We do not want this equipment placed on this property , because it will devalue our community. It is easy to assume that because only a fraction of our residents responded to the complaint that 75% of residents do not care. Instead you should consider that is because many older residents are not computer savvy . The disdain shown by the developer's representatives towards our community should be enough to give the city a pause. This property is a shining star in Saint Lucie West, please keep it that way.

Please, please do not approve their request, thank you in advance.
