Subject: could you send the link?
Date: Friday, October 18, 2024 4:58:28 PM

Dear Mary,

Could you please provide the link to connect to the Virtual Meeting on Wednesday?

My nephew, a City Manager in Indiana, would like to observe the proceedings. We also have several members of the community that would like to be heard. They will be respectful.

We have significant concerns regarding the rezoning of this parcel and its alignment with the City's Comprehensive Plan, Policies, and Objectives. We also want to ensure that the initial zoning complies with the required State Chapter 429 for Group Homes and Assisted Living, as specified in our Building Codes.

Moreover, we request a thorough screening of the buyers, if it is possible, Ms. Buckley from Prospera Realty and Mr. Chris Desl from Baywood Hotels, before any major changes are approved by the city, again if allowable.

We are concerned, as we know neither of the buyers have any experience building, or operating a medical facility. If the zoning change is allowed and the buyers cannot obtain approval from AHCA, the land use will be changed forever.

We will respectfully send you and Bridget a list of further concerns that the residents have regarding this Agenda item since we currently do not see a location to upload items for public comment. You should have another correspondence on Monday from us

While the residents are open to an ALF being built, they strongly resist increasing the footprint to 11 DU per acre and rezoning to allow a 75-unit "apartment building" with parking variances, setbacks, and other requests as well as outbuilding

Our group is striving to keep the 1,000-plus residents, that have petitioned against this zoning change, organized to prevent overwhelming the city with individual comments.

We hope that you will add our past and future correspondences to the comments for both Agenda Items for this project, I know we have sent the City Council, and the planning and Zoning Board quite a few emails

We recognize your responsibility to represent the owner's interests, but please do not overlook the voices of the neighborhood residents. Many feel as if they are unrepresented and have no voice within our city.

Thank you for your understanding and consideration.

Sincerely,

The Residents of Sandpiper Bay and the Surrounding Community

Subject: P24-070 and P24-033 - Can you please add this to the documentation as concerned Residents

Requesting assistance from our City Council and Administration

Concurrency Determination – Transportation “Traffic Study”

We would like to respectfully ask if the Planning and Zoning Board would consider these options in relation to the proposed Traffic Study for Westmoreland Blvd and Morningside Blvd (Policy 2.1.2.2). We note that the residents respect the developers’ Property Rights under Ordinance 21-76 but maintain that this Ordinance is also relevant to the residents of the area and its community.

We are providing some documentation from the City’s Comprehensive Plan to assist with any

time involved in research.

Respectfully, we are requesting: The City utilize the developer's Traffic Study to also complete a CMS - 2 Tier Congestion Management Plan for the area prior to any approval of the development. We ask that this CMS be inclusive of the possibility that the Golf Course - formerly known as "The Sinners" may in the future be developed as a Multi-Level Residential site. This is unknown at this time.

We request that the City consider the effects on traffic during the buildout of the property and how to mitigate any travel restrictions during this time (Policy 2.1.2.9).

We also request (Policy 2.1.1.5) - That a new Review of Accident Data be initiated due to the 2 recent fatal accidents on Westmoreland Blvd in the past month.

We are requesting the location of ingress and egress for the proposed development to determine relevant traffic on the collector roadways (Policy 2.1.2.3)(Policy 2.2.1.2).

Vicinity map showing transportation routes to be impacted by the development; inclusive of the need for U-Turns or one-way ingress or egress.

Traffic from the development expressed in terms of current average daily traffic along with directional distribution (D factor), peak hour demand (K ratio) and percentage of trucks to include projected School Buses and estimated Emergency Medical vehicles (T factor), in the traffic stream.

Inclusion of the roundabout located at Westmoreland and Morningside with regard to its functional capacity and safety and operation relative to the sum of the traffic study results.

Effects upon Sidewalks and Bike Pathways along both collector Roadways - and any proposed developer plans to add or make modifications to these items (Policy 2.1.2.13)(Objective 2.1.4)(Objective 2.2.1)(Policy 2.2.1.1)(Objective 2.3.1)(Policy 2.3.1.4)(Objective 2.3.2)(Policy 2.3.2.1 -To protect our School Children that do not ride a bus or walk home).

