Planner Daniel Robinson stated that there was a concern about how much of the site needed to be changed for everything to be met, noting that there were parking spaces and islands that were too small. Mr. Missimer stated that they were going to make the islands wider, but that most of the islands and all of the parking spaces meet code requirements so there would not be any major changes to the layout. Mr. Robinson inquired about the spaces labeled as EV vehicles, to which Mr. Missimer replied that they were in the row of the golf carts, and that they had charging stations for those golf carts. Mr. Robinson suggested adding a label to ensure clarity, to which Mr. Missimer responded in the affirmative.

John Kwasnicki, Public Works, stated that the area in front of the circle had not been satisfied. Mr. Robinson stated that he would not be opposed to moving forward with the condition that all comments are to be met, and that it would need to be brought back to the Site Plan Review Committee if there was any major change to the entire parking lot.

There being no further discussion, Mr. Glover **moved** to recommend approval for the Major Site Plan of P25-149, Wilson Groves, Parcel "A", Plat 1, Amenity Center, Resubmittal Major Site Plan, Construction Plans, with comments being addressed, and approval of the Construction Plans with all comments being addressed. obtaining conditional approval from the SPRC, to which Planner Marissa Da Breo-Latchman responded in the affirmative, stating that they would need it to reference the book & page number. Mr. Yates stated that Public Work's comment indicated that a draft would be required at this stage before any permits were issued. Ms. Da Breo-Latchman stated that they had received the draft through Fusion earlier that day, and Chair Cox stated that they would need to send it to the Legal Department for review, but it would need to be sent to everyone so that staff had time to review it.

Planning & Zoning Director Mary Savage-Dunham stated that the concern was to allow for all to review, and she recommended tabling the item to get the reviews completed. Ms. Pannozzo requested an approval so that they would not have to wait additional months, and she inquired if there was anything that they could do. Ms. Savage-Dunham suggested an approval with conditions, to which Mr. Yates and Mr. Rodgers were in favor.

Deputy City Attorney Russell Ward inquired as to whether the condition would be for approval of the project subject to all comments being addressed and subject to the satisfactory legal approval of the document, to which Chair Cox replied that the condition would be for approval of the draft and the recording of the document prior to issuance of a site work permit. Clyde Cuffy, Public Works, stated that they were in favor of that recommendation, and he noted that the condition should include parking, cross-access, and drainage, and that there was also some irrigation that would be affected when the future parcel to the south gets developed, so the agreement should also incorporate this. Kaitlyn Larrivee stated that there was also a utility access easement, and John Lamb, Utilities, stated that this also needed to go forward for the Church applicant to the south.

There being no further discussion, Ms. Majewski **moved** to approve P25-167, Extreme Dance Company, Resubmittal, Minor Site Plan, Construction Plans, with the following condition: An agreement to incorporate future drainage parking, shared parking, cross-access agreement, irrigation for the south parcel, utility easement, and anything else that has to come in with the adjoining property.
