Bridget Kean, Senior Planner stated that the official City file was submitted to the City Clerk's Office 5 days before the meeting to be entered into the record. She explained that the application was a City-initiated application for an amendment to the Tradition Commerce Park North Master Planned Unit Development (MPUD). Tradition Commerce Park North MPUD is approximately 486.85 acres that is located south of SW Discovery Way, east of SW Village Parkway, west of Interstate 95, and north of the E/W No. 3 road right-of-way in the Southern Grove Development of Regional Impact (DRI). In 2018, the Port St. Lucie Governmental Finance Corporation (GFC) acquired approximately 1200 acres of land within Southern Grove from the Tradition Land Company, LLC. It included Tradition Land Company, LLC's, holdings within the Tradition Commerce Park North MPUD. GFC's entitlements in Southern Grove include multi-family residential development, hotel rooms, retail, office, industrial, and research and development use. The proposed amendment to the Tradition Commerce Park North MPUD expands the permitted uses in the MPUD to provide for these entitlements. The amendment also includes revised development standards, updated exhibits, and other miscellaneous

changes. Ms. Kean stated that the development in the Tradition Commerce Park MPUD would be required to comply with all applicable conditions in the Southern Grove DRI Development Order. The property is located within the Southern Grove Expansion Area of the City of Port St. Lucie Community Redevelopment Area. A component of the Community Redevelopment Plan for Southern Grove and the DRI is the development of a multipurpose path known as the Tradition Trail, which runs through this property. The trail is shown on the attached concept plan and will be developed as CRA funding permits.

She explained that it was an annual assessment and it appeared on the non-Ad Valorem portion of the tax bill. Ms. Sorenson stated that the rate was increased due to St. Lucie County increasing disposal fees for refuse and yard waste. Councilman Carvelli clarified that the disposal fee increased approximately \$13, to which Ms. Sorenson responded in the affirmative. Mayor Oravec inquired as to how long the rate remained at \$268.91, to which Ms. Sorenson responded that the rate was 268.36 since 2012. He suggested adding the level of service of trash collection to the Citizen's Survey and explained that the fee was based on tonnage, not the number of pick-ups. costs more to run it than the amount they receive back. Carmen Capezzuto, Neighborhood Services Director, explained the new Revenue Agreement with St. Lucie County and Waste Pro. Councilman Carvelli explained to the residents that if they had concerns regarding their property tax bill, then they need to speak with the Property Appraiser's Office. There was a NET increase of \$13/annually, which was for Solid Waste Disposal. Councilwoman Morgan asked the amount of the current rate, the proposed rate, and the tipping charge, to which Mr. Capezzuto responded that Waste Pro's rate was decreased by .80 cents per house. Mayor Oravec explained the different processes the City used to collect the resident's opinions. Councilman Carvelli suggested using layman's terms when sending City-wide letters, allowing the residents to fully understand the changes. Mayor Oravec stated that he was not happy with Waste Pro's level of service and asked if the fine the City charged Waste Pro could be given to homeowners whose trash wasn't picked up, to which the City Attorney responded that it would be determined by the language in the contract, as they were operating under a franchise agreement with the City.