Any Growth Projections expected if the project development will not be completed within 2 years.

Projected 10-year Average Daily Traffic Pattern/s after completion of the project.

Inclusion of the existing failure of the roadways along Westmoreland Blvd as well as Morningside due to current traffic volume (Objective 2.1.2)(Policy 2.1.2.11) - with potential impact on the collector roads related to the projected Average Daily Traffic Sum and its impact on the Ten-Year Repaving Master Plan.

Potential Impact on future City-Owned Transportation Services - once an Increased City-Wide Shuttle / Bus system is established to routinely service this area - Currently most Routes are along US1 but due to population expansion this may be subject to change (Policy 2.1.4.3)(Objective 2.2.2)(Policy 2.2.2.2)(Policy 2.3.3.2). This may be more relevant due to the type of Buildout that is anticipated

Comparative analysis of the existing City's Comprehensive Future Use Plan - Transportation Element relative to the proposed traffic study.

<https://www.cityofpsl.com/home/showpublisheddocument/1326/637453811014630000>

City's Comprehensive Study published 2020 - Data Collected Fall/Winter 2019/2020 *Note: Data Collection may have been significantly impacted due to the Pandemic and limits of travel during this time.

WESTMORELAND BLVD MORNINGSIDE BLVD to PORT ST LUCIE BLVD

AADT- 13,000 - (peak hour capacity = Mornings V/C- 0.787 Evening V/C 0.838)

+

WESTMORELAND BLVD MARTIN C.L. to MORNINGSIDE BLVD

AADT - 9,700 (peak hour capacity Morning V/C 0.621 Evening V/C 0.687)

2017 Study MORNINGSIDE BLVD WESTMORELAND BLVD to PORT ST LUCIE BLVD

AADT - 2,654 - *As this development will be West of Westmoreland Blvd - We would request the traffic study to be inclusive of the defined - roadway Morningside Blvd from Wiltshire Terrace to SE Port Saint Lucie Blvd - This will provide the ability to better determine the effects on the Zone A evacuation route of Morningside Blvd from SE River Vista Drive to Westmoreland Blvd. Please note that Morningside Elementary is a Secondary Evacuation Shelter.

This will also assist in evaluation of the traffic increase due to the increase in Student attendance at the schools along Morningside Blvd.

Although not officially part of the Transportation Review - We request the Setback distance and proposed height of the structure to be located along Westmoreland Blvd - We ask this for review to determine any field of vision obstruction which may lead to an unintended traffic hazard (Policy 2.1.2.4)(Policy 2.3.3.7).

Although not part of this Traffic Study, we respectfully ask the City consider the effects upon Port St Lucie Blvd - Especially from the intersection of Westmoreland/Veterans Pkwy to East and West of the intersection - Adaptive Signalization is in place yet the roadway remains very congested during Peak Hours.

Respectfully

The Residents of Sandpiper Bay and The Surrounding Communities

Do you have in your hand the petition list as a backup to the Zoom meeting. If the city sent out letters for comment to 750 property owners, what is the timeline to receive them back. If they are not back and tabulated, then there should be no discussion at tomorrow's meeting. You should have your tabulation at the ready.

There are other items on the agenda that could have an impact on Sandpiper Bay.

It is a shame that we don't have proper representation from the SBC.

Subject: URGENT: Potential Evacuation Route Obstruction for Proposed Assisted Living Complex
Date: Thursday, October 17, 2024 8:28:46 AM

Subject: URGENT: Potential Evacuation Route Obstruction due to Proposed Assisted Living Complex

Dear Director of Emergency Services - Mr. Guerrero,

I'm writing to urgently bring to your attention the proposed Assisted Living Complex in Port St. Lucie, referenced as Agenda Item P24-070 and P24-033 for the Planning and Zoning Board, as well as the City Council's future Agenda

The site is located around and behind the Max Gas station at 2780 SE Morningside Blvd, Port St. Lucie, FL 34952.

Residents are gravely concerned, as the facility will obstruct the only evacuation route available to approximately 3,000 residents, 375 employees of the Sandpiper Bay Resort (formerly Club Med), potential hotel guests, and potentially another 5,000 residents who may need to use Morningside Blvd if flooding blocks access to areas east of the development.

