Brad E. Macek, Director

TO: RUSS BLACKBURN, CITY MANAGER

THROUGH: JESUS A. MEREJO, CHIEF ASSISTANT CITY MANAGER

FROM: BRAD E. MACEK, UTILITY SYSTEMS DIRECTOR 

SUBJECT: ACCURATE SEPTIC EMERGENCY SERVICES

DATE: MAY 4, 2021

Due to the continued high-level growth of new home construction throughout the City, the Utility System Department (USD) has fallen behind its sewer grinder tank installations.

The USD currently has a contract with Accurate Septic to install the grinder tanks, but the USD had continued with installing the service lines.

On 4/27/2021 the USD was given emergency approval to use Accurate Septic to assist with running service lines.

USD has just negotiated a price with Accurate Septic to perform the complete installation including services and pushes, in order to continue to catch up and reduce the backlog on grinder installation.

We are requesting permission to approach this as an emergency situation, due to the impact this has on completing the new houses, and award Accurate the additional responsibility to perform the complete installation of grinder tanks.

The estimated cost for this work through September 30, 2021 is \$1,912,375.00 and funds are available in 439-3515-534000.

Please contact me for any questions.
