioned and reminded that the conclusions presented in this appraisal report apply only as of the effective date indicated and the appraiser makes no representation as to the effect on the subject property of any unforeseen event related to the pandemic, subsequent to the effective date of the appraisal.

### **EXPOSURE**

Exposure time: - Source, Appraisal Institute, Dictionary of Real Estate Appraisal, 6th ed.

- 1. The time a property remains on the market.
- 2. The estimated length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal. Comment: Exposure time is a retrospective opinion based on an analysis of past events assuming a competitive and open market (USPAP, 2016-2017 ed.).

Between listing and closing dates the properties analyzed range from two months to six months with subject listed over 12 months. The long listing periods were predominately caused by initial above market listing prices. Thus, in my opinion, consummation of a sale of the subject as of the date of appraisal would have required an exposure period of no longer than six months, assuming listing price at or near my opinion of value.

## **DEFINITIONS**

## APPRAISAL REPORT FORMAT

Per Uniform Standards of Appraisal Practice (USPAP 2016-2017) – Standards Rule 2-2, each written real property appraisal report must be prepared under one of the following options and prominently state which options is used: Appraisal Report or Restricted Appraisal Report.

<u>ARM'S LENGTH TRANSACTION</u> — Source, Appraisal Institute, Dictionary of Real Estate Appraisal, 6th ed. A transaction between unrelated parties who are each acting in his or her own best interest.

Market Value per Florida case law (State Road Department v. Stack, 231 So. 2d 859 FL 1st DCA 1969) defined as:

The amount of money that a purchaser willing but not obligated to buy the property would pay an owner willing but not obligated to sell, taking into consideration all uses to which the property is adapted and might be applied in reason. Inherent in the willing buyer-willing seller test of the fair market value are the following:

- A fair sale resulting from fair negotiations.
- Neither party is acting under compulsion of necessity (this eliminates forced liquidation or sale at auction). Economic pressure may be enough to preclude a sale's use.
- Both parties having knowledge of all relevant facts.
- A sale without peculiar or special circumstances.
- A reasonable time to find a buyer.

FEE SIMPLE ESTATE - Source, Appraisal Institute, Dictionary of Real Estate Appraisal, 6th ed.

Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat.

SALES COMPARISON APPROACH - Source, Appraisal Inst., Dictionary of Real Estate Appraisal, 6th ed.

The process of deriving a value indication for the subject property by comparing sales of similar properties to the being appraised, identifying appropriate units of comparison, and making appropriate adjustments to the sale prices (or unit prices, as appropriate) of the comparable properties based on relevant, market-derived elements of comparison. The sales comparison approach may be used to value improved properties, vacant land, or land being considered as though vacant when an adequate supply of comparable sales is available.

#### ORDINARY LIMITING CONDITIONS AND UNDERLYING ASSUMPTIONS

- 1. The value given in this appraisal report represents the opinion of the signer as to the Value AS OF THE DATE SPECIFIED. Values of real estate are affected by an enormous variety of forces and conditions will vary with future conditions, sometimes sharply within a short time. Responsible ownership and competent management are assumed.
- 2. This appraisal report covers the premises herein described only. Neither the figures herein nor any analysis thereof, nor any unit values derived therefrom are to be construed as applicable to any other property, however, similar the same may be.
- 3. It is assumed that the title to said premises is good; that the legal description of the premises is correct; that the improvements are entirely and correctly located on the property; but no investigation or survey has been made, unless so stated.
- 4. The value given in this appraisal report is gross, without consideration given to any encumbrance, restriction, or question of title, unless so stated.
- 5. Easements may not be recorded or may exist by customary use or by other legal means. The appraiser is not qualified to search legal records as to easements. Because rights of others can have influence on real estate values, the values reported herein are predicated on a qualified legal opinion that assumptions regarding easements and the rights of others is representative of actual conditions. 6. Information as to the description of the premises, restrictions, improvements, and income features of the property involved in this report is as has been submitted by the applicant for this appraisal or has been obtained by the signer hereto. All such information is considered correct; however, no responsibility is assumed as to the correctness thereof unless so stated in the report.
- 7. The physical condition of the improvements described herein was based on visual inspection. No liability is assumed for the soundness of structural members since no engineering tests were made of the same. The property is assumed to be free of termites and other destructive pests.
- 8. Possession of any copy of this report does not carry with it the right of publication, nor may it be used for any purpose by any but the applicant without the previous written consent of the appraiser or the applicant, and in any event, only in its entirety.
- 9. Neither all nor part of the contents of this report shall be conveyed to the public through advertising, public relations, news, sales, or other media, without the written consent of the author; particularly as to the valuation conclusions, the identity of the appraiser or the firm with which he is connected, or any reference to the Appraisal Institute, or to the SRA or MAI designations.
- 10. The appraiser herein, by reason of this report is not required to give testimony in court or attend hearings, with reference to the property herein appraised, unless arrangements have been previously made.
- 11. The Contract for the appraisal of said premises is fulfilled by the signer hereto upon the delivery of this report duly executed.
- 12. It is assumed that there is full compliance with all applicable federal, state, and local environmental regulations and zoning laws unless non-compliance is stated, defined, and considered in the appraisal report.
- 13. Unless otherwise stated in this report, the existence of hazardous material, which may or may not be present on the property, was not observed by the appraiser. The appraiser has no knowledge of the existence of such materials on or in the property. The appraiser, however, is not qualified to detect such substances. The presence of substances such as asbestos, urea-formaldehyde foam insulation or other potentially hazardous materials may affect the value of the property. The value estimate is predicated on the assumption that there is no such material on or in the property that would cause a loss in value. No responsibility is assumed for any such conditions, or for any expertise or engineering knowledge required to discover them. The client is urged to retain an expert in the field, if desired.