The neighborhood narrowly avoided disaster during the recent Hurricane Milton Tornado, with one tornado hitting less than half a mile from the proposed site, further continuing on to cause significant damage and deaths to elderly residents of the nearby Spanish Lakes Complex.

Residents are urgently requesting your review of the evacuation plans for this area. Over 900 to 1000 residents have already Voiced their concerns to the Port St. Lucie Planning and Zoning Board and City County Council but have yet to receive a response.

This site plan is up for review on Wednesday, October 23rd. Making this an urgent matter for review.

The evacuation of a 375-patient/resident facility is a major undertaking, and we urgently need your help.

Thank you for your prompt attention to this critical matter.

Sincerely,

The Residents of Sandpiper Bay and the Surrounding Communities

Subject: RE: traffic
Date: Wednesday, October 23, 2024 1:28:27 PM

Just general increase in traffic will make both streets busier. When the crosstown bridge was opened it was to cut PSL Blvd by 40% Normal growth has brought the traffic back to where it was. One way to slow down the volume of traffic using Westmoreland is to have the traffic light at PSL not allow a turn until the full traffic is allowed to move. People use the curb lane in order to beat the lights. I can explain this better in person.

I would bet that Mr Ryan's task is to get the zoning changed as part of his buy/sell agreement. I have been in the legal trade all my life and I have never heard that if land is contaminated that it can be used until it has been made safe.

It is too bad that the Sandpiper Bay Community has fallen adrift of the needs of the members/property owners. There want not one board member at last night's meeting.

This must change!

Barry

hobe sound for Sept 24th but the owner did not respond to the letter

DEP - A complete Phase 2 soil study was not done on the property - only testing for minor hydrocarbons. The study did not include the "multiple " other toxins found on the abutting property - DEP recommends an extended survey and can provide funds to clean up the site.

Building codes

§ 158.110. Institutional Zoning District (I)

Maximum Building Coverage: Thirty (30%) percent; provided that the combined area coverage of all impervious surfaces shall not exceed eighty (80%) percent.

At 30 percent of 7 acres, this only allows for 2.1 buildable acres for all of the development.

§ 158.235. Purpose

It is the intent and purpose of the site plan review process to ensure the proper construction of on-site and off-site improvements consistent with the rules and regulations of the City and good design principles.

Ensure proper and necessary on-site and off-site public improvements are available to serve the development, including potable water, wastewater treatment, roads and streets, recreation facilities, drainage, and the like.

Ensure the health, safety, and welfare of the general public.

Ensure all development is constructed in a manner to protect and maintain a sound manmade and natural environment.

(Ord. No. 98-84, § 1, 3-22-99)

§ 158.221. Off-Street Parking and Lighting; Handicapped Parking Spaces

C- point 22) Assisted living facility:

One-half (½) space per dwelling unit, plus one space per each employee per shift.

One parking space per independent living unit.

7 - Dwelling - Multi Family

Dwelling, multiple family (Duplexes, townhouses, garden-style flats, apartments, or condominiums):

Dwelling with one-car garage: Two (2) exterior parking spaces.

Dwelling with two-car (or more) garage: One (1) exterior parking space.

Dwelling with no garage: Two (2) spaces per dwelling unit with two (2) or more bedrooms. One and one-half (½) spaces per dwelling unit for one (1) bedroom or efficiency apartments.

Guest parking: At least one (1) guest parking space shall be provided for every five (5) units.

C-14 Office (administrative, business, medical, or professional. Retail shops, personal service establishments, household repair or equipment shops)

One (1) space for each two hundred (200) square feet of gross floor area for buildings under thirty thousand (30,000) square feet.

One space for each two hundred fifty (250) square feet of gross floor area for buildings thirty thousand (30,000) square feet and greater.

G - Off-Street Loading and Service Facilities

An off-street loading space shall be an area at the grade level at least twelve (12) feet wide, twenty-five (25) feet long.

