Project Description

This is a request for approval of the Cashmere Residential Townhomes Planned Unit Development rezoning. The request is to rezone approximately nine (9) acres of property from General Commercial (CG) to Planned Unit Development (PUD). The proposed includes a PUD development agreement and concept plan proposing a 72-unit townhome project with passive recreation, amenities, water management, and other supportive infrastructure improvements.

The Property is vacant and has never been developed. As background, in February of 2007, the City approved a site plan consisting of a mixed-use commercial project comprising approximately 70,806 square feet of office space and 37,116 square feet of retail space (107,922 total square feet of commercial space) in five (5) buildings ranging from two (2) to three (3) buildings. Said approval was amended in August of 2007 to address phasing, buffering and conditions. The approved commercial project was never constructed.

Concurrently with this application, the Applicant has submitted applications to the City of a Future Land Use Map Amendment and an amendment to the St. Lucie West Development of Regional Impact (the “DRI”) to change the land use designation of the Property from Commercial General (CG) to Medium Density Residential (RM) in support of the PUD application.
