**Subject:** Cell phone tower in St. Lucie Trail golf course

Good afternoon,

My husband and I live on the 3rd green of St. Lucie Trails Golf Course. We understand that there is a proposal to put a cell phone tower near the maintenance area of the golf course.

We are against this proposal. After researching the dangers of radiation generating from these towers, we would prefer the tower be placed somewhere else.

Thank you.

Kathi and Don Orgek

**Subject:** Presidential Cove Country Club Estates

Hi Bridget my name is Cherie Parker I live in Presidential Cove St. Lucie West. I have a concern on the wireless communication antenna and tower they are putting on the golf course here. This is a residential area and many people can be affected by it. Not only health but property values. It was my hope they could move it back as not to effect so many people, or move it all together. I understand the chances are slim. Is there any advice you may have? Greatly appreciate it. Thank you Cherie Parker cparkermidhudsonlawn@hotmail.com

Dear Ms. Bridgette Kean

We strongly urge you + your Staff to  
reconsider this proposed Antenna / Tower  
To Be placed / moved to a "less  
Densely" populated area in PSI.

This is an attack on us tax paying  
residents who #1 pay alot in  
property taxes already. I am sure  
as we do see alot of <sup>open</sup> space further  
East that can handle this transmissi  
Tower. Please we strongly "disapprove  
of this tower in this already over  
populated area in PSH. Your help  
in this matter is strongly urged. P.S.  
I already have a Handicapped daughter!

**Subject:** Wireless Communication Antenna and Tower

Hello Ms. Kean,

We received the zoning boards notice regarding the application for special exception to install a wireless communication antenna and tower on the property located at 460 Utility Drive. We own a property within the circle on the property map, 430 SW Monroe Drive.

We'd like to know if there is a picture of the tower that they are desiring to construct and whether there are any plans to camouflage the tower. While driving from our house to Jenson Beach we notice a tower that was camouflaged to look like a large pine tree. Are there any plans to install the tower with materials that would help it blend into the surrounding area?

If not, we would be opposed to it's instatation.

Thank you,  
Joyce and Gerald Dunn

**Subject:** MICROWAVE TELECOMMUNICATIONS TOWER

To whom it may concern,

We are vehemently opposed to the installation of this Microwave Telecommunications Tower directly across from our homes here in Port St Lucie West.

It is quite unfathomable that you would even think about putting something like this so close to a HEAVY populated residential area in port Saint Lucie West. Dont let palm tree cover along these developments fool you! This area is Jam packed full of homes/ Residences in this psl West location!! It doesn't make any sense since we pay very high Property Tax just to live in Port Saint Lucie WEST. How much more do you want to take advantage of us residents??

Since there is plenty of OPEN -more COMMERCIAL space, just going down further "EAST" in port Saint Lucie, it will make for a better place for these issues.

We are "pleading" with you to Consider a further Easterly location. This would make completely better sense.

I have a child that is handicapped challenged and I do not need more to worry about as he needs us around to take care of him.

We Urge the City of Port Saint Lucie to be more considerate of of us hard working, tax paying residents who help support you and your city and are trying to live a better and safe life in Western PSL.

PLEASE, PLEASE look for a more suitable Location to put this Telecommunications microwave emitting Tower.

Thank you.