2. Public Safety Concerns
Evacuation
4. Infrastructure Limitations -
Already over used - cannot determine proper access to the site -
Ingress and Egress
8. Public Services
Increases need for public services in turn increases local taxes
5. Community Character
3 Story Multi Family Institutional facilities are not consistent with
the character of this subdivision
6. Economic Impact
9. Community Opposition
Petition of over 960 Current Residents of the neighborhood
10. Soil Erosion
Paving and making the land impervious will increase the run-off into
the surrounding Wetlands that ultimately ends in the St Lucie River highly prone to
alge
2. Water Runoff
Flooding of the area is already a concern for the neighbors
5. Wildlife Corridors -
reduces biodiversity of the wildlife and
9. Social Cohesion -
higher-density housing could disrupt the social fabric and sense of
community in the area.
10. Economic Displacement -
Higher Density Housing built in residential areas lowers residential
area property values
11. Increases Property Insurance Cost - as noted from the Brookings Institute
Insurance companies generally increase property taxes due to
Higher risks during disasters, Increased chance of
accidents, Lower access to EMS, Decreased life expectancy of the infrastructure,
potential for large scale claims

As per SFWMD - Contacted Last week - the Delineation of the Wetland has not been completed - Hobe Sound stated it did not need to be done as they state the area was limited in size but SFWMD Scheduled an onsite meeting between SFWMD the owner and

Dear Agent or Applicant:

The District received a partial response to the Request for Additional Information (RAI) dated September 10, 2024 for the above referenced application, a copy of which can be found on the District's RegPermitting website at: www.sfwmd.gov/regpermitting.

In accordance with Section 40E-1.603, Florida Administrative Code (F.A.C.), and additionally for Environmental Resource Permit (ERP) Applications, Section 5.5.4 of the Applicant's Handbook (AH) Volume I (Vol. I), adopted by reference in Section 62-330.010(4)(a), F.A.C., please be advised that review of the application will not resume until a substantive response to each comment is received. The application's status will remain as "No Response" until such time as a full response is received, including payment of any outstanding application processing fee.

Please provide a full response to the District's RAI. If you have any questions or comments, please contact Jessica Huffman at (863) 462-5260 x3018 or via email at jhuffman@sfwmd.gov.

Sincerely,

Regulation Division
South Florida Water Management District

c: Mike Ryan , Rivella Development LLC *

Subject: Serious Concerns Regarding Westmoreland and Morningside Zoning Change
Date: Friday, October 25, 2024 11:04:04 AM

Dear Ms. Kean,

I am writing to express my deep concern about the proposed zoning change for the development on Westmoreland and Morningside. While I recognize the potential benefits of development, this project raises multiple, substantial issues impacting our community's health, safety, and quality of life.

Firstly, the urgency with which this zoning change is being pushed through is troubling. Expediting this process without addressing the substantial concerns raised by the community suggests a disregard for necessary due diligence. Moving this issue swiftly from the Site Review Committee to the Planning and Zoning Board—and soon after to the City Council—raises questions about whether community voices are being considered.

The development's location has several critical challenges that remain unresolved:

- 1. Environmental Impact:** This area includes wetlands and has known toxicity issues that must be adequately studied. How will these ecological concerns be addressed, and what measures will protect the existing ecosystem and public health?
- 2. Evacuation and Safety:** Westmoreland and Morningside are not equipped to handle the increased evacuation needs a large-scale development would demand in case of emergencies. Has an evacuation and safety study been conducted, and if so, what were the findings?
- 3. Infrastructure Strain:** The current infrastructure is already strained. Adding further development will exacerbate road wear and tear, increase traffic congestion, and further degrade public utilities. What concrete plans exist to support this infrastructure if the zoning change is approved?
- 4. Community Transparency:** Many residents were unaware of the proposed changes, and this lack of transparency is unacceptable. Meaningful community engagement must be prioritized, and all concerns must be carefully considered before any final decisions are made.

Please delay any final decision until these issues are fully addressed, with all reports and findings transparently shared with the public. This

development's long-term impact on our community must not be underestimated, and I urge the Board to prioritize our community's welfare and safety.

Thank you for your attention to these critical issues.

Sincerely,

Nadia Jastrjemskaia, PhD