#### **EXTRAORDINARY ASSUMPTIONS**

Extraordinary Assumptions — Uniform Standards of Professional Practice (USPAP), 2014-2015, ed.

An assumption, directly related to a specific assignment, which, as of the effective

An assumption, directly related to a specific assignment, which, as of the effective date of the assignment results, which, if found to be false, could alter the appraiser's opinions or conclusions.

Extraordinary assumptions presume as fact otherwise uncertain information about physical, legal, or economic characteristics of the subject property; or about conditions external to the property such as market conditions or trends; or about the integrity of data used in an analysis.

- Site dimensions and size are from Plat of Port St. Lucie Section 19, recorded in plat book 13, pages 19, 19A to 19K of the Public Records of St. Lucie County, Florida, and site data from the identified document is assumed accurate.
- 2. Subject is heavily overgrown thus interior inspection was limited to utilizing aerial photographs to assist in describing subject within this report, and my opinion of value assumes upon a complete interior inspection of subject, physical features are as described within this report.

### **CERTIFICATE OF APPRAISAL**

I certify that, to the best of our knowledge and belief:

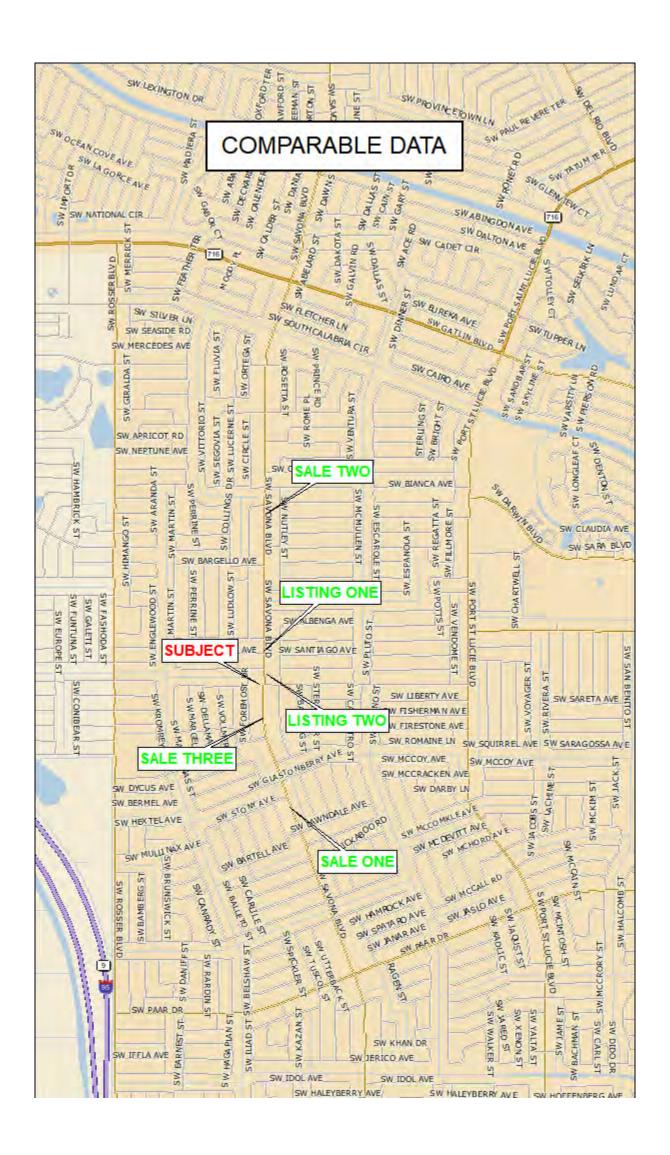

- a) The statements of fact contained in this report are true and correct.
- b) The reported analysis, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, unbiased professional analyses, opinions, and conclusions.
- c) I have no present or prospective interest in the property that is the subject of this report, and I have no personal interest with respect to the parties involved.
- d) My engagement in this assignment was not contingent upon developing or reporting predetermined results.
- e) My compensation is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- f) The reported analyses, opinion, and conclusions were developed, and this report has been prepared, in conformity with the requirement of the Code of Professional Ethics & Standards of Professional Appraisal Practice of the Appraisal Institute, which include the Uniform Standards of Professional Appraisal Practice.
- g) Daniel D. Fuller inspected the property that is the subject of this report.
- h) No one provided professional assistance to the signor of this report.
- i) The appraiser has performed within the context of the competency provision of the Uniform Standards of Professional Appraisal Practice.
- j) The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.
- k) "As of the date of this report, I, Daniel D. Fuller, MAI, SRA, have completed the requirements under the continuing education program of the Appraisal Institute."
- I) This appraisal assignment was not made, nor was the appraisal rendered basis on a requested minimum valuation, specific valuation, or an amount which would result in approval of the loan.
- m) I have not appraised the subject, nor have I provided any other services in any capacity relating to this property within the three years prior to my engagement for this assignment.

Daniel D. Fuller, MAI

State-Certified General Real Estate Appraiser RZ567
