Subject: RE: Trail Powerpoint provided by Del Web residents

Teresa:

I will be prepared to provide a progress update on the collective efforts being made by Mattamy, Pulte and the Del Webb Trail Committee on Monday to Council. As you are aware, this presentation and the concerns of the Del Webb residents regarding the future implementation of Tradition Trail are not specific to any of the applications on the special meeting agenda.

We formally object to the addition of information on a specific agenda item that is not related or specific to that agenda item/ application that is being considered.

The presentation that staff is choosing to add is regarding an active issue unrelated to the specific application and does not have any content within it that is pertinent to the application.

This objection also applies to it being included in any other items on the Special City Council meeting , September 26,2022 agenda.

We are not opposed to the presentation being provided to Council and I can confirm that it is the presentation that was made to both Mattamy and Pulte on September 15, 2022 in which all parties agreed to allow Mattamy adequate time to review and provide a response back.

Steve and Tony,

Wanted to provide you a heads up that this presentation will be attached to item 6a.
