If such inspection shows that the required material has been delivered and required work performed in accordance with terms and conditions of the Contract documents and that the material and work is entirely satisfactory, the Project Manager must approve the invoice when it is received. Thereafter the Consultant must be entitled to payment, as described in Section VI. If, on such inspection the Project Manager is not satisfied, he must as promptly as practicable inform the parties hereto of the specific respects in which his findings are not

favorable. Consultant shall then be afforded an opportunity to correct the deficiencies so pointed out at no additional charge to the City, and otherwise on terms and conditions specified by the Project Manager. Such examination, inspection, or tests made by the Project Manager, shall not relieve Consultant of its responsibility to remedy any deviation, deficiency, or defect.

Authority - The Consultant(s) are hereby informed that City inspectors are not authorized to alter, revoke, enlarge, or relax the provisions of these specifications. They are not authorized to approve or accept any portion of the completed work, or instructions contrary to the specifications. All rejected materials that have been corrected shall not be used until the City has issued written approval to the Consultant(s). Without unnecessary delay and without any additional cost to the City, all work that has been rejected shall be remedied or removed and replaced in a manner acceptable to the City. If the Consultant(s) fails to promptly remove and properly dispose of rejected materials and/or work then replaces same immediately after being notified to do so, the City, or his/her designee, may employ labor to remove and replace such defective work and/or materials. All charges for replacement of defective materials and/or work shall be charged to the Consultant(s) and may be deducted from any moneys due to the Consultant(s) or his Surety.

Deductions - In the event the City deems it expedient to perform work which has not been done by the Consultant(s) as required by these Specifications, or to correct work which has been improperly and/or inadequately performed by the Consultant(s) as required in these Specifications, all expenses thus incurred by the City, in the City's option, will be invoiced to the Consultant(s) and/or may be deducted from payments due to the Consultant(s). Deductions thus made will not excuse the Consultant(s) from other penalties and conditions contained in the Contract.

SECTION XVIII **ADDITIONAL REQUIREMENTS**

In the event of any conflict between the terms and conditions, appearing on any purchase order issued relative to this Contract, and those contained in this Contract and the Specifications herein referenced, the terms of this Contract and Specifications herein referenced shall apply. The Consultant shall thereafter proceed as authorized by the Project Manager who will document any modification to these specifications that he authorized in writing as soon as possible.

Permission to Use - The Consultant(s) shall permit any portion of the new work, which is in suitable condition, to be used by the City for the purpose for which it was intended, provided such use does not hinder or make more expensive the work still to be done by the Consultant(s).

Access to Work - The Consultant(s) must be responsible to permit the City, its inspectors, and other authorized representatives of the City to have access to all parts of the work, and to all materials intended for use in the work, and to all factories where such materials are manufactured, at all times. The above designated City personnel must be permitted during said access to remove materials and make such inspections, as they deem necessary. Materials submitted for approval will be inspected and passed upon as promptly as practical as will work in progress. However, failure to reject defective work at the time it is done and/or failure to reject materials must in no way prevent rejection at any time prior to final acceptance of the work authorized by the City.

Foreman or Superintendent and Workmen - The Consultant(s) shall at all times during progress of the work, have on site a competent foreman or superintendent with authority to act for him and to cooperate with the City and/or his/her designee. No claim for damages or any claim other than for an extension of time shall be made or asserted against the City by reason of any delays. Consultant shall not be entitled to an increase in the Contract Price or payment or compensation of any kind from the City for direct, indirect, consequential, impact or other costs, expenses, or damages, including but not limited to, costs of accidental or inefficiency, arising because of delay, disruption, interference from any cause whatsoever, whether such delay, disruption, interference or hindrance be reasonable or unreasonable, foreseeable, or avoidable. Consultant shall be entitled only to extensions of the Contract Time as sole and exclusive remedy for such delays, in accordance with and to the extent specifically provided herein.

Damage to Property – The Consultant shall preserve from damage all property along the line of work, or which is in the vicinity of or is in any way affected by the work, the removal, or destruction of which is not called for by the plans.
