- ### Notes:
- All models shall be dry model units with water service for sales center bathrooms coming from a temporary meter and service.
  - Hazardous waste disposal shall comply with all federal, state and local regulations.
  - All landscape areas abutting vehicular use areas shall be curbed or protected by curb stops.
  - All building, parking and access areas shall document compliance with the requirements of the American Disabilities Act prior to the issuance of a building permit.
  - Soil erosion and sediment control devices shall be in place prior to the commencement of construction activities.
  - Landscaping shall be in accordance with the requirements of chapter 153 of the landscape code of the City of Port St. Lucie.
  - No landscaping other than grasses shall be located within 10' of a City utility line or appurtenance. All other utilities shall be a minimum of 5' horizontal separation from City utility mains for parallel installations and a minimum 18" below City mains. (All measurements are taken from outside to outside.)
  - No landscaping shall be placed in a manner that would create conflicts with the intended operation and maintenance of any existing utility.
  - This application is not vested for any municipal fees. All fees are calculated at time of payment. This includes specifically impact fees, upland preserve fees and any administrative review fees for City Departments. No fees are vested based on date of City Council approval.
  - Signs are not part of this review and shall be permitted separately from this application. (See Chapter 155 (Sign Code) City of Port St Lucie Land Development Regulations.)
  - The property owner, contractor, and authorized representatives shall provide pickup, removal, and disposal of litter within the project limits and shall be responsible for maintenance of the area from the edge of pavement to the property line within the City's right-of-way in accordance with City Code, Section 41.08 (g).

### Traffic Statement

The proposed Sales Center is designed to include 13 temporary parking spaces to accommodate more than the maximum number of patrons that have been seen during peak hours at similar sites. The entrance to the parking lot is internal to the site to avoid stacking into public right of way.

### Drainage Statement

Model Park: The stormwater for this project is part of the overall Southern Grove Drainage system permitted under ERP #56-100997-P issued by SFWMD. The proposed impervious area for the temporary parking lot is less than the proposed impervious area for the lot when the home site is built. The parking lot has been designed to be higher than the 10yr - 24hr storm elevation.
